These service areas may be adjusted by First Health with written notice to Provider as may be necessary to provide a sufficient supply of case management services to all areas of the city.
 - 4. For I.D.P.H. eligible cases, services will be provided to only those recipients living in the primary service area or in community areas that may be served by the Provider under the outreach services section of this agreement.
- (E) Assignment: I.D.P.A. cases shall be deemed assigned to the Provider and active when the I.D.P.A. case has been assigned by first Health and when (1) the recipient is eligible for medicaid services as determined by I.D.P.A. or, (2) if the case is I.D.P.H. eligible, information is entered into the Case Management Information and Tracking System (C.M.I.T.S.)

This shall include phone contact, following P.C.P. appointments and as may be needed at other times, with the P.C.P. or his/her designee regarding the health conditions of clients being seen by the P.C.P., scheduling assistance, follow-up, assistance as necessary with referrals to specialty physicians, providing information on psychosocial and environmental needs or problems of client that may have a bearing on health conditions of the client, and other communication that may be needed. Provider shall make every effort to maintain cooperative and professional relationships between case management staff and P.C.P.s. Provider shall have a written process for resolving complaints or grievances between P.C.P.s and Case Managers. P.C.P. evaluation of case management performance will be an important factor in First Health's Assessment of the Provider's performance under this agreement.

This will occur three times during the initial contract term and quarterly thereafter. During the first two weeks of each quarter of the state fiscal year, the Provider shall perform a comprehensive daily time study of all activities. Should the Provider believe that this period of the quarter does not accurately reflect the agency's case management activities, the study period may be extended for as long as the first month of each quarter. The time study will account for all activities of staff assigned to deliver direct case management services, and the allocation of indirect and administrative costs. Provider shall submit the time study to First Health using a special time sheet and employee survey to be completed by Provider's employees. From this information a report will be prepared by Provider using manual time records and other time accounting systems. The time study will include Case Managers, other direct program staff, and administrative and management staff. They will record all their time by program or indirect cost center and activity within the program following procedures specified by First Health, I.D.P.A. and approved by Health Care Finance Administration (H.C.F.A.). Time will be recorded and costs calculated using budgeted costs, reconciled with reasonable costs at year end on an agency specific basis.
- (I) Head Start: Provider agrees to refer all eligible children for Head Start services and coordinate medical or medically related services with Head Start agencies for all families with children who are enrolled in the Head Start programs. The Provider will comply with the following requirements for the distribution and accounting of tokens and transfers:

1. The tokens or transfers will be given only to I.D.P.A. clients eligible for Healthy Moms/Healthy Kids Managed Care Program Services and solely for the purpose of transportation to and from medical care.

By October 31 of each year, Provider shall submit an annual audit, at Provider expense, as required and using procedures consistent with O.M.B.  2. For I.D.P.A. cases, case management agencies shall make attempts to contact all (100%) cases assigned to them not less than three times. In the event that more than 20% of the families assigned to the case management agencies are not able to be contacted, the Provider shall be required to document the reasons for such a failure and implement a plan of correction in conjunction with First Health, as appropriate, to reduce this failure rate. Provider agrees to contact at least 95% of all cases within thirty days of enrollment, document such attempts and to repeat attempts on a quarterly basis.

These penalties will be assessed and recovered through adjustments to provider advance payments under (Sub)Exhibit B(1).
- (P) Grievances: Provider shall develop a grievance procedure for disagreements between the case manager and members of the family. Said procedure shall guarantee at least two levels of appeal, or for small agencies, an appeal to the Chief Executive of the Provider. This includes non-traditional methods necessary to identify individuals in hard-to-reach populations.

(Sub)Exhibit "B(1)".

- (1) Case Management Service Payment Procedures: The system of payment for case management services shall be one of prospective payments subject to later adjustment downward, and repayment to First Health as necessary, on the basis of allowable costs actually incurred. Paragraph (A) sets forth procedures for prospective

payment. Paragraph (B) sets forth limits on the payment of I.D.P.H. funds. Paragraph (C) sets forth procedures for review of allowable costs and repayment to First Health as necessary. Paragraph (D) sets forth limitations on First Health's payment obligations.

(A) Prospective payments to Provider shall be made according to the following procedures:

1. First Health shall pay Provider a prospective rate for case management services at the following rates: (a) \$315 per case per year payable monthly at \$26.25 per case management month for cases including a pregnant woman or infant up to the age of twelve months; or (b) \$201 per case per year payable monthly at \$16.75 per case management month for cases having a child up to the age of six (but not covered under (a) above). For cases enrolled for a partial month, the monthly rates will be prorated on a daily basis.
2. Provider will be paid for services based upon a case management month prorated for partial months by the case management days delivered in the month. For the purposes of this agreement, a "case management month" shall mean a full calendar month in which an eligible case is open and under management by the Provider as outlined in the Provider Manual and (Sub)Exhibit A(1), Section (E) of this agreement. A "case management day" shall mean a calendar day during which an eligible case is open and being case managed by Provider. A case will be open from the day of assignment to the day of transfer, case closure, ineligibility of the case or termination of Provider.
3. Payment Procedures: Provider shall be paid by First Health, with funds advanced by I.D.P.A. and I.D.P.H., using prospective payments for case management services in the Healthy Moms/Healthy Kids managed care program. A reconciliation of these advances with actual enrollment will be performed on a monthly basis.
 - A. In April, 1993, First Health shall transit the funds outlined in Section B(1)(A)3.D below to

Provider as advance payment for services for the month of April, 1993. These funds shall be paid within five (5) days of receipt of payment for the case management service component from I.D.P.A. and I.D.P.H..

- B. On or before the fifth day of each calendar month during the term of this Agreement, beginning in May, 1993, Provider shall submit to First Health a Certification of Services Delivered in the form provided by First Health certifying that all cases appearing in C.M.I.T.S., or otherwise reported to First Health, as cases under management by the Provider during the month just ended were in fact under management by the Provider in compliance with the terms of this agreement for the periods indicated.
- C. Beginning with May, 1993, subject to the minimum monthly payment terms of Subparagraph D below, First Health will make prospective payments for services to Provider within five (5) days of receipt of payment for the case management service component from I.D.P.A. and I.D.P.H., calculated as: the product of the number of case management months of services provided by Provider during the immediately preceding month multiplied by the applicable rate per case management month as set forth above (the "Earned Payment") increased by any excess of the Earned Payment over the advance payment for said month or decreased by any excess of such advance payment over the Earned Payment for said month.
- D. Notwithstanding the foregoing, and pursuant to projected enrollment levels or grandfathering provisions in the R.F.P. and as later modified by First Health, the minimum monthly payments to be paid by First Health to Provider (provided that Provider is in compliance with its obligations under the Provider Services Agreement) for the three months of April through June, 1993, shall be as follows:

April, 1993 -- \$37,690.00

May, 1993 -- \$37,690.00

June, 1993 -- \$37,690.00

These minimum monthly payments shall be reconciled with the allowable costs of the Provider as noted below. First Health, after consultation with Provider and with approval of I.D.P.A. and I.D.P.H., may agree to pay Provider minimum amounts for any or all of the subsequent months of the implementation period of this contract, July -- December, 1993 (provided that Provider is in compliance with its obligations under the Provider Services Agreement). In the event that the actual enrollment of the Provider would result, pursuant to Subparagraph C above, in the payment of the Provider in a sum that exceeds the minimum monthly payment, then First Health shall pay the higher amount. In the event that enrollment for Provider is not matching projections, First Health shall modify or eliminate the minimum monthly payment.

E. All minimum amounts shall be paid at the time advances are due under Subparagraphs 3.A and C above.

F. Expenditures by Provider shall conform to a budget, in a form specified by First Health, submitted by Provider to First Health by April 15, 1993 and approved by First Health.

(B) The maximum obligation for funds to be provided under this agreement for I.D.P.H. eligible cases shall not exceed: \$3,142.00 for the first three months without the express written approval of First Health. This shall be computed as the proportion of case management days for I.D.P.H. eligible cases of the total number of case management provided by Provider. This proportion shall be applied to the monthly amounts paid during this period. First Health shall also establish an I.D.P.H. maximum obligation for the balance of the contract period prior to July 1, 1994. This maximum

shall be applied using the same method as outlined above for the first three months. I.D.P.H. eligible cases that are unable to receive case management services due to the lack of available funds within the maximum obligation specified above shall be placed on a waiting list with the Provider. This waiting list shall be reported to First Health on a monthly basis. In the event that I.D.P.H. funds should not continue to be available, First Health reserves the right to limit I.D.P.H. reimbursement for all case management providers to a level below the maximum obligation by providing written notice to Provider.

- (C) Cost Reconciliation: The Provider must demonstrate, through its required financial expenditure reports, that the I.D.P.A. and I.D.P.H. payments do not exceed the Provider's allowable costs in performing the case management functions authorized by I.D.P.A., I.D.P.H. and First Health. Should the Provider incur allowable costs (pursuant to the M.C.H. Services Code, the Provider's approved budget, and O.M.B. Circular A-133) that are in the aggregate less than the I.D.P.A. and I.D.P.H. payments, I.D.P.A., I.D.P.H. and First Health may recoup the overpayment by setoff, crediting against future payments or by requiring direct repayment to I.D.P.A. or I.D.P.H. through First Health. In no event shall Provider be entitled to any upward adjustment, in light of costs incurred, of payments made pursuant to Paragraph (A) above.

1. During the initial months of this agreement, when Provider is receiving minimum monthly payments, these amounts shall be adjusted downward by the difference between the actual allowable costs of services reported by Provider to First Health and the minimum payment indicated above. Expenditure reports (see (Sub)Exhibit A(1)(M)2), in a form to be determined by First Health, shall be filed by Provider by the tenth day (or the next workday) of each month in which Provider has received minimum monthly payments. Reconciliations shall be performed by First Health on a monthly basis and adjusted against the next payment to Provider.
2. Once the provider has moved to a unit rate of reimbursement, quarterly expenditure reports shall be filed by the tenth of the month following the end of the quarter. Reconciliation shall be performed by First Health for each quarter and adjusted against the next payment to Provider.

3. Based upon a review of the annual audit, First Health shall notify Provider of any additional information that may be required to reconcile the audit with the cost reports filed by Provider and any payments that may be due to First Health from Provider.
- (D) Notwithstanding the foregoing, and as provided in the H.M./H.K. Standard Terms and Conditions, First Health shall be liable to Provider for payment only if, when and to the extent First Health has received payment from I.D.P.A. and I.D.P.H.. In no event shall Provider be entitled to receive, for any given payment period or in the aggregate for this agreement, any amounts in excess of amounts allowed by I.D.P.A. and I.D.P.H., and received by First Health, for payment to Provider, whether as prospective payments or as adjusted payments following cost reconciliation. If at any point First Health should receive funds from I.D.P.A. or I.D.P.H. that are insufficient to pay Provider and all other providers serving as a part of the H.M./H.K. Program the entire amount then properly payable (in light of all foregoing limitations) to Provider and such other providers respectively, First Health shall from such amounts as are available to First Health make payments to Provider and such other providers on such basis as First Health may determine in light of consultation with I.D.P.A. or I.D.P.H., as the case may be.

(Sub)Exhibit "B(2)".

(2) Outreach Service Payment Procedures.

- (A) The system of payment for outreach services shall be one of prospective payments subject to later adjustment downward, and repayment to First Health as necessary, on the basis of allowable costs actually incurred.
1. First Health shall make a prospective payment for outreach activities at a monthly projected amount of \$2,952.00. This payment will be available beginning

in April, 1993 and by the tenth of each month thereafter, subject to the receipt of funds by First Health from I.D.P.H..

2. Expenditures by Provider shall conform to a budget submitted by Provider to First Health by April 15, 1993 and approved by First Health. Provider shall forward quarterly outreach expenditure reports not later than the tenth day in the month following the end of each quarter. First Health will determine an adjustment to Provider's next payment based upon the difference between the payments to the Provider and the actual costs of services. An annual audit prepared in a manner consistent with O.M.B. Circular A-133, shall be submitted by the Provider by October 31 of each year, outlining expenses for outreach services that are specifically itemized in a functional statement of expenses.
3. Actual expenditures shall be reviewed by First Health for allowability according to the approved budget and the standards of the M.C.H. Services Code.
4. Provider shall maintain records to establish an audit trail for the accounting of costs consistent with O.M.B. Circular A-133.
5. Those Providers with significant variance of their actual costs from the projected costs in their prospective payments, or who may be experiencing financial or operating difficulties that warrant closer monitoring by First Health, may be required to submit additional information and monthly expenditure reports at the sole discretion of First Health.
6. The Provider shall use the I.D.P.H. Reimbursement Certification Form or a reasonable facsimile to reconcile advances from First Health.
 - A. Each reconciliation statement shall include the period covered, a description of the type of outreach expenditure, quarterly actual expenditures of the Providers for the delivery of outreach services, and the total amount of any adjustment to the advances received by the Provider.

- B. Expenditures shall be reported quarterly and these quarterly reports shall be submitted to First Health no later than ten days after the end of each quarter. An annual audit report of expenses by the Provider shall also be submitted to First Health by October 31, at Provider's expense, in compliance with O.M.B. Circular A-133 requirements and generally accepted accounting principles.
 - C. First Health shall withhold the final advance payment of this contract, for the month of June, 1994, until a report of actual quarterly costs (April 1, 1994 to June 30, 1994) is received, reviewed by Provider and any final adjustments made for that fiscal year.
 - D. Provider shall submit all expense reports to the following address:

First Health Services Corporation
300 South Riverside Plaza, Suite 210-N
Chicago, Illinois 60606.
 - E. If payments to Provider under Paragraph (A) above are found to have exceeded Provider's allowable costs, the excess shall be repaid to First Health by set-off against payments due Provider or by direct reimbursement to I.D.P.H. or First Health, as First Health may direct. In no event shall Provider be entitled to any upward adjustment, in light of costs incurred, of payments made pursuant to Paragraph A above.

Purposes And Terms Of Loans And Grants.

