SECTION 1. Subject to approval by the Corporation Counsel as to form and legality, the Commissioner of Environment and the Corporation Counsel are authorized to execute a Delegation Agreement, in substantially the form attached hereto as Exhibit A, between the City of Chicago and the Illinois Environmental Protection Agency, concerning a joint venture and cooperative site inspection, investigation and enforcement program for sites, facilities and equipment regulated under the Illinois Environmental Protection Act.

SECTION 2. This ordinance shall be in full force and effect from and after its passage and approval.

Exhibit "A" attached to this ordinance reads as follows:

Exhibit "A".

Delegation Agreement Between

The Illinois Environmental Protection Agency

And The City Of Chicago:

Re: A Joint And Cooperative Solid Waste

Management Site Inspection, Investigation

And Enforcement Program.

Now comes the Illinois Environmental Protection Agency and the City of Chicago by their respective representatives, and state as follows:

Introduction.

1. The Illinois Environmental Protection Agency (hereinafter "Agency") is an agency established in the executive branch of state government, having the duty and authority, inter alia, to conduct a program of continuing surveillance and of regular or periodic inspection of refuse disposal sites and

to investigate violations of the Illinois Environmental Protection Act (415 ILCS 5/1, et seq.) (hereinafter "Act"), and rules and regulations adopted thereunder.

2. The City of Chicago (hereinafter "City") is a unit of local government organized and existing under the laws of Illinois. The City of Chicago, Department of Environment (hereinafter "D.O.E.") is an executive department established within the City of Chicago government. The Corporation Counsel for the City of Chicago (hereinafter "Corporation Counsel") is the chief law enforcement officer for the City of Chicago, including D.O.E.. D.O.E. shall implement and carry out this Delegation Agreement for and on behalf of the City of Chicago.

3. Article VII, Section 10, Constitution of Illinois, 1970, provides in part:

"a) Units of local government. . .may contract. . .with the State. . .to obtain or share services and to exercise, combine, or transfer any power or function, in any manner not prohibited by law or ordinance. . ."

Section 4(r) of the Illinois Environmental Protection Act, 415 ILCS 5/4 (r). . . provides:

"The Agency may enter into written delegation agreements with any unit of local government under which it may delegate all or portions of its inspecting, investigating and enforcement functions. Such delegation agreements shall require that work performed thereunder be in accordance with Agency criteria and subject to Agency review".

4. The Agency and the City continue to be directly concerned with the welfare of its citizens and residents, with providing a healthful environment, and continue to recognize that there is an increasing public concern with the development and operation of solid waste management sites. The Agency and the City also recognize the beneficial aspects that can result if they approach their respective concerns together and combine their resources in accordance with this program. In order to satisfactorily act on their concerns and pursuant to the Agency's authority to delegate portions of its inspection, investigation, and enforcement functions to units of local government, the Agency and the City hereby agree to the following mutually cooperative program for government inspection of solid waste management sites in the City of Chicago, for confidential sharing of information between units of government obtained regarding solid waste disposal in the City, subject to the Freedom of Information Act, 5 ILCS 140/7, and for follow-up activity in situations where violations of environmental laws are detected. In furtherance, the Agency shall fund this delegation of inspection, investigation, and enforcement functions pursuant to P.A. 88-496.

The City hereby accepts such delegation in order to assure the protection of the health, welfare and safety of the citizens of the City of Chicago.

5. As used hereinbelow, the term "solid waste management site(s)" means a permitted sanitary landfill, unpermitted landfill (or illegal dump), or other type of solid waste disposal site, including but not limited to a deep well, a pit, a pond, a lagoon, or an impoundment.

As used hereinbelow, the term "solid waste management site(s)" does not refer to solid waste management sites or those portions of a solid waste management site that manage "hazardous waste", as defined under state and federal law. The term, as used herein, does not include the hauling or transport of waste.

This Delegation Agreement shall cover the inspection and investigation of solid waste management sites, facilities and equipment regulated under the Act, to assure compliance with environmental regulations and to protect the public health and safety through oversight and enforcement actions.

This Delegation Agreement shall not apply to any solid waste management site(s) operated, controlled, managed or owned by the City of Chicago or its employees. The Agency shall have sole authority over the inspection and investigation of these solid waste management sites that are operated, controlled, managed or owned by the City of Chicago or its employees.

Cooperative Inspection And Investigation Program.

6. Pursuant to this Delegation Agreement the City through its D.O.E., shall have certain authority, as specified herein, to make inspections, conduct investigations of solid waste management sites under the Act (5 ILCS 5/1, et seq.) and rules and regulations adopted thereunder.

In addition to conducting periodic inspections and investigations of permitted solid waste management sites in the City of Chicago, the certified City inspectors shall conduct inspections and investigations with respect to any solid waste management site within its jurisdiction as described in more detail hereinbelow.

The certified City inspectors shall also have the duty and authority to make written reports on forms provided by the Agency, of any such inspections and investigations. Copies of such reports of inspections and investigations, as well as any pertinent data, shall be provided to the owner or operator of such solid waste management sites and also the Agency, by the City within ten (10) days of the date of the City's inspection or

investigation. The City understands that any such reports, other pertinent data, and any other written material it submits to the Agency or is received by the City from the Agency or others may be subject to public access, inspection and photocopying pursuant to the Agency's responsibilities under Section 7 of the Act.

7. Before any employee of the City inspects and/or investigates a solid waste management site pursuant to this Delegation Agreement, such employee shall be certified as to his/her qualifications for the purposes of conducting inspections and investigations. The City employee's certification shall be accomplished by such employee taking a training course given by Agency personnel designed to educate the City employees: 1) in proper methods of conducting inspections and all aspects of proper investigations; and 2) with regard to the substance and content of the applicable statutes and regulations.

After such training course, if successfully completed, the Agency shall certify the City employee/inspector. During the course of all inspections and investigations of solid waste management sites, such certified City employees are to follow all the procedures established by the Agency for the purposes of carrying out this Delegation Agreement.

8. Before conducting any inspections or investigations under this agreement of Agency permitted solid waste management sites, the employees of the City shall notify the Agency as to upcoming inspections or investigations by City inspectors. Such notifications may be in the form of an advanced schedule pertaining to inspections or investigations planned for the following six months or such shorter period of time as deemed practicable by the parties. Such notification shall be held confidential between the respective parties so as to avoid prior notice to the owners and operators of the solid waste management sites, thereby defeating the benefits to be gained from an unannounced site inspection or investigation. Notwithstanding the provisions of this paragraph, the parties hereto understand that at times it will be necessary for the City to conduct impromptu inspections or investigations of permitted sites and facilities within the municipal boundaries of the City of Chicago without prior notice to the Agency, in order to protect the public health and safety, but this is to be the exception rather than the usual course of business. Such activities are understood to be appropriate and consistent with the intent and purposes and goals of this Delegation Agreement. Inspections and investigations of unpermitted or closed sites will be on a random and as needed basis, as deemed appropriate by the City of Chicago. However, the City of Chicago shall prioritize the inspections and investigations of unpermitted sites over closed sites.

Additionally, the City shall conduct inspections and investigations of any solid waste management sites subject to this Delegation Agreement upon the request of the Agency or upon citizen complaints alleging violations of the Act and rules and regulations adopted thereunder.

9. In order to promote the operational aspects of this Delegation Agreement, personnel from the Agency may accompany D.O.E. personnel on joint inspections or the solid waste management sites in Chicago. Such joint inspections may provide City personnel with additional site information and inspection skills.

10. The parties agree that the method of program operations for this Agreement shall be in accordance with the "Enforcement Management System" attached hereto and made a part hereof. Such Enforcement Management System may be amended or changed at any time by the Agency and any such changes to the Enforcement Management System shall be incorporated into this Agreement.

The Enforcement Management System requires, in addition to other program operations, various time constraints applicable to program operations, along with forms and written formats to be utilized. Also the Enforcement Management System is designed to promote voluntary compliance as a preferable alternative to formal enforcement action. In furtherance of this goal, in most instances, the City shall attempt to obtain voluntary compliance where violations are detected. Nevertheless, the parties understand that formal enforcement action may be required against a site in Chicago for willful violations or if discovery is made of a substantial endangerment to the environment or the public health, welfare and safety. Should such circumstance occur, the D.O.E. acting on advice of the City of Chicago Corporation Counsel and the Regional Manager, Field Operations Section, Land Pollution Control Division of the Agency's Maywood Illinois office shall refer the matter for immediate formal enforcement action without first attempting to obtain voluntary compliance.

Cooperative Enforcement Program.

11. In addition to the inspection and investigation authority delegated to the City herein, the Agency hereby delegates its Administrative Citation authority as set forth in P.A. 84-1320 to the City, and the Chicago Corporation Counsel; and the City with assistance of the Corporation Counsel agrees to implement and exercise such authority in accordance with this Delegation Agreement. For purposes of clarity, this Delegation Agreement considers the Administrative Citation program to be separate and apart from formal enforcement actions. The term "formal enforcement", as used herein refers to legal action filed with the Illinois Pollution Control Board or Circuit Court of Cook County against an alleged violator of the Act or rules and regulations adopted thereunder, but the term does not include an Administrative Citation action.

12. When the City collects a statutory civil penalty pursuant to an Administrative Citation issued by the City, the City shall, within thirty (30) days or receipt of the funds, issue the State its statutory share of fifty percent (50%) of the civil penalty. The State share of such civil penalty shall be made payable to the "Illinois Environmental Protection Trust Fund" and mailed to the attention of Fiscal Services, Illinois Environmental Protection Agency, 2200 Churchill Road, P.O. Box 19276, Springfield, Illinois 62794-9276.

The method of recordkeeping for the purposes of the above division of civil penalties is set forth in the Enforcement Management System.

13. The parties recognize that the State's Attorney has certain independent formal enforcement authority pursuant to Title XII of the Illinois Environmental Protection Act. The parties further recognize that the City Corporation Counsel has certain independent formal enforcement authority under the Illinois Constitution and the Municipal Code of the City of Chicago. Nothing in this Delegation Agreement is intended to reflect on such authority of the Chicago Corporation Counsel or the State's Attorney. The City does agree, however, to utilize the Enforcement Management System herein, to the degree applicable, when by reason of this Delegation Agreement, a case is developed by the certified City inspector and results in a referral enforcement action.

14. When the City refers a matter for formal enforcement action pursuant to this Delegation Agreement, the case will be prosecuted either through the available channels utilized by the Agency for cases developed by Agency personnel or through the Chicago Corporation Counsel or Cook County State's Attorney's Office. The parties hereto recognize that the State's Attorney and Chicago Corporation Counsel have time and resource constraints and may therefore be constrained from prosecuting any or all formal enforcement cases.

When the City refers a matter for formal enforcement pursuant to this Delegation Agreement either to the State's Attorney's Office or the Chicago Corporation Counsel, the City shall, within thirty (30) days of receipt of any civil penalty or fine, issue the State fifty percent (50%) of the civil penalty of fine collected. The State share of such civil penalty shall be made payable to the "Illinois Environmental Protection Trust Fund" and mailed to the attention of Fiscal Services, Illinois Environmental Protection Agency, 2200 Churchill Road, P.O. Box 19276, Springfield, Illinois 62794-9276.

The Chicago Corporation Counsel agrees that if it commences a formal enforcement action developed through the inspection and investigation program set forth in this Delegation Agreement, and if such formal enforcement case involves "remedial action" (at any stage of the litigation or settlement process), the Agency shall have the authority and be responsible for the technical aspects of the remedial action settled upon through negotiation or as presented to the court or Pollution Control Board.

The term "remedial action" includes but is not limited to those actions consistent with permanent remedy taken instead of or in addition to removal; such actions include storage, confinement, perimeter protection using dikes, trenches or ditches, a clay cover, neutralization, cleanup of released contaminants recycling, or re-use, diversion, destruction, segregation of reactive wastes, dredging or elevations, repair or replacement of leaking containers, collection of leachate and runoff, on-site treatment or incineration, monitoring reasonably required to assure that such actions protect the public health and welfare, the environment, closure -- including cover and erosion control, and any action involving the violation of Agency permits.

The purpose and intent of consulting with the Agency on the technical aspects of the remedial action matters, is to utilize, to the fullest degree possible, the technical expertise of the Agency and to maintain the legislative intent set forth in the Act to establish a unified, statewide program to restore, protect and enhance the quality of the environment.

15. The City may refer a case to the Agency for formal enforcement. Such referral shall be made through the Manager of Field Operations Section, Division of Land Pollution Control.

Such formal enforcement referral shall be in writing and shall include, but not necessarily be limited to, the following:

a) Copies of all pertinent inspection reports and photographs;

b) A statement as to the certified City field inspector's view of the sufficiency of evidence to successfully prosecute the case;

c) Copies of any laboratory analysis results;

d) A statement from the certified City field inspector as to the considerations, conclusions and recommendations relative to the technical aspects of the case, if any;

e) The forum which is recommended for prosecuting the case (i.e. Pollution Control Board, circuit court, federal court, etc.).

All such information transmitted by the City to the Agency, consistent with the Freedom of Information Act requirements, shall be held confidential by the Agency.

If the Agency accepts a referred case for formal enforcement, the Agency shall so notify the City and the City Corporation Counsel. The Corporation

Counsel shall then notify the Agency as to the Corporation Counsel's desired level of participation in the formal enforcement proceedings.

If the Agency does not accept the case for formal enforcement, the Agency shall so notify the City and the Corporation Counsel in writing, along with a statement as to the reason(s) for declining the referral.

16. The parties understand that formal enforcement cases against solid waste management sites in Chicago may arise outside the format of this Delegation Agreement. For example, a matter may be brought to the attention of the City or the Corporation Counsel through some vehicle other than the inspection and investigation program established herein, or the Agency, exercising its independent inspection and investigation powers through Agency inspectors, may detect violations upon which the Agency decides to proceed with formal enforcement.

If a formal enforcement case arises outside this Delegation Agreement, the parties agree to notify each other of any such intended action, to avoid duplication of efforts and to avoid independent or mutually inconsistent enforcement proceedings.

17. The parties agree that their employees shall cooperate fully and completely with one another, including but not limited to, offering testimony in any formal enforcement action instituted against the site in the City of Chicago.

In instances where the Corporation Counsel prosecutes a formal enforcement case, the Agency's enforcement staff will cooperate fully and completely with the Corporation Counsel's office and shall be available to participate at any reasonable level of involvement requested by the Corporation Counsel.

18. Nothing in this Delegation Agreement shall limit the Agency from exercising its own discretion in determining whether or not any formal enforcement action should or should not be referred for litigation by the Agency. Furthermore, nothing in this Delegation Agreement shall be construed as a limitation on the police powers and common law powers of the City of Chicago, nor limit the City from exercising its own discretion in determining whether or not any formal enforcement action based on its common law and police powers should be initiated.

Agency Permits.

19. The Agency shall, consistent with Section 7 of the Act, forward to the City copies of all applications for permits and/or supplemental permits as they are received for the solid waste management sites in Chicago. The

Agency shall also forward to the City copies of each permit response transmitted to the applicant. All such information transmitted by the Agency to the City, consistent with freedom of information requirements, shall be held confidential by the City, and will not be made available to any person or agency.

20. The Department of Environment shall have the right to make written statements of fact regarding the issuance or denial of a permit or condition imposed thereunder, such statements of fact to be submitted to the Permit Section of the Agency's Division of Land Pollution Control within twenty (20) days after the City is notified that a permit application is pending. Any such statements of fact shall be considered by the Agency during its permit review process, but nothing herein shall be construed to limit the Agency from exercising its discretion with respect to the issuance, denial or inclusion of terms and conditions in permits acted upon by the Agency.

21. The issuance of Agency permits shall remain the sole discretion and responsibility of the Agency.

General Provisions.

22. By separate Enforcement Grant, the Agency may provide financial assistance to the City. Such Enforcement Grant, if provided to the City, shall be used by the City to implement and maintain the responsibilities set forth in the Enforcement Grant. Such Enforcement Grant, if provided, shall be issued in accordance with the Procedures of Issuing Solid Waste Planning and Enforcement Grants as set forth at 35 Ill. Adm. Code 870, as amended from time to time; and such funds shall be used by the City only for purposes set forth in said Enforcement Grant.

It is the intent of the parties hereto that this Delegation Agreement shall stand on its own merit and if said Enforcement Grant is not forthcoming or if it is terminated or amended after issuance, this Delegation Agreement shall remain in full force and effect. This Delegation Agreement shall terminate or be amended only operation of law or in accordance with terms and conditions set forth in Paragraph 24 hereinbelow. However, if this Delegation Agreement is terminated, the Enforcement Grant mentioned herein shall automatically be terminated.

In addition to any Enforcement Grant that may be provided to the City as set forth above, pursuant to P.A. 88-496 if the parties enter into this Delegation Agreement and the Subtitle D Management Fund monies are provided to the Agency, the Agency shall provide to the City $150,000.00 annually in order for the City to implement an inspection, investigation and

enforcement program consistent with the terms of this Delegation Agreement.

It is the intent of the parties hereto that this Delegation Agreement and its funding and any other Enforcement Grant issued pursuant to the Procedures for Issuing Solid Waste, Planning and Enforcement Grants, be separate agreements.

23. This Delegation Agreement shall take effect on the date of signing, and shall remain in effect until July 1, 1995 unless terminated earlier by either party, giving thirty (30) days written notice of termination to the other party. This Delegation Agreement may be so terminated "without cause". The Agency shall review the City's program at least annually and shall submit a written evaluation of this program to the City. The parties hereto may elect to extend this Delegation Agreement under terms and for a period of time to be agreed upon. Should the parties continue the joint and cooperative venture embodied in this Delegation Agreement after the original period, the Agency shall make an annual review of the program.

This Agreement may be modified at any time by mutual agreement of the parties in a written Supplemental Delegation Agreement.

24. Nothing in this Delegation Agreement shall limit the Agency's authority to conduct its own inspections or investigations of solid waste management sites located in the City.

25. Either party hereto may request the reasonable assistance and/or accompaniment of the other in performing inspections or carrying out investigations under this Delegation Agreement.

26. The City shall transmit to the Agency copies of all written communications the City issues or receives pursuant to activities engaged in by reason of this Delegation Agreement.

27. From time to time, the Agency engages in inspection and investigations with a view toward possible criminal actions. It is understood by the parties thereto that any information, facts or data pertaining to such inspections and investigations is outside the scope of this Delegation Agreement. Nothing herein shall limit the Agency's otherwise proper legal authority to work with and cooperate with the City of Chicago Corporation Counsel and law enforcement agencies in Chicago regarding any inspections or investigations pursuant to possible criminal actions.

28. Unless otherwise specified, the Regional Manger, Field Operations Section, Division of Land Pollution Control, shall be the Agency's representative for the operational aspects of this Delegation Agreement, and the Commissioner of the Department of Environment shall be the City's representative. Questions and statements of fact pertaining to permit

applications shall be directed to the Manager, Permit Section, of the Agency's Division of Land Pollution Control.

In Witness Whereof, The Parties hereto have caused this agreement to be made effective and executed.

Program funds, the proceeds of which shall be used to refinance the I.H.D.A. Interim Loan and pay a portion of the costs of rehabilitation of the Property, pursuant to the terms and conditions set forth in Exhibit A attached hereto and made a part hereof; and

WHEREAS, The City has determined that the refinancing of the I.H.D.A. Interim Loan is necessary to achieve the community development objectives of the City; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The above recitals are expressly incorporated in and made a part of this ordinance as though fully set forth herein.

SECTION 2. Upon the approval and availability of the Additional Financing as shown in Exhibit A hereto, the Commissioner of D.O.H. (the "Commissioner") and a designee of the Commissioner are each hereby authorized, subject to approval by the Corporation Counsel, to enter into and execute such agreements and instruments, and perform any and all acts as

shall be necessary or advisable in connection with the implementation of the Loan and the terms and program objectives of the S.N.A.P. Program. The Commissioner is hereby authorized, subject to the approval of the Corporation Counsel, to negotiate any and all terms and provisions in connection with the Loan which do not substantially modify the terms described in Exhibit A hereto. Upon the execution and receipt of proper documentation, the Commissioner is hereby authorized to disburse the proceeds of the Loan to the Borrower.

SECTION 3. To the extent that any ordinance, resolution, rule, order or provision of the Municipal Code of Chicago, or part thereof, is in conflict with the provisions of this ordinance, the provisions of this ordinance shall control. If any section, paragraph, clause or provision of this ordinance shall be held invalid, the invalidity of such section, paragraph, clause or provision shall not affect any of the other provisions of this ordinance.

SECTION 4. This ordinance shall be effective as of the date of its passage.

Exhibit "A" attached to this ordinance reads as follows:

Exhibit "A".

Borrower:	Winthrop Neighborhood Development Corporation, an Illinois not-for-profit corporation (the "Borrower") whose sole voting member is Century Place Development Corp., an Illinois not-for-profit corporation whose sole voting member is Travelers & Immigrants Aid of Chicago, an Illinois not-for-profit corporation.	
Project:	Rehabilitation of a building located at 4848 North Winthrop Avenue (the "Property"), and comprised of 281 dwelling units contained therein as one-, two- and three-bedroom units for low- and moderate-income families.	
Loan:	Source:	S.N.A.P. Program.
	Amount:	Not to exceed $1,686,200.
	Term:	Not to exceed 14 years.

Interest:	1.19 percent per annum. An additional 5.81 percent per annum shall accrue and be payable at maturity; provided, however, that such additional interest shall be forgiven if the Section 8 project-based assistance described below is not renewed.
Security:	Non-recourse loan; initially, third mortgage on the Property; upon completion of rehabilitation, the mortgage securing the Continental Loan (described below) shall be released and the mortgage in favor of the City shall constitute a second mortgage.

Additional Financing:

The Borrower acquired the Property on June 23, 1993. The Borrower obtained financing to rehabilitate the Property from the proceeds of (a) a loan (the "Continental Loan") in the amount of $5,000,000 from Continental Bank, N.A.; (b) a loan (the "I.H.D.A. Interim Loan") in the amount of $1,500,000 from the Illinois Housing Development Authority ("I.H.D.A."); and (c) a loan (the "I.H.D.A. Permanent Loan") in the amount of $500,000 from I.H.D.A..

The Borrower has heretofore obtained a loan (the "C.I.C. Loan") in the amount of $5,000,000 from Community Investment Corporation ("C.I.C."). The proceeds of the C.I.C. Loan will not be disbursed until the completion of rehabilitation of the Property and such proceeds will be used to retire the Continental Loan.

The Borrower has currently executed and delivered a first mortgage in favor of Continental Bank to secure the Continental Loan; a second mortgage in favor of C.I.C. to secure the C.I.C. Loan; a third mortgage in favor of I.H.D.A. to secure the I.H.D.A. Interim

Loan; and a fourth mortgage in favor of I.H.D.A. to secure the I.H.D.A. Permanent Loan. Upon closing of the City's loan (the "City Loan"), the Borrower will execute and deliver a mortgage (the "City Mortgage") to secure the City Loan. The proceeds of the City Loan will be used to refinance the I.H.D.A. Interim Loan and to pay additional rehabilitation costs. The mortgage securing the I.H.D.A. Interim Loan will be released. The City Mortgage will be subordinate to the mortgage securing the Continental Loan and the mortgage securing the C.I.C. Loan. Upon disbursement of the proceeds of the C.I.C. Loan, the Continental Loan will be retired, and the mortgage securing the Continental Loan will be released; thereupon the C.I.C. Mortgage will be a first mortgage, the City Mortgage will become a second mortgage and the mortgage securing the I.H.D.A. Permanent Loan will become a third mortgage.

The permanent financing of the Project in addition to the City Loan is as follows:

(i) The C.I.C. Loan is in the amount of $5,000,000 and has a maturity date of June 1, 2008. Interest accrues on the C.I.C. Loan at an adjustable rate, having a maximum rate of 12 percent per annum. The I.H.D.A. Permanent Loan is in the amount of $500,000, has a maturity date of June 1, 2009 and bears interest at a rate of zero percent per annum. The property will also receive Section 8 project-based financial assistance from the United States Department of Housing and Urban Development ("H.U.D.") in the form of payments pursuant to a Housing Assistance Payment Contract for a certain minimum

number of units in the Property acceptable to the Commissioner.

