Upon such dedication and conveyance, C.D.O.T. shall, in conjunction with the construction of the busway, provide decorative metal fencing along the western edge of the busway adjacent to Parcels 2 and 4, consistent with the Lakefront Protection Ordinance application for the Busway Project that was approved by the Plan Commission on March II, 1999.

9. Each year, no later than each anniversary date of the original adoption of this planned development (July 31, 1990), the applicant shall file an annual development report with the Commissioner of the Department of Planning and Development (the "Commissioner"). The report shall, at a minimum, contain the following information related to the property:

   (1) the number of square feet of construction completed, under construction or approved for construction, identifying also the type of use and location;

   (2) percentage occupancy of each structure;

   (3) construction/development anticipated within the following year;

   (4) status of all public improvements; and

   (5) traffic Mitigation Report which shall contain a report and analysis of traffic volumes and public transportation use upon the property in accordance with traffic analysis industry standards.

10. The applicant and the City anticipate the use of public funds or public financial participation for certain infrastructure improvements, which may include among other things, the Public Improvements described in Statement 11, within or in the vicinity of the property. Therefore, the City will use its best efforts, solely to the extent it deems appropriate, to evaluate the appropriateness of using public funds for the aforesaid Public Improvements. In the event that the City determines such public funding to be

appropriate, the City and the applicant will use their best efforts to cooperate in the consideration of entering into a redevelopment agreement or other agreement which will address the schedule and manner in which those public funds are to be used or public financial participation is to be applied and may also address other tax incentives from other governmental bodies and coordinate those programs with infrastructure improvements. Said agreement may also address implementation of public and private improvements, land acquisitions, dispositions, additional traffic mitigation activities and other matters related to the orderly development of the property so long as said agreement is not inconsistent with this planned development, the Guidelines or any approved Master Plans.

Notwithstanding the above, this does not constitute a public financing commitment by the City for any of the infrastructure improvements nor does it constitute a commitment by the City to execute any agreement for such funding.

The applicant shall be allowed to develop the property in accordance with all other applicable terms and provisions of this planned development, whether or not such a redevelopment agreement or other agreement is executed by the applicant and the City, or whether or not public funds or public financing participation of any kind is obtained or available.

Any infrastructure costs advanced by the applicant prior to an execution of the redevelopment agreement and prior to the granting of any forms of tax relief or tax increment financing shall not impair the applicant's eligibility to request such forms of relief from local, state or federal agencies or impair the applicant's ability to request reimbursement from said agencies for costs advanced by the applicant; provided however that such relief, reimbursement and requests are not in conflict with any applicable laws.

The applicant shall construct the townhomes along the east elevation of the building known as One Museum Park East at such time that the adjacent decks spanning the railroad tracks are constructed by the City of Chicago.

11. The property which is the subject of this planned development is a large tract of land located within the City's South Loop area and is currently partially improved. Some, but not all, Public Improvements and services (the "Public Improvements") such as roads, utilities and parks as hereinafter provided exist upon or near the property to serve the development contemplated by this planned development. The applicant and the City acknowledge that the development of the property contemplated by this planned development necessitates that Public Improvements must exist in order to accommodate the expected impact of such development on the public health, safety and welfare. The applicant further acknowledges that this planned development is adopted based upon the City's requirement that development of the property or portion thereof shall be allowed only if, and to the extent that, such development is accompanied by the necessary Public Improvements as provided for hereinafter.

The description of the Public Improvements necessary or appropriate in connection with construction or development upon the property, including the type, location and extent of such Public Improvements, shall be contained in the Master Plan applicable to the portion or portions of the property upon which the construction or development is to be undertaken. Master Plans shall be adopted for each of the following subareas: (1) Subarea A fee property; (2) Subarea B fee property; (3) Subarea C air-rights; and (4) the air-rights property of Subareas A and B. No application for Site Plan approval or for Part II Approval shall be granted until and unless the property subject to such application is contained within the boundaries of an approved Master Plan. Master Plans are intended to implement the provisions of this planned development and, following approval as provided herein, shall have the same force and effect as this planned development.

