Project Narrative

BLACKHAWKS COMMUNITY TRAINING CENTER
PROJECT NARRATIVE
NOVEMBER 2015

Project is a 126,000 sf (+ or -) Community Hockey Training Facility to be developed by Blackhawk Community Ice Rink, LLC and Wirtz Corporation, in cooperation with Chicago Stadium Corporation and the Chicago Blackhawks Hockey Club. Project is to be located at the SWC of W Jackson Blvd and S Wood Street, on four acres of land (+ or -) to be acquired from the City of Chicago. Land is being acquired from the city at a price that is equal or greater than market value.

Project includes a full service community hockey training center, including two regulation sized ice sheets with capacity for approximately 300 spectators in each rink, locker rooms, fitness facility, food & beverage, and related space. Project also includes training and fitness facilities to be used by the Chicago Blackhawks Hockey Club as its primary training facility. The Blackhawks will utilize the community ice sheets during its practice times.

The Training Facility, with its central location near downtown, will provide an ideal location for current and future generations of Chicagoans to learn to skate and to play the sport of hockey. The Facility will blend into the surrounding urban context, providing a cohesive design with other nearby athletic facilities, including the United Center and the Chicago Bulls new training facility, the Advocate Center, while providing appropriate building size and modern design aesthetics. The Training Facility will provide hockey and ice skating programs to a wide range of users, with a focus on youth development. Programs will include ice skating, figure skating, recreational skating, recreational and advanced hockey leagues, tournaments, high school and college teams, semi-professional teams, off-ice training – including fitness and nutritional programs, and group events.

Wirtz Corporation and the Chicago Blackhawks are committed to helping underprivileged youth by providing training and development programs related to the sport of hockey. Wirtz will partner with Chicago Blackhawks Charities to provide free hockey and off-ice development programs for local youth groups.

The Project will be designed to meet LEED equivalent standards, and will have 25% green roofs. Parking areas will be landscaped and fenced consistent with the City's current standards.

Wirtz plans to acquire the land from the City of Chicago after it has removed existing improvements and removed any environmental hazards. Projected acquisition is June 2016. Construction is planned to start in July 2016 and to be completed in November 2017. The project is anticipated to be funded through a combination of equity and internal financing.

The Chicago Blackhawks Community Training Center design team will pursue several green strategies to obtain a LEED Equivalency. Sustainable solutions provide high performance design. HOK's global practice is made up of people committed to partnering with clients to be responsible stewards for the environment. We deliver solutions that satisfy people's needs, improve the environment and provide value for our clients while creating lively, memorable places. Our ability to integrate high performance into our planning and design solutions enables HOK to provide life-cycle sustainable services for clients.

The design team is developing and implementing the following sustainable strategies to obtain LEED Equivalency for the project. For a sustainable site, the team is working towards construction activity pollution prevention, sustainable site selection, development density and connectivity, brownfield redevelopment, public transportation access, providing bicycle storage and changing rooms, parking capacity and preventing heat island effect. The facility will also reduce the amount of water used by fixtures to exceed the minimum required by LEED for water efficiency. LEED energy performance requirements will be pursued by specifying energy efficient light fixtures and optimizing energy performance of mechanical systems. The waste produced during construction will be managed to divert waste from area landfills. To meet LEED equivalency, select materials specified will be regionally sourced and will meet the requirements for recycled content.

Refer to the LEED Equivalency Narrative for more information.

SUSTAINABLE SITES

SS Prereq 1 Construction Activity Pollution Prevention: HBK
HBK will provide a soil erosion and sediment control plan for construction activities that will satisfy requirements of the credit.
SS Credit 1 Site Selection: HBK
Project meets all requirements of the credit.
SS Credit 2 Development Density and Community Connectivity: HBK
Project meets all requirements of OPTION 2.
SS Credit 3 Brownfield Redevelopment: Contractor
SS Credit 4.1 Alternative Transportation – Public Transportation Access: HBK
Project meets all requirements of OPTION 2.
SS Credit 4.2 Alternative Transportation – Bicycle Storage + Changing Rooms: HOK
HOK will calculate the required number of bike storage spots and accommodating showers/changing rooms in the building and confirm the documents against the required LEED criteria (racks for 5% of FTE and .5% showers for FTE)
SS Credit 4.4 Alternative Transportation – Parking Capacity: HBK
This credit appears to be achievable via OPTION 1, but the parking capacity the project is providing in the new lot needs to be verified as meeting but not exceeding the minimum required by zoning code. If proposed parking capacity meets the requirement, then seven (7) preferred parking spaces must be provided for carpool or vanpool vehicles. The number of spaces to be provided is based on a total of 125 spaces in the new parking lot. The Blackhawks would be responsible for policing the proper use of spaces. "Preferred parking" refers to the parking spots that are closest to the building entry.
SS Credit 7.2, Heat Island Effect: Roof : HOK
HOK will specify the appropriate combination of SRI roofing and/or green roof on the facility.

Traffic Impact Study

INTRODUCTION

Sam Schwartz Engineering, DPC (SSE) was retained by Blackhawks Community Ice Rink, LLC to conduct a traffic impact study for the proposed Blackhawks Practice Facility on Jackson Boulevard at its intersection with Wood Street in Chicago, Illinois. The site is also bounded by Ogden Avenue and Van Buren Street. The site location is illustrated on *Figure 1*.

As proposed, the project development consists of an approximate 135,985 square-foot structure containing two sheets of ice with public space, as well as private space for the Chicago Blackhawks. A surface parking lot is proposed on the east and south sides of the building with parking for 127 vehicles, of which 56 spaces will occasionally be gated off for private team parking use. Access to the site will be provided on Jackson Boulevard, Wood Street, and Van Buren Street. It is expected that there will be significant drop-off and pick-up activity at the site for youth hockey events so two loading areas are proposed to maximize drop-off options for youth participants.

The following report presents and documents SSE's methodology, data collection, analyses, and identifies improvements, as necessary, to mitigate impacts the development's traffic may have on the local transportation system.

EXISTING CONDITIONS

SSE conducted field visits to collect relevant information pertaining to existing land uses in the area, the surrounding street network, transit connections, existing pedestrian, and traffic volumes, traffic controls, and lane geometry and infrastructure at all critical intersections. This section of the report provides a description of these existing characteristics.

Site Location

The site is located at Wood Street and Ogden Avenue, between Jackson Boulevard and Van Buren Street. The site is located on the eastern portion of the Malcolm X College site, which currently occupies the entirety of the block from Damen Avenue to Wood Street. There are two parking lots that serve the current structure, each with a capacity of 68 parking spaces. One surface lot can be accessed on Damen Avenue, while the other can be accessed on Wood Street.

Malcolm X College

Construction of the new Malcolm X College is currently on-going and the building is expected to open for the start of Spring classes in January 2016. The new building is being built directly across the street from the current college on the north side of Jackson Boulevard. The college's new parking garage structure is complete and open. Access is provided currently on Wood Street and Jackson Boulevard. An additional access point will be opened on Adams Street once construction of the main building is complete.

Existing Street Characteristics

Jackson Boulevard is an east-west major collector that serves the site's northern boundary. Jackson Boulevard is a one-way eastbound street (east of Damen Avenue) and a two-way street west of Damen Avenue. Its intersections with Damen Avenue and Ogden Avenue are signalized, and traffic is free flow at its intersection with Wood Street. All intersections provide high-visibility, continental crosswalks (ladder-style), with the exception of the north and south legs of Wood Street which provide standard crosswalks. Parallel parking is provided on both sides of Jackson Boulevard, between Damen Avenue and Wood Street. A one-way buffered bike lane runs along the north side of Jackson Boulevard, east of Damen Avenue. The assumed speed limit on Jackson Boulevard is 30 miles per hour (mph) and it is under the jurisdiction of the Chicago Department of Transportation (CDOT).

Van Buren Street is a one-way westbound street that runs parallel to the Eisenhower Expressway (I-290) and serves the site's southern boundary with two travel lanes. Its intersections with Damen Avenue and Ogden Avenue are signalized, and provide continental crosswalks. Free parallel parking is provided on the north side of Van Buren Street between Damen Avenue and Ogden. Parking is prohibited on the south side of the street. The assumed speed limit on Van Buren Street is 30 mph and it is under the jurisdiction of CDOT. An I-290 (WB) exit ramp is located between Damen Avenue and Ogden Avenue on Van Buren Street and an I-290 (WB) entrance ramp is located just west of Damen Avenue.

Damen Avenue is a two-way north-south major collector located east of the project site. It is signalized at its intersections with Jackson Boulevard and Van Buren Street. Continental crosswalks are provided at both intersections, with the exception of the south leg of Van Buren, where a crosswalk is not provided. On-street parking is not allowed on Damen Avenue. The assumed speed limit on Damen Avenue is 30 mph and it is under the jurisdiction of CDOT.

Wood Street is a two-way north-south local street with free parallel parking on both sides of the street. It serves as the site's eastern border. Its intersections with Jackson Boulevard and Ogden Avenue are under stop control. The posted speed limit on Wood Street is 30 mph and it is under the jurisdiction of CDOT.

Ogden Avenue is a two-way, two-lane northeast-southwest major collector with parallel parking on both sides of the street. Its intersections with Van Buren Street and Jackson Boulevard are signalized, and it is free-flow at its intersection with Wood Street. The west side of the street is a shared bicycle lane marked by shared lane bicycle markings. The assumed speed limit on Ogden Avenue is 30 mph and it is under the jurisdiction of the Illinois Department of Transportation.

Existing Transit Characteristics

The site is served by public transit with access to CTA Blue Line service at Illinois Medical District and two bus routes. A Pink Line station at Polk Street and Paulina Street is 1/2-mile (10 minute walk) from the site. The bus routes (Numbers 50 and 126) run along Damen Avenue, Jackson Boulevard, and Van Buren Street. Both routes have bus stops that are within two blocks of the site.

Divvy, Chicago's bike share system, has 3 stations within a 10-minute walk of the site at the following locations:

- Damen Avenue & Madison Street
- Ogden Avenue & Congress Parkway
- Jackson Boulevard & Loomis Street

Existing Traffic Volumes

Existing traffic volumes were determined by manual traffic counts conducted in October 2015 during the weekday morning (7:00 to 9:00 AM) and weekday evening (4:00 to 6:00 PM) peak periods at the following intersections:

- Jackson Boulevard & Damen Avenue
- Jackson Boulevard & Wood Street
- Jackson Boulevard & Ogden Avenue
- Van Buren Street & Damen Avenue
- Van Buren Street & Ogden Avenue
- Ogden Avenue & Wood Street

The existing peak hour traffic volumes are illustrated on *Figure 2* and the existing peak hour pedestrian volumes are illustrated on *Figure 3*. Summaries of the traffic count data are contained in the Appendix of this report.

Existing Operations

The effectiveness of an intersection's operation is measured in terms of Level of Service ("LOS"). LOS ranges from LOS "A" to LOS "F" with LOS "A" being the best level of operation for an intersection and LOS "F" being the worst. LOS "A" represents free flow conditions where the general level of comfort and convenience experienced by motorists is excellent.

