Action Deferred-- AMENDMENT OF UTILITY AND INSPECTION
AGREEMENT WITH FEDERAL AVIATION
ADMINISTRATION FOR FACILITY
AT CHICAGO O'HARE
INTERNATIONAL
AIRPORT.

The Committee on Finance submitted the following report, which was, on motion of Alderman Burke and Alderman Stone, *Deferred* and ordered published:

CHICAGO, December 23, 1987.

To the President and Members of the City Council:

Your Committee on Finance, having had under consideration a communication from the Office of the Mayor transmitting an ordinance authorizing the execution of an amendment of the Utility and Inspection Agreement between the Federal Aviation Administration and the City of Chicago necessary for the Federal Aviation Administration facility which is located at the Chicago-O'Hare International Airport having had the same under advisement, begs leave to report and recommend that Your Honorable Body pass the proposed ordinance transmitted herewith.

This recommendation was concurred in by a viva voce vote of the members of the committee.

Respectfully submitted,
(Signed) TIMOTHY C. EVANS,
Chairman.

The following is said proposed ordinance transmitted with the foregoing committee report:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Aviation and the City Comptroller, subject to approval as to form and legality of the Corporation Counsel, are authorized to execute on behalf of the City of Chicago an amendment to an agreement with the Federal Aviation Administration at Chicago-O'Hare International Airport, as passed by the City Council May 20, 1970 (C.J.P. pp. 8589--8591) as previously amended, said amendment to be in the following form:

[Amendment immediately follows Section 2 of this ordinance.]

SECTION 2. This ordinance shall be in full force and effect from and after its passage.

Amendment attached to this ordinance reads as follows:

Article IV.

High Temperature Water.

A December 1, 1986 study by Facilities Consultants, Limited to determine the cost of providing High Temperature Hot Water (H.T.H.W.) and Chilled Cold Water (C.C.W.) for the Chicago-O'Hare International Airport, Federal Aviation Administration Traffic Control Tower shows that the cost of generating H.T.H.W. has increased since 1982 from \$11.22 per million BTU's to \$12.00 per million BTU's, while consumption has remained at an estimated 5166.37 MBTU's. Therefore, the annual charge is increased from \$57,967.00 to \$61,996.44 per year.

Article V.

Inspection, High-Temperature Water System.

The annual charge is changed from \$15,045.00 to \$21,481.00.

*Article VI.**Chilled Water.*

The same study of December 1, 1986, by Facilities Consultants, Limited shows that the current cost of generating chilled water has increased since 1982 from .682 per KWHR to .13203 per KWHR. Therefore, the annual charge is changed from \$9,861.00 to \$16,752.29 per year.

*Article VII.**Maintenance Cost For Tunnel Distribution System.*

Due to the escalation in the maintenance cost of the entire Airport Tunnel Distribution System, the annual sum for the Federal Aviation Administration's share is changed from \$12,765.00 to \$24,700.27 per year.

*Article VIII.**Renegotiation And Adjustments.*

The unit charges for the generation of high temperature hot water and chilled cold water may be renegotiated every three years, prior to the issuance, for the first quarter, of a warrant for collection by the City of the expenses incurred in said generation. Such adjustments will not be made, however, of the unit rates until the customary study of the actual costs of supplying high temperature hot water and chilled cold water has been completed and forwarded to the Federal Aviation Administration, and subsequently acknowledged and accepted in writing. The rates may be adjusted during the intervening years (between formal rate studies) by multiplying the then current rate by a fraction, the numerator of which is the Producer Price Index All Commodities ("P.P.I.") published by the United States Department of Labor, Bureau of Labor Statistics (1987 = 100) for December of the year immediately preceding the year to be adjusted and the denominator of which is the P.P.I. for January 1, 1987. The costs detailed under Articles V and VII are to be updated annually based on the average scheduled salaries for A and C Operating Engineers taken from the official City of Chicago Annual Appropriation Ordinance for the year of adjustment, showing the hourly rates for A and C Operating Engineers in the Heating and Refrigeration Plant at the airport. These hourly rates are to be multiplied by 2040 hours to calculate the average wage for an A and C Operating Engineer and then increased by 15% to cover the costs of pensions, hospitalization and other fringe benefits.

The formula for arriving at the cost in Article V is to add the average annual salary of an A Operating Engineer and of a C Operating Engineer together and divide the product by 2. The formula for arriving at the cost for maintaining the tunnel distribution system is to increase (or, reduce) the existing cost by the same percentage increase (or decrease) contained in Article V.

As a result of the above mentioned changes the total annual cost of this contract is increased from \$95,638.00 to \$124,930.000, effective January 1, 1987.

printed on page 8623 of this Journal.]

hereafter a party or by which it is or may become bound; (d) Borrower has and at all times hereafter shall have good, indefeasible and merchantable title to and ownership of the Collateral (as hereinafter defined), free and clear of all liens, claims, security interests and encumbrances except those of Lender and as otherwise permitted under Section 4 of this Agreement; (e) Borrower is now and at all times hereafter shall be solvent and able to pay its debts as they mature; (f) there are no actions or proceedings which are pending or threatened against Borrower (except as may be set forth in Borrower's application for the Loans), which might result in any material and adverse change to Borrower's financial condition, or materially affect Borrower's assets or the Collateral as of the date of this Agreement; (g) Borrower has and is in good standing with respect to all government permits, certificates, consents (including, without limitation, appropriate environmental clearances and approvals) and franchises necessary to continue to conduct its business as previously conducted by it and to own or lease and operate its properties (including, but not limited to, the Property) as now owned or leased by it; (h) Borrower is not in default with respect to any indenture, loan agreement, mortgage, deed or other similar agreement relating to the borrowing of monies to which it is a party or by which it is bound and no event has occurred which, upon the lapse of time and if not timely cured, would occasion such a default; (i) the Financials fairly and accurately represent the assets, liabilities and financial conditions and results of operations of Borrower as of the date of application for the Loans and for the fiscal year immediately preceding the date of Financials submitted thereafter; and (j) there has been no material and adverse change in the assets, liabilities or financial condition of Borrower since the dates of the aforesaid Financials.

