WHEREAS, On the morning of Monday, January 6, 2003, the employees who were opening a west side currency exchange experienced a chilling event; and

WHEREAS, A man brandishing a stainless steel handgun forced open the door to the currency exchange as one of the workers was letting in another, then pushed one victim to the ground as he demanded all the money in the establishment; and

WHEREAS, The robber then gathered up cash and Chicago vehicle stickers in a white plastic bag and fled out the door; and

WHEREAS, Unbeknownst to the victims, the armed offender was a three-time convicted offender who was on parole for an armed robbery/murder in 1984 in which he shot and killed a store owner and attempted to murder an employee; and

WHEREAS, A short while later, over ten miles away from the scene of the robbery, 3rd District Chicago Police Officers Thomas J. Skalski (Star Number 16591) and Christopher N. Findysz (Star Number 19405), who were on patrol near East 63rd Street and South Dr. Martin Luther King, Jr. Drive, attempted to pull over a vehicle with no rear license plate, unaware that the car contained the armed robber; and

WHEREAS, Upon noticing the police car behind him, the offender sped up and fled, and with Officers Skalski and Findysz following closely, he maneuvered through an alley and down another street before crashing his car into a building; and

WHEREAS, The offender then fled on foot through an adjacent alley, where he dropped the white plastic bag containing some of the stolen cash; and

WHEREAS, Officers Skalski and Findysz split up to pursue the offender on foot and prevent his escape, radioing his path of flight to fellow officers; and

WHEREAS, Officer Skalski was the first to catch up to the offender near East 62nd Street and South Vernon Avenue, but as the officer approached him, the three-time convicted felon lunged for Officer Skalski's weapon while yelling, "I want to die"; and

WHEREAS, Fellow 3rd District Police Officers Carl M. Weatherspoon (Star Number 4630) and James A. Davis (Star Number 14452) had been monitoring the pursuit by police radio, were en route to the scene, and along with Officer Findysz, arrived

WHEREAS, Besides the cash in the plastic bag, officers recovered from the offender's car additional cash totaling over One Hundred Thirty Thousand Dollars, more than four hundred City of Chicago vehicle stickers and an unregistered 9mm. semiautomatic stainless steel handgun loaded with ten live rounds of ammunition; and

Be it ordained by the City Council of the City of Chicago, as follows:

Article I

AUTHORITY, DEFINITIONS, FINDINGS AND DETERMINATIONS

Section 101. Authority.

This 2003 Series Ordinance is adopted in accordance with the provisions of the City's Motor Fuel Tax Revenue Bonds General Ordinance, adopted on November 28, 1990 and published in the Journal of Proceedings of the City Council of the City for such date at pages 25555 through 25604, inclusive.

Section 102. Definitions.

(a) All terms that are defined in the General Ordinance have the same meanings, respectively, in this 2003 Series Ordinance, unless the context clearly indicates otherwise.

(b) All references in this 2003 Series Ordinance to Articles, Sections, subsections and other divisions refer to this 2003 Series Ordinance unless some other document is specifically identified.

For purposes of the Revenues Test, the amount of Motor Fuel Tax Revenues taken into account shall be equal to the amount of Motor Fuel Tax Revenues received by the Trustee and transferred from the Motor Fuel Tax Revenue Fund into the Debt Service Fund pursuant to the General Ordinance in the immediately preceding 12-month period for which information is available, as certified by the Comptroller.

"Series 2003 Bonds" shall mean the City's Motor Fuel Tax Revenue Bonds, Series 2003, authorized by Article II, which may be issued in two or more sub-series.

Ordinance, in each case to the extent that monies held under the Series Ordinances with respect to the Refunded Bonds are not so applied.

(d) The City is a municipal corporation and, by virtue of Section 6(a) of Article VII of the 1970 Constitution of the State of Illinois, is a home rule unit of local government and as such may exercise any power and perform any function pertaining to its government and affairs. The City is authorized by its home rule powers to issue the Series 2003 Bonds to evidence its obligation to repay the borrowing authorized by this 2003 Series Ordinance.

(e) The City has determined and does determine that it is necessary and desirable to issue the Series 2003 Bonds as provided in this 2003 Series Ordinance to evidence this borrowing.

(f) The City has determined that it is necessary and desirable to amend the General Ordinance in certain respects to provide (i) that for the Series 2003 Bonds and future Series of Additional Bonds only, the Reserve Requirement shall be the amount, if any, provided in the Series Ordinance for such Series or in any determination certificate executed and delivered in connection with the issuance and delivery of such Series, which may be expressed as a dollar amount or as a formula pursuant to which a dollar amount may be calculated, (ii) provisions (applicable to the Series 2003 Bonds and future Series of Additional Bonds only) permitting the City to enter into Qualified Swap Agreements, Qualified Options, Non-Qualified Swap Agreements and Non-Qualified Options with respect to a Series of such Bonds, (iii) for the issuance of taxable Additional Bonds, and (iv) that the amendments to the General Ordinance made by Article VIII will become effective immediately upon the filing of the necessary consents with the City and the Trustee and the issuance and delivery of the Series 2003 Bonds.

(g) Section 1003 of the General Ordinance provides that the General Ordinance may be modified or amended at any time by Supplemental Ordinance adopted by the City pursuant to the consent of the Holders of sixty-six and two-thirds percent (66 2/3%) in principal amount of all the Bonds then Outstanding (other than Bonds of a Series which is unaffected by such modification or amendment) by written instrument. The Series 1990 Bonds and the Series 1993 Bonds are unaffected by the amendments proposed to be made by Article VIII. Accordingly, under the General Ordinance as amended by the amendments proposed to be made by Article VIII, such amendments will become effective after the written consent of the Initial Purchasers to such amendments is filed with the Trustee and the Series 2003 Bonds are issued and delivered. For purposes of Article X of the General Ordinance, this 2003 Series Ordinance constitutes a "Supplemental Ordinance."

(h) Under Section 807(2) of the General Ordinance, the City may remove the Trustee at any time, except during such time as the City shall have failed to pay (and shall continue to fail to pay) principal of any Bond (at maturity or on Sinking Fund Installment dates) or to pay interest on any Bond as it comes due or to make any required deposits into the Debt Service Fund, for such cause as shall be determined by the City by filing with the Trustee an instrument of removal signed by an Authorized Officer. The City has not failed to pay principal of or interest on any Bonds when due or to make any required deposits into the Debt Service Fund. The City has filed, or will file, with U. S. Bank, the incumbent Trustee, an instrument of removal signed by an Authorized Officer. Section 808 of the General Ordinance provides that if at any time the Trustee is removed, the City by resolution shall appoint a successor Trustee meeting the requirements of the General Ordinance. The City desires to approve, ratify and confirm the appointment of Cole Taylor Bank as successor Trustee under the General Ordinance. For purposes of Section 808 of the General Ordinance, this 2003 Series Ordinance shall constitute a "resolution appoint[ing] a successor Trustee."

(i) The delegations of authority that are contained in this 2003 Series Ordinance, including the authority to make the specific determinations authorized below, are necessary and desirable because this City Council cannot itself as advantageously, expeditiously or conveniently exercise such authority and make such specific determinations. The City's ability to issue the Series 2003 Bonds without further action by this City Council with various interest rates, maturities, redemption provisions and other terms, all to be determined as provided below, will enhance the City's opportunities to refund the Refunded Bonds and finance projects constituting Project Purposes upon the most favorable terms available. Thus, authority is granted to the Comptroller to determine to sell the Series 2003 Bonds on such terms as and to the extent such officer determines that such sale and terms are desirable and in the best financial interest of the City.

Article II

AUTHORIZATION OF THE SERIES 2003 BONDS

Section 201. Principal Amount, Purposes and Designation.

The provisions of this Article II shall apply to all Series 2003 Bonds, except, with respect to Series 2003 Variable Rate Bonds, to the extent that the provisions of Article III are inconsistent with Article II. In that event, with respect to Series 2003 Variable Rate Bonds, Article III shall apply.

The City is authorized to borrow money for the purposes specified in Section 202 and in evidence of its obligation to repay the borrowing is authorized to issue the Series 2003 Bonds in a single series, or in two or more sub-series, in an aggregate principal amount not to exceed \$135,000,000 plus the amount of original issue discount as determined by the

Comptroller in the Determination Certificate. The Series 2003 Bonds shall be designated "City of Chicago Motor Fuel Tax Revenue Bonds, Series 2003", and may include sub-series designations, if the Series 2003 Bonds are issued in two or more sub-series. If some or all of the Series 2003 Bonds are issued as Series 2003 Variable Rate Bonds, the phrase "Variable Rate Demand" may be included in the designation of such Series 2003 Variable Rate Bonds. The Series 2003 Bonds shall be limited obligations of the City having a claim for payment of principal, redemption premium and interest solely from Motor Fuel Tax Revenues which lawfully may be used for the payment of Municipal Indebtedness on an equal and ratable basis with (i) any Series 1990 Bonds and Series 1993 Bonds remaining Outstanding after the issuance of the Series 2003 Bonds, and (ii) any other Additional Bonds that may be issued. The Series 2003 Bonds shall not constitute an indebtedness of the City within the meaning of any constitutional or statutory provision or limitation of indebtedness. Each Series 2003 Bond shall contain a statement to that effect.

Section 202. Purposes.

The borrowing and the issuance of the Series 2003 Bonds authorized in Section 201 shall be for the purposes of (i) providing funds to refund the Refunded Bonds, (ii) paying the costs of acquiring and constructing projects constituting Project Purposes, (iii) paying the costs of one or more of the following, if any, pertaining to the Series 2003 Bonds: Credit Support Instruments, Reserve Fund Credit Instruments, Qualified Swap Agreements, Qualified Options, Non-Qualified Swap Agreements and Non-Qualified Options, (iv) paying Costs of Issuance of the Series 2003 Bonds and expenses incurred in connection with the refunding of the Refunded Bonds, and (v) providing funds to deposit in the Series 2003 Debt Service Reserve Account as provided in Section 604, in each case to the extent that monies held under the Series Ordinances with respect to the Refunded Bonds are not so applied.

Section 203. Date, Denominations, Numbers.

The Series 2003 Bonds, other than Series 2003 Variable Rate Bonds, shall be issued as fully registered bonds without coupons in denominations of \$5,000 or any integral multiple of that amount. Series 2003 Bonds issued prior to the first interest payment date shall be dated as provided in the applicable Bond Purchase Agreement, except that capital appreciation bonds and Series 2003 Variable Rate Bonds shall be dated as of the date they are issued. Series 2003 Bonds bearing interest payable currently that are issued on or subsequent to the first interest payment date shall be dated as provided in Section 301(3) of the General Ordinance. Series 2003 Bonds shall be numbered as provided in the Determination Certificate. Neither the City nor the Trustee shall be obligated to make any exchange or transfer of the Series 2003 Bonds during the fifteen (15) days next preceding an interest payment date on the Series 2003 Bonds or to make any such transfer or exchange in the case of any Series 2003 Bond proposed to be redeemed after the selection by the Trustee of such Series 2003 Bond for redemption.

Section 204. Maturity.

The principal of the Series 2003 Bonds shall be payable (either at maturity or pursuant to mandatory sinking fund redemption) on January 1 of such years as are provided in the Determination Certificate, with a final maturity not later than January 1, 2033. The Series 2003 Bonds shall be issued as Serial Bonds, as Term Bonds, as capital appreciation bonds, as Series 2003 Variable Rate Bonds, or as any combination of Serial Bonds, Term Bonds, capital appreciation bonds and Series 2003 Variable Rate Bonds. The maturities for the Series 2003 Bonds shall be provided in the Determination Certificate.

Section 205. Redemption, Notice of Redemption Terms.

(a) Optional Redemption. The Series 2003 Bonds shall be subject to redemption, in whole or in part, at the option of the City, at a price equal to their principal amount (or Compound Accreted Value for capital appreciation bonds) plus accrued interest, if any, to the date of redemption if the redemption date is not an interest payment date and, subject to the remaining provisions of this Section 205, upon such other terms as the Comptroller shall provide in the Determination Certificate, each and all of which the Comptroller is authorized and directed to determine and approve on behalf of and in the name of the City. The Series 2003 Bonds shall be subject to optional redemption at any time on and after the first optional redemption date established in the Determination Certificate, at a redemption premium, if any, not greater than 103% of the principal amount (or Compound Accreted Value for capital appreciation bonds) of the Series 2003 Bonds to be so redeemed.

(b) Mandatory Sinking Fund Redemption. Subject to the terms of Section 404 of the General Ordinance and Section 313 of this 2003 Series Ordinance, any Series 2003 Bonds that are Term Bonds shall be selected for redemption by lot by the Trustee, and shall be so redeemed at a price of 100% of the principal amount (or Compound Accreted Value for capital appreciation bonds) of the Series 2003 Bonds to be redeemed plus accrued interest, if any, to the date fixed for redemption if not an interest payment date. To the extent that Series 2003 Bonds that are Term Bonds have been previously called for redemption in part otherwise than from a sinking fund payment, one or more Sinking Fund Installments for such Series 2003 Bonds as determined by the City in its sole discretion shall be reduced by amounts determined by the City in its sole discretion, which determinations shall be made by the Comptroller, *provided* that any reduction of any Sinking Fund Installment shall be in an amount of \$5,000 or any integral multiple of that amount. Written notice of such determinations shall be sent promptly by the Comptroller to the Trustee.

In lieu of making all or any part of any sinking fund payment in cash, the City may, at its option, redeem Series 2003 Bonds that are Term Bonds through the purchase of such Series 2003 Bonds in the open market. Series 2003 Bonds shall not be purchased in the open

market for such purpose at a price in excess of (i) their Outstanding principal amount (or Compound Accreted Value for capital appreciation bonds) plus (ii) the redemption premium, if any, applicable to the redemption of such Series 2003 Bonds on the next date on which they may be optionally redeemed plus (iii) accrued and unpaid interest, if the Series 2003 Bonds bear interest payable currently, on the principal of the purchased Series 2003 Bonds to the date of purchase. The total principal amount of the Series 2003 Bonds of any maturity which shall be redeemed pursuant to purchase on the open market shall be a credit against and a reduction of any one or more applicable Sinking Fund Installments determined by the City in its sole discretion, which determination shall be made by the Comptroller; *provided* that any reduction of any Sinking Fund Installment shall be in an amount of \$5,000 or any integral multiple of that amount. Written notice of that determination shall be sent promptly by the Comptroller to the Trustee.

(c) *Partial Redemption of Bonds.* In the event of a redemption of less than all the Series 2003 Bonds of a maturity, the Trustee shall assign to each Outstanding Series 2003 Bond of a denomination greater than \$5,000 principal amount at maturity a distinctive number for each \$5,000 principal amount at maturity portion of such Series 2003 Bond so as to distinguish each such \$5,000 portion from each other portion of such Series 2003 Bond. Subject to the provisions of Section 404 of the General Ordinance and Section 313 of this 2003 Series Ordinance, the Trustee shall select by lot, using such method of selection as it shall deem proper in its sole discretion, from the numbers assigned to the Series 2003 Bonds as many numbers as, at \$5,000 for each number, shall equal the principal amount of Series 2003 Bonds to be redeemed. The Series 2003 Bonds to be redeemed shall be the Series 2003 Bonds to which were assigned the numbers so selected, but only so much of the principal amount of each such Series 2003 Bond of a denomination greater than \$5,000 principal amount at maturity shall be redeemed as shall equal \$5,000 principal amount at maturity for each number assigned to it and so selected.

A second notice of redemption shall be given within 60 days after the redemption date by the same means as the first notice was given, to any Holder of redeemed Series 2003 Bonds which have not been presented for payment within 30 days after the redemption date.

If any of the Series 2003 Bonds are redeemed pursuant to an advance refunding, notice of such advance refunding and redemption shall be given in the same manner as provided in this 2003 Series Ordinance and the General Ordinance and within the same time period with respect to the actual redemption date.

The Series 2003 Bonds shall bear interest (or, in the case of capital appreciation bonds, accrue interest) from their date until principal is paid at a rate or rates per year (or, in the case of capital appreciation bonds, at a yield) determined by the Comptroller and provided in the Determination Certificate, which shall be in the judgment of the Comptroller the best interest rates for which the Series 2003 Bonds (other than Series 2003 Variable Rate Bonds) can be sold in the market and which, in the aggregate, result in a true interest cost (expressed as a percentage) not in excess of 7% computed on the basis of a 360-day year consisting of twelve 30-day months. Interest on the Series 2003 Bonds (other than Series 2003 Variable Rate Bonds) on which interest is payable currently shall be payable semi-annually on January 1 and July 1 in each year, with the first interest payment date being fixed by the Comptroller in the Determination Certificate.

Section 207. Places and Medium of Payment.

Subject to the provisions of Section 201 above, the principal or Compound

Accreted Value and Redemption Price of all Series 2003 Bonds (and the interest payable on any date of redemption or acceleration other than on an interest payment date) shall be payable at the principal corporate trust office of the Trustee in Chicago, Illinois. The Trustee is appointed Paying Agent for the Series 2003 Bonds. The Trustee may exercise the duties of Paying Agent in whole or in part through the Trustee's Agent (as defined in Section 302). Interest on the Series 2003 Bonds payable on any interest payment date shall be payable by check mailed by the Trustee to the Holders of the Series 2003 Bonds at their addresses as shown on the registration books of the City maintained by the Bond Registrar. The interest payable on the Series 2003 Bonds on each interest payment date will be paid to the persons in whose names the Series 2003 Bonds are registered at the close of business on the fifteenth (15th) day next preceding that interest payment date. Upon request of a Holder of at least \$1,000,000 in principal amount at maturity of the Series 2003 Bonds Outstanding, all payments of principal or Compound Accreted Value, Redemption Price and interest on the Series 2003 Bonds shall be paid by wire transfer in immediately available funds to an account designated by such Holder. CUSIP number identification with appropriate dollar amounts for each CUSIP number must accompany all payments of principal or Compound Accreted Value, Redemption Price, Purchase Price and interest, whether payment is made by presentation, by check or by wire transfer.

Section 208. Global Book-Entry System.

(a) Except as may be otherwise provided in the Determination Certificate, the Series 2003 Bonds shall be initially issued in the form of a separate single fully registered Bond for each maturity of such Series. Upon initial issuance, the ownership of each Series 2003 Bond shall be registered in the registration books kept by the Bond Registrar in the name of Cede & Co., as nominee of DTC, and except as provided in this Section, the ownership of all of the outstanding Series 2003 Bonds shall be registered in the name of Cede & Co., as nominee of DTC.