The Chicago Plan Commission shall be responsible for the review, approval or disapproval of Master Plans in the manner provided herein. Applications for Master Plan approval shall be filed with the Department of Planning and Development (the "Department") and the Department shall prepare and file a written report in accordance with the provisions hereof. The Plan Commission, as well as the Department, may adopt such rules or procedures as either finds appropriate to carry out their respective responsibilities under this planned development.

After submission of an application for Master Plan approval, together with all required documentation hereinafter described, a Master Plan shall be considered for approval by the Plan Commission in a public meeting. Such meeting shall be held only following: (1) the publication of adequate notice thereof in the manner provided for in Section 17-13-0107 of the Chicago Zoning Ordinance and (2) the filing with the Plan Commission of a written report prepared by the Commissioner which shall include the Commissioner's findings and recommendations with regard to the proposed Master Plan. The Commissioner's report, together with the Master Plan substantially in the form to be acted upon by the Plan Commission, shall be made available to the general public five (5) days before the Commission meeting. Said public meeting shall be held within ninety (90) days following the filing of a complete application for Master Plan approval. An application shall be complete when all materials necessary for review and approval have been submitted. The Commissioner or the applicant may elect to extend the aforesaid ninety (90) day period where appropriate providing that such extension period does not exceed thirty (30) days. The Commission shall make a determination within the time hereinabove prescribed or as may be extended. The City and the applicant shall cooperate to process the consideration of approval of any Master Plan in an expeditious manner. Failure of the Commission to make a determination within the time hereinabove prescribed shall be deemed a disapproval. The decision of the Plan Commission on a Master Plan shall be final.

Master Plans may include both narrative and graphic information. A Master Plan shall demonstrate the parameters for all future development within the boundaries of the Master Plan. Said parameters shall be arranged and depicted in such format and manner as the Commissioner reasonably determines to be appropriate in order to best facilitate the administration of the development approval of the subject property.

A Master Plan shall include a description of the following Public Improvements:

-- public roads and public roadway-related improvements, including without limitation, existing street widening, curbs, gutters, sidewalks, streetlights, street furnishings and appurtenances;

-- public transportation facilities, easements, rights-of-way, et cetera;

-- public and quasi-public utilities, including without limitation, electric, telephone, gas, other energy-related facilities, water supply, storm water runoff facilities, sanitary sewer, and all lines, circuits, connectors and facilities related thereto;

-- the availability by appropriate governmental agencies of police, fire, medical and emergency services and the facilities therefor, and public education and library facilities to service the planned development;

-- public and quasi-public parks and recreational areas and open spaces such as Daniel Webster Park, the south end of Grant Park, 15th Street Neighborhood Park and the platform deck/park above the Metra Property, as said parks are described by the Guidelines. The aforesaid parks and open spaces shall be constructed and dedicated to the Chicago Park District at such time as shall be provided by an approved Master Plan covering that portion of the property where such park is located. Other parks and open spaces shall be constructed and where appropriate, dedicated to a public entity as shall be provided by the applicable Master Plan.

A Master Plan may also:

-- describe the type, amount, extent and location of construction or development of the property which may be conditioned upon the completion and availability of specified Public Improvements;

-- require that the construction and installation of such Public Improvements shall be in accordance with all applicable laws, including the requirements and standards of any affected public agency; and

-- require that the owner of the property upon, under, over or across which such Public Improvements or services may be constructed, installed or maintained shall dedicate such property or grant such easements and licenses to the public as may be necessary or appropriate in connection therewith.

The information and documentation contained within a proposed Master Plan shall, at a minimum, address each of the following considerations:

(1) Site Conditions:

(i) Utilities.

(ii) Grading/Drainage.

(iii) Easements and Rights-of-Way.

(iv) Development parcel boundaries/ layout of blocks and street grid.

(2) Use Controls:

(iv) Shadow Zones.

(v) Floor Area Ratio.

(6) Public Open Space:

(i) Size.

(ii) Location.

(iii) Character.

(iv) Overall Ratio of Public Open Space as determined by the Guidelines.

