Redevelopment Plan And Project.

*Stockyards Southeast Quadrant Industrial Redevelopment
Area Tax Increment Allocation
Finance Program.*

Executive Summary.

Goals And Objectives.

General Goals:

- Improve the quality of life in Chicago by eliminating the influence of, as well as the manifestations of, both physical and economic blight in the Redevelopment Project Area.
- Provide sound economic development in the Redevelopment Project Area.
- Revitalize the Redevelopment Project Area to make it an important center contributing to the revitalization of the Redevelopment Area.
- Create an environment within the Redevelopment Project Area which will contribute to the health, safety, and general welfare of the City, and preserve or enhance the value of properties in the Redevelopment Project Area.
- Create suitable locations for industry.

- Create job opportunities.
- Achieve changes of land use, through development of coordinated clusters of uses for neighborhood shopping and industry.

Redevelopment Objectives:

- Reduce or eliminate those conditions which qualify the Redevelopment Project Area as a Blighted Area. Section IV of this document, Blighted Area Conditions Existing in the Redevelopment Project Area, describes the blighting conditions.
- Return tax delinquent properties back to the tax roles.
- Enhance the tax base of the City of Chicago and of the other taxing districts which extend into the Redevelopment Project Area by encouraging private investment in new commercial and industrial construction.
- Strengthen the economic well-being of the Redevelopment Project Area and the City by increasing business activity, taxable values, and job opportunities.
- Encourage the assembly of land into parcels functionally adaptable with respect to shape and size for industrial redevelopment needs and standards.
- Provide needed incentives to encourage improvements for new development efforts.
- Improve the appearance and security of the Redevelopment Project Area by creating a new industrial area.
- Provide needed incentives to encourage a broad range of improvements in both new development and rehabilitation efforts.
- Encourage the participation of minorities and women in the development of the Redevelopment Project Area.

Development And Design Objectives:

- Establish a pattern of land use activities arranged in compact, compatible groupings to increase efficiency of operation and economic relationships.

- Encourage coordinated development of parcels and structures in order to achieve efficient building design; unified off-street parking, trucking and service facilities; and appropriate access to nearby highways.
- Achieve development which is integrated both functionally and aesthetically with nearby existing development.
- Ensure safe and adequate circulation patterns and capacity in the project area.
- Encourage a high-quality appearance of buildings, rights-of-way and open spaces, and encourage high standards of design.
- Encourage development of usable industrial space of all sizes.

Based upon surveys, inspections, research and analysis of the area by Louik/Schneider & Associates, Inc., the Stockyards Southeast Quadrant Industrial Redevelopment Project Area qualifies as a vacant "blighted area" as defined by the Act. The area is characterized by the presence of two of the blighting factors for vacant land as listed in the Act, impairing the sound growth of the taxing districts in the City of Chicago.

Specifically:

- Of the fourteen factors set forth in the law, eleven are present in the Study Area.
- The blighting factors which are present are reasonably distributed throughout the Study Area.
- All areas within the Study Area show the presence of blighting factors.

Based upon the findings of the Eligibility Study for the Stockyards Southeast Quadrant Industrial Area, the Redevelopment Project Area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of this Redevelopment Plan.

Redevelopment Plan.

The Redevelopment Plan proposes the development of approximately 70 acres of new industrial facilities that will stimulate other industrial

development by the private sector in the area outside of the proposed Redevelopment Project Area. In order to accomplish the City of Chicago objective of stimulating industrial development in the Stockyards Southeast Quadrant Industrial Redevelopment Area, public and private improvements need to take place. This Redevelopment Plan will make approximately 70 acres of land available for industrial facilities development.

The proposed Stockyards Southeast Quadrant Industrial Redevelopment Project Area will require planning and programming of improvements. The redevelopment agreement will generally provide for the City to provide funding for necessary soil and site improvements. The funds for said improvements are to come from the City's issuance of bonds to be repaid from the incremental increase in tax revenues to be generated from the entire Redevelopment Project Area. Developers or users will undertake the responsibility for the required soil and site improvements, a portion of which may be paid for from the issuance of bonds, and will further be required to build any agreed to improvements and necessary ancillary improvements required for the project.

The estimated redevelopment project costs are shown in Table 1. To the extent that municipal obligations have been issued to pay for such redevelopment project costs included prior to, but in anticipation of, the adoption of tax increment financing, the City shall be reimbursed for such redevelopment project costs. The total redevelopment project costs provide an upper limit on expenditures (exclusive of capitalized interest, issuance costs, interest and other financing costs).

Table 1.

Program Action/Improvements.

Land Acquisition	\$ 500,000
Demolition	3,500,000
Site Preparation	5,300,000
Environmental Remediation	2,500,000
Public Improvements	500,000
Job Training	500,000
Interest Subsidies	1,000,000
Contingencies	400,000

Planning, Legal, Studies, etc.	<u>300,000</u>
TOTAL PROJECT COSTS:*	\$14,500,000

* Exclusive of capitalized interest, issuance costs and other financing costs.

Funds necessary to pay for redevelopment project costs and municipal obligations which have been issued or incurred to pay for such costs are to be derived principally from tax increment revenues and proceeds from municipal obligations which have as their revenue source tax increment revenue. To secure the issuance of these obligations, the City may permit the utilization of guarantees, deposits and other forms of security made available by private sector developers.