3.1 Purposes Of Loans.

(a) Basic Purpose. A Loan from the C.A.P.P. Fund may be made only to finance Eligible Costs for the Owner of a Building.

(b) Need for City Funds. No Loan shall be made to an Owner which has or may obtain all the funds required to pay Project Costs from sources other than the City.

(c) Private Funds. Each owner receiving a Loan shall, as of the date of closing of such Loan, deposit into the escrow described in Section 5.1(f) hereof Private Funds in an amount not less than 50% of the Project Costs of such Owner's Building; provided, however, that the Owner shall not be required to deposit the amount of Private Funds for which Owner has provided evidence satisfactory to D.O.H., not later than the closing of the Loan, that such Private Funds have been expended by the Owner for Project Costs in connection with the rehabilitation of its Building. The closing of any Private Loan shall occur not later than the closing of the applicable Loan. The Private Loan may be secured by a first mortgage on the Building or by other collateral or may be unsecured.

(d) Debt Ratio. No Loan shall be made to an Owner if for any year during the Loan term, the projected amount of the Net Operating Income shall be less than the projected amount of the Debt Service multiplied by 1.15 (which may be reduced by the Committee to 1.00 upon the written recommendation of the Loan Packager).

(e) Other Public Financing. If an Owner shall obtain Other Public Financing for a Building for which it has applied for a Loan, the Other Public Financing and the Loan shall finance, in the aggregate, not more than 50% of the Project Costs of the Building. The closing of the Other Public Financing shall occur not later than the closing of the Loan. Any Other Public Financing applied for or received by an Owner in connection with its Building shall be fully disclosed by the Owner to the Loan Packager and the Committee. No Loan or Grant shall be made to an Owner who shall receive Other Public Financing for its Building without the prior written approval of the Committee.

(f) Debt and Expense Ratios for Ultimate Owners. The Loan Packager shall determine whether the Owner of each Building intends to sell the Building to one or more individuals (the "Ultimate Owners") promptly upon completion of rehabilitation thereof. Subject to Section 3.1(g) hereof, if an Owner does so intend and has identified the Ultimate Owners, the Loan Packager shall determine whether the Ultimate Owners are creditworthy and shall ensure that no Loan shall be made to an Owner of a Smaller Building, if during any month of the Loan term (1) the projected amount of the Housing Expense shall exceed 33% (which may be increased to 35% by the Committee upon the written recommendation of the Loan Packager) of the projected amount of the Ultimate Owner's Income, or (2) the projected amount of the Maximum Debt shall exceed 40% (which may be increased to 42% by the Committee upon the written recommendation of the Loan Packager) of the projected amount of the Ultimate Owner's Income.

(g) Subsequent Private Loans. The Loan Packager shall use its best efforts to ensure that the principal amount of the Subsequent Private Loan will be as large as possible, in order to repay the maximum possible amount of the Loan while complying with the requirements of Sections 3.1(d) and (f) hereof.

3.2 Terms Of Loans.

Loans shall have the following terms:

(a) Principal Amount. Notwithstanding any other provision herein, the principal amount of a Loan shall not exceed \$25,000 (which may be increased by the Committee to \$30,000 upon the written recommendation of the Loan Packager) multiplied by the number of dwelling units in the Building after the completion of rehabilitation. Subject to the foregoing sentence, the combined principal amounts of a Loan, the applicable Private Loan and any applicable Other Public Financing shall not exceed (1) for an Owner-occupied Building, 95% (which may be increased by the Committee to 98% upon the written recommendation of the Loan Packager) of the total Project Costs of the Building, and (2) for a non-Owner-occupied Building, 90% (which may be increased to 95% by the Committee upon the written recommendation of the Loan Packager) of the total Project Costs of the Building. The remaining amount of total Project Costs (2, 5 or 10% of the total Project Costs, as applicable) shall be paid either by the Owner from Owner's Equity or, if a Grant shall have been approved for such Building pursuant to Section 3.3 hereof, from Grant proceeds.

(b) Interest Rate. The interest rate on each Loan shall be three percent (3%) per annum, which may, however, be reduced below three percent (3%) by the Committee upon the written recommendation of the Loan Packager. The Loan Packager shall exercise its professional judgment in determining the interest rate on each Loan. Interest on each Loan shall accrue as of the first day of the month immediately preceding the Initial Payment Date and shall be computed based on the actual days in the month and a 365-day year, as applicable.

(c) Loan Term. Each Loan shall mature on or before the same date as the applicable Private Loan and shall be repayable in monthly installments of principal and interest on a fully amortized basis as determined by the Loan Packager and commencing on the Initial Payment Date.

(d) Fees and Points. The Loan Packager shall not charge any fees, points or out-of-pocket expenses to an Owner in connection with any Loan or Grant, other than the \$250 application fee referred to in Section 5.1(a) hereof and architectural fees referred to in Section 5.1(a)(2) hereof.

(e) Recourse. All Loans shall be made on a recourse basis to the Owner. Any Loan, for which the applicable Private Loan shall be secured by a mortgage on the Building, shall be secured by a mortgage on the Building subordinate to such Private Loan's mortgage, and the City's reverter rights, if any, with respect to such Building shall be subordinated to such Private Loan's mortgage. If any such Private Loan shall be repaid by a Subsequent Private Loan which is to be secured by a mortgage on the Building, the City shall, upon request, subordinate its mortgage and reverter rights, if any, with respect to such Building to the mortgage securing such Subsequent Private Loan.

(f) Due on Sale. All Loans shall be immediately due and payable in the event of sale or other transfer of title or possession to all or part of the applicable Building, unless, however, the Committee shall have granted prior approval to the assumption by the new Owner of the Loan for the Building. In the event of any such assumption, the prior Owner of the Building shall no longer be liable for repayment of the Loan, unless otherwise provided in the approval by the Committee of the assumption. The Loan Packager shall provide to the Committee its written recommendation as to the terms of each such assumption, which may be accepted, modified or rejected by the Committee.

(g) Loan Documents. Each Loan shall be secured and evidenced by, at a minimum, the following documents: a promissory note made by the Owner to the order of the City (together with all restatements and renewals thereof, the "Note"), a loan agreement between the Owner and the City, a mortgage and security agreement securing the Note executed by the Owner in favor of the City, and such other documents as determined by the Corporation Counsel of the City (collectively, the "Loan Documents").

(h) Name of Lender. All Loans shall be made in the name of the City as lender.

(i) City Liability. The Loan Documents for each Loan shall provide that the City shall incur no liability arising out of or in connection with any action or omission of any contractor or subcontractor for the applicable Building.

3.3 Grants.

If deemed necessary by the Loan Packager, but only with the prior written approval of the Committee, moneys from the C.A.P.P. Fund may be used as a Grant, bearing no interest, to an Owner. The maximum principal amount of each Grant shall be \$10,000. Each Grant shall be made only for the purpose of providing funds to an Owner to pay all or a portion of the excess of the total amount of Project Costs less the combined principal amounts of the

Private Funds, the Loan and any applicable Other Public Financing. Each Grant shall have a five-year term, shall comply with the same restrictions applicable to Loans and contained in Sections 3.1 and 3.2(e) and (f) and shall be evidenced by the following documents, each in form and substance satisfactory to the Corporation Counsel of the City: a grant agreement between the Owner and the City, a mortgage and security agreement securing the Grant and executed by the Owner in favor of the City, and such other documents as determined by the the Corporation Counsel of the City (collectively, the "Grant Documents"). The Grant Documents for each Grant shall contain the provisions described in Section 3.2 (i) hereof. If an Owner complies with the terms and conditions of the applicable Grant Documents during the Grant term, such Owner's obligation to repay the Grant amount shall be reduced, during each month of the Grant term, by 1/60th of the entire Grant amount. Each Grant shall be due and payable by the Owner to the City upon a default by the Owner under the applicable Grant Documents.

3.4 Loans To Members; Self-Dealing.

The Loan Packager shall not present any Loan or Grant Application to the Committee for approval if such Loan or Grant shall be to itself or to an Owner which is a member, officer, director or employee of the Loan Packager without noting such fact on such Application.

3.5 Total Principal Amount Of Loans, Grants.

The Loan Packager shall not present any Loan or Grant Application to the Committee for approval without the prior written consent of the Committee if the sum of (a) the principal amount of such Loan or Grant plus (b) the aggregate principal amount of all Loans and Grants for which Applications shall have previously been presented by the Loan Packager, shall exceed the Maximum Limit.

(b) Packaging of Loans, Grants. The Loan Packager shall work with Owners to ensure that all Loan and Grant Applications meet all of the conditions specified in Article III hereof. The Loan Packager shall have authority to reject Applications which do not comply with such conditions. The Loan Packager shall, within 120 days of receipt of a complete Application, reject or present such Application to the Committee for approval. The Loan Packager shall use sound underwriting principles in structuring proposed Loans and Grants to be presented to the Committee for approval. (e) Preparation of Loan, Grant Documents. After issuance of the Committee's approval of a Loan or Grant Application, the City shall prepare the Documents for such Loan or Grant, for execution by the Owner and/or the City.

(f) Closing. For each Loan and Grant approved by the Committee, the City shall (i) arrange for the execution and delivery of the Documents by the parties thereto, (ii) close such Loan or Grant, and (iii) cooperate with the Private Lender to provide for the disbursement of the Private Funds and funds of the Loan, grant and any applicable Other Public Financing through an escrow with a title company, which shall use separate subaccounts for the proceeds of the Private Funds, the Loan and/or Grant and any applicable Other Public Financing. The City shall notify the Loan Packager of each such closing promptly after the closing date.

(g) Construction Monitoring. The Loan Packager shall be responsible for the monitoring of the construction process. The Loan Packager shall provide on-site inspection for all construction payouts. Notwithstanding the foregoing, the Loan Packager is not required to undertake the monitoring function if the Private Lender will capably monitor construction, at no additional cost to the Owner or the City. Whenever possible, the Private Lender should perform the construction monitoring and the Loan Packager shall cooperate therewith. Whether the Loan Packager or the Private Lender is monitoring construction, the Loan Packager shall review and approve all disbursement requests for Loan and Grant proceeds and shall notify D.O.H. promptly of all such approvals.

Financing Program and shall conduct other affirmative outreach efforts (including organizing or participating in seminars, conferences and public meetings) to disseminate information about the C.A.P.P. Financing Program to the public. Upon receipt of notice from D.O.H., the Loan Packager shall cooperate with D.O.H. in any program which D.O.H. may undertake to promote and explain the C.A.P.P. Financing Program.

The Loan Packager acknowledges its status as an agent for the City and represents and warrants to the City that it has the power to perform the Services, including those listed in this Section 5.2.

5.3 Standard Of Performance.

The Loan Packager shall perform all Services required of it under this Agreement with the standard of skill, care and diligence as ordinarily employed by commercial lending institutions in the community. The Loan Packager shall at all times act consistent with the professional obligations assumed by it in entering into this Agreement and with its duties toward the City hereunder as its agent. The Loan Packager shall perform, or cause to be performed, all Services hereunder in accordance with the terms and conditions of this Agreement and to the reasonable satisfaction of the City. Any review, approval, acceptance or payment for any and all of the Services by the City shall not relieve the Loan Packager of its responsibility for the professional accuracy and due diligence of its Services. This provision in no way limits the City's rights against the Loan Packager either under this Agreement or otherwise, at law or in equity.

5.4 Nondiscrimination.

(a) City Code. Pursuant to the Chicago Human Rights Ordinance, Municipal Code of Chicago, Ch. 2-160 (1990), the Loan Packager in performing under this Agreement shall not discriminate against any Owner on the basis of race, color, religion, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income, and will require all Owners to include a similar provision binding on contractors in construction contracts.

(b) C.D.B.G. Requirements. The Loan Packager in performing under this Agreement shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, creed, color, religion, national origin, ancestry, age, sex, sexual preference, mental or physical disability unrelated to ability to perform, or national origin, nor otherwise commit an unfair employment practice. The Loan Packager shall take affirmative action to ensure that applicants for employment with the Loan Packager are employed, and that employees are treated, without regard to the employees' race, creed, color, religion, age, sex, sexual preference, mental or physical disability unrelated to ability to perform, or national origin, during employment. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Loan Packager agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause. The Loan Packager further agrees that this clause will be incorporated into any and all contracts entered into with suppliers of materials, services, consultants and subconsultants and all labor organizations furnishing skilled, unskilled and craft union skilled labor who may perform labor or services in connection with this Agreement.

The Loan Packager hereby agrees to comply with the applicable requirements of Executive Order 11246 issued September 24, 1965, 30 F.R. 12319, as modified by Executive Order 11375 issued October 13, 1967, 32 F.R. 14303 and Executive Order 12086 issued October 5, 1978, 43 F.R. 46501 and as further amended by Federal Reorganization Plan No. 2 of 1978, Section 102, 43 F.R. 36037, 5 U.S.C. App. 1; the Civil Rights Act of 1964, 42 U.S.C. § 2000, et seq.; the Americans With Disabilities Act of 1990; the Illinois Human Rights Act, 775 ILCS 5/1-101, et seq.; the Chicago Human Rights Ordinance, Municipal Code of Chicago, Ch. 2-160; and the provisions of 41 C.F.R. Chapter 60.

To demonstrate compliance the Loan Packager shall furnish and shall cause each of its subcontractor(s) to furnish such reports and information as requested by the Chicago Commission on Human Relations.

In the event the Loan Packager fails to comply with provisions of the Illinois Human Rights Act or rules, regulations and orders of the Illinois

Human Rights Commission, it may be declared ineligible for future contracts with the State of Illinois and the City, and this Agreement may be canceled, or voided in whole or in part, by the City and other sanctions or penalties may be imposed or remedies invoked by statute, regulation or order.

(c) Purchases. In the performance of this Agreement, including the procurement and lease of materials or equipment, the Loan Packager shall comply with the Municipal Code of Chicago, Section 2-92-420, et seq., except to the extent waived by the Purchasing Agent of the City.

(d) Members. The Loan Packager covenants that it shall not discriminate in favor of or against any Owner on the basis of such Owner being or not being a member of the Loan Packager.

