(1) The U.S. plans exclude nonqualified pension plans, for which the aggregate projected benefit obligation was $713 million and $658 million and the aggregate accumulated benefit obligation was $694 million and $648 million at December 31, 2011 and 2010, respectively. These plans are unfunded. As such, the funded status of these plans is $(713) million and $(658) million at December 31, 2011 and 2010, respectively. *Accumulated other comprehensive income (loss)* reflects pretax charges of $231 million and $167 million at December 31, 2011 and 2010, respectively, that primarily relate to net actuarial loss.

(2) There were no Company contributions to the U.S. pension plan during 2011 and $999 million during 2010, which includes a discretionary cash contribution of $995 million in 2010 and advisory fees paid to Citi Alternative Investments. Company contributions to the non-U.S. pension plans include $47 million and $40 million of benefits paid directly by the Company during 2011 and 2010, respectively.

(3) The U.S. qualified pension plan is fully funded under specified ERISA funding rules as of January 1, 2011 and no minimum required funding is expected for 2011 and 2012.

At the end of 2011 and 2010, for both qualified and nonqualified plans and for both funded and unfunded plans, the aggregate projected benefit obligation (PBO), the aggregate accumulated benefit obligation (ABO), and the aggregate fair value of plan assets are presented for pension plans with a projected benefit obligation in excess of plan assets and for pension plans with an accumulated benefit obligation in excess of plan assets as follows

	PBO exceeds fair value of plan assets				**ABO exceeds fair value of plan assets**			
	U.S. plans [1]		**Non-U.S. plans**		**U.S. plans [1]**		**Non-U.S. plans**

(1) In 2011, the PBO and ABO of the U.S. plans include $12,377 million and $12,337 million, respectively, relating to the qualified plan and $712 million and $694 million, respectively, relating to the nonqualified plans. In 2010, the PBO and ABO of the U.S. plans include $11,730 million and $11,689 million, respectively, relating to the qualified plan and $658 million and $648 million, respectively, relating to the nonqualified plans.

At December 31, 2011, combined accumulated benefit obligations for the U.S. and non-U.S. pension plans, excluding U.S. nonqualified plans, exceeded plan assets by $0.6 billion. At December 31, 2010, combined accumulated benefit obligations for the U.S. and non-U.S. pension plans, excluding U.S. nonqualified plans, exceeded plan assets by $0.4 billion.

Plan Assumptions

Citigroup utilizes a number of assumptions to determine plan obligations and expense. Changes in one or a combination of these assumptions will have an impact on the Company's pension and postretirement PBO, funded status and benefit expense. Changes in the plans' funded status resulting from changes in the PBO and fair value of plan assets will have a corresponding impact on *Accumulated other comprehensive income (loss)*. A discussion of certain assumptions follows

Discount Rate

The discount rates for the U.S. pension and postretirement plans were selected by reference to a Citigroup-specific analysis using each plan's specific cash flows and compared with high quality corporate bond indices for reasonableness. Citigroup's policy is to round to the nearest five hundredths of a percent. Accordingly, at December 31, 2011, the discount rate was set at 4.70% for the pension plans and 4.30% for the postretirement plans. At December 31, 2010, the discount rate was set at 5.45% for the pension plans and 5.10% for the postretirement plans, referencing a Citigroup-specific cash flow analysis.

The discount rates for the non-U.S. pension and postretirement plans are selected by reference to high quality corporate bond rates in countries that have developed corporate bond markets. However, where developed corporate bond markets do not exist, the discount rates are selected by reference to local government bond rates with a premium added to reflect the additional risk for corporate bonds

The discount rate and future rate of compensation assumptions used in determining pension and postretirement benefit obligations and net benefit expense for the Company's plans are shown in the following table:

At year end	**2011**	2010
Discount rate		
U.S. plans [1]		
Pension	**4.70%**	5.45%
Postretirement	**4.30**	5.10

Pension	**5.45%**	5.90%
Postretirement	**5.10**	5.55

Weighted average	**6.23**	6.50
Future compensation increase rate		
U.S. plans [2]	**3.00**	3.00
Non-U.S. pension plans		
Range	**1.00 to 11.00**	1.00 to 12.00
Weighted average	**4.66**	4.60

(1) Weighted-average rates for the U.S. plans equal the stated rates

(2) Effective January 1, 2008, the U.S. qualified pension plan was frozen except for certain grandfathered employees accruing benefits under a final pay plan formula. Only the future compensation increases for these grandfathered employees will affect future pension expense and obligations. Future compensation increase rates for small groups of employees were 4%

A one-percentage-point change in the discount rates would have the following effects on pension expense.

	One-percentage-point increase			One-percentage-point decrease		
In millions of dollars	**2011**	2010	2009	**2011**	2010	2009
Effect on pension expense for U.S plans [1]	**$ 19**	$ 19	$ 14	**$ (34)**	$(34)	$(27)
Effect on pension expense for non-U.S. plans	**(57)**	(49)	(40)	**70**	56	62

(1) Due to the freeze of the U S qualified pension plan commencing January 1, 2008, the majority of the prospective service cost has been eliminated and the gain/loss amortization period was changed to the life expectancy for inactive participants As a result, pension expense for the U S qualified pension plan is driven more by interest costs than service costs, and an increase in the discount rate would increase pension expense, while a decrease in the discount rate would decrease pension expense

Assumed health-care cost-trend rates were as follows.

	2011	2010
Health-care cost increase rate for U.S. plans		
Following year	**9.00%**	9 50%
Ultimate rate to which cost increase is assumed to decline	**5.00**	5 00
Year in which the ultimate rate is reached	**2020**	2020

A one-percentage-point change in assumed health-care cost-trend rates would have the following effects:

In millions of dollars	**2011**	2010	**2011**	2010

Expected Rate of Return

Citigroup determines its assumptions for the expected rate of return on plan assets for its U.S pension and postretirement plans using a "building block" approach, which focuses on ranges of anticipated rates of return for each asset class. A weighted range of nominal rates is then determined based on target allocations to each asset class Market performance over a number of earlier years is evaluated covering a wide range of economic conditions to determine whether there are sound reasons for projecting any past trends.

Citigroup considers the expected rate of return to be a long-term assessment of return expectations and does not anticipate changing this assumption annually unless there are significant changes in investment strategy or economic conditions This contrasts with the selection of the discount rate, future compensation increase rate, and certain other assumptions, which are reconsidered annually in accordance with generally accepted accounting principles.

The expected rate of return for the U S pension and postretirement plans was 7 50% at December 31, 2011, 7 50% at December 31, 2010, and 7 75% at December 31, 2009, reflecting a change in investment allocations during 2010. Actual returns in 2011 and 2010 were greater than the expected returns, while actual returns in 2009 were less than the expected returns. This expected amount reflects the expected annual appreciation of the plan assets and reduces the annual pension expense of Citigroup It is deducted from the sum of service cost, interest and other components of pension expense to arrive at the net pension (benefit) expense. Net pension (benefit) expense for the U S pension plans for 2011, 2010, and 2009 reflects deductions of $890 million, $874 million, and $912 million of expected returns, respectively.

The following table shows the expected versus actual rate of return on plan assets for 2011, 2010 and 2009 for the U S. pension and postretirement plans:

	2011	2010	2009
Expected rate of return	**7.50%**	7 50%	7 75%
Actual rate of return [1]	**11.13%**	14.11%	(2.77)%

(1) Actual rates of return are presented gross of fees

For the non-U S plans, pension expense for 2011 was reduced by the expected return of $422 million, compared with the actual return of $526 million. Pension expense for 2010 and 2009 was reduced by expected returns of $378 million and $336 million, respectively Actual returns were higher in 2011, 2010, and 2009 than the expected returns in those years

The expected long-term rates of return on assets used in determining the Company's pension expense are shown below.

	2011	2010

U S plans [1]	**7.50%**	7 75%
Non-U S pension plans		
Range	**1.00 to 12.50**	1 75 to 13.00

(1) Weighted-average rates for the U S plans equal the stated rates

A one-percentage-point change in the expected rates of return would have the following effects on pension expense

Plan Assets

Citigroup's pension and postretirement plans' asset allocations for the U.S. plans at the end of 2011 and 2010, and the target allocations for 2012 by asset category based on asset fair values, are as follows:

	Target asset allocation	U.S. pension assets at December 31,		U.S. postretirement assets at December 31,

(1) Target asset allocations for the U S plans are set by investment strategy, not by investment product For example, private equities with an underlying investment in real estate are classified in the real estate asset category, not private equity

(2) Equity securities in the U S pension plans include no Citigroup common stock at the end of 2011 and 2010

Third-party investment managers and advisors provide their services to Citigroup's U S pension plans. Assets are rebalanced as the Pension Plan Investment Committee deems appropriate. Citigroup's investment strategy, with respect to its pension assets, is to maintain a globally diversified investment portfolio across several asset classes that, when combined with Citigroup's contributions to the plans, will maintain the plans' ability to meet all required benefit obligations

Citigroup's pension and postretirement plans' weighted-average asset allocations for the non-U S. plans and the actual ranges at the end of 2011 and 2010, and the weighted-average target allocations for 2012 by asset category based on asset fair values are as follows

Investment Strategy

Citigroup's global pension and postretirement funds' investment strategies are to invest in a prudent manner for the exclusive purpose of providing benefits to participants. The investment strategies are targeted to produce a total return that, when combined with Citigroup's contributions to the funds, will maintain the funds' ability to meet all required benefit obligations Risk is controlled through diversification of asset types and investments in domestic and international equities, fixed-income securities and cash and short-term investments. The target asset allocation in most locations outside the U.S. is to have the majority of the assets in equity and debt securities. These allocations may vary by geographic region and country depending on the nature of applicable obligations and various other regional considerations The wide variation in the actual range of plan asset allocations for the funded non-U.S. plans is a result of differing local statutory requirements and economic conditions. For example, in certain countries local law requires that all pension plan assets must be invested in fixed-income investments, government funds, or local-country securities

Significant Concentrations of Risk in Plan Assets

The assets of Citigroup's pension plans are diversified to limit the impact of any individual investment. The U S pension plan is diversified across multiple asset classes, with publicly traded fixed income, hedge funds and private equity representing the most significant asset allocations Investments in these three asset classes are further diversified across funds, managers, strategies, vintages, sectors and geographies, depending on the specific characteristics of each asset class The pension assets for Citigroup's largest non-U S plans are primarily invested in publicly traded fixed income and publicly traded equity securities

Oversight and Risk Management Practices

The framework for Citigroup's pensions oversight process includes monitoring of retirement plans by plan fiduciaries and/or management at the global, regional or country level, as appropriate. Independent risk management contributes to the risk oversight and monitoring for Citigroup's U S pension plans and largest non-U S. pension plans. Although the specific components of the oversight process are tailored to the requirements of each region, country and plan, the following elements are common to Citigroup's monitoring and risk management process

- Periodic asset/liability management studies and strategic asset allocation reviews
- Periodic monitoring of funding levels and funding ratios
- Periodic monitoring of compliance with asset allocation guidelines
- Periodic monitoring of asset class and/or investment manager performance against benchmarks
- Periodic risk capital analysis and stress testing

Prescription Drugs

In December 2003, the Medicare Prescription Drug Improvement and Modernization Act of 2003 (Act of 2003) was enacted The Act of 2003 established a prescription drug benefit under Medicare known as "Medicare Part D," and a federal subsidy to sponsors of U.S. retiree health-care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. The benefits provided to certain participants are at least actuarially equivalent to Medicare Part D and, accordingly, the Company is entitled to a subsidy

The expected subsidy reduced the accumulated postretirement benefit obligation (APBO) by approximately $96 million and $139 million as of December 31, 2011 and 2010, respectively, and the postretirement expense by approximately $10 million and $9 million for 2011 and 2010, respectively.

The following table shows the estimated future benefit payments without the effect of the subsidy and the amounts of the expected subsidy in future years:

		Expected U.S. postretirement benefit payments

The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively, the Act of 2010) were signed into law in the U S in March 2010 One provision that impacted Citigroup was the elimination of the tax deductibility for benefits paid that are related to the Medicare Part D subsidy, starting in 2013 Citigroup was required to recognize the full accounting impact in 2010, the period in which the Act of 2010 was signed. As a result, there was a $45 million reduction in deferred tax assets with a corresponding charge to earnings from continuing operations. The other provisions of the Act of 2010 are not expected to have a significant impact on Citigroup's pension and postretirement plans

Defined Contribution Plans

Citigroup administers defined contribution plans in the U S. and in certain non-U S locations, all of which are administered in accordance with local laws The most significant plan of these plans is the Citigroup 401(k) plan in the U S

Under the Citigroup 401(k) plan, eligible U.S employees received matching contributions of up to 6% of their compensation for 2011 and up to 4% for 2010, subject to statutory limits. The matching contribution is invested according to participants' individual elections Additionally, for eligible employees whose compensation is $100,000 or less, a fixed contribution of up to 2% of compensation is provided The matching and fixed contributions are invested according to participants' individual elections. The pretax expense associated with this plan amounted to approximately $383 million, $301 million and $442 million in 2011, 2010 and 2009, respectively. The change in expense, year-over-year, reflects the fluctuations of the matching contribution rate.

Postemployment Plans

Citigroup sponsors U S postemployment plans that provide income continuation and health and welfare benefits to certain eligible U S. employees on long term disability For the years ended December 31, 2011 and 2010, the plans' funded status recognized in the Company's Consolidated Balance Sheet was $(469) million and $(436) million, respectively The net expense recognized in the Consolidated Statement of Income during 2011, 2010, and 2009 were $67 million, $69 million, and $57 million, respectively The estimated net actuarial loss and prior service cost that will be amortized from *Accumulated other comprehensive income (loss)* into net expense in 2012 are approximately $169 million and $19 million, respectively

The Company is currently under audit by the Internal Revenue Service and other major taxing jurisdictions around the world. It is thus reasonably possible that significant changes in the gross balance of unrecognized tax benefits may occur within the next 12 months, but the Company does not expect such audits to result in amounts that would cause a significant change to its effective tax rate, other than the following items

The Company expects to conclude the IRS audit of its U.S federal consolidated income tax returns for the years 2006-2008 and may resolve certain issues with IRS Appeals for the years 2003-2005 within the next 12 months. The gross uncertain tax positions at December 31, 2011 for the items that may be resolved for 2003-2008 are as much as $1,510 million plus gross interest of $70 million. Because of the number of issues remaining to be resolved, the potential tax benefit to continuing operations could be anywhere in a range between $0 and $1,200 million In addition, the Company expects to conclude a New York City audit for 2006-2008 in the first quarter of 2012 that will result in a reduction of approximately $82 million in gross uncertain tax positions and a reduction in gross interest of approximately $13 million and which could result in a tax benefit to continuing operations of approximately $56 million.

The following are the major tax jurisdictions in which the Company and its affiliates operate and the earliest tax year subject to examination

Jurisdiction	**Tax year**
United States	2006
Mexico	2008
New York State and City	2005
United Kingdom	2010
Japan	2009

Foreign pretax earnings approximated $13 1 billion in 2011, $12.3 billion in 2010 and $6.1 billion in 2009 (of which $0 2 billion profit, $0 1 billion profit and $0.6 billion loss, respectively, are in discontinued operations) As a U.S. corporation, Citigroup and its U S. subsidiaries are currently subject to U.S taxation on all foreign pretax earnings earned by a foreign branch. Pretax earnings of a foreign subsidiary or affiliate are subject to U S. taxation when effectively repatriated The Company provides income taxes on the undistributed earnings of non-U.S. subsidiaries except to the extent that such earnings are indefinitely reinvested outside the United States. At December 31, 2011, $35 9 billion of accumulated undistributed earnings of non-U.S subsidiaries were indefinitely invested At the existing U S federal income tax rate, additional taxes (net of U S. foreign tax credits) of $9 5 billion would have to be provided if such earnings were remitted currently The current year's effect on the income tax expense from continuing operations is included in the "Foreign income tax rate differential" line in the reconciliation of the federal statutory rate to the Company's effective income tax rate in the table above

Income taxes are not provided for the Company's "savings bank base year bad debt reserves" that arose before 1988, because under current U S tax rules, such taxes will become payable only to the extent such amounts are distributed in excess of limits prescribed by federal law At December 31, 2011, the amount of the base year reserves totaled approximately $358 million (subject to a tax of $125 million).

The Company has no valuation allowance on its deferred tax assets (DTAs) at December 31, 2011 and December 31, 2010

(1) Pretax

Although realization is not assured, the Company believes that the realization of the recognized net DTA of $51.5 billion at December 31, 2011 is more likely than not based upon expectations as to future taxable income in the jurisdictions in which the DTAs arise and available tax planning strategies, as defined in ASC 740, *Income Taxes* (formerly SFAS 109), that would be implemented, if necessary, to prevent a carryforward from expiring.

In general, Citi would need to generate approximately $111 billion of taxable income during the respective carryforward periods to fully realize its U.S. federal, state and local DTAs. Citi's net DTAs will decline primarily as additional domestic GAAP taxable income is generated.

As of December 31, 2011, Citi was no longer in a three-year cumulative loss position for purposes of evaluating its DTAs. While this removes a significant piece of negative evidence in evaluating the need for a valuation allowance, Citi will continue to weigh the evidence supporting its DTAs. Citi has concluded that there are two pieces of positive evidence which support the full realizability of its DTAs. First, Citi forecasts sufficient taxable income in the carryforward period, exclusive of tax planning strategies. Second, Citi has sufficient tax planning strategies, including potential sales of assets, in which it could realize the excess of appreciated value over the tax basis of its assets. The amount of the DTAs considered realizable, however, is necessarily subject to Citi's estimates of future taxable income in the jurisdictions in which it operates during the respective carryforward periods, which is in turn subject to overall market and global economic conditions.

The U.S. federal consolidated tax return NOL carryforward component of the DTAs of $3.8 billion at December 31, 2010 was utilized in 2011. Based upon the foregoing discussion, as well as tax planning opportunities and other factors discussed below, Citi believes the U.S. federal and New York state and city NOL carryforward period of 20 years provides enough time to fully utilize the DTAs pertaining to the existing NOL carryforwards and any NOL that would be created by the reversal of the future net deductions that have not yet been taken on a tax return.

Because the U.S. federal consolidated tax return NOL carryforward has been utilized, Citi can begin to utilize its foreign tax credit (FTC) and general business credit (GBC) carryforwards. The U.S. FTC carryforward period is 10 years. Utilization of foreign tax credits in any year is restricted to 35% of foreign source taxable income in that year. However, overall domestic losses that the Company has incurred of approximately $56 billion as of December 31, 2011 are allowed to be reclassified as foreign source income to the extent of 50% of domestic source income produced in subsequent years and such resulting foreign source income would in fact be sufficient to cover the foreign tax credits being carried forward. As such, Citi believes the foreign source taxable income limitation will not be an impediment to the foreign tax credit carryforward usage as long as Citi can generate sufficient domestic taxable income within the 10-year carryforward period.

Regarding the estimate of future taxable income, Citi has projected its pretax earnings, predominantly based upon the "core" businesses that Citi intends to conduct going forward. These "core" businesses have produced steady and strong earnings in the past. Citi believes that it will generate sufficient pretax earnings within the 10-year carryforward period referenced above to be able to fully utilize the foreign tax credit carryforward, in addition to any foreign tax credits produced in such period.

As mentioned above, Citi has also examined tax planning strategies available to it in accordance with ASC 740 that would be employed, if necessary, to prevent a carryforward from expiring and to accelerate the usage of its carryforwards. These strategies include repatriating low taxed foreign source earnings for which an assertion that the earnings have been indefinitely reinvested has not been made, accelerating U.S. taxable income into or deferring U.S. tax deductions out of the latter years of the carryforward period (e.g., selling appreciated intangible assets and electing straight-line depreciation), accelerating deductible temporary differences outside the U.S., holding onto available-for-sale debt securities with losses until they mature and selling certain assets that produce tax exempt income, while purchasing assets that produce fully taxable income. In addition, the sale or restructuring of certain businesses can produce significant U.S. taxable income within the relevant carryforward periods.

As previously disclosed, Citi's ability to utilize its DTAs to offset future taxable income may be significantly limited if Citi experiences an "ownership change," as defined in Section 382 of the Internal Revenue Code of 1986, as amended (the Code). Generally, an ownership change will occur if there is a cumulative change in Citi's ownership by "5% shareholders" (as defined in the Code) that exceeds 50 percentage points over a rolling three-year period. Any limitation on Citi's ability to utilize its DTAs arising from an ownership change under Section 382 will depend on the value of Citi's stock at the time of the ownership change.

(1) All per-share amounts and Citigroup shares outstanding for all periods reflect Citigroup's 1-for-10 reverse stock split, which was effective May 6, 2011

(2) Due to the net loss available to common shareholders in 2009, loss available to common stockholders for basic EPS was used to calculate diluted EPS. Including the effect of dilutive securities would result in anti-dilution

During 2011, 2010 and 2009, weighted-average options to purchase 24 1 million, 38 6 million and 16 6 million shares of common stock, respectively, were outstanding but not included in the computation of earnings per share because the weighted-average exercise prices of $123.47, $102 89 and $315.65, respectively, were greater than the average market price of the Company's common stock

Warrants issued to the U S. Treasury as part of TARP and the loss-sharing agreement (all of which were subsequently sold to the public in January 2011), with exercise prices of $178 50 and $106 10 for approximately 21.0 million and 25.5 million shares of common stock, respectively, were not included in the computation of earnings per share in 2010 and 2009, because they were anti-dilutive

Equity awards granted under the Management Committee Long-Term Incentive Plan (MC LTIP) were not included in the 2009 computation of earnings per share because the performance targets under the terms of the awards were not met and, as a result, the awards expired in the first quarter of 2010

The final tranche of equity units held by the Abu Dhabi Investment Authority (ADIA) converted into 5.9 million shares of Citigroup common stock during the third quarter of 2011 Equity units of approximately 11 8 million shares and 23 5 million shares of Citigroup common stock held by ADIA were not included in the computation of earnings per share in 2010 and 2009, respectively, because the exercise price of $318 30 was greater than the average market price of the Company's common stock

The resale and repurchase agreements represent collateralized financing transactions. The Company executes these transactions through its broker-dealer subsidiaries to facilitate customer matched-book activity and to efficiently fund a portion of the Company's trading inventory. Transactions executed by the Company's bank subsidiaries primarily facilitate customer financing activity.

It is the Company's policy to take possession of the underlying collateral, monitor its market value relative to the amounts due under the agreements and, when necessary, require prompt transfer of additional collateral in order to maintain contractual margin protection. Collateral typically consists of government and government-agency securities, corporate and municipal bonds, and mortgage-backed and other asset-backed securities. In the event of counterparty default, the financing agreement provides the Company with the right to liquidate the collateral held.

The majority of the resale and repurchase agreements are recorded at fair value. The remaining portion is carried at the amount of cash initially advanced or received, plus accrued interest, as specified in the respective agreements.

A majority of securities borrowing and lending agreements are recorded at the amount of cash advanced or received and are collateralized principally by government and government-agency securities and corporate debt and equity securities. The remaining portion is recorded at fair value as the Company elected the fair value option for certain securities borrowed and loaned portfolios. With respect to securities loaned, the Company receives cash collateral in an amount generally in excess of the market value of the securities loaned. The Company monitors the market value of securities borrowed and securities loaned on a daily basis and obtains or posts additional collateral in order to maintain contractual margin protection.

13. BROKERAGE RECEIVABLES AND BROKERAGE PAYABLES

The Company has receivables and payables for financial instruments purchased from and sold to brokers, dealers and customers, which arise in the ordinary course of business The Company is exposed to risk of loss from the inability of brokers, dealers or customers to pay for purchases or to deliver the financial instruments sold, in which case the Company would have to sell or purchase the financial instruments at prevailing market prices. Credit risk is reduced to the extent that an exchange or clearing organization acts as a counterparty to the transaction and performs for the broker, dealer or customer in question.

The Company seeks to protect itself from the risks associated with customer activities by requiring customers to maintain margin collateral in compliance with regulatory and internal guidelines. Margin levels are monitored daily and customers deposit additional collateral as required. Where customers cannot meet collateral requirements, the Company will liquidate sufficient underlying financial instruments to bring the customer into compliance with the required margin level.

Exposure to credit risk is impacted by market volatility, which may impair the ability of clients to satisfy their obligations to the Company. Credit limits are established and closely monitored for customers and for brokers and dealers engaged in forwards, futures and other transactions deemed to be credit sensitive

(1) For securities transferred to HTM from *Trading account assets* in 2008, amortized cost is defined as the fair value of the securities at the date of transfer plus any accretion income and less any impairments recognized in earnings subsequent to transfer For securities transferred to HTM from AFS in 2008, amortized cost is defined as the original purchase cost, plus or minus any accretion or amortization of a purchase discount or premium, less any impairment recognized in earnings

(2) HTM securities are carried on the Consolidated Balance Sheet at amortized cost less any unrealized gains and losses recognized in AOCI The changes in the values of these securities are not reported in the financial statements, except for other-than-temporary impairments For HTM securities, only the credit loss component of the impairment is recognized in earnings, while the remainder of the impairment is recognized in AOCI

(3) The Company invests in mortgage-backed and asset-backed securities These securitizations are generally considered VIEs The Company's maximum exposure to loss from these VIEs is equal to the carrying amount of the securities, which is reflected in the table above For mortgage-backed and asset-backed securitizations in which the Company has other involvement, see Note 22 to the Consolidated Financial Statements

The Company has the positive intent and ability to hold these securities to maturity absent any unforeseen further significant changes in circumstances, including deterioration in credit or with regard to regulatory capital requirements

The net unrealized losses classified in AOCI relate to debt securities reclassified from AFS investments to HTM investments in a prior year Additionally, for HTM securities that have suffered credit impairment, declines in fair value for reasons other than credit losses are recorded in AOCI. The AOCI balance was $2.3 billion as of December 31, 2011, compared to $5 0 billion as of December 31, 2010 The AOCI balance for HTM securities is amortized over the remaining life of the related securities as an adjustment of yield in a manner consistent with the accretion of discount on the same debt securities This will have no impact on the Company's net income because the amortization of the unrealized holding loss reported in equity will offset the effect on interest income of the accretion of the discount on these securities.

For any credit-related impairment on HTM securities, the credit loss component is recognized in earnings

During the first quarter of 2011, the Company determined that it no longer had the intent to hold $12.7 billion of HTM securities to maturity. As a result, the Company reclassified $10.0 billion carrying value of mortgage-backed, other asset-backed, state and municipal, and corporate debt securities from *Investments* held-to-maturity to *Trading account assets*. The Company also sold an additional $2.7 billion of such HTM securities, recognizing a corresponding receivable from the unsettled sales as of March 31, 2011. As a result of these actions, a net pretax loss of $709 million ($427 million after tax) was recognized in the Consolidated Statement of Income for the three months ended March 31, 2011, composed of gross unrealized gains of $311 million included in *Other revenue*, gross unrealized losses of $1,387 million included in *Other-than-temporary-impairment losses on investments*, and net realized gains of $367 million included in *Realized gains (losses) on sales of investments*. Prior to the reclassification, unrealized losses totalling $1,656 million pretax ($1,012 million after tax) had been reflected in AOCI (see table below) and have now been reflected in the Consolidated Statement of Income, as detailed above.

Citigroup reclassified and sold the securities as part of its overall efforts to mitigate its risk-weighted assets (RWA) in order to comply with significant new regulatory capital requirements which, although not yet implemented or formally adopted, are nonetheless currently being used to assess the forecasted capital adequacy of the Company and other large U.S. banking organizations. These regulatory capital changes, which were largely unforeseen when the Company initially reclassified the debt securities from *Trading account assets* and *Investments* available-for-sale to *Investments* held-to-maturity in the fourth quarter of 2008 (see note 1 to the table below), include: (i) the U.S. Basel II credit and operational risk capital standards; (ii) the Basel Committee's agreed-upon, and the U.S.-proposed, revisions to the market risk capital rules, which significantly increased the risk weightings for certain trading book positions; (iii) the Basel Committee's substantial issuance of Basel III, which raised the quantity and quality of required regulatory capital and materially increased RWA for securitization exposures; and (iv) certain regulatory capital-related provisions in The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010.

Through December 31, 2011, the Company has sold substantially all of the $12.7 billion of HTM securities that were reclassified to *Trading account assets* in the first quarter of 2011. The carrying value and fair value of debt securities at the date of reclassification or sale were as follows:

(1) During the fourth quarter of 2008, $6.647 billion and $6.063 billion carrying value of these debt securities were transferred from *Trading account assets* and *Investments* available-for-sale to *Investments* held-to-maturity, respectively. The transfer of these debt securities from *Trading account assets* was in response to the significant deterioration in market conditions, which was especially acute during the fourth quarter of 2008.

(2) For securities transferred to held-to-maturity from *Trading account assets* in 2008, amortized cost is defined as the fair value amount of the securities at the date of transfer plus any accretion income and less any impairments recognized in earnings subsequent to transfer. For securities transferred to held-to-maturity from available-for-sale in 2008, amortized cost is defined as the original purchase cost, plus or minus any accretion or amortization of a purchase discount or premium, less any impairment recognized in earnings.

(3) Held-to-maturity securities are carried on the Consolidated Balance Sheet at amortized cost and the changes in the value of these securities other than impairment charges are not reported in the financial statements.

The table below shows the fair value of debt securities in HTM that have been in an unrecognized loss position for less than 12 months or for 12 months or longer as of December 31, 2011 and December 31, 2010

Evaluating Investments for Other-Than-Temporary Impairments

The Company conducts and documents periodic reviews of all securities with unrealized losses to evaluate whether the impairment is other than temporary.

Under the guidance for debt securities, other-than-temporary impairment (OTTI) is recognized in earnings for debt securities that the Company has an intent to sell or that the Company believes it is more-likely-than-not that it will be required to sell prior to recovery of the amortized cost basis. For those securities that the Company does not intend to sell or expect to be required to sell, credit-related impairment is recognized in earnings, with the non-credit-related impairment recorded in AOCI.

An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis. Unrealized losses that are determined to be temporary in nature are recorded, net of tax, in AOCI for AFS securities, while such losses related to HTM securities are not recorded, as these investments are carried at their amortized cost. For securities transferred to HTM from *Trading account assets*, amortized cost is defined as the fair value of the securities at the date of transfer, plus any accretion income and less any impairment recognized in earnings subsequent to transfer. For securities transferred to HTM from AFS, amortized cost is defined as the original purchase cost, plus or minus any accretion or amortization of a purchase discount or premium, less any impairment recognized in earnings.

Regardless of the classification of the securities as AFS or HTM, the Company has assessed each position with an unrealized loss for OTTI. Factors considered in determining whether a loss is temporary include:

- the length of time and the extent to which fair value has been below cost,
- the severity of the impairment,
- the cause of the impairment and the financial condition and near-term prospects of the issuer,
- activity in the market of the issuer that may indicate adverse credit conditions, and
- the Company's ability and intent to hold the investment for a period of time sufficient to allow for any anticipated recovery.

The Company's review for impairment generally entails:

- identification and evaluation of investments that have indications of possible impairment,
- analysis of individual investments that have fair values less than amortized cost, including consideration of the length of time the investment has been in an unrealized loss position and the expected recovery period;
- discussion of evidential matter, including an evaluation of factors or triggers that could cause individual investments to qualify as having other-than-temporary impairment and those that would not support other-than-temporary impairment; and
- documentation of the results of these analyses, as required under business policies.

For equity securities, management considers the various factors described above, including its intent and ability to hold the equity security for a period of time sufficient for recovery to cost or whether it is more-likely-than-not that the Company will be required to sell the security prior to recovery of its cost basis. Where management lacks that intent or ability, the security's decline in fair value is deemed to be other-than-temporary and is recorded in earnings. AFS equity securities deemed other-than-temporarily impaired are written down to fair value, with the full difference between fair value and cost recognized in earnings.

Management assesses equity method investments with fair value less than carrying value for OTTI. Fair value is measured as price multiplied by quantity if the investee has publicly listed securities. If the investee is not publicly listed, other methods are used (see Note 25 to the Consolidated Financial Statements).

For impaired equity method investments that Citi plans to sell prior to recovery of value, or would likely be required to sell and there is no expectation that the fair value will recover prior to the expected sale date, the full impairment is recognized in the Consolidated Statement of Income as OTTI regardless of severity and duration. The measurement of the OTTI does not include partial projected recoveries subsequent to the balance sheet date.

For impaired equity method investments that management does not plan to sell prior to recovery of value and is not likely to be required to sell, the evaluation of whether an impairment is other than temporary is based on (i) whether and when an equity method investment will recover in value and (ii) whether the investor has the intent and ability to hold that investment for a period of time sufficient to recover the value. The determination of whether the impairment is considered other-than-temporary is based on all of the following indicators, regardless of the time and extent of impairment.

- Cause of the impairment and the financial condition and near-term prospects of the issuer, including any specific events that may influence the operations of the issuer.
- Intent and ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in market value.
- Length of time and extent to which fair value has been less than the carrying value.

At December 31, 2011, Citi had several equity method investments that had temporary impairment, including its investments in Akbank and the Morgan Stanley Smith Barney joint venture (MSSB), each as discussed further below. As of December 31, 2011, management does not plan to sell those investments prior to recovery of value and it is not more likely than not that Citi will be required to sell those investments prior to recovery in value.

Excluding the impact of foreign currency translation and related hedges, the fair value of Citi's equity method investment in Akbank had exceeded its carrying value. During the fourth quarter of 2011, however, the fair value of Citi's equity method investment in Akbank declined, resulting in a temporary impairment. During 2012 to date, Akbank's share price has recovered significantly, and as of February 23, 2012, the temporary impairment was approximately $0.2 billion. As of

December 31, 2011 and February 23, 2012, foreign currency translation and related hedges on this equity method investment totaled an additional cumulative pretax loss of approximately $0.9 billion

Regarding Citi's equity method investment in MSSB, Citi has evaluated this investment for OTTI based on the qualitative and quantitative measures discussed herein (see also Note 25 to the Consolidated Financial Statements). As of December 31, 2011, Citi's carrying value of this equity method investment was approximately $10 billion Based on the midpoint of the current range of estimated values, analysis indicates that a temporary impairment may exist; however, based on this analysis, the potential temporary impairment was not material.

For debt securities that are not deemed to be credit impaired, management assesses whether it intends to sell or whether it is more-likely-than-not that it would be required to sell the investment before the expected recovery of the amortized cost basis. In most cases, management has asserted that it has no intent to sell and that it believes it is not likely to be required to sell the investment before recovery of its amortized cost basis. Where such an assertion cannot be made, the security's decline in fair value is deemed to be other than temporary and is recorded in earnings.

For debt securities, a critical component of the evaluation for OTTI is the identification of credit impaired securities, where management does not expect to receive cash flows sufficient to recover the entire amortized cost basis of the security For securities purchased and classified as AFS with the expectation of receiving full principal and interest cash flows as of the date of purchase, this analysis considers the likelihood of receiving all contractual principal and interest. For securities reclassified out of the trading category in the fourth quarter of 2008, the analysis considers the likelihood of receiving the expected principal and interest cash flows anticipated as of the date of reclassification in the fourth quarter of 2008. The extent of the Company's analysis regarding credit quality and the stress on assumptions used in the analysis have been refined for securities where the current fair value or other characteristics of the security warrant. The paragraphs below describe the Company's process for identifying credit-related impairments in security types with the most significant unrealized losses as of December 31, 2011

Mortgage-backed securities

For U.S. mortgage-backed securities (and in particular for Alt-A and other mortgage-backed securities that have significant unrealized losses as a percentage of amortized cost), credit impairment is assessed using a cash flow model that estimates the cash flows on the underlying mortgages, using the security-specific collateral and transaction structure The model estimates cash flows from the underlying mortgage loans and distributes those cash flows to various tranches of securities, considering the transaction structure and any subordination and credit enhancements that exist in that structure The cash flow model incorporates actual cash flows on the mortgage-backed securities through the current period and then projects the remaining cash flows using a number of assumptions, including default rates, prepayment rates and recovery rates (on foreclosed properties)

Management develops specific assumptions using as much market data as possible and includes internal estimates as well as estimates published by rating agencies and other third-party sources Default rates are projected by considering current underlying mortgage loan performance, generally assuming the default of (1) 10% of current loans, (2) 25% of 30–59 day delinquent loans, (3) 70% of 60–90 day delinquent loans and (4) 100% of 91+ day delinquent loans. These estimates are extrapolated along a default timing curve to estimate the total lifetime pool default rate. Other assumptions used contemplate the actual collateral attributes, including geographic concentrations, rating agency loss projections, rating actions and current market prices.

The key assumptions for mortgage-backed securities as of December 31, 2011 are in the table below.

	December 31, 2011
Prepayment rate[1]	1%–8% CRR
Loss severity[2]	45%–95%

(1) Conditional Repayment Rate (CRR) represents the annualized expected rate of voluntary prepayment of principal for mortgage-backed securities over a certain period of time

(2) Loss severity rates are estimated considering collateral characteristics and generally range from 45%–60% for prime bonds, 50%–95% for Alt-A bonds and 65%–90% for subprime bonds

The valuation as of December 31, 2011 assumes that U.S. housing prices will decrease 4% in 2012, decrease 1% in 2013, remain flat in 2014 and increase 3% per year from 2015 onwards, while unemployment is 8.9% for 2012

In addition, cash flow projections are developed using more stressful parameters Management assesses the results of those stress tests (including the severity of any cash shortfall indicated and the likelihood of the stress scenarios actually occurring based on the underlying pool's characteristics and performance) to assess whether management expects to recover the amortized cost basis of the security. If cash flow projections indicate that the Company does not expect to recover its amortized cost basis, the Company recognizes the estimated credit loss in earnings.

State and municipal securities

Citigroup's AFS state and municipal bonds consist mainly of bonds that are financed through Tender Option Bond programs or were previously financed in this program. The process for identifying credit impairments for these bonds is largely based on third-party credit ratings Individual bond positions are required to meet minimum ratings requirements, which vary based on the sector of the bond issuer

Citigroup monitors the bond issuer and insurer ratings on a daily basis. The average portfolio rating, ignoring any insurance, is Aa3/AA- In the event of a downgrade of the bond below Aa3/AA-, the subject bond is specifically reviewed for potential shortfall in contractual principal and interest The remainder of Citigroup's AFS and HTM state and municipal bonds are specifically reviewed for credit impairment based on instrument-specific estimates of cash flows, probability of default and loss given default.

For impaired AFS state and municipal bonds that Citi plans to sell, or would likely be required to sell and there is no expectation that the fair value will recover prior to the expected sale date, the full impairment is recognized in earnings

Investments in Alternative Investment Funds that Calculate Net Asset Value per Share

The Company holds investments in certain alternative investment funds that calculate net asset value (NAV) per share, including hedge funds, private equity funds, funds of funds and real estate funds. The Company's investments include co-investments in funds that are managed by the Company and investments in funds that are managed by third parties. Investments in funds are generally classified as non-marketable equity securities carried at fair value.

The fair values of these investments are estimated using the NAV per share of the Company's ownership interest in the funds, where it is not probable that the Company will sell an investment at a price other than NAV.

(2) Private equity funds include funds that invest in infrastructure, leveraged buyout transactions, emerging markets and venture capital.
(3) This category includes several real estate funds that invest primarily in commercial real estate in the U.S., Europe and Asia.
(4) With respect to the Company's investments that it holds in private equity funds and real estate funds, distributions from each fund will be received as the underlying assets held by these funds are liquidated. It is estimated that the underlying assets of these funds will be liquidated over a period of several years as market conditions allow. While certain investments within the portfolio may be sold, no specific assets have been identified for sale. Because it is not probable that any individual investment will be sold, the fair value of each individual investment has been estimated using the NAV of the Company's ownership interest in the partners' capital. Private equity and real estate funds do not allow redemption of investments by their investors. Investors are permitted to sell or transfer their investments, subject to the approval of the general partner or investment manager of these funds, which generally may not be unreasonably withheld.
(5) Included in the total fair value of investments above is $0.6 billion of fund assets that are valued using NAVs provided by third-party asset managers. Amounts exclude investments in funds that are consolidated by Citi.

Under The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (Dodd-Frank Act), the Company will be required to limit its investments in and arrangements with "private equity funds" and "hedge funds" as defined under the statute and impending regulations. Citi does not believe the implementation of the fund provisions of the Dodd-Frank Act will have a material negative impact on its overall results of operations.

16. LOANS

Citigroup loans are reported in two categories—Consumer and Corporate These categories are classified primarily according to the segment and subsegment that manages the loans

Consumer Loans

(1) Loans secured primarily by real estate

During the year ended December 31, 2011, the Company sold and/or reclassified (to held-for-sale) $21 billion of Consumer loans The Company did not have significant purchases of Consumer loans during the 12 months ended December 31, 2011.

Citigroup has a comprehensive risk management process to monitor, evaluate and manage the principal risks associated with its Consumer loan portfolio Included in the loan table above are lending products whose terms may give rise to additional credit issues Credit cards with below-market introductory interest rates and interest-only loans are examples of such products. However, these products are closely managed using appropriate credit techniques that mitigate their additional inherent risk.

Credit quality indicators that are actively monitored include delinquency status, consumer credit scores (FICO), and loan to value (LTV) ratios, each as discussed in more detail below.

Delinquency Status

Delinquency status is carefully monitored and considered a key indicator of credit quality. Substantially all of the U.S. residential first mortgage loans use the MBA method of reporting delinquencies, which considers a loan delinquent if a monthly payment has not been received by the end of the day immediately preceding the loan's next due date All other loans use the OTS method of reporting delinquencies, which considers a loan delinquent if a monthly payment has not been received by the close of business on the loan's next due date. As a general rule, residential first mortgages, home equity loans and installment loans are classified as non-accrual when loan payments are 90 days contractually past due. Credit cards and unsecured revolving loans generally accrue interest until payments are 180 days past due. Commercial market loans are placed on a cash (non-accrual) basis when it is determined, based on actual experience and a forward-looking assessment of the collectability of the loan in full, that the payment of interest or principal is doubtful or when interest or principal is 90 days past due.

The policy for re-aging modified U.S. Consumer loans to current status varies by product. Generally, one of the conditions to qualify for these modifications is that a minimum number of payments (typically ranging from one to three) be made. Upon modification, the loan is re-aged to current status. However, re-aging practices for certain open-ended Consumer loans, such as credit cards, are governed by Federal Financial Institutions Examination Council (FFIEC) guidelines. For open-ended Consumer loans subject to FFIEC guidelines, one of the conditions for the loan to be re-aged to current status is that at least three consecutive minimum monthly payments, or the equivalent amount, must be received In addition, under FFIEC guidelines, the number of times that such a loan can be re-aged is subject to limitations (generally once in 12 months and twice in five years) Furthermore, Federal Housing Administration (FHA) and Department of Veterans Affairs (VA) loans are modified under those respective agencies' guidelines, and payments are not always required in order to re-age a modified loan to current

The following tables provide details on Citigroup's Consumer loan delinquency and non-accrual loans as of December 31, 2011 and December 31, 2010:

Consumer Credit Scores (FICO)

In the U.S., independent credit agencies rate an individual's risk for assuming debt based on the individual's credit history and assign every consumer a credit score. These scores are often called "FICO scores" because most credit bureau scores used in the U.S. are produced from software developed by Fair Isaac Corporation. Scores range from a high of 900 (which indicates high credit quality) to 300. These scores are continually updated by the agencies based upon an individual's credit actions (e.g., taking out a loan or missed or late payments).

The following table provides details on the FICO scores attributable to Citi's U.S. Consumer loan portfolio as of December 31, 2011 and December 31, 2010 (commercial market loans are not included in the table since they are business-based and FICO scores are not a primary driver in their credit evaluation). FICO scores are updated monthly for substantially all of the portfolio or, otherwise, on a quarterly basis.

During the first quarter of 2011, the cards businesses (Citi-branded and retail partner cards) in the U.S. began using a more updated FICO model version to score customer accounts for substantially all of their loans. The change was made to incorporate a more recent version of FICO in order to improve the predictive strength of the score and to enhance Citi's ability to manage risk. In the first quarter, this change resulted in an increase in the percentage of balances with FICO scores equal to or greater than 660 and conversely lowered the percentage of balances with FICO scores lower than 620.

Loan to Value Ratios (LTV)

Loan to value (LTV) ratios (loan balance divided by appraised value) are calculated at origination and updated by applying market price data.

The following tables provide details on the LTV ratios attributable to Citi's U.S. Consumer mortgage portfolios as of December 31, 2011 and December 31, 2010. LTV ratios are updated monthly using the most recent Core Logic HPI data available for substantially all of the portfolio applied at the Metropolitan Statistical Area level, if available; otherwise, at the state level. The remainder of the portfolio is updated in a similar manner using the Office of Federal Housing Enterprise Oversight indices.

Impaired Consumer Loans

Impaired loans are those for which Citigroup believes it is probable that it will not collect all amounts due according to the original contractual terms of the loan. Impaired Consumer loans include non-accrual commercial market loans as well as smaller-balance homogeneous loans whose terms have been modified due to the borrower's financial difficulties and Citigroup has granted a concession to the borrower. These modifications may include interest rate reductions and/or principal forgiveness. Impaired Consumer loans exclude smaller-balance homogeneous loans that have not been modified and are carried on a non-accrual basis. In addition, Impaired Consumer loans exclude substantially all loans modified pursuant to Citi's short-term modification programs (i.e., for periods of 12 months or less) that were modified prior to January 1, 2011. At December 31, 2011, loans included in these short-term programs amounted to approximately $3 billion.

Effective in the third quarter of 2011, as a result of adopting ASU 2011-02, certain loans modified under short-term programs since January 1, 2011 that were previously measured for impairment under ASC 450 are now measured for impairment under ASC 310-10-35. At the end of the first interim period of adoption (September 30, 2011), the recorded investment in receivables previously measured under ASC 450 was $1,170 million and the allowance for credit losses associated with those loans was $467 million. See Note 1 to the Consolidated Financial Statements for a discussion of this change.

The following tables present information about total impaired Consumer loans at and for the periods ending December 31, 2011 and December 31, 2010, respectively:

However, information derived from Citi's risk management systems indicates that the amounts of outstanding modified loans, including those modified prior to 2008, approximated $31.5 billion at December 31, 2011.

Corporate loans are identified as impaired and placed on a cash (non-accrual) basis when it is determined, based on actual experience and a forward-looking assessment of the collectability of the loan in full, that the payment of interest or principal is doubtful or when interest or principal is 90 days past due, except when the loan is well collateralized and in the process of collection Any interest accrued on impaired Corporate loans and leases is reversed at 90 days and charged against current earnings, and interest is thereafter included in earnings only to the extent actually received in cash When there is doubt regarding the ultimate collectability of principal, all cash receipts are thereafter applied to reduce the recorded investment in the loan While Corporate loans are generally managed based on their internally assigned risk rating (see further discussion below), the following tables present delinquency information by Corporate loan type as of December 31, 2011 and December 31, 2010

Citigroup has established a risk management process to monitor, evaluate and manage the principal risks associated with its Corporate loan portfolio As part of its risk management process, Citi assigns numeric risk ratings to its Corporate loan facilities based on quantitative and qualitative assessments of the obligor and facility These risk ratings are reviewed at least annually or more often if material events related to the obligor or facility warrant. Factors considered in assigning the risk ratings include: financial condition of the obligor, qualitative assessment of management and strategy, amount and sources of repayment, amount and type of collateral and guarantee arrangements, amount and type of any contingencies associated with the obligor, and the obligor's industry and geography

The obligor risk ratings are defined by ranges of default probabilities. The facility risk ratings are defined by ranges of loss norms, which are the product of the probability of default and the loss given default. The investment grade rating categories are similar to the category BBB-/Baa3 and above as defined by S&P and Moody's Loans classified according to the bank regulatory definitions as special mention, substandard and doubtful will have risk ratings within the non-investment grade categories

Corporate loans and leases identified as impaired and placed on non-accrual status are written down to the extent that principal is judged to be uncollectible. Impaired collateral-dependent loans and leases, where repayment is expected to be provided solely by the sale of the underlying collateral and there are no other available and reliable sources of repayment, are written down to the lower of cost or collateral value, less cost to sell. Cash-basis loans are returned to an accrual status when all contractual principal and interest amounts are reasonably assured of repayment and there is a sustained period of repayment performance, generally six months, in accordance with the contractual terms of the loan.

The following tables present non-accrual loan information by Corporate loan type at and for the years ended December 31, 2011, 2010 and 2009, respectively:

Purchased Distressed Loans

Included in the Corporate and Consumer loan outstanding tables above are purchased distressed loans, which are loans that have evidenced significant credit deterioration subsequent to origination but prior to acquisition by Citigroup. In accordance with SOP 03-3 (codified as ASC 310-30), the difference between the total expected cash flows for these loans and the initial recorded investment is recognized in income over the life of the loans using a level yield. Accordingly, these loans have been excluded from the impaired loan table information presented above. In addition, per SOP 03-3, subsequent decreases in the expected cash flows for a purchased distressed loan require a build of an allowance so the loan retains its level yield. However, increases in the expected cash flows are first recognized as a reduction of any previously established allowance and then recognized as income prospectively over the remaining life of the loan by increasing the loan's level yield. Where the expected cash flows cannot be reliably estimated, the purchased distressed loan is accounted for under the cost recovery method.

The carrying amount of the Company's purchased distressed loan portfolio at December 31, 2011 was $443 million, net of an allowance of $68 million as of December 31, 2011.

The changes in the accretable yield, related allowance and carrying amount net of accretable yield for 2011 are as follows:

(1) The balance reported in the column "Carrying amount of loan receivable" consists of $328 million of purchased loans accounted for under the level-yield method and $0 under the cost-recovery method. These balances represent the fair value of these loans at their acquisition date. The related total expected cash flows for the level-yield loans were $328 million at their acquisition dates.

(2) The balance reported in the column "Carrying amount of loan receivable" consists of $435 million of loans accounted for under the level-yield method and $76 million accounted for under the cost-recovery method.

Goodwill impairment testing is performed at a level below the business segments (referred to as a reporting unit). The reporting unit structure in 2011 is consistent with those reporting units identified in the second quarter of 2009 as a result of the change in organizational structure. During 2011, goodwill was allocated to disposals and tested for impairment for each of the reporting units. The Company performed goodwill impairment testing for all reporting units as of July 1, 2011. No goodwill was written off due to impairment in 2009, 2010 and 2011.

The following table shows reporting units with goodwill balances as of December 31, 2011 and the excess of fair value as a percentage over allocated book value as of the annual impairment test.

Citigroup engaged the services of an independent valuation specialist to assist in the valuation of the reporting units at July 1, 2011, using a combination of the market approach and/or income approach consistent with the valuation model used in the past

Under the market approach for valuing each reporting unit, the key assumption is the selected price multiples. The selection of the multiples considers the operating performance and financial condition of the reporting unit operations as compared with those of a group of selected publicly traded guideline companies and a group of selected acquired companies. Among other factors, the level and expected growth in return on tangible equity relative to those of the guideline companies and guideline transactions is considered Since the guideline company prices used are on a minority interest basis, the selection of the multiple considers the recent acquisition prices, which reflect control rights and privileges, in arriving at a multiple that reflects an appropriate control premium.

For the valuation under the income approach, the assumptions used as the basis for the model include cash flows for the forecasted period, the assumptions embedded in arriving at an estimation of the terminal value and the discount rate The cash flows for the forecasted period are estimated based on management's most recent projections available as of the testing date, giving consideration to targeted equity capital requirements based on selected public guideline companies for the reporting unit In arriving at the terminal value for each reporting unit, using 2014 as the terminal year, the assumptions used include a long-term growth rate and a price-to-tangible book multiple based on selected public guideline companies for the reporting unit The discount rate is based on the reporting unit's estimated cost of equity capital computed under the capital asset pricing model

Embedded in the key assumptions underlying the valuation model, described above, is the inherent uncertainty regarding the possibility that economic conditions that affect credit risk and behavior may vary or other events will occur that will impact the business model. Deterioration in the assumptions used in the valuations, in particular the discount-rate and growth-rate assumptions used in the net income projections, could affect Citigroup's impairment evaluation and, hence, the Company's net income While there is inherent uncertainty embedded in the assumptions used in developing management's forecasts, the assumptions used reflect management's best estimates as of the testing date.

If the future were to differ adversely from management's best estimate of key economic assumptions and associated cash flows were to significantly decrease, Citi could potentially experience future impairment charges with respect to goodwill Any such charges, by themselves, would not negatively affect Citi's Tier 1 and Total Capital regulatory ratios, Tier 1 Common ratio, its Tangible Common Equity or Citi's liquidity position.

The Company issues both fixed and variable rate debt in a range of currencies It uses derivative contracts, primarily interest rate swaps, to effectively convert a portion of its fixed rate debt to variable rate debt and variable rate debt to fixed rate debt The maturity structure of the derivatives generally corresponds to the maturity structure of the debt being hedged. In addition, the Company uses other derivative contracts to manage the foreign exchange impact of certain debt issuances. 20. REGULATORY CAPITAL

Citigroup is subject to risk-based capital and leverage guidelines issued by the Board of Governors of the Federal Reserve System (FRB) Its U.S insured depository institution subsidiaries, including Citibank, N.A., are subject to similar guidelines issued by their respective primary federal bank regulatory agencies. These guidelines are used to evaluate capital adequacy and include the required minimums shown in the following table

The regulatory agencies are required by law to take specific prompt actions with respect to institutions that do not meet minimum capital standards. As of December 31, 2011 and 2010, all of Citigroup's U S. insured subsidiary depository institutions were "well capitalized."

At December 31, 2011, regulatory capital as set forth in guidelines issued by the U.S. federal bank regulators is as follows:

In millions of dollars	Required minimum	Well-capitalized minimum	Citigroup	Citibank, N.A.
Tier 1 Common			$114,854	$121,269

Banking Subsidiaries–Constraints on Dividends

There are various legal limitations on the ability of Citigroup's subsidiary depository institutions to extend credit, pay dividends or otherwise supply funds to Citigroup and its non-bank subsidiaries. The approval of the Office of the Comptroller of the Currency is required if total dividends declared in any calendar year exceed amounts specified by the applicable agency's regulations. State-chartered depository institutions are subject to dividend limitations imposed by applicable state law.

In determining the dividends, each depository institution must also consider its effect on applicable risk-based capital and leverage ratio requirements, as well as policy statements of the federal regulatory agencies that indicate that banking organizations should generally pay dividends out of current operating earnings Citigroup received $10.9 billion in dividends from Citibank, N.A. in 2011.

Non-Banking Subsidiaries

Citigroup also receives dividends from its non-bank subsidiaries These non-bank subsidiaries are generally not subject to regulatory restrictions on dividends.

The ability of CGMHI to declare dividends can be restricted by capital considerations of its broker-dealer subsidiaries

22. SECURITIZATIONS AND VARIABLE INTEREST ENTITIES

Uses of SPEs

A special purpose entity (SPE) is an entity designed to fulfill a specific limited need of the company that organized it. The principal uses of SPEs are to obtain liquidity and favorable capital treatment by securitizing certain of Citigroup's financial assets, to assist clients in securitizing their financial assets and to create investment products for clients. SPEs may be organized in many legal forms including trusts, partnerships or corporations. In a securitization, the company transferring assets to an SPE converts all (or a portion) of those assets into cash before they would have been realized in the normal course of business through the SPE's issuance of debt and equity instruments, certificates, commercial paper and other notes of indebtedness, which are recorded on the balance sheet of the SPE and not reflected in the transferring company's balance sheet, assuming applicable accounting requirements are satisfied.

Investors usually have recourse to the assets in the SPE and often benefit from other credit enhancements, such as a collateral account or over-collateralization in the form of excess assets in the SPE, a line of credit, or from a liquidity facility, such as a liquidity put option or asset purchase agreement. The SPE can typically obtain a more favorable credit rating from rating agencies than the transferor could obtain for its own debt issuances, resulting in less expensive financing costs than unsecured debt. The SPE may also enter into derivative contracts in order to convert the yield or currency of the underlying assets to match the needs of the SPE investors or to limit or change the credit risk of the SPE. Citigroup may be the provider of certain credit enhancements as well as the counterparty to any related derivative contracts.

Most of Citigroup's SPEs are now VIEs, as described below.

Variable Interest Entities

VIEs are entities that have either a total equity investment that is insufficient to permit the entity to finance its activities without additional subordinated financial support, or whose equity investors lack the characteristics of a controlling financial interest (i.e., ability to make significant decisions through voting rights, and right to receive the expected residual returns of the entity or obligation to absorb the expected losses of the entity). Investors that finance the VIE through debt or equity interests or other counterparties that provide other forms of support, such as guarantees, subordinated fee arrangements, or certain types of derivative contracts, are variable interest holders in the entity.

The variable interest holder, if any, that has a controlling financial interest in a VIE is deemed to be the primary beneficiary and must consolidate the VIE. Citigroup would be deemed to have a controlling financial interest and be the primary beneficiary if it has both of the following characteristics:

- power to direct activities of a VIE that most significantly impact the entity's economic performance; and
- obligation to absorb losses of the entity that could potentially be significant to the VIE or right to receive benefits from the entity that could potentially be significant to the VIE.

The Company must evaluate its involvement in each VIE and understand the purpose and design of the entity, the role the Company had in the entity's design, and its involvement in the VIE's ongoing activities. The Company then must evaluate which activities most significantly impact the economic performance of the VIE and who has the power to direct such activities.

For those VIEs where the Company determines that it has the power to direct the activities that most significantly impact the VIE's economic performance, the Company then must evaluate its economic interests, if any, and determine whether it could absorb losses or receive benefits that could potentially be significant to the VIE. When evaluating whether the Company has an obligation to absorb losses that could potentially be significant, it considers the maximum exposure to such loss without consideration of probability. Such obligations could be in various forms, including but not limited to, debt and equity investments, guarantees, liquidity agreements, and certain derivative contracts.

In various other transactions, the Company may act as a derivative counterparty (for example, interest rate swap, cross-currency swap, or purchaser of credit protection under a credit default swap or total return swap where the Company pays the total return on certain assets to the SPE), may act as underwriter or placement agent, may provide administrative, trustee or other services, or may make a market in debt securities or other instruments issued by VIEs. The Company generally considers such involvement, by itself, not to be variable interests and thus not an indicator of power or potentially significant benefits or losses.

Citigroup's involvement with consolidated and unconsolidated VIEs with which the Company holds significant variable interests or has continuing involvement through servicing a majority of the assets in a VIE as of December 31, 2011 and December 31, 2010 is presented below.

The previous tables do not include:

- certain venture capital investments made by some of the Company's private equity subsidiaries, as the Company accounts for these investments in accordance with the Investment Company Audit Guide,
- certain limited partnerships that are investment funds that qualify for the deferral from the requirements of ASC 810 where the Company is the general partner and the limited partners have the right to replace the general partner or liquidate the funds,
- certain investment funds for which the Company provides investment management services and personal estate trusts for which the Company provides administrative, trustee and/or investment management services,
- VIEs structured by third parties where the Company holds securities in inventory. These investments are made on arm's-length terms,
- certain positions in mortgage-backed and asset-backed securities held by the Company, which are classified as *Trading account assets* or *Investments*, where the Company has no other involvement with the related securitization entity deemed to be significant. For more information on these positions, see Notes 14 and 15 to the Consolidated Financial Statements;
- certain representations and warranties exposures in legacy *Securities and Banking* mortgage-backed and asset-backed securitizations, where the Company has no variable interest or continuing involvement as servicer. The outstanding balance of the loans securitized was approximately $22 billion at December 31, 2011, related to legacy transactions sponsored by *Securities and Banking* during the period 2005 to 2008, and
- certain representations and warranties exposures in Consumer mortgage securitizations, where the original mortgage loan balances are no longer outstanding.

The asset balances for consolidated VIEs represent the carrying amounts of the assets consolidated by the Company. The carrying amount may represent the amortized cost or the current fair value of the assets depending on the legal form of the asset (e.g., security or loan) and the Company's standard accounting policies for the asset type and line of business.

The asset balances for unconsolidated VIEs where the Company has significant involvement represent the most current information available to the Company. In most cases, the asset balances represent an amortized cost basis without regard to impairments in fair value, unless fair value information is readily available to the Company. For VIEs that obtain asset exposures synthetically through derivative instruments (for example, synthetic CDOs), the tables generally include the full original notional amount of the derivative as an asset.

The maximum funded exposure represents the balance sheet carrying amount of the Company's investment in the VIE. It reflects the initial amount of cash invested in the VIE plus any accrued interest and is adjusted for any impairments in value recognized in earnings and any cash principal payments received. The maximum exposure of unfunded positions represents the remaining undrawn committed amount, including liquidity and credit facilities provided by the Company, or the notional amount of a derivative instrument considered to be a variable interest, adjusted for any declines in fair value recognized in earnings. In certain transactions, the Company has entered into derivative instruments or other arrangements that are not considered variable interests in the VIE (e.g., interest rate swaps, cross-currency swaps, or where the Company is the purchaser of credit protection under a credit default swap or total return swap where the Company pays the total return on certain assets to the SPE). Receivables under such arrangements are not included in the maximum exposure amounts.

Citicorp and Citi Holdings Consolidated VIEs

The Company engages in on-balance-sheet securitizations which are securitizations that do not qualify for sales treatment; thus, the assets remain on the Company's balance sheet. The consolidated VIEs included in the tables below represent hundreds of separate entities with which the Company is involved. In general, the third-party investors in the obligations of consolidated VIEs have legal recourse only to the assets of the VIEs and do not have such recourse to the Company, except where the Company has provided a guarantee to the investors or is the counterparty to certain derivative transactions involving the VIE. In addition, the assets are generally restricted only to pay such liabilities.

Thus, the Company's maximum legal exposure to loss related to consolidated VIEs is significantly less than the carrying value of the consolidated VIE assets due to outstanding third-party financing. Intercompany assets and liabilities are excluded from the table. All assets are restricted from being sold or pledged as collateral. The cash flows from these assets are the only source used to pay down the associated liabilities, which are non-recourse to the Company's general assets.

The following table presents the carrying amounts and classifications of consolidated assets that are collateral for consolidated VIE and SPE obligations:

Credit Card Securitizations

The Company securitizes credit card receivables through trusts that are established to purchase the receivables. Citigroup transfers receivables into the trusts on a non-recourse basis Credit card securitizations are revolving securitizations; that is, as customers pay their credit card balances, the cash proceeds are used to purchase new receivables and replenish the receivables in the trust. Since the adoption of SFAS 167 on January 1, 2010, the trusts are treated as consolidated entities, because, as servicer, Citigroup has the power to direct the activities that most significantly impact the economic performance of the trusts and also holds a seller's interest and certain securities issued by the trusts, and provides liquidity facilities to the trusts, which could result in potentially significant losses or benefits from the trusts Accordingly, the transferred credit card receivables are required to remain on the Consolidated Balance Sheet with no gain or loss recognized. The debt issued by the trusts to third parties is included in the Consolidated Balance Sheet

The Company relies on securitizations to fund a significant portion of its credit card businesses in *North America* The following table reflects amounts related to the Company's securitized credit card receivables:

Managed Loans

After securitization of credit card receivables, the Company continues to maintain credit card customer account relationships and provides servicing for receivables transferred to the trusts As a result, the Company considers the securitized credit card receivables to be part of the business it manages As Citigroup consolidates the credit card trusts, all managed securitized card receivables are on-balance sheet

Funding, Liquidity Facilities and Subordinated Interests

Citigroup securitizes credit card receivables through two securitization trusts—Citibank Credit Card Master Trust (Master Trust), which is part of Citicorp, and the Citibank OMNI Master Trust (Omni Trust), which is part of Citi Holdings as of December 31, 2011 The liabilities of the trusts are included in the Consolidated Balance Sheet, excluding those retained by Citigroup

Master Trust issues fixed- and floating-rate term notes Some of the term notes are issued to multi-seller commercial paper conduits. The weighted average maturity of the term notes issued by the Master Trust was 3.1 years as of December 31, 2011 and 3 4 years as of December 31, 2010

Mortgage Securitizations

The Company provides a wide range of mortgage loan products to a diverse customer base

Once originated, the Company often securitizes these loans through the use of SPEs. These SPEs are funded through the issuance of Trust Certificates backed solely by the transferred assets These certificates have the same average life as the transferred assets. In addition to providing a source of liquidity and less expensive funding, securitizing these assets also reduces the Company's credit exposure to the borrowers These mortgage loan securitizations are primarily non-recourse, thereby effectively transferring the risk of future credit losses to the purchasers of the securities issued by the trust However, the Company's Consumer business generally retains the servicing rights and in certain instances retains investment securities, interest-only strips and residual interests in future cash flows from the trusts and also provides servicing for a limited number of *Securities and Banking* securitizations. *Securities and Banking* and *Special Asset Pool* do not retain servicing for their mortgage securitizations.

The Company securitizes mortgage loans generally through either a government-sponsored agency, such as Ginnie Mae, FNMA or Freddie Mac (U.S. agency-sponsored mortgages), or private label (non-agency-sponsored mortgages) securitization. The Company is not the primary beneficiary of its U.S. agency-sponsored mortgage securitizations, because Citigroup does not have the power to direct the activities of the SPE that most significantly impact the entity's economic performance. Therefore, Citi does not consolidate these U.S. agency-sponsored mortgage securitizations.

The Company does not consolidate certain non-agency-sponsored mortgage securitizations because Citi is either not the servicer with the power to direct the significant activities of the entity or Citi is the servicer but the servicing relationship is deemed to be a fiduciary relationship and, therefore, Citi is not deemed to be the primary beneficiary of the entity.

In certain instances, the Company has (1) the power to direct the activities and (2) the obligation to either absorb losses or right to receive benefits that could be potentially significant to its non-agency-sponsored mortgage securitizations and, therefore, is the primary beneficiary and consolidates the SPE.

Mortgage Securitizations—Citicorp

The following tables summarize selected cash flow information related to mortgage securitizations for the years ended December 31, 2011, 2010 and 2009:

Gains (losses) recognized on the securitization of U.S. agency-sponsored mortgages during 2011 were $(8) million. For the year ended December 31, 2011, gains (losses) recognized on the securitization of non-agency-sponsored mortgages were $(1) million.

Agency and non-agency mortgage securitization gains (losses) for the years ended December 31, 2010 and 2009 were $(5) million and $18 million, respectively.

