The following is said ordinance as passed:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Mayor, subject to attestation by the City Clerk, approved by the Commissioner of Aviation and the City Comptroller and by the Corporation Counsel as to form and legality, is authorized to execute on behalf of the City of Chicago a Popcorn Cart Concession License Agreement for certain premises in the Terminal Building I at Chicago O'Hare International Airport, said Agreement to be substantially in the following form:

[Popcorn Cart Concession License Agreement immediately follows Section 2 of this ordinance.]

SECTION 2. This ordinance shall be in force and effect from and after the date of its passage.

Popcorn Cart Concession License Agreement attached to this ordinance reads as follows:

Popcorn Cart License Agreement.

This Agreement made this _____ day of _____, 19____, by and between the City of Chicago, a municipal corporation and home rule unit of government under the Constitution of the State of Illinois by and through its Department of Aviation (hereinafter referred to as "Licensor") and Hixson's Popcorn, an Illinois corporation (hereinafter referred to as "Licensee").

Witnesseth:

Whereas, Licensor owns and operates the airport, containing certain terminal buildings and certain terminal concourses in which retail sales areas are located, known as Chicago O'Hare International Airport, (hereinafter referred to as "Airport"), situated in the City of Chicago, Counties of Cook and Du Page, State of Illinois; and

Whereas, Licensee desires to obtain from Licensor a license to operate a concession with certain privileges and rights in certain Airport terminal buildings; and

Whereas, Licensee represents that it is ready, willing and able to conduct the operation of a concession at the Airport; and

Whereas, the Licensor has determined after careful examination and review of various proposals that the Licensee is best qualified to operate a concession at the Airport and Licensor deems it in the public interest and beneficial to itself and to its operation of the Airport to grant unto the Licensee a license to operate said concession and the rights and privileges as herein set forth;

Now, Therefore, for and in consideration of the premises and the mutual promises contained herein, the parties agree as follows:

Part I -- Special Provisions.

Section 1.

Premises.

A. Premises. Licensor, in consideration of the compensation and the sundry covenants and agreements set forth herein to be kept and performed by Licensee, does hereby grant unto Licensee upon the conditions hereinafter set forth, all of which Licensee accepts, the following space (sometimes referred to herein as the "Concession Operations Space") located on the Airport property to be used for the purpose of operating a popcorn cart concession and for no other purpose:

Space Nos. B-UL-3 and C-UL-3 consisting of one hundred thirty (130) square feet, in Terminal Building I (Exhibit "A");
and the following space (sometimes referred to herein as "Concession Storage Space") to be used as storage areas for said concession and for no other purpose:

Space No. B-1208-D consisting of sixty-seven (67) square feet in Terminal Building 1 (Exhibit "B"); and

all space as indicated on Exhibits "A" and "B" attached hereto and made a part hereof (the Concession Operations Space and the Concession Storage Space are collectively referred to herein as "the Premises"). The concession storage space as indicated above will serve as temporary storage only. Permanent storage space will be assigned at a future date and will be addressed by appropriate amendment hereto.

B. Purpose/Operating Rights. Licensor grants to Licensee a nonexclusive privilege, in common with others that Licensor may from time to time authorize, to operate a concession at the Airport, and for no other purpose whatsoever.

C. Additional Operations. The Commissioner of Aviation of the City of Chicago ("Commissioner") reserves the right to require and may, but shall not be obligated to, require Licensee to operate such additional locations at the Airport that may become available and that the Commissioner may designate during the term of this Agreement on the same terms and conditions set forth herein except the Minimum Guarantee License fees set forth in Section 3 shall be increased proportionately based on the additional space; provided, there is sufficient time to amortize Licensee's investment in capital improvements for such additional locations.

*Section 2.**Term.*

The term of this Agreement shall commence on the earlier of:

- (a) The ninetieth (90th) day after approval of this Agreement by the City Council of the City of Chicago ("Commencement Date"); or
- (b) The date of beneficial occupancy ("Operation Date"), which shall be the first date that the concession is open to the public,

and shall continue thereafter for a period of three (3) years, unless sooner terminated or cancelled as hereinafter provided.

The parties agree that in the event that Licensee is not open to the public for business on the date of commencement of this Agreement, as determined above, it will be impractical and extremely difficult to fix the actual damages to the Licensor. Therefore, the parties agree that, in such event, the sum of Two Hundred Fifty (\$250.00) per day plus minimum rent prorated over the number of days which Licensee fails to open to the public for business shall be paid by Licensee to Licensor as liquidated damages, such sum representing a reasonable approximation of the damages apt to be suffered by the Licensor.

In the event Licensee shall, with the consent of the Licensor, hold over and remain in possession of the Premises after the expiration of the term of this Agreement, such holding over shall not be deemed to operate as a renewal or extension of this Agreement, but shall only create an occupancy from month-to-month on the same terms, conditions, and covenants, including consideration, herein contained.

In the event that air transportation operations are totally discontinued at the Airport, then this Agreement shall terminate, except with respect to the payment of outstanding fees and charges and the performance of other conditions, obligations and liabilities arising prior to said termination.

*Section 3.**License Fee.*

A. Fixed, Percentage, Minimum and Additional Fees to be Paid. Subject to the provisions and covenants contained in Section 2, the term of this Agreement, Licensee agrees to pay Licensor the following fees:

(1) Annual Fixed License Fee. A license fee of Thirty Dollars (\$30.00) per square foot per annum ("Fixed License Fee") for the Premises under Section 1 (A), except for B-UL-3 and C-UL-3 and at the same rate for any additional space granted under this Agreement.

(2) Minimum Guarantee License Fee/Percentage License Fee. The greater amount of:

- (a) An annual minimum percentage license fee (the "Minimum Guarantee License Fee") of Sixty-four Thousand Dollars (\$64,000.00) per annum for the period beginning on the Operations Date and ending three hundred sixty-five (365) days thereafter. During the remainder of the term of this Agreement, the minimum annual percentage fee shall be an amount equal to eighty percent (80%) of the actual amount paid in the previous year as Percentage License Fees, but in no case is the Minimum Guarantee License Fee for a subsequent year to be less than Sixty-four Thousand Dollars (\$64,000.00) or the direct proportion of that amount that the elapsed time bears to a full year in the case that the final portion of this Agreement or any extension of this Agreement, is not a full year.
- (b) Percentage License Fee. A percentage license fee of twenty percent (20%) of the gross receipts per annum derived by Licensee from operations at the Airport. ("Percentage License Fee")

B. Schedule of Payments. Licensee shall pay each month in advance to the City Comptroller of the City of Chicago ("City Comptroller") the sum equal to one-twelfth (1/12) of the Fixed License Fee and one-twelfth (1/12) of the appropriate Minimum Guarantee License Fee. The initial monthly payment of said Minimum Guarantee License Fee shall commence on the Operations Date.

Licensee, within twenty (20) days of the end of each calendar month, shall pay to the City Comptroller a sum equal to the amount the hereinabove described Percentage License Fee for said calendar month which exceeds the amount prepaid as Minimum Guarantee License Fee for that month.

Licensee, within twenty (20) days of the end of each calendar month, shall furnish a separate monthly report certified by an officer of Licensee, of gross receipts at each location at the Airport, to the City Comptroller and the Commissioner. The form of said monthly report will be provided by Licensor to Licensee in advance of the Operations Date.

Additional payments required by adjustments, if any, for fees payable in excess of amount paid as required above shall be made concurrent with the submission of the annual "Statement of Sales and Fees" required by paragraph F of this Section 3. The Minimum Guarantee License Fee is intended to be and is an annual fee and not a monthly license fee.

C. Pro Rata Payment. Except as otherwise specifically provided herein, if the commencement or termination of this Agreement falls upon any date other than the first or last day of any calendar month, the applicable fees and charges for said month shall be paid by Licensee to Licensor pro rata in the same proportion that the number of days the Agreement is in effect for that month bears to the total number of days in that month.

D. Interest for Late Payment. Without waiving any other right of action available to Licensor in the event of delinquency by Licensee for a period of ten (10) days or more in its payment to Licensor of the above fees and charges, and without waiving the interest specified herein upon acceptance of said payment, Licensee shall pay to Licensor interest thereon at the rate of eighteen percent (18%) per annum from the date such item was due and payable until paid. Such interest shall not accrue with respect to disputed items being contested in good faith by Licensee until such dispute is settled and no interest shall be paid if Licensee prevails in such dispute.

E. Records of Licensee. Licensee shall, with respect to business done by it in said concession operation, keep true and accurate accounts, records, books and data, which shall, among other things, show all sales made and services performed for cash, or credit, or otherwise (without regard to whether paid or not) and, also, the gross receipts of said business, and the aggregate amount of all sales and services and orders, and of all the Licensee's business done upon and within said concession area. All records, methods of accounting and cash registers used by Licensee shall be approved by the City Comptroller. The term "gross receipts" as used herein, shall be construed to mean, for all the purposes hereof, the aggregate amount of all sales made and services performed for cash, credit, or otherwise, of every kind, name and nature, regardless of when or whether paid for or not, together with the aggregate amount of all exchanges of goods, wares, merchandise and services for like property, or services, at the selling price thereof, as if the same had been sold for cash or the fair and reasonable value thereof, whichever is greater. Licensee agrees to maintain an adequate and reasonable system of internal control to insure that sales are properly reported to the Licensor. The internal controls should include features normally employed by well managed retailers. The internal control procedure must be described by Licensee in writing and submitted to the City Comptroller prior to the effective date of this Agreement. Any changes to the internal controls must be reported to the City Comptroller and the Commissioner in writing thirty (30) days prior to the effective date of change. The City Comptroller has the authority to require additional internal controls or procedures as he deems appropriate.

The term "gross receipts" shall exclude: (1) federal, state, municipal or other governmental excise taxes (except federal manufacturer's excise taxes), use, sales privilege or retailer's occupation taxes now or hereafter imposed and collected by Licensee or its sublicensees directly from patrons or customers, or as a part of the price of any goods, wares, merchandise, services or displays and paid over in turn by the party so collecting to any governmental agency; but this provision shall not excuse Licensee or its sublicensee from paying to governmental agencies all taxes for which it may be liable to them; (2) sales made to employees at a discount to the extent of the discount; (3) refunds for merchandise returned by customers because of their dissatisfaction therewith.

F. Books, Records and Audits. Licensee shall maintain at its office in Chicago or make available in Chicago if requested: its books, ledgers, journals, accounts and records wherein are kept all entries reflecting its operations at the Airport under this Agreement. Such books, ledgers, journals, accounts and records shall be available for inspection and examination by the Commissioner and the City Comptroller or their duly authorized representatives, at reasonable times during business hours, and such representatives of Licensor shall be permitted to make copies and excerpts therefrom as may be necessary to make a full, proper and complete audit of all business transacted by Licensee in connection

with its operation hereunder. Alternatively Licensee may at its option, provide transportation expenses for a representative of Licensors to examine Licensee's books and records at a location other than in the City of Chicago.