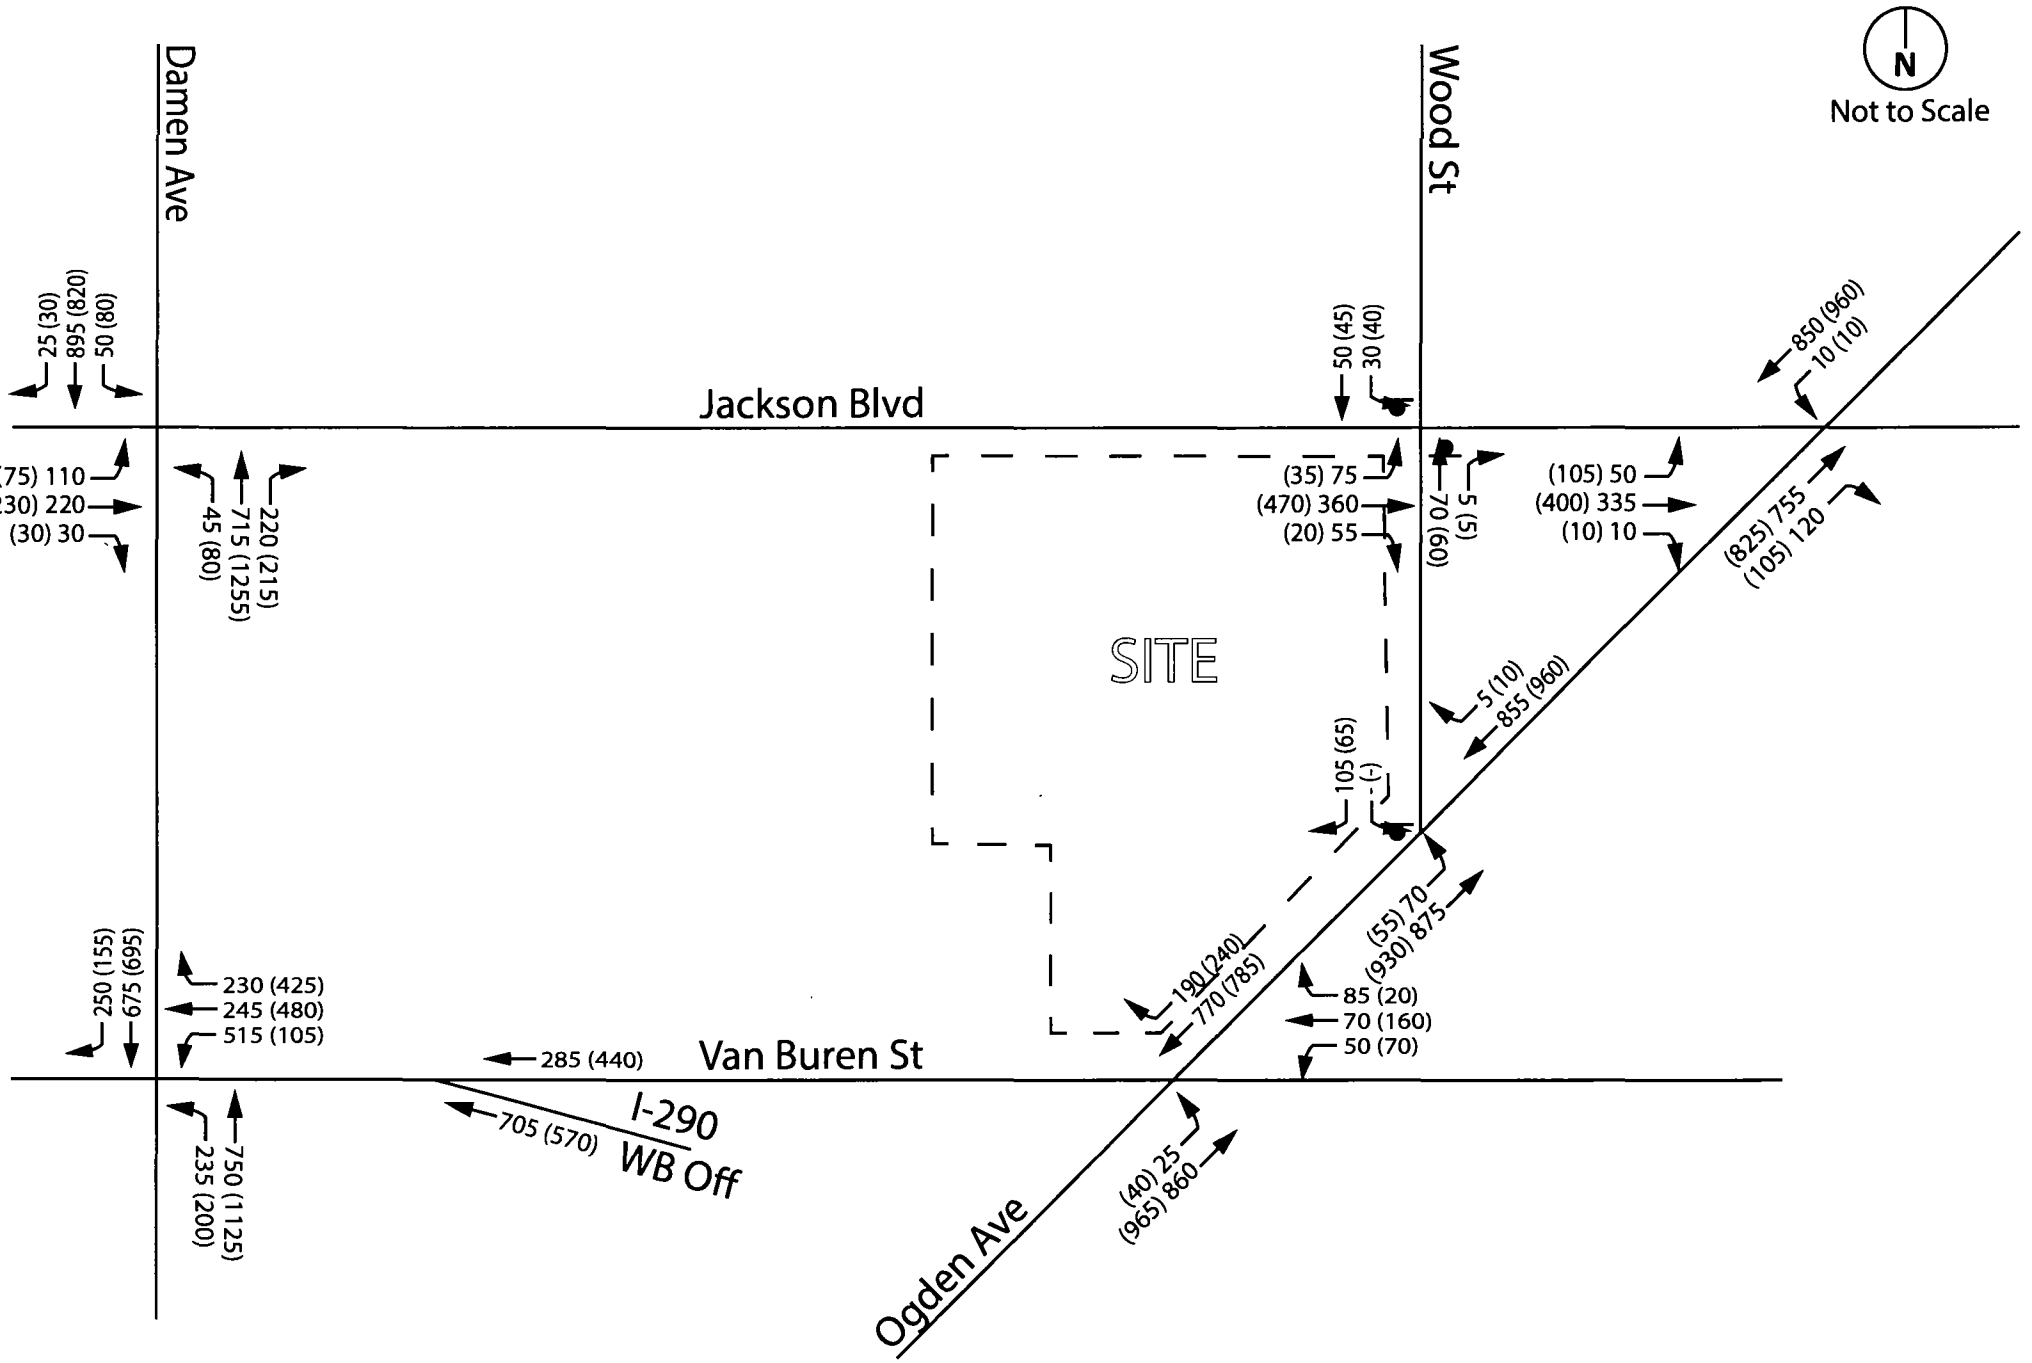

An intersection capacity analysis was utilized to analyze the intersection for the weekday peak hours using SYNCHRO and based on the methodologies outlined in the *Highway Capacity Manual (HCM)*[1]. All intersections are signalized, with the exception of Wood Street at Jackson Boulevard and Ogden Avenue. Summaries of the capacity analysis results for all study intersections under existing conditions are presented in Table 1. The SYNCHRO worksheets containing the intersection analyses are included in the Appendix. As the table shows, all intersections and intersection movements operate at LOS C or better with the exception of westbound Van Buren at Damen.

FUTURE TRAFFIC CHARACTERISTICS

This section of the report presents the traffic characteristics associated with the proposed development. This includes discussions regarding background traffic conditions, site development plans, site-generated traffic volumes and their distributions on the surrounding roadway network. Site access, site traffic assignment and future traffic volumes is also discussed.

Development Plans

The existing Malcolm X College building will be eliminated to accommodate the proposed development of the Blackhawks Practice Facility. The block is currently occupied by a single building situated at the center of the block, with parking lots accessible via Wood Street and Damen Avenue. As proposed, the eastern 4 acres of the site adjacent to Wood Street and Ogden Avenue will be developed as a practice facility for the Chicago Blackhawks. The project will consist of 135,985 square feet of practice facility with a surface lot containing 127 parking spaces with access on Jackson Boulevard, Wood Street and Van Buren Street. A sliding security gate is proposed that would provide privacy for the players and separate 56 spaces on the southern side of the building from the public lot during practices. During those times, the team lot will be accessed on Van Buren Street and access to the remaining public parking spaces will be provided on Jackson Boulevard and Wood Street. Generally, for all other activities at the rink, the security gate will be open and all site parking will be open to visitors.

As proposed, passenger drop-off and pick-up will occur on the south side of Jackson Boulevard in a designated loading zone along the curb accommodating approximately 5 vehicles. Vehicles can also pull into the lot and drop-off at the front entrance on-site within a layby loading area. The new facility also includes parking space for 26 bicycles. Construction of the practice facility is expected to be complete in 2017.

Background Traffic

Based on discussions with CDOT, specific development plans in the immediate area are unavailable at this time. However, in order to account for other area growth that may occur prior to completion of the project, background traffic growth in the area was included in the analysis. Based on SSE's work for the Illinois Medical District (IMD) and according to the IMD Traffic and Parking Impact Study conducted by SSE in 2012, a background growth factor of 4 percent was included in the analysis to account for growth associated with area development to Year 2017.

Trip Generation

The estimates of traffic to be generated by the site are based upon the proposed land use type and size. The ITE Trip Generation manual was used to estimate a base volume of traffic generated by a community ice skating rink use with a spectator capacity of approximately 300 per rink. The ITE report is a compilation of national traffic data surveys utilized to estimate traffic volumes for various land uses. However, because these rates reflect a small sample size and only a portion of the site's ultimate use, they were only used as a base and were adjusted. The following are key traffic characteristics of the proposed use:

- SSE conducted a survey of a Chicago Blackhawks practice. Blackhawks practices typically occur at 11:00 AM and, therefore, do not contribute much traffic during the AM and PM peak "rush" hours of the street. During the observed practice, approximately 50 spectators and a public parking demand of 35 vehicles were noted. They arrived well after 9:00 AM.
- Community and youth hockey games will generate very little traffic during the morning peak hour of the street.
- There will be occasional special events at the facility where the ice is covered and used to accommodate a banquet-type function. Current code assessments have the maximum occupancy at 2,800 for a "banquet use" which may occur a few times a year. During these times, primarily in the evenings and on weekends, it is anticipated that the Malcolm X College parking garage and a portion of the United Center south parking lots will be available to accommodate overflow parking demand.

The trip generation estimates are detailed in Table 2 and represent a typical day at the facility with a Blackhawks practice scheduled late morning and evening community hockey games.

Table 2: Trip Generation – Typical Weekday

Land Use	Weekday AM Peak Hour			Weekday PM Peak Hour		
	In	Out	Total	In	Out	Total
Blackhawks Community Ice Rink	10	5	15	50	25	75

Directional Distribution

The directional distribution of the site-generated traffic is a function of several variables, including the existing traffic volumes, the existing street and traffic control system, and area peak hour congestion. The anticipated directional distribution of the site traffic is shown on *Figure 4.*

Site Traffic Assignment

Based on the direction of travel, the site-generated trips were assigned to the roadway network by utilizing the site estimated trips listed in Table 2 and the directional distribution shown in Figure 4. The site traffic assignment is illustrated on *Figure 5.*

Total Traffic Assignment

The total traffic assignment represents the overall projected traffic volumes upon full construction of the project and was determined by combining the site-generated volumes (Figure 5) plus the existing traffic (Figure 2), as well as projected growth of 2 percent per year to 2017, or 4 percent total. The total traffic volumes are shown on *Figure 6.*

ANALYSIS

Analyses were conducted to determine whether the adjacent roadway network would be able to accommodate the needs of the proposed development. The analyses looked at impacts to adjacent uses, intersection capacity, on-street parking restrictions, site plan, and pedestrian considerations.