Key assumptions used in measuring the fair value of retained interests at the date of sale or securitization of mortgage receivables for the years ended December 31, 2011 and 2010 are as follows:

	December 31, 2011			December 31, 2010
		Non-agency-sponsored mortgages[1]		
	U.S. agency-sponsored mortgages	**Senior interests**	**Subordinated interests**	Agency- and non-agency-sponsored mortgages
Discount rate	**0.6% to 28.3%**	**2.4% to 10.0%**	**8.4% to 17.6%**	0.1% to 44.9%
Weighted average discount rate	**12.0%**	**4.5%**	**11.0%**	
Constant prepayment rate	**2.2% to 30.6%**	**1.0% to 2.2%**	**5.2% to 22.1%**	1.5% to 49.5%
Weighted average constant prepayment rate	**7.9%**	**1.9%**	**17.3%**	
Anticipated net credit losses[2]	**NM**	**35.0% to 72.0%**	**11.4% to 58.6%**	13.0% to 80.0%
Weighted average anticipated net credit losses	**NM**	**45.3%**	**25.0%**	

(1) Disclosure of non-agency-sponsored mortgages as senior and subordinated interests is indicative of the interests' position in the capital structure of the securitization.

(2) Anticipated net credit losses represent estimated loss severity associated with defaulted mortgage loans underlying the mortgage securitizations disclosed above. Anticipated net credit losses, in this instance, do not represent total credit losses incurred to date, nor do they represent credit losses expected on retained interests in mortgage securitizations.

NM Not meaningful. Anticipated net credit losses are not meaningful due to U.S. agency guarantees.

The range in the key assumptions is due to the different characteristics of the interests retained by the Company. The interests retained range from highly rated and/or senior in the capital structure to unrated and/or residual interests.

The effect of adverse changes of 10% and 20% in each of the key assumptions used to determine the fair value of retained interests is disclosed below. The negative effect of each change is calculated independently, holding all other assumptions constant. Because the key assumptions may not in fact be independent, the net effect of simultaneous adverse changes in the key assumptions may be less than the sum of the individual effects shown below.

At December 31, 2011, the key assumptions used to value retained interests and the sensitivity of the fair value to adverse changes of 10% and 20% in each of the key assumptions were as follows:

	December 31, 2011		
		Non-agency-sponsored mortgages[1]	
	U.S. agency-sponsored mortgages	Senior interests	Subordinated interests
Discount rate	1.3% to 16.4%	2.2% to 24.4%	1.3% to 28.1%
Weighted average discount rate	8.1%	9.6%	13.5%
Constant prepayment rate	18.9% to 30.6%	1.7% to 51.8%	0.6% to 29.1%
Weighted average constant prepayment rate	28.7%	26.2%	10.5%
Anticipated net credit losses[2]	NM	0.0% to 77.9%	29.3% to 90.0%
Weighted average anticipated net credit losses	NM	37.6%	57.2%

(1) Disclosure of non-agency-sponsored mortgages as senior and subordinated interests is indicative of the interests' position in the capital structure of the securitization.
(2) Anticipated net credit losses represent estimated loss severity associated with defaulted mortgage loans underlying the mortgage securitizations disclosed above. Anticipated net credit losses, in this instance, do not represent total credit losses incurred to date, nor do they represent credit losses expected on retained interests in mortgage securitizations.
NM Not meaningful. Anticipated net credit losses are not meaningful due to U.S. agency guarantees.

Cash flows received on retained interests and other net cash flows	0.1	—	0.1	0.4

The Company did not recognize gains (losses) on the securitization of U.S. agency- and non-agency-sponsored mortgages in the years ended December 31, 2011 and 2010.

The range in the key assumptions is due to the different characteristics of the interests retained by the Company. The interests retained range from highly rated and/or senior in the capital structure to unrated and/or residual interests.

The effect of adverse changes of 10% and 20% in each of the key assumptions used to determine the fair value of retained interests is disclosed below. The negative effect of each change is calculated independently, holding all other assumptions constant. Because the key assumptions may not in fact be independent, the net effect of simultaneous adverse changes in the key assumptions may be less than the sum of the individual effects shown below.

At December 31, 2011, the key assumptions used to value retained interests and the sensitivity of the fair value to adverse changes of 10% and 20% in each of the key assumptions were as follows:

Mortgage Servicing Rights

In connection with the securitization of mortgage loans, the Company's U S Consumer mortgage business retains the servicing rights, which entitle the Company to a future stream of cash flows based on the outstanding principal balances of the loans and the contractual servicing fee. Failure to service the loans in accordance with contractual requirements may lead to a termination of the servicing rights and the loss of future servicing fees.

The fair value of capitalized mortgage servicing rights (MSRs) was $2 6 billion and $4.6 billion at December 31, 2011 and 2010, respectively. The MSRs correspond to principal loan balances of $401 billion and $455 billion as of December 31, 2011 and 2010, respectively The following table summarizes the changes in capitalized MSRs for the years ended December 31, 2011 and 2010.

Balance, end of year	**$ 2,569**	$ 4,554

(1) Represents changes due to customer payments and passage of time

The market for MSRs is not sufficiently liquid to provide participants with quoted market prices Therefore, the Company uses an option-adjusted spread valuation approach to determine the fair value of MSRs. This approach consists of projecting servicing cash flows under multiple interest rate scenarios and discounting these cash flows using risk-adjusted discount rates. The key assumptions used in the valuation of MSRs include mortgage prepayment speeds and discount rates. The model assumptions and the MSRs' fair value estimates are compared to observable trades of similar MSR portfolios and interest-only security portfolios, as available, as well as to MSR broker valuations and industry surveys The cash flow model and underlying prepayment and interest rate models used to value these MSRs are subject to validation in accordance with the Company's model validation policies.

The fair value of the MSRs is primarily affected by changes in prepayments that result from shifts in mortgage interest rates. In managing this risk, the Company economically hedges a significant portion of the value of its MSRs through the use of interest rate derivative contracts, forward purchase commitments of mortgage-backed securities and purchased securities classified as trading

The Company receives fees during the course of servicing previously securitized mortgages. The amounts of these fees for the years ended December 31, 2011, 2010 and 2009 were as follows.

In millions of dollars	**2011**	2010	2009
Servicing fees	**$1,170**	$1,356	$1,635
Late fees	**76**	87	93

Total MSR fees	**$1,376**	$1,657	$1,805

These fees are classified in the Consolidated Statement of Income as *Other revenue*

Re-securitizations

The Company engages in re-securitization transactions in which debt securities are transferred to a VIE in exchange for new beneficial interests During the 12 months ended December 31, 2011, Citi transferred non-agency (private label) securities with an original par value of approximately $303 million to re-securitization entities. These securities are backed by either residential or commercial mortgages and are often structured on behalf of clients. As of December 31, 2011, the fair value of Citi-retained interests in private-label re-securitization transactions structured by Citi totaled approximately $340 million ($39 million of which relates to re-securitization transactions executed in 2011) and are recorded in trading assets Of this amount, approximately $17 million and $323 million related to senior and subordinated beneficial interests, respectively The original par value of private label re-securitization transactions in which Citi holds a retained interest as of December 31, 2011 was approximately $7 2 billion.

The Company also re-securitizes U S. government-agency guaranteed mortgage-backed (agency) securities During the 12 months ended December 31, 2011, Citi transferred agency securities with a fair value of approximately $37.7 billion to re-securitization entities As of December 31, 2011, the fair value of Citi-retained interests in agency re-securitization transactions structured by Citi totaled approximately $2 3 billion ($2 1 billion of which related to re-securitization transactions executed in 2011) and are recorded in trading assets The original fair value of agency re-securitization transactions in which Citi holds a retained interest as of December 31, 2011 was approximately $50.6 billion.

As of December 31, 2011, the Company did not consolidate any private-label or agency re-securitization entities.

Citi-Administered Asset-Backed Commercial Paper Conduits

The Company is active in the asset-backed commercial paper conduit business as administrator of several multi-seller commercial paper conduits and also as a service provider to single-seller and other commercial paper conduits sponsored by third parties.

Citi's multi-seller commercial paper conduits are designed to provide the Company's clients access to low-cost funding in the commercial paper markets The conduits purchase assets from or provide financing facilities to clients and are funded by issuing commercial paper to third-party investors. The conduits generally do not purchase assets originated by the Company. The funding of the conduits is facilitated by the liquidity support and credit enhancements provided by the Company

As administrator to Citi's conduits, the Company is generally responsible for selecting and structuring assets purchased or financed by the conduits, making decisions regarding the funding of the conduits, including determining the tenor and other features of the commercial paper issued, monitoring the quality and performance of the conduits' assets, and facilitating the operations and cash flows of the conduits. In return, the Company earns structuring fees from customers for individual transactions and earns an administration fee from the conduit, which is equal to the income from the client program and liquidity fees of the conduit after payment of conduit expenses. This administration fee is fairly stable, since most risks and rewards of the underlying assets are passed back to the clients and, once the asset pricing is negotiated, most ongoing income, costs and fees are relatively stable as a percentage of the conduit's size

The conduits administered by the Company do not generally invest in liquid securities that are formally rated by third parties The assets are privately negotiated and structured transactions that are designed to be held by the conduit, rather than actively traded and sold The yield earned by the conduit on each asset is generally tied to the rate on the commercial paper issued by the conduit, thus passing interest rate risk to the client Each asset purchased by the conduit is structured with transaction-specific credit enhancement features provided by the third-party client seller, including over collateralization, cash and excess spread collateral accounts, direct recourse or third-party guarantees These credit enhancements are sized with the objective of approximating a credit rating of A or above, based on the Company's internal risk ratings.

Substantially all of the funding of the conduits is in the form of short-term commercial paper, with a weighted average life generally ranging from 25 to 60 days. As of December 31, 2011 and December 31, 2010, the weighted average lives of the commercial paper issued by consolidated and unconsolidated conduits were approximately 37 and 41 days, respectively, at each period end.

The primary credit enhancement provided to the conduit investors is in the form of transaction-specific credit enhancement described above. In addition, each consolidated conduit has obtained a letter of credit from the Company, which needs to be sized to be at least 8–10% of the conduit's assets with a floor of $200 million The letters of credit provided by the Company to the consolidated conduits total approximately $2.0 billion. The net result across all multi-seller conduits administered by the Company is that, in the event defaulted assets exceed the transaction-specific credit enhancements described above, any losses in each conduit are allocated first to the Company and then the commercial paper investors

The Company also provides the conduits with two forms of liquidity agreements that are used to provide funding to the conduits in the event of a market disruption, among other events. Each asset of the conduits is supported by a transaction-specific liquidity facility in the form of an asset purchase agreement (APA) Under the APA, the Company has generally agreed to purchase non-defaulted eligible receivables from the conduit at par. The APA is not generally designed to provide credit support to the conduit, as it generally does not permit the purchase of defaulted or impaired assets Any funding under the APA will likely subject the underlying borrower to the conduits to increased interest costs. In addition, the Company provides the conduits with program-wide liquidity in the form of short-term lending commitments. Under these commitments, the Company has agreed to lend to the conduits in the event of a short-term disruption in the commercial paper market, subject to specified conditions The Company receives fees for providing both types of liquidity agreements and considers these fees to be on fair market terms

Finally, the Company is one of several named dealers in the commercial paper issued by the conduits and earns a market-based fee for providing such services. Along with third-party dealers, the Company makes a market in the commercial paper and may from time to time fund commercial paper pending sale to a third party. On specific dates with less liquidity in the market, the Company may hold in inventory commercial paper issued by conduits administered by the Company, as well as conduits administered by third parties The amount of commercial paper issued by its administered conduits held in inventory fluctuates based on market conditions and activity As of December 31, 2011, the Company owned $144 million of the commercial paper issued by its unconsolidated administered conduit

With the exception of the government-guaranteed loan conduit described below, the asset-backed commercial paper conduits are consolidated by the Company. The Company determined that through its role as administrator it had the power to direct the activities that most significantly impacted the entities' economic performance These powers included its ability to structure and approve the assets purchased by the conduits, its ongoing surveillance and credit mitigation activities, and its liability management. In addition, as a result of all the Company's involvement described above, it was concluded that the Company had an economic interest that could potentially be significant. However, the assets and liabilities of the conduits are separate and apart from those of Citigroup. No assets of any conduit are available to satisfy the creditors of Citigroup or any of its other subsidiaries.

The Company administers one conduit that originates loans to third-party borrowers and those obligations are fully guaranteed primarily by AAA-rated government agencies that support export and development financing programs. The economic performance of this government-guaranteed loan conduit is most significantly impacted by the performance of its underlying assets. The guarantors must approve each loan held by the entity and the guarantors have the ability (through establishment of the servicing terms to direct default mitigation and to purchase defaulted loans) to manage the conduit's loans that become delinquent to improve the economic performance of the conduit. Because the Company does not have the power to direct the activities of this government-guaranteed loan conduit that most significantly impact the economic performance of the entity, it was concluded that the Company should not consolidate the entity. The total notional exposure under the program-wide liquidity agreement for the Company's unconsolidated administered conduit as of December 31, 2011 is $0 6 billion The program-wide liquidity agreement, along with each asset APA, is considered in the Company's maximum exposure to loss to the unconsolidated administered conduit

As of December 31, 2011, this unconsolidated government-guaranteed loan conduit held assets of approximately $13 0 billion.

Third-Party Commercial Paper Conduits

The Company also provides liquidity facilities to single- and multi-seller conduits sponsored by third parties. These conduits are independently owned and managed and invest in a variety of asset classes, depending on the nature of the conduit The facilities provided by the Company typically represent a small portion of the total liquidity facilities obtained by each conduit, and are collateralized by the assets of each conduit. As of December 31, 2011, the notional amount of these facilities was approximately $746 million, of which $448 million was funded under these facilities. The Company is not the party that has the power to direct the activities of these conduits that most significantly impact their economic performance and thus does not consolidate them.

Collateralized Debt and Loan Obligations

A securitized collateralized debt obligation (CDO) is an SPE that purchases a pool of assets consisting of asset-backed securities and synthetic exposures through derivatives on asset-backed securities and issues multiple tranches of equity and notes to investors

A cash CDO, or arbitrage CDO, is a CDO designed to take advantage of the difference between the yield on a portfolio of selected assets, typically residential mortgage-backed securities, and the cost of funding the CDO through the sale of notes to investors "Cash flow" CDOs are entities in which the CDO passes on cash flows from a pool of assets, while "market value" CDOs pay to investors the market value of the pool of assets owned by the CDO at maturity. In these transactions, all of the equity and notes issued by the CDO are funded, as the cash is needed to purchase the debt securities.

A synthetic CDO is similar to a cash CDO, except that the CDO obtains exposure to all or a portion of the referenced assets synthetically through derivative instruments, such as credit default swaps. Because the CDO does not need to raise cash sufficient to purchase the entire referenced portfolio, a substantial portion of the senior tranches of risk is typically passed on to CDO investors in the form of unfunded liabilities or derivative instruments. Thus, the CDO writes credit protection on select referenced debt securities to the Company or third parties and the risk is then passed on to the CDO investors in the form of funded notes or purchased credit protection through derivative instruments Any cash raised from investors is invested in a portfolio of collateral securities or investment contracts The collateral is then used to support the obligations of the CDO on the credit default swaps written to counterparties

A securitized collateralized loan obligation (CLO) is substantially similar to the CDO transactions described above, except that the assets owned by the SPE (either cash instruments or synthetic exposures through derivative instruments) are corporate loans and to a lesser extent corporate bonds, rather than asset-backed debt securities

A third-party asset manager is typically retained by the CDO/CLO to select the pool of assets and manage those assets over the term of the SPE. The Company is the manager for a limited number of CLO transactions.

The Company earns fees for warehousing assets prior to the creation of a "cash flow" or "market value" CDO/CLO, structuring CDOs/CLOs and placing debt securities with investors. In addition, the Company has retained interests in many of the CDOs/CLOs it has structured and makes a market in the issued notes.

The Company's continuing involvement in synthetic CDOs/CLOs generally includes purchasing credit protection through credit default swaps with the CDO/CLO, owning a portion of the capital structure of the CDO/CLO in the form of both unfunded derivative positions (primarily super-senior exposures discussed below) and funded notes, entering into interest-rate swap and total-return swap transactions with the CDO/CLO, lending to the CDO/CLO, and making a market in the funded notes.

Where a CDO/CLO entity issues preferred shares (or subordinated notes that are the equivalent form), the preferred shares generally represent an insufficient amount of equity (less than 10%) and create the presumption that preferred shares are insufficient to finance the entity's activities without subordinated financial support. In addition, although the preferred shareholders generally have full exposure to expected losses on the collateral and uncapped potential to receive expected residual returns, they generally do not have the ability to make decisions about the entity that have a significant effect on the entity's financial results because of their limited role in making day-to-day decisions and their limited ability to remove the asset manager. Because one or both of the above conditions will generally be met, the Company has concluded that, even where a CDO/CLO entity issued preferred shares, the entity should be classified as a VIE.

In general, the asset manager, through its ability to purchase and sell assets or—where the reinvestment period of a CDO/CLO has expired—the ability to sell assets, will have the power to direct the activities of the entity that most significantly impact the economic performance of the CDO/CLO. However, where a CDO/CLO has experienced an event of default or an optional redemption period has gone into effect, the activities of the asset manager may be curtailed and/or certain additional rights will generally be provided to the investors in a CDO/CLO entity, including the right to direct the liquidation of the CDO/CLO entity.

The Company has retained significant portions of the "super-senior" positions issued by certain CDOs. These positions are referred to as "super-senior" because they represent the most senior positions in the CDO and, at the time of structuring, were senior to tranches rated AAA by independent rating agencies. The positions have included facilities structured in the form of short-term commercial paper, where the Company wrote put options ("liquidity puts") to certain CDOs. Under the terms of the liquidity puts, if the CDO was unable to issue commercial paper at a rate below a specified maximum (generally LIBOR + 35 bps to LIBOR + 40 bps), the Company was obligated to fund the senior tranche of the CDO at a specified interest rate. As of December 31, 2011, the Company no longer had exposure to this commercial paper as all of the underlying CDOs had been liquidated.

The Company does not generally have the power to direct the activities of the entity that most significantly impacts the economic performance of the CDOs/CLOs as this power is generally held by a third-party asset manager of the CDO/CLO. As such, those CDOs/CLOs are not consolidated. The Company may consolidate the CDO/CLO when: (i) the Company is the asset manager and no other single investor has the unilateral ability to remove the Company or unilaterally cause the liquidation of the CDO/CLO, or the Company is not the asset manager but has a unilateral right to remove the third-party asset manager or unilaterally liquidate the CDO/CLO and receive the underlying assets, and (ii) the Company has economic exposure to the entity that could be potentially significant to the entity.

The Company continues to monitor its involvement in unconsolidated CDOs/CLOs to assess future consolidation risk. For example, if the Company were to acquire additional interests in these entities and obtain the right, due to an event of default trigger being met, to unilaterally liquidate or direct the activities of a CDO/CLO, the Company may be required to consolidate the asset entity. For cash CDOs/CLOs, the net result of such consolidation would be to gross up the Company's balance sheet by the current fair value of the securities held by third parties and assets held by the CDO/CLO, which amounts are not considered material. For synthetic CDOs/CLOs, the net result of such consolidation may reduce the Company's balance sheet, because intercompany derivative receivables and payables would be eliminated in consolidation, and other assets held by the CDO/CLO and the securities held by third parties would be recognized at their current fair values.

Asset-Based Financing

The Company provides loans and other forms of financing to VIEs that hold assets. Those loans are subject to the same credit approvals as all other loans originated or purchased by the Company. Financings in the form of debt securities or derivatives are, in most circumstances, reported in *Trading account assets* and accounted for at fair value through earnings. The Company generally does not have the power to direct the activities that most significantly impact these VIEs' economic performance and thus it does not consolidate them

Municipal Securities Tender Option Bond (TOB) Trusts

TOB trusts hold fixed- and floating-rate, taxable and tax-exempt securities issued by state and local governments and municipalities. The trusts are typically single-issuer trusts whose assets are purchased from the Company or from other investors in the municipal securities market. The TOB trusts fund the purchase of their assets by issuing long-term, putable floating rate certificates (Floaters) and residual certificates (Residuals). The trusts are referred to as Tender Option Bond trusts because the Floater holders have the ability to tender their interests periodically back to the issuing trust, as described further below. The Floaters and Residuals evidence beneficial ownership interests in, and are collateralized by, the underlying assets of the trust The Floaters are held by third-party investors, typically tax-exempt money market funds The Residuals are typically held by the original owner of the municipal securities being financed.

The Floaters and the Residuals have a tenor that is equal to or shorter than the tenor of the underlying municipal bonds The Residuals entitle their holders to the residual cash flows from the issuing trust, the interest income generated by the underlying municipal securities net of interest paid on the Floaters and trust expenses The Residuals are rated based on the long-term rating of the underlying municipal bond. The Floaters bear variable interest rates that are reset periodically to a new market rate based on a spread to a high grade, short-term, tax-exempt index The Floaters have a long-term rating based on the long-term rating of the underlying municipal bond and a short-term rating based on that of the liquidity provider to the trust

There are two kinds of TOB trusts customer TOB trusts and non-customer TOB trusts Customer TOB trusts are trusts through which customers finance their investments in municipal securities. The Residuals are held by customers and the Floaters by third-party investors, typically tax-exempt money market funds Non-customer TOB trusts are trusts through which the Company finances its own investments in municipal securities. In such trusts, the Company holds the Residuals and third-party investors, typically tax-exempt money market funds, hold the Floaters

The Company serves as remarketing agent to the trusts, placing the Floaters with third-party investors at inception, facilitating the periodic reset of the variable rate of interest on the Floaters and remarketing any tendered Floaters. If Floaters are tendered and the Company (in its role as remarketing agent) is unable to find a new investor within a specified period of time, it can declare a failed remarketing, in which case the trust is unwound The Company may, but is not obligated to, buy the Floaters into its own inventory. The level of the Company's inventory of Floaters fluctuates over time. As of December 31, 2011, the Company held $120 million of Floaters related to both customer and non-customer TOB trusts.

For certain non-customer trusts, the Company also provides credit enhancement Approximately $240 million of the municipal bonds owned by TOB trusts have a credit guarantee provided by the Company

The Company provides liquidity to many of the outstanding trusts. If a trust is unwound early due to an event other than a credit event on the underlying municipal bond, the underlying municipal bonds are sold in the market. If there is a shortfall in the trust's cash flows between the redemption price of the tendered Floaters and the proceeds from the sale of the underlying municipal bonds, the trust draws on a liquidity agreement in an amount equal to the shortfall. For customer TOBs where the Residual is less than 25% of the trust's capital structure, the Company has a reimbursement agreement with the Residual holder under which the Residual holder reimburses the Company for any payment made under the liquidity arrangement. Through this reimbursement agreement, the Residual holder remains economically exposed to fluctuations in value of the underlying municipal bonds These reimbursement agreements are generally subject to daily margining based on changes in value of the underlying municipal bond In cases where a third party provides liquidity to a non-customer TOB trust, a similar reimbursement arrangement is made whereby the Company (or a consolidated subsidiary of the Company) as Residual holder absorbs any losses incurred by the liquidity provider

As of December 31, 2011, liquidity agreements provided with respect to customer TOB trusts totaled $5 4 billion of which $4 0 billion was offset by reimbursement agreements. The remaining exposure related to TOB transactions where the Residual owned by the customer was at least 25% of the bond value at the inception of the transaction and no reimbursement agreement was executed. The Company also provides other liquidity agreements or letters of credit to customer-sponsored municipal investment funds, that are not variable interest entities, and municipality-related issuers that totaled $11 7 billion as of December 31, 2011. These liquidity agreements and letters of credit are offset by reimbursement agreements with various term-out provisions. In addition, as of December 31, 2011 the Company has provided liquidity arrangements with a notional amount of $20 million for other non-consolidated non-customer TOB trusts described below

The Company considers the customer and non-customer TOB trusts to be VIEs. Customer TOB trusts are not consolidated by the Company. The Company has concluded that the power to direct the activities that most significantly impact the economic performance of the customer TOB trusts is primarily held by the customer Residual holder, who may unilaterally cause the sale of the trust's bonds.

Non-customer TOB trusts generally are consolidated. Similar to customer TOB trusts, the Company has concluded that the power over the non-customer TOB trusts is primarily held by the Residual holder, which may unilaterally cause the sale of the trust's bonds. Because the Company holds the Residual interest, and thus has the power to direct the activities that most significantly impact the trust's economic performance, it consolidates the non-customer TOB trusts.

Total assets in non-customer TOB trusts also include $22 million of assets where the Residuals are held by hedge funds that are consolidated and managed by the Company. The assets and the associated liabilities of these TOB trusts are not consolidated by the hedge funds (and, thus, are not consolidated by the Company) under the application of ASC 946, *Financial Services—Investment Companies*, which precludes consolidation of owned investments. The Company consolidates the hedge funds, because the Company holds controlling financial interests in the hedge funds Certain of the Company's equity investments in the hedge funds are hedged with derivatives transactions executed by the Company with third parties referencing the returns of the hedge fund.

Municipal Investments

Municipal investment transactions include debt and equity interests in partnerships that finance the construction and rehabilitation of low-income housing, facilitate lending in new or underserved markets, or finance the construction or operation of renewable municipal energy facilities. The Company generally invests in these partnerships as a limited partner and earns a return primarily through the receipt of tax credits and grants earned from the investments made by the partnership. The Company may also provide construction loans or permanent loans to the development or continuation of real estate properties held by partnerships. These entities are generally considered VIEs. The power to direct the activities of these entities is typically held by the general partner. Accordingly, these entities are not consolidated by the Company.

Client Intermediation

Client intermediation transactions represent a range of transactions designed to provide investors with specified returns based on the returns of an underlying security, referenced asset or index. These transactions include credit-linked notes and equity-linked notes. In these transactions, the VIE typically obtains exposure to the underlying security, referenced asset or index through a derivative instrument, such as a total-return swap or a credit-default swap. In turn the VIE issues notes to investors that pay a return based on the specified underlying security, referenced asset or index. The VIE invests the proceeds in a financial asset or a guaranteed insurance contract (GIC) that serves as collateral for the derivative contract over the term of the transaction. The Company's involvement in these transactions includes being the counterparty to the VIE's derivative instruments and investing in a portion of the notes issued by the VIE. In certain transactions, the investor's maximum risk of loss is limited and the Company absorbs risk of loss above a specified level. The Company does not have the power to direct the activities of the VIEs that most significantly impact their economic performance and thus it does not consolidate them

The Company's maximum risk of loss in these transactions is defined as the amount invested in notes issued by the VIE and the notional amount of any risk of loss absorbed by the Company through a separate instrument issued by the VIE The derivative instrument held by the Company may generate a receivable from the VIE (for example, where the Company purchases credit protection from the VIE in connection with the VIE's issuance of a credit-linked note), which is collateralized by the assets owned by the VIE. These derivative instruments are not considered variable interests and any associated receivables are not included in the calculation of maximum exposure to the VIE.

Investment Funds

The Company is the investment manager for certain investment funds that invest in various asset classes including private equity, hedge funds, real estate, fixed income and infrastructure. The Company earns a management fee, which is a percentage of capital under management, and may earn performance fees In addition, for some of these funds the Company has an ownership interest in the investment funds. The Company has also established a number of investment funds as opportunities for qualified employees to invest in private equity investments The Company acts as investment manager to these funds and may provide employees with financing on both recourse and non-recourse bases for a portion of the employees' investment commitments

The Company has determined that a majority of the investment entities managed by Citigroup are provided a deferral from the requirements of SFAS 167, *Amendments to FASB Interpretation No. 46(R)*, because they meet the criteria in Accounting Standards Update No 2010-10, *Consolidation (Topic 810), Amendments for Certain Investment Funds* (ASU 2010-10). These entities continue to be evaluated under the requirements of ASC 810-10, prior to the implementation of SFAS 167 (FIN 46(R), *Consolidation of Variable Interest Entities*), which required that a VIE be consolidated by the party with a variable interest that will absorb a majority of the entity's expected losses or residual returns, or both.

Where the Company has determined that certain investment entities are subject to the consolidation requirements of SFAS 167, the consolidation conclusions reached upon initial application of SFAS 167 are consistent with the consolidation conclusions reached under the requirements of ASC 810-10, prior to the implementation of SFAS 167.

Trust Preferred Securities

The Company has raised financing through the issuance of trust preferred securities In these transactions, the Company forms a statutory business trust and owns all of the voting equity shares of the trust The trust issues preferred equity securities to third-party investors and invests the gross proceeds in junior subordinated deferrable interest debentures issued by the Company. The trusts have no assets, operations, revenues or cash flows other than those related to the issuance, administration and repayment of the preferred equity securities held by third-party investors. Obligations of the trusts are fully and unconditionally guaranteed by the Company.

Because the sole asset of each of the trusts is a receivable from the Company and the proceeds to the Company from the receivable exceed the Company's investment in the VIE's equity shares, the Company is not permitted to consolidate the trusts, even though it owns all of the voting equity shares of the trust, has fully guaranteed the trusts' obligations, and has the right to redeem the preferred securities in certain circumstances The Company recognizes the subordinated debentures on its Consolidated Balance Sheet as long-term liabilities.

23. DERIVATIVES ACTIVITIES

In the ordinary course of business, Citigroup enters into various types of derivative transactions. These derivative transactions include:

- *Futures and forward contracts,* which are commitments to buy or sell at a future date a financial instrument, commodity or currency at a contracted price and may be settled in cash or through delivery
- *Swap contracts,* which are commitments to settle in cash at a future date or dates that may range from a few days to a number of years, based on differentials between specified financial indices, as applied to a notional principal amount.
- *Option contracts,* which give the purchaser, for a premium, the right, but not the obligation, to buy or sell within a specified time a financial instrument, commodity or currency at a contracted price that may also be settled in cash, based on differentials between specified indices or prices.

Citigroup enters into these derivative contracts relating to interest rate, foreign currency, commodity, and other market/credit risks for the following reasons:

- *Trading Purposes—Customer Needs:* Citigroup offers its customers derivatives in connection with their risk-management actions to transfer, modify or reduce their interest rate, foreign exchange and other market/credit risks or for their own trading purposes. As part of this process, Citigroup considers the customers' suitability for the risk involved and the business purpose for the transaction. Citigroup also manages its derivative risk positions through offsetting trade activities, controls focused on price verification, and daily reporting of positions to senior managers.
- *Trading Purposes—Own Account:* Citigroup trades derivatives for its own account and as an active market maker. Trading limits and price verification controls are key aspects of this activity
- *Hedging*—Citigroup uses derivatives in connection with its risk-management activities to hedge certain risks or reposition the risk profile of the Company. For example, Citigroup issues fixed-rate long-term debt and then enters into a receive-fixed, pay-variable-rate interest rate swap with the same tenor and notional amount to convert the interest payments to a net variable-rate basis. This strategy is the most common form of an interest rate hedge, as it minimizes interest cost in certain yield curve environments. Derivatives are also used to manage risks inherent in specific groups of on-balance-sheet assets and liabilities, including AFS securities and deposit liabilities, as well as other interest-sensitive assets and liabilities. In addition, foreign-exchange contracts are used to hedge non-U.S.-dollar-denominated debt, foreign-currency-denominated available-for-sale securities and net investment exposures.

Derivatives may expose Citigroup to market, credit or liquidity risks in excess of the amounts recorded on the Consolidated Balance Sheet. Market risk on a derivative product is the exposure created by potential fluctuations in interest rates, foreign-exchange rates and other factors and is a function of the type of product, the volume of transactions, the tenor and terms of the agreement, and the underlying volatility. Credit risk is the exposure to loss in the event of nonperformance by the other party to the transaction where the value of any collateral held is not adequate to cover such losses. The recognition in earnings of unrealized gains on these transactions is subject to management's assessment as to collectability. Liquidity risk is the potential exposure that arises when the size of the derivative position may not be able to be rapidly adjusted in periods of high volatility and financial stress at a reasonable cost.

Information pertaining to the volume of derivative activity is provided in the tables below. The notional amounts, for both long and short derivative positions, of Citigroup's derivative instruments as of December 31, 2011 and December 31, 2010 are presented in the table below.

(1) The notional amounts presented in this table do not include hedge accounting relationships under ASC 815 (SFAS 133) where Citigroup is hedging the foreign currency risk of a net investment in a foreign operation by issuing a foreign currency-denominated debt instrument. The notional amount of such debt is $7,060 million and $8,023 million at December 31, 2011 and December 31, 2010, respectively.

(2) Derivatives in hedge accounting relationships accounted for under ASC 815 (SFAS 133) are recorded in either *Other assets/Other liabilities* or *Trading account assets/Trading account liabilities* on the Consolidated Balance Sheet.

(3) Management hedges represent derivative instruments used in certain economic hedging relationships that are identified for management purposes, but for which hedge accounting is not applied. These derivatives are recorded in either *Other assets/Other liabilities* or *Trading account assets/Trading account liabilities* on the Consolidated Balance Sheet.

(4) Credit derivatives are arrangements designed to allow one party (protection buyer) to transfer the credit risk of a "reference asset" to another party (protection seller). These arrangements allow a protection seller to assume the credit risk associated with the reference asset without directly purchasing that asset. The Company has entered into credit derivative positions for purposes such as risk management, yield enhancement, reduction of credit concentrations and diversification of overall risk.

Accounting for Derivative Hedging

Citigroup accounts for its hedging activities in accordance with ASC 815, *Derivatives and Hedging* (formerly SFAS 133) As a general rule, hedge accounting is permitted where the Company is exposed to a particular risk, such as interest-rate or foreign-exchange risk, that causes changes in the fair value of an asset or liability or variability in the expected future cash flows of an existing asset, liability or a forecasted transaction that may affect earnings.

Derivative contracts hedging the risks associated with the changes in fair value are referred to as fair value hedges, while contracts hedging the risks affecting the expected future cash flows are called cash flow hedges. Hedges that utilize derivatives or debt instruments to manage the foreign exchange risk associated with equity investments in non-U.S -dollar-functional-currency foreign subsidiaries (net investment in a foreign operation) are called net investment hedges

If certain hedging criteria specified in ASC 815 are met, including testing for hedge effectiveness, special hedge accounting may be applied. The hedge effectiveness assessment methodologies for similar hedges are performed in a similar manner and are used consistently throughout the hedging relationships For fair value hedges, the changes in value of the hedging derivative, as well as the changes in value of the related hedged item due to the risk being hedged, are reflected in current earnings. For cash flow hedges and net investment hedges, the changes in value of the hedging derivative are reflected in *Accumulated other comprehensive income (loss)* in Citigroup's stockholders' equity, to the extent the hedge is effective. Hedge ineffectiveness, in either case, is reflected in current earnings.

For asset/liability management hedging, the fixed-rate long-term debt would be recorded at amortized cost under current U.S. GAAP. However, by electing to use ASC 815 (SFAS 133) fair value hedge accounting, the carrying value of the debt is adjusted for changes in the benchmark interest rate, with any such changes in value recorded in current earnings. The related interest-rate swap is also recorded on the balance sheet at fair value, with any changes in fair value reflected in earnings. Thus, any ineffectiveness resulting from the hedging relationship is recorded in current earnings. Alternatively, a management hedge, which does not meet the ASC 815 hedging criteria, would involve recording only the derivative at fair value on the balance sheet, with its associated changes in fair value recorded in earnings. The debt would continue to be carried at amortized cost and, therefore, current earnings would be impacted only by the interest rate shifts and other factors that cause the change in the swap's value and may change the underlying yield of the debt. This type of hedge is undertaken when hedging requirements cannot be achieved or management decides not to apply ASC 815 hedge accounting. Another alternative for the Company would be to elect to carry the debt at fair value under the fair value option. Once the irrevocable election is made upon issuance of the debt, the full change in fair value of the debt would be reported in earnings. The related interest rate swap, with changes in fair value, would also be reflected in earnings, and provides a natural offset to the debt's fair value change. To the extent the two offsets are not exactly equal, the difference would be reflected in current earnings.

Key aspects of achieving ASC 815 hedge accounting are documentation of hedging strategy and hedge effectiveness at the hedge inception and substantiating hedge effectiveness on an ongoing basis. A derivative must be highly effective in accomplishing the hedge objective of offsetting either changes in the fair value or cash flows of the hedged item for the risk being hedged. Any ineffectiveness in the hedge relationship is recognized in current earnings. The assessment of effectiveness excludes changes in the value of the hedged item that are unrelated to the risks being hedged. Similarly, the assessment of effectiveness may exclude changes in the fair value of a derivative related to time value that, if excluded, are recognized in current earnings.

Fair Value Hedges

Hedging of benchmark interest rate risk

Citigroup hedges exposure to changes in the fair value of outstanding fixed-rate issued debt and certificates of deposit. The fixed cash flows from those financing transactions are converted to benchmark variable-rate cash flows by entering into receive-fixed, pay-variable interest rate swaps. Some of these fair value hedge relationships use dollar-offset ratio analysis to determine whether the hedging relationships are highly effective at inception and on an ongoing basis, while others use regression.

Citigroup also hedges exposure to changes in the fair value of fixed-rate assets, including available-for-sale debt securities and loans. The hedging instruments used are receive-variable, pay-fixed interest rate swaps. Some of these fair value hedging relationships use dollar-offset ratio analysis to determine whether the hedging relationships are highly effective at inception and on an ongoing basis, while others use regression analysis.

Hedging of foreign exchange risk

Citigroup hedges the change in fair value attributable to foreign-exchange rate movements in available-for-sale securities that are denominated in currencies other than the functional currency of the entity holding the securities, which may be within or outside the U.S. The hedging instrument employed is a forward foreign-exchange contract. In this type of hedge, the change in fair value of the hedged available-for-sale security attributable to the portion of foreign exchange risk hedged is reported in earnings and not *Accumulated other comprehensive income*—a process that serves to offset substantially the change in fair value of the forward contract that is also reflected in earnings. Citigroup considers the premium associated with forward contracts (differential between spot and contractual forward rates) as the cost of hedging; this is excluded from the assessment of hedge effectiveness and reflected directly in earnings. The dollar-offset method is used to assess hedge effectiveness. Since that assessment is based on changes in fair value attributable to changes in spot rates on both the available-for-sale securities and the forward contracts for the portion of the relationship hedged, the amount of hedge ineffectiveness is not significant.

The following table summarizes the gains (losses) on the Company's fair value hedges for the years ended December 31, 2011, 2010 and 2009

Cash Flow Hedges

Hedging of benchmark interest rate risk

Citigroup hedges variable cash flows resulting from floating-rate liabilities and rollover (re-issuance) of short-term liabilities. Variable cash flows from those liabilities are converted to fixed-rate cash flows by entering into receive-variable, pay-fixed interest rate swaps and receive-variable, pay-fixed forward-starting interest rate swaps These cash-flow hedging relationships use either regression analysis or dollar-offset ratio analysis to assess whether the hedging relationships are highly effective at inception and on an ongoing basis When certain interest rates do not qualify as a benchmark interest rate, Citigroup designates the risk being hedged as the risk of overall changes in the hedged cash flows Since efforts are made to match the terms of the derivatives to those of the hedged forecasted cash flows as closely as possible, the amount of hedge ineffectiveness is not significant

Hedging of foreign exchange risk

Citigroup locks in the functional currency equivalent cash flows of long-term debt and short-term borrowings that are denominated in a currency other than the functional currency of the issuing entity Depending on the risk management objectives, these types of hedges are designated as either cash flow hedges of only foreign exchange risk or cash flow hedges of both foreign exchange and interest rate risk, and the hedging instruments used are foreign exchange cross-currency swaps and forward contracts. These cash flow hedge relationships use dollar-offset ratio analysis to determine whether the hedging relationships are highly effective at inception and on an ongoing basis

Hedging total return

Citigroup generally manages the risk associated with highly leveraged financing it has entered into by seeking to sell a majority of its exposures to the market prior to or shortly after funding The portion of the highly leveraged financing that is retained by Citigroup is generally hedged with a total return swap

The amount of hedge ineffectiveness on the cash flow hedges recognized in earnings for the years ended December 31, 2011, 2010 and 2009 is not significant.

(1) Included primarily in *Other revenue* and *Net interest revenue* on the Consolidated Income Statement

For cash flow hedges, any changes in the fair value of the end-user derivative remaining in *Accumulated other comprehensive income (loss)* on the Consolidated Balance Sheet will be included in earnings of future periods to offset the variability of the hedged cash flows when such cash flows affect earnings. The net loss associated with cash flow hedges expected to be reclassified from *Accumulated other comprehensive income (loss)* within 12 months of December 31, 2011 is approximately $1 1 billion. The maximum length of time over which forecasted cash flows are hedged is 10 years

The after-tax impact of cash flow hedges on AOCI is shown in Note 21 to the Consolidated Financial Statement

Net Investment Hedges

Consistent with ASC 830-20, *Foreign Currency Matters—Foreign Currency Transactions* (formerly SFAS 52, *Foreign Currency Translation)*, ASC 815 allows hedging of the foreign currency risk of a net investment in a foreign operation. Citigroup uses foreign currency forwards, options, swaps and foreign-currency-denominated debt instruments to manage the foreign exchange risk associated with Citigroup's equity investments in several non-U.S. dollar functional currency foreign subsidiaries Citigroup records the change in the carrying amount of these investments in the *Foreign currency translation adjustment* account within *Accumulated other comprehensive income (loss)*. Simultaneously, the effective portion of the hedge of this exposure is also recorded in the *Foreign currency translation adjustment* account and the ineffective portion, if any, is immediately recorded in earnings

For derivatives used in net investment hedges, Citigroup follows the forward-rate method from FASB Derivative Implementation Group Issue H8 (now ASC 815-35-35-16 through 35-26), "Foreign Currency Hedges Measuring the Amount of Ineffectiveness in a Net Investment Hedge " According to that method, all changes in fair value, including changes related to the forward-rate component of the foreign currency forward contracts and the time value of foreign currency options, are recorded in the *Foreign currency translation adjustment* account within *Accumulated other comprehensive income (loss)*

For foreign-currency-denominated debt instruments that are designated as hedges of net investments, the translation gain or loss that is recorded in the *Foreign currency translation adjustment* account is based on the spot exchange rate between the functional currency of the respective subsidiary and the U.S dollar, which is the functional currency of Citigroup. To the extent the notional amount of the hedging instrument exactly matches the hedged net investment and the underlying exchange rate of the derivative hedging instrument relates to the exchange rate between the functional currency of the net investment and Citigroup's functional currency (or, in the case of a non-derivative debt instrument, such instrument is denominated in the functional currency of the net investment), no ineffectiveness is recorded in earnings

The pretax gain (loss) recorded in the *Foreign currency translation adjustment* account within *Accumulated other comprehensive income (loss)*, related to the effective portion of the net investment hedges, is $904 million, $(3,620) million, and $(4,727) million, for the years ended December 31, 2011, 2010 and 2009, respectively.

Credit Derivatives

A credit derivative is a bilateral contract between a buyer and a seller under which the seller agrees to provide protection to the buyer against the credit risk of a particular entity ("reference entity" or "reference credit"). Credit derivatives generally require that the seller of credit protection make payments to the buyer upon the occurrence of predefined credit events (commonly referred to as "settlement triggers") These settlement triggers are defined by the form of the derivative and the reference credit and are generally limited to the market standard of failure to pay on indebtedness and bankruptcy of the reference credit and, in a more limited range of transactions, debt restructuring Credit derivative transactions referring to emerging market reference credits will also typically include additional settlement triggers to cover the acceleration of indebtedness and the risk of repudiation or a payment moratorium In certain transactions, protection may be provided on a portfolio of referenced credits or asset-backed securities The seller of such protection may not be required to make payment until a specified amount of losses has occurred with respect to the portfolio and/or may only be required to pay for losses up to a specified amount

The Company makes markets in and trades a range of credit derivatives, both on behalf of clients as well as for its own account. Through these contracts, the Company either purchases or writes protection on either a single name or a portfolio of reference credits. The Company uses credit derivatives to help mitigate credit risk in its Corporate and Consumer loan portfolios and other cash positions, to take proprietary trading positions, and to facilitate client transactions.

The range of credit derivatives sold includes credit default swaps, total return swaps, credit options and credit-linked notes.

A credit default swap is a contract in which, for a fee, a protection seller agrees to reimburse a protection buyer for any losses that occur due to a credit event on a reference entity. If there is no credit default event or settlement trigger, as defined by the specific derivative contract, then the protection seller makes no payments to the protection buyer and receives only the contractually specified fee. However, if a credit event occurs as defined in the specific derivative contract sold, the protection seller will be required to make a payment to the protection buyer.

A total return swap transfers the total economic performance of a reference asset, which includes all associated cash flows, as well as capital appreciation or depreciation. The protection buyer receives a floating rate of interest and any depreciation on the reference asset from the protection seller and, in return, the protection seller receives the cash flows associated with the reference asset plus any appreciation. Thus, according to the total return swap agreement, the protection seller will be obligated to make a payment any time the floating interest rate payment and any depreciation of the reference asset exceed the cash flows associated with the underlying asset. A total return swap may terminate upon a default of the reference asset subject to the provisions of the related total return swap agreement between the protection seller and the protection buyer.

A credit option is a credit derivative that allows investors to trade or hedge changes in the credit quality of the reference asset. For example, in a credit spread option, the option writer assumes the obligation to purchase or sell the reference asset at a specified "strike" spread level. The option purchaser buys the right to sell the reference asset to, or purchase it from, the option writer at the strike spread level. The payments on credit spread options depend either on a particular credit spread or the price of the underlying credit-sensitive asset. The options usually terminate if the underlying assets default.

A credit-linked note is a form of credit derivative structured as a debt security with an embedded credit default swap. The purchaser of the note writes credit protection to the issuer, and receives a return which will be negatively affected by credit events on the underlying reference credit. If the reference entity defaults, the purchaser of the credit-linked note may assume the long position in the debt security and any future cash flows from it, but will lose the amount paid to the issuer of the credit-linked note. Thus the maximum amount of the exposure is the carrying amount of the credit-linked note. As of December 31, 2011 and December 31, 2010, the amount of credit-linked notes held by the Company in trading inventory was immaterial.

The following tables summarize the key characteristics of the Company's credit derivative portfolio as protection seller as of December 31, 2011 and December 31, 2010:

Determination of Fair Value

For assets and liabilities carried at fair value, the Company measures such value using the procedures set out below, irrespective of whether these assets and liabilities are carried at fair value as a result of an election or whether they were previously carried at fair value.

When available, the Company generally uses quoted market prices to determine fair value and classifies such items as Level 1. In some cases where a market price is available, the Company will make use of acceptable practical expedients (such as matrix pricing) to calculate fair value, in which case the items are classified as Level 2.

If quoted market prices are not available, fair value is based upon internally developed valuation techniques that use, where possible, current market-based or independently sourced market parameters, such as interest rates, currency rates, option volatilities, etc Items valued using such internally generated valuation techniques are classified according to the lowest level input or value driver that is significant to the valuation. Thus, an item may be classified in Level 3 even though there may be some significant inputs that are readily observable.

Where available, the Company may also make use of quoted prices for recent trading activity in positions with the same or similar characteristics to that being valued. The frequency and size of transactions and the amount of the bid-ask spread are among the factors considered in determining the liquidity of markets and the relevance of observed prices from those markets. If relevant and observable prices are available, those valuations would be classified as Level 2. If prices are not available, other valuation techniques would be used and the item would be classified as Level 3.

Fair value estimates from internal valuation techniques are verified, where possible, to prices obtained from independent vendors or brokers Vendors and brokers' valuations may be based on a variety of inputs ranging from observed prices to proprietary valuation models.

The following section describes the valuation methodologies used by the Company to measure various financial instruments at fair value, including an indication of the level in the fair value hierarchy in which each instrument is generally classified. Where appropriate, the description includes details of the valuation models, the key inputs to those models and any significant assumptions

Securities purchased under agreements to resell and securities sold under agreements to repurchase

No quoted prices exist for such instruments and so fair value is determined using a discounted cash-flow technique. Cash flows are estimated based on the terms of the contract, taking into account any embedded derivative or other features. Expected cash flows are discounted using market rates appropriate to the maturity of the instrument as well as the nature and amount of collateral taken or received. Generally, when such instruments are held at fair value, they are classified within Level 2 of the fair value hierarchy as the inputs used in the valuation are readily observable

Trading account assets and liabilities—trading securities and trading loans

When available, the Company uses quoted market prices to determine the fair value of trading securities; such items are classified as Level 1 of the fair value hierarchy. Examples include some government securities and exchange-traded equity securities.

For bonds and secondary market loans traded over the counter, the Company generally determines fair value utilizing internal valuation techniques. Fair value estimates from internal valuation techniques are verified, where possible, to prices obtained from independent vendors. Vendors compile prices from various sources and may apply matrix pricing for similar bonds or loans where no price is observable. If available, the Company may also use quoted prices for recent trading activity of assets with similar characteristics to the bond or loan being valued. Trading securities and loans priced using such methods are generally classified as Level 2. However, when less liquidity exists for a security or loan, a quoted price is stale or prices from independent sources vary, a loan or security is generally classified as Level 3.

Where the Company's principal market for a portfolio of loans is the securitization market, the Company uses the securitization price to determine the fair value of the portfolio. The securitization price is determined from the assumed proceeds of a hypothetical securitization in the current market, adjusted for transformation costs (i.e., direct costs other than transaction costs) and securitization uncertainties such as market conditions and liquidity. As a result of the severe reduction in the level of activity in certain securitization markets since the second half of 2007, observable securitization prices for certain directly comparable portfolios of loans have not been readily available. Therefore, such portfolios of loans are generally classified as Level 3 of the fair value hierarchy However, for other loan securitization markets, such as commercial real estate loans, pricing verification of the hypothetical securitizations has been possible, since these markets have remained active Accordingly, this loan portfolio is classified as Level 2 in the fair value hierarchy

Trading account assets and liabilities—derivatives

Exchange-traded derivatives are generally fair valued using quoted market (i.e., exchange) prices and so are classified as Level 1 of the fair value hierarchy.

The majority of derivatives entered into by the Company are executed over the counter and so are valued using internal valuation techniques as no quoted market prices exist for such instruments. The valuation techniques and inputs depend on the type of derivative and the nature of the underlying instrument The principal techniques used to value these instruments are discounted cash flows, Black-Scholes and Monte Carlo simulation. The fair values of derivative contracts reflect cash the Company has paid or received (for example, option premiums paid and received)

The key inputs depend upon the type of derivative and the nature of the underlying instrument and include interest rate yield curves, foreign-exchange rates, the spot price of the underlying volatility and correlation The item is placed in either Level 2 or Level 3 depending on the observability of the significant inputs to the model. Correlation and items with longer tenors are generally less observable.

In the fourth quarter of 2011, the Company began incorporating overnight indexed swap ("OIS") curves as fair value measurement inputs for the valuation of certain collateralized interest-rate related derivatives The OIS curves reflect the interest rates paid on cash collateral provided against the fair value of these derivatives. The Company believes using relevant OIS curves as inputs to determine fair value measurements provides a more representative reflection of the fair value of these collateralized interest-rate related derivatives. Previously, the Company used the relevant benchmark curve for the currency of the derivative (e g , the London Interbank Offered Rate for U S dollar derivatives) as the discount rate for these collateralized interest-rate related derivatives. The Company recognized a pretax gain of approximately $167 million upon the change in this fair value measurement input. For further information on derivative instruments and hedging activities, see Note 23

Subprime-related direct exposures in CDOS

The valuation of high-grade and mezzanine asset-backed security (ABS) CDO positions uses trader prices based on the underlying assets of each high-grade and mezzanine ABS CDO The high-grade and mezzanine positions are now largely hedged through the ABX and bond short positions, which are trader priced This results in closer symmetry in the way these long and short positions are valued by the Company. Citigroup uses trader marks to value this portion of the portfolio and will do so as long as it remains largely hedged

For most of the lending and structuring direct subprime exposures, fair value is determined utilizing observable transactions where available, other market data for similar assets in markets that are not active and other internal valuation techniques

Investments

The investments category includes available-for-sale debt and marketable equity securities, whose fair value is determined using the same procedures described for trading securities above or, in some cases, using vendor prices as the primary source.

Also included in investments are nonpublic investments in private equity and real estate entities held by the S&B business. Determining the fair value of nonpublic securities involves a significant degree of management resources and judgment as no quoted prices exist and such securities are generally very thinly traded In addition, there may be transfer restrictions on private equity securities The Company uses an established process for determining the fair value of such securities, using commonly accepted valuation techniques, including the use of earnings multiples based on comparable public securities, industry-specific non-earnings-based multiples and discounted cash flow models. In determining the fair value of nonpublic securities, the Company also considers events such as a proposed sale of the investee company, initial public offerings, equity issuances or other observable transactions. As discussed in Note 15 to the Consolidated Financial Statements, the Company uses NAV to value certain of these entities.

Private equity securities are generally classified as Level 3 of the fair value hierarchy.

Short-term borrowings and long-term debt

Where fair value accounting has been elected, the fair values of non-structured liabilities are determined by discounting expected cash flows using the appropriate discount rate for the applicable maturity. Such instruments are generally classified as Level 2 of the fair value hierarchy as all inputs are readily observable.

The Company determines the fair values of structured liabilities (where performance is linked to structured interest rates, inflation or currency risks) and hybrid financial instruments (performance linked to risks other than interest rates, inflation or currency risks) using the appropriate derivative valuation methodology (described above) given the nature of the embedded risk profile Such instruments are classified as Level 2 or Level 3 depending on the observability of significant inputs to the model

Changes in Level 3 Fair Value Category

The following tables present the changes in the Level 3 fair value category for the twelve months ended December 31, 2011 and December 31, 2010. The Company classifies financial instruments in Level 3 of the fair value hierarchy when there is reliance on at least one significant unobservable input to the valuation model. In addition to these unobservable inputs, the valuation models for Level 3 financial instruments typically also rely on a number of inputs that are readily observable either directly or indirectly. Thus, the gains and losses presented below include changes in the fair value related to both observable and unobservable inputs.

The Company often hedges positions with offsetting positions that are classified in a different level. For example, the gains and losses for assets and liabilities in the Level 3 category presented in the tables below do not reflect the effect of offsetting losses and gains on hedging instruments that have been classified by the Company in the Level 1 and Level 2 categories. In addition, the Company hedges items classified in the Level 3 category with instruments also classified in Level 3 of the fair value hierarchy. The effects of these hedges are presented gross in the following tables.

(1) Changes in fair value for available-for-sale investments (debt securities) are recorded in *Accumulated other comprehensive income (loss)*, while gains and losses from sales are recorded in *Realized gains (losses) from sales of investments* on the Consolidated Statement of Income

(2) Unrealized gains (losses) on MSRs are recorded in *Other revenue* on the Consolidated Statement of Income

(3) Represents the amount of total gains or losses for the period, included in earnings (and *Accumulated other comprehensive income (loss)* for changes in fair value for available-for-sale investments), attributable to the change in fair value relating to assets and liabilities classified as Level 3 that are still held at December 31, 2011 and 2010

(4) Total Level 3 derivative assets and liabilities have been netted in these tables for presentation purposes only

(5) Reflects the reclassification of $1,127 million of structured reverse repos from *Federal funds purchased and securities loaned or sold under agreements to repurchase* to *Federal funds sold and securities borrowed or purchased under agreements to resell*. These structured reverse repos assets were incorrectly classified in 2009, but were correctly classified on Citi's Consolidated Balance Sheet for all periods

The significant changes from December 31, 2010 to December 31, 2011 in Level 3 assets and liabilities were due to

- A net decrease in trading securities of $3.9 billion that included:
  - The reclassification of $4.3 billion of securities from *Investments* held-to-maturity to *Trading account assets*. These reclassifications have been included in purchases in the Level 3 roll-forward table above. The Level 3 assets reclassified, and subsequently sold, included $2.8 billion of trading mortgage-backed securities (of which $1.5 billion were Alt-A, $1.0 billion were prime, $0.2 billion were subprime and $0.1 billion were commercial), $0.9 billion of state and municipal debt securities, $0.3 billion of corporate debt securities and $0.2 billion of asset-backed securities
  - Purchases of corporate debt trading securities of $3.0 billion and sales of $3.6 billion, reflecting strong trading activity

- Purchases of asset-backed securities of $5.0 billion and sales of $5 9 billion, reflecting trading in CLO and CDO positions.
- Transfers of $2 3 billion from Level 2 to Level 3, consisting mainly of transfers of corporate debt securities of $1 5 billion due primarily to less price transparency for these securities.
- Settlements of $5.0 billion, which included $1.2 billion related to the scheduled termination of a structured transaction, with a corresponding decrease in *Long-term debt*, and $1 billion of redemptions of auction rate securities.

- A net increase in interest rate contracts of $1.5 billion, including transfers of $1 5 billion from Level 2 to Level 3.
- A net decrease in credit derivatives of $0 6 billion. The net decrease was comprised of gains of $0.5 billion recorded in *Principal transactions*, relating mainly to total return swaps referencing returns on corporate loans, offset by losses on the referenced loans which are classified as Level 2. Settlements of $1 3 billion related primarily to the settlement of certain contracts under which the Company had purchased credit protection on commercial mortgage-backed securities from a single counterparty.
- A net decrease in Level 3 *Investments* of $0 5 billion. There was a net increase in non-marketable equity securities of $1.4 billion. Purchases of non-marketable equity securities of $4.9 billion included Citi's acquisition of the share capital of Maltby Acquisitions Limited, the holding company that controls EMI Group Ltd. Purchases also included subscriptions in Citi-advised private equity and hedge funds Sales of $1 8 billion and settlements of $1 7 billion related primarily to sales and redemptions by the Company of investments in private equity and hedge funds.
- A net increase in *Loans* of $1.5 billion, including transfers from Level 2 to Level 3 of $0 4 billion, due to a lack of observable prices Issuances of $2 0 billion included new margin loans advanced by the Company.
- A net decrease in *Mortgage servicing rights* of $2 0 billion, due to a reduction in interest rates
- A net decrease in Level 3 *Long-term debt* of $2 4 billion, which included settlements of $2.1 billion, $1 2 billion of which related to the scheduled termination of a structured transaction, with a corresponding decrease in corporate debt trading securities

The significant changes from December 31, 2009 to December 31, 2010 in Level 3 assets and liabilities are due to

- An increase in *Federal funds sold and securities borrowed or purchased under agreements to resell* of $3 8 billion, driven primarily by transfers of certain collateralized long-dated callable reverse repos (structured reverse repos) of $3 0 billion from Level 2 to Level 3. The Company has noted that there is more transparency and observability for repo curves (used in the determination of the fair value of structured reverse repos) with a tenor of five years or less, thus, structured reverse repos that are expected to mature beyond the five-year point are generally classified as Level 3. The primary factor driving the change in expected maturities in structured reverse repo transactions is the embedded call option feature that enables the investor (the Company) to elect to terminate the trade early. During 2010, the decrease in interest rates caused the estimated maturity dates of certain structured reverse repos to lengthen to more than five years, resulting in the transfer from Level 2 to Level 3.
- A net decrease in trading securities of $20.8 billion that was driven by:
  - A net decrease of $10 2 billion in trading mortgage-backed securities, driven mainly by liquidations of subprime securities of $7.5 billion and commercial mortgage-backed securities of $1 8 billion;
  - A net increase of $3.8 billion in asset-backed securities, including transfers to Level 3 of $5.0 billion. Substantially all of these Level 3 transfers related to the reclassification of certain securities to trading securities under the fair value option upon adoption of ASU 2010-11 on July 1, 2010, as described in Note 1 to the Consolidated Financial Statements (for purposes of the Level 3 roll-forward table above, Level 3 investments that were reclassified to trading upon adoption of ASU 2010-11 have been classified as transfers to Level 3 trading securities); and
  - A decrease of $11.9 billion in Other debt securities, due primarily to the impact of the consolidation of the credit card securitization trusts by the Company upon adoption of SFAS 166/167 on January 1, 2010. Upon consolidation of the trusts, the Company recorded the underlying credit card receivables on its Consolidated Balance Sheet as *Loans* accounted for at amortized cost. At January 1, 2010, the Company's investments in the trusts and other inter-company balances were eliminated At January 1, 2010, the Company's investment in these newly consolidated VIEs, which is eliminated for accounting purposes, included certificates issued by these trusts of $11 1 billion that were classified as Level 3 at December 31, 2009. The impact of the elimination of these certificates has been reflected as net settlements in the Level 3 roll-forward table above.
- A net decrease in *Derivatives* of $4 0 billion, including net trading losses of $1.5 billion, net settlements of $1 9 billion and net transfers out of Level 3 to Level 2 of $0 6 billion
- A net decrease in Level 3 *Investments* of $4 1 billion, including net sales of asset-backed securities of $2 6 billion and sales of non-marketable equity securities of $1.1 billion
- A net increase in *Loans* of $3 billion, due largely to the Company's consolidation of certain VIEs upon the adoption of SFAS 167 on January 1, 2010, for which the fair value option was elected. The impact from consolidation of these VIEs on Level 3 loans has been reflected as purchases in the Level 3 roll-forward above.
- A decrease in *Mortgage servicing rights* of $2 billion due primarily to losses of $1.1 billion, resulting from a reduction in interest rates.
- A decrease in *Long-term debt* of $1 3 billion, driven mainly by $1.3 billion of net terminations of structured notes.

Transfers between Level 1 and Level 2 of the Fair Value Hierarchy

The Company did not have any significant transfers of assets or liabilities between Levels 1 and 2 of the fair value hierarchy during the twelve months ended December 31, 2011 and December 31, 2010.

Items Measured at Fair Value on a Nonrecurring Basis

Certain assets and liabilities are measured at fair value on a nonrecurring basis and therefore are not included in the tables above. These include assets measured at cost that have been written down to fair value during the periods as a result of an impairment. In addition, these assets include loans held-for-sale and other real estate owned that are measured at the lower of cost or market (LOCOM).

The following table presents the carrying amounts of all assets that were still held as of December 31, 2011 and December 31, 2010, and for which a nonrecurring fair value measurement was recorded during the twelve months then ended:

In millions of dollars	Fair value	Level 2	Level 3

Total assets at fair value on a nonrecurring basis	**$6,826**	**$4,941**	**$1,885**

(1) Represents loans held for investment whose carrying amount is based on the fair value of the underlying collateral, including primarily real-estate secured loans

In millions of dollars	Fair value	Level 2	Level 3
December 31, 2010[1]	$3,083	$859	$2,224

(1) Excludes loans held for investment whose carrying amount is based on the fair value of underlying collateral

The fair value of loans-held-for-sale is determined where possible using quoted secondary-market prices. If no such quoted price exists, the fair value of a loan is determined using quoted prices for a similar asset or assets, adjusted for the specific attributes of that loan. Fair value for the other real estate owned is based on appraisals. For loans whose carrying amount is based on the fair value of the underlying collateral, the fair values depend on the type of collateral. Fair value of the collateral is typically estimated based on quoted market prices if available, appraisals or other internal valuation techniques.

Nonrecurring Fair Value Changes

26. FAIR VALUE ELECTIONS

The Company may elect to report most financial instruments and certain other items at fair value on an instrument-by-instrument basis with changes in fair value reported in earnings The election is made upon the acquisition of an eligible financial asset, financial liability or firm commitment or when certain specified reconsideration events occur The fair value election may not be revoked once an election is made. The changes in fair value are recorded in current earnings Additional discussion regarding the applicable areas in which fair value elections were made is presented in Note 25 to the Consolidated Financial Statements.

All servicing rights must now be recognized initially at fair value. The Company has elected fair value accounting for its mortgage servicing rights. See Notes 1 and 22 to the Consolidated Financial Statements for further discussions regarding the accounting and reporting of MSRs.

The following table presents, as of December 31, 2011 and 2010, the fair value of those positions selected for fair value accounting, as well as the changes in fair value gains and losses for the years ended December 31, 2011 and 2010

Own Debt Valuation Adjustment

Own debt valuation adjustments are recognized on Citi's debt liabilities for which the fair value option has been elected using Citi's credit spreads observed in the bond market. The fair value of debt liabilities for which the fair value option is elected (other than non-recourse and similar liabilities) is impacted by the narrowing or widening of the Company's credit spreads. The estimated change in the fair value of these debt liabilities due to such changes in the Company's own credit risk (or instrument-specific credit risk) was a gain of $1,774 million and a loss of $589 million for the years ended December 31, 2011 and 2010, respectively Changes in fair value resulting from changes in instrument-specific credit risk were estimated by incorporating the Company's current credit spreads observable in the bond market into the relevant valuation technique used to value each liability as described above.

The Fair Value Option for Financial Assets and Financial Liabilities

Selected portfolios of securities purchased under agreements to resell, securities borrowed, securities sold under agreements to repurchase, securities loaned and certain non-collateralized short-term borrowings

The Company elected the fair value option for certain portfolios of fixed-income securities purchased under agreements to resell and fixed-income securities sold under agreements to repurchase, securities borrowed, securities loaned (and certain non-collateralized short-term borrowings) on broker-dealer entities in the United States, United Kingdom and Japan In each case, the election was made because the related interest-rate risk is managed on a portfolio basis, primarily with derivative instruments that are accounted for at fair value through earnings

Changes in fair value for transactions in these portfolios are recorded in *Principal transactions*. The related interest revenue and interest expense are measured based on the contractual rates specified in the transactions and are reported as interest revenue and expense in the Consolidated Statement of Income

Selected letters of credit and revolving loans hedged by credit default swaps or participation notes

The Company has elected the fair value option for certain letters of credit that are hedged with derivative instruments or participation notes. Citigroup elected the fair value option for these transactions because the risk is managed on a fair value basis and mitigates accounting mismatches.

The notional amount of these unfunded letters of credit was $0.6 billion as of December 31, 2011 and $1.1 billion as of December 31, 2010. The amount funded was insignificant with no amounts 90 days or more past due or on non-accrual status at December 31, 2011 and 2010

These items have been classified in *Trading account assets* or *Trading account liabilities* on the Consolidated Balance Sheet. Changes in fair value of these items are classified in *Principal transactions* in the Company's Consolidated Statement of Income.

Certain loans and other credit products

Citigroup has elected the fair value option for certain originated and purchased loans, including certain unfunded loan products, such as guarantees and letters of credit, executed by Citigroup's lending and trading businesses. None of these credit products is a highly leveraged financing commitment. Significant groups of transactions include loans and unfunded loan products that are expected to be either sold or securitized in the near term, or transactions where the economic risks are hedged with derivative instruments such as purchased credit default swaps or total return swaps where the Company pays the total return on the underlying loans to a third party. Citigroup has elected the fair value option to mitigate accounting mismatches in cases where hedge accounting is complex and to achieve operational simplifications. Fair value was not elected for most lending transactions across the Company, including where management objectives would not be met

The following table provides information about certain credit products carried at fair value at December 31, 2011 and 2010:

	December 31, 2011		December 31, 2010	
In millions of dollars	**Trading assets**	**Loans**	Trading assets	Loans
Carrying amount reported on the Consolidated Balance Sheet	**$14,150**	**$3,735**	$14,241	$1,748

Aggregate unpaid principal balance in excess of fair value for non-accrual loans or loans more than 90 days past due	**43**	**—**	57	—

In addition to the amounts reported above, $648 million and $621 million of unfunded loan commitments related to certain credit products selected for fair value accounting were outstanding as of December 31, 2011 and 2010, respectively.