(b) With respect to Series 2003 Bonds registered in the name of Cede & Co., as nominee of DTC, the City and the Trustee shall have no responsibility or obligation to any DTC Participant or to any person on behalf of whom such a DTC Participant holds an interest in the Series 2003 Bonds. Without limiting the immediately preceding sentence, the City and the Trustee shall have no responsibility or obligation with respect to (i) the accuracy of the records of DTC, Cede & Co., or any DTC Participant with respect to any ownership interest in any Series 2003 Bond, (ii) the delivery to any DTC Participant or any other person, other than the Holder of any Series 2003 Bond, of any notice with respect to such Series 2003 Bond, including (without limitation) any notice of redemption, or (iii) the payment to any DTC Participant or any other person, other than the Holder of any Series 2003 Bond, of any amount with respect to principal or Compound Accreted Value, Redemption Price or Purchase Price of or interest on such Series 2003 Bond. Notwithstanding any other provisions of the General Ordinance to the contrary, the City, the Trustee and each other Paying Agent, if any, shall be entitled to treat and consider the person in whose name each Series 2003 Bond is registered as the absolute owner of

such Series 2003 Bond for the purpose of payment of principal or Compound Accreted Value, Redemption Price, Purchase Price and interest with respect to such Series 2003 Bond, for the purpose of giving notices of redemption, for the purpose of registering transfers with respect to such Series 2003 Bond, and for all other purposes. The Trustee and each other Paying Agent, if any, shall pay all principal or Compound Accreted Value, Redemption Price or Purchase Price of and interest on the Series 2003 Bonds only to or upon the order of the respective Holders of the Series 2003 Bonds, or their respective attorneys duly authorized in writing, and all of such payments shall be valid and effective to satisfy and discharge fully the City's obligations with respect to payment of principal or Compound Accreted Value, Redemption Price or Purchase Price of and interest on the Series 2003 Bonds to the extent of the sum or sums so paid. No person other than a Holder of a Series 2003 Bond shall receive a Series 2003 Bond certificate evidencing the obligation of the City to make payments of principal or Compound Accreted Value, Redemption Price or Purchase Price of, and interest on the Series 2003 Bonds pursuant to the General Ordinance and this 2003 Series Ordinance.

(c) The Holders of the Series 2003 Bonds have no right to the appointment or retention of a depository for the Series 2003 Bonds. DTC may resign or be removed as securities depository under the conditions provided in the Letter of Representations. In the event of any such resignation or removal, the City shall (i) appoint a successor securities depository, qualified to act as such under Section 17(a) of the Securities Exchange Act of 1934, as amended, notify DTC of the appointment of such successor securities depository, and transfer or cause the transfer of one or more separate Series 2003 Bond certificates to such successor securities depository or (ii) notify DTC Participants of the availability through DTC of Series 2003 Bond certificates and transfer or cause the transfer of one or more separate Series 2003 Bond certificates to DTC Participants having Series 2003 Bonds credited to their DTC accounts. In such event, the Series 2003 Bonds shall no longer be restricted to being registered in the name of Cede & Co., as nominee of DTC, but may be registered in the name of the successor securities depository, or its nominee, or in whatever name or names the DTC Participants receiving Series 2003 Bonds shall designate, in accordance with the provisions of the General Ordinance.

(d) The City has executed and delivered the Letter of Representations to DTC or will do so on or before the date of issuance of the Series 2003 Bonds. Notwithstanding any other provision of the General Ordinance, so long as DTC, or its designee, is the Holder of all of the Series 2003 Bonds, the provisions set forth in the Letter of Representations shall apply to the redemption of any Series 2003 Bonds and to the payment of principal or Compound Accreted Value, Redemption Price or Purchase Price of and interest on the Series 2003 Bonds, including without limitation, that: (a) presentation of Series 2003 Bonds to the Trustee upon redemption or at maturity shall be deemed made to the Trustee when the right to exercise ownership rights in the Series 2003 Bonds through DTC or DTC's Participants is transferred by DTC on its books; and (b) DTC may present notices, approvals, waivers or other communications required or permitted to be made by Holders of Series 2003 Bonds under the General Ordinance on a

fractionalized basis on behalf of some or all of those persons entitled to exercise ownership rights in the Series 2003 Bonds through DTC or DTC's Participants.

Except as otherwise provided in this Section 209, the purchase price shall not be less than 98% of the original principal amount of the Series 2003 Bonds, plus accrued interest, if applicable, less the amount of original issue discount, if any, on the Series 2003 Bonds from their date to the date of their delivery. Any Series 2003 Bonds sold at an original issue discount shall have a principal amount (net of original issue discount) not to exceed \$135,000,000, shall be sold in the aggregate at an original issue discount of not to exceed 40% of their principal amount, and the original issue discount on such Series 2003 Bonds may not result in a yield to maturity in excess of the maximum rate of interest specified in Section 206.

(b) The Comptroller shall establish the terms of the Series 2003 Bonds and of their sale to the Initial Purchasers in the Determination Certificate. The terms to be so determined include, without limitation, the purchase price to be paid by the Initial Purchasers pursuant to Section 209(a), the aggregate principal amount of the Series 2003 Bonds, the maturities of the Series 2003 Bonds, the amount of any original issue discount, the amount of the 2003 Reserve Requirement, the issuance of the Series 2003 Bonds in a single series or two or more sub-series, and as Serial Bonds, Term Bonds, capital appreciation bonds, Series 2003 Variable Rate Bonds, or any combination of Serial Bonds, Term Bonds, capital appreciation bonds and Series 2003 Variable Rate Bonds, the numbering of the Series 2003 Bonds, the interest rate or rates and the first interest payment dates for the Series 2003 Bonds that bear interest payable currently and the yield to maturity of any capital appreciation bonds, whether the Series 2003 Bonds shall be issued initially in the form of a single or more than one fully registered Series 2003 Bond for each maturity, the issuance of Series 2003 Bonds as Series 2003 Bonds the interest on which is excluded from gross income for federal income tax purposes, as Series 2003 Bonds the interest on which is not excluded from gross income for federal income tax purposes, or any combination thereof, and the prices and other terms upon which the Series 2003 Bonds are subject to redemption, all as provided in and subject to the limitations expressed in this Article II, including the limitation specified in Section 206 and, with respect to Series 2003 Variable Rate Bonds, elsewhere in this 2003 Series Ordinance. The Comptroller may in the Determination Certificate make such changes to the terms of the Series 2003 Bonds and the form of the Series 2003 Bonds from those provided in this 2003 Series Ordinance as he

or she shall determine but which shall result in the Series 2003 Bonds having substantially the terms and being in substantially the form provided by this 2003 Series Ordinance. In the Determination Certificate, the Comptroller shall also (i) identify any Qualified Providers, Credit Support Instruments, Qualified Swap Agreements, Qualified Options, Non-Qualified Swap Agreements and Non-Qualified Options to be obtained to secure the payment of debt service on and/or the Purchase Price of the Series 2003 Bonds, (ii) identify any Reserve Fund Credit Instruments to be obtained in respect of the Series 2003 Bonds and the company or companies providing them, (iii) identify the Initial Purchasers selected by the Comptroller, and (iv) specify the compensation to be paid to the Initial Purchasers in connection with the sale of the Series 2003 Bonds.

The Comptroller may enter into commitments with respect to the terms under which Credit Support Instruments or Reserve Fund Credit Instruments will be issued and on behalf of the City may enter into such agreements and may make such covenants with respect to such instruments that are consistent with this 2003 Series Ordinance; *provided*, that any agreement to reimburse a Qualified Provider or provider of a Reserve Fund Credit Instrument shall be payable solely and only from the sources pledged to the payment of the Series 2003 Bonds as described in Section 201. Section 303. Interest on Series 2003 Variable Rate Bonds.

(a) General. The Series 2003 Variable Rate Bonds shall bear interest from and including the Date of Issuance until payment of the principal or redemption price thereof shall have been made or provided for in accordance with the provisions hereof, whether at the Maturity Date, upon redemption or acceleration, or otherwise. Interest accrued on the Series 2003 Variable Rate Bonds (other than Liquidity Provider Bonds) during each Rate Period shall be paid in arrears on each Interest Payment Date, and with respect to Liquidity Provider Bonds, interest shall be paid in accordance with the terms of the applicable Qualified Provider Agreement. Interest on the Series 2003 Variable Rate Bonds shall be computed (i) during any Short Mode upon the basis of a 365 or 366-day year, as applicable, for the number of days actually elapsed, (ii) during any Adjustable Long Mode or during a Fixed Mode, upon the basis of a 360-day year consisting of twelve 30-day months, and (iii) with respect to Liquidity Provider Bonds, upon the basis of a 365 or 366-day year, as applicable, and the actual number of days elapsed. The Series 2003 Variable Rate Bonds shall initially bear interest for the period from the Date of Issuance to the end of the first Rate Period designated in the Determination Certificate at the interest rate established in the Determination Certificate (the "Initial Rate"). Thereafter, the Series 2003 Variable Rate Bonds shall bear at an interest rate or interest rates for one or more Interest Modes as established in the Determination Certificate for the Interest Periods following the initial Interest Period until and unless any portion of the Series 2003 Variable Rate Bonds is converted to a different Interest Mode as provided in Section 501, 502 or 503. Each Liquidity Provider Bond shall bear interest at the applicable Liquidity Provider Rate. Notwithstanding any other provision herein to the contrary, at no time shall the Series 2003 Variable Rate Bonds (including Liquidity Provider Bonds) bear interest at a rate higher than the Maximum Interest Rate and at no time shall Series 2003 Variable Rate Bonds entitled to the benefit of a Liquidity Facility bear interest at a rate higher than the applicable Interest Coverage Rate. No Rate Period shall be established during an Adjustable Long Mode or a Flexible Mode for any Series 2003 Variable Rate Bonds which extends beyond the Business Day preceding the Stated Termination Date for the Credit Support Instrument or Credit Support Instruments securing such Series 2003 Variable Rate Bonds. The determination of the Remarketing Agent as to rate or rates on the Series 2003 Variable Rate Bonds shall be binding and conclusive on all Holders, the Trustee and the City.

(b) Daily Mode. For each Rate Period during any Daily Mode, Series 2003 Variable Rate Bonds in such Interest Mode shall bear interest beginning on the Rate Change Date at the Daily Rate (which rate shall be the same for all Series 2003 Variable Rate Bonds in

the Daily Mode) determined on the Rate Determination Date in the following manner for each such Rate Period. No later than 8:30 a.m., Chicago time, on the Rate Determination Date for each such Rate Period, the Remarketing Agent will determine, and is required to give telephonic notice (confirmed by telecopy) to the Trustee of, the Daily Rate. Except on an Adjustment Date, in which event the provisions of Section 501(e) shall apply, in the event that the Daily Rate is not determined by the Remarketing Agent, the rate of interest borne by the Series 2003 Variable Rate Bonds bearing interest at a Daily Rate shall be equal to the rate in effect for the immediately preceding Rate Period for which a rate has been set until the Remarketing Agent next determines the Daily Rate as required hereunder.

(c) Weekly Mode.

(i) For each Rate Period during any Weekly Mode, Series 2003 Variable Rate Bonds in such Interest Mode shall bear interest beginning on the Rate Change Date at the Weekly Rate (which rate shall be the same for all Series 2003 Variable Rate Bonds in the Weekly Mode) determined on the Rate Determination Date in the following manner for each such Rate Period. No later than 3:00 p.m., Chicago time, on the Rate Determination Date for each such Rate Period, the Remarketing Agent will determine the Weekly Rate and will give telephonic notice (confirmed by telecopy) to the Trustee of the Weekly Rate by 1:00 p.m., Chicago time, on the following Rate Change Date. Except on an Adjustment Date, in which event the provisions of Section 501(e) shall apply, in the event that the Weekly Rate is not determined by the Remarketing Agent on a Rate Determination Date, the rate of interest borne by the Series 2003 Variable Rate Bonds bearing interest at a Weekly Rate shall be equal to the rate in effect for the immediately preceding Rate Period for which a rate has been set until the Remarketing Agent next determines the Weekly Rate as required hereunder.

(ii) If at any time the Remarketing Agent shall determine that, in its judgment, the scheduled Rate Determination Dates or Rate Change Dates during a Weekly Mode have become inappropriate (taking into account general market practice with respect to periodic adjustment of rates on instruments comparable to the Series 2003 Variable Rate Bonds bearing interest at the Weekly Rate, whether based upon the time of compilation or reporting of any interest rate or financial index or indicator or otherwise), the Remarketing Agent may, after consultation with the City, designate new scheduled Rate Determination Dates and/or Rate Change Dates, to remain in effect until another redetermination of scheduled Rate Determination Dates or Rate Change Dates in accordance with this subparagraph. The Remarketing Agent shall give written notice of any change in scheduled Rate Determination Dates and/or Rate Change Dates during a Weekly Mode to the City, the Trustee, the Trustee's Agent, if any, and each Qualified Provider of a Credit Support Instrument securing the Series 2003 Variable Rate Bonds bearing

interest at a Weekly Rate, and such change shall become effective on the first scheduled Rate Determination Date or Rate Change Date, as the case may be, so designated occurring not less than 14 days following the giving of such notice. Promptly upon receipt of such notice, the Trustee shall notify or cause the Remarketing Agent to notify each affected Holder of such change in writing. Notwithstanding the foregoing, no such change shall be effective with respect to the Series 2003 Variable Rate Bonds without an opinion of Bond Counsel to the effect that any such change will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled.

(d) Flexible Mode.

(i) For each Rate Period during any Flexible Mode, each Series 2003 Variable Rate Bond which will bear interest at a Flexible Rate for such Rate Period shall bear interest beginning on the Rate Change Date at the Flexible Rate, which rate shall be the same for all Series 2003 Variable Rate Bonds in the Flexible Mode and having a Rate Period of the same duration with the same beginning and ending dates, determined on the Rate Determination Date in the following manner for each such Rate Period. No later than 11:00 a.m., Chicago time, on the Rate Determination Date for a Series 2003 Variable Rate Bond bearing interest at the Flexible Rate, the Remarketing Agent will determine, and is required to give telephonic notice (confirmed by telecopy) to the Trustee of, (a) the duration of the Rate Period for such Series 2003 Variable Rate Bond by specifying the succeeding Rate Change Date (which shall also be the succeeding Rate Determination Date) for such Series 2003 Variable Rate Bond which Rate Change Date shall be no later than the Business Day prior to the Stated Termination Date of any Credit Support Instrument securing such Series 2003 Variable Rate Bond, if a Credit Support Instrument is required to be in place, and (b) the Flexible Rate applicable to such Series 2003 Variable Rate Bond bearing interest at the Flexible Rate during such Rate Period. The last day of such Rate Period must be a Business Day and the day next succeeding such Business Day must also be a Business Day. Except on an Adjustment Date, in which event the provisions of Section 501(e) shall apply, in the event that the Flexible Rate for any Series 2003 Variable Rate Bond is not determined by the Remarketing Agent on any Rate Determination Date, such Series 2003 Variable Rate Bond shall bear interest at a Flexible Rate equal to the BMA Municipal Index for a Rate Period of seven days until the Remarketing Agent next determines the Flexible Rate, as required hereunder.

(ii) The Remarketing Agent shall determine the duration of Rate Periods during a Flexible Mode as will, in the judgment of the Remarketing

Agent, result in the lowest aggregate cost being payable by the City with respect to the Series 2003 Variable Rate Bonds bearing interest at Flexible Rates, taking into account interest and any other determinable fees and expenses. The Remarketing Agent may establish different Rate Periods on the same Rate Change Date for Series 2003 Variable Rate Bonds in the Flexible Mode in order to achieve an average duration of Rate Periods that, in the judgment of the Remarketing Agent, is most likely to achieve the lowest total aggregate cost being payable by the City with respect to such Series 2003 Variable Rate Bonds, taking into account interest and any other determinable fees and expenses. The Remarketing Agent's determination shall be based upon the market for, and the relative yields of, the Series 2003 Variable Rate Bonds and other securities that bear interest at a variable rate or at fixed rates that, in the judgment of the Remarketing Agent, are otherwise comparable to the Series 2003 Variable Rate Bonds, or any fact or circumstance relating to the Series 2003 Variable Rate Bonds, affecting the market for the Series 2003 Variable Rate Bonds or affecting such other comparable securities in a manner that, in the judgment of the Remarketing Agent, will affect the market for the Series 2003 Variable Rate Bonds. The Remarketing Agent's determination shall be conclusive and binding upon all parties. Except on an Adjustment Date, in which event the provisions of Section 501(e) shall apply, in the event that the Rate Period for any Series 2003 Variable Rate Bond in a Flexible Mode is not determined by the Remarketing Agent as provided in this clause (ii), the Rate Period for such Series 2003 Variable Rate Bond shall be a Rate Period of seven days.

(e) Adjustable Long Mode.

(i) For each Rate Period during any Adjustable Long Mode, each Series 2003 Variable Rate Bond which will bear interest at an Adjustable Long Rate for such Rate Period shall bear interest beginning on the Rate Change Date at the Adjustable Long Rate (which rate shall be the same for all Series 2003 Variable Rate Bonds in the Adjustable Long Mode and having a Rate Period of the same duration with identical beginning and ending dates) determined on the Rate Determination Date in the following manner for such Rate Period. No later than 10:00 a.m., Chicago time, on the Rate Determination Date for each Rate Period during an Adjustable Long Mode applicable to a specific Series 2003 Variable Rate Bond, the Remarketing Agent will determine a fixed per annum interest rate to be borne by such Series 2003 Variable Rate Bond for such Rate Period and is required to give telephonic notice (confirmed by telecopy) to the Trustee of the Adjustable Long Rate. Except on an Adjustment Date, in which event the provisions of Section 501(e) shall apply, if the Remarketing Agent shall fail to determine an Adjustable Long Rate on a Rate Determination Date for a Rate Period within an Adjustable Long Mode, the Series 2003 Variable Rate

Bonds in an Adjustable Long Mode shall automatically convert to a Rate Period of 367 days and shall bear interest at an Adjustable Long Rate equal to 90 percent of the interest rate on United States Treasury obligations with a maturity of one year.