5.5 Indemnification.

The Loan Packager agrees to defend, indemnify and hold the City, its officers, officials, agents and employees harmless from and against any and all liabilities, losses, suits, claims, judgments or demands of every kind or nature (including all reasonable costs and including, but not limited to, attorneys' fees and court and related costs) arising out of or incidental to the Loan Packager's performance or non-performance hereunder. The Loan Packager shall defend and pay the costs and expenses of all and any such suits; the City shall have the right, however, at its option, to participate in the defense of any suit without relieving the Loan Packager of any of its obligations under this Agreement. The indemnities contained in this provision shall survive the expiration or early termination of this Agreement, and shall continue while any Loan is outstanding or any Grant subject to repayment.

5.6 Records.

The Loan Packager shall keep accurate and detailed books, records and accounts with respect to each Loan or Grant for at least five years after the end of the term of each Loan or Grant or otherwise pursuant to this Agreement, and shall make all such books, records and accounts available for inspection to the City at the Loan Packager's business premises during normal working hours. The Loan Packager shall maintain and make available to the City such other records and documentation pertaining to this Agreement as the City requires to monitor each Loan and/or Grant. The Loan Packager shall keep all documentation, records, books and accounts in connection with each Loan and/or Grant and make them available for audit, inspection, copying, abstracting and transcribing, and shall not dispose of any such documentation, records, books and accounts until after prior written notice to and prior written approval from the City.

5.7 Licensed Personnel.

The Loan Packager, if required to be licensed or certified under any applicable statute, ordinance, rule or regulation, shall provide instructional and administrative personnel who are likewise so licensed or certified. The Loan Packager, if exempt from licensure or certification under any applicable statute, ordinance, rule or regulation, shall provide instructional and administrative personnel who are otherwise competent and qualified to perform the Services required under this Agreement. The Loan Packager shall retain and make available to the City, state and federal agencies governing C.D.B.G. The kinds and amounts of insurance required are as follows:

1. Worker's Compensation And Occupational Disease Insurance.

The City shall not allow the Loan Packager to commence the Services under this Agreement until all insurance is purchased and evidence of it is received and approved by the City, but the failure of the City to obtain such evidence from the Loan Packager before permitting the Loan Packager to commence such Services shall not be deemed to be a waiver by the City, and the Loan Packager shall remain under a continuing obligation to maintain the coverage and to supply the certificates.

The insurance specified hereinabove shall be carried until all Services required to be performed under the terms of this Agreement are satisfactorily completed. Failure to carry or keep such insurance in force shall constitute an Event of Default hereunder within the meaning of Section 9.1 hereof, and the City maintains the right to suspend the provisions hereof until proper evidence of insurance is provided. The Loan Packager shall require all subcontractors to carry the insurance required herein, or the Loan Packager may, at its option, provide the coverage for any or all subcontractors, and, if so, supply to the City evidence satisfactory to the City of such coverage.

The City maintains the right to modify, delete, alter or change these requirements.

The Loan Packager represents, warrants and covenants that it, its officers, directors and employees, and the officers, directors and employees of each of its members, if a joint venture, and subconsultants, have no interest and shall acquire no interest, direct or indirect, in this Agreement which would conflict in any manner or degree with the performance of the Services hereunder. The Loan Packager further covenants that in the performance of this Agreement no person having any such interest shall be employed by the Loan Packager. The Loan Packager agrees that if the City determines that any of the Loan Packager's services for others conflicts with the Services, the Loan Packager shall terminate such other services immediately upon request of the City.

8.2 Non-Liability Of Public Officials.

No official, employee or agent of the City shall be charged personally by the Loan Packager, or by any assignee or subcontractor of the Loan Packager, with any liability or expenses of defense or shall be held personally liable to the Loan Packager under any terms or provisions of this Agreement because of the City's execution or attempted execution hereof or because of any breach hereof.

Further, the Loan Packager understands and acknowledges that any person who violates any provision of Chapter 3-68 of the Municipal Code of Chicago shall be subject to a fine of not less than \$500 and not more than \$1,000 for each offense. Article IX.

9.1 Event Of Default Defined.

The following, subject to the notice and cure provisions of Section 9.2 hereof, shall constitute events of default ("Events of Default") hereunder:

- (ii) failure to promptly re-perform within a reasonable time Services that were rejected as erroneous or unsatisfactory;

- (iii) discontinuance of the Services for reasons or circumstances not beyond the Loan Packager's reasonable control;
 - (iv) failure to comply with a material term of this Agreement, including, but not limited to, the provisions concerning nondiscrimination;
 - (v) failure by the Loan Packager to ensure that the rehabilitation of each Building for which the Loan Packager is monitoring construction complies with all applicable laws, including environmental laws; or
 - (vi) any other acts specifically and expressly stated in this Agreement as constituting an Event of Default;
- (c) any change in ownership or control of the Loan Packager without the prior written approval of the City;
- (d) the dissolution of the Loan Packager or the entry of a decree or order for relief by a court having jurisdiction with respect to the Loan Packager in an involuntary case under the federal bankruptcy laws, as now or hereafter constituted, or any other applicable federal or state bankruptcy, insolvency or other similar law, or appointing a receiver, liquidator, assignee, custodian, trustee or sequestrator (or other similar official) of the Loan Packager or for any substantial part of the property of the Loan Packager or ordering the winding-up or liquidation of the affairs of the Loan Packager and the continuance of any such decree or order unstayed and in effect for a period of 30 consecutive days;
- (e) the commencement by the Loan Packager of a voluntary case under the federal bankruptcy laws, as now or hereafter constituted, or any other applicable federal or state bankruptcy, insolvency or other similar law, or the consent by the Loan Packager to the appointment of or taking possession by a receiver, liquidator, assignee, trustee, custodian or sequestrator (or other similar official) of the Loan Packager or of any substantial part of the property of the Loan Packager or of any royalties, revenues, rents, issues or profits therefrom, or the making by the Loan Packager of any assignment for the benefit of creditors or the failure of the Loan Packager generally to pay its debts as such debts become due or the taking of action by the Loan Packager in furtherance of any of the foregoing;
- (f) a final judgment for the payment of money in excess of \$100,000 shall be rendered by a court of record against the Loan Packager and the Loan Packager shall not discharge the same or provide for its discharge in accordance with its terms, or procure a stay of execution thereof, within 60 days from the date of entry thereof, or such longer period during which execution of such judgment shall have been stayed; or

(g) default by the Loan Packager under any other agreement which such party may currently have or may enter into with the City during the term of this Agreement.

9.2 Remedies.

If any event referred to in Section 9.1 hereof cannot reasonably be cured within 30 days after receipt of notice given in accordance with the terms of this Agreement, or if the Loan Packager has failed, in the sole opinion of the City, to commence and continue diligent efforts to cure such event, the City may, at its sole option, declare an Event of Default hereunder. Whether to declare an Event of Default hereunder is within the sole discretion of the City and neither that decision nor the factual basis for it is subject to review or challenge under this Agreement. Written notification of, or that results in, an Event of Default, and any intention of the City to terminate this Agreement, shall be provided to the Loan Packager and such decision shall be final and effective upon receipt of such notice pursuant to Section 10.4 and failure to cure within the stated applicable cure period. Upon the giving of such notice, the City may invoke any or all of the following remedies:

- (a) the right to terminate this Agreement as to any or all of the Services yet to be performed effective at a time specified by the City;
- (b) the right of specific performance, an injunction or any other appropriate equitable remedy;
- (c) the right to money damages;
- (d) the right to withhold all or any part of the Loan Packager's compensation hereunder; and
- (e) the right to deem the Loan Packager non-responsible in future contracts to be awarded by the City.

If the City considers it to be in its best interests, it may elect not to declare an Event of Default hereunder or to terminate this Agreement. The parties acknowledge that this provision is solely for the benefit of the City and that if the City permits the Loan Packager to continue to provide the Services despite one or more Events of Default, the Loan Packager shall in no way be relieved of any of its responsibilities, duties or obligations under this Agreement nor shall the City waive or relinquish any of its rights thereby.

The remedies under the terms of this Agreement are not intended to be exclusive of any other remedies provided, but each and every such remedy

shall be cumulative and shall be in addition to any other remedies, existing now or hereafter, at law, in equity or by statute. No delay or failure to exercise any right or power accruing upon any Event of Default shall impair any such right or power nor shall it be construed as a waiver of any Event of Default or acquiescence therein, and every such right and power may be exercised from time to time and as often as may be deemed expedient.

The Loan Packager acknowledges and agrees that upon the occurrence of an Event of Default under this Agreement the City may also declare a default under any such other agreements described in Section 9.1(g) hereof.

9.3 Disputes.

In the event of any dispute between the City and the Loan Packager relating to any question arising under, related to, or in connection with the terms of this Agreement, a request for resolution may be submitted to D.O.H. for final determination. A. Construction.

1. I.C.P.V. and Illinois Center Corporation shall be responsible for the construction of a public park as provided for in this 1993 Amendatory Lake Front Ordinance. There shall be constructed a public park comprised of two components: a) the park surface consisting of a platform structure and/or surface land fill (the "Park Surface"); and b) the park improvements consisting of the top soil, landscaping, finish surface treatments and furnishings (the "Park Improvements"). When completed the public park shall be six acres in size and located, configured and constructed, including lighting, drainage, irrigation and water-proofing for the public park, in general conformity with the plans consisting of nine sheets entitled, Illinois Center Park dated January 21, 1993 (the "Park Plans") and the specifications for the public park entitled, Illinois Center Park Specifications dated January 19, 1993 (the "Park Specifications") all of which are attached hereto and made a part hereof.
2. The Park Surface, including any platform structure constructed as part thereof, shall be designed and constructed to support such loads as are imposed by the Park Improvements but in no case more than a superimposed load of four feet of earth in addition to live loads as required by the Chicago Building Code.
3. The Park Improvements shall be constructed and installed in general conformance with the Park Plans and the Park Specifications.

4. Minor changes to the location, elevation and/or configuration of the public park and the specifications for the public park may be made by I.C.P.V. with the approval of the Commissioner of Planning, after consultation with the Chicago Department of Transportation, pursuant to Section 11.11-3(c) of the Chicago Zoning Ordinance and Statement 13 of R.B.P.D. 5. The design, engineering and construction of the Park Surface including any supports, columns, foundations and other appurtenances thereto, and the necessary fill dirt and rough grading constituting the structural, civil engineering and rough grading and fill aspects of the Park Surface shall be the obligation of the Illinois Center Corporation to provide at its sole cost and expense. The design, engineering and installation of the Park Improvements including the final grading shall be the obligation of I.C.P.V. to provide at its sole cost and expense.
6. Fifteen months prior to the date by which I.C.P.V. must file a building permit application for construction of all or any portion of the public park, I.C.P.V. shall provide the Chicago Park District with written notice of the date by which I.C.P.V. must file said building permit application (the "Construction Notice"), copies of preliminary plans for the public park and the estimated cost of the Park Surface and the Park Improvements to be constructed prepared by an independent cost estimator acceptable to all parties. If the Chicago Park District adopts alternative specifications for construction of either the Park Surface or the Park Improvements or both and transmits to I.C.P.V. those specifications and an estimate of the respective costs for the Park Surface and Park Improvements within three months of receiving the Construction Notice, then the public park shall be constructed in accordance with the specifications adopted by the Chicago Park District. Provided, however, that:

(a) notwithstanding any provision of this Amendatory Lake Front Ordinance the alternative specifications for the public park adopted by the Chicago Park District shall not require construction of the public park at locations or elevations other than those depicted on the Park plans except as authorized by Section II(A)(4) hereof and approved by I.C.P.V. hereof; and

(b) neither I.C.P.V. nor Illinois Center Corporation shall be required to pay for the design, engineering and

construction of either a Park Surface which exceeds the quality or cost of the Park Surface provided for in Section II(A)(2) hereof or Park Improvements which exceed the quality or cost of those improvements as provided for in Section II(A)(2) hereof.

If the design, engineering or construction of either a Park Surface or Park Improvements or both which exceed the quality or respective cost of those improvements as provided for in Sections II(A)(2) and II(A)(3) hereof (the "Up-graded Improvements") is requested by the Chicago Park District, then: (i) the Chicago Park District shall pay for the costs associated with such Up-graded Improvements; and (ii) the design, engineering or construction of such improvements shall not commence until I.C.P.V., Illinois Center Corporation and the Chicago Park District have agreed on the cost of the Up-graded Improvements and the Chicago Park District has posted a payment bond or a letter of credit in a form reasonably satisfactory to Illinois Center Corporation with respect to the Park Surface and to I.C.P.V. with respect to the Park Improvements for payment of the cost of the Up-graded Improvements. If within six months after the adoption of alternative specifications by the Chicago Park District, the Chicago Park District and, as the case may be, Illinois Center Corporation and/or I.C.P.V. do not agree on the cost of the Up-graded Improvements and/or if the Chicago Park District has not posted a payment bond or a letter of credit in a form reasonably satisfactory to, as the case may be, Illinois Center Corporation and/or I.C.P.V., then the public park shall be constructed in accordance with the Park Plans and Park Specification and the provisions of this Amendatory Lake Front Ordinance shall be construed as if the Chicago Park District had not adopted alternative specifications for the public park.