Changes in fair value of funded and unfunded credit products are classified in *Principal transactions* in the Company's Consolidated Statement of Income. Related interest revenue is measured based on the contractual interest rates and reported as *Interest revenue* on *Trading account assets* or loan interest depending on the balance sheet classifications of the credit products. The changes in fair value for the years ended December 31, 2011 and 2010 due to instrument-specific credit risk totaled to a gain of $53 million and a loss of $6 million, respectively

Certain investments in private equity and real estate ventures and certain equity method investments

Citigroup invests in private equity and real estate ventures for the purpose of earning investment returns and for capital appreciation. The Company has elected the fair value option for certain of these ventures, because such investments are considered similar to many private equity or hedge fund activities in Citi's investment companies, which are reported at fair value The fair value option brings consistency in the accounting and evaluation of these investments All investments (debt and equity) in such private equity and real estate entities are accounted for at fair value These investments are classified as *Investments* on Citigroup's Consolidated Balance Sheet

Citigroup also holds various non-strategic investments in leveraged buyout funds and other hedge funds for which the Company elected fair value accounting to reduce operational and accounting complexity Since the funds account for all of their underlying assets at fair value, the impact of applying the equity method to Citigroup's investment in these funds was equivalent to fair value accounting These investments are classified as *Other assets* on Citigroup's Consolidated Balance Sheet

Changes in the fair values of these investments are classified in *Other revenue* in the Company's Consolidated Statement of Income

Certain mortgage loans (HFS)

Citigroup has elected the fair value option for certain purchased and originated prime fixed-rate and conforming adjustable-rate first mortgage loans HFS These loans are intended for sale or securitization and are hedged with derivative instruments. The Company has elected the fair value option to mitigate accounting mismatches in cases where hedge accounting is complex and to achieve operational simplifications.

The following table provides information about certain mortgage loans HFS carried at fair value at December 31, 2011 and, 2010.

In millions of dollars	**December 31, 2011**	December 31, 2010
Carrying amount reported on the Consolidated Balance Sheet	**$6,213**	$7,230
Aggregate fair value in excess of unpaid principal balance	**274**	81
Balance of non-accrual loans or loans more than 90 days past due	**—**	1
Aggregate unpaid principal balance in excess of fair value for non-accrual loans or loans more than 90 days past due	**—**	1

The changes in fair values of these mortgage loans are reported in *Other revenue* in the Company's Consolidated Statement of Income. The changes in fair value during the years ended December 31, 2011 and 2010 due to instrument-specific credit risk resulted in a loss of $0 1 million and $1 million, respectively. Related interest income continues to be measured based on the contractual interest rates and reported as such in the Consolidated Statement of Income.

Certain consolidated VIEs

The Company has elected the fair value option for all qualified assets and liabilities of certain VIEs that were consolidated upon the adoption of SFAS 167 on January 1, 2010, including certain private label mortgage securitizations, mutual fund deferred sales commissions and collateralized loan obligation VIEs The Company elected the fair value option for these VIEs as the Company believes this method better reflects the economic risks, since substantially all of the Company's retained interests in these entities are carried at fair value.

With respect to the consolidated mortgage VIEs, the Company determined the fair value for the mortgage loans and long-term debt utilizing internal valuation techniques. The fair value of the long-term debt measured using internal valuation techniques is verified, where possible, to prices obtained from independent vendors. Vendors compile prices from various sources and may apply matrix pricing for similar securities when no price is observable Security pricing associated with long-term debt that is valued using observable inputs is classified as Level 2 and debt that is valued using one or more significant unobservable inputs is classified as Level 3 The fair value of mortgage loans of each VIE is derived from the security pricing When substantially all of the long-term debt of a VIE is valued using Level 2 inputs, the corresponding mortgage loans are classified as Level 2 Otherwise, the mortgage loans of a VIE are classified as Level 3

With respect to the consolidated mortgage VIEs for which the fair value option was elected, the mortgage loans are classified as *Loans* on Citigroup's Consolidated Balance Sheet. The changes in fair value of the loans are reported as *Other revenue* in the Company's Consolidated Statement of Income. Related interest revenue is measured based on the contractual interest rates and reported as *Interest revenue* in the Company's Consolidated Statement of Income. Information about these mortgage loans is included in the table below. The change in fair value of these loans due to instrument-specific credit risk was a loss of $275 million a gain of $190 million for the years ended December 31, 2011 and 2010, respectively.

The debt issued by these consolidated VIEs is classified as long-term debt on Citigroup's Consolidated Balance Sheet The changes in fair value for the majority of these liabilities are reported in *Other revenue* in the Company's Consolidated Statement of Income. Related interest expense is measured based on the contractual interest rates and reported as such in the Consolidated Statement of Income The aggregate unpaid principal balance of long-term debt of these consolidated VIEs exceeded the aggregate fair value by $984 million and $857 million as of December 31, 2011 and 2010, respectively.

The following table provides information about Corporate and Consumer loans of consolidated VIEs carried at fair value at December 31, 2011 and December 31, 2010:

	December 31, 2011		December 31, 2010

Aggregate unpaid principal balance in excess of fair value for non-accrual loans or loans more than 90 days past due	**42**	**120**	43	139

Certain structured liabilities

The Company has elected the fair value option for certain structured liabilities whose performance is linked to structured interest rates, inflation, currency, equity, referenced credit or commodity risks (structured liabilities). The Company elected the fair value option, because these exposures are considered to be trading-related positions and, therefore, are managed on a fair value basis. These positions will continue to be classified as debt, deposits or derivatives (*Trading account liabilities*) on the Company's Consolidated Balance Sheet according to their legal form.

The change in fair value for these structured liabilities is reported in *Principal transactions* in the Company's Consolidated Statement of Income. Changes in fair value for structured debt with embedded equity, referenced credit or commodity underlyings includes an economic component for accrued interest. For structured debt that contains embedded interest rate, inflation or currency risks, related interest expense is measured based on the contracted interest rates and reported as such in the Consolidated Statement of Income.

Certain non-structured liabilities

The Company has elected the fair value option for certain non-structured liabilities with fixed and floating interest rates (non-structured liabilities). The Company has elected the fair value option where the interest-rate risk of such liabilities is economically hedged with derivative contracts or the proceeds are used to purchase financial assets that will also be accounted for at fair value through earnings. The election has been made to mitigate accounting mismatches and to achieve operational simplifications. These positions are reported in *Short-term borrowings* and *Long-term debt* on the Company's Consolidated Balance Sheet. The change in fair value for these non-structured liabilities is reported in *Principal transactions* in the Company's Consolidated Statement of Income.

Related interest expense continues to be measured based on the contractual interest rates and reported as such in the Consolidated Statement of Income.

The following table provides information about long-term debt carried at fair value, excluding the debt issued by the consolidated VIEs, at December 31, 2011 and 2010:

27. FAIR VALUE OF FINANCIAL INSTRUMENTS

Estimated Fair Value of Financial Instruments

The table below presents the carrying value and fair value of Citigroup's financial instruments. The disclosure excludes leases, affiliate investments, pension and benefit obligations and insurance policy claim reserves. In addition, contract-holder fund amounts exclude certain insurance contracts. Also as required, the disclosure excludes the effect of taxes, any premium or discount that could result from offering for sale at one time the entire holdings of a particular instrument, excess fair value associated with deposits with no fixed maturity and other expenses that would be incurred in a market transaction. In addition, the table excludes the values of non-financial assets and liabilities, as well as a wide range of franchise, relationship and intangible values (but includes mortgage servicing rights), which are integral to a full assessment of Citigroup's financial position and the value of its net assets

The fair value represents management's best estimates based on a range of methodologies and assumptions. The carrying value of short-term financial instruments not accounted for at fair value, as well as receivables and payables arising in the ordinary course of business, approximates fair value because of the relatively short period of time between their origination and expected realization. Quoted market prices are used when available for investments and for both trading and end-user derivatives, as well as for liabilities, such as long-term debt, with quoted prices. For loans not accounted for at fair value, cash flows are discounted at quoted secondary market rates or estimated market rates if available. Otherwise, sales of comparable loan portfolios or current market origination rates for loans with similar terms and risk characteristics are used. Expected credit losses are either embedded in the estimated future cash flows or incorporated as an adjustment to the discount rate used. The value of collateral is also considered. For liabilities such as long-term debt not accounted for at fair value and without quoted market prices, market borrowing rates of interest are used to discount contractual cash flows

(1) The carrying value of loans is net of the *Allowance for loan losses* of $30 1 billion for December 31, 2011 and $40 7 billion for December 31, 2010 In addition, the carrying values exclude $2 5 billion and $2 6 billion of lease finance receivables at December 31, 2011 and December 31, 2010, respectively.

(2) Includes cash and due from banks, deposits with banks, brokerage receivables, reinsurance recoverable, mortgage servicing rights, separate and variable accounts and other financial instruments included in *Other assets* on the Consolidated Balance Sheet, for all of which the carrying value is a reasonable estimate of fair value

(3) Includes brokerage payables, separate and variable accounts, short-term borrowings and other financial instruments included in *Other liabilities* on the Consolidated Balance Sheet, for all of which the carrying value is a reasonable estimate of fair value

Fair values vary from period to period based on changes in a wide range of factors, including interest rates, credit quality, and market perceptions of value and as existing assets and liabilities run off and new transactions are entered into

The estimated fair values of loans reflect changes in credit status since the loans were made, changes in interest rates in the case of fixed-rate loans, and premium values at origination of certain loans. The carrying values (reduced by the *Allowance for loan losses*) exceeded the estimated fair values of Citigroup's loans, in aggregate, by $10.7 billion and by $21 2 billion at December 31, 2011 and December 31, 2010, respectively At December 31, 2011, the carrying values, net of allowances, exceeded the estimated fair values by $8 4 billion and $2 3 billion for Consumer loans and Corporate loans, respectively

The estimated fair values of the Company's corporate unfunded lending commitments at December 31, 2011 and December 31, 2010 were liabilities of $4.7 billion and $5 6 billion, respectively The Company does not estimate the fair values of consumer unfunded lending commitments, which are generally cancelable by providing notice to the borrower

28. PLEDGED ASSETS, COLLATERAL, COMMITMENTS AND GUARANTEES

Pledged Assets

In connection with the Company's financing and trading activities, the Company has pledged assets to collateralize its obligations under repurchase agreements, securities financing agreements, secured liabilities of consolidated VIEs and other borrowings. At December 31, 2011 and 2010, the approximate carrying values of the significant components of pledged assets recognized on the Company's balance sheet include:

In millions of dollars	**2011**	2010
Investment securities	**$129,093**	$154,692
Loans	**235,031**	269,607
Trading account assets	**114,539**	140,695
Total	**$478,663**	$564,994

In addition, included in cash and due from banks at December 31, 2011 and 2010 are $13.6 billion and $15.6 billion, respectively, of cash segregated under federal and other brokerage regulations or deposited with clearing organizations.

At December 31, 2011 and 2010, the Company had $1.4 billion and $1.1 billion, respectively, of outstanding letters of credit from third-party banks to satisfy various collateral and margin requirements.

Collateral

At December 31, 2011 and 2010, the approximate fair value of collateral received by the Company that may be resold or repledged by the Company, excluding the impact of allowable netting, was $350.0 billion and $335.3 billion, respectively. This collateral was received in connection with resale agreements, securities borrowings and loans, derivative transactions and margined broker loans.

At December 31, 2011 and 2010, a substantial portion of the collateral received by the Company had been sold or repledged in connection with repurchase agreements, securities sold, not yet purchased, securities borrowings and loans, pledges to clearing organizations, segregation requirements under securities laws and regulations, derivative transactions and bank loans.

In addition, at December 31, 2011 and 2010, the Company had pledged $187 billion and $271 billion, respectively, of collateral that may not be sold or repledged by the secured parties.

Lease Commitments

Rental expense (principally for offices and computer equipment) was $1.6 billion, $1.6 billion and $2.0 billion for the years ended December 31, 2011, 2010 and 2009, respectively.

Future minimum annual rentals under noncancelable leases, net of sublease income, are as follows:

In millions of dollars	
2012	**$1,199**
2013	**1,096**
2014	**1,008**

Thereafter	**2,292**
Total	**$7,294**

Guarantees

The Company provides a variety of guarantees and indemnifications to Citigroup customers to enhance their credit standing and enable them to complete a wide variety of business transactions. For certain contracts meeting the definition of a guarantee, the guarantor must recognize, at inception, a liability for the fair value of obligation undertaken in issuing the guarantee.

In addition, the guarantor must disclose the maximum potential amount of future payments the guarantor could be required to make under the guarantee, if there were a total default by the guaranteed parties. The determination of the maximum potential future payments is based on the notional amount of the guarantees without consideration of possible recoveries under recourse provisions or from collateral held or pledged. Such amounts bear no relationship to the anticipated losses, if any, on these guarantees. The following tables present information about the Company's guarantees at December 31, 2011 and December 31, 2010:

Financial standby letters of credit

Citigroup issues standby letters of credit which substitute its own credit for that of the borrower. If a letter of credit is drawn down, the borrower is obligated to repay Citigroup. Standby letters of credit protect a third party from defaults on contractual obligations. Financial standby letters of credit include guarantees of payment of insurance premiums and reinsurance risks that support industrial revenue bond underwriting and settlement of payment obligations to clearing houses, and also support options and purchases of securities or are in lieu of escrow deposit accounts. Financial standbys also backstop loans, credit facilities, promissory notes and trade acceptances.

Performance guarantees

Performance guarantees and letters of credit are issued to guarantee a customer's tender bid on a construction or systems-installation project or to guarantee completion of such projects in accordance with contract terms. They are also issued to support a customer's obligation to supply specified products, commodities, or maintenance or warranty services to a third party.

Derivative instruments considered to be guarantees

Derivatives are financial instruments whose cash flows are based on a notional amount and an underlying, where there is little or no initial investment, and whose terms require or permit net settlement Derivatives may be used for a variety of reasons, including risk management, or to enhance returns Financial institutions often act as intermediaries for their clients, helping clients reduce their risks However, derivatives may also be used to take a risk position

The derivative instruments considered to be guarantees, which are presented in the tables above, include only those instruments that require Citi to make payments to the counterparty based on changes in an underlying instrument that is related to an asset, a liability, or an equity security held by the guaranteed party. More specifically, derivative instruments considered to be guarantees include certain over-the-counter written put options where the counterparty is not a bank, hedge fund or broker-dealer (such counterparties are considered to be dealers in these markets and may, therefore, not hold the underlying instruments). However, credit derivatives sold by the Company are excluded from this presentation, as they are disclosed separately in Note 23 to the Consolidated Financial Statements In addition, non-credit derivative contracts that are cash settled and for which the Company is unable to assert that it is probable the counterparty held the underlying instrument at the inception of the contract also are excluded from the disclosure above.

In instances where the Company's maximum potential future payment is unlimited, the notional amount of the contract is disclosed.

Loans sold with recourse

Loans sold with recourse represent the Company's obligations to reimburse the buyers for loan losses under certain circumstances Recourse refers to the clause in a sales agreement under which a lender will fully reimburse the buyer/investor for any losses resulting from the purchased loans. This may be accomplished by the seller's taking back any loans that become delinquent.

In addition to the amounts shown in the table above, the repurchase reserve for Consumer mortgages representations and warranties was $1,188 million and $969 million at December 31, 2011 and December 31, 2010, respectively, and these amounts are included in *Other liabilities* on the Consolidated Balance Sheet.

The repurchase reserve estimation process is subject to numerous estimates and judgments. The assumptions used to calculate the repurchase reserve contain a level of uncertainty and risk that, if different from actual results, could have a material impact on the reserve amounts. The key assumptions are:

- loan documentation requests,
- repurchase claims as a percentage of loan documentation requests,
- claims appeal success rate, and
- estimated loss per repurchase or make-whole.

Citi estimates that if there were a simultaneous 10% adverse change in each of the significant assumptions, the repurchase reserve would increase by approximately $620 million as of December 31, 2011 This potential change is hypothetical and intended to indicate the sensitivity of the repurchase reserve to changes in the key assumptions. Actual changes in the key assumptions may not occur at the same time or to the same degree (i e , an adverse change in one assumption may be offset by an improvement in another). Citi does not believe it has sufficient information to estimate a range of reasonably possible loss (as defined under ASC 450) relating to its Consumer representations and warranties

Securities lending indemnifications

Owners of securities frequently lend those securities for a fee to other parties who may sell them short or deliver them to another party to satisfy some other obligation. Banks may administer such securities lending programs for their clients. Securities lending indemnifications are issued by the bank to guarantee that a securities lending customer will be made whole in the event that the security borrower does not return the security subject to the lending agreement and collateral held is insufficient to cover the market value of the security.

Credit card merchant processing

Credit card merchant processing guarantees represent the Company's indirect obligations in connection with the processing of private label and bank card transactions on behalf of merchants

Citigroup's primary credit card business is the issuance of credit cards to individuals. In addition, the Company: (a) provides transaction processing services to various merchants with respect to its private-label cards and (b) has potential liability for bank card transaction processing services. The nature of the liability in either case arises as a result of a billing dispute between a merchant and a cardholder that is ultimately resolved in the cardholder's favor. The merchant is liable to refund the amount to the cardholder. In general, if the credit card processing company is unable to collect this amount from the merchant, the credit card processing company bears the loss for the amount of the credit or refund paid to the cardholder

With regard to (a) above, the Company continues to have the primary contingent liability with respect to its portfolio of private-label merchants. The risk of loss is mitigated as the cash flows between the Company and the merchant are settled on a net basis and the Company has the right to offset any payments with cash flows otherwise due to the merchant. To further mitigate this risk the Company may delay settlement, require a merchant to make an escrow deposit, include event triggers to provide the Company with more financial and operational control in the event of the financial deterioration of the merchant, or require various credit enhancements (including letters of credit and bank guarantees). In the unlikely event that a private-label merchant is unable to deliver products, services or a refund to its private-label cardholders, the Company is contingently liable to credit or refund cardholders

With regard to (b) above, the Company has a potential liability for bank card transactions where Citi provides the transaction processing services as well as those where a third party provides the services and Citi acts as a secondary guarantor, should that processor fail to perform

The Company's maximum potential contingent liability related to both bank card and private-label merchant processing services is estimated to be the total volume of credit card transactions that meet the requirements to be valid charge back transactions at any given time At December 31, 2011 and December 31, 2010, this maximum potential exposure was estimated to be $70 billion and $65 billion, respectively.

However, the Company believes that the maximum exposure is not representative of the actual potential loss exposure based on the Company's historical experience. This contingent liability is unlikely to arise, as most products and services are delivered when purchased and amounts are refunded when items are returned to merchants The Company assesses the probability and amount of its contingent liability related to merchant processing based on the financial strength of the primary guarantor, the extent and nature of unresolved charge-backs and its historical loss experience At December 31, 2011 and December 31, 2010, the estimated losses incurred and the carrying amounts of the Company's contingent obligations related to merchant processing activities were immaterial.

Custody indemnifications

Custody indemnifications are issued to guarantee that custody clients will be made whole in the event that a third-party subcustodian or depository institution fails to safeguard clients' assets.

Other guarantees and indemnifications

Credit Card Protection Programs

The Company, through its credit card business, provides various cardholder protection programs on several of its card products, including programs that provide insurance coverage for rental cars, coverage for certain losses associated with purchased products, price protection for certain purchases and protection for lost luggage. These guarantees are not included in the table, since the total outstanding amount of the guarantees and the Company's maximum exposure to loss cannot be quantified The protection is limited to certain types of purchases and certain types of losses and it is not possible to quantify the purchases that would qualify for these benefits at any given time The Company assesses the probability and amount of its potential liability related to these programs based on the extent and nature of its historical loss experience At December 31, 2011 and 2010, the actual and estimated losses incurred and the carrying value of the Company's obligations related to these programs were immaterial.

Other Representation and Warranty Indemnifications

In the normal course of business, the Company provides standard representations and warranties to counterparties in contracts in connection with numerous transactions and also provides indemnifications, including indemnifications that protect the counterparties to the contracts in the event that additional taxes are owed due either to a change in the tax law or an adverse interpretation of the tax law Counterparties to these transactions provide the Company with comparable indemnifications. While such representations, warranties and indemnifications are essential components of many contractual relationships, they do not represent the underlying business purpose for the transactions. The indemnification clauses are often standard contractual terms related to the Company's own performance under the terms of a contract and are entered into in the

normal course of business based on an assessment that the risk of loss is remote Often these clauses are intended to ensure that terms of a contract are met at inception. No compensation is received for these standard representations and warranties, and it is not possible to determine their fair value because they rarely, if ever, result in a payment. In many cases, there are no stated or notional amounts included in the indemnification clauses and the contingencies potentially triggering the obligation to indemnify have not occurred and are not expected to occur. These indemnifications are not included in the tables above.

Value-Transfer Networks

The Company is a member of, or shareholder in, hundreds of value-transfer networks (VTNs) (payment, clearing and settlement systems as well as exchanges) around the world As a condition of membership, many of these VTNs require that members stand ready to pay a pro rata share of the losses incurred by the organization due to another member's default on its obligations The Company's potential obligations may be limited to its membership interests in the VTNs, contributions to the VTN's funds, or, in limited cases, the obligation may be unlimited. The maximum exposure cannot be estimated as this would require an assessment of future claims that have not yet occurred. We believe the risk of loss is remote given historical experience with the VTNs Accordingly, the Company's participation in VTNs is not reported in the Company's guarantees tables above and there are no amounts reflected on the Consolidated Balance Sheet as of December 31, 2011 or December 31, 2010 for potential obligations that could arise from the Company's involvement with VTN associations.

Long-Term Care Insurance Indemnification

In the sale of an insurance subsidiary, the Company provided an indemnification to an insurance company for policyholder claims and other liabilities relating to a book of long-term care (LTC) business (for the entire term of the LTC policies) that is fully reinsured by another insurance company The reinsurer has funded two trusts with securities whose fair value (approximately $4 4 billion at December 31, 2011 and $3 6 billion at December 31, 2010) is designed to cover the insurance company's statutory liabilities for the LTC policies. The assets in these trusts are evaluated and adjusted periodically to ensure that the fair value of the assets continues to cover the estimated statutory liabilities related to the LTC policies, as those statutory liabilities change over time. If the reinsurer fails to perform under the reinsurance agreement for any reason, including insolvency, and the assets in the two trusts are insufficient or unavailable to the ceding insurance company, then Citigroup must indemnify the ceding insurance company for any losses actually incurred in connection with the LTC policies. Since both events would have to occur before Citi would become responsible for any payment to the ceding insurance company pursuant to its indemnification obligation and the likelihood of such events occurring is currently not probable, there is no liability reflected in the Consolidated Balance Sheet as of December 31, 2011 related to this indemnification However, Citi continues to closely monitor its potential exposure under this indemnification obligation

Carrying Value—Guarantees and Indemnifications

At December 31, 2011 and December 31, 2010, the total carrying amounts of the liabilities related to the guarantees and indemnifications included in the tables above amounted to approximately $3.2 billion and $2.1 billion, respectively The carrying value of derivative instruments is included in either *Trading liabilities* or *Other liabilities*, depending upon whether the derivative was entered into for trading or non-trading purposes. The carrying value of financial and performance guarantees is included in *Other liabilities*. For loans sold with recourse, the carrying value of the liability is included in *Other liabilities*. In addition, at December 31, 2011 and December 31, 2010, *Other liabilities* on the Consolidated Balance Sheet include an allowance for credit losses of $1,136 million and $1,066 million, respectively, relating to letters of credit and unfunded lending commitments.

Collateral

Cash collateral available to the Company to reimburse losses realized under these guarantees and indemnifications amounted to $35 billion at December 31, 2011 and December 31, 2010 Securities and other marketable assets held as collateral amounted to $65 billion and $41 billion at December 31, 2011 and December 31, 2010, respectively, the majority of which collateral is held to reimburse losses realized under securities lending indemnifications Additionally, letters of credit in favor of the Company held as collateral amounted to $1.5 billion and $2 0 billion at December 31, 2011 and December 31, 2010, respectively Other property may also be available to the Company to cover losses under certain guarantees and indemnifications; however, the value of such property has not been determined

Performance risk

Citi evaluates the performance risk of its guarantees based on the assigned referenced counterparty internal or external ratings. Where external ratings are used, investment-grade ratings are considered to be Baa/BBB and above, while anything below is considered non-investment grade. The Citi internal ratings are in line with the related external rating system On certain underlying referenced credits or entities, ratings are not available Such referenced credits are included in the "not rated" category The maximum potential amount of the future payments related to guarantees and credit derivatives sold is determined to be the notional amount of these contracts, which is the par amount of the assets guaranteed.

Presented in the tables below are the maximum potential amounts of future payments that are classified based upon internal and external credit ratings as of December 31, 2011 and December 31, 2010. As previously mentioned, the determination of the maximum potential future payments is based on the notional amount of the guarantees without consideration of possible recoveries under recourse provisions or from collateral held or pledged. Such amounts bear no relationship to the anticipated losses, if any, on these guarantees.

Credit Commitments and Lines of Credit

The table below summarizes Citigroup's credit commitments as of December, 31 2011 and December 31, 2010:

In millions of dollars	U.S.	Outside of U.S.	December 31, 2011	December 31, 2010
Commercial and similar letters of credit	**$ 1,819**	**$ 7,091**	**$ 8,910**	$ 8,974

Total	**$682,198**	**$211,693**	**$893,891**	$944,372

The majority of unused commitments are contingent upon customers' maintaining specific credit standards. Commercial commitments generally have floating interest rates and fixed expiration dates and may require payment of fees. Such fees (net of certain direct costs) are deferred and, upon exercise of the commitment, amortized over the life of the loan or, if exercise is deemed remote, amortized over the commitment period.

Commercial and similar letters of credit

A commercial letter of credit is an instrument by which Citi substitutes its credit for that of a customer to enable the customer to finance the purchase of goods or to incur other commitments Citi issues a letter on behalf of its client to a supplier and agrees to pay the supplier upon presentation of documentary evidence that the supplier has performed in accordance with the terms of the letter of credit. When a letter of credit is drawn, the customer is then required to reimburse Citi

One- to four-family residential mortgages

A one- to four-family residential mortgage commitment is a written confirmation from Citigroup to a seller of a property that the bank will advance the specified sums enabling the buyer to complete the purchase

Revolving open-end loans secured by one- to four-family residential properties

Revolving open-end loans secured by one- to four-family residential properties are essentially home equity lines of credit. A home equity line of credit is a loan secured by a primary residence or second home to the extent of the excess of fair market value over the debt outstanding for the first mortgage

Commercial real estate, construction and land development

Commercial real estate, construction and land development include unused portions of commitments to extend credit for the purpose of financing commercial and multifamily residential properties as well as land development projects.

Both secured-by-real-estate and unsecured commitments are included in this line, as well as undistributed loan proceeds, where there is an obligation to advance for construction progress payments However, this line only includes those extensions of credit that, once funded, will be classified as *Total loans, net* on the Consolidated Balance Sheet.

Credit card lines

Citi provides credit to customers by issuing credit cards. The credit card lines are unconditionally cancellable by the issuer

Commercial and other consumer loan commitments

Commercial and other consumer loan commitments include overdraft and liquidity facilities, as well as commercial commitments to make or purchase loans, to purchase third-party receivables, to provide note issuance or revolving underwriting facilities and to invest in the form of equity Amounts include $65 billion and $79 billion with an original maturity of less than one year at December 31, 2011 and December 31, 2010, respectively

In addition, included in this line item are highly leveraged financing commitments, which are agreements that provide funding to a borrower with higher levels of debt (measured by the ratio of debt capital to equity capital of the borrower) than is generally considered normal for other companies This type of financing is commonly employed in corporate acquisitions, management buyouts and similar transactions

29. CONTINGENCIES

Overview

In addition to the matters described below, in the ordinary course of business, Citigroup and its affiliates and subsidiaries and current and former officers, directors and employees (for purposes of this section, sometimes collectively referred to as Citigroup and Related Parties) routinely are named as defendants in, or as parties to, various legal actions and proceedings. Certain of these actions and proceedings assert claims or seek relief in connection with alleged violations of consumer protection, securities, banking, antifraud, antitrust, anti-money laundering, employment and other statutory and common laws. Certain of these actual or threatened legal actions and proceedings include claims for substantial or indeterminate compensatory or punitive damages, or for injunctive relief, and in some instances seek recovery on a class-wide basis.

In the ordinary course of business, Citigroup and Related Parties also are subject to governmental and regulatory examinations, information-gathering requests, investigations and proceedings (both formal and informal), certain of which may result in adverse judgments, settlements, fines, penalties, disgorgement, injunctions or other relief. Certain affiliates and subsidiaries of Citigroup are banks, registered broker-dealers, futures commission merchants, investment advisers or other regulated entities and, in those capacities, are subject to regulation by various U.S., state and foreign securities, banking, commodity futures and other regulators. In connection with formal and informal inquiries by these regulators, Citigroup and such affiliates and subsidiaries receive numerous requests, subpoenas and orders seeking documents, testimony and other information in connection with various aspects of their regulated activities.

Because of the global scope of Citigroup's operations, and its presence in countries around the world, Citigroup and Related Parties are subject to litigation, and governmental and regulatory examinations, information-gathering requests, investigations and proceedings (both formal and informal), in multiple jurisdictions with legal and regulatory regimes that may differ substantially, and present substantially different risks, from those Citigroup and Related Parties are subject to in the United States. In some instances Citigroup and Related Parties may be involved in proceedings involving the same subject matter in multiple jurisdictions, which may result in overlapping, cumulative or inconsistent outcomes.

Citigroup seeks to resolve all litigation and regulatory matters in the manner management believes is in the best interests of Citigroup and its shareholders, and contests liability, allegations of wrongdoing and, where applicable, the amount of damages or scope of any penalties or other relief sought as appropriate in each pending matter.

Accounting and Disclosure Framework

ASC 450 (formerly SFAS 5) governs the disclosure and recognition of loss contingencies, including potential losses from litigation and regulatory matters. ASC 450 defines a "loss contingency" as "an existing condition, situation, or set of circumstances involving uncertainty as to possible loss to an entity that will ultimately be resolved when one or more future events occur or fail to occur." It imposes different requirements for the recognition and disclosure of loss contingencies based on the likelihood of occurrence of the contingent future event or events. It distinguishes among degrees of likelihood using the following three terms: "probable," meaning that "the future event or events are likely to occur", "remote," meaning that "the chance of the future event or events occurring is slight"; and "reasonably possible," meaning that "the chance of the future event or events occurring is more than remote but less than likely." These three terms are used below as defined in ASC 450.

Accruals. ASC 450 requires accrual for a loss contingency when it is "probable that one or more future events will occur confirming the fact of loss" *and* "the amount of the loss can be reasonably estimated." In accordance with ASC 450, Citigroup establishes accruals for all litigation and regulatory matters, including matters disclosed herein, when Citigroup believes it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. When the reasonable estimate of the loss is within a range of amounts, the minimum amount of the range is accrued, unless some higher amount within the range is a better estimate than any other amount within the range. Once established, accruals are adjusted from time to time, as appropriate, in light of additional information. The amount of loss ultimately incurred in relation to those matters may be substantially higher or lower than the amounts accrued for those matters.

Disclosure. ASC 450 requires disclosure of a loss contingency if "there is at least a reasonable possibility that a loss or an additional loss may have been incurred" *and* there is no accrual for the loss because the conditions described above are not met *or* an exposure to loss exists in excess of the amount accrued. In accordance with ASC 450, if Citigroup has not accrued for a matter because Citigroup believes that a loss is reasonably possible but not probable, or that a loss is probable but not reasonably estimable, and the matter therefore does not meet the criteria for accrual, and the reasonably possible loss is material, it discloses the loss contingency. In addition, Citigroup discloses matters for which it has accrued if it believes an exposure to material loss exists in excess of the amount accrued. In accordance with ASC 450, Citigroup's disclosure includes an estimate of the reasonably possible loss or range of loss for those matters as to which an estimate can be made. ASC 450 does not require disclosure of an estimate of the reasonably possible loss or range of loss where an estimate cannot be made. Neither accrual nor disclosure is required for losses that are deemed remote.

Inherent Uncertainty of the Matters Disclosed. Certain of the matters disclosed below involve claims for substantial or indeterminate damages. The claims asserted in these matters typically are broad, often spanning a multi-year period and sometimes a wide range of business activities, and the plaintiffs' or claimants' alleged damages frequently are not quantified or factually supported in the complaint or statement of claim. As a result, Citigroup is often unable to estimate the loss in such matters, even if it believes that a loss is probable or reasonably possible, until developments in the case have yielded additional information sufficient to support a quantitative assessment of the range of reasonably possible loss. Such developments may include, among other things, discovery from adverse parties or third parties, rulings by the court on key issues, analysis by

retained experts, and engagement in settlement negotiations Depending on a range of factors, such as the complexity of the facts, the novelty of the legal theories, the pace of discovery, the court's scheduling order, the timing of court decisions, and the adverse party's willingness to negotiate in good faith toward a resolution, it may be months or years after the filing of a case before an estimate of the range of reasonably possible loss can be made.

Matters as to Which an Estimate Can Be Made. For some of the matters disclosed below, Citigroup is currently able to estimate a reasonably possible loss or range of loss in excess of amounts accrued (if any). For some of the matters included within this estimation, an accrual has been made because a loss is believed to be both probable and reasonably estimable, but an exposure to loss exists in excess of the amount accrued; in these cases, the estimate reflects the reasonably possible range of loss in excess of the accrued amount. For other matters included within this estimation, no accrual has been made because a loss, although estimable, is believed to be reasonably possible, but not probable, in these cases the estimate reflects the reasonably possible loss or range of loss As of December 31, 2011, Citigroup estimates that the reasonably possible unaccrued loss in future periods for these matters ranges up to approximately $4 billion in the aggregate.

These estimates are based on currently available information. As available information changes, the matters for which Citigroup is able to estimate will change, and the estimates themselves will change In addition, while many estimates presented in financial statements and other financial disclosure involve significant judgment and may be subject to significant uncertainty, estimates of the range of reasonably possible loss arising from litigation and regulatory proceedings are subject to particular uncertainties For example, at the time of making an estimate, Citigroup may have only preliminary, incomplete, or inaccurate information about the facts underlying the claim, its assumptions about the future rulings of the court or other tribunal on significant issues, or the behavior and incentives of adverse parties or regulators, may prove to be wrong; and the outcomes it is attempting to predict are often not amenable to the use of statistical or other quantitative analytical tools In addition, from time to time an outcome may occur that Citigroup had not accounted for in its estimate because it had deemed such an outcome to be remote For all these reasons, the amount of loss in excess of accruals ultimately incurred for the matters as to which an estimate has been made could be substantially higher or lower than the range of loss included in the estimate

Matters as to Which an Estimate Cannot Be Made. For other matters disclosed below, Citigroup is not currently able to estimate the reasonably possible loss or range of loss Many of these matters remain in very preliminary stages (even in some cases where a substantial period of time has passed since the commencement of the matter), with few or no substantive legal decisions by the court or tribunal defining the scope of the claims, the class (if any), or the potentially available damages, and fact discovery is still in progress or has not yet begun. In many of these matters, Citigroup has not yet answered the complaint or statement of claim or asserted its defenses, nor has it engaged in any negotiations with the adverse party (whether a regulator or a private party). For all these reasons, Citigroup cannot at this time estimate the reasonably possible loss or range of loss, if any, for these matters.

Opinion of Management as to Eventual Outcome. Subject to the foregoing, it is the opinion of Citigroup's management, based on current knowledge and after taking into account its current legal accruals, that the eventual outcome of all matters described in this Note would not be likely to have a material adverse effect on the consolidated financial condition of Citigroup. Nonetheless, given the substantial or indeterminate amounts sought in certain of these matters, and the inherent unpredictability of such matters, an adverse outcome in certain of these matters could, from time to time, have a material adverse effect on Citigroup's consolidated results of operations or cash flows in particular quarterly or annual periods.

Credit Crisis-Related Litigation and Other Matters

Citigroup and Related Parties have been named as defendants in numerous legal actions and other proceedings asserting claims for damages and related relief for losses arising from the global financial credit crisis that began in 2007 Such matters include, among other types of proceedings, claims asserted by: (i) individual investors and purported classes of investors in Citigroup's common and preferred stock and debt, alleging violations of the federal securities laws and state securities and fraud laws; (ii) participants and purported classes of participants in Citigroup's retirement plans, alleging violations of the Employee Retirement Income Security Act (ERISA); (iii) counterparties to transactions adversely affected by developments in the credit and mortgage markets; (iv) individual investors and purported classes of investors in securities and other investments underwritten, issued or marketed by Citigroup, including collateralized debt obligations (CDOs), mortgage-backed securities (MBS), auction-rate securities (ARS), investment funds, and other structured or leveraged instruments, that have suffered losses as a result of the credit crisis; and (v) individual borrowers asserting claims related to their loans. These matters have been filed in state and federal courts across the country, as well as in arbitrations before the Financial Industry Regulatory Authority (FINRA) and other arbitration associations

In addition to these litigations and arbitrations, Citigroup continues to cooperate fully in response to subpoenas and requests for information from the Securities and Exchange Commission (SEC), FINRA, state attorneys general, the Department of Justice and subdivisions thereof, bank regulators, and other government agencies and authorities, in connection with various formal and informal (and, in many instances, industry-wide) inquiries concerning Citigroup's mortgage-related conduct and business activities, as well as other business activities affected by the credit crisis. These business activities include, but are not limited to, Citigroup's sponsorship, packaging, issuance, marketing, servicing and underwriting of MBS and CDOs and its origination, sale or other transfer, servicing, and foreclosure of residential mortgages, including its compliance with the Servicemembers Civil Relief Act (SCRA).

Mortgage-Related Litigation and Other Matters

Beginning in November 2007, Citigroup and Related Parties have been named as defendants in numerous legal actions and other proceedings brought by Citigroup shareholders, investors, counterparties, regulators and others concerning Citigroup's activities relating to mortgages, including

Citigroup's involvement with CDOs, MBS and structured investment vehicles, Citigroup's underwriting activity for mortgage lenders, and Citigroup's more general mortgage- and credit-related activities.

Regulatory Actions. On October 19, 2011, in connection with its industry-wide investigation concerning CDO-related business activities, the SEC filed a complaint in the United States District Court for the Southern District of New York regarding Citigroup's structuring and sale of the Class V Funding III CDO transaction (Class V). On the same day, the SEC and Citigroup announced a settlement of the SEC's claims, subject to judicial approval, and the SEC filed a proposed final judgment pursuant to which Citigroup's U.S broker-dealer Citigroup Global Markets Inc. (CGMI) agreed to disgorge $160 million, and pay $30 million in prejudgment interest and a $95 million penalty On November 28, 2011, the district court issued an order refusing to approve the proposed settlement and ordering trial to begin on July 16, 2012 On December 15 and 19, 2011, respectively, the SEC and CGMI filed notices of appeal from the district court's November 28 order. On December 27, 2011, the United States Court of Appeals for the Second Circuit granted an emergency stay of further proceedings in the district court, pending the Second Circuit's ruling on the SEC's motion to stay the district court proceedings during the pendency of the appeals. Additional information relating to this matter is publicly available in court filings under the docket numbers 11 Civ. 7387 (S D N.Y) (Rakoff, J) and 11-5227 (2d Cir.).

On February 9, 2012, Citigroup announced that CitiMortgage, along with other major mortgage servicers, had reached an agreement in principle with the United States and with the Attorneys General for 49 states (Oklahoma did not participate) and the District of Columbia to settle a number of related investigations into residential loan servicing and origination practices (the National Mortgage Settlement). The agreement is subject to the satisfaction of certain conditions, including final court approval.

Under the National Mortgage Settlement, Citigroup commits to make payments and provide financial relief to homeowners in three categories (1) cash payments payable to the states and federal agencies in the aggregate amount of $415 million, a portion of which will be used by the states for payments to homeowners affected by foreclosure practices. (2) customer relief in the form of loan modifications for delinquent borrowers, including principal reductions, to be completed over three years, with a total value of $1,411 million; and (3) refinancing concessions to enable current borrowers whose properties are worth less than the value of their loans to reduce their interest rates, to be completed over three years, with a total value of $378 million The total amount of the financial consideration to be paid by Citigroup is $2 2 billion As of December 31, 2011, Citigroup had fully provided for the cash payments called for under the National Mortgage Settlement (see Note 30 to the Consolidated Financial Statements) Citigroup expects that its loan loss reserves as of December 31, 2011 will be sufficient to cover the customer relief payments to delinquent borrowers The impact of the refinancing concessions will be recognized over a period of years in the form of lower interest income What impact, if any, the National Mortgage Settlement will have on the behavior of borrowers in general, however, whether or not their loans are within the scope of the settlement, is uncertain and difficult to predict

The National Mortgage Settlement also provides for mortgage servicing standards in addition to those previously agreed in Consent Orders dated April 13, 2011 with the Federal Reserve Board and the Office of Comptroller of the Currency While Citigroup expects to incur additional operating expenses in implementing these standards, it does not currently expect that the impact of these expenses will be material.

Citigroup is receiving legal releases in connection with the National Mortgage Settlement These releases will address a broad range of, but not all, potential claims related to mortgage servicing and origination. Citigroup will not receive releases related to securitizations or whole loan sales, nor will it receive releases from criminal, tax, environmental, and certain other categories of liability.

In conjunction with the National Mortgage Settlement, Citigroup and Related Parties also entered into a settlement with the United States Attorney's Office for the Southern District of New York of a "qui tam" action. This action alleged that, as a participant in the Direct Endorsement Lender program, CitiMortgage had certified to the United States Department of Housing and Urban Development (HUD) and the Federal Housing Administration (FHA) that certain loans were eligible for FHA insurance when in fact they were not. The settlement releases Citigroup from claims arising out of its acts or omissions relating to the origination, underwriting, or endorsement of all FHA-insured loans prior to the effective date of the settlement. Under the settlement, Citigroup will pay the United States $158.3 million, for which Citigroup had fully provided as of December 31, 2011 (see Note 30 to the Consolidated Financial Statements) CitiMortgage will continue to participate in the Direct Endorsement Lender program Additional information relating to this action is publicly available in court filings under the docket number 11 Civ 5423 (S D N Y) (Marrero, J).

Federal and state regulators have served subpoenas or otherwise requested information concerning a variety of aspects of Citigroup's mortgage origination and mortgage servicing practices, including with respect to ancillary insurance products or practices. The subjects of such inquiries have included, among other things, Citigroup's compliance with the SCRA and analogous state statutes Many, but not all, of these inquiries are within the scope of the claims released in the National Mortgage Settlement. In some instances, Citigroup is also a defendant in purported class actions, "qui tam" actions, or other actions addressing the same or similar subject matters, including the SCRA Such actions by private litigants or counties and municipalities are not released in the National Mortgage Settlement

Federal and state regulators, including the SEC, also have served subpoenas or otherwise requested information related to Citigroup's issuing, sponsoring, or underwriting of MBS These inquiries include a subpoena from the Civil Division of the Department of Justice that Citigroup received on January 27, 2012

Securities Actions: Citigroup and Related Parties have been named as defendants in four putative class actions filed in the United States District Court for the Southern District of New York. On August 19, 2008, these actions were consolidated under the caption IN RE CITIGROUP INC SECURITIES LITIGATION. The consolidated amended complaint asserts claims arising under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 on behalf of a putative class of purchasers of Citigroup common stock from January 1, 2004 through January 15, 2009 On November 9, 2010, the district court issued an opinion and order dismissing all claims except those arising out of Citigroup's exposure to CDOs for the time period February 1, 2007 through April 18, 2008. Fact discovery is underway. Plaintiffs have not yet quantified the putative class's alleged damages During the putative class period, as narrowed by the district court, the price of Citigroup's common stock declined from $54.73 at the beginning of the period to $25.11 at the end of the period (These share prices represent Citi's common stock prices prior to its 1-for-10 reverse stock split, effective May 6, 2011. See "Earnings Per Share" in Note 1 to the Consolidated Financial Statements.) Additional information relating to this action is publicly available in court filings under the consolidated lead docket number 07 Civ. 9901 (S.D.N.Y.) (Stein, J.).

Citigroup and Related Parties also have been named as defendants in two putative class actions filed in New York state court, but since removed to the United States District Court for the Southern District of New York, alleging violations of Sections 11, 12 and 15 of the Securities Act of 1933 in connection with various offerings of Citigroup securities. On December 10, 2008, these actions were consolidated under the caption IN RE CITIGROUP INC. BOND LITIGATION In the consolidated action, lead plaintiffs assert claims on behalf of a putative class of purchasers of corporate debt securities, preferred stock and interests in preferred stock issued by Citigroup and related issuers over a two-year period from 2006 to 2008. On July 12, 2010, the district court issued an opinion and order dismissing plaintiffs' claims under Section 12 of the Securities Act of 1933, but denying defendants' motion to dismiss certain claims under Section 11. Fact discovery is underway Plaintiffs have not yet quantified the putative class's alleged damages Additional information relating to this action is publicly available in court filings under the consolidated lead docket number 08 Civ. 9522 (S.D.N.Y.) (Stein, J.)

Citigroup and CGMI have been named as defendants in two putative class actions filed in the United States District Court for the Southern District of California, but since transferred by the Judicial Panel on Multidistrict Litigation to the United States District Court for the Southern District of New York In the consolidated action, lead plaintiffs assert claims on behalf of a putative class of participants in Citigroup's Voluntary Financial Advisor Capital Accumulation Plan from November 2006 through January 2009. On June 7, 2011, the district court granted defendants' motion to dismiss the complaint and subsequently entered judgment On November 14, 2011, the district court granted in part plaintiffs' motion to alter or amend the judgment and granted plaintiffs leave to amend the complaint. On November 23, 2011, plaintiffs filed an amended complaint alleging violations of Section 12 of the Securities Act of 1933 and Section 10(b) of the Securities Exchange Act of 1934. Defendants filed a motion to dismiss certain of plaintiffs' claims on December 21, 2011. Additional information relating to this action is publicly available in court filings under the docket number 09 Civ. 7359 (S.D.N.Y.) (Stein, J.)

Several institutional or high-net-worth investors that purchased debt and equity securities issued by Citigroup and affiliated issuers also have filed actions on their own behalf against Citigroup and Related Parties in federal and state court. These actions assert claims similar to those asserted in the IN RE CITIGROUP INC SECURITIES LITIGATION and IN RE CITIGROUP INC. BOND LITIGATION actions described above. Collectively, these investors seek damages exceeding $1 billion. Additional information relating to these individual actions is publicly available in court filings under the docket numbers 09 Civ. 8755 (S.D.N.Y.) (Stein, J.), 10 Civ. 7202 (S.D.N.Y.) (Stein, J.), 10 Civ 9325 (S.D.N.Y.) (Stein, J.), 10 Civ 9646 (S.D.N.Y.) (Stein, J.), 11 Civ 314 (S.D.N.Y.) (Stein, J.), 11 Civ. 4788 (S.D.N.Y.) (Stein, J.), 11 Civ. 7138 (S.D.N.Y.) (Stein, J.), 11 Civ. 8291 (S.D.N.Y.) (Stein, J.), and Case No. 110105028 (Pa. Commw. Ct.) (Sheppard, J.).

ERISA Actions: Beginning in November 2007, numerous putative class actions were filed in the United States District Court for the Southern District of New York by current or former Citigroup employees asserting claims under ERISA against Citigroup and Related Parties alleged to have served as ERISA plan fiduciaries. On August 31, 2009, the district court granted defendants' motion to dismiss the consolidated class action complaint, captioned IN RE CITIGROUP ERISA LITIGATION. Plaintiffs appealed the dismissal and, on October 19, 2011, the United States Court of Appeals for the Second Circuit affirmed the district court's order dismissing the case Additional information relating to this action is publicly available in court filings under the docket number 07 Civ. 9790 (S.D.N.Y.) (Stein, J.) and 09-3804 (2d Cir.).

Beginning on October 28, 2011, several putative class actions were filed in the United States District Court for the Southern District of New York by current or former Citigroup employees asserting claims under ERISA against Citigroup and Related Parties alleged to have served as ERISA plan fiduciaries from 2008 to 2009. Additional information relating to these actions is publicly available in court filings under the docket numbers 11 Civ. 7672, 7943, 8982, 8990 and 8999 (S.D.N.Y.) (Koeltl, J.).

Derivative Actions and Related Proceedings. Numerous derivative actions have been filed in federal and state courts against various current and former officers and directors of Citigroup alleging mismanagement in connection with mortgage-related issues, including Citigroup's exposure to subprime-related assets and servicing and foreclosure of residential mortgages Citigroup is named as a nominal defendant in these actions Certain of these actions have been dismissed either in their entirety or in large part. Additional information relating to the actions still pending is publicly available in court filings under the docket numbers 650417/09 (N.Y. Sup. Ct.) (Fried, J.), 11 Civ 2693 (S.D.N.Y.) (Griesa, J.), and 3338-VCG (Del Ch.) (Glasscock, VC.) In addition, a committee of Citigroup's Board of Directors is reviewing a shareholder demand that raises RMBS-related issues and a shareholder demand that raises issues relating to Citigroup's structuring and sale of Class V.

Mortgage-Backed Securities and CDO Investor Actions and Repurchase Claims: Beginning in July 2010, several investors, including Cambridge Place Investment Management, The Charles Schwab Corporation, the Federal Home Loan Bank of Chicago, the Federal Home Loan Bank of Boston, Allstate Insurance Company and affiliated entities, Union Central Life Insurance Co. and affiliated entities, the Federal Housing Finance Agency, the Western & Southern Life Insurance Company and affiliated entities, Moneygram Payment Systems, Inc., and Loreley Financing (Jersey) No. 3 Ltd and affiliated entities, have filed lawsuits against Citigroup and Related Parties alleging actionable misstatements or omissions in connection with the issuance and underwriting of MBS and CDOs. These actions are in early stages. As a general matter, plaintiffs in these actions are seeking rescission of their investments or other damages. Additional information relating to these actions is publicly available in court filings under the docket numbers 10-2741-BLS1 (Mass. Super Ct.) (Lauriat, J.), 11-0555-BLS1 (Mass Super. Ct.) (Lauriat, J), CGC-10-501610 (Cal. Super Ct.) (Kramer, J), 10 CH 45033 (Ill. Super Ct.) (Allen, J.), LC091499 (Cal. Super. Ct) (Mohr, J.), 11 Civ. 10952 (D. Mass) (O'Toole, J), 11 Civ. 1927 (S.D.N.Y.) (Sullivan, J.), 11 Civ 2890 (S.D.N Y) (Daniels, J.), 11 Civ 6188 (S D.N.Y) (Cote, J.), 11 Civ. 6196 (S D.N Y) (Cote, J.), 11 Civ 6916 (S.D N Y.) (Cote, J.), 11 Civ. 7010 (S D N.Y.) (Cote, J), A 1105042 (Ohio Ct Common Pleas) (Myers, J.), No. 27-CB-11-21348 (Minn. Dist. Ct.) (Howard, J) and 650212/12 (N.Y Sup Ct.). Other purchasers of MBS or CDOs sold or underwritten by Citigroup affiliates have threatened to file lawsuits asserting similar claims, some of which Citigroup has agreed to toll pending further discussions with these investors

In addition, various parties to MBS securitizations, among others, have asserted that certain Citigroup affiliates breached representations and warranties made in connection with mortgage loans placed into securitization trusts Citigroup also has experienced an increase in the level of inquiries relating to these securitizations, particularly requests for loan files from trustees of securitization trusts and others. In December 2011, Citigroup received a letter from the law firm Gibbs & Bruns LLP, which purports to represent a group of investment advisers and holders of MBS issued or underwritten by Citigroup. The letter asserts that Gibbs & Bruns LLP's clients collectively hold 25% or more of the voting rights in 35 MBS trusts issued and/or underwritten by Citigroup affiliates, and that these trusts have an aggregate outstanding balance in excess of $9 billion. The letter alleges that certain mortgages in these trusts were sold or deposited into the trusts based on misrepresentations by the mortgage originators, sellers and/or depositors and that Citigroup improperly serviced mortgage loans in those trusts. The letter further threatens to instruct trustees of the trusts to assert claims against Citigroup based on these allegations. Gibbs & Bruns LLP subsequently informed Citigroup that its clients hold the requisite interest in 70 trusts in total, with an alleged total unpaid principal balance of $24 billion, for which Gibbs & Bruns LLP asserts that Citigroup affiliates have repurchase obligations. Citigroup is also a trustee of securitization trusts for MBS issued by unaffiliated issuers that have received similar letters from Gibbs & Bruns, LLP

Given the continued and increased focus on mortgage-related matters, as well as the increasing level of litigation and regulatory activity relating to mortgage loans and mortgage-backed securities, the level of inquiries and assertions respecting securitizations may further increase. These inquiries and assertions could lead to actual claims for breaches of representations and warranties, or to litigation relating to such breaches or other matters

Underwriting Matters: Certain Citigroup affiliates have been named as defendants arising out of their activities as underwriters of securities in actions brought by investors in securities of issuers adversely affected by the credit crisis, including AIG, Fannie Mae, Freddie Mac, Ambac and Lehman, among others. These matters are in various stages of litigation. As a general matter, issuers indemnify underwriters in connection with such claims. In certain of these matters, however, Citigroup affiliates are not being indemnified or may in the future cease to be indemnified because of the financial condition of the issuer.

On September 28, 2011, the United States District Court for the Southern District of New York approved a stipulation of settlement with the underwriter defendants in IN RE AMBAC FINANCIAL GROUP, INC. SECURITIES LITIGATION and judgment was entered. A member of the settlement class has appealed the judgment to the United States Court of Appeals for the Second Circuit. On December 22, 2011, the underwriter defendants moved to dismiss the appeal. Additional information relating to this action is publicly available in court filings under the docket numbers 08 Civ. 0411 (S D.N.Y) (Buchwald, J) and 11-4643 (2d Cir).

Counterparty and Investor Actions

Citigroup and Related Parties have been named as defendants in actions brought in various state and federal courts, as well as in arbitrations, by counterparties and investors that claim to have suffered losses as a result of the credit crisis. These actions include an arbitration brought by Abu Dhabi Investment Authority (ADIA) alleging statutory and common law claims in connection with its $7.5 billion investment in Citigroup. ADIA sought rescission of the investment agreement or, in the alternative, more than $4 billion in damages. A hearing took place in May 2011. Following post-hearing proceedings, on October 14, 2011, the arbitration panel issued a final award and statement of reasons finding in favor of Citigroup on all claims asserted by ADIA On January 11, 2012, ADIA filed a petition to vacate the award in New York state court On January 13, 2012, Citigroup removed the petition to the United States District Court for the Southern District of New York Additional information regarding this matter is publicly available in court filings under the docket number 12 Civ. 283 (S D N Y) (Daniels, J.)

In August 2011, two Saudi nationals and related entities commenced a FINRA arbitration against Citigroup Global Markets, Inc (CGMI) alleging $380 million in losses resulting from certain options trades referencing a portfolio of hedge funds and certain credit facilities collateralized by a private equity portfolio. CGMI did not serve as the counterparty or credit facility provider in these transactions In September 2011, CGMI commenced an action in the United States District Court for the Southern District of New York seeking to enjoin the arbitration Simultaneously with that filing, the Citigroup entities that served as the counterparty or credit facility provider to the transactions commenced actions in London and Switzerland for declaratory judgments of no liability

ASTA/MAT and Falcon-Related Litigation and Other Matters

ASTA/MAT and Falcon were alternative investment funds managed and marketed by certain Citigroup affiliates that suffered substantial losses during the credit crisis. The SEC is investigating the management and marketing of the ASTA/MAT and Falcon funds. Citigroup is cooperating fully with the SEC's inquiry.

In addition, numerous investors in ASTA/MAT have filed lawsuits or arbitrations against Citigroup and Related Parties seeking recoupment of their alleged losses. Although many of these investor disputes have been resolved, others remain pending. In April 2011, a FINRA arbitration panel awarded two ASTA/MAT investors $54 million in damages and attorneys' fees, including punitive damages, against Citigroup. In December 2011, the United States District Court for the District of Colorado entered an order confirming the FINRA panel's award. Citigroup has filed a notice of appeal to the 10th Circuit Court of Appeals. Additional information relating to this matter is publicly available in court filings under the docket number 11 Civ 971 (D. Colo.) (Arguello, J.).

Auction Rate Securities–Related Litigation and Other Matters

Beginning in March 2008, Citigroup and Related Parties have been named as defendants in numerous actions and proceedings brought by Citigroup shareholders and customers concerning ARS, many of which have been resolved. These have included, among others: (i) numerous lawsuits and arbitrations filed by customers of Citigroup and its affiliates seeking damages in connection with investments in ARS; (ii) a consolidated putative class action asserting claims for federal securities violations, which has been dismissed and is now pending on appeal; (iii) two putative class actions asserting violations of Section 1 of the Sherman Act, which have been dismissed and are now pending on appeal; and (iv) a derivative action filed against certain Citigroup officers and directors, which has been dismissed. In addition, based on an investigation, report and recommendation from a committee of Citigroup's Board of Directors, the Board refused a shareholder demand that was made after dismissal of the derivative action. Additional information relating to certain of these actions is publicly available in court filings under the docket numbers 08 Civ. 3095 (S.D.N.Y.) (Swain, J.), 10-722 (2d Cir.); 10-867 (2d Cir.); 11-1270 (2d Cir.).

Lehman Structured Notes Matters

Like many other financial institutions, Citigroup, through certain of its affiliates and subsidiaries, distributed structured notes (Notes) issued and guaranteed by Lehman entities to retail customers in various countries outside the United States, principally in Europe and Asia. After the relevant Lehman entities filed for bankruptcy protection in September 2008, certain regulators in Europe and Asia commenced investigations into the conduct of financial institutions involved in such distribution, including Citigroup entities. Some of those regulatory investigations have resulted in adverse findings against Citigroup entities. Some purchasers of the Notes have filed civil actions or otherwise complained about the sales process. Citigroup has resolved the vast majority of such actions or complaints either on an individual basis or through settlement offers, made without admission of liability, to all eligible purchasers of Notes distributed by Citigroup in certain countries.

In Belgium, criminal charges were brought against a Citigroup subsidiary (CBB) and three current or former employees. On December 1, 2010, the court acquitted all defendants of fraud and anti-money laundering charges but convicted all defendants under the Prospectus Act, and convicted CBB under Fair Trade Practices legislation. CBB was fined 165,000 Euro and was ordered to compensate 63 non-settling claimants for the par value of their Notes (2.4 million Euro in the aggregate), net of any recovery they receive in the Lehman bankruptcies. Both CBB and the Public Prosecutor have appealed the judgment. The appellate court has indicated that it will render its decision on April 2, 2012.

Lehman Brothers Bankruptcy Proceedings

On March 18, 2011, Citigroup and Related Parties were named as defendants in an adversary proceeding captioned LEHMAN BROTHERS INC. v. CITIBANK, N.A., ET AL. In the complaint, which asserts claims under federal bankruptcy and state law, the Securities Investor Protection Act Trustee alleges that a $1 billion cash deposit Lehman Brothers Inc. (LBI) placed with Citibank prior to the commencement of liquidation proceedings should be returned to the bankruptcy estate, that Citibank's setoff against the $1 billion deposit to satisfy its claims against LBI should be set aside, and that approximately $342 million in additional deposits by LBI currently held by Citibank and its affiliates should be returned to the estate. Citigroup has moved to dismiss the adversary complaint. Additional information relating to this adversary proceeding is publicly available in court filings under the docket number 11-01681 (Bankr. S.D.N.Y.) (Peck, J.). Additional information relating to the LBI liquidation proceeding, captioned IN RE LEHMAN BROTHERS INC., is publicly available in court filings under the docket number 08-01420 (Bankr. S.D.N.Y.) (Peck, J.).

On February 8, 2012, Citigroup and Related Parties were named as defendants in an adversary proceeding captioned LEHMAN BROTHERS HOLDINGS INC. v. CITIBANK, N.A., ET AL. The proceeding principally concerns proofs of claim Citigroup entities have filed against Lehman Brothers Holdings Inc. (LBHI) and its affiliates, in which Citigroup entities have claimed they are owed more than $2.6 billion under derivatives contracts, loan documents, and clearing agreements, among other arrangements. Citigroup has further asserted a right to offset approximately $2.3 billion of these claims against $2 billion deposited by LBHI with Citibank, N.A. in June 2008, as well as certain other LBHI deposits and other payables owed by the Citigroup entities.

The complaint asserts claims under state and federal law to recover the $2 billion deposit and obtain a declaration that it may not be used to offset any Citigroup entities' claims, to avoid a $500 million transfer and an amendment to a guarantee in favor of Citigroup, and for other relief. The complaint also raises objections to proofs of claim filed by Citigroup

entities against LBHI and its affiliates The claim objections seek to reduce or avoid approximately $2 billion in claims relating to terminated derivatives contracts and to disallow all claims against LBHI to the extent they seek to recover against the disputed deposit or guarantee. Additional information relating to this adversary proceeding is publicly available in court filings under the docket number 12-01044 (Bankr. S.D.N.Y.) (Peck, J.).

Additional information relating to the Chapter 11 bankruptcy proceedings of LBHI and its subsidiaries, captioned IN RE LEHMAN BROTHERS HOLDINGS INC , is publicly available in court filings under the docket number 08-13555 (Bankr. S D N.Y.) (Peck, J).

On September 15, 2008, LBHI subsidiary Lehman Brothers International (Europe) (LBIE) entered administration under English law Since that time, Citigroup and Related Parties have held as custodians approximately $2 billion of proprietary assets and cash of LBIE. During the course of LBIE's administration, Citigroup and Related Parties asserted a contractual right to retain the proprietary assets and cash as security for amounts owed to Citigroup and Related Parties by LBIE and its affiliates (including LBHI and LBI), a right that the administrators for LBIE disputed On June 28, 2011, Citigroup and Related Parties entered into a settlement agreement with LBIE resolving the parties' disputes with respect to the LBIE proprietary assets and cash held by Citigroup and Related Parties as custodians Under the terms of the settlement, Citigroup and Related Parties have undertaken the return of LBIE's proprietary assets and cash and released all claims in respect of those assets and cash in exchange for releases, the payment of fees and preservation of certain claims asserted by Citigroup and Related Parties in LBIE's insolvency proceeding in England. The settlement does not affect the deposits, claims or setoff rights at issue in the disputes with LBI and LBHI described above Additional information relating to the administration of LBIE is available at www.pwc.co.uk/eng/issues/lehman_updates.html

Terra Firma Litigation

In December 2009, plaintiffs, general partners of two related private equity funds, filed a complaint in New York state court, subsequently removed to the Southern District of New York, against certain Citigroup affiliates. Plaintiffs allege that during the May 2007 auction of the music company EMI, Citigroup, as advisor to EMI and as a potential lender to plaintiffs' acquisition vehicle Maltby, fraudulently or negligently orally misrepresented the intentions of another potential bidder regarding the auction Plaintiffs alleged that, but for the oral misrepresentations, Maltby would not have acquired EMI for approximately £4 2 billion Plaintiffs further alleged that, following the acquisition of EMI, certain Citigroup entities tortiously interfered with plaintiffs' business relationship with EMI Plaintiffs sought billions of dollars in damages. On September 15, 2010, the district court issued an order granting in part and denying in part Citigroup's motion for summary judgment. Plaintiffs' claims for negligent misrepresentation and tortious interference were dismissed On October 18, 2010, a jury trial commenced on plaintiffs' remaining claims for fraudulent misrepresentation and fraudulent concealment The court dismissed the fraudulent concealment claim before sending the case to the jury On November 4, 2010, the jury returned a verdict on the fraudulent misrepresentation claim in favor of Citigroup Judgment dismissing the complaint was entered on December 9, 2010. Plaintiffs have appealed the judgment as to the negligent misrepresentation claim, the fraudulent concealment claim and the fraudulent misrepresentation claim. Additional information relating to this action is publicly available in court filings under the docket numbers 09 Civ 10459 (S.D N Y.) (Rakoff, J) and 11-0126 (2d Cir.).

Interbank Offered Rates-Related Litigation and Other Matters

Government agencies in the U.S., including the Department of Justice, the Commodity Futures Trading Commission and the Securities and Exchange Commission, as well as agencies in other jurisdictions, including the European Commission, the U.K Financial Services Authority, the Japanese Financial Services Agency (JFSA) and the Canadian Competition Bureau, are conducting investigations or making inquiries regarding submissions made by panel banks to bodies that publish various interbank offered rates. As members of a number of such panels, Citigroup subsidiaries have received requests for information and documents. Citigroup is cooperating with the investigations and inquiries and is responding to the requests.

On December 16, 2011, the JFSA took administrative action against Citigroup Global Markets Japan Inc. (CGMJ) for, among other things, certain communications made by two CGMJ traders about the Euroyen Tokyo interbank offered rate (TIBOR) and the yen London interbank offered rate (LIBOR) The JFSA issued a business improvement order and suspended CGMJ's trading in derivatives related to yen LIBOR and Euroyen and yen TIBOR from January 10 to January 23, 2012. On the same day, the JFSA also took administrative action against Citibank Japan Ltd. (CJL) for conduct arising out of CJL's retail business and also noted that the communications made by the CGMJ traders to employees of CJL about Euroyen TIBOR had not been properly reported to CJL's management team The inquiries by government agencies into various interbank offered rates are ongoing.

Additionally, beginning in April 2011, a number of purported class actions and other private civil suits were filed in various courts against banks that served on the LIBOR panel and their affiliates, including certain Citigroup subsidiaries The actions, which assert various federal and state law claims relating to the setting of LIBOR, have been consolidated into a multidistrict litigation proceeding before Judge Buchwald in the Southern District of New York Additional information relating to these actions is publicly available in court filings under docket number 1.11-md-2262 (S.D.N.Y.) (Buchwald, J).

KIKOs

Several local banks in Korea, including a Citigroup subsidiary (CKI), entered into foreign exchange derivative transactions with small and medium-size export businesses (SMEs) to enable the SMEs to hedge their currency risk The derivatives had "knock-in, knock-out" features. Following the devaluation of the Korean won in 2008, many of these SMEs incurred significant losses on the derivative transactions and filed civil lawsuits against the banks, including CKI The claims generally allege that the products were not suitable and that the risk disclosure was inadequate As of December 31, 2011, there were 83 civil lawsuits filed by SMEs against CKI To

date, 79 decisions have been rendered at the district court level, and CKI has prevailed in 63 of those decisions. In the other 16 decisions, plaintiffs were awarded only a portion of the damages sought. The damage awards total in the aggregate approximately $19.5 million. CKI is appealing the 16 adverse decisions. A significant number of plaintiffs that had decisions rendered against them are also filing appeals, including plaintiffs that were awarded less than all of the damages they sought. In the single plaintiff's appeal that has been decided, the decision was in CKI's favor.

