The amount of the refund for each person shall be the total of the payments made by that person for all properties pursuant to the Special Service Area Number 12 tax levy, first reduced by applying the percentage, and then further reduced by the full amount of any setoff; provided, however, that no refund shall be provided with respect to any property if the general real estate taxes for the years 1991 through 1994, inclusive, have not been paid in full. For purposes of this ordinance:

a. Where the taxes or tax lien for any year have been purchased in accordance with the Illinois Property Tax Code, 35 ILCS 200/1-1, et seq., each person claiming a refund shall submit with such claim assurances,

satisfactory to the department, that other claims for refund representing the same payments pursuant to the Special Service Area Number 12 tax levy will not be submitted or pursued. To the extent that taxes have been paid in protest or to the extent that a certificate of error or other request for property tax relief has not been finally resolved, each person claiming a refund shall submit with such claim assurances, satisfactory to the department, that there will not be any additional recovery of money paid pursuant to the Special Service Area Number 12 tax levy following receipt of a refund, if any.

b. The records of the Cook County Treasurer shall be conclusive as to whether the taxes have been paid as to any property.

SECTION 2. Notification. Within sixty (60) days of passage and publication of this ordinance, the department shall provide for notice to be sent by certified mail to each person who is shown as assessee of record for any property. Such notice shall describe the availability of refunds and the procedure for making a claim, and shall include a claim form. In addition, within sixty (60) days of passage and publication of this ordinance, the department shall cause to be published in a newspaper of general circulation in the city of Chicago a notice describing the availability of refunds and the procedure for making a claim and shall specify an address from which a claimant may obtain a claim form by mail or in person.

SECTION 3. Submission of Claim. All claims for refund shall be submitted using forms provided by the department and shall include the name of the person seeking the refund, the property identification number and the address of the property for which a refund is claimed, the tax year or years for which the claim is being made, the amount of tax paid pursuant to the Special Service Area Number 12 tax levy by year, a statement whether the taxes or tax lien have been purchased for any tax year between 1991 and 1994, inclusive, a statement whether, with respect to any payment of taxes for any tax year between 1991 and 1994, inclusive, any payment has been made in protest or any certificate of error or other request for property tax relief has not been finally resolved, the address to which the refund amount should be sent, and other appropriate information or documentation that the department may require, including but not limited to adequate proof of payment. a. with respect to claims by persons to whom forms were sent by certified mail, within ninety (90) days of the date any such notice is sent; or

b. with respect to claims by persons to whom forms were not sent by certified mail, within ninety (90) days of the final day of publication described in Section 2 above.

SECTION 4. Disposition of Claim. Upon receipt of a claim, the department shall refer the claim to the Departments of Buildings, Revenue, Streets and Sanitation, and Water, to determine if any setoff is applicable against the claim. Not later than one hundred eighty (180) days after the completion of the mailing and publication described in Section 2 above, the department shall make a determination as to all claims, and shall cause to be sent by United States mail to each claimant a written notice of its determination. In the event that the determination is made to grant a refund, a check for the amount of the refund shall accompany the notice. In the event that a setoff is applied, the notice shall include a statement describing the nature and amount of each such reduction. In the event that the determination is to deny the claim, the notice shall contain an explanation of the basis for denial. The department shall include with each notice of a reduced refund or denial of a claim, a description of the right to appeal the determination and the procedure for such an appeal as provided in this ordinance.

SECTION 5. Appeal. The sole right to appeal the determination of the department shall be by filing an appeal in strict accordance with this section. Regardless of whether a hearing takes place, such an appeal shall be limited to the following issues:

a. whether the applicant paid the taxes upon which a claim for refund is based;

b. whether the person entitled to a refund is deceased, no longer exists, or is otherwise not legally able to accept the refund, and the applicant is legally entitled in the capacity of successor, representative, executor, or substitute of or to the entitled person, or is entitled in a similar capacity; and

c. solely with respect to any setoff that is not reflected in a lien of record, whether a setoff is applicable or the amount of the setoff is correct.

All appeals shall be submitted using forms provided by the department and shall include the name of the person appealing a determination, a copy of the claim for refund including all attachments, the notice of determination including all statements and explanations, the basis for appeal, the requested relief, other appropriate information or documentation that the appellant deems relevant to his or her appeal, and if desired, a request for hearing. An appeal pursuant to this ordinance must be received by the department within thirty (30) days of the date that a notice of determination of denial of a claim or granting a refund in an amount that is less than that claimed is sent by United States mail to a claimant. Upon receipt, the department shall transmit such appeal to the city of Chicago's

office of administrative adjudications, together with the department's request for a hearing, if desired. To the extent not inconsistent with this ordinance, appeals shall be conducted in accordance with the applicable provisions of Article I of Chapter 2-14 of the Municipal Code of Chicago. If, after reviewing the materials submitted, the assigned hearing officer determines that there are no genuine issues of material fact, the hearing officer may determine the appeal based solely on such materials. If, upon such review, the hearing officer determines that there are genuine issues of material fact, the hearing officer shall schedule the matter for hearing.

SECTION 6. Application of Setoff. Upon completion of any appeal or the expiration of the time for any such appeal, the department is hereby authorized to transfer funds in the amount of the setoff, if any, to the appropriate fund and shall notify the appropriate department of the recovery of the debt.

SECTION 4. The Department may consider development proposals which consist of not less than five (5) properties located within a community. Applicants who receive financial assistance under this Program must not be in default under any other City loan program or contract, or in arrears on any water, sewer, real estate, or sales tax or assessment, parking tickets, or any other amounts owed to the City personally or by any partnership, corporation, joint venture or land trust in which the applicant has at least a five percent (5%) beneficial interest.

SECTION 5. The Department is authorized to prepare Program applications ("Applications") designed to solicit all necessary information to evaluate proposals for participation in the Program. The Department shall charge a nonrefundable application fee of Two Hundred Fifty Dollars ($250). The application fee may be used by the Department for costs incurred by the Department in connection with the implementation of affordable housing programs. The Department will evaluate all complete Applications and may negotiate alternative terms with applicants if it deems such terms to be in the best interest of the City. The Department shall make recommendations to the City Council regarding the acceptance of each Application. Those applicants approved by the City Council for participation in the Program are hereafter referred to as "Developers".

SECTION 6. The City may provide financial assistance in the following manner:

(a) Development Subsidy. Developers may request certain sums to subsidize development costs for each Single-Family Home or for each Two-flat Building, as the case may be, to be rehabilitated pursuant to the Program. The amount of such subsidy shall be the difference between the development costs and the appraised value of the land and building in question after the rehabilitation work has been completed.

(b) Recapture of Development Subsidy. At the closing of the Single-Family Home or Two-flat Building, as the case may be, from Developer to the initial homebuyer ("Buyer") the Buyer shall be required to execute and deliver to the City a mortgage ("Mortgage") in the amount of the Development Subsidy in such form as has been approved by the Department and the Corporation Counsel. The Mortgage shall require in part that the Buyer shall pay the City an amount equal to a portion of the difference between the resale price and the original purchase price, if the Buyer resells the Single-Family Home or Two-flat Building, as the case may be, within the five (5) year period ("Affordability Period") after the date on which the Buyer purchased said Single-Family Home or Two-flat Building. The actual amount due and owing from the Buyer upon resale shall be determined by the Development Subsidy as described in the Mortgage being proportionally forgiven during the Affordability Period on each anniversary date of the closing in which the Buyer continues to utilize the Single-Family Home or Two-flat Building as its primary domicile. The repayment of the Development Subsidy shall also be governed by the provisions of this Program and the Act and any regulations pertaining thereto, unless and to the extent such provisions and regulations have been modified or formally waived (or an equivalent of such waiver has been granted) by the United States Department of Housing and Urban Development. In no event shall said amount exceed the aggregate Development Subsidy provided by the City pursuant to Section 6(a) above.

SECTION 7. Current and former employees of the City (other than those persons described in this Section 7) who meet the eligibility requirements under the Program shall not be subject to the restrictions of Section 2-156-110 of the Municipal Code of Chicago, but only as that section pertains to the participation of said employees as Buyers under the Program; that the following current employees of the City, and the following former employees of the City for a one (1) year period after termination of his/her employment with the City, shall be subject to the restrictions of Section 2-156-110 of the Municipal Code of Chicago, as that section pertains to the participation of said employees as Buyers under the Program; any employee who, during his/her tenure of employment with the City: (i) exercises or has exercised any contract management authority with respect to the Program; or (ii) is or was in a position to participate in a decision-making process with respect to the Program; or (iii) gains or has gained confidential information with regard to the Program; and that any current or former employee of the City described in the immediately preceding sentence who, through fraud or misrepresentation, participates as a Buyer in the Program, shall be subject to legal action by the City to recover any loss suffered by the City as occasioned by such fraud or misrepresentation or any benefit received by such current or former employee as a result of such fraud or

misrepresentation; provided further, that any such current employee of the City shall also, in such circumstances, be subject to termination of his/her employment by the City.

SECTION 8. The ordinance passed by the City Council on July 10, 1996 (Council Journal of Proceedings, pages 25072 -- 25076) authorizing a similar program is hereby repealed.

SECTION 9. This ordinance shall take effect immediately upon its passage.

Obligations Of The Parties.

A. The Non-Federal Sponsor's Obligations.

1. Using its funds and the funds to be reimbursed by the Government, the Non-Federal Sponsor shall expeditiously construct the Project.

2. The Non-Federal Sponsor shall contribute thirty-five percent (35%) of the total NED costs and one hundred percent (100%) of incremental and betterment costs.

3. The Non-Federal Sponsor shall prepare and furnish the Government, for review, a proposed Operation, Maintenance, Repair, Rehabilitation and Replacement Manual (hereinafter the "O.M.R.R. & R. Manual"). The failure of the Non-Federal Sponsor to prepare an acceptable "O.M.R.R.&R. Manual shall not negate the Non-Federal Sponsor's responsibility to provide for the operation, maintenance, repair, rehabilitation and replacement of the completed Project, in accordance with Article X of this Agreement, until and unless the Project is deauthorized by the Congress of the United States.

4. As further specified in Article V of this Agreement, the Non-Federal Sponsor shall provide all lands, easements, and rights-of-way required for the construction, operation, maintenance, repair, rehabilitation and replacement of the Project, and shall perform or ensure performance of all relocations that the Non-Federal Sponsor and the Government determine are necessary for the construction, operation, maintenance, repair, rehabilitation and replacement of the Project.

5. The Government shall be afforded the opportunity to review and comment on the solicitations for all contracts, including relevant plans and specifications, prior to the Non-Federal Sponsor's issuance of such solicitations. In the event that the Non-Federal Sponsor proposes to do work with its own forces, the Government shall be afforded the opportunity to review and approve the plan of work and materials to be incorporated into the work. No construction shall commence under this Agreement until the designs, detailed plans and specifications, and arrangements for prosecution of the work have been approved in writing by the District Engineer, United States Army Corps of Engineers, Chicago District (hereinafter referred to as the "District Engineer") or his representative, all bids received and the proposed provisions of any contract shall be subject to review within five (5) working days of receipt of the complete bid package or contract document by the Government prior to contract award. The District Engineer shall certify in writing that the provisions of Article III C and D have been met. In addition, all proposed changes in approved designs, plans and specifications also must be reviewed and approved by the District Engineer or his representative in writing in advance of the related construction where practicable. Such reviews shall be completed not later than five (5) working days from receipt of complete documentation unless the proposed changes are of such volume or complexity as to render the above review period unreasonable as agreed by the parties. To the extent possible, the Non-Federal Sponsor also shall afford the Government the opportunity to review and comment on all contract claims prior to resolution thereof. Such reviews shall be completed not later than five (5) working days from receipt of complete documentation unless the proposed changes are of such volume or complexity as to render the above review period unreasonable as agreed by the parties. The Non-Federal Sponsor shall consider in good faith the comments of the Government made as a result of its review, but the contents of solicitations, award of contracts, execution of contract

modifications, issuance of change orders, resolution of contract claims, and performance of all work on the Project (whether the work is performed under contract or by Non-Federal Sponsor personnel), shall be exclusively within the control of the Non-Federal Sponsor. However, the failure of the Non-Federal Sponsor to comply with direction received from the District Engineer, with respect to the project, may result in the costs associated with such work being determined ineligible for reimbursement.

6. The Non-Federal Sponsor shall not use federal funds to meet the Non-Federal Sponsor's share of the total NED costs or incremental costs under this Agreement unless the federal granting agency verifies in writing that the expenditure of such funds is expressly authorized.

7. The Government recognizes that the Non-Federal Sponsor shall seek appropriations for the Project on a fiscal year basis. The Non-Federal Sponsor shall include in its budget requests for funds sufficient to meet the obligations and make the payments required under this Agreement, and will use all reasonable and lawful means to secure the funding necessary to make such payments and meet such obligations. The Non-Federal Sponsor reasonably believes that funds in amounts sufficient to allow it to meet in full its payment and performance requirements will be made available. In addition, in the event that the Non-Federal Sponsor does not acquire appropriations in amounts sufficient to meet its performance and payment responsibilities hereunder, the Non-Federal Sponsor shall use its best efforts to satisfy any performance or payment requirements under this Agreement from any source of funds legally available for this purpose. In agreeing to this language the Government reserves any rights it may have to protect its interests should such appropriations not be made available to the Non-Federal Sponsor.

B. Obligations Of The Government.

1. Subject to the availability of funds and the limitations on reimbursement contained in this Agreement, the Government shall contribute a total of sixty-five percent (65%) of total NED costs.

2. The Government shall perform a final accounting in accordance with Article IV C of this Agreement to determine the credits afforded to and cash contributions provided by the Non-Federal Sponsor toward the total project costs in accordance with this Article and Articles VI and XV of this Agreement and to determine whether the Non-Federal Sponsor has met its obligations under paragraphs A1-6 of this Article.

3. The Government may perform periodic inspections to verify progress of construction, and a final inspection to establish the beginning of operation and maintenance by the Non-Federal Sponsor. The Government is authorized to inspect the Project at any and all times. Costs incurred by

the Government in furtherance of this paragraph shall be included in the total project costs.

Articles III.

Manner Of Performing The Proposed Work.

A. The Non-Federal Sponsor assumes full and exclusive responsibility for construction of the Project.

B. In the event that the Non-Federal Sponsor elects to construct betterments during the period of construction, the Non-Federal Sponsor shall notify the Government in writing and describe the betterments it intends to construct. The Non-Federal Sponsor shall be solely responsible for all costs due to the requested betterments, including costs associated with obtaining permits and shall pay all such costs directly to its contractor or contractors and without reimbursement by the Government.

C. The Non-Federal Sponsor shall procure all necessary permits and licenses, comply with all applicable laws, regulations, ordinances and other rules of the United States of America, of the state or political subdivisions thereof wherein the work is done, or of any other duly constituted public authority, including the laws and regulations specified in Article VII of this Agreement.

D. Any contract awarded by the Non-Federal Sponsor for the proposed work under this Agreement shall include provisions consistent with all applicable Federal laws and regulations.

At least quarterly, the Non-Federal Sponsor shall provide the Government with its projections of total project costs. At least quarterly the Government shall provide the Non-Federal Sponsor with a report setting forth all contributions or reimbursements to the Non-Federal Sponsor provided to date and the current projections of NED costs, of the components of these costs, of the maximum total NED costs determined in accordance with Article XX of this Agreement; of each party's share of total project and NED costs, of the Non-Federal Sponsor's proportionate share, of the Federal proportionate share and of the funds the Government projects it shall

reimburse the Non-Federal Sponsor for the upcoming fiscal year or the funds required from the Non-Federal Sponsor for its cost-sharing for the upcoming fiscal year, and of the Non-Federal Sponsor's contributions for betterments in accordance with Article III B of this Agreement. On the effective date of this Agreement, total NED costs are projected to be Ten Million One Hundred Thirty-two Thousand Five Hundred Fifteen Dollars ($10,132, 515), the Non-Federal Sponsor's cash required to meet its total financial obligations for construction is projected to be Four Million Three Hundred Twenty Thousand One Hundred Sixty-five Dollars ($4,320,165); the Government's reimbursement under Article II B 1 is projected to be Six Million One Hundred Twenty-four Thousand Three Hundred Twenty-eight Dollars ($6,124,328). Such amounts are estimates subject to adjustment by the Government and are not to be construed as the total financial responsibilities of the Government and the Non-Federal Sponsor.

B. The Government shall provide the reimbursement required under Article II B 1 of this Agreement in accordance with the provisions of this paragraph.

1. Periodically, but not more frequently than once every thirty (30) days, the Non-Federal Sponsor shall provide the District Engineer, Chicago District, or his representative with a proper invoice, describing the amount of funds it has expended, since the previous invoice for project design and construction (including expenditures under Articles II, VIII, XV A, and XIX of this Agreement) and the amount thereof that comprises betterment costs. Not later than thirty (30) days thereafter, the Government, subject to review and approval of such invoice, and subject to the availability of funds, shall reimburse the Non-Federal Sponsor an amount equal to the Federal proportionate share of the expended amount excluding betterment costs, reduced by the Non-Federal Sponsor's proportionate share of costs incurred by the Government for the Project since the previous invoice.