Capacity Analysis

Capacity analyses were conducted using SYNCHRO to assess future traffic conditions of the weekday morning and evening peak hours based on the methodologies outlined in the *Highway Capacity Manual.* Summaries of the capacity analysis results indicating the LOS for all study intersections under future conditions are presented in Table 3. All output worksheets used for these analyses are contained in the Appendix.

Comparison of existing and future conditions capacity analyses show that overall intersection and individual approaches will continue to operate at the same LOS in the future and the intersections will experience minimal increases in delay as a result of the proposed project. No intersection traffic improvements are required as a result of the project. All movements at the proposed site access driveways are projected to operate well (LOS A or B).

Site Access

The site plan calls for three access drives, one on Jackson Boulevard, one on Wood Street and one on Van Buren Street. Each drive will operate with two-way traffic providing one inbound lane and one outbound lane under stop control. The plan provides good site accessibility by maximizing site access flexibility on the one-way street pair and maximizing the distance to external intersection locations. The site plan strategically locates driveways to minimize access points and protect the pedestrian environment surrounding the site. Deliveries and truck loading will occur on the south side of the building with access on Van Buren Street.

Site Circulation & Youth Drop-Off/Pick-Up

Site circulation will occur via two-way drive aisles, each 22 feet wide. It is expected that there will be significant drop-off and pick-up activity at the site for youth hockey events. A 100-foot long loading area is proposed along the south side of Jackson Boulevard near the main public entrance to the building.

The loading area will occur on-street within the existing parking lane and will require No Parking signs. In addition, a layby drop-off area is proposed on the east side of the site near the front building entrance. This will provide for good site circulation as parents will be able to drop-off and circulate to park within the site or exit the site. Providing two different drop-off locations immediately adjacent to the front door maximizes options for youth participants as they are typically carrying large, heavy equipment.

Parking Analysis

In total, the site will provide 127 parking spaces. During Blackhawks practices, 56 spaces located on the southern side of the building that will be separated from the public lot by a sliding security gate. The remaining 71 parking spaces will be available for the public during those times. At all other times, the security gate will remain open leaving all 127 spaces available for site parking. Typical peak weekday *public* parking demand for both practices and community hockey games is expected to be between 35-60 vehicles; Saturday games and hockey tournaments will draw a slightly larger crowd with a parking demand of approximately 80 (ITE *Parking Generation*). For even larger special events that may occur occasionally throughout a year, overflow parking will be accommodated in the Malcolm X College parking garage via an agreement between the college and the facility, as well as use of the south United Center parking lots. Abundant street parking will also be used to accommodate this demand.

CONCLUSION

This traffic impact study was conducted for the proposed development of the Blackhawks practice facility located at Wood Street and Ogden Avenue, between Jackson Boulevard and Van Buren Street. Based on the conducted analyses, the following conclusions were developed:

- Site traffic is well served and well distributed on the surrounding street network.
- Analyses have been conducted for all study intersections to determine the impact from the proposed development. Peak-hour volume increases on study-area roadways as a result of the development will have limited impact on intersection operations within the study area.
- Site access will adequately accommodate site traffic providing one inbound lane and one outbound lane at each driveway location.
- As part of the development plan, the following pedestrian and bike improvements are provided or recommended:
  - Provide two different drop-off locations (one on-street and one on-site) in order to maximize safe options for youth participants.
  - Eliminate approximately 5 parking spaces on the south side of Jackson Boulevard (currently free) to accommodate a loading zone designation for drop-off and pick-up.
  - Upgrade the existing crosswalks east-west across Wood Street at Jackson to high-visibility, continental crosswalks. Continental crosswalks are the standard CDOT design with 2-foot white bar markings that run parallel to traffic and perpendicular to the walking path.
  - Provide 26 bicycle parking spaces on the north side of the building along Jackson Boulevard.

Dear Sir or Madam:

I am writing to notify you that on behalf of my client and the Applicant, K.C. Lau, I will file on or about November 25, 2015, an application for a change of zoning designation from a RS 3 Residential Single –Unit (Detached House) District to a RM 4.5 Residential Multi-Unit District under the Ordinance of the City of Chicago for the property located at 2913-15 South Loomis Street, Chicago, Illinois, and further described as follows:

> THE PUBLIC ALLEY NEXT NORTH OF WEST CORTEZ STREET; A LINE 292.5 FEET WEST OF AND PARALLEL TO NORTH WESTERN AVENUE; WEST CORTEZ STREET; AND A LINE 316.51 FEET WEST OF AND PARALLEL TO NORTH WESTERN AVENUE. .

City Ordinance (Municipal Code, Section 17-13-0107) requires that I send you this notice.

The zoning amendment is sought in order to subdivide the existing property into three lots. The resulting lot at 2915 South Loomis will maintain the existing two flat without proposed expansion. The resulting lot fronting onto South Elias Court will maintain the existing coach house without proposed expansion. The resulting lot at 2913 South Loomis will be vacant with future use as a single family home.

Please note that the applicant is not seeking to purchase or amend the zoning of your property. The applicant is required by law to send this notice because you own property within 250 feet of the subject site.

The applicant and owner of the subject property is K.C. Lau of 1321 West 32nd Place, Chicago, Illinois.

Very truly yours,

Thomas M. Pikarski

RESIDENTIAL-BUSINESS PLANNED DEVELOPMENT NO. 1169, AS AMENDED

PLAN OF DEVELOPMENT STATEMENTS

1. The area delineated herein as a Residential-Business Planned Development No. 1169, as amended (the "Planned Development") consists of approximately 3,063,969 square feet of Net Site Area (approximately 70.34 acres) of property (the "Property"), together with certain portions of existing rights of way, as depicted on the Planned Development Boundary and Property Line Map, as defined in Statement No. 4(a). The Property is owned or controlled by Lake Meadows Associates, an Illinois limited partnership (the "Applicant"). The Planned Development is divided into Subareas (each, a "Subarea," and collectively, the "Subareas"), as indicated on the Subarea Map, as defined in Statement No. 4(a). The purpose of this amendment to the Planned Development is to (a) secure Final Subarea Plan approval for Subarea A2 and to secure Site Plan Review approval for Parcel 1.1 of Block 1 of Subarea A2 and (b) make certain revisions to these Statements in recognition of revised development program sequence for the Planned Development. The Applicant owns or controls Subarea A2.

2. All applicable official reviews, approvals or permits are required to be obtained by the Applicant. These Planned Development Statements do not obligate the City of Chicago ("City") to establish any public rights-of-way, accept or maintain any open space, detention or site buffer areas, construct any public improvements, or finance the construction of any improvements. Any dedication, opening or vacation of streets, alleys or easements or adjustments of rights-of-way or consolidation or re-subdivision of parcels shall require a separate submittal on behalf of the Applicant and approval by the Commissioner of the Department of Transportation ("CDOT") and the City Council of the City of Chicago (the "City Council"). Any required City Council approvals must be obtained prior to issuance of any Part II approval. Applicant shall have the right to seek approval in phases for any or all of the foregoing approvals. In connection with planning for any Subarea, adjustments in the location, width and configuration of the rights-of-way illustrated on the Rights-of-Way Adjustment Map, as defined in Statement No. 4(a), may be approved by the Zoning Administrator of the Department of Planning and Development (the "Department") as a minor change to this Planned Development, provided such adjustments (a) do not result in a change in the character of this Planned Development in accordance with the requirements of Section 17-13-0611 of the Chicago Zoning Ordinance, (b) are set forth in a plat of subdivision, dedication, opening or vacation, or comparable plat or instrument, as applicable, that has been submitted by Applicant for approval by CDOT, the Department and by the City Council at the time of request for such adjustments (and approved by CDOT and the City Council prior to the issuance of any Part II approval), and (c) shall not be deemed to confer any additional bulk, density or other development.

3. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the Applicant and its successors, assigns and grantees. All rights granted hereunder to the Applicant shall inure to the benefit of the Applicant's successors, assigns and grantees (including any condominium or homeowners' association which may presently exist or hereafter be formed). References in this

Planned Development to "Applicant" shall mean and include as applicable the Applicant's successors, assigns and grantees. The requirements of Section 17-8-0400 of the Chicago Zoning Ordinance shall apply to the Property. The Subareas (and, if subsequently designated on any Final Subarea Plan, any subparcels designated thereon), shall be deemed specifically delineated subareas and subparcels for purposes of Section 17-8-0400 of the Chicago Zoning Ordinance, provided, however, that for so long as Lake Meadows Associates ("LMA") owns or controls any part of the Property, any application to the City for any such changes or modifications (administrative, legislative or otherwise) must in all cases be authorized by the LMA or its express designee. Where portions of the improvements located on the Property have been or are hereafter submitted to the Illinois Condominium Property Act or any similar common interest community statute, or made subject to a private declaration governing a homeowners association, the term "owner" shall be deemed to refer solely to the condominium association, common interest community or homeowners association of such owners of such portions of the improvements and not to the individual unit owners therein. Nothing herein shall prohibit or in any way restrict the alienation, sale or any other transfer (a "Transfer") of all or any portion of the Property or any rights, interests or obligations therein by the Applicant or any owner. Any party making application shall have the burden of establishing to the reasonable satisfaction of the Department that the consent of LMA (or its express designee) has been obtained, assigned or irrevocably waived. Upon any Transfer of all or any portion of the Property or the rights therein (other than a mortgage lien or security interest) and solely with respect to the portion of the Property so transferred, the term "Applicant" shall be deemed amended to apply solely to the transferee thereof (and its beneficiaries if such transferee is a land trust); provided, however, that the right of LMA (or its express designee) to authorize future amendments, modifications or other changes (administrative, legislative or otherwise) to this Planned Development shall not be deemed to be amended or transferred unless the Applicant assigns such rights to the transferee in writing or otherwise irrevocably waives such rights. Nothing in this Statement 2 shall be construed in derogation of Section 17-1-1003 of the Zoning Ordinance.

(d) The intent of this amendment is to revise the Planned Development Statements, the Use, Bulk and Data – Subarea A2, and the Design Exhibits applicable to Subarea A2 in order to recognize and provide for approval of a Final Subarea Plan for Subarea A2. It is the further intent that the Planned Development Statements, use, bulk and regulation provisions, and the Design Exhibits for all Subareas other than Subarea A2 remain in full force and effect as approved as of June 30, 2010. Moreover, references herein to one or more Design Exhibits with the pre-cursor 2010 (e.g., 2010 Subarea Map) shall be deemed to refer to that specific Design Exhibit approved as of June 30, 2010, as the context requires.

(e) Full size copies of the Design Exhibits are on file with the Department. References in these Statements to the "Planned Development" shall be deemed to include the aforementioned Design Exhibits. This Planned Development conforms to the intent and purpose of the Chicago Zoning Ordinance and satisfies the established criteria for approval as a Planned Development. In the case of any express conflict between the terms of this Planned Development, and the Chicago Zoning Ordinance, this Planned Development shall apply. Absent an express conflict, the terms of the Chicago Zoning Ordinance shall apply to reviews, determinations and approvals under these Statements and to improvements to the Property. In any instance where a provision of the Planned Development conflicts with the Chicago Building Code, the Building Code shall control.

5. The maximum floor area ratio ("FAR") and number of dwelling units permitted in each Subarea are set forth in the Master Bulk Regulations and Data Table. The permitted uses, floor area ratio, number of dwelling units, building height, setbacks, parking and bicycle parking requirements for each Subarea are set forth in each Subarea's Use, Bulk and Data Table included in the Design Exhibits, and as further explained in the notes to each of such tables. For the purposes of calculations or measurements pertaining to the foregoing, the applicable definitions in the Chicago Zoning Ordinance shall apply. The Property was zoned B3-5 immediately prior to the City Council's adoption of this Planned Development.

9. (a) All ingress and egress shall be subject to the review and approval of the Chicago Department of Transportation ("CDOT") and the Department. Closure of all or any public street or alley during demolition or construction, and the conditions and timing for acceptance of any new public roadways or improvements that are to be constructed and dedicated, shall be subject to the review and approval of CDOT. All work proposed in the public way must be designed and constructed in accordance with the CDOT Construction Standards for Work in the Public Way and in compliance with the Municipal Code of the City of Chicago, and must be designed in accordance with the CDOT Street and Site Plan Design Standards and follow the principles and practices of a Complete Streets design approach where practical and appropriate.