Within one hundred twenty (120) days of the signing of this Agreement, Licensee shall furnish Licensors with a written statement indicating Licensee's election to report either on a calendar year or on a fiscal year basis; such letter shall explain Licensee's fiscal year if elected. Within one hundred twenty (120) days after the close of each calendar or fiscal year, as previously elected, or the termination of the Agreement through passage of time or otherwise, Licensee will provide Licensors with a "Statement of Sales and Fees" representing sales and fees by month for the period being reported on, together with an opinion thereon of an independent certified public accountant. Licensee must inform Licensors of the identity of the independent certified public accountant prior to the close of such calendar or fiscal year and such independent certified public accountant must be acceptable to Licensors.

The following is an example of an opinion which would satisfy these requirements:

"We, a firm of independent certified public accountants, have examined the accompanying statement of sales and rents reported to the City of Chicago by _____ an _____ Corporation, for the year ended _____ relating to the _____ concession operations at Chicago O'Hare International Airport pursuant to an Agreement between the City of Chicago and _____ dated _____. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we consider necessary in the circumstances.

In our opinion, the accompanying statement of sales and fees showing gross sales of _____ and total fees of _____ presents accurately and fairly the amount of gross sales and fees, as defined in the Agreement, for the year ended _____."

If the opinion of the independent certified public accountant is inadequate, qualified or conditional in any manner, the City Comptroller has the right to cause an audit to be performed at Licensee's expense.

Licensee shall, upon request, furnish such other further financial or statistical reports as Licensors may, from time to time, require.

Section 4.

General Description Of The Concession.

A. Merchandise. Licensee shall have the right to operate a popcorn cart concession at the Airport and in connection therewith shall have the right to and shall sell items subject to the limitations set forth below. Licensee shall engage in no other business activity on

the Airport or Premises and shall not sell items other than those enumerated below on the basis indicated without written authorization of the Commissioner.

Licensee shall be permitted to sell and shall sell on a non-exclusive basis those items set forth in Exhibit "C" attached hereto.

Except with the prior written approval of the Commissioner, Licensee shall not install or operate any coin-activated vending machines or devices of any nature, kind or type. Licensee also shall not place or install any racks, stands or display of merchandise or trade fixtures directly on the boundaries or outside the boundaries of the licensed Premises without the prior consent of the Commissioner.

B. Conflicts between Concessions. In the event of a conflict between Licensee's concession and any other licensee at the Airport as to the items and merchandise to be sold by the respective Licensee and concessionaires, Licensee agrees that the Commissioner shall make the final decision as to which items of merchandise may be sold by this Licensee and agrees to be bound by such decision of the Commissioner.

C. Operation of Premises. Licensee understands and agrees as a material condition of this Agreement that it shall use its best efforts to display and sell merchandise representative of Chicago and the Chicagoland area. The intent of this clause is not to encourage the retailing of only souvenir items, but many other items representative of the geographical area surrounding the Airport. Licensee understands that it is the Licensor's intent that concession operations at the Airport should reflect this geographical diversity in both their displays and offerings.

Not less than eighty-five percent (85%) of the Premises shall be used at all times through the term of this Agreement as public area for the display and sale of retail merchandise. Licensor agrees that the intent of this provision is to insure a minimum amount of retail sales area and not to preclude Licensee from utilizing all of the Premises as retail sales area.

Licensee understands and agrees that its operation under this Agreement is a service to airline passengers and the users of the Airport, and that Licensee shall conduct its operation in a first-class, businesslike, efficient, courteous, and accommodating manner. The Commissioner shall have the right to make reasonable objections to the quality of articles sold, the character of the appearance and condition of the Premises. Licensee agrees to promptly discontinue or remedy any such objectionable practice. Failure to comply with the foregoing shall constitute a material breach of this Agreement.

Licensee understands and agrees that its operation at the Airport necessitates the rendering of the following public services: making reasonable change, giving directions and assisting the public generally.

Licensee shall conduct a businesslike operation on the Premises and carry in stock on the Premises sufficient merchandise to stock the same fully. All merchandise must be top quality, new and fresh. Section 5.

Investment By Licensor And Licensee.

A. Renovation. Licensee agrees, as a necessary condition of this Agreement, to completely construct, furnish and equip the concession operations areas designated on Exhibit "A". The remodeling or construction of concession operations areas is to begin within thirty (30) days after the Commencement Date and shall be completed sixty (60) days after the Commencement Date. Failure to complete construction said sixty (60) day period may, in the discretion of the Commissioner, result in termination of this Agreement.

All such improvements, decor and equipment as are applicable to the areas designated on Exhibit(s) "A" as are specified hereinafter as the responsibility of Licensee shall be furnished, supplied, installed and/or constructed by Licensee at its sole cost and expense and Licensee agrees and guarantees to make capital investments for said purposes, exclusive of any capital improvements made by Licensor, in the minimum amount of Forty-seven Thousand Six Hundred Dollars (\$47,600) for equipment.

Upon completion of construction, Licensee shall provide Licensor a statement certified by its architect, setting forth the total construction costs, the appropriate detail showing the costs of elements of decoration, furnishings, fixtures and equipment. Licensee shall make available to Licensor at Licensor's request, receipted invoices for labor and materials covering all construction and trade fixtures, including furniture, fixtures and equipment. The minimum investment may not include financial costs, interest, inventory, pre-opening expenses or intra-company charges related to construction (except architectural and engineering charges which shall not exceed 15% of total construction costs). If the said investment cost is in excess of ten percent (10%) less than the minimum required, the difference will be paid to Licensor within sixty (60) days after completion of construction. If the Licensor disputes the amount of investment claimed by Licensee, the Licensor may, at its expense, hire an independent appraiser to determine the cost of the investment. If the independent appraiser determines that the investment is less than the minimum required, the difference, as well as Licensor's cost of hiring such independent appraiser, will be paid to Licensor by Licensee within sixty (60) days of the appraiser's determination.

B. Installations by Licensor and by Licensee. In the concession operations space designated on Exhibit(s) "A" attached hereto, Licensor will provide the following improvements:

Concealed sprinkler heads and sidewall type sprinkler heads shall be provided as required.

In these same spaces Licensee will provide:

All equipment, furniture, furnishings and fixtures necessary in the proper conduct of Licensee's business.

C. Improvements, Equipment and Decor Installation by Licensees at the Airport:

(1) Licensee agrees that all improvements, equipment and decor installed shall be designed to make the concession areas more attractive and provide better service to the public. All such items shall employ optimum essentials of aesthetics, convenience, function and design and shall be compatible in such respects with those of the Airport and shall be not less than or equal to other quality stores at other Airports. All work shall be done in a good and workmanlike manner with materials of the highest quality.

(2) Complete plans and specifications, including the choice and types of all materials to be used in the work, and changes thereto, for all such structures and improvements shall be subject to the advance approval in writing of the Commissioner, and shall meet all local building codes and ordinances.

(3) During the period of construction, all construction work, workmanship, materials and installation involved or incidental to the construction of the Concession shall be subject at all times to inspection by Licensor. Licensee shall give or cause to be given to the Commissioner and Commissioner of Public Works advance notice before starting any new work, and shall provide and cause the contractors and subcontractors to provide reasonable and necessary facilities for inspection. Licensee shall cause all construction work, workmanship, materials and installation to be in full compliance with plans and specifications and shall maintain all necessary and adequate insurance coverages as may be reasonably determined by Licensor.

- (4) Licensee shall at all times throughout the term hereof maintain the improvements and all other portions of the Premises in good and serviceable condition and repair except structural maintenance, which shall be the responsibility of Licensor pursuant to Section 9 of this Agreement.
- (5) Licensee shall keep the Premises and the improvements and facilities constructed thereon free and clear of any and all mechanics' and materialmen's liens. Licensee may in good faith contest the validity of any lien, provided that it supplies Licensor with such bond or other security Licensor deems acceptable.
- (6) In the event that all or part of the Premises are reasonably required for Airport purposes that are neither capricious nor arbitrary prior to the expiration of this Agreement, the Commissioner may upon sixty (60) days advance written notice to Licensee, direct Licensee to vacate the same provided that Licensor, within sixty (60) days after Licensee's removal therefrom, will pay to Licensee the unamortized portion of the cost of any permanent structures and improvements constructed and installed upon the Premises required to be vacated; such amortization to be computed on a straight-line basis over the period from the completion of said improvements to the expiration date hereof. Licensor will use its best efforts to provide comparable substitute space. In this event, Licensor shall adjust proportionately the Fixed License Fee and the Minimum Guarantee License Fee specified in Section 3 (A) in amounts proportional to reflect the increased or decreased square footage. Licensee shall have the right to accept or reject any substitute areas proposed by Licensor.

D. Concession Area Layout and Decoration. Licensee shall be entitled to lay out the space as it desires subject to written approval of the Commissioner in advance of any installation, which approval shall not be unreasonably withheld.

E. Alterations, Additions or Replacements. Following the installation as hereinabove set forth, Licensee shall construct no improvements or make no alterations, additions or replacements without obtaining the Commissioner's written approval in advance thereof. Licensee shall deliver to the Commissioner detailed plans and specifications for all the work. Not in limitation of the foregoing, Licensee shall obtain prior approval from the Commissioner and the Commissioner of Public Works before installing, at its own expense, any equipment which requires new electrical or plumbing connections or changes in those installed on the Premises as of the effective date of this Agreement.

Section 6.

Notice shall be deemed given on the date such notice is deposited in the United States mails.

A. Hours of Operation. The concession at the Airport shall remain open to serve the public at least eleven (11) hours a day for three hundred fifty (350) days per year, provided, however, that if the Commissioner deems it necessary, Licensee agrees to remain open for longer periods as directed in writing by said Commissioner.

B. Personnel. Licensee's employees shall be clean, courteous, efficient and neat in appearance. Licensee's employees while on duty shall be identified as such by uniform. Licensee shall not employ any person or persons in or about the Premises who shall use improper language or act in a loud or boisterous or otherwise improper manner. Licensee agrees to dispense with the services of any employee whose conduct the Commissioner deems to be in violation of local, state or federal laws or who does not perform in accordance with the requirements of this paragraph.

C. Laws, Ordinances, etc. Licensee shall observe and obey all the laws, ordinances, regulations, and rules of the federal, state, county and municipal governments which may be applicable to its operations at the Airport.

D. Trash, Garbage, etc. Licensee at its own cost and expense shall provide a complete and proper arrangement for the adequate sanitary handling and disposal of all trash, garbage and other refuse caused as a result of the operation of its business. Licensee shall provide and use suitable covered metal receptacles for all garbage, trash and other refuse

on or in connection with the Premises. Piling of boxes, cartons, barrels, or other similar items, in an unsightly or unsafe manner, on or about the Premises, is forbidden. Such trash, garbage, and other refuse shall be disposed of between the hours of 12:00 midnight and 8:00 A.M. each day in a place to be designated by the Commissioner with access to be provided by Licensors.

E. Operation Costs. Licensee shall bear at its own expense all costs of operating the concession, and shall pay in addition to the license fees all other costs connected with the use of the Premises and facilities, rights and privileges granted, including, but not limited to all maintenance, insurance, taxes, janitor service and supplies, permits and license costs.

F. Signs and Advertising. Licensee may, at its own expense, install and operate necessary and appropriate identification signs at the Airport for its purpose subject to the prior approval of the Commissioner as to the number, size, height, location and general type and design. Such approval shall be subject to revocation by the Commissioner at any time.

