Title:	Call on Committee on Educatiion and Child Development to hold hearings concerning closure of certain vocational training classes at Simeon Academy and future of vocational education in Chicago Public Schools
Committee(s) Assignment:	Committee on Education and Child Development

EDUCATION

RESOLUTION CONCERNING THE CLOSURE OF CERTAIN VOCATIONAL TRAINING CLASSES AT SIMEON CAREER ACADEMY AND THE FUTURE OF VOCATIONAL EDUCATION IN THE CHICAGO PUBLIC SCHOOLS

WHEREAS, One of the bas-relief panels sculpted on the façade of the entrance to Chicago's City Hall depicts the education of the youth of this city as a principal pillar of municipal service. The city's basic covenant with its citizens to provide a comprehensive public education is endangered through the dismantling of educational policy built from the institutional knowledge and experience of multiple generations of Chicagoans from all walks of life who hold the common belief that a good public education offers a broad-based elementary and secondary curriculum that includes relevant vocational education; and

WHEREAS, From 1880 until very recent times, the Chicago Public School's Boards of Education and all former Superintendents have championed vocational education as a desirable and necessary adjunct to college preparatory curricula. A 2011 Harvard Graduate School of Education report stated "This surge in educational attainment laid the foundation for the staggering increase in American wealth and power that came to be known as the American Century ... Within the U.S. economy, there is also growing evidence of a 'skills gap' in which many young adults lack the skills and work ethic needed for many jobs that pay a middle-class wage. Simultaneously, there has been a dramatic decline in the ability of adolescents and young adults to find work. Indeed, the percentage of teens and young adults who have jobs is now at the lowest level since World War II"; and

WHEREAS, Current CPS policy appears to be shifting from an education for the students it has, toward only providing programs that cater to the needs of students it desires. There has been a decided erosion of the traditional curriculum that provides balanced academic, artistic and vocational offerings that address the requisites and aspirations of all of this city's youth today; and

WHEREAS, This emphasis on providing only a strictly college preparatory education has left the majority of this city's young citizens bereft of a viable alternative to an expensive and time-consuming pursuit of a four-year degree. Pronouncements setting the goal of "100% college-ready, 100% college-bound" for CPS graduates have only led to significantly reduced opportunities and resultant expectations for some of today's CPS high school students; and

WHEREAS, An excellent example of such reduced opportunity is the proposed closures of an electrician and an automotive program at Simeon Career Academy. It is impossible to conceive of the notion that a community with consistently high unemployment could have a better alternative than that of comprehensive training as an electrician or automotive mechanic, both high-paying trades; and

WHEREAS, It is incumbent upon this legislative body to understand and ameliorate this trend in Chicago Public School policy; now therefore

BE IT RESOLVED That we, the undersigned members of the City of Chicago City Council, gathered together this 30th Day of July, 2014 AD, do hereby call upon the Committee on Education and Child Development to expeditiously hold hearings in order to take testimony by both the public and expert witnesses concerning the closure of such essential programs as Simeon Career Academy's electrician and automotive classes in specific and the future of vocational education in the Chicago Public Schools in general.

BE IT FURTHER RESOLVED That a suitable copy of this resolution be prepared and presented to Latasha R. Thomas, Chair of the Committee of Education & Child Development and Dr. S. House, Principal of Simeon Career Academy, and Dr. Barbara Byrd-Bennett, Chief Executive Officer of the Chicago Public Schools.

RESOLUTION

WHEREAS, Red-light running is a serious intersection safety issue across the nation. According to the National Highway Traffic Safety Administration's Traffic Safety Facts 2008 Report, there were more than 2.3 million reported intersection-related crashes, resulting in more than 7,770 fatalities and approximately 733,000 injury crashes in 2008; and

WHEREAS, Automatic Traffic Law Enforcement Systems, better known as red light cameras, are designed to reduce intersection-related crashes at both rural and urban intersections; and

WHEREAS, After being used extensively overseas for decades, in recent years the use of red light cameras has risen dramatically in the United States as an effective tool to reduce intersection-related crashes and support police efforts to enforce traffic safety; and

WHEREAS, In 2003, the City of Chicago (the "City") instituted a red light camera enforcement program when the City began a pilot program at two locations. Today, red light cameras are operating at 174 intersections, chosen based on crash reports; and

WHEREAS, An analysis conducted by the Chicago Department of Transportation found that when red light cameras were installed at high crash rate intersections, the number of dangerous right angle crashes was reduced by an average of 30%; and

