Exhibit "A".

Memorandum Of Intent.

This Memorandum of Intent is between the City of Chicago, an Illinois municipal corporation (the "City") and Kentile Acquisition Corporation, a Delaware corporation (the "Corporation").

1. Preliminary Statement. Among the matters of mutual inducement which have resulted in this Memorandum of Intent are the following:

(a) The City has the authority to issue its industrial development bonds to finance industrial development projects.

(b) The Corporation has proposed a certain industrial development project located at 4532 South Kolin Avenue, Chicago, Illinois, consisting of the acquisition, construction, rehabilitation and equipping of a plant, machinery and equipment for the manufacture of floor tile and other floor products (the "Project"). The Corporation has requested the City's assistance in financing all or a portion of the costs of the Project, which assistance shall not exceed \$10,000,000, through the issuance by the City of its industrial development bonds for the Project (the "Bonds"). Such costs may include reimbursement of Project costs incurred prior to the issuance of the Bonds including the costs of acquiring the site and improvements thereon.

(c) The Bonds shall be limited obligations of the City payable solely out of the revenues derived by the City from the financing agreement referred to below. No holder of any such Bonds shall have the right to compel any exercise of the taxing power of the City or any political subdivision of the State of Illinois, and such Bonds shall not constitute an indebtedness or a loan of credit of the City. It is the expectation of the Corporation that interests on the Bonds will not be includable in gross income for federal tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the "Code").

(d) Subject to due compliance with all requirements of law, by virtue of such authority as may now or hereafter be conferred on the City, and subject to receipt of adequate assurance from the Corporation that there are one or more purchasers for the Bonds, the City intends to issue and sell the Bonds in an amount not to exceed \$10,000,000 in order to finance all or a portion of the costs of the Project.

2. Undertakings on the part of the City. Subject to conditions stated herein, the City intends as follows:

(a) To authorize the issuance and sale of the Bonds pursuant to its lawful constitutional authority.

(b) To enter into a financing agreement with the Corporation whereby the Corporation will pay to, or on behalf of, the City such sums as shall be sufficient to pay the principal of and interest and redemption premium, if any, on the Bonds as and when the same shall become due and payable.

3. Approvals. The intention of the City to proceed is subject to approval by it and its attorneys of all appropriate documents, and to the satisfaction of the requirements of local, state and federal laws, including but not limited to Section 147(f) of the Code.

4. Undertakings on the part of the Corporation. Subject to the conditions stated herein, the Corporation agrees as follows:

(a) To use all reasonable efforts to find one or more purchasers for the Bonds.

(b) To enter into agreements with the City, contemporaneously with the delivery of the Bonds, pursuant to which the Corporation will obligate itself to pay to or on behalf of the City, sums sufficient to pay the principal of and interest and redemption premium, if any, on the Bonds as and when the same shall become due and payable.

5. General provisions. All commitments of the City under paragraph 2 hereof and the Corporation under paragraph 4 hereof are subject to the condition that, on or before 365 days from the date hereof (or such other date as shall be mutually satisfactory to the City and the Corporation), the City and the Corporation shall have agreed to mutually acceptable terms and conditions of the agreements referred to in paragraphs 2 and 4 hereof and of the Bonds and other instruments or proceedings relating to the Bonds. In the event that the City and the Corporation do not agree to such mutually acceptable terms and conditions, or in the event that the Bonds are not issued hereunder, neither party shall be bound or obligated to

perform any action under the terms of this Memorandum of Intent; provided, however, that the Corporation shall be obligated to pay all out-of-pocket costs reasonably incurred by the City in connection with this Memorandum of Intent.

WHEREAS, The City of Chicago ("City"), a home rule unit of government under Section 6(a), Article VII of the 1970 Constitution of the State of Illinois, has hereinbefore found and does hereby find that there exists within the City a serious shortage of decent, safe and sanitary transitional housing available to battered and homeless women and children; and

WHEREAS, The City has also hereinbefore found and does hereby find that there exists within the City a large number of vacant and underutilized lots often filled with litter, abandoned automobiles and other dangerous and unsightly items and vacant, abandoned or underutilized and deteriorated multiple-family dwellings; and

WHEREAS, The City has determined that the continuance of a shortage of transitional housing for battered and homeless women and children and the presence of vacant lots containing litter, abandoned automobiles and other dangerous and unsightly items are harmful to the health, prosperity, economic stability and general welfare of the City; and

WHEREAS, The owners of many multiple-family dwelling units and vacant lots throughout the City are seriously delinquent in the payment of property taxes, causing a serious drain in the revenue of the City; and

WHEREAS, Many of these properties have liens recorded against them for moneys expended by the City for demolition, receivership and other costs through the City's police powers and under Section 271.1 of the Revenue Act of 1939, Ill. Rev. Stat., Ch. 120, Sec. 752.1; and