"Tangible Net Worth", as used in this paragraph, shall mean the difference obtained by subtracting consolidated liabilities (not including as a liability any capital or surplus item) from consolidated total assets (exclusive of good will, patents and other intangibles) of the Borrower and all of its consolidated subsidiaries, if any, determined in accordance with generally accepted accounting principles.

In the event Borrower, at any time or times hereafter, shall fail to pay the Charges or to obtain discharges of the same, Borrower shall so advise Lender thereof in writing at which time Lender may, without waiving or releasing any obligation or liability of Borrower under this Agreement, in its sole discretion, make such payment, or any part thereof, or obtain such discharge and take any other action with respect thereto which Lender deems advisable. All sums so paid by Lender and any expenses, including reasonable attorney's fees, court costs, expenses and other charges relating thereto, shall be payable by Borrower to Lender. 6.07 Borrower shall immediately notify Lender of any and all events or actions which may materially affect Borrower's abilities to carry on its operations or perform all its obligations under this Agreement or any other agreements whether senior or junior to the Loans, and whether now existing or hereafter entered into by Borrower so long as any of Borrower's Liabilities remain unsatisfied.

6.08 The Borrower covenants and agrees, at its expense, to pay and to indemnify and save the Lender, the Lender's officers, employees and agents harmless of, from and against, any and all claims, damages, demands, expenses, liabilities and taxes (of any character or nature whatsoever, regardless of by whom imposed), and losses of every conceivable kind, character and nature whatsoever (including, but not limited to, claims for loss or damage to any property or injury to or death of any person asserted by or on behalf of any person, firm, corporation or governmental authority arising out of, resulting from, or in any way connected with the Collateral or the Project, or the condition, occupancy, use, possession, conduct or management of, or any work done in or about or involving the Collateral or the Property. - (iii) default in the performance or observance of any conditions or any other covenant or agreement of the Borrower contained herein, which default shall remain unremedied for thirty (30) days after written notice thereof shall have been given by the City to the Borrower; provided, however, if such correction, by its nature, cannot be performed within said 30-day period, then, if the Borrower commences such correction within said 30-day period and diligently pursues such correction, the time period within which such correction must be performed shall end ninety (90) days following the written notice from the Lender; or
- (iv) the occurrence of an Event of Default under any of the Security Documents or a default under any agreement or document relating the Senior Lender Loan or a default under the Prior Bond Documents which Event of Default or default is not timely cured pursuant to any applicable cure period as set forth in the Security Documents or in the loan documents pertaining to Senior Lender Loan or in the Prior Bond Documents;

(v) any warranty, representation or statement made or furnished to Lender by or on behalf of Borrower proving to have been false in any material respect when made or furnished;

(vi) loss, theft, substantial damage, destruction, sale, lease or other disposition of or encumbrance to any of the Collateral or the making of any levy, seizure or attachment thereof or thereon except as expressly otherwise permitted under this Agreement;

(vii) Borrower's sale, partial sale, transfer or voluntary disposition of its business;

(viii) dissolution, termination of existence, insolvency, business failure, appointment of a receiver of any part of the assets of, assignment for the benefit of creditors by, or the commencement of any proceeding under any bankruptcy or insolvency laws by or against the Borrower or any guarantor or surety of Borrower.

Section 9. Remedies.

9.01 Upon the occurrence of an Event of Default hereunder (regardless of whether the Uniform Commercial Code as applicable has been enacted in the jurisdiction where rights or remedies are asserted), and at any time thereafter (such default not having previously been cured as set forth in Section 9 above), Lender, at its option, and in addition to its remedies set forth in the Notes and elsewhere in this Agreement, may declare all of Borrower's Liabilities secured hereby immediately due and payable and shall have the remedies of a secured party under the Uniform Commercial Code as adopted in Illinois ("Code") (and the foreclosure provisions of Ill. Rev. Stat., Chapter 110, Section 15-101 *et seq.*), including without limitation, the right to take immediate and exclusive possession of Collateral, or any part thereof, and for that purpose may, so far as Borrower can give authority therefor, with or without judicial process, enter (if this can be done without breach of the peace), upon any premises on which the Collateral or any part thereof may be situated and remove the same therefrom (provided that if the Collateral is affixed to real estate, such removal shall be subject to the conditions of the Code) and Lender shall be entitled to hold, maintain, preserve and prepare the Collateral for sale, subject to Borrower's right to redemption, in satisfaction of Borrower's Liabilities as provided in the Code. To this end, Lender may require Borrower to assemble the Collateral and make it available to Lender for possession at a place to be designated by Lender which is reasonably convenient to both parties. Unless the Collateral is perishable or threatens to decline rapidly in value or is of a type customarily sold on a recognized market, Lender will give Borrower at least ten (10) days notice of the time and place of any public sale thereof or of the time after which any private sale or any other intended disposition thereof is to be made. The requirements of reasonable notice shall be met if such notice is mailed, postage prepaid, to the address of Borrower shown in the beginning of this Agreement at least ten (10) days before the time of the sale or disposition. Lender may buy at any public sale, and if the Collateral is of a type customarily sold on a recognized market or is of a type which is the subject of a widely distributed standard price quotation, it may buy at private sale. The net proceeds realized upon any such disposition, after deduction for the expenses of retaking, holding, preparing for sale, selling or the like, and reasonable attorney's fees and legal expenses incurred by Lender in connection therewith, shall be applied in satisfaction of Borrower's Liabilities secured hereby. Lender will account to Borrower for any surplus realized on such disposition and Borrower shall remain liable for any deficiency.