B. Timing Of Park Construction.

1. Sheet 1 of the Park Plans depicts the property generally bounded by the Chicago River, Lake Shore Drive, Randolph Street and Columbus Drive, generally depicts the area of the public park and divides the above described property into two sections along a north-south axis lying conterminously with the center line of North Field Boulevard. The portions of the property within each section which are undeveloped as of the date hereof as depicted in Sheet 1 of the attached Park Plans, exclusive of areas required for or devoted to the public park or streets, shall be referred to hereinafter as the

"Developable Sections". The portions of the public park depicted in Sheet 1 of the Park Plans east and west of the North Field Boulevard north-south division line shall be referred to hereinafter as the "Park Sections". The Developable Sections shall be improved in accordance with the provisions of R.B.P.D. No. 70. The public park within the Developable Sections shall be constructed in accordance with the following time tables:

(a) If a driving range is opened within the area delineated as Subarea E in R.B.P.D. No. 70 and in accordance with the provisions of R.B.P.D. No. 70, then I.C.P.V. and Illinois Center Corporation shall commence construction of the public park, in accordance with the provisions hereof, no later than the fifteenth anniversary of the issuance by the City of Chicago of a Certificate of Occupancy for the driving range;

(b) If a driving range is not opened in accordance with the provisions of R.B.P.D. No. 70 or if it is so opened but thereafter ceases to operate for a continuous period of twelve months, then the Park Sections shall be constructed:

(i) With regard to the western Park Section, I.C.P.V. shall give notice to the Park District as provided in Section II(A)(6) hereof, and apply for the required building permits for construction of this Park Section within 15 months of the issuance by the City of Chicago of Certificates of Occupancy for buildings or structures which represent either: (x) 40% or more of the land area of the western Developable Section; (y) 50% or more of the aggregate frontage of the western Developable Section on the western Park Section; or (z) construction after 1992 in excess of 3,000,000 square feet of floor area (as defined in R.B.P.D. No. 70) within the western Developable Section. Provided, however, that in no event shall construction of the public park commence later than the fifteenth anniversary of the date by which the driving range was to be opened under R.B.P.D. No. 70; or

(ii) With regard to the eastern Park Section, I.C.P.V. shall give notice to the Park District as provided in Section II(A)(6) hereof, and apply for the required building permits for construction of this Park Section within 15 months after the issuance by the City of

Chicago of Certificates of Occupancy for buildings or structures which represent: (x) 40% or more of the land area of the eastern Developable Section; (y) 50% or more of the aggregate frontage of the eastern Developable Section on the eastern Park Section; or (z) construction after 1992 in excess of 1,240,000 square feet of floor area (as defined in R.B.P.D. No. 70) within the eastern Developable Section. Provided, however, that in no event shall construction of the public park commence later than the fifteenth anniversary of the date by which the driving range was to be opened under R.B.P.D. No. 70.

(c) Notwithstanding the provisions of subsections (a) and (b) above, if a multi-purpose field is not opened to the public by the date provided in Statement 12(A)(1) of R.B.P.D. No. 70, I.C.P.V. shall give notice to the Park District as provided in Section II(A)(6) hereof, and apply for the required building permits for construction of the portion of the public park east of the east line of Harbor Drive, as extended north, within 15 months after the date by which a multi-purpose field should have been opened under Statement 12(A)(1) of R.B.P.D. No. 70. If, however, the multi-purpose field is opened to the public as required under R.B.P.D. No. 70, then the portion of the public park east of the east line of Harbor Drive, as extended north, shall be constructed in accordance with the occurrence of the earlier of the events specified in subsection (a) or (b) (ii) above or in Statement 12(A)(3)(b) of R.B.P.D. No. 70.

(d) Upon issuance of the required building permits for construction of all or portions of the public park as provided for above, construction of the public park shall be diligently pursued to completion.

2. To facilitate the administration of Sections II(B)(1)(b)(i) and II(B)(1)(b)(ii), I.C.P.V. shall provide the Commissioner of Planning with annual reports indicating the number of Certificates of Occupancy that have been issued by the City of Chicago for buildings or structures in the Developable Sections, the cumulative land area, aggregate frontage on a Park Section and cumulative floor area constructed after 1992 represented by those Certificates of Occupancy within each of the western and eastern Developable Sections. The annual report shall also include a summary of dollar amounts and parcels of land for which security has been posted pursuant to Section VIII hereof.

C. Park Dedication.

1. If the Chicago Park District either (a) adopts alternative specifications pursuant to Section II(A)(6) hereof for construction of either the Park Surface or the Park Improvements or both and the public park is constructed in accordance with those alternative specifications or (b) agrees in writing to accept dedication of the public park prior to construction of any portion thereof, then the following described interests shall be dedicated and granted by I.C.P.V. and/or Illinois Center Corporation, at no cost, to the Chicago Park District upon completion of the public park or portions thereof and the Chicago Park District shall not refuse to accept their dedication. In the event that the Chicago Park District does not adopt such alternative specification or agree to accept dedication of the public park and if the public park is constructed in accordance with the provisions of this Amendatory Lake Front Ordinance, then, after final inspection or the issuance of a Certificate of Occupancy or its equivalent by the City of Chicago but not later than when the public park or any portion thereof is opened to the public, the following described interests shall be dedicated and granted by I.C.P.V. and/or Illinois Center Corporation, at no cost, to the City of Chicago and the City of Chicago shall not refuse to accept their dedication.

The interest to be dedicated and granted by I.C.P.V. and/or Illinois Center Corporation for public use are:

(a) fee simple title in and to the following interests in land and air rights:

(i) the land and air rights occupied by the portion of the Park Surface constructed on surface land fill;

(ii) the air rights above any platform constructed for the public park and the air rights occupied by the portion of the Park Surface consisting of a platform and its foundations, columns and supports and the air rights above provided, however, that I.C.P.V. and/or Illinois Center Corporation shall have the right to utilize the land and air rights located beneath that portion of the Park Surface which is not located on land fill for such purposes which are authorized under R.B.P.D. No. 70 and which, as determined by the Commissioner of Transportation (or the Chicago Park District if the park

is to be or has been dedicated to it pursuant to Section II (C)(1) hereof), do not create a hazard to the continued use of the public park or the Park Surface and will not unreasonably interfere with the repair or maintenance of the Park Surface. Further, provided, that said platform, foundations, columns and supports may be jointly used for construction by I.C.P.V. and/or Illinois Center Corporation for any purpose not inconsistent with the use by the public of said park platform, foundations, columns and supports as determined by the Commissioner of Planning and the Commissioner of Transportation; and

(b) fee simple title in and to the interests in the Park Improvements.

I.C.P.V. and/or Illinois Center Corporation shall grant to the City of Chicago (or the Chicago Park District if the Park is to be or has been dedicated to it pursuant to Section II(C)(1) hereof) such permission, authority and the necessary easements for maintenance, repair or reconstruction of the Park Surface as provided for in Section VI hereof.

2. If the public park is to be dedicated to Chicago Park District as provided for in Section II(C)(1) hereof, then the City of Chicago agrees to grant the Chicago Park District, at no cost, a perpetual easement that would connect the public park to the Lakefront Park bicycle path east of Lake Shore Drive.

III.

North Field Boulevard.

- A. The right-of-way for North Field Boulevard has previously been dedicated but is not currently improved. That right-of-way shall be improved with a lower level street and an intermediate level street. The right-of-way also may, at the sole discretion of I.C.P.V., be improved with an upper level street or portion thereof; provided, however, that unless approved by the Commissioner of Planning, no portion of Upper Level North Field Boulevard (except the upper level pedestrian bridge provided for in R.B.P.D. No. 70 and in Section III(B) below) shall be constructed within the area bounded by a line 100 feet north and south of the east/west center line of the public

park described above measured from the point where such center line intersects the west right-of-way line of Intermediate Level North Field Boulevard.

- B. An upper level pedestrian bridge shall be constructed either within the boundaries of the North Field Boulevard right-of-way or outside thereof but immediately adjacent to its west boundary. If it is constructed outside but adjacent to the right-of-way boundary, I.C.P.V. shall use reasonable efforts to maximize the column spacing below the bridge and shall use materials for construction of the bridge which are comparable in color to those used for the public park.
- C. If all or any portion of Upper Level Field Boulevard is constructed, it shall be located in the area bounded by the south line of Wacker Drive and extending, except as provided in Subsection III(A) above, in a southerly direction to the point of its intersection and connection with the north line of an elevated street known as Upper Level East Randolph Street. Any portion of Upper Level North Field Boulevard which is constructed shall consist of northbound and southbound pavements each not less than 13 feet wide, may contain variable width slip ramps from Intermediate Level North Field Boulevard not exceeding 36 feet in width and shall be constructed with balustrades, as required for safety, lighting, signage and all miscellaneous and appurtenant items including but not limited to drainage structures for storm water runoff. The superstructure for any portion of Upper Level North Field Boulevard which may be constructed shall consist of steel or concrete beams or girders supporting a reinforced concrete deck roadway but need not consist of a median, a parapet, a 1.5 inch thick bituminous wearing surface or a coal tar interlayer protective coat. The beams supporting the concrete deck shall be supported on substructure elements supporting Intermediate Level North Field Boulevard, but need not be framed into bents spanning Intermediate Level North Field Boulevard. The columns shall rest on the tops of reinforced concrete columns projecting a short distance above the finished elevation of Lower Level North Field Boulevard. The foundations supporting the concrete columns shall consist of reinforced concrete caps resting on concrete subpiers extending down into the earth to hardpan or rock and belled at the base if required to support the loads. In addition, any portions of Upper Level North Field Boulevard constructed adjacent to Upper Level Wacker Drive and/or Upper Level Randolph Street shall connect with those streets. The total width of Upper Level North Field Boulevard, if it is constructed, shall not exceed 98 feet.

Said plans, specifications, or cost and expense estimate matters so in dispute between them may be taken up and decided in the manner as provided in Subsection b of Section 26 of the 1969 Amendatory Lake Front Ordinance.

VIII.

Effect Of Covenants.

Covenants herein contained on the part of Illinois Center Corporation and I.C.P.V.:

(1) Are continuing and personal to each said entity.

(2) Are binding upon purchasers, grantees, lessees or other claiming right, title or interest in the Developable Sections or any portion thereof (the "Conveyees"), unless released pursuant to subsection (5) below, only with respect to the cost to design and construct the Park Surface and Park Improvements ("Park Costs"), and only for land area which is conveyed (hereinafter a "Conveyed Section") after the effective date hereof. This provision shall not apply with respect to any interim uses of the Developable Sections or any portion thereof.

(3) Shall not be binding on the holder of any mortgage but shall be binding on any grantee of a holder of a mortgage or any purchaser of property at a foreclosure sale unless released pursuant to subsection (5) below. Nothing in this Section shall be deemed or construed to permit or authorize any such holder of a mortgage to devote any Conveyed Section or any part thereof to any use or construct any improvements thereon other than those uses or improvements provided for in R.B.P.D. No. 70.

(4) Upon the conveyance of a Conveyed Section, the owner or its agent ("Conveyor(s)") or the Conveyee(s) of the Conveyed Section shall post security for the benefit of the City. Such security shall (i) be in the form of cash, letter of credit, payment bond, performance bond or other security (in a form selected by the party posting such security for the Conveyed Section and approved by the Corporation Counsel) for the proportionate share of the Park Costs, and (ii) remain in place until such time as the Park Surface and Park Improvements are completed. This proportionate share from the date hereof through calendar year 1994 will be determined by multiplying \$11,000,000 by a fraction whose numerator shall be the square feet of land of the Conveyed Section and whose denominator shall be the total square feet of land of the Developable Sections. Beginning with the calendar year 1995, \$11,000,000 shall be adjusted annually by changes in the Consumer Price Index ("C.P.I."), beginning with the change in the C.P.I. from January 1, 1994 through December 31, 1994. Such security shall not be required to be posted if a Conveyed Section is conveyed by and between any of the partners of I.C.P.V., Whitman Corporation or any of Whitman Corporation's wholly owned subsidiaries and/or any land trusts under which any of the partners of I.C.P.V.,

Whitman Corporation or any of Whitman Corporation's wholly owned subsidiaries are the beneficiaries.

(5) Upon posting such security the City of Chicago shall provide a full and unconditional release (in recordable form) to the Conveyee(s) of the Conveyed Section, which release shall fully, irrevocably and unconditionally release the Conveyee(s) and its and their successors, assigns, purchasers, grantees, lessees, mortgagees, encumbrancers, trustees, beneficiaries and other individuals or entities then or thereafter holding or claiming any right, title or interest in the Conveyed Section or any portion thereof from any obligations respecting the Park Costs or the payment of the same. Nothing in this section shall be construed so as to relieve I.C.P.V. and Illinois Center Corporation from their obligations to construct a public park as provided for in Section II(A) (I) above.

(6) Any liability of Illinois Center Corporation or I.C.P.V. hereunder shall be collected solely from the assets of each as a Delaware corporation or an Illinois limited partnership, respectively. No shareholder of Illinois Center Corporation nor any partner of I.C.P.V. shall have any liability hereunder nor shall any such shareholder's or partner's separate property be subject to any liability hereunder. A deficit capital account of any partner of I.C.P.V. shall not be deemed an asset or property of I.C.P.V..

IX.

Penalty.

If an application for a building permit is not filed for construction of any portion of the public park or construction of any portion thereof is not commenced, as the case may be, in accordance with the provisions of Statement 12(A)(3) of R.B.P.D. No. 70 or the time frames established in Section II(B) hereof, then a penalty may be imposed under the terms and conditions contained in R.B.P.D. No. 70. It is understood, however, that the penalty provided for in R.B.P.D. No. 70 and this provision shall not be construed as imposing cumulative penalties. Furthermore, it is also understood that this provision and the penalty provided in R.B.P.D. No. 70 shall apply in addition to any remedies which may be available to the City at law or equity.

SECTION 2. Section 13 of the 1969 Amendatory Lake Front Ordinance is hereby amended to provide as an additional permitted use in the previously dedicated easement areas within the area identified as Subarea E in R.B.P.D. No. 70 all interim uses authorized under R.B.P.D. No. 70.

SECTION 3 Section 23 and Section 25(e) of the 1969 Amendatory Lake

Front Ordinance are hereby repealed and deleted in their entirety.

This 1993 Amendatory Lake Front Ordinance shall be accepted by the Chicago Park District, Illinois Center Corporation and I.C.P.V. by each party filing with the City Clerk of the City of Chicago its acceptance in writing within thirty days from and after the passage and publication of the ordinance.

SECTION 7. This 1993 Amendatory Lake Front Ordinance shall become effective as an ordinance and as a contract by and among the parties hereto ten (10) days from and after its due passage and publication and the filing of the acceptances required by the provisions of Section 6 immediately above.