(ii) The Remarketing Agent, upon the request of the City, shall determine the duration of Rate Periods during an Adjustable Long Mode as will, in the judgment of the Remarketing Agent, result in the lowest aggregate cost being payable by the City with respect to the Series 2003 Variable Rate Bonds bearing interest at Adjustable Long Rates, taking into account interest and any other determinable fees and expenses. The Remarketing Agent may establish different Rate Periods on the same Rate Change Date for Series 2003 Variable Rate Bonds in an Adjustable Long Mode in order to achieve an average duration of Rate Periods that, in the judgment of the Remarketing Agent, is most likely to achieve the lowest total aggregate cost being payable by the City with respect to such Series 2003 Variable Rate Bonds, taking into account interest and any other determinable fees and expenses. The Remarketing Agent's determination will be based upon the market for and the relative yields of the Series 2003 Variable Rate Bonds and other securities that bear interest at a variable rate or at fixed rates that, in the judgment of the Remarketing Agent, are otherwise comparable to the Series 2003 Variable Rate Bonds, or any fact or circumstance relating to the Series 2003 Variable Rate Bonds, affecting the market for the Series 2003 Variable Rate Bonds or affecting such other comparable securities in a manner that, in the judgment of the Remarketing Agent, will affect the market for the Series 2003 Variable Rate Bonds. The Remarketing Agent's determination will be conclusive and binding upon all parties. Except on an Adjustment Date, in which event the provisions of Section 501(e) shall apply, in the event that the Rate Period for any Series 2003 Variable Rate Bond in an Adjustable Long Mode is not determined by the Remarketing Agent as provided in this clause (ii), the Rate Period for such Series 2003 Variable Rate Bond will be a 367-day Rate Period.

(f) Fixed Rate. From and after the Fixed Rate Conversion Date for a Series 2003 Variable Rate Bond, such Series 2003 Variable Rate Bond shall bear interest at the Fixed Rate with respect thereto established as provided in Section 503.

(g) Information for Holders. The Trustee shall provide to any Holder of Series 2003 Variable Rate Bonds, upon the written request of such Holder, information regarding the Adjustment Periods, Rate Periods, Interest Payment Dates, optional redemption provisions and interest rate or rates applicable to such Holder's Series 2003 Variable Rate Bonds.

(h) Notices to City. The Remarketing Agent shall provide to the City notice of all determinations made by the Remarketing Agent pursuant to this 2003 Series Ordinance, including, but not limited to, interest rate determinations and duration of Rate Periods, on a timely basis.

Section 304. Required Information in Bond Form.

(a) On each date on which the Trustee or the Trustee's Agent authenticates and delivers a Series 2003 Variable Rate Bond, it shall insert in the Series 2003 Variable Rate Bond certificate the information required to be inserted by the form of the Series 2003 Variable Rate Bonds in Section 701 and shall keep a record of such information.

(b) On each date on which the Trustee or the Trustee's Agent authenticates and delivers a Series 2003 Variable Rate Bond during a Flexible Mode or an Adjustable Long Mode, the Trustee or Trustee's Agent shall attach to each such Series 2003 Variable Rate Bond a copy of the Notice of Rate Period in substantially the form of the Notice of Rate Period in the form of the Series 2003 Variable Rate Bonds in Section 701 for the purpose of maintaining an accurate record of the terms and provisions of the Adjustment Period then applicable to such Series 2003 Variable Rate Bond.

(ii) the moneys received from the purchasers (other than the City) of Tendered Bonds upon the conversion of the interest rate thereon to a Fixed Rate;

(iii) the moneys obtained by the Trustee pursuant to the Liquidity Facility, if any, then in effect to be applied to pay the Purchase Price of Tendered Bonds; and

(iv) at the sole option of the City, in its sole discretion, any other moneys furnished by the City to the extent that moneys obtained pursuant to (i), (ii) or (iii) above are insufficient on any date to pay the Purchase Price of Tendered Bonds, *provided* that the conditions of Section 411(b) are satisfied.

Moneys in the Bond Purchase Fund shall be held in trust exclusively for the payment of the Purchase Price of Tendered Bonds; *provided*, that under no circumstances shall proceeds of a draw under any Credit Support Instrument be used to purchase Liquidity Provider Bonds. Moneys drawn by the Trustee under a Liquidity Facility in excess of the amount needed for the payment of the Purchase Price of Tendered Bonds shall be promptly paid to the Qualified Provider of such Liquidity Facility. Moneys on deposit in the Bond Purchase Fund shall be invested only in Government Obligations with a term not exceeding the earlier of 30 days from the date of investment of such moneys or the date or dates that moneys therefrom are anticipated to be required. Amounts held to pay the Purchase Price after the date for such purchase shall be applied in the same manner as provided under Section 205 with respect to unclaimed payments of Redemption Price.

Section 306. Remarketing Agent.

The City shall designate the Remarketing Agent in the Determination Certificate for the purpose of determining the interest rate on the Series 2003 Variable Rate Bonds, subject to the conditions set forth in Section 307, and for the purpose of remarketing the Series 2003 Variable Rate Bonds as provided herein. The Remarketing Agent shall designate to the Trustee its Delivery Office and signify its acceptance of the duties and obligations imposed upon it hereunder by written instruments of acceptance delivered to the City and the Trustee. The Remarketing Agent shall at all times be acceptable to the Qualified Provider of each Liquidity Facility.

Section 307. Qualifications of Remarketing Agent.

The Remarketing Agent shall be (i) a member of the National Association of Securities Dealers, Inc., having a capitalization of at least \$15,000,000, and (ii) authorized by law to perform all the duties imposed upon it by this 2003 Series Ordinance and the Remarketing Agreement.

In the event of the resignation or removal of the Remarketing Agent, the Remarketing Agent shall pay over, assign and deliver any moneys and Series 2003 Variable Rate Bonds held by it in such capacity to its successor or, if there be no successor, to the Trustee. The Qualified Provider of each Liquidity Facility shall be given Immediate Notice of the resignation or removal of the Remarketing Agent and the appointment of any successor.

Section 308. Trustee's Agent.

Until such time as the Series 2003 Variable Rate Bonds have been converted to bear interest at a Fixed Rate, the Trustee, with the City's written consent, shall have the right to appoint a Trustee's Agent with the power to act on the Trustee's behalf and subject to its direction in the authentication and delivery of the Series 2003 Variable Rate Bonds, payment of the Series 2003 Variable Rate Bonds, provision of notice of interest rates on Series 2003 Variable Rate Bonds to Holders and in connection with transfers, exchanges, tenders and purchases thereof, as fully to all intents and purposes as though the Trustee's Agent had been expressly authorized hereunder to authenticate, deliver, pay, transfer and exchange Series 2003 Variable Rate Bonds, provide notice of interest rates to Holders of Series 2003 Variable Rate Bonds, receive tender notices, tender Series 2003 Variable Rate Bonds to a Qualified Provider for purchase under the applicable Liquidity Facility, purchase tendered Series 2003 Variable Rate Bonds and make payments on the Series 2003 Variable Rate Bonds. The Trustee's Agent shall perform such functions subject to the terms and conditions expressed in Article VIII of the General Ordinance. The foregoing notwithstanding, the Trustee's Agent shall not be answerable for other than its negligence or willful misconduct and the Trustee's Agent shall not be deemed to have notice of any Event of Default hereunder unless it has actual knowledge or is notified by the Trustee. For all purposes, any such Trustee's Agent shall be deemed to be acting solely as the agent of the Trustee and the authentication, delivery, transfer or exchange of Series 2003 Variable Rate Bonds, provision of notice of interest rates to Holders of Series 2003 Variable Rate Bonds, receipt of tender notices, tender of Series 2003 Variable Rate Bonds to the Qualified Provider for purchase under the applicable Liquidity Facility, purchase of tendered Series 2003 Variable Rate Bonds and payment of Series 2003 Variable Rate Bonds by the Trustee's Agent pursuant to this Section shall be deemed to be the authentication, delivery, transfer or exchange of Series 2003 Variable Rate Bonds, provision of notice of interest rates to Holders of Series 2003 Variable Rate Bonds, receipt of tender notices, tender of Series 2003 Variable Rate Bonds to the Qualified Provider for purchase under the applicable Liquidity Facility, purchase of tendered Series 2003 Variable Rate Bonds and payment of Series 2003 Variable Rate Bonds by the Trustee. The Trustee's Agent may act as Bond Registrar for any Series 2003 Variable Rate Bond prior to the Fixed Rate Conversion Date.

The Trustee's Agent shall at all times be a bank or trust company having a corporate trust office in the City of New York, New York (or having an agent with such a principal corporate trust office) and shall at all times be an institution organized and doing business under the laws of the United States of America or of any state, authorized under such laws to exercise corporate trust powers and subject to supervision or examination by federal or state authorities and either (a) having, together with its parent bank or trust company, a reported combined capital and surplus of at least \$50,000,000 or (b) affiliated with and indemnified by the Trustee. If such institution publishes reports of condition at least annually pursuant to law or the requirements of such authorities, then for the purposes of this Section the combined capital and

surplus of such institution shall be deemed to be its combined capital and surplus, as set forth in its most recent report of condition so published. The appointment of a Trustee's Agent under this Section shall be effective upon acceptance by the Trustee's Agent and shall continue until the Trustee making such appointment shall rescind such appointment or until the effective date of the resignation or removal of such Trustee. In addition, the Trustee's Agent may resign upon 60 days' prior written notice to the Trustee, the City, the Remarketing Agent and each Qualified Provider. The Trustee's Agent may act through an agent constituting a commercial bank or trust company.

If at any time there is no Trustee's Agent, all references to the Trustee's Agent herein and in the Series 2003 Variable Rate Bonds shall be deemed to refer to the Trustee.

Section 309. Payments of Principal and Interest on Series 2003 Variable Rate Bonds.

(a) The principal of and premium, if any, on Series 2003 Variable Rate Bonds bearing interest at a Liquidity Provider Rate, a Short Rate or an Adjustable Long Rate shall be payable at the principal corporate trust office of the Trustee, upon presentation and surrender of such Series 2003 Variable Rate Bonds. The principal of and premium, if any, on Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate shall be payable at the principal corporate trust office of the Trustee or, at the option of the Holders, at the principal corporate trust office of any Paying Agent named in such Series 2003 Variable Rate Bonds, upon presentation and surrender of such Series 2003 Variable Rate Bonds. Any payment of the Purchase Price of a Tendered Bond shall be payable at the principal corporate trust office of the Trustee's Agent (or at such other office as may be designated by the Trustee), upon presentation and surrender of such Tendered Bond, as provided in Section 407.

(b) Interest on Series 2003 Variable Rate Bonds bearing interest at a Daily Rate, a Weekly Rate, an Adjustable Long Rate or a Fixed Rate shall be paid by check mailed on the Interest Payment Date to the persons appearing on the registration books of the City maintained by the Bond Registrar as the Holders thereof as of the close of business of the Trustee on the Record Date at the addresses of such Holders as they appear on the registration books of the City maintained by the Bond Registrar, or at such other addresses as are furnished to the Trustee in writing by the Holders not later than the Record Date. Payment of interest on Series 2003 Variable Rate Bonds bearing interest at a Flexible Rate shall be made to the persons appearing on the registration books of the City maintained by the Bond Registrar as the Holders thereof as of the close of business of the Trustee on the Record Date, upon presentation and surrender of such Series 2003 Variable Rate Bond at the designated corporate trust office of the Trustee on the applicable Interest Payment Date. Payment of interest on any Series 2003 Variable Rate Bond shall be made to the Holder of \$1,000,000 or more in aggregate principal amount of Series 2003 Variable Rate Bonds as of the close of business of the Trustee on the Record Date for a particular Interest Payment Date by wire transfer to such Holder on such Interest Payment Date upon written notice from such Holder containing the wire transfer address

within the United States of America to which such Holder wishes to have such wire directed, which written notice is received not later than the Business Day next preceding the Record Date; *provided* that such wire transfer shall only be made for Series 2003 Variable Rate Bonds bearing interest at a Flexible Rate upon presentation and surrender of such Series 2003 Variable Rate Bonds at the designated corporate trust office of the Trustee on the applicable Interest Payment Date. Payment of interest on Liquidity Provider Bonds shall be made to each applicable Qualified Provider by wire transfer on each Interest Payment Date at the wire transfer address specified in the applicable Qualified Provider Agreement (or such other wire transfer address as is specified by the applicable Qualified Provider in writing from time to time).

Section 310. Liquidity Facility.

(a) The City covenants and agrees that at all times while any Series 2003 Variable Rate Bonds are Outstanding which bear interest at a variable rate other than a Liquidity Provider Rate or a Fixed Rate, it will maintain a Credit Support Instrument in full force and effect to provide liquidity (a "**Liquidity Facility**") with respect to all such Series 2003 Variable Rate Bonds bearing interest at other than a Liquidity Provider Rate or a Fixed Rate, except as otherwise provided in Section 311. In addition, the City covenants and agrees that at all times while any Series 2003 Variable Rate Bonds are Outstanding which bear interest at a variable rate other than a Liquidity Provider Rate or a Fixed Rate and are secured by a Liquidity Facility and a separate Credit Support Instrument providing long-term credit support, if the long-term rating of the Qualified Provider providing the Liquidity Facility shall be lowered by any Rating Agency below "A-" (S&P) or "A3" (Moody's) or the equivalent rating category of another Rating Agency, then the City shall, upon receipt of a written request of the Qualified Provider (the "**Long Term Credit Support Provider**") providing any long-term Credit Support Instrument, use its best efforts to obtain a Substitute Credit Support Instrument to provide liquidity for such Series 2003 Variable Rate Bonds. Notwithstanding the foregoing, the City shall be entitled to obtain a substitute Liquidity Facility at any time pursuant to Section 310(c), in which event the Series 2003 Variable Rate Bonds shall be subject to tender pursuant to Section 404. The remaining provisions of this Section 310 and the provisions of Section 311 apply whenever any Series 2003 Variable Rate Bonds are Outstanding which bear interest at a variable rate other than a Liquidity Provider Rate or a Fixed Rate and are secured by a Liquidity Facility and a separate Credit Support Instrument providing long-term credit support.

(b) Upon the receipt by the Trustee of a written request of the City and approval of the Long Term Credit Support Provider stating that the amount available under the Liquidity Facility may be reduced in compliance with Section 311, the Trustee shall direct or send appropriate notice to the Qualified Provider providing the Liquidity Facility requesting or directing that such amount be reduced and specifying the amount that shall thereafter be available under the Liquidity Facility, subject to any requirements of the applicable Qualified Provider Agreement, or that the Liquidity Facility is being cancelled. In no event shall the

Liquidity Facility be reduced to an amount less than the principal amount of the Series 2003 Variable Rate Bonds Outstanding which bear interest at a variable rate other than a Liquidity Provider Rate or a Fixed Rate, plus an amount equal to interest thereon at the Interest Coverage Rate then required by any Rating Agency then rating the Series 2003 Variable Rate Bonds for the number of days then required by any Rating Agency then rating the Series 2003 Variable Rate Bonds, unless the City has deposited a substitute Liquidity Facility with the Trustee in accordance with the terms of this Section, or unless the requirements set forth in Section 311 are satisfied. In no event shall any substitute Liquidity Facility replace only in part any then-current Liquidity Facility. Notwithstanding the foregoing, immediately after payment in full has been made on any Series 2003 Variable Rate Bond covered by the Liquidity Facility, either at its Maturity Date, by optional redemption or otherwise, the Trustee shall direct or send appropriate notice to the applicable Qualified Provider requesting or directing that the amount available under the Liquidity Facility be reduced by an amount equal to such principal so paid plus the amount of interest theretofore provided for under the Liquidity Facility on such principal amount. No direction or consent of the City or the Long Term Credit Support Provider shall be required for the Trustee to take the action required by the preceding sentence.

(c) Prior to the Fixed Rate Conversion Date, and subject to any applicable provisions of the initial Liquidity Facility (if any), a substitute Liquidity Facility may become effective on any Business Day, which shall be a Substitution Date. The City shall cause a draft of any substitute Liquidity Facility in substantially final form and a commitment letter with respect thereto, together with written evidence from each Rating Agency rating the Series 2003 Variable Rate Bonds prior to the Substitution Date of the rating on the Series 2003 Variable Rate Bonds after the Substitution Date, to be delivered to the Trustee, the Trustee's Agent, the Remarketing Agent and the Long Term Credit Support Provider, not less than 15 days prior to the proposed Substitution Date, which shall be not less than 90 days prior to the Stated Termination Date of the Liquidity Facility then in force. On each Substitution Date for a Liquidity Facility, the City, the Long Term Credit Support Provider, the Remarketing Agent, the Trustee and the Trustee's Agent shall also receive (i) an opinion of counsel for the Qualified Provider providing the substitute Liquidity Facility regarding the enforceability of the substitute Liquidity Facility in substantially the form delivered to the Trustee upon execution and delivery of the Liquidity Facility then in effect, (ii) an opinion of Bond Counsel to the effect that the substitution of the Liquidity Facility then in effect will not adversely affect the validity of the Series 2003 Bonds, or adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled, and

(iii) approval of the Long Term Credit Support Provider if required under its Qualified Provider Agreement. No substitute Liquidity Facility shall become effective unless the then-current Qualified Provider of the Liquidity Facility then in force certifies to the City, the Long Term Credit Support Provider, the Trustee's Agent and the Trustee that all obligations owing to such Qualified Provider under the applicable Qualified Provider Agreement have been paid in full and all Liquidity Provider Bonds held by or on behalf of such Qualified Provider have been redeemed, remarketed or purchased by the substitute Qualified Provider.

(d) On any Substitution Date on which a substitute Liquidity Facility becomes effective in accordance with the provisions of this Section, the Trustee shall take such action as is required under the applicable Qualified Provider Agreement to cause the cancellation of the Liquidity Facility then in effect provided that all drawings requested thereunder have been honored.

(e) Immediate Notice shall be given by the Trustee to the Qualified Provider of the then-current Liquidity Facility, the City, the Long Term Credit Support Provider, the Remarketing Agent, the Trustee's Agent and each Rating Agency then maintaining a rating on the Series 2003 Variable Rate Bonds if no satisfactory substitute Liquidity Facility shall be furnished to the Trustee in accordance with this Section on or prior to the Stated Termination Date of the then-current Liquidity Facility, unless the requirements of Section 311 are satisfied.

(f) Each substitute Liquidity Facility shall provide for the submission of draws thereunder, and the payment of properly submitted draws, on the same timing as that of the Liquidity Facility being substituted for, unless each Rating Agency then maintaining a rating on the Series 2003 Variable Rate Bonds shall agree to some other timing.