9.02 The Lender shall have the right to seize and set-off against amounts owed hereunder and under the Notes, any assets (including cash) of the Borrower which Lender may hold through any of its agencies or otherwise at the time of the occurrence of such Event of Default.

9.03 The remedies of Lender hereunder are cumulative and the exercise of any one or more of the remedies provided for herein or under the Code shall not be construed as a waiver of any of the other remedies of Lender so long as any part of Borrower's Liabilities remain unsatisfied.

Section 10. No Waiver By Lender.

10.01 Lender's failure at any time or times hereafter to require strict performance by Borrower of any provision of this Agreement shall not waive, affect or diminish any right of Lender thereafter to demand strict compliance and performance therewith, nor shall any waiver by Lender of a Borrower's Event of Default waive, suspend or affect any other Event of Default under this Agreement, whether the same is prior or subsequent thereto, and whether of the same or of a different type.

10.02 Lender's delay in instituting or prosecuting any action or proceeding or otherwise asserting its rights hereunder shall not operate as a waiver of such rights or limit them in any way so long as an Event of Default shall be continuing.

Section 11. Prepayment.

11.01 Each of the Loans and its respective Note may be prepaid at anytime, in whole or in part without premium or penalty. If the Borrower elects to prepay all or a portion of either Note, Borrower shall notify Lender in writing and present on the next payment date an amount sufficient to pay 100% of the principal amount to be redeemed and accrued interest to such payment date. If both Notes are to be fully retired and cancelled and the lien of the Lender on the Collateral defeased as set forth in this Section 11, then Borrower shall also pay an amount sufficient to discharge all of Borrower's Liabilities arising under the Security Documents. Any partial prepayment of one of the Notes shall be made in inverse order of the principal installments thereof. Any partial prepayment of one of the Notes shall not reduce the amount of each of the principal installments remaining to be paid subsequent to such partial prepayments as to either of the Notes. If either of the Notes is prepaid in part, such Note shall be endorsed by the holder to show the amount of such principal payment and the principal amount remaining outstanding. If the Borrower shall pay and discharge or cause to be paid and discharged the whole amount of the principal of, premium, if any, and interest on both of the Loans and the Notes at the time outstanding, and shall pay or cause to be paid all other sums payable hereunder, then and in that case all property, rights and interest hereby conveyed or assigned or pledged shall revert to the Borrower, and the estate, right, title and interest of the Lender in the Collateral therein shall thereupon cease, terminate and become void; and this Agreement and the covenants of the Borrower contained herein, shall be discharged and the Lender in such case, on demand of the Borrower and at the Borrower's cost and expense, shall execute and deliver to the Borrower a proper instrument, or proper instruments, acknowledging the satisfaction and termination of this Agreement.

Section 12. Equal Employment.

Borrower and its successors and assigns, agree that so long as either of the Loans remains outstanding and unpaid:

12.01 Borrower will not discriminate against any employee or applicant for employment on account of race, religion, color, sex, age, handicap or national origin. Borrower will take affirmative action to ensure that applicants are employed and that employees are treated during employment, without regard to their race, color, religion, sex, age, handicap or national origin. Such action shall include, but not be limited to the following: (a) employment upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination, rates of pay, or other forms of compensation, and selection for training, including apprenticeship. Borrower agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.

12.02 Borrower will in all solicitations of, or advertisements for, employees placed by or on its behalf, state that all qualified job applicants will receive consideration for employment without regard to race, religion, color, sex, handicap or national origin.

12.03 Discrimination as used herein shall be interpreted in accordance with the Constitution and applicable federal law. This covenant may be enforced solely by the City and solely against the party who breaches this covenant.

Section 13. Disclaimer Of Relationship.

Nothing contained in this Agreement, nor any act of the Lender, shall be deemed or construed by any of the parties, or by third persons, to create any relationship of third-party beneficiary, or of principal or agent, or of limited or general partnership, or of joint venture, or any association or relationship involving Lender.

Section 14. Conflict Of Interest.

No member, official or employee of Lender shall have any personal interest, direct or indirect, in the Borrower's business; nor shall any such member, official or employee participate in any decision relating to Borrower's business which affects his/her personal interests or the interests of any corporation, partnership or association in which he/she is directly interested.

Section 15. Limitation Of Liability.

Borrower expressly agrees that no member, official, employee or agent of Lender shall be individually or personally liable to Borrower, its successors or assigns in the event of any default or breach by Lender under this Agreement.

Section 16. Assignment.

16.01 Without prior written consent of the Lender thereto, which Lender may or may not give in its sole discretion, Borrower may not sell, assign or transfer this Agreement or either of the Notes.

16.02 Borrower consents to Lender's sale, assignment, transfer or other disposition, at any time and from time to time hereafter, of this Agreement, in whole or in part.

Section 17. Additional Provisions.

17.01 This Agreement may not be altered or amended except by written instrument signed by all parties hereto.

17.02 All notices, certificates or other communications required or given hereunder shall be in writing and placed in the United States mail, registered or certified, return receipt requested, first class postage, prepaid and addressed as follows:

The parties may designate any further or different addresses to which subsequent notices, certificates or other communications shall be sent.