SECTION 8. Until this 1993 Amendatory Lake Front Ordinance shall so have become effectively operative, Illinois Center Corporation and I.C.P.V. shall not be required to make any conveyance, dedication or grant hereinbefore provided for under this 1993 Amendatory Lake Front Ordinance, provided, that Illinois Center Corporation and I.C.P.V. shall not be precluded from making such conveyance dedication or grant on the effective date of this 1993 Amendatory Lake Front Ordinance as set forth in Section 7; nor shall any of the parties hereto be permitted or required hereunder to exercise any grant or authority or to use or enjoy any easement or to do any of the construction or other work permitted or required of them by any provision of this 1993 Amendatory Lake Front Ordinance.

SECTION 9. I.C.P.V. shall within sixty (60) days after this 1993 Amendatory Lake Front Ordinance becomes effectively operative, as herein provided, file for record in the office of the Recorder of Deeds of Cook County,

The following is said ordinance as passed:

WHEREAS, The Metropolitan Pier and Exposition Authority ("M.P.E.A.") is in the process of redeveloping Navy Pier as a significant cultural, entertainment and recreational attraction; and

WHEREAS, Pursuant to a certain Grant of Easement and Construction, Operation and Maintenance Agreement between the City of Chicago ("City") and M.P.E.A., and pursuant to a reservation in a certain Quitclaim Deed from the M.P.E.A. to the City, the M.P.E.A. has an easement for its 60 inch -- 66 inch storm sewer ("Storm Sewer") over and across the City-owned property located west of Navy Pier ("Headlands"); and

WHEREAS, Pursuant to an Intergovernmental Cooperation Agreement executed August 25, 1992, between the City and the M.P.E.A., the City has agreed to construct certain public roadway improvements on the Headlands; and

WHEREAS, The design and construction of such roadway improvements will be facilitated if stormwater from such improvements can be drained into the Storm Sewer; and

WHEREAS, The City and the M.P.E.A. desire to convey the Storm Sewer from the M.P.E.A. to the City as a public sewer serving both Navy Pier and the Headlands and to partially release the M.P.E.A.'s easement, but only as to the Storm Sewer; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The Commissioner of Sewers is authorized to execute a Partial Release of Easement and Conveyance of Sewer Facilities in substantially the form attached to and incorporated in this ordinance as Exhibit A.

SECTION 2. This ordinance shall be in full force and effect upon its passage and approval in accordance with law.

Exhibit "A" attached to this ordinance reads as follows:

Exhibit "A".

Partial Release Of Easement

And Conveyance Of Sewer Facilities.

Whereas, On April 23, 1992, the City of Chicago, an Illinois home rule municipality ("City") and the Metropolitan Pier and Exposition Authority, a municipal corporation and body politic organized and existing under the laws of the State of Illinois ("M.P.E.A."), entered into an agreement entitled "Grant of Easement Construction, Operation and Maintenance Agreement" ("Grant Agreement") which was recorded on such date in the Office of the Recorder of Deeds of Cook County as Document No. 92276227; and

Whereas, Pursuant to the Grant Agreement the City granted M.P.E.A. an easement ("Grant Agreement Easement") to construct and install a 60 inch -- 66 inch storm sewer including all related attachments, equipment and appurtenances ("Storm Sewer") to accommodate storm water run-off from M.P.E.A.'s Navy Pier development, and to construct and install a 10 inch sanitary sewer including all related attachments, equipment and appurtenances ("New Sanitary Sewer") in, upon, under, along and across the Easement Premises which are defined in the Grant Agreement and in (Sub)Exhibit A which is attached and incorporated; and

Whereas, The Grant Agreement requires M.P.E.A. to maintain the Storm Sewer and New Sanitary Sewer, pursuant to certain conditions and standards; and

Whereas, On August 25, 1992, M.P.E.A. delivered to the City a Quitclaim Deed, recorded as Document No. 92637356 ("Deed") conveying the real estate located immediately south of the Easement Premises and reserving an easement to M.P.E.A. for the extension of the Storm Sewer to Ogden Slip ("Deed Easement"); and

Whereas, The Deed Easement was granted on terms and conditions identical to those of the Grant Agreement Easement; and

Whereas, The City and M.P.E.A. desire that the Storm Sewer, but not the New Sanitary Sewer, be conveyed by M.P.E.A. to City and that the Deed Easement be released, the Grant Agreement Easement be partially released (as to the Storm Sewer only), and the Grant Agreement be amended to reflect such conveyance;

Now, Therefore, In consideration of the mutual promises and covenants set forth in this Instrument, the City and the M.P.E.A. agree and covenant as follows:

1. The foregoing recitals are incorporated by reference as if set forth here.
2. The Grant Agreement Easement, granted in Paragraph 1 of the Grant Agreement shall be deemed released but only as to the Storm Sewer, not as to the New Sanitary Sewer.
3. The Deed Easement shall be deemed released in its entirety.
4. M.P.E.A. hereby warrants and conveys to the City and the City hereby accepts, in an "as is" condition, those portions of the Storm Sewer located in either the Easement Premises or the real property conveyed by the Deed. In the event that an attachment, equipment or appurtenance is reasonably required or necessary for the operation of both the Storm Sewer and the New Sanitary Sewer, ownership of such attachment, equipment or appurtenance shall be deemed to have passed the City, the M.P.E.A. reserving an easement to use such attachment, equipment or appurtenance pursuant to the terms and conditions set forth in the Grant Agreement.
5. The City shall operate and maintain the portion of the Storm Sewer conveyed by this Instrument as a public sewer in accordance with all applicable laws, ordinances, regulations, judicial decrees and orders, including Chapter 11-16 of the Municipal Code of Chicago, and the ordinary policies of the City relating to public sewers and drains.
6. Effective upon the execution of this Instrument by M.P.E.A. and the City and the delivery of "as-built" plans and specifications as required by Section 6 of the Grant Agreement, M.P.E.A.'s obligations to further maintain and operate the Storm Sewer and concerning abandonment and removal of the Storm Sewer shall terminate; provided, however, that M.P.E.A. shall remain responsible for all occurrences arising and the acts and omissions of M.P.E.A. and its agents and employees occurring prior to such termination, subject to the terms and conditions of the Grant Agreement as originally approved. All covenants and obligations concerning the New Sanitary Sewer shall remain in full force and effect as provided in the Grant Agreement as originally approved.

7. All rights granted and obligations imposed by this Instrument shall run with the Easement Premises and shall be binding upon, inure to the benefit of and be enforceable by M.P.E.A. and the City and their respective successors and assigns. This instrument may be recorded.

In Witness Whereof, M.P.E.A. and the City have caused this Instrument to be executed by its duly authorized officers.

10-20-010 Permit-Fees-Issuance.

(a) It shall be unlawful for any person to make an opening in any public way or other public place without first obtaining a permit therefore from the commissioner of transportation. A permit fee [of \$100.00] shall be required for creating any [pavement] opening in the public way. *The permit fee for creating a pavement opening shall be \$110.00 for each such opening to be created prior to January 1, 1994. The [A] permit fee [of \$25.00 shall be required] for creating an opening in any parkway or unimproved portion of the public way shall be \$30.00 for each such opening to be created prior to January 1, 1994. All permit fees required under this section shall be increased by 5% per annum beginning January 1, 1994. The fee for any permit issued during the time periods specified in subsection (b) of this section shall be twice the normal fee.*

The foregoing fees, however, shall not be required of any person who has been granted the right to use the public way pursuant to a franchise ordinance approved by the city council and which franchise ordinance specifically prohibits the imposition of such fees in addition to the compensation to be received by the city pursuant to the franchise ordinance.

(b) *No permit shall be issued for opening any pavement that has been newly constructed or reconstructed after January 1, 1994, for a period of seven years after completion of the construction or reconstruction, unless the Commissioner of Transportation determines that circumstances warrant*

opening of such pavement. No permit shall be issued for the opening of pavement that has been resurfaced after January 1, 1994, within three years after completion of the repaving, unless the Commissioner of Transportation determines that circumstances warrant opening of such pavement. Any person who opens a newly constructed, reconstructed or resurfaced pavement without a permit within the time period specified herein, or who falsifies information in order to obtain a permit for such work, shall be subject to a fine of \$500 for each day that the opening exists.

(c) It shall be a condition of any permit for opening of pavement constructed or reconstructed after January 1, 1992, that the person creating the opening shall restore the pavement in accordance with specifications determined by the Commissioner of Transportation.

(d) [The] In addition to the other limitations on the issuance of permits described in this chapter, the Commissioner of Transportation shall not issue any permit for the opening of any public way or public place until he or she shall have been fully advised of the time, place and character of such opening and the purpose thereof. The Commissioner of Transportation may require that applications for permits be accompanied by a plat or pencil tracing or sketch showing the location, character and dimensions of any proposed openings for the installation of new work, or the location and character of any alterations involving changes in the location of pipes, conduits, wires or other conductors.

Before a permit shall be granted to open any public way or public place for any purpose, the Commissioner of Transportation shall make an estimate of the cost of restoring the pavement and surface in accordance with city specifications. The estimate shall be based on current construction costs.

When a permit is issued, it shall be transmitted to the Director of Revenue, and he or she shall collect the amount of both the estimate and the permit fee before delivering the permit to the applicant. Where the applicant is a city agency, the payment of the permit and estimate fees shall be waived. Also, where the opening is required to perform underground work to facilitate a city or state project or the repair of damage caused by city forces, the payment of permit fees shall be waived. When the applicant is a utility company, the estimate deposit shall also be waived.

10-20-050 Tearing Up Public Ways.

East Chicago Avenue; North Lake Shore Drive; East Huron Street; North Fairbanks Court; East Erie Street; a line 328 feet east of North Fairbanks Court; East Ontario Street; North Fairbanks Court; a line 109 feet north of East Ontario Street; a line 128 feet east of North Fairbanks Court; East Erie Street; North St. Clair Street; East Superior Street; a line 416 feet west of North Fairbanks Court; the alley next north of and parallel to East Superior Street; and a line 466 feet west of North Fairbanks Court,

which is hereby established in the area described above, subject to such use and bulk regulations as are set forth on the Plan of Development herewith attached and made a part hereof and to no others.

SECTION 2. This ordinance shall be in force and effect from and after its passage.

Plan of Development attached to this ordinance reads as follows:

Institutional Planned Development Number 3

As Amended (1962, 1975 And 1993).

Plan Of Development Statements.

1. The area delineated herein as Institutional Planned Development No. 3, as amended (1962, 1975, 1993), consists of approximately

917,389 square feet (21.03 acres) of property which is depicted on the attached Property Line and Right-of-Way Adjustment Map (the "Property"). Title to the Property is owned by Northwestern University or by Northwestern Memorial Hospital or its affiliates (hereinafter referred to as "N.M.H.") and, for the purposes of Institutional Planned Development No. 3, as amended (1962, 1975, 1993), controlled, for zoning purposes, by Northwestern University (herein referred to as "N.U." or the "Applicant"). All required disclosures are contained within the Economic Disclosure statement filed with the City of Chicago in accordance with the applicable requirements.

2. All applicable official reviews, approvals or permits are required to be obtained by the Applicant.
3. The requirements, obligations and conditions contained within Institutional Planned Development No. 3, as amended (1962, 1975, 1993), shall be binding upon the Applicant, its successors and assigns and, if different than the Applicant, the legal title holders and any ground lessors. All rights granted hereunder to the Applicant shall inure to the benefit of the Applicant's successors and assigns and, if different than the Applicant, the legal title holder and any ground lessors. Furthermore, pursuant to the requirements of Section 11.11-1 of the Chicago Zoning Ordinance, the Property, at the time applications for amendments, modifications or changes (administrative, legislative or otherwise) to this Institutional Planned Development No. 3, as amended (1962, 1975, 1993), are made, shall be under single ownership or under single designated control. Single designated control for purposes of this paragraph shall mean that any application to the City for any amendment to this Institutional Planned Development No. 3, as amended (1962, 1975, 1993), or any other modification or change thereto (administrative, legislative or otherwise) shall be made or authorized by Northwestern University.

Nothing herein shall be construed to mean that any individual owner or any ground lessors of the Property or any portion thereof is relieved of obligations imposed hereunder or rights granted herein or is not subject to City action pursuant to this Institutional Planned Development No. 3, as amended (1962, 1975, 1993). In addition, nothing herein shall prohibit or in any way restrict the alienation, sale or any other transfer of all or any portion of the Property or any rights, interests or obligations therein. Upon any alienation, sale or any other transfer of all or any portion of the Property or the rights therein, except any assignment or transfer of rights pursuant to a mortgage or otherwise as collateral for any indebtedness, and solely with respect to the portion of the Property so transferred, the term "Applicant" shall be deemed amended to apply to the transferee thereof (and its beneficiaries if such transferee is a land trust) and

the seller or transferor thereof (and its beneficiaries if such seller or transferor is a land trust) shall thereafter be released from any and all obligations or liability hereunder.

4. The property within the Institutional Planned Development No. 3 boundaries, as amended (1962, 1975, 1993) is divided into three zones and six subareas as depicted on the Property Line and Right-of-Way Adjustment Map and as indicated below:

8. Any dedication or vacation of streets, alleys or easements in the public way or any adjustment of rights-of-way shall require a separate submittal on behalf of the Applicant and approval by the City Council.
9. Any service drive or other ingress or egress shall be adequately designed and paved, in accordance with the regulations of the Department of Transportation in effect at the time of construction and in compliance with the Municipal Code of the City of Chicago, to provide ingress and egress for motor vehicles, including emergency vehicles. The plan for vehicular ingress and egress shall be subject to the review and approval of the Bureau of Traffic Engineering and Operations and of the Commissioner of Planning and Development.
10. In addition to the maximum heights of the buildings and any appurtenance attached thereto prescribed in this Institutional Planned Development No. 3, as amended (1962, 1975, 1993), the height of the improvements and any appurtenance attached thereto also shall be subject to:

(A) Height limitations as certified and approved by the Federal Aviation Administration; and

(B) Airport zoning regulations as established by the Department of Planning, Department of Aviation and Department of Law and approved by the City Council.

