COMMITTEE ON ENERGY, ENVIRONMENTAL PROTECTION AND PUBLIC UTILITIES.

Action Deferred -- CITY COUNCIL URGED TO OPPOSE
COMMONWEALTH EDISON RATE PLAN
PROPOSAL AND EXPLORE
ALTERNATIVES.

The Committee on Energy, Environmental Protection and Public Utilities submitted the following report, which was, on motion of Alderman Kellam and Alderman Sheahan, *Deferred* and ordered published:

To the President and Members of the City Council:

Your Committee on Energy, Environmental Protection and Public Utilities, at a meeting called on June 10th, considered a resolution to investigate the effect of the Federal Tax Reform Act on savings to utility companies in Chicago which was held in committee.

The committee also considered a resolution calling upon City Council to oppose Commonwealth Edison's rate plan which passed unanimously.

Your committee begs leave to recommend passage.

Respectfully submitted,
(Signed) BOBBY RUSH,
Chairman.

The following is said proposed resolution transmitted with the foregoing committee report:

WHEREAS, Commonwealth Edison has proposed a rate plan with a price tag of at least \$3.3 billion; and

WHEREAS, The proposal would demand of the City of Chicago and consumer groups that they drop on-going legal actions against Commonwealth Edison which would provide a benefit to consumers of billions of dollars; and

WHEREAS, The proposal would have consumers pay for three new nuclear power plants whether they ever produce power or not; and

WHEREAS, The proposal would take the three new nuclear plants out of the jurisdiction of the Illinois Commerce Commission, which has become increasingly responsive to consumer interests, and put them under the jurisdiction of the Federal Energy Regulatory Commission which, historically, has been far more generous to utilities than the I.C.C.; and

WHEREAS, It is important to facilitate the process of negotiation begun in good faith by Commonwealth Edison and aided by the diligent efforts of this Administration to seek the best possible proposal for consumers; now, therefore,

Be It Resolved, That the City Council of the City of Chicago oppose Commonwealth Edison's rate plan as currently proposed; and

Be It Further Resolved, That the City Council Committee on Energy, Environmental Protection and Public Utilities initiate hearings to explore alternatives and facilitate the Administration's efforts towards seeking a proposal that would best promote a fair rate structure, economic development, and job creation in Chicago.

The compensation shall be adjusted in a non-discriminatory and reasonable manner.

SECTION 3. Grantee shall not transfer its ownership of the sheath of its cable through the sale, merger, consolidation, foreclosure, or through any other such manner, nor sublease the rights or authority herein granted or any space that its facilities occupy or have occupied pursuant to this ordinance without the prior approval of the Chicago City Council. It is understood that in its ordinary course of business, grantee will sell, lease and/or sublease individual fiber optic pairs and/or capacity and not conduit space or the sheath of its cable to third-parties and is expressly permitted to do so under the terms of this ordinance without the necessity of any further approval by the City of Chicago or its constituent departments. It is also understood that grantee's responsibilities include the sole right to control, maintain and manage the fiber optic cable and grantee shall so provide in its sale, lease, or sublease contracts. Grantee can, however, pledge its partnership interests and facilities as collateral to its lenders and/or investors for purposes of providing security interest. Grantee shall submit to the City of Chicago, Office of the City Comptroller, on an annual basis at the time of submission of grantee's independent certified financial statements pursuant to Section 7 of this ordinance a statement of ownership interest. If any time after five years from the date of passage of this ordinance by the Chicago City Council there is a change in the controlling ownership interest of grantee, the City has the right based upon good cause shown to void this agreement with grantee and the permission and authority herein granted upon six (6) months written notice of such termination delivered to the chief executive officer(s) of grantee.

SECTION 4. The location of said facilities, and the construction and installation thereof, or any change thereof including extension, reduction or removal of the telecommunications systems shall be subject to the approval of the Commissioner of Public Works which approval shall not be unreasonably withheld. (Grantee is aware that, in some cases related to grantee's proposed use of the public way, approvals from other City Departments, such as Streets and Sanitation, may be required.)