17.03 If any provision hereof is held invalid or unenforceable by any court of competent jurisdiction, such provision shall be deemed severed from this Agreement to the extent of such invalidity or unenforceability, and the remainder hereof will not be affected thereby, each of the provisions hereof being severable in any such instance.

17.04 This Agreement shall be governed by and construed in accordance with the laws of the State of Illinois.

17.05 In all instances where the Lender's consent or approval is required, Lender agrees not to unreasonably, arbitrarily or capriciously withhold such consent or approval.

Section 18. Maintaining Records/Right To Inspect.

18.01 Borrower shall keep and maintain such books, records and other documents as shall be required by Lender and necessary to reflect and disclose fully the amount and disposition of the Loan proceeds, the total cost of the activities paid for, in whole or in part, with proceeds of the Loans, and the nature or all activities which are supplied or to be supplied by other sources. All such books, records and other documents shall be available at the offices of Borrower for inspection, copying, audit and examination at all reasonable times by any duly authorized representative of the Lender.

18.02 Any duly authorized representative of the Lender shall, at all reasonable times, have access to all portions of the Project and to the Collateral.

18.03 The rights of access and inspection provided in this Section 18 shall continue until the completion of all close-out procedures respecting both of the Loans and until the final settlement and conclusion of all issues arising out of both of the Loans.

The failure of the Commissioner to so act shall not modify the action of the *Department* in suspending the license.

(b) Unless otherwise ordered by the Commissioner, a suspension shall be effective until such time as the *Department* finds that the violation has been corrected. Upon such a finding, the *Department* shall rescind the license involved.

(c) Upon written application to the Commissioner by any person whose license has been suspended, or upon application within 24 hours of any person who has been served with a notice of intention to suspend, and in the latter case before suspension, the Commissioner shall appoint a hearing officer, who is not the inspector who initiated the suspension or his subordinates, who shall within 72 hours proceed to a hearing to ascertain the facts of such violation or interference and upon evidence presented at such hearing shall make a recommendation and present findings to the Commissioner. 107-4. An application for a bakery license shall be made in conformity with the general requirements of this code relating to applications for licenses. In addition, the applicant shall state the number of vehicles used or to be used for the delivery of, and the number of persons engaged or to be engaged in the manufacture of, bakery goods.

The Department of [Inspectional Services] *Health* shall make or cause to be made an examination of the place described in such application for the purpose of ascertaining whether the location, lighting, ventilation, sanitary arrangements, and equipment of such bakery conform to the provisions of this chapter. The Department of [Inspectional Services] *Health* shall also make or cause to be made an examination of the vehicles used or intended to be used for the delivery of bakery products[,] for the purpose of ascertaining whether the same conform to the provisions of this chapter.

107-19. The Department of [Inspectional Services] *Health* shall cause periodic inspections to be made of all bakeries and bakery vehicles.

Bakery vehicles shall be inspected under the direction of the Department of [Inspectional Services] *Health* as often and at such times as *the* [said] department may deem necessary or proper to keep them in a sanitary condition, and the inspectors shall make reports in writing to *the* [said] Department of [Inspectional Services] *Health* of the violation of this code in the operation of such vehicles or any unsanitary or unclean conditions with respect to the transportation or delivery of bakery goods by such vehicles which may come to their attention.

The Department of [Inspectional Services] *Health* and its authorized inspectors and employees shall have the right at all times to enter the premises of any bakery establishment in order to make inspections thereof and of the vehicles used in connection therewith, and to make such record of the condition of such bakery or bakery vehicles as they may deem necessary. If such inspection shall disclose a lack of conformity with the provisions of this chapter, the Department of [Inspectional Services] *Health* may require such changes, alterations, or renovations as may be necessary to make such bakery or bakery vehicles comply with the provisions of this chapter.

107-20. If at any time during the term of such license the Department of [Inspectional Services] *Health* shall certify to the *M[m]ayor's License Commission* that the provisions of this chapter have not been or are not being complied with, or that the public health or the health of the persons engaged in such bakery is endangered by its maintenance, or that the bakery vehicles do not comply with the provisions of this chapter, the *M[m]ayor's License Commission* may, *after notice to the licensee and an opportunity for him to be heard* revoke such license.

SECTION 4. Chapter 114 of the Municipal Code of Chicago, "Cold Storage Establishments," is hereby amended in Sections 114-2, 114-4 and in the second and third paragraphs of 114-7, by adding the language in italics and deleting the language in brackets, as follows:

114-2. The *Department* [board] of *H[h]ealth* is hereby vested with full power and authority to inspect and supervise all places in this city now used or hereafter to be used for cold storage or refrigeration purposes; and it shall be the duty of the *Department* [board] of *H[h]ealth* to make such inspection not less frequently than once in every three months. The *Department* [board] of *H[h]ealth* and all duly authorized inspectors and agents of the *Department* [board] shall be permitted access to such [place or] places and all parts thereof at all times for the purpose of seeing that [said place or places] *they* are kept and maintained in a clean and sanitary manner, and for the purpose of determining whether or not the provisions of this code relating to foodstuffs are being complied with.

114-4. Every person engaged in the business of cold storage warehouseman, or in the business of refrigeration, or in any business in which articles of food as defined herein are kept in cold storage for any purpose whatsoever, shall submit reports to the *Department* [board] of *H[h]ealth* upon printed forms to be provided by *the Department* [said board,] setting forth in itemized particulars the quantity of each and every foodstuff in storage or in the control of said person; such reports shall be filed on or before the twenty-fifth day of January, May, and September, of each year, and reports so rendered shall show the true conditions in regard to such matters existing in said cold storage warehouse or place of cold storage upon the first day of the month in which said report is filed.