2. Periodically, but not more frequently than once every thirty (30) days, the Non-Federal Sponsor shall provide the District Engineer, Chicago District, or his representative with documentation of the values, as determined in accordance with Article VI of this Agreement, of land easements, rights-of-way, and relocations required for the NED Plan and provided by the Non-Federal Sponsor since the previous documentation. Not later than thirty (30) days thereafter, the Government, subject to the availability of funds, shall reimburse the Non-Federal sponsor an amount equal to the Federal proportionate share of the documentation values.

C. Upon completion of the project or termination of this Agreement, and upon resolution of all relevant claims and appeals, the Government shall conduct a final accounting and furnish the Non-Federal Sponsor with the results of the final accounting. The final accounting shall determine total

Project costs, total NED costs, incremental costs, each party's contribution provided thereto, and each party's required share thereof. The final accounting shall take no longer than one hundred twenty (120) days from receipt of all required supporting documentation from the Non-Federal Sponsor and its contractor.

1. In the event the final accounting shows that the total reimbursement provided by the Government is less than its required share of the total NED costs as set forth in Article II B 1 of this Agreement, the Government shall, subject to the availability of funds, no later than ninety (90) calendar days after completion of final accounting, make a cash payment to the Non-Federal Sponsor of whatever sum is required to meet the Government's required share of total NED costs. In the event existing funds are not available to make the required cash payment, the Government shall seek such appropriations as are necessary to make the refund.

2. In the event the final accounting shows that the total contribution provided by the Government exceeds its required share of total NED costs as set forth in Article II B 1 of this Agreement, the Non-Federal Sponsor shall refund the excess to the Government no later than ninety (90) calendar days after written notice by the Government that the final accounting is complete. In the event existing funds are not available to refund the excess to the Government, the Non-Federal Sponsor shall seek such funds as are necessary to make the refund. In the event that such funds are not made available within a reasonable amount of time, the Government may off-set any amounts owed against any other projects with the same Non-Federal Sponsor authorized under Section 101(a)(12) of WRDA 96 and may use any other procedures permitted by law. The Non-Federal Sponsor shall be liable for interest under Article XIV D of this Agreement with the interest beginning to accrue after the ninety (90) calendar days lapse.

D. The amount of credit or reimbursement for which the Non-Federal Sponsor may be eligible under this article shall not be subject to interest charges and shall not be adjusted to reflect changes in price levels between the time that construction of the Project was completed and the time the credit is afforded or reimbursement is made.

Credit For The Value Of Lands, Relocations And Disposal Areas.

A. The Non-Federal Sponsor shall receive credit toward its share of total NED costs for the value of the lands, easements, rights-of-way, and suitable borrow and dredged or excavated material disposal areas that the Non-Federal Sponsor must provide pursuant to Article V of this Agreement for the NED Plan, and for the value of the relocations that the Non-Federal Sponsor must perform or for which it must ensure performance pursuant to Article V of this Agreement for the NED Plan. However, the Non-Federal Sponsor shall not receive credit for the value of any lands, easements, rights-of-way, relocations, or borrow and dredged or excavated material disposal areas that have been provided previously as an item of cooperation for another Federal project. The Non-Federal Sponsor also shall not receive credit for the value of lands, easements, rights-of-way, relocations, or borrow and dredged or excavated material disposal areas to the extent that such items are provided using Federal funds unless the Federal granting agency verifies in writing that such credit is expressly authorized by statue.

B. For the sole purpose of affording credit in accordance with this Agreement, the value of lands, easements, and rights-of-way, including those necessary for relocations, borrow materials, and dredged or excavated material disposal, shall be the fair market value of the real property interests, plus certain incidental costs of acquiring those interests, as determined in accordance with the provisions of this paragraph.

1. Date of Valuation. The fair market value of lands, easements, or rights-of-way owned by the Non-Federal Sponsor on the effective date of this Agreement shall be the fair market value of such real property interests as of the date the Non-Federal Sponsor awards the first construction contract for the Project, or, if the Non-Federal Sponsor performs the construction with its own labor, the date that the Non-Federal Sponsor begins construction of the Project. The fair market value of lands, easements, or rights-of-way acquired by the Non-Federal Sponsor after the effective date of this Agreement shall be the fair market value of such real property interests at the time the interests are acquired.

2. General Valuation Procedure. Except as provided in paragraph B 3 of this article, the fair market value of lands, easements, or rights-of-way shall be determined in accordance with paragraph B 2 (a) of this article, unless thereafter a different amount is determined to represent fair market value in accordance with paragraph B 2 (b) of this article.

a. The Non-Federal Sponsor shall obtain, for each real property interest, an appraisal that is prepared by a qualified appraiser who is acceptable to the Non-Federal Sponsor and the Government. The appraisal must be prepared in accordance with the applicable rules of just compensation, as specified by the Government. The fair market value shall be the amount set forth in the Non-Federal Sponsor's appraisal, if such appraisal is approved by the Government. In the event the Government does not approve the Non-Federal Sponsor's appraisal, the Non-Federal Sponsor may obtain a second appraisal, and the fair market value shall be the amount set forth in the Non-Federal Sponsor's second appraisal, if such appraisal is approved by the Government. In the event the Government does not approve the Non-Federal Sponsor's second appraisal, or the Non-Federal Sponsor chooses not to obtain a second appraisal, the Government shall obtain an appraisal, and the fair market value shall be the amount set forth in the Government's appraisal, if such appraisal is approved by the Non-Federal Sponsor. In the event the Non-Federal Sponsor does not approve the Government's appraisal, the Government, after consultation with the Non-Federal Sponsor, shall consider the Government's and the Non-Federal Sponsor's appraisals and determine an amount based thereon, which shall be deemed to be the fair market value.

b. Where the amount paid or proposed to be paid by the Non-Federal Sponsor for the real property interest exceeds the amount determined pursuant to paragraph B 2 (a) of this article, the Government, at the request of the Non-Federal Sponsor, shall consider all factors relevant to determining fair market value and, in its sole discretion, after consultation with the Non-Federal Sponsor, may approve in writing an amount greater than the amount determined pursuant to paragraph B 2 (a) of this article, but not to exceed the amount actually paid or proposed to be paid. If the Government approves such an amount, the

fair market value shall be the lesser of the approved amount or the amount paid by the Non-Federal Sponsor, but no less than the amount determined pursuant to paragraph B 2 (a) of this article.

3. Eminent Domain Valuation Procedure. For lands, easements, or rights-of-way acquired by eminent domain proceedings instituted after the effective date of this Agreement, the Non-Federal Sponsor shall, prior to instituting such proceedings, submit to the Government notification in writing of its intent to institute such proceedings and an appraisal of the specific real property interests to be acquired in such proceedings. The Government shall have sixty (60) days after receipt of such a notice and appraisal within which to review the appraisal, if not previously approved by the Government in writing.

a. If the Government previously has approved the appraisal in writing, or if the Government provides written approval of, or takes no action on, the appraisal within such sixty (60) day period, the Non-Federal Sponsor shall use the amount set forth in such appraisal as the estimate of just compensation for the purpose of instituting the eminent domain proceeding.

b. If the Government provides written disapproval of the appraisal, including the reasons for disapproval, within such sixty (60) day period, the Government and the Non-Federal Sponsor shall consult in good faith to promptly resolve the issues or areas of disagreement that are identified in the Government's written disapproval. If, after such good faith consultation, the Government and the Non-Federal Sponsor agree as to an appropriate amount, then the Non-Federal Sponsor shall use that amount as the estimate of just compensation for the purpose of instituting the eminent domain proceeding. If, after such good faith consultation, the Government and the Non-Federal Sponsor cannot agree as to an appropriate amount, then the Non-Federal Sponsor may use the amount set forth in its appraisal as the estimate of just compensation for the purpose of instituting the eminent domain proceeding.

c. For lands, easements or rights-of-way acquired by eminent domain proceedings instituted in accordance with sub-paragraph B 3 of this article, fair market value shall be either the amount of the court award for the real property interests taken, to the extent the Government determined such interests are required for the construction, operation, and maintenance of the Project, or the amount of any stipulated settlement or portion thereof that the Government approves in writing.

4. Incidental Costs. For lands, easements or rights-of-way acquired by the Non-Federal Sponsor within a five (5) year period preceding the

effective date of this Agreement, or at any time after the effective date of this Agreement, the value of the interest shall include the documented incidental costs of acquiring the interest, as determined by the Government, subject to an audit in accordance with Article XII C of this Agreement to determine reasonableness, allocability, and allowability of costs. Such incidental costs shall include, but not necessarily be limited to, closing and title costs, appraisal costs, survey costs, attorney's fees, plat maps and mapping costs, as well as the actual amounts expended for payment of any Public Law 91-646 relocation assistance benefits provided in accordance with Article V E of this Agreement.

C. After consultation with the Non-Federal Sponsor, the Government shall determine the value of relocations in accordance with the provisions of this paragraph.

1. For a relocation other than a highway, the value shall be only that portion of relocation costs that the Government determines is necessary to provide a functionally equivalent facility, reduced by depreciation, as applicable, and by the salvage value of any removed items.

2. Relocation costs shall include, but not necessarily be limited to, actual costs of performing the relocation; planning, engineering and design costs; supervision and administration costs; and documented incidental costs associated with performance of the relocation, but shall not include any costs due to betterments, as determined by the Government, nor any additional cost of using new material when suitable used material is available. Relocation costs shall be subject to an audit in accordance with Article XII C of this Agreement to determine reasonableness, allocability, and allowability of costs.

D. The value of the improvements made to lands, easements, and rights-of-way for the proper disposal of dredged or excavated material shall be the costs of the improvements, as determined by the Government, subject to an audit in accordance with Article XII C of this Agreement to determine reasonableness, allocability, and allowability of costs. Such costs shall include, but not necessarily be limited to, actual costs of providing the improvements; planning, engineering and design costs; supervision and administration costs; and documented incidental costs associated with providing the improvements, but shall not include any costs due to betterments, as determined by the Government.

Article VII.

Federal And State Laws.

In the exercise of their respective rights and obligations under this Agreement, the Non-Federal Sponsor and the Government agree to comply with all applicable Federal and State laws and regulations, including, but not limited to, Section 601 of the Civil Rights Act of 1964, Public Law 88-352 (42 U.S.C. 2000d) and Department of Defense Directive 5500.11 issued pursuant thereto, as well as Army Regulations 600-7, entitled "Nondiscrimination on the Basis of Handicap in Programs and Activities Assisted or Conducted by the Department of the Army".

Article VIII.

Project Coordination Team.

A. To provide for consistent and effective communication the Non-Federal Sponsor and the Government, not later than thirty (30) days after the effective date of this Agreement, shall appoint named senior representatives to a Project Coordination Team. Thereafter, the Project Coordination Team shall meet regularly until the end of the period of construction. The Government's Project Manager and a counterpart named by the Non-Federal Sponsor shall co-chair the Project Coordination Team.

B. The Government's Project Manager and the Non-Federal Sponsor's counterpart shall keep the Project Coordination Team informed of the progress of construction and of significant pending issues and actions, and shall seek the views of the Project Coordination Team on matters that the Project Coordination Team generally oversees.

C. Until the end of the period of construction, the Project Coordination Team shall generally oversee the Project including issues related to design; plans and specifications; scheduling; real property and relocation requirements; real property acquisition; contract awards and modifications; contract costs; the Government's cost projections; final inspection of the construction of functional portions of the Project; preparation of the proposed O.M.R.R. & R. Manual; anticipated requirements and needed capabilities for performance of operation, maintenance, repair, rehabilitation, and replacement of the Project; and other related matters.

D. The Project Coordination Team may make recommendations that it deems warranted to the Non-Federal Sponsor on matters that the Project Coordination Team generally oversees, including suggestions to avoid potential sources of dispute. The Non-Federal Sponsor in good faith shall

consider the recommendations of the Project Coordination Team. The Non-Federal Sponsor, having the legal authority and responsibility for construction of the Project, has the discretion to accept, reject, or modify the Project Coordination Team's recommendations. Except as otherwise provided in this Agreement, the Non-Federal Sponsor may not reject or modify the Project Coordination Team's recommendations when the purpose of such recommendations are to ensure that the Project complies with federal, state, or local laws or regulations.

E. The costs of participation in the Project Coordination Team shall be included in total project costs or total NED costs, and costs shared in accordance with the provisions of this Agreement.

Article IX.

Dispute Resolution.

As a condition precedent to a party bringing any suit for breach of this Agreement, that party must first notify the other party in writing of the nature of the purported breach and seek in good faith to resolve the dispute through negotiation. If the parties cannot resolve the dispute through negotiation, they may agree to a mutually acceptable method of non-binding alternative dispute resolution with a qualified third party acceptable to both parties. The parties shall each pay fifty percent (50%) of any costs for the services provided by such a third party as such costs are incurred. The existence of a dispute shall not excuse the parties from performance pursuant to this Agreement.

Article X.

Operation, Maintenance, Repair, Rehabilitation And Replacement (O.M.R.R. & R.).

A. Upon completion of construction and final inspection by the Government as provided for by Article II B 3 of this Agreement, the Non-Federal Sponsor shall operate, maintain, repair, rehabilitate and replace the entire Project or the functional portion of the Project, at no cost to the Government, in a manner compatible with the Project's design, its Operation, Maintenance, Repair, Rehabilitation and Replacement Manual, and in accordance with applicable federal and state laws as provided in Article VII of this Agreement, until and unless the Project is deauthorized by the Congress of the United States.

B. The Non-Federal Sponsor shall also be required to operate, maintain, repair, replace, and rehabilitate the existing South Water Filtration Plant cofferdam, at no cost to the Government, such that the structural integrity and crest of the cofferdam is preserved in a manner consistent with protection provided by the Government, until and unless the Project is deauthorized by the Congress of the United States.

C. The Non-Federal Sponsor hereby gives the Government a right to enter, at reasonable times and in a reasonable manner, upon property that the Non-Federal Sponsor owns or controls for access to the Project for the purpose of inspection and, if necessary, for the purpose of completing, operating, maintaining, repairing, replacing, or rehabilitating the Project. If an inspection shows that the Non-Federal Sponsor for any reason is failing to perform its obligations under this Agreement, the Government shall send a written notice describing the non-performance to the Non-Federal Sponsor. If, after thirty (30) calendar days from receipt of notice, the Non-Federal Sponsor continues to fail to perform, or diligently undertake reasonable efforts to cure the deficiency, then the Government shall have the right to enter, at reasonable times and in a reasonable manner, upon property that the Non-Federal Sponsor owns or controls for access to the Project for the purpose of completing, operating, maintaining, repairing, replacing, or rehabilitating the Project. No completion, operation, maintenance, repair, replacement, or rehabilitation by the Government shall operate to relieve the Non-Federal Sponsor of responsibility to meet the Non-Federal Sponsor's obligations as set forth in this Agreement, or to preclude the Government from pursuing any other remedy at law or equity to ensure faithful performance pursuant to this Agreement.

Article XI.

Indemnification.

The Non-Federal Sponsor shall hold and save the Government free from all damages arising from the design, construction, operation, maintenance, repair, rehabilitation and replacement of the Project, and any Project-related betterments, except for damages due to the fault or negligence of the Government or its contractors.

Article XII.

Maintenance Of Records And Audit.

A. Not later than forty-five (45) calendar days after the effective date of this Agreement, the Government and the Non-Federal Sponsor shall develop

procedures for keeping books, records, documents, and other evidence pertaining to costs and expenses incurred pursuant to this Agreement. These procedures shall incorporate, and apply as appropriate, the standards for financial management systems set forth in the Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments at 32 C.F.R. Section 33.20. The Government and the Non-Federal Sponsor shall maintain such books, records, documents, and other evidence pertaining to construction in accordance with these procedures and for a minimum of three (3) years after the period of construction and resolution of all relevant claims arising therefrom. To the extent permitted under applicable federal laws and regulations, the Government and the Non-Federal Sponsor shall each allow the other to inspect such books, documents, records and other evidence.

B. Pursuant to 32 C.F.R. Section 33.26, the Non-Federal Sponsor is responsible for complying with the Single Audit Act of 1984, 31 U.S.C. Sections 7501 -- 7507, as implemented by Office of Management and Budget (O.M.B.) Circular Number A-128 and Department of Defense Directive 7600.10. Upon request of the Non-Federal Sponsor and to the extent permitted under applicable federal laws and regulations, the Government shall provide to the Non-Federal Sponsor and independent auditors any information necessary to enable an audit of the Non-Federal Sponsor's activities under this Agreement. The costs of any non-federal audits performed in accordance with this paragraph shall be allocated in accordance with the provisions of O.M.B. Circulars A-87 and A-128, and such costs as are allocated to the Project shall be included in the total project costs or total NED costs and cost shared in accordance with the provisions of this Agreement.

C. In accordance with 31 U.S.C. Section 7503, the Government may conduct audits in addition to any audit that the Non-Federal Sponsor is required to conduct under the Single Audit Act. Any such Government audits shall be conducted in accordance with Government Auditing Standards and the cost principles in O.M.B. Circular Number A-87 and other applicable cost principles and regulations. The costs of Government audits performed in accordance with this paragraph shall be included in the total project costs or total NED costs and cost shared in accordance with the provisions of this Agreement.

Article XIII.

Relationship Of Parties.

A. In the exercise of their respective rights and obligations under this Agreement, the Government and the Non-Federal Sponsor each act in an

independent capacity, and neither is to be considered the officer, agent, or employee of the other.