The tax increment revenue which will be used to fund tax increment obligations and redevelopment project costs shall be the incremental real property tax revenues. Incremental real property tax revenue is attributable to the increase in the current equalized assessed value of each taxable lot, block, tract or parcel of real property in the Redevelopment Project Area over and above the initial equalized assessed value of each such property in the Redevelopment Project Area. Other sources of funds which may be used to pay for redevelopment costs and obligations issued or incurred, the proceeds of which are used to pay for such costs, are land disposition proceeds, state and federal grants, investment income, and such other sources of funds and revenues as the municipality may from time to time deem appropriate.

Issuance Of Obligations.

To finance redevelopment costs a municipality may issue obligations secured by the anticipated tax increment revenue generated within the T.I.F. redevelopment area. In addition, a municipality may pledge towards payment of such obligations any part or any combination of the following: (a) net tax increment revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Revenues shall be used for the scheduled and/or early retirement of obligations, and for reserves, bond sinking funds and redevelopment project costs, and, to the extent that real property tax increment is not used for such purposes, shall be declared surplus and shall then become available for distribution annually to taxing districts in the Redevelopment Project Area in the manner provided by the Act.

Most Recent Equalized Assessed Valuation Of Properties In The Redevelopment Project Area.

The total 1989 equalized assessed valuation for the entire Redevelopment Project Area is \$20,448,607. This equalized assessed valuation is subject to final verification by Cook County. After verification, the County Clerk of Cook County, Illinois will certify the amount, and this amount will serve as the "Initial Equalized Assessed Valuation".

Anticipated Equalized Assessed Valuation.

By the year 2000, when it is estimated that all the anticipated private development will be completed and fully assessed, the estimated equalized assessed valuation of real property within the Redevelopment Project Area is estimated at between \$32,000,000 and \$37,000,000. These estimates are based on several key assumptions, including: 1) all new industrial development will be completed in 1998; 2) the market value of the anticipated developments will increase following completion of the redevelopment activities described in the Redevelopment Project and Plan; 3) the most recent State Multiplier of 1.9133 as applied to 1989 assessed values will remain unchanged and 4) for the duration of the project the tax rate for the entire Redevelopment Project Area is assumed to be the same and will remain unchanged from the 1989 level.

Introduction.

The Stockyards Southeast Quadrant Industrial Redevelopment Project Area contains approximately 228.5 acres. The Redevelopment Project Area is bounded generally on the north by Exchange Avenue, on the east by Halsted Street, on the south by West 47th Street, and on the west by Packers Avenue. Halsted Street, 47th Street and Racine Avenue provide the major access to the Redevelopment Project Area. The Redevelopment Project Area is located in an area of Chicago that has excellent transportation access. The Dan Ryan Expressway lies one mile east along 39th Street, Root Street to 43rd Street and 47th Street, and the Stevenson Expressway is 1.5 miles north along Ashland Avenue. The location and boundaries of the Redevelopment Project Area are shown on Map 1, Project Boundary.

The Stockyards Southeast Quadrant Industrial Redevelopment Project Area is located in the New City Community Area within the area known as the former Union Stockyards which is primarily an industrial area. The Redevelopment Project Area is underutilized. It contains considerable areas of vacant land on which there is debris including cinders, bricks, concrete and wood. Some previous building improvements were removed in the 1960's due to their advanced state of decay. There are abandoned railroad tracks in portions of the Redevelopment Project Area.

The purpose of the Redevelopment Plan is to create a mechanism to allow for the development of new industrial facilities on the vacant and underutilized land and to remove dilapidated structures to create an environment suitable for industrial development in the Redevelopment Project Area. The redevelopment of this Project Area is expected to encourage economic revitalization within the community and surrounding area.

Tax Increment Allocation Redevelopment Act.

An analysis of conditions within this area indicates that it is appropriate for designation as a redevelopment project, utilizing the State of Illinois tax increment financing legislation. The area is characterized by conditions which warrant the designation as a "blighted area" within the definitions set forth in the Tax Increment Allocation Redevelopment Act (hereafter referred to as the "Act"). The Act is found in the Illinois Revised Statutes, Chapter 24, Section 11-74.4-1 et seq., as amended.

The Act provides a means for municipalities, after the approval of a "Redevelopment Plan and Project" to redevelop blighted areas by pledging the increase in tax revenues generated by public and private redevelopment in order to pay for the up front public costs which are required to stimulate such private investment in new redevelopment and rehabilitation. Municipalities may issue obligations to be repaid from the stream of real property tax increments that occur within the tax increment financing district.

The property tax increment revenue is calculated by determining the difference between the initial equalized assessed value (the Certified E.A.V. Base) for all real estate located within the district and the current year E.A.V.. Any increase in E.A.V. is then multiplied by the current tax rate, which determines the incremental real property tax.

The Stockyards Southeast Quadrant Industrial Redevelopment Area Project and Plan (hereafter referred to as the "Redevelopment Plan") has been formulated in accordance with the provision of the Act. It is a guide to all proposed public and private action in the Redevelopment Project Area. In addition to describing the objectives of redevelopment, the Redevelopment

Plan sets forth the overall program to be undertaken to accomplish these objectives. This program is the "Redevelopment Project".

This Redevelopment Plan also specifically describes the Stockyards Southeast Quadrant Industrial Redevelopment Tax Increment Redevelopment Project Area (hereafter referred to as the "Redevelopment Project Area"). This area meets the eligibility requirement of the Act. The Redevelopment Project Area boundaries are described in Section II of the Redevelopment Plan and shown in Map 1, Boundary Map.

After its approval of the Redevelopment Plan, the City Council then formally designates the Redevelopment Project Area.