Grantee shall place on file with the Commissioner of Public Works and with the Office of the City Comptroller, Real Estate Division, prints, plans and maps showing the proposed location of each telecommunications facility to be installed, the location of each conduit to be entered, and the number of manholes or other openings to gain access to said conduit; and no telecommunications facility shall be installed in or under any conduit, vault, tunnel, street, alley, viaduct, subway, elevated roadway, elevated railway, bridge, railroad right of way, river or other public way, until a permit therefor is issued by the Commissioner of Public Works, which permit shall indicate the time, manner and place of laying or installing each such telecommunications facility.

If the location of conduits, telecommunications facilities, and other fixtures or the installation or laying of the same does not interfere with use of the vaults, tunnels, conduits, streets, alleys, viaducts, subways, elevated roadways, elevated railways, railroad rights of way, bridges, rivers or other public ways of the City and otherwise complies with this ordinance, the Commissioner of Public Works shall approve the same and issue a permit or permits therefor, unless such location is otherwise expressly prohibited in this ordinance or any other lawfully enacted ordinance of the City of Chicago.

Grantee shall install its fiber optic cable consistent with the installation and construction standards established by the Department of Public Works for the installation of fiber optic cable.

Grantee shall correct or substantially correct any default or non-conformance with the City's written, publicly available installation standards within 30 days of receipt of written notification ("the 30 day correction period") from the Commissioner of Public Works. If the Commissioner of Public Works determines that grantee has not corrected or substantially corrected the default or non-conformance, the grantee shall pay the City of Chicago, Office of the City Comptroller, liquidated damages of Three Thousand Dollars (\$3,000) per day each day the default continues to go uncorrected beyond the 30 day correction period. If after the lapse of the 30 day correction period, the Commissioner of Public Works reasonably determines that the grantee has substantially but not completely corrected the default or non-conformance, or reasonably determines that failure to substantially correct the default or non-conformance was due to a supplier's strike, acts of God, *force majeure*, or other circumstances beyond the reasonable control of grantee, the grantee shall not be charged liquidated damages, provided that grantee submits a time table within 5 days of the lapse of the 30 day correction period to the City specifying the anticipated date of completion. In an emergency, as determined by the Department of Public Works, the Commissioner shall have the right to order immediate correction of any default or non-conformance. If the Commissioner of Public Works reasonably determines that grantee has not substantially corrected the emergency within 5 days of the Commissioner's order, grantee shall be in default and shall pay the City liquidated damages of Three Thousand Dollars (\$3,000) per day each day after the five day period that grantee fails to correct substantially the emergency.

Grantee shall also abide by all current, applicable federal and state regulatory standards, including but not limited to Occupational Safety and Health Administration industrial standards, in any installation or construction activity.

SECTION 5. The City reserves the right to make physical on-site inspections of grantee's fiber optic system, including grantee's fiber optic terminals, at the City discretion. Grantee will accommodate the City's monitoring needs by providing the Department of Public Works and the Office of the City Comptroller a map and specifications which grantee shall update quarterly and submit to the City at the time of grantee's March, June, September, and December payments. Said map will identify the locations of all fiber optic terminals, which establish and control the system's megabit rates, installed by grantee; said specifications will identify the number of fiber pairs and the corresponding megabit rate(s) particular to each fiber optic terminal. Grantee will also submit a quarterly, cumulative summary of the total number of cables installed to date and their installed lengths; the total number of fiber pairs included therein, including those that are "dark" or inoperative; and the corresponding megabit rates(s) of all fiber optic cable installed to date. The City acknowledges that said summaries provided by grantee are proprietary in nature and shall be held as confidential.

The City will hire an engineering firm of the City's choice to perform unannounced physical audits of grantee's fiber optic system. Because grantee shall occupy a limited number of feet of the public way, grantee shall pay the costs and fees of only two (2) physical audits per year to be performed during each calendar year and the City shall pay for any additional physical audits performed during each calendar year. If said engineering firm determines that a documented discrepancy existed as of the date of any

audit between the results of the engineering firm's physical audit and the information contained in the specifications that grantee has placed on file with the City, grantee shall be given written notice of said discrepancy and be given 5 days to file a written response explaining or contesting the discrepancy. If thereafter the Commissioner of Public Works reasonably determines the existence of said discrepancy after follow-up inspection by the engineering firm, grantee shall owe the City the sum of any underpayment which has resulted from the discrepancy (plus interest as specified in Section 9), and pay the City, Office of the City Comptroller, for the costs and fees of said audit (if paid for or due to be paid by the City) as well as any required follow-up by said engineering firm within thirty (30) days of grantee's receipt of the decision of the Commissioner of Public Works.