B. In the exercise of its rights and obligations under this Agreement, neither party shall provide, without the consent of the other party, any contractor with a release that waives or purports to waive any rights such other party may have to seek relief or redress against such contractor either pursuant to any cause of action that such other party may have or for violation of any law.

Article XIV.

Termination Or Suspension.

A. If at any time the Non-Federal Sponsor fails to fulfill its obligations under Article II A 1-4, III, IV, or XIX C of this Agreement, or take reasonable efforts to cure the deficiency, within thirty (30) calendar days of written notice, the Assistant Secretary of the Army (Civil Works) shall terminate this Agreement or suspend future performance under this Agreement, after thirty (30) calendar days of written notice to the Non-Federal Sponsor, unless he determines that continuation of work on the Project is in the interest of the United States or is necessary in order to satisfy agreements with any other non-federal interests in connection with the Project.

B. If the Government fails to receive annual appropriations in amounts sufficient to meet Project expenditures for the then-current or upcoming fiscal year, the Government shall so notify the Non-Federal Sponsor in writing, and sixty (60) calendar days thereafter either party may elect without penalty to terminate this Agreement or to suspend future performance under this Agreement. In the event that either party elects to suspend future performance under this Agreement pursuant to this paragraph, such suspension shall remain in effect until such time as the Government receives sufficient appropriations or until either the Government or the Non-Federal Sponsor elects to terminate this Agreement.

C. In the event that either party elects to terminate this Agreement pursuant to this Article or Article XV of this Agreement, both parties shall conclude their activities relating to the Project and proceed to a final accounting in accordance with Article IV D of this Agreement.

D. Any termination of this Agreement or suspension of future performance under this Agreement in accordance with this Article or Article XV of this Agreement shall not relieve the parties of liability for any obligation previously incurred. Any delinquent payment owed by the Non-Federal Sponsor shall be charged interest at a rate, to be determined by the

Secretary of the Treasury, equal to one hundred fifty per centum (150%) of the average bond equivalent rate of the thirteen (13) week Treasury bills auctioned immediately prior to the date on which such payment became delinquent, or auctioned immediately prior to the beginning of each additional three (3) month period if the period of delinquency exceeds three (3) months.

Article XV.

Hazardous Substances.

A. After execution of this Agreement and upon direction by the Government, the Non-Federal Sponsor shall perform, or cause to be performed, any investigations for hazardous substances that the Government or the Non-Federal Sponsor determines to be necessary to identify the existence and extent of any hazardous substances regulated under the Comprehensive Environmental Response, Compensation, and Liability Act (hereinafter "C.E.R.C.L.A."), 42 U.S.C. Sections 9601-9675, that may exist in, on, or under lands, easements, and rights-of-way that the Non-Federal Sponsor, in consultation with the Government determines, pursuant to Article V of this Agreement, to be required for the construction, operation, maintenance, repair, rehabilitation, and replacement of the Project. However, for lands that the Government determines to be subject to the navigation servitude, only the Government shall perform such investigations unless the Government provides the Non-Federal Sponsor with prior specific written direction, in which case the Non-Federal Sponsor shall perform such investigations in accordance with such written direction. All actual costs incurred by the Non-Federal Sponsor for such investigations for hazardous substances shall be included in the total project costs or total NED costs and cost shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article XII C of this Agreement to determine reasonableness, allowability, and allocability of costs to the Project.

B. In the event it is discovered through any investigation for hazardous substances or other means that hazardous substances regulated under C.E.R.C.L.A. exist in, on, or under any lands, easements, or rights-of-way that the Non-Federal Sponsor and the Government determine, pursuant to Article II A 4 of this Agreement, to be required for the construction, operation, and maintenance of the Project, the Non-Federal Sponsor and the Government shall provide prompt written notice to each other, and the Non-Federal Sponsor shall not proceed with the acquisition of the real property interests until both parties agree that the Non-Federal Sponsor should proceed.

C. The Government and the Non-Federal Sponsor shall determine whether to initiate construction of the Project, or, if already in construction, whether to continue with work on the Project, suspend future performance under this Agreement, or terminate this Agreement for the convenience of Government, in any case where hazardous substances regulated under C.E.R.C.L.A. are found to exist in, on, or under any lands, easements, or rights-of-way that the Non-Federal Sponsor and the Government determine, pursuant to Article II A 4 of this Agreement, to be required for the construction, operation, maintenance, repair, rehabilitation, and replacement of the Project. Should the Government and the Non-Federal Sponsor determine to initiate construction or continue with construction after considering any liability that may arise under C.E.R.C.L.A., the Non-Federal Sponsor shall be responsible, as between the Government and the Non-Federal Sponsor, for the costs of clean-up and response, to include the costs of any studies and investigations necessary to determine an appropriate response to the contamination. Such costs shall not be considered a part of the total project costs. In the event the Non-Federal Sponsor fails to provide any funds necessary to pay for clean-up and response costs or to otherwise discharge the Non-Federal Sponsor's responsibilities under this paragraph upon direction by the Government, the Government may, in its sole discretion, either terminate this Agreement for the convenience of the Government, suspend future performance under this Agreement, or continue work on the Project.

D. The Non-Federal Sponsor and the Government shall consult with each other in accordance with Article VIII of this Agreement in an effort to ensure that responsible parties bear any necessary clean up and response costs as defined in C.E.R.C.L.A.. Any decision made pursuant to paragraph C of this article shall not relieve any third party from any liability that may arise under C.E.R.C.L.A..

E. As between the Government and the Non-Federal Sponsor, the Non-Federal Sponsor shall be considered the operator of the Project for purposes of C.E.R.C.L.A. liability. To the maximum extent practicable, the Non-Federal Sponsor shall operate, maintain, repair, replace, and rehabilitate the Project in a manner that will not cause liability to arise under C.E.R.C.L.A..

Article XVI.

Officials Not To Benefit.

No member of or delegate to the Congress, nor any resident commissioner, shall be admitted to any share or part of this Agreement, or to any benefit that may arise therefrom.

Article XVII.

Notices.

A. Any notice, request, demand, or other communication required or permitted to be given under this Agreement shall be deemed to have been duly given if in writing and either delivered personally or by telegram or mailed by first-class, registered, or certified mail, as follows:

If To The City Of Chicago:	Commissioner Department of Environment 25th Floor 30 North Lasalle Street Chicago, Illinois 60602
If To The Government:	District Engineer United States Army Corps of Engineers, Chicago District Suite 600 111 North Canal Street Chicago, Illinois 60606

B. A party may change the address to which such communications are to be directed by giving written notice to the other party in the manner provided in this article.

C. Any notice, request, demand, or other communication made pursuant to this article shall be deemed to have been received by the addressee at the earlier of such time as it is actually received or seven (7) calendar days after it is mailed.

Article XVIII.

Confidentiality.

To the extent permitted by the laws governing each party, the parties agree to maintain the confidentiality of exchanged information when requested to do so by the providing party.

Article XIX.

Historic Preservation.

A. The costs of identification, survey and evaluation of historic properties shall be included in total project costs or total NED costs and cost shared in accordance with the provisions of this Agreement.

B. As specified in Section 7(a) of Public Law 93-291 (16 U.S.C. Section 469c(a)), the costs of mitigation and data recovery activities associated with historic preservation shall be borne entirely by the Government and shall not be included in total project costs or total NED costs, up to the statutory limit of one percent (1%) of the total amount authorized to be appropriated for the Project.

C. The Government shall not incur costs for mitigation and data recovery that exceed the statutory one percent (1%) limit specified in paragraph B of this Article unless and until the Assistant Secretary of the Army (Civil Works) has waived that limit in accordance with Section 208(3) of Public Law 96-515 (16 U.S.C. Section 469c-2(3)). Any costs of mitigation and data recovery that exceed the one percent (1%) limit shall be included in total project costs or total NED costs and cost shared between the Non-Federal Sponsor and the Government in accordance with the provisions of this Agreement.

Article XX.

Section 902 Project Costs Limits.

The Non-Federal Sponsor has reviewed the provisions set forth in Section 902 of Public Law 99-662, as amended, and understands that Section 902 establishes the maximum amount of total project costs for the South Water Filtration Plant, Outer Breakwater, Lake Michigan, Illinois. Notwithstanding any other provision of this Agreement, the Government shall not make a new Project financial obligation, make a Project expenditure, or afford credit toward total project costs for the value of any contribution provided by the Non-Federal Sponsor, if such obligation, expenditure, or credit would result in total project costs exceeding this maximum amount, unless otherwise authorized by law. On the effective date of this Agreement, this maximum amount is estimated to be Fourteen Million Three Hundred Ninety-two Thousand Dollars ($14,392,000) as calculated in accordance with ER 1105-2-100 using October 1, 1996 price levels and allowances for projected future inflation. The Government shall adjust this maximum amount in accordance with Section 902.

Date: _____.

(Sub)Exhibit "A" referred to in this Project Cooperation Agreement reads as follows:

(Sub)Exhibit "A".
(To Project Cooperation Agreement)

1. Reference the Chicago Shoreline Project, "Design Memorandum One, Reach 5 -- South Water Purification Plant", dated May 1995.

2. The Chicago Shoreline Project was authorized in the 1996 Water Resources Development Act. Following the project authorization, the detailed Plans and Specifications, for "Reach 5, South Water Filtration Plant", were completed in preparation for contract procurement and project construction. The Plan and Specification design details underwent the Corps standard BCOE review process and were completed by: 1) overlaying the design presented in DM 1 onto detailed hydrographic survey cross sections, 2) making adjustments to the cross sections for variations in breakwater alignment, 3) adjusting structure crest orientation to facilitate constructability, and 4) adjust cross section limits to allow for construction tolerances and neatlines. The representative typical cross sections for the NED Plan are attached as (Sub)Exhibits A-1 through A-5 and representative typical cross sections for the L.L.P. are attached as (Sub)Exhibits A-6 through A-13.

3. For the initial estimate and calculation of the federal proportionate share, total project costs shall be computed as follows:

The contract bid price less any betterments will be used to determine the cost estimate for the construction work, which is based on typical drawings in (Sub)Exhibits A-6 through A-13. To that amount will be added a contingency of ten percent (10%). To that sum will be added eight percent (8%) for construction management costs. An additional two percent (2%) will be added to the resulting sum for engineering design

during construction. Computation of the estimated tonnage of stone to be placed by the Non-Federal Sponsor will be based on a factor of 1.6 tons per cubic yard to allow for spacing between stones.

4. For the initial estimate and calculation of the federal proportionate share, NED costs shall be computed as follows:

The unit prices for purchase and placement of stone by type as established in the lowest construction bid will be used to determine the cost estimate for the construction work, which is based on typical drawings in (Sub)Exhibits A-1 through A-5. The quantity estimates to which these unit prices are applied will be determined from the volumes indicated in (Sub)Exhibits A-6 through A-13 as adjusted to construct the NED Plan to the neat lines depicted in (Sub)Exhibits A-1 through A-5. Computation of the estimated tonnage of stone will be based on a conversion rate of 1.6 tons per cubic yard. To that amount will be added a contingency of ten percent (10%). To that sum will be added eight percent (8%) for construction management costs. An additional two percent (2%) will be added to the resulting sum for engineering design during construction.

5. For purposes of the final accounting for the Total Project Costs as defined in this Agreement, the quantity of stone required to construct the Locally Preferred Plan, and the associated costs therewith, shall be computed as follows:

A. use the actual tonnage of placed stone;

B. apply the contract unit prices ($/ton) for applicable stone categories to compute the costs.

6. For purposes of the final accounting for the NED Plan Costs as defined in the Agreement, the quantity of stone required to construct the NED Plan, and the associated costs therewith, shall be computed as follows:

A. use the "after" surveys provided by the selected contractor at twenty (20) foot intervals to determine the crest profile elevation to which the L.P.P. was built in excess of +10 Low Water Datum (L.W.D.). Calculate the area of stone at each section in excess of + 10 L.W.D.;

B. calculate the corresponding volume of excess stone using the average end area method;

C. convert the resulting volume of excess stone to tonnage on the basis of 1.6 tons per cubic yard;

D. apply the contract unit prices ($/ton) for applicable stone categories to compute the costs in excess of +10 L.W.D.; and

E. compute NED Plan stone cost as the difference between the L.P.P. stone costs defined in paragraph 5 above and the stone costs in excess of +10 L.W.D..

The Developer's right to challenge real estate taxes applicable to the Property is limited as provided for in Section 8.19 (c) below; provided, that such real estate taxes must be paid in full when due and may be disputed only after such payment is made. No such contest or objection shall be deemed or construed in any way as

relieving, modifying or extending the Developer's covenants to pay any such Governmental Charge at the time and in the manner provided in this Agreement unless the Developer has given prior written notice to D.P.D. of the Developer's intent to contest or object to a Governmental Charge and, unless, at D.P.D. 's sole option,

(i) the Developer shall demonstrate to D.P.D.'s satisfaction that legal proceedings instituted by the Developer contesting or objecting to a Governmental Charge shall conclusively operate to prevent or remove a lien against, or the sale or forfeiture of, all or any part of the Property to satisfy such Governmental Charge prior to final determination of such proceedings; and/or

(ii) the Developer shall furnish a good and sufficient bond or other security satisfactory to D.P.D. in such form and amounts as D.P.D. shall require, or a good and sufficient undertaking as may be required or permitted by law to accomplish a stay of any such sale or forfeiture of the Property during the pendency of such contest, adequate to pay fullyany such contested Governmental Charge and all interest and penalties upon the adverse determination of such contest.

(b) Developer's Failure to Pay or Discharge Lien. If the Developer fails to pay any Governmental Charge or to obtain discharge of the same, the Developer shall advise D.P.D. thereof in writing, at which time D.P.D. may, but shall not be obligated to, and without waiving or releasing any obligation or liability of the Developer under this Agreement, in D.P.D.'s sole discretion, make such payment, or any part thereof, or obtain such discharge and take any other action with respect thereto which D.P.D. deems advisable. All sums so paid by D.P.D., if any, and any expenses, if any, including reasonable attorneys' fees, court costs, expenses and other charges relating thereto, shall be promptly disbursed to D.P.D. by the Developer. Notwithstanding anything contained herein to the contrary, this paragraph shall not be construed to obligate the City to pay any such Governmental Charge. Additionally, if the Developer fails to pay any Governmental Charge, the City, in its sole discretion, may require the Developer to submit to the City audited Financial Statements at the Developer's own expense.

(c) Real Estate Taxes.

(i) Acknowledgement of Real Estate Taxes. The Developer agrees that (A) for the purpose of this Agreement, the total projected minimum assessed value of the Property that is necessary to support the debt service indicated ("Minimum Assessed Value") is shown on (Sub)Exhibit K attached hereto and incorporated herein by reference for the years noted on (Sub)Exhibit K; (B) (Sub)Exhibit K sets forth the specific improvements which will generate the fair market values, assessments, equalized assessed values and taxes shown thereon; and (C) the real estate taxes anticipated to be generated and

derived from the respective portions of the Property and the Project for the years shown are fairly and accurately indicated in (Sub)Exhibit K.

(ii) Real Estate Tax Exemption. With respect to the Property or the Project, neither the Developer nor any agent, representative, lessee, tenant, assignee, transferee or successor in interest to the Developer shall, during the Term of this Agreement, seek, or authorize any exemption (as such term is used and defined in the Illinois Constitution, Article IX, Section 6 (1970) for any year that the Redevelopment Plan is in effect.

(iii) No Reduction in Real Estate Taxes. Neither the Developer nor any agent, representative, lessee, tenant, assignee, transferee or successor in interest to the Developer shall, during the Term of this Agreement, directly or indirectly, initiate, seek or apply for proceedings in order to lower the assessed value of all or any portion of the Property or the Project below the amount of the Minimum Assessed Value as shown in (Sub)Exhibit K for the applicable year.

(iv) No Objections. Neither the Developer nor any agent, representative, lessee, tenant, assignee, transferee or successor in interest to the Developer, shall object to or in any way seek to interfere with, on procedural or any other grounds, the filing of any Underassessment Complaint or subsequent proceedings related thereto with the Cook County Assessor or with the Cook County Board of Appeals, by either the City or any taxpayer. The term "Underassessment Complaint" as used in this Agreement shall mean any complaint seeking to increase the assessed value of the Project up to (but not above) the Minimum Assessed Value as shown in (Sub)Exhibit K.

(v) Covenants Running with the Land. The parties agree that the restrictions contained in this Section 8.19 are covenants running with the land and the improvements thereon and this Agreement shall be recorded by the Developer as a memorandum thereof, at the Developer's expense, with the Cook County Recorder of Deeds on the Closing Date. These restrictions shall be binding upon the Developer and its agents, representatives, lessees, successors, assigns and transferees from and after the date hereof, provided however, that the covenants shall be released when the Redevelopment Area is no longer in effect. The Developer agrees that any sale, lease, conveyance or transfer of title to all or any portion of the Property or Redevelopment Area from and after the date hereof shall be made explicitly subject to such covenants and restrictions. Notwithstanding anything contained in this Section 8.19 (c) to the contrary, the City, in its sole discretion and by its sole action, without the joinder or concurrence of the Developer, its successors or assigns, may waive and terminate the Developer's covenants and agreements set forth in this Section 8.19(c).

(d) Insurance. In addition to the insurance required pursuant to Section 12 hereof, the Developer shall procure and maintain the following insurance:

(i) Prior to the execution and delivery of this Agreement and during construction of the Project, All Risk Property Insurance in the amount of the full replacement value of the Property.