WHEREAS, One (1) community group in the Austin neighborhood, Safe Harbor Community Center ("Safe Harbor"), will enter into an agreement with the City to rehabilitate one (1) parcel in that neighborhood which has considerable City demolition, receivership and water and sewer liens recorded against it; and

WHEREAS, The parcel is located at 5249 -- 5263 West Lake Street and 343 -- 355 North Lockwood Avenue and contains one (1) apartment building which Safe Harbor has already acquired; and

WHEREAS, Safe Harbor intends to rehabilitate the property for transitional housing for battered and homeless women and children for the neighborhood; and

WHEREAS, The City liens against the property Safe Harbor has already acquired are significant and beyond the ability of Safe Harbor to pay out of its resources; and

WHEREAS, The intended uses and rehabilitation of this property would greatly benefit the Austin neighborhood and the City of Chicago by placing this property back into productive use; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

The following is said ordinance as passed:

WHEREAS, Pursuant to Chapter 2-120, Section 2-120-690 of the Municipal Code of Chicago, the City of Chicago through its Commission on Chicago Landmarks ("Commission") has determined that the Field Building (now known as the LaSalle Bank Building), located at 135 South LaSalle Street, is worthy of designation as a Chicago landmark; and

WHEREAS, The Commission has found that the Field Building meets certain criteria for landmark designation as set forth in Section 2-120-620 (1), (2), (3), (4) and (5) of the Municipal Code of Chicago; and

WHEREAS, The Field Building is the work of Graham, Anderson, Probst and White, which was one of the most prominent architectural firms in Chicago and the United States during the 1920s and 1930s; and

WHEREAS, The Field Building is considered one of the most prominent Art Deco office buildings in the United States and was one of the few commercial buildings constructed in Chicago during the Great Depression of the 1930s; and

WHEREAS, The Commission has adopted Rules and Regulations which provide that, in recommending a proposed designation to the City Council, the Commission shall specifically identify the significant historical or architectural features of the proposed landmark; and

WHEREAS, The Commission has identified the exclusive significant historical and architectural features of the Field Building to be its exterior facades and its main floor two-story lobby arcade and parallel basement arcade, all described in Section 2 of this ordinance; and

WHEREAS, The owner of the Field Building ("Owner") consents to the designation and determination as provided for in this ordinance and the Commission's recommendation; and

WHEREAS, The designation of the Field Building as a Chicago landmark and the determination of the exclusive significant historical and architectural features of the building, all as provided in this ordinance, is in the best interest of the City of Chicago; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The City Council finds, and declares as legislative findings, the matters set forth in the Whereas clauses of this ordinance.

SECTION 2. The Field Building, located at 135 South LaSalle Street, Chicago, Illinois, and legally described as:

Lots 5, 6 and 7 (except the north 10 feet thereof) and that part of Lot 8 lying east of the east line of South LaSalle Street (except the north 10 feet thereof) in Block 117 of School Section Addition to Chicago in Section 16, Township 39 North, Range 14 East of the Third Principal Meridian, in Cook County, Illinois (Permanent Index Number 17-16-211-009),

is hereby designated as a Chicago landmark pursuant to the Chicago Landmarks Ordinance. The significant historical and architectural features identified for preservation are the exterior facades and the main floor two-story lobby arcade and parallel basement arcade, as defined below, and only these aspects of the building are declared to be its significant historical and architectural features.

(a) The exterior facades are defined as all external elevations, except the area of the north elevation approximately 53 feet from the east elevation running westward to 53 feet from the west elevation, and from grade level to the fifth floor.

(b) The main floor two-story lobby arcade and parallel basement arcade are defined as only those areas of the basement, first story and second

story of the building which are open to the general public and not any area leased to a private tenant.

(c) The building roofs are not considered significant historical or architectural features. However, the Commission shall have the right to review and approve or deny any City permit relating to the addition of any enclosed tenant space proposed to be constructed on any existing building roof.

SECTION 3. Pursuant to Section 2-120-740 of the Municipal Code of Chicago, the Commission shall have the authority to review and approve or deny any permit for alteration, construction, reconstruction, erection, demolition, relocation, or other work which affects a significant historical or architectural feature as defined in this ordinance.

(a) It has been determined that there are certain specified construction, maintenance, and alteration projects which would not adversely affect any of the identified significant historical or architectural features and therefore are not subject to the review of the Commission. Those projects are:

(i) Erection of temporary scaffolding on, surrounding, or above the building;

(ii) Installation, replacement, removal, or repair of temporary signs and decorative materials on the exterior facades and main floor two-story lobby arcade and parallel basement arcade, including commercial signs installed within tenant spaces and which are visible from the exterior or the interior of the building;

(iii) Repair and replacement of any exterior and interior surfaces of the building which are imminently dangerous of life, health, or property, as determined in writing by the Department of Buildings, or the Board of Health, or the Fire Department;

(iv) Erection or display of seasonal and temporary decoration or ornamentation;

(v) Any construction, renovation, or demolition below grade outside the physical footprint of the building as it exists on the date of this ordinance;

(vi) Installation of electronic security devices necessary or desirable for the protection of persons and property in the use and occupancy of the building.