Without express written consent of the Commissioner, Licensee shall not display any advertising, promotional or informational pamphlets, circulars, brochures or similar materials.

G. Public Address System. Licensee shall permit the installation in the Premises of a system for flight announcements and other information broadcast over that system, if in the opinion of the Commissioner, such installation is necessary.

H. Maintenance. Licensee shall at its own expense maintain the Premises, all of its leasehold improvements and trade fixtures, enclosure walls and doors in good order and repair, keeping the same clean, safe, functioning and sanitary. Licensee shall keep clean the interior and exterior of all glass enclosures. Licensee shall provide at its own expense janitorial service to the Premises in order to comply with the foregoing. Licensee agrees to maintain and to repair at its own expense any damages caused by its operation and to replace any facility of Licensors used by Licensee which requires replacement by reason of Licensee's use thereof, reasonable wear and tear excepted, with a facility of equal quality.

Section 9.

Services To Be Performed By Licensors.

Licensors will maintain the structure, the roof and exterior walls of the Terminal Building.

Licensors will not furnish janitorial service, interior or exterior window cleaning, guarding or custodial services, and will furnish no janitorial material or supplies for the Premises.

*Section 10.**Quality And Price Control.*

A. Merchandise. Licensee's initial schedule of merchandise items to be offered for sale from the Premises, and the prices to be charged therefor, shall be delivered to Licensor prior to commencement of this Agreement. Licensee shall offer for sale only goods of premium quality. For such goods, Licensee shall charge fair and reasonable prices. When an item has a suggested retail price premarked and established by the manufacturer or distributor, Licensee shall not charge the public a price higher than such suggested retail premarked price. When an item has no suggested retail price or premarked price, the item shall be sold at a price not higher than the average price charged for the same or substantially similar items at two similar high quality retail establishments in the Chicago area selected solely by the Commissioner. Licensee's initial schedule of merchandise items to be offered for sale from the Premises, and the prices to be charged therefor, shall be delivered to Licensor prior to commencement of this Agreement. Thereafter, prices may be decreased or increased as mutually agreed by Licensee and Licensor. In the event that Licensee adds merchandise items Licensee shall submit to Licensor not less than annually a schedule of such new merchandise items it proposes to be offered for sale on the Premises and the prices to be charged therefore. Thereafter, subject to the Commissioner's approval as to the sale of such new merchandise, prices for such new items may be decreased or increased in the same manner as aforesaid. If in the opinion of the Commissioner, the selection of items offered is inadequate, if the merchandise is not of high quality, if any of said prices, charges and rates are excessive or if any of said items is found to be objectionable for display and/or sale in a public facility, the Commissioner shall meet and confer with Licensee regarding such matters but Licensee acknowledges that Licensor's determination as to same shall be conclusive. Failure on the part of Licensee to correct, rectify or modify its prices and quality within thirty (30) days of being advised in writing by the Commissioner shall be cause for default by Licensor, under the provisions of Section 24.

B. Inspection and Review. Licensor may inspect Licensee's operations, including the quality and price of merchandise, the quality of service, and the maintenance of the Premises, at such reasonable times as Licensor shall deem necessary. Licensee shall cooperate in such inspections and provide any documentation reasonably required by Licensor.

*Section 11.**Interruptions, Reduction And Cancellation Of Operations.*

In the event of an interruption or reduction in concession services beyond the control of Licensee, including but not limited to acts of God, accidents, weather and conditions

arising therefrom, strikes, boycotts, lockouts, bankruptcy and discontinuation of airline service except as provided below, riot, fire, earthquakes, flood, storm, lightning, epidemic, insurrection, rebellion, revolutions, civil war, hostilities, war, the declaration or existence of the national emergency and condition arising therefrom, and such interruption or reduction of services results in reduction in passenger levels by fifteen percent (15%) per terminal building in which a concession operations area is located based upon the previous three (3) months' average, Licensor agrees that the obligation of Licensee for payment of the Minimum Guarantee License Fee shall be reduced proportionately after a thirty (30) day period and such reduction shall continue until such time as the passenger levels obtain a level equal to eighty-five percent (85%) of the average passenger level for said three (3) month period preceding the suspension. The Percentage License Fee and the Fixed License Fee shall not be affected. The above provision shall not apply to any reduction in passenger levels in Terminal II attributable to the withdrawal of United Airlines from Terminal II and Licensee agrees that there will be no reduction in license fees as a result of this withdrawal.

This Agreement shall be subject to cancellation by Licensee after thirty (30) days advance notice to Licensor, upon the occurrence of any one or more of the following events:

- (1) The permanent abandonment of the Airport by Licensor.
- (2) The lawful assumption by the United States Government, or any authorized agency thereof, of the operation, control or use of the Airport, or any substantial part or parts thereof, in such a manner as substantially to restrict Licensee for a period of at least ninety (90) days from operating thereon.
- (3) Issuance by any court of competent jurisdiction of any injunction in any way preventing or restraining the use of the entire Airport, and the remaining in force of such injunction for a period of at least ninety (90) days.

Section 12.

Property Rights Upon Termination.

Title to all decorative work, improvements, finishings and equipment of such a nature as cannot be removed without substantial damage to the Terminal Building shall vest in Licensor at the expiration or earlier termination of this Agreement. All other equipment of such nature as to constitute trade fixtures shall remain the property of Licensee. At the date of expiration or earlier termination of this Agreement, Licensee may remove said trade fixtures or the Commissioner may require that Licensee remove same. Prior to the commencement of operation a list of such trade fixtures as mutually agreed upon shall be submitted in writing to Licensor by Licensee; said list may be subsequently amended during the term of this Agreement to reflect any changes in said trade fixtures.

Licensee shall make no substantial change, addition, or alteration in the Premises without prior written approval of Licensor.

Licensee may remove improvements, at its own expense, only with the prior written approval of the Commissioner, during the term of this Agreement. No such removal will be allowed in the event that Licensee is in default of any terms, covenants or conditions of this Agreement.

Licensee shall have no right to alter or remove improvements if such alteration or removal would cause substantial damage to Airport Premises. In this event, Licensors may allow Licensee to make such removal or alteration on condition that Licensee completely repair any resulting damage at Licensee's own expense. Licensors may also agree to make the repairs on condition that Licensee reimburse Licensors for the total cost of such repairs.

Upon the termination of this Agreement, through passage of time or otherwise, it is mutually agreed that Licensee shall have no further claim, right, title or interest in or to any of the improvements installed by it under this Agreement, including but not limited to the enclosure walls and doors, subject to Licensors' right to require removal of any portion of said improvements and to restore the Premises wherein same were installed, or the affected portion thereof, to its original condition, reasonable wear and tear excepted.

Section 13.

Damage Or Destruction Of Premises.

A. Partial Destruction of Premises. In the event improvements on the Premises are partially damaged by any casualty covered under an insurance policy required to be maintained pursuant to this Agreement, then Licensee shall repair such damage as soon as reasonably possible and this Agreement shall continue in full force and effect. In the event improvements on the Premises are damaged by any casualty not covered under an insurance policy required to be maintained pursuant to this Agreement, then Licensors may, at Licensors' option, either (a) repair such damage as soon as reasonably possible at Licensors' expense, in which event this Agreement shall continue in full force and effect, or (b) give written notice to Licensee within thirty (30) days after the date of occurrence of such damage of Licensors' intention to cancel and terminate this Agreement with respect to the affected area as of the date of the occurrence of the damage; provided, however, that if such damage is caused by an act or omission to act of Licensee, its agent, servants or employees, then Licensee shall repair such damage, promptly at its sole cost and expense. In the event, Licensors elects to terminate this Agreement pursuant hereto, Licensee shall have the right within ten (10) days after receipt of the required notice to notify Licensors in writing of Licensee's intention to repair such damage at Licensee's expense, without reimbursement from Licensors, in which event this Agreement shall continue in full force and effect and Licensee shall proceed to make such repairs as soon as reasonably possible. If Licensee does not give such notice within the ten (10) day period, this Agreement shall be cancelled and terminated as of the date of the occurrence of such damage. Licensors shall not be required to make reparation for any injury or damage by fire or other cause, or to make any restoration or replacement of any panelings, decorations, office and trade fixtures, partitions, railings, ceilings, floor covering, equipment, machinery or fixtures or

any other improvements or property installed in the affected premises by Licensee or at the direct or indirect expense of Licensee. Licensee shall be required to restore or replace same in the event of damage.

B. Total Destruction of Premises. If the improvements in any single concession area or the entire Premises are totally destroyed during the term of this Agreement by any cause whether or not covered by the insurance required herein (including any destruction required by any authorized public authority), this Agreement shall automatically terminate with respect to said Premises as of the date of such total destruction.

C. Partial Destruction of Terminal Building. If fifty percent (50%) or more of a terminal building in which is located a concession operations area shall be damaged or destroyed by an insured risk, or if fifteen percent (15%) or more of the terminal building in which is located a concession operations area shall be damaged or destroyed by an uninsured risk, notwithstanding that the concession operations area is unaffected thereby, and if as a result of such damage or destruction flight operations with respect to said terminal building are terminated or substantially curtailed, Licensor and Licensee may agree to cancel and terminate this Agreement within ninety (90) days from the date of occurrence of such damage or destruction in which event the term of this Agreement shall expire on the mutually agreed upon date and Licensee shall thereupon surrender the affected concessions operations to Licensor.

D. Abatement of Rent; Licensee's Remedies. If the Premises are partially destroyed or damaged and Licensor or Licensee repairs them pursuant to this Agreement, the Fixed License Fee and Minimum Guarantee License Fee payable hereunder for the period during which such damage and repairs continued shall be abated in proportion to the extent to which Licensee's use of the Premises is impaired. Except for abatement of fees (if any), Licensee shall have no claim against Licensor for any damage suffered by reason of any such damage, destruction, repair or restoration. If Licensor shall be obligated to repair or restore the Premises under this section and shall not commence such repair or restoration within forty-five (45) days after such obligation shall accrue, Licensee at Licensee's option, may cancel and terminate this Agreement by written notice to Licensor at any time prior to the commencement of such repair or restoration. In such event, this Agreement shall terminate as of the date of such notice.

Section 14.

- (2) That such policies are primary insurance to any other insurance available to the additional insureds, with respect to any claims arising out of this Agreement, and that insurance applies separately to each insured against whom claim is made or suit is brought.

All Policies Shall Be Endorsed To Provide:

Licensee agrees that the terms of these insurance requirements may be increased and revised upon the written demand of Licensor, which demand must be based on reasonable and justifiable grounds.

All insurance coverage shall be with a company or companies approved by the City Comptroller.

Section 15.

"First Source" Agreement.

A. Licensee agrees to use the City's Mayor's Office of Employment and Training (hereinafter "M.E.T.") as its "First Source" for the recruitment, referral and placement of employees in all "covered positions" required for the operation of any and all business under this Agreement.

For the purposes of this Agreement, "covered positions" include all entry level job openings, new job openings, openings created by an expansion of the work force at the Airport, job vacancies created as a result of internal promotions or terminations, and job vacancies created where applicable at Licensee's other Chicago operations as a result of transfers of employees to the Airport work force, but shall exclude all managerial and administrative positions.