(ii) Post-construction, throughout the Term of the Agreement, All Risk Property Insurance, including improvements and betterments in the amount of full replacement value of the Property. Coverage extensions shall include business interruption/loss of rents, flood and boiler and machinery, if applicable.

8.20 Survival Of Covenants.

All warranties, representations, covenants and agreements of the Developer contained in this Section 8 and elsewhere in this Agreement shall be true, accurate and complete at the time of the Developer's execution of this Agreement, and shall survive the execution, delivery and acceptance hereof by the parties hereto and (except as provided in Section 7 hereof, upon the issuance of a Certificate) shall be in effect throughout the Term of the Agreement.

Section 9.

Covenants/Representations/Warranties Of City.

9.01 General Covenants.

The City represents that it has the authority as a home rule unit of local government to execute and deliver this Agreement and to perform its obligations hereunder.

9.02 Survival Of Covenants.

All warranties, representations and covenants of the City contained in this Section 9 or elsewhere in this Agreement shall be true, accurate, and complete at the time of the City's execution of this Agreement, and shall survive the execution, delivery and acceptance hereof by the parties hereto and be in effect throughout the Term of the Agreement.

Section 10.

Developer's Employment Obligations.

10.01 Employment Opportunity.

The Developer, on behalf of itself and its successors and assigns, hereby agrees, and shall contractually obligate its or their various contractors, subcontractors or any Affiliate of the Developer operating on the Property (collectively, with the Developer, the "Employers" and individually, an "Employer") to agree, that for the Term of this Agreement with respect to the Developer and during the period of any other party's provision of services in connection with the construction of the Project or occupation of the Property:

(a) No Employer shall discriminate against any employee or applicant for employment based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income as defined in the City of Chicago Human Rights Ordinance, Chapter 2-160, Section 2-160-010, et seq., Municipal Code, except as otherwise provided by said ordinance and as amended from time to time (the "Human Rights Ordinance"). Each Employer shall take affirmative action to ensure that applicants are hired and employed without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income and are treated in a non-discriminatory manner with regard to all job-related matters, including without limitation: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Each Employer agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the City setting forth the provisions of this nondiscrimination clause. In addition, the Employers, in all solicitations or advertisements for employees, shall state that all qualified applicants shall receive consideration for employment without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income.

(b) To the greatest extent feasible, each Employer is required to present opportunities for training and employment of low- and moderate-income residents of the City and preferably of the Redevelopment Area; and to provide that contracts for work in connection with the construction of the Project be awarded to business concerns that are located in, or owned in substantial part by persons residing in, the City and preferably in the Redevelopment Area.

(c) Each Employer shall comply with all federal, state and local equal employment and affirmative action statutes, rules and regulations, including but not limited to the City's Human Rights Ordinance and the Illinois Human Rights Act, 775 ILCS 5/1-101, et seq. (1993), and any subsequent amendments and regulations promulgated thereto.

(d) Each Employer, in order to demonstrate compliance with the terms of this section, shall cooperate with and promptly and accurately respond to inquiries by the City, which has the responsibility to observe and report compliance with equal employment opportunity regulations of federal, state and municipal agencies.

(e) Each Employer shall include the foregoing provisions of subparagraphs (a) through (d) in every contract entered into in connection with the Project, and shall require inclusion of these provisions in every subcontract entered into by any subcontractors, and every agreement with any Affiliate operating on the Property, so that each such provision shall be binding upon each contractor, subcontractor or Affiliate, as the case may be.

(f) Failure to comply with the employment obligations described in this Section 10.01 shall be a basis for the City to pursue remedies under the provisions of Section 15.02 hereof.

10.02 City Resident Construction Worker Employment Requirement.

The Developer agrees for itself and its successors and assigns, and shall contractually obligate its General Contractor and shall cause the General Contractor to contractually obligate its subcontractors, as applicable, to agree, that during the construction of the Project they shall comply with the minimum percentage of total worker hours performed by actual residents of the City as specified in Section 2-92-330 of the Municipal Code of Chicago (at least fifty percent (50%) of the total worker hours worked by persons on the site of the Project shall be performed by actual residents of the City); provided, however, that in addition to complying with this percentage, the Developer, its General Contractor and each subcontractor shall be required to make good faith efforts to utilize qualified residents of the City in both unskilled and skilled labor positions.

The Developer may request a reduction or waiver of this minimum percentage level of Chicagoans as provided for in Section 2-92-330 of the Municipal Code of Chicago in accordance with standards and procedures developed by the Purchasing Agent of the City.

"Actual residents of the City" shall mean persons domiciled within the City. The domicile is an individual's one and only true, fixed and permanent home and principal establishment.

The Developer, the General Contractor and each subcontractor provide for the maintenance of adequate employee residency records to show that actual Chicago residents are employed on the Project. Each Employer shall maintain copies of personal documents supportive of every Chicago employee's actual record of residence.

Weekly certified payroll reports (United States Department of Labor Form WH-347 or equivalent) shall be submitted to the Commissioner of D.P.D. in triplicate, which shall identify clearly the actual residence of every employee on each submitted certified payroll. The first time that an employee's name appears on a payroll, the date that the Employer hired the employee should be written in after the employee's name.

The Developer, the General Contractor and each subcontractor shall provide full access to their employment records to the Purchasing Agent, the Commissioner of D.P.D., the Superintendent of the Chicago Police Department, the Inspector General or any duly authorized representative of any of them. The Developer, the General Contractor and each subcontractor maintain all relevant personnel data and records for a period of at least three (3) years after final acceptance of the work constituting the Project.

At the direction of D.P.D., affidavits and other supporting documentation will be required of the Developer, the General Contractor and each subcontractor to verify or clarify an employee's actual address when doubt or lack of clarity has arisen.

Good faith efforts on the part of the Developer, the General Contractor and each subcontractor to provide utilization of actual Chicago residents (but not sufficient for the granting of a waiver request as provided for in the standards and procedures developed by the Purchasing Agent) shall not suffice to replace the actual, verified achievement of the requirements of this section concerning the worker hours performed by actual Chicago residents.

When work at the Project is completed, in the event that the City has determined that the Developer has failed to ensure the fulfillment of the requirement of this section concerning the worker hours performed by actual Chicago residents or failed to report in the manner as indicated above, the City will thereby be damaged in the failure to provide the benefit of demonstrable employment to Chicagoans to the degree stipulated in this section. Therefore, in such a case of noncompliance, it is agreed that 1/20 of 1 percent (0.0005) of the aggregate hard construction costs set forth in the Project Budget (the product of .0005 x such aggregate hard construction costs) (as the same shall be evidenced by approved contract value for the actual contracts) shall be surrendered by the Developer to the City in payment for each percentage of shortfall toward the stipulated residency requirement. Failure to report the residency of employees entirely and correctly shall result in the surrender of the entire liquidated damages as if no Chicago residents were employed in either of the categories. The willful falsification of statements and the certification of payroll data may subject

the Developer, the General Contractor and/or the subcontractors to prosecution. Any retainage to cover contract performance that may become due to the Developer pursuant to Section 2-92-250 of the Municipal Code of Chicago may be withheld by the City pending the Purchasing Agent's determination as to whether the Developer must surrender damages as provided in this paragraph.

Nothing herein provided shall be construed to be a limitation upon the "Notice of Requirements for Affirmative Action to Ensure Equal Employment Opportunity, Executive Order 11246" and "Standard Federal Equal Employment Opportunity, Executive Order 11246", or other affirmative action required for equal opportunity under the provisions of this Agreement or related documents.

The developer shall cause or require the provisions of this Section 10.02 to be included in all construction contracts and subcontractors related to the Project.

10.03 The Developer's M.B.E./W.B.E. Commitment.

The Developer agrees for itself and its successors and assigns, and, if necessary to meet the requirements set forth herein, shall contractually obligate the General Contractor to agree that, during the construction of the Project:

a. Consistent with the findings which support the Minority-Owned and Women-Owned Business Enterprise Procurement Program (the "M.B.E./W.B.E. Program"), Section 2-92-420, et seq., Municipal Code of Chicago, and in reliance upon the provisions of the M.B.E./W.B.E. Program to the extent contained in, and as qualified by, the provisions of this Section 10.03, during the course of the Project, at least the following percentages of the total Project Budget (less the acquisition price of the Property or any portion thereof, if any) shall be expended for contract participation by M.B.E.s or W.B.E.s:

i. At least twenty-five percent (25%) by M.B.E.s.

ii. At least five percent (5%) by W.B.E.s.

b. For purposes of this Section 10.03 only, the Developer (and any party to whom a contract is let by the Developer in connection with the Project) shall be deemed a "contractor" and this Agreement (and any contract let by the Developer in connection with the Project) shall be deemed a "contract" as such terms are defined in Section 2-92-420, Municipal Code of Chicago.

c. Consistent with Section 2-92-440, Municipal Code of Chicago, the Developer's M.B.E./W.B.E. commitment may be achieved in part by the Developer's status as an M.B.E. or W.B.E. (but only to the extent of any actual work performed on the Project by the Developer), or by a joint venture with one or more M.B.E.s or W.B.E.s (but only to the extent of the lesser of (i) the M.B.E. or W.B.E. participation in such joint venture or (ii) the amount of any actual work performed on the Project by the M.B.E. or W.B.E.), by the Developer utilizing an M.B.E. or a W.B.E. as a General Contractor (but only to the extent of any actual work performed on the Project by the General Contractor), by subcontracting or causing the General Contractor to subcontract a portion of the Project to one (1) or more M.B.E.s or W.B.E.s, or by the purchase of materials used in the Project from one (1) or more M.B.E.s or W.B.E.s, or by any combination of the foregoing. Those entities which constitute both an M.B.E. and a W.B.E. shall not be credited more than once with regard to the Developer's M.B.E./W.B.E. commitment as described in this Section 10.03. The Developer or the General Contractor may meet all or part of this commitment through credits received pursuant to Section 2-92-530 of the Municipal Code of Chicago for the voluntary use of M.B.E.s or W.B.E.s in its activities and operations other than the Project.

d. The Developer shall deliver quarterly reports to D.P.D. during the Project describing its efforts to achieve compliance with this M.B.E./W.B.E. commitment. Such reports shall include inter alia the name and business address of each M.B.E. and W.B.E. solicited by the Developer or the General Contractor to work on the Project, and the responses received from such solicitation, the name and business address of each M.B.E. or W.B.E. actually involved in the Project, a description of the work performed or products or services supplied, the date and amount of such work, product or service, and such other information as may assist D.P.D. in determining the Developer's compliance with this M.B.E./W.B.E. commitment. D.P.D. shall have access to the Developer's books and records, including, without limitation, payroll records, books of account and tax returns, and records and books of account in accordance with Section 14 of this Agreement, on five (5) business days notice, to allow the City to review the Developer's compliance with its commitment to M.B.E./W.B.E. participation and the status of any M.B.E. or W.B.E. performing any portion of the Project.

e. Upon the disqualification of any M.B.E. or W.B.E. General Contractor or subcontractor, if such status was misrepresented by the disqualified party, the Developer shall be obligated to discharge or cause to be discharged the disqualified General Contractor or subcontractor and, if possible, identify and engage a qualified M.B.E. or W.B.E. as a replacement. For purposes of this subsection (e), the disqualification procedures are further described in Section 2-92-540, Municipal Code of Chicago.

f. Any reduction or waiver of the Developer's M.B.E./W.B.E. commitment as described in this Section 10.03 shall be undertaken in accordance with Section 2-92-450, Municipal Code of Chicago.

g. Prior to the commencement of the Project, the Developer, the General Contractor and all major subcontractors shall be required to meet with the monitoring staff of D.P.D. with regard to the Developer's compliance with its obligations under this Section 10.03. During this meeting, the Developer shall demonstrate to D.P.D. its plan to achieve its obligations under this Section 10.03, the sufficiency of which shall be approved by D.P.D.. During the Project, the Developer shall submit the documentation required by this Section 10.03 to the monitoring staff of D.P.D.. Failure to submit such documentation on a timely basis, or a determination by D.P.D., upon analysis of the documentation, that the Developer is not complying with its obligations hereunder shall, upon the delivery of written notice to the Developer, be deemed an Event of Default hereunder. Upon the occurrence of any such Event of Default, in addition to any other remedies provided in this Agreement, the City may: (1) issue a written demand to the Developer to halt the Project, (2) withhold any further payment of any City Funds to the Developer or the General Contractor, or (3) seek any other remedies against the Developer available at law or in equity.

Section 11.

Environmental Matters.

The Developer hereby represents and warrants to the City that the Developer has conducted environmental studies sufficient to conclude that the Project may be constructed, completed and operated in accordance with all Environmental Laws and this Agreement and all (sub)exhibits attached hereto, the Scope Drawings, Plans and Specifications and all amendments thereto, the Bond Ordinance, if any, and the Redevelopment Plan.

Without limiting any other provisions hereof, the Developer agrees to indemnify, defend and hold the City harmless from and against any and all losses, liabilities, damages, injuries, costs, expenses or claims of any kind whatsoever including, without limitation, any losses, liabilities, damages, injuries, costs, expenses or claims asserted or arising under any Environmental Laws incurred, suffered by or asserted against the City as a direct or indirect result of any of the following, regardless of whether or not caused by, or within the control of the Developer: (i) the presence of any Hazardous Material on or under, or the escape, seepage, leakage, spillage, emission, discharge or release of any Hazardous Material from (A) all or any portion of the Property or (B) any other real property in which the Developer, or any person directly or indirectly controlling, controlled by or

The failure of the City to receive such certificates or to receive certificates that fully conform to the requirements of this Agreement shall not be deemed to be a waiver by the City of any of the insurance requirements set forth herein.

(ii) Receipt by the Developer of policies or certificates: The Developer shall advise all insurers of the insurance requirements set forth in this Agreement, and the receipt by the Developer of policies or certificates that do not conform to these requirements shall not relieve the Developer of its obligation to provide the insurance as set forth in this Agreement or required by law. The Developer expressly understands and agrees that any coverages and limits furnished by Developer shall in no way limit the Developer's liability and responsibilities specified within this Agreement or as required by law.

(iii) The Developer shall require the General Contractor and all subcontractors to carry the insurance required herein, or alternatively, the Developer may provide the coverage on behalf of the General Contractor or any subcontractor, and if so, the evidence of insurance submitted shall so stipulate.

Any insurance or self insurance programs maintained by the City shall apply in excess of and not contribute with insurance required to be provided by the Developer, General Contractor or any subcontractor under this Agreement.

(vii) The City of Chicago Risk Management Department maintains the right to modify or delete the insurance requirements set forth in this Agreement so long as such action does not, without the Developer's prior written consent, increase such requirements beyond that which is reasonably customary at such time.

Section 13.

Indemnification.

The Developer agrees to indemnify, defend and hold the City harmless from and against any losses, costs, damages, liabilities, claims, suits, actions, causes of action and expenses (including, without limitation, reasonable attorneys' fees and court costs) suffered or incurred by the City arising from or in connection with (i) the Developer's failure to comply with any of the terms, covenants and conditions contained within this Agreement; or (ii) the Developer's or any contractor's failure to pay General Contractors, subcontractors or materialmen in connection with the T.I.F.-Funded Improvements or any other Project improvement; or (iii) the existence of any material misrepresentation or omission in this Agreement, any offering memorandum or the Redevelopment Plan or any other document related to this Agreement that is the result of information supplied or omitted by the Developer or its agents, employees, contractors or persons acting under the control or at the request of the Developer; or (iv) the Developer's failure to cure any misrepresentation in this Agreement or any other agreement relating hereto.

All such books, records and other documents, including but not limited to the Developer's loan statements, General Contractors' and contractors' sworn statements, general contracts, subcontracts, purchase orders, waivers of lien, paid receipts and invoices, shall be available at the Developer's offices for inspection, copying, audit and examination by an authorized representative of the City, at the Developer's expense. The Developer shall incorporate this right to inspect, copy, audit and examine all books and records into all contracts entered into by the Developer with respect to the Project.

14.02 Inspection Rights.

Upon three (3) business days notice, any authorized representative of the City shall have access to all portions of the Project and the Property during normal business hours for the Term of the Agreement.

Section 15.

Default And Remedies.