Any dedication or vacation of public streets, alleys or easements, any subdivision or any other adjustments of the public rights-of-way contained within a particular Part II submittal (collectively "Public Way Adjustments") shall be approved by City Council prior to the issuance of any final Part II approval. Subject to the foregoing, the City's election to defer the dedication of any land, or the dedication and acceptance of any new public roadways or improvements until the same have been fully constructed and approved, shall not otherwise delay or prevent the Department's issuance of any Part II approval.

(b) In connection with the Applicant's submittal of any plats, Final Subarea Plans and Site Plans in accordance with Statement 10 below, CDOT shall finally determine what means of ingress and egress are required, what public rights-of-way are required, and what public way improvements must be constructed as part of any project in any given Subarea (including any improvements required outside of such Subarea, but impacted or integrally related to such Subarea's project and the public improvements associated therewith). The term "project" as used in this Planned Development shall mean the subject of an application for Site Plan approval, which may consist of one or more buildings, unless the context indicates otherwise.

(c) Applicant, at its own expense, agrees to provide traffic impact studies, pay for the services of professional engineering services, and pay for the cost of third party construction inspection services to assist CDOT in its review and approval of any plats, Final Subarea Plans, and Site Plan submissions (which approvals shall be a condition precedent to the Department's issuance of any applicable Part II approval). CDOT must approve the applicable consultant, which shall report to CDOT. Recommended traffic and engineering measures shall be included in the design review process and implemented.

(d) A minimum of two percent (2%) of all parking spaces provided pursuant to this Planned Development shall be designated and designed for parking for the handicapped.

10. This Statement 10 describes the procedures and approvals that shall govern the review and approval by the Department and, when applicable, the review and approval of the Chicago Plan Commission or the City Council, or both the Chicago Plan Commission and the City Council, whenever the Applicant undertakes any development project on the Property.

(a) Final Subarea Plan.

At the time the first development project in a given Subarea (or one or more Subareas) is undertaken, the Applicant shall file with the Department a final subarea plan which includes the information set forth below (the "Final Subarea Plan") for such Subarea(s) along with an application for Site Plan Review pursuant to Statement 10(b) hereof. Such filing requirements shall not apply to Subarea A1, which was approved as part of this Planned Development on June 30, 2010. Such filing requirements also shall not apply to Subarea A2 which is being approved as part of this amendment to the Planned Development. The Final Subarea Plan shall govern such first development project and, unless amended pursuant to this Statement 10(a), all subsequent development projects thereafter constructed in such Subarea.

The Final Subarea Plan filing shall include the following:

(i) A dimensioned Subarea Plan including the following with respect to such Subarea (and any subparcels designated therein, if any):

1. All public rights of way that are proposed to be dedicated or opened, and all private rights of way;

2. Dimensioned setback lines;

3. All off-street parking and service areas, both accessory and non-accessory;

4. All open space, site buffer, detention and recreational facilities;

5. Sites for any schools, libraries, police stations or other public facilities, if any; and

6. Dimensioned green roof plans, as set forth in Statement 14.

(ii) A detailed, dimensioned Subarea site plan including:

3. Dimensioned building sites, dimensioned setback lines, the proposed use of each building site, and indication of the maximum building height, F.A.R. and residential unit count for each building site;

4. All off-street parking and service areas, both accessory and non-accessory; and

5. Fully dimensioned parking plans, loading areas, and landscape plans (which landscaping may be planned and constructed in phases).

(iii) Preliminary engineering plans including the following:

1. Sanitary and storm sewer lines and systems (identified as public or private);

2. Water lines and water supply systems (identified as public or private); and

3. Street lighting (identified as public or private) and lighting systems.

(iv) Illustrative Subarea building elevations and locations for all of the buildings to be constructed in such Subarea including the following:

1. Illustrative elevations for all buildings to be located within the applicable Subarea (including axonometric or 3-D exhibits), which buildings shall be consistent with the floor area ratio, building height, dwelling unit, setback and parking space requirements permitted or required in the applicable Subarea.

2. Although final elevations for the buildings to be constructed shall not be required at the Final Subarea Plan approval stage except for the building requesting site plan approval, the massing, the entrances, and maximum building heights and window design should be addressed, and depictions and explanations provided describing how the buildings to be constructed incorporate the pedestrian-orientation, urban design, building design and green design standards and guidelines set forth in Sections 17-8-0905, 17-8-0906, 17-8-0907 and 17-8-0908 of the Chicago Zoning Ordinance, respectively.

(v) For the Final Subarea Plan for Subarea D only, the information required under Statement 17(e).

The Final Subarea Plan shall be submitted and processed as an amendment to the Planned Development pursuant to Section 17-13-0602 through Section 17-13-0610 of the Chicago Zoning Ordinance. As such, the Final Subarea Plan shall be subject to the review and approval of the Department and such other bureaus, departments or agencies as the Commissioner deems appropriate;(which may include, but are not limited to, CDOT, the Department of Water Management ("DWM"), the Fire Department and the Mayor's Office on Persons With Disabilities ("MOPD") (as applicable, the "Affected City Departments"), the Chicago Plan Commission, the Zoning Committee and the City Council, as described in such Section 17-13-0602 through Section 17-13-0610. Each Final Subarea Plan submitted shall propose "sunset" requirements applicable to such Subarea for City Council approval and for the continued effectiveness of this Planned Development as to Subareas where the zoning of this Planned Development remains subject to lapse and voiding. A Final Subarea Plan must be approved prior to, or concurrently with, the approval of any Site Plans submitted and processed pursuant to Statement 10(b) below.

(b) Site Plans. Site Plan Review shall be required for all projects undertaken in furtherance of the Planned Development and the Final Subarea Plan in accordance with the provisions hereof, excluding Site Plan review for the Subarea A1-1.4 project described in Statement No. 4 (c)(i) which was approved as part of the Planned Development on June 30, 2010 and the Subarea A2-1.1 project described in Statement No. 4(c)(ii), which is being approved as part of this Planned Development. No Site Plan approval shall be required for alterations to existing buildings that do not increase their height or alter their footprint and no Site Plan approval shall be required for demolition or site work. In addition to the data referenced below, the Applicant shall provide an exhibit showing lot sizes and boundaries for such project. The Applicant shall also provide a Site Data Table for such project containing, for each Subarea and subparcel, if any, the following:

i. the Gross Site Area;

ii. the Net Site Area;

iii. the square feet of floor area of each proposed building;

iv. the amount of F.A.R. utilized out of the maximum F.A.R. permitted in such Subarea;

v. the height of each building to be constructed and the maximum allowable height permitted under the Design Exhibits applicable to such Subarea;

vi. the number of dwelling units to be constructed and the maximum number of dwelling units permitted under Design Exhibits applicable to such Subarea;

vii. the front, rear and side setbacks for each building and the setbacks required under the Design Exhibits applicable to such Subarea;

viii. the site area attributable to all residential open space, if applicable; and

ix. The number of parking spaces to be provided and the minimum and maximum number of parking spaces required under the Subarea Use, Bulk and Data Table, as applicable.

Except to the extent previously depicted in (and unchanged from) the applicable Final Subarea Plan, the Applicant shall also provide site plan documents illustrating: all building location(s); curb cuts; sidewalks; parking and loading areas; landscaping, lighting and signs; fencing and outdoor storage areas; and waste storage and compacting facilities. A map of surrounding land uses and buildings for a distance of one block in all directions also must be provided. Final elevations must be provided for the proposed building(s). Building materials for the proposed building(s) must also be specified.

(c) Under Chapter 2-45-115(b) of the Municipal Code (the "ARO"), the City Council's approval of this Planned Development amendment does not constitute a "Rezoning of Property" as that term is defined in the ARO. Accordingly, the Applicant is subject to the provisions of Section 2-45-110 of the ARO. Pursuant to Section 2-45-110, the Applicant is obligated to either (i) establish at least ten percent (10%) of the residential dwelling units constructed after the date of such approval on the Property as affordable housing within the meaning of, and as governed by, the ARO or; (ii) in lieu of establishing such affordable housing, the Applicant may make payments in accordance with the requirements of Section 2-45-110(d)(1) of the ARO. As part of the Site Plan review and approval process for any application proposing the construction of a building containing residential dwelling units, the Applicant shall also provide, for the review and approval of the Department (or any successor department thereto), such information, documents and agreements as may be required under the ARO to assure that such required affordable housing units are provided and maintained or, in lieu thereof, that such payments are provided.

(d) The Site Data Table shall also incorporate a Chicago Builds Green Form/Sustainable Features table showing the "green" features to be included in the proposed buildings. The Site Plan shall be subject to review and approval of the Department and such Affected City Departments as the Commissioner deems appropriate before issuance of any Part II approval for the subject project. The Site Plan must be in substantial compliance with both the Planned Development and the applicable Final Subarea Plan.

(e) If, after City departmental review, the Commissioner determines that the Site Plan is in substantial compliance with both the Planned Development and the applicable Final Subarea Plan, and if any improvements contemplated by the Site Plan trigger or exceed any of the mandatory Planned Development thresholds set forth in Section 17-8-0500 of the Chicago Zoning Ordinance as applicable to the B3-5 zoning district, then the Site Plan must be reviewed by the Chicago Plan Commission, during a public meeting and

shall not require review and approval by the City Council. The threshold for Tall Buildings under Section 17-8-0512-A of the Chicago Zoning Ordinance shall be 80 feet, irrespective of ground floor commercial space.

(f) If such mandatory thresholds are not triggered, met or exceeded, then no Chicago Plan Commission review shall be required, and if, after City departmental review and where applicable, Plan Commission review, the Commissioner determines that the Site Plan is otherwise in substantial compliance with both the Planned Development and the applicable Final Subarea Plan, the Site Plan shall then be approved by the Commissioner. If, after City departmental review, the Commissioner determines that the Site Plan is not in substantial compliance with both the Planned Development and the applicable Final Subarea Plan, the Commissioner shall advise the Applicant in writing of how the Site Plan does not substantially comply with the Planned Development and/or the Final Subarea Plan. In such case, the Applicant shall be given an opportunity to submit revised Site Plans. If the Commissioner finally determines that the Site Plans, as the same may be revised, are not in substantial compliance with the Planned Development and/or the Final Subarea Plan, the Applicant then shall be required to amend the Final Subarea Plan in accordance with the review and approval procedures in Section 17-13-0602 through Section 17-13-0610 of the Chicago Zoning Ordinance in order to obtain approval of such Site Plans. After approval of a Final Subarea Plan and/or Site Plan, such Final Subarea Plans and Site Plans may be changed or modified pursuant to the requirements of Statement No. 14 hereof, if applicable.

(g) The Applicant acknowledges that the City's approval of a Final Subarea Plan and/or Site Plan shall not be deemed to be an approval of a subdivision of the property. It shall be Applicant's responsibility to comply with the Illinois Plat Act, as and when required, and to obtain separate City Council approval of any required subdivision.

11. Approved Site Plans

(a) On June 30, 2010, the Department approved the site plan for Subarea A1-1.4, consisting of the drawings and materials set forth in Statement No. 4(c) hereof, as in substantial compliance with the approved Subarea A1 Final Subarea Plan. Additionally, the Subarea A1-Parcel 1.1.4 Site Plan represents the first project to be approved pursuant to the Subarea A1 Final Subarea Plan. No further City Council or Department approval of the Subarea A1 Final Subarea Plan shall be required for future projects submitted for Site Plan approval in Subarea A1; provided, however, that each such future project shall substantially comply with the approved A1 Final Subarea Plan.

(b) The Department hereby approves the site plan for Subarea A2-1.1, consisting of the drawings and materials set forth in Statement No. 4(c)(ii) hereof, as in substantial compliance with the approved Subarea A2 Final Subarea Plan. Additionally, the Subarea A2-1.1 Site Plan represents the first project to be approved pursuant to the Subarea A2 Final Subarea Plan. No further City Council or Department approval of the Subarea A2 Final Subarea Plan shall be required for future projects submitted for Site Plan approval in Subarea A2; provided, however, that each such future project shall substantially comply with the approved A2 Final Subarea Plan.

12. The improvements on the Property shall be designed, constructed and maintained in substantial compliance with the Design Exhibits attached hereto.