Grantee shall maintain all records and documentation necessary to assure an adequate audit trail, including purchase orders and vouchers. Such documentation must show purchase of and payment for the data transmission control boxes (and their constituent parts) and must identify such equipment in a manner that allows the City or said engineering firm to verify the specifications that grantee submits to the City and updates quarterly.

SECTION 6. The grantee agrees to pay as compensation for the use of the public way of the City of Chicago throughout the duration of this agreement pursuant to Section 2 the greater of (i) a minimum annual fee, (ii) a capacity based fee, or (iii) a gross billings based fee, as hereinafter defined. Said fee shall be calculated and paid on a monthly basis with a year-end audit and adjustment as necessary. This compensation shall be computed at the end of each month during the term of the privilege granted herein and the compensation owed to the City shall be paid to the Office of the City Comptroller by the 15th day of the second month following.

The following definitions shall apply to the compensation to be paid by grantee to the City:

1. "Minimum annual fee" shall mean an amount equal to Five Dollars and fifty cents (\$5.50) for each foot of the public way grantee is authorized by this ordinance to use for the purposes of installing its fiber optic cable system. The minimum annual fee for this grantee shall equal Sixteen Thousand Four Hundred Eighty-nine Dollars (\$16,489), or the sum of \$1,374.08 per month.
2. "Capacity based fee" shall mean an amount equal to the annual rate of \$.004111 per mbs per fiber optic pair per installed lineal foot. The capacity-based fee, as calculated monthly, shall be based on the megabit capacity, total number of fiber optic pairs, and total number of lineal feet of the following three components of grantee's fiber optic system:
 - (i) All fiber optic cable actually installed in the public way and connected to electronics whether the cable is used (active or redundant);
 - (ii) All fiber optic cable installed in the public way which is "dark" and inoperative and/or not connected to any electronics. The compensation fee for said cable shall be calculated at a rate of 45 megabits per second; and

(iii) All fiber optic cable authorized to be installed by construction permits even if installation or construction is not completed as of the end of the month in which compensation is calculated. Grantee shall pay all fees applicable to specific construction segments upon issuance of the requisite construction permits by the Department of Public Works to grantee.

3. "Gross billings based fee" shall mean an amount equal to eight percent (8%) of the annual gross billings (gross revenues for an accrual basis taxpayer) of grantee for the provision of telecommunications services or facilities in the City of Chicago, less any City sales taxes on said billings paid by grantee's customers on goods and services provided by grantee, less any City transaction taxes on said billings paid by grantee's customers, and less any City municipal utility tax amount on said billings paid by grantee's customers. In no case shall this fee be less than Eighty Thousand Dollars (\$80,000) per year. No other expenses or allowances shall be deducted from gross billings except as specified below regarding overpayment, where the excess shall be taken as a credit against future compensation due the City, and in part 4 of this Section.

This grantee is not primarily engaged in the actual transmission of messages originating in the City of Chicago to end-users or a system provider of dedicated telecommunications services primarily in the City of Chicago, and grantee's gross billings for Chicago operations may not be easily determined. Consequently, this grantee shall allocate the gross billings amount attributable to Chicago for purposes of calculating grantee's compensation to the City using the formula:

The allocation of grantee's gross billings attributable to its Chicago operations shall be a function of the number of fiber pair miles to be installed within the municipal limits of the City of Chicago and the number of fiber pair miles installed in grantee's national system.

Stated another way, the formula to be applied against grantee's gross billings to derive the allocation of grantee's gross billings attributable to its Chicago operations shall be:

Total Miles of Grantee's Number of Fiber Pairs
System within Chicago's Installed or to be Installed
Municipal Limits as in Grantee's Chicago System
Specified in Section 1
of this Ordinance

X

Total Miles of Grantee's
Installed in National
System

Average (Mean) Number
of Fiber Pairs in Grantee's
Installed in National System

Gross billings shall include only the billings of grantee and shall not include the billings of any subsidiaries or affiliates of grantee not operating a fiber optic telecommunications system in the City. The gross billings fee shall be no less than Eighty Thousand Dollars (\$80,000) per year.