Korean prosecutors undertook a criminal investigation of local banks, including CKI, based on allegations of fraud in the sale of these products. In July 2011 prosecutors decided not to proceed with indictments. That decision has been appealed.

Tribune Company Bankruptcy

Certain Citigroup affiliates have been named as defendants in adversary proceedings related to the Chapter 11 cases of Tribune Company (Tribune) pending in the United States Bankruptcy Court for the District of Delaware. The complaints, which arise out of the approximate $11 billion leveraged buyout (LBO) of Tribune in 2007, were stayed by court order pending a confirmation hearing on competing plans of reorganization. On October 31, 2011, the bankruptcy court denied confirmation of both the competing plans. A third amended plan of reorganization was then proposed, and confirmation proceedings are expected to take place in 2012. Additional information relating to these actions is publicly available in court filings under the lead docket number 08-13141 (Bankr. D. Del.) (Carey, J.). Certain Citigroup affiliates also have been named as defendants in actions brought by Tribune creditors alleging state law constructive fraudulent conveyance claims relating to the Tribune LBO. These actions have been stayed pending confirmation of a plan of reorganization. Additional information relating to these actions is publicly available in court filings under the docket number 11 MD 02296 (S.D.N.Y.) (Holwell, J.).

Interchange Fees Litigation

Beginning in 2005, several putative class actions were filed against Citigroup and Related Parties, together with Visa, MasterCard and other banks and their affiliates, in various federal district courts. These actions were consolidated with other related cases in the Eastern District of New York and captioned IN RE PAYMENT CARD INTERCHANGE FEE AND MERCHANT DISCOUNT ANTITRUST LITIGATION. The plaintiffs in the consolidated class action are merchants that accept Visa- and MasterCard-branded payment cards, as well as membership associations that claim to represent certain groups of merchants. The pending complaint alleges, among other things, that defendants have engaged in conspiracies to set the price of interchange and merchant discount fees on credit and debit card transactions in violation of Section 1 of the Sherman Act. The complaint also alleges additional Sherman Act and California law violations, including alleged unlawful maintenance of monopoly power and alleged unlawful contracts in restraint of trade pertaining to various Visa and MasterCard rules governing merchant conduct (including rules allegedly affecting merchants' ability, at the point of sale, to surcharge payment card transactions or steer customers to particular payment cards). In addition, supplemental complaints filed against defendants in the class action allege that Visa's and MasterCard's respective initial public offerings were anticompetitive and violated Section 7 of the Clayton Act, and that MasterCard's initial public offering constituted a fraudulent conveyance.

Plaintiffs seek injunctive relief as well as joint and several liability for treble their damages, including all interchange fees paid to all Visa and MasterCard members with respect to Visa and MasterCard transactions in the U.S. since at least January 1, 2004. Certain publicly available documents estimate that Visa- and MasterCard-branded cards generated approximately $40 billion in interchange fees industry wide in 2009. Defendants dispute that the manner in which interchange and merchant discount fees are set, or the rules governing merchant conduct, are anticompetitive. Fact and expert discovery has closed. Defendants' motions to dismiss the pending class action complaint and the supplemental complaints are pending. Also pending are plaintiffs' motion to certify nationwide classes consisting of all U.S. merchants that accept Visa- and MasterCard-branded payment cards and motions by both plaintiffs and defendants for summary judgment. The parties have been engaged in mediation for several years, including recent settlement conferences held at the direction of the court. Additional information relating to these consolidated actions is publicly available in court filings under the docket number MDL 05-1720 (E.D.N.Y.) (Gleeson, J.).

Parmalat Litigation and Related Matters

On July 29, 2004, Dr. Enrico Bondi, the Extraordinary Commissioner appointed under Italian law to oversee the administration of various Parmalat companies, filed a complaint in New Jersey state court against Citigroup and Related Parties alleging, among other things, that the defendants "facilitated" a number of frauds by Parmalat insiders. On October 20, 2008, following trial, a jury rendered a verdict in Citigroup's favor on Parmalat's claims and in favor of Citibank on three counterclaims. The court entered judgment for Citibank on the counterclaims in the amount of $431 million, which is accruing interest. On December 22, 2011, the intermediate appellate court unanimously affirmed the judgment. On January 23, 2012, Bondi petitioned the New Jersey Supreme Court to review the decisions of the lower courts. Additional information concerning this matter is publicly available in court filings under docket number A-2654-08T2 (N.J. Sup. Ct.).

In addition, prosecutors in Parma and Milan, Italy, have commenced criminal proceedings against certain current and former Citigroup employees (along with numerous other investment banks and certain of their current and former employees, as well as former Parmalat officers and accountants). In the event of an adverse judgment against the individuals in question, it is possible that the authorities could seek administrative remedies against Citigroup. On April 18, 2011, the Milan criminal court acquitted the sole Citigroup defendant of market-rigging charges. The Milan prosecutors have appealed part of that judgment and seek administrative remedies against Citigroup, which may include disgorgement of 70 million Euro and a fine of 900,000 Euro. Additionally, Bondi has purported to file a civil complaint against Citigroup in the context of the Parma criminal proceedings, seeking 14 billion Euro in damages. In January 2011, certain Parmalat institutional investors filed a civil complaint seeking damages of approximately 130 million Euro against Citigroup and other financial institutions.

Research Analyst Litigation

In March 2004, a putative research-related customer class action alleging various state law claims arising out of the issuance of allegedly misleading research analyst reports concerning numerous issuers was filed against certain Citigroup affiliates in Illinois state court On October 13, 2011, the court entered an order dismissing with prejudice all class-action claims asserted in the action on the ground that the Securities Litigation Uniform Standards Act of 1998 precludes those claims. The court granted leave for the putative representative plaintiff to file an amended complaint asserting only his individual claims within 21 days. An amended complaint was not filed within the 21-day period. The putative representative plaintiff has filed a notice of appeal from the court's October 13, 2011 order. Additional information concerning this matter is publicly available in court filings under docket numbers 04-L-265 (Ill. Cir) (Hylla, J) and 5-11-0504 (Ill. App Ct. 5 Dist.).

Companhia Industrial de Instrumentos de Precisão Litigation

A commercial customer, Companhia Industrial de Instrumentos de Precisão (CIIP), filed a lawsuit against Citibank, N.A., Brazil branch (Citi Brazil), in 1992, alleging damages arising from an unsuccessful attempt by Citi Brazil in 1975 to declare CIIP bankrupt after CIIP defaulted on a loan owed to Citi Brazil. The trial court ruled in favor of CIIP and awarded damages that Citigroup had estimated at more than $330 million after taking into account interest, currency adjustments, and current exchange rates. Citi Brazil lost its appeal but filed a special appeal to the Superior Tribunal of Justice (STJ), the highest appellate court for federal law in Brazil The 4th Section of the STJ ruled 3-2 in favor of Citi in November 2008. CIIP appealed the decision to the Special Court of the STJ on procedural grounds In December 2009, the Special Court of the STJ decided 9-0 in favor of CIIP on the procedural issue, overturning the 3-2 merits decision in favor of Citi Citi Brazil filed a motion for clarification with the Special Court of the STJ, and on May 4, 2011, the Special Court ruled 5-3 in favor of Citi Brazil This ruling has the effect of reinstating the 3-2 decision of the 4th Section of the STJ in favor of Citi Brazil rendered in November 2008, which had reversed the adverse judgment of the trial court The only procedural recourse remaining to CIIP would be to file a constitutional claim with the Supreme Court of Brazil

Allied Irish Bank Litigation

In 2003, Allied Irish Bank (AIB) filed a complaint in the Southern District of New York seeking to hold Citibank and Bank of America, former prime brokers for AIB's subsidiary Allfirst Bank (Allfirst), liable for losses incurred by Allfirst as a result of fraudulent and fictitious foreign currency trades entered into by one of Allfirst's traders. AIB seeks compensatory damages of approximately $500 million, plus punitive damages, from Citibank and Bank of America collectively In 2006, the Court granted in part and denied in part defendants' motion to dismiss. In 2009, AIB filed an amended complaint. In 2011, the parties completed fact discovery. Additional information concerning this matter is publicly available in court filings under docket number 03 Civ. 3748 (S.D.N.Y) (Batts, J.).

This Note to the Consolidated Financial Statements is unaudited due to the Company's individual quarterly results not being subject to an audit

(1) Citi has adjusted its fourth quarter results of operations that were previously announced on January 17, 2012, for an additional $209 million (after-tax) charge This charge relates to the agreement in principle with the United States and state attorneys general announced on February 9, 2012 regarding the settlement of a number of investigations into residential loan servicing and origination litigation, as well as the resolution of related mortgage litigation (see Notes 29 and 30 to the Consolidated Financial Statements) The impact of these adjustments was a $275 million (pretax) increase in *Other operating expenses*, a $209 million (after-tax) reduction in *Net income* and a $0 07 (after-tax) reduction in *Diluted earnings per share*, each for the fourth quarter of 2011

(2) All per share amounts for all periods reflect Citigroup's 1-for-10 reverse stock split, which was effective May 6 2011

(3) Due to averaging of shares, quarterly earnings per share may not add up to the totals reported for the full year

SUPERVISION AND REGULATION

Citigroup is subject to regulation under U S federal and state laws, as well as applicable laws in the other jurisdictions in which it does business.

General

As a registered bank holding company and financial holding company, Citigroup is regulated and supervised by the Board of Governors of the Federal Reserve System (FRB). Citigroup's nationally chartered subsidiary banks, including Citibank, N.A., are regulated and supervised by the Office of the Comptroller of the Currency (OCC) and its state-chartered depository institution by the relevant State's banking department and the Federal Deposit Insurance Corporation (FDIC) The FDIC also has back-up enforcement authority for banking subsidiaries whose deposits it insures. Overseas branches of Citibank are regulated and supervised by the FRB and OCC and overseas subsidiary banks by the FRB. Such overseas branches and subsidiary banks are also regulated and supervised by regulatory authorities in the host countries.

A U.S. financial holding company and the companies under its control are permitted to engage in a broader range of activities in the U.S. and abroad than permitted for bank holding companies and their subsidiaries. Unless otherwise limited by the FRB, financial holding companies generally can engage, directly or indirectly in the U S and abroad, in financial activities, either de novo or by acquisition, by providing after-the-fact notice to the FRB. These financial activities include underwriting and dealing in securities, insurance underwriting and brokerage and making investments in non-financial companies for a limited period of time, as long as Citi does not manage the non-financial company's day-to-day activities, and its banking subsidiaries engage only in permitted cross-marketing with the non-financial company If Citigroup ceases to qualify as a financial holding company, it could be barred from new financial activities or acquisitions, and have to discontinue the broader range of activities permitted to financial holding companies.

Citi is permitted to acquire U.S depository institutions, including out-of-state banks, subject to certain restrictions and the prior approval of federal banking regulators. In addition, intrastate bank mergers are permitted and banks in states that do not prohibit out-of-state mergers may merge A national bank can generally also establish a new branch in any state (to the same extent as banks organized in the subject state) and state banks may establish a branch in another state if permitted by the other state However, all bank holding companies, including Citigroup, must obtain the prior approval of the FRB before acquiring more than 5% of any class of voting stock of a U.S depository institution or bank holding company. The FRB must also approve certain additional capital contributions to an existing non-U S. investment and certain acquisitions by Citigroup of an interest in a non-U.S. company, including in a foreign bank, as well as the establishment by Citibank of foreign branches in certain circumstances

For more information on U S and foreign regulation affecting Citigroup and its subsidiaries, see "Risk Factors—Regulatory Risks" above

Changes in Regulation

Proposals to change the laws and regulations affecting the banking and financial services industries are frequently introduced in Congress, before regulatory bodies and abroad that may affect the operating environment of Citigroup and its subsidiaries in substantial and unpredictable ways. This has been particularly true as a result of the financial crisis Citigroup cannot determine whether any such proposals will be enacted and, if enacted, the ultimate effect that any such potential legislation or implementing regulations would have upon the financial condition or results of operations of Citigroup or its subsidiaries. For additional information regarding recently enacted and proposed legislative and regulatory initiatives, including significant provisions of the Dodd-Frank Act that have not been fully implemented by the U S. banking agencies, see "Capital Resources and Liquidity—Regulatory Capital Standards" and "Risk Factors—Regulatory Risks" above

Other Bank and Bank Holding Company Regulation

Citigroup and its banking subsidiaries are subject to other regulatory limitations, including requirements for banks to maintain reserves against deposits, requirements as to risk-based capital and leverage (see "Capital Resources and Liquidity" above and Note 20 to the Consolidated Financial Statements), restrictions on the types and amounts of loans that may be made and the interest that may be charged, and limitations on investments that can be made and services that can be offered. The FRB may also expect Citigroup to commit resources to its subsidiary banks in certain circumstances. Citigroup is also subject to anti-money laundering and financial transparency laws, including standards for verifying client identification at account opening and obligations to monitor client transactions and report suspicious activities.

Securities and Commodities Regulation

Citigroup conducts securities underwriting, brokerage and dealing activities in the U S through Citigroup Global Markets Inc., its primary broker-dealer, and other broker-dealer subsidiaries, which are subject to regulations of the SEC, the Financial Industry Regulatory Authority and certain exchanges, among others. Citigroup conducts similar securities activities outside the U.S., subject to local requirements, through various subsidiaries and affiliates, principally Citigroup Global Markets Limited in London, which is regulated principally by the U K Financial Services Authority, and Citigroup Global Markets Japan Inc in Tokyo, which is regulated principally by the Financial Services Agency of Japan.

Citigroup also has subsidiaries that are members of futures exchanges and are registered accordingly In the U S , CGMI is a member of the principal U S futures exchanges, and Citigroup has subsidiaries that are registered as futures commission merchants and commodity pool operators with the Commodity Futures Trading Commission (CTFC)

CGMI is also subject to Rule 15c3-1 of the SEC and Rule 1 17 of the CTFC, which specify uniform minimum net capital requirements. Compliance with these rules could limit those operations of CGMI that require the intensive use of capital, such as underwriting and trading activities and the financing of customer account balances, and also limits the ability of broker-dealers to transfer large amounts of capital to parent companies and other affiliates. See also "Capital Resources—Broker-Dealer Subsidiaries" and Note 20 to the Consolidated Financial Statements for a further discussion of capital considerations of Citigroup's non-banking subsidiaries

Dividends

Citigroup is currently subject to restrictions on its ability to pay common stock dividends See "Risk Factors" above For information on the ability of Citigroup's subsidiary depository institutions and non-bank subsidiaries to pay dividends, see "Capital Resources—Capital Resources of Citigroup's U S. Depository Institutions" and Note 20 to the Consolidated Financial Statements above.

Transactions with Affiliates

The types and amounts of transactions between Citigroup's U.S. subsidiary depository institutions and their non-bank affiliates are regulated by the FRB, and are generally required to be on arm's-length terms. See also "Funding and Liquidity" above

Insolvency of an Insured U.S. Subsidiary Depository Institution

If the FDIC is appointed the conservator or receiver of an FDIC-insured U S subsidiary depository institution such as Citibank, N A., upon its insolvency or certain other events, the FDIC has the ability to transfer any of the depository institution's assets and liabilities to a new obligor without the approval of the depository institution's creditors, enforce the terms of the depository institution's contracts pursuant to their terms or repudiate or disaffirm contracts or leases to which the depository institution is a party

Additionally, the claims of holders of deposit liabilities and certain claims for administrative expenses against an insured depository institution would be afforded priority over other general unsecured claims against such an institution, including claims of debt holders of the institution and depositors in non-U S offices, in the liquidation or other resolution of such an institution by any receiver As a result, such persons would be treated differently from and could receive, if anything, substantially less than the depositors in U S offices of the depository institution

An FDIC-insured financial institution that is affiliated with a failed FDIC-insured institution may have to indemnify the FDIC for losses resulting from the insolvency of the failed institution. Such an FDIC indemnity claim is generally superior in right of payment to claims of the holding company and its affiliates and depositors against such depository institution

Privacy and Data Security

Citigroup is subject to many U S., state and international laws and regulations relating to policies and procedures designed to protect the non-public information of its consumers Citigroup must periodically disclose its privacy policy to consumers and must permit consumers to opt out of Citigroup's ability to use such information to market to affiliates and third-party non-affiliates under certain circumstances. See also "Risk Factors—Business Risks" and "Operational Risk—Information Security and Continuity of Business" above.

CUSTOMERS

In Citigroup's judgment, no material part of Citigroup's business depends upon a single customer or group of customers, the loss of which would have a materially adverse effect on Citi, and no one customer or group of affiliated customers accounts for at least 10% of Citigroup's consolidated revenues.

COMPETITION

The financial services industry, including each of Citigroup's businesses, is highly competitive. Citigroup's competitors include a variety of other financial services and advisory companies such as banks, thrifts, credit unions, credit card issuers, mortgage banking companies, trust companies, investment banking companies, brokerage firms, investment advisory companies, hedge funds, private equity funds, securities processing companies, mutual fund companies, insurance companies, automobile financing companies, and internet-based financial services companies.

Citigroup competes for clients and capital (including deposits and funding in the short- and long-term debt markets) with some of these competitors globally and with others on a regional or product basis Citigroup's competitive position depends on many factors, including the value of Citi's brand name, reputation, the types of clients and geographies served, the quality, range, performance, innovation and pricing of products and services, the effectiveness of and access to distribution channels, technology advances, customer service and convenience, effectiveness of transaction execution, interest rates and lending limits, regulatory constraints and the effectiveness of sales promotion efforts Citigroup's ability to compete effectively also depends upon its ability to attract new employees and retain and motivate existing employees, while managing compensation and other costs. See "Risk Factors—Regulatory Risks" above

In recent years, Citigroup has experienced intense price competition in some of its businesses. For example, the increased pressure on trading commissions from growing direct access to automated, electronic markets

may continue to impact *Securities and Banking*, and technological advances that enable more companies to provide funds transfers may diminish the importance of *Global Consumer Banking's* role as a financial intermediary.

There has been substantial consolidation among companies in the financial services industry, particularly as a result of the financial crisis, through mergers, acquisitions and bankruptcies. This consolidation may produce larger, better capitalized and more geographically diverse competitors able to offer a wider array of products and services at more competitive prices around the world. In certain geographic regions, including "emerging markets," our competitors may have a stronger local presence, longer operating histories, and more established relationships with clients and regulators.

Citigroup continues to evaluate its current and projected space requirements and may determine from time to time that certain of its premises and facilities are no longer necessary for its operations. There is no assurance that Citigroup will be able to dispose of any such excess premises or that it will not incur charges in connection with such dispositions. Such disposition costs may be material to Citigroup's operating results in a given period.

Citi has developed programs for its properties to achieve long-term energy efficiency objectives and reduce its greenhouse gas emissions to lessen its impact on climate change. Citi has also integrated a climate change adaptation strategy into its operational strategy, which includes redundancy measures, to address risks from climate change and weather influenced events These activities could help to mitigate, but will not eliminate, Citi's potential risk from future climate change regulatory requirements or Citi's risk of increased costs from extreme weather events.

Attachment A

City of Chicago
Economic Disclosure Statement and Affidavit

U.S. Bank National Association was formed from the following major banks: (1) Star Bank, National Association (Cincinnati, Ohio) changed its name to Firstar Bank, National Association (Cincinnati, Ohio) effective February 1999; (2) Mercantile Bank National Association (St. Louis, Missouri) merged into Firstar Bank, National Association (Cincinnati, Ohio) effective April 2000; (3) United States National Bank of Oregon (Portland, Oregon) merged with First Bank, National Association under the title U.S. Bank National Association effective August 1997; (4) U.S. Bank National Association merged into Firstar Bank, National Association, and the succeeding bank, changed its name to U.S. Bank National Association effective August 2001. These banks acquired through mergers and acquisitions numerous smaller banks. There are five hundred and forty-two U.S. Bank National Association predecessors. Thirty-three predecessors were founded before the abolition of slavery in December 1865. Thirteen of the pre-1866 predecessors were established in southern slave-holding states and territories, including Kansas, Kentucky, Missouri, and Tennessee.

In reviewing historical records held in various external repositories in accordance with the research requirements as set forth in the City of Chicago Office of the Corporation Counsel opinion letter dated April 29, 2004, U.S. Bank National Association has identified external records of its predecessors which necessitate disclosure. The conveyance records, while showing no record of direct ownership of enslaved individuals did contain records of founders and/or directors of predecessor banks owning enslaved individuals, as well as a record where an enslaved individual was the collateral for a loan. Specifically, the first president of predecessor Marion National Bank of Lebanon, Kentucky (founded in 1856), Benedict Spalding, owned two enslaved individuals in 1850. In 1860 someone with a similar name "Benidict Spalding" is also listed as having owned fourteen enslaved individuals. In addition, certain members of the Marion National Bank of Lebanon's board of directors (called "commissioners") owned approximately forty-seven enslaved individuals in total (the records include abbreviated names, which we conclude may be references to commissioners). The first president of predecessor First National Bank of Clarksville, Tennessee (founded in 1865), S.F. Beaumont, owned one enslaved individual in 1860. The first president of predecessor St. Louis Building and Savings Association, Missouri (founded in 1857), Marshall Brotherton, owned ten enslaved individuals in 1850 and four enslaved individuals in 1860. Merchants Bank (founded in 1857) and Bank of St. Louis (founded in 1857), both predecessors, along with a group of other St. Louis firms, issued a mortgage to Charles McLaran that was secured by his property, which included an unspecified number of enslaved individuals. However, the 1860 Federal Census Slave Schedule for St. Louis provided that Charles McLaran owned thirteen enslaved individuals.

The above is only a summary. U.S. Bank National Association has previously provided the City of Chicago with supporting attachments.

Attachment B

City of Chicago
Economic Disclosure Statement and Affidavit

U.S. Bank National Association is also one of the largest corporate trustees in the United States and in such capacity is trustee of numerous mortgage-backed securitizations trusts. Each trust holds multiple real property mortgages. From time-to-time, mortgage borrowers in Chicago default on mortgages or otherwise fail to comply with City of Chicago requirements with respect to certain of their properties. With respect to some of the troubled properties, U.S. Bank National Association may be a lender. However with respect to the majority of the trouble properties in Chicago for which U.S. Bank National Association is involved, U.S. Bank National Association is not the beneficial owner of the property and has no individual or corporate interest in the property. These properties are trust properties which are maintained by a wide variety of servicers. As of January 4, 2013, U.S. Bank National Association was aware of outstanding claims against it in its individual capacity of approximately $3,583.38. Moreover, with respect to properties held in trust (excluding Illinois Land Trust properties) for which U.S. Bank National Association acts as trustee, as of January 4, 2013, we were aware of outstanding claims against trust properties in the amount of approximately $132,599.23. As of January 14, 2013, U.S. Bank National Association has worked with the trust servicers to reduce that amount to $68,293.01.

U.S. Bank National Association, both in its individual capacity and in its capacity as a trustee, meets with various city officials twice a month to address these claims. U.S. Bank National Association, both individually and as trustee, has continually strived to work with the City to resolve and reconcile amounts potentially owed to the City. U.S. Bank National Association, both individually and as trustee, intends to continue to work with the City in good faith to address property concerns including amounts owed.

City of Chicago
Economic Disclosure Statement and Affidavit

U.S. Bank National Association was formed from the following major banks: (1) Star Bank, National Association (Cincinnati, Ohio) changed its name to Firstar Bank, National Association (Cincinnati, Ohio) effective February 1999; (2) Mercantile Bank National Association (St. Louis, Missouri) merged into Firstar Bank, National Association (Cincinnati, Ohio) effective April 2000; (3) United States National Bank of Oregon (Portland, Oregon) merged with First Bank, National Association under the title U.S. Bank National Association effective August 1997; (4) U.S. Bank National Association merged into Firstar Bank, National Association, and the succeeding bank, changed its name to U.S. Bank National Association effective August 2001. These banks acquired through mergers and acquisitions numerous smaller banks. There are five hundred and forty-two U.S. Bank National Association predecessors. Thirty-three predecessors were founded before the abolition of slavery in December 1865. Thirteen of the pre-1866 predecessors were established in southern slave-holding states and territories, including Kansas, Kentucky, Missouri, and Tennessee.

In reviewing historical records held in various external repositories in accordance with the research requirements as set forth in the City of Chicago Office of the Corporation Counsel opinion letter dated April 29, 2004, U.S. Bank National Association has identified external records of its predecessors which necessitate disclosure. The conveyance records, while showing no record of direct ownership of enslaved individuals did contain records of founders and/or directors of predecessor banks owning enslaved individuals, as well as a record where an enslaved individual was the collateral for a loan. Specifically, the first president of predecessor Marion National Bank of Lebanon, Kentucky (founded in 1856), Benedict Spalding, owned two enslaved individuals in 1850. In 1860 someone with a similar name "Benidict Spalding" is also listed as having owned fourteen enslaved individuals. In addition, certain members of the Marion National Bank of Lebanon's board of directors (called "commissioners") owned approximately forty-seven enslaved individuals in total (the records include abbreviated names, which we conclude may be references to commissioners). The first president of predecessor First National Bank of Clarksville, Tennessee (founded in 1865), S.F. Beaumont, owned one enslaved individual in 1860. The first president of predecessor St. Louis Building and Savings Association, Missouri (founded in 1857), Marshall Brotherton, owned ten enslaved individuals in 1850 and four enslaved individuals in 1860. Merchants Bank (founded in 1857) and Bank of St. Louis (founded in 1857), both predecessors, along with a group of other St. Louis firms, issued a mortgage to Charles McLaran that was secured by his property, which included an unspecified number of enslaved individuals. However, the 1860 Federal Census Slave Schedule for St. Louis provided that Charles McLaran owned thirteen enslaved individuals.

The above is only a summary. U.S. Bank National Association has previously provided the City of Chicago with supporting attachments.

Attachment B

City of Chicago
Economic Disclosure Statement and Affidavit

U.S. Bank National Association is also one of the largest corporate trustees in the United States and in such capacity is trustee of numerous mortgage-backed securitizations trusts. Each trust holds multiple real property mortgages. From time-to-time, mortgage borrowers in Chicago default on mortgages or otherwise fail to comply with City of Chicago requirements with respect to certain of their properties. With respect to some of the troubled properties, U.S. Bank National Association may be a lender. However with respect to the majority of the trouble properties in Chicago for which U.S. Bank National Association is involved, U.S. Bank National Association is not the beneficial owner of the property and has no individual or corporate interest in the property. These properties are trust properties which are maintained by a wide variety of servicers. As of January 4, 2013, U.S. Bank National Association was aware of outstanding claims against it in its individual capacity of approximately $3,583.38. Moreover, with respect to properties held in trust (excluding Illinois Land Trust properties) for which U.S. Bank National Association acts as trustee, as of January 4, 2013, we were aware of outstanding claims against trust properties in the amount of approximately $132,599.23. As of January 14, 2013, U.S. Bank National Association has worked with the trust servicers to reduce that amount to $68,293.01.

U.S. Bank National Association, both in its individual capacity and in its capacity as a trustee, meets with various city officials twice a month to address these claims. U.S. Bank National Association, both individually and as trustee, has continually strived to work with the City to resolve and reconcile amounts potentially owed to the City. U.S. Bank National Association, both individually and as trustee, intends to continue to work with the City in good faith to address property concerns including amounts owed.

WHEREAS, the Bonds shall be issued under the authority of this Ordinance and under a Trust Indenture (the "Trust Indenture") and a Supplemental Indenture (the "Supplemental Indenture" and together with the Trust Indenture collectively, the "Indenture") from the City to Amalgamated Bank of Chicago, acting as trustee (the "Trustee"); and

WHEREAS, the Committee on Finance of the City Council considered this Ordinance and the related exhibits at a public meeting for which proper public notice was given and recommends the adoption of this Ordinance.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CHICAGO:

Section 1. Incorporation of Recitals. The recitals contained in the preambles to this Ordinance are incorporated into and made a part of this Ordinance by this reference.

Section 2. Definitions. All capitalized terms used in this Ordinance, unless otherwise defined in this Ordinance, shall have the meanings ascribed to them in the Indenture. As used in this Ordinance, the term "Authorized Officer" means either the City Comptroller or the Chief Financial Officer of the City appointed by the Mayor.

Section 3. Findings and Determinations; Delegation of Authority. The City Council finds and determines that the delegations of authority that are contained in this Ordinance, including the authority to make the specific determinations authorized below, are necessary and desirable because this City Council cannot itself as advantageously, expeditiously or conveniently exercise such authority and make such specific determinations. The City's ability to issue the Bonds without further action by this City Council in one or more series and with various interest rates, maturities, redemption provisions and other terms, all to be determined as provided below, will enhance the City's opportunities to obtain financing for refunding all or part of the Series 2004B Bonds and the City Note and/or related Board Bonds and for paying Project Costs upon the most favorable terms available. Thus, authority is granted to the Mayor or the Authorized Officer to determine to sell the Bonds in one or more series and on such terms as and to the extent such officers determine that such sale and terms are desirable and in the best financial interest of the City.

Section 4. Authorization of the Bonds. The issuance of the Bonds in one or more series, in an aggregate principal amount not to exceed $75,000,000, is authorized. The Bonds may be issued as Current Interest Bonds, Capital Appreciation Bonds or Capital Appreciation and Income Bonds (as each such term is defined in the Indenture), the interest on which may or may not be exempt from federal income taxes, all as shall be determined by the Authorized Officer at the time of sale of the Bonds, subject to the limitations contained in this Ordinance. The aggregate principal amount of the Bonds may reflect any original issue discount or premium used in the marketing of the Bonds (not to exceed twenty percent (20.0%) of their original principal amount, in the case of Current Interest Bonds, and provided that the original issue discount on Capital Appreciation Bonds and Capital Appreciation and Income Bonds may not result in a yield to maturity on such Bonds in excess of the applicable maximum interest rate specified in the next paragraph), as may be determined by the Authorized Officer.

The Bonds shall contain a recital that they are issued under authority of the Act, the City's powers as a home rule unit of local government and this Ordinance. As permitted by the Extension Ordinance and the Act, the Bonds shall mature no later than June 1, 2022, and shall bear interest (or in the case of Capital Appreciation Bonds, have a yield to maturity) at a rate per year not to exceed 18.0% (or for Bonds the interest on which is not excluded from gross income for federal tax purposes, a rate per year not to exceed 18.0%), payable on the interest payment date(s) as set forth in the applicable Supplemental Indenture and in the related Notification of Sale. The Bonds shall be dated, shall be subject to redemption prior to maturity, shall be in such denominations, shall be payable in such places and in such manner, shall be numbered and in such form, and shall have such other details and provisions as may be prescribed by the Indenture, the form of the Bonds, and the related Notification of Sale (which terms shall be consistent with the provisions of prior issues of Capital Appreciation Bonds and Capital Appreciation and Income Bonds of the City in the case of Capital Appreciation Bonds and Capital Appreciation and Income Bonds).

While in the form of Capital Appreciation Bonds, any Bonds issued and sold as Capital Appreciation and Income Bonds shall be subject to all of the provisions and limitations of this Ordinance relating to Capital Appreciation Bonds and while in the form of Current Interest Bonds, any Bonds issued and sold as Capital Appreciation and Income Bonds shall be subject to all of the provisions and limitations of this Ordinance relating to Current Interest Bonds.

The provisions for execution, signatures, authentication, payment and prepayment with respect to the Bonds, shall be as set forth in the Indenture and the form of the Bonds.

The Bonds may be made subject to redemption prior to maturity at the option of the City, in whole or in part on any date, at such times and at such redemption prices (to be expressed as a percentage of the principal amount of the Current Interest Bonds being redeemed and expressed as a percentage of the Compound Accreted Value (as defined in the Indenture) of Capital Appreciation Bonds being redeemed) not to exceed 105 percent, plus (in the case of Current Interest Bonds) accrued interest to the date of redemption, as shall be determined by the Authorized Officer at the time of their sale. All or any part of the Bonds may be made subject to mandatory sinking fund redemption, at the redemption price of par plus accrued interest to the date fixed for redemption (in the case of Current Interest Bonds being redeemed) or Compound Accreted Value as of the Redemption Date (in the case of Capital Appreciation Bonds being redeemed), as determined by the Authorized Officer at the time of their sale; provided, that no Bond shall mature later than the date set forth above.

The Bonds may be issued in either certificated or book-entry only form as determined by the Authorized Officer. In connection with the issuance of Bonds in book-entry only form, the Authorized Officer is authorized to execute and deliver a representation letter to the book-entry depository selected by the Authorized Officer in substantially the form previously used in connection with obligations issued by the City in book-entry form.

The Bonds or any portion of them may be issued as bonds (a) the interest on which is excluded from gross income for federal income tax purposes, or (b) the interest on which is not excluded from gross income for federal income tax purposes, all as determined by the Authorized Officer at the time of their sale to be in the best financial interests of the City.

Section 5. Authorization of Indenture. The Bonds shall be issued and secured pursuant to the terms of the Indenture which shall set forth the terms and provisions of the Bonds.

The Mayor or the Authorized Officer of the City is each authorized to execute and deliver the Trust Indenture on behalf of the City, to be in substantially the form attached as Exhibit A and made a part of this Ordinance and approved, with such changes as shall be approved by the Mayor or Authorized Officer executing the same, such execution to constitute conclusive evidence of their approval and this City Council's approval of any changes or revisions from the form of the Trust Indenture attached to this Ordinance.

The Mayor or the Authorized Officer of the City is each authorized to execute and deliver the Supplemental Indenture on behalf of the City, to be in substantially the form attached as Exhibit B and made a part of this Ordinance and approved, with such changes as shall be

approved by the Mayor or Authorized Officer executing the same, such execution to constitute conclusive evidence of their approval and this City Council's approval of any changes or revisions from the form of the Supplemental Indenture attached to this Ordinance.

The Mayor or the Authorized Officer is each authorized to act as an "Authorized Officer" (as such term is defined in the Indenture) of the City for the purposes provided in the Indenture.

The Authorized Officer shall select as Trustee a bank or trust company eligible to serve in that capacity under the terms of the Indenture.

Section 6. Security for the Bonds. The Bonds shall be limited obligations of the City, payable solely from Pledged Revenues (as defined in the Indenture), including the Incremental Taxes (as defined in the Indenture), as provided in the Indenture.

Section 7. Sale and Delivery of Bonds. The Bonds shall be sold by the City to an underwriter or group of underwriters to be selected by the Authorized Officer (the "Underwriters"), subject to the terms and conditions of a contract of purchase related to the Bonds; provided, that the aggregate purchase price of the Bonds shall be not less than ninety-seven percent (97.0%) of their original principal amount (less any net original issue discount used in their marketing) plus accrued interest (if any) from their date to their date of delivery. The Mayor and the Authorized Officer are each authorized to execute on behalf of the City, with the concurrence of the Chairman of the Committee on Finance of the City Council, a contract of purchase in substantially the form previously used for tax increment allocation financings of the City with appropriate revisions to reflect the terms and provisions of the Bonds and such other revisions in text as the Mayor or the Authorized Officer shall determine are necessary or desirable in connection with the sale of the Bonds and in the best interest of the City.

Section 8. Bond Insurance Policy; Debt Reserve Credit Instrument. In connection with the sale of the Bonds, the Authorized Officer is authorized, but not required, to obtain (i) a bond insurance policy ("Bond Insurance Policy") from a bond insurer ("Bond Insurer") to secure the payment of principal of, premium, if any, and interest on the Bonds and (ii) a surety bond, an insurance policy, a letter of credit or other credit facility assuring the availability of cash to fund any applicable debt service reserve requirement (a "Debt Reserve Credit Instrument") from such provider as the Authorized Officer shall determine, if said Authorized Officer determines such Bond Insurance Policy or Debt Reserve Credit Instrument to be desirable in connection with the sale of the Bonds. The Authorized Officer is also authorized to enter into such agreements and make such covenants with any Bond Insurer or provider of a Debt Reserve Credit Instrument as the Authorized Officer deems necessary; provided, that any agreement to reimburse such Bond Insurer or provider shall be payable solely and only from the sources pledged to the payment of the Bonds as described in Section 6 of this Ordinance. The final form of any such reimbursement agreement entered into by the City with respect to the Bonds shall be attached to the Notification of Sale filed with the City Clerk pursuant to Section 10 of this Ordinance.

Section 9. Credit Facility. In connection with the sale of the Bonds, the Authorized Officer is authorized, but not required, to obtain a letter of credit, line of credit or similar credit facility (each called a "Credit Facility") with one or more financial institutions to secure the

payment of principal of, premium, if any, and interest on the Bonds. The Mayor or the Authorized Officer is authorized to enter into, execute and deliver on behalf of the City a reimbursement agreement (and any related promissory note) in connection with the provision of such Credit Facility. Any Credit Facility and any reimbursement agreement (and any related promissory note) shall be in substantially the form of the credit facilities and reimbursement agreements (and related promissory notes) previously entered into by the City in connection with the sale of revenue obligations of the City, but with such revisions in text as the Mayor or the Authorized Officer shall determine are necessary or desirable, the execution of such instruments by the Mayor or the Authorized Officer to evidence their approval and this City Council's approval of all such revisions. The annual fee paid to any financial institution that provides a Credit Facility shall be on terms similar to those negotiated with credit enhancement providers in connection with similar financings of the City. The reimbursement obligations of the City under any such reimbursement agreement (and any related promissory note) shall be payable solely and only from the sources pledged to the payment of the Bonds as described in Section 6 of this Ordinance and shall bear interest at a rate not exceeding eighteen percent (18.0%) per year. The final form of any such reimbursement agreement entered into by the City with respect to the Bonds shall be attached to the Notification of Sale filed with the City Clerk pursuant to Section 10 of this Ordinance.

Section 10. Notification of Sale. Subsequent to the sale of the Bonds, the Authorized Officer shall file in the Office of the City Clerk a Notification of Sale directed to the City Council setting forth (i) the aggregate original principal amount of, maturity schedule, redemption provisions for and nature and other terms of the Bonds sold, (ii) the interest rates on the Current Interest Bonds, (iii) the principal amounts of the Bonds sold as Current Interest Bonds, Capital Appreciation Bonds and Capital Appreciation and Income Bonds, respectively, (iv) in the case of Bonds sold as Capital Appreciation Bonds, (A) the original principal amount of and Yields to Maturity on the Capital Appreciation Bonds being sold and (B) a table of Compound Accreted Values per $5,000 Compound Accreted Value at maturity for any Capital Appreciation Bonds being sold, setting forth the Compound Accreted Value of each such Capital Appreciation Bond on each semiannual compounding date, (v) the identity of the Bond Insurer issuing the Bond Insurance Policy, if any, the identity of the provider of a Credit Facility, if any, and the identity of the provider of a Debt Reserve Credit Instrument, if any, (vi) the identity of the Trustee, (vii) the identity of the Underwriter or Underwriters selected by the Authorized Officer, and (viii) the compensation to be paid to the Underwriter or Underwriters in connection with such sale. There shall be attached to the Notification of Sale final forms of the Indenture, and any reimbursement agreements under Section 8 or 9 of this Ordinance.

Section 11. Disclosure Documents. In connection with any sale of the Bonds, the Mayor and the Authorized Officer are each authorized to execute and deliver, and the Underwriter is authorized to use and distribute, such disclosure documents as they shall deem appropriate on behalf of the City, which disclosure documents shall be in substantially the form previously used for prior tax increment allocation financings of the City, with such revisions as shall be necessary to reflect the terms and provisions of the Bonds determined by the Authorized Officer as provided in this Ordinance and to describe completely and accurately the Project Area and the Pledged Revenues, including the Incremental Taxes, and any of such actions previously taken with respect to any such disclosure document are ratified, approved and confirmed.

Section 12. Continuing Disclosure Undertaking. The Mayor or the Authorized Officer is authorized to execute and deliver a Continuing Disclosure Undertaking (the "Continuing Disclosure Undertaking") evidencing the City's agreement to comply with the provisions of Section (b)(5) of Rule 15(c)2-12, adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, in a form approved by the Corporation Counsel. Upon its execution and delivery on behalf of the City as provided in this Ordinance, the Continuing Disclosure Undertaking will be binding on the City, and the officers, employees and agents of the City are authorized to do all such acts and things and to execute all such documents as may be necessary to carry out and comply with the provisions of the Continuing Disclosure Undertaking as executed. The Authorized Officer is further authorized to amend the Continuing Disclosure Undertaking in accordance with its terms from time to time following its execution and delivery as said officer shall deem necessary. Notwithstanding any other provision of this Ordinance, the sole remedy for any failure by the City to comply with the Continuing Disclosure Undertaking shall be the ability of the beneficial owner of any Bond to seek mandamus or specific performance by court order to cause the City to comply with its obligations under the Continuing Disclosure Undertaking.

Section 13. Use of Proceeds of Bonds. The proceeds from the sale of the Bonds may be used for one or more of the following purposes: (i) refunding all or any part of the outstanding Series 2004B Bonds and the City Note and/or the related Board Bonds issued by the Board, (ii) paying a portion of the Project Costs, (iii) paying for the Bond Insurance Policy, Credit Facility and/or Debt Reserve Credit Instrument (each as defined below), if any, pertaining to the Bonds, (iv) funding the Reserve Account with respect to the Bonds, (v) paying certain expenses incurred in connection with the issuance of the Bonds and the refunding of the Prior Obligations, and (vi) paying a portion of the interest accruing on the Bonds, all as shall be set forth in the Indenture, and such proceeds are appropriated for those purposes.

Section 14. Certain Hedge Agreements. The Mayor or the Authorized Officer of the City is each also authorized to execute and deliver on behalf of the City any agreements with respect to the Bonds with counterparties selected by the Authorized Officer, the purpose of which is to reduce the City's interest cost with respect to all or a portion of the Bonds, or to reduce the City's exposure to fluctuations in the interest rates payable on all or a portion of the Bonds, or to insure, protect or preserve the City's investments from any loss (including, but not limited to, losses caused by fluctuations in interest rates, markets or securities). The stated aggregate notional amount under all such agreements shall not exceed the aggregate original principal amount of the Bonds (net of offsetting transactions entered into by the City). Any such agreement, to the extent practicable, shall be in substantially the form of either the Local Currency-Single Jurisdiction Version, or the Multicurrency-Cross Border Version, of the current ISDA Master Agreement accompanied by the United States Municipal Counterparty Schedule published by the International Swap Dealers Association ("I.S.D.A.") or any related successor form published by I.S.D.A., and in the appropriate confirmations of transactions governed by that agreement, with such insertions, completions and modifications as shall be approved by the Mayor or Authorized Officer. The execution of any such agreement by the Mayor or the Authorized Officer shall be conclusive evidence of their approval and this City Council's approval of the form and terms of such agreement. Amounts payable by the City under any such agreement shall be payable solely from the sources pledged to the payment of the related Series of Bonds.

Section 15. Escrow Agreements. The Mayor, the Authorized Officer, the City Treasurer, the City Clerk, the Deputy City Clerk and the Commissioner of the Department of Housing and Economic Development are each authorized to execute and deliver one or more Escrow Agreements (collectively, the "Escrow Agreements") providing for the refunding of the Series 2004B Bonds and the City Note and/or the related Board Bonds. The execution of any such agreements by the Mayor or the Authorized Officer shall be conclusive evidence of their approval and this City Council's approval of the form and terms of such agreements. Amounts payable by the City under any such agreements shall be used solely to refund the Series 2004B Bonds and the City Note and/or the related Board Bonds.

Section 16. Additional Authorization. The Mayor, the Authorized Officer, the City Treasurer, the City Clerk, the Deputy City Clerk and the Commissioner of the Department of Housing and Economic Development are each authorized to execute and deliver such other documents and agreements and perform such other acts as may be necessary or desirable in connection with the Bonds, including, but not limited to, the exercise following the delivery date of the Bonds of any power or authority delegated to such official under this Ordinance with respect to the Bonds upon original issuance, but subject to any limitations on or restrictions of such power or authority as set forth in this Ordinance.

Section 17. Proxies. The Mayor and the Authorized Officer may each designate another to act as their respective proxy and to affix their respective signatures to each Bond, whether in temporary or definitive form, and to any other instrument, certificate or document required to be signed by the Mayor or the Authorized Officer pursuant to this Ordinance, the Indenture or any Supplemental Indenture. In each case, each shall send to the City Council written notice of the person so designated by each, such notice stating the name of the person so selected and identifying the instruments, certificates and documents which such person shall be authorized to sign as proxy for the Mayor and the Authorized Officer, respectively. A written signature of the Mayor or the Authorized Officer, respectively, executed by the person so designated underneath, shall be attached to each notice. Each notice, with signatures attached, shall be recorded in the Journal of the Proceedings of the City Council and filed with the City Clerk. When the signature of the Mayor is placed on an instrument, certificate or document at the direction of the Mayor in the specified manner, the same, in all respects, shall be as binding on the City as if signed by the Mayor in person. When the signature of the Authorized Officer is so affixed to an instrument, certificate or document at the direction of the Authorized Officer, the same, in all respects, shall be binding on the City as if signed by the Authorized Officer in person.

Section 18. Separability. If any provision of this Ordinance shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of such provision shall not affect any of the remaining provisions of this Ordinance.

Section 19. Inconsistent Provisions. All ordinances, resolutions, motions or orders in conflict with this Ordinance are repealed to the extent of such conflict. No provision of the Municipal Code of Chicago or any violation of its provisions shall impair the validity of this Ordinance or the instruments authorized by this Ordinance; provided, that the foregoing shall not affect the availability of or limit any other remedy or penalty for any violation of any provision of the Municipal Code of Chicago.

Section 20. Effective Date. This Ordinance shall be in full force and effect immediately upon its passage.

Section 2.4 Conditions Precedent to the Delivery of any Series. Following the issuance and delivery of the Series 2013 Bonds, Bonds of any Series shall be executed by the City and delivered to the Trustee and shall be authenticated by the Trustee and delivered to the City or upon its order, but only following the receipt by the Trustee of:

(a) A copy of an ordinance adopted by the City Council, certified by the City Clerk, authorizing the execution and delivery of the Supplemental Indenture referred to in Section 2.3;

(b) A Counsel's Opinion to the effect that (i) the City had the right and power to adopt the ordinance referred to in (a) above; (ii) the ordinance has been duly and lawfully adopted by the City Council, is in full force and effect, is valid and binding upon the City, and is enforceable in accordance with its terms (except as may be limited by any applicable bankruptcy, liquidation, reorganization, insolvency or other similar laws and by general principles of equity in the event that equitable remedies are sought); (iii) this Indenture and such Supplemental Indenture have been duly and lawfully executed by authorized officers of the City and delivered, are in full force and effect, are valid and binding upon the City, and are enforceable in accordance with their terms (except as may be limited by any applicable bankruptcy, liquidation, reorganization, insolvency or other similar laws and by general principles of equity in the event that equitable remedies are sought); (iv) this Indenture and the Supplemental Indenture create the valid pledge of Pledged Revenues, moneys and securities held under them for the benefit and security of the Bonds, subject to their application in the manner provided in this Indenture and such Supplemental Indenture; and (v) upon their execution, authentication and delivery, the Bonds of such Series will have been duly and validly authorized and issued in accordance with the Constitution and laws of the State of Illinois, this Indenture and such Supplemental Indenture;

(c) A written order as to the delivery of such Series, executed by an Authorized Officer (i) stating the identity of the purchasers, aggregate purchase price and date and place of delivery of such Series and that no Event of Default has occurred and is continuing under this Indenture and (ii) fixing and determining all terms and provisions of the Bonds of such Series not fixed or determined by this Indenture or the Supplemental Indenture referred to in Section 2.3;

(d) An original executed counterpart of this Indenture (or a copy duly certified by the City Clerk of the City) and the Supplemental Indenture referred to in Section 2.3; and

(e) With respect to all Series of Bonds, other than Refunding Bonds to the extent permitted by Section 2.5, issued and delivered subsequent to the initial Series of Bonds, a certificate of an Authorized Officer:

(i) establishing that Pledged Revenues collected in the immediately preceding calendar year equaled at least [150% of the Maximum Annual Debt Service Requirement] on the Bonds and the Bonds proposed to be issued; provided that the calculation of Maximum Annual Debt Service Requirement shall be exclusive of the final maturing principal amount of any series to the extent of the applicable Debt Service Reserve Requirement if amounts held in the Reserve Account or any Sub-Account of the Reserve Account with respect to such Series are expected to be available to pay Bonds of such Series on such final maturity date; and

(ii) stating that all required deposits to all Funds, Accounts and Sub-Accounts under this Indenture are current.

Section 2.5 Refunding Bonds.

(a) Following the issuance and delivery of the Series 2013 Bonds, one or more Series of Refunding Bonds may be authenticated and delivered upon original issuance to refund or advance refund any or all Outstanding Bonds of one or more Series, to pay costs and expenses incident to the issuance of such Refunding Bonds, and to make deposits in any Fund, Account or Sub-Account under this Indenture as determined by the City in the Supplemental Indenture authorizing such Bonds.

(b) Refunding Bonds of a Series shall be authenticated and delivered by the Trustee only upon receipt by it (in addition to the documents, securities and moneys required by Subsections (a), (b), (c) and (d) of Section 2.4) of:

(i) Such instructions to the Trustee as are necessary to comply with all requirements set forth in Section 12.1 so that the Bonds to be refunded or advance refunded will be paid or deemed to be paid pursuant to Section 12.1.

(ii) Either (A) moneys in an amount sufficient to effect payment of the principal and Redemption Price, if applicable, and interest due and to become due on the Bonds to be refunded or advance refunded on and prior to their redemption date or maturity date, as the case may be, which moneys shall be held by the Trustee or any of the Paying Agents in a separate account irrevocably in trust for and assigned to the respective Owners of the Bonds to be refunded or advance refunded, or (B) Government Obligations in such principal amounts, of such maturities, and bearing interest at such rates as shall be necessary, together with the moneys, if any, deposited with the Trustee at the same time, to comply with the provisions of Section 12.1(b).

(iii) A certificate of an Authorized Officer evidencing either that (A) (1) the term of the Refunding Bonds does not exceed the term of the Bonds being refunded, and (2) the Annual Debt Service Requirements for any calendar year on account of all Bonds Outstanding, after the issuance of such Refunding Bonds and the redemption or provision for payment of the Bonds to be refunded, shall not exceed the Annual Debt Service

Requirements for the corresponding calendar years on account of all the Bonds Outstanding, including the Bonds to be refunded, immediately prior to the issuance of such Refunding Bonds, or (B) in the case of a refunding of Outstanding Bonds that does not meet the requirements of the preceding clause (A), satisfaction of the test set forth in Section 2.4(e) as applied to the Refunding Bonds to be issued under the provisions of this Section, giving effect to the redemption or provision for payment of the Bonds being refunded.

(c) In applying the test set forth in subparagraph (b)(iii) above, if any of the Bonds Outstanding immediately prior to or after the issuance of the Refunding Bonds to be issued constitute Tender Option Bonds or Variable Rate Bonds, the following provisions shall be applied in determining the Annual Debt Service Requirements of such Bonds:

(X) Tender Option Bonds. If any of the Outstanding Bonds constitute Tender Option Bonds, then for purposes of the amounts to be shown as set forth in subparagraph (b)(iii) above, the options of the Owners of such Bonds to tender the same for payment prior to their stated maturity or maturities shall be ignored, and (1) if such Bonds also constitute Variable Rate Bonds, the City shall adjust such amounts to be shown as set forth in subparagraph (b)(iii) of this Section as provided in subparagraph (Y) below, (2) if such Bonds are secured by a Credit Facility, the Credit Bank or obligations secured by credit facilities issued by such Credit Bank shall be rated in one of the three highest rating categories (without reference to graduations such as "plus" or "minus") by any of the Rating Agencies, and (3) any obligation the City may have, other than its obligation on such Bonds (which need not be uniform as to all Owners), to reimburse any Credit Bank, including any obligations so to reimburse in excess of the Annual Debt Service Requirements on such Bonds (determined without regard to whether such Credit Bank shall then be holding or shall then have had pledged to it such Bonds) shall be subordinated to the obligation of the City on the Bonds.

(Y) Variable Rate Bonds. If any of the Outstanding Bonds constitute Variable Rate Bonds, then for purposes of the amounts to be shown as set forth in subparagraph (b)(iii) above, the interest rate used in such computation shall be the lesser of (a) the maximum interest rate established in the Supplemental Indenture authorizing such Bonds and (b) if and so long as a Qualified Swap Agreement is in effect, the interest rate determined as if the Variable Rate Bonds had interest payments equal to the interest payable on those Variable Rate Bonds less any payments to the City from the Swap Provider and plus any payments by the City to the Swap Provider as provided by the Qualified Swap Agreement (other than fees for providing the Qualified Swap Agreement). The conversion of Bonds constituting Variable Rate Bonds to bear interest at a different variable rate or a fixed rate or rates, in accordance with their terms, shall not constitute a new issuance of Bonds under Section 2.3 or Section 2.5 of this Indenture.

Section 2.6 [Junior Lien Bonds. The City may authorize and issue Junior Lien Bonds from time to time pursuant to Supplemental Indentures for any of the purposes for which Bonds may be issued under this Indenture. The Junior Lien Bonds shall be payable out of the Pledged Revenues and shall be secured by a pledge and assignment of amounts on deposit in certain funds and accounts established under this Indenture pursuant to Section 5.2 of this Indenture and

the respective Supplemental Indenture as may from time to time be available for the purpose of payment of such Junior Lien Bonds as provided therein; provided, that any such pledge and assignment shall be, and shall be expressed to be, subordinate to the pledge of the Pledged Revenues as security for the Bonds to the extent provided in this Indenture and no holder of a Junior Lien Bond shall have the right to cause the acceleration of such Junior Lien Bond in the event of a default under such Junior Lien Bond.]

Section 2.7 Hedging Transactions.

(a) If the City enters into a Qualified Swap Agreement with a Swap Provider requiring the City to pay a fixed interest rate on a notional amount, or requiring the City to pay a variable interest rate on a notional amount, and the City makes a determination that such Qualified Swap Agreement is being entered into for the purpose of providing substitute interest payments for Bonds of a particular maturity or maturities in a principal amount equal to the notional amount of the Qualified Swap Agreement, then during the term of the Qualified Swap Agreement and so long as the Swap Provider under such Qualified Swap Agreement is not in default under such Qualified Swap Agreement:

(i) for purposes of any calculation of Interest Requirements, the interest rate on the Bonds of such maturity or maturities shall be determined as if such Bonds bore interest at the fixed interest rate or the variable interest rate, as the case may be, payable by the City under such Qualified Swap Agreement;

(ii) any net payments required to be made by the City to the Swap Provider pursuant to the Qualified Swap Agreement shall be made only from amounts on deposit to the credit of the Incremental Taxes Fund; and

(iii) any net payments received by the City from the Swap Provider pursuant to such Qualified Swap Agreement shall be deposited to the credit of the Incremental Taxes Fund.

(b) If the City enters into a swap agreement of the type generally described in subsection (a) of this Section 2.7 that does not satisfy the requirements for qualification as a Qualified Swap Agreement, then:

(i) the interest rate adjustments or assumptions referred to in paragraph (i) of subsection (a) shall not be made;

(ii) any net payments required to be made by the City to the Swap Provider pursuant to such swap agreement shall be made only from amounts on deposit in the General Account; and

(iii) any net payments received by the City from the Swap Provider pursuant to such swap agreement may be treated as Pledged Revenues at the option of the City, and if so treated, shall be deposited to the credit of the Incremental Taxes Fund.

ARTICLE III

Section 3.1 Medium of Payment; Form and Date; Letters and Numbers.

(b) Any Bonds of a Series shall be issued only in the form of fully registered Bonds without coupons or, pursuant to the provisions of a Supplemental Indenture, in any other form permitted by law at the time of original issuance, including, but not limited to, Bonds which are transferable through a book-entry system.

(c) Each Bond shall be lettered and numbered as provided in this Indenture or the Supplemental Indenture authorizing the Series of which such Bond is a part so as to be distinguished from every other Bond.

(d) Bonds shall be dated as provided in this Indenture or the Supplemental Indenture authorizing the Bonds of such Series.

Section 3.2 Legends. The Bonds of each Series may contain or have endorsed on them such provisions, specifications and descriptive words not inconsistent with the provisions of this Indenture as may be necessary or desirable to comply with custom, law, the rules of any securities exchange or commission or brokerage board, or otherwise, as may be determined by the City or the Trustee prior to their authentication and delivery.

Section 3.3 Execution and Authentication.

(a) The Bonds shall be executed in the name of the City by the manual or facsimile signatures of its Mayor and City Clerk, and its corporate seal (or a facsimile of it) shall be impressed, imprinted, engraved or otherwise reproduced on them. In case any one or more of the officers who shall have signed or sealed any of the Bonds shall cease to be such officer before the Bonds so signed and sealed shall have been authenticated and delivered by the Trustee, such Bonds may, nevertheless, be authenticated and delivered as provided in this Indenture, and may be issued as if the persons who signed or sealed such Bonds had not ceased to hold such offices. Any Bond may be signed and sealed on behalf of the City by such persons who at the time of the execution of such Bond shall hold the proper office in the City, although at the date of such Bond such persons may not have been so authorized or have held such office.

(b) The Bonds shall bear a certificate of authentication, in the form set forth in this Indenture or the Supplemental Indenture authorizing such Bonds, executed manually by the Trustee. Only such Bonds as shall bear such certificate of authentication shall be entitled to any right or benefit under this Indenture, and no such Bond shall be valid or obligatory for any purpose until such certificate of authentication shall have been duly executed by the manual signature of an authorized officers of the Trustee. Such certificate of the Trustee upon any such Bond executed on behalf of the City shall be conclusive evidence that the Bond so authenticated

has been duly authenticated and delivered under this Indenture and that the Owner is entitled to the benefits of this Indenture.

Section 3.4 Interchangeability of Bonds. Subject to the provisions of Section 3.6, any Bond, upon surrender at the principal office of the Registrar with a written instrument of transfer satisfactory to the Registrar, duly executed by the Owner or its duly authorized attorney, may, at the option of the Owner and upon payment of any charges which the Trustee may make as provided in Section 3.6, be exchanged for an equal aggregate principal amount of fully registered Bonds of the same Series and maturity and tenor of any other Authorized Denominations.

Section 3.5 Negotiability, Transfer and Registration.

(a) Each Bond shall be transferable only upon the registration books of the City, which shall be kept for that purpose by the Registrar, by the Owner in person or by its attorney duly authorized in writing, upon surrender of such Bond with a written instrument of transfer satisfactory to the Registrar, duly executed by the Owner or its duly authorized attorney. Upon the surrender for transfer of any such Bond, the City shall issue, in the name of the transferee, a new Bond or Bonds in Authorized Denominations of the same aggregate principal amount, Series and maturity as the surrendered Bond.

(b) The City and each Fiduciary may deem and treat the Person in whose name any Bond shall be registered upon the registration books of the City as the absolute owner of such Bond, whether such Bond shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal and redemption premium, if any, of and interest on such Bond and for all other purposes, and all such payments so made to any such Owner or upon its order shall be valid and effectual to satisfy and discharge the liability upon such Bond to the extent of the sum or sums so paid, and neither the City nor any Fiduciary shall be affected by any notice to the contrary.

Section 3.6 Provisions with Respect to Exchanges and Transfers. In all cases in which the privilege of transferring or exchanging Bonds is exercised, the City shall execute and the Trustee shall authenticate and deliver Bonds in accordance with the provisions of this Indenture. All Bonds surrendered in any such exchanges shall forthwith be canceled by the Trustee. For any exchange or transfer of Bonds, whether temporary or definitive, the City, the Trustee or the Registrar may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid. The Registrar and the Trustee shall not be required to make any registration, transfer or exchange of any Bond during the period between each Record Date and the next succeeding Interest Payment Date of such Bond, or after such Bond has been called for redemption or, in the case of any proposed redemption of Bonds, during the 15 days next preceding the date of first giving notice of such redemption.

Section 3.7 Bonds Mutilated, Destroyed, Stolen or Lost. If any Bond shall become mutilated or be destroyed, stolen or lost, the City shall execute, and the Trustee shall then authenticate and deliver, a new Bond of like Series, maturity and principal amount as the Bonds so mutilated, destroyed, stolen or lost, in exchange and substitution for such mutilated Bond, upon surrender and cancellation of such mutilated Bond or in lieu of and substitution for the Bond destroyed, stolen or lost, upon filing with the Trustee or Registrar evidence satisfactory to

the City and the Trustee or Registrar that such Bond has been destroyed, stolen or lost and proof of ownership of it, and upon (i) furnishing the City and the Trustee or Registrar with indemnity satisfactory to them and complying with such other reasonable regulations as the City, the Trustee or the Registrar may prescribe and (ii) paying such expenses as the City and Trustee and Registrar may incur. All Bonds so surrendered to the Trustee or Registrar shall be canceled by the Trustee in accordance with Section 12.5. Any such new Bonds issued pursuant to this Section in substitution for Bonds alleged to be destroyed, stolen or lost shall constitute original additional contractual obligations on the part of the City, whether or not the Bonds so alleged to be destroyed, stolen or lost shall be found at any time or be enforceable by anyone, shall be entitled to equal and proportionate benefits with all other Bonds of the same Series issued under this Indenture and shall be equally secured by the money or securities held by the City or any Fiduciary for the benefit of the Owners.

Section 3.8 Temporary Bonds.

(a) Until the definitive Bonds of any Series are prepared, the City may execute, in the same manner as is provided in Section 3.3, and, upon the request of the City, the Trustee shall authenticate and deliver, in lieu of definitive Bonds, but subject to the same provisions, limitations and conditions as the definitive Bonds except as to their denominations and as to exchangeability, one or more temporary Bonds substantially of the tenor of the definitive Bonds in lieu of which such temporary Bond or Bonds are issued, in Authorized Denominations, and with such omissions, insertions and variations as may be appropriate to temporary Bonds. The City at its own expense shall prepare and execute and, upon the surrender of such temporary Bonds the Trustee shall authenticate and, without charge to the Owner, deliver in exchange for them, definitive Bonds of the same aggregate principal amount, Series and maturity as the temporary Bonds surrendered in Authorized Denominations. Until so exchanged, the temporary Bonds shall in all respects be entitled to the same benefits and security as definitive Bonds authenticated and issued pursuant to this Indenture.

(b) The Owner of any temporary Bond or Bonds may, at its option, surrender the same to the Trustee in exchange for another temporary Bond or Bonds of like aggregate principal amount, Series and maturity of any Authorized Denominations, and thereupon the City shall execute and the Trustee shall authenticate and, in exchange for the temporary Bond or Bonds so surrendered and upon payment of the taxes, fees and charges provided for in Section 3.6, shall deliver a temporary Bond or Bonds of like aggregate principal amount, Series and maturity in such other Authorized Denominations as shall be requested by such Owner.

(c) All temporary Bonds surrendered in exchange either for another temporary Bond or Bonds or for a definitive Bond or Bonds shall be forthwith canceled by the Trustee.

ARTICLE IV

REDEMPTION OF BONDS

Section 4.1 Privilege of Redemption and Redemption Price. Bonds subject to redemption prior to maturity pursuant to this Indenture or a Supplemental Indenture shall be redeemable, upon notice given as provided in Section 4.5, at such times, at such Redemption

Prices and upon such terms, in addition to the terms contained in Article IV, as may be specified in this Indenture or in the Supplemental Indenture authorizing such Series.

Section 4.2 Redemption at the Election or Direction of the City. In the case of any redemption of Bonds at the election or direction of the City, the City shall give written notice to the Trustee of its election or direction so to redeem, of the date fixed for redemption, of the Series, and of the principal amounts of the Bonds of each maturity of such Series to be redeemed. Such notice shall be given at least 45 days prior to the specified redemption date (or such shorter period as shall be acceptable to the Trustee). If notice of redemption shall have been given as in Section 4.5 provided, there shall be paid on or prior to the specified redemption date to the Trustee an amount in cash or Government Obligations maturing on or before the specified redemption date which, together with other moneys, if any, available for the purpose and held by the Trustee, will be sufficient to redeem all of the Bonds to be redeemed on the specified redemption date at their Redemption Price plus interest accrued and unpaid to the date fixed for redemption. Such amount and moneys shall be held in a separate, segregated account for the benefit of the Owners of the Bonds so called for redemption.

Section 4.3 Redemption Otherwise Than at City's Election or Direction. Whenever by the terms of this Indenture or a Supplemental Indenture the Trustee is required or authorized to redeem Bonds otherwise than at the election or direction of the City, the Trustee shall select the Bonds to be redeemed, give the notice of redemption and pay the Redemption Price, plus interest accrued and unpaid to the date fixed for redemption, in accordance with the terms of Articles IV and V to the extent applicable.

Section 4.4 Selection of Bonds to Be Redeemed. Unless otherwise provided by Supplemental Indenture, if less than all of the Bonds of like maturity of any Series shall be called for prior redemption, the particular Bonds or portion of Bonds to be redeemed shall be selected at random by the Trustee in such manner as the Trustee in its discretion may deem fair and appropriate; provided, that the portion of any Bond of a denomination of more than the minimum Authorized Denomination for the Bonds of such Series to be redeemed shall be in the principal amount of an Authorized Denomination for the Bonds of such Series and that, in selecting portions of such Bonds for redemption, the Trustee shall treat each such Bond as representing that number of Bonds of said minimum Authorized Denomination which is obtained by dividing the principal amount of such Bond to be redeemed in part by said minimum Authorized Denomination. If all Bonds of any Series are held in book-entry only form, the particular Bonds or portions of Bonds of such Series to be redeemed shall be selected by the securities depository for such Series of Bonds in such manner as such securities depository shall determine.

Section 4.5 Notice of Redemption. When the Trustee shall receive notice from the City of its election or direction to redeem Bonds pursuant to Section 4.2, and when redemption of Bonds is authorized or required pursuant to Section 4.3, the Trustee shall give notice, in the name of the City, of the redemption of such Bonds, which notice shall specify the Series and maturities of the Bonds to be redeemed, the date fixed for redemption and the place or places where amounts due upon such date fixed for redemption will be payable and, if less than all of the Bonds of any like Series and maturity are to be redeemed, the letters and numbers or other distinguishing marks of such Bonds so to be redeemed, and, in the case of Bonds to be redeemed in part only, such notice shall also specify the respective portions of the principal amount of such

Bonds to be redeemed. Such notice shall further state that on such date there shall become due and payable the Redemption Price of each Bond to be redeemed, or the Redemption Price of the specified portions of the principal of such Bonds in the case of Bonds to be redeemed in part only, together with interest accrued to the date fixed for redemption, and that from and after such date interest shall cease to accrue and be payable. The Trustee shall mail copies of such notice by first-class mail, postage prepaid, not less than 30 days before the date fixed for redemption, to the Owners of the Bonds to be redeemed at their addresses as shown on the registration books of the City maintained by the Registrar. If the Trustee mails notices of redemption as provided in this Section, notice shall be conclusively presumed to have been given to all Owners.