114-7. It shall be unlawful for any person to sell, offer for sale, or give away within the city any food which has been kept in cold storage for a period of time longer than that provided for herein except with the consent of the *Department* [board] of *H[h]ealth* as hereinafter provided.

The *Department* [board] of *H[h]ealth* may, upon application or upon making the inspection herein provided for, extend the period of storage beyond the time herein prescribed, for any particular lot of goods, if the [said] goods in question are found upon inspection and examination by the *Department* [board] of *H[h]ealth* [or its assistants] to be in proper condition for [human] food, such extension to be until such time exceeding ninety days, as it shall consider proper, considering the condition of the food at the time such extension is made. The length of time that such further storage may be allowed shall be specified in the order granting such extension.

A report of each case in which such extension of time is granted, including all information relating to the reasons for the action of the *Department* [board] of *H[h]ealth*, the kind and amount of goods for which the storage period was extended, and the length of time for which the extension was granted, shall be included in a monthly report of the *Department* [board] of *H[h]ealth* to the mayor.

SECTION 5. Chapter 124 of the Municipal Code of Chicago, "Extermination by Fumigation," is hereby amended in Sections 124-3, 124-4, 124-7, 124-8, 124-9, in the second paragraph of 124-11, in the second paragraph of 124-12, in the first paragraph of 124-16, in 124-22, 124-23, 124-24, 124-25, and in 124-26, by adding the language in italics and deleting the language in brackets, as follows:

124-3. An application for *such a* [said] license shall be made in conformity with the general requirements of this code relating to application for licenses. In addition, the applicant shall file with the *Department* [Board] of Health a sworn statement listing the training and experience tending to qualify the applicant for the performance of fumigating with hydrocyanic acid gas and other dangerous and noxious gases. In the case of firms or corporations, *the* [said] statement shall cover the training and experience of the responsible officers.

124-4. The *Department* [Board] of Health shall appoint a *B[b]oard* of *E[e]xaminers* of *F[f]umigators*, consisting of three members. *This* [Said] board of examiners shall make a thorough investigation of the training, experience, general qualifications, character, and reputation of the applicants for licenses to exterminate by fumigation with poisonous or noxious gases. This board shall also examine applicants by giving such mental, written, and oral examinations as it deems necessary to determine the fitness and reliability of the applicant and to ascertain his knowledge of the requirements in regard to *fumigation* [said business] as set forth in this chapter, and on any rules and regulations of the Board of Health regulating and controlling said business.

In the case of a firm or corporation, the responsible officers of such organizations or any agents officially designated by such firm or corporation to supervise and control its fumigating work shall be subject to examinations of the applicants as herein provided.

Based on the findings and recommendations of the Board and Examiners of Fumigators, the *Department* [Board] of Health shall approve the issuance of a license to applicants it finds and considers reliable and safe to engage in the business of exterminating by fumigation.

124-7. No license shall be renewed until the *Department* [Board] of *H[h]ealth* shall approve the renewal.

124-8. No person shall be engaged by *any* [said] licensee *licensed under this chapter* to work at the occupation of an exterminator by fumigating without first filing an application and statement of experience and qualifications with, and receiving the approval of the *Department* [Board] of Health.

124-9. *Each licensee* [The employees of the licensee] engaged in the fumigation shall *provide* [be covered by] liability insurance *for his employees* providing for indemnification in case of bodily injury, sickness or death, in accordance with the [State] *Illinois Workmen's Compensation Act and the Worker Occupational Disease Act.*

124-11. * * * * *

Provided that every fumigation of plants, factories, warehouses, box cars, vehicles, specially constructed vaults, or any other place where candy or other food stuffs are manufactured, sold, stored, transported, or handled shall be done in strict compliance with the rules and regulations of the Board of Health, and further provided, that a permit for each such fumigation shall be obtained by the fumigator from the *Department* [Board] of Health.

* * * * *

124-12. When hydrocyanic gas or other dangerous gases or fumes are used for exterminating purposes, before fumigation, the operator shall personally inspect the premises[,] and shall serve notice, over his signature, upon all responsible occupants of each room or apartment within the danger area, stating the danger of the process and the precautions to be observed, designating the rooms or apartments which must be vacated and indicating the time when the gas is to be generated or liberated. The form of this notice shall be approved by the *Department* [Board] of Health. Every room in the danger area shall be vacated. In the case of a building in which there is an inner court, vent shaft, or light well, or a lot line court with a party wall, or in the case of two buildings having adjacent lot line courts, upon which any room being gassed opens, every room with windows or other apertures opening to such inner or lot line courts, vent shafts, or light wells shall be vacated and securely locked. Where the walls of any adjoining buildings are located within ten feet of the rooms or apartments being gassed, the operator shall notify, over his signature, all responsible occupants of rooms or apartments[,] with window openings in such walls[,] that such windows as are directly opposite[,] or above the area of the adjoining building which is under gas, must remain closed, or the rooms vacated during the time the building gassed is being flushed or aired. All rooms or apartments ordered vacated, but not under gas, shall be well ventilated during the process by keeping the windows of the rooms or apartments open.

Provided, however, that such vacation of premises and notification of occupants shall not be necessary where the fumigation is done in special rooms or vaults in furniture stores, second-hand stores, or household goods warehouses, or vaults in candy and other food processing plants, when such special rooms or vaults are approved as to their location, construction, and gas-tightness of the *Department* [Board] of Health, and a provision is made for the airing of such vaults so as to allow the escape of gases at such a location where it is not dangerous by a system of ducts and ventilation approved by the *Department* [Board] of Health.

