ordinance transmitted therewith, authorizing the reinstatement and extension of contracts for 77 days for the 18th Street Development Corp., the Coalition for United Community Action and the Neighborhood Institute, funded under the Year IX Community Development Block Grant Program and the 1983 Emergency Jobs Bill.

Alderman Bloom moved to amend the said proposed resolution as follows:

"The resolution is amended by striking the words "46 days" and inserting in lieu thereof the words "77" days."

The motion to amend *Prevailed*.

Thereupon, on motion of Alderman Burke the said proposed resolution was *Adopted, as amended*, by a viva voce vote.

The following is said resolution as adopted:

WHEREAS, The Council of the City of Chicago passed an ordinance on May 26, 1983 which required that the office of Budget and Management develop and submit to the City Council criteria for the award of grants under thirteen programs funded under the 1983 Emergency Jobs Bill Program and the Year IX Community Development Block Grant Program, including the following program under which grants are awarded to not-for-profit organizations:

HOUSING

Neighborhood Rehabilitation Assistance/Delegate agencies; and

WHEREAS, In order to provide sufficient time for the finalization and review of the criteria for five programs under which grants are awarded to not-for-profit organizations, and in order to avoid undue hardship for ninety-one (91) not-for-profit organizations identified by the managing City departments as meriting continuation funding, the Council on June 22, 1983 adopted a resolution approving a fifteen day extension, July 1, 1983 through July 15, 1983 for Year VIII Community Development Block Grant contracts using Year IX Community Development and 1983 Emergency Jobs Bill Funds; and

WHEREAS, The administrative responsibility for one component of the Neighborhood Rehabilitation Assistance program, Substantial Rehabilitation and Training, was transferred from the Department of Housing to the Mayor's Office of Employment and Training, effective July 1, 1983; and

WHEREAS, Due to the program transfer, the not-for-profit organizations funded in C.D. Yr. VIII under the Substantial Rehabilitation and Training Program were not yet identified by the new managing department to receive continuation funding in C.D. Yr. IX and were not included for the fifteen day contract extension approved by Council on June 22, 1983, and the contracts for these organizations expired on June 30, 1983; and

WHEREAS, The managing department has now identified 3 not-for-profit organizations as meriting continuation funding based on past performance and preliminary criteria; and

WHEREAS, The criteria for the program under which grants are awarded to these not-for-profit organizations have been prepared and presented by the Mayor to the City Council for its review; and

WHEREAS, The City Council requires sufficient time to review the criteria; and

WHEREAS, The administration must adopt the criteria before the managing department can apply the criteria in its final selection of agencies to be awarded contracts for C.D. Year IX; and

WHEREAS, According to the provisions of the May 26, 1983 ordinance, the City Council reserves the right to approve all contracts in the amount of \$50,000 or more; and

WHEREAS, It is estimated that the final review of not-for-profit organization programs by the managing department, the processing of contracts and the City Council review of contracts in the amount of \$50,000 or more will take a maximum of thirty-one days; now, therefore,

Be It Resolved by the City Council of the City of Chicago:

That in the spirit of the May 26, 1983 ordinance, the Mayor is authorized to reinstate and extend by letter the contracts of the 3 not-for-profit organizations which are listed on the attached addendum in the amounts specified on the addendum for 77 days from July 1, 1983 through September 15, 1983; and

Funding for the reinstatement and extension of the current contracts will be provided from the Year IX Community Development Block Grant.

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM
NEIGHBORHOOD REHABILITATION ASSISTANCE/DELEGATE AGENCIES

Project Description

Through this program the Department of Housing provides funding to eligible not-for-profit corporations to maintain and improve the housing stock of Chicago neighborhoods. Delegate agency activities include providing technical assistance and housing counseling to neighborhood homeowners, performing minor home repairs for senior citizens and the handicapped, and rehabilitating neighborhood housing by providing intensive on-the-job training in construction for neighborhood youths.

Delegate Agency Selection Criteria

1. Delegates will be evaluated and selected within the overall Community Development Block Grant objective that all programs primarily serve low and moderate income persons or serve areas that are primarily low and moderate income.
2. Each delegate agency selected and the CDBG funded activities to be carried out must be eligible under the regulations of the Community Development Act of 1974, as amended.
3. Preference will be given to delegate agencies with specifically stated objectives and cost-effective activities, as stated in the agencies' funding proposals.

9. The Department of Housing must provide the Office of Budget and Management with a Statement that the aforementioned criteria have been met by each selected delegate agency.

