*Section I.**Recitals:*

WHEREAS, The City has previously adopted the Original Ordinance pursuant to which the City has authorized the issuance of not to exceed \$4,500,000 Tax Increment Allocation Bonds (Central Station Project) Series 1991A (the "Bonds"). The Bonds have not yet been issued; and

WHEREAS, The Original Ordinance includes a definition of the phrase "Certified Initial Equalized Assessed Value", which definition specifically includes a reference to a figure believed to be the total initial equalized assessed value of the taxable real property within the Project Area (as defined in the Original Ordinance) as of November 28, 1990, as certified by the Clerk of the County of Cook, Illinois; and

WHEREAS, An owner of real property within the Project Area has filed with the Clerk of the County of Cook, Illinois, a Certificate of Error challenging the initial equalized assessed value of the taxable real property owned by such property owner in the Project Area. As a result of that filing, the total initial equalized assessed value of the taxable real property within the Project Area as of November 28, 1990, as certified by the Clerk of the County of Cook, Illinois, is different than that specified in the definition of Certified Initial Equalized Assessed Value included in the Original Ordinance. The City accordingly wishes to amend that definition to correct the definition in order to cure any ambiguity arising under the Original Ordinance as a result of that definition; and

WHEREAS, Section 22 of the Original Ordinance provides that the City and the Trustee from time to time and at any time subject to the conditions and restrictions contained in the Original Ordinance, may pass and accept an ordinance or ordinances supplemental to the Original Ordinance, which ordinance or ordinances thereafter shall form a part of the Original Ordinance, to "make such provisions for the purpose of curing any ambiguity, or of curing, correcting or supplementing any defective provision contained in (the Original Ordinance) or in regard to matters or questions arising under (the Original Ordinance), as the City may deem necessary or desirable..."; and

WHEREAS, In addition, the Original Ordinance establishes certain requirements with respect to the qualification of the Trustee acting under the Original Ordinance. Specifically, Section 19(i) of the Original Ordinance requires that there "shall at all times be a Trustee under (the Original Ordinance) which shall be a corporation organized and doing business under the laws of the United States or any state thereof, authorized under such laws to exercise corporate trust powers, having a combined capital and

surplus of at least \$100,000,000; and shall be subject to supervision or examination by federal or state authority"; and

WHEREAS, The Original Ordinance designates as Trustee for the Bonds Independence Bank of Chicago, which satisfies each of the criteria to act as Trustee under the Original Ordinance, except for the requirement that it have a combined capital and surplus of at least \$100,000,000; and

WHEREAS, The City wishes to amend the provisions of Section 19(i) of the Original Ordinance to reduce the combined capital and surplus requirement set forth in Section 19(i); and

WHEREAS, The Original Ordinance provides that the City and the Trustee from time to time and at any time may, subject to the conditions and restrictions in [the Original Ordinance], pass and accept an ordinance or ordinances supplemental to the Original Ordinance, which ordinance or ordinances thereafter shall form a part of the Original Ordinance, "as to Bonds which are authorized but unissued under (the Original Ordinance), ... to change in any way the terms upon which such Bonds may be issued or secured ..."; and

WHEREAS, The reduction of the amount of capital and surplus required to be held by a bank to qualify as Trustee for the Bonds constitutes a change in the terms upon which the Series 1991A Bonds (which have been authorized but not yet issued) may be issued or secured; and

WHEREAS, The Limited Offering Memorandum prepared in connection with the offer and sale of the Series 1991A Bonds identifies Independence Bank of Chicago as Trustee for the Series 1991A Bonds, notes that Independence Bank of Chicago does not meet the combined capital and surplus requirement set forth in Section 19(i) of the Original Ordinance and discloses the amount of capital and surplus required to be held by a bank to act as Trustee for the Bonds; and

WHEREAS, The City Council of the City has determined that it is necessary and in the best interest of the City that the City adopt this First Supplemental Ordinance; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. Chapter 3-28 of the Municipal Code of the City of Chicago is hereby amended by deleting the language bracketed and inserting the language in italics in Sections 3-28-020, 3-28-030 and 3-28-040, adding Sections 3-28-036, 3-28-124 and 3-28-128, and partially renumbering Section 3-28-030 as 3-28-038, all as follows:

3-28-020. *Except as otherwise provided* [For the purposes of this chapter], when any of the following words or terms are used herein they shall have the meaning or construction ascribed to them in this section:

* * * * *

["Selling price" means the consideration for a sale at retail value in money whether received in money or otherwise, including cash, credits, property, other than as hereinafter provided, and services, but not including the value of or credit given for traded-in tangible personal property where the item that is traded-in is of like kind and character as that which is being sold, and shall be determined without any deduction on account of the cost of the property sold, the cost of materials used, labor or service cost or any other expense whatsoever, but shall not include charges that are added to the price by the seller on account of the seller's duty to collect, from the purchaser, the tax imposed upon the purchaser under this chapter or on account of a tax liability imposed upon the seller or the purchaser under any other ordinance of the city or of any other unit of local government or under any law of the state of Illinois upon or in connection with such sale, purchase or use. "Selling price" shall include consideration for a sale at retail incidental to a sale of service to the extent such consideration constitutes cost price as defined in the State of Illinois Service Use Tax. The phrase "like kind and character" shall be liberally construed, but shall not include a kind of item which, is sold at retail by that retailer, would be exempt from tax hereunder as an isolated or occasional sale.]

* * * * *

"Tangible personal property" means tangible personal property titled or registered with an agency of the State of Illinois.

* * * * *

3-28-030. Except as provided in Section 3-28-040, every user of tangible personal property which is purchased [through a sale] at retail [after August 31, 1991] *from a retailer*, and which is titled or registered at a location within the corporate limits of the City of Chicago with an agency of state government shall be liable for a tax on the privilege of using such property in the City at the rate of one percent of such property's selling price, *as the term "selling price" is defined in Section 2 of the Use Tax Act, as amended.*

[For a purchase or use of tangible personal property to be taxable under this chapter, the tangible personal property must have been purchased from a retailer.]

