Amenities for the residents will be located on the 6th floor and will include, *inter alia*, (i) a fitness center, (ii) a party room, (iii) a business center, and (iv) an outdoor dog run. There will also be a communal recessed outdoor terrace on the 6th floor as well as a private terrace (along the public alley) for residents occupying some of the units located on the 6th floor. Another small private roof deck is intended for the 9th floor.

The proposed new building will be "tiered", with the highest point (121'-0" approx./ 11 stories) located at the corner of Belmont Avenue and Clark Street. 11. Current Use of the Property: The subject property is improved with a 3½-story (with basement) residential building, containing three dwelling units. There is a one-story detached garage located at the rear of the property. The existing building recently sustained significant fire damage.
12. Reason for rezoning the property: The Applicant is seeking a zoning amendment in order to permit the erection (build-out) of a fourth floor addition to the existing 3½ -story, three dwelling unit, residential building. The addition exceeds the allowable floor area ratio (FAR) provided in the current Zoning District and creates a non-conforming condition at the site.
13. Describe the proposed use of the property after the rezoning. Indicate the number of dwelling units; number of parking spaces; approximate square footage of any commercial space; and height of the proposed building. (BE SPECIFIC)
The existing 3½-story (with basement) residential building will remain. The Applicant is seeking a zoning amendment in order to permit the erection (build-out) of a fourth floor addition to the existing 3½-story building. There will be no other physical expansion to the existing building or garage. Due to the recent fire damage sustained at the building, however, the Applicant will be undertaking a complete interior rehabilitation of the existing building (including the proposed build-out of the fourth floor addition). The existing building, as renovated, will continue to contain three dwelling units. The property will also continue to maintain onsite garage parking for 2½ vehicles at the rear of the lot.
14. On May 14, 2007, the Chicago City Council passed the Affordable Requirements Ordinance (ARO) that requires on-site affordable housing units or a financial contribution if residential housing projects receive a zoning change under certain circumstances. Based on the lot size of the project in question and the proposed zoning classification, is this project subject to the Affordable Requirements Ordinance? (See Fact Sheet for more information)