The Plan Commission shall approve any Master Plan if the Commission finds the following:

a. the proposed Master Plan is consistent with the Guidelines and this planned development; and

b. after giving due consideration to the Guidelines contained in Section 17-13-0609 of the Chicago Zoning Ordinance, the proposed Master Plan would have no adverse impact on the public health, safety or welfare; and

c. the proposed Master Plan conforms with the fourteen (14) basic policies and the thirteen (13) basic purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance.

No Master Plan shall be approved unless the applicant and the subject property are in compliance with the provisions of this planned development, including but not limited to all other previously approved Master Plans, Site Plans or Part H Approvals or any agreements entered into with the City as part of or in furtherance of this planned development. Following Master Plan approval, Master Plans shall be kept on permanent file with the Department of Planning and Development.

No Part II Approval or occupancy permits shall be granted or issued unless the Public Improvements specified in the proposed Master Plan as necessary or appropriate to accommodate such construction or development are in place and available for use or are otherwise committed and in compliance with a schedule for commencement and completion as specified by the Master Plan.

12. The total number of square feet of development permitted under this planned development has been fixed based upon the applicant's commitment to a program which promotes the use of public transportation facilities in preference to the use of private automobiles as reflected in the Guidelines. The Master Plan shall provide, if and when appropriate in connection with development of all or any portion of the property, as and when such portions are developed, that the applicant shall:

a. Dedicate such property and grant such easements and licenses to the public as may be necessary, appropriate and reasonable to accommodate the expansion of public

transportation facilities through or within the boundaries of the property, if the location and operation of such facilities are consistent with the Guidelines.

b. Construct or cause the construction of public bus facilities where appropriate and reasonable; provided that appropriate public agencies have reasonably demonstrated that a need for such facilities exists in connection with the subject development. The foregoing shall include bus turnaround areas and bus shelters, where appropriate, in order to enhance and extend public bus service throughout the property; provided, however that applicant shall not be obligated to provide more than five (5) bus shelters.

c. Provide or cause the provision of express bus service between Union Station and Northwestern Station to and from the property during A.M. and P.M. rush hour periods when office development upon the property has exceeded two hundred fifty thousand (250,000) square feet unless the applicant reasonably demonstrates that a sufficient demand for such service does not exist and such services shall be provided and/or restored when and if such demand occurs or reoccurs.

d. Establish and maintain a transportation management program within two (2) years of the approval of Master Plan II, unless otherwise determined by the Department of Transportation and the Department of Planning and Development. The intent of such program shall be to reduce the use of private automobiles by employees and customers travelling to and from the property. Such a program shall, at a minimum, include the following:

    (i) Creation of a traffic management association or similar organization, whose purpose will be to implement a traffic management plan for the office, retail and commercial development portion(s) of the property utilizing the following devices:

        -- all owners or tenants of property containing office, retail or commercial space will be required to maintain membership in this association and may be assessed to support said association.

        -- the association will retain a Transportation Coordinator either as an employee or as a consultant.

        -- the association and the Transportation Coordinator shall design and implement the traffic management program (taking into account all development within the property boundaries) working with all appropriate groups, including on-site owners, tenants and residents.

        -- thc association will report in the form of a Traffic Mitigation Report on the condition and characteristics of the plan and related programs to the appropriate local governmental body or designated agency on a regular basis but at least annually.

(ii)

- implementation of a ride-sharing program for employees.
- implementation of programs for car-pooling or van-pooling.
- implementation of a transit service awareness program which promotes the use of the public transportation.
- implementation of a program to encourage and accommodate non-motorized commuting (bicycle and pedestrian).
- promotion of 'variable working hours" programs among the Various employers at Central Station as feasible.
- provision of transit services.

In connection with the development of Parcel 2 located in Master Plan II, the Applicant shall:

(i) Dedicate such property, grant such easements and licenses to the public or Metra as may be necessary or appropriate and reasonable to accommodate the relocation of the existing Metra station to a location proximate to West Roosevelt Road as contemplated by the Guidelines.

(ii) Make provision within a building to be developed on the property in the vicinity of West Roosevelt Road as contemplated by the Guidelines, for an uncompleted "shell" space which is capable of accommodating complete construction by Metra or others of facilities for the installation and operation by Metra of a newly relocated Metra station.

