Committee(s) Assignment:	Committee on Public Safety

RESOLUTION

Public Safety

WHEREAS, more than 90% of our Nation's children and adolescents regularly play video games; and

WHEREAS, a recent study found that 49% of the top-selling video games contain intense violence; and

WHEREAS, analyses of current video games reveal that the most popular narrative approach features a human perpetrator engaging in repeated acts of violence involving weapons;

WHEREAS, in 2005, the American Psychological Association passed a resolution entitled "On Violence in Video Games and Interactive Media," formally recognizing the significant negative impact of violent video games on children; and

WHEREAS, in its 2009 Policy Statement on Media Violence, the American Academy of Pediatrics concluded that playing violent video games creates "a significant risk to the health of children and adolescents"; and

WHEREAS, in 2010, a group of 116 leading scholars, researchers, and professionals signed a formal statement endorsing the conclusion that violent video games increase the likelihood of aggressive behavior, thinking, and feelings in regular players, desensitize players to violence, and decrease players' pro-social behavior; and

WHEREAS, laboratory studies have found that subjects randomly assigned to play a violent video game subsequently displayed more aggressive characteristics than those who played nonviolent games; and

WHEREAS, research reveals that adolescents who regularly play violent video games are more hostile in school, get into arguments with teachers more frequently, and perform more poorly in their classes than other students; and

WHEREAS, numerous studies have specifically concluded that sexualized violence in video games increases violence towards women and anti-women attitudes; and

WHEREAS, in addition to psychological research, neuroscience research has identified a link between perpetration of virtual violence in video games and reduced activation of a neural mechanism known to be crucial for self-control; now, therefore,

BE IT RESOLVED, That we, the Mayor and Members of the City Council of the City of Chicago, assembled this thirteenth day of February, 2013, do hereby direct the City Council Committee on Public Safety to hold one or more informational hearings for the purpose of exploring the relationship between violent video games, antisocial behavior, and childhood health, and to call upon members of the video game industry, parents' and community groups, academics and researchers, and other interested parties to testify at such hearings.

RESOLUTION

WHEREAS, Enhancing the partnership between Chicago's business community and law enforcement authorities can assist the fight against crime by increasing crime fighting resources, which in turn can help crime prevention and the apprehension of offenders; and

WHEREAS, Our business community can strengthen such a partnership by creating a crime tip reward fund, which would provide financial incentives to encourage people who have witnessed or have important information about a crime to report such information to law enforcement authorities; and

WHEREAS, Such crime tips would help law enforcement authorities to apprehend murderers and other criminal suspects, reduce violent and other crimes, and stop traffic in drugs and arms; and

WHEREAS, Chicago businesses play an important role in the fight against crime, and particularly, the Chicagoland Chamber of Commerce has a history of spearheading initiatives dedicated to fight crimes; and

WHEREAS, The City Council of the City of Chicago would like to encourage Chicago's business community to establish and administer a crime tip reward fund in excess of \$1,000,000.00 to help reduce crime in the City; and

WHEREAS, The crime tip reward fund should be used to pay persons who submit to law enforcement authorities information resulting in the prevention of the commission of crimes or the apprehension of criminal suspects; and

WHEREAS, Working in consultation with our Police Department, Chicago's business community could administer this fund, including determining the type of crimes that will be covered in the program, setting forth the criteria for paying rewards, and paying out rewards; and

WHEREAS, The establishment of the crime tip reward fund will encourage law-abiding residents to be vigilant, and sends a strong message to perpetrators of crimes that our communities have the initiative, money and resources to fight back, and to help the apprehension and prosecution of criminal suspects; now, therefore,

BE IT RESOLVED, That we, the Mayor and Members of the City Council of the City of Chicago, assembled this 13th day of February, 2013, do hereby encourage Chicago's business community to create and administer a crime tip reward fund of at least \$1,000,000.00; and

Title:

Call for Chicago Board of Education to establish moratorium on charter school expansion for 2014-2015 school year

Committee(s) Assignment:

Committee on Committees, Rules and Ethics

RESOLUTION

Education

WHEREAS, The Chicago Public School system (CPS) is studying ways to best consolidate a school district that according to their formula has too many seats, too few students to fill those seats, and not nearly enough funds to maintain that excess capacity; and