B. No later than thirty (30) days after the Commencement Date of this Agreement, but at least fourteen (14) days prior to the Licensee's opening of the concession areas for business, Licensee will submit to M.E.T. a First Source Prospect Notification outlining all staffing and employment needs for its operations under this Agreement.

C. At least twenty (20) days prior to the anticipated hiring date(s), Licensee will notify M.E.T. of its need for new employees in covered positions by completing a "Job Order Form".

M.E.T. will refer eligible job applicants to Licensee in response to the notification of need. M.E.T. will screen applicants according to the qualification profile agreed upon with Licensee, and will refer only qualified applicants who meet that qualification profile. M.E.T. will make all referrals to Licensee or notify Licensee that no referrals can be made, no later than twelve (12) working days prior to the anticipated hiring date. In the event M.E.T. cannot refer the total number of qualified personnel requested, Licensee will be free to directly fill remaining positions for which no qualified applications have been referred; in that event, Licensee agrees to make a good faith effort to hire unemployed Chicago residents.

D. Licensee shall make all decisions on hiring employees, including referred applicants. However, Licensee shall make a diligent and good faith effort to hire from referrals made by M.E.T., and shall not discriminate on the basis of race, creed, color, religion, age, sex or national origin. In the event Licensee rejects or does not hire a referred applicant, Licensee must indicate in writing the reasons for not hiring said applicant.

E. Licensee shall submit quarterly hiring summaries to M.E.T. and the Commissioner detailing all personnel actions (hiring, termination, transfers, promotions, separations, etc.) and First Source involvement therein. M.E.T. will track job retention of applicants employed by Licensee under this Agreement for one hundred twenty (120) days after hiring. Licensee agrees to cooperate fully in M.E.T.'s monitoring efforts.

F. If, at any time during this Agreement, the Director of M.E.T., or designee, determines that Licensee has failed to use its best faith efforts to comply with the First Source requirement of this Agreement, the Director of M.E.T., or designee, shall notify in writing ("Noncompliance Determination Notice") Licensee of the basis for the determination and request Licensee's response to said Noncompliance Determination Notice. The Noncompliance Determination Notice shall specifically state each violation. Licensee shall specifically respond in writing to Licensor within ten (10) days after the date of the Noncompliance Determination Notice and show cause why such determination should not be sustained. The Director of M.E.T. shall review Licensor's response and shall make a determination on whether the Noncompliance Determination shall be sustained, in whole or part, and in the event of noncompliance may assess against Licensee liquidated damages in an amount of dollars not to exceed \$1,000.00 per violation or order such remedial action as said Director may deem appropriate. In the event Licensee disputes the Director's determination of Licensee's failure to use its best efforts to comply with the First Source requirements of this Agreement, Licensee may within ten (10) days after the date of such notice of noncompliance request that the matter be referred to a review panel for final determination. Failure to request a review of the Director's determination within the time specified herein shall be deemed an acceptance of Director's determination and a waiver of Licensee's rights to contest such determination by administrative, judicial or other appeal. Upon Licensee's timely request, a three person review panel will be organized and shall be comprised of one representative selected by Licensee, one representative selected by Director of M.E.T., and a third representative who shall be mutually acceptable to the arbitrators selected by Licensee and the Director of M.E.T. This review panel shall determine only the issue in each instance of whether or not the Licensee has failed to proceed in good faith in its rejection or refusal to employ a referred applicant. The determination of the review panel shall be the final determination and shall not be subject to administrative, judicial or other appeal. All costs of review shall be shared equally by Licensor and Licensee.

Section 16.

Indemnity.

Licensee does hereby covenant and agree to indemnify, save and hold harmless and forever defend Licensor from all fines, suits, claims, demands and actions of any kind and nature, including antitrust claims, by reason of any and all of its operations hereunder and does hereby agree to assume all the risk in the operation of its business hereunder and shall be solely responsible and answerable in damages for any and all accidents or injuries to persons or property.

*Section 17.**Inspections.*

Licensee shall allow Licensor's authorized representative access to the Premises at all reasonable hours, for the purpose of examining and inspecting said premises, for purposes necessary, incidental to or connected with the performance of its obligation hereunder, or in the exercise of its governmental functions.

*Section 18.**Ingress And Egress.*

Subject to regulations governing the use of the Airport, Licensee, his agents and servants, patrons and invitees, and his suppliers of services and materials shall have the right of ingress to and egress from the Premises granted to Licensee; provided, however, that the suppliers of services and materials, or stock shall do so in such reasonable manner and at such times as not to interfere with normal airport operations.

*Section 19.**Assignment And Subletting.*

Licensee shall not assign, transfer, sublease, pledge, surrender (including transfers by operation of law) or otherwise encumber or dispose of this Agreement or any rights or privileges created hereby, or any interest in any portion of the same, or permit any other person or persons, company or corporation to occupy the Premises, without the written consent of the Commissioner being first obtained, which consent shall not be unreasonably withheld or delayed.

Any substantial change in ownership or proprietorship of Licensee, which has not received the prior written approval of the Commissioner and which in the opinion of the Commissioner is not in the best interest of the Licensor or the public, shall be subject to the remedies available in Section 23 hereof.

*Section 20.**Signs.*

Licensee shall not erect, install, operate nor cause or permit to be erected, installed or operated in or upon the Premises herein, the terminal buildings, or the Airport, any signs or other similar advertising device without first having obtained the Commissioner's written consent thereto, which consent shall not be unreasonably withheld or delayed.

*Section 21.**Redelivery.*

Licensee will make no unlawful or offensive use of said Premises and will at the expiration of the term hereof or upon any sooner termination thereof without notice, quit and deliver up said Premises to Licensor and those having its estate in the Premises, peaceably, quietly and in a good order and condition, reasonable use and wear excepted, as the same now are or may hereafter be placed by Licensee or Licensor.

Section 22.

A. This Agreement is subject to the provisions of Article XVI of that certain Agreement entitled "Amended and Restated Airport Use Agreement and Terminal Facilities Lease" and the further provisions, including the right of cancellation of Section 6.04, Article VI of that certain Agreement entitled "Lease of Terminal Facilities" and to such other provisions of said related Agreements as may be pertinent as entered into between the Licensor and scheduled airlines governing use and operation of the Airport.

B. Licensee, in performing under this Agreement, shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, creed, color, religion, age, sex or national origin, nor otherwise commit an unfair employment practice. Licensee will take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, creed, color, religion, age, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Licensee agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the

provisions of this nondiscrimination clause. Licensee further agrees that this clause will be incorporated in all contracts entered into with suppliers of materials or services, contractors and subcontractors and all labor organizations furnishing skilled, unskilled and craft union skilled labor, who may perform any such labor or services in connection with this Agreement.

To demonstrate compliance, Licensee and his contractors and subcontractors will furnish such reports and information as requested by the Chicago Commission on Human Relations or the Department of Aviation.

C. Nondiscrimination in the Use of the Premises by Licensee. This Agreement involves the construction or use of, or access to, space on, over, or under real property acquired, or improved under the Airport Development Aid Program and the Federal Aviation Administration, and therefore involves activity which services the public.

Licensee, for himself, his personal representatives, successors in interest, heirs and assigns, as part of the consideration hereof, does hereby covenant and agree, that (1) no persons shall be excluded on the grounds of race, color, or national origin from participation in, denied benefits of, or otherwise subjected to discrimination in the use of said facilities; (2) that in the construction of any improvement on, over, or under such land and the furnishing of services thereon, no person shall be excluded on the grounds of race, color, or national origin from participation in, denied benefits of, or otherwise subjected to discrimination; and (3) that Licensee shall use the Premises in compliance with all other requirements imposed by, or pursuant to, the Department of Transportation regulations which may be applicable to Licensee.

In the event of the breach of any of the above nondiscrimination covenants, the Licensor shall have the right to terminate this Agreement and to re-enter and repossess said land and the facilities thereon, and hold the same as if said Agreement had never been made or issued.

*Section 23.**Non-Waiver.*

Any waiver or any breach of covenants herein contained to be kept and performed by Licensee shall not be deemed or considered as a continuing waiver and shall not operate to bar or prevent Licensor from declaring a forfeiture for any succeeding breach either of the same conditions or covenants or otherwise.

*Section 24.**Default.*

- A. Event of Default. Licensee shall be in default under this Agreement if:
1. Licensee shall fail duly and punctually to pay any and all fees due hereunder, or to make any other payment required hereunder, when due to Licensor; or
 2. Licensee shall become insolvent, or shall take the benefit of any present or future insolvency statute, or shall make a general assignment for the benefit of creditors, or file a voluntary petition in bankruptcy, or a petition or answer seeking an arrangement for its reorganization, or the readjustment of its indebtedness under the federal bankruptcy laws, or under any other law or statute of the United States or of any state thereof, or consent to the appointment of a receiver, trustee or liquidator of any or substantially all of its property; or
 3. A petition under any part of the federal bankruptcy laws, or an action under any present or future insolvency law or statute, shall be filed against Licensee and shall not be dismissed within sixty (60) days after the filing thereof; or
 4. By order or decree of a court, Licensee shall be adjudged bankrupt or an order shall be made approving a petition filed by any of the creditors or, if Licensee is a corporation, by any of the stockholders of Licensee seeking its reorganization or the readjustment of its indebtedness under the federal bankruptcy laws or under any law or statute of the United States or of any state thereof; or
 5. By or pursuant to, or under authority of, any legislative act, resolution or rule, or any order or decree of any court or governmental board, agency or officer having jurisdiction, a receiver, trustee or liquidator shall take possession or control of all or substantially all of the property of Licensee, and such possession or control shall continue in effect for a period of fifteen (15) days; or

6. The interest of Licensee under this Agreement shall be transferred, without the approval of Licensor, by reason of death, operation of law, assignment, sublease, or otherwise, to any other person, firm or corporation; or
7. Licensee shall voluntarily abandon, desert or vacate any part of the Premises or discontinue its operations thereat; or
8. Any lien shall be filed against the Premises or Licensee's interest hereunder because of any act or omission to act of Licensee, and shall not be discharged by Licensee or contested in good faith by proper legal proceedings commenced within thirty (30) days after receipt of notice thereof by Licensee; or
9. Licensee shall fail to keep, perform and observe each and every promise, covenant and agreement set forth in this Agreement and such failure shall continue for a period of more than thirty (30) days after delivery by Licensor of a written notice of such breach or default, except where fulfillment of its obligation requires activity over a period of time and Licensee has commenced in good faith to perform whatever may be required for fulfillment within thirty (30) days after receipt of notice and continues such performance without interruption except for causes beyond its control; or
10. Licensee shall use or give its permission to any person to use any portion of Airport, terminal buildings or Premises used by Licensee under this Agreement for any illegal purpose; or
11. Licensee shall be in default under any other agreement with Licensor.

B. Licensor's Remedies. If a default under this Agreement shall occur, Licensor may elect to:

1. Terminate this Agreement without prejudice to any other remedy or right of action for arrearages of license fees under Article III; or
2. Allow this Agreement to continue in full force and effect and to enforce all of Licensor's rights and remedies hereunder, including, without limitation, the right to collect rent as it becomes due, together with interest thereon, at the rate of one and one-half percent (1-1/2%) per month.

Licensor will not be deemed to have terminated this Agreement in the absence of service of written notice upon Licensee to that effect.