13. Following Master Plan approval as provided above, all Site Plans for proposed development within the area covered by the applicable Master Plan shall be submitted to the Commissioner for Site Plan approval. Site Plan approval is intended to assure that specific development proposals conform with the applicable approved Master Plan and with this planned development and to assist the City in monitoring on-going development. No Part II Approval shall be granted until an applicable Site Plan has been approved.

If said Site Plan substantially conforms with the applicable approved Master Plan and with the other provisions of this planned development, the Commissioner shall approve said Site Plan and shall issue written approval thereof to the applicant for such Site Plan approval within sixty (60) days of submission of the completed application. If the Commissioner determines within said sixty (60) day period that the Site Plan does not substantially conform with the applicable approved Master Plan and with the other

provisions of this planned development, the Commissioner shall advise the applicant for such Site Plan approval, in writing, regarding the reasons for such adverse determination. The Commissioner shall thereafter review any resubmission within fourteen (14) days and make his or her final determination, in writing, to the applicant for such Site Plan within said period/failure of the Commissioner to make a determination within the time hereinabove prescribed shall be deemed a disapproval. Following approval of a Site Plan by the Commissioner, the Site Plan shall be kept on permanent file with the Commissioner and shall be deemed to be an integral part of this planned development.

Changes or modifications to Site Plans may be made after approval of the Commissioner, so long as the Site Plan, as so changed or modified, substantially conforms with the approved applicable Master Plan and with the other provisions of this planned development. In the event of any inconsistency between an approved Site Plan or any permitted modifications thereto and the terms of the Master Plan in effect at the time of approval of such Site Plan or of the modification thereto, then the terms of the Master Plan shall govern.

A Site Plan shall, at a minimum, provide the following information:

- boundaries of development parcel or parcels;
- building footprint or footprints;
- building facade elevations and heights;
- dimensions of all setbacks;
- location and depiction of all parking spaces (including relevant dimensions);
- location and depiction of all loading berths (including relevant dimensions);
- all drives, roadways and vehicular routes; all landscaping (including species and size);
- all pedestrian circulation routes and points of ingress/egress (including sidewalks);
- all site statistics applicable to the development parcel or parcels including:
    - F.A.R. floor area and floor area ratio as represented on submitted drawings;
    - lot coverage as represented on submitted drawings;
    - number of parking spaces provided;

- number of loading berths provided;
- uses of development parcel;
- grading plans for restricted development zones and Parcels 2 and 4 located within Master Plan II.

A Site Plan shall include such other information as may be necessary, including a traffic study if so requested by the Department of Transportation, to illustrate conformance with the applicable approved Master Plan and with the other provisions of this planned development.

14. The property is subject to certain of the provisions of an ordinance passed by the City Council of the City of Chicago on July 21, 1919 entitled "An Ordinance For the Establishment of Harbor District Number Three; the Construction By The Illinois Central Railroad Company Of A New Passenger Station; Electrification Of Certain Of The Lines Of The Illinois Central And Michigan Central Railroad Companies Within The City; And Development Of The Lake Front" as the same may have been from time to time amended (the "1919 Ordinance"). If the 1919 Ordinance is inconsistent with this planned development or any applicable approved Master Plan, then to the extent authorized by law the City shall take all necessary action to adopt such amendments to the 1919 Ordinance as may be necessary or appropriate to make the 1919 Ordinance consistent with any such Master Plan approved for the Property within sixty (60) days following Plan Commission approval of each Master Plan.

15. Unless substantial construction has commenced and been diligently pursued within Subarea A on a minimum of five hundred thousand (500,000) square feet of floor area within five (5) years from the date of City Council approval of this amendment to Residential-Business Planned Development Number 499, one million five hundred thousand (1,500,000) square feet of floor area within ten (10) years from the date of City Council approval of this amendment to Residential-Business Planned Development Number 499, two million five hundred thousand (2,500,000) square feet of floor area within fifteen (15) years from the date of City Council approval of this amendment to Residential-Business Planned Development Number 499, and five million (5,000,000) square feet of floor area within twenty (20) years of City Council approval, the Department may decide to review and recommend modification of the provisions of this planned development in whole or in part. The Department's determination that the planned development ordinance must be reviewed shall be reflected in an application filed by the City for a planned development amendment, with the City being deemed the applicant and providing such notice as may be required by law. Not less than thirty (30) days before filing any such application for amendment to the planned development, the Department shall provide the applicant with a copy of the draft application for amendment.