After passage, grantee agrees to pay the City annual compensation equal to the greater of the minimum annual fee, the capacity based fee or the gross billings based fee.

The monthly compensation due the City shall be calculated by first determining which of the following two fees--the capacity based fee or the gross billings based fee--is greater for that month. If that greater fee is in excess of the sum of \$1,374.08 (the monthly portion of the minimum annual fee), then the greater of the capacity based fee or the gross billings based fee is due for that month. Grantee shall compute its monthly compensation payment each month according to this procedure.

At the end of each calendar year, grantee shall recalculate the compensation due the City for the year based on the formulas and definitions described herein. If additional amounts are owed the City by grantee, said amounts shall be paid by February 15 of the following year. If grantee has overpaid the City, the excess shall be taken as a credit against future compensation due the City.

4. Because this grantee is, with the permission of the City, utilizing and paying another licensee for 2,280 feet of pre-existing conduit installed in the public way, grantee shall be entitled to a credit against its monthly compensation due the City hereunder in the amount of \$665.00 per month for 24 consecutive months. This credit must take effect no later than upon the commencement of the grantee's operations.

SECTION 7. Grantee shall maintain such records as are necessary to assure an adequate audit trail. The City Comptroller at his discretion shall have the right to require and be provided the results of independent certified audits related to the compensation paid to the City. An audit will be required at least once every year.

Annually, and no later than 30 days after receipt by grantee of its annual independent certified financial statements, but no later than June 30th of every year during which this ordinance remains in force, grantee shall supply to the Comptroller of the City of Chicago a copy of said financial statements and a certificate from an independent certified public accountant attesting to an audit showing that the amounts of compensation paid under this section for the prior year were in compliance with the provisions of this section. The City acknowledges that the financial statements so provided by grantee are proprietary in nature and shall be held as confidential.

SECTION 8. Regardless of the status of grantee as a telecommunications carrier pursuant to Section 13-202 or as a provider of telecommunications services pursuant to Section 13-203 of the Universal Telephone Service Law of 1985, or of the taxing of grantee under Ill. Rev. Stat. Ch. 24, Sec. 8-11-2, if grantee is deemed to be subject to any City transaction tax or City municipal utility tax, said taxes paid by grantee to the City shall be

deducted from the compensation owed to the City for use of its public ways pursuant to this ordinance on a dollar per dollar basis.

SECTION 9. In the event that the independent audit provided for in Section 7 determines that grantee made underpayment in any month and that the underpayment exceeded 5% of the amount due in said month, or in the event that grantee fails to make any payment on the date due, grantee shall pay interest compounded daily at the rate of 150% of the prime rate as recorded daily by the First National Bank of Chicago. Interest shall be due on the entire monthly underpayment or on the entire late payment from the date on which payment was due until the date on which full payment is received.

SECTION 10. Authority for this privilege shall remain in effect pursuant to Section 2 of this ordinance.

Upon termination of the privilege herein granted, the grantee, without cost or expense to the City of Chicago, shall remove the structures and appliances herein authorized and restore the public way where disturbed by removal of said structures or appliances to a proper condition under the supervision and to the satisfaction of the Commissioner of Public Works and in accordance with the City Municipal Code. Grantee shall restore the public way where disturbed by an installation activity by grantee without cost or expense to the City. In the event of the failure or refusal of said grantee to remove facilities or restore the public way where facilities are removed, the City of Chicago will have the right to determine the reasonable cost of said work and bill the grantee for such cost, and the City shall have the right, but not the obligation, to perform the work.

SECTION 11. The permission and authority herein granted are not intended to limit or modify any franchise, license or permit previously granted by the City of Chicago to any other occupant of the public way. Therefore, the grantee hereunder, recognizing the rights of other franchisees, licensees and permittees in the public way, shall exercise the authority herein granted in such a manner as not unreasonably to interfere with the rights of other prior or future franchisees, licensees and permittees in the public way and so as not to endanger or impair the facilities of any other such franchisee, licensee or permittee. Prior and future franchisees, licensees or permittees shall also, in like manner, respect the rights and not interfere with the rights of the grantee herein.