11. Institutional Planned Development No. 3, as amended (1962, 1975, 1993), shall be subject to the "Rules, Regulations and Procedures Related to Planned Development Amendments" as promulgated by the Commissioner of the Department of Planning and Development and in effect on the date hereof.
12. For purposes of maximum Floor Area Ratio (F.A.R.) calculations, the definitions in the Chicago Zoning Ordinance shall apply; provided, however, that in addition to the other exclusions from Floor Area for purposes of determining F.A.R. permitted by the Chicago Zoning Ordinance, all floor area devoted to mechanical equipment in excess of 5,000 square feet in a single location, regardless of placement in the building, shall be excluded.
13. The improvements on the Property, including the on-site exterior landscaping, the landscaping along the adjacent rights-of-way and all entrances and exits to and from the parking and loading areas, shall be designed, constructed and maintained in substantial conformance with the Plans, Maps, Site Plans, and Exhibits described in Statement 5. In addition, the improvements on the Property shall be subject to the following regulations:
 - A. In Zone I (Subareas A, B and C), the location of any skybridge or tunnels shall be in substantial conformity with the Generalized Land Use Plan.
 - B. In Zone II (Subareas D and F):
 - (1) Landscaping: Any parkway trees shall be installed and maintained in general accordance with the Parking Garage Site Plans, the Landscape Plans and the parkway tree planting provisions of the Chicago Zoning Ordinance and corresponding guidelines and regulations. A landscaped pedestrian connection shall be provided adjacent to the Subarea D and Subarea F parking garages in the locations depicted on the Landscape Plans for those garages. Such pedestrian connections shall be graded, planted (with grass and trees or ornamental plantings) and lit.

The C.T.A. bus turnaround depicted on the Erie/Fairbanks Garage Landscape Plan shall be landscaped in general conformance with such Landscape Plan. In addition, dense hedges shall be planted along the Ontario Street frontage of the turnaround area.

- (2) Curb-cuts: Private roadways, driveways, entrances to off-street parking and to loading docks, and all other facilities requiring curb-cuts shall be located to minimize conflicts with on-street traffic and with pedestrian circulation. No curb-cut shall be located within 10 feet of any property line and within 10 feet of any other curb-cut. All such curb-cuts shall be constructed in accordance with the standards of the City of Chicago. No automobile entrances shall be permitted on St. Clair Street.
- (3) Loading: Off-street loading shall be provided in accordance with Statement 13 (B) (8) and with the garage Site Plans attached hereto.
- (4) Parking: Parking spaces required under this Planned Development may be designed to accommodate compact cars. Up to 75 neighborhood residential parkers will be accommodated in the Subarea F garage at market rates on a monthly basis. A minimum of 2% of spaces shall be designed and designated for handicapped use.
- (5) Circulation: Parking space layout, loading access, private roadway vehicular circulation routes, private pedestrian circulation routes, parking structure operational design and the location and design of curb-cuts at public streets shall be designed and constructed in substantial accordance with the garage Site Plans attached hereto. Private north/south, mid-block pedestrian connections shall be provided as depicted on the Superior Garage Landscape Plan and the Erie/Fairbanks Garage Landscape Plan attached hereto.
- (6) Skybridges and Tunnels: Any skybridge or tunnel shall be designed and constructed in accordance with the Superior Garage Site Plan, the Generalized Land Use Plan, and Statement 13 (C) (2) (E).

- (7) **Design Compatibility:** The Applicant, its successors and assigns, shall make reasonable efforts to design and construct the garage permitted in Subarea D in a manner that is compatible with the improvements permitted in Subarea E. The Commissioner of Planning and Development shall determine whether the improvement on Subarea D complies with the requirement for compatibility during the site plan review process for Subarea E provided for in Statement 15 herein and, if necessary, may require the addition of architectural elements to the Subarea D garage after the issuance of any required permits and/or licenses necessary for its operation. Costs related to such architectural elements, if any, shall be limited to the lesser of 1% of total construction costs for the Subarea D garage (excluding auxiliary power requirements, medical gas or other mechanical or electrical facilities intended to primarily serve the Subarea E improvements and substructure costs) or \$250,000.00. Any such determination made by the Commissioner of the Department of Planning and Development may be reviewed by the Chicago Plan Commission and the City Council as in the manner prescribed for amendments to this Planned Development Ordinance as provided for in Title 17 of the Municipal Code.
- (8) **Traffic Management:** The applicant acknowledges that the development of the medical facilities and parking garages will have unique traffic-generation and parking characteristics which will require diligent and on-going operation controls to minimize the impact of the development on the surrounding traffic network. Accordingly, the Applicant shall be responsible for implementing certain operational controls over parking and traffic activity expected to occur adjacent to these facilities, especially near the St. Clair Street truck dock entrance to the Superior Garage. These operational controls are set forth in the "Traffic Management Plan" ("T.M.P.") attached to this Planned Development and shall become effective after the issuance of the first Certificate of Occupancy for the parking garage proposed within Subarea D, excluding those provisions relating to the operation of the loading dock and ramp entrance, which provisions shall become effective upon the date the truck loading dock entrance is operational. The T.M.P. shall be revised to include (a) a requirement for the installation of traffic control signals at the

intersection of Huron and St. Clair and the intersection of Fairbanks and Erie on or before the issuance of an Occupancy Permit for the improvements proposed for Subarea D, the sole cost of which shall be assumed by the Applicant, and (b) a requirement for mitigation of pedestrian/vehicle conflict on Huron between the hospital and the Subarea D parking garage, as deemed appropriate by C.D.O.T.. The T.M.P. shall be deemed an integral part of this Planned Development. The Applicant's compliance with the T.M.P. shall be a requirement of this Planned Development Ordinance, as amended.

In order to assure the T.M.P.'s effectiveness, the Department of Transportation may request that the Applicant submit to the Commissioner of the Department of Transportation (with a copy to the Commissioner of Planning and Development) a report describing the past year's traffic and parking activity and assessing the effectiveness of the various provisions of the T.M.P. and any recommended modifications thereto. Additionally, the Applicant, or its designated representative, shall cooperate with the City and with applicable transit agencies in the on-going review and updating of the T.M.P..

In the event the Department of Transportation determines that the measures taken as part of the Traffic Management Plan do not prove effective, and, in particular, blockage of any Circulator operations or traffic on St. Clair Street results from the loading dock operation, the Chicago Department of Transportation may request additional traffic management or control measures as needed to mitigate or eliminate traffic interference. The Applicant shall be responsible for making any modifications to the T.M.P. and for implementing any additional traffic management or control measures reasonably required by the Department of Transportation and the Department of Planning and Development.

Modifications to the T.M.P. may be made at any time with the approval of the Commissioner of the Department of Transportation and the Commissioner of the Department of Planning and Development and shall automatically become part of this Plan of Development. Such modifications and approvals

shall be kept on file with the Department of Transportation and the Department of Planning and Development.

C. In Zone III (Subarea E), the following regulations shall apply:

- (1) **Building Character and Scale.** The project will be designed so that it is compatible with the existing Northwestern Campus buildings. Scale, massing, articulation, setbacks, materials, color, texture, lighting, fenestration and other architectural devices will be used to avoid a monotonous and blank appearance. Further, the building's mass will be designed in such a way as to distinguish its uses and constituents. Exterior walls visible from any public way shall be designed and constructed to avoid a monotonous and blank appearance through the use of texture and detail on windows, openings, projects, recesses, offsets or other architectural devices. Special attention shall be given to achieve an interesting building design at the pedestrian level through landscape elements, articulation of surface forms and texture, expression of the structural rhythm and architectural detail. Further, to the extent active uses within the building are located toward the periphery, where appropriate, windows and entrances are encouraged at grade level along the public way. Further, established circulation and public space patterns at street level shall be respected and architectural datums such as cornices, fenestration and setbacks that are present in the immediate vicinity shall be recognized in the design of the building.

- (2) **Building Form.** The building shall be developed with a distinct base, body and top.

(A) **Base.**

The building base shall, to the extent compatible with the interior function of the building, be designed to reinforce existing street walls and enhance the design and usefulness of at grade open spaces. At grade open spaces shall be provided at the general

locations identified on the Hospital/A.C.C. Landscape Plan. The base shall be highly detailed and articulated at the pedestrian level and within at grade setbacks. There shall be a minimum building setback of 15 feet at grade on St. Clair Street and a minimum setback of 15 feet at grade on Fairbanks Court. These areas shall be designed as usable open spaces. Setbacks at the northwest corner of the Ambulatory Care Center ("A.C.C.") shall be generally compatible with building and open space conditions at the parking garage on Subarea D. Other corner setbacks on the A.C.C. shall be provided to mitigate wind conditions where necessary and to the extent feasible provide enhanced open space and opportunities. Design of the northeast corner of the in-patient hospital ("I.P.H.") building shall, if feasible, provide for a compatible transition with setback areas to the north.

(B) Body.

The body of the building will incorporate setbacks, cornices and other architectural devices to avoid a monotonous and blank appearance. The A.C.C. and I.P.H. shall form separate towers spaced approximately 52 -- 65 feet apart above a level of 145 feet above grade. Upper level setbacks shall occur on the in-patient hospital building 145 feet above grade, or higher, as described on the A.C.C./Hospital Massing Diagram. These upper-level setbacks shall conform with the following ranges:

15 -- 30 feet deep on the eastern face of the in-patient tower, 15 -- 30 feet deep on the west side of the in-patient tower, and on the south face of the in-patient tower, a setback in the range of 75 -- 95 feet wide and 50 -- 75 feet deep. In addition, upper-level setbacks shall be provided on the east and west faces of the A.C.C. tower, 395 feet above grade or higher, such setbacks to be 5 -- 25 feet in depth. Setbacks and/or horizontal

reference lines which occur primarily above the building base shall be designed to maximize dispersal of natural light and circulating air.

(C) Roof Top.

- (i) The building crown shall be distinctive and designed to integrate fully and screen all mechanical systems customarily placed on rooftops within an architectural enclosure concealing them from view particularly from higher surrounding buildings. Mechanical equipment will be concealed or integrated into the architectural design.

(D) Horizontal Projections.

Horizontal projections (such as balconies, loggias or terraces) shall be permitted within required building setbacks; provided, however, that upper-level building projections shall not be permitted within 8 feet of the St. Clair Street property line. Canopies, awnings, cornices and similar projections shall be allowed provided they do not in any way obstruct the public way. Skybridges shall be allowed only as expressly provided in this Planned Development.

(E) Skybridges And Tunnels.

Skybridges shall be designed to be as transparent and unobtrusive as possible and shall be compatible with the architectural style, color and materials of the A.C.C. and in-patient hospital buildings. The proposed skybridge between the Ambulatory Care Center and the Subarea D garage shall be located not less than $\pm$ 48 feet from the St. Clair Street property line, subject to adjustments for reasons set forth in the Use and Bulk Regulation Data Sheet.

The existing double-decked skybridge over Superior Street and the existing upper level of the skybridge over Fairbanks Court shall be removed within twelve (12) months of the completion of and issuance of a Certificate of Occupancy for the A.C.C. and the In-Patient Hospital ("I.P.H."). All other skybridges crossing the public way and existing on or before the date of this 1993 Planned Development amendment shall be painted a lighter color more compatible with surrounding buildings as soon as is reasonably feasible. Applicant shall not, however, be required to paint the skybridge to the Veterans Hospital if Applicant is unable to obtain permission from the Veterans Administration.

(3) Loading Docks.

Loading docks for the A.C.C./Hospital will be fully contained below grade on Parcel D and will be connected to the Hospital and Ambulatory Care Center via below grade tunnels.

(4) Materials.

- (A) The base shall be predominantly constructed of quarried stone, architectural pre-cast concrete, slightly tinted, clear or patterned glass in punched openings or curtain walls. Ornamental metals may be used for street level glazing. All street level glazing adjacent to active interior space shall be clear or slightly tinted.

Above the base level materials shall be compatible with those used in the base, and with neighboring buildings as well. Natural stone, pre-cast concrete and/or brick are the preferred cladding materials. Tinted or clear glass shall be used. Ornamental metals, patterned glass and spandrel glass are encouraged as accents. Articulated curtain wall in combination with natural stone, pre-cast concrete and/or brick is permitted.

(5) Color.

Extreme color contrast, broad applications or bright highlight colors are discouraged. Stone colors shall be limited to light to medium warm neutral colors. Glass and metal colors shall be light to medium tones. Contrast may be accomplished by using darker cladding materials as accents.

(6) Lighting.

Base level lighting shall address a variety of functions. More intense, but directed lighting shall be provided at public entries, drop-offs, pedestrian ways, etc., for clarity and security purposes. Base level facade and landscape lighting will be softer in nature. The use of lighting to highlight architectural features is strongly encouraged; however, lighting shall not beam directly into windows of other buildings.

(7) Landscaping.

In addition to the provision of parkway trees, as required by the Chicago Zoning Ordinance, the following additional landscape improvements shall be made:

(A) Required setback areas along St. Clair Street shall be landscaped to reflect the character and density of landscaping on the west side of St. Clair Street. Additional landscaping is encouraged in corner setback areas.

(B) Required setback areas along Fairbanks Court shall be landscaped. Seating shall be provided in appropriate amounts and locations so as to encourage use by pedestrians along Fairbanks Court. The Applicant shall install similar landscaped areas on the west side of Fairbanks Court adjacent to the Health Sciences Building and on the east side of Fairbanks Court adjacent to the Veterans Administration Hospital (subject to the approval of the V.A.), so as to

create a more unified and integrated streetscape appearance.

(8) Paving.

Decorative paving patterns and materials are encouraged. However, paving materials shall be compatible with existing paving materials within the Northwestern Campus. All paving design shall comply with requirements for disabled accessibility.

(9) Street Furniture.

Light standards, sidewalks, curbing and flagpoles proposed within public spaces shall be compatible with those presently existing in the Northwestern Campus.

(10) Circulation.