3-28-036. A. *Pursuant to Section 8-11-6 of the Illinois Municipal Code, as amended, the City hereby authorizes the Illinois Department of Revenue to collect and enforce the tax imposed by Section 3-28-030 when tangible personal property which is titled or registered with an agency of state government is purchased at retail from a retailer in Cook, DuPage, Lake, Kane, McHenry or Will Counties.*

B. *Section 3-28-038 and Sections 3-28-050 through 3-28-124 of this chapter shall not apply in connection with tangible personal property purchased at retail from a retailer in Cook, DuPage, Lake, Kane, McHenry or Will Counties if the tax imposed by Section 3-28-030 is collected and enforced by the Illinois Department of Revenue pursuant to this Section 3-28-036 and Section 8-11-6(c) of the Illinois Municipal Code, as amended.*

3-28-038. The tax imposed hereunder and the obligation to pay the same is upon the user. The tax imposed hereunder shall be collected from the purchaser by the tax collector, as defined in Section 3-28-020 hereof, and remitted to the department as provided herein. The tax collector shall be liable to the City for the amount of tax that it is required to collect. Retailers shall collect the tax from the users by adding the tax to the selling price of tangible personal property when sold for use in the City, in the manner prescribed by the department. The tax imposed by this chapter shall, when collected, be stated as a distinct item separate and apart from the selling price of the tangible personal property. The tax hereby imposed and not paid to a retailer pursuant to this section shall be

paid to the department directly by any person using such property within the City, pursuant to Section 3-28-080 hereof. If any seller, in collecting an amount which purports to constitute use taxes measured by receipts which are subject to tax under this chapter, collects more from the purchaser than the actual use tax liability on the transaction, the purchaser shall have a legal right to claim a refund of such amount from such seller. However, if such amount is not refunded to the purchaser for any reason, the seller is liable to pay such amount to the department.

* * * * *

3-28-040. *Notwithstanding any other provisions of this chapter, uses of tangible personal property, as defined in Section 3-28-020, [under the following circumstances] which are exempt under the applicable provisions of Section 8-11-6(c) of the Illinois Municipal Code, as amended, and the Illinois Use Tax Act, as amended, shall not be subject to the tax imposed by this chapter[:].*

[a. Use by any governmental body, or any corporation, association, foundation, or institution organized and operated exclusively for charitable, religious or educational purposes;

b. Use of tangible personal property by interstate carriers for-hire as rolling stock moving in interstate commerce or uses by lessors under leases of one year or longer executed or in effect at the time of purchase to interstate carriers for-hire for use as rolling stock moving in interstate commerce as long as so used by such interstate carriers for-hire;

d. Use of a motor vehicle, as defined in Section 1-146 of the Illinois Vehicle Code, by a lessor when such motor vehicle is to be used for leasing to lessees on a daily or weekly basis by such lessor and for which such lessor is required to pay the Chicago Motor Vehicle Lessor Tax, Chapter 3-48 of the Municipal Code.]

3-28-124. *Whenever not inconsistent with the provisions of this chapter or whenever this chapter is silent, the provisions of the uniform revenue*

procedures ordinance, Chapter 3-4 of the Municipal Code, as amended, shall apply to and supplement this chapter.

3-28-128. If Section 8-11-6(c) of the Illinois Municipal Code, as amended, is repealed or otherwise becomes ineffective, then the tax imposed by Section 3-28-030 shall be collected, administered and enforced by the department in accordance with the remaining provisions of this chapter, other than Section 3-28-036, from the date Section 8-11-6(c) is repealed or otherwise becomes ineffective.

SECTION 2. If any provision, clause, sentence, paragraph, section, or part of this ordinance, including any clause containing an exemption, or application thereof to any person or circumstance, shall for any reason, be adjudged by a court of competent jurisdiction to be unconstitutional or invalid, said judgment shall not affect, impair or invalidate the remainder of this ordinance and the application of such provision to other persons, firms, corporations, public agencies or circumstance, shall be confined in its operation to the provision, clause, sentence, paragraph, section or part thereof directly involved in the controversy in which such judgment shall have been rendered and it is hereby declared to be the legislative intent of the City Council of the City of Chicago that this ordinance would have been adopted had such unconstitutional or invalid provision, clause, sentence, paragraph, section or part hereof not been included.

SECTION 3. This ordinance shall be effective January 1, 1992.

In the event McDonald's fails to comply with provisions of the Illinois Human Rights Act or rules, regulations and orders of the Illinois Human Rights Commission, it may be declared ineligible for future contracts with the State of Illinois and the City, and this Lease may be cancelled, or voided in whole or in part, and other sanctions or penalties may be imposed or remedies invoked by statute, regulation or order.

*Article 13.00**Holding Over.*

If McDonald's shall have no right to terminate or if McDonald's shall not exercise any option to terminate this Lease, then and in either such event, McDonald's reserves the right to claim and prosecute its claim as stated above in this Article, and this Lease shall continue in effect with respect to the portion of the Demised Premises not so taken, except that the annual base rent payable shall be reduced by a fraction, the numerator of which shall be the number of square feet taken or condemned, and the denominator of which shall be the square footage of the Demised Premises prior to the taking or condemnation. McDonald's will, with all due diligence and at its own cost and expense, repair and restore the Demised Premises or what may remain of it to its former condition, and if the Demised Premises have been rendered untenable by the taking, the obligation of McDonald's to pay rent shall be suspended until the completion of such work.

This waiver shall be in addition to, and not in limitation or derogation of, any other waiver or release contained in this Lease with respect to any loss of, or damage to the property of the City.