* * * * *

124-16. Prior to releasing the hydrocyanic gas or other dangerous gases, suitable warning signs shall be posted on all entrances or doors to the premises to be fumigated, and upon all gangplanks, ladders, and other approaches, etc., from the deck, pier, or land to the vessel as follows:

DANGER

Skull
and
Crossbones

Fumigating with

Skull
and
Crossbones

All persons are warned to keep away.
By Order of the *Department* [Board] of Health.
(Name and address of licensee as well as telephone number).

Such signs shall be printed in red ink on white cardboard. The letters in the word "Danger" shall be at least two inches high, all others except the signature at least three-fourths of an inch high. At night and in places where the natural light between sunrise and sunset is dim, such signs shall be illuminated so as to make the reading matter thereon plainly legible.

124-22. At the conclusion of the gassing process in fumigation, it shall be the duty of the operator to throw open doors and windows of the premises, until all rooms have been opened for free access of air. No person other than the operator shall be permitted to enter the premises until all traces of the gas have disappeared, and in no case shall the occupants of the rooms or areas gassed be permitted to enter until twelve hours after airing. The operator or watchmen shall keep all persons away from the doors and windows of the premises for two hours after airing. Infants and children under six years of age shall not be permitted to re-enter the premises until eighteen hours after the rooms or apartments are opened for airing. The licensee shall inform all occupants[,] having children[,] of this provision in writing over his signature. No room or space, except where the whole building is vacated and except upon a ship or vessel when fended off from shore as provided herein, shall be left under gas after the time of sunset. Warnings posted where the natural light between sunrise and sunset is dim shall be artificially illuminated. Warnings on vessels fumigated after sunset shall be artificially illuminated in a manner approved by the *Department* [Board] of Health.

124-23. The operator shall [pour] *dispose of* the residue left in the jars or containers, and the water used for cleaning such jars or containers, [down the toilet bowl, which shall then be flushed thoroughly with water to remove traces of the chemicals] *in accordance with the provisions of the federal and state statutes and regulations concerning environmental and toxic waste and hazards.*

124-24. Every container in which hydrocyanic acid, either alone, mixed with, or absorbed in, other material is handled, shipped, or sold, shall be of a type of construction, material, and thickness approved by the *Department* [Board] of Health, in order that accidental poisonings during handling, storage, and shipment of such containers may be prevented. This approval shall not be necessary where the containers are accepted by the United States officials for interstate shipment.

124-25. The *Department* [Board] of Health may prescribe that a stink gas or tear gas shall be mixed with the hydrocyanic acid gas or other dangerous gases or fumes to be used for fumigating, specifying in whatever detail it shall deem necessary the time and method for the generation or release of such stink or tear gases.

124-26. The license of any person violating the provisions of this chapter may be revoked by the mayor upon recommendation of the *Department* [Board] of Health, who shall give due hearing to *the* licensee before such recommendation.

SECTION 6. (a) It shall be the duty of every owner to permit a representative of the Department of Health, after proper identification, to enter at any reasonable time and make inspections of the facilities, equipment and vehicles for determining compliance with the requirements of this Municipal Code relating to health and sanitation and, when required to do so, the owner shall furnish samples of any foods prepared, kept, sold or transported by any such food establishment as often as the Commissioner of Health may deem necessary to determine that the foods are free from adulteration, not misbranded, do not contain an excessive number of microorganisms or their toxins, and otherwise comply with the provisions of this Municipal Code and the rules and regulations of the Board of Health. The owner shall answer all reasonable and proper questions and permit the health authority to

examine records of the establishment to obtain pertinent information relating to food, water, beverages and supplies received or used and persons employed. Any samples provided shall be examined or analyzed under the direction of the Department of Health, and a record of each such examination or analysis shall be made and kept in the offices of the Department.

Upon failure or refusal by an owner to permit inspection or to furnish required samples, the Commissioner shall immediately suspend any and all licenses or permits issued to the owner of that particular food establishment.

(b) 1. Upon written notice to the owner, the Department of Health may place a "Held for Inspection" order on any food which the health authority determines or has probable cause to believe to be unwholesome or otherwise adulterated or misbranded. At the request of the owner, foods so held for inspection shall be permitted to be suitably stored pending analysis reports or voluntarily denatured and disposed of under Department of Health supervision.

2. It shall be unlawful for any person to remove the "Held for Inspection" tag or seal placed on the food by the Department of Health, nor shall the containers of such food be removed from the premises or destroyed without permission of the Department of Health except on order of a court of competent jurisdiction. The Department may vacate a "Held for Inspection" order or may by written order direct the owner or person in charge of the food to denature or destroy such food, bring it in compliance with the provisions of this chapter and the rules and regulations of the Board of Health or dispose of it for non-human use as may be approved by the Department of Health. Any order of the Department of Health to denature or destroy food shall be stayed pending appeal if the order is appealed to a court of competent jurisdiction within three days. Nothing in this section shall preclude any court action based upon a finding of unwholesome or adulterated foods.

(c) 1. It shall be the duty of any owner who has knowledge of, and of any physician who attends or prescribes for, and of every superintendent or person in charge of any hospital caring for any person suffering from or suspected of suffering from food poisoning or infection or any form of such poisoning or infection, whether bacterial or chemical, at once to report this fact to the Department of Health and thereafter to submit to the Department of Health a written report stating the name and address of the person thus afflicted, the nature of the poisoning or infection and the source or probable source of the same.