(g) When a Qualified Swap Agreement is in effect and Liquidity Provider Bonds exist, the City agrees that on the Business Day prior to any Interest Payment Date, it will cause sufficient moneys to pay all interest due on all Outstanding Series 2003 Variable Rate Bonds (including Liquidity Provider Bonds) on such Interest Payment Date plus the applicable Interest Requirement to be on deposit in the Series 2003 Bonds Account.

Section 311. Liquidity Facility Not Required and City May Provide Liquidity in Certain Circumstances.

(a) Prior to the Fixed Rate Conversion Date therefor, whenever any Series 2003 Variable Rate Bonds are Outstanding which bear interest at a variable rate other than a Liquidity Provider Rate or a Fixed Rate and are secured by a Liquidity Facility and a separate Credit Support Instrument providing long-term credit support, and subject to any applicable provisions of the initial Liquidity Facility, all of the Series 2003 Variable Rate Bonds are required to have the benefit of a Liquidity Facility unless, prior to the expiration or termination of the Liquidity Facility then in effect, there is delivered by the City to the Remarketing Agent, the Long Term Credit Support Provider, the Trustee and the Trustee's Agent (i) an opinion of Bond Counsel to the effect that the expiration or termination of the Liquidity Facility then in effect will not adversely affect the validity of the Series 2003 Bonds, or adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled, (ii) unless waived by the Long Term Credit Support Provider, written evidence from each Rating Agency then maintaining a rating on the Series 2003 Variable Rate Bonds that the ratings on the Series 2003 Variable Rate Bonds (other than Series 2003 Variable Rate Bonds in the Fixed Mode) following the expiration or termination of

the Liquidity Facility will not be reduced or withdrawn from the ratings on the Series 2003 Variable Rate Bonds immediately prior to such expiration or termination, (iii) the approval of the Long Term Credit Support Provider, and (iv) a certificate of an Authorized Officer that the City has agreed to be a substitute Liquidity Provider hereunder for all the Series 2003 Variable Rate Bonds (other than Series 2003 Variable Rate Bonds in the Fixed Mode).

(b) Upon satisfaction of the requirements described in subparagraph (a) above, (i) the Trustee, upon receipt of a written request of the City and approval of the Long Term Credit Support Provider, shall direct or send appropriate notice to the Liquidity Provider requesting or directing the cancellation of the Liquidity Facility then in effect on the date (the "**Liquidity Facility Cancellation Date**") requested by the City in such written request, which date may not be less than 30 days, or such longer period as is required by the Qualified Provider Agreement for such Liquidity Facility for its termination at the request of the City, from the date the Trustee receives such written request, and (ii) following the date of such cancellation, all Tendered Bonds may be remarketed by the Remarketing Agent pursuant to the Remarketing Agreement without the benefit of a Liquidity Facility until such time, if any, as the Series 2003 Variable Rate Bonds are thereafter entitled to the benefits of a Liquidity Facility pursuant to the provisions of Section 310, but only if there is delivered to the City, the Long Term Credit Support Provider, the Trustee, the Trustee's Agent and the Remarketing Agent an opinion of Bond Counsel to the effect that the execution and delivery of the Liquidity Facility will not adversely affect the validity of the Series 2003 Bonds or the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled. If a Liquidity Facility Cancellation Date occurs, the Series 2003 Variable Rate Bonds shall be subject to mandatory tender pursuant to Section 404. If at any time no Liquidity Facility is required on the Series 2003 Variable Rate Bonds, the Trustee shall affix a legend in substantially the following form on the face of each Series 2003 Variable Rate Bond which does not bear interest at a Fixed Rate and which is authenticated on or after the date on which a Liquidity Facility is no longer required:

A Liquidity Facility is not required with respect to this Series 2003 Variable Rate Bond. If a Liquidity Facility is currently provided, it may be discontinued at any time without prior notice to, or a right to tender by, the Holder. The City is a substitute Liquidity Provider.

Section 312. Substitution of Credit Support Instrument Other than Liquidity Facility.

The City may, except with respect to Series 2003 Variable Rate Bonds in the Fixed Mode, at its option, obtain a Substitute Credit Support Instrument in substitution for a Credit Support Instrument that is not a Liquidity Facility (a "**Long-Term Credit Support Instrument**") unless such substitution is prohibited under the Qualified Provider Agreement

applicable to the then-current Long-Term Credit Support Instrument. Substitution of Liquidity Facilities is governed by Section 310(c). On or prior to the proposed Substitution Date of the Substitute Credit Support Instrument, the City shall furnish to the Trustee (i) an opinion of Bond Counsel to the effect that the substitution of such Substitute Credit Support Instrument is authorized under and complies with the terms of this 2003 Series Ordinance and will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled, (ii) written evidence from each Rating Agency rating the Series 2003 Variable Rate Bonds prior to the proposed Substitution Date, to the effect that such Rating Agency has reviewed the proposed Substitute Credit Support Instrument and that, taking into account the substitution of the proposed Substitute Credit Support Instrument for the current Long-Term Credit Support Instrument, the Series 2003 Variable Rate Bonds will be given or will retain a long-term rating which is not lower than the then-current long-term rating, and (iii) written approval of the Qualified Provider of the Liquidity Facility, unless the City provides a substitute Liquidity Facility in accordance with the terms of this 2003 Series Ordinance and all obligations owing to the Qualified Provider of the then-current Liquidity Facility under the applicable Qualified Provider Agreement have been paid in full, effective on the Substitution Date of the Substitute Credit Support Instrument, in which case such substitution shall not be subject to the approval of the Qualified Provider of the then-current Liquidity Facility. The Trustee shall not consent to any surrender, cancellation, termination, amendment or modification of a Long-Term Credit Support Instrument except in accordance with the provisions of this Section.

Each Substitute Credit Support Instrument shall have terms in all material respects the same as the then-current Long-Term Credit Support Instrument, except for the term and maximum interest rate set forth in such Substitute Credit Support Instrument and any change in the number of days of interest required to be covered by such Substitute Credit Support Instrument, unless the Rating Agencies then rating the Series 2003 Variable Rate Bonds approve other terms.

On any Substitution Date on which a Substitute Credit Support Instrument becomes effective in accordance with the provisions of this Section, the Trustee shall take such action as is required under the applicable Qualified Provider Agreement to cause the cancellation of the Long-Term Credit Support Instrument then in effect provided that all drawings made thereunder have been honored.

Section 313. Redemption of Series 2003 Variable Rate Bonds.

(a) The Series 2003 Variable Rate Bonds shall be subject to redemption prior to maturity at such times, subject to the remaining provisions of this Section 313, at such Redemption Prices (not exceeding 103% of the principal amount of the Series 2003 Variable Rate Bonds to be redeemed plus accrued interest, if any, to the redemption date) and upon such other terms as the Comptroller shall provide in the Determination Certificate, each and all of which the Comptroller is authorized and directed to determine and approve on behalf of and in the name of the City.

(b) Optional Redemption.

(i) Series 2003 Variable Rate Bonds in a Daily Mode or a Weekly Mode shall be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on such days during such Daily Mode or Weekly Mode, as applicable, at a Redemption Price not exceeding 103% of the principal amount of the Series 2003 Variable Rate Bonds to be redeemed plus accrued interest, if any, to the redemption date, as established in the Determination Certificate.

(ii) Series 2003 Variable Rate Bonds in an Adjustable Long Mode or a Fixed Mode shall be subject to redemption prior to their Maturity Date, during each Rate Period in which one of such Modes is applicable, at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on such days, at such Redemption Prices (not in excess of the limit specified above) and upon such other terms as are established in the Determination Certificate.

(iii) Series 2003 Variable Rate Bonds bearing interest at a Flexible Rate or an Adjustable Long Rate shall be subject to optional redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on such days, at such Redemption Prices (not in excess of the limit specified above) and upon such other terms as are set forth in the Determination Certificate.

(c) Optional Redemption of Liquidity Provider Bonds. Liquidity Provider Bonds may be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on such days, at such Redemption Prices and upon such other terms as are set forth in the Determination Certificate.

(d) Extraordinary Redemption of Liquidity Provider Bonds. Liquidity Provider Bonds may be subject to mandatory redemption on the dates and in the amounts specified in the Determination Certificate. Such redemption shall be at such Redemption Prices and upon such other terms as are set forth in the Determination Certificate. Liquidity Provider Bonds may be redeemed pursuant to this 2003 Series Ordinance without any notice from or direction by the City.

(e) Priority of Redemption. In the Determination Certificate, the City may, but shall not be required to, provide that, Liquidity Provider Bonds shall be redeemed prior to any other Series 2003 Variable Rate Bonds.

(f) Mandatory Redemption of Series 2003 Variable Rate Bonds. The Series 2003 Variable Rate Bonds shall be subject to mandatory redemption prior to maturity in

the amounts, at the Redemption Prices and upon such other terms as are set forth in the Determination Certificate. The principal amount of the Series 2003 Variable Rate Bonds to be mandatorily redeemed in each year may be reduced through the earlier optional redemption of Series 2003 Bonds, with any partial optional redemption of such Series 2003 Bonds credited against future Sinking Fund Installments of Series 2003 Variable Rate Bonds in such order of the applicable Sinking Fund Installment dates as the City may determine. In addition, on or prior to the sixtieth day preceding any Sinking Fund Installment date, the Trustee may, and if directed by the City shall, purchase Series 2003 Variable Rate Bonds required to be retired on such Sinking Fund Installment date. Any such Series 2003 Variable Rate Bonds so purchased shall be canceled and the principal amount thereof shall be credited against the payment required on such next Sinking Fund Installment date of Series 2003 Variable Rate Bonds.

(g) General Provisions Regarding Redemptions.

(i) No redemption of less than all of the Series 2003 Variable Rate Bonds Outstanding shall be made unless the aggregate principal amount of Series 2003 Variable Rate Bonds to be redeemed is in an amount equal to an Authorized Denomination. Any redemption of less than all of the Series 2003 Variable Rate Bonds Outstanding shall be made in such a manner that all Series 2003 Variable Rate Bonds Outstanding after such redemption are in Authorized Denominations.

(ii) Series 2003 Variable Rate Bonds may be called for redemption by the Trustee (A) in the case of Series 2003 Variable Rate Bonds bearing interest at a Short Rate, upon receipt by the Trustee at least 35 days prior to the redemption date of a written request of the City requesting such redemption, or in accordance with any mandatory schedule provided in the Determination Certificate, or (B) in the case of Series 2003 Variable Rate Bonds bearing interest at an Adjustable Long Rate or a Fixed Rate, upon receipt by the Trustee at least 45 days prior to the redemption date of a written request of the City requesting such redemption, or in accordance with the mandatory schedule provided in the Determination Certificate.

(iii) Liquidity Provider Bonds may be called for redemption by the Trustee upon receipt by the Trustee at least one Business Day prior to the redemption date of a written request of the City requesting such redemption.

(h) Notice of Redemption. Except as is otherwise provided with respect to Liquidity Provider Bonds in this 2003 Series Ordinance, notice of the call for redemption of any Series 2003 Variable Rate Bonds identifying the Series 2003 Variable Rate Bonds to be redeemed shall be given by first class mail, postage prepaid, with respect to Series 2003 Variable Rate Bonds bearing interest at a Short Rate, not less than 30 or more than 45 days prior to the

date fixed for redemption, and shall be given by first class mail, postage prepaid, with respect to Series 2003 Variable Rate Bonds bearing interest at an Adjustable Long Rate or a Fixed Rate, not less than 30 or more than 60 days prior to the date fixed for redemption, to the Holders of Series 2003 Variable Rate Bonds to be redeemed at their addresses as shown on the registration books of the City maintained by the Bond Registrar. Failure to give notice in the manner prescribed with respect to any Series 2003 Variable Rate Bond, or any defect in such notice, shall not affect the validity of the proceedings for redemption for any Series 2003 Variable Rate Bond with respect to which notice was properly given. Upon the happening of the above conditions and if sufficient moneys are on deposit with the Trustee on the applicable redemption date to redeem the Series 2003 Variable Rate Bonds to be redeemed and to pay interest due thereon and premium, if any, due with respect thereto, the Series 2003 Variable Rate Bonds thus called shall not after the applicable redemption date bear interest, be protected by the General Ordinance or this 2003 Series Ordinance or be deemed to be Outstanding under the provisions of the General Ordinance and this 2003 Series Ordinance.

(i) Selection of Series 2003 Variable Rate Bonds to be Redeemed. If less than all of the Series 2003 Variable Rate Bonds are called for redemption under any provision of this 2003 Series Ordinance permitting such partial redemption, the particular Series 2003 Variable Rate Bonds or portions thereof to be redeemed shall be selected by the City, except as otherwise provided in Section 313(e), and designated to the Trustee; *provided*, that (i) in the case of the redemption of less than all Series 2003 Variable Rate Bonds which bear interest in the same Interest Mode at the same rates for the same Rate Periods and which in the case of Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate were converted on the same date, such redemption shall be by lot in such manner as the Trustee may determine among such Series 2003 Variable Rate Bonds, and (ii) subject to other applicable provisions of this 2003 Series Ordinance, the portion of any Series 2003 Variable Rate Bond to be redeemed shall be in a principal amount equal to an Authorized Denomination.

Section 314. Registration, Transfer and Exchange of Series 2003 Variable Rate Bonds.

Series 2003 Variable Rate Bonds are transferable only upon the registration books of the City kept for that purpose by the Bond Registrar at the principal corporate trust office of the Trustee in Chicago, Illinois, by the Holder of a Series 2003 Variable Rate Bond in person, or by the Holder's agent duly authorized in writing. Upon the surrender of a Series 2003 Variable Rate Bond, together with a written instrument of transfer satisfactory to the Trustee duly executed by the Holder or the Holder's agent duly authorized in writing, and upon the payment of any charges prescribed in the General Ordinance, a new registered Series 2003 Variable Rate Bond, in the same aggregate principal amount and of the same maturity, shall be issued to the transferee as provided in the General Ordinance. The City and the Trustee may deem and treat the Holder of a Series 2003 Variable Rate Bond as the absolute owner of such Series 2003 Variable Rate Bond (whether or not such Series 2003 Variable Rate Bond shall be overdue) for

the purpose of receiving payment of or on account of principal of such Series 2003 Variable Rate Bond and the Redemption Price, if any, and interest due on such Series 2003 Variable Rate Bond and for all other purposes, and neither the City nor the Trustee shall be affected by any notice to the contrary. Notwithstanding the provisions of Section 203, neither the City nor the Trustee shall be obligated to make any exchange or transfer of a Series 2003 Variable Rate Bond during the period from the Record Date applicable to such Series 2003 Variable Rate Bond to the next Interest Payment Date for such Series 2003 Variable Rate Bond or to make any such transfer or exchange of such Series 2003 Variable Rate Bond if such Series 2003 Variable Rate Bond is proposed to be redeemed after its selection by the Trustee for redemption.

The Series 2003 Variable Rate Bonds shall be issued in fully registered form in Authorized Denominations.

Article IV

PURCHASE OF SERIES 2003 VARIABLE RATE BONDS

Section 401. Purchase on Demand of Holder While Series 2003 Variable Rate Bonds Bear Interest at Daily Rate or Weekly Rate.

(a) While a Series 2003 Variable Rate Bond bears interest at a Daily Rate, such Series 2003 Variable Rate Bond (or portion thereof in an Authorized Denomination) shall be purchased on a Demand Date therefor upon the demand of the Holder thereof, at a Purchase Price equal to 100 percent of the principal amount thereof plus accrued interest, if any, to such Demand Date, upon irrevocable telephonic or written notice (which telephonic notice shall be confirmed in writing, and which written notice may be given by telecopy) to both the Trustee's Agent and the Remarketing Agent, which notice must be received not later than 10:00 a.m., Chicago time, on a Business Day in order to be effective on that date. Any notice received after 10:00 a.m., Chicago time, on a Business Day shall be deemed given on the next succeeding Business Day. The Business Day on which any notice is deemed given will be the Demand Date for the applicable Tendered Bond. Such notice must specify the principal amount and number of such Series 2003 Variable Rate Bond, the name and the address of such Holder and the taxpayer identification number, if any, of such Holder. The Trustee's Agent shall give Immediate Notice (which notice shall be delivered no later than 10:30 a.m., Chicago time, on the Business Day on which it receives notice of tender) to the Trustee, the City and the Qualified Provider, if any, then providing a Liquidity Facility as to the contents of any such notices received by it.

(b) While a Series 2003 Variable Rate Bond bears interest at a Weekly Rate, such Series 2003 Variable Rate Bond (or portion thereof in an Authorized Denomination) shall be purchased on a Demand Date therefor upon the demand of the Holder thereof, at a Purchase Price equal to 100 percent of the principal amount thereof plus accrued interest, if any, to such Demand Date, upon irrevocable written notice (which may be given by telecopy) to the Trustee's Agent and the Remarketing Agent, which notice must be received by the Trustee's Agent and the Remarketing Agent not later than 4:00 p.m., Chicago time, on a Business Day in order to be

effective on the Business Day requested as the Demand Date, which Demand Date shall not be less than seven calendar days after the effective date such notice is received. Any notice received after 4:00 p.m., Chicago time, on a Business Day shall be deemed given on the next succeeding Business Day. Such notice must specify (i) the principal amount and number of such Series 2003 Variable Rate Bond, the name and the address of such Holder and the taxpayer identification number, if any, of such Holder, and (ii) the Demand Date on which such Series 2003 Variable Rate Bond is to be purchased. The Trustee's Agent shall give Immediate Notice (which notice shall be given no later than 4:30 p.m., Chicago time, on the Business Day on which it receives notice of tender) to the Trustee, the City and the Qualified Provider, if any, then providing a Liquidity Facility as to the contents of any such notices received by it.

(c) The determination of the Trustee's Agent and the Remarketing Agent as to whether a notice of tender has been properly delivered pursuant to the foregoing shall be conclusive and binding upon the Holder of such Series 2003 Variable Rate Bond. Any notice received by the Trustee's Agent and the Remarketing Agent pursuant to this Section from any person reasonably believed by the Trustee's Agent and the Remarketing Agent to be the Holder of a Series 2003 Variable Rate Bond may be conclusively relied upon by the Trustee's Agent and the Remarketing Agent as a true, irrevocable notice of demand with respect to such Series 2003 Variable Rate Bond.

Section 402. Purchase on Notice of Liquidity Provider Agreement Default.