By subrogation or otherwise, to an insurance company (or any other person), the City and McDonald's agree immediately to give to each insurance company which has issued policies of fire and extended coverage insurance, written notice of the terms of such waiver and to have such insurance policies properly endorsed, if necessary, to prevent the invalidation of the insurance coverage by reason of such waiver.

Notes 1 -- 5.

1. In accordance with Chapter 26, Section 26-26 of the City of Chicago Municipal Code, the Contractor or a subcontractor shall be chargeable with the conduct of an affiliated entity. Business entities are affiliated if, directly or indirectly, one controls or has the power to control the other, or if a third person controls or has the power to control both entities. Indicia of control include without limitation: interlocking management or ownership; identity of interests among family members; shared facilities and equipment; common use of employees; or organization of a business entity following the ineligibility of a business entity under Chapter 26, Section 26 of the City of Chicago Municipal Code using substantially the same management, ownership or principals as the ineligible entity.

2. No corporation shall be barred from contracting with any unit of State or local government as a result of a conviction under either Section 33E-3 or Section 33E-4 of Article 33 of the State of Illinois Criminal Code of 1961, as amended, of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation and: (1) it has been finally adjudicated not guilty, or (2) if it demonstrates to the governmental entity with which it seeks to contract and that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent in behalf of the corporation as provided in paragraph (2) of Subsection (a) of Section 5-4 of the State of Illinois Criminal Code.

3. For purposes of Section I of this certification, a person commits the offense of and engages in bid-rigging when he knowingly agrees with any person who is, or but for such agreement would be, a competitor of such person concerning any bid submitted or not submitted by such person or another to a unit of state or local government when with the intent that the bid submitted or not submitted will result in the award of a contract to such person or another and he either (1) provides such person or receives from another information concerning the price or other material term or terms of the bid which would otherwise not be disclosed to a competitor in an independent noncollusive submission of bids or (2) submits a bid that is of such a price or other material term or terms that he does not intend the bid to be accepted, Ill. Rev. Stat., 1989, Ch. 38, § 33E-3.

4. For purposes of Section I of this certification, a person commits the offense of and engages in bid-rotating when, pursuant to any collusive scheme or agreement with another, he engages in a pattern over time (which, for the purposes hereof, shall include at least 3 contract bids within a period of ten years, the most recent of which occurs after January 1, 1989) of submitting sealed bids to units of State or local government with the intent

that the award of such bids rotates, or is distributed among persons or business entities which submit bids on a substantial number of the same contracts, Ill. Rev. Stat., 1989, Ch. 38, § 33E-4.

5. Chapter 24, §11-42.1-1 of the Illinois Revised Statutes provides that a municipality may not enter into a contract or agreement with an individual or other entity that is delinquent in the payment of any tax administered by the Illinois Department of Revenue unless the contracting party is contesting, in accordance with the procedures established by the appropriate Revenue Act, its liability for the tax or the amount of the tax or unless the contracting party has entered into an agreement to pay the tax and is in compliance with the Agreement. Notwithstanding the above, the municipality may enter into the contract if the contracting authority for the municipality determines that:

- (1) the contract is for goods or services vital to the public health, safety, or welfare; and
- (2) the municipality is unable to acquire the goods or services at a comparable price and of comparable quality from other sources.

*Participation Plan For Minority- And Women-Owned
And Operated Businesses.*

It is the policy of the City of Chicago to encourage and afford Minority and Women-Owned and Operated Businesses the maximum opportunity to participate in all City agreements. Therefore, the Purchasing Agent has established that for the operation of a McDonald's Restaurant located upon the Chicago Skyway, the entity shall be franchised to a local minority-owned business. The Purchasing Agent has further determined that all construction work be contracted through a minority-owned and operated general contractor.

Accordingly, the McDonald's Corporation commits to initially franchise the McDonald's Restaurant to Ms. Linda Simmons, a 42 year old Black female. Ms. Simmons shall maintain at least 51% ownership of the operating entity and shall be solely responsible for all day-to-day decisions

to be made including, but not limited to sales and marketing, employment, compensation and control of employees, purchases of inventory, payment of expenses, maintenance and repair of the facility and the investing of all proceeds. In the event that McDonald's franchise arrangement with Ms. Simmons is terminated for any reason, McDonald's shall franchise the Restaurant to another minority-owned and operated entity which, in the reasonable judgment of the City Purchasing Agent, satisfies the criteria applied to Ms. Simmons in this paragraph.

The McDonald's Corporation commits to utilize Powers and Sons Construction Company, Incorporated, a certified Disadvantaged Business Enterprise, Black-owned and operated, as the general contractor for all construction work on this project. Furthermore, through Powers and Sons Construction, the McDonald's Corporation commits to expend at least 5% of the cost of construction through Bern Electric, a local women-owned and operated business, as a direct subcontractor.

McDonald's commitment and adherence to this participation plan shall be deemed to satisfy all of the requirements of this Lease as it pertains to minority and women-owned and operated businesses for this specification. Any changes or modifications of this participation plan without the prior written approval of the City Purchasing Agent shall be considered a default and will subject McDonald's to all remedies available at law or in equity for such contract, including but not limited to the termination of the Lease.