2. No person affected with or carrying any disease in a communicable form, or affected with boils, infected wounds, sores, acute respiratory infection or intestinal disorder shall work in any area of a food establishment in any capacity in which there is a likelihood of that person contaminating food or food-contact surfaces with pathogenic organisms or transmitting disease to other persons. It shall be unlawful to employ any person known or suspected of being affected with any such disease or condition in such an area or capacity, and if the person in charge of any such food establishment suspects that any employee has contracted any disease in a communicable form or has become a carrier of such a disease, he shall notify the Department of Health immediately.

3. When suspicion arises as to the probability of transmission of infection from any food establishment employee, the Department of Health may: require the employee to submit urine or feces or other necessary specimens for laboratory examination or other medical

examination to determine the presence of disease; exclude the employee immediately from all food establishments; close the food establishment until the Department determines that no danger of disease outbreak exists; make such medical examinations of the employee and his associates, including laboratory examinations, as may be deemed necessary under the circumstances.

103-1.5 (a) The Department of Health shall inspect all retail food establishments, food dispensing establishments, mobile food dispensers, automatic food vending machine businesses, wholesale food establishments, mobile food dispenser vehicles and bottled water plants at least once every six months and as often as necessary to determine that the requirements of this Municipal Code are being complied with. The health authority making inspection or a wholesale itinerant food dealer shall file a report in the records of the Department of Health. The Department of Health shall inspect mobile food dispenser vehicles serving ice cream, milk or other frozen desserts at least once every 90 days during the period from April 1 through October 1 of every year.

(b) Whenever the health authority inspects an establishment, he shall record the findings of the inspection on a report form provided by the Department of Health for this purpose. Such reports shall be signed by both the inspector and the establishment's representative, and one copy of the report shall be left with the management of the establishment and shall be posted by the health authority upon an inside wall of the establishment accessible to the public. It shall be unlawful for any person except an authorized agent of the Department of Health to deface or remove any such posted report, and a violation of this provision may result in suspension of any and all licenses.

(c) When the Department of Health finds a violation of any requirements of this Municipal Code relating to health and sanitation, it may make a second inspection after a lapse of whatever time it deems necessary for the correction of the violations; however, whenever an inspection indicates that the conditions in the food establishment create an imminent hazard to the public health, the license may be immediately suspended. If, upon second inspection, it is found that the establishment is in continued violation of this code, the license and permits of the food establishment may be temporarily suspended by the Department of Health. Upon suspension thereof, all operations shall cease at once, and the license and permits shall be removed from the establishment and delivered to the Department of Health. The health authorities shall promptly notify the Chicago Police Department of the suspension, and the Police Department shall enforce the cessation of operations.

(d) 1. After the owner receives a notice of violation from the Department of Health, as evidenced by the inspection report, but before the allotted time has elapsed for compliance, the owner may request a hearing at the offices of the Department of Health to file exceptions to and contest the findings of the inspection report or he may request the Commissioner to extend the time allowed for compliance. In any case, the request must be filed within twenty-four hours of receipt of notice of violation. A hearing to contest the findings of the inspection report shall be conducted by a person other than the person who conducted the inspection or his subordinates.

2. An owner whose request for a hearing has resulted in determination by a hearing officer to sustain the findings of an inspection report or whose request to extend the time for compliance has been denied may, within twenty-four hours of the determination or denial, request a reconsideration, but unless the inspector's findings are overruled by the hearing officer or the time extension granted by the Commissioner, the owner remains under a duty to correct the violations within the time allotted in the notice of violation.

3. A license holder whose license has been suspended may at any time apply for restoration of the license. Within twenty-four hours after the Department of Health receives such application, accompanied by a statement signed by the licensee that the provisions previously violated have been complied with, the Department of Health shall reinspect the establishment to assure that the applicant is complying with the requirements of this code. When the reinspection indicates full compliance, the license shall be restored and the Chicago Police Department so notified.

4. Upon a record of repeated violations of this Municipal Code or the rules and regulations of the Board of Health related to health and sanitation, or repeated suspensions of license, the Commissioner may recommend the revocation of the license to the Mayor's License Commission in accordance with the requirements of Chapter 101 of the Municipal Code.

5. Nothing in this Section 130-1.5 shall preclude bringing court action based on any violations of this code.

Assays of vitamin D milk or milk products and fortified milk and milk products shall be made at least annually in a laboratory acceptable to the [Board] *Department of Health*.

154-19. Milk and milk products from points beyond the limits of inspection of the City of Chicago may not be sold in the City of Chicago unless produced and pasteurized under provisions identical with those of this Chapter and approved by the supervising inspectional agency and listed in the [current publication of] *Sanitation Compliance and Enforcement Ratings of Interstate Milk Shippers, as published and amended from time to time*, with a minimum grade of 90.

154-20. When suspicion arises as to the probability of transmission of infection from any person concerned directly or indirectly with the handling of milk or milk products, the [Board] *Department of Health* is authorized to require any of the following measures, or any additional measures which it may deem necessary[:]

1. The immediate exclusion of that person from milk handling.

2. The immediate exclusion of the milk supply concerned from distribution and use[;].
3. Adequate medical and bacteriological examination of the person, of his associates and of his and their bodily discharges.

Notice shall be sent to the *Department* [Board] of Health immediately by processor and/or distributor of milk or milk products in whose milk plant any case of sickness, of any infections, contagious or communicable disease occurs.

154-22. Sections 760.10--760.1760 of the Retail Food Store Sanitation Rules and Regulations of 1987 and Sections 750.10--750.1700 of the Food Service Sanitation Rules and Regulations of 1987 of the Illinois Department of Public Health, as promulgated and amended from time to time pursuant to Ill. Rev. Stat. ch. 111 1/2, ¶ 22 and ch. 56 1/2, ¶¶ 521 and 2215 (1985), as amended, are expressly adopted as the rules and regulations of the City, except insofar as they may be modified or rejected by regulations promulgated by the Board. The Board shall promulgate such additional rules and regulations as may be necessary for the proper administration and enforcement of this chapter. The Board shall keep on file and available for public examination at least three copies of the current applicable state and City rules and regulations.