(ii) There will also be an equity contribution in the amount of $451,211 which is comprised of $180,000 to be paid by the Borrower over 18 months in the amount of $10,000 per month, $240,151 which has been paid by H.U.D. and an additional $31,060 which has been paid by the Borrower.

The total sources for the permanent financing are:

Source	Amount
C.I.C. Loan	$5,000,000
S.N.A.P. Program	1,686,200
I.H.D.A.	500,000
Equity	451,211
Approximate Total Project Costs:	$7,637,411

The Developer hereby represents and warrants to the City that the Developer has conducted environmental studies sufficient to conclude that the Project may be constructed, completed and operated in accordance with all Environmental Laws and this Agreement and all exhibits attached hereto, and the Redevelopment Plan.

Without limiting any other provisions hereof, the Developer agrees to indemnify, defend and hold the City harmless from and against any and all losses, liabilities, damages, injuries, costs, expenses or claims of any kind whatsoever (except those arising from the willful misconduct or negligent acts or omissions of the City) including, without limitation, any losses, liabilities, damages, injuries, costs, expenses or claims asserted or arising under any Environmental Laws incurred, suffered by or asserted against the City as a direct or indirect result of any of the following, regardless of whether or not caused by, or within the control of the Developer, but excluding any claims resulting from the actions or inactions of The Belt Railway of Chicago, its employees, agents, affiliates or successors: (i) the presence of any Hazardous Materials on or under, or the escape, seepage, leakage, spillage, emission, discharge or release of any Hazardous Material from all or any portion of the Property (except for the Railroad Property) or (ii) any liens against the Property (except for the Railroad Property) permitted or imposed by any Environmental Laws, or any actual or asserted

liability or obligation of the City or the Developer or any of its subsidiaries under any Environmental Laws relating to the Property.

Section 13.

Insurance.

The Developer shall maintain and keep in force, at its sole costs and expense, at all times throughout the Term of this Agreement, and until each and every obligation of the Developer contained in the Agreement has been fully performed, insurance in such amounts and of such type that is normal, customary and adequate to protect a business of the type and size of the Developer. Such insurance may afford a blanket coverage with other properties of the Developer and may also include self-insurance.

Section 14.

Indemnification.

The Developer agrees to indemnify, defend and hold the City harmless from and against any losses, costs, damages, liabilities, claims, suits, actions, causes of action and expenses (except those arising from the willful misconduct or negligent acts or omissions of the City or the Belt Railway Company of Chicago or their employees, agents, affiliates or successors in connection with the Railroad Property), including, without limitation, reasonable attorneys' fees and court costs, suffered or incurred by the City arising from or in connection with (i) the Developer's failure to comply with any of the terms, covenants and conditions contained within this Agreement, or (ii) the Developer's or any contractor's failure to pay contractors or materialmen in connection with the T.I.F.-Funded Improvements or any other Project improvement, or (iii) the Developer's failure to cure any material misrepresentation in this Agreement within the cure period provided.

Section 15.

Maintaining Records/Right To Inspect.

15.01 Books And Records.

The Developer shall keep and maintain separate, complete, accurate and

detailed books and records necessary to reflect and fully disclose the total actual cost of the Project and the disposition of all funds from whatever source allocated thereto, and to monitor the Project. All such books, records and other documents normally held by the Developer for federal income tax purposes, shall be available at the Developer's offices for inspection, copying, audit and examination by an authorized representative of the City, at the Developer's expense no more often than one time in any calendar year and upon reasonable notice. The Developer shall keep all Requisition Forms and T.I.F. Budget Approval Certificates issued pursuant to Section 4 for a period of twenty-three years. The Developer shall keep all other books and records related to the Project for a period of five years.

15.02 Inspection Rights.

Any authorized representative of the D.P.D. shall have access to all portions of the Project and the Property during normal business hours for the Term of the Agreement, subject to prior arrangement with a representative of Developer.

Section 16.

Default And Remedies.

16.01 Non-Termination Events Of Default.

The occurrence of any one or more of the following events, subject to the provisions of Section 16.04, shall constitute a "Non-Termination Event of Default" by the Developer hereunder:

(a) the failure of the Developer to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of the Developer under this Agreement;

(b) the making or furnishing by the Developer to the City of any representation, warranty, certificate, schedule, report or other communication within or in connection with this Agreement or any related agreement which is untrue or misleading in any material respect;

(c) the commencement of any proceedings in bankruptcy by or against the Developer or for the liquidation or reorganization of the Developer, or alleging that such the Developer is insolvent or unable to pay its debts as they mature, or for the readjustment or arrangement of the Developer's debts, whether under the United States Bankruptcy Code or under any other state or federal law, now or hereafter existing for the relief of debtors, or the commencement of any analogous statutory or

non-statutory proceedings involving the Developer; provided, however, that if such commencement of proceedings is involuntary, such action shall not constitute a Non-Termination Event of Default unless such proceedings are not dismissed within 90 days after the commencement of such proceedings;

(d) the appointment of a receiver or trustee for the Developer, for any substantial part of the Developer's assets or the institution of any proceedings for the dissolution, or the full or partial liquidation, or the merger or consolidation, of the Developer; provided, however, that if such appointment or commencement of proceedings is involuntary, such action shall not constitute a Non-Termination Event of Default unless such appointment is not revoked or such proceedings are not dismissed within 90 days after the commencement thereof;

(e) the failure of the Developer to substantially complete any Subsequent Project on which construction has been substantially commenced, provided that the Developer reserves the right to change the nature and/or form of any Subsequent Project at any time in order to meet the needs of the Developer's business; or

(f) the dissolution of the Developer.

16.02 Termination Event Of Default.

The occurrence of any one or more of the following events, subject to the provisions of Section 16.04, shall constitute a "Termination Event of Default" by the Developer hereunder:

(a) the failure of the Developer to substantially complete the Phase I Project in accordance with the terms of this Agreement within three years of the date of this Agreement; or

(b) the closing of the Bakery and abandonment of the Property for a continuous period of more than 180 days.

16.03 Remedies.

(a) Upon the occurrence of a Non-Termination Event of Default, the City may, upon 30 days' written notice to the Developer, suspend disbursement of the Incremental Taxes for any Costs of T.I.F.-Funded Improvements incurred by the Developer from, after and during the Non-Termination Event of Default, provided, however, that such disbursements shall be payable to the Developer from and after such time as the Non-Termination Event of Default has been cured by the Developer. In addition thereto, the City may, in any court of competent jurisdiction by any action or proceeding at law or in equity, secure the specific performance of the agreements

contained herein, provided, however, that it is understood and agreed to by the City that the Developer is not required to commence any Subsequent Project at the Property.

(b) Upon the occurrence of a Termination Event of Default, the City, in addition to its other remedies at law and in equity, may terminate this Agreement upon 60 days prior notice to the Developer, provided, however, that upon the occurrence of a Termination Event of Default pursuant to Section 16.02(b), the City's sole remedy shall be to terminate this Agreement upon 60 days prior notice to the Developer and thereafter, neither party shall have any obligation to the other hereunder.

16.04 Curative Period.

In the event the Developer shall fail to perform a covenant which the Developer is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, a Non-Termination Event of Default or a Termination Event of Default under Section 16.02(a) shall not be deemed to have occurred unless the Developer shall have failed to cure such default within 60 days of its receipt of a written notice from the City specifying the nature of the default; provided, however, with respect to those defaults which are not capable of being cured within such 60 day period, the Developer shall not be deemed to have committed a Non-Termination Event of Default or a Termination Event of Default under Section 16.02(a) if it has commenced to cure the alleged default within such 60 day period and thereafter diligently and continuously prosecutes the cure of such default until the same has been cured; provided, further, that such default is cured in any event within 180 days of the date of the Developer's receipt of a written default notice.

Redevelopment Project And Plan.

1.

Introduction.

Manufacturing has played a pivotal role in the nation's economy and in the emergence of the United States as a world power. In 1920, manufacturing surpassed agriculture as the major employer in the country, and it held that position until the mid-1980s when it was passed by the service sector. Today, there is a restructuring of America's industrial sector, largely due to technological changes and competitive global markets. Underlying this restructuring are a number of significant trends. Dr. David Birch, identifies these trends in the book *America's Future Industrial Space Needs. Preparing For The Year 2000.* Among these are:

1. Shift in the mix of industries and types of goods being manufactured -- Emphasis has gone from basic industries, such as steel, food, cars and clothing to plastics, electronics, computers, pharmaceuticals, etc..

2. Shift in the size of manufacturers -- Most of the nation's recent industrial growth comes from small to mid-size companies which are innovative and grow rapidly.

3. Shifts in geographical location -- Manufacturers are no longer dependent upon the location of raw materials and traditional distribution methods. As a result, there is movement from the older rustbelt states of Ohio, Michigan, Pennsylvania and Illinois to the sunbelt and western states.

4. Changing role for exporters -- Increasing levels of foreign trade have resulted in expansion of the nation's wholesale trade sector at the expense of manufacturing.

5. Available labor pool -- In the 1970s and 1980s, large numbers of new workers were available and absorbed into the work force. Future economic growth may be constrained by the availability of a labor force which is appropriately trained and skilled.

Dr. Birch states that continued industrial growth in the United States will result from high technology manufacturing and from traditional industries in which innovation comes from doing things in new, more competitive ways. A few examples of this innovation are the use of lasers to cut blouses, robots to assemble machines, computers to operate equipment and cryogenic technology to store frozen foods.

The restructuring of the country's industrial sector has greatly impacted major cities throughout the Northeast and Midwest, and many have seen the industrial bases in their cities change significantly.

Major employers have downsized, relocated and/or gone out of business, and jobs for residents have disappeared. As a result, buildings and parts of buildings stand vacant, many of them made obsolete by contemporary industrial standards; tax bases erode; property values decline; personal income falls; and the impact ripples throughout the economy. Thus, in today's competitive national and international markets, it is extremely important that cities retain and invigorate their manufacturing base.

As in other cities, manufacturing has been the backbone of the economy in Chicago. The Illinois Bureau of Employment Security ("I.B.E.S.") reports that, in 1970, manufacturing totaled 41.5 percent of "covered" employment in the City of Chicago.[1] However, within the past two decades, manufacturing has declined, bringing about losses in the number of industrial firms located in the City as well as declines in employment.

---

[1] "Covered" employment is defined as all employees covered by the Illinois Unemployment Insurance Act. The employment figures do not include State of Illinois workers because that data is not available by place of work.

According to I.B.E.S., in 1984, there were 1,125,827 "covered" employees in the City of Chicago. Of this total, 263,873 (or 23.4 percent) were employed in manufacturing and 339,139 (30.1 percent) were employed in the service sector. In 1990, "covered" employment in the City rose to 1,201,136, a gain of 7 percent. During the same six year period, however, manufacturing employment declined by 18 percent to 216,190 while service employment rose by 20 percent to 408,020. In 1990, manufacturing only composed 18.0 percent of "covered" employment while service sector employment increased to 34.0 percent.

Despite these declines, manufacturing still plays an extremely important role in the City's economy. The Economic Development Commission ("E.D.C.") of the City of Chicago published a report in August, 1991 which addresses the future development of industrial parks within the City. According to data from the Federal Reserve Bank which appeared in that report, 4,500 manufacturing firms are located in the City. They provide over one-quarter of a million jobs and generate millions of dollars in City property tax, head tax and utility tax revenues.

In Chicago, manufacturing remains an important economic engine which sustains neighborhoods, providing well-paying jobs and enhancing the quality of life for residents. Moreover, industrial activity is important because it supports a number of other sectors of the local economy, bringing increases in employment and revenue to the City. The University of Illinois' Bureau of Business Research concludes that because of income paid to workers which is then spent elsewhere in the community and the connection between manufacturing and other economic areas, each manufacturing job supports approximately 3.2 other jobs. This compares to lower paying service sector jobs which support 1.7 additional jobs.

The previously cited E.D.C. report includes the findings of a survey conducted among local manufacturers. It indicates that Chicago has many important advantages for industrial companies. These include access to suppliers and markets, an excellent transportation network, large labor force, and an abundant, high quality water supply and treatment service. Various factors contribute to a firm's decision to relocate from, or not locate within the City, but the one cited most often is the lack of modern industrial space for expanding businesses.

Currently, the City has expressed a policy to maintain and enhance its existing industrial base, and has undertaken actions and adopted ordinances to improve and build upon it. Although the City has suffered from some significant losses, such as the departure of Spiegel, Inc. to Ohio, it is committed to preserving and improving its economic stature. The creation and preservation of jobs is a major economic development goal of the City. The City encourages economic diversity to enable it to reach this goal, adapt to changes in the regional and international market, and absorb the impact of these changes.

Industrial activity plays a significant role in a diversified economy. It provides highly paid employment for residents, supports important secondary jobs, and is an incubator for innovation from which new technologies and industries are created. To support the job creation goal, the City has adopted an industrial land use policy which seeks to:

1. Provide opportunities for synergy between related industrial activities;

2. Minimize the conflicts between industrial and other land uses;

3. Maximize the benefits of public investment in capital programming related to industrial investment.

The 73rd and Kedzie Area encompasses approximately 105.3 acres and is composed of the 46 acre Nabisco Facility and the 38.5 acre Rheem Property, separated by the Norfolk and Southern rail lines which run through the center of the two sites in an east/west direction. Both of the properties front South Kedzie Avenue, from West 73rd Street to West 77th Street. The northern portion of the Area contains the Nabisco Biscuit Company plant which is approximately 1.6 million square feet. The facility is the largest bakery in the world, with approximately 2,500 employees. Most of the complex consists of two-story buildings except for the seven-story highrise silo/storage building. The Rheem Property contains a vacant industrial complex of approximately 700,000 square feet, which was occupied by the Rheem Manufacturing Company. The Rheem Property has been vacant for the past three years.

The 73rd and Kedzie Area is a large industrial area adjacent to and just west of two large rail yards, surrounded mainly by residential areas with some commercial uses along the South Kedzie Avenue frontage. Both industrial sites and the buildings on them are impacted by functional and economic obsolescence due to the single purpose design of the buildings, operational problems, inadequate parking, loading and service restraints, and limited access into each property with only a single entry and exit point. These problems have resulted in the total vacancy of the Rheem Property and the need for major capital improvements to the buildings and related operational functions within the Nabisco Facility.

Access to the Area is provided only by South Kedzie Avenue, which borders both sites on the eastern boundary. South Kedzie Avenue connects to nearby major streets, including West 79th Street, South Columbus Avenue and West 71st Street.

Existing site and development constraints must be overcome before achievement of the City's objectives for the maintenance and enhancement of its industrial base through private investment in new construction, modernization and expansion. Although City initiatives and expenditures

have stimulated private investment in other industrial areas, the 73rd and Kedzie Redevelopment Area as a whole (the "Redevelopment Project Area") has not been subject to growth and development through investment by private enterprise, and is not reasonably expected to be developed without the efforts and leadership of the City, including the adoption of the Tax Increment Financing Redevelopment Project and Plan and the substantial investment of public funds.

Tax Increment Financing.

In January, 1977, tax increment financing ("T.I.F.") was made possible by the Illinois General Assembly through passage of the Tax Increment Allocation Redevelopment Act (hereinafter referred to as the "Act"). The Act is found in Illinois Revised Statutes, Chapter 24, Section 11-74.4-1, et seq., as amended. The Act provides a means for municipalities, after the approval of a "redevelopment plan and project", to redevelop "blighted", "conservation" or "industrial park conservation" areas and to finance public redevelopment costs with incremental real estate tax revenues. Incremental real estate tax revenue ("tax increment revenue") is derived from the increase in the equalized assessed valuation ("E.A.V.") of real property within the T.I.F. redevelopment area over and above the certified initial E.A.V. of the real property. Any increase in E.A.V. is then multiplied by the current tax rate which results in tax increment revenue. A decline in current E.A.V. does not result in a negative real estate tax increment.

To finance redevelopment costs a municipality may issue obligations secured by the anticipated tax increment revenue generated within the redevelopment project area. In addition, a municipality may pledge towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Tax increment financing does not generate revenues by increasing tax rates. It generates revenues by allowing the municipality to temporarily capture new tax revenues resulting from redevelopment. Under tax increment financing, all taxing districts continue to receive the tax revenue they received prior to redevelopment from property in the area. Taxing districts can receive distributions of excess increment when more tax increment revenue is received than is necessary to pay for expected redevelopment project costs and principal and interest obligations issued to pay such costs. Taxing districts also benefit from the increased property tax base after redevelopment project costs and obligations are paid.

The 73rd And Kedzie Tax Increment Redevelopment Plan And Project.

This 73rd and Kedzie Tax Increment Redevelopment Plan and Project (the "Redevelopment Plan") has been formulated in accordance with the provisions of the Act. It is a guide to all proposed public and private actions in the Redevelopment Project Area.

This Redevelopment Plan also specifically describes the Redevelopment Project Area and sets forth the conservation factors which qualify the Redevelopment Project Area for designation as a conservation area as defined in the Act.

In addition to describing the objectives of redevelopment, the Redevelopment Plan sets forth the overall program to be undertaken to accomplish these objectives. The "Redevelopment Project" as used herein means any development project which may, from time to time, be undertaken to accomplish the objectives of the Redevelopment Plan.

The Redevelopment Project represents an important economic opportunity for the City of Chicago. It will greatly improve the environment for private development, enabling a major manufacturing entity to expand and upgrade its facility. It also will enable the City to achieve three important goals: (1) job retention and creation; (2) improvement of its tax base; and (3) retention of a major industrial employer that might otherwise move to the suburbs or out of state.

The goal of the City of Chicago, however, is to ensure that the entire Redevelopment Project Area be redeveloped on a comprehensive and planned development basis in order to ensure that new development occurs:

1. On a coordinated rather than a piecemeal basis to ensure that the land use, pedestrian access, vehicular circulation, parking, service and urban design systems will functionally come together, meeting contemporary principles and standards.

2. On a reasonable, comprehensive and integrated basis to ensure that conservation area factors are eliminated.

3. Within a reasonable and defined time period so that the Area may contribute productively to the economic vitality of the City.

Redevelopment of the Redevelopment Project Area is a complex undertaking, and it presents challenges and opportunities commensurate with its scale. To a large extent, the success of this effort will depend on the cooperation between the private sector and agencies of local government. The adoption of this Redevelopment Plan will make possible the implementation of a comprehensive program for the redevelopment of the Redevelopment Project Area. By means of public investment, the Area will

become a stable environment that will again attract private investment. Public investment will set the stage for improving the Area with private capital.

Public and private investment is possible only if T.I.F. is used pursuant to the terms of the Act. The revenue generated by the development will play a decisive role in encouraging private development. Conditions that have precluded intensive private investment in the past will be eliminated. Through this Redevelopment Plan, the City will serve as the central force for marshaling the assets and energies of the private sector for a unified cooperative public/private redevelopment effort. Implementation of this Redevelopment Plan will benefit the City, its neighborhoods and all the taxing districts which are included in the 73rd and Kedzie Project Area in the form of an expanded tax base, employment opportunities and a wide range of other benefits.

2.

Redevelopment Project Area Description.

The boundaries of the Redevelopment Project Area have been carefully drawn to include only the real property and improvements thereon substantially benefited by the proposed redevelopment project improvements to be undertaken as part of this Redevelopment Plan. The boundaries are more specifically shown in Figure 1, Boundary Map, and more particularly described as follows:

a tract of land comprised of a part of the northwest quarter and southwest quarter of Section 25 and a part of the northeast quarter and southeast quarter of Section 26, all in Township 38 North, Range 13, East of the Third Principal Meridian, said tract of land being described as follows:

3.

Redevelopment Project Area Goals And Policies.

Managed growth in the form of investment in new development and facilities is essential in the Redevelopment Project Area. Redevelopment efforts in the Redevelopment Project Area will strengthen the entire City through additional employment opportunities, increased tax base and infrastructure and environmental improvements.

The Act encourages the public and private sectors to work together to address and solve the problems of urban growth and development. The joint effort between the City and the private sector to redevelop parts of the Redevelopment Project Area will receive significant support from the financing methods made available by the Act.

This section of the Redevelopment Plan identifies the goals and policies of the City for the Redevelopment Project Area. A later section of this Redevelopment Plan identifies the more specific program which the City plans to undertake in achieving the redevelopment goals and policies which have been identified.

General Goals.

-- Provide infrastructure improvements within the Redevelopment Project Area.

-- Encourage industrial development by eliminating the influences and the manifestations of physical and economic deterioration and obsolescence within the Redevelopment Project Area.

-- Provide sound economic development in the Redevelopment Project Area.

-- Revitalize the Redevelopment Project Area to maintain it as an important activity center contributing to the regional and national focus of the City.

-- Create an environment within the Redevelopment Project Area which will contribute to the health, safety and general welfare of

the City, and preserve or enhance the value of properties adjacent to the Redevelopment Project Area.

-- Provide an increased real estate tax base for the City and other taxing districts extending into the Redevelopment Project Area.

Policies.

It is the policy of the City of Chicago to:

-- Foster the City's industrial base and to maintain the City's diversified economy for the general welfare of its citizens; and

-- Encourage industrial investment, modernization and expansion by providing for stable and predictable industrial environments.

4.

Conservation Area Conditions Existing In The Redevelopment Project Area.

The findings presented in this section are based on surveys and analysis conducted for the Redevelopment Project Area. As set forth in the "Act", "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50 percent or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area, but because of a combination of three or more of the following factors: dilapidation; obsolescence; deterioration; illegal use of individual structures; presence of structures below minimum code standards; abandonment; excessive vacancies; overcrowding of structures and community facilities; lack of ventilation, light or sanitary facilities; inadequate utilities; excessive land coverage; deleterious land use or layout; depreciation of physical maintenance; or lack of community planning, is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area.

While it may be concluded that the mere presence of three or more of the stated factors may be sufficient to make a finding as a conservation area, the evaluation of this report identifies all existing conservation factors so that reasonable persons can conclude not only that statutory compliance exists, but that public intervention is appropriate and necessary.

On the basis of this approach, the Redevelopment Project Area is eligible as a "conservation area" within the requirements of the Act. The

Redevelopment Project Area contains five buildings. Four buildings are located on the Nabisco Facility, and one building is located on the Rheem Property. Of the five buildings, three, or 60 percent, are 35 years or older. In addition to age, eight of the fourteen qualifying factors required under the Act are present in the Redevelopment Project Area. These factors are reasonably distributed throughout the entire Redevelopment Project Area. The entire Redevelopment Project Area is impacted by and shows the presence of these conservation factors. Finally, the Redevelopment Project Area includes only real property and improvements substantially benefited by the proposed redevelopment project improvements.

The factors described below and shown in Figure 2, Summary of Conservation Area Factors, are present in the area.

1. Obsolescence.

   Obsolescence is present to a major extent. Conditions contributing to this factor include the functional and economic obsolescence of existing single-purpose buildings in the Nabisco Facility and the Rheem Property and the inadequate provision for access, off-street parking and loading.

2. Deterioration.

   Deterioration is present to a major extent and includes deterioration of building components, parking areas, site surface areas and perimeter fencing.

3. Excessive Vacancies.

   Excessive vacancies are present to a major extent. The entire Rheem Property is vacant.

4. Overcrowding Of Structures And Community Facilities.

   Overcrowding of structures is present to a major extent within the Nabisco Facility.

5. Structures Below Minimum Code.

   The structures on the Rheem Property and their building components are below the minimum legal requirements established by the laws, ordinances and regulations of the City.

6. Excessive Land Coverage.

Excessive land coverage is present to a major extent. The Nabisco Facility occupies over 75 percent of the land site, resulting in limited and confined off-street parking, inadequate service and loading facilities, a single point access and egress from the site, and excessive travel distances from remote parking areas to building entrance areas.

7. Depreciation Of Physical Maintenance.

Depreciation of physical maintenance is present to a major extent and includes substantial deferred maintenance on the entire building on the Rheem Property. A limited condition of deferred maintenance exists in parking and related storage and loading surface areas, perimeter fencing and site improvements on the Nabisco Facility.

8. Lack Of Community Planning.

Lack of community planning is present to a limited extent. The Redevelopment Project Area was developed without the benefit or guidance of a community plan with reasonable policies and standards for building setbacks, the location and arrangement of off-street parking, and for buffering/screening of industrial uses from adjacent residential areas.