In the event of any termination based on a default, Licensor shall have the option at once and without further notice to Licensee to enter the Premises and take exclusive possession of same. Licensor may remove or store any personal property located therein, at the sole cost and expense of Licensee without Licensor being liable to Licensee for damage or loss thereby sustained by Licensee.

Upon such termination by Licensor, all rights, powers and privileges of Licensee hereunder shall cease, and Licensee shall immediately vacate any space occupied by it

under this Agreement. Licensee shall then have no claim of any kind whatsoever against Licensor, or its employees or agents by reason of such termination, or by reason of any act by Licensor incidental or related thereto.

In the event of the exercise by Licensor of such option to terminate, Licensee shall have no right to or claim upon any improvements or the value thereof, which may have been previously installed by Licensee in or on the demised premises.

The exercise by Licensor of any remedy provided in this Agreement shall be cumulative and shall in no way affect any other remedy available to Licensor under law or equity.

Section 25.

Monetary Damages.

In the event Licensor elects to terminate this Agreement, Licensee shall pay to Licensor an amount equal to the sum of:

(a) All amounts owing at the time of termination of the Agreement on account of breach of any term, covenant or condition of this Agreement including but not limited to unpaid license fees plus interest thereon on all such amounts from the date due until paid at the rate of one and one-half percent (1- 1/2%) per month;

(b) Any other amount to compensate Licensor fully for all detriment proximately caused by Licensee's failure to perform its obligations hereunder or which in the ordinary course would likely result therefrom;

(c) The worth at the time of award of the amount by which the license fee and other sums payable hereunder, which would have been due after the date of termination of the Agreement and with respect to the balance of the term of the Agreement specified herein, exceeds the amount of such rental loss that the Licensee proves could be reasonably avoided. Efforts by Licensor to mitigate the damages caused by Licensee's default hereunder shall not constitute a waiver of Licensor's right to recover hereunder.

(d) The "worth at the time of award" of the amount referred to in subsection (c) hereof is computed by discounting such amount at the discount rate of the Federal Reserve Bank of Chicago at the time of award plus one percent (1%).

Section 26.

Fines.

If a default be made by Licensee of any of the below numerated covenants, terms and

conditions, Licensor may elect to impose the fines described below on the basis of per violation per day:

Violations	Section	Assessment
Violation of Use Clause	4	\$15.00
Unauthorized Advertising or Signage	18(F)	\$50.00
Failure to submit required documents and reports	3	\$10.00

The exercise by Licensor of any remedy provided in this Agreement, shall be cumulative and shall in no way affect any other remedy available by Licensor under law or equity.

Section 27.

Independence Of Agreement.

It is understood and agreed that nothing herein contained is intended or should be construed as in any way creating or establishing the relationship of co- partners or joint venturers between the parties hereto, or as constituting Licensee as the agent, representative or employee of Licensor for any purpose or in any manner whatsoever. Licensee is to be and shall remain an independent contractor with respect to all services performed under this Agreement.

Section 28.

Rules, Regulations, Laws, Ordinances And Licenses.

Licensor shall have the right to and shall adopt and enforce reasonable rules and regulations with respect to the use of the Airport, terminal buildings, terminal concourse areas, the Premises and related facilities, which Licensee agrees to observe and obey. Licensee shall observe and obey all the laws, ordinances, regulations and rules of the federal, state, county and municipal governments which may be applicable to its operations at the Airport and shall obtain and maintain all permits and licenses necessary for its operations at the Airport. Licensee further agrees to pay all taxes imposed by law on the property or its operations.

*Section 29.**Paragraph Headings.*

The paragraph headings contained herein are for convenience in reference and are not intended to define or limit the scope of any provision of this Agreement.

*Section 30.**Invalid Provisions.*

In the event any covenant, condition or provision herein contained is held to be invalid by any court of competent jurisdiction, the invalidity of such covenant, condition or provision herein contained shall not affect the validity of any other covenant, condition or provision, provided that the invalidity of such covenant, condition or provision does not materially prejudice either Licensor or Licensee in its respective rights and obligations contained in the valid covenants, conditions or provisions of this Agreement.

*Section 31.**Prohibition Of Recordation.*

This Agreement shall not and will not, nor shall any copy hereof, or any statement, paper or affidavit, in any way or manner referring hereto, be filed in the Office of the Recorder of Deeds of Cook County or DuPage County, Illinois, or in any other public office, by Licensee or anyone acting for Licensee and if the same be so filed, this Agreement and each and every provision hereof shall, at the option of the Licensor, be and become absolutely null and void and Licensor may declare such filing a breach of this Agreement.

*Section 32.**No Personal Liability.*

The execution of this Agreement by any person in the name and on behalf of Licensor or of Licensee shall not, under any circumstances, subject such person to any individual or personal liability, present or future.

*Section 33.**Construction Of Agreement.*

The validity, construction and enforceability of this Agreement shall in all respects be governed by and construed in accordance with the law of the State of Illinois.

*Section 34.**No Leasehold Interest.*

Nothing in this Agreement is intended, or shall be deemed, to give rise to a lease of real estate by Licensor or Licensee. This Agreement constitutes a license agreement which permits Licensee to operate a concession in the Airport. No leasehold interest is hereby conveyed nor has any such interest ever been conveyed to Licensee or Licensor.

In Witness Whereof, the parties hereto have caused this Agreement to be executed under their respective seals on the day and year first above written.

The following is said ordinance as passed:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The Mayor is authorized to execute and the City Clerk to attest and affix the seal of the City of Chicago upon an Agency and Participation Agreement between the City and the State of Illinois subject to the approval of the City Comptroller and as to form and legality by the Corporation Counsel; said Agreement to be substantially in the form as attached.

SECTION 2. This ordinance shall be in force and effect from and after its passage.

Agreement attached to this ordinance reads as follows:

*Agency And Participation Agreement
(State And Federally Assisted Airport Development).*

This Agreement made and entered into by and between the Division Of Aeronautics Of The Illinois Department Of Transportation, (hereinafter referred to as the "Division"), for and in behalf of the State of Illinois, and the City of Chicago, Illinois, (hereinafter referred to as the "Municipality").

Witnesseth:

Whereas, the Municipality desires to sponsor a project for the further development of a public air navigation facility, known or to be designated as the Merrill C. Meigs Field under the Airport and Airway Improvement Act of 1982, Title 49, United States Code, Section 2201 *et seq.*, (hereinafter referred to as "A.I.P."), and Rules, Regulations and Procedures promulgated pursuant thereto; and under the Illinois Aeronautics Act, Illinois Revised Statutes, Chapter 15 1/2, Paragraph 22.1 *et seq.*; and

Whereas, this project shall be identified as Ill. Proj. 87A-14-1243, A.I.P. Project 3-17-0029-02, and described as:

Rehabilitate terminal building pedestrian canopy; develop Airport Master Plan.

Whereas, the Municipality has applied for state assistance in procuring state and federal funds and desires the Division to act as Municipality's agent in matters connected with the project described above; and

Whereas, the Division has filed a preapplication for federal funds with the Federal Aviation Administration ("F.A.A.") on behalf of the Municipality and has been appropriated certain monies for the aforesaid project; and

Whereas, the F.A.A. has issued to the Municipality a Grant Offer in the sum of \$225,000.00; and

Whereas, the parties hereto, by this agreement, do hereby (a) fix their respective responsibilities, with reference to each other, with reference to the accomplishment of said project and with reference to the United States, and (b) designate the Division as the party to accept, receipt for and disburse, to the City of Chicago, all federal and state funds used or to be used in payment of the costs of said project or in reimbursement to either of the parties hereto for costs previously incurred;

Now, Therefore, for and in consideration of the benefits which will accrue to the parties hereto by virtue of completion of the project, It Is Mutually Covenanted And Agreed as follows:

1. The Municipality and not the Division shall, for all purposes, be the "Sponsor" of the project identified above as defined in Section 503(21) of the A.I.P. As the Sponsor, the Municipality agrees to assume the responsibility that all aspects of the grant and project and later operation of the facility are done in compliance with all applicable state and federal requirements including any statutes, rules, regulations, assurances, procedures or any other directives.
2. A Grant Offer from the United States has been tendered in the amount of \$225,000.00. It is estimated that the share of the Municipality in the estimated project construction costs will be approximately \$3,500.00, and that its share of total project costs will be approximately \$55,000.00. The Municipality specifically agrees that it shall pay any project costs which exceed the sum of the Division's funds and federal funds as are herein committed for this project.

The estimated total project cost for said project is \$290,000.00. The Division hereby agrees, subject to the approval of the Governor, to participate in the project, for payment of such project costs as are allowed under Section 34 of the Illinois Aeronautics Act.

On project costs eligible for ninety and no/1000 percent (90.000%) F.A.A. participation, the Division will participate up to five and no/1000 percent (5.000%).

Subject to the approval of the Governor, the Division will participate to the extent of the aforesaid appropriate percentages in overruns and contingencies approved by the Division, but in no event shall the Division's participation in any approved overruns and contingencies cause the total amount of the Division's participation in the project as a whole to exceed \$10,000.00. It is further agreed that the Municipality will reimburse the Division for any payment or payments made hereunder by the Division which are in excess of the Division's percentage of financial participation as heretofore stated or in excess of the Division's total participation.

Payments to the City of Chicago for reimbursement of payments to the Contractor and/or Consulting Engineer shall be made from time to time on the basis of field reports submitted by the Resident or Project Engineer and approved by the Chief Engineer of the Division, up to ninety percent (90%) of contract price. The remaining ten percent (10%) may be retained by the Division until after the contract has been completed and accepted and all other requirements of the contract agreed to be performed by the Contractor and/or Engineer are properly completed.

3. By executing this agreement, the Municipality certifies to the Division that it has sufficient funds to meet its share of the costs as heretofore stated.
4. The Division shall, for all purposes in connection with the project identified above, be the Agent of the Municipality. The Municipality herewith grants the Division a power of attorney to act as its agent to perform the following services:

- a. accept, receive, receipt for, and deposit with the State Treasurer any and all project funds granted, allowed, and paid or made available by the (1) United States under the A.I.P. and congressional appropriation made pursuant thereto; (2) the State of Illinois;
 - b. shall, after the execution of federal grant agreement, approve the award of contracts based on the recommendation of the City of Chicago;
 - c. participate in pre-construction conferences, approve the issuance of orders as it deems appropriate regarding construction progress, including, but not limited to, Notices to Proceed, Stop Work Orders, and Change Orders;
 - d. exercise such supervision and direction of the project work as the Division reasonably finds appropriate. Where there is irreconcilable conflict or differences of opinion, judgment, order or direction between the Division and any engineer, contractor, or the Municipality, the Division shall issue a written order which shall prevail and be controlling;
 - e. receive, review, approve, and pay to the City of Chicago, as reimbursement, invoices and payment requests for services and materials supplied in accordance with Division approved contracts;
 - f. coordinate and conduct semi-final and final inspections;
 - g. obtain contractor and material supplier releases in accordance with state law;
 - h. review, approve and submit "as built" plans to the F.A.A.;
 - i. pay to the Municipality, from federal and state project funds, where the Municipality has contributed more than its share of reasonable land acquisition costs, the excess portion of costs so incurred by the Municipality. This provision shall apply only to land acquired for airport purposes and only upon proof that clear title to said land is vested in the Municipality. These costs include purchase price and costs incidental to acquisition of the said land, excluding administrative costs; and
 - j. pay to the Municipality, from federal and state project funds, the portion of reasonable and eligible project costs incurred by the Municipality that are in excess of the Municipality's share.
5. Notwithstanding the provisions of Paragraph 4 above, the Municipality shall be the signatory party, in its own name, stead, right and behalf, to the Application for Federal Assistance made or to be made to the F.A.A., to the Acceptance of such Grant Offer as shall be tendered by the United States,

through the F.A.A., and to any and all Amendments to such Grant Agreement. The Division shall submit this Agency and Participation Agreement to the F.A.A. after its execution.