(b) The Commission acknowledges that the following construction, maintenance and alteration projects will be allowed and approved by the Commission subject to the conditions noted:

(i) Installation, removal, relocation, or repair of any rooftop mechanical equipment or sheds, rooftop window washing tracks, equipment, or structures, or other structures which the Commission determines, pursuant to Article IV, Section (B)(1) of its Rules and Regulations, are not visible to any person in a public right-of-way on any street adjacent to the building site;

(ii) Installation, replacement, removal, or repair of any heating and ventilating systems including exterior vents subject to Commission approval of plans and any required permit application;

(iii) Installation, replacement, removal, or repair of rooftop antennas, dishes, microwave units, or any other communication devices which the Commission determines, pursuant to Article IV, Section (B)(1) of its Rules and Regulations, are not visible to any person in a public right-of-way on any street adjacent to the building site;

(iv) Cleaning of the exterior facades or two-story lobby arcade or parallel basement arcade of the building, subject to Commission approval of any required permit application;

(v) Installation, replacement, removal, or repair of lighting facilities as may be necessary or desirable, subject to the Commission approval of any required permit application;

(vi) Installation, replacement, relocation, or repair of windows, window casings, canopies, doors and door entrances (including revolving doors) on the exterior facades and within the main floor two-story lobby arcade and parallel basement arcade, provided such change is contained within the masonry piers existing as of the date of this ordinance, if the Commission determines that the proposed alteration reasonably approximates the original or existing building materials and design;

(vii) Installation, replacement, removal, or repair of permanent exterior signs, if the Commission determines that the proposed signs are consistent in design, size, and color with the existing signs on the exterior of the building;

(viii) Installation of additional signs identifying commercial tenants within the two-story lobby arcade or parallel basement arcade, if the Commission determines that the design of the proposed signs is consistent with existing signs in the lobby;

(ix) Repair of exterior facades, including tuckpointing, subject to Commission approval of any required permit application;

(x) Replacement, renovation, or repair of any building element through the use of facsimile materials, should the Owner determine that it is not economically reasonable to replace or repair with original materials, provided that the Commission determines that the facsimile materials are used in a manner which reflects the same essential design of the building element;

(xi) Addition of decorative trim to the interior lobby space if the Commission determines that the additional decoration is consistent with the architectural design of the lobby.

SECTION 4. In the event that the Commissioner of Buildings or the Fire Commissioner deems the Building to be in a dangerous and unsafe condition as a result of major casualty or significant damage to the premises, the Owner must notify the Commission within 30 days of the occurrence of said casualty or damage. If the damage or casualty constitutes destruction of 50% or more of the Field Building, and the Owner requests a demolition permit, the Commission shall approve the permit. If the damage or casualty is less than 50%, the Commission shall review a demolition permit application as provided in this section.

The Commission shall have 45 days from the date it is notified of the damage to choose a real estate professional, such as a real estate appraiser, architectural consultant or other person with substantial construction experience as a consultant. The consultant shall be chosen by the Commission from a list of qualified persons suggested by the Owner and not currently an employee of the Owner. The Owner shall suggest five persons and the Commission shall either select one individual from the list or reject the entire list. The Owner shall then submit a second list of five different persons from which the Commission must select one. The consultant's report shall be received within 45 days from the date the Commission is notified of the damage to the Building.

Said report shall detail the extent of the damage to the Field Building and offer an opinion as to whether or not it is economically feasible to rehabilitate and restore the Building including, but not limited to, the significant historical and architectural features. The deadline for submission of the report may be extended for up to 60 days at the request of the Owner. The Commission shall be guided solely by the findings in said report when making a determination of whether or not to grant a demolition permit to the Owner. Such a determination must be reached within 30 days of the receipt of the report. If the Commission fails to act on the permit application within the required 30 days, the permit shall be deemed to have been approved. Any fees incurred in connection with the report shall be borne by the Owner. This provision shall not be construed as a waiver of any other procedural or substantive rights of the Owner to request permit approval or to appeal the decision of the Commission as provided for in the Municipal Code of Chicago.

SECTION 5. This ordinance does not preclude the subsequent donation of a preservation easement by the present or any future owner of the property.