The analysis above is based upon surveys and analyses conducted by Trkla, Pettigrew, Allen & Payne, Inc.. The surveys and analyses conducted include:

1. Exterior survey of the condition and use of both industrial complexes;

2. Field survey of environmental conditions covering streets, sidewalks, curbs and gutters, lighting, traffic, parking facilities, landscaping, fences and walls, and general property maintenance;

3. Analysis of the existing use of the Redevelopment Project Area and its relationship to its surroundings;

4. Comparison of current land use to the current zoning ordinance and the current zoning map;

5. Analysis of original and current platting and building size and layout;

6. Analysis of vacant portions of the site and buildings;

7. Analysis of building floor area and site coverage; and

8. Review of previously prepared plans, studies and data.

5.

73rd And Kedzie Tax Increment Financing Redevelopment Project.

This section presents the overall program to be undertaken by the City of Chicago or by private parties acting under redevelopment agreements with the City. It includes a description of redevelopment plan and project objectives, a description of redevelopment activities, a general land-use plan, estimated redevelopment project costs, a description of sources of funds to pay redevelopment project costs, a description of obligations that may be issued, identification of the most recent equalized assessed valuation of properties in the Redevelopment Project Area, and an estimate of anticipated equalized assessed valuation.

In the event the City determines that implementation of certain activities or improvements is not feasible, the City may reduce the scope of the overall program and Redevelopment Project.

Redevelopment Objectives.

-- Reduce or eliminate those conditions which qualify the Redevelopment Project Area as a conservation area. Section 4 of this Redevelopment Plan, Conservation Area Conditions Existing in the Redevelopment Project Area, describes existing conservation conditions.

-- Strengthen the economic well-being of the Redevelopment Project Area and the City by increasing business activity, taxable values and job opportunities.

-- Assemble land into parcels functionally adaptable with respect to shape and size for disposition and redevelopment in accordance with contemporary development needs and standards.

-- Create an environment which stimulates private investment in new construction, expansion and rehabilitation.

-- Achieve development which is integrated both functionally and aesthetically with nearby existing development, and which contains a complementary mix of uses.

-- Encourage a high quality appearance of buildings, rights-of-way and open spaces as well as high standards of design.

-- Provide sites for needed public improvements or facilities in proper relationship to the projected demand for and in accordance with accepted design criteria for such facilities.

-- Provide needed incentives to encourage a broad range of improvements in both rehabilitation and new development efforts.

-- Encourage the participation of minorities and women in professional and investment opportunities involved in the development of the Redevelopment Project Area.

-- Implement and achieve the Redevelopment Project Area Goals and Policies as set forth in Section 3 of this Redevelopment Plan.

Redevelopment Plan And Project Activities.

The City proposes to achieve its redevelopment goals, policies and objectives for the Redevelopment Project through public financing techniques, including tax increment financing, and by undertaking some or all of the following actions:

1. Property Acquisition, Site Preparation, Demolition And Redevelopment.

   Property acquisition and land assembly by the private sector for redevelopment in accordance with this Redevelopment Plan will be encouraged. To achieve the renewal of the Redevelopment Project Area, property identified in Development Program, Figure 3, attached hereto and made a part hereof, may be acquired by purchase, exchange or long-term lease by the City of Chicago and cleared of all improvements and either (a) sold or leased for private redevelopment, or (b) sold, leased or dedicated for construction of public improvements or recreational facilities.

The City may determine that to meet the goals, policies or objectives of this Redevelopment Plan property may be acquired where: (a) the current use of the property is not permitted under this Redevelopment Plan; (b) the exclusion of the property from acquisition would have a detrimental effect on the disposition and development of adjacent and nearby property; or (c) the owner or owners are unwilling or unable to conform the property to the land-use and development objectives of this Redevelopment Plan. Further, the City may require written redevelopment agreements with developers before acquiring any properties.

Clearance and demolition activities will, to the greatest extent possible, be timed to coincide with redevelopment activities so that tracts of land do not remain vacant for extended periods and so that the adverse effects of clearance activities may be minimized. Clearance and demolition activities will include demolition of buildings, environmental remediation, removal of old foundations, excavation and removal of soil and other materials to create suitable sites for new development, and provision of storm drainage.

As an incidental but necessary part of the redevelopment process, the City may devote property which it has acquired to temporary uses until such property is scheduled for disposition and redevelopment.

2. Rehabilitation Of Existing Buildings And Fixtures.

The existing Nabisco Facility is in need of rehabilitation, modernization and expansion in order to overcome existing obsolescence and to maintain its competitive position in the food industry. Rehabilitation includes upgrading all building systems, including electrical, plumbing, utility, mechanical, ventilation and H.V.A.C.; and repair of all building components, including roof, walls, windows, floors, etc..

3. Provision Of Public Improvements.

Adequate public improvements and facilities will be provided to service the entire Redevelopment Project Area. Public improvements and facilities may include, but are not limited to, the following:

A. Utilities.

Adjustments and modifications to utility lines as may be necessary to facilitate and serve redevelopment in accordance with the objectives and provisions of this Redevelopment Plan.

B. Streets And Public Rights-Of-Way.

The resurfacing, widening, reconstruction, closing, removal and other improvements of streets and other public rights-of-way.

C. Landscape.

Landscape/buffer improvements, street lighting and general beautification improvements.

4. Environmental Remediation.

Redevelopment of the Redevelopment Project Area necessitates several actions which pertain to environmental remediation on the Rheem Property. These include, but are not limited to, the removal of asbestos from the Rheem facility, clean-up of the Rheem site, and removal and off-site disposal of special wastes and other pit contents.

5. Job Training And Related Educational Programs.

A range of programs designed to increase the skills of existing employees will be implemented. Other programs will be created for future employees so that they can take advantage of the employment opportunities within the Redevelopment Project Area.

6. Analysis, Administration, Studies, Surveys, Legal, Et Al.

Activities include the long-term management of the T.I.F. Program as well as the costs of establishing the program and designing its components.

7. Redevelopment Agreements.

Land assemblage which may be by purchase, exchange, donation, lease, or eminent domain shall be conducted for (a) sale, lease or conveyance to private developers, or (b) sale, lease, conveyance or dedication for the construction of public improvements or facilities. Terms of conveyance shall be incorporated in appropriate disposition agreements which may contain more specific controls than those stated in this Redevelopment Plan.

General Land-Use Plan.

Figure 4, Land-Use Plan, attached hereto and made a part hereof, identifies land uses and public rights-of-way to be in effect upon adoption of this Redevelopment Plan. The major land use category included within the Redevelopment Project Area is industrial.

The Redevelopment Plan and the Redevelopment Project conform to the 1966 comprehensive plan for development of the City of Chicago. Further, the Redevelopment Plan and Redevelopment Project are consistent with, and are established pursuant to implementation of, general municipal development objectives and policies contained in development plans previously adopted by the City of Chicago and the Chicago Zoning Ordinance. The Nabisco and Rheem Properties are zoned as General Manufacturing Districts (M2-3 and M2-2, respectively), except for the Rheem Property immediately north of 77th Street, which is zoned M1-1 Restricted Manufacturing District.

All major thoroughfares and street rights-of-way are shown on the Land-Use Plan Map. Their locations are subject to modification.

The Land-Use Plan as designated in Figure 4 provides a guide for future land-use improvements and developments within the Redevelopment Project Area. It conforms to the Chicago Zoning Ordinance, which is cited below.

The following uses are permitted, inclusive, provided that within 300 feet of a Residence District all business, servicing, or processing shall take place within completely enclosed buildings, unless otherwise indicated and except for automated teller machines and off-street parking and loading. Within 300 feet of a Residence District, all storage, except of motor vehicles, shall be within completely enclosed buildings, or may be located out-of-doors if it is effectively screened by a solid wall or fence (including solid entrance and exit gates) at least eight feet in height:

1. Any production, processing, cleaning, servicing, testing, repair or storage of materials, goods or products which shall

not be injurious or offensive to the occupants of adjacent premises by reason of the emission or creation of noise, vibration, smoke, dust or other particulate matter, toxic and noxious materials, odors, fire or explosive hazards, or glare or heat.

2. Other compatible uses as defined in the Chicago Zoning Ordinance and approved by the City.

Special uses, performance standards, and use and bulk regulations as set forth in the Chicago Zoning Ordinance are applicable to development within the Redevelopment Project Area.

Estimated Redevelopment Project Costs.

Redevelopment project costs mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to this Redevelopment Plan pursuant to the Act. Such costs include the following:

1. Costs of studies, surveys, development of plans and specifications, implementation and administration of the redevelopment plan, including but not limited to staff and professional service costs for architectural, engineering, legal, marketing, financial, planning or other services (provided, however, that no charges for professional services may be based on a percentage of the tax increment collected).

2. Property assembly costs, including but not limited to, acquisition of real or personal property, or rights or interests therein, demolition of buildings, and the clearing and grading of land.

3. Costs of rehabilitation, reconstruction, repair or remodeling of existing public and private buildings and fixtures.

4. Costs of the construction of public works or improvements.

5. Costs of job training and retraining projects.

6. Financing costs, including but not limited to, all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for a period not exceeding 36 months thereafter, including reasonable related reserves.

7. All or a portion of a taxing district's capital costs resulting from the redevelopment project and incurred in furtherance of the redevelopment plan and project, to the extent a municipality by written agreement accepts and approves such costs.

8. Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or state law.

9. Payment in lieu of taxes.

10. Costs of job training, vocational education or career education, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing authority or taxing districts other than the municipality, are set forth in a written agreement among the municipality and the taxing authority or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement.

11. Interest costs incurred by a developer related to the construction, renovation or rehabilitation of a redevelopment project, provided that:

    a. Such costs are to be paid directly from the special tax allocation fund (the fund into which the incremental tax proceeds are deposited as pursuant to the Act);

    b. Such payments in any one year may not exceed 30 percent of the annual interest costs incurred by the developer with regard to the redevelopment project during that year;

    c. If there are not sufficient funds available in the special tax allocation fund to make such payments, then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund; and

    d. The total of such interest payments paid pursuant to this Act may not exceed 30 percent of the total (A) costs paid

or incurred by the developer for such redevelopment project plus (B) redevelopment project costs, including any property assembly costs and any relocation costs, incurred by a municipality pursuant to this Act.

A range of activities and improvements will be required to implement the tax increment redevelopment project. The necessary improvements and their costs are shown in Table 1, Estimated Redevelopment Project Costs. To the extent that the City has incurred costs, or municipal obligations have been issued to pay for such redevelopment project costs in anticipation of the adoption of tax increment financing, the City shall be reimbursed from real estate tax increment revenues for such redevelopment costs. The total redevelopment project costs are intended to provide an upper limit on expenditures. Within this limit, adjustments may be made in line items without amendment of this Redevelopment Plan. Additional funding in the form of state and federal grants, and private developer contributions will be pursued by the City as a means of financing improvements and facilities which are of a general community benefit.

Table 1.

73rd And Kedzie Redevelopment Program
Estimated Redevelopment Project Costs.

Program Action/Improvement:

Property Acquisition	$ 3,500,000
Rehabilitation of Existing Buildings	63,342,000
Street and Utility Improvements	3,000,000
Environmental Remediation	2,077,000

Job Training and Related Educational Programs	$ 1,000,000
Analysis, Studies, Surveys, Legal, et al.	750,000
GROSS PROJECT COST:	$73,669,000*

Sources Of Funds To Pay Redevelopment Project Costs.

Funds necessary to pay for redevelopment project costs and municipal obligations which have been issued to pay for such costs are to be derived principally from tax increment revenues and proceeds from municipal obligations which have as their revenue source tax increment revenue. To secure the issuance of these obligations, the City may permit the utilization of guarantees, deposits and other forms of security made available by private sector developers.

The tax increment revenue which will be used to fund tax increment obligations and redevelopment project costs shall be the incremental real property tax revenue. Incremental real property tax revenue is attributable to the increase in the current E.A.V. of each taxable lot, block, tract or parcel of real property in the Redevelopment Project Area over and above the initial E.A.V. of each such property in the Redevelopment Project Area. Other sources of funds which may be used to pay for redevelopment costs and obligations issued, the proceeds of which are used to pay for such costs, are land disposition proceeds, state and federal grants, investment income, and such other sources of funds and revenues as the municipality may from time to time deem appropriate.

Issuance Of Obligations.

The City may issue obligations secured by the tax increment special tax allocation fund pursuant to Section 11-74.4-7 of the Act.

---

* Exclusive of capitalized interest, issuance cost, administrative cost, interest and other financing costs.

All obligations issued by the City pursuant to this Redevelopment Plan and the Act shall be retired within twenty-three (23) years from the adoption of the ordinance approving the Redevelopment Project Area, such ultimate retirement date occurring in the year 2016. Also, the final maturity date of any such obligations which are issued may not be later than twenty (20) years from their respective dates of issue. One or more series of obligations may be sold at one or more times in order to implement this Redevelopment Plan. The amounts payable in any year as principal of and interest on all obligations issued by the City pursuant to the Redevelopment Plan and the Act shall not exceed the amounts available, or projected to be available, from tax increment revenues and from such bond sinking funds or other sources of funds as may be provided by ordinance. Obligations may be of a parity or senior/junior lien natures. Obligations issued may be serial or term maturities, and may or may not be subject to mandatory sinking fund redemptions.

Revenues shall be used for the scheduled and/or early retirement of obligations, and for reserves, bond sinking funds and redevelopment project costs, and, to the extent that real property tax increment is not used for such purposes, may be declared surplus and shall then become available for distribution annually to taxing districts in the Redevelopment Project Area in the manner provided by the Act.

Most Recent Equalized Assessed Valuation Of Properties In The Redevelopment Project Area.

Table 2 lists the most recent proposed 1992 equalized assessed valuation of property in the Redevelopment Project Area. The total estimated equalized assessed valuation for the Redevelopment Project Area is $13,760,845.

Anticipated Equalized Assessed Valuation.

In Year 1999 (collection Year 2000) when all improvements are completed, the estimated equalized assessed valuation of real property in the Redevelopment Project Area is estimated at $39,860,915. This estimate is based on several key assumptions, including: (1) redevelopment for the uses specified in this Redevelopment Plan will occur in a timely manner; (2) the market value of the recommended industrial development will increase following completion of the redevelopment activities described in the Redevelopment Plan; and (3) the four-year average for the State Multiplier of 1.9717 as applied to 1992 assessed values will remain unchanged.

Table 2.

Summary Of Proposed 1992 Equalized Assessed Valuations.

Block Number	Equalized Assessed Value
Existing Rheem Property (19-26-218-005)	$ 2,502,714
Existing Nabisco Property (19-26-405-001)	11,258,131
TOTAL:	$13,760,845

This figure is subject to final verification. Initial E.A.V. is estimated to be $13,760,845. After verification, the correct figures shall be certified to by the County Clerk of Cook County, Illinois.

6.

Phasing And Scheduling Of Redevelopment Project.

A phased implementation strategy will be utilized to achieve a timely and orderly redevelopment of the project area.

It is anticipated that City expenditures for redevelopment project costs will be carefully staged on a reasonable and proportional basis to coincide with expenditures in redevelopment by private developers.

7.

Provisions For Amending This Redevelopment.

This 73rd and Kedzie Tax Increment Redevelopment Plan and Project may be amended pursuant to the provisions of the Act.

8.

Affirmative Action Plan.

The City is committed to and will affirmatively implement the following principles with respect to the 73rd and Kedzie Tax Increment Redevelopment Plan and Project:

A. The assurance of equal opportunity in all personnel and employment actions with respect to the Plan and Project, including, but not limited to: hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, termination, etc., without regard to race, color, religion, sex, age, handicapped status, national origin, creed or ancestry.

B. This commitment to affirmative action will ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.

In order to implement these principles for this Plan and Project, the City shall require and promote equal employment practices and affirmative action on the part of itself and its contractors and vendors. In particular, parties contracting for work on the Project shall be required to agree to the principles set forth in this section.

9.

Growth And Development Through Private Development.

The Redevelopment Project Area is composed of the Rheem Property and the Nabisco Facility. The conditions described in Section 4 indicate that the Rheem Property has not been subject to growth and development through investment by private enterprise. This is underscored by the fact that no investment in the property has occurred in the last three years because the Rheem Property has been vacant in that period of time. As also described in Section 4, the Nabisco Facility is subject to similar conditions which have retarded investment which would create growth and development. Nabisco has expended only those funds necessary to maintain the existing level of production. The commitment of the tax increment financing described in this Redevelopment Plan is necessary before Nabisco will make the planned investment which will include new production and product capacity.

10.

Financial Impact Of The Redevelopment Project.

The Redevelopment Project will have a positive financial impact on the taxing districts affected by this Redevelopment Plan. The positive effect is clear for the Rheem Property. Its vacant condition for the past 3 years has resulted in substantial physical deterioration, and the lack of interested buyers in that period evidences an extremely limited market. Perhaps Nabisco is the only buyer for the property. In the absence of Nabisco's purchase and planned demolition and construction on the Rheem Property, no other viable use appears to exist. In the absence of the Redevelopment Project, continuing physical deterioration will result in a decline of assessed value of the property which will erode all taxing districts' tax revenues from the property. Moreover, vacant and deteriorating buildings and site conditions at this location will negatively impact on other adjacent and nearby property. The benefit provided by the Nabisco Facility is not as dramatic, but may be more significant in scale. The implementation of the Redevelopment Project permits Nabisco to move from a passive position of maintenance to a substantial investment in an extensively modernized and expanded facility. Without such a commitment, there is a real prospect that the Nabisco Facility will become a less efficient producer of baked goods, and in the loss of such competitiveness lose production to Nabisco bakeries in other parts of the country. Eventually, this could result in the closing of the plant. The possibility of the erosion of assessed value which would result from such an act is eliminated and a substantial increase in assessed value will result from the implementation of the Redevelopment Project. In each case, the taxing districts are benefited because the initial assessed value is stabilized, thereby assuring the taxing districts of the existing equalized assessment level as a basis for real estate tax revenue. In addition, once the time period that the real estate increment is committed expires, the taxing districts will receive the substantial enhancement of revenues which results from the improvements on both properties.

11.

Demand On Taxing District Services.

As manufacturing facilities, neither the Rheem Property nor the Nabisco Facility should create any increased demand for services on the taxing districts. These districts are Chicago School Finance Authority, Chicago Park District, Board of Education, City of Chicago, City of Chicago Library Fund, Chicago Community College District 508, Metropolitan Water Reclamation District of Greater Chicago, Forest Preserve District of Cook

County, County of Cook and Cook County Health Facilities. The only districts that may be affected are the Metropolitan Water Reclamation District of Greater Chicago and Cook County Health Facilities. Since all water discharged by facilities in the Redevelopment Project Area is treated to meet existing standards established by the Metropolitan Water Reclamation District of Greater Chicago and no additional facilities are required, there should be no impact upon its services. The Cook County Health Facilities may be subject to lowered demands because the demolition of hazardous improvements and remediation of environmental hazards on the Rheem Property will materially improve the general safety and health of the public. The modernization of the Nabisco Facility, which includes the creation of new locker, restroom and food service facilities may enhance the health of the Nabisco employees and thereby reduce demand for county health services. Since there does not appear to be any reasonable prospect of adverse financial impact or increased demand on the services of the affected tax districts, no programs are currently proposed.

Section 10.

Employment Opportunity.

Developer and its successors and assigns hereby agree, and shall

scontractually obligate and cause its or their General Contractor, ubcontractors or any Affiliate of Developer operating on the Property (individually an "Employer" and collectively, "Employers") to agree, that for the Term of this Agreement with respect to Developer and during the period of any other such party's provision of services hereunder or occupation of the Property:

(a) No Employer shall discriminate against any employee or applicant for employment on the basis of race, color, sex, age, religion, mental or physical disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status or source of income, as defined in the City of Chicago Human Rights Ordinance adopted December 21, 1988, Municipal Code of Chicago, Ch. 2-160, Section 2-160-010, et seq., as amended from time to time (the "Human Rights Ordinance"). Each Employer will take affirmative action to insure that applicants are employed and employees are treated during employment without regard to their race, color, religion, sex, national origin, ancestry, age, mental or physical disability, sexual orientation, marital status, parental status, military discharge status or source of income. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation and selection for training, including apprenticeship. Each Employer agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by City setting forth the provisions of this nondiscrimination clause.

(b) To the greatest extent reasonably feasible, each Employer shall create training and employment opportunities for the benefit of low- and moderate-income residents of the Redevelopment Area. Moreover, to the greatest extent reasonably possible, contracts for work performed in connection with the Project shall be awarded by Employer to business concerns located in, or owned in substantial part by persons residing in, the Redevelopment Area.

(c) All solicitation or advertisement for employees placed by or on behalf of any Employer shall state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, ancestry, age, mental or physical disability, sexual orientation, marital status, parental status, military discharge status or source of income.

(d) Each Employer shall make a good faith effort to hire City residents for any temporary or permanent job vacancies created by the construction, development or use of the Facilities. Developer shall submit reports to D.P.D. from time to time detailing its compliance with this provision within thirty (30) days after receipt of a written request from D.P.D. with respect thereto.

(e) Each Employer shall comply with federal, state and local equal employment and affirmative action statutes, rules and regulations, including but not limited to the Human Rights Ordinance and the Illinois Human Rights Act, 775 ILCS 5/1-101, et seq. (1992), and any subsequent amendments and regulations promulgated pursuant thereto.

(f) Developer shall expend at least the following percentages of the total Project Budget (minus Property acquisition costs and relocation expenses) for contract participation by M.B.E.s or W.B.E.s in the Project:

M.B.E. Percentage	W.B.E. Percentage
17.7%	4.8%

This commitment may be met by Developer's status as an M.B.E. or W.B.E., or by a joint venture with one or more M.B.E.s or W.B.E.s (to the extent of the M.B.E. or W.B.E. participation in such joint venture), by using an M.B.E. or W.B.E. as General Contractor, by subcontracting or causing the General Contractor to subcontract a portion of the work to one or more M.B.E.s or W.B.E.s, by the purchase of materials used in the Project from one or more M.B.E.s or W.B.E.s, or by the indirect participation of M.B.E.s or W.B.E.s in other aspects of Developer's business or by any combination of the foregoing. Those businesses that constitute both an M.B.E. and W.B.E. shall not be credited more than once against Developer's M.B.E. or W.B.E. commitment. Developer may meet all or part of this commitment through credits received pursuant to Section 2-92-530 of the Municipal Code of Chicago for the voluntary use of M.B.E.s or W.B.E.s in its activities and operations other than the Project. City may require Developer to demonstrate the specific efforts undertaken to involve M.B.E.s and W.B.E.s directly in the Project. Upon the written request of D.P.D., periodic reports shall be made by Developer to D.P.D. on all efforts made to achieve compliance with the foregoing provisions. City maintains the right to modify, delete, alter or change the provisions of this Section 12 so long as such action does not, without Developer's prior written consent, increase the requirements set forth in this Section 12 beyond that which is reasonably customary at such time.

Section 13.

Developer agrees to indemnify, defend and hold City harmless from and against any losses, costs, damages, liabilities, claims, suits, actions, causes of action and expenses (including without limitation, reasonable attorneys' fees and court costs) suffered or incurred by City arising from or in connection with (i) Developer's failure to comply with any of the terms, covenants and conditions contained within this Agreement, or (ii) Developer's or any contractor's failure to pay General Contractors, subcontractors or materialmen in connection with the T.I.F.-Funded Improvements or any other Project improvement, or (iii) the existence of any material misrepresentation or omission in any offering memorandum or the Redevelopment Plan or any other document related to this Agreement that is the result of information supplied or omitted by Developer or its agents, employees, contractors or persons acting under the control or at the request of Developer or (iv) Developer's failure to cure any misrepresentation in this Agreement or any other agreement relating hereto.

Developer shall incorporate this right to inspect, copy, audit and examine all books and records into all contracts entered into by Developer with respect to the Project.

14.02 Inspection Rights.

Any authorized representative of City shall have access to all portions of the Project and the Property during normal business hours for the Term of the Agreement.

Section 15.

Default And Remedies.

The occurrence of any one or more of the following events, subject to the provisions of Section 15.03, shall constitute an "Event of Default" by Developer hereunder:

(b) Intentionally Omitted.