(a) Parkway and parking lot landscaping shall comply with the landscaping provisions of the Chicago Zoning Ordinance and Chicago Landscape Ordinance, unless specified otherwise in an approved Final Subarea Plan.

(b) The Property shall be designed and constructed in accordance with the City of Chicago Regulations for Sewer Construction and Stormwater Management and Stormwater Management Ordinance Manual, latest editions. Any amendment to the City's storm water management requirements which the City adopts thereafter shall apply to the Property or the development thereof.

(c) The Applicant, at the time of a project shall comply with Rules and Regulations for the Maintenance of Stockpiles promulgated by the Commissioner of the Department of Streets and Sanitation, the Commissioner of the Environment and the Commissioner of Buildings under Section 13-32-125 of the Municipal Code of the City of Chicago or any other provision of that Code.

13. (a) The Part II review fee for permits and licenses to be issued for projects in the Planned Development shall be the greater of $0.25 per square foot for the total buildable floor area (i.e., the current rate under Section 17-13-0610 of the Chicago Zoning Ordinance) or the then applicable per square foot charge (or other then applicable charge) at the time of such Part II review. Such fee shall be determined and assessed by the Department at the time of each and every Part II review, shall be applicable to all projects, whether undertaken by the Applicant or another developer, shall be final and binding and must be paid to the Department prior to issuance of any Part II approval.

(b) Following Part II review and approval by the Commissioner, the Department shall keep such approved plans and elevations on permanent file and they shall be deemed to be an integral part of this Planned Development.

(c) The Applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promote and enable universal access throughout the Property in accordance with all laws.

(d) Plans for all buildings and improvements on the Property shall be reviewed and approved by the Mayor's Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote accessibility in accordance with all laws.

(e) Any interim reviews associated with Site Plan approvals or Part II reviews, are conditional until final Part II approval.

14. Subject to the other terms and conditions of these Statements, including specifically, but without limitation, Statement 10's filing, review and approval requirements, the terms, conditions and exhibits of this Planned Development may be modified administratively by the Commissioner: (i) upon application and a determination by the Commissioner in

accordance with the minor change provisions and standards of Section 17-13-0611 of the Chicago Zoning Ordinance (provided, however, that Section 17-13-0611-A.2 and A.3 shall be separately tested on a Subarea basis, without taking into account the Net Site Area of or dwelling units permitted in other Subareas or the Planned Development as a whole); and (ii) provided such modification, and the improvements contemplated thereby, are consistent with the character of the Planned Development and the applicable Final Subarea Plan. Any such modification shall be reviewed and approved through the minor change provisions of Section 17-13-0611 of the Chicago Zoning Ordinance.

15. The Applicant acknowledges that it is in the public interest to design, construct and renovate all buildings in a manner which provides healthier environments, reduces operating costs and conserves energy and resources. All development in any Subarea shall conform to the City of Chicago's "Sustainable Development Policy Matrix" in effect on the date of submittal of Site Plans pursuant to this Planned Development.

16. Open Space B2-2.1, as set forth in the Subarea Plan for Subarea B2, consists of 153,655 square feet (approximately 3.53 acres), and Open Space E-1.1, as set forth in the Subarea Plan for Subarea E, consists of 86,822 square feet (approximately 2.0 acres). Open Space B2-2.1 and Open Space E-1.1 shall be dedicated to the Chicago Park District ("CPD") and the parks and improvements thereon must be designed and constructed to CPD standards. Any conveyance of such open space to the CPD shall be subject to the approval of the CPD and a resolution or ordinance issued by the CPD Board of Commissioners must be provided to the Department to evidence such dedication, conveyance and acceptance.

17. (a) The Applicant shall have substantially completed installation, and made publicly available, either Open Space B2-2.1 (located in Subarea B2) or Open Space E-1.1 (located in Subarea E), no later than 12 months after the date that Part II approval has been issued for 2,354 or more new dwelling units (30% of total permitted units) since the date of adoption of this Planned Development. The date of completion as aforesaid shall be subject to a six month extension as necessary to accommodate the growing season.

(b) The Applicant shall have substantially completed installation, and made publicly available, either Open Space B2-2.1 (located in Subarea B2) or Open Space E-1.1 (located in Subarea E), whichever was not installed pursuant to Statement 17(a) above, no later than the date that is 12 months after the date that Part II approval has been issued for 4,707 or more new dwelling units (60% of total permitted units) since the date of adoption of this Planned Development. The date of completion as aforesaid shall be subject to a six month extension as necessary to accommodate the growing season.

(c) The location, configuration and boundaries of Open Space A3-1.2 (consisting of 0.8 acres) and Open Space E-2.3 (consisting of 0.7 acres), as depicted in the applicable Design Exhibits, are preliminary. So long as the minimum amount of site area attributable to each such Open Space remains substantially as required above, the location, configuration and boundaries of each may be modified at the election of the Applicant, with the concurrence of the Department; provided, however, that each such Open Space, as its location, configuration or boundary may have been modified, shall be

located wholly within its applicable Subarea or adjacent Subarea. Any such modifications shall be reflected in the applicable Site Plan approvals, when and as submitted for such approval. The Open Spaces described in this Statement 17(c) shall be clearly lit and signage shall be appropriately placed indicating the site is publicly accessible from sunrise to sunset. The Applicant shall be responsible for all development, management, maintenance repair and replacement costs associated with the such Open Spaces.

(d) The Applicant shall have substantially completed installation, and made publicly available:

(i) Open Space E-2.3 (consisting of 0.7 acres), located in Subarea E, not later than 24 months after issuance of Part II approval for any buildings in Parcel 2.2 having in aggregate not less than 449,962 square feet (i.e., 30% of Parcel 2.2's floor area as specified in Subarea E's Use, Bulk and Data Table).

(ii) Open Space A3-1.2 (consisting of 0.8 acres), located in Subarea A3, not later than 24 months after issuance of Part II approval for buildings in Parcels 1.1, 1.3 and 1.4 having in aggregate not less than 421,379 square feet (i.e., 30% of the total combined floor area attributable to Parcels 1.1, 1.3 and 1.4, as specified in the Subarea A3's Use, Bulk and Data Table).

(iii) The dates of completion as aforesaid shall be subject to a six month extension as necessary to accommodate the growing season.

(e) Nothing in this Planned Development shall preclude the Applicant from seeking and obtaining Open Space Impact Fee Credits for any Qualifying Open Space pursuant to the Open Space Impact Fee Administrative Regulations and Procedures promulgated by the Commissioner pursuant to Section 16-18-110 of the Municipal Code of Chicago and the "Notice to Residential Developers Regarding New Open Space Impact Fees", last revised by the City on April 6, 1998, as either may be amended from time to time.

(f) As part of the Final Subarea Plan for Subarea D, the Applicant shall provide preliminary engineering drawings and such other information as the Department may reasonably require to evidence the design, elevations and plans for the construction of the public pedestrian bridge and footpath (the "33rd Street Improvements") depicted in the Subarea D exhibits, including, without limitation, the CPD's approval of such designs, elevations and plans. The Applicant shall be obligated to substantially complete construction of the 33rd Street Improvements within 24 months of the issuance of Part II approval for the third high-rise building in Subarea D. No Part II approval for a fourth high-rise building in Subarea D shall be issued until construction of the 33rd Street Improvements has substantially commenced. If the Applicant, however, after 12 months of diligent and good faith efforts at the Applicant's own expense, certifies in writing to the Department that the Applicant has been unable to secure the real property interests, governmental approvals, and third party approvals and agreements necessary to construct the 33rd Street Improvements, then, in lieu of constructing such improvements, the Applicant may instead substantially commence construction of the open space required under Statement 17(a) (if it has not previously been constructed) or Statement 17(b) (if

the open space required under Statement 17(a) has been previously constructed) within 24 months of the issuance of Part II approval for the third high-rise building in Subarea D. Upon such substantial commencement of construction (and assuming that the Applicant does not thereafter cease or abandon such construction efforts, but thereafter diligently constructs such open space), the Applicant shall be entitled to obtain Part II approval for the fourth high-rise building in Subarea D.

18. As of the original date of adoption of this Planned Development (i.e., June 30, 2010), the various portions of the Property (now defined as Subareas A1, A2, A3, B1, B2, B3, C, D and E) are improved with existing improvements and operated with existing uses. Subarea C is improved with, among other things, multiple townhouses, single family homes and a condominium building containing dwelling units; and the owners, ground lessees and operators of Subarea C use said improvements and conduct other uses and operations within Subarea C (collectively, the "Subarea C Uses and Improvements"). The remaining portions of the Property are improved with, among other things, multiple residential buildings containing nearly 2,000 residential dwelling units, multiple commercial and retail buildings and surface parking lots; and the owners and operators of these portions of the Property use said improvements and conduct other uses and operations within said portions of the Property (collectively, the "Lake Meadows Uses and Improvements"). (The Subarea C Uses and Improvements and the Lake Meadows Uses and Improvements may collectively be referred to herein as the "Existing Uses and Improvements"). The Existing Uses and Improvements shall be permitted to continue without further approvals pursuant hereto.

19. The FAR and number of dwelling units attributable to buildings existing on the Property on the original date of this Planned Development (i.e., June 30, 2010) shall, until the demolition of any such buildings, continue to be included in the calculations of maximum FAR and dwelling units. If the FAR or number of dwelling units of an existing building located in a given Subarea is less than allowed in the Subarea, then new FAR and/or dwelling units, as the case may be, shall be allowed in such Subarea up to the applicable maximums. If the FAR or number of dwelling units of any existing building(s) in Subarea B1 is equal to or more than such Subarea's applicable maximums under this Planned Development, then no new FAR or dwelling units, as the case may be, may be constructed in such Subarea until sufficient FAR and dwelling units are removed so as to permit the construction of new dwelling within the limitations set forth in this Planned Development applicable to Subarea B1. Notwithstanding the foregoing, a maximum of 50 new dwelling units shall be permitted within that portion of Subarea B1 bounded by the northern boundary of Subarea B1 (Olivet Baptist Church); the north-south alley east of Martin Luther King Drive; East 33rd Street; and Martin Luther King Drive. A sufficient amount of FAR to accommodate such new dwelling units shall also be permitted.

20. (a) This Planned Development shall lapse and be null and void unless Substantial Construction (as defined below) has occurred in Subarea A1 and Subarea A2 within six (6) years of the date of the City Council's approval of this Planned Development amendment (as such date may be extended pursuant to Statement 20(d) below, the "Initial Expiration Date"). "Substantial Construction" shall mean and be evidenced by the (i)

issuance of Part II approvals; (ii) commencement of substantial construction; and (iii) the continued proceeding of such construction with reasonable diligence for not less than 50,000 gross square feet of improvements in Subarea A1 and 70,000 gross square feet of improvements in Subarea A2 (it being acknowledged that the Applicant has already completed 60,000 square feet of improvements in Subarea A2 as of the date hereof). The Applicant shall supply the Department with such documents requested as may be reasonably necessary to evidence compliance with such Substantial Construction requirements (such requirement, the "Substantial Construction Requirements").

(b) If the Substantial Construction Requirements set forth in Statement No. 20(a) are not satisfied by the Initial Expiration Date, then this Planned Development shall thereafter lapse and become void and the zoning classification of the entire Property shall automatically revert to the B3-5 zoning classification in place immediately prior to the passage of this Planned Development.

(c) If the Substantial Construction Requirements set forth in Statement No. 20(a) are satisfied by the Initial Expiration Date, then (1) the zoning established pursuant to this Planned Development for Subarea A1 and Subarea A2 shall not thereafter be subject to expiration, but (2) the zoning established pursuant to this Planned Development as to the remaining Subareas shall thereafter lapse and become void and shall automatically revert to the B3-5 zoning classification in place immediately prior to the passage of this Planned Development unless the Applicant thereafter obtains City Council approval for a Final Subarea Plan for a third Subarea in accordance with Section 10(a) prior to the Initial Expiration Date.

(d) The Initial Expiration Date may be extended for up to one additional year if, before expiration, the Applicant makes written request for such an extension explaining the good cause for such an extension, the Commissioner determines that good cause for an extension has been shown, and the Commissioner issues a written extension letter.