SECTION 6. The Commission is hereby directed to create a suitable plaque appropriately identifying said landmark and to affix the plaque to the property designated as a Chicago landmark in accordance with the provisions of Section 2-120-700 of the Municipal Code of Chicago. The Owner shall have the right of design approval for the plaque and will determine the appropriate place for the plaque to be affixed.

SECTION 7. The Commission is directed to comply with the provisions of Section 2-120-720 of the Municipal Code of Chicago regarding "Notice of Designation".

SECTION 8. This ordinance shall take effect from and after the date of its passage.

The following is said ordinance as passed:

WHEREAS, Pursuant to Chapter 2-120, Section 2-120-690 of the Municipal Code of Chicago, the City of Chicago, through its Commission on Chicago Landmarks, has determined that the 35 East Wacker Drive Building, located at 35 East Wacker Drive, Chicago, Illinois, is worthy of designation as a Chicago landmark; and

WHEREAS, The Commission has found that the 35 East Wacker Drive Building meets certain criteria for landmark designation under Section 2-120-620 (1), (3), (4) and (7) of the Municipal Code of Chicago; and

WHEREAS, The 35 East Wacker Drive Building was designed by engineer Joachim Giaver and architect Frederick Dinkelberg, influential designers of many highrise commercial structures in Chicago and across the nation who, in their work with D. H. Burnham & Company and on their own, collectively contributed to Chicago's reputation as an internationally prominent center of design; and

WHEREAS, The 35 East Wacker Drive Building represents and embodies the design theories of Daniel H. Burnham, not only in its choice of style and intricate detail, which derive from the *Ecole des Beaux-Arts* in Paris, but

also in its relationship to urban design, being the last large-scale structure in the Loop built by designers who were involved with Burnham's *Plan of Chicago* of 1909, all of which was derived from the City Beautiful Movement that was intended to remake American cities in an updated image of ideal classical antiquity; and

WHEREAS, The 35 East Wacker Drive Building included a 22-story parking garage in its original design, one of the largest indoor parking facilities ever built and the largest designed within an office building up to that time, representing an innovative step forward in the concept, design and execution of such systems, the impact of which revealed new possibilities for the integration of automotive storage with first class commercial office spaces; and

WHEREAS, The 35 East Wacker Drive Building was the tallest building in the United States outside of New York at the time of its construction, making it a truly prominent feature of the skyline and which give it, along with its exuberant classical detailing, a distinctive physical appearance and commanding presence that has become a prominent visual feature of the City of Chicago; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The 35 East Wacker Drive Building, located at 35 East Wacker Drive, Chicago, Illinois, and legally described as:

Lots 9, 10, 11, 12, 13, 14 and 15 in Block 8 of the Fort Dearborn Addition to Chicago, the whole of the southwest fractional quarter of Section 10, Township 39 North, Range 14 East of the Third Principal Meridian, in Cook County, Illinois (Permanent Index Number 17-10-302-007),

is hereby designated in its entirety, along with the property on which it stands, as a Chicago landmark. The significant historical and architectural features that make an essential contribution to the qualities and characteristics by which the 35 East Wacker Drive Building meets four of the criteria for landmark designation are all exterior aspects of the building, including all roofs.

SECTION 2. The Commission on Chicago Landmarks is hereby directed to create a suitable plaque appropriately identifying said landmark and to affix the plaque to the property designated as a Chicago landmark in accordance with the provisions of Section 2-120-610 (3) of the Municipal Code of Chicago.

SECTION 3. The Commission on Chicago Landmarks is hereby directed to comply with the provisions of Section 2-120-720 of the Municipal Code of Chicago, regarding notification of said designation.

SECTION 4. This ordinance shall take effect from and after the date of its passage.

(e) If an alleged violator timely requests an administrative hearing to contest the alleged violation, the Director of Revenue shall notify the alleged violator in writing of the date, time and place of the hearing.

(f) Where an alleged violator who has requested an administrative hearing either fails to pay the indicated civil penalty prior to the hearing or fails to appear at the hearing, the hearing officer shall enter a determination of underage tobacco violation liability in the amount of the civil penalty as provided by this Chapter. Such determination shall become final for purposes of judicial review upon the denial of, or the expiration of time in which to file, a timely petition to set aside the determination as provided in Subsection 4-64-336 of this code.

4-64-335

(a) Administrative hearings for the adjudication of underage tobacco violations shall be held before a hearing officer appointed by the Director of Revenue and conducted in accordance with this section.

(b) The alleged violator may appear pro se or, at his or her own expense, by an attorney. An attorney who appears on behalf of any person shall file with the hearing officer a written appearance on a form provided by the Director of Revenue for such purpose.

(c) The Director of Revenue may cause a record to be made of each hearing, and recording devices may be used for such purpose.

(d) The hearing officer may, on a showing of good cause, grant one continuance to a date certain.