(c) the failure of Developer to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of Developer under any other agreement with any person or entity if such failure may have a material adverse effect on Developer's business, property, assets, operations or condition, financial or otherwise;

(d) the making or furnishing by Developer to City of any representation, warranty, certificate, schedule, report or other communication within or in connection with this Agreement or any related agreement which is untrue or misleading in any material respect;

(e) except as otherwise permitted hereunder, the creation (whether voluntary or involuntary) of, or any attempt to create, any lien or other encumbrance upon the Property, including any fixtures now or hereafter attached thereto (other than the Permitted Liens or liens created in connection with the financing of equipment and/or machinery used in connection with Developer's business), or the making or any attempt to make any levy, seizure or attachment thereof;

(f) the commencement of any proceedings in bankruptcy by or against Developer or for the liquidation or reorganization of Developer, or alleging that such Developer is insolvent or unable to pay its debts as they mature, or for the readjustment or arrangement of Developer's debts, whether under the United States Bankruptcy Code or under any other state or federal law, now or hereafter existing for the relief of debtors, or the commencement of any analogous statutory or non-statutory proceedings involving Developer; provided, however, that if such commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such proceedings are not dismissed within thirty (30) days after the commencement of such proceedings;

(g) the appointment of a receiver or trustee for Developer, for any substantial part of Developer's assets or the institution of any proceedings for the dissolution, or the full or partial liquidation, or the merger or consolidation, of Developer; provided, however, that if such appointment or commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such appointment is not revoked or such proceedings are not dismissed within thirty (30) days after the commencement thereof;

(j) the institution in any court of a criminal proceeding other than a misdemeanor against Developer or any natural person who owns a material interest in Culinary, which is not dismissed within thirty (30) days, or the indictment of Developer or any natural person who owns a material interest in Culinary, for any crime.

For purposes of Sections 15.01(i) and 15.01(j) hereof, a person with a material interest in Culinary shall be one owning in excess of thirty-three percent (33%) of Culinary's issued and outstanding shares of stock.

15.02 Remedies.

Upon the occurrence of an Event of Default, City may terminate this Agreement and all related agreements, and may suspend disbursement of the City Funds. City may, in any court of competent jurisdiction by any action or proceeding at law or in equity, secure the specific performance of the agreements contained herein.

15.03 Curative Period.

In the event Developer shall fail to perform a covenant which Developer is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have occurred unless Developer shall have failed to cure such default within sixty (60) days of its receipt of a written notice from City specifying the nature of the default; provided, however, with respect to those defaults which are not capable of being cured within such sixty (60) day period, Developer shall not be deemed to have committed an Event of Default under this Agreement if it has commenced to cure the alleged default within such sixty (60) day period and thereafter diligently and continuously prosecutes the cure of such default until the same has been cured.

Section 16.

Mortgaging Of The Project.

All mortgages currently in place with respect to the Project are listed on (Sub)Exhibit L hereto, including mortgages made in connection with Lender Financing. In the event that Developer shall hereafter elect to execute and record or permit to be recorded against the Property or any portion thereof, a mortgage(s) or deed(s) of trust (any such mortgage or deed of trust being hereinafter referred to as the "Mortgage" and the holder of the same being hereinafter referred to as the "Mortgagee"), then it is hereby agreed by and between City and Developer as follows:

(b) In the event that the Mortgagee or any other party shall succeed to the Developer's interest in the Property pursuant to the exercise of

remedies under a Mortgage, whether by foreclosure, deed in lieu of foreclosure, or otherwise, and in conjunction therewith accepts an assignment of Developer's interest hereunder in accordance with Section 18.16 hereof, City hereby agrees to attorn to and recognize such party as the successor in interest to Developer for all purposes under this Agreement so long as such party accepts all of the obligations and liabilities of "Developer" hereunder; provided, however, that, notwithstanding any other provision of this Agreement to the contrary, it is understood and agreed that if such party accepts an assignment of Developer's interest under this Agreement, such party shall have no liability under this Agreement for any Event of Default of Developer which accrued prior to the time such party succeeded to the interest of Developer under this Agreement, in which case Developer shall be solely responsible. However, if such Mortgagee or other party succeeding to the Developer's interest in the Property does not expressly accept an assignment of Developer's interest hereunder, such party shall be bound only by those provisions of this Agreement, if any, which are covenants expressly running with the land.

Redevelopment Plan

City Of Chicago

Stockyards Industrial-Commercial Redevelopment Area

Tax Increment Finance Program

Redevelopment Plan

December, 1988

Eugene Sawyer
Acting Mayor.

I.

Introduction.

One of the most historically significant of Chicago's many diverse neighborhoods is the Back of the Yards, located on the City's southwest side. This area was world renowned as the center of the nation's meat packing industry in the early part of the 20th Century. In order to accommodate the meat packing industry, numerous train lines served the stockyards packing area, primarily in the square mile between 39th Street and 47th Street, from Halsted Street to Ashland Avenue (known as the Union Stockyards). The area, once a port of entry for immigrants, offered a wide variety of retail services and employment opportunities. With the closing of the Stockyards due to the movement of meat packing industry to more western states in the second half of the 20th Century, the area gradually declined as economic and consumer patterns changed. The buildings left by the packers became functionally and economically obsolete and most began to deteriorate.

At the same time, the advent of regional and strip shopping centers changed consumer shopping patterns and brought decline to the two primary shopping streets, 47th Street and Ashland Avenue.

While there has been a general decline in the economic strength of the Back of the Yards area, it possesses several strong elements which have helped to maintain a level of economic vitality through the years of decline, and provide a base for revitalization.

Chief among these is the redevelopment of the Stockyards meat packing center as a major modern industrial park. The industrial park, developed with assistance of the Back of the Yards Neighborhood Council, the City of Chicago and the United States Department of Commerce -- Economic Development Administration, the United States Department of Housing and Urban Development and various other federal agencies has created over 100 new businesses employing in excess of 7,000 persons. The industrial park is now nearly filled, and the only nearby vacant area which can be developed lacks cleared land, roadways and utilities.

However, the Back of the Yards area does have extensive vacant, under-utilized and blighted areas available for development for both commercial and industrial use. This land has not been developed in the past because of: (1) soil problems; (2) environmental issues; (3) toxic waste; (4) building abandonment; (5) lack of public infrastructure; and (6) deterioration and blight of existing structures.

To assist in the development of new industrial and commercial centers within the Back of the Yards area, various agencies have joined together. The lead organization in this strategy is the Back of the Yards Neighborhood Council ("B.Y.N.C.") a not-for-profit group composed of all sectors of the community, which has worked along with the City of Chicago Department of Economic Development, the Economic Development Commission of Chicago and neighborhood businesses and residents, in developing a framework to guide and direct the revitalization of the Stockyards Industrial-Commercial Redevelopment Area. In developing the framework, a consensus building approach was adopted by the Back of the Yards Neighborhood Council. While there has been development in the Back of the Yards area by the private sector, much of the remaining land which can be put to productive use needs substantial investment of public funds in order to achieve such productive development.

Tax Increment Allocation Redevelopment Act.

An analysis of conditions within this area indicates that it is appropriate for designation as a redevelopment project, utilizing the State of Illinois tax increment financing legislation. The area is characterized by conditions which warrant its designation as a "blighted area" within the definitions set forth in the Tax Increment Allocation Redevelopment Act (hereinafter

referred to as the "Act"). The Act is found in the Illinois Revised Statutes, Chapter 24, Section 11-74.4-1, et seq., as amended.

The Act provides a means for municipalities, after the approval of a "Redevelopment Plan and Project", to redevelop blighted areas by pledging the increase in tax revenues generated by public and private redevelopment in order to pay for the up front public costs which are required to stimulate such private investment in new redevelopment and rehabilitation. Municipalities may issue obligations to be repaid from the stream of real property tax increments that occur within the tax increment financing district.

The property tax increment revenue is calculated by determining the difference between the initial equalized assessed value (the certified E.A.V. base) for all real estate located within the district and the current year E.A.V. Any increase in E.A.V. is then multiplied by the current tax rate, which determines the incremental real property tax.

The Stockyards Industrial-Commercial Redevelopment Area Project and Plan (hereafter referred to as the "Redevelopment Plan") has been formulated in accordance with the provisions of the Act. It is a guide to all proposed public and private action in the Redevelopment Project Area. In addition to describing the objectives of redevelopment, the Redevelopment Plan sets forth the overall program to be undertaken to accomplish these objectives. This program is the "Redevelopment Project".

This Redevelopment Plan also specifically describes the Stockyards Industrial-Commercial Tax Increment Redevelopment Project Area (hereafter referred to as the "Redevelopment Project Area"). This area meets the eligibility requirement of the Act. The Redevelopment Project Area boundaries are described in Section II of the Redevelopment Plan and shown in Map 1, Boundary Map.

After its approval of the Redevelopment Plan, the City Council then formally designates the Redevelopment Project Area.

The purpose of this Redevelopment Plan is to ensure that new development occurs:

1. On a coordinated rather than a piecemeal basis to ensure that the land-use, vehicular access, parking, service and urban design systems will meet modern-day principles and standards.

2. On a reasonable, comprehensive and integrated basis to ensure that blighting factors are eliminated.

3. Within a reasonable and defined time period.

Revitalization of the Redevelopment Project Area is a large and complex undertaking and presents challenges and opportunities commensurate to its scale. The success of this effort will depend to a large extent on the cooperation between the private sector and agencies of local government. The adoption of the Redevelopment Plan makes possible the implementation of a logical program to stimulate redevelopment in the Redevelopment Project Area -- an area which cannot reasonably be anticipated to be developed without the adoption of this Redevelopment Plan. Public investments will create the appropriate environment to attract the investment required for the rebuilding of the area.

Successful implementation of the Redevelopment Plan and Project requires that the City of Chicago take full advantage of the real estate tax increments attributed to the Redevelopment Project as provided in accordance with the Act. The Redevelopment Project Area would not reasonably be developed without the use of such incremental revenues.

II.

Redevelopment Project Area And Legal Description.

The Stockyards Industrial-Commercial Redevelopment Area is located on the southwest side of the City of Chicago and is generally described as beginning at the northwest corner of 47th Street and Damen Avenue and includes the area between 47th Street and the Baltimore & Ohio (B. & O.) Railroad tracks; proceeding east to Wolcott Street north of 46th Street; then proceeding north between Wolcott Street and the spur line immediately to the west of Wolcott Street; then north of 43rd Street encompassing the area between Wolcott Street extended and the B. & O. tracks to 42nd Street extended; then proceeding between 42nd Street extended and the north end of the Conrail property approximately 700 feet north of the Conrail rights-of-way from the B. & O. track to Hermitage Avenue extended; then between Hermitage Avenue and Ashland Avenue between the north edge of the Conrail property and the property line approximately 700 feet north of 42nd Street, from this point across Ashland Avenue; then south to 43rd Street and east to Racine Avenue, including the property north of West 43rd Street and west of Racine Avenue to 39th Street, excepting the property fronting along 39th Street from Ashland Avenue to Loomis Street extended and the property between Racine Avenue and the spur lines immediately to the west of Racine Avenue between 39th Street and Exchange Avenue extended. III.

Redevelopment Project Area Goals And Objectives.

Investment in new development and reinvestment in existing structures and facilities are essential in the Stockyards Industrial-Commercial Redevelopment Area. Redevelopment and conservation efforts in the Redevelopment Project Area will strengthen the entire City through environmental improvements, an increased tax base and additional employment opportunities.

This section of the Redevelopment Plan identifies the goals and objectives of the Redevelopment Project Area. A latter section of the Redevelopment Plan identifies more specific programs which the City plans to undertake in achieving the redevelopment goals and objectives which have been identified.

General Goals:

-- Improve the quality of life in Chicago by eliminating the influence of, as well as the manifestations of, both physical and economic blight in the Redevelopment Project Area.

-- Provide sound economic development in the Redevelopment Project Area.

-- Revitalize the Redevelopment Project Area to make it an important center contributing to the revitalization of the Back of the Yards area.

-- Create an environment within the Redevelopment Project Area which will contribute to the health, safety and general welfare of the City and preserve or enhance the value of properties of the Back of the Yards area.

-- Create suitable locations for industry.

-- Create job opportunities.

-- Create new retail centers and the accompanying job opportunities.

Redevelopment Objectives:

-- Reduce or eliminate those conditions which qualify the Redevelopment Project Area as a Blighted Area. Section IV of this document, Blighted Area Conditions Existing in the Redevelopment Project Area, describes the blighting conditions.

-- Enhance the tax base of the City of Chicago and of the other taxing districts which extend into the Redevelopment Project Area by encouraging private investment in commercial and industrial new construction and rehabilitation.

-- Strengthen the economic well-being of the Redevelopment Project Area and the City by increasing business activity, taxable values and job opportunities.

-- Encourage the assembly of land into parcels functionally adaptable with respect to shape and size for redevelopment needs and standards.

-- Provide site for needed public improvements or facilities in proper relationship to the projected demand for such facilities and in accordance with accepted design criteria for such facilities.

-- Provide needed incentives to encourage a broad range of improvements in both new development and rehabilitation efforts.

-- Encourage the participation of minorities and women in professional and investment opportunities involved in the development of the Redevelopment Project Area.

Development And Design Objectives:

-- Establish a pattern of land use activities arranged in compact, compatible grouping to increase efficiency of operation and economic relationships.

-- Achieve development which is integrated both functionally and esthetically with nearby existing development.

-- Ensure safe and adequate circulation patterns and capacity in the project area.

-- Encourage coordinated development of parcels and structures in order to achieve efficient building design; unified off-street parking, trucking and service facilities and appropriate access to nearby highways.

-- Encourage a high-quality appearance of buildings, rights-of-way and open spaces and encourage high standards of design.

-- Encourage development of usable industrial space of all sizes.

IV.

Blighted Area Conditions Existing In The Redevelopment Project Area.

Based upon surveys, inspections and analysis of the area by Louik/Schneider & Associates, Incorporated and Trkla, Pettigrew, Allen & Payne, Incorporated, the Redevelopment Project Area qualifies as a "blighted area" as defined by the Act. The area is characterized by the presence of a combination of five or more blighting factors as listed in the Act, rendering the area detrimental to the public safety, health and welfare of the citizens of this area of the City. Specifically:

- Of the fourteen factors set forth in the law, eleven are present in the area.

- The blighting factors are reasonably distributed throughout the study area.

- All blocks within the study area show the presence of blighting factors.

A separate report entitled "Stockyards Industrial-Commercial Redevelopment Area Tax Increment Financing District Eligibility Report",

dated November, 1988 describes in detail the surveys and analysis undertaken and the basis for the finding that the Redevelopment Project Area qualifies as a "blighted area" as defined by the Act. Summarized below are the findings of the Eligibility Report:

1. Age.

Age as a factor is present to a major extent in seven of the seventeen blocks and to a limited extent in four blocks. Of the forty-six total buildings in the Redevelopment Area, twenty-nine (sixty-three percent) are thirty-five years of age or older.

2. Dilapidation.

Dilapidation is present to a major extent in one block containing two buildings and to a limited extent along twelve blocks containing poor and dilapidated street surface and storm drainage structures.

3. Obsolescence.

Obsolescence as a factor is present to a major extent in twelve of the seventeen blocks and to a limited extent in four other blocks. Conditions contributing to this factor include obsolete buildings and obsolete platting. Sixteen buildings and six blocks with small, narrow parcels are characterized by obsolescence.

4. Deterioration.

Deterioration as a factor is present to a major extent in seven blocks and to a limited extent in seven blocks of the Redevelopment Area. Conditions contributing to this factor include deteriorating structures, deteriorating off-street parking and storage areas and site surface areas and deteriorating street pavement, curbs, gutters and sidewalks. Twenty-six of the forty-six buildings are characterized by deterioration.

5. Structures Below Minimum Code Standards.

Structures below the City's minimum code standards for existing buildings as a factor is present to a major extent in six of the seventeen blocks and to a limited extent in two blocks.

6. Excessive Vacancies.

Excessive vacancies as a factor is present to a major extent in thirteen of the seventeen blocks. Three buildings are entirely vacant and over forty percent of the area contains vacant land.

7. Lack Of Ventilation, Light Or Sanitary Facilities.

One of the seventeen blocks exhibits almost total lack of lighting within the structures located within it. In addition the lack of light is also found in another block.

8. Inadequate Utilities.

Inadequate utilities are present to a major extent in fifteen of the seventeen block area. All blocks are impacted by obsolete and aging utility systems, deteriorating or missing storm sewers and drainage structures with only limited upgrading on sites where new development has occurred.

9. Deleterious Land-Use Or Layout.

Deleterious land-use or layout is present to a major extent in eleven blocks and to a limited extent in two blocks. Conditions contributing to this factor include parcels of irregular shape and limited size. Large tracts of vacant and under-utilized land, vacant and dilapidated structures and poor streets in deteriorated condition providing very limited access and interior circulation.

10. Depreciation Of Physical Maintenance.

Depreciation of physical maintenance is present to a major extent in nine blocks and to a limited extent in seven blocks. Conditions contributing to this factor include deferred maintenance and lack of maintenance of buildings, parking and storage areas and site improvements including streets, alleys, walks, curbs, gutters and utilities.

11. Lack Of Community Planning.

Lack of community planning is present to a major extent throughout all seventeen blocks of the study area. Conditions

contributing to this factor include parcels of inadequate size or irregular shape for contemporary development in accordance with current day needs and standards and the lack of reasonable development controls for building set-backs, off-street parking and loading and the limited access provided by the present street system in combination with the vacant inaccessible land areas. The area lacks an overall plan for coordinated development on a block by block basis. The entire Redevelopment Area exhibits this factor.

The vacant portions of the study area also qualifies as a "Blighted Area" as required by Chapter 24, Section 11-74.4-3(a) of the Illinois Revised Statutes. The following factors are present within the vacant land area:

(1) Unused Railroad Yards -- most of the central portion of the study area was used as railroad yards. Some active tracks remain, but the bulk of the yards have been abandoned.

(2) Unused Disposal Site -- the southwestern portion was utilized as a garbage dump in the early part of the century. Nearly all of the vacant land in the study area has been used for dumping of building debris recently.

The analysis above is based upon data assembled by the City of Chicago, Department of Economic Development. The Economic Development Commission of the City of Chicago, the Back of the Yards Neighborhood Council, Louik/Schneider & Associates, Incorporated and Trkla, Pettigrew, Allen and Payne, Incorporated. The surveys and analysis conducted include:

1. Exterior surveys of the condition and use of each building;

2. Field surveys of environmental conditions covering streets, sidewalks, curbs and gutters, lighting, traffic, parking facilities, landscaping, fences and walls, and general property maintenance;

3. Analysis of existing uses and their relationships;

4. Comparison of current land use to current zoning ordinance and the current zoning maps;

5. Historical analysis of site uses;

6. Analysis of original and current platting and building size layout;

7. Analysis of building floor area and site coverage; and

8. Review of previously prepared plans, studies and data.

V.

Stockyards Industrial-Commercial Redevelopment Project.

A. Redevelopment Project Area Goals And Objectives.

The City proposes to realize its goals and objectives of redevelopment through public finance techniques, including but not limited to tax increment financing and by undertaking some or all of the following actions:

1. Assemblage of Sites. To achieve the renewal of the Redevelopment Project Area, property identified in Map 2, Development Program attached hereto and made a part hereof, may be required by the City of Chicago and cleared of all improvements if any and either (a) sold or leased for private redevelopment, or (b) sold, leased or dedicated for construction of public improvements or facilities. The City may determine that to meet the renewal objectives of this Redevelopment Plan, other properties in the Redevelopment Project Area not scheduled for acquisition should be acquired, or certain property currently listed for acquisition should not be acquired. Acquisition of land for public rights-of-way will also be necessary for the portions of said rights-of-way that the City does not own (see Map 2).

   As a necessary part of the redevelopment process, the City may hold and secure property which it has acquired and place it in temporary use until such property is scheduled for disposition and redevelopment. Such use may include, but are not limited to, project office facilities, parking or other uses the City may deem appropriate.

2. Provision of Public Improvements and Facilities. Adequate public improvements and facilities will be provided to service the entire Redevelopment Project Area. Public improvements and facilities may include, but are not limited to:

   a. Construction of a more visually recognizable and attractive industrial park entrance to the northwest quadrant of the Stockyards at West 43rd Street and South Packers Avenue, including landscaping and signage.

b. Provision of utilities necessary to serve the redevelopment.

c. Construction of an interior system to efficiently and effectively serve the industrial park in the northwest quadrant of the Stockyards, including direct access to South Ashland Avenue.

d. Provision of access and utilities to portions of the former railroad yards in the Wolcott/Railroad subarea for industrial redevelopment purposes.

3. Provision for soil and site improvements for privately held properties for the purpose of making land suitable for development.

a. Entering into a redevelopment agreement for improvement to soil conditions and necessary site improvement at 47th Street and South Damen site, various railroad properties in the Wolcott/Railroad area, and various sites as may be required in the northwest quadrant of the Stockyards.

4. Redevelopment Agreements. Land assemblage shall be conducted for (a) sale, lease, or conveyance to private developers, or (b) sale, lease, conveyance or dedication for the construction of public improvements or facilities. Terms of conveyance shall be incorporated in appropriate disposition agreements which may contain more specific controls than those stated in the Redevelopment Plan.

In the event that the City determines that construction of certain improvements is not financially feasible, the City may reduce the scope of the proposed improvements.

B. Redevelopment Plan.

The proposed Stockyards Industrial-Commercial Redevelopment Project Area for the purposes of planning and programming of improvements has been divided into three subareas (see Map 2). These are: (1) the 47th Street and South Damen Commercial Redevelopment subarea; (2) the Wolcott/Railroad Industrial Redevelopment subarea; and (3) the northwest quadrant of the Stockyards Industrial Redevelopment subarea.

47th Street And South Damen Commercial Redevelopment Subarea.

This subarea designated for commercial redevelopment (see Map 4 Redevelopment Plan) will require the City and a developer to enter into a

redevelopment agreement upon approval by the City Council. The redevelopment agreement will generally provide for the City to provide funding for land acquisition and public improvements. The funds for such improvements are to come from the City's issuance of bonds to be repaid from the incremental increase in tax revenues to be generated from the entire Redevelopment Project Area. The developer will undertake the responsibility for the required soil and site improvements, and further will be required to build a retail shopping center containing approximately 240,000 square feet and the necessary support facilities, such as parking, landscaping and street improvements.

The project defined in this subarea of the Plan will be completed within 18 months of the signing of a redevelopment agreement. This commercial redevelopment will generate substantial incremental tax increases which will allow for the issuance of a bond for completion of other improvements in the first phase of public improvements.

Wolcott/Railroad Industrial Subarea.

This subarea, designated for industrial redevelopment, consists primarily of industrial properties along South Wolcott Avenue and railroad yards primarily north of 42nd Street. The subarea will require street improvements and new street construction, including water, sewer and lighting improvements primarily in the area between Wolcott and Damen Avenues north of 43rd Street with some additional improvements for a site located along the west side of Ashland Avenue north of the Conrail viaduct. Land acquisition will be required for the extension of Wolcott and Damen Avenues, and provision of a new right-of-way and new street construction.

In addition the City will need to enter into redevelopment agreements with private land owners to provide funding for soil and site improvements needed to make the land suitable for development. With the exception of street resurfacing along Wolcott Avenue, most of the improvements for this subarea will occur in the third phase of public improvements. The third phase of public improvements will be funded from the proceeds of bonds financed from the incremental increase in real estate taxes generated from redevelopment in the northwest quadrant of the Stockyards.

Northwest Quadrant Of The Stockyards Industrial Subarea.

This subarea has been designated primarily for industrial redevelopment with the exception of some existing commercial space along the east side of Ashland Avenue. The subarea consists of a few newer industrial facilities, several new commercial facilities along the east side of Ashland Avenue, large tracts of vacant land mostly covered with rubble, and several abandoned and deteriorating industrial buildings.

The plan for this subarea will make approximately 60 acres of land available for industrial redevelopment. A new street system and required water, sewer and lighting from Packers Avenue westward and southward through the subarea to intersect with Ashland Avenue at 42nd Street. The plan also calls for the removal of railroad tracks where possible and assistance for suitably located, active, well-maintained business and industry.