With respect to an optional redemption of any Bonds, unless moneys sufficient to pay the principal of, redemption premium, if any, and interest on the Bonds to be redeemed shall have been received by the Trustee prior to the giving of such notice of redemption, such notice may, at the option of the City, state that said redemption shall be conditional upon the receipt of such moneys by the Trustee on or prior to the date fixed for redemption. If such moneys are not received, such notice shall be of no force and effect, the City shall not redeem such Bonds and the Trustee shall give notice, in the same manner in which the notice of redemption was given, that such moneys were not so received and that such Bonds will not be redeemed.

Section 4.6 Payment of Redeemed Bonds. Notice having been given in the manner provided in Section 4.5, the Bonds or portions of Bonds so called for redemption shall become due and payable on the date fixed for redemption at the Redemption Price, plus interest accrued and unpaid to such date, and, upon presentation and surrender of such Bonds at any place specified in such notice, such Bonds, or portions of Bonds, shall be paid at the Redemption Price, plus interest accrued and unpaid to such date. If there shall be called for redemption less than all of a Bond, the City shall execute and the Trustee shall authenticate and the appropriate Fiduciary shall deliver, upon the surrender of such Bond, without charge to the Owner, for the unredeemed balance of the principal amount of the Bond so surrendered, fully registered Bonds of like Series and maturity in any Authorized Denominations. If, on the date fixed for redemption, moneys for the redemption of all the Bonds or portions of Bonds of any like Series and maturity to be redeemed, together with interest to such date, shall be held by the Trustee so as to be available on said date and if notice of redemption shall have been given as provided in Section 4.5, then, from and after the date fixed for redemption, interest on the Bonds or portions of Bonds of such Series and maturity so called for redemption shall cease to accrue and become payable. If said moneys shall not be so available on the date fixed for redemption, such Bonds or portions of Bonds shall continue to bear interest until paid at the same rate as they would have borne had they not been called for redemption.

Section 4.7 Adjustment of Sinking Fund Installments. In the event of the optional redemption by the City of less than all the Bonds of like Series and maturity with respect to which Sinking Fund Installments have been established, the principal amount so redeemed shall be credited against the unsatisfied balance of future Sinking Fund Installments or the final maturity amount established with respect to such Bonds, in such amount and against such Sinking Fund Installments or final maturity amount as shall be determined by the City in a Certificate of an Authorized Officer filed with the Trustee prior to the mailing of the notice of redemption of such Bonds or, in the absence of such determination, shall be credited against the

unsatisfied balance of the applicable Sinking Fund Installments in inverse order of their payment dates.

Section 4.8 Purchase in lieu of Redemption. In lieu of redeeming Bonds pursuant to optional or mandatory sinking fund redemption, unless otherwise specified in the Supplemental Indenture pursuant to which a Series of Bonds is issued, the Trustee shall, at the written direction of the City, purchase Bonds in the open market at a price not exceeding the redemption price then applicable to such Bonds. Any Bonds so purchased in lieu of redemption shall be delivered to the Trustee for cancellation.

ARTICLE V

PLEDGE OF PLEDGED REVENUES; ESTABLISHMENT OF FUNDS AND THEIR APPLICATION

Section 5.1 The Pledge Effected by this Indenture.

(a) There are pledged for the payment of the principal and Redemption Price of, and interest on, the Bonds in accordance with their terms and the provisions of this Indenture, and a lien is granted for such purpose, subject only [to the rights of the holders of the Excluded Contractual Obligations and] the provisions of this Indenture permitting or requiring their application for the purposes and on the terms and conditions set forth in this Indenture, (i) the Pledged Revenues; (ii) amounts on deposit in all Funds, Accounts and Sub-Accounts (except for the Program Expenses Account, [the Project Fund,] the Rebate Account and the General Account); provided, that any Sub-Account established within the Reserve Account for any Series of Bonds pursuant to a Supplemental Indenture shall only secure and be pledged to the payment of such Series of Bonds unless otherwise provided in said Supplemental Indenture; and (iii) any and all other moneys, securities and property furnished from time to time to the Trustee by the City or on behalf of the City or by any other Persons to be held by the Trustee under the terms of this Indenture; [provided that the application of Pledged Revenues to the payment of any Junior Lien Bonds is subordinated to the payment of the Bonds;] and provided further, that the application of Pledged Revenues to payments due to a Swap Provider under a Qualified Swap Agreement is expressly limited to the extent provided in this Indenture. This pledge is irrevocable until the obligations of the City are discharged under this Indenture and each Supplemental Indenture.

(b) The Pledged Revenues and the other moneys, securities and properties pledged by this Indenture shall immediately be subject to the lien and pledge of this Indenture without any physical delivery or further act, and the lien and pledge of this Indenture shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the City, irrespective of whether such parties have notice of such lien and pledge.

(c) The Bonds do not represent or constitute a debt of the City or the State of Illinois within the meaning of any constitutional or any statutory limitation or a pledge of the faith and credit of the City or the State of Illinois or grant to the Owners any right to compel the City levy any taxes or appropriate any funds for the payment of the principal of, premium, if any, or

interest on the Bonds. The Bonds are payable solely from the Pledged Revenues and other sources pledged for their payment in accordance with this Indenture.

Section 5.2 Continuation of Incremental Taxes Fund; Establishment of Accounts and Sub-Accounts. The Incremental Taxes Fund previously created by the City is expressly continued as a special fund of the City, to be held by the City subject to the provisions of this Indenture, separate and apart from all other funds and accounts of the City, and shall be continue to be known as the Pilsen Redevelopment Project Area Special Tax Allocation Fund. The Incremental Taxes Fund is a trust fund established for the purpose of carrying out the covenants, agreements, terms and conditions imposed upon the City by this Indenture and the Ordinance and any indenture or ordinance supplemental to this Indenture authorizing the issuance of Bonds. Moneys on deposit in the various accounts and sub-accounts described below shall be applied by the City and the Trustee (as applicable) solely and only for the purpose of carrying out the terms, conditions, covenants and agreements of this Indenture.

In accordance with the provisions of the Act, the Incremental Taxes are to be paid to the Treasurer by the officers who collect or receive the Incremental Taxes. All of the Incremental Taxes collected on and after the date of issuance of the Series 2013 Bonds shall be set aside as collected and be promptly deposited by the Treasurer in the Incremental Taxes Fund. The Treasurer promptly shall transfer all Pledged Revenues deposited with him in the Incremental Taxes Fund to the Trustee for application in accordance with the provisions of this Section 5.2.

The moneys transferred by the Treasurer to the Trustee shall be deposited by the Trustee as provided in this Indenture to the separate accounts created by this Indenture to be held by the Trustee and known as the "Program Expenses Account," "Principal and Interest Account," "Reserve Account," "Rebate Account," and to be held by the City and known as the "General Account." Within the Principal and Interest Account there is created a "Capitalized Interest Sub-Account." Subject to the provisions of Section 5.4 of this Indenture, the City may, but is not required to, establish separate Sub-Accounts in the Reserve Account and in the Capitalized Interest Sub-Accounts of the Principal and Interest Account by an indenture or indentures supplemental to this Indenture authorizing the issuance of Bonds.

As moneys are deposited by the City into the Incremental Taxes Fund and transferred to the Trustee, they shall be credited by the Trustee and the City in the following order of priority:

(a) Program Expenses Account. From Pledged Revenues first received by the Trustee, the Trustee shall credit to and shall deposit into the Program Expenses Account an amount of Pledged Revenues sufficient to pay Program Expenses, if any, for the next succeeding calendar year [in an amount not to exceed $10,000]. The City shall, no later than November 1 of each year, provide to the Trustee information, calculations or estimates of Program Expenses for the next succeeding calendar year, and the Trustee may reasonably rely upon such information, calculations or estimates of such Program Expenses as necessary to determine the proper amount of such deposit into the Program Expenses Account. A portion of the proceeds of the Bonds may also be deposited into the Program Expenses Account and applied by Trustee to pay Costs of Issuance at the direction of the City. Amounts on deposit in the Program Expenses Account are not pledged to payment of the Bonds.

(b) Principal and Interest Account. The Trustee shall next transfer the Pledged Revenues into the Principal and Interest Account in an amount sufficient to pay the principal of and interest on all Outstanding Bonds coming due during the next succeeding calendar year, which amount shall be set aside in the Principal and Interest Account for such purpose. Except as provided below, such moneys shall be used solely and only for the purpose of paying principal of, redemption premium, if any, and interest on the Bonds, as the same become due whether at maturity or upon mandatory redemption. Any capitalized interest received upon the sale of the Bonds shall be deposited to and held in the Capitalized Interest Sub-Account and shall be used to pay interest coming due on the Bonds, prior to applying any other moneys for that purpose.

On December 2 of each year, the Trustee shall determine (i) the amount of Pledged Revenues to the credit of the Principal and Interest Account and (ii) the amount of proceeds of the Bonds, together with investment earnings on those proceeds, to the credit of the Capitalized Interest Sub-Account; provided, however, the Trustee shall determine the foregoing within 30 days of the receipt of Incremental Taxes if such Incremental Taxes have not been received by December 1 (such December 2 or later date within thirty (30) days of receipt of the Incremental Taxes is hereinafter referred to as the "Determination Date"). Such determination made on the Determination Date, preceding the final maturity date of a Series of Bonds shall also include all amounts on deposit in the applicable Sub-Account of the Reserve Account pledged to such Series of Bonds. Moneys to the credit of the Capitalized Interest Sub-Account shall be deemed the first moneys available to pay interest on the Bonds, and shall be applied by the Trustee to interest first coming due on the Bonds. The Trustee shall determine the amount necessary to pay principal, interest, and redemption premium, if any, on the Bonds, during the next succeeding calendar year after such Determination Date (except that the determination made on the Determination Date, preceding the final maturity date of a Series of Bonds shall relate to the Bond Year ending June 1, of the following calendar year), which amount shall be set aside within the Principal and Interest Account for such purpose. Funds to the credit of the Principal and Interest Account in excess of such necessary amount shall first be transferred by the Trustee to the Reserve Account as provided below and shall next be paid by the Trustee to and credited by the Treasurer to the Accounts as described in clauses (d) and (e) below.

(c) Reserve Account. The Trustee shall next transfer the Pledged Revenues into the Reserve Account until such account aggregates the Debt Service Reserve Requirement, and thereafter no such payments shall be made into that Account, except that when any money is paid out of that Account payments shall be resumed and continued until that Account has been restored to an aggregate amount equal to the Debt Service Reserve Requirement. The Debt Service Reserve Requirement shall be established in the applicable Supplemental Indenture. The Trustee shall value the investments in the Reserve Account, and each of its Sub-Accounts, if any, on the fifteenth (15th) Business Day preceding each June 1 and December 1, commencing December 1, 2013. In determining the value of the investments in the Reserve Account and in each of its Sub-Accounts, such investments shall be valued at their market price or as otherwise provided in this Indenture. Investment earnings on deposit in each Sub–Account of the Reserve Account shall be automatically transferred to the Principal and Interest Account from time to time to the extent the amounts on deposit therein exceed the applicable Debt Service Reserve Requirement. On the final maturity date of a Series of Bonds, all amounts on deposit in the applicable Sub-Account of the Reserve Account pledged to such Series of Bonds shall be used and applied by the Trustee to pay principal of and interest on such Series of Bonds. Whenever a

transfer is made from any Sub-Account in the Reserve Account to the Principal and Interest Account, the Trustee shall promptly give written notice of such transfer to the City.

(d) Rebate Account. The Trustee shall next transfer the Pledged Revenues into the Rebate Account to the extent necessary to ensure that there are on deposit in the Rebate Account sufficient moneys to make, at the required times, all rebate payments to the United States of America required to be made by Section 148 of the Code and applicable provisions of the Income Tax Regulations owed with respect to the Bonds. The City shall provide to the Trustee information, calculations or estimates of amounts to be deposited in the Rebate Account for the next succeeding calendar year. The Trustee may reasonably rely upon such information, calculations or estimates to determine the proper amount to be deposited into the Rebate Account and shall not be required to make transfers of the Pledged Revenues into the Rebate Account under this subsection if it has not been provided with such information, calculations and estimates. The Trustee shall make any necessary rebate payments to the United States of America that are required by the Code and Regulations from moneys on deposit in the Rebate Account. Amounts on deposit in the Rebate Account are not pledged to payment of the Bonds, to the extent of the moneys on deposit in that Account.

(e) The General Account. The Trustee shall next transfer the balance of any Pledged Revenues remaining after crediting the required amounts to the respective accounts provided for in (a), (b),(c) and (d) above, to the Treasurer to be credited to the General Account. Moneys on deposit in the General Account shall be used for any one or more of the following purposes as directed by the Authorized Officer, and (unless, and to the extent, otherwise provided in any Supplemental Indenture) without any priority among them:

(i) for the purpose of paying any Project Costs including, without limitation, obligations incurred in accordance with Section 7.6(b) or to pay any additional Program Expenses; or

(ii) for the purpose of paying principal of or interest on or redeeming Bonds; or

(iii) for the purpose of purchasing Bonds at a price not in excess of par and accrued interest and applicable redemption premium to the date of purchase; or

(iv) for the purpose of paying principal of or interest on any [Junior Lien Bonds or any other] indebtedness of the City issued pursuant to a separate indenture which is subordinate to the Bonds; or

(v) for the purpose of redeeming any [Junior Lien Bonds or any other] indebtedness of the City issued pursuant to a separate indenture which is subordinate to the Bonds; or

(vi) for the purpose of purchasing [Junior Lien Bonds or any other]indebtedness of the City issued pursuant to a separate indenture which is subordinate to the Bonds at a price not in excess of par and accrued interest and applicable redemption premium to the date of purchase; or

(vii) for the purpose of distribution of such funds to the taxing districts or municipal corporations having the power to tax real property in the Pilsen Redevelopment Project Area in accordance with the Act.

(viii) [for the purpose of paying Excluded Contractual Obligations.]

Except as may be otherwise provided in a Supplemental Indenture, moneys on deposit in the General Account are not pledged to the payment of the Bonds and are not Pledged Revenues.

Section 5.3 [Establishment of Project Fund.

(a) The Project Fund is established, and shall be held as a separate, segregated fund held by the City in a Depositary. There shall be paid into the Project Fund the amounts required to be so paid by the provisions of this Indenture and any Supplemental Indenture, and there may be paid into the Project Fund, at the option of the City, any moneys determined to be so applied by the City.

(b) The City shall establish within the Project Fund, in connection with the issuance of each Series of Bonds, separate, segregated accounts for the deposit of proceeds of such Bonds issued to finance additional Project Costs. The City may deposit any such separate, segregated account within the Project Fund with a Depositary pursuant to the provisions of a Supplemental Indenture.

(c) Amounts in each separate, segregated account established as provided in paragraph (b) above shall be applied to the purpose or purposes and in the manner specified in the Supplemental Indenture authorizing the Bonds, the proceeds of which were deposited in such account and upon the written direction of an Authorized Officer.

(d) Moneys in the Project Fund shall be invested at the direction of an Authorized Officer to the fullest extent practicable in Investment Securities maturing in such amounts and at such times as may be necessary to provide funds when needed to pay Project Costs. The City may, and to the extent required for payments from the Project Fund shall, sell any such Investment Securities at any time, and the proceeds of such sale, and of all payments at maturity and upon redemption of such investments, shall be held in the applicable account in the Project Fund. Earnings received on moneys or securities in a separate account in the Project Fund shall be held as a part of such account and available for the purposes for which moneys in such account are otherwise held.

(e) The completion of the Project to be paid for from an account in the Project Fund shall be evidenced by a certificate of an Authorized Officer of the City, which certificate shall be filed promptly with the Trustee, stating the date of such completion and the amount, if any, required in the opinion of the signer of such certificate for the payment of any remaining part of the cost of the Project. Upon the filing of such certificate evidencing the completion of the Project to be paid from that account in the Project Fund, the balance in said account in excess of the amount, if any, stated in such certificate of the City shall be applied by the City in the following order of priority: (1) to the applicable Sub–Account of the Reserve Account, to the extent necessary to cause the amount on deposit in the Reserve Account to equal the applicable

Debt Service Reserve Requirement; and (2) to the City for any lawful purpose under the Act which will not adversely affect the tax exempt status of any tax exempt bond.]

Section 5.4 Creation of Additional Accounts and Sub-Accounts for Bonds or Junior Lien Bonds.

(a) The City has reserved the right to issue multiple Series of Bonds pursuant to Sections 2.4 and 2.5, from time to time for the purposes authorized in the Pilsen Redevelopment Plan. Any such Bonds shall share ratably and equally with the Outstanding Bonds in the Pledged Revenues and (except as provided in the following two sentences) the Funds and Accounts established under this Indenture shall have the terms established in the Supplemental Indenture authorizing such Series of Bonds. No Series of Bonds shall have any terms creating a preference or priority over any other Series of Bonds; provided, that the City may, in any Supplemental Indenture, provide for the establishment of separate Sub-Accounts within the Reserve Account relating to one or more Series of Bonds. The creation of such separate Sub-Accounts shall not create a preference of any Series of Bonds over any other Series of Bonds with respect to Pledged Revenues, except to the extent that a Supplemental Indenture authorizing a Series of Bonds provides that amounts on deposit in any such Sub-Accounts shall secure only the one or more series of Bonds with respect to which such Sub-Account is established.

(b) The Trustee shall, at the written request of the City, establish such additional Accounts within any of the Funds established under this Indenture, and Sub-Accounts within any of the Accounts established under this Indenture, as shall be specified in such written request, for the purpose of enabling the City to identify or account for more precisely the sources, timing and amounts of transfers or deposits into such Funds, Accounts and Sub-Accounts, the amounts on deposit in or credited to such Funds, Accounts or Sub-Accounts as of any date or dates of calculation, and the sources, timing and amounts of transfers, disbursements or withdrawals from such Funds, Accounts or Sub-Accounts; but the establishment of any such additional Accounts or Sub-Accounts shall not alter or modify in any manner or to any extent any of the requirements of this Indenture with respect to the deposit or use of moneys in any Fund, Account or Sub-Account established under this Indenture.

(c) The City in a Supplemental Indenture or the Treasurer may establish such additional Sub-Accounts in the General Account as shall be considered necessary or desirable, for the purpose of enabling the City to identify or account for more precisely the sources, timing and amounts of transfers or deposits into the General Account, the amounts on deposit in or credited to the General Account as of any date or dates of calculation, and the uses, timing and amounts of transfers, disbursements or withdrawals from the General Account; but the establishment of any such additional Sub-Accounts shall not alter or modify in any manner or to any extent any of the requirements of this Indenture with respect to the deposit or use of moneys in the General Account.

(d) The City has reserved the right in this Indenture to issue one or more series of Junior Lien Bonds. All Junior Lien Bonds shall be subordinate to the Bonds as provided in this Indenture. Junior Lien Bonds may be issued under this Indenture or may be issued under a separate indenture or agreement. If issued under this Indenture, the Trustee shall create such additional funds, accounts and sub-accounts as shall be specified by the City in the supplemental

indenture authorizing such Junior Lien Bonds for the purpose of enabling the Trustee and the City to identify or account for more precisely the sources, timing and amounts of transfers or deposits into such funds, accounts and sub-accounts, the amounts on deposit in or credited to such funds, accounts or sub-accounts as of any date or dates of calculation, and the sources, timing and amounts of transfers, disbursements or withdrawals from such funds, accounts or sub-accounts.

ARTICLE VI

DEPOSITARIES, SECURITY FOR DEPOSITS AND INVESTMENTS OF FUNDS

Section 6.1 Depositaries; Moneys to be Held in Trust. All moneys held by the Trustee under the provisions of this Indenture may be deposited with one or more Depositaries selected by an Authorized Officer in the name of and in trust for the Trustee. All moneys held by the City under this Indenture may be deposited in one or more Depositaries (selected by an Authorized Officer) in the name of the City. All moneys deposited under the provisions of this Indenture with the Trustee, the City or any Depositary shall be held in trust and applied only in accordance with the provisions of this Indenture, and each of the Funds, Accounts and Sub-Accounts established by this Indenture shall be a trust fund.

Section 6.2 Deposits.

(a) All moneys held by any Depositary under this Indenture may be placed on demand or time deposit, as directed by an Authorized Officer; provided, that such deposits shall permit the moneys so held to be available for use when needed. Any such deposit may be made in the commercial banking department of any Fiduciary which may honor checks and drafts on such deposit as if it were not a Fiduciary. All moneys held by a Fiduciary may be deposited in its commercial banking department on demand or, if and to the extent directed by an Authorized Officer, on time deposit; provided, that such moneys on deposit be available for use when needed. Such Fiduciary shall allow and credit on such moneys such interest, if any, as it customarily allows upon similar funds of similar size.

(b) All moneys held for the City under this Indenture shall be continuously and fully secured for the benefit of the City and the Owners of the Bonds in the same manner as provided by the City for similar funds of the City.

(c) All moneys deposited with the Trustee and each Depositary shall be credited to the particular Fund, Account or Sub-Account to which such moneys belong.

Section 6.3 Investment of Certain Moneys.

(a) Moneys held in any Fund, Account or Sub-Account by the City, the Trustee or a Depositary shall be invested and reinvested by the City at the direction of an Authorized Officer in Investment Securities that mature no later than necessary to provide moneys when needed for payments to be made from such Fund, Account or Sub-Account.

(b) Moneys held in two or more Funds, Accounts or Sub-Accounts may be jointly invested in one or more Investment Securities, if such investment complies with all the terms and conditions of this Indenture relating to the investment of moneys in such Funds, Accounts or Sub-Accounts, as the case may be, and the City maintains books and records as to the allocation of such investment as among such Funds, Accounts or Sub-Accounts.

(c) Any earnings on investments held in the Reserve Account shall be credited to and held in the applicable Sub-Account of the Reserve Account so long as the balance of any Sub-Account is less than the Debt Service Reserve Requirement for such Sub-Account and next shall be transferred to the Principal and Interest Account. Investment income from investments held in the various Funds, Accounts and Sub-Accounts shall remain in and be a part of the respective Funds, Accounts and Sub-Accounts in which such investments are held, except as otherwise provided in this Indenture.

(d) Notwithstanding any other provisions of this Indenture to the contrary, all investments made under this Indenture shall be consistent with the expectations expressed in any arbitrage certificate or tax compliance agreement executed on behalf of the City and filed with the Trustee with respect to any Series of Bonds issued under this Indenture.

Section 6.4 Valuation and Sale of Investments.

(a) Investment Securities in any Fund, Account or Sub-Account created under the provisions of this Indenture shall be deemed at all times to be part of such Fund, Account or Sub-Account and any profit realized from the liquidation of such investment shall be credited to such Fund, Account or Sub-Account and any loss resulting from liquidation of such investment shall be charged to such Fund, Account or Sub-Account.

(b) Valuations of Investment Securities held in the Funds, Accounts and Sub-Accounts established under this Indenture shall be made by the City as required under this Indenture. In computing the amounts in such Funds, Accounts and Sub-Accounts, Investment Securities shall be valued as provided in paragraph (c) of this Section 6.4.

(c) The value of Investment Securities shall be their fair market value; provided, that all SLG's shall be valued at par and those obligations which are redeemable at the option of the holder shall be valued at the price at which such obligations are then redeemable.

(d) Except as otherwise provided in this Indenture, the Trustee at the direction of an Authorized Officer shall sell at the best price obtainable, or present for redemption, any Investment Security held in any Fund, Account or Sub-Account held by the Trustee whenever it shall be necessary to provide moneys to meet any payment or transfer from such Fund, Account or Sub-Account, as the case may be. The Trustee shall not be liable or responsible for making any such investment in the manner provided above or for any loss resulting from any such investment.

ARTICLE VII

PARTICULAR COVENANTS AND REPRESENTATIONS OF THE CITY

Section 7.1 Payment of Bonds. The City covenants and agrees that it will pay or cause payment to be made, solely from Pledged Revenues, the principal at maturity and Redemption Price, if any, of every Outstanding Bond, whether a Serial Bond or a Term Bond, and the interest on such Bonds, solely from Pledged Revenues, at the places, on the dates and in the manner provided in this Indenture and in the Bonds. The City further covenants and agrees that it will make deposits, solely from Pledged Revenues, to meet all Sinking Fund Installments for the Bonds and for each other Series of Bonds for which Sinking Fund Installments are established, in accordance with and subject to the provisions of this Indenture and each Supplemental Indenture.

Section 7.2 Extension of Payment of Bonds. If the maturity of any Bond or installment of interest shall be extended pursuant to the written consent of the Owner of such Bond, such Bond or installment of interest shall not be entitled, in case of any default under this Indenture, to the benefit of this Indenture or to payment out of Pledged Revenues or the Funds, Accounts and Sub-Accounts established by this Indenture or moneys held by Fiduciaries or Depositaries (except moneys held in trust for the payment of such Bond or installment of interest) until the prior payment of the principal of all Bonds Outstanding the maturity of which has not been extended and of such portion of the accrued interest on the Bonds as shall not be represented by such extended claims for interest. The provisions of this Section do not limit the right of the City to issue Refunding Bonds and such issuance shall not be deemed to constitute an extension of maturity of Bonds.

Section 7.3 Offices for Servicing Bonds. The City shall at all times maintain one or more Paying Agents and Registrars with offices in Chicago, Illinois, or in New York, New York, at which Bonds may be presented for payment and where Bonds may be presented for registration of any transfer or exchange.

Section 7.4 Further Assurances. At any and all times the City shall, as far as it may be authorized by law, pass, make, do, execute, acknowledge and deliver, all and every such further indentures, acts, deeds, conveyances, assignments, transfers and assurances as may be necessary or desirable for the better assuring, conveying, granting, pledging, assigning and confirming, all and singular, the rights, Pledged Revenues and other moneys, securities and funds pledged or assigned by this Indenture, or which the City may become bound to pledge or assign.

Section 7.5 Power to Issue Bonds and to Pledge Pledged Revenues and Other Funds. The City is duly authorized under all applicable laws to issue the Bonds, to execute and deliver this Indenture, to pledge the Pledged Revenues and other moneys, securities and funds pledged by this Indenture, and to grant the lien granted by this Indenture thereon in the manner and to the extent provided in this Indenture. Except as provided in the Granting Clauses and Section 5.1, the Pledged Revenues and other moneys, securities and funds so pledged, and subject to such lien, are and will be free and clear of any pledge, lien, charge or encumbrance on them or with respect to them prior to, or of equal rank with, the pledge and lien created by this Indenture, and all action on the part of the City to that end has been and will be duly and validly taken. The

Bonds and the provisions of this Indenture are and will be valid and legally enforceable obligations of the City in accordance with their terms and the terms of this Indenture and any Supplemental Indenture, except to the extent enforceability may be limited by bankruptcy, insolvency and other laws affecting conditions, rights or remedies and the availability of equitable remedies generally. The City covenants that upon the date of issuance of any of the Bonds, all conditions, acts and things required by the Constitution and laws of the State of Illinois and this Indenture to exist, to have happened and to have been performed precedent to or in the issuance of such Bonds shall exist, have happened and have been performed. The City shall at all times, to the extent permitted by law, defend, preserve and protect the pledge of and lien on the Pledged Revenues and other moneys, securities and funds pledged under this Indenture and all the rights of the Owners under this Indenture against all claims and demands.

Section 7.6 Indebtedness and Liens. The City shall not issue any bonds or other evidences of indebtedness, other than the Bonds and Junior Lien Bonds which are secured by a pledge of or lien on the Pledged Revenues and shall not, except as expressly authorized in this Indenture, create or cause to be created or suffer to exist any lien or charge on the Pledged Revenues; provided, that nothing contained in this Indenture shall (a) prevent the City from issuing evidences of indebtedness payable from, or secured by the pledge of, Pledged Revenues to be derived on and after such date as this Indenture has been discharged and satisfied as provided in Section 12.1, or (b) prevent the City from issuing evidence of indebtedness payable from or secured by Incremental Taxes or other amounts transferred to the General Account as set forth in Sections 5.2(e) and 5.4(d) of this Indenture, or (c) prevent the City from agreeing to make payments from the General Account in payment of, or reimbursement for the payment of, Project Costs (including the payment of the principal of and interest on notes or other evidences of indebtedness of the City) as long as the City's agreement to make such payments is fully contingent on the availability in the General Account of funds for such purpose.

Section 7.7 Covenants Regarding Pledged Revenues. The City covenants and agrees with the Owners of the Bonds that, so long as any Bonds remain Outstanding and unpaid:

(a) The City will cause to be punctually paid from the Incremental Taxes Fund, but solely to the extent that adequate amounts are on deposit in that Fund for that purpose, the principal of, interest on and premium, if any, to become due in respect of the Bonds in strict conformity with the terms of the Bonds, this Indenture and the applicable Supplemental Indenture, and it will faithfully observe and perform all of the conditions, covenants and requirements of the Bonds, this Indenture and each Supplemental Indenture.

(b) The City will cause to be punctually paid and discharged, from the Incremental Taxes Fund, but solely to the extent that adequate amounts are on deposit in that Fund for that purpose, any and all lawful claims which, if unpaid, might become a lien or charge upon the Pledged Revenues, or any part of the Pledged Revenues, or upon any funds in the hands of the Trustee, or which might impair the security of the Bonds. Nothing in this Indenture shall require the City to make any such payment so long as the City in good faith shall contest the validity of said claims.

(c) The City will keep, or cause to be kept, proper books of record and accounts, separate from all other records and accounts of the City, in which complete and correct entries

shall be made of all transactions relating to the Bonds and to the Pledged Revenues. Such books of record and accounts, and any other report, shall at all times during regular business hours be subject to the inspection of the Owners of not less than ten percent (10%) of the principal amount of the Bonds then Outstanding, or their representatives authorized in writing.

The City will prepare, or cause the preparation of, within 270 days after the close of each Fiscal Year of the City so long as any of the Bonds are Outstanding, audited financial statements with respect to the preceding Fiscal Year showing the Pledged Revenues received and all disbursements from the funds and accounts created by this Indenture, on a consolidated basis, as of the end of such Fiscal Year, which statements shall be accompanied by a certificate or opinion in writing of an Independent certified public accountant.

(d) The City will preserve and protect the security of the Bonds and the rights of the Owners, and will warrant and defend their rights against all claims and demands of all Persons. From and after the sale and delivery of any of the Bonds by the City, the Bonds shall be incontestable by the City.

(e) The City will execute and deliver any and all such instruments and assurances as may be reasonably necessary or proper to carry out the intention of, or to facilitate the performance of, this Indenture, and for the better assuring and confirming unto the registered owners of the Bonds of the rights and benefits provided in this Indenture.

ARTICLE VIII

REMEDIES OF OWNERS

Section 8.1 Events of Default. Each of the following events is an "Event of Default:"

(a) default shall be made in the payment of the principal of or Redemption Price on any Bond when such payment shall become due and payable, either at maturity or by proceedings for redemption or otherwise; or

(b) default shall be made in the payment of any installment of interest on any Bond when and as such payment shall become due and payable; or

(c) default shall be made by the City in the performance of any obligation in respect of the Reserve Account if such default continues for 60 days after such default; or

(d) the City shall (1) commence a voluntary case under the federal bankruptcy laws, as now or subsequently constituted, or any other applicable federal or state bankruptcy, insolvency or other similar law, (2) make an assignment for the benefit of its creditors, (3) consent to the appointment of a receiver of itself or of the whole or any substantial part of its property, or (4) be adjudicated a bankrupt or have entered against it any order for relief in respect of an involuntary case under the federal bankruptcy laws, as now or subsequently constituted, or any other applicable federal or state bankruptcy, insolvency or other similar law, if such order continues in effect for a period of 60 days without stay or vacation; or

(e) a court of competent jurisdiction shall enter an order, judgment or decree appointing a receiver of the City, or of the whole or any substantial part of its property, or approving a petition seeking reorganization of the City under the federal bankruptcy laws or any other applicable federal or state law or statute if such order, judgment or decree is not vacated or set aside or stayed within 60 days from the date of the entry of such order, judgment or decree; or

(f) under the provisions of any other law for the relief or aid of debtors, any court of competent jurisdiction shall assume custody or control of the City or of the whole or any substantial part of its property, if such custody or control is not terminated or stayed within 60 days from the date of assumption of such custody or control; or

(g) the City shall default in the due and punctual performance of any other of the covenants, conditions, agreements and provisions contained in the Bonds or in this Indenture on the part of the City to be performed, if such default continues for 60 days after written notice specifying such default and requiring such default to be remedied has been given to the City by the Trustee (which may give such notice whenever it determines that such a default is subsisting and shall give such notice at the written request of the registered owners of not less than a majority of the principal amount of the Bonds then Outstanding with respect to which such default shall have occurred); provided, that if the nature of the default is such that it cannot be cured within the 60-day period following receipt of notice specifying such default, but can be cured within a longer period, no event of default shall occur if the City institutes corrective action within such 60-day period and diligently pursues such action until the default is corrected; then in each and every such case the Trustee may, and upon the written request of the Owners of a majority of the principal amount of the Bonds with respect to which the Event of Default has occurred and then Outstanding under this Indenture, the Trustee shall, proceed to protect and enforce its rights and the rights of the Owners of the Bonds by a suit, action or special proceeding in equity or at law, by mandamus or otherwise, either for the specific performance of any covenant or agreement contained in this Indenture or in aid or execution of any power granted by this Indenture or for any enforcement of any other legal or equitable remedy as the Trustee, being advised by counsel, shall deem most effective to protect and enforce those rights.

During the continuance of an Event of Default, all moneys received by the Trustee under this Indenture from the City or from any other source shall be applied by the Trustee in accordance with the terms of Section 8.3.

Section 8.2 Accounting and Examination of Records after Default; No Acceleration after Default.

(a) The City covenants that if an Event of Default shall have happened and shall not have been remedied, the books of record and account of the City and all other records relating to the Pledged Revenues shall at all reasonable times be subject to the inspection of the Trustee and of its authorized agents and attorneys.

(b) The City covenants that if an Event of Default shall have happened and shall not have been remedied, the City, upon demand of the Trustee, will account, as if it were the trustee of an express trust, for all Pledged Revenues and other moneys, securities and funds held by the City pursuant to the terms of this Indenture for such period as shall be stated in such demand.

(c) The Bonds shall not be subject to acceleration upon the occurrence of an Event of Default.

Section 8.3 Application of Revenues and Other Moneys after Default. If an Event of Default in payment of principal of or interest on any Serics of the Bonds shall happen and shall not have been remedied, the Trustee shall apply all moneys, securities and funds received by the Trustee pursuant to any right given or action taken under the provisions of this Article VIII as follows and in the following order:

(a) First, to the payment of the reasonable and proper expenses of the Trustee, the Bond Registrar and Paying Agents;

(b) Second, to the payment of principal or redemption premium, if any, and interest then due and owing on the Bonds as follows:

(i) first, to the payment to the Persons so entitled of all installments of interest then due and owing on the Bonds, in the order of the maturity of such installments, and, if the amount available shall not be sufficient to pay in full any particular installment, then to the payment ratably, according to the amounts due on such installment, to the Persons entitled to such payment, without any discrimination or preference;

(ii) second, to the payment to the Persons so entitled of the unpaid principal of any of the Bonds which shall have become due and owing (other than Bonds called for redemption for the payment of which moneys are held pursuant to the provisions of this Indenture), in the order of their due dates, with interest upon such Bonds from the respective dates upon which they became due, and, if the amount available shall not be sufficient to pay in full Bonds due on any particular date, together with such interest, then to the payment first of such interest, ratably according to the amount of such interest due on such date, and then to the payment of such principal ratably according to the amount of such principal due on such date, to the Persons entitled to payment without any discrimination or preference; and

(iii) third, to the payment of the Redemption Price of any Bonds called for redemption pursuant to the provisions of this Indenture.

Whenever moneys are to be applied by the Trustee pursuant to the provisions of this paragraph, such moneys shall be applied by the Trustee at such times, and from time to time, as the Trustee in its sole discretion shall determine, having due regard to the amount of such moneys available for application and the likelihood of additional moneys becoming available for such application in the future. The deposit of such moneys with the Paying Agents, or otherwise setting aside such moneys, in trust for the proper purpose, shall constitute proper application by the Trustee; and the Trustee shall incur no liability whatsoever to the City, to any Owner or to any other Person for any delay in applying any such funds, so long as the Trustee acts with reasonable diligence, having due regard to the circumstances, and ultimately applies the same in accordance with such provisions of this Indenture as may be applicable at the time of application by the Trustee. Whenever the Trustee shall exercise such discretion in applying such funds, it shall fix the date (which shall be an interest payment date unless the Trustee shall deem another

date more suitable) upon which such application is to be made and upon such date interest on the amounts of principal paid on such date shall cease to accrue. The Trustee shall give such notice as it may deem appropriate of the fixing of any such date and of the endorsement to be entered on each Bond on which payment shall be made, and shall not be required to make payment to the Owner of any unpaid Bond until such Bond shall be presented to the Trustee for appropriate endorsement, or some other procedure deemed satisfactory by the Trustee.

Section 8.4 Proceedings Brought by Trustee.

(a) If an Event of Default shall happen and shall not have been remedied, then and in every such case, the Trustee, by its agents and attorneys, may proceed, and upon identical written request of the Owners of not less than a majority in principal amount of the Bonds Outstanding and upon being indemnified to its satisfaction the Trustee shall proceed, to protect and enforce its rights and the rights of the Owners of the Bonds under this Indenture forthwith by a suit or suits in equity or at law, whether for the specific performance of any covenant contained in this Indenture, or in aid of the execution of any power granted in this Indenture, or for an accounting against the City as if the City were the trustee of an express trust, or in the enforcement of any other legal or equitable right as the Trustee, being advised by counsel, shall deem most effectual to enforce any of its rights or to perform any of its duties under this Indenture.

(b) All rights of action under this Indenture may be enforced by the Trustee without the possession of any of the Bonds or the production of any of the Bonds in any suit or other proceeding, and any such suit or other proceeding instituted by the Trustee shall be brought in its name.

(c) All actions against the City under this Indenture shall be brought in a state or federal court located in the State of Illinois.

(d) The Owners of not less than a majority in principal amount of the Bonds at the time Outstanding may direct the time, method and place of conducting any proceedings to be taken in connection with the enforcement of the terms and conditions of this Indenture or for the enforcement of any remedy available to the Trustee, or exercising any trust or power conferred upon the Trustee; provided, that the Trustee shall have the right to decline to follow any such direction if the Trustee shall be advised by counsel that the action or proceeding so directed may not lawfully be taken, or if the Trustee in good faith shall determine that the action or proceeding so directed would involve the Trustee in personal liability or be unjustly prejudicial to the Owners not parties to such direction.

(e) Upon commencing any suit at law or in equity or any other judicial proceedings by the Trustee to enforce any right under this Indenture, the Trustee shall be entitled to exercise any and all rights and powers conferred in this Indenture and provided to be exercised by the Trustee upon the occurrence of any Event of Default.

(f) Regardless of the happening of an Event of Default, the Trustee shall have power, but unless requested in writing by the Owners of a majority in principal amount of the Bonds then Outstanding, and furnished with reasonable security and indemnity, shall be under no obligation, to institute and maintain such suits and proceedings as may be necessary or expedient

to prevent any impairment of the security under this Indenture and to preserve or protect its interests and the interest of the Owners.

Section 8.5 Restriction on Owners' Action.

(a) No Owner of any Bond shall have any right to institute any suit or proceeding at law or in equity for the enforcement or violation of any provision of this Indenture or the execution of any trust under this Indenture or for any remedy under this Indenture, unless such Owner shall have previously given to the Trustee written notice of the occurrence of an Event of Default, as provided in this Article, the Owners of at least a majority in principal amount of the Bonds then Outstanding shall have filed a written request with the Trustee, and shall have offered it reasonable opportunity either to exercise the powers granted in this Indenture or by the laws of Illinois or to institute such suit or proceeding in its own name, and unless such Owners shall have offered to the Trustee adequate security and indemnity against the costs, expenses and liabilities so to be incurred, and the Trustee shall have refused or failed to comply with such request within 60 days after receipt by it of such notice, request and offer of indemnity, it being understood and intended that no one or more Owners of Bonds shall have any right in any manner whatever by its or their action to affect, disturb or prejudice the pledge created by this Indenture or to enforce any right under this Indenture, except in the manner provided in this Indenture; and that all proceedings at law or in equity to enforce any provision of this Indenture shall be instituted, had and maintained in the manner provided in this Indenture and for the equal benefit of all Owners of the Outstanding Bonds, subject only to the provisions of Section 7.2.

(b) Nothing in this Indenture or in the Bonds shall affect or impair the obligation of the City, which is absolute and unconditional, to pay at the respective dates of maturity and places expressed in the Bonds, but solely from Pledged Revenues, the principal of and interest on the Bonds to the respective Owners, or affect or impair the right of action, which is also absolute and unconditional, of any Owner to enforce such payment of its Bond, but solely from Pledged Revenues.

(c) No Owner of any Bond shall have the right to cause the acceleration of the Bonds if any Event of Default shall have occurred.

Section 8.6 Remedies Not Exclusive. No remedy by the terms of this Indenture conferred upon or reserved to the Trustee or the Owners is intended to be exclusive of any other remedy, but shall be cumulative and shall be in addition to every other remedy given under this Indenture or existing at law or in equity or by statute on or after the date of the execution and delivery of this Indenture.

Section 8.7 Effect of Waiver and Other Circumstances.

(a) No delay or omission of the Trustee or any Owner to exercise any right or power arising upon the happening of an Event of Default shall impair any right or power or shall be construed to be a waiver of or acquiescence in any such default.

(b) The Owners of not less than two-thirds in principal amount of the Bonds at the time Outstanding, or their attorneys-in-fact duly authorized, may on behalf of the Owners of all of the Bonds waive any past default under this Indenture and its consequences, except a default

in the payment of interest on or principal or Redemption Price of any of the Bonds. No such waiver shall extend to any subsequent or other default or impair any right consequent on such default.

Section 8.8 Notices of Default. The Trustee shall promptly mail written notice of the occurrence of any Event of Default to the Owners of the Bonds.

Section 8.9 Rights of Credit Bank or Bond Insurer. Notwithstanding anything contained in this Indenture to the contrary, but subject to the provisions of any applicable Supplemental Indenture, any Credit Bank or any Bond Insurer shall be treated as the Owner of Bonds upon which such Credit Bank or Bond Insurer is obligated pursuant to a Credit Facility or Bond Insurance Policy, as applicable, for the purposes of calculating whether or not the Owners of the requisite percentage of Bonds then Outstanding have consented to any request, consent, directive, waiver or other action permitted to be taken by the Owners of the Bonds pursuant to this Article; provided, that such Credit Bank or Bond Insurer shall cease to be so regarded as Owner of such Bonds in the event such Credit Bank or Bond Insurer is in default of its obligations under the applicable Credit Facility or Bond Insurance Policy.

Notwithstanding anything contained in this Indenture to the contrary, but subject to the provisions of any applicable Supplemental Indenture, until the City has reimbursed a Credit Bank for amounts paid under a Credit Facility to pay the interest on or the principal of any Bonds on any Interest or Principal Payment Date or to the extent any Bond Insurer has exercised its rights as subrogee for the particular Bonds of which it has insured payment, (i) such Bonds shall be deemed to be Outstanding and such Credit Bank or Bond Insurer shall succeed to the rights and interests of the Owners to the extent of the amounts paid under the Credit Facility or as specified in respect of the applicable Bond Insurance Policy until such amount has been reimbursed and (ii) upon presentation to the Registrar, such Bonds shall be registered in the name of the Credit Bank or its nominee or such Bond Insurer or its nominee, as appropriate.

ARTICLE IX

CONCERNING THE FIDUCIARIES

Section 9.1 Trustee; Appointment and Acceptance of Duties. The Trustee accepts and agrees to the trusts created by this Indenture, but only upon the additional terms set forth in this Article, to all of which the City agrees and the respective Owners of the Bonds, by their purchase and acceptance of their Bonds, agree. Except during the continuance of an Event of Default, the Trustee undertakes such duties and only such duties as are specifically set forth in this Indenture.

Section 9.2 Paying Agents; Appointment and Acceptance of Duties.

(a) The Trustee is appointed Paying Agent for the Series 2013 Bonds. The City shall appoint one or more Paying Agents for the Bonds of each other Series, and may at any time or from time to time appoint one or more other Paying Agents having the qualifications set forth in Section 9.15 for a successor Paying Agent. The Trustee may be appointed a Paying Agent for the Bonds of other Series.

(b) The Trustee accepts the duties and obligations imposed upon it as Paying Agent for the Series 2013 Bonds by this Indenture. Each other Paying Agent shall signify its acceptance of the duties and obligations imposed upon it by this Indenture by executing and delivering to the City and to the Trustee a written acceptance.

(c) Unless otherwise provided, the principal or corporate trust offices of the Paying Agents are designated as the respective offices or agencies of the City for the payment of the principal or Redemption Price of the Bonds.

Section 9.3 Registrar; Appointment and Acceptance of Duties.

(a) The Trustee is appointed Registrar for the Series 2013 Bonds. The City shall appoint a Registrar for each other Series of Bonds. Each Registrar shall have the qualifications set forth in Section 9.16 for a successor Registrar. The Trustee or any Paying Agent may be appointed a Registrar for the Bonds of other Series.

(b) The Trustee accepts the duties and obligations imposed upon it as Registrar under this Indenture for the Series 2013 Bonds. Each other Registrar shall signify its acceptance of the duties and obligations imposed upon it by this Indenture by executing and delivering to the City and to the Trustee a written acceptance.

Section 9.4 Responsibilities of Fiduciaries.

(a) The recitals of fact contained in this Indenture and in the Bonds shall be taken as the statements of the City and no Fiduciary assumes any responsibility for the correctness of the same. No Fiduciary makes any representations as to the validity or sufficiency of this Indenture or of any Bonds issued under this Indenture or as to the security afforded by this Indenture, and no Fiduciary shall incur any liability in respect of such matters. The Trustee shall, however, be responsible for any representation contained in its certificate on the Bonds. No Fiduciary shall be under any responsibility or duty with respect to the application of any moneys paid to the City or to any other Fiduciary. No Fiduciary shall be under any obligation or duty to perform any act which would involve it in expense or liability or to institute or defend any suit, or to advance any of its own moneys, unless properly indemnified. Subject to the provisions of paragraph (b) of this Section, no Fiduciary shall be liable in connection with the performance of its duties under this Indenture except for its own negligence or misconduct.

(b) In case an Event of Default has occurred and has not been remedied, the Trustee shall exercise such of the rights and powers vested in it by this Indenture, and shall use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of his or her own affairs. Any provision of this Indenture relating to action taken or to be taken by the Trustee or to evidence upon which the Trustee may rely shall be subject to the provisions of this Section.

Section 9.5 Evidence on Which Fiduciaries May Act.

(a) Each Fiduciary shall be protected in acting upon any notice, ordinance, resolution, request, consent, order, certificate, report, opinion (including Counsel's Opinion), bond or other paper or document furnished to it pursuant to and conforming to the requirements of this

Indenture, and believed by it to be genuine and to have been signed or presented by the proper party or parties.

(b) Whenever any Fiduciary shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action under this Indenture, such matter (unless this Indenture specifically requires other evidence of such matter) may be deemed to be conclusively proved and established by a certificate of an Authorized Officer, but in its discretion the Fiduciary may in lieu of such certificate accept other evidence of such fact or matter or may require such further or additional evidence as it may deem reasonable.

(c) Except as otherwise expressly provided in this Indenture, any request, order, notice or other direction required or permitted to be furnished by the City to any Fiduciary shall be sufficiently executed if signed by an Authorized Officer.

Section 9.6 Compensation. Unless otherwise determined by contract between the City and each Fiduciary, the City shall pay to each Fiduciary from time to time reasonable compensation determined by the City for all services rendered under this Indenture.

Section 9.7 Certain Permitted Acts. Any Fiduciary may become the Owner of any Bonds, with the same rights it would have if it were not a Fiduciary. To the extent permitted by law, any Fiduciary may act as Depositary for, and permit any of its officers or directors to act as a member of, or in any other capacity with respect to, any committee formed to protect the rights of Owners or to effect or aid in any reorganization growing out of the enforcement of the Bonds or this Indenture, whether or not any such committee shall represent the Owners of a majority in principal amount of the Bonds then Outstanding.

Section 9.8 Trustee Required; Eligibility. There shall at all times be a Trustee under this Indenture which shall be a bank or trust company within Illinois organized under the laws of the United States of America or the State of Illinois, authorized to exercise corporate trust powers, subject to supervision or examination by federal or state authorities, and having a reported combined capital and surplus of not less than $1,000,000. If at any time the Trustee shall cease to be eligible in accordance with the provisions of this Section, it shall resign immediately in the manner provided in Section 9.9. No resignation of the Trustee under Section 9.9 or removal of the Trustee under Section 9.10 and no appointment of a successor Trustee shall become effective until a successor Trustee has accepted its appointment under Section 9.11. If a successor Trustee shall not have accepted its appointment under Section 9.11 within 90 days of a notice of resignation or removal of the current Trustee, the Trustee may apply to a court of competent jurisdiction to appoint a temporary successor Trustee under Section 9.11 to act until such time, if any, as a successor shall have so accepted its appointment. All costs, fees and expenses related to such application to any court shall be paid by the City. The Trustee shall provide each Credit Bank and Bond Insurer with notice of the resignation or removal of the Trustee and of the appointment of any successor Trustee.

Section 9.9 Resignation of Trustee. The Trustee may at any time resign and be discharged of the duties and obligations imposed upon it by this Indenture by giving not less than 60 days' written notice to the City, all Owners of the Bonds, the Depositaries and the other Fiduciaries, and such resignation shall take effect upon the day specified in such notice but only

if a successor shall have been appointed by the City or the Owners as provided in Section 9.11, in which event such resignation shall take effect immediately on the appointment of such successor whether or not the date specified for such resignation to take effect has arrived.

Section 9.10 Removal of Trustee. The Trustee may be removed at any time by an instrument in writing delivered to the Trustee and signed by the City; provided, that if an Event of Default shall have occurred and be continuing, the Trustee may be so removed by the City only with the written concurrence of the Owners of a majority in principal amount of Bonds then Outstanding. The Trustee may be removed at any time by the Owners of a majority in principal amount of the Bonds then Outstanding, excluding any Bonds held by or for the account of the City, by an instrument or concurrent instruments in writing signed and duly acknowledged by such Owners or their attorneys-in-fact duly authorized, and delivered to the City. Copies of each such instrument shall be delivered by the City to each Fiduciary.

Section 9.11 Appointment of Successor Trustee.

(a) In case at any time the Trustee shall resign or shall be removed or shall become incapable of acting, or shall be adjudged a bankrupt or insolvent, or if a receiver, liquidator or conservator of the Trustee, or of its property, shall be appointed, or if any public officer or court shall take charge or control of the Trustee, or of its property or affairs, the City shall, within 90 days, appoint a successor Trustee. The City shall cause notice of any such appointment made by it to be mailed to all Owners of the Bonds.

(b) If no appointment of a Trustee shall be made by the City pursuant to the foregoing provisions of this Section 9.11, the Owner of any Bond Outstanding may apply to any court of competent jurisdiction to appoint a successor Trustee. Such court may thereupon, after such notice, if any, as such court may deem proper and prescribe, appoint a successor Trustee.

Section 9.12 Transfer of Rights and Property to Successor Trustee. Any successor Trustee appointed under this Indenture shall execute, acknowledge and deliver to its predecessor Trustee, and also to the City, an instrument accepting such appointment, and thereupon such successor Trustee, without any further act, deed or conveyance, shall be become fully vested with all moneys, estates, properties, rights, powers, duties and obligations of such predecessor Trustee; but the predecessor Trustee shall nevertheless, on the written request of the City or of the successor Trustee, execute, acknowledge and deliver such instruments of conveyance and further assurances and do such other things as may reasonably be required for more fully and certainly vesting and confirming in such successor Trustee all its right, title and interest in and to any property held by it under this Indenture, and shall pay over, assign and deliver to the successor Trustee any moneys or other property subject to the trusts and conditions set forth in this Indenture. Should any deed, conveyance or instrument from the City be required by such successor Trustee for more fully and certainly vesting in and confirming to such successor Trustee any such moneys, estates, properties, rights, powers and duties, such deed, conveyance or instrument shall be executed, acknowledged and delivered by the City. Any such successor Trustee shall promptly notify the Paying Agents of its appointment as Trustee.

Section 9.13 Merger or Consolidation. Any company into which any Fiduciary may be merged or converted or with which it may be consolidated or any company resulting from any

merger, conversion or consolidation to which it shall be a party or any company to which all or substantially all of the corporate trust business of any Fiduciary may be sold or transferred, shall be the successor to such Fiduciary and be bound to the obligations and duties of such Fiduciary without the execution or filing of any paper or the performance of any further act, unless such successor delivers written notice of its resignation pursuant to the provisions of this Article; provided, that such company shall be a bank or trust company organized under the laws of any state of the United States or a national banking association and shall be authorized by law to perform all the duties imposed upon it by this Indenture.

Section 9.14 Adoption of Authentication. In case any of the Bonds contemplated to be issued under this Indenture shall have been authenticated but not delivered, any successor Trustee may adopt the certificate of authentication of any predecessor Trustee so authenticating such Bonds and deliver such Bonds so authenticated; and in case any of the said Bonds shall not have been authenticated, any successor Trustee may authenticate such Bonds in the name of the predecessor Trustee or in its own name.

Section 9.15 Resignation or Removal of Paying Agent and Appointment of Successor.

(a) Any Paying Agent may at any time resign and be discharged of the duties and obligations imposed upon it by this Indenture by giving at least 60 days' written notice to the City and the other Fiduciaries. Any Paying Agent may be removed at any time by an instrument signed by an Authorized Officer and filed with such Paying Agent and the Trustee. Any successor Paying Agent shall be appointed by the City and shall be a bank or trust company organized under the laws of any state of the United States or a national banking association, having capital stock and surplus aggregating at least $1,000,000, willing and able to accept the office on reasonable and customary terms and authorized by law to perform all the duties imposed upon it by this Indenture.

(b) In the event of the resignation or removal of any Paying Agent, such Paying Agent shall pay over, assign and deliver any moneys held by it as Paying Agent to its successor, or if there be no successor, to the Trustee and shall be subject to audit of all of its books, records and accounts with respect to the Bonds. In the event that for any reason there shall be a vacancy in the office of any Paying Agent, the Trustee shall act as such Paying Agent.

Section 9.16 Resignation or Removal of Registrar and Appointment of Successor.

(a) Any Registrar may at any time resign and be discharged of the duties and obligations imposed upon it by this Indenture by giving at least 60 days' written notice to the City and the other Fiduciaries. Any Registrar may be removed at any time by an instrument signed by an Authorized Officer and filed with such Registrar and the Trustee. Any successor Registrar shall be appointed by the City and shall be a bank, trust company or national banking association doing business and having an office in the State of Illinois or in the Borough of Manhattan, in the City and State of New York, if there be such a bank, trust company or national banking association willing and able to accept the office on reasonable and customary terms and authorized by law to perform all the duties imposed upon it by this Indenture.

(b) In the event of the resignation or removal of any Registrar, such Registrar shall deliver all books, records and other property including the bond register of the City to its successor, or if there be no successor, to the Trustee. In the event that for any reason there shall be a vacancy in the office of any Registrar, the Trustee shall act as such Registrar.

Section 9.17 Trustee Not Deemed to Have Notice of Default. The Trustee shall not be deemed to have notice of any default under this Indenture except a default under Section 8.1(a) or (b) or the failure of the City to file with the Trustee any document required by this Indenture unless any officer in its corporate trust department shall have actual knowledge of such default or the Trustee shall be specifically notified in writing of such default by the City or by the Owners of not less than a majority in principal amount of the Bonds Outstanding; and all notices or other instruments required by this Indenture to be delivered to the Trustee must, in order to be effective, be delivered at the principal corporate trust office of the Trustee.

Section 9.18 Monthly Report by Trustee and Depositaries. Within seven days after the end of each month, the Trustee, any Paying Agent and each Depositary shall prepare a written report for each Fund, Account and Sub–Account held by it pursuant to the provisions of this Indenture. Such report shall set out the receipts and disbursements, both principal and income, and shall list the Investment Securities held by the Trustee and each Depositary at the end of the month. A copy of each such report shall be furnished to the City and any Persons designated by the City.

In addition, the Trustee, any Paying Agent and each Depositary shall, at any time when requested, including, without limitation, any request at the time of the resignation of the Trustee, any Paying Agent or any Depositary, furnish to the City and any Persons designated by the City a report of the amount of moneys, including Investment Securities, held in each Fund, Account or Sub–Account by the Trustee and each Depositary. For purposes of this certification, the Investment Securities in each such Fund, Account and Sub-Account shall be treated as having a value equal to their aggregate market value as of the date of this request.

ARTICLE X

SUPPLEMENTAL INDENTURES

Section 10.1 Supplemental Indentures Not Requiring Consent of Owners. The City and the Trustee may without the consent of, or notice to, any of the Owners, enter into a Supplemental Indenture or Supplemental Indentures as shall not be inconsistent with the terms and provisions of this Indenture for any one or more of the following purposes:

(a) to authorize a Series of Bonds and to specify, determine or authorize any matters and things concerning any such Bonds which are not contrary to or inconsistent with this Indenture;

(b) to close this Indenture against, or impose additional limitations or restrictions on, the issuance of Bonds, or of other notes, bonds, obligations or evidences of indebtedness;

(c) to impose additional covenants or agreements to be observed by the City;

(d) to impose other limitations or restrictions upon the City;

(e) to surrender any right, power or privilege reserved to or conferred upon the City by this Indenture;

(f) to confirm, as further assurance, any pledge of or lien upon the Pledged Revenues or any other moneys, securities or funds;

(g) to cure any ambiguity, omission, inconsistency, or defect in this Indenture;

(h) to provide for the appointment of a successor securities depository in the event any Series of Bonds is held in book–entry only form;

(i) to provide for the appointment of any successor Fiduciary;

(j) to authorize the issuance of Junior Lien Bonds and in connection therewith, specify and determine any matters and things relative thereto which are not contrary to or inconsistent with this Indenture as then in effect; and

(k) to make any other change which, in the judgment of the Trustee, is not to the prejudice of the Trustee or the Owners.

Section 10.2 Supplemental Indentures Effective upon Consent of Owners. Any Supplemental Indenture not effective in accordance with Section 10.1 shall take effect only if permitted and approved in the manner prescribed by Article XI.

Section 10.3 Filing of Counsel's Opinion. Each Supplemental Indenture described in Section 10.1 shall be accompanied, when filed with the Trustee, by a Counsel's Opinion to the effect that such Supplemental Indenture has been duly authorized by the City in accordance with the provisions of this Indenture, is authorized or permitted by this Indenture and, when executed and delivered, will be valid and binding upon the City, the Owners and the Trustee.

ARTICLE XI

AMENDMENTS

Section 11.1 Notices. Any provision in this Article for the mailing of a notice or other information to Owners shall be fully complied with if it is mailed by first class mail, postage prepaid, or delivered only to each Owner of Bonds then Outstanding at its address, if any, appearing upon the registration books of the City kept by the Registrar and to each Bond Insurer.

Section 11.2 Powers of Amendment. Except for Supplemental Indentures described in Section 10.1, any modification or amendment of this Indenture and of the rights and obligations of the City and of the Owners of the Bonds under this Indenture, in any particular, may be made by a Supplemental Indenture with the written consent given as provided in Section 11.3 (a) of the Owners of at least a majority in principal amount of the Bonds Outstanding at the time such consent is given, and (b) in case less than all of the several Series of Bonds then Outstanding are affected by the modification or amendment, of the Owners of at least a majority in principal

amount of the Bonds of each Series so affected and Outstanding at the time such consent is given; provided, that if such modification or amendment will, by its terms, not take effect so long as any Bonds of any specified Series and maturity remain Outstanding, the consent of the Owners of such Bonds shall not be required and such Bonds shall not be deemed to be Outstanding for the purpose of any calculation of Outstanding Bonds under this Section. No such modification or amendment shall permit a change in the terms of redemption or maturity of the principal of any Outstanding Bonds, or of any installment of interest or a reduction in the principal amount or the Redemption Price or in the rate of interest without the consent of the Owner of such Bond, or shall reduce the percentages or otherwise affect the classes of Bonds the consent of the Owners of which is required to effect any such modification or amendment, or shall change or modify any of the rights or obligations of any Fiduciary without its written assent. For the purposes of this Section, a Series shall be deemed to be affected by a modification or amendment of this Indenture if the same adversely affects or diminishes the rights of the Owners of Bonds of such Series. The Trustee may in its discretion determine whether or not the rights of the Owners of Bonds of any particular Series or maturity would be adversely affected or diminished by any such modification or amendment, and its determination shall be binding and conclusive on the City and all Owners of the Bonds.

Section 11.3 Consent of Owners. The City may at any time authorize the execution and delivery of a Supplemental Indenture making a modification or amendment permitted by the provisions of Section 11.2, to take effect when and as provided in this Section. Upon the authorization of such Supplemental Indenture, a copy of it shall be delivered to and held by the Trustee for the inspection of the Owners. A copy of such Supplemental Indenture (or summary of it or reference to it in form approved by the Trustee), together with a request to Owners for their consent in form satisfactory to the Trustee, shall be mailed to the Owners, but failure to mail such copy and request shall not affect the validity of such Supplemental Indenture when consented to as in this Section provided. Such Supplemental Indenture shall not be effective unless and until, and shall take effect in accordance with its terms when (a) there shall have been filed with the Trustee (i) the written consents of the Owners of the required principal amount of Outstanding Bonds, and (ii) a Counsel's Opinion stating that the execution and delivery of such Supplemental Indenture has been duly authorized by the City in accordance with the provisions of this Indenture, is authorized or permitted by this Indenture and, when effective, will be valid and binding upon the City, the Owners and the Trustee, and (b) a notice shall have been mailed as provided below. A certificate or certificates by the Trustee delivered to the City that consents have been given by the Owners of the Bonds described in such certificate or certificates of the Trustee shall be conclusive. Any such consent shall be binding upon the Owner of the Bonds giving such consent and upon any subsequent Owner of such Bonds and of any Bonds issued in exchange for them whether or not such subsequent Owner has notice of such consent; provided, that any consent may be revoked by any Owner of such Bonds by filing with the Trustee, prior to the time when the Trustee's written statement referred to below is filed, a written revocation, with proof that such Bonds are held by the signer of such revocation. The fact that a consent has not been revoked may be proved by a certificate of the Trustee to the effect that no revocation is on file with it. Any consent, or revocation of consent, may be delivered or filed prior to any mailing or publication required by this Article and shall not be deemed ineffective by reason of such prior delivery or filing. Within 30 days of any date on which the consents on file with the Trustee and not previously revoked shall be sufficient under this Section, the Trustee shall make and deliver to the City a written statement that the consents of the Owners of the required

principal amount of Outstanding Bonds have been filed with the Trustee. Such written statement shall be conclusive that such consents have been so filed. Any time thereafter notice, stating in substance that the Supplemental Indenture has been consented to by the Owners of the required principal amount of Outstanding Bonds and will be effective as provided in this Section, shall be given by mailing to the Owners (but failure to mail such notice or any defect in it shall not prevent such Supplemental Indenture from becoming effective and binding). The Trustee shall deliver to the City proof of the mailing of such notice. A record, consisting of the information required or permitted by this Section to be delivered by or to the Trustee, shall be proof of the matters stated in such record.

Section 11.4 Modifications by Unanimous Action. The Indenture and the rights and obligations of the City and of the Owners of the Bonds under it may be modified or amended in any respect by a Supplemental Indenture effecting such modification or amendment and with the consents of the Owners of all the Bonds then Outstanding, each such consent to be accompanied by proof of the holding at the date of such consent of the Bonds with respect to which such consent is given. Such Supplemental Indenture shall take effect upon the filing (a) with the Trustee of (i) a copy of such Supplemental Indenture, (ii) such consents and accompanying proofs, and (iii) the Counsel's Opinion referred to in Section 11.3 and (b) with the City of the Trustee's written statement that the consents of the Owners of all Outstanding Bonds have been filed with it. No mailing or publication of any Supplemental Indenture (or reference to it or summary of it) or of any request or notice shall be required. No such modification or amendment, however, shall change or modify any of the rights or obligations of any Fiduciary without its written assent.

Section 11.5 Exclusion of Bonds. Bonds owned or held by or for the account of the City shall not be deemed Outstanding and shall be excluded for the purpose of any calculation required by this Article. At the time of any consent or other action taken under this Article, the City shall furnish the Trustee a certificate of an Authorized Officer, upon which the Trustee may rely, identifying all Bonds so to be excluded.

Section 11.6 Notation on Bonds. Bonds authenticated and delivered after the effective date of any action taken as provided in Article X or this Article may, and if the Trustee so determines shall, bear a notation by endorsement or otherwise in form approved by the City and the Trustee as to such action, and upon demand of the Owner of any Bond Outstanding at such effective date and presentation of its Bond to the Trustee, suitable notation shall be made on such Bond by the Trustee as to any such action. If the City or the Trustee shall so determine, new Bonds so modified which, in the opinion of the Trustee and the City, conform to such action may be prepared, authenticated and delivered, and upon demand of the Owner of any Bond then Outstanding shall be exchanged, without cost to such Owner, for such Bond then Outstanding.

ARTICLE XII

MISCELLANEOUS

Section 12.1 Defeasance.

(a) If the City shall pay or cause to be paid or there shall otherwise be paid to the Owners of all Bonds the principal or Redemption Price, if applicable, and interest due or to become due on such Bonds, at the times and in the manner stipulated in such Bonds and in this Indenture, then the pledge of the Pledged Revenues and other moneys and securities pledged under this Indenture and all covenants, agreements and other obligations of the City to the Owners shall thereupon be discharged and satisfied. In such event, the Trustee, upon request of the City, shall provide an accounting of the assets managed by the Trustee to be prepared and filed with the City for any year or part of a year requested, and shall execute and deliver to the City all such instruments as may be desirable to evidence such discharge and satisfaction, and the Fiduciaries shall pay over or deliver to the City all moneys and securities held by them pursuant to this Indenture which are not required for the payment of Bonds not previously surrendered for such payment or redemption. If the City shall pay or cause to be paid, or there shall otherwise be paid, to the Owners of all Outstanding Bonds of a particular Series, maturity within a Series or portion of any maturity within a Series (which portion shall be selected by lot by the Trustee in the manner provided in Section 4.4 for the selection of Bonds to be redeemed in part), the principal or Redemption Price, if applicable, of such Bonds and interest due or to become due on such Bonds, at the times and in the manner stipulated in such Bonds and in this Indenture, such Bonds shall cease to be entitled to any lien, benefit or security under this Indenture, and all covenants, agreements and obligations of the City to the Owners of such Bonds and to the Trustee shall thereupon be discharged and satisfied.