SECTION 11. Chapter 173.1 of the Municipal Code of Chicago, "State Street Mall Vendors," is hereby amended in Section 173.1-5(f), 173.1-14 and 173.1-18, by adding the language in italics and deleting the language in brackets, as follows:

* * * * *

173.1-5.

(f) Any such other information as may be required by the Commissioner *or the Department of Health*.

173.1-14. It shall be the duty of every licensee to permit inspections to be made and, when required, to furnish samples of any foods kept or offered for sale by such licensee as often as may be deemed necessary to determine that the foods are free from adulteration, are not misbranded, do not contain an excessive number of micro-organisms or their toxins. The licensee shall answer all reasonable and proper questions and furnish records of the sampled product. Such samples shall be examined or analyzed by or under the direction of the Department of Health, and a record of each such examination or analysis shall be made and kept in its office.

The Department of [Consumer Services] *Health* may, upon written notice to the licensee or employee thereof, place a "Held for Inspection" order on any food which it determines or has probable cause to believe to be unwholesome or otherwise adulterated or misbranded. At the request of the licensee, foods so held for inspection shall be permitted to be suitably stored pending analysis reports or voluntarily denatured and disposed of under Department of [Consumer Services] *Health* supervision. It shall be unlawful for any person

to remove the tag placed by the Department of [Consumer Services] *Health*, nor shall such food containers be removed from the pushcart or destroyed without permission of the Department of [Consumer Services] *Health* except on order of a court of competent jurisdiction. The Department of [Consumer Services] *Health* may vacate the "Held for Inspection" order or may by written order direct the owner or person in charge of the food to denature or destroy such food or to bring it in compliance with the provisions of this Chapter, or dispose of it for non-human use as may be approved by the Department of [Consumer Services] *Health*. Provided, however, that such an order of the Department of [Consumer Services] *Health* to denature or destroy such food shall be stayed, if the order is appealed to a court of competent jurisdiction within three days. Nothing in this section shall preclude any court action based upon the finding of unwholesome or adulterated foods.

173.1-18. Any person violating any of the provisions of this Chapter or the rules and regulations promulgated hereunder shall be fined not less than two hundred dollars (\$200.00) nor more than five hundred dollars (\$500.00). A separate and distinct offense shall be deemed to be committed for each day any person continues to violate any of the provisions of this Chapter or rules and regulations promulgated hereunder. In addition to the fines hereinabove provided for, the Commissioner may revoke the license of any licensee hereunder if such licensee is convicted of two or more violations of this Chapter or of the rules and regulations promulgated hereunder within any twelve month period and may reject an application for license under this Chapter by an applicant who has been so convicted[.], *however, if any violation shall concern section 173.1-13 or 173.1- 14, then it shall be the Commissioner of Health rather than the Commissioner who may revoke any such license or issue citations to the licensee.*

SECTION 12. Chapter 174.1 of the Municipal Code of Chicago, "State Street Mall Cafes," is hereby amended in Section 174.1-9 by adding the language in italics and deleting the language in brackets, as follows:

* * * * *

174.1-9.

The Department of [Consumer Services] *Health* may, upon written notice to the licensee or employee thereof, place a "Held for Inspection" order on any food which it determines or has probable cause to believe to be unwholesome or otherwise adulterated or misbranded. At the request of the licensee, foods so held for inspection shall be permitted to be suitably stored pending analysis reports [of] *or* voluntarily denaturated and disposed of under Department of [Consumer Services] *Health* supervision. It shall be unlawful for any person to remove the tags placed on the food by the Department of [Consumer Services] *Health*, nor shall such food containers be removed or destroyed without permission of the Department of [Consumer Services] *Health* except on order of a court of competent jurisdiction. The Department of [Consumer Services] *Health* may vacate the "Held for Inspection" order or may by written order direct the owner or person in charge of the food to denature or destroy such food or to bring it in compliance with the provisions of this Chapter, or dispose of it for non-human use as may be approved by the Department of

[Consumer Services] *Health*. Provided, however, that such an order of the Department of [Consumer Services] *Health* to denature or destroy such food shall be stayed[,] if the order is appealed to a court of competent jurisdiction within three days. Nothing in this section shall preclude any court action based upon the finding of unwholesomeness or adulterated foods.

To the President and Members of the City Council:

Your Committee on Intergovernmental Relations, having had under consideration a resolution (referred on November 10, 1987) memorializing the Congress of the United States to enact legislation which would require all Employee Stock Ownership Plans to be approved by a majority vote of all employees of a corporation in order to become effective.

WHEREAS, The United States of America is a pluralistic nation compromised of people of different races, different creeds and different national origins and that in these diversities lies the true strength of this nation; and

WHEREAS, Freedom of expression has been guaranteed by the courts of the United States of America to all peoples for political purposes and should not be denied to people for the expression of religious purposes on public lands, as the ideas being expressed, whether political or religious, are the ideas of the people expressing them and not of the government which may be the owner of the place where they are being expressed and therefore they do not constitute a violation of the constitutional guarantee of separation of church and state; now, therefore,

Be It Resolved, That the City Council of the City of Chicago does herewith request that the members of the Illinois delegation of the Congress of the United States do present to the body a resolution expressing the sense of Congress which would allow the use of public lands for the free expression as guaranteed by the First Amendment to the Constitution of the United States of America and which would include the display of religious articles; and