If, however, the premises shall not thus be kept in good repair and in a clean, sightly and healthy condition by Lessee, as aforesaid, Lessor may enter the same, himself or by his agents, servants or employees, without such entering causing or constituting a termination of this lease or an interference with the possession of the premises by Lessee, and Lessor may replace the same in the same condition of repair, sightliness, healthiness and cleanliness as existed at the date of execution hereof, and Lessee agrees to pay Lessor, in addition to the rent hereby reserved, the expenses of

SECTION 1. Permission and authority are hereby given and granted to American National Bank and Trust Company, Trust Number 104107-02 and its sole beneficiary Lawlin Associates, upon the terms and subject to the conditions of this ordinance, to construct a pedestrian plaza, maintain and use an area in the public way adjacent to premises at 2301 to 2317 West Lawrence Avenue. The area includes the public way on the south side of West Lawrence Avenue between the east side of North Lincoln Avenue to the west side of North Oakley Avenue and including approximately 120 feet of the alley. The total area is shown in Exhibit A. This permission directly relates to an executed redevelopment agreement which is recorded with the Recorder of Deeds of the County of Cook as Document Number 89-516324.

Authority herein granted is for a period commencing on the effective date of this ordinance and running concurrent with the aforementioned redevelopment agreement.

The location of said privilege shall be as shown on the map hereto attached and made part of this ordinance as Exhibit A. Said privileges shall be maintained and used in accordance with the ordinances of the City of Chicago and the directions of the Commissioner of Streets and Sanitation, the Commissioner on Inspectional Services, the Commissioner of Public Works, the Commissioner of General Services and the Commissioner of Economic Development. The grantee shall keep that portion of the public way over or under said privileges in good condition and repair, safe for public travel, free from snow, ice and debris to the satisfaction of the Commissioner of Streets and Sanitation.

SECTION 2. The grantee agrees to pay to the City of Chicago as compensation for the privilege herein granted the sum of One Dollar (\$1.00) per annum, in advance, the first payment to be made as of date stated in Section 1, and each succeeding payment on the same day and month annually thereafter. In case of the termination of the privileges herein

granted or the grantee transfers title or vacates the premises, the grantee shall, nevertheless, remain liable to the City of Chicago for the annual compensation which shall have become due and payable under the provisions hereof, until the structures and appliances herein authorized are removed and the public way is restored as herein required. Further, renewal authority for the continued maintenance and use of the public ways as herein described shall be obtained prior to date of expiration of this ordinance.

SECTION 3. This ordinance is subject to amendment, modification or repeal, and permission and authority herein granted may be revoked by the Mayor and the Commissioner of General Services at their discretion, at any time without the consent of said grantee. Upon termination of the privileges herein granted, by lapse of time or otherwise, the grantee, without cost or expense to the City of Chicago, shall remove the structures or appliances or by the removal thereof, to a proper condition under the supervision and satisfaction of the Commissioner of Streets and Sanitation and in accordance to the Municipal Code. In the event of the failure, neglect or refusal of said grantee so to do, the City of Chicago will have the choice of either performing said work and charging the cost thereof to said grantee or determining what the cost of said work shall be and billing the grantee for said cost.

SECTION 4. It shall be the responsibility of the grantee to furnish the City of Chicago prior to issuance of permit, for these privileges, a copy of proof of insurance (Certificate of Insurance) in an amount not less than \$1,000,000.00 Combined Single Limit with said insurance covering all liability, both Public Liability and Property Damage, that may result from the granting of said privileges. The grantee must furnish the City of Chicago a Certificate of Insurance which names the City of Chicago as additional insured and also clearly indicates that the privileges being granted by this ordinance are covered by the insurance policy. Certificates renewing insurance must be furnished to the Department of General Services, Real Estate Division, no later than 30 days prior to expiration of policy. The aforementioned insurance coverage shall be maintained at all times by the grantee until the structures or appliances described in this ordinance are removed and the public way is restored as herein required.

The insurance company and the grantee, as provided in Section 5, will hold and save the City of Chicago harmless from any and all liability and expense, including judgments, costs and damages, for removal, relocation, alteration, repair, maintenance and restoration of the structures or appliances herein authorized and from any and all damages thereto on account of the location, construction, alteration, repair or maintenance of any public ways, bridges, subways, tunnels, vaults, sewers, water mains, conduits, pipes, poles and other utilities. For the City of Chicago to recover from the insurance company and grantee under this Section, it is not necessary that the City of Chicago first make said removal, relocation,

alteration, repair, maintenance or restoration. The Commissioner of Streets and Sanitation is hereby authorized to determine what cost would be involved to perform said removal, relocation, alteration, repair, maintenance or restoration. The grantee and the insurance company, upon receiving written notification from the Commissioner of Streets and Sanitation of the cost shall pay said amount. The decision of the Commissioner of Streets and Sanitation shall be final and binding.

START PROGRAM.

A proposed resolution, presented by Aldermen Shiller, Rush, Tillman, Preckwinkle, Bloom, Steele, Jones, Coleman, Streeter, Troutman, Evans, Garcia, Miller, Hendon, E. Smith, Burrell, Giles and Moore, reading as follows:

WHEREAS, The City of Chicago, through the Department of Human Services is responsible for the distribution of Head Start funds in Chicago; and

WHEREAS, The Head Start program functioning in the Chicago Public Schools has been a very successful program; and

WHEREAS, The Department of Human Services (D.H.S.), against the wishes of the current Board of Education, submitted to the federal Department of Health and Human Services a proposal to phase out funding for Head Start to the Chicago Public Schools over a three year period and to transfer these classrooms to the private sector; and

WHEREAS, To accomplish this "privatization" of the Head Start program and close classrooms in the first forty-three schools D.H.S. requested an additional Fourteen Million from the federal government; and

WHEREAS, While some of this additional money will be spent on construction and one time costs to the private agencies, the majority of this money is slated to be spent on increases in the D.H.S. bureaucracy and on increases of salary and fringe benefits for staff in the private sector Head Start programs; and

WHEREAS, In other words, the majority of this money is being spent on ongoing commitments which will have to be met yearly and which surpass the projected deficits for the original Board of Education Head Start program for the next three years combined; and

WHEREAS, While all forty-three public schools that had Head Start classrooms closed this September applied for state funded pre-kindergarten classes to replace the lost Head Start programs, only one school has received a new state funded pre-kindergarten classroom; and