WHEREAS, The significant reduction in the number of right angle crashes is a critical safety improvement because right angle crashes are most likely to result in serious injuries or fatalities; and

WHEREAS, Further, research suggests that "intentional" red light runners, who account for a significant percentage of red light runners, are most affected by enforcement countermeasures, and the operation of a red light camera program may reduce the amount of recidivism; and

WHEREAS, Recent reports have ignored the important safety efforts of automated enforcement programs; and

WHEREAS, The City Council wishes to be provided with more information as to the benefits of our red light camera enforcement program and its effect on reducing crashes; now, therefore,

BE IT RESOLVED, That we, the Mayor and Members of the City Council of the City of Chicago, assembled this thirtieth day of July, 2014, do hereby request appropriate members of the Department of Transportation, at a hearing to be convened by the City Council Committee on Pedestrian and Traffic Safety, to give a report on the effectiveness of the City's red light camera enforcement program in promoting safety; and

BE IT FURTHER RESOLVED, That copies of this resolution be sent to the Committee on Pedestrian and Traffic Safety and to the Commissioner of Transportation.

RESOLUTION

WHEREAS, the City of Chicago, more specifically the Department of Public Health, is responsible for the protection of consumers' health and safety, including the consumption of food; and

WHEREAS, the U.S. Food and Drug Administration allows the chemical compound azodicarbonamide as a bleaching and dough agent in flour at levels up to 45 parts per million; the two compounds, semicarbazide and urethane, are formed as azodicarbonamide breaks down during the baking process; and

WHEREAS, azodicarbonamide is also used in the manufacturing of plastics such as electronics, window and door gaskets, padded floor mats, and rubber shoe soles; and

WHEREAS, in a 2003 review by the European Food Safety Authority, semicarbazide has been linked to serious health risks in laboratory animals, including fetal death; cleft palates, skeletal deformation and other birth defects; cancer; damage to brain and kidneys; and

WHEREAS, the FDA has agreed that further studies are required to continue to evaluate the safe use of azodicarbonamide and semicarbazide in food; and

WHEREAS, the United Kingdom has banned azodicarbonamide due to the Health and Safety Executive identifying azodicarbonamide as a respiratory sensitiser (a possible cause of asthma); azodicarbonamide is also banned in Singapore and not permitted in Australia or New Zealand; and

WHEREAS, azodicarbonamide has been found in over 500 food products in the United States including Pillsbury Dinner Rolls , Little Debbie products and Wonder Bread; and

BE IT FURTHER RESOLVED that the City Council, through its Committee on Health and Environmental Protection conduct hearings to investigate the potential dangers of azodicarbonamide in food products; and

BE IT FURTHER RESOLVED that we encourage all consumers of baked goods and food products in the City of Chicago to use caution when purchasing items made with the additive azodicarbonamide due to the associated health risks and concerns set forth in the preamble of this Resolution.

RESOLUTION

WHEREAS, the City of Chicago is the busiest rail hub in the United States, boasting the largest intermodal system in the country and the third largest in the world; and

WHEREAS, Chicago handles one-fourth of the nation's freight rail traffic, with an estimated 500 freight trains with 37,500 cars passing through Chicago each day; and

WHEREAS, according to the Association of American Railroads (AAR), approximately seven percent of all rail traffic involves the movement of hazardous materials; and

WHEREAS, in 2010, railroads in Illinois handled approximately 33.712 million tons of hazardous materials; and

WHEREAS, in July 2013, a runaway train carrying crude oil derailed and exploded in Lac-Megantic, Quebec, killing 47 people and destroying more than 100 homes and businesses; and

WHEREAS, in December 2013, a mile-long train carrying crude oil derailed and exploded after colliding with another train in North Dakota, triggering a giant fireball and huge clouds of black smoke and forcing the evacuation of most of the residents in nearby Casselton, North Dakota; and

WHEREAS, last April, an oil train traveling through Virginia from Chicago derailed in Lynchburg, Virginia, sparking a fire and spilling oil into a river, which forced a partial evacuation of the city's downtown; and

WHEREAS, these and other recent derailments and fires prompted a warning from the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration, which stated that the type of crude oil currently being transported from North Dakota may be more flammable than traditional heavy crude oil; and

WHEREAS, the structural integrity of one particular type of tank car, known as the DOT-111 tank car, has come under scrutiny following these accidents; and