MODEL BLOCKS AND RESIDENTIAL STREET RESURFACING PROGRAMProject Description

The Model Block Improvement and Residential Street Resurfacing Program is designed to promote the conservation of the City's existing housing stock by making certain public improvements on blocks where residents and property owners have demonstrated a strong commitment to preserve and maintain private property located on their block. Generally the improvements may include but are not limited to new curbs, gutters, sidewalks, sod, and street resurfacing. A selected block may receive one, several or all of these improvements. The program also makes provisions for special projects that are in support of residential construction or improvements. There is one such currently planned special project, the extension of 85th Street from St. Lawrence Avenue to Langley Avenue to support the construction of 112 units of housing for the elderly.

The Department of Public Works will be the lead department responsible for the management of this program. Project sites will be selected by the Department of Public Works in cooperation with the Departments of Housing and Planning.

A report on sites selected will be given to the City Council.

Criteria for Project Selection

Potential model block sites are initially identified from requests submitted by community groups, neighborhood organizations, block clubs, etc. These requests/applications will detail efforts that property owners have made or are in the process of making in the repair or rehabilitation of property on the block or blocks included in the request.

1. The overall project will comply with the national Community Development Block Grant Program objective that all programs primarily serve areas where low and moderate income people live. Priority therefore will be given to low and moderate income areas.
2. Preference will be given to sites where there is evidence that public or private assisted housing rehabilitation and other related improvements have taken place or are currently taking place.
3. Blocks will be selected in groups where possible in order to contain costs and maximize benefits. It is more efficient and cost effective to let a contract for a quantity of street blocks that are in proximity to each other.
4. \$3,250,000 of the total \$6,000,000 allocated for this program is under the Emergency Jobs Bill which requires expeditious implementation. Priority consideration under this portion of the program will be given to those projects which can begin construction at the earliest possible date. Such projects would include those sites that were identified but not funded in Yr. VIII, and previously completed Model Block sites that did not receive street resurfacing. These sites are to be reviewed by the Department of Public Works, in cooperation with the Departments of Housing and Planning to assure that they also meet all the above criteria.

NOT-FOR-PROFIT PRIVATE FACILITY REHABILITATION GRANTSProject Description

Funds will be provided in the form of grants to private, not-for-profit organizations to be used to up-grade and renovate facilities which are primarily used to provide a service to the community.

Specific sites and organizations will be selected by the Private Facilities Committee chaired by the Commissioner of the Department of Public Works. The Community Development Advisory Committee will also review all applications and make recommendations to the Private Facilities Committee. A report on all sites selected will be provided to the City Council.

Criteria for Project Selection

1. Facilities must be eligible under U.S. Department of Housing and Urban Development Community Development Block Grant guidelines and regulations.
2. Grants will be made only to not-for-profit organizations who have an established record of providing essential service to the community. Organizations providing services which are not duplicated in the community will be given preference.
3. Funds will be used only for facilities and portions of facilities which are used to provide service to the community or to groups with special service needs.
4. Preference will be given to facilities that are owned by the not-for-profit organization. If leased, the improvements must be amortized over the life of the lease. No funds are provided for acquisition.
5. The not-for-profit organization must demonstrate its financial ability to maintain the facility and to continue program operations.
6. Grants will be provided on a match basis. The amount of match or in-kind support required will be determined by the Facilities Committee.
7. Priority will be given to those projects with completed plans and on which construction or renovation can be completed prior to 6/84. Because the 1983 Jobs Bill is the source of funding, it is critical that the preliminary work be in place to assure the rapid expenditure of funds.
8. Preference will be given to rehabilitation of blighted structures in areas undergoing revitalization. Particular emphasis will be directed towards code compliance, energy conservation, and stabilization of the existing structure.
9. DPW must review all selected site proposals. A determination must be made whether funds are adequate for planned rehab/renovation.

VENTURE AND SEED CAPITAL FINANCINGProject Description

A seed capital corporation will be established to stimulate entrepreneurship in Chicago. The corporation will take either a debt or equity position in the projects. The City will be an active member of the corporation and the corporation will sit on the board of all assisted companies.

Under this program category approximately \$200,000 will be set aside for the City to make direct loans and grants to local, neighborhood based organizations to undertake business ventures. This program is to be administered directly by the Department of Economic Development.