15.01 Events Of Default.

The occurrence of any one or more of the following events, subject to the provisions of Section 15.03, shall constitute an "Event of Default" by the Developer hereunder:

(a) the failure of Developer to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of the Developer under this Agreement or any related agreement (including the Ground Lease or the Operating Lease);

(b) the failure of the Developer to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of the Developer under any other agreement with any person or entity if such failure may have a material adverse effect on the Developer's business, property, assets, operations or condition, financial or otherwise;

(c) the making or furnishing by the Developer to the City of any representation, warranty, certificate, schedule, report or other communication within or in connection with this Agreement or any related agreement which is untrue or misleading in any material respect;

(d) except as otherwise permitted hereunder, the creation (whether voluntary or involuntary) of, or any attempt to create, any lien or other encumbrance upon the Property, including any fixtures now or hereafter attached thereto, other than the Permitted Liens, or the making or any attempt to make any levy, seizure or attachment thereof;

(e) the commencement of any proceedings in bankruptcy by or against the Developer or for the liquidation or reorganization of the Developer, or alleging that the Developer is insolvent or unable to pay its debts as they mature, or for the readjustment or arrangement of the Developer's debts, whether under the United States Bankruptcy Code or under any other state or federal law, now or hereafter existing for the relief of debtors, or the commencement of any analogous statutory or non-statutory proceedings involving the Developer; provided, however, that if such commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such proceedings are not dismissed within sixty (60) days after the commencement of such proceedings;

(f) the appointment of a receiver or trustee for the Developer, for any substantial part of the Developer's assets or the institution of any proceedings for the dissolution, or the full or partial liquidation, or the merger or consolidation, of the Developer; provided, however, that if such

appointment or commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such appointment is not revoked or such proceedings are not dismissed within sixty (60) days after the commencement thereof;

(g) the entry of any judgment or order against the Developer which remains unsatisfied or undischarged and in effect for sixty (60) days after such entry without a stay of enforcement or execution, the effect of which would have a material adverse affect on the ability of the Developer to perform its obligations under this Agreement;

(h) the occurrence of an Event of Default under the Lender Financing, which default is not cured within any applicable cure period;

(i) the dissolution of the Developer or the death of any natural person who owns a material interest in the Developer, or the transfer by any such person to any person of any interest in the Developer; or

(j) the institution in any court of a criminal proceeding (other than a misdemeanor) against the Developer or any natural person who owns a material interest in the Developer, which is not dismissed within thirty (30) days, or the indictment of the Developer or any natural person who owns a material interest in the Developer, for any crime (other than a misdemeanor).

For purposes of Sections 15.01 (i) and 15.01 (j) hereof, a person with a material interest in the Developer shall be one owning in excess of [thirty-three percent (33%)] of the Developer's issued and outstanding shares of stock.

15.02 Remedies.

Upon the occurrence of an Event of Default, the City may terminate this Agreement and all related agreements, and, subject to the provisions of Section 8.06 hereof, may suspend disbursement of City Funds. The City may, in any court of competent jurisdiction by any action or proceeding at law or in equity, pursue and secure any available remedy, including but not limited to injunctive relief or the specific performance of the agreements contained herein.

15.03 Curative Period.

In the event the Developer shall fail to perform a monetary covenant which the Developer is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have occurred unless the Developer

shall have failed to perform such monetary covenant within ten (10) days of its receipt of a written notice from the City specifying that it has failed to perform such monetary covenant. In the event the Developer shall fail to perform a non-monetary covenant which the Developer is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have occurred unless the Developer shall have failed to cure such default within thirty (30) days of its receipt of a written notice from the City specifying the nature of the default; provided, however, with respect to those non-monetary defaults which are not capable of being cured within such thirty (30) day period, the Developer shall not be deemed to have committed an Event of Default under this Agreement if it has commenced to cure the alleged default within such thirty (30) day period and thereafter diligently and continuously prosecutes the cure of such default until the same has been cured.

Section 16.

Mortgaging Of The Project.

All mortgages or deeds of trust in place as of the date hereof with respect to the Property or any portion thereof are listed on (Sub)Exhibit G hereto (including but not limited to mortgages made prior to or on the date hereof in connection with Lender Financing) and are referred to herein as the "Existing Mortgages". Any mortgage or deed of trust that the Developer may hereafter elect to execute and record or permit to be recorded against the Property or any portion thereof is referred to herein as a "New Mortgage". Any mortgage or deed of trust that the Developer may hereafter elect to execute and record or permit to be recorded against the Property or any portion thereof with the prior written consent of the City, is referred to herein as a "Permitted Mortgage". It is hereby agreed by and between the City and the Developer, as follows:

(a) In the event that a mortgagee or any other party shall succeed to the Developer's interest in the Property or any portion thereof pursuant to the exercise of remedies under a mortgage or deed of trust (other than an Existing Mortgage or a Permitted Mortgage), whether by foreclosure or deed in lieu of foreclosure, and in conjunction therewith accepts an assignment of the Developer's interest hereunder in accordance with Section 18.15 hereof, the City may, but shall not be obligated to, attorn to and recognize such party as the successor in interest to the Developer for all purposes under this Agreement and, unless so recognized by the City as the successor in interest, such party shall be entitled to no rights or benefits under this Agreement, but such party shall be bound by those provisions of this Agreement that are covenants expressly running with the land.

(b) In the event that any mortgagee shall succeed to the Developer's interest in the Property or any portion thereof pursuant to the exercise of remedies under an Existing Mortgage or a Permitted Mortgage, whether by foreclosure or deed in lieu of foreclosure, and in conjunction therewith accepts an assignment of the Developer's interest hereunder in accordance with Section 18.15 hereof, the City hereby agrees to attorn to and recognize such party as the successor in interest to the Developer for all purposes under this Agreement so long as such party accepts all of the obligations and liabilities of "the Developer" hereunder; provided, however, that, notwithstanding any other provision of this Agreement to the contrary, it is understood and agreed that if such party accepts an assignment of the Developer's interest under this Agreement, such party shall have no liability under this Agreement for any Event of Default of the Developer which accrued prior to the time such party succeeded to the interest of the Developer under this Agreement, in which case the Developer shall be solely responsible. However, if such Mortgagee under a Permitted Mortgage or an Existing Mortgage does not expressly accept an assignment of the Developer's interest hereunder, such party shall be entitled to no rights and benefits under this Agreement, and such party shall be bound only by those provisions of this Agreement, if any, which are covenants expressly running with the land.

(c) Prior to the issuance by the City to the Developer of a Certificate pursuant to Section 7 hereof, no New Mortgage shall be executed with respect to the Property or any portion thereof without the prior written consent of the Commissioner of D.P.D..

18.03 Limitation Of Liability.

No member, official or employee of the City shall be personally liable to the Developer or any successor in interest in the event of any default or

18.06 Remedies Cumulative.

The remedies of a party hereunder are cumulative and the exercise of any one or more of the remedies provided for herein shall not be construed as a waiver of any other remedies of such party unless specifically so provided herein.

18.07 Disclaimer.

Nothing contained in this Agreement nor any act of the City shall be deemed or construed by any of the parties, or by any third person, to create or imply any relationship of third-party beneficiary, principal or agent, limited or general partnership or joint venture, or to create or imply any association or relationship involving the City.

The paragraph and section headings contained herein are for convenience only and are not intended to limit, vary, define or expand the content thereof.

18.10 Severability.

If any provision in this Agreement, or any paragraph, sentence, clause, phrase, word or the application thereof, in any circumstance, is held invalid, this Agreement shall be construed as if such invalid part were never included herein and the remainder of this Agreement shall be and remain valid and enforceable to the fullest extent permitted by law.

18.11 Conflict.

In the event of a conflict between any provisions of this Agreement and the provisions of the T.I.F. Ordinances and/or the Bond Ordinance, if any, such ordinance(s) shall prevail and control.

18.12 Governing Law.

This Agreement shall be governed by and construed in accordance with the internal laws of the State of Illinois, without regard to its conflicts of law principles.

18.13 Form Of Documents.

All documents required by this Agreement to be submitted, delivered or furnished to the City shall be in form and content satisfactory to the City.

18.14 Approval.

Wherever this Agreement provides for the approval or consent of the City or D.P.D., or any matter is to be to the City's or D.P.D.'s satisfaction, unless specifically stated to the contrary, such approval, consent or satisfaction shall be made, given or determined by the City or D.P.D. in writing and in its sole discretion.

18.15 Assignment.

Prior to the issuance by the City to the Developer of a Certificate, the Developer may not sell, assign or otherwise transfer its interest in this

Agreement in whole or in part without the written consent of the City. Notwithstanding the issuance of such Certificates, any successor in interest to the Developer under this Agreement shall certify in writing to the City its agreement to abide by all remaining executory terms of this Agreement, including but not limited to Sections 8.19 (Real Estate Provisions) and 8.20 (Survival of Covenants) hereof, for the Term of the Agreement. The City shall be obligated to pay City Funds to an assignee of the Developer (or of an assignee) only if the City consents to such assignment. The Developer consents to the City's sale, transfer, assignment or other disposal of this Agreement at any time in whole or in part.

18.16 Binding Effect.

This Agreement shall be binding upon the Developer, the City and their respective successors and permitted assigns (as provided herein) and shall inure to the benefit of the Developer, the City and their respective successors and permitted assigns (as provided herein).

18.17 Force Majeure.

Neither the City nor the Developer nor any successor in interest to either of them shall be considered in breach of or in default of its obligations under this Agreement in the event of any delay caused by damage or destruction by fire or other casualty, strike, shortage of material, unusually adverse weather conditions such as, by way of illustration and not limitation, severe rain storms or below freezing temperatures of abnormal degree or for an abnormal duration, tornadoes or cyclones, and other events or conditions beyond the reasonable control of the party affected which in fact interferes with the ability of such party to discharge its obligations hereunder.

The Ground Lessee shall enter into an operating lease (the "Operating Lease") with the Developer, as the lessee, with respect to the Property pursuant to which the Ground Lessee, as sublandlord, shall agree, among other things, to construct the Facility and any other improvements to the Property which are part of the Project. Neither the Ground Lease nor the Operating Lease shall be executed by the Developer prior to the City's

written approval of the terms thereof; provided, that the City's approval of the terms of the Ground Lease or the Operating Lease shall not be deemed a commitment by the City to pay City Funds to Northlake. Any provision of the Ground Lease regarding the right of the Ground Lessee to acquire title to the Property shall not be exercised until the issuance of a Certificate. The Ground Lease and the Operating Lease shall each provide that the terms of the lease may not be amended without the prior written consent of the City.

Opinion Of Developer's Counsel.

[To be retyped on the Developer's Counsel's letterhead]

_____, 1997.

City of Chicago
121 North LaSalle Street
Chicago, Illinois 60602

Attention: Corporation Counsel

Ladies and Gentlemen:

We have acted as counsel to PETsMART, Inc., a Delaware corporation (the "Developer"), in connection with the purchase of certain land and the construction of certain facilities thereon located in the West Grand Redevelopment Project Area (the "Project"). In that capacity, we have examined, among other things, the following agreements, instruments and documents of even date herewith, hereinafter referred to as the "Documents":

(a) PETsMART, Inc. Redevelopment Agreement (the "Agreement") of even date herewith, executed by the Developer and the City of Chicago (the "City");

(b) [insert other documents including but not limited to documents related to purchase and financing of the Property and all lender financing related to the Project]; and

(c) all other agreements, instruments and documents executed in connection with the foregoing.

In addition to the foregoing, we have examined:

(a) the original or certified, conformed or photostatic copies of the Developer's (i) Articles of Incorporation, as amended to date, (ii) qualifications to do business and certificates of good standing in all states in which the Developer is qualified to do business, (iii) bylaws, as amended to date, and (iv) records of all corporate proceedings relating to the Project; and

(b) such other documents, records and legal matters as we have deemed necessary or relevant for purposes of issuing the opinions hereinafter expressed.

In all such examinations, we have assumed the genuineness of all signatures (other than those of the Developer), the authenticity of documents submitted to us as originals and conformity to the originals of all documents submitted to us as certified, conformed or photostatic copies.

Based on the foregoing, it is our opinion that:

1. The Developer is a corporation duly organized, validly existing and in good standing under the laws of the state of Delaware, has full power and authority to own and lease its properties and to carry on its business as presently conducted, and is in good standing and duly qualified to do business as a foreign corporation under the laws of every state in which the conduct of its affairs or the ownership of its assets requires such

qualification, except for those states in which its failure to qualify to do business would not have a material adverse effect on it or its business.

2. The Developer has full right, power and authority to execute and deliver the Documents to which it is a party and to perform its obligations thereunder. Such execution, delivery and performance will not conflict with, or result in a breach of, the Developer's Articles of Incorporation or bylaws or result in a breach or other violation of any of the terms, conditions or provisions of any law or regulation, order, writ, injunction or decree of any court, government or regulatory authority, or, to the best of our knowledge after diligent inquiry, any of the terms, conditions or provisions of any agreement, instrument or document to which the Developer is a party or by which the Developer or its properties is bound. To the best of our knowledge after diligent inquiry, such execution, delivery and performance will not constitute grounds for acceleration of the maturity of any agreement, indenture, undertaking or other instrument to which the Developer is a party or by which it or any of its property may be bound, or result in the creation or imposition of (or the obligation to create or impose) any lien, charge or encumbrance on, or security interest in, any of its property pursuant to the provisions of any of the foregoing, other than in favor of [Lender].

3. The execution and delivery of each Document and the performance of the transactions contemplated thereby have been duly authorized and approved by all requisite action on the part of the Developer.

4. Each of the Documents to which the Developer is a party has been duly executed and delivered by a duly authorized officer of the Developer, and each such Document constitutes the legal, valid and binding obligation of the Developer, enforceable in accordance with its terms, except as limited by applicable bankruptcy, reorganization, insolvency or similar laws affecting the enforcement of creditors' rights generally.

5. (Sub)Exhibit A attached hereto (a) identifies each class of capital stock of the Developer, (b) sets forth the number of issued and authorized shares of each such class, and (c) identifies the record owners of shares of each class of capital stock of the Developer and the number of shares held of record by each such holder. To the best of our knowledge after diligent inquiry, except as set forth on (Sub)Exhibit A, there are no warrants, options, rights or commitments of purchase, conversion, call or exchange or other rights or restrictions with respect to any of the capital stock of the Developer. Each outstanding share of the capital stock of the Developer is duly authorized, validly issued, fully paid and nonassessable.

6. To the best of our knowledge after diligent inquiry, no judgments are outstanding against the Developer, nor is there now pending or

threatened, any litigation, contested claim or governmental proceeding by or against the Developer or affecting the Developer or its property, or seeking to restrain or enjoin the performance by the Developer of the Agreement or the transactions contemplated by the Agreement, or contesting the validity thereof. To the best of our knowledge after diligent inquiry, the Developer is not in default with respect to any order, writ, injunction or decree of any court, government or regulatory authority or in default in any respect under any law, order, regulation or demand of any governmental agency or instrumentality, a default under which would have a material adverse effect on the Developer or its business.

7. To the best of our knowledge after diligent inquiry, there is no default by the Developer or any other party under any material contract, lease, agreement, instrument or commitment to which the Developer is a party or by which the company or its properties is bound.

8. To the best of our knowledge after diligent inquiry, all of the assets of the Developer are free and clear of mortgages, liens, pledges, security interests and encumbrances except for those specifically set forth in the Documents.

9. The execution, delivery and performance of the Documents by the Developer have not and will not require the consent of any person or the giving of notice to, any exemption by, any registration, declaration or filing with or any taking of any other actions in respect of, any person, including without limitation any court, government or regulatory authority.

10. To the best of our knowledge after diligent inquiry, the Developer owns or possesses or is licensed or otherwise has the right to use all licenses, permits and other governmental approvals and authorizations, operating authorities, certificates of public convenience, goods carriers permits, authorizations and other rights that are necessary for the operation of its business.

11. A federal or state court sitting in the State of Illinois and applying the choice of law provisions of the State of Illinois would enforce the choice of law contained in the Documents and apply the law of the State of Illinois to the transactions evidenced thereby.

We are attorneys admitted to practice in the State of Illinois and we express no opinion as to any laws other than federal laws of the United States of America and the laws of the State of Illinois.

This opinion is issued at the Developer's request for the benefit of the City and its counsel, and may not be disclosed to or relied upon by any other person.

Very truly yours,

Such examination shall be commenced within 15 days after receipt of the report and recommendation of the director of revenue, and concluded within 30 days thereafter; provided, however, that the mayor may extend the period of such investigation for an additional 15 days to allow completion of the investigation, if necessary. The mayor shall give the applicant written notice of the extension, stating the reasons therefor. If the applicant fails to appear to answer any question or to produce the books and records, said conduct shall be sufficient grounds for denial of the license application. The mayor may authorize a hearing examiner to act on his behalf for the purpose of obtaining any of the desired information.

If the mayor determines that no such examination is necessary, and that the applicant or each of the principal officers, if the applicant is corporation, has complied with all of the necessary licensing requirements for the particular license, and that all laws and provisions of this code regulating the business or occupation for which such license is applied for have been complied with, the mayor shall immediately authorize the issue of the said license by the city clerk.

If the mayor disapproves the license application, he shall notify the unsuccessful applicant in writing of the reasons for the disapproval. The notice shall be sent to the applicant within five days after the disapproval, by first class mail addressed to the applicant at the address shown in the application. The license applicant may within 10 days after receiving notice of the disapproval make a request in writing to the mayor for a hearing on the disapproved application. Within 10 days after a request for a hearing is made, a public hearing shall be authorized before a hearing examiner appointed by the mayor, who shall report his findings to the mayor within 14 days after completion of the hearing. The public hearing shall be commenced within 10 days after it is authorized.

The mayor shall within 15 days after such hearing has been concluded, if he determines after such hearing that the license application be disapproved, state the reason for such determination in written finding and shall serve a copy of such finding upon the license applicant.

No license, other than licenses issued pursuant to Chapters 4-60 and 4-156 of the code, shall be approved and the license application fee shall be forfeited if the application review process is not completed within 90 days after the license application is filed, except where the delay in completing the process has been occasioned by the city. A new application and filing fee must be submitted to the department of revenue after the expiration of the 90 day period.

4-4-110 Term -- Temporary License.