Note 1. The Subarea aggregate maximum FAR of 4.52 and maximum number of dwelling units of 7,845 is referred to herein as the "Base Amount". To provide flexibility among the Subareas, the maximum amount of FAR and the maximum number of dwelling units allowed in each Subarea set forth in the chart above is 10% higher than the Base Amount. Any individual Subarea may be developed to the maximum FAR or maximum dwelling units allowed in the chart above; provided, however, that in no event and at no time shall the Base Amount FAR or dwelling units be exceeded. Accordingly, where the construction of any amount of FAR or any number of dwelling units would otherwise cause the applicable Base Amount within the total Property to be exceeded, the availability of FAR or number of dwelling units within the total Property must be reduced by the amount necessary to avoid exceeding the Base Amount.

Note 2. Two hotel units shall be equal to one dwelling unit; the maximum number of hotels units shall not exceed 2,000 units.

Note 3. As of the date of adoption of this Planned Development, the actual built floor area in Subarea C is approximately 292,428 square feet (the approximate equivalent of 1.42 FAR) and the actual built number of dwelling units is approximately 185.

Note 4. 1.25 Elderly Housing units shall be equal to one dwelling unit.

BUILDING MATERIALS

Building Materials
The selection of appropriate building materials should be made with a concern for the existing context.

Highly refl ective glass is discouraged. If all glass walls are used, high quality, low-e or clear/lightly tinted glass should be used.

Two categories of building material quality, Category 1 and Category 2, have been identifi ed in the Master Plan.

NOTE: South and west elevations will be subject to the same material guidelines.

Category 1
- Natural Stone
- Cast Stone
- Brick
- Architectural Precast
- Glass and Metal Walls
- Architectural Metal Panels

Category 2
- Exposed Structural Concrete with high quality construction formwork
- Exterior Plaster or DEFS System
- Metal Panelized Exterior Cladding System
- Exposed Steel
- Synthetic Wood Siding

Generally, Category 1 materials should be used for signature buildings at the perimeter of the site and Category 2 materials may be used for buildings on the interior and service areas of the site. Unique materials and colors are encouraged along the ground level, at building entrances and on the rooftops. whether Category 1 or Category 2 materials are used, a high quality level of finishes and details is important.

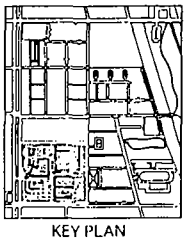

Building Base
Category 1 materials should be used on the building bases and low-rise structures. Clear or lightly tinted glass is preferred. Retail storefronts may include ornamental metals.

Building Tower
The portion of the building above the base may use Category 2 materials that are compatible with the material used for the base and also be complementary with neighboring buildings. Ornamental metals may be used for building accents.

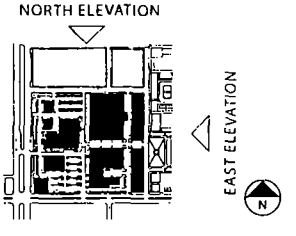

Building Top
The materials used for the building tops should be of high quality and present a distinctive image for the building.

Material Color
A variety of color and materials are encouraged as a means to enhance the appearance of separate multiple adjacent buildings as opposed to a single mass. Stone, brick and concrete may range in color. Glass colors may include clear panes or slightly tinted gray, silver, green or blue.

The specific property where the applicant is seeking zoning approvals for immediate development is 3401 to 3453 South Dr. Martin Luther King Drive and 400 to 506 East 35th Street (the "Property"). The applicant proposes to rezone the property from Residential-Business Planned Development No. 1169 to Residential-Business Planned Development No. 1169, as amended.

The applicant does not intend to immediately develop all of these improvements. Rather, they are anticipated to be developed over several years. The applicant only proposes to immediately construct a 3,200 square foot addition to the existing Walgreens and two new out lot buildings of approximately 4,000 square feet and 5,700 square feet.

Dear Chairman Solis and Chairman Cabrera:

The undersigned, Richard F. Klawiter, an attorney with the law firm of DLA Piper LLP (US), which firm represents 200 Green Developer LLC, the applicant for an amendment to the Chicago Zoning Ordinance and proposed planned development, certifies that he has complied with the requirements for Section 17-13-0107 of the Chicago Zoning Ordinance by sending written notice to such property owners who appear to be the owners of the property within the subject area not solely owned by the applicant, and to the owners of all property within 250 feet of each direction of the lot line of the subject property, exclusive of public roads, streets, alleys and other public ways. Said written notice was sent by First Class U.S. Mail, no more than 30 days before filing the application.

The undersigned certifies that the notice contained the address of the property sought to be rezoned; a statement of the intended use of the property; the name and address of the applicant; the name and address of the owner; a statement that the applicant intends to file the application for change in zoning on approximately November 30, 2015, and a source for additional information on the application.

ADDRESS: 720 E. 111TH STREET

BUSINESS-RESIDENTIAL-INSTITUTIONAL PLANNED DEVELOPMENT NO. 1167, AS AMENDED

PLAN OF DEVELOPMENT STATEMENTS

1. The area delineated herein as a Business-Residential-Institutional Planned Development Number 1167 (the "Planned Development") consists of approximately 6,017,640 square feet of net site area (approximately 138 acres) of property (the "Property"), together with certain portions of existing adjacent rights of way, as depicted on the attached Planned Development Boundary and Property Line Map. The Planned Development is divided into Subareas (each, a "Subarea," and collectively, the "Subareas") as indicated on the attached Subarea Map. North Pullman 111th, Inc. is the owner of and, for purposes of this amendment to the Planned Development, the "Applicant" with respect to Subarea B.

2. All applicable official reviews, approvals or permits are required to be obtained by the Applicant or its successors, assignees or grantees. These Planned Development Statements do not obligate the City of Chicago ("City") to establish any public rights-of-way, accept or maintain any open space, detention or site buffer areas, construct any public improvements, or finance the construction of any improvements. Any dedication, opening or vacation of streets, alleys or easements or adjustments of rights-of-way or consolidation or re-subdivision of parcels shall require a separate submittal on behalf of the Applicant or its successors, assignees or grantees and approval by the Commissioner of the Department of Transportation ("CDOT") and the City Council of the City of Chicago (the "City Council"). Any required City Council approvals must be obtained prior to issuance of any Part II approval. Applicant shall have the right to seek approval in phases for any or all of the foregoing approvals. In connection with planning for any Subarea, adjustments in the location, width and configuration of the rights-of-way illustrated on the Rights-of-Way Adjustment Map may be approved by the Commissioner (the "Commissioner") of the Department of Planning and Development (the "Department") as a minor change to this Planned Development, provided such adjustments (a) do not result in a change in the character of this Planned Development in accordance with the requirements of Section 17-13-0611 of the Chicago Zoning Ordinance, (b) are set forth in a plat of subdivision, dedication, opening or vacation, or comparable plat or instrument, as applicable, that has been submitted by Applicant (or its successors, assigns or grantors) for approval by CDOT, the Department and by the City Council at the time of request for such adjustments (and approved by CDOT and the City Council prior to the issuance of any Part II approval), and (c) shall not be deemed to confer any additional bulk, density or other development rights.

3. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the Applicant, its successors and assigns. All rights granted hereunder to the Applicant shall inure to the benefit of the Applicant's successors and assigns (including any condominium or homeowners' association which may be formed). The requirements of Section 17-8-0400 of the Chicago Zoning Ordinance shall apply to the Property. The Subareas (and, if subsequently designated on any Final Subarea Plan, any subparcels designated thereon), shall be deemed specifically delineated subareas and subparcels for purposes of Section 17-8-0400 of the Chicago Zoning Ordinance, provided, however, that for so long as North Pullman 111th, Inc. or any affiliate thereof owns or

controls any part of the Property, any application to the City for any such changes or modifications (administrative, legislative or otherwise) must in all cases be authorized by the Applicant (or Applicant's successor, assignee or grantee to such master developer ownership interest) or such affiliate. Where portions of the improvements located on the Property have been submitted to the Illinois Condominium Property Act, the term "owner" shall be deemed to refer solely to the condominium association of the owners of such portions of the improvements and not to the individual unit owners therein. Nothing herein shall prohibit or in any way restrict the alienation, sale or any other transfer of all or any portion of the Property or any rights, interests or obligations therein. The developer making application shall have the burden of establishing to the reasonable satisfaction of the Department that the Applicant's consent has been obtained or irrevocably waived. Upon any alienation, sale or any other transfer of all or any portion of the Property or the rights therein (other than a mortgage lien or security interest) and solely with respect to the portion of the Property so transferred, the term "Applicant" shall be deemed amended to apply solely to the transferee thereof (and its beneficiaries if such transferee is a land trust) and the seller or transferor thereof; provided, however, that North Pullman 111th, Inc.'s right to authorize changes or modifications to this Planned Development for so long as it owns or controls all or any portion of the Property shall not be deemed amended or transferred to apply to a transferee (or its beneficiaries as aforesaid) unless expressly assigned in a written instrument executed by the original Applicant hereunder. An agreement among different owners of the Property or a covenant binding upon owners of the Property may designate the parties authorized to apply for future amendments, modifications or other changes to this Planned Development and irrevocably waive the Applicant's consent right.

4. References in these Statements to the "Planned Development" shall be deemed to include the aforementioned Design Exhibits and Administrative Approvals. This Planned Development conforms to the intent and purpose of the Chicago Zoning Ordinance and satisfies the established criteria for approval as a Planned Development. In the case of any express conflict between the terms of this Planned Development, and the Chicago Zoning Ordinance, this Planned Development shall apply. Absent an express conflict, the terms of the Chicago Zoning Ordinance shall apply to reviews, determinations and approvals under these Statements and to improvements to the Property. In any instance where a provision of the Planned Development conflicts with the Chicago Building Code, the Building Code shall control.

5. The permitted uses, floor area ratio, building height, setback, parking, bicycle parking and off street loading requirements for each Subarea are set forth in the applicable Plan of Development Bulk Regulations and Data Tables included in the Design Exhibits. For the purposes of calculations or measurements pertaining to the foregoing, the applicable definitions in the Chicago Zoning Ordinance shall apply.

6. Changes in the boundaries of Subareas shall require an amendment to these Statements in accordance with the review and approval procedures in Section 17-13-0602 through Section 17-13-0610 of the Chicago Zoning Ordinance.

7. On-premise signs and temporary signs such as construction and marketing signs shall be permitted within the Planned Development subject to the review and approval of the Department. Off-premise signs are prohibited within the boundary of the Planned Development.

8. For purposes of height measurement, the definitions in the Chicago Zoning Ordinance shall apply. The height of any building or improvement shall also be subject to height limitations established by the Federal Aviation Administration.

9. All ingress and egress shall be subject to the review and approval of CDOT and the Department. Closure of all or any public street or alley during demolition or construction shall be subject to the review and approval of CDOT. All work proposed in the public way must be designed and constructed in accordance with the CDOT Construction Standards for Work in the Public Way and in compliance with the Municipal Code of the City of Chicago, and must be designed in accordance with the CDOT Street and Site Plan Design Standards and follow the principles and practices of a Complete Streets design approach. Any dedication, opening, or vacation of public streets, alleys or easements or any adjustment of

the public rights-of-way contained within a particular Part II submittal shall be approved by City Council prior to the issuance of any final Part II approval. In connection with the Applicant's (or any developer's) submittal of any plats, Final Subarea Plans and Site Plans in accordance with Statement 10 below, CDOT shall finally determine what means of ingress and egress are required, what public rights-of-way are required, and what public way improvements must be constructed as part of any project in any given Subarea (including any improvements required outside of such Subarea, but impacted or integrally related to such Subarea's project and the public improvements associated therewith). Applicant and its successors, assigns and grantees, at such parties' expense, agree to provide traffic impact studies, pay for the services of professional engineering services, and pay for the cost of third party construction inspection services to assist CDOT in its review and approval of any plats, Final Subarea Plans, and Site Plan submissions (which approvals shall be a condition precedent to the Department's issuance of any applicable Part II approval). CDOT must approve the applicable consultant, which shall report to CDOT. Recommended traffic and engineering measures shall be included in the design review process and implemented. A minimum of two percent (2%) of all parking spaces provided pursuant to this Planned Development shall be designated and designed for parking for the handicapped.