SECTION 12. The grantee shall, at its own expense, hold and save the City of Chicago and any other licensee and permittee using the public way authorized to be used by grantee harmless from any and all liability and expense, and provide insurance coverage to the sum of Five Million Dollars (\$5,000,000.00), said liability and expense to include judgments, costs and damages for or associated with removal, relocation, alteration, repair, maintenance and restoration of the structures or appliances herein authorized, and from any and all damages hereto and on account of the location, construction, alteration, repair or maintenance of any public ways, including bridges, subways, tunnels, vaults, sewers, water mains, conduits, pipes, poles and other public utilities. For the City to recover from the insurance company and grantee under this Section, it is not necessary that the City first make said removal, relocation, alteration, repair, maintenance or restoration. The Commissioner of Public Works is hereby authorized to reasonably determine what cost would be involved to perform said removal, relocation, alteration, repair, maintenance or restoration and his decision as to the amount shall be final and binding. Grantee and the

insurance company, upon receiving written notification from the Commissioner of Public Works of the cost of said removal and restoration shall immediately pay said amount upon demand.

The grantee shall, at its own expense, also indemnify and hold harmless the City of Chicago and its officers, agents and employees, whether for personal injury, property damage or loss or interruption of utility service occurring out of the reconstruction, installation, maintenance and other operations of the grantee and arising out of torts and including the passive negligence of the City of Chicago, providing insurance coverage to the sum of Five Million Dollars (\$5,000,000.00). It shall be the responsibility of the grantee to submit to the City of Chicago, Office of the City Comptroller, Real Estate Division, prior to issuance of a permit for this privilege to use the City's public ways, and to all other licensees and to permittees having been granted the right to use and occupy the public way a copy of proof of insurance ("certificate of insurance") in an amount not less than Five Million Dollars (\$5,000,000.00) combined single limit with said insurance covering all liability, both public liability and property damage, that may result from the granting of said privilege. Said certificate of insurance must name the City of Chicago as additional named insured and also clearly indicate that the privilege being granted by this ordinance is covered by the insurance policy. Likewise, certificates evidencing renewal of insurance must be furnished to the Office of the City Comptroller, Department of Finance, Real Estate Division, no later than 30 days prior to expiration of policy. The aforementioned insurance coverage shall be maintained at all times by the grantee until the structures or appliances described in this ordinance are removed and the public way is restored as herein required.

SECTION 13. In the event that another person or company engaged in the business of providing telecommunications services by way of fiber optic cables or other digital transmission media to more than one (1) user for wholesale or retail purposes with the objective of generating revenue is proposed to be granted rights to place a fiber optic cable in the public ways of the City of Chicago pursuant to compensation terms which would, if applied to grantee, result in grantee paying less total annual compensation than the compensation to be paid by grantee pursuant to Section 6 of this ordinance, the City of Chicago Department of Law shall notify grantee of the introduction of any such ordinance within 5 days of such introduction. Upon passage of such ordinance, grantee shall thereafter have the option to replace the compensation terms stated in Section 6 of this ordinance with the compensation terms applicable to such other person or company as herein referenced. Grantee shall notify the City Comptroller in writing of grantee's election to accept such substitute compensation terms.

SECTION 14. Grantee shall provide a bond with corporate surety, said bond to insure the cost of removal of grantee's structures and appliances at any time the City determines the need for removal; to pay any liability suits, judgments, damages or any costs resulting prior to or after expiration of the authority herein granted; and to pay any penalties, auditing costs and fees, or compensation and interest, if any, if grantee defaults on its payments to the City. The amount of said bond shall be \$200,000 for this grantee.

For the City of Chicago to recover from the surety or from the grantee under this section for removal, relocation, alteration, repair, maintenance or restoration of grantee's structures, it is not necessary that the City of Chicago first perform such work. The Commissioner of Public Works is hereby authorized to determine the cost of performing said removal, relocation, alteration, repair, maintenance or restoration and his decision as to the amount shall be final and binding. The grantee and the surety, upon receiving written notification from the Commissioner of Public Works of the reasonable cost of said removal and restoration, shall pay immediately said amount upon demand.

SECTION 15. The City will not be obligated to pay any amounts to grantee for any cost of preparation or making improvements to the public way and grantee expressly waives any right to any such contributions.

Prior to undertaking any installation, construction or related activities in the public way, grantee shall provide any prior licensee or permittee having facilities located in the public way authorized to be used by grantee with a fully-paid Certificate of Insurance which names any such other licensee or permittee as an additional insured and is in an amount sufficient to cover all risk of loss or damage to the facilities of any such other licensee or permittee located in the public way.