WHEREAS, While twelve of these schools with classrooms that were terminated had existing state funded pre-kindergarten classes only nine of these schools had enough room in those classrooms to accommodate any Head Start children; and

WHEREAS, Very few of the Head Start slots taken from the Board of Education and designated to the private sector are being used at this time because very few classrooms are up and functioning as of the second week of school; and

WHEREAS, The majority of programs will not be ready to function until after October 1 and some not until January, 1992 if then; now, therefore,

Be It Resolved, That the Chicago City Council hereby declares that it is in support of maintaining a public school system and that it will resist any and all efforts to dismantle it; and

Be It Further Resolved, That the Chicago City Council through its Committee on Education convene a public hearing as soon as possible to explore in depth the disruption of the Head Start program in Chicago; and

Be It Further Resolved, That the Department of Human Services re-enter negotiations with the federal Department of Health and Human Services with the objective of reopening the Head Start classes cut from the Board of Education this fall, and with the objective that the Board of Education's remaining classes are no longer threatened; and

Be It Further Resolved, That the D.H.S. and the Mayor's Office enlist the support and assistance of the Illinois delegations to Congress to keep Head Start in the Chicago Public Schools.

Plan of Development attached to this ordinance reads as follows:

Business Planned Development No. _____

Plan Of Development Statements.

1. The area delineated herein as a Business Planned Development (the "Planned Development") consists of approximately 16,350 square feet or 0.375 acres of real property in its net site area (the "Property"). The boundaries of the Property are shown on the attached Property Line and Planned Development Boundary Map. Belgravia Associates, the Applicant, a California limited partnership, is the owner of the building and improvements located on the Property and is the ground lessee, as assignee, of the subject Property pursuant to a ground lease from the ground lessor, National Sporting Goods Association, a Missouri not-for-profit corporation, which ground lease demises the land for a term of years ending January 14, 2082.
2. All applicable official reviews, approvals or permits are required to be obtained by the Applicant or its successors, assignees, or grantees.
3. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the successors and assigns of the Applicant and the Property owners of record title.

Furthermore, pursuant to the requirements of Section 11.11-1 of the Chicago Zoning Ordinance, the Property and all portions thereof shall, throughout the period this Planned Development is in effect, be held under single ownership or under single designated control. Single designated control, for purposes of this paragraph, shall mean that a single person, corporation, association or other entity has been designated and authorized by the owner or owners of all of the Property as Authorized Agent of the Property for the limited purposes of (1) receiving any and all zoning enforcement-related or other zoning-related communications from the City in relation to and on behalf of the affected Property owner or owners, and (2) making application to the City for any subsequent amendment to this Planned Development or any other modification or change thereto (administrative, legislative or otherwise) on behalf and in the name of the affected owner or owners of the Property. Nothing herein shall be construed to mean that any owner of the Property or any portion thereof is relieved of any obligation hereunder or any rights in relation thereto, or may not receive directly such communications or is not subject to City action pursuant to this Planned Development. Nothing herein shall, however, prohibit or in any way restrict the alienation, sale, or any other transfer of all or any portion of the Property or any rights therein.

4. This Plan of Development consists of 14 Statements; an Existing Zoning Map; a Property Line and Planned Development Boundary Map; a Generalized Land Use Map; an Existing Land Use Map; a Table of Use and Bulk Regulations and Related Controls; a Building Massing/Setback Diagram; a Michigan Avenue Elevation and a Superior Street Elevation, which elevations are illustrative examples only and are not literal in character; and a Site Plan/Landscape Plan prepared by DeStefano/Goettsch, Ltd., dated June 13, 1991. Full size sets of the Site Plan/Landscape Plan are on file with the Department of Planning. The Planned Development is applicable to the area delineated herein and these and no other controls shall apply. The Planned Development conforms to the intent and purpose of the Chicago Zoning Ordinance, Chapter 194A of the Municipal Code of Chicago, and all requirements thereof, and satisfies the established criteria for approval as a planned development.
5. The permitted uses in the Planned Development are as follows: office and related uses, retail and service establishments, restaurants, including live entertainment and dancing, taverns (except that tavern uses shall not be accessible directly from the public way), telecommunications equipment, structures and installations including parabolic dishes exceeding eight feet in diameter, and other permitted uses pursuant to Section 8.3-7 of the Chicago Zoning Ordinance, except residential uses.

6. Business and business identification signs shall be permitted within the Planned Development subject to the review and approval of the Department of Planning. Temporary signs such as construction and marketing signs shall be permitted subject to the aforesaid approval.
7. Any dedication or vacation of streets, alleys or any adjustment of right-of-way shall require a separate submittal on behalf of the Applicant and approval by the City Council.
8. Off-street parking and loading facilities will be provided in compliance with this Planned Development and shall be subject to the review and approval of the Commissioner of Planning and the Department of Public Works, Bureau of Traffic Engineering and Operations. Primary loading shall be via the loading berths accessed from St. Clair Street. No loading shall be permitted at any time from Michigan Avenue and, prior to the introduction, if any, of a Central Area Transit Circulator utilizing either Superior Street or St. Clair Street in proximity to the Property, no secondary loading during the peak traffic hours of 7:00 A.M. to 9:00 A.M., 12:15 P.M. to 1:15 P.M. and 4:00 P.M. to 6:00 P.M. shall take place off of Superior Street. Responsibility for monitoring and enforcing this condition shall be the obligation of the Applicant which shall take such measures as reasonably appropriate to ensure compliance.