(b) Bonds or interest installments for the payment or redemption of which moneys shall have been set aside and held in trust by the Escrow Agent at or prior to their maturity or redemption date shall be deemed to have been paid within the meaning of and with the effect expressed in this Section 12.1 if the City shall have delivered to or deposited with the Escrow Agent (i) irrevocable instructions to pay or redeem all of said Bonds in specified amounts no less than the respective amounts of, and on specified dates no later than the respective due dates of, their principal, (ii) irrevocable instructions to publish or mail the required notice of redemption of any Bonds so to be redeemed, (iii) either moneys in an amount which shall be sufficient, or Defeasance Obligations the principal of and the interest on which when due will provide moneys which, together with the moneys, if any, deposited with the Trustee at the same time, shall be sufficient, to pay when due the principal or Redemption Price, if applicable, and interest due and to become due on said Bonds on and prior to each specified redemption date or maturity date of said Bonds, as the case may be, and (iv) if any of said Bonds are not to be redeemed within the next succeeding 60 days, irrevocable instructions to mail to all Owners of said Bonds a notice that such deposit has been made with the Trustee and that said Bonds are deemed to have been paid in accordance with this Section and stating the maturity or redemption date upon which moneys are to be available for the payment of the principal or Redemption Price, if applicable, of said Bonds. The Defeasance Obligations and moneys deposited with the Trustee pursuant to this Section shall be held in trust for the payment of the principal or Redemption Price, if applicable, and interest on said Bonds. No payments of principal of any such Defeasance Obligations or

interest on them shall be withdrawn or used for any purpose other than the payment of such principal or Redemption Price of, or interest on, said Bonds unless after such withdrawal the amount held by the Trustee and interest to accrue on Defeasance Obligations so held shall be sufficient to provide fully for the payment of the principal of or Redemption Price and interest on such Bonds, at maturity or upon redemption, as the case may be.

(c) Amounts deposited with the Trustee for the payment of the principal of and interest on any Bonds deemed to be paid pursuant to this Section 12.1, if so directed by the City, shall be applied by the Trustee to the purchase of such Bonds in accordance with this subsection. Bonds for which a redemption date has been established may be purchased on or prior to the 45th day preceding the redemption date. The principal amount of Bonds to be redeemed shall be reduced by the principal amount of Bonds so purchased. Bonds which mature on a single future date may be purchased at any time prior to the maturity date. All such purchases shall be made at prices not exceeding the applicable principal amount or Redemption Price established pursuant to paragraph (b) of this Section 12.1, plus accrued interest, and such purchases shall be made in such manner as the Trustee shall determine. No purchase shall be made by the Trustee pursuant to this subsection if such purchase would result in the Trustee holding less than the moneys and Defeasance Obligations required to be held for the payment of all other Bonds deemed to be paid pursuant to this Section 12.1.

(d) The City may purchase with any available funds any Bonds deemed to be paid pursuant to this Section 12.1 in accordance with this subsection. The Trustee shall pay to the City the principal amount of and interest on such Bonds upon surrender of such Bonds on the maturity date.

(e) Any time after any Bonds are deemed to be paid pursuant to this Section 12.1, the City shall not at any time permit any of the proceeds of the Bonds or any other funds of the City to be used directly or indirectly to acquire any securities or obligations the acquisition of which would cause any Bond to be an "arbitrage bond" as defined in the Code and Regulations.

(f) Each Fiduciary shall continue to be entitled to reasonable compensation for all services rendered under this Indenture, notwithstanding that any Bonds are deemed to be paid pursuant to this Section 12.1, until such Bonds are paid and discharged at maturity or upon their prior redemption.

(g) Anything in this Indenture to the contrary notwithstanding, any moneys held by a Fiduciary in trust for the payment and discharge of any of the Bonds which remain unclaimed for two years after the date when such Bonds have become due and payable, either at their stated maturity dates or by call for earlier redemption, if such moneys were held by the Fiduciary at such date, or for two years after the date of deposit of such moneys if deposited with the

Fiduciary after the said date when such Bonds become due and payable, shall, at the written request of the City, be repaid by the Fiduciary to the City, as its absolute property and free from trust, and the Fiduciary shall thereupon be released and discharged with respect to such moneys and the Owners of such Bonds shall look only to the City for the payment of such Bonds.

Section 12.2 Evidence of Signatures of Owners and Ownership of Bonds.

Proof of (i) the execution of any such instrument, or of an instrument appointing any such attorney, or (ii) the holding by any Person of the Bonds shall be sufficient for any purpose of this Indenture (except as otherwise expressly provided in this Indenture) if made in the following manner, or in any other manner satisfactory to the Trustee, which may nevertheless in its discretion require further or other proof in cases where it deems the same desirable:

(A) The fact and date of the execution by any Owner or its attorney of such instruments may be proved by a guarantee of the signature by a bank, national banking association or trust company or by the certificate of any notary public or other officer authorized to take acknowledgments of deeds, that the Person signing such request or other instruments acknowledged to that Person its execution, or by an affidavit of witness of such execution, duly sworn to before such notary public or other officer. Where such execution is by an officer of a corporation or association or a member of a partnership, on behalf of such corporation, association or partnership, such signature guarantee, certificate or affidavit shall also constitute sufficient proof of authority.

(B) The ownership of Bonds and the amount, numbers and other identification and date of holding the same shall be proved by the registration book maintained by the Registrar.

(b) Any request or consent by the Owner of any Bond shall bind all future Owners of such Bond in respect of anything done or suffered to be done by the City or any Fiduciary in accordance with such request or consent.

Section 12.3 Moneys Held for Particular Bonds. The amounts held by any Fiduciary for the payment of interest, principal or Redemption Price due on any date with respect to particular Bonds shall, on and after such date and pending such payment, be set aside on its books and held in trust by it for the Owners of the Bonds entitled to such payment.

Section 12.5 Cancellation and Destruction of Bonds. All Bonds paid or redeemed, either at or before maturity, and all mutilated Bonds surrendered pursuant to Section 3.7, shall be delivered to the Trustee when such payment or redemption is made or upon surrender, as the

case may be, and such Bonds, together with all Bonds purchased by the Trustee, shall thereupon be promptly canceled. Bonds so canceled may at any time be destroyed by the Trustee, which shall execute a certificate of destruction in duplicate by the signature of one of its authorized officers describing the Bonds so destroyed, and one executed certificate shall be delivered to the City and the other retained by the Trustee.

Section 12.6 Parties Interested In This Indenture. Section 12.7 No Recourse on the Bonds.

(b) No officer, member, agent or employee of the City shall be individually or personally liable for the payment of the principal or Redemption Price of or interest on the Bonds; but nothing in this Indenture shall relieve any such officer, member, agent or employee from the performance of any official duty provided by law.

(c) All covenants, stipulations, obligations and agreements of the City in this Indenture shall be deemed to be covenants, stipulations, obligations and agreements of the City to the full extent authorized and permitted by the Constitution and laws of the State of Illinois, and no covenants, stipulations, obligations or agreements in this Indenture shall be deemed to be a covenant, stipulation, obligation or agreement of any present or future member, officer, agent or employee of the City in his or her individual capacity, and no officer executing the Bonds shall be liable personally on the Bonds or be subject to any personal liability or accountability by reason of the issue of such Bonds. No member, officer, agent or employee of the City shall incur any personal, liability in acting or proceeding or in not acting or not proceeding in accordance with the terms of this Indenture.

With respect to Series 2013 Bonds registered in the name of Cede &, Co., as nominee of DTC, the City and the Trustee shall have no responsibility or obligation to any DTC Participant or to any person on behalf of whom such a DTC Participant holds an interest in the Series 2013 Bonds. any, shall be entitled to treat and consider the Person in whose name each Series 2013 Bond is registered as the absolute owner of such Series 2013 Bond for the purpose of payment of Principal or Redemption Price and interest with respect to such Series 2013 Bond, for the purpose of giving notices of redemption, for the purpose of registering transfers with respect to such Series 2013 Bond, and for all other purposes whatsoever. No person other than an Owner of a Series 2013 Bond shall receive a Bond certificate evidencing the obligation of the City to make payments of Principal or Redemption Price of and interest on the Series 2013 Bonds pursuant to the Indenture.

The owners of the Series 2013 Bonds have no right to the appointment or retention of a depository for the Series 2013 Bonds. DTC may resign or be removed as securities depository under the conditions provided in the Letter of Representations. In the event of any such resignation or removal, the City shall (i) appoint a successor securities depository, qualified to act as such under Section 17(a) of the Securities Exchange Act of 1934, as amended, notify DTC of the appointment of such successor securities depository, and transfer or cause the transfer of one or more separate Bond certificates to such successor securities depository or (ii) notify DTC of the availability through DTC of Bond certificates and transfer or cause the transfer of one or more separate Bond certificates to DTC Participants having Bonds credited to their DTC accounts. In such event, the Series 2013 Bonds shall no longer be restricted to being registered in the name of Cede & Co., as nominee of DTC, but may be registered in the name of the successor securities depository, or its nominee, or in whatever name or names the DTC Participants receiving Series 2013 Bonds shall designate, in accordance with the provisions of the Indenture.

The City has executed and delivered the Letter of Representations to DTC. Notwithstanding any other provision of the Indenture, so long as DTC, or its designee, is the Owner of all of the Series 2013 Bonds, the provisions set forth in the Letter of Representations shall apply to the redemption of any Series 2013 Bonds and to the payment of Principal or Redemption Price of and interest on the Series 2013 Bonds, including without limitation, that: (a) presentation of Series 2013 Bonds to the Trustee upon redemption or at maturity shall be deemed made to the Trustee when the right to exercise ownership rights in the Series 2013 Bonds through DTC or DTC's Participants is transferred by DTC on its books; and (b) DTC may present notices, approvals, waivers or other communications required or permitted to be made by Owners of Series 2013 Bonds under the Indenture on a fractionalized basis on behalf of some or all of those Persons entitled to exercise ownership rights in the Series 2013 Bonds through DTC or DTC's Participants.

So long as the Series 2013 Bonds are registered in the name of Cede & Co., as nominee of DTC, the Trustee agrees to comply with the terms and provisions of the Letter of Representations.

Section 2.6 Creation of the 2013 Project Account and Refunding Accounts. The City establishes a separate, segregated account within the Project Fund, to be known as the ["2013 Project Account"]. Section 103. Findings and Determinations.

It is found and declared by the City Council of the City of Chicago as follows:

(a) The City Council of the City of Chicago, by the General Ordinance, has provided for the issuance from time to time of Bonds for any purpose for which, under the Use of Motor Fuel Tax Funds Act, Bonds of the City lawfully may be issued.

(b) Pursuant to Section 301(2) of the General Ordinance, Bonds, including any Additional Bonds, are authorized to be issued in the form of fully registered bonds or notes without coupons.

(c) The City may, under the General Ordinance, issue Additional Bonds for any lawful purpose allowed by the Use of Motor Fuel Tax Funds Act if (i) there is then no default in the payment of Bonds or in making required deposits to the Debt Service Fund, (ii) the value of each Account in the Debt Service Reserve Fund is then not less than the Reserve Requirement for such Account, and (iii) the Revenues Test is met as required under the General Ordinance .

(d) It is necessary and in the best interest of the City to borrow money through the issuance of Additional Bonds for the purpose of (i) providing funds to refund the Refunded Bonds, (ii) paying the costs of acquiring, constructing, improving and equipping projects constituting Project Purposes, (iii) paying the costs of one or more of the following, if any, pertaining to such Additional Bonds: Credit Support Instruments, Reserve Fund Credit Instruments, and Interest Rate Hedge Agreements, (iv) paying the costs of one or more Interest Rate Hedge Agreements pertaining to any Outstanding Bonds where permitted by the General Ordinance, (v) paying Costs of Issuance of such Additional Bonds and expenses incurred in connection with the refunding of the Refunded Bonds, (vi) providing any required deposit to the Debt Service Reserve Fund created under the General Ordinance, (vii) paying the costs of one or more of the following, if any, pertaining to other Additional Bonds issued under this 2013 Series Ordinance: Credit Support Instruments, Reserve Fund Credit Instruments, and Interest Rate Hedge Agreements, and (viii) paying Costs of Issuance of other Additional Bonds issued under this 2013 Series Ordinance.

(e) The City Council finds and determines that (i) the Series 2013 Bonds are to be issued as Additional Bonds under the General Ordinance for lawful purposes allowed by the Use of Motor Fuel Tax Funds Act, (ii) there is no default in the payment of Bonds or in making required deposits to the Debt Service Fund, (iii) the value of each Account, relating to Outstanding Bonds as of the effective date of this 2013 Series Ordinance, in the Debt Service Reserve Fund is not less than the Reserve Requirement for such Account and the value of the Account to be established for the Series 2013 Bonds, if any, in the Debt Service Reserve Fund will not be less than the 2013 Reserve Requirement, and (iv) the Revenues Test will be met on the date the contract is made to sell the Series 2013 Bonds.

(f) The City has determined and does determine that it is necessary and desirable to finance all or a portion of the cost of acquiring, constructing, improving and equipping the Riverwalk Expansion Project. The Riverwalk Expansion Project constitutes a valid Project Purpose under the General Ordinance and a lawful purpose under the Use of Motor Fuel Tax Funds Act, for which Additional Bonds may be issued.

(g) The City is seeking a loan (the "TIFIA Loan") from the United States Department of Transportation, which is being made available pursuant to the Transportation Infrastructure Finance and Innovation Act, in order to finance all or a portion of the costs relating to the Riverwalk Expansion Project. The City's obligation to repay the TIFIA Loan shall be evidenced by the issuance of the TIFIA Bond(s) and the execution and delivery of the TIFIA Loan Agreement.

(h) The City Council of the City of Chicago finds and determines that (i) the TIFIA Bond(s) are to be issued as Additional Bonds under the General Ordinance for lawful purposes allowed by the Use of Motor Fuel Tax Funds Act, (ii) there is no default in the payment of Bonds or in making required deposits to the Debt Service Fund, (iii) the value of each Account, relating to Outstanding Bonds as of the effective date of this 2013 Series Ordinance, in the Debt Service Reserve Fund is not less than the Reserve Requirement for such Account and the value of the Account to be established for the TIFIA Bond(s), if any, in the Debt Service Reserve Fund will not be less than the TIFIA Reserve Requirement, and (iv) the Revenues Test will be met on the date the TIFIA Loan Agreement is executed and delivered.

(i) The City is a municipal corporation and, by virtue of Section 6(a) of Article VII of the 1970 Constitution of the State of Illinois, is a home rule unit of local government and as such may exercise any power and perform any function pertaining to its government and affairs. The City is authorized by its home rule powers to issue the Series 2013 Bonds and the TIFIA Bond(s) to evidence its obligation to repay the borrowings authorized by this 2013 Series Ordinance.

(j) The City has determined and does determine that it is necessary and desirable to issue the Series 2013 Bonds and the TIFIA Bond(s) as provided in this 2013 Series Ordinance to evidence the borrowings.

(k) The City Council of the City of Chicago finds and determines that it is necessary and desirable to amend the Municipal Code of Chicago to provide appropriate authority to enter into certain agreements regarding the Riverwalk Expansion Project and to provide for the designation of a fund into which certain revenues shall be deposited in order to provide additional security for repayment of Bonds.

(l) For the benefit of the Holders from time to time of the Bonds, the City pledges, assigns and grants to the Trustee a first lien on and first security interest in all Project Revenues held by the Trustee under this Ordinance for payment in full of the principal, Redemption and Purchase Prices of, and interest on the Bonds, as such amounts become due and payable.

(m) The delegations of authority that are contained in this 2013 Series Ordinance, including the authority to make the specific determinations authorized below, are necessary and desirable because this City Council cannot itself as advantageously, expeditiously or conveniently exercise such authority and make such specific determinations. The City's ability to issue the Series 2013 Bonds and the TIFIA Bond(s) without further action by this City Council with various interest rates, maturities, redemption provisions and other terms, all to be determined as provided below, will enhance the City's opportunities to refund the Refunded Bonds and finance projects constituting Project Purposes upon the most favorable terms available. Thus, authority is granted to any one of the Authorized Officers to (i) determine to sell the Series 2013 Bonds on such terms as and to the extent such officer determines that such sale and terms are desirable and in the best financial interest of the City and (ii) determine to execute the TIFIA Loan Agreement in order to issue the TIFIA Bond(s) on such terms as and to the extent such officer determines that such execution and issuance are desirable and in the best financial interest of the City.

The Series 2013 Bonds and the TIFIA Bond(s) shall not constitute an indebtedness of the City (i) within the meaning of any constitutional or statutory provision or limitation of indebtedness, or (ii) for which its full faith and credit is pledged. Section 203. Date, Denominations, Numbers.

The Series 2013 Bonds, other than Series 2013 Variable Rate Bonds, shall be issued as fully registered bonds without coupons in denominations of $5,000 or any integral multiple of that amount. Series 2013 Variable Rate Bonds shall be issued as fully registered bonds without coupons in Authorized Denominations (as defined in Section 302 hereof). Series 2013 Bonds issued prior to the first interest payment date shall be dated as provided in the applicable Bond Purchase Agreement, except that capital appreciation bonds and Series 2013 Variable Rate Bonds shall be dated as of the date they are issued. Series 2013 Bonds bearing interest payable currently that are issued on or subsequent to the first interest payment date shall be dated as provided in Section 301(3) of the General Ordinance. Series 2013 Bonds shall be numbered as provided in the Series 2013 Determination Certificate. Neither the City nor the Trustee shall be obligated to make any exchange or transfer of the Series 2013 Bonds during the fifteen (15) days next preceding an interest payment date on the Series 2013 Bonds or to make any such transfer or exchange in the case of any Series 2013 Bond proposed to be redeemed after the selection by the Trustee of such Series 2013 Bond for redemption.

The TIFIA Bond(s) shall be issued as fully registered bonds without coupons in denominations of $5,000 or any integral multiple of that amount, as determined pursuant to the TIFIA Loan Agreement.

Section 204. Maturity.

The principal of the Series 2013 Bonds shall be payable (either at maturity or pursuant to mandatory sinking fund redemption) on January 1 of such years as are provided in the Series 2013 Determination Certificate, with a final maturity not later than January 1, 2053. The Series 2013 Bonds shall be issued as Serial Bonds, as Term Bonds, as capital appreciation bonds, as Series 2013 Variable Rate Bonds, or as any combination of Serial Bonds, Term Bonds, capital appreciation bonds and Series 2013 Variable Rate Bonds. The maturities for the Series 2013 Bonds shall be provided in the Series 2013 Determination Certificate.

The principal of the TIFIA Bond(s) shall be payable (either at maturity or pursuant to mandatory sinking fund redemption) on such dates in such years as are provided in the TIFIA Loan Agreement, with a final maturity not later than the earlier of (i) January 1, 2063, or (ii) 35 years after the date of substantial completion (as defined in the TIFIA Loan Agreement) of the Riverwalk Expansion Project. The TIFIA Bond(s) shall be issued as Serial Bonds, Term Bonds, or as any combination of Serial Bonds and Term Bonds.

Section 205. Redemption, Notice of Redemption Terms.

(a) *Optional Redemption*. The Series 2013 Bonds shall be subject to redemption, in whole or in part, at the option of the City, at a price equal to their principal amount (or Compound Accreted Value for capital appreciation bonds) plus accrued interest, if any, to the date of redemption if the redemption date is not an interest payment date and, subject to the remaining provisions of this Section 205, upon such other terms as an Authorized Officer shall provide in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, each and all of which such Authorized Officer is authorized and directed to determine and approve on behalf of and in the name of the City. The Series 2013 Bonds shall be subject to optional redemption at any time on and after the first optional redemption date established in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, at a redemption premium, if any, either (i) not greater than 105% of the principal amount (or Compound Accreted Value for capital appreciation bonds) of the Series 2013 Bonds to be so redeemed or (ii) if in the best interest of the City, as provided in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, at a redemption price structured to ensure that the holder of the Series 2013 Bonds at the time of redemption receives the economic value of its investment in the Series 2013 Bonds based on a formula designed to make the investor "whole" for the period of time specified in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, for the economic loss realized from the early redemption of the Series 2013 Bonds.

The TIFIA Bond(s) shall be subject to redemption, in whole or in part, at the option of the City, at any time or from time to time, at a redemption premium not greater than 105% of the then Outstanding principal amount of the TIFIA Bond(s) to be redeemed, with such premium and with such other terms as an Authorized Officer shall provide in the TIFIA Loan Agreement, each and all of which such Authorized Officer is authorized and directed to determine and approve on behalf of and in the name of the City.

(b) . *Mandatory Sinking Fund Redemption*. All or any portion of the Series 2013 Bonds may be Term Bonds subject to Sinking Fund Installments, subject to the remaining provisions of this Section 205, upon such other terms as an Authorized Officer shall provide in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, each and all of which such Authorized Officer is authorized and directed to determine and approve on behalf of and in the name of the City. Subject to the terms of Section 404 of the General Ordinance and Section 315 hereof, any Series 2013 Bonds that are Term Bonds shall be selected for redemption by lot by the Trustee, and shall be so redeemed at a price of 100% of the principal amount (or Compound Accreted Value for capital appreciation bonds) of the Series 2013 Bonds to be redeemed plus accrued interest, if any, to the date fixed for redemption if not an interest payment date. To the extent that Series 2013 Bonds that are Term Bonds have been previously

called for redemption in part otherwise than from a sinking fund payment, one or more Sinking Fund Installments for such Series 2013 Bonds as determined by the City in its sole discretion shall be reduced by amounts determined by the City in its sole discretion, which determinations shall be made by an Authorized Officer, *provided* that any reduction of any Sinking Fund Installment shall be in an amount of $5,000 or any integral multiple of that amount. Written notice of such determinations shall be sent promptly by the Authorized Officer to the Trustee.

In lieu of making all or any part of any sinking fund payment in cash, the City may, at its option, redeem Series 2013 Bonds that are Term Bonds through the purchase of such Series 2013 Bonds in the open market. Series 2013 Bonds shall not be purchased in the open market for such purpose at a price in excess of (i) their Outstanding principal amount (or Compound Accreted Value for capital appreciation bonds) plus (ii) the redemption premium, if any, applicable to the redemption of such Series 2013 Bonds on the next date on which they may be optionally redeemed plus (iii) accrued and unpaid interest, if the Series 2013 Bonds bear interest payable currently, on the principal of the purchased Series 2013 Bonds to the date of purchase. The total principal amount of the Series 2013 Bonds of any maturity and interest rate which shall be redeemed pursuant to purchase on the open market shall be a credit against and a reduction of any one or more applicable Sinking Fund Installments determined by the City in its sole discretion, which determination shall be made by an Authorized Officer; *provided* that any reduction of any Sinking Fund Installment shall be in an amount of $5,000 or any integral multiple of that amount. Written notice of that determination shall be sent promptly by the Authorized Officer to the Trustee.

The TIFIA Bond(s) shall be subject to mandatory redemption, in whole or in part, without penalty or premium, in the amounts and at the times required pursuant to the TIFIA Loan Agreement and upon such other terms as an Authorized Officer shall provide in the TIFIA Loan Agreement, each and all of which such Authorized Officer is authorized and directed to determine and approve on behalf of and in the name of the City.

(c) *Partial Redemption of Bonds*. In the event of a redemption of less than all the Series 2013 Bonds of a Subseries (if any), maturity and interest rate, the Trustee shall assign to each Outstanding Series 2013 Bond of such Subseries, maturity and interest rate in a denomination greater than $5,000 principal amount at maturity a distinctive number for each $5,000 principal amount at maturity portion of such Series 2013 Bond so as to distinguish each such $5,000 portion from each other portion of such Series 2013 Bond. Subject to the provisions of Section 404 of the General Ordinance and Section 315 hereof, the Trustee shall select by lot, using such method of selection as it shall deem proper in its sole discretion, from the numbers assigned to the Series 2013 Bonds of such Subseries, maturity and interest rate as many numbers as, at $5,000 for each number, shall equal the principal amount of Series 2013 Bonds of such Subseries, maturity and interest rate to be redeemed. The Series 2013 Bonds of such Subseries, maturity and interest rate to be redeemed shall be the Series 2013 Bonds to which were assigned the numbers so selected, but only so much of the principal amount of each such Series 2013 Bond of a denomination greater than $5,000 principal amount at maturity shall be redeemed as shall equal $5,000 principal amount at maturity for each number assigned to it and so selected. At any time the Series 2013 Bonds are held by DTC in its global Book Entry System, the foregoing shall be subject to their operating guidelines for selection by lottery.

(d) *Notice of Redemption*. In addition to the requirements set forth in Section 401 of the General Ordinance and except as hereinafter provided, any notice of redemption shall be given by the Trustee on behalf of the City (i) by first class mail, postage prepaid, with respect to Series 2013 Bonds bearing interest at a Short Rate, not less than 20 or more than 45 days prior to the date fixed for redemption, (ii) by first class mail, postage prepaid, with respect to Series 2013 Bonds bearing interest at an Adjustable Long Rate or a Fixed Rate, not less than 30 or more than 60 days prior to the date fixed for redemption, and (iii) with respect to Bank Bonds, as specified in below, in each case, to the Bank (if any), the Remarketing Agent (if any) and the Holders of the Series 2013 Bonds to be redeemed at their addresses as shown on the Bond Register. Prior to the date that the notice of redemption is first given as aforesaid with respect to an optional or extraordinary redemption, funds shall be placed with the Trustee to pay such Series 2013 Bonds, any premium thereon, and accrued interest thereon to the redemption date, or such notice shall state that any redemption is conditional on such funds being deposited on the redemption date; any funds so deposited with the Trustee shall be invested solely in Government Obligations maturing no later than the earlier of (i) 30 days after the date of placement with the Trustee, or (ii) the redemption date.

If Bank Bonds are to be redeemed pursuant to Sections 315(c) or (d) hereof, the Trustee shall give Immediate Notice of a redemption of Bank Bonds to the Bank at least one Business Day prior to the date fixed for redemption.

(i) Each notice of redemption shall (a) identify the Series 2013 Bonds to be redeemed by name, Series and Subseries (if any), CUSIP number, date of issue, interest rate and maturity date and, if only a portion of the Series 2013 Bonds (or any Subseries of Series 2013 Bonds) are to be redeemed, the certificate letters and numbers of such Series 2013 Bonds and the respective portions of the principal amounts to be redeemed, (b) identify the redemption date, (c) state the Redemption Price, (d) state that on the redemption date there shall become due and payable upon each Series 2013 Bond, the Redemption Price of the specified portions of the principal to be redeemed, together with unpaid interest accrued to the redemption date on the principal of the Series 2013 Bonds to be redeemed, and that from and after that date the interest on such principal amount shall cease to accrue and be payable if funds sufficient for their redemption and available for the purpose are on deposit with the Trustee on the redemption date, (e) state the place or places of payment of the Redemption Price, including the name of the Trustee and appropriate address or addresses with name of the contact person and telephone number at the Trustee and that payment for the Series 2013 Bonds will be made on the redemption date at the designated office of the Trustee during normal business hours upon the surrender of the Series 2013 Bonds to be redeemed, and (f) shall include such other information as the Trustee shall deem appropriate or necessary at the time such notice is given to comply with any applicable law, regulation or industry standard.

Notices of redemption shall also be forwarded to the Securities Depository by first class mail, telecopier or electronic mail. If the Series 2013 Bonds are not then held under a Book Entry System, further notice shall be given by the Trustee to one or more national information services if any exist, chosen in the discretion of the Trustee, that disseminate notice of redemption of obligations such as the Series 2013 Bonds.

A second redemption notice shall be sent by telecopier or electronic mail not more than 60 days after the redemption date, to each Registered Owner of Series 2013 Bonds called for redemption who has not presented such Series 2013 Bonds within 30 days following the redemption date.

If any Series 2013 Bond is transferred or exchanged on the Bond Register after notice has been given calling such Series 2013 Bond for redemption, the Trustee shall attach a copy of such notice to the Series 2013 Bond issued in connection with such transfer or exchange.

Failure to give notice in the manner prescribed hereunder with respect to any Series 2013 Bond, or any defect in such notice, shall not affect the validity of the proceedings for redemption for any Series 2013 Bond with respect to which notice was properly given. Upon the happening of the above conditions and if sufficient moneys are on deposit with the Trustee on the applicable redemption date to redeem the Series 2013 Bonds to be redeemed and to pay interest due thereon and premium, if any, the Series 2013 Bonds thus called shall not, after the applicable redemption date, bear interest or be deemed to be Outstanding under the provisions of this 2013 Series Ordinance.

Notwithstanding any contrary provision in Section 1201(3) of the General Ordinance, any monies held by the Trustee in trust for the payment of the Redemption Price of any of the Series 2013 Bonds which remain unclaimed, shall be retained by the Trustee for at least one year after the final maturity date of the Series 2013 Bonds or advance refunding date, if applicable, and, after such date, upon the City's written request, shall be repaid by the Trustee to the City as its absolute property and free from trust, and the Trustee shall thereupon be released and discharged with respect to such amounts and the Holders shall look only to the City for the payment of such Series 2013 Bonds.

With respect to the TIFIA Bond(s), in addition to the requirements set forth in Section 401 of the General Ordinance, any notice of redemption shall be given upon such other terms as an Authorized Officer shall provide in the TIFIA Loan Agreement, each and all of which such Authorized Officer is authorized and directed to determine and approve on behalf of and in the name of the City.

Section 206. Interest.

The Series 2013 Bonds shall bear interest (or, in the case of capital appreciation bonds, accrue interest) from their date until principal is paid at a rate or rates per year (or, in the case of capital appreciation bonds, at a yield) determined by an Authorized Officer and provided in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, which shall be in the judgment of the Authorized Officer the best interest rates for which the Series 2013 Bonds (other than Series 2013 Variable Rate Bonds) can be sold in the market and which result in a true interest cost (expressed as a percentage) not in excess of 18% computed on the basis of a 360-day year consisting of twelve 30-day months. Not all Series 2013 Bonds maturing on the same date need bear interest at the same interest rate per year (or, in the case of capital appreciation bonds, accrue interest at the same yield). Interest on the Series 2013 Bonds (other than Series 2013 Variable Rate Bonds) on which interest is payable currently shall be payable semi-annually on January 1 and July 1 in each year, with the first interest payment date being

fixed by the Authorized Officer in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable.

The TIFIA Bond(s) shall bear interest from their date until principal is paid at a rate or rates per year determined by an Authorized Officer and provided in the TIFIA Loan Agreement which shall result in a true interest cost (expressed as a percentage) not in excess of 18% computed on the basis of a 365- or 366-day year for actual days elapsed. Interest on the TIFIA Bond(s) shall be payable on such dates as provided in the TIFIA Loan Agreement.

Section 207. Places and Medium of Payment.

Subject to the provisions of Section 201 above, the principal or Compound Accreted Value and Redemption Price of all Series 2013 Bonds (and the interest payable on any date of redemption other than on an interest payment date) shall be payable at the designated corporate trust office of the Trustee in Chicago, Illinois. The Trustee is appointed Paying Agent for the Series 2013 Bonds. The Trustee may exercise the duties of Paying Agent in whole or in part through the Trustee's Agent (as defined in Section 302). Interest on the Series 2013 Bonds payable on any interest payment date shall be payable by check mailed by the Trustee to the Holders of the Series 2013 Bonds at their addresses as shown on the registration books of the City maintained by the Bond Registrar. The interest payable on the Series 2013 Bonds on each interest payment date will be paid to the persons in whose names the Series 2013 Bonds are registered on the applicable Record Date. Upon request of a Holder of at least $1,000,000 in principal amount at maturity of the Series 2013 Bonds Outstanding, all payments of principal or Compound Accreted Value, Redemption Price and interest on the Series 2013 Bonds shall be paid by wire transfer in immediately available funds to an account designated by such Holder. CUSIP number identification with appropriate dollar amounts for each CUSIP number must accompany all payments of principal or Compound Accreted Value, Redemption Price, Purchase Price and interest, whether payment is made by presentation, by check or by wire transfer.

In the case of the TIFIA Bond(s), the principal and Redemption Price of the TIFIA Bond(s) and the interest on the TIFIA Bond(s), as due, shall be paid to the United States Department of Transportation or as otherwise provided in accordance with the TIFIA Loan Agreement.

Section 208. Global Book Entry System.

Except as may be otherwise provided in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, the Series 2013 Bonds shall be initially issued in the form of a separate single fully registered Bond for each maturity of such Series. Upon initial issuance, the ownership of each Series 2013 Bond shall be registered in the registration books kept by the Bond Registrar in the name of Cede & Co., as nominee of DTC, and except as provided in this 2013 Series Ordinance, the ownership of all of the outstanding Series 2013 Bonds shall be registered in the name of Cede & Co., as nominee of DTC.

The provisions of this Section shall apply as long as the Series 2013 Bonds are maintained in Book Entry Form, any provisions of this 2013 Series Ordinance to the contrary notwithstanding. Notwithstanding anything else to the contrary herein, so long as DTC is the

Securities Depository, the Series 2013 Bonds shall be subject to the operational arrangements of DTC in effect from time to time.

(a) The Series 2013 Bonds shall be payable to the Securities Depository, or its nominee, as the Holder of the Series 2013 Bonds, in same day funds on each date on which the principal or Compound Accreted Value, Redemption Price or Purchase Price of, and interest on the Series 2013 Bonds is due as set forth in this 2013 Series Ordinance and the Series 2013 Bonds. Such payments shall be made to the offices of the Securities Depository specified by the Securities Depository to the City and the Trustee in writing. Without notice to or the consent of the beneficial owners of the Series 2013 Bonds, the City and the Securities Depository may agree in writing to make payments of principal or Compound Accreted Value, Redemption Price or Purchase Price of, and interest in a manner different from that set forth herein. If such different manner of payment is agreed upon, the City shall give the Trustee notice thereof, and the Trustee shall make payments with respect to the Series 2013 Bonds in the manner specified in such notice as set forth herein. Neither the City nor the Trustee shall have any obligation with respect to the transfer or crediting of the principal or Compound Accreted Value, Redemption Price or Purchase Price of, and interest on the Series 2013 Bonds to Participants or the beneficial owners of the Series 2013 Bonds or their nominees.

(b) If (i) the City determines, or (ii) the City receives notice that the Securities Depository has received notice from its Participants having interests in at least 50 percent in principal amount of the Series 2013 Bonds, that the Securities Depository or its successor is incapable of discharging its responsibilities as a securities depository, or that it is in the best interests of the beneficial owners that they obtain certificated Series 2013 Bonds, the City may (or, in the case of clause (ii) above, the City shall) cause the Trustee to authenticate and deliver Series 2013 Bond certificates. The City shall have no obligation to make any investigation to determine the occurrence of any events that would permit the City to make any determination described in this paragraph.

(c) If, following a determination or event specified in paragraph (b) above, the City discontinues the maintenance of the Series 2013 Bonds in Book Entry Form with the then current Securities Depository, the City will issue replacement Series 2013 Bonds to the replacement Securities Depository, if any, or, if no replacement Securities Depository is selected for the Series 2013 Bonds, directly to the Participants as shown on the records of the former Securities Depository or, to the extent requested by any Participant, to the beneficial owners of the Series 2013 Bonds shown on the records of such Participant. Replacement Series 2013 Bonds shall be in fully registered form and in Authorized Denominations, be payable as to interest on the Interest Payment Dates of the Series 2013 Bonds by check mailed to each Registered Owner at the address of such Registered Owner as it appears on the Bond Register or, at the option of any Registered Owner of not less than $1,000,000 principal amount of Series 2013 Bonds, by wire transfer to any address in the United States of America on such Interest Payment Date to such Registered Owner as of such Record Date, if such Registered Owner provides the Trustee with written notice of such wire transfer address not later than the Record Date (which notice may provide that it will remain in effect with respect to subsequent Interest Payment Dates unless and until changed or revoked by subsequent notice). Principal or Compound Accreted Value, Redemption Price or Purchase Price of the replacement Series 2013 Bonds are payable

only upon presentation and surrender of such replacement Series 2013 Bond(s) at the designated office of the Trustee.

(d) The Securities Depository and its Participants, and the beneficial owners of the Series 2013 Bonds, by their acceptance of the Series 2013 Bonds, agree that the City and the Trustee shall not have liability for the failure of such Securities Depository to perform its obligations to the Participants and the beneficial owners of the Series 2013 Bonds, nor shall the City or the Trustee be liable for the failure of any Participant or other nominee of the beneficial owners to perform any obligation of the Participant to a beneficial owner of the Series 2013 Bonds.

(e) As long as Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the Registered Owner of the Series 2013 Bonds, as nominee of DTC, references herein to the Registered Owners of the Series 2013 Bonds shall mean Cede & Co. and shall not mean the beneficial owners of the Series 2013 Bonds.

(f) As long as Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the Registered Owner of the Series 2013 Bonds:

(i) selection of Series 2013 Bonds to be redeemed upon partial redemption, presentation of Series 2013 Bonds to the Trustee upon partial redemption, delivery of Series 2013 Bonds to the Trustee in connection with an optional or mandatory tender, or redelivery of such Series 2013 Bonds by the Trustee to Registered Owners following a remarketing or failed conversion to the Fixed Rate shall be deemed made when the right to exercise ownership rights in such Series 2013 Bonds through DTC or DTC's Participants is transferred by DTC on its books;

(ii) notices of demand for purchase of Series 2013 Bonds shall be given by the beneficial owners of such Series 2013 Bonds exercising ownership rights to the Remarketing Agent (as defined in Section 302 hereof) (pursuant to DTC's deliver order procedures) by telephonic or electronic notice (confirmed in writing) or written notice;

(iii) any notices of the interest rate on the Series 2013 Bonds to be provided by the Trustee shall be provided to anyone identifying itself to the Trustee as a person entitled to exercise ownership rights with respect to such Series 2013 Bonds through DTC or its Participants;

(iv) DTC may present notices, approvals, waivers or other communications required or permitted to be made by Registered Owners on a fractionalized basis on behalf of some or all of those persons entitled to exercise ownership rights in the Series 2013 Bonds through DTC or its Participants; and

(v) beneficial interests in Bank Bonds (as defined in Section 302 hereof) shall be held for the account of the Bank (or its Participant) on the records of DTC.

(g) The TIFIA Bond(s) shall be held by the United States Department of Transportation or as otherwise provided in accordance with the TIFIA Loan Agreement.

Section 209. Sale of Series 2013 Bonds.

(a) Each of the Authorized Officers is authorized to execute one or more Bond Purchase Agreements on behalf of the City providing for the sale by the City of the Series 2013 Bonds pursuant to one or more negotiated sales on such terms as he or she may deem to be in the best interests of the City as provided in this 2013 Series Ordinance. Except as otherwise provided in this Section 209, the purchase price shall not be less than 97% of the original principal amount of the Series 2013 Bonds, plus accrued interest, if applicable, less the amount of original issue discount, if any, on the Series 2013 Bonds from their date to the date of their delivery. Any Series 2013 Bonds sold at an original issue discount shall have a principal amount (net of original issue discount) not to exceed $275,000,000, shall be sold in the aggregate at an original issue discount of not to exceed 10% of their principal amount, and the original issue discount on such Series 2013 Bonds may not result in a yield to maturity in excess of the maximum rate of interest specified in Section 206 hereof.

(b) An Authorized Officer shall establish the terms of the Series 2013 Bonds and of their sale to the Initial Purchasers in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable. The terms to be so determined include, without limitation, the purchase price to be paid by the Initial Purchasers pursuant to Section 209(a) above, the aggregate principal amount of the Series 2013 Bonds, the maturities of the Series 2013 Bonds, the amount of any original issue discount, the amount of the 2013 Reserve Requirement, the issuance of the Series 2013 Bonds in a single Series or two or more Subseries, and as Serial Bonds, Term Bonds, capital appreciation bonds, Series 2013 Variable Rate Bonds, or any combination of Serial Bonds, Term Bonds, capital appreciation bonds and Series 2013 Variable Rate Bonds, the numbering of the Series 2013 Bonds, the interest rate or rates and the first interest payment dates for the Series 2013 Bonds that bear interest payable currently and the yield to maturity of any capital appreciation bonds, whether the Series 2013 Bonds shall be issued initially in the form of a single or more than one fully registered Series 2013 Bond for each maturity, the issuance of Series 2013 Bonds as Series 2013 Bonds the interest on which is excluded from gross income for federal income tax purposes, as Series 2013 Bonds the interest on which is not excluded from gross income for federal income tax purposes, or any combination thereof, and the prices and other terms upon which the Series 2013 Bonds are subject to redemption, all as provided in and subject to the limitations expressed in this Article II, including the limitation specified in Section 206 hereof and, with respect to Series 2013 Variable Rate Bonds, elsewhere in this 2013 Series Ordinance. The Authorized Officer may in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, make such changes to the terms of the Series 2013 Bonds and the form of the Series 2013 Bonds from those provided in this 2013 Series Ordinance as he or she shall determine but which shall result in the Series 2013 Bonds having substantially the terms and being in substantially one of the forms provided by this 2013 Series Ordinance. In the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, the Authorized Officer shall also (i) identify any Banks and Credit Support Instruments to be obtained to secure the payment of debt service on and/or the Purchase Price of the Series 2013 Bonds, (ii) identify any Reserve Fund Credit Instruments to be obtained in respect of the Series 2013 Bonds and the company or companies providing them, (iii) identify the Initial Purchasers selected by the Authorized Officer, (iv) specify the compensation to be paid to the Initial Purchasers in connection with the sale of the Series 2013 Bonds, and (v) identify any Interest Rate Hedge Agreements entered into or to be entered into

with respect to the Series 2013 Bonds or with respect to any Outstanding Bonds (where permitted by the General Ordinance).

(c) Each of the Authorized Officers is further authorized to take the actions and execute and deliver the documents and instruments necessary in connection with the issuance of the Series 2013 Bonds as specified in this 2013 Series Ordinance. The Series 2013 Bonds shall be then duly prepared and executed in substantially the form and manner provided in this 2013 Series Ordinance and delivered by an Authorized Officer to the Initial Purchasers or the Trustee in accordance with the terms of the Bond Purchase Agreements and the Series 2013 Determination Certificate.

(d) The City is authorized to enter into the Bond Purchase Agreements, which shall be in substantially the form previously used for similar revenue bond financings of the City, with appropriate revisions to reflect the terms and provisions of the Series 2013 Bonds and such other revisions in text as the Authorized Officer executing the applicable Bond Purchase Agreement shall determine are necessary or desirable in connection with the sale of the Series 2013 Bonds. Each of the Authorized Officers is authorized to execute one or more of the Bond Purchase Agreements on behalf of and in the name of the City, with the concurrence of the Chairman of the Committee on Finance of the City Council (to be filed in the Office of the City Clerk and addressed to the City Council as provided in this 2013 Series Ordinance).

(e) The preparation, use and distribution of a preliminary official statement, an official statement or any other disclosure document relating to each sale and issuance of the Series 2013 Bonds are hereby ratified and approved. The Mayor and each Authorized Officer are each hereby authorized to execute and deliver an official statement or other disclosure document relating to each sale and issuance of the Series 2013 Bonds on behalf of the City. The preliminary official statement, official statement and other disclosure documents herein authorized shall be substantially similar to those previously used for similar revenue bond financings of the City, or shall contain disclosure information substantially similar to that presented in such financings and shall reflect the terms and provisions of the Series 2013 Bonds, the manner in which the Series 2013 Bonds shall be sold, the use of proceeds of the Series 2013 Bonds, financial information for the City, and such other information as any Authorized Officer determines to be advisable under the circumstances. (f) Upon a finding by an Authorized Officer in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, that the purchase of one or more Credit Support Instruments or one or more Reserve Fund Credit Instruments for the Series 2013 Bonds is likely to facilitate the marketing and sale of all or some of the Series 2013 Bonds and permit completion of such sale in a timely fashion, and that each such instrument is available at an acceptable price, each Authorized Officer is authorized to cause the City to purchase one or more Credit Support Instruments or Reserve Fund Credit Instruments for all or any portion of the

Series 2013 Bonds, payable from amounts received upon the sale of the Series 2013 Bonds or from other amounts lawfully available for that purpose. Each such instrument shall be provided by a bank or other financial institution (in the case of a Credit Support Instrument) or, in the case of a Reserve Fund Credit Instrument, a provider which satisfies the criteria in the definition of the term "Reserve Fund Credit Instrument," that is approved by the Authorized Officer. Each of the Authorized Officers is authorized to enter into commitments with respect to the terms under which Credit Support Instruments or Reserve Fund Credit Instruments will be issued and on behalf of the City may enter into such agreements and may make such covenants with respect to such instruments that are consistent with this 2013 Series Ordinance; *provided, however,* that any agreement to reimburse a provider of a Credit Support Instrument or a Reserve Fund Credit Instrument shall be payable solely and only from the sources pledged to the payment of the Series 2013 Bonds as described in Section 201 hereof. Any Credit Support Instrument or Reserve Fund Credit Instrument and any related reimbursement agreement (and any related promissory note) shall be in substantially the form of the credit facilities and reimbursement agreements (and related promissory notes) previously entered into by the City in connection with the sale of revenue obligations of the City, but with such revisions in text as an Authorized Officer shall determine are necessary or desirable, the execution of such instruments by such Authorized Officer to evidence this City Council's approval of all of such revisions. Promissory notes relating to any Credit Support Instruments, Reserve Fund Credit Instruments and any related reimbursement agreements shall mature not later than the final maturity date of the Series 2013 Bonds. The annual fee paid to any provider of a Credit Support Instrument shall not exceed three percent (3.0%) of the average principal amount of the Series 2013 Bonds secured by such instrument that are Outstanding during such annual period and the annual fee paid to any provider of a Reserve Fund Credit Instrument shall not exceed three percent (3.0%) of the average principal amount of the Series 2013 Bonds secured by such instrument that are Outstanding during such annual period. In addition, each of the Authorized Officers is authorized to execute and deliver on behalf of the City one or more contracts under which amounts coming due on investments in the Escrow Account may be reinvested until required, all as may be provided in the Escrow Deposit Agreements.

(i) In connection with any sale of the Series 2013 Bonds, each of the Authorized Officers is authorized to execute and deliver, if necessary, a Continuing Disclosure Undertaking with respect thereto (the **"Continuing Disclosure Undertaking"**) evidencing the City's agreement to comply to the extent required by law with the provisions of Section (b)(5) of Rule 15c2-12, adopted by the Securities and Exchange Commission (the **"SEC"**) under the Securities Exchange Act of 1934, as amended (the **"1934 Act"**) in a form approved by the Corporation Counsel. Notwithstanding any other provision of the General Ordinance or this 2013 Series Ordinance, the sole remedy for any failure by the City to comply with the Continuing Disclosure Undertaking shall be the ability of the Holder of any Series 2013 Bond to seek mandamus or specific performance by court order to cause the City to comply with its obligations under the Continuing Disclosure Undertaking.

(j) Upon a determination by an Authorized Officer made at the time of sale of the Series 2013 Bonds and set forth in the Series 2013 Determination Certificate, the amount of money which the City shall borrow and in respect of which the City shall issue the Series 2013 Bonds may be reduced so that the amount so borrowed and available to pay the costs of acquiring, constructing, improving and equipping projects constituting Project Purposes does not exceed the amount which the Authorized Officer determines will be needed by the City for that purpose during the three-year period following the issuance and delivery of the Series 2013 Bonds, taking into account moneys that will be available from other sources to pay such costs.

Should any ISDA form not be the appropriate form to accomplish the objectives of the City under this Section 211, then such other agreement as may be appropriate is hereby approved, the execution by an Authorized Officer being conclusive evidence of the City Council's approval of such insertions, completions and modifications thereof.

(c) Any payments received by the City prior to the Date of Issuance in connection with Interest Rate Hedge Agreements entered into under this paragraph may be used by the City for its general corporate purposes and are appropriated for such purposes.

(d) Nothing contained in this Section 211 shall limit or restrict the authority of the City or any Authorized Officer on behalf of the City to enter into Interest Rate Hedge Agreements pursuant to prior or subsequent authorization of this City Council.

Except on an Adjustment Date, in which event the provisions of Section 501(f) hereof shall apply, in the event that the Daily Rate is not determined by the Remarketing Agent, the rate of interest borne by the Series 2013 Variable Rate Bonds bearing interest at a Daily Rate shall be equal to the rate in effect for the immediately preceding Rate Period for which a rate has been set and if the Daily Rate is not determined for two consecutive weeks, the rate shall be equal to 110% of the SIFMA Swap Index, in each case until the Remarketing Agent next determines the Daily Rate as required hereunder.

(c) *Weekly Mode*.

(i) For each Rate Period during any Weekly Mode, Series 2013 Variable Rate Bonds in such Interest Mode shall bear interest beginning on the Rate Change Date at the Weekly Rate (which rate shall be the same for all Series 2013 Variable Rate Bonds in the Weekly Mode) determined on the Rate Determination Date in the following manner for each such Rate Period. No later than 3:00 p.m., Chicago time, on the Rate Determination Date for each such Rate Period, the Remarketing Agent will determine the Weekly Rate and will give telephonic or electronic notice (confirmed by telecopy or electronic mail) to the Trustee of the Weekly Rate by 1:00 p.m., Chicago time, on such Rate Determination Date. Except on an Adjustment Date, in which event the provisions of Section 501(f) hereof shall apply, in the event that the Weekly Rate is not determined by the Remarketing Agent on a Rate Determination Date, the rate of interest borne by the Series 2013 Variable Rate Bonds bearing interest at a Weekly Rate shall be equal to the rate in effect for the immediately preceding Rate Period for which a rate has been set and if the Weekly Rate is not determined for two consecutive weeks, the rate shall be equal to 110% of the SIFMA Swap Index, in each case until the Remarketing Agent next determines the Weekly Rate as required hereunder.

(ii) If at any time the Remarketing Agent shall determine that, in its judgment, the scheduled Rate Determination Dates or Rate Change Dates during a Weekly Mode have become inappropriate (taking into account general market practice with respect to periodic adjustment of rates on instruments comparable to the Series 2013 Variable Rate Bonds bearing interest at the Weekly Rate, whether based upon the time of compilation or reporting of any interest rate or financial index or indicator or otherwise), the Remarketing Agent may, after consultation with the City, designate new scheduled Rate Determination Dates and/or Rate Change Dates, to remain in effect until another redetermination of scheduled Rate Determination Dates or Rate Change Dates in accordance with this subparagraph. The Remarketing Agent shall give written notice of any change in scheduled Rate Determination Dates and/or Rate Change Dates during a Weekly Mode to the City, the Trustee, the Trustee's Agent, if any, and the Bank and such change shall become effective on the first scheduled Rate Determination Date or Rate Change Date, as the case may be, so designated occurring not less than 14 days following the giving of such notice. Promptly upon receipt of such notice, the Trustee shall notify or cause the Remarketing Agent to notify each affected Holder of such change in writing. Notwithstanding the foregoing, no such change shall be effective with respect to the Series 2013 Variable Rate Bonds without an Opinion of Bond Counsel to the effect that any such change will not adversely affect the exclusion from

gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled.

(d) *Flexible Mode*.

(i) For each Rate Period during any Flexible Mode, each Series 2013 Variable Rate Bond which will bear interest at a Flexible Rate for such Rate Period shall bear interest beginning on the Rate Change Date at the Flexible Rate, which rate shall be the same for all Series 2013 Variable Rate Bonds in the Flexible Mode and having a Rate Period of the same duration with the same beginning and ending dates, determined on the Rate Determination Date in the following manner for each such Rate Period. No later than 11:00 a.m., Chicago time, on the Rate Determination Date for a Series 2013 Variable Rate Bond bearing interest at the Flexible Rate, the Remarketing Agent will determine, and is required to give telecopy or electronic notice to the Trustee of, (a) the duration of the Rate Period for such Series 2013 Variable Rate Bond by specifying the succeeding Rate Change Date (which shall also be the succeeding Rate Determination Date) for such Series 2013 Variable Rate Bond which Rate Change Date shall be no later than the Business Day prior to the Stated Termination Date of any related Credit Support Instrument, if a Liquidity Facility or Letter of Credit is required to be in place, and (b) the Flexible Rate applicable to such Series 2013 Variable Rate Bond bearing interest at the Flexible Rate during such Rate Period. The last day of such Rate Period must be a Business Day and the day next succeeding such Business Day must also be a Business Day. Except on an Adjustment Date, in which event the provisions of Section 501(f) hereof shall apply, in the event that the Flexible Rate for any Series 2013 Variable Rate Bond is not determined by the Remarketing Agent on any Rate Determination Date, such Series 2013 Variable Rate Bond shall bear interest at a Flexible Rate equal to the SIFMA Swap Index for a Rate Period of seven days until the Remarketing Agent next determines the Flexible Rate, as required hereunder.

(ii) The Remarketing Agent shall determine the duration of Rate Periods during a Flexible Mode as will, in the judgment of the Remarketing Agent, result in the lowest aggregate cost being payable by the City with respect to the Series 2013 Variable Rate Bonds bearing interest at Flexible Rates, taking into account interest and any other determinable fees and expenses. The Remarketing Agent may establish different Rate Periods on the same Rate Change Date for Series 2013 Variable Rate Bonds in the Flexible Mode in order to achieve an average duration of Rate Periods that, in the judgment of the Remarketing Agent, is most likely to achieve the lowest total aggregate cost being payable by the City with respect to such Series 2013 Variable Rate Bonds, taking into account interest and any other determinable fees and expenses. The Remarketing Agent's determination shall be based upon the market for, and the relative yields of, the Series 2013 Variable Rate Bonds and other securities that bear interest at a variable rate or at fixed rates that, in the judgment of the Remarketing Agent, are otherwise comparable to the Series 2013 Variable Rate Bonds, or any fact or circumstance relating to the Series 2013 Variable Rate Bonds, affecting the market for the Series 2013 Variable Rate Bonds or affecting such other comparable securities in a manner that, in the judgment of the Remarketing Agent, will affect the market for the Series 2013 Variable Rate Bonds. The Remarketing Agent's determination shall be

conclusive and binding upon all parties. Except on an Adjustment Date, in which event the provisions of Section 501(f) hereof shall apply, in the event that the Rate Period for any Series 2013 Variable Rate Bond in a Flexible Mode is not determined by the Remarketing Agent as provided in this paragraph, the Rate Period for such Series 2013 Variable Rate Bond shall be a Rate Period of seven days.

(e) *Adjustable Long Mode*.

(i) For each Rate Period during any Adjustable Long Mode, each Series 2013 Variable Rate Bond which will bear interest at an Adjustable Long Rate for such Rate Period shall bear interest beginning on the Rate Change Date at the Adjustable Long Rate (which rate shall be the same for all Series 2013 Variable Rate Bonds in the Adjustable Long Mode and having a Rate Period of the same duration with identical beginning and ending dates) determined on the Rate Determination Date in the following manner for such Rate Period. No later than 10:00 a.m., Chicago time, on the Rate Determination Date for each Rate Period during an Adjustable Long Mode applicable to a specific Series 2013 Variable Rate Bond, the Remarketing Agent will determine a fixed per annum interest rate to be borne by such Series 2013 Variable Rate Bond for such Rate Period and is required to give telephonic or electronic notice (confirmed by telecopy or electronic mail) to the Trustee of the Adjustable Long Rate. Except on an Adjustment Date, in which event the provisions of Section 501(f) shall apply, if the Remarketing Agent shall fail to determine an Adjustable Long Rate on a Rate Determination Date for a Rate Period within an Adjustable Long Mode, the Series 2013 Variable Rate Bonds in an Adjustable Long Mode shall automatically convert to a Rate Period of 367 days and shall bear interest at an Adjustable Long Rate equal to 90 percent of the interest rate on United States Treasury obligations with a maturity of one year.

(ii) The Remarketing Agent, upon the request of the City, shall determine the duration of Rate Periods during an Adjustable Long Mode as will, in the judgment of the Remarketing Agent, result in the lowest aggregate cost being payable by the City with respect to the Series 2013 Variable Rate Bonds bearing interest at Adjustable Long Rates, taking into account interest and any other determinable fees and expenses. The Remarketing Agent may establish different Rate Periods on the same Rate Change Date for Series 2013 Variable Rate Bonds in an Adjustable Long Mode in order to achieve an average duration of Rate Periods that, in the judgment of the Remarketing Agent, is most likely to achieve the lowest total aggregate cost being payable by the City with respect to such Series 2013 Variable Rate Bonds, taking into account interest and any other determinable fees and expenses. The Remarketing Agent's determination will be based upon the market for and the relative yields of the Series 2013 Variable Rate Bonds and other securities that bear interest at a variable rate or at fixed rates that, in the judgment of the Remarketing Agent, are otherwise comparable to the Series 2013 Variable Rate Bonds, or any fact or circumstance relating to the Series 2013 Variable Rate Bonds, affecting the market for the Series 2013 Variable Rate Bonds or affecting such other comparable securities in a manner that, in the judgment of the Remarketing Agent, will affect the market for the Series 2013 Variable Rate Bonds. The Remarketing Agent's determination will be conclusive and binding upon all parties.

Except on an Adjustment Date, in which event the provisions of Section 501(f) hereof shall apply, in the event that the Rate Period for any Series 2013 Variable Rate Bond in an Adjustable Long Mode is not determined by the Remarketing Agent as provided in this clause (ii), the Rate Period for such Series 2013 Variable Rate Bond will be a 367-day Rate Period.

(f) *Fixed Mode*. From and after the Fixed Rate Conversion Date for a Series 2013 Variable Rate Bond, such Series 2013 Variable Rate Bond shall bear interest at the Fixed Rate with respect thereto established as provided in Section 503 hereof.

(g) *Bank Purchase Mode*. For each Bank Purchase Rate Period, each Series 2013 Variable Rate Bond (or Subseries thereof) in the Bank Purchase Mode shall bear interest beginning on the Rate Change Date at the Bank Purchase Rate specified in the applicable Bank Purchase Rate Agreement. At any time during each such Bank Purchase Rate Period, the City, with the written consent of the related Purchaser, may elect that such Series 2013 Variable Rate Bonds bear interest at a new Bank Purchase Rate; *provided, however*, that a conversion from a LIBOR Index Rate to a SIFMA Index Rate cannot occur within any respective Bank Purchase Rate Period and any such change shall occur only on the effective date of a new Bank Purchase Rate Period. The effective date of the new Bank Purchase Rate must be a day that would otherwise be an Interest Payment Date and is subject to any conditions set forth in the related Bank Purchase Rate Agreement. The City shall give the Trustee notice of any new Bank Purchase Rate at least 30 days prior to the effective date of the new Bank Purchase Rate.

(i) *SIFMA Index Rate*. During each SIFMA Index Rate Period during a Bank Purchase Mode for the Series 2013 Variable Rate Bonds, such Series 2013 Variable Rate Bonds shall bear interest at the SIFMA Index Rate. The Calculation Agent for such Series 2013 Variable Rate Bonds shall determine the applicable SIFMA Index Rate on each Computation Date during the SIFMA Index Rate Period, and such rate shall become effective on the SIFMA Rate Reset Date following such Computation Date, commencing on and including the first day of the applicable SIFMA Index Interest Period to but excluding the last day of such SIFMA Index Interest Period. The SIFMA Index Rate shall be rounded upwards to the nearest two decimal places. Promptly following the determination of the SIFMA Index Rate, the Calculation Agent shall give notice thereof by fax or electronic mail by 3:00 p.m., Chicago time, to the Trustee and the Remarketing Agent, if applicable. If the SIFMA Index Rate for such Series 2013 Variable Rate Bonds is not determined by the applicable Calculation Agent, the rate of interest borne by the applicable Subseries shall be the rate in effect for the immediately preceding Rate Period until the Calculation Agent next determines the SIFMA Index Rate as required hereunder.

(ii) *LIBOR Index Rate*. During each LIBOR Index Rate Period during a Bank Purchase Mode for the Series 2013 Variable Rate Bonds, such Series 2013 Variable Rate Bonds shall bear interest at the LIBOR Index Rate. The Calculation Agent for such Series 2013 Variable Rate Bonds shall determine the LIBOR Index Rate on each Computation Date during the LIBOR Index Rate Period, and such rate shall become effective on the LIBOR Index Reset Date following the Computation Date, commencing on and including the first day of the applicable LIBOR Index Interest Period to but

excluding the last day of such LIBOR Index Interest Period. The LIBOR Index Rate shall be rounded upwards to the nearest three decimal places. Promptly following the determination of the LIBOR Index Rate, the Calculation Agent shall give notice thereof by fax or electronic mail to the Trustee and Remarketing Agent, if applicable. If the LIBOR Index Rate for such Series 2013 Variable Rate Bonds is not determined by the applicable Calculation Agent, the rate of interest borne by the applicable Subseries shall be the rate in effect for the immediately preceding Rate Period until the Calculation Agent next determines the LIBOR Index Rate as required hereunder.

(iii) *Certain Payments Not Interest*. Under the Bank Purchase Rate Agreement in effect during the Bank Purchase Mode, the City may be required to make payments to the Purchaser of the Series 2013 Variable Rate Bonds under certain circumstances. Such payments by the City are intended to be fees of the Purchaser or reimbursement of Purchaser costs or expenses and shall not be treated as payments of interest or premium on the related Series 2013 Variable Rate Bonds. Any such fees shall not exceed 1.5% per annum.

(iv) *Interest on Unremarketed Bonds*. Unless otherwise bearing interest at the Default Rate, each Unremarketed Bond shall bear interest for each day it is an Unremarketed Bond at the Purchaser Rate for such day.

(v) *Default Rate; Taxable Rate*. From and after the occurrence of a Bank Purchase Rate Agreement Event of Default, the interest for the Series 2013 Variable Rate Bonds bearing interest at a Bank Purchase Rate and for Unremarketed Bonds bearing interest at the Purchaser Rate shall be equal to the greater of (i) the Default Rate and (ii) the interest rate that otherwise would be applicable to such Series 2013 Variable Rate Bonds but for the provisions of this paragraph, as determined by the Calculation Agent. During any period for which interest on the Series 2013 Variable Rate Bonds of a Subseries is includable in the gross income of the Purchaser thereof pursuant to the applicable Bank Purchase Rate Agreement, the interest for Series 2013 Variable Rate Bonds bearing interest at a Bank Purchase Rate or for any Unremarketed Bonds shall be as set forth in such Bank Purchase Rate Agreement.

(vi) *Excess Interest*. Notwithstanding anything in this 2013 Series Ordinance to the contrary, if during a Bank Purchase Rate Period the rate of interest on the applicable Series 2013 Variable Rate Bonds (or Subseries thereof) as calculated pursuant to the terms of an applicable Bank Purchase Rate Agreement exceeds the Maximum Rate for such Series 2013 Variable Rate Bonds, as determined by the Calculation Agent, then (i) such Series 2013 Variable Rate Bonds shall bear interest at the Maximum Rate and (ii) interest on such Series 2013 Variable Rate Bonds calculated at the rate equal to the difference between (A) the rate of interest for such Series 2013 Variable Rate Bonds as calculated pursuant to the applicable Bank Purchase Rate Agreement and (B) the Maximum Rate (the **"Excess Interest"**) shall be deferred until such date as the rate of interest borne by such Series 2013 Variable Rate Bonds as calculated pursuant to this Section 303(g) is below the Maximum Rate, at which time Excess Interest shall be payable with respect to such Series 2013 Variable Rate Bonds, provided that at no time shall the interest payable on such Series 2013 Variable Rate

Bonds, including any Excess Interest paid thereon, exceed interest calculated at the Maximum Rate. Payments of deferred Excess Interest shall no longer be due and payable upon the earliest to occur of (i) the date on which such Series 2013 Variable Rate Bonds are no longer Outstanding, (ii) the date such Series 2013 Variable Rate Bonds are tendered for purchase in accordance with Section 407 hereof and are so paid (without regard for the payment of any deferred Excess Interest) or (iii) the date of maturity or redemption for such Series 2013 Variable Rate Bonds.

(h) *Information for Holders*. The Trustee shall provide to any Holder of Series 2013 Variable Rate Bonds (unless the Series 2013 Variable Rate Bonds are then in a Book Entry System), upon the written request of such Holder, information regarding the Adjustment Periods, Rate Periods, Interest Payment Dates, optional redemption provisions and interest rate or rates applicable to such Holder's Series 2013 Variable Rate Bonds.

(i) *Notices to City*. The Remarketing Agent shall provide to the City and the Trustee notice of all determinations made by the Remarketing Agent pursuant to this 2013 Series Ordinance, including, but not limited to, interest rate determinations and duration of Rate Periods, on a timely basis.

Section 304. Required Information in Bond Form.

(a) On each date on which the Trustee or the Trustee's Agent authenticates and delivers a Series 2013 Variable Rate Bond, it shall complete the information required to be inserted by the form of the Series 2013 Variable Rate Bonds in Section 701 hereof and shall keep a record of such information.

(b) On each date on which the Trustee or the Trustee's Agent authenticates and delivers a Series 2013 Variable Rate Bond during a Flexible Mode or an Adjustable Long Mode applicable to such Series 2013 Variable Rate Bond, the Trustee or Trustee's Agent shall attach to each such Series 2013 Variable Rate Bond a copy of the Notice of Rate Period in substantially the form set forth in the form of the Series 2013 Variable Rate Bonds in Section 701 hereof for the purpose of maintaining an accurate record of the terms and provisions of the Adjustment Period then applicable to such Series 2013 Variable Rate Bond.

(c) On each date on which the Trustee authenticates and delivers Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate from and after the Fixed Rate Conversion Date applicable to such Series 2013 Variable Rate Bonds, the Trustee shall issue Series 2013 Variable Rate Bonds with such information as is required pursuant to Section 503 hereof.

Section 305. Establishment of Series 2013 Variable Rate Bond Purchase Fund.

The Trustee shall establish and maintain (but shall not have a lien on as part of the trust estate created by the General Ordinance), as long as any Series 2013 Variable Rate Bonds are Outstanding which have not been converted to a Fixed Rate, a separate fund to be known as the "Series 2013 Variable Rate Bond Purchase Fund" (the "**Bond Purchase Fund**"). There shall be deposited into the Bond Purchase Fund from time to time the following:

(i) the moneys received upon the remarketing of Tendered Bonds to any person pursuant to the Remarketing Agreement (other than Tendered Bonds sold to the City);

(ii) the moneys received from the purchasers (other than the City) of Tendered Bonds upon the conversion of the interest rate thereon to a Fixed Rate;

(iii) the moneys obtained by the Trustee pursuant to the Letter of Credit or Liquidity Facility, if any, then in effect to be applied to pay the Purchase Price of Tendered Bonds; and

(iv) at the sole option of the City, in its sole discretion, any other moneys furnished by the City to the extent that moneys obtained pursuant to (i), (ii) or (iii) above are insufficient on any date to pay the Purchase Price of Tendered Bonds, *provided however,* that the conditions of Section 412(b) hereof are satisfied.