The Series 2003 Variable Rate Bonds (other than Liquidity Provider Bonds and Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate) are subject to mandatory tender by the Holders thereof to the Trustee when the Trustee gives Immediate Notice to the Holders of such Series 2003 Variable Rate Bonds and the Remarketing Agent of the occurrence and continuation of a Liquidity Provider Agreement Default. Upon the giving of such Immediate Notice, such Series 2003 Variable Rate Bonds shall be purchased, on a date designated by the Trustee, which date is no more than 15 days after the date of the Immediate Notice to the Holders, and in no event later than the Business Day prior to the last day on which funds will be available under the applicable Liquidity Facility, at a Purchase Price equal to 100 percent of the principal amount thereof plus accrued interest, if any, to the purchase date. In such case, the Holder of any such Series 2003 Variable Rate Bond required to be purchased may not elect to retain its Series 2003 Variable Rate Bond and by the acceptance of such Series 2003 Variable Rate Bond shall be deemed to have agreed to sell such Series 2003 Variable Rate Bond to the Trustee on the date specified pursuant to this Section. The Trustee shall give such Immediate Notice upon receipt by the Trustee of a written notice from a Qualified Provider of the occurrence of a Liquidity Provider Agreement Default.

Section 403. Purchase While Series 2003 Variable Rate Bonds Bear Flexible Rate.

Date for such Series 2003 Variable Rate Bond, other than the Rate Change Date which is the first day of a Flexible Mode applicable to such Series 2003 Variable Rate Bond, and on the Adjustment Date immediately following the last day of the Flexible Mode, at a Purchase Price equal to 100 percent of the principal amount thereof. The Holder of such Series 2003 Variable Rate Bond may not elect to retain its Series 2003 Variable Rate Bond.

Not later than the 15th day next preceding such Rate Change Date for each Rate Period, the Trustee shall give notice by mail to the Holders of the Series 2003 Variable Rate Bonds which bear interest at a Flexible Rate stating (i) the last day of the Rate Period then ending, and (ii) that the Series 2003 Variable Rate Bonds are required to be purchased on such Rate Change Date. The foregoing notwithstanding, the failure of the Trustee to give such notice or cause such notice to be given will not affect the requirement of such Holders to tender their Series 2003 Variable Rate Bonds for purchase. If sufficient moneys are on deposit with the Trustee on the applicable Rate Change Date to purchase such Series 2003 Variable Rate Bonds at the Purchase Price therefor, such Series 2003 Variable Rate Bonds shall not after the applicable Rate Change Date, and, with respect to such Holders, bear interest, be protected by the General Ordinance or this 2003 Series Ordinance or be deemed to be Outstanding.

Section 404. Purchase Prior to Stated Termination Date When Required Substitute Credit Support Instrument Not In Place; Purchase Prior to Substitution Date.

(a) If, by the 90th day preceding any Stated Termination Date of a Credit Support Instrument, the Trustee has not received notice of an extension of the then-current Credit Support Instrument or the delivery of a Substitute Credit Support Instrument in accordance with the terms of this 2003 Series Ordinance, then the Trustee shall give Immediate Notice to the Holders of all Series 2003 Variable Rate Bonds (other than Liquidity Provider Bonds and Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate) and the Qualified Provider of such Credit Support Instrument that such Series 2003 Variable Rate Bonds shall be tendered (or will be deemed tendered) for purchase pursuant to Section 404(b) below. If the City has delivered to the Trustee a Substitute Credit Support Instrument, Series 2003 Variable Rate Bonds (other than Liquidity Provider Bonds and Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate) shall be tendered (or will be deemed tendered) for purchase hereunder. A purchase of Series 2003 Variable Rate Bonds pursuant to this Section shall be at a Purchase Price for each such Series 2003 Variable Rate Bond equal to the principal amount thereof plus accrued interest, if any, to the purchase date. The Holder of such Series 2003 Variable Rate Bond may not elect to retain its Series 2003 Variable Rate Bond.

(b) Not later than the 30th day preceding the Stated Termination Date of any then-current Credit Support Instrument, if no extension of such Credit Support Instrument and no Substitute Credit Support Instrument has been delivered, the Trustee shall give Immediate Notice

to the Holders of the Series 2003 Variable Rate Bonds (other than Liquidity Provider Bonds and Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate) and the Qualified Provider of such Credit Support Instrument stating (i) the Stated Termination Date, (ii) that no extension of the Credit Support Instrument and no Substitute Credit Support Instrument have been received as of the date of such notice, and (iii) that the Series 2003 Variable Rate Bonds (other than Liquidity Provider Bonds and Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate) are required to be tendered (or will be deemed tendered) for purchase on the Business Day immediately preceding the Stated Termination Date.

(c) Not later than the 15th day preceding a Substitution Date, the Trustee shall give Immediate Notice to the Holders of the Series 2003 Variable Rate Bonds (other than Liquidity Provider Bonds and Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate) and the Qualified Provider of the then-current Credit Support Instrument stating (i) the Substitution Date, and (ii) that the Series 2003 Variable Rate Bonds (other than Liquidity Provider Bonds and Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate) are required to be purchased on the Business Day immediately prior to the Substitution Date.

Section 405. Purchase While Series 2003 Variable Rate Bonds Bear Adjustable Long Rate.

While any Series 2003 Variable Rate Bond bears interest at an Adjustable Long Rate, such Series 2003 Variable Rate Bond shall be purchased pursuant to this Section on each Rate Change Date within an Adjustable Long Mode for such Series 2003 Variable Rate Bond, other than the Rate Change Date which is the first day of an Adjustable Long Mode applicable to such Series 2003 Variable Rate Bond, and on the Adjustment Date immediately following the last day of such Adjustable Long Mode, at a Purchase Price equal to 100 percent of the principal amount thereof. The Holder of such Series 2003 Variable Rate Bond may not elect to retain its Series 2003 Variable Rate Bond.

Not later than the 15th day next preceding such Rate Change Date for each Rate Period, the Trustee shall give notice by mail to the Holders of the Series 2003 Variable Rate Bonds which bear interest at an Adjustable Long Rate stating (i) the last day of the Rate Period then ending, and (ii) that such Series 2003 Variable Rate Bonds are required to be purchased on such Rate Change Date. The foregoing notwithstanding, the failure of the Trustee to give such notice or cause such notice to be given will not affect the requirement of such Holders to tender their Series 2003 Variable Rate Bonds for purchase. If sufficient moneys are on deposit with the Trustee on the applicable Rate Change Date to purchase such Series 2003 Variable Rate Bonds at the Purchase Price therefor, such Series 2003 Variable Rate Bonds shall not after the applicable Rate Change Date bear interest, be protected by the General Ordinance or this 2003 Series Ordinance or be deemed to be Outstanding.

Section 406. Purchase on Adjustment Date.

While any Series 2003 Variable Rate Bond bears interest at a Flexible Rate, such Series 2003 Variable Rate Bond shall be purchased pursuant to this Section on each Rate Change

On each Adjustment Date with respect to a Series 2003 Variable Rate Bond (other than a Liquidity Provider Bond), including, without limitation, a proposed Fixed Rate Conversion Date or a Substitute Adjustment Date, such Series 2003 Variable Rate Bond shall be purchased pursuant to this Section at a Purchase Price equal to 100 percent of the principal amount thereof, except that (i) a Series 2003 Variable Rate Bond which is to be purchased on an Adjustment Date which immediately follows the last day of a Flexible Mode shall be purchased pursuant to Section 403, and (ii) a Series 2003 Variable Rate Bond which is to be purchased on an Adjustment Date which immediately follows the scheduled final day of an Adjustable Long Mode shall be purchased pursuant to Section 405. The Holder of such Series 2003 Variable Rate Bond may not elect to retain its Series 2003 Variable Rate Bond.

Not later than the 15th day next preceding the Adjustment Date for any Series 2003 Variable Rate Bond bearing interest at a Daily Rate or a Weekly Rate, the Trustee shall give Immediate Notice to the Holder of such Series 2003 Variable Rate Bond stating (i) the last day of the Adjustment Period then ending, and (ii) that such Series 2003 Variable Rate Bond is required to be purchased on the Adjustment Date.

Section 407. Purchase of Tendered Bonds Delivered to Trustee's Agent; Notices.

(a) Tendered Bonds shall be purchased from their Holders at a Purchase Price equal to 100 percent of the principal amount thereof, plus accrued interest thereon (unless purchased on an Interest Payment Date, in which event such accrued interest shall not be paid as part of the Purchase Price secured by the then-current Liquidity Facility, if any), but solely from the following sources of funds in order of priority indicated below, neither the City, the Trustee, the Trustee's Agent nor the Remarketing Agent having an obligation to use funds from any other source:

(i) proceeds of the sale of such Tendered Bonds (other than Tendered Bonds sold to the City in violation of Section 411(b)) pursuant to Section 408,

(ii) moneys received from the purchasers (other than the City) of Tendered Bonds upon the conversion of the interest rate thereon to a Fixed Rate;

(iii) proceeds of the applicable Liquidity Facility, to the extent a Liquidity Facility is available; and

(iv) at the sole option of the City, in its sole discretion, any other moneys furnished by the City to the Trustee for the purchase of Tendered Bonds, provided that the conditions of Section 411(b) are satisfied.

(b) The Trustee's Agent shall pay the Purchase Price specified above from the sources specified above of each Tendered Bond to the Holder thereof by 1:30 p.m., Chicago

time, on the purchase date, *provided* that the Trustee's Agent shall have confirmed that such Holder has delivered such Tendered Bond (with any necessary endorsements) to the principal corporate trust office of the Trustee's Agent no later than 12:00 noon, Chicago time, on such date.

Section 408. Remarketing of Tendered Bonds by Remarketing Agent.

Subject to Section 410, upon the delivery or deemed delivery of Tendered Bonds by the Holders thereof in accordance with the provisions hereof, the Remarketing Agent shall offer for sale and use its best efforts to remarket such Tendered Bonds pursuant to the Remarketing Agreement, any such remarketing to be made on the date on which such Tendered Bonds are to be purchased, at a price equal to 100 percent of the principal amount thereof plus accrued interest, if any.

If Tendered Bonds are delivered or deemed delivered for purchase under Section 401(a), the Remarketing Agent shall give telephonic notice to the Trustee, the Trustee's Agent, the City, the Long Term Credit Support Provider, if any, and the Qualified Provider of the then-current Liquidity Facility no later than 10:30 a.m., Chicago time, on the date on which such Tendered Bonds are to be so delivered or deemed delivered, of the aggregate principal amount of such Tendered Bonds to be purchased on such date which it has reasonable grounds to expect will not be remarketed on such date.

In addition, with respect to Tendered Bonds delivered or deemed delivered for purchase under Section 401(b), 402, 403, 404, 405 or 406, the Remarketing Agent shall give telephonic notice to the Trustee, the Trustee's Agent, the City and the Qualified Provider of the then-current Liquidity Facility no later than 11:00 a.m., Chicago time, on the Business Day next preceding the date on which such Tendered Bonds are to be so delivered or deemed delivered, of the aggregate principal amount of such Tendered Bonds to be purchased on such date which it has reasonable grounds to expect will not be remarketed on such date.

The Remarketing Agent shall remarket Liquidity Provider Bonds to the extent, and subject to the conditions, set forth herein and in the Remarketing Agreement and prior to the remarketing of any other Series 2003 Variable Rate Bonds; *provided*, that no Liquidity Provider Bond may be remarketed unless the amount of funds which are available and may be drawn under the then-current Liquidity Facility has been reinstated to the amount which was available prior to the purchase of such Liquidity Provider Bonds, unless a substitute Liquidity Facility has been provided or such Liquidity Facility has been canceled as provided in Section 311. Liquidity Provider Bonds shall be remarketed at a price of par plus accrued interest, if any, until the Bond Sale Date; accrued interest on Liquidity Provider Bonds at the Differential Interest Amount shall be due to the Qualified Provider from the City on the Bond Sale Date. Upon the remarketing of Liquidity Provider Bonds, the Remarketing Agent shall immediately provide telephonic notice, promptly confirmed by telecopy, of such remarketing to the Trustee, the City and the Qualified

Provider of the applicable Liquidity Facility, and thereupon the Trustee shall, subject to Section 409(a)(ii), immediately deliver or provide for transfer of beneficial interest in such Liquidity Provider Bonds for delivery to the purchasers thereof upon payment to the Qualified Provider of the principal amount of such Liquidity Provider Bonds.

Section 409. Delivery of Tendered Bonds and Proceeds of Sale; Failed Purchase.

(a) (i) Subject to Section 410, Tendered Bonds remarketed by the Remarketing Agent pursuant to Section 408 shall be delivered by the Trustee or the Trustee's Agent as directed by the Remarketing Agent by 11:00 a.m., Chicago time, on the date against payment therefor. The proceeds of sale by the Remarketing Agent shall be delivered to the Trustee by 10:00 a.m., Chicago time, on the date of purchase.

(ii) Liquidity Provider Bonds shall be delivered to the Trustee or otherwise at the direction of the Qualified Provider of the Liquidity Facility that was drawn upon to pay the Purchase Price of such Liquidity Provider Bonds, or for as long as the Series 2003 Variable Rate Bonds are in the book-entry only system, credited to the designated account of such Qualified Provider or its designee as beneficial Holder of such Liquidity Provider Bonds by DTC (in its capacity as custodian) pursuant to the applicable Qualified Provider Agreement. Notwithstanding anything herein to the contrary, if the Trustee holds Liquidity Provider Bonds as custodian for a Qualified Provider pursuant to a Qualified Provider Agreement or a Pledge Agreement, the Trustee shall not release to the purchaser thereof Liquidity Provider Bonds remarketed pursuant to Section 408 unless such Qualified Provider shall have given written notification (which may be by facsimile communication) to the Trustee that it has reinstated its Liquidity Facility, unless a substitute Liquidity Facility has been provided or such Liquidity Facility has been canceled as provided in Section 311. The Trustee shall follow the provisions of the applicable Qualified Provider Agreement and the applicable Pledge Agreement as to registration and procedures for Liquidity Provider Bonds during the effective period of a Liquidity Facility. Reinstatement of the Liquidity Facility shall be a prerequisite to the delivery of any remarketed Liquidity Provider Bonds to any purchaser thereof, regardless of whether the Trustee holds the Liquidity Provider Bonds pursuant to a Pledge Agreement.

(b) Except as otherwise provided in an applicable Qualified Provider Agreement or an applicable Pledge Agreement, Tendered Bonds delivered as provided in this Section shall be registered in the manner directed by the purchaser thereof, except that Liquidity Provider Bonds shall be registered in the name of the Qualified Provider of the Liquidity Facility that was drawn upon to pay the Purchase Price of such Liquidity Provider Bonds, and beneficial interests therein shall be transferred as provided in paragraph (a)(ii) above.

(c) The Trustee's Agent and the Remarketing Agent shall notify the Trustee in writing (which may be delivered by telecopy) no later than 10:00 a.m., Chicago time, on each day on which Tendered Bonds in the Daily Mode, and no later than 4:30 p.m., Chicago time, on the Business Day prior to the day on which Tendered Bonds in any other Interest Mode, are delivered or deemed delivered for purchase under Sections 401 through 406 of the aggregate principal amount of Tendered Bonds to be purchased on such date. The Trustee shall take such actions as are necessary to draw or obtain funds under the then-current Liquidity Facility in accordance with its terms to pay the Purchase Price of such Tendered Bonds (other than Liquidity Provider Bonds) on such date; and shall make drawings thereunder (based upon the proceeds of sale by the Remarketing Agent actually delivered to the Trustee by 10:00 a.m., Chicago time, on the date of purchase pursuant to paragraph (a)(i) of this Section) no later than 10:30 a.m., Chicago time, on such date in order to obtain funds thereunder by no later than 1:15 p.m., Chicago time, on such date. If surplus moneys from draws under a Liquidity Facility remain after the payment in full of the applicable Purchase Price of all Tendered Bonds, the Trustee shall provide Immediate Notice to the Qualified Provider of such Liquidity Facility of the amount of funds made available by such Qualified Provider on such date which are not required for the payment of the applicable Purchase Price of Tendered Bonds and shall immediately return such excess funds to such Qualified Provider.

(d) If sufficient moneys are on deposit with the Trustee or the Trustee's Agent to pay the applicable Purchase Price of any Tendered Bond, such Tendered Bond shall be deemed to have been purchased whether or not delivered by the Holder thereof on the date such Tendered Bond is to be purchased. If any such purchased Tendered Bond is not so delivered, the City shall execute, and the Trustee shall authenticate and deliver, a replacement Series 2003 Variable Rate Bond of like date, Maturity Date and denomination as the Tendered Bond and bearing a number not contemporaneously Outstanding.

(e) If the Remarketing Agent is unable to remarket the Tendered Bonds upon a tender thereof and the Qualified Provider of the then-current Liquidity Facility does not purchase the Tendered Bonds for any reason whatsoever, the City may, but need not, purchase the Tendered Bonds. If the City does not purchase the Tendered Bonds, the Tendered Bonds shall remain Outstanding and shall continue to be owned by the Holders seeking to tender their Tendered Bonds. Such Tendered Bonds shall bear interest at the Failed Tender Rate until funds to purchase such Tendered Bonds are made available to such Holders, at which time such Holders shall be required to deliver such Tendered Bonds as if the failed purchase had not occurred. If such failed purchase occurs in connection with any Adjustment Date, such Tendered Bonds subject to the Adjustment Date shall remain Outstanding in the Interest Mode in which they had been and shall bear interest at the Failed Tender Rate as aforesaid.

Section 410. No Remarketing After Certain Defaults.

Anything in the General Ordinance to the contrary notwithstanding, (i) if there is

no Liquidity Facility in effect, there shall be no remarketing of Tendered Bonds except as provided in Section 311, and (ii) if there shall have occurred and be continuing an Event of Default under the General Ordinance of which an authorized officer in the principal office of the Remarketing Agent or an authorized officer in the principal corporate trust office of the Trustee has actual knowledge, there shall be no remarketing of Tendered Bonds pursuant to Section 408 unless consented to in writing by the City, the Remarketing Agent and the Qualified Provider of the then-current Liquidity Facility. In addition, the Remarketing Agent shall be under no obligation to remarket Tendered Bonds upon the occurrence and continuance of a Liquidity Provider Agreement Default.

Section 411. Limitations on Remarketing.