The redevelopment of this subarea will require the City to provide public infrastructure improvements, land acquisition, demolition of dangerous and dilapidated buildings, and entering into redevelopment agreements with private land owners to provide for clearing of rubble, and soil and site improvements necessary for industrial development.

The first phase of public improvements will include the demolition of the existing abandoned buildings and undertaking of some of the street improvements. Funding for this first phase of improvements will come from the first bond to be issued by the City. The second phase of public improvements will include the balance of land acquisition, infrastructure improvement and soil and site improvements. This second phase will be funded from a second bond to be issued by the City and retired by the incremental increase in real estate taxes generated from new industrial development stimulated by the first phase of public improvements.

C. General Land-Use Plan.

The Redevelopment Plan and the proposed projects described herein conform to the land-uses and development policies for the City as a whole as currently provided by the Comprehensive Plan of Chicago (1966) and the companion Southwest Development Area Report (1968). This Area is bounded by Blue Island Avenue and Cermak Road on the north, the Dan Ryan Expressway on the east, Garfield Boulevard on the south and Western Avenue on the west. The Development Area contains the residential community known as New City, more commonly known as the "Back of the Yards".

The Back of the Yards community was the home of the Chicago Union Stockyards, a once thriving meat-processing and packing area. A portion of the Union Stockyards has been redeveloped as a modern industrial park. This occurred due to the funding injected into the area by the City and federal governments which was utilized to develop an infrastructure system consisting of streets, water, sewerage, street lighting and other utilities. Also, the City, state and federal governments provided specific financing assistance for companies to locate in the New Stockyards industrial park. The northwest quadrant of the Stockyards remains primarily blighted due to the presence of dilapidated buildings, the lack of necessary infrastructure and land suitable for redevelopment.

The Southwest Development Area Report states the following with regard to the redevelopment of land in the Stockyards area:

> "At the height of operation, in the early 1940s the stockyards and Packingtown meant more than 30,000 jobs... The westward movement of the meat packing industry caused a decline in job opportunities which culminated in the mid-1950s when most major firms closed their Chicago operations. The result was a serious need for jobs. . . . and a large amount of unused industrial land (pages 15 -- 16).
>
> The redevelopment of that land with job producing industries has been a high priority problem that is today only partly solved. Railyards that are now larger than needed, large tracts of land with extensive existing construction unsuited for new uses and a complex of private streets and utilities have presented many serious physical and legal obstacles. Prime location alone will not insure success of this project: air pollution and offensive odors must be controlled; the area must be made attractive to compete with newer areas...(page 16)"

The retail shopping facilities in the Back of the Yards follows the general Citywide pattern of commercial frontage along major arterial streets. This pattern no longer meets the current needs of many consumers. A development objective for this area of Chicago includes the development of a new commercial center in order to provide increased employment opportunities and the strengthening of the tax base of the City.

The revitalization, retention and expansion of industrial areas is a key component of the City of Chicago's strategy for economic development. This strategy is documented in numerous plans and policy statements, including "Chicago, 1992: Goals and Policies and Ten-Year Development Strategies" which, in a discussion of the frame for economic development, cited the following as a major policy under the goal of making Chicago a "Viable Manufacturing City":

> Encourage the development of industry in significant industrial park areas as well as scattered locations citywide.
>
> Six major industrial concentrations have been designated as targets for development. These include: Northwest Center for Industry, Goose Island, Stockyards, Pullman, Chicago Center for Industry, and Lake Calumet. These areas are being actively serviced, enhanced and marketed. The primary advantage of these areas is their large available parcels of land, which is often a critical consideration of new or relocating industry. (page 19)

D. Estimated Redevelopment Project Costs.

Redevelopment project costs mean the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to this Redevelopment Plan and Redevelopment Project pursuant to the State of Illinois Tax Increment Allocation Redevelopment Act. Such costs may include, without limitation, the following:

1. Costs of studies, surveys, development of plans and specifications, implementation and administration of the redevelopment plan, including but not limited to staff and professional service costs for architectural, engineering, legal, marketing, financial, planning or other services; provided, however, that no charges for professional services may be based on a percentage of the tax increment collected;

2. Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of any buildings and the clearing and grading of land;

3. Costs of the construction of public works or improvements;

4. Costs of job training and retraining projects;

5. Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which include payment of interest on any obligations issued hereunder accruing during the estimated
period of construction of any redevelopment project for which such obligations are issued and for not exceeding thirty-six months thereafter and including reasonable reserves related thereto;

6. All or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred in furtherance of the objectives of the Redevelopment Plan and Project, to the extent the municipality by written agreement accepts and approves such costs;

7. Payment in lieu of taxes;

8. Costs of job training, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career educational programs for persons employed

or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include specifically, the payment by community college districts of costs pursuant to Sections 10-22.20a and 10-23.3a of the School Code;

9. Interest costs incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

   a. such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

   b. such payments in any one year may not exceed thirty percent of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

   c. if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (9) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund; and

   d. the total of such interest payments incurred pursuant to this Act may not exceed thirty percent of the total redevelopment project costs, excluding any property assembly costs and any relocation costs incurred pursuant to this Act.

The estimated redevelopment project costs are shown in Table 1. To the extent that municipal obligations have been issued to pay for such redevelopment project costs included prior to, but in anticipation of, the adoption of tax increment financing, the City shall be reimbursed for such redevelopment project costs. The total redevelopment project costs provide an upper limit on expenditures (exclusive of capitalized interest, issuance costs, interest and other financing costs). Within this limit, adjustments may be made in line items without amendment to this Redevelopment Plan.

E. Sources Of Funds To Pay Redevelopment Project Costs.

Funds necessary to pay for redevelopment project costs and municipal obligations which have been issued or incurred to pay for such costs are to be derived principally from tax increment revenues and proceeds from municipal obligations which have as their revenue source tax increment revenue. To secure the issuance of these obligations, the City may permit the utilization of guarantees, deposits and other forms of security made available by private sector developers.

The tax increment revenue which will be used to fund tax increment obligations and redevelopment project costs shall be the incremental real property tax revenues. Incremental real property tax revenue is attributable to the increase in the current equalized assessed value of each taxable lot, block, tract or parcel of real property in the Redevelopment Project Area over and above the initial equalized assessed value of each such property in the Redevelopment Project Area. Other sources of funds which may be used to pay for redevelopment costs and obligations issued or incurred, the proceeds of which are used to pay for such costs, are land disposition proceeds, state and federal grants, investment income, and such other sources of funds and revenues as the municipality may from time to time deem appropriate.

The City may issue general obligation bonds secured by the full faith and credit of the City for the purpose of financing redevelopment project costs. Such bonds may be payable from ad valorem taxes levied against all taxable property in the City.

Issuance Of Obligations.

To finance redevelopment costs a municipality may issue obligations secured by the anticipated tax increment revenue generated within the T.I.F. redevelopment area. In addition, a municipality may pledge towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

All obligations issued by the City pursuant to this Redevelopment Plan and the Act shall be retired within twenty-three (23) years from the adoption of the ordinances approving the Redevelopment Project Area. Also, the final maturity date of any such obligations which are issued may not be later than twenty (20) years from their respective dates of issue. One or more series of obligations may be sold at one or more times in order to implement this Redevelopment Plan. The amounts payable in any year as principal and interest on all obligations issued by the City pursuant to the Redevelopment

Plan and the Act shall not exceed the amounts available, or projected to be available, from tax increment revenues and from such bond sinking funds or other sources of funds (including ad valorem taxes) as may be provided by ordinance. Obligations may be of a parity or senior/junior lien natures. Obligations issued may be serial or term maturities, and may or may not be subject to mandatory, sinking fund, or optional redemptions.

Revenues shall be used for the scheduled and/or early retirement of obligations, and for reserves, bond sinking funds and redevelopment project costs, and, to the extent that real property tax increments are not used for such purposes, shall be declared surplus and shall then become available for distribution annually to taxing districts in the Redevelopment Project Area in the manner provided by the Act.

Most Recent Equalized Assessed Valuation Of Properties In The Redevelopment Project Area.

The total 1987 equalized assessed valuation for the entire Redevelopment Project Area is $11,938,779. This equalized assessed valuation is subject to final verification by Cook County. After verification, the County Clerk of Cook County, Illinois will certify the amount, and this amount will serve as the "Initial Equalized Assessed Valuation".

Anticipated Equalized Assessed Valuation.

By the year 1998, when it is estimated that all the anticipated private development will be completed and fully assessed, the estimated equalized assessed valuation of real property within the Redevelopment Project Area is estimated at between $19,000,000 and $24,500,000. By the year 2002, the equalized assessed value of real property within the Redevelopment Project Area is estimated at between $24,000,000 and $26,500,000. These estimates are based on several key assumptions, including: 1) Redevelopment of the 47th and Damen Commercial subarea will be completed in 1990; 2) redevelopment of the northwest quadrant of the Stockyards and the Wolcott/Railroad subareas will occur in a timely manner; 3) the market value of the anticipated industrial developments will increase following completion of the redevelopment activities described in the Redevelopment Project and Plan; 4) the most recent State Multiplier of 1.8916 as applied to 1987 assessed values will remain unchanged, and 5) for the duration of the project the tax rate for the entire Redevelopment Area is assumed to be the same and will remain unchanged from the 1987 level.

VI.

Phasing And Scheduling Of Redevelopment Plan.

A phased implementation strategy will be utilized to achieve a timely and orderly redevelopment of the project area.

It is anticipated that City expenditures for redevelopment will be carefully staged on a reasonable and proportional basis to coincide with expenditures in rehabilitation and/or redevelopment by private developers.

The public and private improvements to be undertaken in the Redevelopment Project Area are anticipated to be completed in the twentieth year. Table 1, the Estimated Redevelopment Project Costs (See Page 31), illustrates the public improvements to be undertaken as part of the Redevelopment Project.

VII.

Provision For Amending Action Plan.

This Stockyards Industrial-Commercial Redevelopment Area Tax Increment Redevelopment Plan and Project may be amended pursuant to the provisions of the Act.

VIII.

Affirmative Action Plan.

The City is committed to and will affirmatively implement the following principles with respect to the Stockyards Industrial-Commercial Redevelopment Area.

A. The assurance of equal opportunity in all personnel and employment actions with respect to the Plan and Project including but not limited to: hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, termination, etc., without regard to race, color, religion, sex, age, handicapped status, national origin, creed, or ancestry.

B. This commitment to affirmative action will ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.

In order to implement these principles for this Plan and Project the City shall require and promote equal employment opportunity practices and affirmative action on the part of itself and its contractors and vendors. In particular, parties contracting for work on the Project shall be required to agree to the principles set forth in this section.

Escrow Agreement.

Escrow Account No. _____

This Escrow Agreement (the "Escrow Agreement"), dated as of _____, 1994, is made and executed by the City of Chicago, Illinois, an Illinois municipal corporation (the "City"), the undersigned developer (the "Owner"), the undersigned escrow agent (the "Escrow Agent") and the undersigned lender (the "Lender"), all as more particularly described on Exhibit A hereto. The City and the Lender are referred to herein collectively as the "Funders".

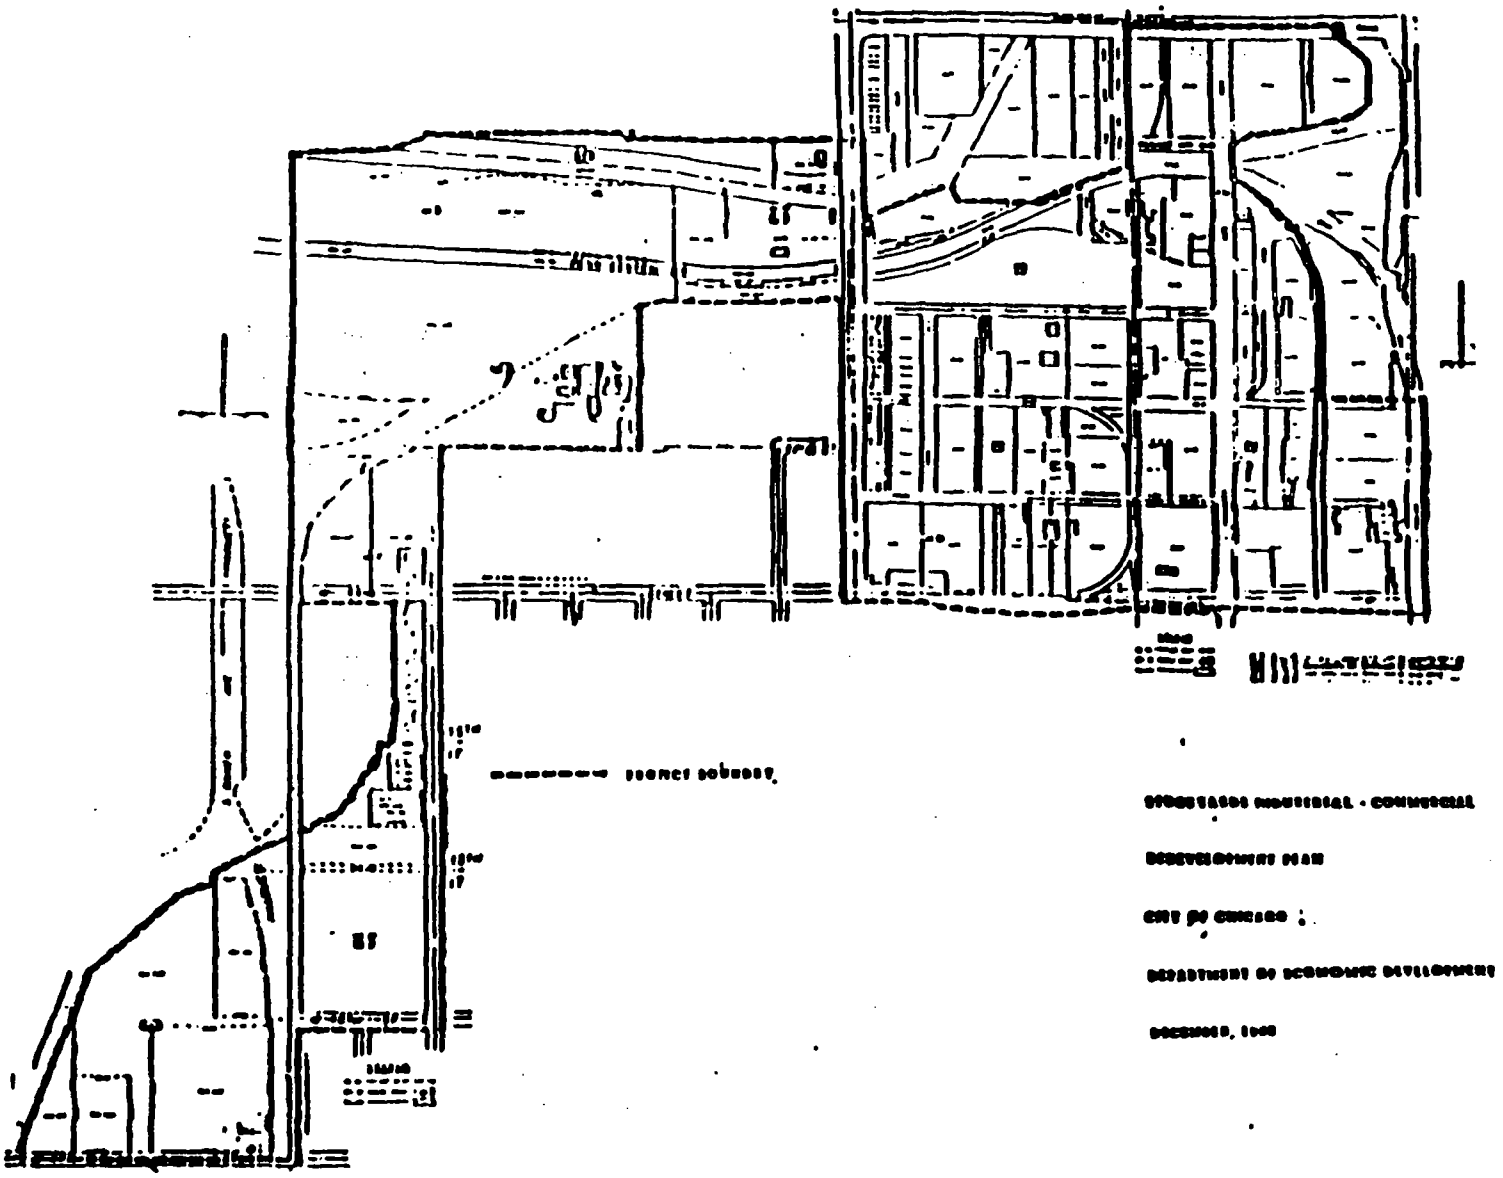

Preliminary Statement.

The City has made a certain grant to the Owner (the "Grant") pursuant to that certain Redevelopment Agreement (herein as amended, supplemented and restated from time to time, the "Redevelopment Agreement") with the Owner, dated as of the date hereof. The Lender has made a certain loan to the Owner (the "Loan") pursuant to the Lender's loan documents (herein as amended, supplemented and restated from time to time, the "Loan Agreement"). The Redevelopment Agreement and the Loan Agreement are

referred to herein collectively as the "Agreement". The Loan is secured by a separate mortgage (the "Mortgage") covering the land and improvements described therein. The title company has issued (or has issued its commitment to issue) an A.L.T.A. Mortgagee's Title Insurance Policy with respect to the Mortgage, referred to herein as the "Policy".

The Funders and the Owner desire to utilize the staff and expertise of the Escrow Agent to collect, review and approve lien waivers, and disburse the Escrowed Proceeds (as hereinafter defined), subject to the terms and conditions of this Escrow Agreement.

Now, Therefore, In consideration of the premises and the mutual agreements herein contained, the parties hereto agree as follows:

I.

Creation Of And Deposits To Escrow Account.

A. Escrow Account. There is hereby created with the Escrow Agent an escrow account (the "Escrow Account"), into which all funds shall be deposited hereunder in the amounts set forth in Part I of Exhibit B hereto (the "Escrow Proceeds"). The Escrow Agent will provide, upon written request, any information regarding the disbursement of funds from the Escrow Account, including but not limited to specific disbursements of the proceeds of the City Funds, the Equity and the Loan.

B. Owner's Deposits. Over the term of this Escrow Agreement, the Owner will deposit into the Escrow Account the total amount set forth as Equity on Part I of Exhibit B hereto (the "Equity"), and any additional amounts that may be required pursuant to the Redevelopment Agreement, at such times as may be required pursuant to the Redevelopment Agreement.

C. Funder's Deposits. Over the term of this Escrow Agreement, the Funders will deposit into the Escrow Account the total amounts set forth for each such Funder, respectively, on Part I of Exhibit B hereto (being the proceeds of such Funder's Loan or Grant), all at intervals and installments to be determined pursuant to the respective Agreements. At the time of each request for a disbursement to be funded from the proceeds of the Loan or Grant hereunder, such Funder shall make a deposit with the Escrow Agent of all or a portion of the proceeds of the Loan or Grant, respectively, in immediately available funds, in the amount approved by each Funder pursuant to such request for disbursement as provided in Section IV hereof, provided, however, that (i) no event shall have occurred which is or, with the

passage of time or the giving of notice or both, would become an event of default under any of the Agreements, and (ii) each condition set forth in Section IV, as applicable, shall have been satisfied. If at any time during the course of construction the total of the unpaid disclosed cost of construction as indicated by the column totals on the Owner's Statements (as hereinafter defined) exceeds the amount of the undisbursed proceeds, the City shall not be required to make a disbursement hereunder until the Owner has deposited in the Escrow Account either (a) the sum necessary to make the available funds equal to the unpaid disclosed cost of construction, or (b) a letter in form acceptable to the City, from a financial institution, stating that such financial institution has entered into a loan agreement with the Owner pursuant to which it will fund the amount of such shortfall through this Escrow Agreement prior to the final disbursement of funds hereunder. If any Funder shall, pursuant to a disbursement request, deposit with the Escrow Agent funds in an amount greater than the amount requested from such Funder, the Escrow Agent shall promptly transfer the amount of such excess back to such Funder.

II.

Allocation Of Costs With Respect To Sources Of Funds.

Deposits to the Escrow Account by the Owner and Funders and allocations of costs with respect to sources of funds shall be made pursuant to the terms set forth in Section 4.03 of the Redevelopment Agreement, with the Owner and Funders and not the Escrow Agent ensuring that City Funds are disbursed exclusively to pay costs described on Exhibit C hereto as Eligible Costs (for T.I.F.-Funded Improvements as defined in the Redevelopment Agreement) (the "Eligible Costs") and not used to pay costs described on Exhibit C hereto as Ineligible Costs (for items other than T.I.F.-Funded Improvements as defined in the Redevelopment Agreement) (the "Ineligible Costs).

III.

Manner Of Disbursement.

Disbursements from the Escrow Account are to be made as follows, pursuant to each draw request approved pursuant to Section IV hereof:

A. By checks to each subcontractor evidencing payment due for labor and/or materials furnished for the Project (as defined in the Redevelopment Agreement);

B. To the undersigned general contractor (the "General Contractor") for general requirements, builder's overhead (and for builder's profit, when applicable) and for labor and/or materials furnished directly by the General Contractor for the Project, approved by the Funders pursuant to such disbursement;

C. To the General Contractor for labor and/or materials furnished by subcontractors when such items have been paid directly by the General Contractor, and when substantiated by a payment affidavit and lien waiver from the subcontractor; and/or

D. To the Owner and/or other parties as approved by the Owner and the Funders for non-construction items.

[E. Reallocation among line items shall/shall not be permitted.]

For purposes of this Escrow Agreement, the term "subcontractor" shall include all mechanics and materialmen furnishing services, labor, materials and supplies to the Project.

IV.

Conditions Precedent To Disbursements.

Notwithstanding Anything In This Escrow Agreement To The Contrary, The Escrow Agent Shall Not Make Any Disbursements Hereunder If Any Funder Has Notified The Escrow Agent In Writing Or By Telecopy Not To Do So. If The Escrow Agent Shall Have Received Such A Notice From Any Funder, The Escrow Agent Shall Not Make Any Disbursements Hereunder (A) Except As Provided In Section V (G) Hereof Or (B) Unless And Until All Funders Shall Have Jointly Notified The Escrow Agent In Writing To Do So.

A. All Disbursements: The requirements for all disbursements, including for all disbursements, including the first and final disbursement, are as follows:

1. Prior to each disbursement of funds hereunder (including the first and final disbursements), the following shall be furnished to the Escrow Agent (and such other party as may be specified):

a. If City Funds are to pay part or all of the expenses of the requested disbursement, the following shall be furnished to the City and the Escrow Agent:

(i) A Request for T.I.F. Payment attached hereto as Exhibit D completed by the General Contractor (for construction costs) or the Owner (for non-construction, non-lienable costs), as applicable, specifying the amount of the requested payment and the line item under which such payment is authorized and to be paid, in accordance with the schedule of Eligible Costs and Ineligible Costs attached hereto as Exhibit C;

(ii) A certificate in the form attached hereto as Exhibit E from the person or entity shown on Exhibit E (the "Inspector/Architect"); to the extent that disbursement is sought for soft costs or work not typically overseen by an architect, an affidavit from the Owner certifying that the work corresponds to the request for payment and that payment as shown on the Owner's Statement is due and owing;

b. A sworn Owner's statement disclosing all contractors and material suppliers with whom the Owner has contracted, their respective addresses, work or materials to be furnished, amounts of contracts, amounts paid to date, amounts of current payments and balances due (the "Owner's Statement");

c. A sworn General Contractor's statement setting forth in detail all contractors and material suppliers with whom he or she has contracted, their respective addresses, work or materials to be furnished, amounts of contracts, amounts paid to date, amounts of current payments and balances due (the "Contractor's Statement"), together with the partial waiver of the General Contractor in the amount of the draw and waivers of liens, affidavits, supporting waivers and/or release of liens, if necessary, from subcontractors and material suppliers listed thereon;

d. An approval of the current condition of title shown in each Policy, from each Funder holding (or to receive) a Policy. When, after the first disbursement, a further title search reveals a subsequently arising exception over which the title company is unwilling to insure, the Escrow Agent will notify the Funders and discontinue disbursement until the exception has been disposed of to the satisfaction of the Funders. A mechanic's lien claim over which the title company is required to insure hereunder does not warrant a discontinuance of disbursement;

e. Other statements, waivers, affidavits, supporting waivers and releases of lien from such persons and in such form as may be required by the Escrow Agent for the purpose of releasing and waiving any and all rights to file mechanic's lien claims against the property for those amounts and the work or materials which they represent, or in the alternative, the Owner shall enter into such indemnification

arrangement with Escrow Agent as required by Escrow Agent to underwrite the requested coverage and issue the said required policy;

f. The Equity due as of the date of the requested disbursement from the Owner, and the Escrow Agent shall have sufficient funds, consisting of Equity, the proceeds of the Loan and/or the City Funds, to cover the amount of the disbursement; and

g. A written approval by the Owner and the Funders of the requested disbursement; approval on behalf of the City shall be given by any one of the following officials of the City's Department of Planning and Development: its Commissioner, any Deputy Commissioner or Assistant Commissioner.