Moneys in the Bond Purchase Fund shall not be commingled with any other moneys, and shall be held in trust exclusively for the payment of the Purchase Price of Tendered Bonds; *provided, however*, that under no circumstances shall proceeds of a purchase made pursuant to the Liquidity Facility or proceeds of a drawing on a Letter of Credit be used to purchase Bank Bonds or Fixed Rate Bonds. Moneys obtained by the Trustee pursuant to the Liquidity Facility or Letter of Credit in excess of the amount needed for the payment of the Purchase Price of Tendered Bonds shall be promptly paid to the Bank. Moneys on deposit in the Bond Purchase Fund (other than moneys derived from the Liquidity Facility or Letter of Credit, which shall not be invested) shall be invested only in Government Obligations with a term not exceeding the earlier of 30 days from the date of investment of such moneys or the date or dates that moneys therefrom are required. Amounts held to pay the Purchase Price after the date for such purchase shall be applied in the same manner as provided under Section 205 with respect to unclaimed payments of principal and interest; provided that excess moneys (i.e., moneys derived from the Liquidity Facility or Letter of Credit and not required by the Trustee to pay the Purchase Price of Tendered Bonds) derived from the Liquidity Facility or Letter of Credit shall be repaid to the Bank promptly in accordance with the terms of the Bank Agreement.

Section 306. Remarketing Agent.

The City shall designate the Remarketing Agent in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, for the purpose of determining the interest rate on the Series 2013 Variable Rate Bonds, subject to the conditions set forth in Section 307 hereof, and for the purpose of remarketing the Series 2013 Variable Rate Bonds as provided herein. The Remarketing Agent shall designate to the Trustee its Delivery Office and signify its acceptance of the duties and obligations imposed upon it hereunder by written instruments of acceptance delivered to the City and the Trustee. The Remarketing Agent shall at all times be acceptable to the Bank providing a Liquidity Facility or Letter of Credit, as applicable.

Section 307. Qualifications of Remarketing Agent.

The Remarketing Agent shall be (i) a member of the Financial Industry Regulatory Authority, having a capitalization of at least $1,000,000, and (ii) authorized by law to perform all the duties imposed upon it by this 2013 Series Ordinance and the Remarketing Agreement.

The Remarketing Agent may resign on 60 days notice to the City, the Trustee and the Bank, such resignation to become effective on the earlier of the date set forth in the notice or the date the City appoints a successor. While any Series 2013 Variable Rate Bonds are Outstanding (other than at a Fixed Rate), the Remarketing Agent may not be removed until a successor shall have been appointed pursuant to this 2013 Series Ordinance. In the event of the resignation or removal of the Remarketing Agent, the Remarketing Agent shall pay over, assign and deliver any moneys and Series 2013 Variable Rate Bonds held by it in such capacity to its successor or, if there be no successor, to the Trustee. The Bank shall be given Immediate Notice of the resignation or removal of the Remarketing Agent and the appointment of any successor.

Section 308. Trustee's Agent.

Until such time as the Series 2013 Variable Rate Bonds have been converted to bear interest at a Fixed Rate, the Trustee, with the City's written consent, shall have the right to appoint a Trustee's Agent with the power to act on the Trustee's behalf and subject to its direction in the authentication and delivery of the Series 2013 Variable Rate Bonds, payment of the Series 2013 Variable Rate Bonds, provision of notice of interest rates on Series 2013 Variable Rate Bonds to Holders and in connection with transfers, exchanges, tenders and purchases thereof, as fully to all intents and purposes as though the Trustee's Agent had been expressly authorized hereunder to authenticate, deliver, pay, transfer and exchange Series 2013 Variable Rate Bonds, provide notice of interest rates to Holders of Series 2013 Variable Rate Bonds, receive tender notices, tender Series 2013 Variable Rate Bonds to the Bank for purchase under the Letter of Credit or Liquidity Facility, as applicable, purchase tendered Series 2013 Variable Rate Bonds and make payments on the Series 2013 Variable Rate Bonds. The Trustee's Agent shall perform such functions subject to the terms and conditions expressed in Article VIII of the General Ordinance. The foregoing notwithstanding, the Trustee's Agent shall not be answerable for other than its negligence, default or willful misconduct and the Trustee's Agent shall not be deemed to have notice of any Event of Default hereunder unless notified by the Trustee. For all purposes, any such Trustee's Agent shall be deemed to be acting solely as the agent of the Trustee and the authentication, delivery, transfer or exchange of Series 2013 Variable Rate Bonds, provision of notice of interest rates to Holders of Series 2013 Variable Rate Bonds, receipt of tender notices, tender of Series 2013 Variable Rate Bonds to the Bank for purchase under the Letter of Credit or Liquidity Facility, as applicable, purchase of tendered Series 2013 Variable Rate Bonds and payment of Series 2013 Variable Rate Bonds by the Trustee's Agent pursuant to this Section shall be deemed to be the authentication, delivery, transfer or exchange of Series 2013 Variable Rate Bonds, provision of notice of interest rates to Holders of Series 2013 Variable Rate Bonds, receipt of tender notices, tender of Series 2013 Variable Rate Bonds to the Bank for purchase under the Letter of Credit or Liquidity Facility, as applicable, purchase of tendered Series 2013 Variable Rate Bonds and payment of Series 2013 Variable Rate Bonds by the Trustee. The Trustee's Agent may act as Bond Registrar for any Series 2013 Variable Rate Bond prior to the Fixed Rate Conversion Date.

The Trustee's Agent shall at all times be a bank or trust company having a corporate trust office in the City of New York, New York (or having an agent with such a corporate trust office) and shall at all times be an institution organized and doing business under the laws of the United States of America or of any state, authorized under such laws to exercise corporate trust powers and subject to supervision or examination by federal or state authorities and either (a) having, together with its parent bank or trust company, a reported combined capital and surplus of at least $5,000,000 or (b) affiliated with and indemnified by the Trustee. If such institution publishes reports of condition at least annually pursuant to law or the requirements of such authorities, then for the purposes of this Section the combined capital and surplus of such institution shall be deemed to be its combined capital and surplus, as set forth in its most recent report of condition so published. The appointment of a Trustee's Agent under this Section shall be effective upon acceptance by the Trustee's Agent and shall continue until the Trustee making such appointment shall rescind such appointment or until the effective date of the resignation or removal of such Trustee. In addition, the Trustee's Agent may resign upon 60 days' prior written notice to the Trustee, the City, the Remarketing Agent and the Bank. The Trustee's Agent may act through an agent constituting a commercial bank or trust company.

If at any time there is no Trustee's Agent, all references to the Trustee's Agent herein and in the Series 2013 Variable Rate Bonds shall be deemed to refer to the Trustee.

Section 309. Payments of Principal and Interest on Series 2013 Variable Rate Bonds.

(a) The principal of and premium, if any, on Series 2013 Variable Rate Bonds bearing interest at a Short Rate or an Adjustable Long Rate shall be payable at the designated corporate trust office of the Trustee, upon presentation and surrender of such Series 2013 Variable Rate Bonds. The principal of and premium, if any, on Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate shall be payable at the designated corporate trust office of the Trustee upon presentation and surrender of such Series 2013 Variable Rate Bonds. Any payment of the Purchase Price of a Tendered Bond shall be payable at the designated corporate trust office of the Trustee's Agent (or at such other office as may be designated by the Trustee), upon presentation and surrender of such Tendered Bond, as provided in Section 408 hereof. Payment of principal of Bank Bonds shall be made to the Bank by wire transfer in the manner provided in the Bank Agreement.

(b) Interest on Series 2013 Variable Rate Bonds bearing interest at a Daily Rate, a Weekly Rate, an Adjustable Long Rate, a Bank Purchase Rate or a Fixed Rate shall be paid by check mailed on the Interest Payment Date to the persons appearing on the Bond Register as the Holders thereof as of the close of business of the Trustee on the Record Date at the addresses of such Holders as they appear on the Bond Register or at such other addresses as are furnished to the Trustee in writing by the Holders not later than the Record Date. Payment of interest on Series 2013 Variable Rate Bonds bearing interest at a Flexible Rate shall be made to the persons appearing on the Bond Register as the Holders thereof as of the close of business of the Trustee on the Record Date, upon presentation and surrender of such Series 2013 Variable Rate Bond at the designated corporate trust office of the Trustee on the applicable Interest Payment Date. Payment of interest on any Series 2013 Variable Rate Bond shall be made to the Holder of $1,000,000 or more in aggregate principal amount of Series 2013 Variable Rate Bonds as of the

close of business of the Trustee on the Record Date for a particular Interest Payment Date by wire transfer to such Holder on such Interest Payment Date upon written notice from such Holder containing the wire transfer address within the United States of America to which such Holder wishes to have such wire directed, which written notice is received not later than the Business Day next preceding the Record Date; *provided, however,* that such wire transfer shall only be made for Series 2013 Variable Rate Bonds bearing interest at a Flexible Rate upon presentation and surrender of such Series 2013 Variable Rate Bonds at the designated corporate trust office of the Trustee on the applicable Interest Payment Date. Payment of interest on Bank Bonds shall be made to the Bank by wire transfer in the manner provided for in the applicable Bank Agreement (or such other wire transfer address as is specified by the Bank in writing from time to time).

Section 310. Liquidity Facility; Reduction; Liquidity Substitution Date.

(a) The City covenants and agrees that at all times while any Series 2013 Variable Rate Bonds are Outstanding which bear interest at a rate other than the Fixed Rate or the Bank Purchase Rate, it will maintain either a Liquidity Facility or a Letter of Credit with respect to all such Series 2013 Variable Rate Bonds bearing interest at other than the Bank Rate, except as otherwise provided in Section 313 hereof. Notwithstanding the foregoing, it shall not be a requirement of this 2013 Series Ordinance (unless otherwise required by any Rating Agency then rating the Series 2013 Variable Rate Bonds) that any Liquidity Facility or Letter of Credit then in effect provide coverage of any Interest Modes other than the Interest Mode or Interest Modes the Series 2013 Variable Rate Bonds are then in; provided that no such coverage of any Series 2013 Variable Rate Bonds in the Fixed Rate Mode or the Bank Purchase Mode shall be required hereby. Notwithstanding the foregoing, the City shall be entitled to obtain a Substitute Liquidity Facility at any time pursuant to Section 310(c) below or an Alternate Letter of Credit pursuant to Section 311 hereof, in which event the Series 2013 Variable Rate Bonds shall be subject to tender pursuant to Section 404 hereof.

(b) Upon the receipt by the Trustee of a written request of the City stating that the amount available under the Liquidity Facility or Letter of Credit may be reduced in compliance with Section 313 hereof, the Trustee shall direct or send appropriate notice to the Bank requesting or directing that such amount be reduced and specifying the amount that shall thereafter be available under the Liquidity Facility or Letter of Credit, subject to any requirements of the Bank Agreement, or that the Liquidity Facility or Letter of Credit is being cancelled. In no event shall the Liquidity Facility or Letter of Credit be reduced to an amount less than the principal amount of the Series 2013 Variable Rate Bonds Outstanding which bear interest at other than the Bank Rate, a Fixed Rate or Bank Purchase Rate, plus an amount equal to interest thereon at the Interest Coverage Rate then required by any Rating Agency then rating the Series 2013 Variable Rate Bonds for the number of days then required by any Rating Agency then rating the Series 2013 Variable Rate Bonds, unless the City has deposited a Substitute Liquidity Facility or Alternate Letter of Credit with the Trustee in accordance with the terms of this Article, or unless the requirements set forth in Section 313 hereof are satisfied. In no event shall any Substitute Liquidity Facility or Alternate Letter of Credit replace only in part any then-current Liquidity Facility or Letter of Credit. Notwithstanding the foregoing, immediately after payment in full has been made on any Series 2013 Variable Rate Bond covered by the Liquidity Facility or Letter of Credit, either at its Maturity Date, by optional redemption or

otherwise, the Trustee shall direct or send appropriate notice to the Bank requesting or directing that the amount available under the Liquidity Facility or Letter of Credit be reduced by an amount equal to such principal so paid plus the amount of interest theretofore provided for under the Liquidity Facility or Letter of Credit on such principal amount. No direction or consent of the City shall be required for the Trustee to take the action required by the preceding sentence.

(c) Prior to the Fixed Rate Conversion Date, and subject to the provisions of the Liquidity Facility, a Substitute Liquidity Facility may become effective on any Business Day, which shall be a Liquidity Substitution Date. The City shall cause a draft of any Substitute Liquidity Facility in substantially final form to be delivered to the Trustee, the Trustee's Agent and the Remarketing Agent at the times set forth in Section 404 hereof. On each Liquidity Substitution Date, the Remarketing Agent, the Trustee and the Trustee's Agent shall also receive (i) an opinion of counsel for the Substitute Bank regarding the enforceability of the Substitute Liquidity Facility in substantially the form delivered to the Trustee upon execution and delivery of the Liquidity Facility then in effect, and (ii) an Opinion of Bond Counsel to the effect that the substitution of the Liquidity Facility then in effect will not adversely affect the validity of the Series 2013 Bonds, or adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled. No Substitute Liquidity Facility shall become effective unless the then-current Bank certifies to the City, the Trustee's Agent and the Trustee that all obligations owing to such Bank under the Bank Agreement have been paid in full and all Bank Bonds held by or on behalf of such Bank have been redeemed, remarketed or purchased by the Substitute Bank.

(d) On any Liquidity Substitution Date on which a Substitute Liquidity Facility becomes effective in accordance with the provisions of this Section, the Trustee shall take such action as is required under the Bank Agreement to cause the cancellation of the Liquidity Facility then in effect provided that all purchase notices delivered thereunder have been honored.

(e) Immediate Notice shall be given by the Trustee to the Bank, the City, the Remarketing Agent, the Trustee's Agent and Rating Agency then maintaining a rating on the Series 2013 Variable Rate Bonds if no satisfactory Substitute Liquidity Facility shall be furnished to the Trustee in accordance with this Section on or prior to the Stated Termination Date of the then-current Liquidity Facility, unless the requirements of Section 313 hereof are satisfied.

(f) Each Substitute Liquidity Facility shall provide for the submission of draws thereunder, and the payment of properly submitted draws thereunder, on the same timing as that of the Liquidity Facility being substituted for, unless the Rating Agency then maintaining a rating on the Series 2013 Variable Rate Bonds shall agree to some other timing.

Section 311. Letter of Credit.

(a) *Maintenance of Letter of Credit*. The City covenants and agrees that during such period as the Series 2013 Variable Rate Bonds bear interest at a Short Rate (except for a Bank Purchase Rate) it will cause a Letter of Credit or Alternate Letter of Credit to be delivered to the Trustee unless a Liquidity Facility has been provided pursuant to Section 310 hereof or no Letter of Credit or Liquidity Facility is required pursuant to Section 313 hereof. The Letter of Credit

shall not be transferred to a successor Trustee except in full compliance with the terms of the Letter of Credit.

(b) *Letter of Credit – Requirements*. The Letter of Credit shall provide for direct payments to or upon the order of the Trustee as set forth below and shall be the irrevocable obligation of the Bank to pay to or upon the order of the Trustee, upon certification and in accordance with the terms of the Letter of Credit, up to (i) an amount sufficient (A) to pay the principal of the Series 2013 Variable Rate Bonds when due whether at stated maturity or upon redemption, or (B) to enable the Trustee to pay the portion of the purchase price equal to the principal amount of Series 2013 Variable Rate Bonds delivered for purchase pursuant to Sections 401, 402, 404, and 406 hereof and not remarketed, plus (ii) an amount equal to at least 35 days' interest accrued on the outstanding Series 2013 Variable Rate Bonds (and for the purpose of calculating the amount of such accrued interest the Letter of Credit shall state on its face the maximum rate of interest on the Series 2013 Variable Rate Bonds covered by the Letter of Credit) (A) to pay interest on the Series 2013 Variable Rate Bonds when due or (B) to enable the Trustee to pay the portion of the purchase price of the Series 2013 Variable Rate Bonds delivered for purchase pursuant to Sections 401, 402, 404, and 406 hereof equal to the interest accrued, if any, on such Series 2013 Variable Rate Bonds.

(c) *Alternate Letter of Credit*. The City may, except with respect to Series 2013 Variable Rate Bonds in the Fixed Mode, at its option, provide for the delivery to the Trustee of an Alternate Letter of Credit. An Alternate Letter of Credit shall be an irrevocable direct pay letter of credit, issued by a commercial bank or banks or other financial institution, the terms of which shall in all respects material to the Holders be the same as the then current Letter of Credit, if any. Such Alternate Letter of Credit shall set forth a maximum interest rate on the Series 2013 Variable Rate Bonds with respect to which draws may be made. On or prior to the date of delivery of an Alternate Letter of Credit to the Trustee, the City shall furnish to the Trustee (i) an opinion of Counsel stating that the delivery of such an Alternate Letter of Credit to the Trustee is authorized under the 2013 Series Ordinance and complies with the terms hereof, (ii) an Opinion of Bond Counsel stating that the delivery of such an Alternate Letter of Credit will not adversely affect the exclusion of interest on the Series 2013 Bonds from gross income for federal income tax purposes (other than with respect to an alternative minimum tax imposed on interest on the Series 2013 Bonds) and (iii) an opinion of counsel to the Bank stating that such Alternate Letter of Credit has been duly authorized, executed and delivered by the Bank and is the valid and binding obligation of the Bank, enforceable against the Bank in accordance with its terms. The Trustee shall then accept such Alternate Letter of Credit and surrender the previously held Letter of Credit, if any, to the previous Bank for cancellation as provided in subsection (c) of this Section 311. Each Alternate Letter of Credit shall become effective and commence coverage as of the applicable Credit Substitution Date determined in reference to the previously held Letter of Credit and shall not expire earlier than one year following its date of issuance.

(d) *Delivery to Trustee of Alternate Letter of Credit; Surrender of Letter of Credit for Cancellation*. If at any time there shall have been delivered to the Trustee (i) an Alternate Letter of Credit pursuant to the preceding subsections of this Section 311 and (ii) when required under the preceding subsections of this Section 311, an opinion of Counsel stating that the delivery of such Alternate Letter of Credit to the Trustee is authorized under this Section 311 and complies with the terms of this 2013 Series Ordinance, then the Trustee shall accept such Alternate Letter

of Credit and surrender the previously held Letter of Credit to the Bank issuing the same for cancellation (after all draws have been honored); *provided, however*, that (a) in no event shall such Letter of Credit be surrendered prior to the effective date of the Alternate Letter of Credit or prior to the satisfaction of the condition in clause (b) of this proviso, and (b) on the applicable Credit Substitution Date, the Trustee shall draw upon the existing Letter of Credit rather than the new Alternate Letter of Credit in order to provide funds to pay the Purchase Price of Series 2013 Variable Rate Bonds subject to mandatory purchase on such Credit Substitution Date pursuant to Section 404 hereof. If at any time there shall cease to be any Series 2013 Variable Rate Bonds Outstanding under this 2013 Series Ordinance, the Trustee shall promptly surrender the Letter of Credit to the Bank for cancellation. The Trustee shall comply with the procedures set forth in the Letter of Credit relating to the termination thereof.

(e) *Notice of Expiration of Letter of Credit*. The Trustee shall give notice by first class mail of the expiration of the term of a Letter of Credit if, following such expiration no Letter of Credit is required pursuant to Section 313, which notice shall (i) specify the date of the expiration of the term of the Letter of Credit, (ii) state that such expiration may result in reduction or withdrawal of any Rating Agency's ratings of the Series 2013 Variable Rate Bonds from those which then prevail, (iii) if the Series 2013 Variable Rate Bonds bear interest at a Short Rate, specify the last times and dates prior to such expiration on which Series 2013 Variable Rate Bonds must be delivered, or on which notice must be given, for the purchase of Series 2013 Variable Rate Bonds pursuant to the last sentence of Section 404 hereof and the place where such Series 2013 Variable Rate Bonds must be delivered for such purchase and (iv) state that on the Credit Substitution Date, the Series 2013 Variable Rate Bonds shall be subject to mandatory purchase on such date. Such notice shall be given by first class mail at least 30 days prior to such Interest Payment Date to the owners of Series 2013 Variable Rate Bonds appearing on the Bond Register. The Trustee agrees to give notices to the Bank in accordance with the applicable Bank Agreement

Section 312. Draws on Letter of Credit.

(a) *General*. The City and the Trustee shall take all actions necessary under the Letter of Credit, to provide funds for the timely payment of the purchase price of Tendered Bonds. All provisions of this 2013 Series Ordinance (i) requiring or directing the Trustee to make a draw on a Letter of Credit with respect to Series 2013 Variable Rate Bonds shall refer solely and only to the Letter of Credit specifically securing those Series 2013 Variable Rate Bonds or the applicable Subseries of such Series 2013 Variable Rate Bonds secured by the Letter of Credit for the benefit of which the drawing is to be made and (ii) relating to notices and directions from, notices to or consents of a Bank in connection with an action to be taken in respect of Series 2013 Variable Rate Bonds shall refer solely to those Series 2013 Variable Rate Bonds or the applicable Subseries of Series 2013 Variable Rate Bonds secured by a Letter of Credit issued by such Bank.

(b) *Trustee's Duty to Draw on Letter of Credit to Pay Principal of and Interest on Series 2013 Variable Rate Bonds*. The City authorizes and directs the Trustee, and the Trustee agrees, to draw moneys under the Letter of Credit for the benefit of the Holders of the Series 2013 Variable Rate Bonds in accordance with the terms of the Letter of Credit in amounts sufficient to make timely payments of the principal of (other than Bank Bonds or Series 2013

Variable Rate Bonds owned by or on behalf of the City) and interest on the Series 2013 Variable Rate Bonds (other than Bank Bonds and Series 2013 Variable Rate Bonds owned by or on behalf of the City) in accordance with the provisions of Section 312(a), after taking into account any amounts held in the 2013 Letter of Credit Account. In the event that the Bank fails to honor the Trustee's properly presented and conforming draw request on its Letter of Credit, the Trustee shall notify the City of such failure and that it intends to apply amounts on deposit in the Series 2013 Bond Account to make timely payments of principal of and interest on the Series 2013 Variable Rate Bonds. Upon giving such notice, the Trustee shall apply amounts on deposit in the Series 2013 Bond Account to make timely payments of principal of and interest on the Series 2013 Variable Rate Bonds.

(c) *Trustee's Duty to Draw on Letter of Credit to Pay Purchase or Redemption Price of Series 2013 Variable Rate Bonds*. The Trustee shall also (i) draw moneys under the Letter of Credit in accordance with its terms to the extent necessary to make timely payments (other than payments on Bank Bonds and Series 2013 Variable Rate Bonds owned by or on behalf of the City) required to be made pursuant to, and in accordance with, Sections 401 through 406 hereof, and (ii) draw moneys under the Letter of Credit to pay the redemption price of Series 2013 Variable Rate Bonds (other than Bank Bonds or Series 2013 Variable Rate Bonds owned by or on behalf of the City) pursuant to Section 315 hereof in accordance with its terms in the amounts required by said Section 315 hereof. It is understood and agreed that the Trustee when drawing amounts under the Letter of Credit as provided in clauses (i) and (ii) of this subsection is not acting as an agent of the City. The Trustee shall make draws under the Letter of Credit in accordance with its terms to pay the purchase price of Series 2013 Variable Rate Bonds pursuant to Sections 401 through 406 hereof, or to pay the redemption price or purchase price of Series 2013 Variable Rate Bonds pursuant to Article III, so as to provide immediately available funds in New York, New York, by the close of business (*i.e.*, 1:30 p.m., Chicago time) on the date such purchase or redemption is to be made. In the event that the Bank fails to honor a properly presented and conforming draw request under the Letter of Credit, the Trustee shall notify the City of such failure and that it intends to apply amounts deposited under Section 603 hereof for the redemption of Series 2013 Variable Rate Bonds to make timely payouts of the redemption price of the Series 2013 Variable Rate Bonds.

(d) *Drawings under Letter of Credit When the Letter of Credit Consists of Two or More Instruments*. When there are two or more letters of credit constituting the Letter of Credit hereunder, the Trustee shall draw on each such letter of credit in amounts proportionate to the portion of the principal amount of the Series 2013 Variable Rate Bonds each such letter of credit by its terms secures.

Section 313. Credit Support Instrument Not Required and City May Provide Liquidity in Certain Circumstances.

(a) Prior to the Fixed Rate Conversion Date therefor, and subject to the provisions of the Liquidity Facility or Letter of Credit, as applicable, all of the Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds which bear interest at a Bank Purchase Rate, and Series 2013 Variable Rate Bonds owned by or on behalf of the City) are required to have the benefit of a Liquidity Facility or Letter of Credit unless, prior to the expiration or termination of the Credit Support Instrument then in effect, there is delivered by the

City to the Remarketing Agent, the Trustee and the Trustee's Agent (i) an Opinion of Bond Counsel to the effect that the expiration or termination of the Liquidity Facility or Letter of Credit then in effect will not adversely affect the validity of the Series 2013 Bonds, or adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled, and (ii) a certificate of an Authorized Officer that the City has agreed to be a Substitute Bank hereunder for all the Series 2013 Variable Rate Bonds (other than Series 2013 Variable Rate Bonds in the Fixed Mode or Bank Purchase Mode). Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate or a Bank Purchase Rate shall not be required to have the benefit of a Liquidity Facility or Letter of Credit.

(b) Upon satisfaction of the requirements described in subparagraph (a) above, (i) the Trustee, upon receipt of a written request of the City, shall direct or send appropriate notice to the Bank requesting or directing the cancellation of the Liquidity Facility then in effect on the date (the **"Liquidity Facility Cancellation Date"**) requested by the City in such written request, or requesting or directing the cancellation of the Letter of Credit then in effect (the **"Letter of Credit Cancellation Date"**) which date may not be less than 30 days, or such longer period as is required by the Bank Agreement for its termination at the request of the City, from the date the Trustee receives such written request, and (ii) following the date of such cancellation, all Tendered Bonds may be remarketed by the Remarketing Agent pursuant to the Remarketing Agreement without the benefit of a Liquidity Facility or Letter of Credit until such time, if any, as the Series 2013 Variable Rate Bonds are thereafter entitled to the benefits of a Liquidity Facility or Letter of Credit pursuant to the provisions of Section 310 hereof, but only if there is delivered to the City, the Trustee, the Trustee's Agent and the Remarketing Agent an Opinion of Bond Counsel to the effect that the execution and delivery of the Liquidity Facility or Letter of Credit will not adversely affect the validity of the Series 2013 Bonds or the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled. In the event of a Liquidity Facility Cancellation Date or Letter of Credit Cancellation Date, as applicable, the Series 2013 Variable Rate Bonds shall be subject to mandatory tender pursuant to Section 404 hereof. If at any time no Liquidity Facility or Letter of Credit is required on the Series 2013 Variable Rate Bonds, the Trustee shall affix a legend in substantially the following form on the face of each Series 2013 Variable Rate Bond which does not bear interest at a Fixed Rate or Bank Purchase Rate authenticated on or after the date on which a Liquidity Facility or Letter of Credit is no longer required:

> A Liquidity Facility or Letter of Credit is not required with respect to this Series 2013 Variable Rate Bond. If a Liquidity Facility or Letter of Credit is currently provided, it may be discontinued at any time. If a Liquidity Facility is currently provided, it may be discontinued at any time without prior notice to, or a right to tender by, the Holder. The City is a substitute Liquidity Provider.

Section 314. Consent of Bank. No consent of the Bank shall be required under any provision of this 2013 Series Ordinance, nor shall the Bank have any right to receive notice of, consent to, direct or control any actions, restrictions, rights, remedies, waivers or accelerations pursuant to any provision of this 2013 Series Ordinance, during any time which:

(i) the Bank has wrongfully failed to provide funds pursuant to a properly presented purchase notice with respect to the purchase of Tendered Bonds under and in compliance with the terms of the applicable Liquidity Facility or the Bank has failed to honor a properly presented and conforming draw under and in compliance with the terms of the applicable Letter of Credit;

(ii) the applicable Liquidity Facility for any reason ceases to be valid and binding on the Bank or is declared to be null and void, or the validity or enforceability of any provision of the applicable Liquidity Facility is denied by the Bank or any governmental agency or authority, or the Bank is denying or contesting further liability or obligation under the applicable Liquidity Facility, in all of the above cases contrary to the terms of such Liquidity Facility;

(iii) the applicable Letter of Credit is no longer in effect and all amounts owing to the Bank under the applicable Bank Agreement have been paid in full;

(iv) a petition has been filed and is pending against the Bank under any bankruptcy, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, and has not been dismissed within 60 days after such filing;

(v) the Bank has filed a petition, which is pending, under any bankruptcy, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law, of any jurisdiction, whether now or hereafter in effect, or has consented to the filing of any petition against it under such law; or

(vi) the Bank is dissolved or confiscated by action of government due to war or peacetime emergency or the United States government declares a moratorium on the Bank's activities.

Section 315. Redemption of Series 2013 Variable Rate Bonds.

(a) The Series 2013 Variable Rate Bonds shall be subject to redemption prior to maturity at such times, subject to the remaining provisions of this Section 315 hereof, at such Redemption Prices (not exceeding 105% of the principal amount of the Series 2013 Variable Rate Bonds to be redeemed plus accrued interest, if any, to the redemption date) and upon such other terms as an Authorized Officer shall provide in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, each and all of which the Authorized Officer is authorized and directed to determine and approve on behalf of and in the name of the City.

(b) *Optional Redemption.*

(i) Series 2013 Variable Rate Bonds in a Daily Mode or a Weekly Mode shall be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Business Day during such Daily Mode or Weekly Mode, as applicable, at a Redemption Price not exceeding 103% of the principal amount of the Series 2013 Variable Rate Bonds to be redeemed plus accrued interest, if any, to the redemption date, as established in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable.

(ii) Series 2013 Variable Rate Bonds in an Adjustable Long Mode or a Fixed Mode shall be subject to redemption prior to their Maturity Date, during each Rate Period in which one of such Modes is applicable, at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on such days, at such Redemption Prices (not in excess of the limit specified above) and upon such other terms as are established in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable.

(iii) Series 2013 Variable Rate Bonds bearing interest at a Bank Purchase Rate shall be subject to optional redemption prior to their Maturity Date upon such other terms as are set forth in the applicable Bank Purchase Rate Agreement.

(iv) Series 2013 Variable Rate Bonds bearing interest at a Flexible Rate or an Adjustable Long Rate shall be subject to optional redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on such days, at such Redemption Prices (not in excess of the limit specified above) and upon such other terms as are set forth in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable.

(v) The City may deliver to the Trustee an alternate redemption schedule to the schedule in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, if the City delivers to the Bank and the Trustee an Opinion of Bond Counsel to the effect that the alternative schedule of redemption will not adversely affect the validity and enforceability of the Series 2013 Variable Rate Bonds in accordance with their terms and, with respect to Series 2013 Variable Rate Bonds the interest on which is excluded from gross income for federal income tax purposes, does not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Variable Rate Bonds would otherwise be entitled. After the first Rate Change Date succeeding the delivery of such alternate schedule and Opinion of Bond Counsel, Series 2013 Variable Rate Bonds in a Fixed Mode or an Adjustable Long Mode shall be subject to redemption pursuant to the terms of such alternate schedule.

(c) *Optional Redemption of Bank Bonds*. Bank Bonds shall be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on such days, at such Redemption Prices and upon such other terms

as are set forth in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable.

(d) *Extraordinary Redemption of Bank Bonds*. Bank Bonds shall be subject to mandatory redemption on the dates and in the amounts specified in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable. Such redemption shall be at such Redemption Prices and upon such other terms as are set forth in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable. Bank Bonds may be redeemed pursuant to this 2013 Series Ordinance without any notice from or direction by the City.

(e) *Priority of Redemption*. In the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, the City may, but shall not be required to, provide that, Bank Bonds shall be redeemed prior to any other Series 2013 Variable Rate Bonds.

(f) *Mandatory Redemption of Series 2013 Variable Rate Bonds*. The Series 2013 Variable Rate Bonds shall be subject to mandatory redemption prior to maturity in the amounts, at the Redemption Prices (subject to the limits prescribed in this Section) and upon such other terms as are set forth in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable. The principal amount of the Series 2013 Variable Rate Bonds to be mandatorily redeemed in each year may be reduced through the earlier optional redemption of Series 2013 Bonds, with any partial optional redemption of such Series 2013 Bonds credited against future Sinking Fund Installments of Series 2013 Variable Rate Bonds in such order of the applicable Sinking Fund Installment dates as the City may determine. In addition, on or prior to the sixtieth day preceding any Sinking Fund Installment date, the Trustee may, and if directed by the City shall, purchase Series 2013 Variable Rate Bonds required to be retired on such Sinking Fund Installment date. Any such Series 2013 Variable Rate Bonds so purchased shall be canceled and the principal amount thereof shall be credited against the payment required on such next Sinking Fund Installment date of Series 2013 Variable Rate Bonds.

(g) *General Provisions Regarding Redemptions*.

(i) No redemption of less than all of the Series 2013 Variable Rate Bonds Outstanding shall be made pursuant to Sections 315(b) or (c) hereof unless (a) if such redemption is of Bank Bonds or Series 2013 Variable Rate Bonds bearing interest at a Short Rate or an Adjustable Long Rate, the aggregate principal amount of Series 2013 Variable Rate Bonds to be redeemed is equal to $100,000 or integral multiples thereof and (b) if, such redemption is with respect to Series 2013 Variable Rate Bonds bearing interest as a Fixed Rate, the aggregate principal amount of Series 2013 Variable Rate Bonds to be redeemed is equal to $5,000 multiples. Any redemption of less than all of the Series 2013 Variable Rate Bonds Outstanding shall be made in such a manner that all Series 2013 Variable Rate Bonds Outstanding after such redemption are in Authorized Denominations.

(ii) Series 2013 Variable Rate Bonds may be called for redemption by the Trustee (A) in the case of Series 2013 Variable Rate Bonds bearing interest at a Short Rate, upon receipt by the Trustee at least 25 days prior to the redemption date of a

written request of the City requesting such redemption, or in accordance with any mandatory schedule provided in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable, or (B) in the case of Series 2013 Variable Rate Bonds bearing interest at an Adjustable Long Rate or a Fixed Rate, upon receipt by the Trustee at least 35 days prior to the redemption date of a written request of the City requesting such redemption, or in accordance with the mandatory schedule provided in the Series 2013 Determination Certificate or Mode Conversion Certificate, as applicable.

(iii) Bank Bonds may be called for redemption by the Trustee pursuant to Section 315(c) hereof upon receipt by the Trustee at least one Business Day prior to the redemption date of a written request of the City requesting such redemption.

(h) *Notice of Redemption.* Except as is otherwise provided with respect to Bank Bonds in this 2013 Series Ordinance, notice of the call for redemption of any Series 2013 Variable Rate Bonds identifying the Series 2013 Variable Rate Bonds to be redeemed shall be given by first class mail, postage prepaid, with respect to Series 2013 Variable Rate Bonds bearing interest at a Short Rate, not less than 20 or more than 45 days prior to the date fixed for redemption, and shall be given by first class mail, postage prepaid, with respect to Series 2013 Variable Rate Bonds bearing interest at an Adjustable Long Rate or a Fixed Rate, not less than 30 or more than 60 days prior to the date fixed for redemption, to the Holders of Series 2013 Variable Rate Bonds to be redeemed at their addresses as shown on the registration books of the City maintained by the Bond Registrar. Failure to give notice in the manner prescribed with respect to any Series 2013 Variable Rate Bond, or any defect in such notice, shall not affect the validity of the proceedings for redemption for any Series 2013 Variable Rate Bond with respect to which notice was properly given. Upon the happening of the above conditions and if sufficient moneys are on deposit with the Trustee on the applicable redemption date to redeem the Series 2013 Variable Rate Bonds to be redeemed and to pay interest due thereon and premium, if any, due with respect thereto, the Series 2013 Variable Rate Bonds thus called shall not after the applicable redemption date bear interest, be protected by the General Ordinance or this 2013 Series Ordinance or be deemed to be Outstanding under the provisions of the General Ordinance and this 2013 Series Ordinance.

(i) *Selection of Series 2013 Variable Rate Bonds to be Redeemed.* If less than all of the Series 2013 Variable Rate Bonds shall be called for redemption under any provision of this 2013 Series Ordinance permitting such partial redemption, the particular Series 2013 Variable Rate Bonds or portions thereof to be redeemed shall be selected by the City, except as otherwise provided in Section 315(e) hereof, in the principal amount designated to the Trustee by the City, which designation shall include the Interest Mode, Maturity Date, and, if the Series 2013 Variable Rate Bonds have been issued in Subseries, the Subseries of the particular Series 2013 Variable Rate Bonds to be redeemed, or as otherwise required by this 2013 Series Ordinance; *provided, however*, that (i) all partial redemptions of any Subseries of the Series 2013 Variable Rate Bonds shall be effected pursuant to the operating guidelines of DTC for selection by lottery, (ii) in the case of the redemption of less than all Series 2013 Variable Rate Bonds which bear interest in the same Interest Mode at the same rate for the same Rate Periods and which in the case of Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate were converted on the same date, such redemption shall be by lot in such manner as the Trustee may determine among such Series 2013 Variable Rate Bonds, and (iii) subject to other applicable provisions of this

2013 Series Ordinance, the portion of any Series 2013 Variable Rate Bond to be redeemed shall be in a principal amount equal to an Authorized Denomination. In selecting Series 2013 Variable Rate Bonds for redemption, the Trustee shall treat each Series 2013 Variable Rate Bond as representing that number of Series 2013 Variable Rate Bonds which is obtained by dividing the principal amount of such Series 2013 Variable Rate Bond by the minimum Authorized Denomination. If it is determined that one or more, but not all, of the integral multiples of the Authorized Denomination of principal amount represented by any Series 2013 Variable Rate Bond is to be called for redemption, then, upon notice of intention to redeem such integral multiple of an Authorized Denomination, the Holder of such Series 2013 Variable Rate Bond shall forthwith surrender such Series 2013 Variable Rate Bond to the Trustee for (a) payment to such Holder of the redemption price of the integral multiple of the Authorized Denomination of principal amount called for redemption, and (b) delivery to such Holder of a new Series 2013 Variable Rate Bond(s) in the aggregate principal amount of the unredeemed balance of the principal amount of such Series 2013 Variable Rate Bond. New Series 2013 Variable Rate Bonds representing the unredeemed balance of the principal amount of such Series 2013 Variable Rate Bond shall be issued to the Holder thereof without charge therefor. Anything herein to the contrary notwithstanding, any redemption of less than all of the Series 2013 Variable Rate Bonds Outstanding shall be made first from Bank Bonds. At any time the Series 2013 Variable Rate Bonds are held by DTC in its global Book Entry System, the foregoing will be subject to their operating guidelines for selection of bonds to be redeemed by lottery.

Section 316. Registration, Transfer and Exchange of Series 2013 Variable Rate Bonds.

Subject to the limitations set forth in the following paragraph with respect to Series 2013 Variable Rate Bonds in the Bank Purchase Mode, Series 2013 Variable Rate Bonds are transferable only upon the registration books of the City kept for that purpose by the Bond Registrar at the designated corporate trust office of the Trustee in Chicago, Illinois, by the Holder of a Series 2013 Variable Rate Bond in person, or by the Holder's agent duly authorized in writing. Upon the surrender of a Series 2013 Variable Rate Bond, together with a written instrument of transfer satisfactory to the Trustee duly executed by the Holder or the Holder's agent duly authorized in writing, and upon the payment of any charges prescribed in the General Ordinance, a new registered Series 2013 Variable Rate Bond, in the same aggregate principal amount and of the same maturity, shall be issued to the transferee as provided in the General Ordinance. The City and the Trustee may deem and treat the Holder of a Series 2013 Variable Rate Bond as the absolute owner of such Series 2013 Variable Rate Bond (whether or not such Series 2013 Variable Rate Bond shall be overdue) for the purpose of receiving payment of or on account of principal of such Series 2013 Variable Rate Bond and the Redemption Price, if any, and interest due on such Series 2013 Variable Rate Bond and for all other purposes, and neither the City nor the Trustee shall be affected by any notice to the contrary. Notwithstanding the provisions of Section 203, neither the City nor the Trustee shall be obligated to make any exchange or transfer of a Series 2013 Variable Rate Bond during the period from the Record Date applicable to such Series 2013 Variable Rate Bond to the next Interest Payment Date for such Series 2013 Variable Rate Bond or to make any such transfer or exchange of such Series 2013 Variable Rate Bond if such Series 2013 Variable Rate Bond is proposed to be redeemed after its selection by the Trustee for redemption.

Series 2013 Variable Rate Bonds in the Bank Purchase Mode may be transferred only (i) to Accredited Investors or Qualified Institutional Buyers, and (ii) after the Trustee and the City have received an Investor Representations Letter executed by the transferee of each Series 2013 Variable Rate Bond to be so transferred; provided that the Series 2013 Variable Rate Bonds in the Bank Purchase Mode may also be transferred to a grantor trust or other custodial arrangement so long as the owners of any beneficial interests therein (1) are Accredited Investors or Qualified Institutional Buyers and (2) have delivered to the Trustee and the City an executed Investor Representations Letter. At any time at which a Subseries of the Series 2013 Variable Rate Bond is held by DTC in its global Book Entry System, the foregoing limitations shall apply to beneficial interests in the Series 2013 Variable Rate Bonds of such Subseries and to Beneficial Owners.

The Series 2013 Variable Rate Bonds shall be issued in fully registered form in Authorized Denominations.

Article IV

PURCHASE OF SERIES 2013 VARIABLE RATE BONDS

Section 401. Purchase on Demand of Holder While Series 2013 Variable Rate Bonds Bear Interest at Daily Rate or Weekly Rate.

(a) While a Series 2013 Variable Rate Bond bears interest at a Daily Rate, such Series 2013 Variable Rate Bond (or portion thereof in an Authorized Denomination) shall be purchased on a Demand Date therefor upon the demand of the Holder thereof, at a Purchase Price equal to 100 percent of the principal amount thereof plus accrued interest, if any, to such Demand Date, upon irrevocable telephonic, electronic or written notice (which telephonic notice shall be confirmed in writing, and which written notice may be given by telecopy) to both the Trustee's Agent and the Remarketing Agent, which notice must be received not later than 10:00 a.m., Chicago time, on a Business Day in order to be effective on that date. Any notice received after 10:00 a.m., Chicago time, on a Business Day shall be deemed given on the next succeeding Business Day. The Business Day on which any notice is deemed given will be the Demand Date for the applicable Tendered Bond. Such notice must specify the principal amount and number of such Series 2013 Variable Rate Bond, the name and the address of such Holder and the taxpayer identification number, if any, of such Holder. The Trustee's Agent shall give Immediate Notice (which notice shall be delivered no later than 10:15 a.m., Chicago time, on the Business Day on which it receives notice of tender) to the Trustee, the City and the Bank as to the contents of any such notices received by it.

(b) While a Series 2013 Variable Rate Bond bears interest at a Weekly Rate, such Series 2013 Variable Rate Bond (or portion thereof in an Authorized Denomination) shall be purchased on a Demand Date therefor upon the demand of the Holder thereof, at a Purchase Price equal to 100 percent of the principal amount thereof plus accrued interest, if any, to such Demand Date, upon irrevocable electronic or written notice (which may be given by telecopy) to the Trustee's Agent and the Remarketing Agent, which notice must be received by the Trustee's Agent and the Remarketing Agent not later than 4:00 p.m., Chicago time, on a Business Day in order to be effective on the Business Day requested as the Demand Date, which Demand Date

shall not be less than seven calendar days after the effective date such notice is received. Any notice received after 4:00 p.m., Chicago time, on a Business Day shall be deemed given on the next succeeding Business Day. Such notice must specify (i) the principal amount and number of such Series 2013 Variable Rate Bond, the name and the address of such Holder and the taxpayer identification number, if any, of such Holder, and (ii) the Demand Date on which such Series 2013 Variable Rate Bond is to be purchased. The Trustee's Agent shall give Immediate Notice (which notice shall be given no later than 4:30 p.m., Chicago time, on the Business Day on which it receives notice of tender) to the Trustee, the City and the Bank as to the contents of any such notices received by it.

(c) The determination of the Trustee's Agent and the Remarketing Agent as to whether a notice of tender has been properly delivered pursuant to the foregoing shall be conclusive and binding upon the Holder of such Tendered Bond. Any notice received by the Trustee's Agent and the Remarketing Agent pursuant to this Section from any person reasonably believed by the Trustee's Agent and the Remarketing Agent to be the Holder of a Series 2013 Variable Rate Bond may be conclusively relied upon by the Trustee's Agent and the Remarketing Agent as a true, irrevocable notice of demand with respect to such Series 2013 Variable Rate Bond.

Section 402. Purchase on Notice of Default Under Bank Agreement.

(a) When a Liquidity Facility is in effect, the Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds owned by or on behalf of the City and Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate) are subject to mandatory tender by the Holders thereof to the Trustee when the Trustee gives Immediate Notice to the Holders of such Series 2013 Variable Rate Bonds and the Remarketing Agent of the occurrence and continuation of a Liquidity Facility Default. When a Letter of Credit is in effect, the Series 2013 Variable Rate Bonds (other than the Bank Bonds, Series 2013 Variable Rate Bonds owned by or on behalf of the City and Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate) are subject to mandatory tender by the Holders thereof to the Trustee when the Trustee gives Immediate Notice to the Holders of such Series 2013 Variable Rate Bonds and the Remarketing Agent of the occurrence of a default under the applicable Bank Agreement. Upon the giving of such Immediate Notice, such Series 2013 Variable Rate Bonds shall be purchased, on a date designated by the Trustee, which date is no more than 15 days after the date of the Immediate Notice to the Holders and, when a Letter of Credit is in effect, is no less than three days and no more than five days after the date the Trustee receives notice of such deposit from the Bank, and in no event later than the Business Day prior to the last day on which funds will be available under the Liquidity Facility or Letter of Credit, as applicable, at a Purchase Price equal to 100 percent of the principal amount thereof plus accrued interest, if any, to the purchase date. In such case, the Holder of any such Series 2013 Variable Rate Bond required to be purchased may not elect to retain its Series 2013 Variable Rate Bond and by the acceptance of such Series 2013 Variable Rate Bond shall be deemed to have agreed to sell such Series 2013 Variable Rate Bond to the Trustee on the date specified pursuant to this Section. The Trustee shall give such Immediate Notice upon receipt by the Trustee of a written notice from the Bank of (i) in the case of a Liquidity Facility, of the occurrence of a Liquidity Facility Default and (ii) in the case of a Letter of Credit, of the occurrence of a default under the Bank Agreement.

(b) If a Liquidity Facility is in effect, upon receipt by the Trustee of a written notice from the Bank of the occurrence and continuation of a Special Default under the Bank Agreement, the Trustee shall give Immediate Notice thereof to the Holders of all the Series 2013 Variable Rate Bonds and the Remarketing Agent, which notice shall state that there will be no mandatory purchase of the Series 2013 Variable Rate Bonds as a result of such Special Default and that the Series 2013 Variable Rate Bonds will no longer be entitled to the benefits of a Liquidity Facility or that the obligation of the Bank to provide funds thereunder is suspended but that the tender provisions in the other Sections of this Section will remain in effect, as the case may be, and that the applicable Bank Agreement may terminate if such suspension is not cured within the time period specified in such Bank Agreement.

If a Liquidity Facility is in effect, and if Immediate Notice of a mandatory tender has been given due to receipt by the Trustee of written notice from the Bank of the occurrence of a Liquidity Facility Default, but a Special Default occurs prior to the mandatory tender date, the Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds owned by or on behalf of the City and Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate) shall remain subject to mandatory tender on such date, although the Purchase Price thereof will not be payable from amounts drawn under the Bank Agreement.

Section 403. Purchase While Series 2013 Variable Rate Bonds Bear Flexible Rate.

While any Series 2013 Variable Rate Bond bears interest at a Flexible Rate, such Series 2013 Variable Rate Bond shall be purchased on each Rate Change Date for such Series 2013 Variable Rate Bond, other than the Rate Change Date which is the first day of a Flexible Mode applicable to such Series 2013 Variable Rate Bond, and on the Adjustment Date immediately following the last day of the Flexible Mode, at a Purchase Price equal to 100 percent of the principal amount thereof. The Holder of such Series 2013 Variable Rate Bond may not elect to retain its Series 2013 Variable Rate Bond.

Not later than the 15th day next preceding such Rate Change Date for each Rate Period, the Trustee shall give notice by mail to the Holders of the Series 2013 Variable Rate Bonds which bear interest at a Flexible Rate stating (i) the last day of the Rate Period then ending, and (ii) that the Series 2013 Variable Rate Bonds are required to be purchased on such Rate Change Date. The foregoing notwithstanding, the failure of the Trustee to give such notice or cause such notice to be given will not affect the requirement of such Holders to tender their Series 2013 Variable Rate Bonds for purchase. If sufficient moneys are on deposit with the Trustee on the applicable Rate Change Date to purchase such Tendered Bonds at the Purchase Price therefor, such Tendered Bonds shall not after the applicable Rate Change Date, and, with respect to such Holders, bear interest, be protected by the General Ordinance or this 2013 Series Ordinance or be deemed to be Outstanding.

Section 404. Purchase Prior to Stated Termination Date When Required Substitute Credit Support Instrument Not In Place; Purchase Prior to Substitution Date.

(a) If, during the period a Liquidity Facility is in effect pursuant to the terms of Section 310 hereof, by the 30th day (or such other number of days as set forth in the Series 2013 Determination Certificate) preceding any Stated Termination Date of the Liquidity Facility, the

Trustee has not received notice of an extension of the then-current Liquidity Facility in accordance with the terms of this 2013 Series Ordinance, then the Trustee shall give Immediate Notice to the City and all Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds owned by or on behalf of the City and Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate) shall be tendered (or deemed tendered) for purchase pursuant to Section 404(b) below if an extension of the Stated Termination Date of the Liquidity Facility or a Substitute Liquidity Facility, or a Letter of Credit is not delivered to the Trustee not later than the 30th day preceding the Stated Termination Date of the Liquidity Facility. If Liquidity Facility is in effect pursuant to Section 310 hereof, and the City has delivered to the Trustee a Substitute Liquidity Facility or Letter of Credit pursuant to Section 311 hereof, Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds owned by or of the City and Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate) shall be tendered (or deemed tendered) for purchase hereunder. If a Liquidity Facility or Letter of Credit is no longer required pursuant to Section 313 hereof, all Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds owned by or on behalf of the City and Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate) shall be tendered (or deemed tendered for purchase on the Business Day prior to the Liquidity Facility Cancellation Date or Letter of Credit Cancellation Date pursuant to this Section. A purchase of Tendered Bonds pursuant to this Section shall be at a Purchase Price for each such Tendered Bond equal to the principal amount thereof plus accrued interest, if any, to the purchase date. The Holder of such Series 2013 Variable Rate Bond may not elect to retain its Series 2013 Variable Rate Bond.

(b) Not later than the 30th day (or such other number of days as set forth in the Series 2013 Determination Certificate) preceding the Stated Termination Date of the Liquidity Facility, if no extension of such Liquidity Facility and no Liquidity Facility or no Substitute Liquidity Facility or Letter of Credit has been delivered, the Trustee shall give Immediate Notice to the Holders of the Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds owned by or on behalf of the City bearing interest at a Fixed Rate) stating (i) the Stated Termination Date, (ii) that no extension of the Liquidity Facility and no Substitute Liquidity Facility or Letter of Credit has been received as of the date of such notice, and (iii) that the Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds owned by or on behalf of the City or bearing interest at a Fixed Rate) are required to be tendered (or deemed tendered) for purchase on the Business Day immediately preceding the Stated Termination Date.

(c) Not later than the 15th day (or such other number of days as set forth in the Series 2013 Determination Certificate) preceding a Liquidity Substitution Date, the Trustee shall give Immediate Notice to the Holders of the Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds owned by or on behalf of the City and Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate) stating (i) the Liquidity Substitution Date, and (ii) that the Series 2013 Variable Rate Bonds (other than Bank Bonds, Series 2013 Variable Rate Bonds owned by or on behalf of the City and Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate) are required to be purchased on the Liquidity Substitution Date, provided that the Trustee shall not terminate, cancel or release the then existing Liquidity Facility until the Series 2013 Variable Rate Bonds subject to mandatory tender pursuant to this Section have actually been purchased, and provided further that, to the extent needed to pay the purchase price of tendered Series 2013 Variable Rate Bonds on a Liquidity Substitution Date, the

Trustee shall draw on the existing Liquidity Facility then in effect and receive payment thereunder, prior to the surrender thereof and acceptance of a Substitute Liquidity Facility or Alternate Letter of Credit.

Section 405. Purchase While Series 2013 Variable Rate Bonds Bear Adjustable Long Rate.

While any Series 2013 Variable Rate Bond bears interest at an Adjustable Long Rate, such Series 2013 Variable Rate Bond shall be purchased pursuant to this Section on each Rate Change Date within an Adjustable Long Mode for such Series 2013 Variable Rate Bond, other than the Rate Change Date which is the first day of an Adjustable Long Mode applicable to such Series 2013 Variable Rate Bond, and on the Adjustment Date immediately following the last day of such Adjustable Long Mode, at a Purchase Price equal to 100 percent of the principal amount thereof. The Holder of such Series 2013 Variable Rate Bond may not elect to retain its Series 2013 Variable Rate Bond.

Not later than the 15th day (or such other number of days as set forth in the Series 2013 Determination Certificate) next preceding such Rate Change Date for each Rate Period, the Trustee shall give notice by mail to the Holders of the Series 2013 Variable Rate Bonds which bear interest at an Adjustable Long Rate stating (i) the last day of the Rate Period then ending, and (ii) that such Series 2013 Variable Rate Bonds are required to be purchased on such Rate Change Date. The foregoing notwithstanding, the failure of the Trustee to give such notice or cause such notice to be given will not affect the requirement of such Holders to tender their Series 2013 Variable Rate Bonds for purchase. If sufficient moneys are on deposit with the Trustee on the applicable Rate Change Date to purchase such Tendered Bonds at the Purchase Price therefor, such Tendered Bonds shall not after the applicable Rate Change Date and, with respect to such Holders, bear interest, be protected by the General Ordinance or this 2013 Series Ordinance or be deemed to be Outstanding.

Section 406. Purchase on Adjustment Date.

On each Adjustment Date with respect to a Series 2013 Variable Rate Bond (other than a Bank Bond), including, without limitation, a proposed Fixed Rate Conversion Date or a Substitute Adjustment Date, such Series 2013 Variable Rate Bond shall be purchased pursuant to this Section at a Purchase Price equal to 100 percent of the principal amount thereof, except that (i) a Series 2013 Variable Rate Bond which is to be purchased on an Adjustment Date which immediately follows the last day of a Flexible Mode shall be purchased pursuant to Section 403 hereof, and (ii) a Series 2013 Variable Rate Bond which is to be purchased on an Adjustment Date which immediately follows the scheduled final day of an Adjustable Long Mode shall be purchased pursuant to Section 405 hereof. The Holder of such Series 2013 Variable Rate Bond may not elect to retain its Series 2013 Variable Rate Bond.

Not later than the 15th day (or such other number of days as set forth in the Series 2013 Determination Certificate) next preceding the Adjustment Date for any Series 2013 Variable Rate Bond bearing interest at a Daily Rate or a Weekly Rate, the Trustee shall give Immediate Notice to the Holder of such Series 2013 Variable Rate Bond stating (i) the last day of the

Adjustment Period then ending, and (ii) that such Series 2013 Variable Rate Bond is required to be purchased on the Adjustment Date.

Section 407. Purchase on Special Mandatory Tender Date.

Series 2013 Variable Rate Bonds (or Subseries thereof) bearing interest in the Bank Purchase Mode shall, subject to the terms and conditions of the applicable Bank Purchase Rate Agreement, be subject to mandatory tender for purchase on the Special Mandatory Tender Date for such Series 2013 Variable Rate Bonds at par plus accrued interest to such Special Mandatory Tender Date. The Purchaser of such Series 2013 Variable Rate Bonds may not elect to retain its Series 2013 Variable Rate Bonds and by acceptance of such Series 2013 Variable Rate Bonds shall be deemed to have agreed to deliver such Series 2013 Variable Rate Bonds to the Trustee on the Special Mandatory Tender Date for such Series 2013 Variable Rate Bonds.

Section 408. Purchase of Tendered Bonds Delivered to Trustee's Agent; Notices.

(a) Tendered Bonds shall be purchased from their Holders at a Purchase Price equal to 100 percent of the principal amount thereof, plus accrued interest thereon (unless purchased on an Interest Payment Date, in which event such accrued interest shall not be paid as part of the Purchase Price secured by, or payable from, the Liquidity Facility or Letter of Credit, as applicable), but solely from the following sources of funds in order of priority indicated below, and neither the City, the Trustee, the Trustee's Agent nor the Remarketing Agent shall have an obligation to use funds from any other source:

(i) proceeds of the sale of such Tendered Bonds (other than Tendered Bonds sold to the City in violation of Section 412(b)) hereof pursuant to Section 409 hereof,

(ii) moneys received from the purchasers (other than the City) of Tendered Bonds upon the conversion of the interest rate thereon to a Fixed Rate;

(iii) proceeds of the Letter of Credit, to the extent a Letter of Credit is then available, and, if not, then proceeds of the applicable Liquidity Facility, to the extent a Liquidity Facility is available; and

(iv) other moneys furnished by the City in its sole discretion, if any, to the Trustee for the purchase of Tendered Bonds, provided that the conditions of Section 412(b) hereof are satisfied.

(b) The Trustee shall transfer the proceeds of sale of Tendered Bonds and proceeds of the Liquidity Facility or Letter of Credit, as applicable, to the Trustee's Agent, if any, by 1:25 p.m. Chicago time on the purchase date. The Trustee's Agent shall pay the Purchase Price specified above from the sources specified above of each Tendered Bond to the Holder thereof by 1:30 p.m., Chicago time, on the purchase date, provided that the Trustee's Agent shall have confirmed that such Holder has delivered such Tendered Bond (with any necessary endorsements) to the designated corporate trust office of the Trustee's Agent no later than 12:00 noon, Chicago time, on such date.

If the Series 2013 Variable Rate Bonds are in a Book Entry System, the requirement for physical delivery of Tendered Bonds in connection shall be deemed satisfied when the ownership rights in the Series 2013 Variable Rate Bonds are transferred by participants in the Securities Depository on the records of the Securities Depository to the participant account of the Trustee.

Section 409. Remarketing of Tendered Bonds by Remarketing Agent.

Subject to Section 411 hereof, upon the delivery or deemed delivery of Tendered Bonds by the Holders thereof in accordance with the provisions hereof, the Remarketing Agent shall offer for sale and use its best efforts to remarket such Tendered Bonds pursuant to the Remarketing Agreement, any such remarketing to be made on the date on which such Tendered Bonds are to be purchased, at a price equal to 100 percent of the principal amount thereof plus accrued interest, if any.

If Tendered Bonds are to be delivered for purchase under Section 401(a) hereof, the Remarketing Agent shall give telephonic or electronic notice to the Trustee, the Trustee's Agent, the City, and the Bank no later than 10:30 a.m., Chicago time, on the date on which such Tendered Bonds are to be so delivered or deemed delivered, of the aggregate principal amount of such Tendered Bonds to be purchased on such date which it has reasonable grounds to expect will not be remarketed on such date.

In addition, with respect to Tendered Bonds delivered or deemed delivered for purchase under Section 401(b), 402, 403, 404, 405, 406 or 407 hereof, the Remarketing Agent shall give telephonic or electronic notice to the Trustee, the Trustee's Agent, the City and the Bank no later than 3:00 p.m., Chicago time, on the Business Day next preceding the date on which such Tendered Bonds are to be so delivered or deemed delivered, of the aggregate principal amount of such Tendered Bonds to be purchased on such date which it has reasonable grounds to expect will not be remarketed on such date.

When a Letter of Credit is in effect, the Trustee shall pay the Purchase Price of such unremarketed Tendered Bonds with a draw on the Letter of Credit for the principal portion and the interest portion of the purchase price of such Tendered Bonds to the extent the remarketing proceeds are insufficient to make such payment by the times required by Section 410 hereof.

The Remarketing Agent shall remarket Bank Bonds to the extent, and subject to the conditions, set forth herein and in the Remarketing Agreement and prior to the remarketing of any other Series 2013 Variable Rate Bonds; *provided, however*, that no Bank Bond may be remarketed unless simultaneously with such remarketing the amount of funds which are available under the Liquidity Facility or the Letter of Credit, as applicable, has been reinstated to an amount which is equal to the principal amount of such Series 2013 Variable Rate Bonds and the applicable interest component covered under the Liquidity Facility or the Letter of Credit, as applicable, unless the Liquidity Facility or the Letter of Credit, as applicable, is no longer required pursuant to Section 313 hereof. Bank Bonds shall be remarketed at a price of par plus accrued interest, if any, until the Bond Sale Date; Bank Bonds may be remarketed at a rate up to and including the Maximum Rate by the Remarketing Agent, to the extent permitted by the Bank Agreement, as if such Bank Bonds had accrued interest at the Bank Variable Rate. If on the

Bond Sale Date, Bank Bonds are remarketed with accrued interest computed based on the Bank Variable Rate instead of the Bank Rate, the Differential Interest Amount shall be due to the Bank from the City on the Bond Sale Date (or such later date as is provided in the Bank Agreement). Upon the remarketing of Bank Bonds, the Remarketing Agent shall immediately provide telephonic or electronic notice, promptly confirmed by telecopy or electronic mail, of such remarketing to the Trustee, the City and the Bank, and thereupon the Trustee shall, subject to Section 410(a)(ii) hereof, immediately deliver or provide for transfer of beneficial interest in such Bank Bonds for delivery to the purchasers thereof upon payment to the Bank of the principal amount of such Bank Bonds.

Section 410. Delivery of Tendered Bonds and Proceeds of Sale; Failed Purchase.

(a) (i) Subject to Section 411 hereof, Tendered Bonds remarketed by the Remarketing Agent pursuant to Section 409 hereof shall be delivered by the Trustee or the Trustee's Agent as directed by the Remarketing Agent by 11:00 a.m., Chicago time, on the date against payment therefor. The proceeds of sale by the Remarketing Agent shall be delivered to the Trustee by 10:00 a.m., (for Tendered Bonds in any Interest Mode other than the Daily Mode) or 10:45 a.m. (for Tendered Bonds in the Daily Mode) Chicago time, on the date of purchase.

(ii) Bank Bonds shall be delivered to the Trustee or otherwise at the direction of the Bank, or for as long as the Series 2013 Variable Rate Bonds are in the Book Entry System, credited to the designated account of the Bank or its designee as beneficial Holder of such Bank Bonds by DTC (in its capacity as custodian) pursuant to the Bank Agreement or Custody Agreement, if any. Notwithstanding anything herein to the contrary, if the Trustee holds Bank Bonds as custodian for the Bank pursuant to the Bank Agreement or Custody Agreement, if any, the Trustee shall not release to the purchaser thereof Bank Bonds remarketed pursuant to Section 409 hereof unless the Bank shall have given written notification (which may be by facsimile or electronic communication) to the Trustee that it has either (i) reinstated the Liquidity Facility or the Letter of Credit, as applicable, in an amount equal to the principal amount of the Bank Bonds remarketed plus the applicable interest component, unless a Liquidity Facility and Letter of Credit is no longer required pursuant to Section 313 hereof or (ii) has reinstated the Letter of Credit simultaneously with the receipt of remarketing proceeds, unless a Letter of Credit is no longer required pursuant to Section 313 hereof. The Trustee shall follow the provisions of the Bank Agreement or the Custody Agreement, if any, as to registration and procedures for Bank Bonds during the effective period of the Liquidity Facility or Letter of Credit. Reinstatement of the Liquidity Facility or Letter of Credit, as applicable, shall also be a requirement of the transfer of any Bank Bonds if the Trustee does not hold the Bank Bonds pursuant to the Custody Agreement.

(b) Except as otherwise provided in the Bank Agreement or the Custody Agreement, if any, Tendered Bonds delivered as provided in this Section shall be registered in the manner directed by the purchaser thereof, except that Bank Bonds shall be registered in the name of the Bank, or its designee, and beneficial interests therein shall be transferred as provided in paragraph (a)(ii) above.

(c) The Trustee's Agent and the Remarketing Agent shall notify the Trustee in writing (which may be delivered by telecopy or electronically) no later than 10:30 a.m., Chicago time, on each day on which Tendered Bonds in the Daily Mode, and no later than 3:00 p.m., Chicago time, on the Business Day prior to the day on which Tendered Bonds in any other Interest Mode, are delivered or deemed delivered for purchase under Sections 401 through 406 hereof of the aggregate principal amount of Tendered Bonds to be purchased on such date. The Trustee shall take such actions as are necessary to draw or obtain funds under the Liquidity Facility in accordance with its terms to pay the Purchase Price of such Tendered Bonds (other than Bank Bonds and Series 2013 Variable Rate Bonds owned by the City) on such date; and, in connection with the Letter of Credit, shall make drawings thereunder (based upon the proceeds of sale by the Remarketing Agent actually delivered to the Trustee by 10:00 a.m. (for Tendered Bonds in any Interest Mode other than the Daily Mode) or 10:45 a.m. (for Tendered Bonds in the Daily Mode), Chicago time, on the date of purchase pursuant to paragraph (a)(i) of this Section) no later than 10:30 a.m. for Tendered Bonds in any Interest Mode other than the Daily Mode or 11:15 a.m. Chicago time for Tendered Bonds in the Daily Mode, on such date in order to obtain funds thereunder by no later than 1:15 p.m. Chicago time, on such date. Upon receipt of such funds, the Trustee shall immediately pay the tendering Holders the Purchase Price for their Series 2013 Variable Rate Bonds. If the Series 2013 Variable Rate Bonds are Outstanding in Subseries and there are two or more letters of credit related to such Subseries constituting the Letter of Credit for such Subseries, the Trustee shall draw on each Letter of Credit in proportion to the Tendered Bonds of such Subseries not remarketed. If surplus moneys from the Bank remain after the payment in full of all Tendered Bonds, the Trustee shall provide Immediate Notice to the Bank of the amount of funds made available by the Bank on such date which are not required for the payment of Tendered Bonds and shall immediately return such excess funds to the Bank.