The purpose of this Redevelopment Plan is to ensure that new development occurs:

1. On a coordinated rather than a piecemeal basis to ensure that the land use, vehicular access, parking, service and urban design systems will meet modern-day principles and standards.
2. On a reasonable, comprehensive and integrated basis to ensure that blighting factors are eliminated.
3. Within a reasonable and defined time period.

Revitalization of the Redevelopment Project Area is a large and complex undertaking and presents challenges and opportunities commensurate to its scale. The success of this effort will depend to a large extent on the cooperation between the private sector and agencies of local government. The adoption of the Redevelopment Plan makes possible the implementation of a logical program to stimulate redevelopment in the Redevelopment Project Area -- an area which cannot reasonably be anticipated to be developed without the adoption of this Redevelopment Plan. Public investments will create the appropriate environment to attract the investment required for the rebuilding of the area.

Successful implementation of the Redevelopment Plan and Project requires that the City of Chicago take full advantage of the real estate tax increments attributed to the Redevelopment Project as provided in accordance with the Act. The Redevelopment Project Area would not be reasonably developed without the use of such incremental revenues.

Redevelopment Project Area And Legal Description.

The Stockyards Southeast Quadrant Industrial Redevelopment Project Area is located approximately six miles northwest of Chicago's Central Business District. The Redevelopment Project Area contains approximately 228.5 acres. The Redevelopment Project Area is bounded generally on the north by Exchange Avenue, on the east by Halsted Street, on the south by West 47th Street, and on the west by Packers Avenue. Halsted Street, 47th Street and Racine Avenue provide the major access to the Redevelopment Project Area.

The legal description of the Stockyards Southeast Quadrant Industrial Redevelopment Project Area is as follows:

Redevelopment Project Area Goals And Objectives.

General Goals:

- Improve the quality of life in Chicago by eliminating the influence of, as well as the manifestations of, both physical and economic blight in the Redevelopment Project Area.
- Provide sound economic development in the Redevelopment Project Area.
- Revitalize the Redevelopment Project Area to make it an important center contributing to the revitalization of the Redevelopment Area.
- Create an environment within the Redevelopment Project Area which will contribute to the health, safety, and general welfare of the City, and preserve or enhance the value of properties in the Redevelopment Project Area.
- Create suitable locations for industry.
- Create job opportunities.
- Achieve changes of land use, through development of coordinated clusters of uses for neighborhood shopping and industry.

Redevelopment Objectives:

- Reduce or eliminate those conditions which qualify the Redevelopment Project Area as a Blighted Area. Section IV of this document, Blighted Area Conditions Existing in the Redevelopment Project Area, describes the blighting conditions.
- Return tax delinquent properties back to the tax roles.
- Enhance the tax base of the City of Chicago and of the other taxing districts which extend into the Redevelopment Project

Area by encouraging private investment in new commercial and industrial construction.

- Strengthen the economic well-being of the Redevelopment Project Area and the City by increasing business activity, taxable values, and job opportunities.
- Encourage the assembly of land into parcels functionally adaptable with respect to shape and size for industrial redevelopment needs and standards.
- Provide needed incentives to encourage improvements for new development efforts.
- Improve the appearance and security of the Redevelopment Project Area by creating a new industrial area.
- Provide needed incentives to encourage a broad range of improvements in both new development and rehabilitation efforts.
- Encourage the participation of minorities and women in the development of the Redevelopment Project Area.

Development And Design Objectives:

- Establish a pattern of land use activities arranged in compact, compatible groupings to increase efficiency of operation and economic relationships.
- Encourage coordinated development of parcels and structures in order to achieve efficient building design; unified off-street parking, trucking and service facilities; and appropriate access to nearby highways.
- Achieve development which is integrated both functionally and aesthetically with nearby existing development.
- Ensure safe and adequate circulation patterns and capacity in the project area.
- Encourage a high-quality appearance of buildings, rights-of-way and open spaces, and encourage high standards of design.
- Encourage development of usable industrial space of all sizes.

Investment in new development is essential in the Stockyards Southeast Quadrant Industrial Redevelopment Project Area. Development efforts in the Redevelopment Project Area will strengthen the entire City through environmental improvements, an increased tax base and additional employment opportunities.

This section of the Redevelopment Plan identifies the goals and objectives of the Redevelopment Project Area. A latter section of the Redevelopment Plan identifies more specific programs which the City plans to undertake in achieving the redevelopment goals and objectives which have been identified.

Blighted Area Conditions Existing In The Redevelopment Project Area.

Based upon surveys, inspections, research and analysis of the area by Louik/Schneider & Associates, Inc., the Redevelopment Project Area qualifies as a "blighted area" as defined by the Act. A separate report entitled Stockyards Southeast Quadrant Industrial Redevelopment Area Tax Increment Financing District Eligibility Report", dated September, 1991 describes in detail the survey and analysis undertaken and the basis for the finding that the Redevelopment Project Area qualifies as a "blighted area" as defined by the Act. Summarized below are the findings of the Eligibility Report. The area is characterized by the presence of eleven of the blighting factors for an improved area as listed in the Act, impairing the sound growth of the taxing districts in this area of the City. Specifically:

- Of the fourteen factors set forth in the law, eleven are present in the area.
- The blighting factors which are present are reasonably distributed throughout the Study Area.
- All areas within the Study Area show the presence of blighting factors.

1. Age.

Age as a factor is present in two of the three blocks in the Study Area. Of the thirty total buildings in the Study Area, twenty-one (70 percent) are 35 years of age or older.

2. Dilapidation.

Dilapidation is present in two parcels containing eleven interconnected buildings. These buildings significantly impact one block of the Study Area.