16. The terms, conditions and exhibits of this planned development ordinance including any approved Master Plan or Site Plan, may be modified administratively by the

Commissioner of the Department of Planning and Development, upon the application for such a modification by the applicant and after a determination by the Commissioner that such a modification is minor, appropriate and consistent with the Guidelines and the nature of the improvements contemplated in this planned development. Any such modification of the requirements of this statement by the Commissioner shall be deemed to be a minor change in the planned development as contemplated by Section 17-13-0611 of the Chicago Zoning Ordinance.

17. The applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner that promotes and maximizes the conservation of natural resources. The applicant shall use best and reasonable efforts to design, construct and maintain all buildings located within the property in a manner generally consistent with the Leadership in Energy and Environmental Design ("L.E.E.D.") Green Building Rating System. Copies of these standards may be obtained from the Department of Planning and Development.

    The applicant shall provide a vegetated ("green") roof on at least twenty-five percent (25%) of the net roof area of each building to be constructed henceforth within this planned development. "Net roof area" is defined as total roof area minus any required perimeter setbacks, rooftop structures, and roof-mounted equipment.

18. A district heating-cooling feasibility study will be completed by the applicant in the event that the Chicago Department of Environment determines that such study is necessary in connection with any Master Plan review. Such study, which shall be made available for use by the City, shall at a minimum address the following: existing proximate heat sources, environmental and legal concerns, potential relationships with existing utilities, regulatory issues, comparable systems, system staging and options, system costs and implementation.

19. The applicant acknowledges that it is in the public interest to design construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the property. Plans for all buildings and improvements on the property shall be reviewed and approved by the Mayor's Office for People with Disabilities ("M.O.P.D.") to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility. No approvals shall be granted pursuant to Section 17-13-0610 of the Chicago Zoning Ordinance until the Director of M.O.P.D. has approved detailed construction drawings for each building or improvement.

20. This planned development is intended to include in its entirety, the terms and provisions of Statement 11 hereof and Statement 11 is not intended to be severable from this planned development. Accordingly, if Statement 11 of this planned development or any portion thereof or any other provision of this planned development or any portion thereof shall, to any extent be found to be invalid, void or unenforceable by any court having proper jurisdiction, then this planned development shall in its entirety be deemed invalid, void and unenforceable, ab initio, with respect to any portions of the property which

remain undeveloped or unimproved with any principal structures and also with respect to any rights, duties and obligations created by this planned development as said rights, duties and obligations relate to such portions of the property. Property shall be considered to be developed or improved with principal structures if a proper building permit for any portion of said structures has been issued and remains in force or construction has been commenced. Said undeveloped or unimproved portions of the property shall thereafter, without further City Council action, revert to the zoning district classifications applicable immediately prior to the adoption of this planned development.

The applicant seeks a zoning amendment to a C1-1 Neighborhood Commercial District in order to allow a tavern which is within 400 feet of another existing tavern.

The applicant intends to use the subject property to allow a tavern in an existing 1-story building of 841 square feet, currently vacant, at 3200 W. Armitage. No changes will be made to the building height. A proposed 605 sq.ft. addition will be constructed for a total of 1446 interior sq.ft. A proposed outdoor patio of 539 sq.ft. will give the tavern a total of 1985 sq.ft. The remaining rear outdoor space of 1887 sq.ft. will also hold a patio leased by the adjacent building at 3204-06 W. Armitage for a different tavern business. Currently there is 1 parking spot at the rear.

The applicant is Milos Chicago LLC, 2357 N. Milwaukee, Chicago, IL 60647. Managers are Daniel Shapiro, Andrew Gould, and Kristofer Nagy.
The property owner is EDJ Investments LLC, 1436 E. Thacker St.#408 Des Plaines, Illinois 60016. Edgard Lutfallah and Jihad Jiha are members.
The owners of Elsewhere LLC operate the businesses known as Scofflaw, Slippery Slope and SinkSwim in other locations throughout the City.