WHEREAS, the National Transportation Safety Board has conducted several investigations and safety studies establishing that DOT-111 cars have a high incidence of failure during crashes, a higher rate of failure than those of pressure tank cars, such as DOT-105 or DOT-112, which have thicker shells and heads; and

WHEREAS, despite the high incidence of failure during crashes, DOT-111 cars currently comprise approximately 69% of the nation's tank car fleet; and

WHEREAS, on July 23, 2014, the U.S. Department of Transportation released details of its comprehensive rulemaking proposal for the safe transportation of crude oil and other flammable materials; and

WHEREAS, USDOT issued a Notice of Proposed Rulemaking (NPRM) for enhanced tank car standards and an Advanced Notice of Proposed Rulemaking (ANPRM) seeking to expand oil spill response planning requirements for shipments of flammable materials; and

WHEREAS, the NPRM proposes enhanced tank car standards, a classification and testing program for mined gases and liquids and new operational requirements for high-hazard flammable trains (HHFT) that include braking controls and speed restrictions; and

WHEREAS, the NPRM further proposes, within two years, to phase out the use of older DOT-111 tank cars for the shipment of packing group I flammable liquids, including most Bakken crude oil, unless the tank cars are retrofitted to comply with new tank car design standards; and

WHEREAS, the ANPRM seeks further information on expanding comprehensive oil spill response planning requirements for shipments of flammable materials; and

WHEREAS, both the NPRM and the ANPRM are open for 60 days of public comment; and

WHEREAS, the City of Chicago would assume the responsibility of providing emergency response units to manage the impact of a rail accident or derailment involving hazardous material within the city limits; and

WHEREAS, the transportation of hazardous material through the City of Chicago poses a serious risk to public safety; NOW THEREFORE

BE IT RESOLVED, that the City Council of the City of Chicago hereby declares that the July 23, 2014 U.S. Department of Transportation comprehensive rulemaking proposal should be amended to provide more stringent restrictions in High Threat Urban Areas (HTUA), as defined in 49 CFR 1580.3, by: (1) defining HHFT as a train carrying 15 or more tank carloads of flammable liquids (including crude oil and ethanol); (2) requiring the development and implementation of a written sampling and testing program for all mined gases and liquids; (3) requiring all rail carriers to perform a routing analysis for HHFT that would consider safety and security factors and select a route based on future findings of the route analysis; (4) codifying the USDOT's May 2014 emergency order that requires rail carriers transporting one-million gallons or more of Bakken crude oil to provide notification to the City regarding the operation of these trains through the City of Chicago; (5) requiring HHFTs that contain any tank car not meeting the proposed enhanced tank car standards to travel at a maximum speed of 35-MPH within the City of Chicago; (6) requiring all HHFTs to be equipped with alternative brake signal

propagation systems; (7) requiring the implementation of new standards for tank cars constructed after October 31, 2015 and retrofitting existing tank cars to meet new performance standards; and (8) imposing a hazardous material transportation fee on those responsible for the transportation of hazardous material within the City of Chicago to be used by the city for a purpose related to transporting hazardous material, including, but not limited to, planning, developing, and maintaining a capability for emergency response; and

BE IT FURTHER RESOLVED, that the City Council of the City of Chicago hereby orders the Corporation Counsel to take all necessary action to timely submit comments, as listed above, to the aforementioned July 23, 2014 rules proposed by the U.S. Department of Transportation.

Title:	Call on Department of Transportation to provide updates to Committee on Pedestrian and Traffic Safety to restore public confidence in red light camera violation system
Committee(s) Assignment:	Committee on Pedestrian and Traffic Safety

RESOLUTION

WHEREAS, The City of Chicago's red-light camera enforcement program, which began in 2003 and operates at 174 intersections across the City, is a public safety initiative designed to make streets safer by changing driver behavior; and

WHEREAS, The City of Chicago takes very seriously the validity of, and public confidence in, all of its public safety programs, including the red light camera program; and

WHEREAS, A recent report revealed some anomalies in ticketing patterns at several red light camera-equipped intersections across the City; and

WHEREAS, Because consistency and fairness are essential to maintaining the public's trust in the City's safety programs, the Chicago City Council requested the Department of Transportation to provide its Committee on Pedestrian and Traffic Safety with detailed information about the immediate steps that have been taken, and will be taken, to ensure that no automated tickets were issued to Chicagoans in error and to strengthen the City's red light camera program going forward; and