WHEREAS, In doing so they have actively sought input from all Chicagoans given the potentially devastating impact school closures can have on a community; and

WHEREAS, A major factor contributing to the underutilization of CPS schools is the expansion of charter schools in Chicago. Currently, the number of seats available in charter schools amounts to more than half of the reported excess capacity. Moreover, any future expansion of charter schools will further exacerbate this problem; and

WHEREAS, It is not sound fiscal policy to fund the creation of any additional schools while facing such a large gap between enrollment and capacity; and

WHEREAS, CPS should not simultaneously close schools for budget reasons and fund the creation of additional privately operated charter schools; and

WHEREAS, Every seat created in a new charter school potentially increases what CPS has called the "chronic underutilization" of the public schools; therefore

BE IT RESOLVED, That we, the undersigned members of the City Council of the City of Chicago do hereby express our desire for the Chicago Board of Education to establish a moratorium on charter school expansion for the 2014-2015 school year allowing CPS, parents and community members time to fully understand the impact of pending school closures. Furthermore, the Chicago Board of Education should adopt a policy that prohibits any charter expansion while neighborhood schools are being closed.

Title:

Call for representatives of the Chicago Public Schools and
Department of Police to discuss truancy in Chicago Public
Schools

Committee(s) Assignment:

Committee on Education and Child Development

R E S O L U T I O N

WHEREAS, Truancy is a growing problem in the Chicago Public School system;
and

WHEREAS, In the 2010-2011 school year, the most recent school year for which information is available, it is estimated that 13 percent of the city's roughly 250,000 children in grades kindergarten through eighth grade missed four weeks or more of school; and

WHEREAS, Although the Chicago Public Schools has a Department of Attendance and Truancy to seek ways of encouraging children to attend school, truant officers were eliminated two decades ago due to budget cuts; and

WHEREAS, There are serious consequences that follow from children not attending school. School funding is linked to the number of students who attend school each day. The Chicago Public School system could lose significant funding due to poor attendance. Additionally, when children miss school, especially in the early grades, they fall behind their classmates who attend school on a regular basis. This further discourages children from attending school as they get older, since they find school to be too complex. Additionally, when children aren't in school, many of them tend to fall into the gang culture; and

WHEREAS, Other school districts across the Nation have addressed the issue of truancy in their school systems by identifying the causes of truancy and taking corrective actions to promote higher attendance; and

WHEREAS, Issues which have been linked to truancy across the Nation have included: bullying, which intimidates students and discourages them from going to school on a regular basis; not having a safe route to school on days in which gang shootings have occurred recently; a household environment which does not encourage children to attend school on a regular basis; not being able to keep up with the class work due to falling behind in the early grades due to truancy; and not being able to attend school on inclement days due to lack of proper attire such as a pair of boots, a winter coat or an umbrella; and

WHEREAS, School districts around the country have issued municipal tickets to parents whose children do not attend school on a regular basis. The mere threat of having to make a court appearance has been linked to an increase in attendance; and

WHEREAS, The re-establishment of truant officers should be thoroughly considered as a tool to help promote education for our children, who are our most precious resource; and

WHEREAS, The problem of truancy is a serious one facing the City of Chicago and needs our careful attention; now, therefore,

BE IT RESOLVED, That we, the Mayor and Members of the City Council of the City of Chicago, assembled this thirteenth day of February, 2013, do hereby call upon representatives of the Chicago Public Schools and the Department of Police to appear before the City Council Committee on Education and Child Development to discuss truancy in the Chicago Public Schools and ways to remedy the problem, and to explore the viability and advisability of re-establishing truant officers towards that end.