10. This Statement 10 describes the procedures and approvals that shall govern the review and approval by the Department and, when applicable, the review and approval of the Chicago Plan Commission or the City Council, or both the Chicago Plan Commission and the City Council, whenever the Applicant, or any developer that is a successor, assignee or grantee with respect to any portion of the Property, undertakes any development project on the Property.

    a. Final Subarea Plan. At the time the first development project in one or more Subareas is undertaken, the Applicant, or the applicable developer, shall file with the Department a preliminary plat of subdivision for the subject Subarea (and such additional Subarea(s) as the Applicant or developer may elect to include in such plat) and a Final Subarea Plan (the "Final Subarea Plan") along with an application for Site Plan Review pursuant to Section 17-13-0800 of the Chicago Zoning Ordinance. Subarea A was approved as part of the original Planned Development, and Subarea C was approved as part of the amendment to the Planned Development approved on September 11, 2013. The Final Subarea Plan for Subarea B is being approved as part of this amendment to the Planned Development. The Final Subarea Plan shall govern such first development project and (unless amended pursuant to this Statement 10.a) all subsequent development projects thereafter constructed in such Subarea. The preliminary plat of subdivision shall include, without limitation, proposed lot dimensions. After incorporating any City comments received during the review process described in these Statements, and prior to any Part II approvals, the Applicant or applicable developer shall thereafter submit to the City Council for approval a final plat of subdivision for the subject Subarea (and such additional Subarea(s) as the Applicant or developer may elect to include in such plat) which conforms with the Final Subarea Plan for the Subarea so subdivided. The City Council's approval of such plat of subdivision, and the recording of such plat, shall be a condition precedent to the Applicant's (or any developer's) conveyance of any property within such Subarea.

Upon such recording, the Applicant (or applicable developer) shall promptly deliver a copy of the recorded plat to the Department for filing with this Planned Development. The Applicant's failure to comply with such approval and recording requirements shall be the basis for the Department to withhold any further Part II approvals until such requirements are satisfied. The Final Subarea Plan filing shall include the following:

(1) A dimensioned Subarea Plan including the following with respect to such Subarea (and any subparcels designated therein, if any):

(i) All public rights of way that are proposed to be dedicated or opened, and all private rights of way,
(ii) Dimensioned setback lines,
(iii) All off-street parking and service areas, both accessory and non-accessory;
(iv) All open space, site buffer, detention and recreational facilities; and
(v) Sites for any schools, libraries, police stations or other public facilities, if any; and
(vi) dimensioned green roof plans, as set forth in Statement 14;

(2) A detailed, dimensioned Subarea site plan including:

(i) All sidewalks (including the width of paved surfaces);
(ii) All roads, streets, alleys (all identified as public or private), including the right of way width, the width of paved surfaces, street intersection details, and all curb cuts;
(iii) Dimensioned building sites, dimensioned setback lines, the proposed use of each building site, and indication of the maximum building height, F.A.R. and residential unit count for each building site;
(iv) All off-street parking and service areas, both accessory and non-accessory; and
(v) Fully dimensioned parking plans, loading areas, and landscape plans (which landscaping may be planned and constructed in phases).

(3) Preliminary engineering plans including the following:

(i) Sanitary and storm sewer lines and systems (identified as public or private);
(ii) Water lines and water supply systems (identified as public or private);
(iii) Street lighting (identified as public or private) and lighting systems;

(4) Illustrative Subarea building elevations and locations for all of the buildings to be constructed in such Subarea including the following:

(i) Illustrative elevations for all buildings to be located within the

applicable Subarea (including axonometric or 3-D exhibits), consistent with the maximum floor area ratio, building height, dwelling unit, setback and parking space requirements permitted or required in the applicable Subarea;

(ii) Although final elevations for the buildings to be constructed shall not be required at the Final Subarea Plan approval stage except for the building requesting site plan approval, the massing, the entrances, and maximum building heights and window design should be addressed, and depictions and explanations provided describing how the buildings to be constructed incorporate the pedestrian-orientation, urban design, building design and green design standards and guidelines set forth in Sections 17-8-0905, 17-8-0906, 17-8-0907 and 17-8-0908 of the Chicago Zoning Ordinance, respectively.

(iii) If the Final Subarea Plan submitted is for Subarea B or Subarea G, depictions and explanations describing how buildings to be constructed incorporate the Subarea B and Subarea G Design Guidelines included in the Design Exhibits.

The Final Subarea Plan shall be submitted and processed as an amendment to the Planned Development pursuant to Section 17-13-0602 through Section 17-130610 of the Chicago Zoning Ordinance. As such, the Final Subarea Plan shall be subject to the review and approval of the Department and such other bureaus, departments or agencies as the Commissioner deems appropriate;(which may include, but are not limited to, CDOT, the Department of Water Management ("DWM"), the Fire Department and the Mayor's Office on Persons With Disabilities ("MOPD) (as applicable, the "Affected City Departments"), the Chicago Plan Commission, the Zoning Committee and the City Council, as described in such Section 17-13-0602 through Section 17-13-0610. A Final Subarea Plan must be approved prior to, or concurrently with, the approval of any Site Plans submitted and processed pursuant to Statement 10.b below.

b. Site Plans. Site Plan Review shall be required for all projects undertaken in furtherance of the Planned Development and the Final Subarea Plan in accordance with Section 17-13-0800 of the Chicago Zoning Ordinance, excluding Site Plan review for (i) the project depicted in Subarea A, which was approved with the original Planned Development approval and by its related Administrative Approvals, (ii) the project depicted in Subarea C, which was approved as part of the amendment to the Planned Development approved on September 11, 2013, and (iii) the project depicted as Phase 1 of Subarea B, which is being approved as part of this amendment to the Planned Development. The future expansion of the industrial building in Subarea C shall require a Site Plan Review and an Administrative Relief submission prior to a part II approval of the aforementioned expansion project. If not evidenced on the preliminary plat of subdivision submitted as part of the Final Subarea Plan for the project's subarea, the Applicant or developer of the subject project shall provide an exhibit showing lot sizes and boundaries for such project. In addition to the submittal requirements of Section 17-13-0802-B, the Applicant or developer shall also provide a Site Data Table for such project containing, for each Subarea and subparcel, if any, included in such project:

(1) the Gross Site Area;

(2) the Net Site Area;

(3) the square feet of floor area of each proposed building;

(4) the amount of F.A.R. utilized out of the maximum F.A.R. permitted in such Subarea;

(5) the height of each building to be constructed and the maximum allowable height permitted under the Design Exhibits applicable to such Subarea;

(6) the number of dwelling units to be constructed and the maximum number of dwelling units permitted under the Design Exhibits applicable to such Subarea;

(7) the front, rear and side setbacks for each building and the setbacks required under the Design Exhibits applicable to such Subarea;

(8) All Residential Open Space, if applicable;

(9) The number of parking spaces to be provided and the minimum and maximum number of parking spaces required under the Bulk Regulation Data Table Summary and Design Exhibits, as applicable; and

(10) final elevations.

The Site Data Table shall also incorporate a Chicago Builds Green Form/Sustainable Features table showing the "green" features to be included in the proposed buildings. The Site Plan shall be subject to review and approval of the Department and such Affected City Departments as the Commissioner deems appropriate before issuance of any Part II approval for the subject project. The Site Plan must be in substantial compliance with both the Planned Development and the applicable Final Subarea Plan. If, after City departmental review, the Commissioner determines that the Site Plan is in substantial compliance with both the Planned Development and the applicable Final Subarea Plan, and if any improvements contemplated by the Site Plan exceed any of the mandatory Planned Development thresholds set forth in Section 17-8-0500 of the Chicago Zoning Ordinance (as applicable to improvements in a C2-3 district, e.g., the Site Plans include 60 dwelling units or more, or buildings 75 feet or more in height), then the Site Plan must then be reviewed by the Chicago Plan Commission, during a public meeting (for which placement on a Chicago Plan Commission Agenda, publication in accordance with Section 17-13-0107-B of the Chicago Zoning Ordinance, and posting in accordance with Section 17-13-0107-C of the Chicago Zoning Ordinance shall be required, but for which written notice pursuant to Section 17-13-0107-A of the Chicago Zoning Ordinance shall not be required) but shall not require review and approval by the City Council. If such mandatory thresholds are not met or exceeded, then no Chicago Plan Commission review shall be required, and if, after City departmental review, the Commissioner determines that the Site Plan is

otherwise in substantial compliance with both the Planned Development and the applicable Final Subarea Plan, the Site Plan shall then be approved by the Commissioner. If, after City departmental review, the Commissioner shall determine that the Site Plan is not in substantial compliance with both the Planned Development and the applicable Final Subarea Plan, the Commissioner shall advise the Applicant or developer in writing of why the Site Plan does not substantially comply with the Planned Development and/or the Final Subarea Plan. In such case, the Applicant or developer shall be given an opportunity to submit revised Site Plans. If the Commissioner finally determines that the Site Plans, as the same may be revised, are not in substantial compliance with the Planned Development and/or the Final Subarea Plan, the Applicant or developer then shall be required to amend the Final Subarea Plan in accordance with the review and approval procedures in Section 17-13-0602 through Section 17-13-0610 of the Chicago Zoning Ordinance in order to obtain approval of such Site Plans. After approval of a Final Subarea Plan and/or Site Plan, such Final Subarea Plans and Site Plans may be changed or modified pursuant to the requirements of Section 12 hereof, if applicable.

11. The improvements on the Property shall be designed, constructed and maintained in substantial compliance with the Design Exhibits attached hereto.

(a) Parkway and parking lot landscaping shall comply with the landscaping provisions of the Chicago Zoning Ordinance and Chicago Landscape Ordinance, unless specified otherwise in an approved Final Subarea Plan.

(b) The Property shall be designed and constructed in accordance with the City of Chicago Regulations for Sewer Construction and Stormwater Management and Stormwater Management Ordinance Manual, latest editions. Any amendment to the City's storm water management requirements which the City adopts thereafter shall apply to the Property or the development thereof.

(c) It is the Applicant's intention to adaptively reuse the Brite Line building identified as "Existing Building" in Subarea D on the Site Plan; however, the Applicant reserves the right to demolish such building and to otherwise redevelop Subarea D in conformance with the applicable terms of this Planned Development in the event the Applicant determines that such adaptive reuse is not feasible or desirable.

(d) Within Subarea A, a Chicago Transit Authority bus turnaround in a location and of such size and configuration as mutually agreed upon by the Applicant, the Chicago Transit Authority and CDOT has been previously completed.

(e) Porches shall be features which are allowed to encroach into any required front yard setback in Subarea F, subject to Site Plan approval.

(f) Applicant acknowledges that the City will not maintain or bear the cost of maintaining any landscape or streetscape improvements on any medians to be constructed within the Planned Development. Prior to CDOT approval of engineering drawings for any median street to be constructed by the Applicant within the Planned Development, the

Applicant must demonstrate to the satisfaction of CDOT that sufficient sustainable resources have been committed, and written agreements exist (which provide reasonable protection to the City and, among other things, shall name the City as intended beneficiary, shall grant the City enforcement rights, and shall include or extend indemnification and insurance provisions for the benefit of the City) to provide for the satisfactory maintenance of such medians, which agreements may provide for maintenance costs to be funded through a special service area or special service district, the establishment of which is subject to separate City Council approval.

(g) Applicant, at the Applicant's expense, has previously reconstructed S. Woodlawn Avenue from approximately E. 107th Street to E. 111th Street in accordance with the requirements of Statement 9.

(h) The Applicant and each developer of any portion of the Property at the time of a project shall comply with Rules and Regulations for the Maintenance of Stockpiles promulgated by the Commissioner of the Department of Streets and Sanitation, the Commissioner of the Environment and the Commissioner of Buildings under Section 13-32-125 of the Municipal Code of the City of Chicago or any other provision of that Code.

12. The Part II review fee for permits and licenses to be issued for projects in the Planned Development shall be the greater of $0.25 per square foot for the total buildable floor area (i.e., the current rate under Section 17-13-0610 of the Chicago Zoning Ordinance) or the then applicable per square foot charge (or other then applicable charge) at the time of such Part II review. Such fee shall be determined and assessed by the Department at the time of each and every Part II review, shall be applicable to all projects, whether undertaken by the Applicant or another developer, shall be final and binding and must be paid to the Department prior to issuance of any Part II approval. Following Part II review and approval by the Commissioner, the Department shall keep such approved plans and elevations on permanent file and they shall be deemed to be an integral part of this Planned Development. The Applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the Property. Plans for all buildings and improvements on the Property shall be reviewed and approved by the Mayor's Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility. Any interim reviews associated with Site Plan review or Part II reviews, are conditional until final Part II approval.