2. The title company shall be in a position to issue a mechanics' lien and pending disbursement endorsement to each Funder's Policy, if any, in form and substance satisfactory to such Funder (the "Endorsement"). The amount shown in such Endorsement shall be the amount of the disbursement made by such Funder, and the effective date thereof shall be the date such Funder's funds are deposited into the Escrow Account.

B. First Disbursement: Prior to the first disbursement of funds hereunder, and in addition to the requirements set forth above for all disbursements, the following shall be furnished:

1. Where applicable, the title company shall have furnished to each Funder Policies covering the recording of the Mortgage and the Redevelopment Agreement and showing each Funder as the insured under its respective Policy.

C. Final Disbursement: Prior to the final disbursement of funds hereunder, and in addition to the requirements set forth above for all disbursements, the following shall be furnished to the Escrow Agent:

1. A Certificate of Completion issued by the City pursuant to Section 7.01 of the Redevelopment Agreement;

2. A Certificate of Occupancy issued by the City of Chicago, Department of Buildings with respect to any buildings situated on the property and constructed or rehabilitated pursuant to the Redevelopment Agreement; and

3. An "as built" survey.

V.

Escrow Agent.

It is understood by the parties hereto and by the General Contractor, who executed this Escrow Agreement to evidence its understanding and not as a party hereto, that the following provisions govern the duties of the Escrow Agent hereunder:

A. The Funders, and not the Escrow Agent, are responsible for determining the amount of each Funder's deposit requirement for each disbursement. Such amounts and each Funder's agreement thereto shall be evidenced by written request for disbursement signed by the Owner and each Funder, and the Escrow Agent is entitled to rely thereon, without further inquiry;

B. The Escrow Agent may, at its discretion, take whatever steps the Escrow Agent may deem necessary to verify the accuracy of any sworn statement that may be required hereunder;

C. If at any time the Escrow Agent shall discover a misstatement of a material fact in any request or other notice from the Owner, it shall promptly give notice of such discovery to each Funder and shall thereafter not disburse funds from the Escrow Account until such misstatement shall have been corrected to the satisfaction of each Funder, except as directed pursuant to the joint direction of all Funders;

D. The Escrow Agent will not accept any blanket lien waivers by the General Contractor as to labor performed and/or materials furnished by others. The Escrow Agent will not accept any blanket waiver pre-signed by any subcontractor;

E. While the subcontractors and any suppliers of labor and materials listed on sworn statements deposited herein are not parties to this Escrow Agreement and have no standing hereunder, the Escrow Agent is authorized to furnish to those persons information which the Escrow Agent may deem appropriate with regard to the times at which disbursements might be made to them, and what conditions remain unsatisfied when the Escrow Agent is not in a position to disburse;

F. Any requirement or undertaking herein notwithstanding, there is no obligation assumed by the Escrow Agent for insuring that sufficient funds will be available to pay all costs incurred in completing the rehabilitation of the Project, or that rehabilitation of the Project will be completed. Except with respect to funds for which the Escrow Agent shall have received investment instructions in writing, the Escrow Agent shall be under no duty to invest or reinvest any cash at any time held by it

hereunder. All income, if any, derived from any use which the Escrow Agent may make of any deposits hereunder shall belong to the respective depositors;

G. Upon receipt of written notice to the Escrow Agent from any Funder, the Escrow Agent shall transfer to such Funder all amounts previously disbursed by such Funder into the Escrow Account that remain in the Escrow Account;

H. Upon completion of the Project, the Owner shall promptly submit notice thereof to the Escrow Agent and each Funder and shall cause the title company to issue a final Endorsement to each Funder's Policy, if any. After payment by the Escrow Agent of the final disbursement hereunder, the Escrow Agent shall disburse any funds then remaining in the Escrow Account to the respective depositor, except that any Equity remaining shall be disbursed only pursuant to the joint direction of all Funders;

I. The Escrow Agent's charges for the services performed and title insurance protection furnished hereunder are the responsibility of the Owner and are to be paid from funds deposited herein, and the Escrow Agent reserves the right to suspend further processing of funds in the Escrow Account until this is done or other arrangements satisfactory to the Escrow Agent have been made; and

J. It is understood by the parties hereto that the requirements listed in this Section V are solely for the Escrow Agent's benefit to assist the Escrow Agent in fulfilling its obligations hereunder.

VI.

General.

A. Unless otherwise specified, any notice, demand or request required hereunder shall be given in writing at the addresses set forth on Exhibit F hereto, by any of the following means: (a) personal service; (b) electronic communications, whether by telex, telegram or telecopy; (c) overnight courier, receipt requested; or (d) registered or certified mail, return receipt requested. Such addresses may be changed by notice to the other parties given in the same manner provided above. Any notice, demand or request sent pursuant to either clause (a) or (b) above shall be deemed received upon such personal service or upon dispatch by electronic means with confirmation of receipt. Any notice, demand or request sent pursuant to clause (c) above shall be deemed received on the Business Day (as defined below) immediately following deposit with the overnight courier, and any notice, demand or request sent pursuant to clause (d) above shall be deemed received two Business Days following deposit in the mail. "Business Day" as

used herein shall mean a day on which banks in the City of Chicago are not authorized or required to remain closed and which shall not be a public holiday under the laws of the State of Illinois or any ordinance or resolution of the City of Chicago.

B. No changes, amendments, modifications, cancellations or discharge of this Escrow Agreement, or any part hereof, shall be valid unless in writing executed by the parties hereto or their respective successors and assigns; provided, however, that any Funder may amend and modify this Escrow Agreement with the consent of the Escrow Agent but without the written consent of any other party so long as such amendment or modification does not adversely affect the rights or obligations of the other Funders.

C. No official, officer or employee of the City shall be personally liable to the Owner or any successor in interest in the event of any default or breach of this Escrow Agreement by the City or for any amount which may become due to the Owner or any successor in interest, or on any obligation under the terms of this Escrow Agreement.

D. The Escrow Agent, the Funders and the Owner agree that this Escrow Agreement is not intended to give any benefits, rights, privileges, actions or remedies to any person, partnership, firm or corporation other than the Escrow Agent, the Funders and the Owner, as a third party beneficiary or otherwise, under any theory of law.

E. If any provision of this Escrow Agreement, or any paragraph, sentence, clause, phrase or word, or the application thereof, in any circumstance, is held invalid, the remainder of this Escrow Agreement shall be construed as if such invalid part were never included herein and this Escrow Agreement shall be and remain valid and enforceable to the fullest extent permitted by law.

F. This Escrow Agreement shall be governed as to performance and interpretation in accordance with the internal laws of the State of Illinois, without regard to its conflict of laws principles.

G. This Escrow Agreement may be executed in several counterparts, each of which shall constitute an original and all of which shall constitute one and the same instrument.

In Witness Whereof, The parties hereto have caused this Escrow Agreement to be duly executed and delivered as of the date first written above.

Section 8.20

Conditional Provisions.

(a) Governmental Charges.

Developer agrees to pay or cause to be paid when due all Governmental Charges (as defined below) which are assessed or imposed upon Developer, the Property or the Project, or become due and payable, and which create, may create, or appear to create a lien upon Developer or all or any portion of the Property or the Project. "Governmental Charge" shall mean all federal, state, county, City, or other governmental (or any instrumentality, division, agency, body, or department thereof) taxes, levies, assessments, charges, liens, claims or encumbrances relating to Developer, the Property or the Project including but not limited to real estate taxes. Developer shall have the right before any delinquency occurs to contest or object in good faith to the amount or validity of any Governmental Charge by appropriate legal proceedings properly and diligently instituted and prosecuted in such manner as shall stay the collection of the contested Governmental Charge and prevent the imposition of a lien or the sale or forfeiture of the Property. Developer's right to challenge real estate taxes applicable to the Property is limited as provided for in Section 8.20(b) below; provided, that such real estate taxes must be paid in full when due and may be disputed only after such payment is made. No such contest or objection shall be deemed or construed in any way as relieving, modifying or extending Developer's covenants to pay any such Governmental Charge at the time and in the manner provided in this Agreement unless Developer has given prior written notice to D.P.D. of Developer's intent to contest or object to a Governmental Charge and, unless, at D.P.D.'s sole option, (i) Developer shall demonstrate to D.P.D.'s satisfaction that legal proceedings instituted by Developer contesting or objecting to a Governmental Charge shall conclusively operate to prevent a lien against or the sale or forfeiture of all or any part of the Property to satisfy such Governmental Charge prior to final determination of such proceedings and/or (ii) Developer shall furnish a good and sufficient bond or other security satisfactory to D.P.D. in such form and amounts as D.P.D. shall require, or a good and sufficient undertaking as may be required or permitted by law to accomplish a stay of any such sale or forfeiture of the Property during the pendency of such contest, adequate to pay fully any such contested Governmental Charge and all interest and penalties upon the adverse determination of such contest. If Developer fails to pay any Governmental Charge or to obtain discharge of the same, Developer shall advise D.P.D. thereof in writing, at which time D.P.D. may,

but shall not be obligated to, and without waiving or releasing any obligation or liability of Developer under this Agreement, in D.P.D.'s sole discretion, make such payment, or any part thereof, or obtain such discharge and take any other action with respect thereto which D.P.D. deems advisable. All sums so paid by D.P.D., if any, and any expenses, if any, including reasonable attorneys' fees, court costs, expenses and other charges relating thereto, shall be promptly disbursed to D.P.D. by Developer. Notwithstanding anything contained herein to the contrary, this paragraph shall not be construed to obligate City to pay any such Governmental Charge. Additionally, if Developer fails to pay any Governmental Charge, City, in its sole discretion, may require Developer to submit to City audited Financial Statements at Developer's own expense.

(b) Real Estate Taxes.

(i) Acknowledgement of Real Estate Taxes. Developer agrees that (A) for the purpose of this Agreement, the total projected minimum assessed value of the Property which is necessary to support the debt service indicated ("Minimum Assessed Value") is shown on Exhibit R attached hereto and incorporated herein by reference for the years noted on Exhibit R; (B) Part II of Exhibit R sets forth the specific improvements which will generate the fair market values, assessments, equalized assessed values and taxes shown thereon; and (C) the real estate taxes anticipated to be generated and derived from the respective portions of the Property and the Project for the years shown are fairly and accurately indicated in Exhibit R.

(ii) Real Estate Tax Exemption. With respect to the Property or the Project, neither Developer nor any agent, representative, lessee, tenant, assignee, transferee or successor in interest to Developer shall, during the Term of this Agreement, seek, or authorize any exemption (as such term is used and defined in the Illinois Constitution, Article IX, Section 6 (1970)) for any year that the Redevelopment Plan is in effect.

(iii) No Reduction in Real Estate Taxes. Neither Developer nor any agent, representative, lessee, tenant, assignee, transferee or successor in interest to Developer shall, during the Term of this Agreement, directly or indirectly, initiate, seek or apply for proceedings in order to lower the assessed value of all or any portion of the Property or the Project below the amount of the Minimum Assessed Value as shown in Exhibit R.

(iv) No Objections. Neither Developer nor any agent, representative, lessee, tenant, assignee, transferee or successor in interest to Developer, shall object to or in any way seek to interfere with, on procedural or any other grounds, the filing of any Underassessment Complaint or subsequent proceedings related thereto with the Cook County Assessor or with the Cook County Board of Appeals, by either City or by any taxpayer, unless the assessed value of the Property is in excess of the Minimum

Assessed Value. The term "Underassessment Complaint" as used in this Agreement shall mean a complaint seeking to increase the assessed value of the Project.

(v) Covenants Running with the Land. The parties agree that the restrictions contained in this Section 8.20 are covenants running with the land and this Agreement shall be recorded by Developer as a memorandum thereof, at Developer's expense, with the Cook County Recorder of Deeds on the Closing Date. These restrictions shall be binding upon Developer and its agents, representatives, lessees, successors, assigns and transferees from and after the date hereof, provided however, that the covenants shall be released when the Redevelopment Area is no longer in effect. Developer agrees that any sale, conveyance, or transfer of title to all or any portion of the Property or Redevelopment Area from and after the date hereof shall be made subject to such covenants and restrictions.

(c) Insurance.

In addition to the insurance required pursuant to Section 12 hereof, Developer shall at all times provide, maintain and keep in force the following insurance:

(i) All Risk Property Insurance.

(A) Pre-construction. Developer shall obtain All Risk Property insurance, if applicable, in the amount of the full replacement value of Developer's property located in the Redevelopment Area.

(B) Post-construction. Developer shall obtain an All Risk Property policy, including improvements and betterments in the amount of full replacement value of Developer's property located in the Redevelopment Area. Coverage extensions shall include business interruption/loss of rents, flood and boiler and machinery, if applicable.

WHEREAS, The Use Agreement provides in Section 27.01 that the City will not grant more favorable rights or privileges to similarly situated air carriers; and

WHEREAS, It is necessary and advisable to amend the Lease in certain respects in order to satisfy Section 27.01 of the Use Agreement; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The above recitals are hereby incorporated by reference as if fully set forth herein.

SECTION 2. The Mayor, or his proxy is hereby authorized to execute, and the City Clerk to attest, upon the recommendation of the Commissioner of the Department of Aviation, subject to the approval of the City Comptroller and the approval of the Corporation Counsel as to form and legality, an agreement with Federal Express to amend the Lease, such amendment to be in substantially the form attached hereto as Exhibit 1.

SECTION 3. This ordinance shall be in full force and effect from and after the date of its passage.

Exhibit 1 attached to this ordinance reads as follows:

Exhibit 1.

Amendment No. ____.

This Amendment to the Cargo Building Lease as defined herein, made and entered into as of this ____ day of _____, 1994, by and between the City of Chicago, a municipal corporation and home rule unit of local government organized and existing under the laws of the State of Illinois ("City") and Federal Express Corporation, a corporation organized and existing under and by virtue of the laws of the State of Delaware ("Airline"), is effective as of _____, 19 ____.

Witnesseth:

Whereas, City and Airline are parties to a Cargo Building Lease dated as of September 23, 1987 ("Lease"); and

Whereas, City and Airline are also parties to the Amended and Restated Airport Use Agreement and Terminal Facilities Lease ("Use Agreement") dated as of August 8, 1989; and

Whereas, It is necessary and advisable to further amend the Lease in certain respects;

Now, Therefore, In consideration of the premises and of the mutual covenants and other valuable considerations, City and Airline hereby agree as follows:

Section 1. Section 3.01(c) of the Lease is hereby deleted in its entirety and replaced with the following language:

"(c) Rent payable hereunder shall be increased beginning on the January 1 following the fifth anniversary date of this Lease, and on January 1 every five years thereafter by multiplying the rent by a fraction, the numerator of which is the Producer Price Index/All Commodities ('P.P.I.') published by the United States Department of Labor, Bureau of Labor Statistics (January 1982 = 100) for the month of December preceding said January 1, and the denominator of which is the P.P.I. for the first year of this Lease. Each yearly period for which the P.P.I. is being recalculated hereunder is referred to herein as a 'Recalculation Period'. Upon receipt by Airline of written notice from the Commissioner, rent, as so adjusted, shall be paid in the manner set forth in subparagraph (b) above.

If the manner in which the P.P.I. is determined by the Department of Labor is substantially revised, City shall adjust the revised index which would produce results equivalent, as nearly as possible, to those which would have been obtained if the method of determining the P.P.I. had not been revised. If the P.P.I. is discontinued or otherwise becomes unavailable to the public, City shall substitute therefor a comparable index based upon changes in the cost of living or purchasing power of the consumer dollar published by any other governmental agency or department, or if no such index is available, a comparable index published by a recognized financial institution, financial publication, or university.

If the computation of aforesaid increase in rent cannot be completed until after the beginning of a Recalculation Period, Airline shall continue to pay rent at the then current rate until the information for completing the computation is available. Any shortfall in prior rental payments determined by said computation shall be paid to City within sixty (60) days after Commissioner supplied Airline with said computation."

Section 2. This Amendment may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

Section 3. This Amendment constitutes the sole change to the Lease. No other terms or conditions are modified and no other changes shall be implied herefrom.

2.03 Use Of The Demised Premises.

Airline is hereby granted the exclusive use of the Demised Premises, subject to the terms and conditions of this Lease, and to all applicable federal, state and local laws, rules, regulations, codes, ordinances and orders, and to the applicable terms of the 1983 Amended and Restated Airport Use Agreement and Terminal Facilities Lease between City and Airline ("Use Agreement") for the staging, storing and parking of ground support service equipment. The use by Airline of the Demised Premises for uses other than those specified shall require the prior written approval of the Commissioner.

2.04 Exclusive Possession.

Subject to the provisions of this Lease, City covenants that, so long as Airline performs all of its obligations hereunder, it shall be entitled to and shall have the exclusive possession and enjoyment of the Demised Premises, and the rights and privileges granted to it hereunder. Airline shall be entitled to lawfully and quietly hold, occupy, and enjoy the Demised Premises during the term of this Lease, provided Airline is not in default of any of its obligations under this Lease.

Subject to Airport Rules and Regulations, Airline, its sublessees or assigns, shall have the right and privilege of ingress to and egress from the Demised Premises, for its employees, agents, guests, patrons, and invitees, suppliers of materials, furnishers of service, and its equipment, vehicles, machinery and other property. 2.07 Liens Prohibited.

Airline shall keep its Demised Premises free and clear of any and all liens in any way arising out of the construction, improvement, or use thereof by Airline; provided, however, Airline may in good faith contest the validity of any lien, provided such contest does not impair the title of the City or the City's rights with respect to the Demised Premises. City's title to the Demised Premises and the Airport is and always shall be paramount to the interests of Airline in the Demised Premises. Nothing herein contained empowers Airline to commit or engage in any act which can, shall or may encumber the title of City.

3.01 Term.

The initial term of this Lease shall be for a period of fourteen (14) years, commencing on July 15, 1986 ("Commencement Date") and terminating on October 31, 2000 ("Termination Date").

(a) At such time and in such manner as set forth in Subsection (b), Airline shall pay City the following rent:

$.35 per square foot of the Demised Premises per year for 118,040.54 square feet.

(b) Rent shall begin accruing hereunder on the Commencement Date. All such rent shall be paid to the Comptroller of the City of Chicago at his office in City Hall, Chicago, Illinois or such other place

as may be designated. Rent for the first and last months of this Lease shall be prorated, if necessary.

(c) Rent payable hereunder shall be increased beginning on July 15, 1994, by multiplying the $.35 per square foot set forth in Section 3.01(a) above by a fraction, the numerator of which is the Producer Price Index/All Commodities ("P.P.I.") published by the United States Department of Labor, Bureau of Labor Statistics (January 1982 = 100) for the month of July, 1994, and the denominator of which is the P.P.I. for July, 1985. Upon receipt by Airline of warrants from the City Comptroller based on the recalculated rental, rent, as so adjusted, shall be paid in the manner set forth in Subparagraph (b) above.

If the manner in which the P.P.I. is determined by the Department of Labor is substantially revised, City shall adjust the revised index which would produce results equivalent, as nearly as possible, to those which would have been obtained if the method of determining the P.P.I. had not been revised. If the P.P.I. is discontinued or otherwise becomes unavailable to the public, City shall substitute therefor a comparable index based upon changes in the cost of living or purchasing power of the consumer dollar published by any other governmental agency or department, or if no such index is available, a comparable index published by a recognized financial institution, financial publication, or university.

If the computation of aforesaid increase in rent cannot be completed until after the end of the original term, or any renewal term, of this Lease, Airline shall continue to pay rent at the then current rate until the information completing the computation is available. Any shortfall in prior rental payments determined by said computation shall be paid to City within sixty (60) days after the Commissioner supplies Airline with said computation.

4.02 Taxes.

Airline shall be responsible for payment of all applicable taxes levied against the Demised Premises and shall pay such taxes directly to the appropriate taxing agency. Upon the Commissioner's request, Airline shall promptly provide the Commissioner with copies of all notices relating to such taxes and shall provide the Commissioner with a receipt indicating payment of such taxes. Premises whether furnished by City or purchased by City on behalf of Airline or furnished by independent contractors.

Airline shall be responsible for obtaining at its own expense all necessary governmental approvals, inspections, permits, or licenses needed in connection with the Demised Premises, any business conducted thereon, or any Work performed thereon.

4.05 Late Payments.

Upon the occurrence of an Event of Default under Section 12.01(h) for non-payment, all such past due amounts shall, at the discretion of the Commissioner, bear interest at a rate of 4% higher than the then current prime rate for commercial customers established by the largest commercial bank in Chicago, determined as the basis of total assets.

(4) Either directly or through a licensed independent contractor, dispose of its garbage, debris and other waste materials (including snow and ice) from the Demised Premises.

(b) If the performance of any of the foregoing maintenance, repair, replacement, or painting obligations of Airline requires work to be performed near an active taxiway or runway or where safety of airport operations might be involved, Airline shall post guards or erect barriers or other safeguards as required and approved by the Commissioner at such locations.

(c) Airline shall install, maintain, and operate such obstruction or warning lights on structures located on the Demised Premises as may from time to time be required by the Airport Rules and Regulations as may be amended or otherwise required to conform to standards prescribed by the Federal Aviation Administration or any other governmental agency having jurisdiction over the Demised Premises or by the City at its reasonable discretion.

5.04 Signs.

Any signs installed by Airline on the Demised Premises shall be limited to those which advertise the aircraft support services provided by Airline, or its sublessees or assigns. If Airline's failure to perform any such obligation endangers the safety of the public or of employees of City and the notice to Airline so states, the City may perform such obligations if Airline does not immediately proceed to perform such obligations.

Article VI.

6.01 Maintenance And Operation Of Airport.

(a) City shall operate and maintain in a manner consistent with that of a reasonably prudent operator of an airport, and keep in good condition and repair, all taxiways, roadways, water lines, sewer lines, drainage ditches, additions, improvements, facilities, and equipment, now or hereafter provided by City, serving the Demised Premises but located outside the Demised Premises, including the removal of snow, ice, vegetation, stones, and other foreign matter, as reasonably as may be done, from taxiways, connections therefrom, and roadways.

If City's failure to perform such obligations endangers the safety of the public, of employees of Airline, or Airline's business on the Demised Premises and Airline so states in its notice to City, Airline may perform such obligations if City does not immediately proceed to perform such obligations.

Article VII.

Airline covenants and agrees that this Lease shall be subordinated to the provisions of any existing or future agreement between City and the United States Government, the execution of which has been or will be required as a condition precedent to the granting of federal funds for the development of the Airport.

7.03 Nondiscrimination.

(a) Federal Requirements. Airline shall not (1) fail or refuse to hire or discharge any individual, or otherwise discriminate against any individual with respect to his compensation, or the terms, conditions, or privileges of his employment, because of such individual's race, color, religion, sex, age, handicap, or national origin; or (2) limit, segregate, or classify its employees or applicants for employment in any way which would deprive or tend to deprive any individual of employment opportunities or otherwise adversely affect his status as an employee, because of such individual's race, color, religion, sex, age, handicap, or national origin. Except in cases of emergency, no such rule or regulation shall be applicable to Airline unless it has been given fifteen (15) days prior written notice of the adoption thereof.

(b) City shall supply Airline with a copy of City's current Airport Rules and Regulations, and revisions thereto as and when made.