Buildings and uses shall be provided with vehicular and pedestrian access to a public roadway. Private roadway vehicular circulation and private pedestrian circulation routes, if any, and the location and design of any curb-cuts at public streets shall be designed and constructed in accordance with the Generalized Land Use Plan, and shall promote a safe, efficient, appropriate and beneficial design. A private north/south, mid-block pedestrian and vehicular connection shall be provided as generally depicted on the Hospital/A.C.C. Site Plan.

(11) Private Roadways.

A private roadway shall mean any private drive or way located on private property which is designed and intended for use as vehicular access to uses located therein. Private roadways shall be designed and paved in compliance with the Municipal Code of Chicago to provide ingress and egress for motor vehicles, including emergency vehicles. Fire lanes, if required within the private roadways, shall be designed and paved to provide access and egress for emergency vehicles. No parking except for loading and unloading of pedestrians shall be permitted

within such fire lanes. All private roadways shall be reasonably accessible to private pedestrian use but need not be made available to the general public. Any private roadways shall be designed and configured to provide direct and coherent pathways to public streets.

(12) Curb-cuts.

Private roadways, driveways, entrances to off-street parking and to loading docks, and all other facilities requiring curb-cuts shall be located to minimize conflicts with on-street traffic and with pedestrian circulation. No curb-cut shall be located within 10 feet of any property line and no curb-cut shall be located within 10 feet of any other curb-cut. All such curb-cuts shall be constructed in accordance with the standards of the City of Chicago.

14. The terms, conditions and exhibits of this Plan of Development may be modified, administratively, by the Commissioner of the Department of Planning upon the request of the applicant and after a determination by the Commissioner of the Department of Planning that such modification is minor, appropriate and consistent with the nature of the improvements contemplated by this Planned Development No. 3, as amended (1962, 1975, 1993) and will not result in increasing the maximum floor area ratio for the total Property established by this Planned Development. Any such modification by the Commissioner of the Department of Planning shall be deemed to be a minor change in Institutional Planned Development No. 3, as amended (1962, 1975, 1993) as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance. Notwithstanding the provisions of subclauses (4) and (5) of Section 11.11-3(c) of the Chicago Zoning Ordinance, such minor changes may include a reduction in the minimum required distance between structures, a reduction in periphery setbacks or an increase in the maximum percent of land covered.
15. Prior to issuance by the Department of Planning of a determination pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance ("Part II approval") for any development of Zone III (Subarea E), a site plan for the proposed development shall be submitted to the Commissioner for approval. Site plan approval is intended to assure that specific development proposals conform with this Institutional Planned Development No. 3, as amended (1962, 1975, 1993), and to assist the City in monitoring on-going development. A site plan shall be submitted for development of all or any part of Zone III.

Such site plan need only include the area within Zone III, and immediately adjacent public rights-of-way, for which approval is being sought by the Applicant. No Part II approval upon Zone III shall be granted until an applicable site plan has been approved.

If a site plan substantially conforms with the provisions of this Institutional Planned Development No. 3, as amended (1962, 1975, 1993), the Commissioner shall issue written approval thereof to the Applicant within thirty (30) days of submission of the completed application. If the Commissioner determines within said thirty (30) day period that the site plan does not substantially conform with the provisions of this Institutional Planned Development No. 3, as amended (1962, 1975, 1993), the Commissioner shall, within fourteen (14) days from the expiration of said thirty (30) day period, advise the Applicant, in writing, regarding the specific reasons for such adverse determination and the specific areas in which the site plan does not conform to the provisions of this Institutional Planned Development No. 3, as amended (1962, 1975, 1993), the Commissioner shall thereafter review any resubmission and make a final written determination, in writing, to the applicant for such site plan within 14 days of receipt of the resubmission. Following approval of a site plan by the Commissioner, the site plan shall be kept on permanent file with the Commissioner and shall be deemed to be an integral part of this Institutional Planned Development No. 3, as amended (1962, 1975, 1993).

After approval of a site plan by the Commissioner, the approved site plan may be changed or modified pursuant to the provisions of Statement No. 14 hereof. In the event of any inconsistency between an approved site plan and the terms of this Institutional Planned Development No. 3, as amended (1962, 1975, 1993) in effect at the time of approval of such site plan or of the modifications thereto, the terms of this Institutional Planned Development No. 3, as amended (1962, 1975, 1993) shall govern.

A site plan shall, at a minimum, provide the following information:

- (a) Boundaries of the development parcel or parcels;
- (b) Building footprint;
- (c) Dimensions of all setbacks;
- (d) Location and depiction of all parking spaces (including relevant dimensions);
- (e) Location and depiction of all loading berths (including relevant dimensions);

- (f) All drives, roadways, and vehicular routes;
- (g) All landscaping (including species and size);
- (h) All pedestrian circulation routes and points of ingress/egress (including sidewalks);
- (i) All site statistics applicable to the development parcel or parcels including:
 - (1) Floor area and floor area ratio as represented on submitted drawings;
 - (2) Number of parking spaces provided;
 - (3) Number of loading berths provided; and
 - (4) Uses or development of parcels;
- (j) Parameters of the building envelope including:
 - (1) Maximum building height; and
 - (2) Setbacks and vertical setbacks, required and provided.

A site plan shall include such other information as may be necessary to illustrate conformance with this Institutional Planned Development No. 3, as amended (1962, 1975, 1993), including, without limitation, building elevations.

16. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The Applicant shall use reasonable efforts to design, construct and maintain all newly constructed buildings located within this Planned Development in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigeration and Air-Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S.").

17. No Heliport is planned. Any future proposed heliport will conform with the Federal Aviation Administration and the State of Illinois Department of Aeronautics regulations, and will require the amendment of this Planned Development.
18. Unless substantial construction of the proposed medical facilities and parking garages contemplated with Subareas D, E and F of this Planned Development Ordinance amendment has commenced within ten years following adoption of this Planned Development Ordinance amendment, and is diligently pursued, then this 1993 Planned Development Ordinance amendment shall expire as to the uncompleted portion; provided, however, that if the City Council amends the Chicago Zoning Ordinance to provide for a shorter expiration period which is applicable to all planned developments, then this 1993 Planned Development Ordinance amendment shall expire upon the expiration of such shorter time period as provided by any such amendatory ordinance (the first day of which as applied to this Planned Development shall be the effective date of the amendatory ordinance). If this 1993 Planned Development Ordinance amendment expires under the provision of this section, then the zoning of the portion of the property located within Subareas D and E shall automatically revert to Planned Development No. 3, as amended on July 16, 1975 and, the zoning within Subarea F shall automatically revert to C3-6.

Traffic Management Plan.

Northwestern University

*Amendment To Institutional Planned Development No. 3.
(As Amended 1962, 1975 And 1993)*

*Northwestern University/Northwestern Memorial
Hospital Redevelopment.*

I. Overview.

Northwestern Memorial Hospital has developed a Truck Service/Traffic Management Plan to mitigate and eliminate the possibility of trucks waiting off-site on Superior or St. Clair Streets.

The purpose of this document is to both analyze the truck service and loading dock facilities provided for the N.U./N.M.R. Redevelopment Project, as well as provided a truck service/traffic management plan to enforce operation of the loading dock facility. The goal of this plan is to create a set of procedures employing both personnel and equipment which will eliminate the potential for truck queuing on St. Clair or Superior Streets.

Additional information regarding traffic, parking and transit impact can be found in the Traffic and Parking Impact Study dated March, 1993 prepared by B.R.W., Inc. the project traffic and transportation consultant.

The existing hospital facility truck service requirements involve over 85 service and loading vehicles utilizing 4 dock facilities. These existing facilities are located in Prentice-Stone/Wesley/Olson/Passavant.

The proposed Redevelopment Project plans to construct 10 off-street loading berths (as required by function of the building program) and in addition, 10 van spaces are proposed.

One of the main intents of the Redevelopment Project is to consolidate existing and proposed service dock and loading facilities into one central location.

The central service/loading facilities have been located in the basement of the Superior Parking Facility on Sub-Parcel D. (See Exhibit 1.0). Below grade tunnel access linking the medical facility will be provided thus minimizing conflicts with vehicles and pedestrians at street level.

Access to the service/loading facility is located on St. Clair Street, away from the main Medical Center vehicular and pedestrian entrances on Huron Street. This will discourage truck traffic from penetrating Huron and Superior Streets, thereby minimizing potential conflicts with vehicles and pedestrians. It is also separate from the Emergency Room entry, which is located on Erie Street in order to minimize the possibility of conflict between truck and emergency vehicles.

II. Existing Service Vehicle/Loading Dock Operations.

Kowalski-Dickow and Associates (the Materials Management Consultant for this Project) has prepared a report which analyzed Medical Center service/loading facilities.

Based on these observations, the four existing loading dock facilities averaged 85 vehicles per day.

- Sixty-two (62) of these vehicles were trucks, including step vans, straight trucks and tractor trailers made up of supply deliveries (47), linen deliveries (3), food deliveries (10), and Just-In-Time/stockless deliveries (2). On average 59 (or 95%) of these vehicles arrived between the hours of 8:00 A.M. and 4:00 P.M.. All 62 of these vehicles require a loading dock to make their deliveries.
- Twenty-three (23) of these vehicles were vans, made up of general tradesman deliveries. All of these vehicles arrived

between 8:00 A.M. and 4:00 P.M. These vehicles do not require a loading dock bay in order to make deliveries. A regular sized parking stall in the vicinity of the loading dock is sufficient.

- Exhibit 2.0 represents graphically the existing arrival patterns for the trucks and vans.

In addition to the existing 85 vehicles mentioned above, generally one (1) waste removal vehicle was observed each day in the early morning for the trash compactor and 1 to 2 vehicles each day for hazardous waste.

Six (6) of the above mentioned trucks involve deliveries made with a tractor-trailer. These include: linen deliveries (3), Just-In-Time/Stockless deliveries (1), food deliveries (1), and miscellaneous supply deliveries (1).

III. A. Proposed Service Vehicle/Loading Dock Operations.

The proposed service/loading dock will be the central loading and receiving facility for the Redevelopment Project.

The types of materials that will be transported through this facility include items such as:

- Medical Surgical Supplies
- Dietary Products (Food Services)
- Pharmaceuticals
- Linens (both clean and soiled)
- Waste (both routine and infectious or hazardous)
- Recycled Materials (e.g.; aluminum, cardboard and paper)
- Construction Materials, Furnishings and Maintenance Supplies

B. Proposed Loading Dock Capacity.

The dock capacity for the proposed central loading and receiving facility was determined by analysis of the existing service/loading dock operations and evaluation of the proposed Medical Center building program and operations for this Redevelopment Project.

The Existing P.D. requires 1 off-street loading berth for buildings having 10,000 to 200,000 square feet of floor area, plus one additional loading berth for each additional 200,000 square feet. The proposed 2.4 million square feet Redevelopment Project requires a minimum of 12 berths.

Based on the analysis Kowalski-Dickow Associates, Inc. determined that ten (10) off-street loading berths are required. Six (6) actual open truck docks, two (2) for trash compactors, one (1) for sterilizing bin, one (1) construction bin. In addition, 10 van spaces are required. These 20 spaces exceed the 12 required by the existing Planned Development Ordinance.

Exhibit 3.0 represents graphically the proposed arrival patterns for the trucks and vans.

The capacity of the loading dock is determined by completion of a queuing analysis which indicates the average truck dock utilization period and waiting (or "queuing") times.

In the queuing analysis completed for this central loading and receiving facility the following arrival and service rates were used:

- An average truck arrival rate of 5.9 trucks per hour (59 truck arrivals over the ten hour period between 6:00 A.M. and 4:00 P.M.).
- An average service rate of 2.5 trucks per hour or, in other words, each arrival can be unloaded in 24 minutes.

The results show for a loading dock with six semi-truck bays the following:

- An average of 4% of the arriving trucks may experience a wait. Based upon a population of 59

daily arrivals this represents 3 truck arrivals per day.

- For those trucks that experience a wait they each may wait an average of 2.4 minutes.

In addition to the central loading and receiving facility, the Redevelopment Project will also require one (1) oxygen delivery per week and one (1) nitrogen delivery every two weeks. Both of these delivery operations are proposed to occur along the east side of the Superior Garage facility utilizing access via the alley between the parking structure and the existing Health Sciences Building. (See Exhibit 4.0)

The location of these facilities were selected based on the physical design requirements recommended for these operations.

C. Loading Dock Layout.

Exhibit 5.0 illustrates the planned loading dock configuration.

The loading dock has the following components:

- An entrance and exit ramp.
- A dock with ten truck bays:

Six (6) for general supply deliveries (for the 59 deliveries per day). This is based upon the queuing analysis -- on average 3 trucks per day may experience a wait and on average each of these trucks may wait 2.4 minutes.

Four (4) for waste staging (two compactors, a construction bin and a hazardous waste bay).

- A truck vehicle turn-around area.
- A parking area with ten spaces for the 23 tradesmen and other deliveries per day).

In addition, the central loading and receiving facility has been designed in such a way as to follow for at least two (2) waiting locations located within the basement facility. Therefore, eliminating the need for queuing outside the facility. (See Exhibit 4.0)

IV. N.M.H. Traffic Management Plan.

Northwestern Memorial Hospital has developed a Truck Service/Traffic Management Plan to mitigate and eliminate the possibility of trucks waiting off-site on Superior or St. Clair Streets.

Based on the summary of the service vehicle impact, a wait of 2.4 minutes for 3 trucks may occur between the hours of 6:00 A.M. and 4:00 P.M.. This 2.4 minute waiting period can easily be eliminated by the establishment of a service vehicle traffic management plan.

The Traffic Management Plan includes the following mitigation measures:

1. Designation Of A Traffic/Transportation Manager.

N.M.H. will designate a Traffic/Transportation Manager. The responsibilities of this person will include management of the truck service entrance. Relative to management of the truck service entrance, this person will do the following:

- Insure that the elements of this plan are implemented.
- Monitor truck service entrance operations and maintain a record of operational statistics (number of vehicles, type of vehicles, enter time, exit time, et cetera).
- Make changes or adjustments to the traffic management plan in response to actual conditions after opening.