In the event of the introduction of a Central Area Transit Circulator utilizing either Superior Street or St. Clair Street in proximity to the Property, the foregoing loading prohibitions shall remain in effect and, in addition, if the Department of Public Works, Bureau of Street Traffic, determines that introduction of such transit circulator in St. Clair Street creates a substantial conflict with the loading access of the Property, the Applicant will cooperate with the Bureau of Street Traffic to resolve such conflict, including retention of independent consultants, by installation of appropriate controls, such as turntable, signalling devices, striping, signage or other operational controls as the Department of Public Works, Bureau of Street Traffic, may reasonably request.

9. Any service drives or other ingress or egress shall be adequately designed and paved in accordance with the regulations of the Department of Streets and Sanitation in effect at the time of construction and in compliance with the Municipal Code of the City of Chicago, to provide ingress and egress for motor vehicles, including emergency vehicles. There shall be no parking within such paved area. Ingress and egress shall be subject to the review and approval of the Bureau of Traffic Engineering and Operations and of the Commissioner of Planning.

10. Height restriction of any building or any appurtenance thereto, shall, in addition to the Table of Use and Bulk Regulations, be subject to:
 - a) height limitations as certified on Form FAA-117 or successor forms involved in the same subject matter and approved by the Federal Aviation Administration; and
 - b) airport zoning regulations as established by the Department of Planning, the Department of Aviation and the Department of Law and approved by the City Council.
11. For purposes of Floor Area Ratio (F.A.R.) calculations, the definitions in the Chicago Zoning Ordinance shall apply. In addition to the other exclusions from floor area for purposes of determining F.A.R. permitted by the Chicago Zoning Ordinance, all floor area in excess of 5,000 square feet devoted to mechanical equipment in a single location, regardless of placement in the building, shall be excluded.
12. This Planned Development herein shall be subject to the "Rules, Regulations and Procedures in Relation to Planned Developments", as promulgated by the Commissioner of Planning and in effect on the date hereof.
13. The improvements on the Property, including the ground floor retail areas, the office lobby, and all entrances and exits to the loading area, shall be designed and constructed in general conformance with the Site Plan/Landscape Plan. In addition, the design and construction of the improvements on the Property shall be subject to the following conditions:
 - a) the existing three-story structure on the Property shall be retained and shall constitute the base of the intended office tower;
 - b) the office tower shall be designed and constructed in general conformance with the illustrative elevations referenced in Statement No. 4, provided, however, that changes or deviations from said elevations may be made so long as the following principals are adhered to:
 - i) the office tower shall be architecturally integrated with the base to form a single structure of three distinct but related elements -- base (which may be

the existing three-story structure), shaft (which may be a two-story mechanical floor and 22 typical office floors), top of the structure (which may be the final six floors);

- ii) the base shall be reclad, the dominant character of which shall be a masonry material consistent with the similar base materials of existing Michigan Avenue structures;
 - iii) the shaft shall be articulated, such as in a vertical fluting or horizontal ribbon expression, and will extend the masonry character of the base as a principal (not less than 20%) cladding element of the Michigan Avenue and Superior Street facade compositions and which will be so composed as to exclude as components thereof painted concrete and glass elements which are either mirrored or highly reflective;
 - iv) the top of the structure shall incorporate design elements of the base and shaft so as to form an integrated whole;
 - v) materials and design (including architectural detail) shall be of high quality which is consistent with and reflective of high quality buildings along Michigan Avenue.
- c) the ground floor of the Property's frontage along Michigan Avenue and Superior Street shall be devoted to retail uses or entrances to the retail space, provided that an entrance to the office tower may be established along Superior Street;
- d) the exterior landscaping shall be designed, constructed and maintained in general conformance with the Site Plan/Landscape Plan. As indicated in the plan note on the Site Plan/Landscape Plan, the existing mature trees shall be maintained in compliance with the Landscape Ordinance of the City of Chicago adopted March 13, 1991. If one or more of such existing trees does not survive the construction process, it shall be replaced with a tree or trees of not less than six (6) inches in caliper, subject to and in accordance with the standards of the Department of Streets and Sanitation, Bureau of Forestry and the Department of Public Works, Bureau of Street Traffic and subject to the approval of the Department of Planning;

- e) the Applicant shall, for a period of five (5) years from the adoption of this ordinance, be responsible for watering and fertilizing parkway trees required to be provided by the Landscape Plan and for routine care of the parkway lawn. Routine care of the parkway lawn shall include periodic watering, weeding and mowing;
 - f) the requirements of this statement may be modified administratively by the Commissioner of the Department of Planning upon the request of the Applicant and after a determination by the Commissioner of the Department of Planning that such a modification is consistent with the nature of the improvements contemplated in this Planned Development. Such a modification shall be deemed to be a minor change in the Planned Development as contemplated by Section 11.11-3 (c) of the Chicago Zoning Ordinance.
14. Unless substantial construction of the proposed structure has commenced within ten (10) years following adoption of this Planned Development, and unless completion is thereafter diligently pursued, then this Planned Development shall expire; provided, however, that if the City Council amends the Chicago Zoning Ordinance to provide for a shorter expiration period which is applicable to all planned developments, then this Planned Development shall expire upon the expiration of such shorter time period as provided by said amendatory ordinance (the first day of which as applied to this Planned Development shall be the effective date of the amendatory ordinance). If this Planned Development expires under the provisions of this section, then the zoning of the Property shall automatically revert to that of a B6-7 Restricted Central Business District.

AMENDMENT OF TITLE 4, CHAPTER 100 OF MUNICIPAL CODE
OF CHICAGO BY INSERTING NEW ARTICLE III ENTITLED
"STATE 2 VAPOR RECOVERY SYSTEMS" AND
CONTAINING SECTIONS 4-100-190 TO
4-100-300, INCLUSIVE.

On motion of Alderman Burke, the City Council took up for consideration the report of the Committee on Energy, Environmental Protection and Public Utilities, deferred and published in the Journal of the Proceedings of June 28, 1991, pages 2779 through 2786, recommending that the City Council amend Title 4, Chapter 100 of the Municipal Code of Chicago by inserting a new Section 35 entitled "Control of Petroleum Liquid Storage, Loading and Transfer".