(b) Review of Environmental Documents. Airline, at the request of City, shall make available for inspection and copying, upon reasonable notice and at reasonable times, any and all of the documents and materials Airline has prepared or has caused to be prepared pursuant to any Environmental Laws, including but not limited to any permit, application or any notice or report of a release or threatened release of Hazardous Materials on, under, into, from or about the Demised Premises. Airline agrees to cause its contractors to execute such certificates as may be necessary in furtherance of these provisions. Article VIII.

Nothing contained herein shall impair the right of City, in the exercise of

its governmental functions, to require Airline to pay any tax or inspection fees or to procure necessary permits or licenses, provided such requirement is not inconsistent with the rights and privileges granted hereunder or under any other written agreement between Airline and City. Nothing herein shall be construed to prevent Airline from contesting in good faith any tax or inspection fee so long as such contest is diligently commenced and prosecuted by Airline.

(2) Commercial Liability Insurance (Primary And Umbrella).

Coverage extensions shall include boiler and machinery, if applicable, earthquake, and flood.

(5) Professional Liability Insurance.

When any architects, engineers, or consulting firms perform Work in connection with this Lease, Professional Liability Insurance shall be maintained with limits of $1,000,000. The policy shall have an extended reporting period of two (2) years. When policies are reviewed or replaced, the policy retroactive date must coincide with, or precede, start of Work on the contract.

(b) Airline will furnish the Commissioner with original Certificates of Insurance evidencing the coverage required to be in force on the date of this Lease, and renewal Certificates of Insurance, or such similar evidence, if the coverages have an expiration or renewal date occurring during the term of this Lease.

(c) The insurance hereinbefore specified shall be carried during the term of this Lease. Failure to carry or keep such insurance in force shall constitute a violation of the Lease, and City reserves the right to terminate this Lease until proper evidence of insurance is provided.

(d) All insurance policies shall provide for thirty (30) days written notice to City prior to the effective date of any change, cancellation, or termination of such coverage.

(e) Airline shall require all contractors to carry the insurance required herein, or Airline may provide the coverage for any or all contractors or subcontractors, and, if so, the evidence of insurance submitted shall so stipulate.

(f) Airline expressly understands and agrees that any insurance coverages and limits furnished by Airline shall in no way limit Airline's liabilities and responsibilities specified within the Lease, in equity, or by law.

(g) Airline hereby waives, and shall cause each of its contractors, to waive its rights of subrogation against City, including City's appointed and elected officials, agents, and employees.

(h) Airline expressly understands and agrees that any insurance maintained by City shall apply in excess of and not contribute with insurance provided by Airline under this Lease.

(i) Airline shall not do or permit to be done anything, either by act or failure to act, which shall cause cancellation of any policy of insurance required hereunder or any policy maintained by City.

(j) City maintains the right to modify, delete, alter or change the requirements set forth under this Section 9.01 in accordance with A.C.I. -- N.A. standards which may be published from time to time or other applicable industry standards. City shall provide Airline with thirty (30) days notice of any changes under this section.

9.02 Untenantable Conditions.

If the Demised Premises occupied by Airline hereunder, or any substantial portion thereof, are damaged or destroyed and thereby rendered untenantable, then, unless City provides Airline with alternative Demised Premises, (a) Airline shall not be obligated to pay rent for such untenantable portion during such time as it remains untenantable, and (b) if such untenantable portion remains untenantable for more than one year, Airline shall be entitled, upon forty-five (45) days prior written notice to City, to delete such untenantable portion from its Demised Premises; provided, however, that there shall be no abatement or reduction of rent or deletion from its Demised Premises where the untenantable condition is caused by the willful or negligent act or omission of Airline, its agents, employees, licensees, contractors, subcontractors, or invitees.

Article X.

10.01 Indemnity.

(a) Airline agrees to defend, indemnify, and hold harmless City, its elected and appointed officials, officers, agents, and employees, from and against any and all loss, liability, penalties, damages of whatever nature, causes of action, suits, claims, demands, judgments, injunctive relief, awards, and settlements, including, without limitation, payments of claims of liability resulting from any injury or death of any person or damage to or destruction of any property, arising out of:

(1) the willful misconduct, negligent, or tortious act or omission of Airline, its agents, employees, licensees, contractors, or subcontractors;

(2) Airline's use or occupancy of the Demised Premises;

(3) the violation by Airline of any agreement, warranty, covenant, or condition of this Lease; and

(4) suits alleging violations of any federal or state laws as a result of any actions taken by Airline or obligations imposed upon Airline pursuant to this Lease; and Airline will, at its own cost and expense, defend all such claims, demands, and suits, whether frivolous or not.

(b) City shall promptly notify Airline of each claim, action, proceeding, or suit in respect of which indemnity may be sought by City against Airline hereunder, setting forth the particulars of such claim, action, proceeding, or suit, and shall furnish Airline with a copy of all judicial filings and legal process and any correspondence received by City related thereto.

(c) Without limiting the generality of any other provision hereof, Airline shall reimburse City for the reasonable cost of any and all attorney's fees and investigation expenses and any other reasonable costs incurred by City in the defense and handling of said suits and claims and in enforcing the provisions of this Lease.

10.02 Non-liability Of Public Officials.

Unless otherwise provided by law, no official, employee, or agent of City shall be charged personally by Airline, or by any assignee or contractor of Airline, with any liability or expenses of defense, or be held personally liable to them under any term or provision of this Lease, or because of City's execution or attempted execution, or because of any breach hereof.

Article XI.

11.01 Abatement In The Event Of Closing.

In the event that for a period of time in excess of five (5) consecutive days the Airport or Demised Premises is closed by any order or direction of City or any other governmental authority or agency, or by any order or direction of any court of competent jurisdiction not stayed by way of appeal or otherwise, then the rent payable by Airline shall abate for the period of such closing.

11.02 Abatement On Account Of Casualty.

If due to damage or destruction by fire or other casualty (other than those caused by Airline) any of the facilities to be furnished by City outside the Demised Premises hereof are rendered unusable to such an extent as to substantially impair the ability of Airline to conduct normal operations on and from the Demised Premises, then the rent payable hereunder by Airline for the Demised Premises shall be paid up to the date of such damage or destruction. Such rent shall thereafter abate in an amount directly proportional to the extent Airline's ability to conduct normal operations on and from the Demised Premises is impaired by such damage or destruction, unless and until City thereafter furnishes adequate temporary substitute facilities and expeditiously restores the facilities so damaged or destroyed; provided, however, that if City fails to furnish adequate temporary substitute facilities and repair such damage or destruction so that Airline's ability to conduct normal operations on the Demised Premises is substantially impaired for more than thirty (30) days, then Airline at its option may, by giving to City at least thirty (30) days prior notice, terminate this Lease. City shall have no liability to Airline for City's failure to furnish temporary substitute facilities or for City's failure to restore such facilities expeditiously.

Article XII.

12.01 Events Of Default.

Each of the following shall be an "Event of Default" under this Lease:

(a) Airline shall take the benefits of any present or future federal or state insolvency statute; or shall make a general assignment for the benefit of creditors;

(b) Airline shall file a voluntary petition in bankruptcy or a petition or answer seeking an arrangement of its indebtedness under the Code or

under any other law or statute of the United States or of any state thereof; or consent to the appointment of a receiver, trustee, custodian, liquidator, or other similar official, of all or substantially all of its property; or an order for relief shall be entered by or against Airline under any chapter of the Code;

(c) By order or decree of a court, Airline shall be adjudged a debtor or bankrupt, or an order shall be made approving a petition filed by any of its creditors or by any of its stockholders, seeking its reorganization or the restructuring of its indebtedness under the Code or under any other law or statute of the United States or any state thereof and such order or decree shall not be stayed or vacated within ninety (90) days of its issuance;

(d) A petition under any chapter of the Code or an action under any federal or state insolvency statute shall be filed against Airline and shall not be dismissed or stayed within ninety (90) days after being filed thereof;

(e) By or pursuant to, or under authority of any legislative act, resolution or rule, or order or decree of any court or governmental board, agency or officer, a receiver, trustee, custodian, liquidator, or other similar official shall take possession or control of all or substantially all of the property of Airline and such possession or control shall continue in effect for a period of ninety (90) days;

(f) Airline shall become a corporation in dissolution;

(g) The letting, license or other interest of or rights of Airline hereunder shall be transferred to, pass to, or devolve upon, by operation of law or otherwise, any other person, firm, corporation, or other entity, by, in connection with, or as a result of any bankruptcy, insolvency, trusteeship, liquidation or other proceedings or occurrence described in Subparagraphs (a) through (e) of this Section 12.01;

(h) Airline shall fail to duly and punctually pay any rents required to be paid hereunder or shall fail to make payment when due of any other sum required to be paid to City pursuant to this Lease, for a period of thirty (30) days after written notice specifying such failure and requesting that it be remedied is given to Airline by City;

(i) Airline shall fail to keep, perform, and observe any promise, covenant, or other provision of this Lease, other than the obligation to pay rent, for a period of forty-five (45) days after written notice specifying such failure and requesting that it be remedied is given to Airline by City; provided, however, that any such failure which can be remedied, but which cannot with due diligence be remedied within such forty-five (45) day period, shall not give rise to City's right to terminate this Lease if corrective action is instituted by Airline within such forty-five (45) day period and diligently pursued until the failure is remedied;

(j) Any lien shall be filed against the Demised Premises or any portion thereof resulting from any act or omission of Airline, and shall not be discharged within forty-five (45) days, unless Airline shall within the aforesaid forty-five (45) days furnish City such security as the Commissioner in his discretion determines to be adequate to protect the interests of City;

(k) Airline shall cease using or abandon substantially all of its Demised Premises for a period of ninety (90) days;

(l) Airline shall make any purported Transfer (as defined in Section 13.01) without the consent of City as set forth in Article XIII;

(m) Airline shall fail to maintain its corporate existence, or to remain duly qualified to do business in the State of Illinois, or Airline shall dissolve or otherwise dispose of all or substantially all of its assets, or shall consolidate with or merge into another corporation; provided, however, that it shall not be an Event of Default if Airline consolidates with or merges into another directly or indirectly owned subsidiary of A.M.R. Corporation; or

(n) City shall declare Airline in default under the 1983 Use Agreement.

12.02 Termination By City.

(a) Whenever an Event of Default has occurred and is continuing, City may, at its option, with fifteen (15) days prior notice of such Event of Default:

(1) terminate this Lease and the letting, licenses, and other rights of Airline hereunder, without discharging any of Airline's obligations hereunder and, at City's further option, exclude Airline from its Demised Premises; or

(2) without terminating this Lease, exclude Airline from its Demised Premises and attempt to lease such Demised Premises to another party for the account of Airline, holding Airline liable for all payments due hereunder up to the effective date of such leasing and for the excess over the rentals and other amounts which are paid by such new party under such new agreement, if any, of other amounts payable by Airline under this Lease for the remainder of the term of this Lease.

(b) In addition, City may, from time to time, take whatever action at law or in equity appears necessary or desirable to collect rent and any other amounts payable by Airline hereunder then due and thereafter to become due, and to enforce the performance and observance of any obligation, agreement, or covenant of Airline under this Lease.

(c) All rights and remedies hereinbefore given to City and all rights and remedies given to City by law or in equity shall be cumulative and concurrent. No termination of this Lease or the taking or recovering of the Demised Premises shall deprive City of any of City's remedies or actions against Airline for rent or for any other sum required to be paid to City pursuant to this Lease, or for damages or for the breach of any covenant herein contained, nor shall the bringing of any action for rent or breach of covenant, or the resort to any other remedy herein provided for the recovery of rent be construed as a waiver of the right to obtain possession of the Demised Premises.

12.03 Removal Of Airline Property.

(a) The personal property financed and placed or installed by Airline in its Demised Premises shall remain the property of Airline and must be removed on or before the expiration of the term or the expiration of any extension or renewal thereof at Airline's sole risk and expense. Any physical damage to the Airport, the Demised Premises, or any fixtures located therein, resulting from such removal shall be paid for by Airline. In the event of the termination of this Lease, by default or otherwise, Airline shall have sixty (60) days after such termination during which to remove such property; provided, however, City shall have the right to assert such liens against said property as City may by law be permitted. So long as any such property remains in the Demised Premises, Airline's obligation to pay City rent and any other sums which may be due the City under the Lease shall continue.

(b) If Airline's property is not removed as herein provided, City may, at its option and to the extent otherwise provided by applicable law, deem such property abandoned and keep such property or after written notice to Airline and at Airline's sole risk and expense, remove such property to a public warehouse for deposit, or retain the same in City's possession and after the expiration of sixty (60) days sell the same, with notice and in accordance with applicable law, the proceeds of which shall be applied first to the expenses of such removal and sale, second to any sum owed by Airline to City, and any balance remaining shall be paid to Airline.

12.04 No Waiver By City.

A failure by City to take any action with respect to any default or violation by Airline of any of the terms, covenants, or conditions of this Lease shall not in any respect limit, prejudice, diminish, or constitute a waiver of any rights of City to act with respect to any prior, contemporaneous, or subsequent violation or default. The acceptance by City of payment for any period or periods after a default or violation of any of the terms, conditions, and covenants of this Lease shall not constitute a waiver or diminution of, nor create any limitation upon any right of City pursuant to this Lease to

terminate this Lease for subsequent violation or default, or for continuation or repetition of the original violation or default.

12.05 Attorney's Fees And Expenses.

In the event Airline defaults under this Lease and City employs attorneys or incurs other expenses for the collection of Airline rent or any other amounts due hereunder, or for the enforcement or performance or observance of any obligation or agreement on the part of Airline herein contained, Airline shall, within thirty (30) days after written demand which shall include a detailed description of the fees and expenses, pay to City the reasonable fees and expenses of such attorneys and any such other reasonable expenses incurred by City as a result of such default.

Article XIII.

13.01 Sublease, Assignment, Or Other Transfer.

(a) Airline covenants that it will not assign, sublet, transfer, convey, sell, mortgage, pledge, or encumber (any of the foregoing events being referred to as a "Transfer") the Demised Premises or any part thereof, or any rights of Airline hereunder or any interest of Airline in this Lease, without in each instance having first obtained the prior written consent of City as set forth below, which consent the City agrees will not be withheld or delayed unreasonably; provided, however, that without such consent, Airline may assign its rights under this Lease to another directly or indirectly owned subsidiary of A.M.R. Corporation with which Airline may merge or consolidate in accordance with Article XIII. The consent of the City Council on behalf of City shall be required for any Transfer of (i) all of Airline's Demised Premises, (ii) all rights of Airline hereunder, or (iii) all of Airline's interest in this Lease. The consent of the Commissioner on behalf of City shall be required for any other Transfer. Consent by City to any type of Transfer described in this paragraph or elsewhere in this Lease shall not in any way be construed to relieve Airline, its successors or assigns, from obtaining further authorization from City for any subsequent Transfer of any nature whatsoever.

(b) Notwithstanding any Transfer, with or without City consent, Airline shall remain fully liable for the payment of all of its rent and fully responsible for the performance of all of its other obligations hereunder, unless otherwise agreed by the City in writing.

(c) Any and all requests by Airline for consent under paragraph (a) of this Section 13.01 shall be made in writing by certified mail to City and shall include copies of the proposed documents of Transfer. Said documents of

Transfer shall completely disclose any and all considerations made or to be made to Airline for said Transfer.

(d) If any Transfer shall occur, whether or not prohibited by this Section 13.01, City may collect rents and other sums to be paid under the Lease from any assignee, sublessee, or other transferee of Airline, and in such event shall apply the net amount collected to rents and other sums to be paid under the Lease payable by Airline hereunder without such action by City releasing Airline from this Lease or any of its obligations hereunder. If any Transfer prohibited by this Section 13.01 shall occur without consent of City and City collects rents and other sums to be paid under the Lease from any assignee, sublessee or other transferee of Airline, and applies the net amount collected in the manner described in the preceding sentence, such actions by City shall not be deemed to be a waiver of the covenant contained in this Section 13.01, or constitute acceptance of such assignee, sublessee, or transferee by City.

13.02 City's Right To Assign.

The City reserves the right to assign or transfer all or any part of its interests hereunder.

Article XIV.

14.01 Notices.

All notices to City provided for herein shall be in writing and may be delivered personally or sent by registered or certified mail, postage prepaid, addressed to the Commissioner of Aviation of the City of Chicago, 20 North Clark Street, Suite 3000, Chicago, Illinois 60602, or to such other address as City may designate from time to time by notice to Airline. All notices to Airline provided for herein shall be in writing and shall be personally delivered or sent by registered or certified mail, postage prepaid, addressed to American Airlines, Inc., P.O. 15.02 Force Majeure.

(a) Neither party hereto shall be liable to the other for any failure, delay, or interruption in performing its obligations hereunder due to causes or conditions beyond its control, including, without limiting the generality hereof, strikes, boycotts, picketing, slow-downs, work stoppages, or other labor actions affecting City or Airline, their respective contractors or subcontractors, except to the extent that such failure, delay or interruption is a result of the negligence of that party; provided that nothing in this Section 15.02 is intended or shall be construed to abate, postpone, or in any respect diminish Airline's obligations to make any payments due City pursuant to this Lease.

(b) City shall be under no obligation to supply any service if and to the extent and during any period that the supplying of any such service or the use of any component necessary therefor shall be prohibited or rationed by any applicable federal, state, county, or municipal law, rule, regulation, requirement, order, or directive.

(c) Airline shall not be liable for the performance of any obligation of Airline hereunder if such performance is prohibited or materially affected by the issuance of any order, rule, or regulation, or the taking of any action by the Federal Aviation Administration or other government authority substantially affecting Airline's use of the Airport, however, that none of the foregoing is due to any fault of Airline.

15.03 No Partnership Or Agency.

Nothing herein contained is intended or shall be construed to or in any respect create or establish any relationship other than that of lessor and lessee, and nothing herein shall be construed to establish any partnership, joint venture, or association or to make Airline the general representative or agent of City for any purpose whatsoever.

15.04 Conflict Of Interest.

Airline hereby represents and warrants that it is not, and, to the best of Airline's knowledge its contractors are not in violation of Chapter 2-156 of the Municipal Code of Chicago. Any contract negotiated, entered into or performed in violation of said chapter shall be invalid and without any force whatsoever.

15.06 Representatives.

City and Airline shall each designate a representative who, except as otherwise provided hereunder, shall be authorized to act for City and Airline, respectively, with respect to any actions to be taken by either of them under the the terms of this Lease. Except as specifically set forth herein, for the purposes of actions to be taken by it or by the Commissioner, City's representative shall be the Commissioner. Airline's representative shall be Airline's general manager at the Airport or his/her designee. Any party hereto may change its designated representative by notice to the other party pursuant to the provisions of Section 14.01.

Article XVI.

16.01 Entire Agreement.

This Lease, and the exhibits attached hereto and incorporated hereby, shall constitute the entire agreement between the parties and no other warranties, inducements, considerations, promises, or interpretations shall be implied or impressed upon this Lease that are not expressly addressed herein and therein.

16.02 Counterparts.

This Lease is comprised of several identical counterparts, each to be fully executed by the parties and each to be deemed an original having identical legal effect.

16.03 Amendments.

No changes, amendments, modifications, cancellation, or discharge of this Lease, or any part thereof, shall be valid unless in writing and signed by the parties hereto, or their respective successors and assigns.

16.04 Governing Law.

This Lease shall be governed in accordance with the laws of the State of Illinois. Airline hereby irrevocably submits to the original jurisdiction of those state or federal courts located within the County of Cook, State of Illinois, with regard to any controversy arising out of, relating to, or in any way concerning the execution or performance of this Lease.

16.05 Consent To Service Of Process And Jurisdiction.

All judicial proceedings brought by Airline with respect to this Lease shall be brought in Cook County, Illinois, and by execution and delivery of this Lease, Airline accepts, for itself and in connection with its properties, generally and unconditionally, the nonexclusive jurisdiction of the aforesaid courts, and irrevocably agrees to be bound by any final judgment rendered thereby from which no appeal has been taken or is available. Airline irrevocably waives any objection (including without limitation any objection of the laying of venue or based on the grounds of forum nonconveniens) which it may now or hereafter have to the bringing of any action or proceeding with respect to this Lease in the jurisdiction set forth above. Nothing herein shall affect the right to serve process in any other manner permitted by law or shall limit the right of City to bring proceedings against Airline in the courts of any other jurisdiction.

16.06 Severability.

If any provisions of this Lease shall be held or deemed to be or shall in fact be inoperative or unenforceable as applied in any particular case in any jurisdiction or jurisdictions or in all cases because it conflicts with any other provision or provisions hereof or of any constitution, statute, ordinance, rule of law, or public policy, or for any other reason, such circumstances shall not have the effect of rendering the provision in question inoperative or unenforceable in any other case or circumstances, or of rendering any other provision or provisions herein contained invalid, inoperative or unenforceable to any extent whatever. The invalidity of any one or more phrases, sentences, clauses, or sections contained in this Lease shall not affect the remaining portions of this Lease or any part thereof.

16.07 Assigns.

All of the terms and conditions of this Lease shall be binding upon and inure to the benefit of the parties hereto and their respective legal representatives, successors, transferees, and assigns.

16.08 Cooperation By Parties.

Airline further agrees to implement such measures as may be necessary to ensure that its staff and, to the extent otherwise required herein, and its contractors shall be bound by the provisions of this Lease. If this Lease is terminated for any reason, or if it expires by its own terms, Airline shall make every reasonable effort to assure an orderly transition to another fixed base operator or provider of general aviation services, if any; orderly demobilization of its own operation; and the uninterrupted provision of fixed base operations and general aviation services. During any transition period Airline shall otherwise comply with the reasonable requests and requirements of the Commissioner in connection with the termination or expiration of this Lease.

16.09 Consents And Approvals.

Unless otherwise expressly stated herein, any consents and approvals to be given by City shall be made by the Commissioner.

Article XVII.

17.01 Condemnation.

(a) Any condemnation or taking of such a substantial part of the Demised Premises that results in the Demised Premises being unsuitable or incapable of being used for the purposes stated herein, is hereafter referred to as a "Total Taking". In the event of a Total Taking, this Lease shall be terminated as of the earlier to occur of the date of the filing of the petition to condemn or the date of the Total Taking. Airline may thereafter petition the Court for an award of the value of its leasehold interest, which may include the amount of the unamortized construction costs under Section 4.02.

(b) In the event of a taking of the Demised Premises other than a Total Taking (a "Partial Taking"), this Lease shall remain in effect as to the remaining portion of the Demised Premises and, if the proceeds of any award received by City on account of such Partial Taking are sufficient to restore or replace the Demised Premises so taken, City shall deposit the proceeds of the award with respect to the Demised Premises in a construction fund and City shall forthwith (subject to unavoidable delays) apply such proceeds to the restoration or replacement of the Demised Premises so taken as nearly as possible to (i) such condition, character and utility value as existed prior to such Partial Taking or (ii) to such other condition, character and value as may be agreed upon by City and Airline. If for any reason the proceeds of an award received by City for a Partial Taking are in excess of the amount

necessary to restore or replace the Demised Premises, the amount of such excess shall be paid to City. If such proceeds are insufficient to replace or restore the Demised Premises as provided in (i) and (ii) above, City shall not be required to restore or replace in excess of the proceeds of such awards, and Airline may, at its option, terminate the Lease upon thirty (30) days written notice to the City, and Airline may thereafter petition the Court for an award of the value of its leasehold interest, which may include the amount of the unamortized construction costs under Section 4.02.

Any rent due the City by Airline shall be subject to abatement in an amount directly proportional to the extent Airline's ability to conduct normal operations on and from the Demised Premises is impaired by such condemnation, unless and until City thereafter furnishes adequate temporary substitute facilities and expeditiously restores the facilities so condemned; provided, however, that if City fails to furnish adequate temporary substitute facilities so that Airline's ability to conduct normal operations on the Demised Premises is substantially impaired for more than thirty (30) days, then Airline at its option may, by giving to City at least thirty (30) days prior notice, terminate this Lease. City shall have no liability to Airline for City's failure to furnish temporary substitute facilities or for City's failure to restore such facilities expeditiously.

[(Sub)Exhibit "A" attached to this Ground Service Equipment Staging and Storage Facility I Lease Agreement printed on page 51937 of this Journal.]