I am the attorney for the applicant and the contact person for this application. My address is 111 W. Washington, Suite 1920, Chicago, Illinois 60602 and I can be contacted at 312-750-9272.

Introduction Date: September 24, 2015

Plan Commission Date:

1. The area delineated herein as Planned Development Number TBD, ("Planned Development") consists of approximately 30,711 square feet of property which is depicted on the attached Planned Development Boundary and Property Line Map ("Property") and is owned or controlled by the Applicant, Wicker Park Apartments, Inc.

   At the time of implementation of this Planned Development, the site has been zoned M2-3 Light Industry District and is located within 600 feet of an entrance to the CTA Blue Line's Grand Avenue station. Because the application reduces the number of parking spaces by 50% from the minimum otherwise required, it is eligible for increased Floor Area Ratio (Section 17-3-0403-B), reduced Minimum Lot Area per Unit (Section 17-3-0402-B), and increase height (Section 17-3-0408-B). Due to the increase in Floor Area Ratio, the project is required to be a mandatory planned development pursuant to Sec. 17-3-403-B.

2. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the Applicant, its successors and assigns and, if different than the Applicant, the legal title holders and any ground lessors. All rights granted hereunder to the Applicant shall inure to the benefit of the Applicant's successors and assigns and, if different than the Applicant, the legal title holder and any ground lessors. Furthermore, pursuant to the requirements of Section 17-8-0400 of the Chicago Zoning Ordinance, the Property, at the time of application for amendments, modifications or changes (administrative, legislative or otherwise) to this Planned Development are made, shall be under single ownership or designated control. Single designated control is defined in Section 17-8-0400 of the Zoning Ordinance.

3. All applicable official reviews, approvals or permits are required to be obtained by the Applicant or its successors, assignees or grantees. Any dedication or vacation of streets or alleys or grants of easements or any adjustment of the right-of-way shall require a separate submittal to the Department of Transportation on behalf of the Applicant or its successors, assigns or grantees, and approval by the City Council.

   Any requests for grants of privilege, or any items encroaching on the public way, shall be in compliance with the Plans.

   Ingress or egress shall be pursuant to the Plans and may be subject to the review and approval of the Departments of Planning and Development and Transportation. Closure of all or any public street or alley during demolition or construction shall be subject to the review and approval of the Department of Transportation.

   All work proposed in the public way must be designed and constructed in accordance with the Department of Transportation Construction Standards for Work in the Public Way and in compliance with the Municipal Code of the City of Chicago. Prior to the issuance of any Part II approval, the submitted plans must be approved by the Department of Transportation.

4. This Plan of Development consists of these sixteen (16) Statements: a Bulk Regulations and Data Table; an Existing Zoning Map; an Existing Land-Use Map; a Planned Development Boundary and Property Line Map; Site Plan; Landscape and Green Roof Plan; Building Elevations (Northeast/North, South/Southeast, and West) prepared by Brininstool + Lynch and dated August 12, 2015 submitted herein. Full-sized copies of the Site Plan, Landscape Plan and Building Elevations are on file with the Department of Housing and Economic Development. In any instance where a provision of this Planned Development conflicts with the Chicago Building Code, the Building Code shall control. This Planned Development conforms to the intent and purpose of the Zoning Ordinance, and all requirements thereto, and satisfies the established criteria for approval as a Planned Development. In case of a conflict between the terms of this Planned Development Ordinance and the Zoning Ordinance, this Planned Development Ordinance shall control.

5. The following uses are permitted in the area delineated herein as a Residential Business Planned Development: Multi-unit Residential, retail on the ground floor, accessory parking, accessory and related uses.

6. On-Premise signs and temporary signs, such as construction and marketing signs, shall be permitted within the Planned Development, subject to the review and approval of the Department of Planning and Development. Off-Premise signs are prohibited within the boundary of the Planned Development.