Alderman Burke presented the following proposed substitute ordinance:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. Chapter 4-100 of the Municipal Code of Chicago is hereby amended by inserting new Article III, entitled "Stage 2 Vapor Recovery Systems", and containing Sections 4-100-190 to 4-100-330, inclusive, as follows:

4-100-190. Whenever used in this Article, unless the context requires a different meaning:

(a) "Commissioner" means the Commissioner of Consumer Services.

(b) "Department" means the Department of Consumer Services.

(c) "Gasoline" means any conventional, reformulated, or otherwise blended volatile liquid suitable for use as a motor vehicle fuel, excluding diesel fuel and kerosene.

(d) "Gasoline transport vehicle" means any truck, trailer, or railroad tank car, with a capacity of 300 gallons or more, used for the transportation of gasoline.

(e) "Monthly volume" means the amount of gasoline dispensed from a gasoline dispensing facility during any calendar month. For facilities in continuous existence since November 15, 1988, the average monthly volume will be based on the monthly sales for the period November 15, 1988 to November 15, 1990. For other facilities, the Commissioner shall prescribe by rule the method of computing monthly volume.

(f) "Gasoline dispensing facility" or "facility" means any site where gasoline storage tanks are maintained and operated in the refueling of motor vehicles.

(g) "Vapor Collection and Recovery System" means a vapor-tight collection system or other system that removes and collects at least 90 percent, by weight, of gasoline vapors that are generated during refueling of a motor vehicle, and prevents the release of the vapors into the atmosphere.

4-100-200. No owner or operator of a gasoline dispensing facility shall cause or allow the dispensing of gasoline at any time unless the facility is equipped with and uses at all times a vapor collection and recovery system which has been approved by the Commissioner and is operated in accordance with this Article. This requirement shall not apply to (a) any facility which sells less than 50,000 gallons per month average monthly volume and qualifies as an independent, small business marketer of gasoline as defined in Section 325 of the Federal Clean Air Act Amendments of 1990; or (b) any other facility which sells less than 10,000 gallons of gasoline per month average monthly.

4-100-210. No vapor collection and recovery system shall be installed or operated unless the components comprising the system have been approved by the Commissioner. It shall be the responsibility of the owner or operator of the subject gasoline fuel dispensing facility to provide proof to the

Commissioner that the vapor collection and recovery system, as installed, meets the requirements promulgated by the Commissioner for approval of the system.

4-100-220. The owner or operator of a gasoline fuel dispensing facility shall train and instruct operators and employees of the gasoline dispensing facility in the proper operation and maintenance of the vapor collection and recovery system.

4-100-230. The owner or operator of a gasoline dispensing facility shall maintain all vapor collection and recovery equipment in accordance with the manufacturer's specifications and the regulations issued by the Commissioner.

4-100-240. The owner or operator of a gasoline dispensing facility shall post operating instructions for dispensing gasoline using the vapor collection and recovery system in a conspicuous and readily visible place within the gasoline dispensing area. The physical specifications and language of these instructions must include:

- (a) A clear description of how to correctly dispense gasoline using the system;*
- (b) A warning not to attempt continued refueling after automatic shutoff;*
- (c) The telephone number of the Department to report any problems experienced with the vapor collection and recovery system;*
- (d) A warning that breathing gasoline vapors is hazardous to human health, and that the user is responsible for proper operation of the dispensing equipment; and*
- (e) Such other information and warnings as the Commissioner may require by regulation.*

4-100-250. No owner or operator of a gasoline dispensing facility shall modify, remove, replace, or otherwise change or render inoperative any element or component of the vapor collection and recovery system which would render the system incapable of collecting gasoline vapors in accordance with this ordinance and the regulations issued by the Commissioner. No owner or operator of a gasoline dispensing facility shall allow the use of a vapor collection and recovery system with defective, malfunctioning or missing components.

4-100-260. No person shall sell, offer for sale or install any new or rebuilt vapor collection and recovery system equipment for use within the

City of Chicago, unless the system, components and parts are approved by the Commissioner.

4-100-270. (a) The owner or operator of a gasoline dispensing facility shall comply with all provisions of this Article in accordance with the earliest date of the following schedule:

- (1) Any licensee who installs new gasoline storage tanks or repairs or replaces existing tanks shall at the same time install a vapor collection and recovery system on the tanks.*
- (2) The owner or operator of a gasoline dispensing facility with an average monthly volume of gasoline of 100,000 gallons or more shall install and operate vapor collection and recovery devices on all gasoline dispensing tanks and hoses within one year of the effective date of this ordinance.*
- (3) The owner or operator of a gasoline dispensing facility with an average monthly volume of gasoline of at least 10,000 gallons but less than 100,000 gallons shall install and operate vapor collection and recovery devices on all gasoline dispensing tanks and hoses within two years of the effective date of this ordinance.*

(b) The owner and operator of a gasoline dispensing facility shall report in writing to the Commissioner on or before the 90th day following the effective date of this ordinance, when the facility shall come into compliance with the terms of this Section. It shall be the responsibility of the owner or operator to provide written proof to the Commissioner demonstrating that the identified compliance date is in accord with the compliance dates set forth in this Section.

4-100-280. Upon written notice from the Commissioner, the owner or operator of a gasoline dispensing facility shall perform or have performed tests to demonstrate compliance with the terms of this Article, in accordance with methods approved by the Commissioner.

4-100-290. (a) The owner or operator of a gasoline dispensing facility shall, at least 10 calendar days before the installation of the vapor collection and recovery system, notify in writing the Commissioner of the actual dates of installation and the specific type of vapor collection and recovery system to be installed.