2. Designation Of A Service Dock Traffic Coordinator.

N.M.H. will designate a service dock coordinator. This person will be physically located proximate to the service dock and will have responsibility for day-to-day dock operations. The responsibilities of this person will include:

- Insure that dock operational statistics are recorded.
- Communicate with service vehicle operators regarding truck operating policies and procedures.
- Resolve operational conflicts if and when they occur.
- Report operational statistics and any problems associated with dock operations to the traffic/transportation manager.
- Communicate with security guard concerning dock availability.

3. Security Guard At The Truck Service Entrance.

N.M.H. will provide a security guard at the truck service entrance. The security guard will be on duty from 6:00 A.M. to 7:00 P.M. in a guard station adjacent to the service dock driveway. The security guard will control access to the service dock and be responsible for monitoring operations at the driveway to St. Clair Street and taking corrective action as necessary. Corrective actions include traffic control, communication with drivers on the street, and notification to the service dock coordinator if problems arise. This guard will be in direct contact with the loading dock at the lower level and will direct truck traffic as necessary.

4. Traffic Activated Pedestrian Warning System.

An automated traffic/pedestrian warning system will be located at the service driveway on St. Clair Street. This system will warn pedestrians when a truck is entering or exiting the facility.

5. Truck Traffic Signals At The Top And Bottom Of The Truck Service Ramp.

Traffic signals will be located at the driveway entrance from St. Clair Street and at the base of the service entrance ramp to indicate if a truck is on the ramp. The traffic signals will be operated to prevent inbound and outbound trucks from meeting on the service ramp. When the door to enter the service area is activated by a truck on St. Clair Street, the signal at the base of the ramp will turn red to prevent a truck from proceeding up the ramp and out of the service dock.

When a truck is exiting the facility, a sensor will identify when the vehicle enters the ramp and trigger a red indication of the truck signal on St. Clair Street.

6. All Semi-Trucks And Waste Trucks Will Be Scheduled To Arrive After 7:00 P.M. And Before 7:00 A.M..

The Hospital will contract with vendors using semi-trucks that will be scheduled during the off-peak nighttime hours (7:00 P.M. -- 7:00 A.M.). Furthermore, the waste haulers can all be scheduled to service the Hospital during the night. Scheduling these large vehicles during off-peak traffic periods will eliminate the possibility of any negative impact on traffic flow during daily peak periods.

The Hospital will incorporate these required schedules into the contracts with these vendors.

Any non-scheduled semi-trucks bringing supplies from out of town will be required by contract to call the service dock coordinator prior to entering Chicago. This will allow for scheduling of these deliveries for an open loading dock.

7. Oversize The Service Entrance Opening.

To ensure that all trucks will be able to easily and quickly enter and exit the truck service ramp, the Service Entrance opening will be twenty-four (24) feet. This will ensure that all drivers will be able to enter and exit the ramp without the need to re-position their vehicles either on the street or in the ramp, during the turning maneuver. This should minimize any delay due to truck turning difficulties and therefore avoid any traffic disruption. (See Exhibit 5.0)

This width is consistent with industry standards and is a functional entrance for semi-truck trailer entrances. The entrance opening may be increased to a width of up to 30 feet in order to provide a more generous opening, pending direction from the City.

8. A Truck Turnaround Will Be Provided In The Garage.

To ensure that all truck movements into and out of the truck service ramp are "head-in" and "head-out" movements, a designated and marked truck turnaround area will be provided in the truck dock service area. This will be a full

circle turnaround that will easily accommodate the largest trucks (semis) that will be visiting the facility. The provision of the dedicated turnaround area will ensure that trucks will not be backing out onto the street and causing traffic disruptions.

In addition, the truck turnaround is large enough to temporarily park waiting trucks if all docks are occupied thus effectively providing extra waiting positions.

9. Back-Up Service Dock Plan.

In the advent of an unforeseen congestion, the service dock traffic coordinator would inform vehicles to go to the Prentice-Stone service docks on Huron Street or to return at a later time.

10. A Truck Entrance Traffic Signal With A C.A.C. Detector.

The truck service entrance will interconnect with the C.A.C. signal system to warn truck drivers of an approaching train. This system will provide sufficient advance warning so that a truck that has started the exiting and entrance maneuver can clear the crossing before the train arrives, but will warn an approaching truck not to enter the crossing area.

V. Conclusion.

The design of the central loading and receiving facility as proposed not only centralizes truck traffic around the N.U./N.M.H. Medical Campus, but provides a subterranean location which minimizes conflict with other vehicles and pedestrians. The design increases the total number of dock berths and provides improved access with head-in turnaround and head-out circulation. This design also allows for additional queuing or waiting locations within the basement level itself.

Based on the above mentioned items, the findings of the Kowalski-Dickow & Associates materials management analysis, and the proposed N.M.H. traffic management plan, we believe the neutral loading and receiving facility as proposed will provide efficient and effective materials management allowing uninterrupted flow of service vehicles to the Medical Complex, with no adverse effect on the traffic in the adjacent area.

The following is said proposed resolution transmitted with the foregoing committee report:

WHEREAS, Mr. Ted Mitkus, as licensee, filed on February 24, 1993, an application for an exception pursuant to Article 11.7A-3 of the Chicago Zoning Ordinance for the approval of the change of licensee and continued operation of an existing tavern in a two-story building, in an R3 General Residence District, on the premises at 2500 West 69th Street; and

WHEREAS, The decision of the Office of the Zoning Administrator rendered January 20, 1993 reads:

"Application not approved. Requested certification does not conform with the applicable provisions of the Chicago Zoning Ordinance,

WHEREAS, The Zoning Administrator, having fully reviewed all information and being fully advised of the premises, hereby makes the following findings of fact: the said use is located in an R3 General Residence District; that the subject site is improved with a two-story building containing an existing tavern; that on July 12, 1990, the City Council passed an ordinance requiring an exception for the approval of the change of licensee of an existing tavern located in a residence district; that the existing tavern is to be operated under a new license; that the majority of the tavern patrons come from the local neighborhood and that the continued operation of the tavern at this location is necessary for the public convenience; that the applicant, as the new licensee, proposes to operate the tavern in such a manner to insure that the public health, safety and welfare will be adequately protected; and that the continued operation of the existing tavern will not cause substantial injury to the value of other property in the neighborhood; now, therefore,

Be It Resolved, That the application for an exception is approved for the change of licensee and continued operation of an existing tavern in a two-story building, on premises at 2500 West 69th Street, and that all applicable ordinances of the City of Chicago shall be complied with before a license is issued; and

Be It Further Resolved, That the granting of this exception shall run only with the applicant, Mr. Ted Mitkus as licensee, and that a change of licensee shall terminate the exception granted herein; and

Be It Further Resolved, That the tavern in the subject building is, and shall continue to be, subject to all applicable provisions of Article 6 of the Chicago Zoning Ordinance.

**PARAMEDICS KATHY THANES AND JOHN KENNEDY AND FIRE

HONORED FOR THEIR OUTSTANDING
HEROISM IN LIFESAVING INCIDENT.**

A proposed resolution reading as follows:

WHEREAS, Heroism -- acting with no evident regard for self in helping another human being -- is a rare and justifiably esteemed quality; and

WHEREAS, Those who serve and protect Chicago citizens are so often tested, and so often prove capable of great acts of heroism; and

WHEREAS, On June 14, 1993, four members of the Chicago Fire Department answered the call to heroism and performed without hesitation in the brave, heroic manner which grateful Chicagoans may have come to expect. Responding within two minutes to a "911" call, paramedics Kathy Thanes and John Kennedy of Ambulance No. 30, and Fire Fighters Tom Cody and Jerry McCormack of Engine No. 60, arrived at Washington Park lagoon on Chicago's south side in search of seven-year-old David Dixon, who according to witnesses had disappeared under the water some 10 minutes earlier. With absolutely no regard to their own safety, and in a systematic, well thought-out manner, Paramedics Kathy Thanes and John Kennedy and Fire Fighters Tom Cody and Jerry McCormack waded into the unfamiliar waters, engaged in calculated swimming and diving, and within moments found little David Dixon and immediately commenced cardiopulmonary and mouth-to-mouth resuscitation; and

WHEREAS, As a result of the great heroism swiftly and expertly displayed by these four members of Chicago's great Fire Department, David Dixon's heartbeat was restored, and he was taken immediately to the hospital where he continues to recover; and

WHEREAS, The leaders of this great City are especially aware of the great debt owed those who serve and protect all Chicagoans; now, therefore,

Be It Resolved, That we, the Mayor and members of the City Council of the City of Chicago, gathered here this twenty-third day of June, 1993, A.D., do hereby express our gratitude and our congratulations to the four brave members of the Chicago Fire Department who performed so heroically in this lifesaving incident:

For other special water fixtures or for other special or unusual use of water for which no charge is specified, the Commissioner of Water shall determine the amount to be charged for such special fixtures and for such use of water, such charge to be based on an estimate of the water used.

The rate for metered water shall be [\$7.27] \$7.56 per 1,000 cubic feet, subject to a discount of [\$0.18] \$0.19, approximately 2½% for each 1,000 cubic feet if payment is received by the Department of Water within 21 calendar days of the time the bill therefor is mailed as shown by the records of the Department of Water. If such payment is made to an agent of the City of Chicago authorized to collect water rates, the agent shall transmit the amount of any bills so paid to the cashier of the Department of Water, in order that payment is received in the Department within 21 calendar days of the time the bill therefor is mailed as shown by the records of the Department. An expired discount may be allowed on only one bill for any premises in each calendar year. Effective upon the billing period commencing November 1, 1991, a late payment penalty assessed at a monthly rate of 1¼% shall be imposed on all water charges billed after November 1, 1991 in excess of \$10.00 for which payment in full is not received within 24 calendar days from the date the bill therefor was mailed as shown by the records of the Department of Water. Where the correctness of the bill is disputed and where complaint of such incorrectness has been made within the period during which the bill for the premises involved would be subject to the usual discount, or in the case of a late payment penalty, prior to the time the usual penalty would be imposed, and where the adjusting of such complaint requires additional time, the discount may be allowed or the penalty held in abeyance up to and including the tenth day succeeding the remailing of such bill.

The late payment penalty established pursuant to this Section shall not be imposed upon persons who are 65 years or older, who own and reside in their own residence and who have a separate water meter or water assessment.

SECTION 5. Chapter 11-12 of the Municipal Code of Chicago is hereby amended in Section 11-12-420 by adding the language in italics and deleting the language in brackets, as follows:

11-12-420. The water rates or charges as herein or hereafter established, except where the water supply is controlled by meter, shall be paid semi-annually in advance at the office of the Department of Water. The semi-annual payments shall cover a period from the first day of May up to and including the thirty-first day of October of each and every year, and from the first day of November of each year up to and including the thirtieth day of April of the following year.

Bills shall be sent out at such times as may be convenient; and the Department of Water may divide the City into districts or divisions and send out such bills for service to all premises within such districts, or divisions, at different times or dates for each district or division.

A discount of approximately $2\frac{1}{2}\%$ shall be allowed if payment is received by the Department of Water within twenty-one calendar days of the time the bill therefor is mailed as shown by the records of the Department. If such payment is made to an agent of the City of Chicago authorized to collect water rates, the agent shall transmit the amount of any bills so paid to the cashier of the Department of Water in order that payment is received in the Department within twenty-one calendar days of the time the bill therefor is mailed as shown by the records of the Department. An expired discount may be allowed on an unpaid bill or bills for any premises for only one semi-annual period in each biennium.

Effective upon the billing period commencing November 1, 1991, a late payment penalty assessed at a monthly rate of $1\frac{1}{4}\%$ shall be imposed on all water charges billed after November 1, 1991 for which payment in full is not received within 24 calendar days from the date the bill therefor was mailed as shown by the records of the Department of Water.

Where the correctness of an inspection on which an assessment is based on or an amount of refund calculated, is disputed, and where complaint of such correctness has been made within the period during which the bill for the premises involved would be subject to the usual discount, or in the case of a late payment penalty, prior to the time the usual penalty would be imposed, and where the adjusting of such complaint requires additional time, the discount may be allowed or the penalty held in abeyance up to and including the tenth day succeeding the remailing of such bill.

The late payment penalty established pursuant to this Section shall not be imposed upon persons who are 65 years or older, who own and reside in their own residence and who have a separate water meter or water assessment.

SECTION 6. Chapter 3-12 of the Municipal Code of Chicago is hereby amended in Subsection 3-12-020(a) by deleting the language bracketed and inserting the language in italics, as follows:

3-12-020(a). A charge for sewer service and use of the sewerage system of the City of Chicago is hereby established. The charge shall be an amount equal to [76%] 74% of the amount charged for water service pursuant to Chapter 11-12 of this Code, whether such water service is metered or otherwise; property which is exempt from payment of water service charge pursuant to Section 11-12-540 of this Code shall not be exempt from payment of a sewer usage fee, but shall pay an amount equal to [76%] 74% of the water rate which would be otherwise applicable, but for an exemption pursuant to Section 11-12-540. However, such property as is owned and used in the immediate conduct of carrying out the purpose of any charitable, religious or educational institution, including the residence occupied by the janitor or caretaker of a religious institution if located on the premises of such religious institution, shall be exempt from the first \$500.00 charge for sewer service per semi-annual billing period.

Effective upon the billing period commencing November 1, 1991, a late payment penalty assessed at a monthly rate of $1\frac{1}{4}\%$ shall be imposed on all sewer usage fees billed after November 1, 1991 for which payment in full is not received within 24 calendar days from the date the bill therefor was mailed as shown by the records of the Department of Water. Where the correctness of a bill is disputed and where complaint of such incorrectness has been made prior to the time the usual penalty would be imposed, and where the adjusting of such complaint requires additional time, the penalty may be held in abeyance up to and including the tenth day succeeding the remailing of such bill.

The late payment penalty established pursuant to this Section shall not be imposed upon persons who are 65 years or older, who own and reside in their own residence and who have a separate water meter or water assessment.