(a) Any Tendered Bond purchased pursuant to Sections 401 through 406 from the date notice is given of redemption of such Tendered Bond through the date for such redemption, or from the date of notice of mandatory purchase of such Tendered Bond pursuant to Sections 402 through 406 through the date for such mandatory purchase, shall not be remarketed except to a purchaser who has been notified at the time of such purchase of the requirement to deliver such Tendered Bond for redemption or purchase to the Trustee on the applicable redemption or purchase date.

(b) Tendered Bonds shall not be remarketed to the City. The requirement of the preceding sentence shall not apply to a purchase of Tendered Bonds when there is either (a) a default under the Liquidity Facility then in effect with respect to the Series 2003 Variable Rate Bonds, or (b) no Liquidity Facility is in effect. The Trustee shall not be required to monitor the actions of the Remarketing Agent to ensure that it will not remarket any Tendered Bonds to the City, and, for the purposes of Section 407(a)(i), the Trustee may, in the absence of actual notice to the contrary, assume that no funds furnished to the Trustee by the Remarketing Agent constitute proceeds of the remarketing of any Tendered Bonds to the City.

(c) Notwithstanding anything else herein to the contrary, in no event shall any Series 2003 Variable Rate Bond owned by the City be entitled to the benefit of the tender provisions hereof, and, consequently, in no event shall proceeds of any Liquidity Facility ever be applied to the payment of the Purchase Price of or any other amounts with respect to such City-owned Series 2003 Variable Rate Bonds (and, as such, the Trustee shall make no drawings under any Liquidity Facility with respect thereto).

Article V MODE CONVERSION

Section 501. Authority for and Conditions to Conversion to Adjustable Long Mode or Short Mode.

(a) It is not necessary that all of the Series 2003 Variable Rate Bonds operate

in the same Interest Mode at the same time. The City may designate a different Interest Mode with respect to any Series 2003 Variable Rate Bond during a Flexible Mode or one or more Adjustable Long Modes on any Rate Change Date, and during a Daily Mode or a Weekly Mode on any Business Day, upon compliance with this Section. The City may select such subsequent Interest Mode and, within an Adjustable Long Mode or a Flexible Mode, the Remarketing Agent may designate such Rate Periods from time to time, upon the written request of the City, as will, in its judgment, result in the lowest aggregate cost being payable by the City with respect to the Series 2003 Variable Rate Bonds bearing interest at a Flexible Rate or an Adjustable Long Rate, as the case may be, taking into account interest and any other determinable fees and expenses, and taking into account any Qualified Swap Agreement relating to such Series 2003 Variable Rate Bonds. The City may establish different Interest Modes and, within an Adjustable Long Mode or a Flexible Mode, the Remarketing Agent may from time to time, upon the written request of the City, establish different Rate Periods, for Series 2003 Variable Rate Bonds on the same Adjustment Date in order to achieve an average duration of Rate Periods that, in the judgment of the Remarketing Agent, is most likely to achieve the lowest total aggregate cost being payable by the City with respect to the Series 2003 Variable Rate Bonds, taking into account interest and any other determinable fees and expenses, and taking into account any Qualified Swap Agreement relating to such Series 2003 Variable Rate Bonds. The Remarketing Agent's determination shall be based upon the market for and the relative yields of the Series 2003 Variable Rate Bonds and other securities that bear interest at a variable rate or at fixed rates that, in the judgment of the Remarketing Agent, are otherwise comparable to the Series 2003 Variable Rate Bonds, or any fact or circumstance relating to the Series 2003 Variable Rate Bonds or affecting the market for the Series 2003 Variable Rate Bonds, or affecting such other comparable securities, in a manner that, in the judgment of the Remarketing Agent, will affect the market for the Series 2003 Variable Rate Bonds. The Remarketing Agent, in its discretion, may consider such information and resources as it deems appropriate in making the determinations required by this Section, but the Remarketing Agent's determination shall be based solely upon the Remarketing Agent's judgment, and the Remarketing Agent's determination shall be conclusive and binding upon all parties. The foregoing notwithstanding, the City may select any Interest Mode and, within an Adjustable Long Mode or a Flexible Mode, the Remarketing Agent may designate any Rate Period which does not meet the foregoing standards if the conditions of Section 501(g)(ii) are satisfied. The City shall select such a principal amount of Series 2003 Variable Rate Bonds for conversion from one Interest Mode to another as will allow Series 2003 Variable Rate Bonds after conversion to be sold in the minimum Authorized Denominations applicable to such Interest Mode. Notwithstanding anything herein to the contrary, no conversion of all or any portion of the Series 2003 Variable Rate Bonds pursuant to this Section 501(a) may occur unless an opinion of Bond Counsel is delivered to the Trustee to the effect that such conversion will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled.

(b) The City shall evidence each designation of a subsequent Interest Mode and Adjustment Date for Series 2003 Variable Rate Bonds pursuant to Section 501(a) by giving written notice to the Trustee, the Trustee's Agent, the Remarketing Agent, the Qualified Provider of the then-current Liquidity Facility, and each Rating Agency then maintaining a rating on the Series 2003 Variable Rate Bonds, which written notice shall be received by each such party not less than 20 days prior to the Adjustment Date with respect to the new Adjustment Period, specifying (i) the Interest Mode or Modes in which such Series 2003 Variable Rate Bonds shall operate during such Adjustment Period and the commencement date of such Adjustment Period, and (ii) if such Interest Mode is to be an Adjustable Long Mode or Flexible Mode, the duration of such Adjustment Period for each Series 2003 Variable Rate Bond affected thereby, the Rate Determination Date or Dates, the Rate Change Date or Dates therefor and the optional redemption provisions applicable to such Series 2003 Variable Rate Bonds, *provided*, that (a) if such Adjustment Period is an Adjustable Long Mode or a Flexible Mode, the first day following each Rate Period therein shall be a Business Day, and (b) not later than the 20th day prior to the Adjustment Date with respect to the new Adjustment Period, the Trustee must have received written evidence from each Rating Agency then maintaining a rating on the Series 2003 Variable Rate Bonds that the then-current rating on the Series 2003 Variable Rate Bonds will not be reduced or withdrawn due to the conversion of the Series 2003 Variable Rate Bonds to the Adjustable Long Mode or the Flexible Mode. In addition, the then-current Liquidity Facility must provide enough days of interest coverage after the Adjustment Date as may be required by any Rating Agency then maintaining a rating on the Series 2003 Variable Rate Bonds to continue its rating.

(c) No later than 10:00 a.m., Chicago time, on an Adjustment Date which is the first day of a Flexible Mode, the Remarketing Agent shall give telephonic notice (confirmed by telecopy) to the City, the Qualified Provider of the then-current Liquidity Facility and the Trustee of (i) the initial Rate Period and initial Flexible Rate to be borne by each Series 2003 Variable Rate Bond designated to operate in a Flexible Mode, and (ii) the Rate Change Date which immediately succeeds such initial Rate Period. No later than 9:30 a.m., Chicago time, on an Adjustment Date which is the first day of a Daily Mode, the Remarketing Agent shall give telephonic notice (confirmed by telecopy) to the City, the Qualified Provider of the then-current Liquidity Facility and the Trustee of the initial Daily Rate to be borne by the Series 2003 Variable Rate Bonds designated to operate in a Daily Mode. No later than 10:00 a.m., Chicago time, on the Rate Determination Date preceding an Adjustment Date which is the first day of a Weekly Mode, the Remarketing Agent shall give telephonic notice (confirmed by telecopy) to the City, the Qualified Provider of the then-current Liquidity Facility and the Trustee of the initial Weekly Rate to be borne by the Series 2003 Variable Rate Bonds designated to operate in a Weekly Mode. No later than 10:00 a.m., Chicago time, on the Rate Determination Date preceding an Adjustment Date which is the first day of an Adjustable Long Mode, the Remarketing Agent shall give telephonic notice (confirmed by telecopy) to the Trustee, the Qualified Provider of the then-current Liquidity Facility and the City of the initial Adjustable Long Rate to be borne by each Series 2003 Variable Rate Bond designated to operate in an Adjustable Long Mode.

(d) If the City shall designate a Short Mode for any Series 2003 Variable Rate Bond which had been operating in an Adjustable Long Mode, or if the City shall designate an Adjustable Long Mode for any Series 2003 Variable Rate Bond which had been operating in a Short Mode, the City shall cause to be delivered to the Trustee, the Trustee's Agent, the Qualified Provider of the then-current Liquidity Facility and the Remarketing Agent, concurrently with the notice described in (b) above, an opinion of Bond Counsel to the effect that such designation (i) is authorized or permitted by this 2003 Series Ordinance, (ii) will not have an adverse effect on the validity or enforceability of any Series 2003 Bond, and (iii) will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled. If an opinion of Bond Counsel is required to be delivered together with the notice, the conversion contemplated by such opinion and notice shall not become effective unless prior to 11:00 a.m., Chicago time, on the applicable Adjustment Date the Trustee shall have received an opinion of Bond Counsel, dated the Adjustment Date, reaffirming the conclusions of the opinion accompanying the notice delivered as above required.

(e) In the event (i) the Remarketing Agent does not determine the interest rate applicable to the initial Rate Period during a new Interest Mode with respect to any Series 2003 Variable Rate Bond all as provided in Section 501(a), or (ii) an opinion of Bond Counsel required by Section 501(d) is not delivered or reaffirmed on the applicable Adjustment Date, the immediately succeeding Interest Mode with respect to the Series 2003 Variable Rate Bonds in the Interest Mode then ending shall be (a) a Daily Mode if the preceding Interest Mode was a Short Mode, with a Daily Rate established by the Remarketing Agent, or if the Remarketing Agent fails to set such Daily Rate, such Daily Rate shall be equal to the BMA Municipal Index or (b) an Adjustable Long Mode with an Adjustment Period of 367 days if the preceding Interest Mode was an Adjustable Long Mode, with an Adjustable Long Rate established by the Remarketing Agent, or, if the Remarketing Agent fails to set such rate, such Adjustable Long Rate shall equal 90 percent of the interest rate on United States Treasury obligations with a maturity of one year.

(f) Upon receipt of notice from the City as provided in Section 501(b), the Trustee, at least 15 days prior to each succeeding Adjustment Date, shall give the Immediate Notice described in Section 406 to each Holder of Series 2003 Variable Rate Bonds thereby affected bearing interest at a Daily Rate or a Weekly Rate of the mandatory tender for purchase of the affected Series 2003 Variable Rate Bonds on the Adjustment Date.

(g) Any designation pursuant to Section 501(a) of a subsequent Adjustment Period shall be accompanied by (i) a written statement from the Remarketing Agent, addressed to the City, the Qualified Provider of the then-current Liquidity Facility, if any, and the Trustee, to the effect that the Remarketing Agent has determined that such change satisfies the standards provided in Section 501(a), or (ii) an approval in writing of such change by an Authorized Officer together with an opinion of Bond Counsel to the effect that such approval is not required

for the continued validity and enforceability of the Series 2003 Variable Rate Bonds in accordance with their terms, and that such change will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Variable Rate Bonds would otherwise be entitled.

(h) No conversion of Interest Modes shall be effective unless the City has certified to the Trustee that the Liquidity Facility (if any) in effect on and after such Interest Mode change permits requests to be made and funds to be made available to the Trustee's Agent so the Trustee's Agent can comply with Section 407 in a timely manner.

Section 502. Designation of Substitute Adjustment Date.

(a) The City may designate a Substitute Adjustment Date (i) for any Liquidity Provider Bonds (provided that such Liquidity Provider Bonds shall continue to bear interest at the applicable Liquidity Provider Rate as long as they remain Liquidity Provider Bonds), with the written approval of the applicable Qualified Provider, on any Business Day, and (ii) for any Series 2003 Variable Rate Bonds in an Adjustable Long Mode, on any Business Day on which such Series 2003 Variable Rate Bonds can be optionally redeemed at a price of par plus accrued interest. The Substitute Adjustment Date shall be the next succeeding Adjustment Date for such Series 2003 Variable Rate Bonds for all purposes of this 2003 Series Ordinance.

(b) The City shall evidence each such designation of a Substitute Adjustment Date by giving written notice to the Remarketing Agent, the Qualified Provider of the then-current Liquidity Facility, if any, and the Trustee, which written notice shall be received by the Remarketing Agent and the Trustee not less than one day prior to each such Substitute Adjustment Date for Liquidity Provider Bonds and not less than 20 days prior to each Substitute Adjustment Date for Series 2003 Variable Rate Bonds in an Adjustable Long Mode, specifying (i) the Interest Mode in which such Series 2003 Variable Rate Bonds shall operate commencing with such Substitute Adjustment Date, and (ii) if such Adjustment Period is to be an Adjustable Long Mode, the duration of the immediately succeeding Adjustment Period for each Series 2003 Variable Rate Bond affected thereby, the Rate Periods therein, the Rate Change Dates and Rate Determination Dates therefor, and the applicable optional redemption provisions; *provided*, that clauses (a) and (b) of the proviso of Section 501(b) shall apply to the designation by the City of a Substitute Adjustment Date and the selection of the Rate Change Date or Dates applicable thereto. In addition, if the succeeding Adjustment Period is to be an Adjustable Long Mode, the Remarketing Agent shall give telephonic notice (confirmed by telecopy) to the Trustee no later than 10:00 a.m., Chicago time, on the Business Day immediately preceding the Substitute Adjustment Date, specifying the interest rate which will be effective commencing on such Substitute Adjustment Date. If the succeeding Adjustment Period is to be a Flexible Mode, the Remarketing Agent shall give telephonic notice (confirmed by telecopy) to the Trustee, no later than 10:00 a.m., Chicago time, on the Adjustment Date which is the first day of a Flexible Mode, of (i) the duration of the initial Rate Periods during such Flexible Mode and the initial Flexible Rates to be borne by the Series 2003 Variable Rate Bonds designated to operate in a Flexible

Mode during such Rate Periods, and (ii) the Rate Change Dates upon which such Rate Periods shall terminate. If the succeeding Adjustment Period is to be a Weekly Mode, the Remarketing Agent shall give telephonic notice (confirmed by telecopy) to the City and the Trustee, no later than 10:00 a.m., Chicago time, on the Business Day immediately preceding the Substitute Adjustment Date, specifying the interest rate which will be effective commencing on such Substitute Adjustment Date. If the succeeding Adjustment Period is to be a Daily Mode, the Remarketing Agent shall give telephonic notice (confirmed by telecopy) to the Trustee, no later than 9:30 a.m., Chicago time, on the Substitute Adjustment Date which is the first day of a Daily Mode, of the initial Daily Rate to be borne by the Series 2003 Variable Rate Bonds designated to operate in a Daily Mode during such Rate Period. If the succeeding Adjustment Period is to be a Fixed Mode, the City shall satisfy the requirements of Section 503.

(c) If the City shall designate a Substitute Adjustment Date for any Series 2003 Variable Rate Bonds, it shall cause to be delivered to the Trustee, the Remarketing Agent and the Qualified Provider of the then-current Liquidity Facility, if any, concurrently with the notice described in (b) above, and no such designation of a Substitute Adjustment Date shall take effect without, an opinion of Bond Counsel to the effect that the designation of such Substitute Adjustment Date (i) is authorized or permitted by this 2003 Series Ordinance, (ii) will not have an adverse effect on the validity or enforceability of any Series 2003 Bond and (iii) will not adversely affect the exclusion from gross income for federal income tax purposes of the interest on the Series 2003 Bonds. The Substitute Adjustment Date shall not be effective unless prior to 10:00 a.m., Chicago time, on the Substitute Adjustment Date, the Trustee shall have received an opinion of Bond Counsel, dated such Adjustment Date, reaffirming the conclusions of the opinion accompanying the notice delivered as above required.

(d) Any designation by the City pursuant to Section 502(a) of a Substitute Adjustment Date shall be accompanied by (i) a written statement from the Remarketing Agent, addressed to the City, the Qualified Provider of the then-current Liquidity Facility, if any, and the Trustee, to the effect that the Remarketing Agent has determined that such change satisfies the standards provided in Section 501(a), or (ii) an opinion of Bond Counsel to the effect that such approval is not required for the continued validity and enforceability of the Series 2003 Bonds in accordance with their terms, and that such change will not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled.

Section 503. Authority for and Conditions to Conversion to Fixed Rate.

(a) On any Rate Change Date during a Flexible Mode or an Adjustable Long Mode, or on any Business Day during a Daily Mode or a Weekly Mode, or at any time with respect to Liquidity Provider Bonds, the interest rate to be borne by all or any portion of such Series 2003 Variable Rate Bonds shall be converted to a Fixed Rate, and such Series 2003

Variable Rate Bonds so converted shall thereafter bear interest at such Fixed Rate until payment of the principal or Redemption Price thereof shall have been made or provided for in accordance with the provisions hereof, whether at the Maturity Date, upon redemption or otherwise, upon receipt by the Trustee of (i) a direction from an Authorized Officer specifying a Fixed Rate Conversion Date and the principal amount of Series 2003 Variable Rate Bonds to be converted, (ii) a firm underwriting or purchase contract from a recognized firm of bond underwriters or recognized institutional investors to underwrite or purchase all Series 2003 Variable Rate Bonds which are to be converted on such Fixed Rate Conversion Date at a price of 100 percent of the principal amount thereof, and (iii) an opinion of Bond Counsel addressed to the City, the Qualified Provider of the then-current Liquidity Facility, if any, and the Trustee to the effect that such conversion (a) is authorized or permitted by this 2003 Series Ordinance, (b) will not have an adverse effect on the validity or enforceability of any Series 2003 Bond, and (c) will not adversely affect the exclusion from gross income for federal income tax purposes to which

interest on the Series 2003 Bonds would otherwise be entitled, all of which direction, certificates, contract and opinion shall be received not less than 20 days prior to the Fixed Rate Conversion Date. In addition, not later than the 20th day prior to the Fixed Rate Conversion Date, the Trustee must have received written evidence from each Rating Agency then maintaining a rating on the Series 2003 Variable Rate Bonds that the then-current long-term rating on the Series 2003 Variable Rate Bonds will not be reduced or withdrawn due to the conversion of the Series 2003 Variable Rate Bonds to the Fixed Rate, and that the short-term rating on the Series 2003 Variable Rate Bonds not being converted will not be reduced or withdrawn due to a partial Fixed Rate Conversion. The Fixed Rate Conversion of the interest rate borne by Series 2003 Variable Rate Bonds pursuant to this Section shall not become effective unless prior to 10:00 a.m., Chicago time, on the applicable Fixed Rate Conversion Date the Trustee and the Qualified Provider of the then-current Liquidity Facility, if any, shall have received an opinion of Bond Counsel, dated the Fixed Rate Conversion Date, reaffirming the conclusions of the opinion accompanying the written direction of the City delivered as above required.