(a) Except where otherwise expressly provided, no license shall be granted for a period longer than one year. No license shall be issued for any period of time less than a year or for a sum less than the full annual license fee, except when otherwise expressly provided. A temporary, nonrenewable license may be issued by the mayor for a period ending on the last day of the license period, where the application in question is approved by all departments except the department of inspectional services and where violations of the premises to be licensed are not of a serious or dangerous nature.

(b) An initial license, if approved by all appropriate departments and issued within 45 days of the start of a new license period, may be issued for a term ending on the last day of the new license period. This subsection (b)

shall not apply to licenses issued to businesses cited for operating without a license in the current or a prior license period, nor to licenses for retail liquor dealers.

SECTION 2. Chapter 4-4 of the Municipal Code of Chicago is hereby amended by adding new Sections 4-4-175 and 4-4-176:

4-4-175 Change Of Officers.

(a) All licensees, other than city liquor licensees who shall comply with Section 4-60-060, shall notify the department of revenue in writing within 60 days of the effective date of any change that occurs in the officers, substantial owners, members, or any other individual required to be identified in the initial license application by Section 4-4-050.

(b) At the time of filing the notice of such change with the department of revenue: if the licensee has a license which requires approval by the department of police prior to issuance, the licensee shall pay a fee of $40.00; if the licensee has no licenses which require department of police approval prior to issuance, the licensee shall pay a fee of $20.00.

4-144-176 Change Of Business Name.

(a) All licensees shall notify the department of revenue in writing within 60 days of the effective date of any change that occurs in the name of the licensed business.

(b) At the time of filing the notice of such change with the department of revenue, the licensee shall pay a fee of $40.00.

SECTION 3. Section 4-60-040 of the Municipal Code of Chicago is hereby amended by deleting the language in brackets, as follows:

The insurance shall provide for 30 days prior written notice to the local liquor control commissioner if coverage is substantially changed, canceled or non-renewed. Failure of the licensee to maintain the insurance as required by this section shall result in the revocation of such license; and

4-228-130 Rebuilding Of Automatic Transmissions.

The following minimum requirements specifying accepted trade standards for good and workmanlike rebuilding of automatic transmissions are intended to define terms that have caused confusion to the public and unfair competition within the automotive repair industry. These minimum requirements shall not be used to promote the sale of "rebuilt" automatic transmissions when a less extensive and/or costly repair is desired by the customer. Any automotive repair shop which represents to customers that the following provisions require the rebuilding of automatic transmissions is subject to the sanctions prescribed in Section 4-228-110 of this chapter.

All motor vehicle repair shops engaged in the repair, sale and installation of automatic transmissions in vehicles covered under this chapter shall be subject to the following minimum requirements:

(1) Before an automatic transmission is removed from a motor vehicle for purposes of repair or rebuilding, it shall be inspected. Such inspection shall determine whether or not the replacement or adjustment of any external part or parts will correct the specific malfunction of the automatic transmission, *or if the transmission modules are malfunctioning. A pressure test must also be performed*

before the transmission is removed from the vehicle. If minor service and/or replacement or adjustment of any external part or parts and/or of companion units can reasonably be expected to correct the specific malfunction of the automatic transmission, then prior to removal of the automatic transmission from the vehicle, the customer shall be informed of that fact as required by Section 4-228-060 of this chapter.

(2) When the word "exchange" is used with any of the following expressions, it shall mean that the automatic transmission is not the customer's unit that was moved from the customer's vehicle. An automatic transmission shall be described by a word such as "rebuilt", "remanufactured", "reconditioned" or "overhauled", and by any expression of like meaning, only if the following work has been done since the transmission was last used:

(a) all internal and external parts, including case and housing, have been thoroughly cleaned and inspected;

(b) the valve body has been disassembled and thoroughly cleaned and inspected;

(c) all front and intermediate bands have been replaced with new or relined bands;

(d) all the following parts have been replaced with new parts:

lined friction plates;

internal and external seals;

metal sealing rings that are used in rotating applications;

gaskets;

organic media disposable-type filters (if the transmission is so equipped);

(e) all impaired, defective or substantially worn parts not mentioned above have been restored to a sound condition or replaced with new, rebuilt or unimpaired parts. All measuring and adjusting of such parts have been performed as necessary.

(3) The torque converter is considered to be a part of the automatic transmission and shall be examined, cleaned and made serviceable before the rebuilt transmission is installed. If the torque converter cannot be restored to a serviceable condition, then the customer shall be so informed. With the customer's authorization, the converter shall be replaced with a new, rebuilt or unimpaired used torque converter.

SECTION 1. The above recitals are expressly incorporated herein and made a part of this ordinance as though fully set forth herein.

SECTION 2. The Current Ordinance is hereby amended as set forth below:

(iv) Section 6.2 of the Current Ordinance is hereby amended to add the following paragraph at the end thereof:

"The foregoing requirements are supplementary to requirements for insurance set forth in Section 10-20, et seq., of the Code. To the extent such requirements are not included herein, Grantee shall also meet such requirements of the Code of Section 10-20, et seq..

(v) Section 8.1 of the Current Ordinance shall be replaced in its entirety to read as follows:

"Section 8.1 Construction And Installation Procedures; Letter Of Credit.

A. Grantee shall not access the Public Ways to construct, install or modify its System without prior approval of the Commissioner of the Department of Transportation, the issuance of a permit therefor and the payment of applicable permit fees. Grantee shall also obtain a public work license under Section 10.20 of the Code if required thereunder and a letter of credit in such amounts as may be required under said Section 10.20 and attendant regulations. Grantee shall submit to the Commissioner of the Department of Transportation documents which set forth the project purposes, specifications, exact proposed locations, standards and procedures for construction and installation of its System including size and depth of conduits and cables (the "Construction Documents"). Said specifications, standards and procedures shall be consistent with the applicable standards of the telecommunications industry and shall, at a minimum, establish procedures to ensure quality work and provide for the safety and protection of residents and property. Said Construction Documents shall be submitted to the Commissioner of the Department of Transportation for review

and approval prior to commencement of construction, installation or modifications of Grantee's System and shall be modified as said Commissioner may require in the interest of public safety or to comply with applicable provisions of the Code and City regulations or where mutually agreed on by the City and Grantee. Any application for permits shall be subject to completion of the Board of Underground procedures and guidelines set forth in Section 20 of this ordinance and the modification to the extent necessary by the Commissioner of the Department of Transportation, of any Construction Documents to comply with such procedures and guidelines, and of any requirements for a letter of credit pursuant to Section 10.20 of the Code and attendant regulations.

B. Grantee shall provide the City with an irrevocable unconditional letter of credit in the form attached hereto as Exhibit 5, in the principal amount of Five Thousand Dollars ($5,000) naming the City as beneficiary. Said letter of credit (or any replacement letter of credit) shall be provided for the length of this ordinance and for such period of time thereafter as is required by Chapter 10-20 of the Code and attendant regulations. Said letter of credit shall be used to ensure the faithful performance by Grantee of all provisions of this ordinance and compliance with all orders, licenses, permits and directions of any agency, commission, board, department, division or office of the City having jurisdiction over Grantee's acts or defaults under this ordinance and for payment by Grantee of any penalties, liens, claims and taxes due the City which arise by reason of the construction, installation, operation or maintenance of Grantee's System. Such letter of credit may be drawn upon under either of or both the following circumstances:

(i) in the event that Grantee: (i) has failed to pay the City any compensation due the City within the time fixed in this ordinance; or (ii) has failed to repay the City within ten (10) days any damages, expenses or costs which the City is compelled to pay by reason of Grantee's act or omission to act in connection with this ordinance (except for matters covered under Section 10-20 of the Code); or (iii) has failed after three (3) days notice to Grantee of such failure to comply with any provisions of this ordinance which the Director of the Department of Revenue has reasonably determined can be remedied by a draw on the letter of credit, the City can immediately draw up to the amount thereof outstanding, with interest and penalties, if any, from the letter of credit. Upon such demand for payment, the City

shall notify the Grantee of the amount and date thereof; and

(ii) under such circumstances and subject to such conditions which are set forth in Section 10-20 of the Code, attendant regulations and any license required thereunder for public way work.

If amounts are drawn under the letter of credit, Grantee shall take such actions as may be necessary to maintain such letter of credit at full amount within three (3) days of notification by the City of its draw against such letter of credit. The rights reserved to the City under such letter of credit shall be in addition to any rights it may have pursuant to this ordinance or under law.

C. The letter of credit called for in this ordinance shall be issued by a financial institution authorized to do business in Illinois that is an insured depository institution (as defined in 12 U.S.C. §1813) and satisfactory to the City Comptroller. The financial institution issuing the letter of credit shall be located or have a branch within the City and shall carry an investment grade rating from a major rating company. The City shall be entitled to draw on any letter of credit provided the City which expires (either by its terms or because of nonrenewal) on a date prior to the termination date of this ordinance at least thirty (30) days prior to the expiry date thereof unless either (i) proof of renewal of such letter of credit satisfactory to the City's Departments of Transportation and Revenue has been furnished to the City or (ii) a replacement letter of credit has been approved by the City's Departments of Transportation and Revenue prior to such draw date. The City also reserves the right to stop any work related to the carrying out of this ordinance until the letter of credit is furnished. If the financial condition of any letter of credit issuer issuing a letter of credit pursuant hereto materially and adversely changes, the City may, at any time, require that such letter of credit be replaced with such other letter of credit consistent with the requirements set forth in this section. Grantee shall not materially change or alter the terms or conditions of the letter of credit referred to herein or replace or cancel said letter of credit without prior approval of the Risk Management Office. None of the provisions contained herein nor the letter of credit required herein shall be construed to excuse the faithful performance by Grantee of the terms and conditions of this ordinance or limit the liability of the Grantee under this ordinance for any and all damages in excess of the amounts of such letter of credit."

(vi) Section 8.6 of the Current Ordinance shall be replaced in its entirety to read as follows:

"Section 8.6 Other Requirements And Approvals.

The provisions contained in this Section 8 are supplemental to and not in substitution of applicable provisions of Section 10.20, et seq. of the Code and attendant regulations, including the procurement of a letter of credit consistent with and pursuant to Section 10-20 of the Code and attendant regulations. Issuance of a permit by the Commissioner of the Department of Transportation as to the installation of any portion of Grantee's System does not waive other applicable requirements of federal or Illinois law or the Code (including said Section 10.20) and Grantee shall comply with such other requirements. Grantee is further responsible for obtaining approvals related to Grantee's use of the Authorized Routes contemplated in this ordinance from other applicable City departments (such as the Department of Streets and Sanitation and the Building Department) in a timely fashion when and as required by the Code."

(vii) A new Section 13.5 shall be added following Section 13.4 in the Current Ordinance to read as follows:

"Section 13.5 Compliance With The Environmental Laws.

(a) Grantee shall comply with all laws relating to environmental matters including without limitation, those relating to fines, orders, injunctions, penalties, damages, contribution, cost recovery compensation, losses or injuries resulting from the release or threatened release of Hazardous Materials, special wastes or other contaminants including, without limitation, the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C.§9601, et seq.), the Hazardous Material Transportation Act (42 U.S.C. §1801, et seq.), the Resource Act (33 U.S.C. §1251, et seq.), the Clean Air Act (42 U.S.C. §601, et seq.), the Toxic Substances Control Act of 1986 (15) (U.S.C. §2601, et seq.), the Safe Drinking Water Act (42 U.S.C. §300f), the Occupational Safety and Health Act of 1970 (29 U.S.C. §651, et seq.), the Emergency Planning and Community Right- to-Know Act (42 U.S.C. §11001, et seq.), the Illinois Environmental Protection Act (415 ILCS 5/1, et seq.) and the Chicago Municipal Code, each as amended or supplemented, and any analogous future or present state or

federal statutes, rules and regulations promulgated thereunder or pursuant thereto, and any other present or future law, ordinance, rule, regulation, permit or permit condition, order or directive regulating, relating to or imposing liability or standards of conduct concerning any Hazardous Materials or by the federal government, any state or any political subdivision thereof, or any agency, court or body of the federal government, any state or any political subdivision thereof, exercising executive, legislative, judicial, regulatory or administrative functions (collectively "Environmental Laws").

If any of the above Environmental Laws require the Grantee to file any notice or report of a release or threatened release of Hazardous Materials or special wastes on, under or about any premises used by Grantee to perform the services required hereunder, the Grantee shall provide a copy of such report or notice to the City. In the event of a release or threatened release of Hazardous Materials, special waste or other contaminants into the environment by Grantee or its Contractors or in the event any claim, demand, action or notice is made against the Grantee regarding the Grantee's failure or alleged failure to comply with any of the above Environmental Laws, in regard to activities related to Grantee's system, Grantee shall immediately notify the City in writing and shall provide the City with copies of any written claims, demands, notices or actions so made. Grantee shall comply with the rules and regulations stated in any applicable mandatory recycling ordinance enacted or amended by the City Council of the City of Chicago.

If Grantee fails to comply with any of the above referenced Environmental Laws, the City may terminate this ordinance in accordance with the default provisions of this ordinance.

For purposes of this provision, the following definitions shall apply:

'Hazardous Materials' means friable asbestos or asbestos-containing materials, polychlorinated biphenyls (PCBs) petroleum or crude oil or any fraction thereof, natural gas, special nuclear materials; and by-product materials regulated under the Atomic Energy Act (42 U.S.C. §201, et seq.), pesticides regulated under the federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. §136, et seq.) and any hazardous waste, toxic or dangerous substance or related material, including any material defined or treated as 'hazardous substance', 'hazardous waste', 'toxic

substance', or contaminant (or comparable term) under any of the Environmental Laws.

'Special Wastes' means those substances as defined in Section 415 ILCS 5/3.45 of the Illinois Environmental Protection Act, and as further referred to in Section 809-13 of 35 Illinois Code, Subtitle G, Chapter 1.

(b) Environmental Permits.

1. To the extent required by the Environmental Laws, Grantee must keep current throughout the term of this ordinance, waste hauling, Special Waste hauling, disposal permits and insurance certificates required by federal, state, City or local government body or agency pursuant to any Environmental Law, if any, and at the request of the City, show evidence thereof.

2. When requested by the City, the Contractor shall submit copies of any hauling permits required by any Environmental Law. To the extent requested by the City, copies of all permits that require periodic renewal must be forwarded to the City throughout the duration of this ordinance. Noncompliance with this requirement may be cause for termination of this ordinance.

a. Vehicle maintenance records.

b. Safety and accident reports.

d. Disposal records, including disposal site used, date, truck number and disposal weight.

e. Permit documentation and all other documentation and transactions pertaining to all Environmental Laws.

(c) Disposal Of Materials, Construction Debris, Soil And Waste.

1. Grantee shall be responsible for the proper disposal of all materials, construction debris, soil and other waste. Hauling and disposal by a Contractor or subcontractor does not relieve the Grantee from responsibility for proper disposal. Disposal of all materials,

construction debris, soil, and other wastes shall be at a disposal site that is properly licensed and permitted to accept the particular materials, construction debris, soil and other wastes delivered to it in accordance with all Environmental Laws. Failure to identify disposal site(s) for materials, construction debris, soil and other wastes or to submit such information when requested by the City may be cause to terminate the ordinance.

2. At the request of the City, the Grantee shall provide said commissioner or his/her designated representative with copies of all load tickets, manifests, bills of lading, scale tickets and other pertinent documents. When requested by the City, Grantee shall provide copies of all permits and/or licenses for the proposed transfer station and/or landfill. In the event that the transfer station and/or landfill proposed for use by the Grantee does not posses the necessary permits and/or licenses to accept the materials, construction debris, soil or other wastes, Grantee will replace the transfer station and/or landfill. If the Grantee disposes of materials, construction debris, soil or other wastes at a site which is not properly permitted, the Grantee shall be responsible for all costs associated with the removal of the Waste to a properly licensed/permitted landfill or disposal site.

3. The Grantee shall accept full responsibility for compliance with all Environmental Laws.

4. The Grantee shall notify the City within twenty-four (24) hours of receipt of any environmental complaints, fines, citations, violations or notices of violation ("Claims") by any governmental body or regulatory agency against the Grantee by any third party relating to the loading, hauling or disposal of materials, construction debris, soil or other wastes in connection with Grantee's System. The Grantee will provide evidence to the City that any such Claim has been addressed to the satisfaction of the issuer or initiator of any such Claim.

5. Grantee shall provide the City with reasonable prior written notice of any community meetings, media involvement or media coverage related to the loading, hauling or disposal of materials, construction debris, soil or other wastes related to its System in which Grantee is asked to participate.

6. Non-Compliance with these terms and conditions may be used by the City as grounds for termination of this ordinance.

(d) Equipment and Environmental Control During Transport. Grantee shall haul any materials, construction debris, soil and other wastes in vehicles and/or containers complying with all applicable Environmental Laws. All equipment used to transfer materials, construction debris, soil or other wastes shall be designed to prevent spillage during the hauling

operation. Grantee's equipment shall fully comply with all City, state and federal regulations, Laws and ordinances pertaining to size, load weight, safety and any Environmental Laws."

(e) Indemnification. Grantee acknowledges that Section 6.3 of this ordinance applies to any violation of Environmental laws by Grantee or its contractors.

(f) Environmental Controls. Grantee shall comply with all Environmental Laws with respect to the elimination of excessive noise and pollution of air and water due to its construction and other operations. Grantee shall minimize the noise of heavy construction equipment and control the dust, smoke and fumes from construction equipment and other operations in work sites and in City streets and properties, in accordance with ordinances of the City and orders of City departments. Grantee shall not discharge oily, greasy chemical, hazardous or toxic wastes into waterways and City sewers.