6. The Municipality, and not the Division or the United States, shall be the contractual party to all construction or engineering contract(s) entered into for the accomplishment of the project.
7. The Municipality shall have employed for this project, by a contract approved by the Division and F.A.A. a consulting engineer pre-qualified in accordance with the Division's procedures and registered in the State of Illinois to provide:
 - a. qualified Resident or Project Engineer(s), registered in the State of Illinois and approved by the Division; and
 - b. materials testing technician(s) approved by the Division; and
 - c. any project reports required by the Division or the F.A.A. Further, for each phase of project work which is covered by separate contract, the Resident or Project Engineer shall render to the Division both a semi-final and final inspection report. The final inspection report(s) shall certify to the Division and to the Municipality that the work involved has been fully completed in accordance with the plans, specifications and contract(s), as the same have been modified or supplemented by the Division and F.A.A. approved change order, supplementary contract or otherwise, and that the work is acceptable to the Resident or Project Engineer.
8. a. the Municipality agrees that it will strictly comply with all state and federal laws, rules, regulations, program guidance letters, assurances and covenants which are relevant to this project, including, but not limited to, those stated in or incorporated by reference in the Federal Grant Agreement during the construction of this project.
 - b. the Municipality and the Division agree that this document constitutes the grant agreement required by the "Illinois Grant Funds Recovery Act". The parties also agree to amend this agreement if necessary to comply with said Act.
9. The Municipality guarantees that:
 - a. the air navigation facility which is the subject of this agreement will be owned or effectively controlled, operated, repaired and maintained adequately during its full useful life, or a period of not less than 20 years, whichever is longer, for the rightful, fair, equal and uniform use and benefit of the public; and

- b. it will comply with all applicable state and federal laws, rules, regulations, procedures, covenants and assurances required by the State of Illinois or the F.A.A. in connection with the A.I.P. Grant in the operation of the facility; and
 - c. it will file with the Division and the F.A.A. such reports as may be requested concerning the use, maintenance, and operation of the airport.
- 10. The Municipality agrees to keep complete and adequate books and records in accordance with standard accounting procedures prescribed by the F.A.A. relating to the project described in this agreement and all books and records shall be open to inspection and examination by the Division or the F.A.A. at any reasonable time.
- 11. No leases will be entered into by the Municipality which grant exclusive use rights to any grantee for any aviation facilities which are the subject of this project.
- 12. The Municipality agrees not to dispose of airport land by sale or lease without consent of the Division and the F.A.A. In the event such consent is obtained, the Municipality further agrees to utilize for airport development the state and the federal share of the acquisition cost or the fair market value of the land at the time of the sale, whichever is greater, based upon the percent of participation by the respective parties in the original purchase. The proceeds from the sale of airport land which have had state and federal participation shall be reserved and expended on items of work which would be normally eligible for state and federal funds without benefit of those matching funds. Toward this end, the Municipality shall include a provision in each instrument recorded for every interest in land secured under this agreement which reads as follows:

The property interest of the Municipality in this real estate cannot be transferred without the written approval of the Illinois Department of Transportation, Division of Aeronautics. Furthermore, in the event any such interest is no longer used for an approved airport purpose without the written approval of the Division, that interest shall revert to a public airport sponsor appointed by the Division.
- 13. The Municipality agrees that all revenues generated by the airport and the non-aeronautical use of airport land, purchased under this project, will be expended for the capital or operating costs of the airport, the local airport system, or other local facilities which are owned or operated by the Municipality and directly related to the actual transportation of airport passengers or property.
- 14. Notices, reports or other communications required by or transmitted pursuant to this agreement to the Division shall be directed to the attention of the Director of Aeronautics, Department of Transportation, Division of

Notices, reports or other communications required by or transmitted pursuant to this agreement to the Municipality shall be directed to the attention of the Commissioner of Aviation, Room 3000, 20 North Clark Street, Chicago, Illinois 60602.

15. This agreement is entered into pursuant to the Illinois Aeronautics Act and the A.I.P. and shall be subject to and construed in accordance with said Acts. In the event of a conflict between state and federal laws, rules, regulations, etc., the federal provision shall control.
16. In the event that the F.A.A., acting for the United States, shall refuse or fail to extend a Grant Offer on this project by the close of the next federal fiscal year, or should the Division otherwise determine that a Grant will not be offered or has expired, this agreement shall automatically be voided and become of no force and effect, except that any monies actually deposited by the Municipality and held with the State Treasurer for project purposes shall be returned to the Municipality.
17. The Municipality covenants to zone (within its powers to do so) the airport and its environs for compatible land uses. The Municipality shall adopt airport hazard zoning regulations or shall request the Division to adopt airport hazard zoning under Section 17 of the Airport Zoning Act, Illinois Revised Statutes, Chapter 15 1/2, Paragraph 48.1, *et seq.*
18. This agreement is executed for the sole benefit of the contracting parties and is not intended or executed for the direct or incidental benefit of any third party.
19. The Division shall accept responsibility for all decisions or determinations subject to the provision that in carrying out any of the terms of this Agreement or in exercising any power or authority granted thereby, there shall be no personal liability upon the Division or its authorized representative, it being understood that in such matters they act as agents and representatives of the State.
20. The Municipality hereby certifies to the Division that it will have acquired clear title in fee simple to all real estate upon which construction work is to be performed and a sufficient interest (easement or otherwise) in any other real estate which may be affected by the construction process.
21. No construction shall be commenced until the Division approves the issuance of a "Notice to Proceed" by the City of Chicago.
22. In the event the Municipality breaches this agreement in any way whatsoever, be it prior to construction, during construction or after the project is completed and in operation, or in the event the Municipality fails to diligently pursue

construction progress or operation of the completed facility, the Division shall have any or all of the following non-exclusive remedies available to it:

- a. the right to seek specific performance;
 - b. the right to assume control and operation of the construction or the completed facility for the useful life of the facility or 20 years from the execution date of this agreement which right the Division may assign to any public agency as defined in the A.I.P.;
 - c. the right to refuse to provide state assistance for future aviation programs and to terminate any current state assistance;
 - d. the right to seek reimbursement of all state funds provided for the project;
 - e. any other remedy available at law or in equity.
23. This agreement constitutes the full and total understanding of the parties concerning their rights and responsibilities in regard to this project and shall not be modified, amended, rescinded or revoked unless such modification, amendment, rescission or revocation is agreed to by both parties in writing and executed by both parties.
24. Any grant under this agreement shall be valid for the useful life of the above-described project or for twenty (20) years, whichever is longer.
25. All commitments by the Municipality hereunder are subject to constitutional and statutory limitations and restrictions binding upon it and to the availability of funds which lawfully may be applied.
26. It is understood and agreed by and between the parties hereto that the sponsor shall reimburse the Division for the remaining useful life of any improvements made hereunder if a long term lease or purchase agreement for the airport is not entered into prior to the current lease expiration in 1996.

WHEREAS, The Hispanic population has increased steadily, since the last census in 1980, and as of 1986 has exceeded the one-half million mark; and

WHEREAS, The census conducted in 1980 did not accurately count Hispanics for various and obvious reasons; and

WHEREAS, It is equally as important for private agencies outside of government to also maintain such records; and

WHEREAS, Policy and funding decisions are contingent upon statistical data and funds are disseminated accordingly; and

WHEREAS, It is imperative that a new statistical collection system be developed and maintained to give an accurate reflection of the Hispanic population; and

WHEREAS, Many municipal government forms currently have categories including ethnicity, racial, national or cultural background but often exclude the category of Hispanic, thereby making it impossible to collect accurate data on Hispanic communities; now, therefore,

WHEREAS, Though seemingly fixed and inviolable, the complex social fabric of our great metropolis could be easily torn asunder were it not for the guardians of the public welfare, indeed, the guardians of the "American Dream"; and

WHEREAS, Dedication to and fulfillment of the motto of the Chicago Police Department--"We Serve and Protect"--exact a substantial physical and emotional toll not only on the officers who must daily cope with stress and danger of being life's arbiter for countless citizens, but also on the family members who live with the very real knowledge that their husband or father may never return from any given workday; and

WHEREAS, Through professionalism and sacrifice, the members of the Chicago Police Department have provided us with one of the safest cities in the United States of America, allowing each of us to pursue our own version of the "American Dream" in safety and confidence; and

WHEREAS, The words of Sir Winston Churchill, "never have so many owed so much to so few", were never more apropos; and

If any such judgment shall not be so paid, the Mayor shall revoke the license of the public passenger vehicle licensee concerned.

28-13.1. If the affiliation abandons its principal place of business in the City of Chicago, or if any official notice or legal process cannot be served upon it at its last Chicago address registered in the office of the commissioner, and it fails to respond to such notice, or appear in answer to legal process at the time fixed therein, or if it denies liability on the ground that it was not the owner or operator of such vehicle, or if any judgment or award against [said] *the* affiliation is not paid within the time provided in Section 28-13, its registration shall be cancelled and the public passenger vehicles of all its affiliated licensees shall be declared unsafe by the commissioner and their licenses shall be suspended until their affiliation is severed by removal of all equipment and indicia of affiliation and cancellation of all agreements with [said] *the* affiliation.

28-14. If any public passenger vehicle shall become unsafe for operation or if its body or seating facilities shall be so damaged, deteriorated or unclean as to render [said] *the* vehicle unfit for public use, the license therefor shall be suspended by the commissioner until the vehicle shall be made safe for operation and its body shall be repaired and painted and its seating facilities shall be reconditioned or replaced as directed by the commissioner. In determining whether any public passenger vehicle is unfit for public use the commissioner shall give consideration to its effect on the health, comfort and convenience of passengers and its public appearance on the streets of the city.

* * * * *

28.15.1. In the event that the commissioner, after investigation and hearing, shall determine that any licensee has obtained any public passenger vehicle license by fraud or false representation or willful misstatement of material fact, or in case any licensee shall fail to carry out any representation made to the commissioner before the issuance

of such license, or shall willfully make any material misstatement of fact on any statement filed with the commissioner, or if any licensee, shall operate, or cause or suffer to be operated, any public passenger vehicle in violation of the provisions of this chapter or of the rules and regulations of the commissioner relating to the administration and enforcement of the provisions of this chapter, *or if the licensee shall be convicted of a felony, or in the case of a corporate licensee if any officer or director shall be convicted of a felony, unless the licensee shall sever its relationship with any such officer or director immediately upon his conviction*, the commissioner [may] *shall* recommend to the Mayor's License Commission that any or all public passenger vehicle licenses held by *the* [said] licensee be revoked and the Mayor's License Commission [, in his discretion, may] *shall* revoke *the* [said] license or licenses.