3. Obsolescence.

Obsolescence as a factor is present in two of the three blocks. Sixteen of the thirty structures (53 percent) are obsolete and there are numerous parcels which are obsoletely platted.

4. Deterioration.

Deterioration as a factor is present in many of the parcels in the Study Area. Conditions contributing to this factor include deteriorating structures, deteriorating off-street parking and storage areas and site surface areas. Twenty-one of the thirty structures (70 percent) are characterized by deterioration including four parcels which contain structures that have deterioration of parking surfaces.

5. Illegal Use Of Individual Structures.

There was no evidence of structures which were illegal uses as defined by municipal ordinance.

6. Structures Below Minimum Code Standards.

Structures below the City's minimum code standards for existing buildings as a factor is present in one parcel having a major impact on one block.

7. Excessive Vacancies.

Excessive vacancies as a factor is present in two of the three blocks. Twelve buildings were entirely vacant (40 percent) and another was partially vacant. The Study Area contains over 70 acres of vacant underutilized land (31 percent of the entire area).

8. Overcrowding Of Structures And Community Facilities.

There was no evidence of overcrowding of structures in the Study Area.

9. Lack Of Ventilation, Light Or Sanitary Facilities.

Twelve structures in the Study Area exhibit a lack of ventilation, light or sanitary facilities.

10. Inadequate Utilities.

Inadequate utilities are present in the interior area of one Block and in providing direct access to another Block in the Study Area.

11. Excessive Land Coverage.

There was no evidence of excessive land coverage in the Study Area.

12. Deleterious Land Use Or Layout.

Deleterious land use or layout is present in fifty-four parcels of the sixty-five parcels (83 percent) in the Study Area. Conditions contributing to this factor include outside storage areas, large tracts of vacant and underutilized land, vacant and dilapidated structures and sub-standard streets limiting access to portions of the Study Area.

13. Depreciation Of Physical Maintenance.

Depreciation of physical maintenance is present in twenty of the thirty structures (67 percent) in the Study Area. In addition, almost all vacant parcels have deteriorated surfaces and fly dumping. Conditions contributing to this factor include deferred maintenance and lack of maintenance of buildings, parking and storage areas, and site improvements. Depreciation of physical maintenance is present in fifty of the sixty-five parcels (77 percent) in the Study Area.

14. Lack Of Community Planning.

Lack of community planning is present to a major extent throughout the Study Area. Conditions contributing to this factor include parcels of inadequate size contemporary development in accordance with current day needs and standards, and the lack of reasonable development controls for building uses, setbacks, off-street parking and loading and the limited access provided by the present street system in combination with the vacant inaccessible land areas. The area lacks an overall plan for coordinated development on a parcel by parcel basis. The entire Study Area exhibits this factor.

The analysis above was based upon data assembled by the City of Chicago, Department of Economic Development and Louik/Schneider & Associates, Inc.. The surveys, research and analysis conducted include:

1. Exterior surveys of the condition and use of the Redevelopment Project Area;
2. Field surveys of environmental conditions covering streets, sidewalks, curbs and gutters, lighting, traffic, parking facilities, landscaping, fences and walls, and general property maintenance;
3. Analysis of existing and previous uses and their relationships;
4. Comparison of current land use to current zoning ordinance and the current zoning maps;
5. Historical analysis of site uses and users;
6. Analysis of original and current platting and building size layout;
7. Analysis of tax delinquency;
8. Review of previously prepared plans, studies and data.

Based upon the findings of the Eligibility Study for Stockyards Southeast Quadrant Industrial Study Area, the Redevelopment Project Area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of this Redevelopment Plan.

Project.*

A. Redevelopment Project Area Goals And Objectives.

The City proposes to realize its goals and objectives of redevelopment through public finance techniques, including but not limited to tax increment financing, and by undertaking some or all of the following actions:

1. Assemblage of Sites. To achieve the renewal of the Redevelopment Project Area, property identified in Map 3,

Development Activities, attached hereto and made a part hereof, may be acquired by the City of Chicago and cleared of all improvements if any and either (a) sold or leased for private redevelopment, or (b) sold, leased or dedicated for construction of public improvements or facilities. The City may determine that to meet the renewal objectives of this Redevelopment Plan, other properties in the Redevelopment Project Area not scheduled for acquisition should be acquired, or certain property currently listed for acquisition should not be acquired. Acquisition of land for public rights-of-way may also be necessary for the portions of said rights-of-way that the City does not own (see Map 3).

As a necessary part of the redevelopment process, the City may hold and secure property which it has acquired and place it in temporary uses until such property is scheduled for disposition and redevelopment. Such uses may include, but are not limited to, project office facilities, parking or other uses the City may deem appropriate.

2. Provision of Public Improvements and Facilities. Adequate public improvements and facilities will be provided to service the entire Redevelopment Project Area. Public improvements and facilities may include, but are not limited to:
 - a. Construction of Packers Street.
 - b. Provision of utilities necessary to serve the redevelopment.
3. Provision for Demolition and Environmental Remediation. Funds may be made available for demolition and removal of dilapidated structures and any necessary environmental remediation required for such building sites.
 - a. Demolition of the former Hammond Warehouse, Inc. storage facility and any necessary environmental remediation will be accomplished through a redevelopment agreement with the Back of the Yards Neighborhood Council which is obtaining this property through the Cook County Tax Reactivation Program.
4. Provision for Soil and Site Improvements. Funds may be made available for improvements to properties for the purpose of making land suitable for development.