(g) Hazardous Materials.

(i) In the event that Grantee while working within the Authorized Routes encounters asbestos or toxic or hazardous materials not caused by or introduced by Grantee or its Contractors or subcontractors, Grantee shall, before disturbing such materials, immediately notify the City and any owner of any conduit in which Grantee may be locating Grantee's System ("Owner") of the location and apparent location thereof, and as to whether it is feasible to re-route wiring or other work so as to avoid such materials. If such re-routing is feasible Grantee or the Owner shall do so at no cost to the City. To the extent that Grantee exacerbates any existing environmental condition, Grantee shall be liable for any additional cost of abatement so caused by Grantee's activities.

(ii) If such re-routing or avoidance is not feasible in the judgment of the City, and such materials must be disturbed or relocated to complete such work, then Grantee shall perform or cause one or more of its Contractors or subcontractors or the Owner (including, if necessary, a new, specialized subcontractor then retained with the consent and approval of the City for such purpose) to perform such abatement, containment, treatment or removal and disposal of such materials as may be required by law, subject to the provisions of paragraph (c) of this section.

(iii) In the undertaking of such abatement, treatment, containment, removal or disposition, Grantee, or such person employed by Grantee:

(1) shall notify the City and the owner at least seventy-two (72) hours prior to the start of removal and disposal of any Hazardous Materials;

(2) shall be certified as a Hazardous Materials removal firm by the Environmental Protection Agency and all state or local agencies;

(3) shall carry such insurance coverage as may be required by the City's Department of Risk Management naming the City as an additional insured; and

(4) shall provide such indemnification and documentation as required by the City.

(viii) A new Section 20.1 shall be added following Section 20 in the Current Ordinance to read as follows:

"Section 20.1 Underground Facilities Agreement.

If requested by the City, Grantee agrees to apply for, and if accepted, enter into membership in the Chicago Utility Alert Network as established by ordinance dated November 5, 1993 and the Chicago Utility Alert Network Membership Agreement. Grantee agrees to pay its share of the costs and expenses pursuant to the Chicago Utility Alert Network Membership Agreement."

(ix) Exhibit 1 to the Current Ordinance shall be replaced in its entirety to read as follows:

"Exhibit 1.

GOVERNOR JIM EDGAR AND ILLINOIS GENERAL ASSEMBLY URGED TO PROVIDE SUFFICIENT FUNDS TO MAINTAIN FUNCTIONAL REGIONAL TRANSIT SYSTEM IN CHICAGO.

The Committee on Transportation and Public Way submitted the following report:

CHICAGO, April 14, 1997.

To the President and Members of the City Council:

Your Committee on Transportation and Public Way begs leave to report and recommend that Your Honorable Body *Adopt* a resolution urging the Governor of Illinois and the General Assembly to recognize their responsibilities for maintaining a functional and viable regional transit system by providing sufficient capital and operating funds to renew and rebuild the system's infrastructure and to meet the mobility needs of its riders.

This recommendation was concurred in unanimously by a viva voce vote of the members of the committee, with no dissenting vote.

Respectfully submitted,

(Signed) PATRICK M. HUELS,
Chairman.

On motion of Alderman Huels, the said proposed resolution transmitted with the foregoing committee report was *Adopted* by yeas and nays as follows:

Yeas -- Aldermen Granato, Haithcock, Tillman, Preckwinkle, Holt, Steele, Beavers, Dixon, Shaw, Buchanan, Huels, Frias, Olivo, Burke, Jones, Coleman, Peterson, Murphy, Rugai, Evans, Munoz, Zalewski, Chandler, Solis, Ocasio, Burnett, E. Smith, Burrell, Wojcik, Suarez, Mell, Austin, Banks, Giles, Allen, Laurino, O'Connor, Doherty, Natarus, Bernardini, Levar, Shiller, Schulter, M. Smith, Moore, Stone -- 46.

Nays -- None.

Alderman Natarus moved to reconsider the foregoing vote. The motion was lost.

The following is said resolution as adopted:

WHEREAS, Our regional transit system, which includes the Chicago Transit Authority (C.T.A.), Metra and Pace working with the Regional Transportation Authority, is a key component of the interdependent transportation network of streets, highways and rail corridors; and

WHEREAS, This transit system moves over one million nine hundred thousand (1,900,000) riders each workday and the majority of these trips are to and from downtown Chicago by commuters for employment purposes. This makes our transit system the second largest in the nation; and

WHEREAS, Mass transit provides an important contribution to the economic welfare of the region through its ability to transport an ever-expanding labor force. In addition, investment in transit is beneficial to the region by producing a Six Dollar ($6) return for every dollar invested; and

WHEREAS, Mass transit improves the quality of life for all residents of the region by reducing traffic congestion, dependency on the automobile and, thus, air pollution; and

WHEREAS, Our transit system increases the mobility of residents of all ages, including the disabled, seniors and students, by providing access to employment, education, social and recreational activities; and

WHEREAS, The present value of our region's transit system is more than Nineteen Billion Two Hundred Million Dollars ($19,200,000,000). The need to maintain a system of this magnitude requires additional infusions of funding greater than the current level of reinvestment. To illustrate this point, C.T.A. requires Two Billion Seven Hundred Million Dollars ($2,700,000,000) over the next five (5) years to maintain its current systems, but only expects to receive Eight Hundred Fifty-five Million Dollars ($855,000,000) in state and federal capital funds; and

WHEREAS, In addition, the level of the State of Illinois' reimbursement to the regional transit system for reduced fares to eligible disabled, senior and student riders has declined from Thirty-six Million Dollars ($36,000,000) in 1990 to Twenty Million Dollars ($20,000,000) today, despite an unchanging level of service provided to such riders. This decline in state reimbursement has created an inequity in the subsidization of the reduced fares by shifting the burden of the cost of the reduced fares to the full-fare riders; and

WHEREAS, Reinvestment in our region's mass transit infrastructure is vital for the system's continued safe and efficient operation; now, therefore,

Be It Resolved, That we, the Mayor and the members of the City Council of the City of Chicago, gathered on this nineteenth day of March in 1997, do hereby urge the Governor of the State of Illinois and the General Assembly to recognize their responsibilities for maintaining a functional and viable regional transit system by providing sufficient capital and operating funds to renew and rebuild the system's infrastructure and to meet the mobility needs of its riders; and

Be It Further Resolved, That a suitable copy of this resolution be prepared and presented to the Governor of the State of Illinois and to the General Assembly.

The Commissioner of Streets and Sanitation is hereby authorized to determine what cost would be involved to perform said removal, relocation, alteration, repair, maintenance, or restoration and that decision as to the amount shall be final and binding. The grantee and the insurance company, upon receiving written notification from the Commissioner of Streets and Sanitation of the cost of said removal and restoration shall pay immediately said amount upon demand. It shall be the responsibility of the grantee to furnish the City of Chicago, prior to issuance of the permit for this privilege, a copy of proof of insurance (Certificate of Insurance) in an amount not less than One Million and no/100 Dollars ($1,000,000.00) Combined Single Limit with said insurance covering all liability, including Public Liability, Property Damage and Dramshop Liability that may result from the granting of said privilege. Said insurance coverage shall be continuing in effect until the structures and appliances herein authorized are removed and the public way is restored as herein required.

Any contents subject to spoilage shall be disposed of properly. When the vehicle is seized, the person issuing the notice of violation shall notify the person operating the vehicle at the time of the alleged violation, if there is such a person, of the fact of the seizure and of the owner's or operator's right to request a preliminary hearing to be conducted under this section.

(b) Whenever the owner or operator of vehicle seized pursuant to this section requests a preliminary hearing within 12 hours after the seizure, a hearing officer of the city shall conduct such preliminary hearing within 24 hours after the seizure, excluding Sundays and holidays. All interested persons shall be given a reasonable opportunity to be heard at the preliminary hearing. The formal rules of evidence will not apply at the hearing and hearsay evidence shall be admissible. If, after the hearing, the hearing officer determines that there is probable cause to believe that the vehicle was used to sell food directly to the general public in violation of the provisions of this code relating to sanitation, the hearing officer shall order the continued impoundment of the vehicle as provided in this section unless the owner or operator of the vehicle posts with the city a cash bond in the amount of $300.00 plus fees for moving and storing the vehicle. If the hearing officer determines that there is no such probable cause, the vehicle will be returned without penalty or fees to the owner or operator, or his representative, upon satisfactory proof of authority to claim the vehicle.

(c) Within 10 days of the issuance of a notice of violation pursuant to subsection (a) of this section, the city shall notify by certified mail the owner and the operator of the seized vehicle, if the identity of the owner and the operator is known or reasonably ascertainable, of the date, time and location of a hearing to determine whether the vehicle was used to sell food directly to the general public in violation of the provisions of this code relating to sanitation when the notice of violation was issued. If the identity of either the owner or the operator cannot be reasonably ascertained, the city shall cause publication of the date, time and location of the hearing at least once each week for three successive weeks in a newspaper of general circulation in the county of Cook.

(d) The hearing shall be conducted by the city no later than 45 days after the issuance of the notice of violation. If the hearing officer determines by a preponderance of the evidence that no such violation occurred, the hearing officer shall enter an order requiring the immediate return of the cash bond or of the vehicle and any contents not previously disposed of as subject to spoilage, without penalty or fees, to the owner or operator, or his representative, upon satisfactory proof of authority to claim the vehicle. If the alleged violation is not contested or the hearing officer determines by a preponderance of the evidence that the vehicle was used to sell food directly to the general public in violation of the provisions of this code relating to sanitation, the hearing officer shall enter an order requiring the continued impoundment of the vehicle and any contents until the owner or operator pays a penalty of $300.00 plus fees for the moving and storage of the vehicle. Upon a final finding of violation, any cash bond, and any money contained in a vehicle seized under this section, may be applied towards the $300.00 penalty and the moving and storage fees owing to the city. The owner and the operator of the vehicle shall be jointly and severally liable for all penalties, fees and other sanctions provided by this section.

(e) Any vehicle and any contents that are not reclaimed within 30 days after the expiration of the time during which the owner or operator may seek judicial review of the city's action under this section, or the time at which a final judgment is rendered in favor of the city, or the time a final administrative decision is rendered against the owner or operator who is in default, may be disposed of as unclaimed property as provided by law.

(f) The commissioner of streets and sanitation shall have authority to set fees for moving and storage pursuant to this section. The penalty and fees imposed pursuant to this section shall constitute debts due and owing to the city. The issuance or renewal of any license may be withheld as provided in Section 4-4-150 of this code, as amended, for such indebtedness.

(g) Nothing in this section shall be construed to relieve any person from fine or imprisonment as provided in the uniform revenue procedures ordinance, Chapter 3-4 of this code, as amended, or from an action to revoke or suspend a license as provided by Section 4-4-280 of this code, as amended.

(h) For the purposes of this section, the term "vehicle" shall mean any cart, handcart, pushcart, wagon, automobile, truck or any other wheeled vehicle, platform or container, whether powered by motor, human means or otherwise.

SECTION 2. This ordinance shall take effect thirty (30) days after its passage and publication.

Said ordinance transmitted with the foregoing committee report reads as follows:

WHEREAS, Roscoe Village is defined as the area of the City of Chicago bounded on the north by West Addison Street; on the east by North Ravenswood Avenue; on the south by West Belmont Avenue; and on the west by the north branch of the Chicago River; and

WHEREAS, West Roscoe Street is the "main street" within Roscoe Village consisting predominately of two- and three-story storefront buildings with two or three dwelling units above; and

WHEREAS, The area of West Roscoe Street from approximately North Damen Avenue to North Leavitt Street is characterized by distinctive multi-use commercial buildings and residential buildings constructed as a pedestrian-oriented neighborhood commercial district with a narrow right-of-way, numerous storefronts and significant pedestrian traffic; and

WHEREAS, Special supplemental zoning requirements are needed to maintain West Roscoe Street's attractive scale and its pattern of retail development; and

WHEREAS, The special district will preserve the pedestrian environment by encouraging new development to be built along the existing streetwall and to reduce conflicts between new construction and existing development; and

WHEREAS, Roscoe Village Neighbors Associates for Roscoe Village Enterprise, and the City of Chicago Department of Planning and Development have inventoried the neighborhood to identify lot sizes, residential and commercial densities, building heights and building orientation as the basis for supplemental zoning requirements; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Chicago Zoning Ordinance be amended by creating a new SD-10 Roscoe Street Special District, in addition to the B2-2 Restricted Retail District symbols and indications as shown on Map Number 9-H in the area bounded by:

> the alley next north of and parallel to West Roscoe Street; North Damen Avenue; West Roscoe Street; a line 48 feet west of and parallel to North Damen Avenue; the alley next south of and parallel to West Roscoe Street; a line 48 feet west of and parallel to North Leavitt Street; West Roscoe Street; and a line 72 feet west of and parallel to North Leavitt Street.

SECTION 2. That the Chicago Zoning Ordinance be amended in Article 10A-1 by adding the following language in its entirety:

10A-1.10 Roscoe Street Special District.

10A-1.10-1 Preamble. The SD-10 Roscoe Street Special District is intended to conserve the existing low-density, multi-use commercial and residential character of the portion of West Roscoe Street between North Damen Avenue and North Leavitt Street. The existing pattern of development is two- and three-story structures with pedestrian-oriented retail at street level and dwelling units above. The Roscoe Street District seeks to maintain the street's existing scale and to limit construction of taller four- and five-story buildings. In addition, the District regulations seek to maintain the street-front orientation of existing buildings by requiring this orientation for new construction and by encouraging conformity to the front setbacks, if any, of the prevailing street wall.

10A-1.10-2 Height Limits -- Roscoe Street Special District. All new construction shall not exceed 36 feet in height as defined in Section 3.2 of this ordinance. Chimney, heating and cooling equipment, parapets, or similar structures shall not be measured as part of the building height. Stairway enclosures shall also be exempt provided such enclosures are setback a minimum of 20 feet from the front building line, at least five feet from any side building line, and do not exceed 100 square feet in area.

10A-1.10-3 Building Orientation -- Roscoe Street Special District. All new construction in the district shall have a principal entrance or the design of a principal entrance oriented toward Roscoe Street. Such orientation or apparent orientation shall be evidenced by a principal doorway (excluding garage doors), front yard, or front porch. All parking shall be located and accessed off the alley.

10A-1.10-4 Minimum Lot Area -- Roscoe Street Special District. In the Roscoe Street Special District, there shall be provided not less than 1,400 square feet per dwelling unit.

10A-1.10-5 Underlying Zoning Requirements. Except as provided by this special district, all other regulations of the underlying B2-2, Restricted Retail District shall apply. Any pre-existing non-conforming building, structure, or use shall have the rights and privileges authorized by Article 6 of the Chicago Zoning Ordinance.

10A-1.10-6 Exceptions. In addition to the exceptions authorized by Section 11.7A-1, the Zoning Administrator is hereby authorized to consider and decide requests for exceptions from the requirements of this special district in the following instances:

1) to permit an increase of up to 10 percent in the building height;

2) to permit exceptions from the building orientation and parking access requirements for parcels lacking alley access or other circumstances demonstrating hardship conditions.

The Zoning Administrator shall make findings of fact that the granting of the exception will not be detrimental to the public welfare nor injurious to the other property or improvements in this special district.

10A-1.10-7 Variations. In addition to the variations authorized by Section 11.7-4, the Zoning Board of Appeals is hereby authorized to consider and grant variations from the requirements of this special district in the following instances:

1) to permit an increase of up to 10 percent in the building height:

2) to permit exceptions from the building orientation and parking access requirements for parcels lacking alley access or other circumstances demonstrating hardship conditions.

Variations shall be granted only in accordance with the standards set forth in Section 11.7-3.

SECTION 3. This ordinance shall be in full force and effect after its passage and due publication.

SECTION 3. That the Chicago Zoning Ordinance be amended in Article 10A-1 by adding the following language in its entirety:

10A-1.11 Addison Street Special District.

10A-1.11-1 Preamble. The SD-11 and SD-12 Addison Street Special Districts are intended to conserve the existing low-density, residential character of a portion of West Addison Street between North Ravenswood Avenue and North Western Avenue within the Roscoe Village neighborhood. The existing pattern of development is predominantly single-family and two-family dwellings all within two- and three-story structures. The Addison Street Districts seek to maintain the neighborhood's existing scale and density by limiting construction of taller buildings. In addition, these districts seek to maintain the street-front

orientation of existing homes by requiring this orientation for new construction and to preserve private open spaces by requiring slightly larger rear yards.

10A-1.11-2 Height Limits -- Addison Street Special Districts. New residential construction shall not exceed 36 feet in height as defined in Section 3.2 of this ordinance. Chimney, heating and cooling equipment, parapets, or similar structures shall not be measured as part of the building height. Stairway enclosures shall also be exempt provided such enclosures are setback a minimum of 20 feet from the front building line, at least five feet from any side building line, and do not exceed 100 square feet in area.

10A-1.11-3 Building Orientation -- Addison Street Special Districts. All new residential construction in the districts shall have a principal entrance or the design of a principal entrance oriented toward West Addison Street. 10A-1.11-5 Limits on Front Yard Obstructions -- Addison Street Special Districts. No below grade terrace or patio shall be permitted within a required front yard. Where a below grade patio or terrace is constructed at the front of a residential building, but not within a required front yard, such terrace or patio shall be screened with landscaping or decorative fencing. All other alterations or obstructions of required yards shall be consistent with the limitations of Section 5.7-5.