SECTION 108 LOAN PROGRAM

Introduction

CD funds will be used as a sinking fund which qualifies the City for the Section 108 loan guarantee program of the U.S. Department of Housing and Urban Development. The following describes the Section 108 loan program.

Project Description

The City of Chicago is committed to retaining and increasing employment throughout Chicago, stabilizing the financial base of the city's neighborhoods, and increasing Chicago's tax base. As one way to help achieve these goals, the Economic Development Commission of Chicago (EDC) is now implementing a loan program established through funds made available by the United States Department of Housing and Urban Development (HUD) under Section 108 of the Housing and Community Development Act of 1974, as amended (Public Law 93-383). The EDC will have at its disposal an annual allotment of Section 108 funds with CDBG funds used as a sinking fund for this program.

HUD Section 108 subordinated mortgage loans are designed to help financially solvent, expanding businesses. Any financially solvent, expanding, for-profit business with a proven track record of successful operations is eligible for Section 108 assistance. This program will allow the City to use the Section 108 loan authority to offer long-term loans to qualifying industrial or commercial projects for expansion within or relocation to Chicago.

The Section 108 funds will be available to a for-profit business to acquire real property and/or make site improvements within Chicago. The borrower should be the primary tenant of the real estate being acquired, although a portion of the building can be leased to other tenant businesses. A developer project can also qualify, although no 108 funds may be used for speculative purposes. The typical loan would be a second mortgage (\$500,000 maximum) for a term up to 20 years at an interest rate slightly above long-term Treasury Bonds. This second mortgage cannot exceed 50% of the total project. When combined with a first mortgage loan, the borrower can attain up to 100% financing. The 50% private sector portion may come in the form of a conventional first mortgage, an industrial revenue bond, a purchase money mortgage, a legitimate third-party loan, cash equity, or any combination of the above.

Applications, upon their completion, will be reviewed by the EDC's Revolving Fund/Joint Venture Screening Committee. Any proposed loan must be approved by both the EDC Executive Committee and the City Council of Chicago.

Criteria for Project Selection as per HUD Guidelines for the Section 108 Program.

1. Financing will be extended only to existing financially solvent companies and not to start-ups or marginal businesses.

-2-

2. Financing under the Section 108 program can be only for the purchase of real property (land and buildings) and site improvements thereon. Under current regulations, this excludes machinery and equipment; however, they can be financed as part of the private sector's 50% portion of the project so long as Section 108 funds are allocated only for CD eligible purposes.
3. There must be reasonable assurances of repayment of the 108 borrowings. The user's average annual cash flow (net profit plus depreciation) for the previous two years must be sufficient to amortize all of the projected financing (including 108 and other financing) on an annual basis. Additional safeguards to minimize the City's liability will be continually explored and implemented; all care will be taken to assure an applicant can adequately handle such a project.
4. There must also be private sector participation of at least 50% of the total fixed asset project costs. (This excludes financing from other direct or indirect government sources including government guarantees of private loans.) The private sector participation may be in various forms such as a first mortgage from a financial institution, equity from the owners or investors, an industrial revenue bond, a purchase money mortgage, etc. The purpose of this requirement is to assure that there is thorough analysis, as well as participation, by the private sector relative to each project. Loan applications will also be reviewed by the EDC's Revolving Fund/Joint Venture Screening Committee, which is comprised of three members from the private sector and three members from the public sector.
5. Priority will be given to companies creating and/or attracting new job opportunities within Chicago, and also to companies where the loan would assure the retention of existing jobs which would otherwise be lost from the city.
6. Loan applications which promote business relocation into or expansion within designated Industrial Parks, Commercial Districts and Urban Renewal Areas will be given priority consideration.

1. Youth hiring under this program uses the primary criteria that those employed be from families of low or moderate income. This criteria meets the national objective of the CDBG program to primarily benefit low and moderate income persons.
2. The youth must be able to physically perform the work as planned by the City departments.
3. Applications will be made available and accepted in each branch of the Chicago Public Library, and at other locations as determined by the Commissioner of Personnel, for a minimum period of three days.

Completed applications will be reviewed and those applicants who qualify under the criteria will be offered jobs. If the number of qualified applicants exceeds the number of available jobs, the jobs shall be allocated by a public lottery of qualified applicants to be conducted by the Commissioner of Personnel in the Office of the City Clerk upon a minimum of 48 hours written notice to the members of the City Council.

Qualified applicants who are members of the Mayor's Sesquicentennial Youth Leader Program are exempt from the lottery process.