(e) All testimony shall be given under oath or affirmation, which shall be administered by the hearing officer. The hearing officer may issue subpoenas to secure the attendance and testimony of witnesses and the production of relevant documents; provided, however, that an alleged violator who appears by an attorney shall not be compelled to attend the hearing and may submit his or her testimony, if any, by affidavit. In addition, witnesses who have not been subpoenaed to attend the hearing may submit their testimony, if any, by affidavit.

(f) The formal and technical rules of evidence shall not apply in the conduct of the hearing. Evidence may be admitted if it is a type commonly relied upon by reasonably prudent persons in the conduct of their affairs.

(g) No violation may be established except upon proof by a preponderance of the evidence; provided, however, that an underage tobacco violation notice, or a copy thereof, issued and signed in accordance with Section 4-64-333 shall be prima facie evidence of the correctness of the facts specified therein.

(h) Upon the conclusion of a hearing, the hearing officer shall issue a determination of no liability or of liability in the amount of the civil penalty. Upon issuance, such determination shall constitute a final determination for purposes of judicial review.

4-64-336

Within 21 days from the issuance of a determination of liability pursuant to Subsection 4-64-334(d) or 4-64-334(f) herein, the person against whom the determination was entered may petition the hearing officer to set aside the determination; provided, however, the grounds for the petition shall be limited to (1) the person having already paid the fine for the underage tobacco violation in question; or (2) excusable failure, based on criteria established by the Director of Revenue, to appear at or to request a hearing. If the petition is granted based on excusable failure to appear at or request a hearing, the Department of Revenue shall notify the alleged violator in writing of the date, time and place of the hearing.

4-64-337

The Director of Revenue shall ensure that sufficient resources of the Department are devoted to provide for the adequate enforcement of the provisions of this chapter relating to underage tobacco violations. Each unconstitutional or invalid provision, or application of such provision, is severable, unless otherwise provided.

SECTION 3. This ordinance shall take effect 10 days after its passage and publication.

I'm, Free.

Don't grieve for me, for now I'm free.
I'm following the path God laid for me.
I took his hand when I heard his call.
I turned my back and left it all.
I could not stay another day
To laugh, to love, to work or play.
Tasks left undone must stay that way,
I found that peace at close of day.
If my parting has left a void.
Then fill it with remembered joy.
A friendship shared, a laugh, a kiss.
Ah yes, these things I too shall miss.
Be not burdened with times of sorrow;
I wish you the sunshine of tomorrow.
My life's been full, I've savored much;
Good friends, good times, a loved ones touch.
Perhaps my time seemed all too brief
Don't lengthen it now with undue grief.
Lift up your hearts and share with me;
God wanted me now, He set me free.

**THE HONORABLE RICHARD M. DALEY, MAYOR AND CHICAGO
CITY COUNCIL PRESENTED WITH DOCUMENTARY FILM
ENTITLED "HEALING THE HEART OF AMERICA,
AN HONEST CONVERSATION ON RACE,
RECONCILIATION AND
RESPONSIBILITY".**

A proposed resolution, reading as follows:

WHEREAS, Chicago is a great city; and

WHEREAS, We, as citizens of Chicago, have many strengths in our common life together, but also have problems which have no easy solutions; and

WHEREAS, There are blocks to effective communication and blocks to effective partnerships in solving our problems and some of these are based on historic events and racial divisions; and

WHEREAS, Race is not responsible for all the problems our cities face, but it is a driving force behind many of them; and

WHEREAS, Our present problems are intensified and solutions clouded and elusive because we tap into unresolved anger and fears over race and rage, frustration and bitterness over insults and indignities. We deal not only with the present situation, but also with the unresolved emotions from the past; and

WHEREAS, Changing laws and increasing enforcement can only go so far and we must also have a change of heart and attitudes; and

WHEREAS, The citizens of Richmond, Virginia, one of the original slave markets in this country and the Capital of the Confederacy, took it upon themselves to look honestly at their past and produced a remarkable time of healing of the heart and a message for the whole country; and

WHEREAS, If this type of courageous conversation can be done in Richmond, Virginia to heal from the pain of the racial divisions of their past, other cities, including the great City of Chicago, could begin honest conversations to heal historic wounds; now, therefore,

Be It Resolved, It is with great pleasure and hope that I present to each of you, my fellow Aldermen, and to our Honorable Mayor, Richard M. Daley, a copy of the excellent documentary film based on the Richmond, Virginia experience called *Healing the Heart of America, An Honest Conversation on Race, Reconciliation and Responsibility*; and

Be It Further Resolved, I urge you all to watch it and to think how each of us individually and all of us collectively can begin a process of healing from the legacy of racial fear, resentments, denial, anger and diminished expectations; and

Be It Further Resolved, I urge us all, as elected officials in this city, to show leadership by not blaming and accusing each other, but by searching within ourselves for where each of us need to change to live fully in the present; and

Be It Further Resolved, It is my hope that we will find new meaning in the words "The City That Works", and we will reveal ourselves as a people of courage, compassion, vitality and grace.