10A-1.11-6 Minimum Rear Yard -- Addison Street Special Districts. A rear yard shall be a minimum of 30 percent of the lot depth, or 30 feet, whichever is greater. However, the following accessory structures may be permitted obstructions within required rear yards: parking spaces and parking garages, open terraces or patios no more than four feet above grade, accessory sheds and tool rooms, and other accessory structures as permitted by Section 5.7-5. Detached garages and parking pads shall not extend more than 25 feet from the rear lot line. Attached garages shall comply with the setback requirements.

10A-1.11-7 Underlying Zoning Requirements. Except as provided by these special districts, all other regulations of the underlying R4 General Residence District shall apply. Any pre-existing non-conforming building, structure, or use shall have the rights and privileges authorized by Article 6 of the Chicago Zoning Ordinance.

10A-1.11-8 Exceptions. In addition to the exceptions authorized by Section 11.7A-1, the Zoning Administrator is hereby authorized to consider and decide requests for exceptions from the requirements of this special district in the following instances:

1) to permit an increase of up to 10 percent in the building height;

2) to permit exceptions from the building orientation and parking access requirements for parcels lacking alley access or other circumstances demonstrating hardship conditions.

The Zoning Administrator shall make findings of fact that the granting of the exception will not be detrimental to the public welfare nor injurious to the other property or improvements in these special districts.

EXPRESSION OF SUPPORT FOR AWARD OF MEDAL OF HONOR TO CHICAGO POLICE SERGEANT THOMAS J. EICHLER FOR OUTSTANDING ACT OF BRAVERY DURING VIETNAM WAR.

WHEREAS, Chicago Police Sergeant Thomas J. Eichler is an outstanding citizen who continuously acts on behalf of the safety and welfare of the grateful Chicago public; and

WHEREAS, On February 5, 1968, United State Marine Corporal Thomas J. Eichler was inspired to duty on a much broader scale. He served his country honorably and courageously in defense of his fellow marines who were under attack by a battalion-size force of the North Vietnamese Army. As a result of his performance far beyond the call of duty, five marines who witnessed Corporal Eichler repeatedly put himself in mortal danger are now requesting that he be awarded the Medal of Honor; and

WHEREAS, In the early morning hours of February 5, 1968, atop Hill 861-A, in defense of Khe Sanh Combat Base, RVN, Company E, Second Battalion, Twenty-Sixth Marines, Third Marine Division, was attacked by a large force. Immediately and without regard for his own safety, Corporal Thomas J. Eichler, serving as weapons platoon sergeant, ran on foot through intense enemy fire and mortars to the beleaguered first platoon area, where he cleared the North Vietnamese Army from his path with rounds from his M-16 in order to reach the wounded. In attempting to save his fellow marines, Corporal Eichler was involved in extensive hand-to-hand combat with North Vietnamese Army soldiers and, despite his own wounds, consistently refused medical attention. Back and forth he went to the first plattoon position, carrying grenades and weapons one way, retrieving his wounded comrades the other; and

WHEREAS, Corporal Thomas J. Eichler then joined the counter-attack, heading directly into enemy fire. In full view of the enemy and exposed to fire and a barrage of ammunition from the North Vietnamese Army, he stood alone above the trench line and hurled a relentless volley of grenades at the enemy who were still surging forward. This selfless and humbling act

of heroism was pivotal to this important battle; directly in the line of fire, Corporal Eichler proceeded from position to position, distributing weapons, ammunition and grenades, and constantly encouraging, directing, coaching and inspiring the younger Marines to even greater efforts. Our forces held Hill 861-A; the enemy was turned back; and those who witnessed Corporal Eichler's heroism agree that, if not for him, they would not have survived to bear witness; and

WHEREAS, Corporal Thomas J. Eichler saved the lives of countless Marines that fateful morning. His actions embodied the heroism, gallantry and selfless devotion to duty that were intended when the Medal of Honor was first conceived to recognize the uncommon courage of those who served their country and comrades above and beyond the call of duty; and

WHEREAS, The heroism exhibited by Corporal Thomas J. Eichler is extraordinary; now, therefore,

Be It Resolved, That we, the Mayor and members of the City Council of the City of Chicago, gathered here this sixteenth day of April, 1997, A. D., do hereby express our full support of the request of five of his peers that Thomas J. Be It Further Resolved, That suitable copies of this resolution be prepared and presented to Chicago Police Sergeant Thomas J. Eichler and to the United States Congress.

Plan of Development Statements referred to in this ordinance read as follows:

Residential Planned Development Number _____.

Plan Of Development Statements.

1. The area delineated herein as a Residential Planned Development (the "Planned Development") consists of approximately one hundred sixty-five thousand two hundred sixty-nine (165,269) square feet (three and seventy-nine one-hundredths (3.79) acres) of property which is depicted on the attached Planned Development Boundary

and Property Line Map (the "Property") and is owned or controlled by the Applicant, Orchard Park Limited Partnership.

2. The Applicant shall obtain all necessary official reviews, approvals or permits. Any dedication or vacation of streets, alleys or easements or any adjustment of right-of-way shall require a separate submittal on behalf of the Applicant and approval by the City Council.

3. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the Applicant, its successors and assigns (including any condominium association which is formed) and, if different than the Applicant, the legal title holders and any ground lessors. All rights granted hereunder to the Applicant shall inure to the benefit of the Applicant's successors and assigns (including any condominium association which is formed) and, if different than the Applicant, the legal title holders and any ground lessors. Furthermore, pursuant to the requirements of Section 11.11-1 of the Chicago Zoning Ordinance, the Property, at the time applications for amendments, modifications or changes (administrative, legislative or otherwise) to this Planned Development are made, shall be under single ownership or under single designated control. Single designated control for purposes of this paragraph shall mean that any application to the City for any amendment to this Planned Development or any other modification or change thereto (administrative, legislative or otherwise) shall be made or authorized by the Applicant or any condominium association which is formed.

4. This Plan of Development consists of thirteen (13) Statements; a Bulk Regulations and Data Table; an Existing Zoning Map; a Planned Development Boundary, Property Line and Right-of-Way Adjustment Map; an Existing Land-Use Map; a Site Plan; a Landscape Plan; a Typical Fence Elevation and Building Elevations (all prepared by Pappageorge Haymes Ltd. and dated December 12, 1996). These and no other zoning controls shall apply to the Property. This Planned Development conforms to the intent and purpose of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, and all requirements thereof, and satisfies the established criteria for approval as a planned development.

5. The following uses are permitted in the Planned Development:

   attached single-family dwelling units and accessory uses, including parking.

6. Identification signs shall be permitted within the Planned Development subject to the review and approval of the Department

of Planning and Development. Temporary signs as construction and marketing signs also shall be permitted subject to the review and approval of the Department of Planning and Development.

7. Off-street parking shall be provided in compliance with this Planned Development subject to the review and approval of the Departments of Transportation and Planning and Development.

8. Any service drive or other ingress or egress shall be adequately designed and paved in accordance with the regulations of the Department of Transportation in effect at the time of construction and in compliance with the Municipal Code of the City of Chicago, to provide ingress and egress for motor vehicles, including emergency vehicles. There shall be no parking within such paved areas. Ingress and egress shall be subject to the review and approval of the Departments of Transportation and Planning and Development.

9. In addition to the maximum heights of the buildings and any appurtenance attached thereto prescribed in this Planned Development, the height of any improvements shall also be subject to height limitations as approved by the Federal Aviation Administration.

10. The improvements on the Property, including landscaping and the landscaping along the adjacent rights-of-way and all entrances and exits to and from the parking areas, shall be designed, constructed and maintained in substantial conformance with this Planned Development. In addition, the improvements on the property shall be subject to the following regulations:

(A) Landscaping.

Parkway trees shall be installed in accordance with the Landscape Plan and maintained in accordance with the parkway tree planting provisions of the Chicago Zoning Ordinance.

(B) Right-of-Way Adjustment.

The Planned Development Boundary, Property Line and Right-of-Way Adjustment Map attached hereto depicts the portions of the existing rights-of-way that the Applicant proposes to have vacated. The vacation of said rights-of-way is subject to a separate procedure in accordance with Statement 2 hereof. With respect to the Ogden Avenue right-of-way, it is proposed that only the southern thirty (30) feet remain as a right-of-way. Prior to the submittal of any application for approval pursuant to Section 11.11-3(b) ("Part II Approval") which would permit construction on the existing Ogden Avenue right-of-way, the Applicant shall secure a final

determination from the Department of Planning and Development and the Department of Transportation as to the future need for said right-of-way. If these departments shall determine that a width greater than thirty (30) feet is required for a future right-of-way, and if such additional land as may be required to accommodate such greater width cannot be secured from the owner of the Property lying south of Ogden Avenue, then the Applicant shall modify the Site Plan to permit such portions of Ogden Avenue as have been deemed by the Departments of Planning and Development and Transportation to be required to be retained as a right-of-way. Such modified Site Plan shall be subject to the review and approval of the Department of Planning and Development. Furthermore, the Planned Development Boundary, Property Line and Right-of-Way Adjustment Map depicts the proposed vacation of certain streets (Ogden Avenue, Blackhawk Street and Frontier Street) to form the southeasternmost portion of the Property. The vacation of said streets shall be pursuant to the Applicant's discretion. In the event the vacation of the portion of any street included as part of the net site area in this Planned Development is not ultimately pursued or, if pursued, not approved by the Chicago City Council, then the net site area shall be reduced accordingly and subject to the review and approval of the Commissioner of the Department of Planning and Development, and the permitted floor area ratio (F.A.R.) increased to compensate for the decrease in net site area.

11. The terms, conditions and exhibits of this Planned Development may be modified administratively by the Commissioner of the Department of Planning and Development upon the request of the Applicant and after a determination by the Commissioner that such a modification is minor, appropriate and consistent with the nature of the development of the Property contemplated herein and will not result in increasing the maximum floor area ratio for the total net site area or the maximum number of dwelling units for the total net site area established in this Planned Development. Any such modification shall be deemed a minor change in the Planned Development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance. Notwithstanding the provisions of subclauses (4) and (5) of Section 11.11-3(c) of the Chicago Zoning Ordinance, such minor changes may include a reduction in the minimum required distance between structures, a reduction in periphery setbacks or an increase in the maximum percent of land coverage.

12. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The Applicant shall use best and reasonable efforts to design, construct and maintain all buildings located within this Planned Development in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American

Society of Heating, Refrigerating and Air-Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S.").

13. Unless substantial construction of the improvements contemplated by this Planned Development has commenced on Building Numbers 3 through 10 by the tenth (10th) anniversary of the effective date hereof and unless completion of those improvements is diligently pursued, then this Planned Development shall expire, provided, however, that if the City Council amends the Chicago Zoning Ordinance to provide for a shorter expiration period which is applicable to all planned developments, then this Planned Development shall expire upon the expiration of such shorter time period as provided by said amendatory ordinance (the first (1st) day of which as applied to this Planned Development shall be the effective date of the amendatory ordinance). If this Planned Development expires under the provisions of this statement, then the zoning of the Property shall automatically revert to the R4 General Residence District classification.

Review and approval of the Site Plan by the Commissioner is intended to assure that specific development proposals conform with the Planned Development. No Part II approval for work for which a Site Plan must be submitted to the Commissioner shall be granted until the Site Plan has been approved by the Commissioner. Further, all Part II submittals shall be in compliance with the Chicago Landscape Ordinance.

If the Site Plan substantially conforms with the provisions of this Planned Development, the Commissioner shall approve said plan in writing within thirty (30) days of the submission of a complete application, then the Site Plan shall be deemed approved by the Commissioner. If the Commissioner determines within said thirty (30) day period that the Site Plan that was submitted does not substantially conform with the provisions of this Planned Development, the Commissioner shall advise the Applicant in writing of the reasons for disapproval thereof no later than the expiration of the thirty (30) day period. The Commissioner shall thereafter make a inal written determination on any resubmission

within fourteen (14) days of its filing. The failure of the Commissioner to make a final written determination on any resubmission within fourteen (14) days of its filing shall be deemed an approval of the Site Plan by the Commissioner.

Following approval of a Site Plan by the Commissioner, the approved plan shall be kept on permanent file with the Department of Planning and Development and shall be deemed to be an integral part of this Planned Development.

After approval of a Site Plan by the Commissioner, the approved Site Plan may be changed or modified pursuant to the provisions of Statement 13.

In the event of an inconsistency between the approved Site Plan and the terms of the Statements and Bulk Regulations and Data Table of this Planned Development in effect at the time of approval of such plan or of modifications thereto, the terms of the Statements and Bulk Regulations and Data Table of the Planned Development shall govern.

A Site Plan shall, at a minimum, provide the following information with respect to the proposed improvements:

(4) preliminary landscaping plan, with final landscaping plan to be approved at Part II stage;

(5) all pedestrian circulation routes;

(6) the location of any private or common open space;

(7) the sixty (60) foot setback between facing walls of the existing high-rise and townhomes, except that townhomes along Dr. Martin Luther King, Jr. Drive may be within twenty (20) feet as measured on a diagonal from the corner of the existing high-rise.

(8) preliminary elevations of the improvements; and

(9) statistical information applicable to the Property limited to the following:

(a) floor area and floor area ratio;

(b) uses to be established;

(c) building heights; and

(d) all setbacks, required and provided.

A Site Plan shall include such other information as may be necessary to illustrate conformance with the applicable provisions of this Planned Development. Factors to be considered by the Commissioner in determining conformance of the Site Plan to the provisions of this Planned Development shall include but are not limited to the following guidelines:

(a) The distribution of bulk, density patterns and intensity of use to avoid undue concentration in any portion of the subject property which would adversely affect adjoining areas.

(b) Existing volumes of traffic, capacities of existing and planned streets to accommodate said traffic, effects upon existing traffic and traffic capacity which will be generated by the proposed use, and available means of ameliorating traffic congestion and related air pollution.

(c) Ingress and egress patterns affording ample access for fire department and other emergency and delivery vehicles, facilitating the safe and efficient circulation of pedestrians and vehicles and minimizing the conflict with existing traffic patterns in the vicinity.

(d) Impact of the proposed development on on-street parking in the area and the availability of transportation alternatives in addition to basic internal requirements established by code or determined by special analysis.

(e) Impact upon utilities and other public and quasi-public services and facilities.

(f) Compliance with the landscaping, open area and private recreation area requirements of this Planned Development.

(g) To the greatest extent feasible, primary access to single-family and townhouse units shall be orientated towards the public rights-of-way or private driveways or courtyards.

(h) To the greatest extent feasible, areas of open space shall be physically and visually connected and continuous pedestrian pathways provided.

An application for approval of a Site Plan shall be deemed complete if the Applicant submits to the Commissioner an application for approval which contains all the information listed immediately above and the Commissioner does not advise the Applicant in writing within ten (10) working days of the submission thereof that the submitted application is incomplete and the specific information required to render the application complete.

13. The terms, conditions and exhibits of this Planned Development may be modified administratively by the Commissioner of the Department of Planning and Development upon the request of the Applicant and after a determination by the Commissioner that such a modification is minor, appropriate and consistent with the nature of the development of the Property contemplated herein and will not result in increasing the maximum floor area ratio for the total net site area or the maximum number of dwelling units for the total net site area established in this Planned Development. Any such modification shall be deemed a minor change in the Planned Development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance. Notwithstanding the provisions of subclauses (4) and (5) of Section 11.11-3(c) of the Chicago Zoning Ordinance, such minor changes may include a reduction in the minimum required distance between structures, a reduction in periphery setbacks or an increase in the maximum percent of land coverage.

14. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The Applicant shall use best and reasonable efforts to design, construct and maintain all buildings located within the Planned Development in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigeration and Air Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S.").

15. Subject to the approval of the designee of any homeowners' association formed within an affected subarea, F.A.R. and site coverage may be redistributed among the subareas, provided that the maximum site coverage within any subarea shall not exceed thirty-five percent (35%) and the overall maximum site coverage shall not exceed twenty percent (20%), and that the maximum F.A.R. within any subarea shall not exceed one and five-tenths (1.5) and the overall F. A. R. shall not exceed one and two-tenths (1.2).

16. The New Private Recreation Area depicted in the Generalized Land-Use Map shall be improved in general conformance with the Concept Plan attached hereto, and construction of such improvements shall be commenced upon the earlier of: (a) completion of the seventy-fifth (75th) new dwelling unit following the effective date of this 1997 amendment (which shall be evidenced by an architect's certificate submitted within fifteen (15) days of completion by the Applicant to the Department of Planning and Development), or (b) the elimination of any current private recreation area as depicted on the Generalized Land-Use Map originally contained in Planned Development Number 15 as adopted on April 30, 1962. The New Private Recreation Area Shall Be completed within six (6) months of its commencement. The New Private Recreation Area will be a private recreation area serving the residents of the Lake Meadows community and will include enhanced landscaping, passive recreation furnishings or elements (such as picnic areas or benches), and semi-active recreation elements (such as playgrounds or jogging/walking trails). The Concept Plan is attached to illustrate the intent of the design of the New Private Recreation Area. The ultimate design may not include precisely the same elements depicted on the Concept Plan.