The Authorized Officer shall be required to give Immediate Notice of the foregoing direction to the Trustee if, not later than 90 days prior to the Stated Termination Date of the then-current Liquidity Facility, if any, there has been no renewal or replacement of such Liquidity Facility unless a substitute Liquidity Facility has become effective, unless such Stated Termination Date shall be on or after the Liquidity Facility Cancellation Date for such Liquidity Facility.

(b) At least 15 days prior to the Fixed Rate Conversion Date, the Trustee shall give or cause the Remarketing Agent to give written notice of such election by the City to the Holders of all Series 2003 Variable Rate Bonds to be converted bearing interest at a Daily Rate or a Weekly Rate, which notice shall state (i) the Fixed Rate Conversion Date, and (ii) that such Series 2003 Variable Rate Bonds shall be subject to mandatory purchase on such Fixed Rate Conversion Date. The Trustee shall give written notice by first class mail to the Remarketing

Agent and the Qualified Provider of the then-current Liquidity Facility, if any, of the foregoing information.

(c) The City, at the direction of the Trustee, shall deliver replacement Series 2003 Variable Rate Bonds bearing the Fixed Rate for converted Series 2003 Variable Rate Bonds surrendered or deemed surrendered by the Holders thereof. Any such replacement Series 2003 Variable Rate Bonds shall be executed and authenticated as provided in the General Ordinance; *provided*, that the Trustee shall affix a legend on the face of each Series 2003 Variable Rate Bond authenticated on or after the Fixed Rate Conversion Date therefor in substantially the following form:

This Series 2003 Bond bears interest at the Fixed Rate, as defined in this Series 2003 Bond, of ____ percent per annum from and after _____. This Series 2003 Bond is not secured by a Liquidity Facility. This Series 2003 Bond matures on _____.

(d) From the date notice of the proposed establishment of a Fixed Rate with respect to any Series 2003 Variable Rate Bond is received by the Trustee as provided in subsection (a) of this Section 503 through the Fixed Rate Conversion Date therefor, such Series 2003 Variable Rate Bond shall not be remarketed by the Remarketing Agent except to a buyer who is notified in writing of the mandatory purchase of such Series 2003 Variable Rate Bond on such Fixed Rate Conversion Date.

(e) No Liquidity Facility is required for Series 2003 Variable Rate Bonds bearing interest at a Fixed Rate, so the amount of the Liquidity Facility, if any, may be reduced on or after the Fixed Rate Conversion Date with respect to such Series 2003 Variable Rate Bonds as provided in the applicable Qualified Provider Agreement.

(f) If the Fixed Rate Conversion of the interest rate on any Series 2003 Variable Rate Bond does not occur for any reason, including in the event that any condition precedent to the Fixed Rate Conversion shall not occur, such Series 2003 Variable Rate Bond shall bear interest from and after the proposed Fixed Rate Conversion Date in the same Interest Mode as the Interest Mode applicable to such Series 2003 Variable Rate Bond prior to the proposed Fixed Rate Conversion Date, at the interest rate calculated in the manner set forth in Section 303, and, in the case of an Adjustable Long Mode, for a Rate Period of 367 days, and in the case of a Flexible Mode, for a Rate Period of seven days, and if such conversion is being undertaken pursuant to Section 503(a), then the City shall direct the Remarketing Agent to continue to seek to effect such conversion no less frequently than every seven days.

(g) In the event of a conversion of less than all of the Series 2003 Variable Rate Bonds to the Fixed Mode, Liquidity Provider Bonds shall be converted first.

(h) The determination of the Fixed Rate for any Series 2003 Variable Rate

Bonds shall be conclusive and binding upon the Holders of such Series 2003 Variable Rate Bonds, the City, the Long Term Credit Support Provider, if any, and the Trustee.

Section 504. Effect of Notices.

Any notice mailed as provided herein shall be conclusively presumed to have been given, whether or not the Holders of the Series 2003 Variable Rate Bonds receive the same.

Section 602. Series 2003 Project Account.

There is created a separate account in the Project Fund and designated as the "Series 2003 Project Account" (the "**Series 2003 Project Account**"). Within 60 days after (i) completion of the Project Purposes the acquisition and construction of which was financed through the issuance of the Series 2003 Bonds, as evidenced by a certificate of the Comptroller filed with the Trustee (if the Series 2003 Project Account is then held by the Trustee) or the Treasurer (if such Account is then held by the City), and (ii) the payment of all costs with respect to those Project Purposes, any funds remaining in the Series 2003 Project Account shall be transferred by the City (or if such Account is then held by the Trustee, by the Trustee at the direction of the City) either to the Series 2003 Debt Service

Reserve Account or, if such account is fully funded, at the direction of the City either to the Series 2003 Bonds Account in the Debt Service Fund or to any other Account in the Debt Service Fund.

Section 603. Series 2003 Bonds Account; Deposit Requirements.

(a) There is established as a separate account in the Debt Service Fund, a Series 2003 Bonds Account (the "Series 2003 Bonds Account") to relate solely to the Series 2003 Bonds. The Series 2003 Bonds Account shall be used to pay the principal and Redemption Price of and the interest on the Series 2003 Bonds, all pursuant to the General Ordinance and this Series 2003 Series Ordinance.

(b) All accrued interest received upon the issuance of the Series 2003 Bonds shall be deposited in the Debt Service Fund to the credit of the Series 2003 Bonds Account and applied to the payment of the first interest falling due on the Series 2003 Bonds.

(c) The following monthly deposit requirements to the Series 2003 Bonds Account for interest on the Series 2003 Bonds (other than interest on Series 2003 Variable Rate Bonds) are established:

(i) For each month prior to the first interest payment date, the City shall deposit into the Series 2003 Bonds Account of the Debt Service Fund an amount equal to the amount of interest coming due on the first interest payment date (minus the amount of accrued interest deposited in the Debt Service Fund upon the issuance and delivery of the Series 2003 Bonds) multiplied by a fraction, the numerator of which shall be one (1) and the denominator of which shall equal the number of full calendar months between the date of delivery of the Series 2003 Bonds and the first interest payment date for the Series 2003 Bonds minus one (1) (*provided*, that the denominator may not be less than one), until the full amount of the interest payment is on hand.

(ii) For each month beginning on the first day of the month in which the first interest payment date occurs, the City shall deposit into the Series 2003 Bonds Account of the Debt Service Fund an amount equal to one-fifth of the interest coming due on the next interest payment date until the full amount of the interest payment is on hand.

(d) The monthly deposit requirements for interest with respect to Series 2003 Variable Rate Bonds shall be a percentage as established in the Determination Certificate (not less than 100%) of the Interest Requirement.

(e) The following monthly deposit requirements for principal with respect to the Series 2003 Bonds Account are established:

(i) For each month prior to the first principal or mandatory sinking fund payment date, the City shall deposit into the Series 2003 Bonds Account of the Debt Service Fund an amount equal to the amount of principal coming due on the first principal payment date multiplied by a fraction, the numerator of which shall be one (1) and the denominator of which shall equal the number of full calendar months between the date of delivery of the Series 2003 Bonds and January 1, 2004 minus one (1) (*provided*, that the denominator may not be less than one), until the full amount of the principal or mandatory sinking fund payment is on hand.

(ii) For each month beginning on the month of the first day of the month in which the first principal or mandatory sinking fund payment date occurs, the City shall deposit into the Series 2003 Bonds Account of the Debt Service Fund an amount equal to one-eleventh of the principal coming due on the next principal or mandatory sinking fund payment date until the full amount of the principal or mandatory sinking fund payment is on hand.

Section 604. Debt Service Reserve Fund Deposit.

There is established as a separate account in the Debt Service Reserve Fund a Series 2003 Debt Service Reserve Account (the "**Series 2003 Debt Service Reserve Account**"). From the amount received upon the issuance of the Series 2003 Bonds, a sufficient sum shall be deposited in the Series 2003 Debt Service Reserve Account to establish a balance in the Debt Service Reserve Fund at least equal to the 2003 Reserve Requirement, to be held and disbursed as provided in the General Ordinance. All or any part of the 2003 Reserve Requirement may be met by deposit in the Series 2003 Debt Service Reserve Account of a Reserve Fund Credit Instrument, to be valued at the Reserve Fund Credit Instrument Amount in accordance with the General Ordinance and this 2003 Series Ordinance.

[2] The principal of, redemption price, if any, and interest on this bond are payable in any coin or currency of the United States of America that at the time of payment is legal tender for the payment of public and private debts. The interest payable on this bond on each interest payment date will be paid to the person in whose name this bond is registered at the close of business on the fifteenth day of the month next preceding the interest payment date. The principal of and redemption price, if any, of this bond (and the interest payable on any redemption or acceleration of this bond other than on an interest payment date) are payable at the principal corporate trust office of Cole Taylor Bank, Chicago, Illinois, as trustee and paying agent (the "Trustee"). [3] This bond is one of a duly authorized series of bonds of the City designated "Motor Fuel Tax Revenue Bonds, Series 2003" (the "**Series 2003 Bonds**"), in the aggregate principal amount of \$_____ issued pursuant to the home rule powers of the City and under and pursuant to the Motor Fuel Tax Revenue Bonds General Ordinance of the City duly adopted on November 28, 1990, as amended by the 2003 Series Ordinance identified below (the "**General Ordinance**"), and a 2003 Series Ordinance for the Series 2003 Bonds adopted on _____, 2003 (the "**2003 Series Ordinance**"). As provided in the General Ordinance, Bonds (as defined below) of the City may be issued from time to time pursuant to series ordinances in one or more series, in various principal amounts, may mature at different times, may bear interest at different rates, and, subject to the provisions of the General Ordinance, may otherwise vary. Proceeds derived from the issuance of the Series 2003 Bonds will be used to provide funds to refund a portion of the Motor Fuel Tax Revenue Bonds, Series 1990 (the "**Series 1990 Bonds**"), and a portion of the Motor Fuel Tax Revenue Bonds, Refunding Series 1993 (the "**Series 1993 Bonds**" and together with the Series 1990 Bonds, the "**Refunded Bonds**"), of the City, to pay the costs of acquiring and constructing projects constituting Project Purposes (as defined in the General Ordinance), [pay the premium for a municipal bond insurance policy and a reserve fund credit instrument], pay certain expenses incurred in connection with the issuance of the Series 2003 Bonds and the refunding of the Refunded Bonds, [and fund an account for the Series 2003 Bonds in the Debt Service Reserve Fund].

[4] The General Ordinance and the 2003 Series Ordinance are referred to together as the "**Ordinances**." Copies of the Ordinances are on file at the office of the City Clerk and at the principal corporate trust office of the Trustee in Chicago, Illinois, and reference to the Ordinances is made for a description of the pledges, assignments, liens, security interests, and covenants securing the Bonds (as defined below), including Series 2003 Bonds, the nature, extent, and manner of enforcement of those pledges, assignments, liens, security interests, and covenants, the rights and remedies of the registered owners of the Bonds, and the terms and conditions upon which Bonds have been, are and may be issued. Except for certain modifications and amendments that are not permitted by the terms of the Ordinances, the provisions of the Ordinances may be modified or amended by the City with the written consent of the holders of at least two-thirds in aggregate principal amount (compound accreted value for certain obligations) of the obligations then outstanding under the General Ordinance, and, if fewer than all of the several Series of Bonds issued under the General Ordinance would be affected by the modification or amendment, with such consent of the holders of at least two-thirds in aggregate principal amount (compound accreted value for certain obligations) of such affected Series of Bonds then Outstanding. The City may adopt Supplemental Ordinances for certain purposes without the consent of holders of Bonds.

[5] This Series 2003 Bond is a legal, valid and binding limited obligation of the City payable solely from Motor Fuel Tax Revenues which lawfully may be used for the purpose of payment of Municipal Indebtedness (as defined in the General Ordinance) or from certain other moneys and securities held by the Trustee under the Ordinances. The Series 2003 Bonds do not constitute an indebtedness of the City within the meaning of any constitutional or statutory provision or limitation of indebtedness. Neither the full faith and credit nor the taxing power of the City, the State of Illinois or any political subdivision of the State of Illinois is pledged to the payment of the principal, redemption price, or interest on the Series 2003 Bonds.

[6] The outstanding Series 1990 Bonds, the outstanding Series 1993 Bonds, and the Series 2003 Bonds, together with other Bonds that may be issued in the future under the General Ordinance on a parity with the Series 2003 Bonds (collectively, the "Bonds"), are payable as to principal, redemption price, and interest from Motor Fuel Tax Revenues of the City which lawfully may be used for the purpose of payment of Municipal Indebtedness.

[7] By the General Ordinance, the City has established a Debt Service Fund with respect to Bonds issued under the General Ordinance. The City has established a Series 2003 Bonds Account in that Fund, which is to be used for paying the principal of and interest on the Series 2003 Bonds. The City has also established a Debt Service Reserve Fund under the General Ordinance. [The City has established a Series 2003 Debt Service Reserve Account in the Debt Service Reserve Fund for the sole benefit of the holders of the Series 2003 Bonds.]

[8] The City has assigned to the Trustee for the benefit of the holders from time to time of Bonds all Motor Fuel Tax Revenues received by the City that are to be collected by the Illinois Department of Revenue that may lawfully be used for the payment of Municipal Indebtedness. For the benefit of the holders of Bonds, the City has pledged, assigned and granted to the Trustee a first lien on and first security interest in all Motor Fuel Tax Revenues received that lawfully may be so used for payment in full of principal and redemption price of, and interest on all such Bonds, as such amounts become due and payable, whether by the terms of such Bonds or by acceleration as provided in the General Ordinance or the Series Ordinance applicable to such Bonds. By the 2003 Series Ordinance, the City has provided for deposit requirements in the Series 2003 Bonds Account of the Debt Service Fund. The pledge, assignment and grant of a lien and security interest are subject to the right of the City to apply for its other lawful purposes any amounts which it has on hand and which are not required to remain on deposit in or to be deposited in the Debt Service Fund.

[9] This Series 2003 Bond is transferable, as provided in the Ordinances, only upon the books of the City kept for that purpose at the principal corporate trust office of the Trustee in Chicago, Illinois, by the registered owner of this Series 2003 Bond in person, or by the owner's agent duly authorized in writing. Upon the surrender of this Series 2003 Bond, together with a written instrument of transfer satisfactory to the Trustee duly executed by the registered

owner or the owner's agent authorized in writing, and upon the payment of any charges prescribed in the Ordinances, a new registered Series 2003 Bond, in the same aggregate principal amount and of the same maturity, shall be issued to the transferee as provided in the Ordinances. The City and the Trustee may deem and treat the registered owner as the absolute owner of this Series 2003 Bond (whether or not this Series 2003 Bond shall be overdue) for the purpose of receiving payment of or on account of principal of this Series 2003 Bond and the redemption price, if any, and interest due on this Series 2003 Bond and for all other purposes, and neither the City nor the Trustee shall be affected by any notice to the contrary. Neither the City nor the Trustee shall be obligated to make any exchange or transfer of this Series 2003 Bond during the period from any record date to the next interest payment date on the Series 2003 Bonds or to make any such transfer or exchange of this Series 2003 Bond if this Series 2003 Bond is proposed to be redeemed after its selection by the Trustee for redemption.

[10] The Series 2003 Bonds are issued in fully registered form in the denomination of \$5,000 or any integral multiple of \$5,000. Subject to the limitations and upon payment of the charges provided in the Ordinances, Series 2003 Bonds in fully registered form may be exchanged for a like aggregate principal amount of Series 2003 Bonds in fully registered form of other authorized denominations.

[11] The Series 2003 Bonds due on and after January 1, ____ are subject to redemption prior to maturity at the option of the City, in whole or in part at any time on and after January 1, ____, and if in part, from such maturity or maturities as the City may determine, and if less than an entire maturity, in integral multiples of \$5,000 selected by the Trustee as provided in the General Ordinance, at the redemption prices (expressed as a percentage of the principal amount to be redeemed) set forth below plus accrued interest to the redemption date:

[13] Notice of the redemption of any Series 2003 Bonds shall be given by mailing a copy of the notices prepaid to the registered owners of the Series 2003 Bonds that are to be redeemed at their last addresses appearing on the registration books of the City maintained

by the Bond Registrar. The notice shall be mailed not less than thirty (30) days nor more than sixty (60) days prior to the date fixed for redemption. The failure of any person to receive the notice shall not affect the validity of the redemption and the failure to mail notice to the registered owner of any Series 2003 Bond shall not affect the validity of the redemption of any other Series 2003 Bond. [4] The General Ordinance and the 2003 Series Ordinance are referred to together as the "**Ordinances**." Copies of the Ordinances are on file at the office of the City Clerk and at the principal corporate trust office of the Trustee in Chicago, Illinois, and reference to the Ordinances is made for a description of the pledges, assignments, liens, security interests, and covenants securing the Bonds, including Series 2003 Bonds, the nature, extent, and manner of enforcement of those pledges, assignments, liens, security interests, and covenants, the rights and remedies of the registered owners of the Bonds, and the terms and conditions upon which Bonds have been, are and may be issued. Except for certain modifications and amendments that are not permitted by the terms of the Ordinances, the provisions of the Ordinances may be modified or amended by the City with the written consent of the holders of at least two-thirds in aggregate principal amount (compound accreted value for certain obligations) of the obligations then outstanding under the General Ordinance, and, if fewer than all of the several Series of Bonds issued under the General Ordinance would be affected by the modification or amendment, with such consent of the holders of at least two-thirds in aggregate principal amount (compound accreted value for certain obligations) of such affected Series of Bonds then Outstanding. During the period a Credit Support Instrument is required under the 2003 Series Ordinance, all Series 2003 Bonds (other than Liquidity Provider Bonds and Series 2003 Bonds bearing interest at a Fixed Rate) shall be purchased (a) on the Business Day prior to each Stated Termination Date of the Credit Support Instrument, and (b) on the Business Day immediately preceding each Substitution Date. If a Liquidity Facility is no longer required pursuant to the 2003 Series Ordinance, all Series 2003 Bonds (other than Liquidity Provider Bonds and Series 2003 Bonds bearing interest at a Fixed Rate) shall be purchased on the Business Day prior to the date on which the Liquidity Facility is to be canceled. All Series 2003 Bonds (other than Liquidity Provider Bonds and Series 2003 Bonds bearing interest at a Fixed Rate) shall be purchased on the Business Day prior to a Substitution Date. A purchase of Series 2003 Bonds pursuant to this paragraph shall be at a purchase price for each such Series 2003 Bond equal to the principal amount thereof plus accrued interest, if any, to the purchase date. The Holder of such Series 2003 Bond may not elect to retain its Series 2003 Bond.