WHEREAS, At a hearing conducted on July 23, 2014, the Commissioner of Transportation proposed steps to address the issue: a mailing to individuals who received a violation during a spike period, offering them a review by an independent audit firm to determine the citation's validity; a cooperative effort with the Office of the Inspector General to audit past tickets and to develop new standards to govern the red light camera program going forward; and a regular online City posting of the number of daily violations issued for each red camera location; and

WHEREAS, The City Council wishes to be updated regarding the progress of these and other efforts by the Department of Transportation to effectively address this important issue; now, therefore,

BE IT RESOLVED, That we, the Mayor and Members of the City Council of the City of Chicago, assembled this thirtieth day of July, 2014, do hereby request appropriate members of the Department of Transportation, at a hearing to be convened by the City Council Committee on Pedestrian and Traffic Safety, to provide an update on the actions underway to ensure public confidence in the City's system for enforcing red light camera violations; and

BE IT FURTHER RESOLVED, That suitable copies of this resolution be sent to the Committee on Pedestrian and Traffic Safety and to the Commissioner of Transportation.

TRAFFIC

RESOLUTION CONCERNING THE DEPLOYMENT & UTILIZATION OF THE CITY OF CHICAGO RED-LIGHT CAMERA SYSTEM

WHEREAS, The deployment and utilization of the Red-Light Camera system has recently come under increasing public scrutiny by both the media and by the City of Chicago's Inspector General; and

WHEREAS, As a result, it behooves this legislative body to investigate and ameliorate any deficiencies in the efficacy and fairness regarding this program that has been touted as a public safety initiative; and

WHEREAS, Recent media investigation has led to questions being raised concerning the data gathering process and control of the program, as well as what led to the spikes in the present system, causing the discovery of at least 13,000 of the more than 4 million tickets issued to be without foundation; and

WHEREAS, In May of 2013, the Office of Inspector General of the City of Chicago issued an audit report seeking to determine if RLC installations were made and managed based on the Chicago Department of Transportation's (CDOT) stated primary criterion of reducing angle crashes to increase safety. CDOT was unable to substantiate its claims that the City chose to install red-light cameras at intersections with the highest angle crash rates in order to increase safety. Little evidence was advanced by CDOT to demonstrate the overarching program's strategy. The IG further found a lack of basic recordkeeping and lack of analysis for the ongoing program that generates tens of millions in revenue; and

WHEREAS, It is incumbent upon this legislative body to call upon officials of CDOT as well as the Inspector General to appear before a council committee prepared to provide more transparency about the Red-Light Camera Program.

BE IT RESOLVED That we, the undersigned members of the City of Chicago City Council, gathered here this 30th Day of July, 2014 do hereby request that the Committee on Transportation and the Public Way expeditiously convene a public hearing to receive testimony from the public, the commissioner and representatives of the Chicago Department of Transportation as well as expert witnesses to determine definitive answers to the questions that were raised in the IG's 2013 audit as well as those delineated in a letter addressed to the Inspector General by the Honorable Scott Waguespack, Alderman of the 32nd Ward.

BE IT FURTHER RESOLVED That a suitable copy of this resolution be prepared and presented to the Honorable Anthony A. Beale, chairman of the Committee on Transportation and the Public Way, Joseph Ferguson Inspector General of the City of Chicago and Rebekah Scheinfeld, commissioner of the Chicago Department of Transportation along with other city officials that can provide any pertinent information concerning this issue.

Committee(s) Assignment:	Committee on Finance

RESOLUTION

WHEREAS, in June 2014, Chicago-based Integrys Energy Group, Inc., announced a $5.8 billion deal to sell its utility operations to Milwaukee-based Wisconsin Energy Corp.; and

WHEREAS, Integrys Energy Group, Inc. is the parent company of Peoples Gas and North Shore Gas; and

WHEREAS, the $5.8 billion merger would reportedly create an energy company with more than 4.3 million metered electric and gas customers in Illinois, Wisconsin, Michigan and Minnesota; and

WHEREAS, if approved by shareholders and regulators, the combined entity would become the nation's eighth-largest natural gas distribution company, would have a projected rates base of $16.8 billion in 2015, and its network would include almost 71,000 miles of electric power lines and 44,000 miles of gas transmission and distribution lines; and