- a. Entering into a redevelopment agreement for necessary soil preparation and site improvements in the Redevelopment Project Area.
5. Provision for Interest Subsidy. Funds may be made available to privately held properties for the purpose of reducing interest costs for the purpose of redeveloping properties.
6. Provision for Job Training. Funds may be made available for companies building or expanding facilities in the Project Area for the training of new employees or existing employees.
7. Redevelopment Agreements. Land assemblage shall be conducted for (a) sale, lease, or conveyance to private developers, or (b) sale, lease, conveyance or dedication for the construction of public improvements or facilities. Terms of conveyance shall be incorporated in appropriate disposition agreements which may contain more specific controls than those stated in the Redevelopment Plan.

In the event that the City determines that construction of certain improvements is not financially feasible, the City may reduce the scope of the proposed improvements.

B. Redevelopment Plan.

The Redevelopment Plan proposes the development of new industrial facilities that takes advantage of the Redevelopment Project Area's excellent location. The industrial facilities and ancillary services will cover almost all of the Stockyards Southeast Quadrant Industrial Redevelopment Project Area. The Redevelopment Project Area will allow for the development of 1,000,000 square feet of new industrial facilities employing approximately 500 persons.

The Redevelopment Plan proposes a redevelopment by the Back of the Yards Neighborhood Council (B.Y.N.C.) that will stimulate other industrial development by the private sector in the Redevelopment Project Area as well as areas outside of the Redevelopment Project Area. The purpose of B.Y.N.C.'s plan is the removal of eleven multi-storied vacant and uninhabited storage buildings which were built at the turn of the century. These buildings are in a blighted state of repair and can not be rehabilitated. The buildings have no electricity, heat, they lack windows, doors and operating systems. The buildings are located on 476,236 square feet of land (approximately 11 acres), which will be developed with new industrial buildings when the eleven buildings are demolished. In order to accomplish the City of Chicago's objective of stimulating industrial development,

numerous public and private improvements need to take place. This Redevelopment Plan will make approximately 70 acres of land available for new industrial facilities development.

The proposed Stockyards Southeast Quadrant Industrial Redevelopment Project Area will require planning and programming of improvements. The redevelopment agreement will generally provide for the City to provide funding for necessary soil and site improvements. The funds for said improvements are to come from the City's issuance of bonds to be repaid from the incremental increase in tax revenues to be generated from the entire Redevelopment Project Area. Developers or users will undertake the responsibility for the required soil and site improvements, a portion of which may be paid for from the issuance of bonds, and will further be required to build any agreed to improvements and necessary ancillary improvements required for the project.

The Redevelopment Plan and Project conforms to the Comprehensive Plan of the City of Chicago.

C. General Land Use Plan.

The Redevelopment Plan and the proposed projects described herein conform to the land uses and development policies for the City as a whole as currently provided by the Comprehensive Plan of Chicago (1966).

D. Estimated Redevelopment Project Costs.

Redevelopment project costs mean the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to this Redevelopment Plan and Redevelopment Project pursuant to the State of Illinois Tax Increment Allocation Redevelopment Act. Such costs may include, without limitation, the following:

1. Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan, including but not limited to staff and professional service costs for architectural, engineering, legal, marketing, financial, planning or other services, provided, however, that no charges for professional services may be based on a percentage of the tax increment collected;
2. Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, and the clearing and grading of land;

3. Cost of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings and fixtures;
4. Costs of the construction of public works or improvements;
5. Costs of job training and retraining projects;
6. Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;
7. All or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred in furtherance of the objectives of the redevelopment plan and project, to the extent the municipality by written agreement accepts and approves such costs;
8. Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or state law;
9. Payment in lieu of taxes;
10. Costs of job training, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

11. Interest costs incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:
 - a. such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;
 - b. such payments in any one year may not exceed 30 percent of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;
 - c. if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amount so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund; and
 - d. the total of such interest payments paid pursuant to this Act may not exceed 30 percent of the total of (i) costs paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act.
12. Unless explicitly stated in the Act, the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

The estimated redevelopment project costs are shown in Table 1. To the extent that municipal obligations have been issued to pay for such redevelopment project costs included prior to, but in anticipation of, the adoption of tax increment financing, the City shall be reimbursed for such redevelopment project costs. The total redevelopment project costs provide an upper limit on expenditures (exclusive of capitalized interest, issuance costs, interest and other financing costs). Within this limit, adjustments may be made in line items without amendment to this Redevelopment Plan.

E. Sources Of Funds To Pay Redevelopment Project Costs.

Funds necessary to pay for redevelopment project costs and municipal obligations which have been issued or incurred to pay for such costs are to be derived principally from tax increment revenues and proceeds from municipal obligations which have as their revenue source tax increment revenue. To secure the issuance of these obligations, the City may permit the utilization of guarantees, deposits and other forms of security made available by private sector developers.

The tax increment revenue which will be used to fund tax increment obligations and eligible redevelopment project costs shall be the incremental real property tax revenues. Incremental real property tax revenue is attributable to the increase in the current equalized assessed value of each taxable lot, block, tract or parcel of real property in the Redevelopment Project Area over and above the initial equalized assessed value of each such property in the Redevelopment Project Area. Other sources of funds which may be used to pay for redevelopment costs and obligations issued or

incurred, the proceeds of which are used to pay for such costs, are land disposition proceeds, state and federal grants, investment income, and such other sources of funds and revenues as the municipality may from time to time deem appropriate. Without the use of such tax incremental revenues, the Redevelopment Project Area would not reasonably be developed. All incremental revenues utilized by the City of Chicago will be utilized exclusively for the development of the Redevelopment Project Area.