(Sub)Exhibits "B", "C" and "D" attached to this Ground Service Equipment Staging and Storage Facility I Lease Agreement read as follows:

(Sub)Exhibit "B".
(To Ground Service Equipment Staging And Storage Facility I Lease Agreement)

The Following Procedures Shall Apply During The Planning, Design, Fabrication, Installation, Construction, Start-Up And Testing (Collectively, The "Work") Of Any Improvements Made To The Demised Premises:

1. Responsibilities And Obligations Of Airline.

(a) Airline shall perform the Work, or cause the Work to be performed, on the Demised Premises. Airline may award contracts for the Work to be performed using the fast track construction procedures described below, but the Airline shall remain responsible for the Work. In order to expedite the Work, Airline may negotiate as well as competitively bid its contracts.

(b) Airline agrees that it will complete the Work, or cause the Work to be completed, with all reasonable diligence.

(c) Airline shall designate a Project Manager who shall manage and coordinate the Work. City shall direct all communications regarding the Work to the Project Manager.

(d) Airline shall not under any circumstances utilize the services of any entity which, to its knowledge, after due inquiry, is barred from contracting with the City pursuant to any law, ordinance, rule or regulation.

2. Airline Coordination With City.

(a) The Commissioner shall designate a Work Liaison to represent the City in all matters relating to the performance of the Work hereunder and shall constitute the point of receipt for all submittals, unless expressly specified otherwise herein. In all provisions of this (Sub)Exhibit B in which the City's written approval or consent is required, such approval or consent must be that of the Work Liaison, unless Airline is notified in writing by the Commissioner otherwise. Any approval or consent by the Work Liaison hereunder shall not create any liability on the City, in whole or in part, for the professional or technical accuracy of the Airline's Work to be provided hereunder. The Work Liaison shall be the final arbiter of any decision to be made or consent or approval to be given under this (Sub)Exhibit. The Work Liaison shall further assist Airline in coordinating Airline's Work with other projects and operations at the Airport and in Airline's contacts with any federal, state or local government agencies. Airline will provide reasonable administrative space for the Work Liaison on or contiguous to the Demised Premises. The Work Liaison shall provide such personnel only as may be needed from time to time.

(b) Airline shall perform, or cause to be performed, all Work with that degree of skill, care and diligence normally exercised by professionals performing equivalent work in projects of a scope and magnitude comparable to the Project, and further, in accordance with O'Hare Rules and Regulations in existence at the time the Work commences and such other reasonable construction procedures and standards as may be established or approved by the City for the Project. Such procedures and standards will not impose on the Airline stricter or more rigid procedures or standards than are then being applied to other airlines at the Airport. Such procedures and standards will be established by the City in a timely manner and made available to the Airline upon its request.

3. Requirements For Work.

(a) Project Planning, Design and Fabrication Phase: Airline shall

submit, or cause to be submitted, at such levels as may be reasonably requested by the Work Liaison, proposed drawings, plans and specifications for the Improvements for review and comment by the Work Liaison. Such drawings, plans and specifications, and all amendments thereto, shall be subject to the approval of the Work Liaison, which approval shall not be unreasonably withheld. The Work Liaison will approve, conditionally approve or disapprove submissions of any such drawings, plans and specifications within fifteen (15) business days, or as mutually agreed to following receipt thereof. Any conditional approval or disapproval shall be accompanied by an explanation. If Airline intends to adopt fast track construction procedures, Airline must still complete each contract package to a reasonable level of detail (including alternate designs selected by the Airline for major structural, mechanical, electrical and architectural elements) that will provide the Work Liaison adequate information upon which to base its review and approval. Airline shall not proceed with construction operations until all necessary approvals have been obtained.

(b) Fast Track Construction Procedures: Airline will conform with Sections 1 -- 7 (submittal and review procedures) of the Chicago O'Hare International Airport Design and Construction Standards.

This is to say that:

(i) Airline will submit a description of the Project for conceptional approval in order to allow the architectural and engineering team to proceed with subsoil investigation and topographical survey of the sites.

(ii) Upon completion of the two items stated in (i) above, the Schematic Design Phase for each construction phase (insofar as they are not combined) will be submitted for approval.

(iii) After approval of the Schematic Design Phase, scope drawings and outline specifications will be submitted for approval under the Design Development Phase for each construction phase (insofar as they are not combined).

(iv) After approval of the Design Development Phase and beginning with the Construction Document Phase, the architectural and engineering team will submit for approval specific items such as foundation drawings, site improvements, et cetera, in order to allow Airline's contractor to start construction prior

to approval of the Construction Document Phase, as a whole.

All submittals referenced above should be considered the minimum number of submittals. City may reasonably direct Airline to provide other submittals as required. The Airline and its architectural/engineering/contractor team will work with the Commissioner of the Department of Aviation and the Work Liaison in order to ensure a smooth process during the design development and construction document phases as well as ensuring compliance with all Design and Construction Standards for the Airport. City recognizes that the fast track procedures are being used and acknowledges that the City's approval of various elements of the Work will be required on a timely basis.

(c) Airline to Provide Information: Prior to the commencement of the Work, and thereafter as often as may be necessary to provide the Work Liaison with current and complete information about the Work, Airline shall submit to the Work Liaison (i) initial and updated construction schedules (which shall be reviewed by the Work Liaison for their impact and relation to other projects or operations at the Airport) indicating the proposed and/or actual sequence of all Work, and the estimated date of completion of the Work under each of Airline's contracts; (ii) initial and updated site utilization plans, including limit lines, on-site storage and office areas, and proposed temporary alterations or detours and support detours intended to maintain public access and support services, to, from, through or past operating facilities at the Airport; and (iii) Airline's initial and updated cost estimates for the Improvements, individually and aggregated.

(d) Installation, Construction, Start-Up and Testing Phase:

(i) The Work Liaison shall have the right to monitor the Work on the Improvements to assure that the facilities which comprise the Improvements are installed and constructed in conformity with the approved drawings, plans and specifications, and in accordance with the applicable standards therefor. In order to assist the Work Liaison in monitoring the installation, construction, start-up and testing of the Improvements, Airline's Project Manager shall submit, or cause to be submitted, to the Work Liaison copies of all

-- surveys, soil borings, and field test reports;

-- contracts for services, labor and materials;

-- material certificates and samples;

-- approved shop drawings;

-- lien waivers, payrolls, and requests for payment by contractors of any tier;

-- progress reports;

-- notification of substantial completion of the Improvements and final acceptance thereof;

-- maintenance and operations manuals in connection with building systems;

-- as-built drawings;

-- warranties;

-- test and start-up results; and

-- any other documents related to the Improvements which may be reasonably requested by the City.

(ii) No change order which materially changes the scope of the Work or the Improvements shall be implemented by Airline without review and approval by the Work Liaison. The Work Liaison will approve, conditionally approve or disapprove submissions of change orders within fifteen (15) business days following receipt thereof. Any conditional approval or disapproval shall be accompanied by an explanation.

(iii) In the event the Work Liaison determines that the Work is at material variance from the approved drawings, plans, and specifications or applicable standards, Airline shall use its best efforts to expeditiously resolve such variance through immediate consultation with its contractors. Until it has been determined by the Work Liaison that the Work has been performed without material variance from the approved drawings, plans and specifications and applicable standards, the Work Liaison may, by

written notice to Airline, (i) suggest to Airline that Airline withhold payments from any contractor or subcontractor which has performed, in the judgment of the Work Liaison, Work which is at material variance from the approved drawings, plans and specifications, or applicable standards or (ii) suggest to Airline that it stop Work on any portion of the Improvements directly affected by such variance from the approved drawings, plans, specifications and applicable standards. If Airline's response is unacceptable in the reasonable opinion of the Work Liaison, the Work Liaison shall have the right to direct Airline to stop any other Work on any portion of the Improvements that are at variance with the approved drawings, plans, and specifications or applicable standards until the affected Work is corrected or replaced.

Any Work which is at material variance from the approved drawings, plans and specifications or applicable standards shall be corrected or replaced by Airline, directly or through its contractors, provided that the Work Liaison has informed Airline of such variance within ten (10) business days following the performance of such Work, unless the variance affects the structural integrity or safety of the Improvements or the variance could not have been discovered with due diligence, in which case the Work Liaison shall inform Airline of such variance as soon as reasonably practicable. If such Work is not corrected or replaced by Airline within thirty (30) days following notice from the Work Liaison to Airline, the Work Liaison may cause such work to be corrected or replaced, with its own forces or otherwise, at the expense of Airline, provided that in the event such Work cannot be corrected or replaced within said thirty (30) day period, Airline shall be afforded such additional time as the Work Liaison may determine to be reasonably necessary to correct or replace such Work.

4. Compensation To City.

(a) Within no less than thirty (30) days after receipt of an invoice from the Work Liaison in accordance with subparagraph (c) below, Airline shall compensate the Work Liaison for the cost of those services provided by the Work Liaison. The Work Liaison agrees to keep its costs as low as reasonably

practicable, provided, however, that in no event shall the aggregate amount of reimbursement to the Work Liaison hereunder exceed in any equal year any Work that is or has been performed an amount equal to one and one-half percent (1½%) of the aggregate expenditures during such year for the Work on the Improvements, and, provided further however, that the Work Liaison shall be entitled to an equitable adjustment of such amount in proportion to any increase in its services as a result of a change in the scope of Work or in the Improvements.

(b) During the continuation of Work, the Work Liaison shall provide Airline with an estimate of the Work Liaison's required manhours and budgets each month, with regard to its services. Thereafter, on a semi-annual basis, the Work Liaison shall provide Airline with a detailed review and analysis of actual manhours and expenditures against estimates, including reallocation of budgets if required, with regard to its services. More frequent reviews will be provided upon Airline's reasonable request therefor.

(c) The Work Liaison shall provide Airline with monthly invoices that describe time charges for the Work Liaison staff assigned to the Improvements, and any other costs associated with the services provided by the Work Liaison. Airline may, within ten (10) days of such provision, request a meeting with the Work Liaison to review and discuss such invoices. The Work Liaison shall hold such meeting or provide Airline with a reasonable opportunity for such a meeting, and give due consideration to Airline's concerns and recommendations regarding such invoices. Airline may further request, at Airline's expense, City to review and audit Work Liaison invoices related to the Improvements at any time. Airline shall, upon reasonable request therefor, receive copies of all such audits performed by City and may interview the personnel who performed such audits. In no event shall Airline withhold from the Work Liaison the payment of any undisputed amount.

5. Access To Work Site.

Airline, and its architects, engineers, materialmen, and contractors of any tier, shall have, at their own risk, full and complete access to the Demised Premises and such other areas in the Airport as may be necessary to perform Work on the Improvement, provided that such access shall not reasonably interfere with the operations of or other projects at the Airport. The Work Liaison shall have authority to arrange, and shall arrange such access in a timely fashion.

Notwithstanding any other statements herein, it is Airline's responsibility to coordinate its Work with the operations of all other projects at the Airport. Airline is solely responsible for any costs relating to such coordination.

6. No Warranty By City.

Airline warrants that it has inspected the Demised Premises, and any other areas in the Airport as may be necessary; it was permitted access to any person or information in connection with its investigation of the Demised Premises and such areas; that the time for such investigation was adequate; that from its own analysis it has satisfied itself as to the nature of all things needed to perform the Work; and that except only for those representations expressly contained in this Lease, no other representation, statement or promise, oral or in writing, of any kind whatsoever made regarding the nature, existence or location of materials, structures, obstructions, utilities or conditions, surface, subsurface or environmental, which may be encountered at the Demised Premises or such other areas.

c. Traffic And Right-Of-Way Adjustments.

Right-of-way adjustments in major streets such as South Kedzie Avenue or West 63rd Street are not proposed in this Plan. However, internal alleys may be vacated or rerouted to facilitate the assembly of land into reasonably shaped and viable disposition parcels.

The Tenant releases C.M.C., its agents and employees, from all liability for loss or damage caused by fire or other casualty by reason of any injury to or destruction of any real or personal property of any kind, owned by the Tenant, or in which the Tenant is interested, which now is or may hereafter be placed on any part of the Premises.

Tenant further agrees to indemnify and hold harmless C.M.C., its agents and employees, from and against all loss or damage to person or property, including the person or property of the parties hereto, arising from fire or other casualty originating on the leased Premises.

(16) Abandonment. An abandonment of the Premises by the Tenant shall operate as an absolute and immediate termination of this lease at the sole option of C.M.C.. Failure of the Tenant to occupy or use the Premises for the purposes hereinbefore

mentioned for ninety (90) days at any one time shall be deemed an abandonment thereof.

(17) Display of Signs. The Tenant agrees that no part of the Premises shall be used for display of signs or advertisements other than those that may be connected with the business of the Tenant; and such signs or advertisements relating to Tenant's business shall be subject to the approval of C.M.C.. It is agreed that the Tenant shall not allow others to post bills or signs thereon. However, C.M.C. reserves unto itself, its designees, grantees, heirs, successors and assigns, the right to enter onto and erect upon the Premises any signs, billboards, displays, advertisements, or similar structures, so long as Tenant's use of the Premises is not unreasonably interfered with. Any rents, revenues, commissions, or other monies earned by C.M.C. shall accrue solely to C.M.C., the Tenant not being entitled to all or any part of such earnings.

(18) Liability. The Tenant agrees to defend, indemnify and hold harmless C.M.C., its agents, employees, contractors, invitees and licensees, from and against any and all claims, demands, expenses, liabilities, or causes of action arising out of injury to or death or any of the parties hereto and their agents, employees, contractors, invitees and licensees, or injury to or death of any other person or persons, or loss of or damage to property of any of the parties hereto, and their agents, employees, contractors, invitees and licensees, or loss of or damage to the property of any other person or persons while on or about the said Premises, when such injury, death, loss or damage arises from or is connected with (1) any act or omission to act on the part of the Tenant, its agents, employees, contractors, invitees, licensees, designers, heirs and successors; (2) any condition whatsoever on the Premises no matter how such condition was or may be caused; or (3) any injury or death to any person or persons or loss of or damage to any property caused by locomotives, if any are operated upon or in the vicinity of the Premises. The words "person or persons" as used herein, shall include individuals, partnerships, firms, trusts, associations and corporations or any form of business entity.

(19) Failure of Title. In consideration of the privilege hereby given the Tenant to occupy and use the Premises hereunder leased, and the benefits and privileges to be derived therefrom, the Tenant, in addition to payment of rental as hereinbefore provided, hereby releases C.M.C. from all liability for damage by reason of want or failure at any time of title or possession on the part of C.M.C. to any part of the Premises.

(20) Rights and Duties Upon Termination. Upon the termination of this lease, all rights of the Tenant hereunder shall absolutely cease; and upon or prior to such termination, the Tenant shall surrender the Premises to the possession of C.M.C. in substantially the same condition as the Premises were in on the commencement of the term hereof (or, with respect to buildings or structures placed on the Premises during the term hereof by Tenant and subject to the provisions of the next succeeding two paragraphs, in substantially the same condition as such buildings or structures were in on the date such buildings or structures were so placed and completed), reasonable wear and tear and loss by casualty excepted. No termination of this lease shall affect the liabilities or obligations of either party (whether of payment of rent, indemnification or other) which may have accrued prior to such termination. Acceptance of rental in advance by C.M.C. shall not operate as a waiver of C.M.C.'s right to terminate this lease as herein provided, whether such acceptance is made before or after notice of termination has been given as herein provided.

Should this lease be terminated by either party by written notice as hereinbefore provided and prior to the time of which said rental has been paid, C.M.C. hereby agrees to refund on demand to the Tenant any unearned rental heretofore paid unless such termination is caused by a violation of or default by Tenant under any of the terms and conditions contained herein

In case the Tenant, within ten (10) days from the expiration of this Agreement, either by lapse of time, by abandonment or any other means provided for herein, shall fail to remove from the Premises herein leased any and all property, real, personal or mixed, owned or controlled by Tenant, Tenant hereby agrees that C.M.C., at its sole option, may upon written notice to Tenant, use, dispose of, wreck, sell, lease, remove, or otherwise deal with said property entirely as C.M.C. wishes, free and clear of all liens, encumbrances or claim of ownership of Tenant or others or C.M.C., at its sole option, may require Tenant to remove all or any part of said property, including but not limited to buildings, foundations, fixtures or personalty. Without limiting the provisions of the preceding sentence, upon the request of C.M.C., Tenant also shall remove, within the said ten (10) day period, any building or structure Tenant has placed on the Premises.

If C.M.C. elects to have any property referred to in the preceding paragraph removed, disposed of or wrecked, and Tenant shall fail to do so within ten (10) days from the expiration of this Agreement, whether by lapse of time, by abandonment or by notice of termination as provided for herein, C.M.C. may, at its

option, effect such removal, disposal or wreckage. Tenant hereby agrees to pay the cost thereof, net of the salvage value of said property, if any.

Upon the termination of this lease in any manner, the Tenant will surrender possession to the said C.M.C. or its authorized agents, peaceably and without delay, and in case of any failure to do so, the Tenant shall be guilty of forcible entry and detainer of said premises, and no notice to quit or demand of possession shall be necessary to sustain such action, but all such notices are hereby waived by Tenant or by anyone in privity with Tenant.

If Tenant shall fail to deliver possession of the premises in accordance with the provisions of this lease upon or prior to the termination of this lease, Tenant shall pay, as liquidated damages for each day such possession is withheld, twice the rent payable for the last day of the term hereof. The provisions of the preceding sentence shall not operate as a waiver by C.M.C. of any right of re-entry provided for herein nor shall the receipt of said rent or any part hereof or any other act in apparent affirmance of tenancy operate as a waiver of the right to terminate this lease or as a recognition of a new or extended tenancy of tenant.

(21) Assignment. This lease shall not be assigned, nor shall said Premises, nor any part thereof, be sublet, nor shall the Tenant consent that the same be used or occupied by any party other than the Tenant without the written consent of C.M.C.. Tenant shall not be released from any obligations hereunder due to such assignment or subletting.

(22) Notices. Any notice from C.M.C. to Tenant, or Tenant to C.M.C., shall be deemed duly served if mailed by certified mail, return receipt requested, to Tenant at the Premises and, in addition, to the Supervisor of Leasing, Bureau of Asset Management, Department of General Services, 320 North Clark Street, Suite 505, Chicago, Illinois 60610 or at such other place as the Lessee from time to time may appoint in writing in which event the notice or demand shall be deemed to have been served at the time copies are received at said locations. Hereof, or if to C.M.C., c/o Sales and Property Management, Chicago Milwaukee Corporation, 547 West Jackson Boulevard, Suite 1510, Chicago, Illinois 60606, and the customary certified mail receipt shall be evidence of such service. Either party hereto may change the address to which said notices shall be sent by giving written notice of such change to the other party hereto, as provided, but unless such notice of change is given to the other party, notices will be deemed served upon proof of proper mailing to the above address, or personal service of any such written notice may be

made in lieu of service by mail, provided that such personal notice is made upon an officer or designated agent of either party hereto.

(23) Hazardous Commodities. The Tenant further agrees that it shall not store or keep or allow any other person to store or keep, in any quantity or amount whatsoever, on or within the Premises during the term of this lease, any article of any kind which is of an extra hazardous or of an explosive, combustible or flammable nature, or is deemed a hazardous waste or hazardous chemical under applicable environmental protection laws, without the express written consent of C.M.C.. Without limiting the provisions of the previous sentence, unless authorized under paragraph 5 of this lease, the loading, storage, and/or unloading of flammable liquids, chlorine, liquified petroleum gas, flammable compressed gases, and/or anhydrous ammonia is hereby expressly prohibited.

(24) Environmental. Tenant agrees that in the use and occupancy of the Premises, Tenant will comply with all applicable federal, state and local laws, ordinances, standards, regulations or permit requirements relating to environmental pollution or contamination; and Tenant agrees to protect, defend, indemnify and hold harmless C.M.C., its officers, directors, employees, agents, designees, successors, heirs and assigns from any and all claims, demands, lawsuits, or liability or loss, fines, damage, injury and death, and all expenses and costs, including reasonable attorneys' fees, resulting from the violation of any law, ordinance, standard, regulation or permit requirement relating to environmental pollution or contamination. It is expressly understood and agreed that this indemnity, as the same relates to environmental pollution or contamination, shall survive the expiration, termination, and any and all extensions and assignments of this lease.

(25) Insolvency and Damages. In the event the Tenant shall be adjudged a bankrupt, or file a petition for an arrangement with his creditors under the bankruptcy act, or shall voluntarily offer to creditors terms of composition, or in case a receiver shall be appointed to take charge of and conduct the affairs of the Tenant, then and upon the happening of any such events, and unless the trustee in bankruptcy or receiver or such creditors shall immediately thereafter assume and shall fulfill the Tenant's obligations hereunder, C.M.C. May, without notice to Tenant or anyone else, terminate this lease, and, in the event of such termination, C.M.C. shall have and shall be allowed, as a provable claim in such bankruptcy, or creditors, or receivership proceeding, damages for Tenant's breach of this lease, in an amount equal to the rent reserved in this lease for the residue of the term hereof.

(26) Eminent Domain. In the event of a taking by right of eminent domain of all or any part of the Premises during the existence of this lease, or of the occurrence of any acts of a public authority giving rise to an action for damages to the premises or any improvements hereafter placed on the Premises by Tenant, the Tenant shall have the right to the compensation awarded or paid for such taking or damage to the extent only of the value of, or damages to, the buildings, machinery, structures, fixtures and other improvements placed or erected thereon by the Tenant valued as then affixed to or used in connection with the Premises; and Tenant shall have no right to the compensation awarded or paid for such taking or damage to the land itself, or other improvements, if any, all compensation awarded or paid for such taking or damage to the land or other improvements, as distinguished from the improvements placed or erected thereon by the Tenant, shall inure to C.M.C. only. The phrase "Taking by Right of Eminent Domain" as used herein shall include a statutory proceeding to effect condemnation, a sale to an authority which would commence condemnation proceedings but for such sale, and where the Premises has been effectively taken, substantially interfered with, or taken without just compensation, such that C.M.C. has the right to file an inverse condemnation action. The term of this lease shall cease from the date possession is delivered to such condemning authority and Tenant shall have no claim for the value of any unexpired term of the lease. In no event shall the Tenant have any rights or interest in any value attributed to the land or leasehold.

(27) Insurance. Tenant acknowledges that it is self insured.

(28) Clarification of Indemnity. It is agreed between the parties hereto that all references to indemnification in this agreement include but are not limited to attorneys' fees and court costs.

(29) No Offsets. Any claims or obligations whatsoever which may be owed tenant by C.M.C. shall not be offset against any of Tenant's obligations under the terms of this lease.

(30) Interest on Overdue Payments. Anything to the contrary herein contained notwithstanding, nonpayment of rentals and other obligations on the due date hereunder shall result in the charge to an obligation on the part of Tenant to pay interest at the highest rate which is legally enforceable on the overdue rentals and other obligations, for the period of time during which they remain unpaid; and, in addition, Tenant shall be liable for attorneys' fees and costs incurred by C.M.C. in connection therewith. C.M.C.'s right to interest and its charge

therefor shall not constitute a waiver of any other right or remedy which C.M.C. has hereunder or pursuant to law.

(31) Execution of Lease by C.M.C.. The submission of this document for examination and negotiation does not constitute an offer to lease, or a reservation of, or option for the Premises, and this document shall become effective and binding only upon the execution and delivery hereof by C.M.C. to Tenant. All negotiations, considerations, representations and understandings between C.M.C. and Tenant are incorporated herein.

(32) All the covenants, terms, conditions, rights and obligations herein shall inure to the benefit of and be binding upon the parties hereto and their heirs, executors, administrators, successors and assigns.

(33) In the event of Lessee's breach of this lease, or a violation of any of Lessee's covenants, obligations and restrictions under this lease, Lessor has the right, but not the obligation, to file an action or actions against the Lessee for said breach or violation. All of Lessor's reasonable attorney's fees which arise as a result of Lessee's breach or violation, shall be paid by Lessee to Lessor within 30 days of Lessee's receipt of a bill therefor.

(34) Surrender of Demised Premises. Upon termination of this lease, whether by lapse of time or otherwise, or upon any termination of this lease, Tenant shall surrender and vacate the demised Premises to C.M.C. in a clean, good and tenantable condition with all salt and residue removed at Tenant's sole cost or expense.

WHEREAS, Mr. Hayes was recognized as a man of dignity and conscience by his peers, who selected him as president of the Chicago Bar Association in 1984; and