7. For purposes of height measurement, the definitions in the Zoning Ordinance shall apply. The height of any building shall also be subject to height limitations, if any, established by the Federal Aviation Administration.

8. The maximum permitted Floor Area Ratio ("FAR") for the site shall be in accordance with the attached Bulk Regulations and Data Table. For the purposes of FAR calculations and measurements, the definitions in the Zoning Ordinance shall apply. The permitted FAR identified in the Bulk Regulations Table has been determined using a Net Site Area of 12,360 square feet.

9. Upon review and determination, "Part II Review", pursuant to Section 17-13-0610 of the Zoning Ordinance, a Part II Review Fee shall be assessed by the Department of Planning and Development. The fee, as determined by staff at the time, is final and binding on the Applicant and must be paid to the Department of Revenue prior to the issuance of any Part II approval.

10. The Site and Landscape Plans shall be in substantial conformance with the Landscape Ordinance and any other corresponding regulations and guidelines. The improvements on the property, including the on-site exterior landscaping, as well as the landscaping along the adjacent rights-of-way and all entrances and exits to and from the parking and loading areas,

shall be designed, constructed, and maintained in substantial conformance with the Site Plan and the Landscape Plan. In addition, parkway trees shall be planted and maintained in accordance with the Parkway Tree Planting provisions of the Chicago Zoning Ordinance and corresponding regulations and guidelines. Final landscape plan review and approval will be by the Department of Planning and Development. Any interim reviews associated with site plan review or Part II reviews, are conditional until final Part II approval.

11. The Applicant acknowledges and agrees that the rezoning of the Property from M2-3, Light Industry District to C1-5, Neighborhood Commercial District for construction of this Planned Development triggers the requirements of Section 2-45-110 of the Municipal Code (the "Affordable Housing Ordinance"). Any developer of a "residential housing project" within the meaning of the Affordable Housing Ordinance ("Residential Project") must: (i) develop affordable housing units as part of the Residential Project; (ii) pay a fee in lieu of the development of affordable housing units; or (iii) any combination of (i) and (ii). In accordance with these requirements and the Affordable Housing Profile Form attached hereto as an Exhibit, the Applicant has agreed to make a cash payment to the Affordable Housing Opportunity Fund in the amount of $100,000 per unit ("Cash Payment"). At the time of each Part II review for the Residential Project, Applicant may update and resubmit the Affordable Housing Profile Form to the Department of Planning and Development ("DPD") for review and approval. If the Applicant subsequently reduces the number of dwelling units in the Residential Project, DPD may adjust the requirements of this Statement No. 11 (i.e., number of Affordable Units and/or amount of Cash Payment) accordingly without amending the Planned Development. Prior to the issuance of any building permits for the Residential Project, including, without limitation, excavation or foundation permits, the Applicant must make the required Cash Payment.

12. The Applicant shall comply with Rules and Regulations for the Maintenance of Stockpiles promulgated by the Commissioners of the Departments of Streets and Sanitation, Fleet and Facility Management and Buildings, under Section 13-32-125 of the Municipal Code, or any other provision of that Code.

13. The terms and conditions of development under this Planned Development ordinance may be modified administratively, pursuant to section 17-13-0611-A of the Zoning Ordinance by the Zoning Administrator upon the application for such a modification by the Applicant, its successors and assigns and, if different than the Applicant, the legal title holders and any ground lessors.

14. The Applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the Property. Plans for all buildings and improvements on the Property shall be reviewed and approved by the Mayor's Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility.

15. The Applicant acknowledges that it is in the public interest to design, construct, renovate and maintain all buildings in a manner that provides healthier indoor environments, reduces operating costs and conserves energy and natural resources. All development shall be in substantial compliance with the current City of Chicago Sustainable Development Policy set forth by the Department of Planning and Development. The proposed building shall provide a vegetated ("green") roof, totaling a minimum of 50% of the net roof area (approximately 11,822 square feet) and obtain a LEED certification.

16. This Planned Development shall be governed by Section 17-13-0612 of the Zoning Ordinance. Should this Planned Development ordinance lapse, the Zoning Administrator shall initiate a Zoning Map Amendment to rezone the property C1-5 Neighborhood Commercial District.