Draft Replacement Housing Plans for Washington Park (Projects IL2-27 and IL2-54) attached to this ordinance read as follows:

Chicago Housing Authority

Washington Park Homes Project (IL2-27).

F. Replacement Housing.

1. Funding Of Replacement Units.

The Chicago Housing Authority has submitted an application to the United States Department of Housing and Urban Development (H.U.D.) for Fiscal Year 1993 Public Housing Development funds for all of the 151 units at Washington Park Homes proposed for demolition. The development application, submitted on August 12, 1993, specifies that the additional units are replacement units for this demolition, meeting the one-for-one replacement requirement of Section 18 of the United States Housing Act (U.S.H.A.), as amended.

To the extent that funds are made available by H.U.D. under the Section 8 Rental Certificate, Rental Voucher and/or Project Based Assistance Program in connection with replacement housing under Section 18, the total number of additional units of new development may be reduced commensurately. Allocation of such Section 8 assistance is at the discretion of H.U.D., as specified in Section J of the Fiscal Year 1993 Notice of Funding Availability (N.O.F.A.) for the Rental Voucher Program and Rental Certificate Program published in the Federal Register on July 8, 1993, as amended.

2. Unit Size/Type.

The proposed replacement housing will consist of a variety of housing design types, including townhouses, rowhouses, two- and three-story walk-ups, and single-family detached and semi-detached structures.

Replacement housing will be provided so that the same number of total individuals and families will be provided housing under the replacement plan. The replacement units will meet the applicable handicapped accessibility requirements set forth under 24 C.F.R. 8.25.

3. Development Method.

Replacement housing will be developed under subcontract to the Joint Venture comprised of the Chicago Metropolitan Housing Development Corporation (C.M.H.D.C.) and the Habitat Company. This arrangement has been approved by all parties involved and the court.

4. Location Of Replacement Units.

The proposed new units will be built on scattered sites in accordance with the consent decree (and subsequent orders) of the *Gaurteaux* litigation. The Authority intends to continue working with the City of Chicago to acquire city-owned vacant lots and other suitable sites. All sites will be selected in accordance with the City of Chicago's Comprehensive Housing Affordability Strategy (C.H.A.S.).

5. Demolition/Development Schedule.

The Authority will develop the replacement housing to meet all time frames and requirements of the H.U.D. Public Housing Development Handbook 7417.1 REV-1 and related regulations. Construction completion is expected within three (3) years of H.U.D. approval of the Urban Revitalization Demonstration and Public Housing Development applications and release of funds. A separate schedule for residents, relocation and unit demolition is contained in Section E of this application.

The following is said ordinance as passed:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Chicago Zoning Ordinance be amended by changing all the R1 Single-Family Residence District symbols and indications as shown on Map No. 28-J in the area bounded by:

South Pulaski Road on the west; South Hamlin Avenue on the east;
West 111th Street on the north; and West 115th Street on the south,

to the designation of an Institutional Planned Development which is hereby established in the area above-described, subject to the terms of the Plan of Development herewith attached and made a part hereof and to no others.

SECTION 2. This ordinance shall be in force and effect from and after its passage and due publication.

Plan of Development attached to this ordinance reads as follows:

Institutional Planned Development No. _____.

Plan Of Development Statements.

1. The property delineated herein as an Institutional Planned Development on the Property Line and Planned Unit Development Boundary Map attached hereto is owned by the Public Building Commission of Chicago (the "Applicant"). The Board of Education of the City of Chicago, as Lessee, operates and maintains the Chicago High School of Agricultural Sciences located on the Property. The Chicago Park District maintains a lease on a portion of the property identified herein as Subarea C. The Chicago Transit Authority maintains facilities within the Plan Development Boundary delineation submitted herein. Subarea D is owned by the Public Building Commission and is currently leased on a month-to-month basis. The Applicant is seeking to construct an addition to the existing high school located in the northeast portion of the Property.
2. All applicable official reviews, approvals or permits are required to be obtained by the Applicant or its successors, assignees, or grantees. Any dedication or vacation of streets and alleys, or easements, or adjustments of right-of-way, or consolidation or resubdivision of parcels, shall require a separate submittal on behalf of the Applicant or its successors, assignees or grantees.
3. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the successors and assigns of the Applicant and the Property owner of record title. Furthermore, pursuant to the requirements of Section 11.11-1 of the Chicago Zoning Ordinance, the Property, and all portions thereof shall, throughout the period this Planned Development is in effect, be held under single ownership or under single designated control. Single designated control for purposes of this paragraph shall mean that a single person, corporation, association or other entity has been designated and authorized by the owner or owners of all of the Property as Authorized Agent of the Property for the limited purposes of (1) receiving any and all zoning enforcement-related or other zoning-related communication from the City in relation to and on behalf of the affected property owner or owners and (2) making application to the City for any subsequent amendment to this Planned Development or any other modification or change thereto (administrative, legislative or otherwise) on behalf, and in the name of the affected owner or owners of the Property. Nothing herein shall be construed to mean that any owner of the Property or any portion