WHEREAS, since 2008, Peoples Gas has received approximately $250 million in rate hikes and Peoples Gas and North Shore Gas are currently requesting a total increase of approximately $136 million, according to the Citizens Utility Board; and

WHEREAS, the Office of the Illinois Attorney General has asked to the Illinois Commerce Commission to cut the rate-hike request of Peoples Gas to $55 million; and

WHEREAS, the announcement of the acquisition did not confirm that the deal would not spark more frequent rate hikes; and

WHEREAS, the announcement of the acquisition did not mention rate or other concessions to benefit Chicago customers; and

WHEREAS, the City Council of the City of Chicago intends to ensure that the proposed merger of Wisconsin Energy Corp. and Integrys Energy Group, Inc. is a good move for Chicago customers; now therefore

BE IT RESOLVED, that the City Council of the City of Chicago hereby urges the Corporation Counsel prepare all necessary pleadings to be filed with the Illinois Commerce Commission to ensure the best interests of Chicago customers are protected in consideration of the aforementioned proposed merger.

Title:	Call for Committee on Economic, Capital and Technology Development to hold hearing(s) on effect of current minimum hourly wage on workers and business owners in Chicago and on methods of increasing current minimum hourly wage throught the State of Illinois
Committee(s) Assignment:	Committee on Economic, Capital and Technology Development

RESOLUTION

WHEREAS, the national minimum hourly wage is $7.25, and has not been changed since July 1, 2009; and

WHEREAS, the minimum hourly wage in Illinois is $8.25 for employees who are 18 years of age or older, and has not been changed since July 1, 2010; and

WHEREAS, every attempt to increase the minimum wage raises concerns about whether such an increase might deter business expansion and new hiring, or even force job reductions; and

WHEREAS, according to the United States Bureau of Labor Statistics, the national unemployment rate in June 2014 was 6.1%, while Illinois had an unemployment rate of 7.1%; and

WHEREAS, according to World Business Chicago, the unemployment rate for the City of Chicago only for June 2014 was 8.2%;

WHEREAS, the unemployment rate for workers between the ages of 16 and 20 was 21% in June 2014; and

WHEREAS, establishing a higher minimum wage for the City of Chicago versus the rest of the State of Illinois would lead to a cut back in hiring and a reduction of jobs for City businesses just starting to recover from the great recession;

WHEREAS, Chicago risks alienating more businesses near its borders as it considers a proposal to create a Chicago-specific wage floor that is higher than all of its surrounding suburbs and the state of Indiana;

WHEREAS, maintaining and increasing employment opportunities in the City of Chicago are of great importance to the fiscal vitality of the city;

WHEREAS, both the United States Congress and the Illinois General Assembly have under consideration various measures to increase the minimum hourly wage;

WHEREAS, Chicago should focus its policies on job creation so that unemployed residents can find work, investing in job-training so that its current unskilled workforce becomes a skilled workforce in emerging industries and providing a quality education that prepares children for college;

WHEREAS, it is appropriate that the City Council gather information concerning the workable alternatives on how to increase the minimum hourly wage and to make legislative recommendations to the Illinois General Assembly and the United States Congress, in order to advance the economic interests of current and potential future employees, and in order to preserve and promote local businesses; now, therefore,

BE IT RESOLVED that the City Council, through its Committee on Economic, Capital and Technology Development, conduct one or more hearings on the effect of the current minimum hourly wage on workers and business owners in Chicago, and on methods of increasing the current minimum hourly wage throughout the State and enhancing the employment and business climate in our City; and

BE IT FURTHER RESOLVED that the Committee on Economic, Capital and Technology Development invite interested and informed economists, representatives of workers' groups and representatives of business associations to present information to the Committee; and

BE IT FURTHER RESOLVED that the Committee undertake his work with a view toward developing recommendations to the Illinois General Assembly and the United States Congress on methods of implementing a consistent increase in the minimum hourly wage throughout the State of Illinois.

(h) To request information related to an investigation from any employee, officer, agent or licensee of the city;

(g) The legislative inspector general shall conclude his investigation of any violation of Chapter 2-156 under his jurisdiction no later than two years from the date of initiating the investigation; provided, however, that any period of time during which he has suspended his investigation in accordance with Section 2-55-110, or any time period during which the person under investigation has taken affirmative action to conceal evidence or delay the investigation, shall not count towards the two-year period. Notwithstanding any tolling or suspension of time applied, investigations by the legislative inspector general under this Chapter are subject to an absolute four-year time limit from the date of initiation.