Issuance Of Obligations.

To finance redevelopment costs a municipality may issue obligations secured by the anticipated tax increment revenue generated within the T.I.F. redevelopment area. In addition, a municipality may pledge towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

All obligations issued by the City pursuant to this Redevelopment Plan and the Act shall be retired within twenty-three (23) years from the adoption of the ordinance approving the Redevelopment Project Area. Also, the final maturity date of any such obligations which are issued may not be later than twenty (20) years from their respective dates of issue. One or more series of obligations may be sold at one or more times in order to implement this Redevelopment Plan. The amounts payable in any year as principal and interest on all obligations issued by the City pursuant to the Redevelopment Plan and the Act shall not exceed the amounts available, or projected to be available, from tax increment revenues and from such bond sinking funds or other sources of funds (including ad valorem taxes) as may be provided by ordinance. Obligations may be of a parity or senior/junior lien natures. Obligations issued may be serial or term maturities, and may or may not be subject to mandatory, sinking fund, or optional redemptions.

Revenues shall be used for the scheduled and/or early retirement of obligations, and for reserves, bond sinking funds and redevelopment project costs, and, to the extent that real property tax increment is not used for such purposes, shall be declared surplus and shall then become available for distribution annually to taxing districts in the Redevelopment Project Area in the manner provided by the Act.

Most Recent Equalized Assessed Valuation Of Properties In The Redevelopment Project Area.

The total 1989 equalized assessed valuation for the entire Redevelopment Project Area is \$20,448,607. This equalized assessed valuation is subject to final verification by Cook County. After verification, the County Clerk of Cook County, Illinois will certify the amount, and this amount will serve as the "Initial Equalized Assessed Valuation".

Anticipated Equalized Assessed Valuation.

By the year 2000, when it is estimated that all the anticipated private development will be completed and fully assessed, the estimated equalized assessed valuation of real property within the Redevelopment Project Area is estimated at between \$32,000,000 and \$37,000,000. These estimates are based on several key assumptions, including: 1) all industrial development will be completed in 1998; 2) the market value of the anticipated developments will increase following completion of the redevelopment activities described in the Redevelopment Project and Plan; 3) the most recent State Multiplier of 1.9133 as applied to 1989 assessed values will remain unchanged; and 4) for the duration of the project the tax rate for the entire Redevelopment Project Area is assumed to be the same and will remain unchanged from the 1989 level.

Provision For Amending Action Plan.

The Stockyards Southeast Quadrant Industrial Redevelopment Project Area Tax Increment Redevelopment Plan and Project may be amended pursuant to the provisions of the Act.

Affirmative Action Plan.

The City is committed to and will affirmatively implement the following principles with respect to the Stockyards Southeast Quadrant Industrial Redevelopment Project Area.

- A. WHEREAS, The security of the students, teachers, other employees and property of the Board of Education in the City of Chicago is a matter of public concern, and providing for such security is in the public interest; and

SECTION 2. This ordinance shall become effective from and after its passage.

Exhibit 1 attached to this ordinance reads as follows:

Exhibit 1.

Intergovernmental Cooperation Agreement.

This Agreement is made as of the _____ day of _____, 199__ by and between the City of Chicago, a municipal corporation and a home rule unit under Article 7, Section 6(a) of the 1970 Constitution of the State of Illinois (the "City") and the Board of Education of the City of Chicago (the "Chicago Board of Education"), in exercise of powers granted to it by Illinois Law, specifically Chapter 122, par. 34-1 et seq. of the Illinois Revised Statutes (1989), as amended; pursuant to the Intergovernmental Cooperation Act, Ill. Rev. Stat., Chapter 127, par. 741 et seq., and the 1970 Constitution of the State of Illinois, Art. VII, Sec. 10, for the purpose of maintaining and promoting the safety and security of the children, teachers and other staff and the schools, which is of great importance to the City and Chicago Board of Education, as well as resulting protection against liability.

1. S.A.F.E. School Patrol Unit. This Agreement pertains to the creation and operation of the Operation S.A.F.E. (Schools Are For Education) School Patrol Unit (hereinafter referred to as "School Patrol Unit") of the Chicago Police Department. It shall not alter, limit, or otherwise affect the Chicago Police Department's ("C.P.D.") ability to exercise its discretion in deploying officers to any other section or assignment with the

C.P.D. as may be determined to be necessary by the Superintendent of Police of the City of Chicago (the "Superintendent").

2. Services. Pursuant to this Agreement, the C.P.D. will provide C.P.D. officers on School Patrol Unit details, subject to the following:

- (a) Subject to the availability of officers and equipment under Operation S.A.F.E. and subject further to the availability of funds, the School Patrol Unit details will provide sworn full-duty police officers for an eight (8) hour tour of duty in two person teams to designated school sites.
- (b) The number of officers detailed to the School Patrol Unit may vary from time to time for reasons including, but not limited to, availability of a sufficient number of officers and radios, and the public safety and convenience, but generally will consist of approximately one hundred and fifty (150) police officers, including six (6) sergeants and one (1) lieutenant, each weekday, when the schools are in regular session, during the regular school year. The designated assignment locations of the School Patrol Unit details shall be determined by the Superintendent of Police or his/her designee, in consultation with the Chicago Board of Education or its designee.
- (c) School Patrol Unit details shall be distinct from the regular employment and assignment of C.P.D. officers to schools in the Youth Division of the C.P.D..
- (d) All C.P.D. officers in the School Patrol Unit shall have had standard police officer training. The C.P.D. School Patrol Unit details shall have full authorization to enter into or on school facilities and properties, subject to the agreement of the Chicago Board of Education with full rights to enforce law and order and to protect all school students, employees and property. Nothing herein limits the authority of any sworn officer to perform his/her duties, as provided by ordinance and statute.
- (e) C.P.D. sworn personnel in the School Patrol Unit details shall be subject to any and all applicable state statutes and municipal ordinances, the C.P.D. Rules and Regulations, General and Special Orders, Directives, policies and procedures or any amendment thereto or modification thereof promulgated by the Superintendent of Police.