thereof is relieved of any obligation hereunder or any rights in relation thereto, or may not receive directly such communications or is not subject to City action pursuant to this Planned Development. Nothing herein shall, however, prohibit or in any way restrict the alienation, sale or any other transfer of all or any portion of the Property or any rights therein.

4. This Planned Development consists of sixteen (16) statements: an Existing Zoning Map; a Property Line and Planned Development Boundary Map; a Generalized Land Use Plan; an Existing Land Use Area Map; a Table of Use and Bulk Regulations and Data; Building Elevations; and a Site Plan and a Landscape Plan prepared by Mann, Gin, Ebel and Frazier, Ltd., dated January 6, 1994. Full size sets of the Building Elevations, the Site Plan and the Landscape Plan are on file with the Department of Planning and Development. The Planned Development is applicable to the area delineated herein and these and no other zoning controls shall apply. The Planned Development conforms to the intent and purpose of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, and all requirements thereof, and satisfies the established criteria for approval as a Planned Development.
5. The Property within the Planned Development is divided into lettered subareas indicated on the Generalized Land Use Map. Subject to the terms of this Plan of Development, the following uses shall be permitted:

Subarea A: High School for not more than 600 students, including farming and farm stands for seasonal sales of produce, parking and other related uses incidental thereto. All of the provisions and limitations including the student enrollment limitation of 600 students provided within 105 ILCS 5/34-21.1(8) and (9) as of the date of the ordinance are expressly incorporated herein as though fully set forth. The Applicant shall make available to the community residents recreational, assembly, meeting and some educational areas within the expanded Chicago High School for Agricultural Sciences at times that do not conflict with regular school programming.

Subarea B: Agricultural, educational and related uses more specifically described in a land use plan to be submitted by the Applicant to the Department of Planning and Development. Because the original purpose in the formation of the Chicago High School for Agricultural Sciences was to preserve the last operating farm within the corporate limits of the City of Chicago, and because of the mandatory provisions contained herein, no permanent structures may be constructed on Subarea B.

The Public Building Commission shall be responsible for implementing a land use plan which includes a program regarding the use, cultivation and the education plan for the Subarea B agricultural area within 18 months from the date of this ordinance. The Public Building Commission shall consult with the College of Agriculture of the University of Illinois at Urbana in the formulation of this program. This program shall address all aspects of the intended land use of Subarea B including, but not limited to, the educational program and curriculum planned for the area; the plan for the cultivation and maintenance of crop areas in a manner which conforms with the intent of the Illinois Agricultural Conservation Protection Act, 505 ILCS 5/1, et seq., in recognition of the express intent of this ordinance to maintain Subarea B as actively operated farm land, the Park District nursery program in Subarea C, and the drainage requirements for low-lying areas of the site. This program and the activities regarding its implementation shall be described in the form of a report, prepared on a yearly basis and shall be submitted to the Chicago Department of Planning and Development. The activities conducted in Subarea B and Subarea C will be consistent with the final report described herein. The first report shall be completed within 18 months of the passage of this ordinance. Subsequent reports shall be prepared on an annual basis thereafter. Upon receipt of the annual report, the Public Building Commission shall forward the report to the Mt. Greenwood Residents Association and other interested established neighborhood community organizations.

Subarea C: Tree nurseries, greenhouses, arboretum, educational horticultural programs, park and recreational facilities (including active ball fields) and related uses. The Public Building Commission shall be responsible for implementing an agreement between the Board of Education, the Public Building Commission and the Chicago Park District for the development of an educational related program establishing a tree nursery including greenhouses on Subarea C comprising approximately 23 acres.

Subarea D: Landscaping, in accordance with the Landscape Plan attached hereto, no permanent structures shall be constructed.

6. Identification and other necessary signs may be permitted within the area delineated herein as "Institutional Planned Development", subject to the review and approval by the Department of Planning and Development. All identification signs existing as of the date of the adoption of this ordinance shall be permitted. Temporary signs, such as construction signs, shall be permitted, subject to the review and approval of the Department of Planning and Development.
7. Off-street parking and off-street loading facilities shall be provided in compliance with this Planned Development, subject to review of

the Department of Planning and Development and the Department of Transportation. The minimum number of off-street parking spaces shall be determined in accordance with the attached Table of Use and Bulk Regulations. A minimum of two percent (2%) of all parking spaces shall be designated for parking for the handicapped.