(j) Each licensee to whom a permit is issued under this section shall maintain complete and accurate records of all revenues received from the display of any advertising sign or device. Each such licensee shall submit to the Commissioner, no later than the date of expiration of [said] *the* permit, an affidavit in such form as may be required by the Commissioner, stating the gross revenues received by [such] *the* licensee from the display of any advertising sign or device.

28-21. No vehicles shall operate as a *charter/sightseeing* [tour] vehicle [or a charter vehicle] unless so licensed under *Section 28-7*. *Charter/sightseeing* vehicles shall not be used for transportation of passengers except on sightseeing tours or charter[ed] trips. [Charter vehicles shall not be used for transportation of passengers except on charter trips, unless said vehicle has an additional license to operate as a sightseeing vehicle as provided by 28-7 of this section of the ordinance.] *No person shall solicit p[P]assengers for sightseeing tours [shall not be solicited] upon any public way except at bus stands specially designated by the City Council for sightseeing vehicles, nor shall any person other than a coachman of such a vehicle or his authorized agent or the person or entity hiring the vehicle solicit passengers for such a tour.*

28-23. Every taxicab shall have the public passenger vehicle license number and the cabman's name and telephone number painted in the center of the main panel of the rear doors of [said] *the* vehicle. If the cabman is affiliated or identified with any affiliation, as described in Section 28-5, the affiliation's color scheme, trade name or emblem and telephone number shall be substituted and, without being limited thereto, any of [said] *these* indicia of affiliation shall be sufficient to establish the responsibility of the affiliation in the operation of [said] *the* taxicab. All names and numbers shall be painted in plain Gothic letters and figures of one-half inch stroke and at least four inches in

height. The public vehicle license number assigned to any taxicab shall be assigned to the same vehicle or to any vehicle substituted therefor by the licensee. No other name, number, emblem or advertisement of any kind excepting signs required by this chapter, official license emblems or metal plate shall be painted or carried so as to be visible on the outside of any taxicab, unless otherwise required by State law.

28-28.1. Every driver of a taxicab licensed by the City of Chicago as a public passenger vehicle, when at or upon the premises of the Chicago-O'Hare International Airport or the Chicago Midway Airport and not otherwise engaged in the transportation of a person or persons, shall service [said] *the* airports by transporting, when requested, any person from [said] *the* airports to any suburb of the City of Chicago and the driver shall not charge more than the rate of transportation hereinafter set forth to such suburb. It shall be unlawful for a driver of a taxicab to refuse any person transportation from [said] *those* airports. It shall be unlawful for any driver of any taxicab not licensed as such by the City of Chicago to solicit or accept for transportation any person or persons at or upon the premises of [said] *the* airports for transportation within or without the City of Chicago, provided, however, that this provision shall not apply where the person at [said] *the* airports desiring other taxicab service has personally or through his agent previously by letter, telegram or telephone specifically engaged a suburban taxicab to transport him to any of the suburbs of the City of Chicago.

Nothing herein contained shall be construed to prohibit any public passenger vehicle from entering [said] *those* airports to discharge passengers previously accepted outside the City of Chicago for that purpose.

The taxicab rates of maximum fares from [said] *those* airports to the towns, villages, municipalities or unincorporated areas herein listed shall be those set forth in Section 28-30 of the Municipal Code of Chicago *as amended from time to time* [which section, by reference, is made a part hereof]. The towns, villages, municipalities or unincorporated areas to which the foregoing taxicab rates shall apply are as follows:

Elmwood Park	Niles	Summit

Transportation of any person or persons from [said] *those* airports to any suburb or unincorporated area not included in the foregoing list of towns, villages, municipalities or unincorporated areas shall be at the maximum meter fare as determined by the rates and charges set forth in Section 28-30 of the Municipal Code of Chicago plus an additional sum equal to fifty per cent (50%) of said maximum meter fare.

28-28.3 (a)[.] Taxicabs licensed under this chapter may operate jitney service as provided in this section. Jitney service is unscheduled service along a prescribed route, providing street hail service to passengers along such route only at a flat fare (prescribed in Section 28-30) for each individual passenger; passengers may enter and depart the taxi at any point along the route. A taxi providing jitney service must travel the entire prescribed route, must prominently display a "jitney" sign in its front windshield, and must accept and discharge passengers at any place along the route (subject to traffic and safety restrictions) up to the maximum capacity allowed by ordinance. While providing jitney service, only the flat per-passenger fare may be charged and the taximeter may not be used for any part of the jitney route. Jitney service shall be allowed only on routes authorized by the Commissioner as provided below in subsection (b). It shall be unlawful for any person to operate a jitney service along any unauthorized route or without a permit issued pursuant to subsection (d) of this ordinance.

(b)[.] The Commissioner or any licensed cabman may initiate the procedures for authorizing jitney routes. The Commissioner shall hold a public hearing to determine whether the public convenience would best be served by the authorization of jitney service along any proposed route. Before such a hearing, the Commissioner shall give at least 45 days notice in writing to the Chicago Transit Authority and by publication to all licensed cabmen, and the hearing shall be scheduled within 60 days of application by any cabman to initiate procedures. During the 45 day notice period the Chicago Transit Authority may comment to the Commissioner and present evidence as to the effect of any proposed jitney route upon the Authority's service revenues, its then existing service or its plans for service adjustments. The Commissioner shall include the Authority's comments and evidence in the record of the public hearing and may request testimony by the Authority at the public hearing. Jitney service may not be authorized on any Chicago Transit Authority route without Chicago Transit Authority approval and if approved, may be authorized only during those days and hours the Chicago Transit Authority has approved.

(c)[.] With respect to any application for a jitney route and within 10 days after the public hearing, the Commissioner shall issue his findings as to whether the public convenience would best be served by the authorization of jitney service along that route. For every jitney route authorized hereunder, the Commissioner shall issue a street description of the route, including the end points for any single jitney trip, any time restrictions on such jitney service, and shall make such descriptions available to all licensed cabmen. Whenever the Commissioner determines not to authorize jitney service along a proposed route or if the Chicago Transit Authority has failed to approve jitney service along a Chicago Transit Authority route, the Commissioner shall issue his determination in writing.

(d)[.] The Commissioner shall promulgate rules and regulations establishing the procedures for applying and the qualification for obtaining permission for any cabman to operate as a jitney along any authorized route.

(e)[.] The Commissioner shall from time to time review all authorized jitney routes and solicit comment from any interested persons as to whether the routes or any of them are serving the public convenience. The Commissioner may after notice and a public hearing as provided in subsection (b) revoke authorization for any jitney route.

MUNICIPAL CODE CHAPTER 28, SECTIONS 28-19 AND 28-22.1
AMENDED REGARDING ISSUANCE AND DISTRIBUTION OF
ADDITIONAL TAXICAB AND LIVERY LICENSES.

On motion of Alderman Natarus, the City Council took up for consideration the report of the Committee on Local Transportation, deferred and published in the Journal of the Proceedings of January 13, 1988, pages 9688 through 9691, recommending that the City Council pass a proposed substitute ordinance amending Chapter 28, Sections 28-19 and 28-22.1 of the Municipal Code regarding issuance and distribution of additional taxicab and livery licenses.

Alderman Natarus moved to substitute the following ordinance for the proposed substitute ordinance printed in the Journal of the Proceedings of January 13, 1988:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. Chapter 28 of the Municipal Code of Chicago is hereby amended by repealing Section 28-22.1 in its entirety and in Section 28-19 by adding the language in italics and deleting the language in brackets, as follows:

28-19. (a) *During the periods specified, the maximum number of livery licenses to be issued, including renewals, shall be: (1) 445 from the effective date of this ordinance through December 31, 1988; (2) 520 from January 1 through December 31, 1989; (3) 595 from January 1 through December 31, 1990; (4) 670 from January 1 through December 31, 1991; and (5) 745 from January 1 through December 31, 1992.*

(b) *During the periods specified, the maximum number of taxicab licenses to be issued, including renewals, shall be: (1) 4800 from the effective date of this ordinance through December 31, 1988; (2) 4900 from January 1 through December 31, 1989; (3) 5000 from January 1 through December 31, 1990; (4) 5100 from January 1 through December 31, 1991; (5) 5200 from January 1 through December 31, 1992; (6) 5300 from January 1 through December 31, 1993; (7) 5400 from January 1 through December 31, 1994; (8) 5500 from January 1 through December 31, 1995; (9) 5600 from January 1 through December 31, 1996; and (10) 5700 from January 1 through December 31, 1997.*

(c) *Except as limited in this section 28-19, each person who holds one or more uncanceled, unsurrendered and unrevoked taxicab or livery licenses at the end of any calendar year shall be entitled to renewal of each such license for the succeeding year, unless the applicant has ceased to be qualified to obtain a license under this chapter or unless cause exists under this chapter to cancel, revoke or require surrender of a particular license, or particular licenses, held by such person.*

shall result in the automatic expiration of the license as of the date of the attempted transfer. The nonrefundable fee for any transfer of license shall be \$250.00 payable by the transferee at the time of application; provided, however, this fee shall not apply to the transfer of any license which results from a corporate merger or reorganization within related companies or their parent.

(2) Pledging or otherwise encumbering a license shall be permitted provided that the licensee shall notify the Commissioner in advance and in writing of any such encumbrance and provide the Commissioner with such information with respect to the person to whom the license is to be pledged as the Commissioner may reasonably require to assure that the provisions of this chapter are being complied with. Any foreclosure upon a pledged or encumbered license shall constitute a transfer subject to the provisions of subsection 28-19(f)(1).

(3) In the event of a licensee's death, the authority to operate granted under the license shall cease, except that the executor or administrator of the estate of any deceased licensee, upon application to an approval by the Commissioner, may continue to exercise the privileges of the deceased licensee, including the limited privilege of transfer granted in this chapter, until the expiration of the license but no longer than six months after the licensee's death.

(g) No person shall be qualified for a livery vehicle license and a taxicab license at the same time; nor shall any coachman become affiliated or identified with any cabman or with an affiliation of any cabmen.

[No license for any livery vehicle shall be issued, except in the annual renewal of such license or upon transfer to permit replacement of vehicle for that licensed.]

SECTION 2. If any provision of this ordinance or the application thereof to any person or circumstances is held invalid, such invalidity does not affect other provisions or applications of the ordinance which can be given effect without the invalid application or provision, and to this end the provisions of this ordinance are severable.

SECTION 3. This ordinance shall constitute the entire agreement between the City and the Companies, and no warranties, inducements, considerations, promises or other references shall be implied or impressed upon this agreement that are not expressly addressed herein.

SECTION 4. The Comptroller is hereby directed to refund to the Companies any 1988 license fees previously paid to the City pursuant to Chapter 28 for each license which the Companies relinquish in 1988 pursuant to Section 28-19(d). Such refunds shall be prorated to the date on which the license is relinquished.

SECTION 5. This ordinance shall take effect upon passage by the City Council only if enough persons owning one or more licensed taxicabs so as to represent ownership of at least 2,301 taxicab licenses shall have placed on file with the City Clerk before the date of passage their unconditional written acceptance of its provisions, in which case this ordinance shall operate as a contract between them and the City, and no amendments to

subsection 28-19(a) shall be effective until after December 31, 1992 and to subsections 28-19(b) through (g) until after December 31, 1997.