3. Operations.

- (a) The Superintendent of Police, or his/her designee, in consultation with the Chicago Board of Education, or its designee, shall establish goals and objectives for the School Patrol Unit details. The C.P.D. and the Chicago Board of Education shall determine the locations and schools to be patrolled by the Operation S.A.F.E. School Patrol Unit details.
- (b) Officers on the S.A.F.E. School Patrol Unit details shall continue to be subject to the direction of the Superintendent of Police of the C.P.D. or his designees and must observe all standards of conduct required by the C.P.D..
- (c) The Chicago Board of Education may monitor the performance of the School Patrol Unit through its designated representatives.
- (d) The C.P.D. shall maintain daily logs and statistics on school crimes, incidents, arrests and any activity performed by the School Patrol Unit details relating to such incidents. The Chicago Board of Education shall have the right, upon reasonable notice to the C.P.D., to inspect and copy the above daily logs and statistics. The C.P.D. shall forward a summary of said data to the Chicago Board of Education on a monthly basis.
- (e) The Commander of the Youth Division of the C.P.D. shall have ongoing meetings and dialogue with the Director of School Security of the Chicago Public Schools and/or the Chicago Board of Education, or its designee(s), to discuss areas of concern relating to incidents that affect students, employees, and properties of the Chicago Board of Education.

4. Emergencies. Nothing contained herein shall preclude the emergency use of School Patrol Unit officers in any manner at the direction of the Superintendent.

5. Compensation of S.A.F.E. School Patrol Unit Detail. The officers on the S.A.F.E. School Patrol Unit detail shall be paid wages for their work in accordance with the applicable collective bargaining agreement, City ordinances, policies, practices and procedures and applicable state and federal law.

6. Reimbursement by the Chicago Board of Education. Provided that in no event shall the Chicago Board of Education reimburse the C.P.D. more

than \$6,850,000 (Six Million Eight Hundred Fifty Thousand Dollars) for period beginning on September 1, 1991 and ending on the succeeding June 30, 1992. The Chicago Board of Education shall be responsible for reimbursing the City for all wages paid under paragraph 5 herein, including vacation pay, any retroactive increases, premium and/or overtime pay, if any, plus forty percent (40%) of those wages, said forty percent (40%) being deemed to cover:

- (a) Court appearances relating to work on the Chicago Board of Education S.A.F.E. School Patrol Unit detail;
- (b) Time lost and medical benefits paid due to injury while engaged in work as part of a Chicago Board of Education S.A.F.E. School Patrol Unit detail; and
- (c) Administrative overhead.

The Committee on Finance submitted the following report which was, on motion of Alderman E. Smith, Alderman Bloom and Alderman Steele, *Deferred* and ordered published:

CHICAGO, February 26, 1992.

To the President and Members of the City Council:

Your Committee on Finance, having had under consideration an ordinance authorizing the selection of a contractor to provide interim

Shuttle Bus Service between O'Hare Airport Annex Parking Lots and the airport terminals, having had the same under advisement, begs leave to report and recommend that Your Honorable Body pass the proposed ordinance transmitted herewith.

This recommendation was concurred in by a viva voce vote of the members of the committee.

Respectfully submitted,

(Signed) EDWARD M. BURKE,
Chairman.

The following is said proposed ordinance transmitted with the foregoing committee report:

WHEREAS, The City of Chicago, a duly constituted and existing municipality within the meaning of Section I, Article VII of the 1970 Constitution of the State of Illinois ("Constitution") and a home rule unit of local government under Section 6(a), Article VII of the Constitution ("City"), owns and operates O'Hare International Airport ("O'Hare"), and provides various services to users of O'Hare; and

WHEREAS, It is necessary for the safe and efficient operation of O'Hare to provide an adequate number of parking spaces, many of which are located in remote Annex Parking Lots C and E because of an inadequate number of parking spaces at other locations; and

WHEREAS, It is necessary for the safe and efficient operation of O'Hare to provide transportation between O'Hare Annex Parking Lots C and E and the terminals, and between the terminals ("Shuttle Bus Service"); and

WHEREAS, The City entered into a contract pursuant to Specification Number B0-962-17-02 (the "Contract") with O'Hare Express/Jimray Corporation ("O'Hare Express") to provide Shuttle Bus Service; and

WHEREAS, O'Hare Express has failed to perform in accordance with its obligations under the Contract and these breaches constitute an emergency which threatens public safety; and

WHEREAS, As a result of such failure the City gave the O'Hare Express a notice of default allowing O'Hare Express a reasonable period of time to cure its default and come into compliance with the terms and conditions of the Contract; and

WHEREAS, As a result of O'Hare Express' failure to cure its default, the City has the right under the Contract to terminate O'Hare Express for being in default and to then obtain another operator to provide satisfactory Shuttle Bus Service; and