(d) If sufficient moneys are on deposit with the Trustee or the Trustee's Agent to pay the applicable Purchase Price of any Tendered Bond, such Tendered Bond shall be deemed to have been purchased whether or not delivered by the Holder thereof on the date such Tendered Bond is to be purchased. If any such purchased Tendered Bond is not so delivered, the City shall execute, and the Trustee shall authenticate and deliver, a replacement Series 2013 Variable Rate Bond of like date, Maturity Date and denomination as the Tendered Bond and bearing a number not contemporaneously Outstanding.

(e) In the event the Remarketing Agent is unable to remarket the Tendered Bonds upon a tender thereof, and the Bank does not purchase the Tendered Bonds for any reason whatsoever, the City may, but need not, purchase the Tendered Bonds. If the City does not purchase the Tendered Bonds, the Tendered Bonds shall remain Outstanding and shall continue to be owned by the Holders seeking to tender their Tendered Bonds. Such Tendered Bonds shall bear interest at the Failed Tender Rate until funds to purchase such Tendered Bonds are made available to such Holders, at which time such Holders shall be required to deliver such Tendered Bonds as if the failed purchase had not occurred. If such failed purchase occurs in connection with any Adjustment Date, such Tendered Bonds subject to the Adjustment Date shall remain Outstanding in the Interest Mode in which they had been and shall bear interest at the Failed Tender Rate as aforesaid.

Section 411. No Remarketing After Certain Defaults.

If no Liquidity Facility or Letter of Credit is in effect, there shall be no remarketing of Tendered Bonds unless consented to in writing by the City and the Remarketing Agent or unless no Liquidity Facility or Letter of Credit is required pursuant to Section 313 hereof, and if there shall have occurred and be continuing an Event of Default under the General Ordinance of which an authorized officer in the principal office of the Remarketing Agent or an authorized officer in the designated corporate trust office of the Trustee has actual knowledge, there shall be no remarketing of Tendered Bonds pursuant to Section 409 hereof unless consented to in writing by the City and the Remarketing Agent. In addition, when a Liquidity Facility is in effect, the Remarketing Agent shall be under no obligation to remarket Tendered Bonds upon the occurrence and continuance of a Special Default, Liquidity Facility Default or the wrongful failure by the Bank to honor a properly presented purchase notice under the Liquidity Facility.

Section 412. Limitations on Remarketing.

(a) Any Tendered Bond purchased pursuant to Sections 401 through 406 hereof from the date notice is given of redemption of such Tendered Bond through the date for such redemption, or from the date of notice of mandatory purchase of such Tendered Bond pursuant to Sections 402 through 406 hereof through the date for such mandatory purchase, shall not be remarketed except to a purchaser who has been notified at the time of such purchase of the requirement to deliver such Tendered Bond for redemption or purchase to the Trustee on the redemption or purchase date.

(b) Series 2013 Variable Rate Bonds acquired by, or on behalf of, the City may not be tendered for purchase pursuant to Sections 401 to 406 hereof. Tendered Bonds shall not be remarketed to the City. The requirement of the preceding sentence shall not apply to a purchase of Tendered Bonds when either (a) the Bank has failed to honor a properly presented and conforming drawing under the Letter of Credit then in effect or, if a Liquidity Facility is then in effect with respect to the Series 2013 Variable Rate Bonds, there is a Special Default thereunder, or (b) no Letter of Credit or Liquidity Facility is required to be in effect pursuant to this 2013 Series Ordinance. The Trustee shall not be required to monitor the actions of the Remarketing Agent to ensure that it will not remarket any Tendered Bonds to the City, and, for the purposes of Section 408(a)(i) hereof, the Trustee may, in the absence of actual notice to the contrary, assume that no funds furnished to the Trustee by the Remarketing Agent constitute proceeds of the remarketing of any Tendered Bonds to the City.

(c) Notwithstanding anything else herein to the contrary, in no event shall any Series 2013 Variable Rate Bond owned by the City be entitled to the benefit of the tender provisions hereof, and, consequently, in no event shall proceeds of a Letter of Credit or Liquidity Facility ever be applied to the payment of such Series 2013 Variable Rate Bonds owned by or on behalf of the City (and, as such, the Trustee shall make no drawings under a Letter of Credit or Liquidity Facility with respect thereto).

Article V

MODE CONVERSION

Section 501. Authority for and Conditions to Conversion to Adjustable Long Mode or Short Mode.

(a) It is not necessary that all of the Series 2013 Variable Rate Bonds operate in the same Interest Mode, or, within an Adjustable Long Mode or a Flexible Mode, the same Rate Period, at the same time, provided that any Subseries of Series 2013 Variable Rate Bonds supported by a Letter of Credit or a Liquidity Facility shall operate in the same Interest Mode. In connection with any conversion of the Series 2013 Variable Rate Bonds (or Subseries thereof) to another Interest Mode, on the applicable Adjustment Date two or more Subseries of the Series 2013 Variable Rate Bonds may be combined into one Subseries or divided into two or more Subseries, with such numerical designations as the City shall designate. The City may designate a different Interest Mode with respect to any Subseries of the Series 2013 Variable Rate Bonds during a Flexible Mode or one or more Adjustable Long Modes on any Rate Change Date, and during a Daily Mode, a Weekly Mode or a Bank Purchase Mode on any Business Day, upon compliance with this Section. The City may select such subsequent Interest Mode and, within an Adjustable Long Mode or a Flexible Mode, the Remarketing Agent may designate such Rate Periods from time to time, upon the written request of the City, as will, in its judgment, result in the lowest aggregate cost being payable by the City with respect to the Series 2013 Variable Rate Bonds bearing interest at a Flexible Rate or an Adjustable Long Rate, as the case may be, taking into account interest and any other determinable fees and expenses, and taking into account any Qualified Swap Agreement relating to such Series 2013 Variable Rate Bonds. The City may establish different Interest Modes and, within an Adjustable Long Mode or a Flexible Mode, the Remarketing Agent may from time to time, upon the written request of the City, establish different Rate Periods, for Series 2013 Variable Rate Bonds on the same Adjustment Date in order to achieve an average duration of Rate Periods that, in the judgment of the Remarketing Agent, is most likely to achieve the lowest total aggregate cost being payable by the City with respect to the Series 2013 Variable Rate Bonds, taking into account interest and any other determinable fees and expenses, and taking into account any Qualified Swap Agreement relating to such Series 2013 Variable Rate Bonds. The Remarketing Agent's determination shall be based upon the market for and the relative yields of the Series 2013 Variable Rate Bonds and other securities that bear interest at a variable rate or at fixed rates that, in the judgment of the Remarketing Agent, are otherwise comparable to the Series 2013 Variable Rate Bonds, or any fact or circumstance relating to the Series 2013 Variable Rate Bonds or affecting the market for the Series 2013 Variable Rate Bonds, or affecting such other comparable securities, in a manner that, in the judgment of the Remarketing Agent, will affect the market for the Series 2013 Variable Rate Bonds. The Remarketing Agent, in its discretion, may consider such information and resources as it deems appropriate in making the determinations required by this Section, but the Remarketing Agent's determination shall be based solely upon the Remarketing Agent's judgment, and the Remarketing Agent's determination shall be conclusive and binding upon all parties. The foregoing notwithstanding, the City may select any Interest Mode and, within an Adjustable Long Mode or a Flexible Mode, the Remarketing Agent may designate any Rate Period which does not meet the foregoing standards if the conditions of Section 501(h)(ii) hereof are satisfied. The City shall select such a

principal amount of Series 2013 Variable Rate Bonds for conversion from one Interest Mode to another as will allow Series 2013 Variable Rate Bonds after conversion to be sold in the minimum Authorized Denominations applicable to such Interest Mode; *provided, however*, that if the Series 2013 Variable Rate Bonds or a Subseries thereof is bearing interest at a Bank Purchase Rate, then the City shall not convert less than the entire principal amount of such Series 2013 Variable Rate Bonds or a Subseries thereof, as applicable, to a new Interest Mode. Notwithstanding anything herein to the contrary, no conversion of all or any portion of the Series 2013 Variable Rate Bonds may occur unless, concurrently with the City's written notice in (b) below, an Opinion of Bond Counsel is delivered to the Trustee to the effect that such conversion will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled. If there is an attempt to convert the Series 2013 Variable Rate Bonds into an Interest Mode not covered by the Letter of Credit and the remarketing of the Series 2013 Variable Rate Bonds in the new Interest Mode fails for any reason, such conversion shall not be effective and the Series 2013 Variable Rate Bonds shall remain in the Interest Mode they were in prior to the attempted conversion.

(b) The City shall evidence each election that the Series 2013 Variable Rate Bonds shall bear interest at a new Bank Purchase Rate and each designation of a subsequent Interest Mode and Adjustment Date for Series 2013 Variable Rate Bonds pursuant to Section 501(a) hereof by giving written notice to the Trustee, the Trustee's Agent, the Remarketing Agent, the Bank and each Rating Agency then maintaining a rating on the Series 2013 Variable Rate Bonds, which written notice shall be sent by the City to each such party not less than 20 days prior to the Adjustment Date with respect to the new Adjustment Period, specifying (i) the new Bank Purchase Rate or the Interest Mode or Modes in which such Series 2013 Variable Rate Bonds shall operate during such Adjustment Period and the commencement date of such new Bank Purchase Rate or Adjustment Period, and (ii) if such Interest Mode is to be an Adjustable Long Mode or Flexible Mode, the duration of such Adjustment Period for each Series 2013 Variable Rate Bond affected thereby, the Rate Determination Date or Dates, the Rate Change Date or Dates therefor and the applicable optional redemption provisions determined in accordance with Section 315(b)(ii) hereof, *provided, however*, that (i) if such Adjustment Period is an Adjustable Long Mode or a Flexible Mode, the first day following each Rate Period therein shall be a Business Day, and (ii) prior to the effective date of the new Bank Purchase Rate, the Trustee must have received a copy of the written consent of the applicable Purchaser to such change. In addition, the Letter of Credit, or if applicable, the Liquidity Facility must provide an Interest Coverage Rate and number of days of interest coverage after the Adjustment Date satisfactory to any Rating Agency, if any, then maintaining a rating on the Series 2013 Variable Rate Bonds to continue its rating, if any, unless no Letter of Credit or Liquidity Facility is required pursuant to this 2013 Series Ordinance. The Trustee shall not draw on the Liquidity Facility or Letter of Credit with respect to any Series 2013 Variable Rate Bonds of a Subseries that have been converted to an Interest Mode not covered by the Liquidity Facility or Letter of Credit.

(c) In connection with a conversion of a Subseries of Series 2013 Variable Rate Bonds to the Bank Purchase Mode or the establishment of a new Bank Purchase Rate Period after a prior Bank Purchase Rate Period, (a) the City shall establish and provide written notice to the Trustee of the following at least 20 days prior to any Adjustment Date: (i) whether such Bank Purchase Rate Period shall be a LIBOR Index Rate Period or a SIFMA Index Rate Period and (ii) the Special Mandatory Tender Date for such Bank Purchase Rate Period, and (b) the

Bank Purchase Rate Pricing Agent shall establish and provide written notice to the City and the Trustee (i) if such Bank Purchase Rate Period is to be a LIBOR Index Rate Period, the Applicable Factor, and (ii) the Applicable Spread, in each case such that the applicable Bank Purchase Rate shall be the rate of interest per annum (based upon its examination of tax-exempt or taxable obligations comparable, in the judgment of the Bank Purchase Pricing Agent, to the Series 2013 Variable Rate Bonds of such Subseries and known to the Bank Purchase Rate Pricing Agent to have been priced or traded under then prevailing market conditions) to be the minimum interest rate at which a person will agree to purchase such Subseries on the effective date of the Bank Purchase Rate Period at a price (without regard to accrued interest) equal to the principal amount thereof. The Bank Purchase Rate Pricing Agent shall use its best efforts to remarket the Series 2013 Variable Rate Bonds of such Subseries at par with a LIBOR Index Rate or SIFMA Index Rate, as applicable, upon the Special Mandatory Tender Date. Such remarketing shall determine the Bank Purchase Rate for each Bank Purchase Rate Period and shall reasonably be expected to measure contemporaneous variations in the cost of newly-borrowed funds. The Calculation Agent or the City (or a financial advisor appointed by the City) may perform the duties of the Bank Purchase Rate Pricing Agent provided for in this subsection upon delivery of an Opinion of Bond Counsel to the Trustee to the effect that such performance (i) is authorized or permitted by this 2013 Series Ordinance, (ii) will not have an adverse effect on the validity or enforceability of any Series 2013 Bond, and (iii) will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled.

(d) No later than 10:00 a.m., Chicago time, on an Adjustment Date which is the first day of a Flexible Mode, the Remarketing Agent shall give telephonic or electronic notice (confirmed by telecopy) to the City, the Bank and the Trustee of (i) the initial Rate Period and initial Flexible Rate to be borne by each Series 2013 Variable Rate Bond designated to operate in a Flexible Mode, and (ii) the Rate Change Date which immediately succeeds such initial Rate Period. No later than 9:30 a.m., Chicago time, on an Adjustment Date which is the first day of a Daily Mode, the Remarketing Agent shall give telephonic or electronic notice (confirmed by telecopy) to the City, the Bank and the Trustee of the initial Daily Rate to be borne by the Series 2013 Variable Rate Bonds designated to operate in a Daily Mode. No later than 10:00 a.m., Chicago time, on the Rate Determination Date preceding an Adjustment Date which is the first day of a Weekly Mode, the Remarketing Agent shall give telephonic or electronic notice (confirmed by telecopy) to the City, the Bank and the Trustee of the initial Weekly Rate to be borne by the Series 2013 Variable Rate Bonds designated to operate in a Weekly Mode. No later than 10:00 a.m., Chicago time, on the Rate Determination Date preceding an Adjustment Date which is the first day of an Adjustable Long Mode, the Remarketing Agent shall give telephonic or electronic notice (confirmed by telecopy) to the Trustee, the Bank and the City of the initial Adjustable Long Rate to be borne by each Series 2013 Variable Rate Bond designated to operate in an Adjustable Long Mode.

(e) If the City shall designate a Short Mode for any Series 2013 Variable Rate Bond which had been operating in an Adjustable Long Mode, or if the City shall designate an Adjustable Long Mode or Fixed Mode for any Series 2013 Variable Rate Bond which had been operating in a Short Mode, the City shall cause to be delivered to the Trustee, the Trustee's Agent, the Bank and the Remarketing Agent, concurrently with the notice described in (b) above, an Opinion of Bond Counsel to the effect that such designation (i) is authorized or permitted by

this 2013 Series Ordinance, (ii) will not have an adverse effect on the validity or enforceability of any Series 2013 Bond, and (iii) will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled. If an Opinion of Bond Counsel is required to be delivered together with the notice, the conversion contemplated by such opinion and notice shall not become effective unless prior to 11:00 a.m., Chicago time, on the applicable Adjustment Date the Trustee shall have received an Opinion of Bond Counsel, dated the Adjustment Date, reaffirming the conclusions of the opinion accompanying the notice delivered as above required.

(f) In the event (i) the City does not specify a new Interest Mode for the Series 2013 Variable Rate Bonds or the Remarketing Agent does not determine the interest rate applicable to the initial Rate Period during a new Interest Mode with respect to any Series 2013 Variable Rate Bond all as provided in Section 501(a) hereof, or (ii) an Opinion of Bond Counsel required by Section 501(e) hereof is not delivered or reaffirmed on the applicable Adjustment Date, the immediately succeeding Interest Mode with respect to the Series 2013 Variable Rate Bonds in the Interest Mode then ending shall be (a) a Daily Mode if the preceding Interest Mode was a Short Mode, with a Daily Rate established by the Remarketing Agent, or if the Remarketing Agent fails to set such Daily Rate, such Daily Rate shall be equal to the SIFMA Swap Index or (b) an Adjustable Long Mode with an Adjustment Period of 367 days if the preceding Interest Mode was an Adjustable Long Mode, with an Adjustable Long Rate established by the Remarketing Agent, or, if the Remarketing Agent fails to set such rate, such Adjustable Long Rate shall equal 90% of the interest rate on United States Treasury obligations with a maturity of one year.

(g) (i) Upon receipt of notice from the City as provided in Section 501(b) hereof, the Trustee, at least 15 days prior to each succeeding Adjustment Date, shall give the Immediate Notice described in Section 406 hereof to each Holder of Series 2013 Variable Rate Bonds thereby affected bearing interest at a Daily Rate or a Weekly Rate of the mandatory tender for purchase of the affected Series 2013 Variable Rate Bonds on the Adjustment Date.

(ii) Upon receipt of notice from the City as provided in Section 501(b) hereof that the Series 2013 Variable Rate Bonds of a Subseries are to be converted to a Bank Purchase Rate Period, the Trustee, at least 10 days prior the Adjustment Date, shall give immediate notice to each Holder thereby affected of the mandatory tender for purchase of the affected Series 2013 Variable Rate Bonds on the Adjustment Date. Such notice shall state (a) that the affected Series 2013 Variable Rate Bonds shall bear interest at the Bank Purchase Rate unless the City rescinds its election to convert the interest rate to a Bank Purchase Rate as provided below; (b) the proposed effective date of the Bank Purchase Rate; and (c) that the affected Series 2013 Variable Rate Bonds are subject to mandatory tender for purchase on the proposed effective date of the Bank Purchase Rate and setting forth the Purchase Price and the place of delivery for purchase of such affected Series 2013 Variable Rate Bonds.

The City shall have the right to elect to rescind a conversion to a Bank Purchase Rate Period and to provide a notice of conversion pursuant to the preceding paragraph that is conditional. If the City elects to rescind a conversion to a Bank Purchase Rate Period or the conditions to convert a Subseries of the Series 2013 Variable Rate Bonds

are not satisfied, then the Interest Period that shall commence on the mandatory purchase of such Subseries of the Series 2013 Variable Rate Bonds on the Bank Purchase Conversion Date specified in the notice delivered to Holders shall, automatically and without further action hereunder, be a Weekly Interest Rate Period and if a rate is not determined, the Weekly Interest Rate shall be equal to the SIFMA Index. If a conversion of a Subseries of the Series 2013 Variable Rate Bonds to a new Bank Purchase Rate Period from a previous Bank Purchase Rate Period is scheduled prior to a related Special Mandatory Tender Date and such conversion fails to occur or is rescinded, then there shall be no mandatory tender on such proposed Bank Purchase Conversion Date and such Subseries of the Series 2013 Variable Rate Bonds shall continue to bear interest at the Bank Purchase Rate previously in effect.

(h) Any designation pursuant to Section 501(a) hereof of a subsequent Adjustment Period shall be accompanied by (i) a written statement from the Remarketing Agent, addressed to the City, the Bank and the Trustee, to the effect that the Remarketing Agent has determined that such change satisfies the standards provided in Section 501(a) hereof, and (ii) an approval in writing of such change by an Authorized Officer together with an Opinion of Bond Counsel to the effect that such approval will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Variable Rate Bonds would otherwise be entitled.

(i) Unless neither a Letter of Credit nor a Liquidity Facility is required under this 2013 Series Ordinance, no conversion of Interest Modes shall be effective unless the City has certified to the Trustee that the Letter of Credit or Liquidity Facility, as applicable, in effect (or to be in effect) on and after such Interest Mode conversion permits requests to be made and funds to be made available to the Trustee's Agent so the Trustee's Agent can comply with Section 408 hereof in a timely manner.

(j) In connection with any conversion of a Series or one or more Subseries of the Series 2013 Variable Rate Bonds to another Interest Mode, the delivery of a Substitute Credit Support Instrument or any other event resulting in a mandatory tender pursuant to Article IV on the Applicable Adjustment Date, Credit Substitution Date or mandatory tender date a Series or one or more Subseries may be divided into two or more Subseries. The City in its notice pursuant to this Section shall specify the Subseries by such numerical designations as it chooses and the principal amount of each Subseries. The Remarketing Agent shall apply for separate CUSIP numbers for each such Subseries. Such Subseries shall remain in effect until the next Adjustment Date, Credit Substitution Date or mandatory tender date, upon which the City may select a different Subseries structure; if the City fails to select a different Subseries structure on an Adjustment Date, Credit Substitution Date or mandatory tender date, the then existing Subseries structure shall continue. Whenever there are Subseries, all references herein to a "Series" with respect to transfers, exchanges, Interest Modes, interest rates, credit providers, remarketing agents, Adjustment Dates or other characteristics of a Series shall be deemed to be references to each Subseries.

Section 502. Designation of Substitute Adjustment Date.

(a) The City may designate a Substitute Adjustment Date (i) for any Bank Bonds with Bank Approval, on any Business Day, and (ii) for any Series 2013 Variable Rate Bonds in an Adjustable Long Mode, on any Business Day on which such Series 2013 Variable Rate Bonds can be optionally redeemed at a price of par plus accrued interest as set forth in Section 315(b)(ii) hereof. The Substitute Adjustment Date shall be the next succeeding Adjustment Date for such Series 2013 Variable Rate Bonds for all purposes of this 2013 Series Ordinance.

(b) The City shall evidence each such designation of a Substitute Adjustment Date by giving written notice to the Remarketing Agent, the Bank and the Trustee, which written notice shall be received by the Remarketing Agent and the Trustee not less than one day prior to each such Substitute Adjustment Date for Bank Bonds and not less than 20 days prior to each Substitute Adjustment Date for Series 2013 Variable Rate Bonds in an Adjustable Long Mode, specifying (i) the Interest Mode in which such Series 2013 Variable Rate Bonds shall operate commencing with such Substitute Adjustment Date, and (ii) if such Adjustment Period is to be an Adjustable Long Mode, the duration of the immediately succeeding Adjustment Period for each Series 2013 Variable Rate Bond affected thereby, the Rate Periods therein, the Rate Change Dates and Rate Determination Dates therefor, and the applicable optional redemption provisions determined in accordance with Section 315(b)(ii) hereof; *provided, however*, that clauses (a) and (b) of the proviso of Section 501(b) hereof shall apply to the designation by the City of a Substitute Adjustment Date and the selection of the Rate Change Date or Dates applicable thereto. In addition, if the succeeding Adjustment Period is to be an Adjustable Long Mode, the Remarketing Agent shall give telephonic or electronic notice (confirmed by telecopy) to the Trustee no later than 10:00 a.m., Chicago time, on the Business Day immediately preceding the Substitute Adjustment Date, specifying the interest rate which will be effective commencing on such Substitute Adjustment Date. If the succeeding Adjustment Period is to be a Flexible Mode, the Remarketing Agent shall give telephonic or electronic notice (confirmed by telecopy) to the Trustee, no later than 10:00 a.m., Chicago time, on the Adjustment Date which is the first day of a Flexible Mode, of (i) the duration of the initial Rate Periods during such Flexible Mode and the initial Flexible Rates to be borne by the Series 2013 Variable Rate Bonds designated to operate in a Flexible Mode during such Rate Periods, and (ii) the Rate Change Dates upon which such Rate Periods shall terminate. If the succeeding Adjustment Period is to be a Weekly Mode, the Remarketing Agent shall give telephonic or electronic notice (confirmed by telecopy) to the City and the Trustee, no later than 10:00 a.m., Chicago time, on the Business Day immediately preceding the Substitute Adjustment Date, specifying the interest rate which will be effective commencing on such Substitute Adjustment Date. If the succeeding Adjustment Period is to be a Daily Mode, the Remarketing Agent shall give telephonic or electronic notice (confirmed by telecopy) to the Trustee, no later than 9:30 a.m., Chicago time, on the Substitute Adjustment Date which is the first day of a Daily Mode, of the initial Daily Rate to be borne by the Series 2013 Variable Rate Bonds designated to operate in a Daily Mode during such Rate Period. If the succeeding Adjustment Period is to be a Fixed Mode, the City shall satisfy the requirements of Section 503 hereof.

(c) If the City shall designate a Substitute Adjustment Date for any Series 2013 Variable Rate Bonds, it shall cause to be delivered to the Trustee, the Remarketing Agent and the

Bank, concurrently with the notice described in (b) above, and no such designation of a Substitute Adjustment Date shall take effect without, an Opinion of Bond Counsel to the effect that the designation of such Substitute Adjustment Date (i) is authorized or permitted by this 2013 Series Ordinance, (ii) will not have an adverse effect on the validity or enforceability of any Series 2013 Bond and (iii) will not adversely affect the exclusion from gross income for federal income tax purposes of the interest on the Series 2013 Bonds. The Substitute Adjustment Date shall not be effective unless prior to 10:00 a.m., Chicago time, on the Substitute Adjustment Date, the Trustee shall have received an opinion of Bond Counsel, dated such Adjustment Date, reaffirming the conclusions of the opinion accompanying the notice delivered as above required.

(d) Any designation by the City pursuant to Section 502(a) of a Substitute Adjustment Date shall be accompanied by (i) a written statement from the Remarketing Agent, addressed to the City, the Bank, and the Trustee, to the effect that the Remarketing Agent has determined that such change satisfies the standards provided in Section 501(a) hereof, or (ii) an Opinion of Bond Counsel to the effect that such approval is not required for the continued validity and enforceability of the Series 2013 Bonds in accordance with their terms, and that such change will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled.

Section 503. Authority for and Conditions to Conversion to Fixed Rate.

(a) On any Rate Change Date during a Flexible Mode or an Adjustable Long Mode, or on any Business Day during a Daily Mode, a Weekly Mode or a Bank Purchase Mode, or at any time with respect to Bank Bonds in connection with their remarketing, the interest rate to be borne by all or any portion of such Series 2013 Variable Rate Bonds shall be converted to a Fixed Rate, and such Series 2013 Variable Rate Bonds so converted shall thereafter bear interest at such Fixed Rate until payment of the principal or Redemption Price thereof shall have been made or provided for in accordance with the provisions hereof, whether at the Maturity Date, upon redemption or otherwise, upon receipt by the Trustee of (i) a direction from an Authorized Officer specifying a Fixed Rate Conversion Date and the principal amount of Series 2013 Variable Rate Bonds to be converted, (ii) a firm underwriting or purchase contract from a recognized firm of bond underwriters or recognized institutional investors to underwrite or purchase all Series 2013 Variable Rate Bonds which are to be converted on such Fixed Rate Conversion Date at a price of 100 percent of the principal amount thereof, and (iii) an Opinion of Bond Counsel addressed to the City, the Bank and the Trustee to the effect that such conversion (a) is authorized or permitted by this 2013 Series Ordinance, (b) will not have an adverse effect on the validity or enforceability of any Series 2013 Bond, and (c) will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled, all of which direction, certificates, contract and opinion shall be received not less than 20 days prior to the Fixed Rate Conversion Date. In addition, not later than the 20th day prior to the Fixed Rate Conversion Date, the Trustee must have received written evidence from each Rating Agency then maintaining a rating on the Series 2013 Variable Rate Bonds that the then-current long-term rating on the Series 2013 Variable Rate Bonds will not be reduced or withdrawn due to the conversion of the Series 2013 Variable Rate Bonds to the Fixed Rate, and that the short-term rating on the Series 2013 Variable Rate Bonds not being converted will not be reduced or withdrawn due to a partial Fixed Rate Conversion. The Fixed Rate Conversion of the interest rate borne by Series 2013 Variable Rate

Bonds pursuant to this Section shall not become effective unless prior to 10:00 a.m., Chicago time, on the applicable Fixed Rate Conversion Date the Trustee and the Bank shall have received an Opinion of Bond Counsel, dated the Fixed Rate Conversion Date, reaffirming the conclusions of the opinion accompanying the written direction of the City delivered as above required. Any conversion of the Series 2013 Variable Rate Bonds to the Fixed Rate shall be subject to the last sentence of Section 501(a) hereof.

When a Liquidity Facility is in effect or was in effect when Series 2013 Variable Rate Bonds become Bank Bonds, the Authorized Officer shall be required to give Immediate Notice of the foregoing direction to the Trustee (i) upon failure of the Bank to purchase Series 2013 Variable Rate Bonds in accordance with the terms of the Bank Agreement; (ii) upon expiration or termination of the Liquidity Facility with no substitution therefor (except pursuant to Section 313 hereof); (iii) if Series 2013 Variable Rate Bonds are held as Bank Bonds for 180 days; or (iv) if the City fails to replace the Liquidity Facility when required. When a Letter of Credit is or was in effect, the Authorized Officer shall be required to give Immediate Notice of the foregoing direction to the Trustee if (i) not later than 45 days prior to the Stated Expiration Date, there has been no renewal or replacement of such Letter of Credit and after the Stated Expiration Date the Series 2013 Variable Rate Bonds are required to have the benefit of a Letter of Credit pursuant to Section 311 hereof, or (ii) within 180 days after the occurrence of a default under the Bank Agreement resulting in the Letter of Credit being terminated, an Alternate Letter of Credit has not become effective.

(b) At least 15 days prior to the Fixed Rate Conversion Date, the Trustee shall give or cause the Remarketing Agent to give written notice of such election by the City to DTC and to the Holders of all Series 2013 Variable Rate Bonds to be converted bearing interest at a Daily Rate, a Weekly Rate or a Bank Purchase Rate, which notice shall state (i) the Fixed Rate Conversion Date, and (ii) that such Series 2013 Variable Rate Bonds shall be subject to mandatory purchase on such Fixed Rate Conversion Date. The Trustee shall give written notice by first class mail to the Remarketing Agent and the Bank of the foregoing information.

(c) The Trustee, at the direction of the City, shall deliver replacement Series 2013 Variable Rate Bonds bearing the Fixed Rate for converted Series 2013 Variable Rate Bonds surrendered or deemed surrendered by the Holders thereof. Any such replacement Series 2013 Variable Rate Bonds shall be executed and authenticated as provided in the General Ordinance; *provided, however*, that unless the form of the Series 2013 Variable Rate Bonds is revised pursuant to Section 304 hereof, the Trustee shall affix a legend on the face of each Series 2013 Variable Rate Bond authenticated on or after the Fixed Rate Conversion Date therefor in substantially the following form:

> This Series 2013 Bond bears interest at the Fixed Rate, as defined in this Series 2013 Bond, of ____ percent per annum from and after _____. This Series 2013 Bond is not secured by a Letter of Credit or a Liquidity Facility. This Series 2013 Bond matures on _____.

(d) From the date notice of the proposed establishment of a Fixed Rate with respect to any Series 2013 Variable Rate Bond is received by the Trustee as provided in subsection (a) of

this Section 503 through the Fixed Rate Conversion Date therefor, such Series 2013 Variable Rate Bond shall not be remarketed by the Remarketing Agent except to a buyer who is notified in writing of the mandatory purchase of such Series 2013 Variable Rate Bond on such Fixed Rate Conversion Date.

(e) No Liquidity Facility or Letter of Credit is required for Series 2013 Variable Rate Bonds bearing interest at a Fixed Rate, so the amount of the Liquidity Facility or Letter of Credit, if any, shall be reduced on or after the Fixed Rate Conversion Date with respect to such Series 2013 Variable Rate Bonds subject to a Fixed Rate Conversion as provided in the Liquidity Facility or Letter of Credit, as applicable.

(f) If the conversion of the interest rate on any Series 2013 Variable Rate Bond does not occur for any reason, including in the event that any condition precedent to the conversion shall not occur, (i) such Series 2013 Variable Rate Bond shall bear interest from and after the proposed Fixed Rate Conversion Date in the same Interest Mode as the Interest Mode applicable to such Series 2013 Variable Rate Bond prior to the proposed Fixed Rate Conversion Date, at the interest rate calculated in the manner set forth in Section 303, and, in the case of an Adjustable Long Mode, for a Rate Period of 367 days, and in the case of a Flexible Mode, for a Rate Period of seven days, (ii) if such conversion is being undertaken pursuant to Section 503(a) hereof, the City shall direct the Remarketing Agent to continue to seek to effect such conversion no less frequently than every seven days, and (iii) the City will cause there to be in full force and effect a Liquidity Facility or Letter of Credit providing an Interest Coverage Rate, and number of days of interest coverage, satisfactory to each Rating Agency then maintaining a rating on the Series 2013 Variable Rate Bonds to continue its rating, if any, unless no Liquidity Facility or Letter of Credit is required pursuant to Section 313 hereof.

(g) In the event of a conversion of less than all of the Series 2013 Variable Rate Bonds to the Fixed Mode, Bank Bonds shall be converted first.

(h) The determination of the Fixed Rate for any Series 2013 Variable Rate Bonds shall be conclusive and binding upon the Holders of such Series 2013 Variable Rate Bonds, the City, and the Trustee.

Section 504. Effect of Notices.

Any notice mailed as provided herein shall be conclusively presumed to have been given, whether or not the Holders of the Series 2013 Variable Rate Bonds receive the same.

Section 505. Adjustment of Times Established.

The times set forth in Article III, Article IV, Article V and Article VII of this 2013 Series Ordinance may be adjusted and changed as agreed to by the Trustee, the Bank, the Purchaser, the Remarketing Agent and the City, as applicable, pursuant to a separate written agreement by and between the Trustee, the Bank, the Purchaser, the Remarketing Agent and the City, as applicable. The City Council of the City authorizes the Comptroller, the Chief Financial Officer or any Authorized Officer to execute and deliver any such separate written agreement by and between

the Trustee, the Bank, the Purchaser or the Remarketing Agent, as applicable, as may be necessary or desirable pursuant to this Section 505.

Section 506. Mode Conversion Certificate.

In connection with any conversion of the Series 2013 Variable Rate Bonds (or Subseries thereof) to another Interest Mode, in addition to the applicable requirements from Sections 501 through 503 above, an Authorized Officer is authorized to make such determinations and take such actions in the best interests of the City to effectuate an Interest Mode conversion, the terms of which will be set forth in a Mode Conversion Certificate setting forth the revised terms of the Series 2013 Variable Rate Bonds to take effect in connection with the change in Interest Mode including, but not limited to, the interest rate or rates on the Series 2013 Bonds that bear interest payable currently, or, in the case of Series 2013 Variable Rate Bonds, a description of the method of determining the interest rate to be borne by such Series 2013 Variable Rate Bonds from time to time, the yield to maturity of any capital appreciation bonds, the numbering of the Series 2013 Variable Rate Bonds, the redemption terms for the Series 2013 Variable Rate Bonds, findings with respect to and the identity of any providers of Credit Support Instruments, Reserve Fund Credit Instruments, and Interest Rate Hedge Agreements for the Series 2013 Variable Rate Bonds, findings with respect to and the identity of any providers of Interest Rate Hedge Agreements for Outstanding Bonds identified in the Mode Conversion Certificate for which such agreements are permitted under the General Ordinance, the identity of any remarketing agent or tender agent to be retained in connection with the new Interest Mode for any Series 2013 Variable Rate Bonds (or Subseries thereof), and such other terms as are identified in this 2013 Series Ordinance to be included in the Mode Conversion Certificate.

purchased may not elect to retain its Series 2013 Bond, and by the acceptance of such Series 2013 Bond shall be deemed to have agreed to sell such Series 2013 Bond to the Trustee on the date specified pursuant to the 2013 Series Ordinance.

During the period a Liquidity Facility is in effect, upon receipt by the Trustee of a written notice from the Bank of the occurrence of a Special Default under the Bank Agreement, the Trustee shall give Immediate Notice thereof to the Registered Owners of all the Bonds and the Remarketing Agent, which notice shall state that there will be no mandatory purchase of the Bonds as a result of such Special Default and that the Bonds will no longer be entitled to the benefits of a Liquidity Facility or, that the obligation of the Bank to provide funds thereunder is suspended but that the other tender provisions of the 2013 Series Ordinance will remain in effect, as the case may be, and that the Bank Agreement may terminate if such suspension is not cured within the time period specified in the Bank Agreement. If Immediate Notice of a mandatory tender has been given due to receipt by the Trustee of written notice from the Bank of the occurrence of a Liquidity Facility Default, but a Special Default occurs prior to the mandatory tender date, the Series 2013 Bonds (other than Bank Bonds, Series 2013 Bonds owned by or on behalf of the City and Series 2013 Bonds bearing interest at a Fixed Rate) shall remain subject to mandatory tender on such date, although the purchase price thereof will not be payable from amounts drawn under the Bank Agreement.

Purchase on Notice of Certain Events of Default under the Bank Agreement While a Letter of Credit is Required. During the period a Letter of Credit is in effect under the 2013 Series Ordinance, the Series 2013 Bonds (other than Bank Bonds, Series 2013 Bonds owned by or on behalf of the City and Series 2013 Bonds bearing interest at a Fixed Rate) are subject to mandatory tender by the Registered Owners thereof to the Trustee when the Trustee gives Immediate Notice to the Registered Owners of such Bonds and the Remarketing Agent of the occurrence of a default under the Bank Agreement. In such case, the Registered Owner of any such Series 2013 Bond required to be purchased may not elect to retain its Series 2013 Bond, and by the acceptance of such Series 2013 Bond shall be deemed to have agreed to sell such Series 2013 Bond to the Trustee on the date specified pursuant to the 2013 Series Ordinance.

Purchase in Connection with Credit Substitution Date or Liquidity Substitution Date. All Series 2013 Bonds (other than Bank Bonds, Series 2013 Bonds owned by or on behalf of the City and Series 2013 Bonds bearing interest at a Fixed Rate) shall be purchased on the Credit Substitution Date or Liquidity Substitution Date. A purchase of Series 2013 Bonds pursuant to this paragraph shall be at a purchase price for each such Series 2013 Bond equal to the principal amount thereof plus accrued interest, if any, to the purchase date. The Registered Owner of such Series 2013 Bond may not elect to retain its Series 2013 Bond.

Purchase While Series 2013 Bonds Bear Flexible Rate. While any Series 2013 Bond bears interest at a Flexible Rate, such Series 2013 Bond shall be purchased on each Rate Change Date for such Series 2013 Bond, other than the Rate Change Date which is the first day of a Flexible Mode applicable to such Series 2013 Bond, and on the Adjustment Date immediately following the last day of the Flexible Mode, at a purchase price equal to 100 percent of the principal amount thereof. The Registered Owner of such Series 2013 Bond may not elect to retain its Series 2013 Bond.

Purchase Prior to Stated Termination Date When Required Substitute Credit Support Instrument Not in Place, Purchase Prior to Liquidity Facility or Letter of Credit Cancellation Date. During the period a Liquidity Facility or Letter of Credit is required under the 2013 Series Ordinance, all Series 2013 Bonds (other than Bank Bonds, Series 2013 Bonds owned by or on behalf of the City and Series 2013 Bonds bearing interest at a Fixed Rate) shall be purchased on the Business Day prior to each Stated Termination Date of the Liquidity Facility or Letter of Credit, as applicable. If a Liquidity Facility or Letter of Credit is no longer required pursuant to the 2013 Series Ordinance, all Series 2013 Bonds (other than Bank Bonds, Series 2013 Bonds owned by or on behalf of the City and Series 2013 Bonds bearing interest at a Fixed Rate) shall be purchased on the Business Day prior to the date of cancellation of such Liquidity Facility or Letter of Credit, as applicable. A purchase of Series 2013 Bonds pursuant to this paragraph shall be at a purchase price for each such Series 2013 Bond equal to the principal amount thereof plus accrued interest, if any, to the purchase date. The Registered Owner of such Series 2013 Bond may not elect to retain its Series 2013 Bond.

Purchase While Series 2013 Bonds Bear Adjustable Long Rate. While any Series 2013 Bond bears interest at an Adjustable Long Rate, such Series 2013 Bond shall be purchased on each Rate Change Date within an Adjustable Long Mode for such Series 2013 Bond, other than the Rate Change Date which is the first day of an Adjustable Long Mode applicable to such Series 2013 Bond, and on the Adjustment Date immediately following the last day of such Adjustable Long Mode, at a purchase price equal to 100 percent of the principal amount thereof. The Registered Owner of such Series 2013 Bond may not elect to retain its Series 2013 Bond.

Purchase on Adjustment Date. On each Adjustment Date with respect to a Series 2013 Bond (other than a Bank Bond), such Series 2013 Bond shall be purchased at a purchase price equal to 100 percent of the principal amount thereof, except that (i) a Series 2013 Bond which is to be purchased on an Adjustment Date which immediately follows the last day of a Flexible Mode shall be purchased as described under "Purchase While Series 2013 Bonds Bear Flexible Rate" above, and (ii) a Series 2013 Bond which is to be purchased on an Adjustment Date which immediately follows the scheduled final day of an Adjustable Long Mode shall be purchased as described under "Purchase While Series 2013 Bonds Bear Adjustable Long Rate" above. The Registered Owner of such Series 2013 Bond may not elect to retain its Series 2013 Bond.

Payment of Purchase Price. Tendered Bonds remarketed by the Remarketing Agent shall be delivered by the Trustee or the Trustee's Agent as directed by the Remarketing Agent by 11:00 a.m., Chicago time, on the date of purchase against payment therefor. The proceeds of sale by the Remarketing Agent shall be delivered to the Trustee by 10:30 a.m., Chicago time, on the date of purchase. The Trustee's Agent shall pay the purchase price of each Tendered Bond from the sources specified in the 2013 Series Ordinance, to the Registered Owner thereof by 1:30 p.m., Chicago time, on the purchase date; provided that the Trustee's Agent shall have confirmed that such Registered Owner has delivered such Tendered Bond (with any necessary endorsements) to the designated corporate office of the Trustee's Agent no later than 12:00 noon, Chicago time, on such date.

If sufficient moneys are on deposit with the Trustee or the Trustee's Agent to pay the applicable purchase price of any Tendered Bond, such Tendered Bond will be deemed to have been purchased whether or not delivered by the Registered Owner thereof on the date such

Tendered Bond is to be purchased. If any such purchased Tendered Bond is not so delivered, the City will execute and the Trustee will authenticate and deliver a replacement Series 2013 Bond of like date, Maturity Date and denomination as the Tendered Bond and bearing a number not contemporaneously outstanding.

Purchase Price of Bank Bonds. The purchase price of remarketed Bank Bonds shall be 100 percent of the principal amount thereof plus accrued interest, if any, through the Bond Sale Date.

No Remarketing After Certain Defaults. There shall be no remarketing of Tendered Bonds unless consented to in writing by the City and the Remarketing Agent, (a) during the period a Liquidity Facility or Letter of Credit is in effect, and (b) if there shall have occurred and be continuing an Event of Default under the General Ordinance of which an authorized officer in the principal office of the Remarketing Agent or an authorized officer in the designated corporate trust office of the Trustee has actual knowledge. In addition, when a Liquidity Facility is in effect, the Remarketing Agent shall be under no obligation to remarket Bonds upon the occurrence and continuance of a Special Default or Liquidity Facility Default under the 2013 Series Ordinance or the wrongful failure by the Bank to honor a properly presented purchase notice under the Liquidity Facility.

If the Remarketing Agent is unable to remarket the Tendered Bonds upon a tender thereof, and the Bank does not purchase the Tendered Bonds for any reason whatsoever, the City may, but need not, purchase the Tendered Bonds. If the City does not purchase the Tendered Bonds, the Tendered Bonds shall remain Outstanding and shall continue to be owned by the Holders seeking to tender their Tendered Bonds. Such Tendered Bonds shall bear interest at the Failed Tender Rate until funds to purchase such Tendered Bonds are made available to such Holders, at which time such Holders shall be required to deliver such Tendered Bonds as if the failed purchase had not occurred. If such failed purchase occurs in connection with any Adjustment Date, such Tendered Bonds subject to the Adjustment Date shall remain outstanding in the Interest Mode in which they had been and shall bear interest at the Failed Tender Rate as aforesaid.

Conversion to an Adjustable Long Mode or Short Mode. The City may designate a different Interest Mode with respect to any Series 2013 Bond during a Flexible Mode or one or more Adjustable Long Modes on any Rate Change Date, and during a Daily Mode, a Weekly Mode or Bank Purchase Mode on any Business Day, upon compliance with the 2013 Series Ordinance.

If the Remarketing Agent does not determine the interest rate applicable to the initial Rate Period during a new Interest Mode with respect to any Series 2013 Bond or if any relevant opinion required is not delivered, the immediately succeeding Interest Mode with respect to the Series 2013 Bonds in the Interest Mode then ending shall be determined as provided in the 2013 Series Ordinance.

Designation of Substitute Adjustment Date. The City may designate a Substitute Adjustment Date (i) for any Bank Bonds, with Bank Approval, on any Business Day, and (ii) for any Series 2013 Bonds in an Adjustable Long Mode, on any Business Day on which such

Series 2013 Bonds can be optionally redeemed at a price of par plus accrued interest as set forth in the 2013 Series Ordinance. The Substitute Adjustment Date shall be the next succeeding Adjustment Date for such Series 2013 Bonds for all purposes of the 2013 Series Ordinance.

Fixed Rate Conversion. On any Rate Change Date during a Flexible Mode or an Adjustable Long Mode, or on any Business Day during a Daily Mode, a Weekly Mode, a Bank Purchase Mode, or at any time with respect to Bank Bonds in connection with their remarketing, the interest rate to be borne by all or any portion of the Series 2013 Bonds in such Interest Mode shall be converted to a Fixed Rate, and such Series 2013 Bonds so converted shall thereafter bear interest at such Fixed Rate until payment of the principal or redemption price thereof shall have been made or provided for in accordance with the provisions of the 2013 Series Ordinance.

If the conversion of the interest rate of any Series 2013 Bond does not occur for any reason, including in the event that any condition precedent to the Fixed Rate Conversion shall not occur, such Series 2013 Bonds shall bear interest from and after the proposed Fixed Rate Conversion Date as provided in the 2013 Series Ordinance.

Effect of Notices. Any notice mailed as provided herein shall be conclusively presumed to have been given, whether or not the Registered Owner of Series 2013 Bonds receives the notice.

Redemption. The Series 2013 Bonds shall be subject to redemption prior to their Maturity Date in the amounts, at the times and in the manner provided below.

(b) Optional Redemption.

(i) Series 2013 Bonds in a Daily Mode or a Weekly Mode shall be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Business Day during such Daily Mode or Weekly Mode, as applicable, at a redemption price equal to _____ percent of the principal amount thereof plus accrued interest, if any, to the redemption date.

(ii) Subject to any limitations set forth in the applicable Bank Purchase Rate Agreement, Series 2013 Bonds in the Bank Purchase Rate Mode shall be subject to redemption on any Interest Payment Date, at the direction of the City, in whole or in part, at a redemption price equal to the principal amount of the Series 2013 Bonds to be redeemed plus accrued interest to, but not including, the redemption date plus the applicable redemption premium, if any, as provided in the applicable Bank Purchase Rate Agreement.

(iii) Series 2013 Bonds in an Adjustable Long Mode shall be subject to redemption prior to their Maturity Date, during each Rate Period therein, at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Business Day after the No-Call Period described below, at the following redemption prices (expressed as percentages of the principal amount of Series 2013 Bonds, called for redemption) plus accrued interest, if any, to the redemption date:

Length of Rate Period	No-Call Period	Redemption Price
greater than __ years	__ years from the Rate Change Date	___%, declining __% per 12 months to ___%
Less than or equal to __ years and greater than __ years	until __ years prior to end of Rate Period	___%
Less than or equal to __ years	length of Rate Period	not subject to optional redemption

The City may deliver to the Trustee an alternative redemption schedule to the schedule shown above, if the City delivers to the Bank and the Trustee an Opinion of Bond Counsel to the effect that the alternative schedule of redemption will not adversely affect the validity and enforceability of the Series 2013 Bonds in accordance with their terms and does not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled. After the first Rate Change Date succeeding the delivery of such alternative schedule and Opinion of Bond Counsel, Series 2013 Bonds in an Adjustable Long Mode shall be subject to redemption pursuant to the terms of such alternative schedule.

(iv) Series 2013 Bonds in the Fixed Mode shall be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Business Day after the No-Call Period described below, at the following redemption prices (expressed as percentages of the principal amount of the Series 2013 Bonds called for redemption) plus accrued interest, if any, to the redemption date:

Length of Maturity	No-Call Period	Redemption Price
greater than __ years	__ years from the Fixed-Rate Conversion Date	___%, declining __% per 12 months to ___%
Less than or equal to __ years and greater than __ years	until __ years prior to the Maturity Date	___%
Less than or equal to __ years	term to the Maturity Date	not subject to optional redemption

The City may deliver to the Trustee an alternative redemption schedule to the schedule shown above, if the City delivers to the Bank and the Trustee an Opinion of Bond Counsel to the effect that the alternative schedule of redemption will not adversely affect the validity and enforceability of the Series 2013 Bonds in accordance with their terms and does not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2013 Bonds would otherwise be entitled. Series 2013 Bonds which commence bearing interest at a Fixed Rate on or after the delivery of such alternative schedule and Opinion of Bond Counsel shall be subject to redemption in accordance with the provisions of such alternative schedule.

(v) Series 2013 Bonds bearing interest at a Flexible Rate or an Adjustable Long Rate shall be subject to optional redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Rate Change Date therefor, at a redemption price equal to ___ percent of the principal amount thereof plus accrued interest, if any, to the redemption date.

(c) *Optional Redemption of Bank Bonds*. Bank Bonds shall be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Business Day at a redemption price equal to ___ percent of the principal amount thereof plus accrued interest thereon at the Bank Rate, to the redemption date.

(d) *Extraordinary Redemption of Bank Bonds*. Bank Bonds shall be subject to mandatory redemption on the dates and in the amounts specified in the Bank Agreement. Such redemption shall be at a price equal to the principal amount thereof plus accrued interest at the Bank Rate thereon to the redemption date, without premium. Bank Bonds shall be redeemed pursuant to the 2013 Series Ordinance without any notice from or direction by the City.

(e) *Priority of Redemption*. In all events, Bank Bonds shall be redeemed prior to any other Series 2013 Variable Rate Bonds.

(f) *Mandatory Redemption of Series 2013 Bonds*. The Series 2013 Bonds shall be subject to mandatory redemption prior to maturity in the amounts and upon terms as follows:

The Series 2013 Bonds are subject to mandatory redemption prior to maturity at a redemption price equal to ___ percent of the principal amount thereof on _____ 1 of the years and in the amounts set forth below, plus accrued interest to the date fixed for redemption:

Series 2013 Bonds due _____ 1, 20__

Year	Principal Amount	Year	Principal Amount

---

* Maturity Amount

The principal amount of the Series 2013 Bonds to be mandatorily redeemed in each year may be reduced through the earlier optional redemption thereof, with any partial optional redemption of such Series 2013 Bonds credited against future mandatory redemption requirements in such order of the mandatory redemption dates as the City may determine. In addition, on or prior to the sixtieth day preceding any mandatory redemption date, the Trustee may, and if directed by the City shall, purchase Series 2013 Bonds required to be retired on such mandatory redemption date. Any such Series 2013 Bond so purchased shall be canceled and the

principal amount thereof shall be credited against the payment required on such next mandatory redemption date.

General Provisions Regarding Redemptions. No optional redemption of less than all of the Series 2013 Bonds Outstanding shall be made unless (i) if such redemption is of Series 2013 Bonds bearing interest at a Bank Rate, Short Rate or an Adjustable Long Rate, the aggregate principal amount of Series 2013 Bonds to be redeemed is equal to $100,000 or integral multiples thereof, and (ii) if such redemption is with respect to Series 2013 Bonds bearing interest at a Fixed Rate, the aggregate principal amount of Series 2013 Bonds to be redeemed is equal to $5,000 multiples. Any redemption of less than all of the Series 2013 Bonds Outstanding shall be made in such a manner that all Series 2013 Bonds Outstanding after such redemption are in Authorized Denominations.

(i) Series 2013 Bonds may be called for redemption by the Trustee (A) in the case of Series 2013 Bonds bearing interest at a Short Rate, upon receipt by the Trustee at least 20 days prior to the redemption date of a written request of the City requesting such redemption, or in accordance with the mandatory schedule provided herein, or (B) in the case of Series 2013 Bonds bearing interest at an Adjustable Long Rate or a Fixed Rate, upon receipt by the Trustee at least 45 days prior to the redemption date of a written request of the City requesting such redemption, or in accordance with the mandatory schedule provided herein.

(ii) Bank Bonds may be called for redemption by the Trustee upon receipt by the Trustee at least one Business Day prior to the redemption date of a written request of the City requesting such redemption.

Notice of Redemption. Except as otherwise provided with respect to Bank Bonds in the 2013 Series Ordinance, notice of the call for any redemption identifying the Series 2013 Bonds to be redeemed shall be given by first class mail, postage prepaid, with respect to Series 2013 Bonds bearing interest at a Short Rate, not less than 20 or more than 45 days prior to the date fixed for redemption, and shall be given by first class mail, postage prepaid, with respect to Series 2013 Bonds bearing interest at an Adjustable Long Rate or a Fixed Rate, not less than 30 or more than 60 days prior to the date fixed for redemption, to the Registered Owners of Series 2013 Bonds to be redeemed at their addresses as shown on the registration books of the City maintained by the Bond Registrar. Failure to give notice in the manner prescribed with respect to any Series 2013 Bond, or any defect in such notice, shall not affect the validity of the proceedings for redemption for any Series 2013 Bond with respect to which notice was properly given. Upon the happening of the above conditions and if sufficient moneys are on deposit with the Trustee on the applicable redemption date to redeem the Series 2013 Bonds to be redeemed and to pay interest due thereon and premium, if any, the Series 2013 Bonds thus called shall not after the applicable redemption date bear interest, be protected by the Ordinances or be deemed to be Outstanding under the provisions of the Ordinances.

Selection of Series 2013 Bonds to be Redeemed. If less than all the Series 2013 Bonds shall be called for redemption under any provision of the 2013 Series Ordinance permitting such partial redemption, the particular Series 2013 Bonds or portions thereof to be redeemed shall be selected by the City and designated to the Trustee; *provided, however*, that (i) in the case of the

redemption of less than all Series 2013 Bonds which bear interest in the same Interest Mode at the same rates for the same Rate Periods and which in the case of Series 2013 Bonds bearing interest at a Fixed Rate were converted on the same date, such redemption shall be by lot in such manner as the Trustee may determine among such Series 2013 Bonds, and (ii) subject to other applicable provisions of the 2013 Series Ordinance, the portion of any Series 2013 Bond to be redeemed shall be in a principal amount equal to an Authorized Denomination. Any redemption of less than all of the Series 2013 Bonds Outstanding shall be made first from Bank Bonds.

Liquidity Facility or Letter of Credit. The City covenants and agrees that at all times while any Series 2013 Bonds are Outstanding which bear interest at a rate other than the Fixed Rate, the City will maintain either a Liquidity Facility or a Letter of Credit in full force and effect with respect to all Series 2013 Bonds bearing interest at other than a Bank Rate except as otherwise provided in the 2013 Series Ordinance. The City may obtain a Substitute Liquidity Facility at any time in accordance with the terms of the 2013 Series Ordinance, in which event the Series 2013 Bond shall be subject to mandatory tender pursuant to the 2013 Series Ordinance.

Liquidity Facility or Letter of Credit Not Required in Certain Circumstances. Prior to the Fixed Rate Conversion Date therefor, unless the City is serving as a substitute provider of a Liquidity Facility, all the Series 2013 Bonds (other than Bank Bonds and Series 2013 Bonds owned by or on behalf of the City) are required to have the benefit of a Liquidity Facility or a Letter of Credit, except as otherwise provided in the 2013 Series Ordinance.

Registration, Transfer and Exchange. Subject to certain limitations set forth in the 2013 Series Ordinance with respect to Series 2013 Bonds in the Bank Purchase Mode, this Series 2013 Bond is transferable, as provided in the Ordinances, only upon the books of the City kept for that purpose at the designated corporate trust office of the Trustee in Chicago, Illinois, by the registered owner of this Series 2013 Bond in person, or by the owner's agent duly authorized in writing. Upon the surrender of this Series 2013 Bond, together with a written instrument of transfer satisfactory to the Trustee duly executed by the registered owner or the owner's agent authorized in writing, and upon the payment of any charges prescribed in the Ordinances, a new registered Series 2013 Bond, in the same aggregate principal amount and of the same maturity, shall be issued to the transferee as provided in the Ordinances. The City and the Trustee may deem and treat the registered owner as the absolute owner of this Series 2013 Bond (whether or not this Series 2013 Bond shall be overdue) for the purpose of receiving payment of or on account of principal of this Series 2013 Bond and the redemption price, if any, and interest due on this Series 2013 Bond and for all other purposes, and neither the City nor the Trustee shall be affected by any notice to the contrary. Neither the City nor the Trustee shall be obligated to make any exchange or transfer of this Series 2013 Bond during the period from any record date to the next interest payment date on the Series 2013 Bonds or to make any such transfer or exchange of this Series 2013 Bond if this Series 2013 Bond is proposed to be redeemed after its selection by the Trustee for redemption.

The Series 2013 Bonds are issued in fully registered form in the denomination of $100,000 or any integral multiple of $5,000 in excess of that amount. Subject to the limitations and upon payment of the charges provided in the Ordinances, Series 2013 Bonds in fully

registered form may be exchanged for a like aggregate principal amount of Series 2013 Bonds in fully registered form of other authorized denominations.

Defeasance. Provision for payment of all or any portion of the Series 2013 Bonds may be made, and the Ordinances may be discharged, prior to payment of the Series 2013 Bonds in the manner provided in the Ordinances.

Miscellaneous. The Registered Owner of this Series 2013 Bond shall have no right to enforce the provisions of the Ordinances or to institute action to enforce the covenants therein, or to take any action with respect to any event of default under the Ordinances, or to institute, appear in or defend any suit or other proceedings with respect thereto, except as provided in the Ordinances.

It Is Hereby Certified, Recited And Declared that all acts and conditions required to be performed precedent to and in the issuance of this Series 2013 Bond have been performed in due time, form and manner as required by law, and that the issuance of this Series 2013 Bond and the Series of which it forms a part does not exceed or violate any constitutional or statutory limitation.

This Series 2013 Bond shall not be valid or become obligatory for any purpose or be entitled to any security or benefit under the Ordinances unless and until the certificate of authentication hereon shall have been duly executed by the Trustee.

IN WITNESS WHEREOF, the City of Chicago, Illinois, by the City Council of the City of Chicago, has caused this Series 2013 Bond to be executed in its name by the manual or facsimile signature of the Mayor of the City and attested by the manual or facsimile signature of the City Clerk of the City and its corporate seal (or a facsimile of that seal) to be affixed, imprinted, engraved, or otherwise reproduced on this Series 2013 Bond, all as of the Original Issue Date identified above.

(1) The City covenants with the Holders from time to time of all Bonds that it will not issue any Additional Bonds except as provided in this Section.

The "revenues test" is met if at the date the contract is made to sell such Additional Bonds, the total amount of the City's Motor Fuel Tax Revenues which lawfully may be used for the purpose of Municipal Indebtedness, together with the total amount of any Additional City Revenues, shall equal or exceed two times the maximum annual debt service requirements for all Bonds to be outstanding following the issuance of the Additional Bonds.

Maximum annual debt service requirements for these purposes shall be the maximum amount required to be deposited in the Debt Service Fund in the Fiscal Year of the calculation or any subsequent Fiscal Year. With respect to Variable Rate Bonds, the deposits for purposes of this Section shall be calculated in respect of interest as if the Bonds would bear interest at the lower of (i) the maximum rate which those Bonds may bear pursuant to law or (ii) the rate set forth in the applicable Series Ordinance; *provided,* that, if and so long as a Qualified Swap Agreement is in effect with respect to such Variable Rate Bonds, the interest component of Annual Debt Service Requirements shall be computed by reference to Section 206. With respect to Bonds for which there is a purchase, mandatory redemption or similar requirement which is provided to be paid through a Credit Support Instrument, the deposits shall be calculated in respect of principal on the basis of scheduled payments of principal (at maturity or pursuant to Sinking Fund Installments) and not pursuant to the purchase, redemption or similar requirements provided so to be paid through such an Instrument. With respect to Bonds for which the proceeds thereof are disbursed by such Bondholders over a period of time and which accrue interest on the outstanding balance as such disbursements are made to the City, the Annual Debt Service Requirements shall be computed based on an assumed full disbursement of all Bond proceeds as of the date of issuance of such Bonds.

(3) (a) Notwithstanding any other provision of this Section, the City may issue Additional Bonds to pay, purchase, redeem or refund Bonds if there will be in the judgment of the City no money available to make payments of interest on or principal of those Bonds (at maturity or on Sinking Fund Installment dates or pursuant to other mandatory redemption or purchase obligations) as such amounts come due.

(b) In addition to Additional Bonds which may be issued pursuant to paragraph (2) of this Section and subparagraph (a) of this paragraph (3), the City may issue .Additional Bonds to pay, purchase, redeem or refund any Bonds if the total amount of the required deposits in the Debt Service Fund with respect to all Bonds after the issuance of the Additional Bonds will be not in excess of such required deposits for all Bonds Outstanding prior to the issuance of those Additional Bonds in each Fiscal Year in which any of those Bonds Outstanding prior to the issuance are to remain outstanding.

Section 1101. Arbitrage.

The City Council of the City represents, certifies and covenants that so long as any of the Series 2013 Bonds remain Outstanding, moneys on deposit in any fund or account in connection with the Series 2013 Bonds, whether or not such moneys were derived from the proceeds of the sale of the Series 2013 Bonds or from any other sources, will not be used in a manner which will cause the Series 2013 Bonds to be "arbitrage bonds" within the meaning of Section 148 of the Code. The City Council of the City reserves the right, however, to make any investment of such moneys permitted by Illinois law if, when and to the extent that said Section 148 or regulations promulgated under that Section shall be repealed or relaxed or shall be held void by final decision of a court of competent jurisdiction, but only if any investment made by virtue of such repeal, relaxation or decision would not, in the opinion of counsel of recognized competence in such matters, adversely affect the federal tax-exempt status of the interest on the Series 2013 Bonds.

The City Council of the City also agrees and covenants with the Initial Purchasers and Holders of the Series 2013 Bonds from time to time Outstanding that the City (i) will take all actions which are necessary to be taken (and avoid any actions which it is necessary to avoid being taken) so that interest on the Series 2013 Bonds will not be or become included in gross income for federal income tax purposes under existing law including, without limitation, the Code, to an extent greater than that contemplated in the Official Statements, and (ii) will take all actions within its power to take which are necessary to be taken (and avoid taking any actions which are within its power to avoid taking and which it is necessary to avoid) so that interest on the Series 2013 Bonds will not be or become included in gross income for federal income tax purposes under the federal income tax laws as in effect from time to time to an extent greater than that contemplated in the Official Statements.

The City Council of the City authorizes each of the Authorized Officers to make such further covenants and certifications as may be necessary to assure that the use of the Series 2013 Bond proceeds will not cause the Series 2013 Bonds to be arbitrage bonds and to assure that the interest on the Series 2013 Bonds will be and will continue to be exempt from federal income taxation. In that connection, the City Council of the City further agrees: (a) through its officers, to make such further specific covenants, representations as shall be truthful, and assurances as may be necessary or advisable; (b) to consult with counsel approving the Series 2013 Bonds and to comply with such advice as may be given; (c) to establish a Rebate Account for the Series 2013 Bonds in the Debt Service Fund and to deposit in it for payment to the United States of America, as necessary, such sums of money representing required rebates of excess arbitrage profits relating to the Series 2013 Bonds; (d) to file such forms, statements, and supporting documents as may be required and in a timely manner; and (e) if deemed necessary or advisable by its officers, to employ and pay fiscal agents, financial advisors, attorneys, and other persons to assist the City Council of the City in such compliance.

The covenants in this Section 1101 shall apply only with respect to those Series 2013 Bonds designated in the Series 2013 Determination Certificate as bonds the interest on which is not included in gross income for federal income tax purposes.

Section 1102. Appropriation.

This 2013 Series Ordinance constitutes an appropriation by the City of all Motor Fuel Tax Revenues to be applied as provided in the General Ordinance and this 2013 Series Ordinance for the payment of all installments of principal and Redemption Price of, Purchase Price of, and interest on, the Series 2013 Bonds, and principal of and interest on the TIFIA Bond(s), as such amounts come due.

This 2013 Series Ordinance constitutes an appropriation by the City of the Project Revenues to be applied as provided in the General Ordinance and this 2013 Series Ordinance for the payment of all installments of principal and Redemption Price of, Purchase Price of, and interest on, the Series 2013 Bonds, and principal of and interest on the TIFIA Bond(s), as such amounts come due.

Section 1103. Proxies.

The Mayor, the City Treasurer, the City Comptroller and the Chief Financial Officer may each designate another to act as their respective proxy and to affix their respective signatures to each Series 2013 Bond and the TIFIA Bond(s), whether in temporary or definitive form, and to any other instrument, certificate or document required or permitted to be signed by the Mayor or the Comptroller pursuant to this 2013 Series Ordinance or the General Ordinance. In each case, each shall send to the City Council written notice of the person so designated by each, such notice stating the name of the person so selected and identifying the instruments, certificates and documents which such person shall be authorized to sign as proxy for the Mayor or the Comptroller, respectively. A written signature of the Mayor or the Comptroller, respectively, executed by the person so designated underneath, shall be attached to each notice. Each notice, with signatures attached, shall be recorded in the Journal of the Proceedings of the City Council and filed with the City Clerk. When the signature of the Mayor is placed on an instrument, certificate or document at the direction of the Mayor in the specified manner, the same, in all respects, shall be as binding on the City as if signed by the Mayor in person. When the signature of the Comptroller is so affixed to an instrument, certificate or document at the direction of the Comptroller, the same, in all respects, shall be as binding on the City as if signed by the Comptroller in person.

Section 1104. Additional Authorization.

Bonds and the TIFIA Bond(s) upon original issuance, but subject to any limitations on or restrictions of such power or authority as set forth in this 2013 Series Ordinance. To the extent that authorization to act under this "2013 Series Ordinance" is granted "to the City", without further specification, that authority may be exercised by an Authorized Officer.

Section 1105. Separability.

If any provision of this 2013 Series Ordinance shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of such provision shall not affect any of the remaining provisions of this 2013 Series Ordinance.

Section 1106. Inconsistent Provisions.

Subject to the following sentence, all ordinances, resolutions, motions or orders in conflict with this 2013 Series Ordinance are repealed to the extent of such conflict. In case of any conflict between the provisions of this 2013 Series Ordinance and the General Ordinance, the terms of the General Ordinance shall control. No provision of the Municipal Code or any violation of its provisions shall be deemed to render voidable at the option of the City any document, instrument or agreement authorized by the General Ordinance or this 2013 Series Ordinance or to impair the validity of the General Ordinance, this 2013 Series Ordinance or the documents, instruments and agreements authorized by the General Ordinance or this 2013 Series Ordinance; *provided, however,* that the foregoing shall not affect the availability of or limit any other remedy or penalty for any violation of any provision of the Municipal Code .

Section 1107. Effectiveness; Publication.

Notwithstanding any other provision of Illinois law or the Municipal Code to the contrary, this 2013 Series Ordinance (including the amendments to the Municipal Code made in Article X hereof) and the appropriations made in it shall be in full force and effect immediately upon its adoption, approval and publication.