(b) The owner or operator of a gasoline dispensing facility, in the event of a defect or malfunction which renders the vapor collection and control system incapable of being operated in accordance with the manufacturer's specifications and/or the Commissioner's certification, shall report the defect or malfunction to the Commissioner within one business day of

discovery of such breakdown. Such report shall identify the time, specific location, equipment involved, and the causes of the malfunction.

(c) The owner or operator of a gasoline dispensing facility must report in writing to the Commissioner on or before April 1 of each year the type and duration of any defect or malfunctions of vapor collection and recovery systems which occurred during the previous calendar year, and the repairs undertaken to correct and prevent recurrence of the malfunction. In addition, a record of the type and duration of such malfunctions and the repairs undertaken to correct and prevent recurrence of the malfunction must be maintained at each facility for a period of five years, and made available for inspection by the Department at any time.

4-100-300. (a) No owner or operator of a gasoline transport vehicle shall allow said vehicle to be filled or emptied unless the vehicle:

- (1) Sustains a pressure change of not more than three inches of water in five minutes when pressurized to a gauge pressure of eighteen inches of water and evacuated to a gauge pressure of six inches of water;*
- (2) Is repaired by the owner or operator within fifteen days after failing to meet the pressure change standard;*
- (3) Complies with all regulations issued by the Commissioner and requirements of the Illinois Pollution Control Board for the transfer of gasoline from any delivery vessel into any stationary storage tank at a gasoline dispensing facility.*

(b) All gasoline transport vehicles must undergo a pressure-vacuum test within one year after the effective date of this Section, and each succeeding test is to be done within one year of the previous test. The owner of a gasoline transport vehicle shall test the vehicle annually for compliance with this Article, using test methods of the Commissioner.

(c) During the loading or unloading of a gasoline transport vehicle, leakage from any component of the gasoline transport vehicle or the vapor collection and recovery system shall not be visible. No avoidable visible liquid leakage from such components is allowed. Components of the transport vehicle or vapor collection and recovery systems include all piping, seals, hoses, connections, pressure-vacuum seals, and other possible leak sources. All fittings and seals of such components are to be vapor tight. All appropriate hoses and return lines are to be connected and in place prior to initiating unloading.

(d) No owner or operator of a gasoline transport vehicle shall allow the vehicle to be loaded under a pressure exceeding eighteen inches of water gauge, or to be unloaded under a vacuum exceeding six inches of water gauge.

(e) No owner or operator of a gasoline transport vehicle shall allow the vehicle to be loaded or unloaded or in motion unless the dome covers on the vehicles are closed, except with vehicles that are hatch loaded.

(f) The owner or operator of any gasoline transport vehicle shall maintain the following records:

- (1) Pressure-Vacuum Test and Repair Log, which shall include identification of the vehicle, the result of the test, the test and repair dates, and the nature of the repairs;
- (2) A copy of the most recent pressure-vacuum test, kept in the transport vehicle itself;
- (3) Such records are to be maintained for a period of three years, and be available to the Commissioner upon request.

4-100-310. The Commissioner shall promulgate rules and regulations as appropriate, to implement the terms of this ordinance within 90 days of the effective date of this chapter. In determining standards for approval of vapor recovery and collection systems, the Commissioner shall consider the availability of systems and their components, the ability of a system to withstand frequent use, the suitability of a system to local climate conditions, and approval of systems by other government agencies.

4-100-320. (a) The Commissioner may suspend or seek the revocation of the filling station license of any licensee who violates any provision of this Article or the regulations issued hereunder in accordance with the procedures established in this Section.

(b) If a vapor collection and recovery system is inoperable or in a condition that presents an immediate danger to persons using or near the system, the Commissioner may immediately suspend the licensee's license and require the licensee to cease all operations at the facility until the system is fully operable and the dangerous condition is eliminated.

(c) In situations other than those described in the foregoing subsection, the Commissioner shall notify the licensee of the specific charges against him and of his right to a hearing. Notice shall be served either in person or by first class mail, return receipt requested, sent to the licensee at his place of business. If the licensee, within seven days after receipt of the notice, requests a hearing, the Commissioner shall convene a hearing on the

charges within 30 days after the request. The Commissioner shall notify the licensee of the time, date and place of the hearing not less than 10 days prior thereto. The Commissioner, or his designee, shall conduct the hearing in accordance with rules and regulations promulgated for that purpose. The licensee shall have the right to examine witnesses and introduce evidence in his behalf, and may be represented by counsel. The final order in the hearing shall be in writing, and shall indicate those charges, if any, of which the Commissioner has found the licensee guilty and the penalties therefor. An order imposing a suspension may be appealed by the licensee to the appropriate court.

(d) The Commissioner may file charges before the mayor's license commission seeking the revocation of license under this chapter. Following a hearing conducted in accordance with its rules, the commission shall determine whether revocation is warranted or a lesser penalty, if any, should be imposed.

4-100-330. In addition to other penalties provided in this Article, any person who violates any provision of this Article or the regulations issued hereunder shall be subject to a fine of not less than \$100 and not more than \$500 for each offense. Each day that a violation continues shall constitute a separate and distinct offense.

SECTION 2. This ordinance shall be in full force and effect twenty-five (25) days after state and/or local regulations requiring the use of vapor collection and recovery systems in gasoline dispensing facilities are adopted by municipalities comprising not less than 33% of the total land area in the Illinois Chicago Metropolitan Statistical Ozone Non-Attainment Area (exclusive of the City of Chicago) as defined by the Illinois Environmental Protection Agency and the U.S. Environmental Protection Agency.

Alderman Burke moved to *Substitute* the foregoing proposed ordinance for the proposed ordinance printed in the Journal of the Proceedings of June 28, 1991. The motion *Prevailed* by a viva voce vote.