WHEREAS, The City intends to exercise its right to terminate the Contract; and

WHEREAS, Upon termination of the Contract there will be an emergency at O'Hare which would threaten the public safety in various ways including, without limitation, the following: severe traffic congestion would be created which would seriously disrupt ground transportation and create dangerous traffic conditions, and O'Hare Annex Parking Lots C and E would be rendered virtually unusable, unless the City has a contractor ready, willing and able to provide Shuttle Bus Service; and

WHEREAS, In order to obtain another Shuttle Bus Service operator the City intends to award a new contract for Shuttle Bus Service pursuant to the public advertising requirements of the Municipal Purchasing Act for Cities of 500,000 or More Population, Ill. Rev. Stat, Ch. 24, par. 8-10-1 et seq. ("Purchasing Act"); and

WHEREAS, The process of advertising a contract, evaluating bids, processing and executing a contract, and allowing a contractor time to mobilize and commence operations may require, at a minimum, one hundred and eighty (180) days; and

WHEREAS, In order for the City to provide uninterrupted Shuttle Bus Service after termination of the Contract, the City needs to engage an interim contractor on an emergency basis ("Interim Contractor") until the permanent contractor selected pursuant to the public advertising procedures of the Purchasing Act is ready to provide Shuttle Bus Service; and

WHEREAS, Section 8-10-5 of the Purchasing Act provides that the City may let contracts without public advertising when the corporate authorities of the municipality determine an emergency exists; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The foregoing preambles are hereby adopted and incorporated herein by reference.

SECTION 2. The Acting Purchasing Agent is hereby authorized to select, with the assistance of the Commissioner of Aviation ("Commissioner"), an Interim Contractor to provide Shuttle Bus Service to cover the hereby declared emergency based on relevant criteria, including but not limited to the following: past performance as a bus service operator; capability of providing Shuttle Bus Service which satisfies City requirements on a professional, timely basis; and contract cost.

SECTION 3. The Acting Purchasing Agent and the Commissioner, or their duly authorized representatives, are hereby authorized to negotiate with the Interim Contractor the terms of a contract for the provision of emergency Shuttle Bus Service.

SECTION 4. Subject to approval of the Corporation Counsel as to form and legality, the Mayor, Purchasing Agent, and Comptroller are hereby authorized to execute a contract between the City and the Interim Contractor, provided that the contract amount does not exceed One Million Seven Hundred Thousand Dollars (\$1,700,000), that the term of the contract shall not exceed one hundred and eighty (180) days, and that it contains such additional contract terms as may be required by law or are deemed appropriate or necessary by the Acting Purchasing Agent and the Commissioner.

SECTION 5. This ordinance shall take effect upon its passage and approval.

Behind it there is a God,
Who rules ever aright.

When dark your days seem to be,
The like of which you can't bear,
Repair to some quiet place,
You'll find the Master there.

No matter what the problems are,
Of them all, He is aware,
You may ever seek our Lord,
You'll find Him there.

ALDERMAN TROUTMAN (20th Ward):

UNITED STATES POSTAL SERVICE URGED TO ISSUE
STAMP COMMEMORATING WORLD'S FIRST
AFRICAN-AMERICAN PILOT
MS. BESSIE COLEMAN.

A proposed resolution reading as follows:

WHEREAS, February, 1992, has been set aside as Black History Month throughout these United States; and

WHEREAS, We take this time to reflect on this nation's rich heritage as it was molded and nurtured by African-Americans before and after slavery; and

WHEREAS, It is therefore especially fitting to remember our African-American heroes and heroines who fought almost insurmountable obstacles to the top of various professions; and

WHEREAS, Among these towering figures stands Bessie Coleman, born of a Black mother and a Cherokee Indian father, who as a young woman in the years following World War I, became interested in aviation as a result of its newly found prominence in that war. A native of Texas, Bessie Coleman moved to Chicago where she spent the war years and where the seeds of her ambition were nourished; and

WHEREAS, An African-American woman pilot was unheard of in 1920. Bessie Coleman met Robert S. Abbott, publisher of the *Chicago Weekly Defender* and a flight enthusiast who recommended that Bessie move to France to study aviation. In September, 1921, Bessie Coleman returned to America holding a license from the prestigious Federation Aeronautique Internationale as the only licensed Black pilot -- man or woman -- in the world; and

WHEREAS, Bessie Coleman enjoyed great fame in her time, and much of it in Chicago. Her first exhibition was at Checkerboard Field (later to be known as Midway Airport) and was attended by thousands. She flew many such exhibitions around the country and, ultimately, just before she was to open a flight school, Bessie Coleman suffered her fatal accident. On April 30, 1926, she was giving an exhibition sponsored by the Jacksonville, Florida Negro Welfare League. Flying at 110 miles per hour at an altitude of 3,500 feet, Bessie Coleman put her plane into a 1,500-foot nose dive and never came out; and

WHEREAS, During her illustrious career, and over 65 years since her untimely death, Bessie Coleman continues to inspire untold thousands, even millions of young persons with her sense of adventure, her positive attitude, and her determination to succeed despite what seemed like insurmountable obstacles. In Chicago she holds legendary status, and it is fitting and proper that we honor her by urging the issuance of a commemorative United States stamp; now, therefore,

Be It Resolved, That we, the Mayor and members of the City Council of the City of Chicago, gathered here this twenty-sixth day of February,

1992, A.D., in honor of this Black History Month, do hereby memorialize the United States Postal Service to move toward issuance of a postage stamp commemorating Bessie Coleman and her singular accomplishment in becoming the world's first African-American pilot and, by definition, an American legend; and

Be It Further Resolved, That a suitable copy of this resolution be prepared and presented to the United States Postal Service.

Alderman Troutman moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed*.