SECTION 16. The privilege granted herein shall be maintained and used in accordance with the ordinance of the City and the directions of the Commissioner of Public Works.

SECTION 17. The permission and authority herein granted to use the City's public way may be revoked at any time by the City if grantee materially defaults or neglects to comply with the terms of this ordinance, provided that grantee shall first be given written notice specifying the nature of any neglect or default and grantee shall have thirty (30) days from the receipt of such notice to correct such neglect or default except upon good cause shown provided further, however, that upon good cause shown the 30 day correction period shall be extended. Such good cause must be detailed in writing to the Comptroller's Office, Real Estate Division, within 5 days after the lapse of the 30-day period.

SECTION 18. The permission and authority herein granted shall not be exercised until a permit authorizing use of the City of Chicago's public way pursuant to the length of term specified in Section 2 has been issued to the grantee by the Office of the City Comptroller, Department of Finance, and thereafter only upon the faithful observance and performance of all the conditions and provisions of this ordinance, and until proof of insurance and surety, as referenced in Sections 12 and 14 herein, are submitted to the City.

SECTION 19. Prior to issuance of the permit provided in Section 18, the grantee shall file a written acceptance of this ordinance with the City Clerk, and proof of indemnification on behalf of the City of Chicago as herein required.

SECTION 20. This ordinance shall take effect and be in force from and after its passage.

License Agreement attached to this ordinance reads as follows:

License Agreement.

Whereas, Lightnet (hereinafter "Grantee") plans to place fiber optic cable within the public way of the City of Chicago; and

Whereas, Grantee wishes to obtain a license to use the public ways of the City of Chicago, and the City of Chicago wishes to grant a license to grantee:

Witnesseth:

Section 1. The City of Chicago agrees to grant, and grantee agrees to accept a license to use the public ways of the City of Chicago, pursuant to the terms and conditions of the proposed ordinance which is attached hereto as Exhibit A and is incorporated by reference herein.

The City agrees to submit the attached proposed ordinance to the Council for approval. Grantee agrees to cooperate with the City of Chicago in seeking enactment of the attached ordinance. The City of Chicago and grantee shall use their best efforts to support passage of the attached ordinance, which shall include but not be limited to providing representatives to testify at any legislative hearing on the proposed ordinance.

Section 3. The City of Chicago and grantee mutually agree and affirm that the terms and conditions stated in the proposed ordinance which is attached hereto and incorporated by reference herein represent the entire agreement of the parties.

Section 4. Grantee explicitly agrees to waive the application of the "most favored nations" provision (Section 13) only with respect to any contract or license heretofore executed between the City of Chicago and Digi-Net, Incorporated, even if applicable.

Section 5. The contents of this agreement and of the proposed ordinance which is attached hereto and incorporated by reference herein are contractual in nature and are not mere recitals. The mutual promises stated in this contract and the proposed ordinance which is attached hereto and incorporated by reference herein shall survive the execution of this agreement.

Exhibit "B"

(Continued from page 1622)

The Committee on Streets and Alleys submitted a report recommending that the City Council pass the following proposed ordinance transmitted therewith:

WHEREAS, The City Council of the City of Chicago, after due investigation and consideration, has determined that the nature and extent of the public use and the public interest to be subserved is such as to warrant the vacation of public alleys described in the following ordinance; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That all that part of the east-west 18-foot public alley lying south of the south line of Lots 10 and 11 in

Subdivision of Block 31 of Johnston, Roberts and Storr's Addition to Chicago in Section 4, Township 39 North, Range 14 East of the Third Principal Meridian;

lying north of the north line of Lots 3 and 4; lying west of the west line of Lots 1 and 2; and lying east of the northwardly extension of the west line of the east 18 feet of Lot 4 all in Subdivision of Block 31 aforementioned;

Also

all that part of the north-south 18-foot public alley opened by Plat of Dedication recorded in the Office of the Recorder of Deeds of Cook County, Illinois, August 14, 1964 as Document No. 19214967 being the East 18.0 feet of Lot 4 in the Subdivision of Block 31 of Johnston, Roberts and Storr's Addition to Chicago aforementioned;