(f)(1) Subject to the limitations set forth in subsection (e) and in other provisions of this chapter governing distribution of licenses, all licenses issued pursuant to this chapter shall be freely transferable to any person qualified under the provisions of this chapter to be a license holder but before any transfer may become effective, the transferor and the transferee shall apply to the Commissioner who shall approve the transfer if he shall determine that the transferee is qualified as a license holder under this chapter. The Commissioner shall apply the standards and requirements for determining whether a proposed taxicab or livery license transferee is qualified to obtain a license under this chapter in a manner which is reasonable and consistent with the purpose of making such licenses available to all qualified applicants, within the quantity limits and subject to the retention and renewal rights established in this chapter. For the purposes of this subsection, the word "transfer" shall include buying, selling and assigning a license or licenses. Any such attempt to transfer a license that does not comply with this section shall result in the automatic expiration of the license as of the date of the attempted transfer. The nonrefundable fee for any transfer of license shall be \$250.00 payable by the transferee at the time of application; provided, however, this fee shall not apply to the transfer of any license which results from a corporate merger or reorganization within related companies or their parent.

(2) Pledging or otherwise encumbering a license shall be permitted provided that the licensee shall notify the Commissioner in advance and in writing of any such encumbrance and provide the Commissioner with such information with respect to the person to whom the license is to be pledged as the Commissioner may reasonably require to assure that the provisions of this chapter are being complied with. Any foreclosure upon a pledged or encumbered license shall constitute a transfer subject to the provisions of subsection 28-19(f)(1).

(3) In the event of a licensee's death, the authority to operate granted under the license shall cease, except that the executor or administrator of the estate of any deceased licensee, upon application to and approval by the Commissioner, may continue to exercise the privileges of the deceased licensee, including the limited privilege of transfer granted in this chapter, until the expiration of the license but no longer than six months after the licensee's death.

(g) No person shall be qualified for a livery vehicle license and a taxicab license at the same time; nor shall any coachman become affiliated or identified with any cabman or with an affiliation of any cabmen.

[No license for any livery vehicle shall be issued, except in the annual renewal of such license or upon transfer to permit replacement of vehicle for that licensed.]

SECTION 2. If any provision of this ordinance or the application thereof to any person or circumstances is held invalid, such invalidity does not affect other provisions or applications of the ordinance which can be given effect without the invalid application or provision, and to this end the provisions of this ordinance are severable.

SECTION 3. This ordinance shall constitute the entire agreement between the City and the Companies, and no warranties, inducements, considerations, promises or other references shall be implied or impressed upon this agreement that are not expressly addressed herein.

SECTION 4. The Comptroller is hereby directed to refund to the Companies any 1988 license fees previously paid to the City pursuant to Chapter 28 for each license which the Companies relinquish in 1988 pursuant to Section 28-19(d). Such refunds shall be prorated to the date on which the license is relinquished.

SECTION 5. This ordinance shall take effect upon passage by the City Council only if enough persons owning one or more licensed taxicabs so as to represent ownership of at least 2,301 taxicab licenses shall have placed on file with the City Clerk before the date of passage their unconditional written acceptance of its provisions, in which case this ordinance shall operate as a contract between them and the city, and no amendments to subsection 28-19(a) shall be effective until after December 31, 1992 and to subsections 28-19(b) through (g) until after December 31, 1997.

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. Chapter 28 of the Municipal Code of Chicago is hereby amended by adding a new Section 28-22.1, as follows:

28-22.1. (a) After the effective date of this ordinance and subject to the conditions set forth in this section, all qualified applicants for taxicab licenses or for livery licenses shall be entitled to obtain such licenses, unless the number of available licenses is less than the number of qualified applicants for such licenses. As used in this section, the term "available licenses" shall mean all licenses which may be issued under the quantity limits established in Section 28-19(a) or (b) but not including licenses which are retained or renewed in accordance with Section 28-19(c).

If the number of available licenses is less than the number of qualified applicants for such licenses, all available licenses shall be awarded by means of a modified random selection process by the Commissioner from among the qualified applicants for each type of license pursuant to the provisions of Section 28-22.1(b)(2). For all distributions, the Commissioner shall establish rules governing the selection process including provisions for an application period of at least 30 days whenever licenses become available for distribution and public notice of such application period and of the number of licenses to be issued. The phrase "modified random selection process" as used in this

Section 28-22.1 shall mean a selection process weighted in accordance with the preferences set forth in subsection (b)(2) but otherwise random.

(b)(1) The Commissioner shall apply the standards and requirements for determining whether a taxicab or livery license applicant is qualified to obtain a license under this chapter in a manner which is reasonable and consistent with the purpose of making taxicab and livery licenses available to as many qualified applicants as practicable, within the quantity limits and subject to the retention and renewal rights established in this chapter.

(2) When the Commissioner shall distribute licenses in accordance with a modified random selection process, he shall accord all timely applicants equal weight in the selection except that the following persons shall be eligible for inclusion in separate groups for distribution of licenses in the order indicated, and within each group, veterans of the United States armed forces who were separated from military service by other than dishonorable discharge shall be granted a weighting preference of 10% as follows:

- A. First preference: all applicants who have held a City of Chicago public chauffeur license for five or more of the seven years preceding the date of application and who own or control no livery or taxicab licenses;
- B. Second preference: all applicants who have held a City of Chicago public chauffeur license for from one to less than five of the seven years preceding the date of application and who own or control no livery or taxicab licenses;
- C. Third preference: all other applicants.

Licenses shall first be distributed by modified random selection to qualified applicants in the first preference group. Then, if any licenses remain available, those shall be distributed in the same manner to qualified applicants in the second preference group. If any license remain available after distribution to the first and second preference groups, they shall be distributed in the same manner to qualified applicants in the third preference group.

In any such modified random selection process, no applicant may be awarded more than one license. Only natural persons may claim a first or second or veterans preference. Any person who obtains a license in a distribution by modified random selection in which he has claimed any such preference shall be ineligible thereafter to claim such a preference in a subsequent distribution pursuant to this subsection (b)(2).

SECTION 2. If any provision of this ordinance or the application thereof to any person or circumstances is held invalid, such invalidity does not affect other provisions or applications of the ordinance which can be given effect without the invalid application or provision, and to this end the provisions of this ordinance are severable.

SECTION 3. This ordinance shall take effect upon its passage.

(c) *Except as limited in this section 28-19, each person who holds one or more uncanceled, unsurrendered and unrevoked taxicab or livery licenses at the end of any calendar year shall be entitled to renewal of each such license for the succeeding year, unless the applicant has ceased to be qualified to obtain a license under this chapter or unless cause exists under this chapter to cancel, revoke or require surrender of a particular license, or particular licenses, held by such person.*

(d) *Notwithstanding the provisions of section 28-19(c), Yellow Cab Company and Checker Taxi Company, Inc. ("the Companies") shall, together or separately and subject to the provisions of section 28-19(e), relinquish and not renew, and relinquish irrevocably any claim of a right to renew, 1300 licenses, as follows: (1) 400 licenses for and after the year beginning January 1, 1988; (2) 100 licenses for and after the year beginning January 1, 1989; (3) 100 licenses for and after the year beginning January 1, 1990; (4) 100 licenses for and after the year beginning January 1, 1991; (5) 100 licenses for and after the year beginning January 1, 1992; (6) 100 licenses for and after the year beginning January 1, 1993; (7) 100 licenses for and after the year beginning January 1, 1994; and (8) 100 licenses for and after the year beginning January 1, 1995; (9) 100 licenses for and after the year beginning January 1, 1996; and (10) 100 licenses for and after the year beginning January 1, 1997.*

Furthermore, the Companies, together or separately or through their parent, successor or any other person, shall not own in whole or in part, directly or indirectly, or have a security interest in a greater number of licenses in the years specified than as here set forth: 3248 in 1988; 3148 in 1989; 3048 in 1990; 2948 in 1991; 2848 in 1992; 2748 in 1993; 2648 in 1994; 2548 in 1995; 2448 in 1996; and 2348 in 1997.

upon application to and approval by the Commissioner, may continue to exercise the privileges of the deceased licensee, including the limited privilege of transfer granted in this chapter, until the expiration of the license but no longer than six months after the licensee's death.

(g) No person shall be qualified for a livery vehicle license and a taxicab license at the same time; nor shall any coachman become affiliated or identified with any cabman or with an affiliation of any cabmen.

[No license for any livery vehicle shall be issued, except in the annual renewal of such license or upon transfer to permit replacement of vehicle for that licensed.]

SECTION 2. If any provision of this ordinance or the application thereof to any person or circumstances is held invalid, such invalidity does not affect other provisions or applications of the ordinance which can be given effect without the invalid application or provision, and to this end the provisions of this ordinance are severable.

SECTION 3. This ordinance shall constitute the entire agreement between the City and the Companies, and no warranties, inducements, considerations, promises or other references shall be implied or impressed upon this agreement that are not expressly addressed herein.

SECTION 4. The Comptroller is hereby directed to refund to the Companies any 1988 license fees previously paid to the City pursuant to Chapter 28 for each license which the Companies relinquish in 1988 pursuant to Section 28-19(d). Such refunds shall be prorated to the date on which the license is relinquished.

SECTION 5. This ordinance shall take effect upon passage by the City Council only if enough persons owning one or more licensed taxicabs so as to represent ownership of at least 2,301 taxicab licenses shall have placed on file with the City Clerk before the date of passage their unconditional written acceptance of its provisions, in which case this ordinance shall operate as a contract between them and the City, and no amendments to subsection 28-19(a) shall be effective until after December 31, 1992 and to subsections 28-19(b) through (g) until after December 31, 1997.

Chapter 28, Section 28-22.1.

SECTION 1. Chapter 28 of the Municipal Code of Chicago is hereby amended by adding a new Section 28-22.1, as follows:

28-22.1. (a) After the effective date of this ordinance and subject to the conditions set forth in this section, all qualified applicants for taxicab licenses or for livery licenses shall be entitled to obtain such licenses, unless the number of available licenses is less than the number of qualified applicants for such licenses. As used in this section, the term "available licenses" shall

For all distributions, the Commissioner shall establish rules governing the selection process including provisions for an application period of at least 30 days whenever licenses become available for distribution and public notice of such application period and of the number of licenses to be issued. - A. First preference: all applicants who have held a City of Chicago public chauffeur license for five or more of the seven years preceding the date of application and who own or control no livery or taxicab licenses;
- B. Second preference: all applicants who have held a City of Chicago public chauffeur license for from one to less than five of the seven years preceding the date of application and who own or control no livery or taxicab licenses;
- C. Third preference: all other applicants.

Any person who obtains a license in a distribution by modified random selection in which he has claimed any such preference shall be ineligible thereafter to claim such a preference in a subsequent distribution pursuant to this subsection (b)(2).

SECTION 2. If any provision of this ordinance or the application thereof to any person or circumstance is held invalid, such invalidity does not affect other provisions or applications of the ordinance which can be given effect without the invalid application or provision, and to this end the provisions of this ordinance are severable.