13. Subject to the other terms and conditions of these Statements, including specifically, but without limitation, Statement 10's filing, review and approval requirements, the terms, conditions and exhibits of this Planned Development may be modified administratively by the Commissioner upon application and a determination by the Commissioner in accordance with the minor change provisions and standards of Section 17-13-0611 of the Chicago Zoning Ordinance (provided, however, that Section 17-13-0611-A.2 and A.3 shall be separately tested on a Subarea basis, without taking into account the net site area of or

dwelling units permitted in other Subareas or the Planned Development as a whole) and that such modification, and the improvements contemplated thereby, are consistent with the Planned Development and the applicable Final Subarea Plan. Any such modification shall be reviewed and approved through the minor change provisions of Section 17-13-0611 of the Chicago Zoning Ordinance.

14. The Applicant acknowledges that it is in the public interest to design, construct and renovate all buildings in a manner which provides healthier environments, reduces operating costs and conserves energy and resources. All development in any Subarea shall conform to the City of Chicago's "Sustainable Development Policy Matrix" in effect on the submittal of Site Plans pursuant to this Planned Development.

15. Unless substantial construction of any new building, as proven by the issuance of building permits and the diligent completion of construction pursuit to such permits for Sub Area B has commenced within six (6) years of this amendment to the Planned Development, this Planned Development shall expire upon the sixth anniversary date of the effective date of this amendment to the Planned Development. If this amendment to the Planned Development expires pursuant to the foregoing provision, this amendment to the Planned Development shall expire by separately introduced ordinance, if any, and in such event the zoning of the Property shall revert to Business-Residential-Institutional Planned Development No. 1167, as adopted by the Chicago City Council on September 11, 2013. Such reversion shall not render any building existing at the time to be non-conforming. The six year period described above may be extended for up to one additional year if, before expiration, the Commissioner determines that good cause for an extension is shown.

16. Any open space to be dedicated to the Chicago Park District ("CPD") must meet CPD standards and, where applicable, the park must be designed and constructed to those standards. Any conveyance of open space to the CPD shall be subject to the approval of the CPD and a resolution or ordinance issued by the CPD Board of Commissioners must be provided to the Department to evidence such dedication, conveyance and acceptance.

- Buildings located along 111th Street or within the general context of the site, will have their primary elevation oriented to face 111th Street. Buildings located on corners or parking entrances should have their primary elevations oriented to face both 111th Street and the adjacent street or entrance drive. Primary building entrances and/or retail storefront entrances will have their storefront entrances oriented to face the parking lot.

Massing:

- Buildings should be composed of simple volumes, primarily 1 to 2 story retail buildings, plus mid-rise (8 story) Senior Housing and/or Hotel buildings. 1 to 2 story retail occupancies will feature sloped roofs; Mid-rise buildings may be sloped and/or flat roofs.

Roof massing:

- Sloped roofs with a minimum slope of 6:12
- Roofs will be designed to screen and conceal all rooftop mounted mechanical equipment.

Lighting:

Jack, segmental, semi-circular and multicentered arches are encouraged. Window sills within walls should incorporate stone or precast sills.

Economic Disclosure Statement and Affidavit

Statement Regarding Further Certifications

U.S. Bank National Association itself is a mortgage lender. U.S. Bank National Association is also one of the largest corporate trustees in the United States and in such capacity is trustee of numerous mortgage-backed securitization trusts that each hold multiple real property mortgages. From time to time, mortgage borrowers in Chicago default on payment of real estate taxes or otherwise fail to comply with City of Chicago's requirements with respect to certain mortgaged properties. This can result in legal action against the borrower by the City of Chicago, which legal action may name U.S. Bank National Association as the mortgage holder (either in its individual capacity or in its capacity as a trustee). As of December 22, 2014, U.S. Bank National Association was aware of outstanding claims against it (individually or in its capacity as trustee) totaling $154,040.89 wherein the City of Chicago or one of its departments or divisions (including the Department of Buildings and the Department of Streets and Sanitation) is the creditor. The vast majority of this amount is related to properties that U.S. Bank National Association holds in trust and for which it does not do the servicing. U.S. Bank National Association, both in its individual capacity and in its capacity as a trustee meets periodically with various City officials to address these claims.

If the letters "NA," the word "None," or no response appears on the lines above, it will be conclusively presumed that the Disclosing Party certified to the above statements.

8. To the best of the Disclosing Party's knowledge after reasonable inquiry, the following is a complete list of all current employees of the Disclosing Party who were, at any time during the 12-month period preceding the execution date of this EDS, an employee, or elected or appointed official, of the City of Chicago (if none, indicate with "N/A" or "none").

9. To the best of the Disclosing Party's knowledge after reasonable inquiry, the following is a complete list of all gifts that the Disclosing Party has given or caused to be given, at any time during the 12-month period preceding the execution date of this EDS, to an employee, or elected or appointed official, of the City of Chicago. For purposes of this statement, a "gift" does not include: (i) anything made generally available to City employees or to the general public, or (ii) food or drink provided in the course of official City business and having a retail value of less than $20 per recipient (if none, indicate with "N/A" or "none"). As to any gift listed below, please also list the name of the City recipient.

We further pledge that none of our affiliates is, and none of them will become, a predatory lender as defined in Chapter 2-32 of the Municipal Code. We understand that becoming a predatory lender or becoming an affiliate of a predatory lender may result in the loss of the privilege of doing business with the City."

If the Disclosing Party is unable to make this pledge because it or any of its affiliates (as defined in Section 2-32-455(b) of the Municipal Code) is a predatory lender within the meaning of Chapter 2-32 of the Municipal Code, explain here (attach additional pages if necessary):

City of Chicago
Economic Disclosure Statement and Affidavit

Statement Regarding Slavery Era Business

U.S. Bank National Association was formed from the following major banks: (1) Star Bank, National Association (Cincinnati, Ohio) changed its name to Firstar Bank, National Association (Cincinnati, Ohio) effective February 1999; (2) Mercantile Bank National Association (St. Louis, Missouri) merged into Firstar Bank, National Association (Cincinnati, Ohio) effective April 2000; (3) United States National Bank of Oregon (Portland, Oregon) merged with First Bank, National Association under the title U.S. Bank National Association effective August 1997; (4) U.S. Bank National Association merged into Firstar Bank, National Association, and the succeeding bank, changed its name to U.S. Bank National Association effective August 2001. These banks acquired through mergers and acquisitions numerous smaller banks. There are five hundred and forty-two U.S. Bank National Association predecessors. Thirty-five predecessors were founded before the abolition of slavery in December 1865. Thirteen of the pre-1866 predecessors were established in southern slave-holding states and territories, including Kansas, Kentucky, Missouri, and Tennessee.

In reviewing historical records held in various external repositories in accordance with the research requirements as set forth in the City of Chicago Office of the Corporation Counsel opinion letter dated April 29, 2004 (attached hereto), U.S. Bank National Association has identified external records of its predecessors which necessitate disclosure. The conveyance records, while showing no record of direct ownership of enslaved individuals did contain records of founders and/or directors of predecessor banks owning enslaved individuals, as well as a record where an enslaved individual was the collateral for a loan. Specifically, the first president of predecessor Marion National Bank of Lebanon, Kentucky (founded in 1856), Benedict Spalding, owned two enslaved individuals in 1850. In 1860 someone with a similar name "Benidict Spalding" is also listed as having owned fourteen enslaved individuals. In addition, certain members of the Marion National Bank of Lebanon's board of directors (called "commissioners") owned approximately forty-seven enslaved individuals in total (the records include abbreviated names, which we conclude may be references to commissioners). The first president of predecessor First National Bank of Clarksville, Tennessee (founded in 1865), S.F. Beaumont, owned one enslaved individual in 1860. The first president of predecessor St. Louis Building and Savings Association, Missouri (formed in 1857), Marshall Brotherton, owned ten enslaved individuals in 1850 and four enslaved individuals in 1860. Merchants Bank (founded in 1857) and Bank of St. Louis (founded in 1857), both predecessors, along with a group of other St. Louis firms, issued a mortgage to Charles McLaran that was secured by his property, which included an unspecified number of enslaved individuals. However, the 1860 Federal Census Slave Schedule for St. Louis provided that Charles McLaran owned thirteen enslaved individuals.

The above is only a summary. U.S. Bank National Association has previously provided the City of Chicago with supporting attachments.

U.S. Bancorp, the parent company of U.S. Bank National Association, was founded after the slavery era and has no separate assets or activities that pre-date the 20th century. As such, it has no disclosure separate from that of the bank.

Re: Question regarding Economic Disclosure Statement and Affidavit, Part VI ("Certification Regarding Slavery Era Business") and Resolution pending before the Joint Committee on Finance and Human Relations

Dear Alderman Burke:

In a letter dated April 26, 2004, you indicated that a special committee of the City Council, consisting of the combined Committee on Finance and the Committee on Human Relations, currently has under consideration a resolution that raises certain issues regarding interpretation of Section 2-92-585 of the Chicago Municipal Code, the Business, Corporate and Slavery Era Insurance Ordinance. That ordinance requires every city contractor to "complete an affidavit verifying that the contractor has searched any and all records of the company *or any* predecessor company regarding records of investments or profits from slavery or slaveholder insurance policies during the slavery era. The names of any slaves or slaveholders described in those records must be disclosed in the affidavit." (Emphasis supplied)

The affidavit requirement of Section 2-92-585 has been incorporated into the standard Economic Disclosure Statement ("EDS") completed by city contractors as Part VI, entitled "Slavery Certification." The EDS requires an entity contracting with the city to verify that it has "searched any and all records of the Undersigned *and any and all* predecessor entities for records of investments or profits from slavery, the slave industry, or shareholder insurance policies." (Emphasis supplied) The EDS form then requires the contracting entity to disclose the results of that search.

You have asked specifically whether it is "reasonable to interpret the language 'records of the undersigned and any and all predecessor entities' to mean [the contracting entity's] records and the records of its predecessor entities." For the reasons that follow, it is the opinion of this office that the answer is in the

NEIGHBORHOODS Alive!
BUILDING CHICAGO TOGETHER

CHICAGO WORKS TOGETHER

affirmative. A search required for proper compliance with and disclosure under Section 2-92-585 must include all known records of the contracting entity and each of its predecessor entities, to which records the contracting entity has or can obtain access.

Neither the ordinance nor any Illinois decision defines a "predecessor" entity of a city contractor. Under the general rules of statutory construction, the word should be given its ordinary meaning. *Black's Law Dictionary* defines "predecessor" as "one who goes or has gone before; the correlative of 'successor'.....Applied to a body politic or corporate, in the same sense as 'ancestor' is applied to a natural person." This simple analogy indicates that every known antecedent entity of a city contractor – acquired entities, components of earlier mergers, entities acquired by and subsumed into a prior entity that became a predecessor of a contracting entity – should be treated as a predecessor. This is especially appropriate when one considers the preamble to the ordinance adding Section 2-92-385 to the Chicago Municipal Code. The fifth paragraph of the preamble (found at page 94891 of the Journal of Proceedings of the City Council of October 2, 2002) refers to records located in the archives of current insurance firms, documenting slave insurance policies "issued by a predecessor insurance firm; the sixth paragraph (*id.*) refers to "insurers and businesses whose successors remain in existence today." Thus the City Council recognized that, as the American economy has expanded and become more complex, modern business may include different business disciplines (insurers and other businesses).

The appropriate extent of the mandated records search can also be discerned from the preamble. The final paragraph of the preamble (p. 91892) contains a finding of the City Council that entities "doing business with the City of Chicago shall take *any and all steps in good faith* to disclose *any records within their possession or knowledge* relating to investments or profits from the slave industry including insurance policies...." (Emphasis supplied) In order to implement this statement of the Council's intent, a contracting entity may not ignore records that are archived outside the entity's possession (*e.g.* in a museum, university library, historical society or trade association). To ignore deliberately the existence of such known records could not possible constitute a "good faith" effort to take "any and all steps" to document the contractor's history. The breadth of the City Council's desired disclosure also led this department, in the revision of the EDS necessary to implement Section 2-92-585, to change the ordinance's disjunctive in the reference to "any and all records of the [contracting] company or its predecessors" to a conjunctive in the EDS ("any and all records of

the [contracting entity] and any and all predecessor entities").

Very truly yours,