Committee(s) Assignment:	Committee on Public Safety

RESOLUTION

WHEREAS there are certain tests that applicants to the Chicago Police and Fire Departments must undergo in order to gain entrance to the respective academies; and

WHEREAS those tests include a psychological evaluation which asks certain questions that pertain to the use and knowledge of firearms; and

WHEREAS the purpose of the tests is to determine whether an applicant is fit and qualified to serve the citizens of the City of Chicago; and

WHEREAS not all applicants have the same experiences when it comes to the use of firearms; and

WHEREAS the portion of the population that has served in the United States military will necessarily answer the questions pertaining to firearms differently than those individuals who are members of the civilian population; and

WHEREAS the United States is engaged in past and current conflicts around the world where numerous service members have been stationed; and

WHEREAS service members have returned home to Chicago with unique and valuable skills and training which could be beneficial to the Chicago Police Department, Fire Department, and the citizens of the City of Chicago; and

WHEREAS these service members may never have the opportunity to utilize their skills as members of the Police Force or Fire Department because of their truthful answers to questions on the entrance exams involving firearms; and

WHEREAS the tests were likely not drafted with past military service in mind; and

WHEREAS residents of the City of Chicago who served our nation should not be excluded from serving the citizens of this City because of that service; and

WHEREAS it is necessary that the City of Chicago assess the purpose and nature of the entrance exams to the Police and Fire academies and determine whether those tests unnecessarily exclude veterans and if so whether a different or modified test should be administered to those applicants who served in the United States Military; now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CHICAGO that the City Council, through its Committee on Public Safety, conduct hearings exploring the entrance testing of the Police and Fire Departments, as well as the training provided to entrants, and whether there should be any modifications to these procedures for veterans; and

BE IT FURTHER RESOLVED that the Committee on Public Safety invite appropriate representatives of the Chicago Police Department and Fire Department to testify concerning the testing procedures and officer training; and

BE IT FURTHER RESOLVED that invitations to testify be extended to appropriate representatives of the veteran community, in addition to such other persons as the Committee may determine to be appropriate; and

Call for hearing(s) into site selection and performance of
Red Light Cameras

Committee(s) Assignment:

Committee on Pedestrian and Traffic Safety

RESOLUTION CALLING FOR HEARING INTO THE

SITE SELECTION OF RED LIGHT CAMERAS

WHEREAS, The City of Chicago City Council approved the installation of automated traffic law enforcement systems, commonly referred to as "red light cameras" throughout the city in 2003; and

WHEREAS, while the cameras might aid in efforts to create safer streets by discouraging drivers from driving through red traffic lights, it is not clear that the cameras are installed at the intersections where they would make the greatest impact to traffic safety; and

WHEREAS, the cameras have generated more than \$300 million in revenue for the City of Chicago since 2003; and

WHEREAS, many in the public are skeptical that these cameras are motivated by concerns for traffic safety, and not by a need for additional revenue; and

WHEREAS, recent news reports have called into question the administration of the contract between camera vendor Redflex Camera Systems and the Department of Transportation official previously in charge of supervising the contract; and

WHEREAS Redflex has collected more than \$100 million in revenue from its contract with the City of Chicago; and

WHEREAS, Sec. 9-102-010(c) of the Municipal Code of the City of Chicago authorizes the Department of Transportation, with the advice of the Police Department and the Office of Emergency Management and Communications, to identify intersections where the installation of cameras is warranted; and

WHEREAS, if such cameras are to be used in the City of Chicago, they should be installed according to some data-based analysis indicating the locations where they may make the greatest impact on traffic safety; now, therefore

BE IT RESOLVED that, in order to ensure that red light cameras have been, and will continue to be, installed in the locations where they will improve traffic safety, as opposed to simply where they will generate the most revenue, the undersigned members of the City of Chicago City Council call for a public hearing inviting members of the Department of Transportation, Police Department, and Office of Emergency Management and Communications to address the following queries:

1. Describe the process by which the Department of Transportation previously determined where to install red light cameras, including the process by which data was collected and analyzed in the decision-making process.
2. Explain how the Police Department, Office of Emergency Management and Communications, and Redflex were consulted during the camera site-selection process, and explain what information and data was sought.
3. Explain what role, if any, considerations of potential revenue played in the selecting of intersections for the installation of red light cameras, and who expressed those considerations.
4. Describe any changes that will be made going forward in the process of selecting intersections appropriate for the installation of red light cameras, who should be included in that decision-making process, and what data should be included to maximize traffic safety.
5. Explain if it is possible to design a data-based formula to select intersections for the installation of red light cameras, removing the human element except where physical inspection is needed to certify that there are not impediments to the actual installation of red light camera equipment.