8. Any service drives or any other ingress or egress must be adequately designed and paved in accordance with the regulations of the Department of Transportation in effect at the time of construction and in compliance with the Municipal Code of Chicago to provide ingress and egress for motor vehicles, including emergency vehicles. There shall be no parking within such paved areas. Fire lanes, if required, shall be adequately designed and paved in compliance with the Municipal Code of Chicago, and shall have a minimum width of eighteen (18) feet to provide ingress and egress for emergency vehicles; there shall be no parking within such paved areas. Ingress and egress shall be subject to the review and approval of the Bureau of Traffic Engineering and Operations and the Commissioner of the Department of Planning and Development. The Applicant will cooperate with the Chicago Transit Authority in the development and implementation of a traffic plan to facilitate ingress and egress from the school site. The Applicant will be responsible for the design of a new bus turnaround located in Subarea A. This bus turnaround shall be the exclusive C.T.A. drop-off and pick-up area during school hours along 111th Street, between Pulaski Road and Hamlin Avenue.
9. Height restrictions of any building or any appurtenance thereto, shall, in addition to the Table of Use and Bulk Regulations be subject to:
 - a) Height limitations as certified on Form FAA-117 or successor forms involved in the same subject matter and approved by the Federal Aviation Administration; and
 - b) Airport zoning regulations as established by the Department of Planning and Development, the Department of Aviation and the Department of Law and approved by the City Council.
10. The maximum permitted Floor Area Ratio (F.A.R.) shall be in accordance with the attached Table of Use and Bulk Regulations. For purposes of F.A.R. calculations and floor measurements, the definitions in the Chicago Zoning Ordinance shall apply.

11. The improvements on the Property, including all building facades, landscaping, and entrances and exits to the parking and loading areas, shall be designed and constructed in general conformance with the Site Plan, Landscaping Plan and Building Elevations attached hereto. The landscaping of the parkway and parking areas fronting along West 111th Street shall be installed in general conformance with the landscaping provisions of the Chicago Zoning Ordinance and associated guidelines and regulations. However, landscaping of the balance of the street frontages which relate to the farm and nursery, shall adhere to the non-urban requirements of a working farm. This landscaping design shall maintain and expand all existing grouping of perimeter trees into an effective windbreak (horticulturally referred to as a shelterbelt). A separate submittal for landscaping of the working farm shall be made a part of the forthcoming program and report to be prepared by the College of Agriculture of the University of Illinois at Urbana, as described in Statement 5 herein.
12. Unless substantial new construction of the proposed educational, recreational and agricultural facilities contemplated within Subarea A or B and the recreational and windbreak portion of Subarea C of this Planned Development has commenced within five (5) years following adoption of this Planned Development, and unless completion is thereafter diligently pursued, then this Planned Development shall expire; provided, however, that if the City Council amends the Chicago Zoning Ordinance to provide for a shorter expiration period which is applicable to all planned developments, then this Planned Development shall expire upon the expiration of such shorter time period as provided by said amendatory ordinance (the first day of which as applied to this Planned Development shall be the effective date of the amendatory ordinance). If this Planned Development expires under the provisions of this statement, then the zoning of the Property shall automatically revert to that of an R1 Single-Family Residence District.
13. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The Applicant shall use best and reasonable efforts to design, construct and maintain all buildings located within this Planned Development in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigeration and Air Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S.").

14. The Board of Education shall develop and implement over a four year period, a program to affirmatively recruit residents of the surrounding communities neighboring the Chicago High School for Agricultural Sciences for enrollment in said school to the maximum extent permissible under the provisions of the Comprehensive Student Assignment Plan for the Board of Education for Schools published on January 22, 1982 and the Student Desegregation Plan for the Chicago Public Schools published by the Board of Education. The magnet school guidelines within those published principles shall apply. The efforts of the Board of Education in this regard shall be reported to the Public Building Commission on an annual basis beginning one year from the date of the issuance of a Certificate of Occupancy, and annually thereafter. The Public Building Commission shall thereafter refer the report to the Mt. Greenwood Residents Association and other established neighborhood community organizations, and the Public Building Commission shall monitor the efforts of the Board of Education.
15. The Public Building Commission shall acquire possession of the property described as Subarea D and landscaped in accordance with the landscaping plan filed herewith.
16. The mandatory provisions regarding the active farming of Subarea B and the enrollment limitation of 600 students are for the benefit of the surrounding communities; accordingly, pursuant to provisions of state law, all residents and property owners, as limited by state law, shall have legal standing to enforce all of the provisions and statements of this Institutional Planned Development Ordinance.