Purchase While Series 2003 Bonds Bear Adjustable Long Rate. While any Series 2003 Bond bears interest at an Adjustable Long Rate, such Series 2003 Bond shall be purchased on each Rate Change Date within an Adjustable Long Mode for such Series 2003 Bond, other than the Rate Change Date which is the first day of an Adjustable Long Mode applicable to such Series 2003 Bond, and on the Adjustment Date immediately following the last day of such Adjustable Long Mode, at a purchase price equal to 100 percent of the principal amount thereof. The Holder of such Series 2003 Bond may not elect to retain its Series 2003 Bond.

Purchase on Adjustment Date. On each Adjustment Date with respect to a Series 2003 Bond (other than a Qualified Liquidity Provider Bond), such Series 2003 Bond shall be purchased at a purchase price equal to 100 percent of the principal amount thereof, except that (i) a Series 2003 Bond which is to be purchased on an Adjustment Date which immediately follows the last day of a Flexible Mode shall be purchased as described under "Purchase While Series 2003 Bonds Bear Flexible Rate" above, and (ii) a Series 2003 Bond which is to be purchased on an Adjustment Date which immediately follows the scheduled final day of an Adjustable Long Mode shall be purchased as described under "Purchase While Series 2003 Bonds Bear Adjustable Long Rate" above. The Holder of such Series 2003 Bond may not elect to retain its Series 2003 Bond.

Payment of Purchase Price. Tendered Bonds remarketed by the Remarketing Agent shall be delivered by the Trustee or the Trustee's Agent as directed by the Remarketing Agent by 11:00 a.m., Chicago time, on the date of purchase against payment therefor. The proceeds of sale by the Remarketing Agent shall be delivered to the Trustee by 10:00 a.m., Chicago time, on the date of purchase. The Trustee's Agent shall pay the purchase price of each

Tendered Bond from the sources specified in the 2003 Series Ordinance, to the Holder thereof by 1:30 p.m., Chicago time, on the purchase date; provided that the Trustee's Agent shall have confirmed that such Holder has delivered such Tendered Bond (with any necessary endorsements) to the principal corporate office of the Trustee's Agent no later than 12:00 noon, Chicago time, on such date.

If sufficient moneys are on deposit with the Trustee or the Trustee's Agent to pay the applicable purchase price of any Tendered Bond, such Tendered Bond will be deemed to have been purchased whether or not delivered by the Holder thereof on the date such Tendered Bond is to be purchased. If any such purchased Tendered Bond is not so delivered, the City will execute and the Trustee will authenticate and deliver a replacement Series 2003 Bond of like date, Maturity Date and denomination as the Tendered Bond and bearing a number not contemporaneously outstanding.

Purchase Price of Liquidity Provider Bonds. The purchase price of remarketed Liquidity Provider Bonds shall be 100 percent of the principal amount thereof plus accrued interest, if any, through the Bond Sale Date.

No Remarketing After Certain Defaults. Unless consented to in writing by the City, the Remarketing Agent and the Series 2003 Bond Insurer (and, with respect to (b), the Qualified Provider of a Liquidity Facility), (a) if during the period a Liquidity Facility is required pursuant to the 2003 Series Ordinance, there is no Liquidity Facility in effect, there shall be no remarketing of Tendered Bonds, and (b) if there shall have occurred and be continuing an Event of Default under the General Ordinance of which an authorized officer in the principal office of

the Remarketing Agent or an authorized officer in the principal corporate trust office of the Trustee has actual knowledge, there shall be no remarketing of Tendered Bonds. In addition, the Remarketing Agent shall be under no obligation to remarket Tendered Bonds upon the occurrence and continuance of a Liquidity Provider Agreement Default.

If the Remarketing Agent is unable to remarket the Tendered Bonds upon a tender thereof, and the Qualified Provider does not purchase the Tendered Bonds for any reason whatsoever, the City may, but need not, purchase the Tendered Bonds. If the City does not purchase the Tendered Bonds, the Tendered Bonds shall remain Outstanding and shall continue to be owned by the Holders seeking to tender their Tendered Bonds. Such Tendered Bonds shall bear interest at the Failed Tender Rate until funds to purchase such Tendered Bonds are made available to such Holders, at which time such Holders shall be required to deliver such Tendered Bonds as if the failed purchase had not occurred. If such failed purchase occurs in connection with any Adjustment Date, such Tendered Bonds subject to the Adjustment Date shall remain outstanding in the Interest Mode in which they had been and shall bear interest at the Failed Tender Rate as aforesaid.

Conversion to an Adjustable Long Mode or Short Mode. The City may designate a different Interest Mode with respect to any Series 2003 Bond during a Flexible Mode or one or more Adjustable Long Modes on any Rate Change Date, and during a Daily Mode or a Weekly Mode on any Business Day, upon compliance with the 2003 Series Ordinance.

If the Remarketing Agent does not determine the interest rate applicable to the initial Rate Period during a new Interest Mode with respect to any Series 2003 Bond or if any relevant opinion required is not delivered, the immediately succeeding Interest Mode with respect to the Series 2003 Bonds in the Interest Mode then ending shall be determined as provided in the 2003 Series Ordinance.

Designation of Substitute Adjustment Date. The City may designate a Substitute Adjustment Date (i) for any Liquidity Provider Bonds (*provided* that such Liquidity Provider Bonds shall continue to bear interest at the Liquidity Provider Rate as long as they remain Liquidity Provider Bonds), with Liquidity Provider Approval, on any Business Day, and (ii) for any Series 2003 Bonds in an Adjustable Long Mode, on any Business Day on which such Series 2003 Bonds can be optionally redeemed at a price of par plus accrued interest as set forth in the 2003 Series Ordinance. The Substitute Adjustment Date shall be the next succeeding Adjustment Date for such Series 2003 Bonds for all purposes of the 2003 Series Ordinance.

Fixed Rate Conversion. On any Rate Change Date during a Flexible Mode or an Adjustable Long Mode, or on any Business Day during a Daily Mode or a Weekly Mode, or at any time with respect to Liquidity Provider Bonds, the interest rate to be borne by all or any portion of the Series 2003 Bonds in such Interest Mode shall be converted to a Fixed Rate, and such Series 2003 Bonds so converted shall thereafter bear interest at such Fixed Rate until payment of the principal or redemption price thereof shall have been made or provided for in accordance with the provisions of the 2003 Series Ordinance.

If the conversion of the interest rate of any Series 2003 Bond does not occur for any reason, including in the event that any condition precedent to the Fixed Rate Conversion shall not occur, such Series 2003 Bonds shall bear interest from and after the proposed Fixed Rate Conversion Date as provided in the 2003 Series Ordinance.

Effect of Notices. Any notice mailed as provided herein shall be conclusively presumed to have been given, whether or not the Holder of Series 2003 Bonds receives the notice.

Redemption. The Series 2003 Bonds shall be subject to redemption prior to their Maturity Date in the amounts, at the times and in the manner provided below.

(a) **Optional Redemption.**

(i) Series 2003 Bonds in a Daily Mode or a Weekly Mode shall be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Business Day during such Daily Mode or Weekly Mode, as applicable, at a redemption price equal to ____ percent of the principal amount thereof plus accrued interest, if any, to the redemption date.

(ii) Series 2003 Bonds in an Adjustable Long Mode shall be subject to redemption prior to their Maturity Date, during each Rate Period therein, at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Business Day after the No-Call Period described below, at the following redemption prices (expressed as percentages of the principal amount of Series 2003 Bonds, called for redemption) plus accrued interest, if any, to the redemption date:

<u>Length of Rate Period</u>	<u>No-Call Period</u>	<u>Redemption Price</u>
greater than ____ years	____ years from the Rate Change Date	____ %, declining ____ % per 12 months to ____ %
Less than or equal to ____ years and greater than ____ years	until ____ years prior to end of Rate Period	____ %
Less than or equal to ____ years	length of Rate Period	not subject to optional redemption

The City may deliver to the Trustee an alternative redemption schedule to the schedule shown above, if the City delivers to the Liquidity Provider, the Long Term Credit Support Provider and the Trustee an opinion of Bond Counsel to the effect that the alternative schedule of redemption will not adversely affect the validity and enforceability of the Series 2003 Bonds in accordance with their terms and does not

adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled. After the first Rate Change Date succeeding the delivery of such alternative schedule and opinion of Bond Counsel, Series 2003 Bonds in an Adjustable Long Mode shall be subject to redemption pursuant to the terms of such alternative schedule.

(iii) Series 2003 Bonds in the Fixed Mode shall be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Business Day after the No-Call Period described below, at the following redemption prices (expressed as percentages of the principal amount of the Series 2003 Bonds called for redemption) plus accrued interest, if any, to the redemption date:

<u>Length of Maturity</u>	<u>No-Call Period</u>	<u>Redemption Price</u>
greater than __ years	__ years from the Fixed-Rate Conversion Date	__%, declining __% per 12 months to __%
Less than or equal to __ years and greater than __ years	until __ years prior to the Maturity Date	__%
Less than or equal to __ years	term to the Maturity Date	not subject to optional redemption

The City may deliver to the Trustee an alternative redemption schedule to the schedule shown above, if the City delivers to the Qualified Provider and the Trustee an opinion of Bond Counsel to the effect that the alternative schedule of redemption will not adversely affect the validity and enforceability of the Series 2003 Bonds in accordance with their terms and does not adversely affect the exclusion from gross income for federal income tax purposes to which interest on the Series 2003 Bonds would otherwise be entitled. Series 2003 Bonds which commence bearing interest at a Fixed Rate on or after the delivery of such alternative schedule and opinion of Bond Counsel shall be subject to redemption in accordance with the provisions of such alternative schedule.

(iv) Series 2003 Bonds bearing interest at a Flexible Rate or an Adjustable Long Rate shall be subject to optional redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Rate Change Date therefor, at a redemption price equal to __ percent of the principal amount thereof plus accrued interest, if any, to the redemption date.

(b) Optional Redemption of Liquidity Provider Bonds. Liquidity Provider Bonds shall be subject to redemption prior to their Maturity Date at the option of the City, in whole or in part (and, if in part, in an Authorized Denomination) on any Business Day at a redemption price equal to ___ percent of the principal amount thereof plus accrued interest, if any, to the redemption date.

(c) Extraordinary Redemption of Liquidity Provider Bonds. Liquidity Provider Bonds shall be subject to mandatory redemption on the dates and in the amounts specified in the Qualified Provider Agreement. Such redemption shall be at a price equal to the principal amount thereof plus accrued interest at the Liquidity Provider Rate thereon to the redemption date, without premium. Liquidity Provider Bonds shall be redeemed pursuant to the 2003 Series Ordinance without any notice from or direction by the City.

(d) Priority of Redemption. In all events, Liquidity Provider Bonds shall be redeemed prior to any other Series 2003 Variable Rate Bonds.

(e) Mandatory Redemption of Series 2003 Bonds. The Series 2003 Bonds shall be subject to mandatory redemption prior to maturity in the amounts and upon terms as follows:

The Series 2003 Bonds are subject to mandatory redemption prior to maturity at a redemption price equal to ___ percent of the principal amount thereof on January 1 of the years and in the amounts set forth below, plus accrued interest to the date fixed for redemption:

Series 2003 Bonds due January 1, 20__

<u>Year</u>	<u>Principal Amount</u>	<u>Year</u>	<u>Principal Amount</u>

The principal amount of the Series 2003 Bonds to be mandatorily redeemed in each year may be reduced through the earlier optional redemption thereof, with any partial optional redemption of such Series 2003 Bonds credited against future mandatory redemption requirements in such order of the mandatory redemption dates as the City may determine. In addition, on or prior to the sixtieth day preceding any mandatory redemption date, the Trustee may, and if directed by the City shall, purchase Series 2003 Bonds required to be retired on such mandatory redemption date. Any such Series 2003 Bond so purchased shall be canceled and the principal amount thereof shall be credited against the payment required on such next mandatory redemption date.

General Provisions Regarding Redemptions. (i) No redemption of less than all of the Series 2003 Bonds Outstanding shall be made pursuant to (a) or (b) above unless (i) if such redemption is of Series 2003 Bonds bearing interest at a Liquidity Provider Rate, Short Rate or an Adjustable Long Rate, the aggregate principal amount of Series 2003 Bonds to be redeemed is equal to \$100,000 or integral multiples thereof, and (ii) if such redemption is with respect to Series 2003 Bonds bearing interest at a Fixed Rate, the aggregate principal amount of Series 2003 Bonds to be redeemed is equal to \$5,000 multiples. Any redemption of less than all of the Series 2003 Bonds Outstanding shall be made in such a manner that all Series 2003 Bonds Outstanding after such redemption are in Authorized Denominations.

(ii) Series 2003 Bonds may be called for redemption by the Trustee pursuant to (a) and (e) above (A) in the case of Series 2003 Bonds bearing interest at a Short Rate, upon receipt by the Trustee at least 35 days prior to the redemption date of a written request of the City requesting such redemption, or in accordance with the mandatory schedule provided herein, or (B) in the case of Series 2003 Bonds bearing interest at an Adjustable Long Rate or a Fixed Rate, upon receipt by the Trustee at least 45 days prior to the redemption date of a written request of the City requesting such redemption, or in accordance with the mandatory schedule provided herein.

(iii) Liquidity Provider Bonds may be called for redemption by the Trustee pursuant to (b) above upon receipt by the Trustee at least one Business Day prior to the redemption date of a written request of the City requesting such redemption. The Trustee or the Trustee's Agent shall give notice to the Qualified Provider one Business Day prior to any redemption of Liquidity Provider Bonds pursuant to (b) or (c) above.

Notice of Redemption. Except as otherwise provided with respect to Liquidity Provider Bonds in the 2003 Series Ordinance, notice of the call for any redemption identifying the Series 2003 Bonds to be redeemed shall be given by first class mail, postage prepaid, with respect to Series 2003 Bonds bearing interest at a Short Rate, not less than 30 or more than 45 days prior to the date fixed for redemption, and shall be given by first class mail, postage prepaid, with respect to Series 2003 Bonds bearing interest at an Adjustable Long Rate or a Fixed Rate, not less than 30 or more than 60 days prior to the date fixed for redemption, to the

Holders of Series 2003 Bonds to be redeemed at their addresses as shown on the registration books of the City maintained by the Bond Registrar. Failure to give notice in the manner prescribed with respect to any Series 2003 Bond, or any defect in such notice, shall not affect the validity of the proceedings for redemption for any Series 2003 Bond with respect to which notice was properly given. Upon the happening of the above conditions and if sufficient moneys are on deposit with the Trustee on the applicable redemption date to redeem the Series 2003 Bonds to be redeemed and to pay interest due thereon and premium, if any, the Series 2003 Bonds thus called shall not after the applicable redemption date bear interest, be protected by the Ordinances or be deemed to be Outstanding under the provisions of the Ordinances.

Selection of Series 2003 Bonds to be Redeemed. If less than all the Series 2003 Bonds shall be called for redemption under any provision of the 2003 Series Ordinance permitting such partial redemption, the particular Series 2003 Bonds or portions thereof to be redeemed shall be selected by the City and designated to the Trustee; provided, however, that (i) in the case of the redemption of less than all Series 2003 Bonds which bear interest in the same Interest Mode at the same rates for the same Rate Periods and which in the case of Series 2003 Bonds bearing interest at a Fixed Rate were converted on the same date, such redemption shall be by lot in such manner as the Trustee may determine among such Series 2003 Bonds, and (ii) subject to other applicable provisions of the 2003 Series Ordinance, the portion of any Series 2003 Bond to be redeemed shall be in a principal amount equal to an Authorized Denomination. Any redemption of less than all of the Series 2003 Bonds Outstanding shall be made first from Liquidity Provider Bonds.

Liquidity Facility. The City covenants and agrees that at all times while any Series 2003 Bonds are Outstanding which bear interest at a rate other than the Liquidity Provider Rate or the Fixed Rate, the City will maintain a Liquidity Facility in full force and effect with respect to all Series 2003 Bonds bearing interest at other than a Liquidity Provider Rate or a Fixed Rate except as otherwise provided in the 2003 Series Ordinance. In addition, the City covenants and agrees that at all times while any Series 2003 Bonds are Outstanding which bear interest at other than a Liquidity Provider Rate or a Fixed Rate, if the long-term rating of the Qualified Provider shall be lowered by either Moody's or S&P below "A-" (S&P) or "A3" (Moody's), then the City shall, upon receipt of a written request of the Qualified Provider providing long term credit support to the Series 2003 Bonds, use its best efforts to obtain a substitute Liquidity Facility. In the event of a Substitution Date for a Liquidity Facility, the Series 2003 Bonds shall be subject to mandatory purchase pursuant to the 2003 Series Ordinance. The City may obtain a substitute Liquidity Facility at any time in accordance with the terms of the 2003 Series Ordinance.

Liquidity Facility Not Required in Certain Circumstances. Prior to the Fixed Rate Conversion Date therefor, unless the City is serving as a substitute provider of a Liquidity Facility, all the Series 2003 Bonds (other than Series 2003 Bonds which bear interest at a Fixed Rate and Liquidity Provider Bonds) are required to have the benefit of a Liquidity Facility.

Series 2003 Bonds bearing interest at a Fixed Rate shall not be required to have the benefit of a Liquidity Facility after the Fixed Rate Conversion Date applicable to such Series 2003 Bonds. In the event a Liquidity Facility is canceled, the Series 2003 Bonds shall be subject to mandatory tender pursuant to the 2003 Series Ordinance.

Registration, Transfer and Exchange. This Series 2003 Bond is transferable, as provided in the Ordinances, only upon the books of the City kept for that purpose at the principal corporate trust office of the Trustee in Chicago, Illinois, by the registered owner of this Series 2003 Bond in person, or by the owner's agent duly authorized in writing. Upon the surrender of this Series 2003 Bond, together with a written instrument of transfer satisfactory to the Trustee duly executed by the registered owner or the owner's agent authorized in writing, and upon the payment of any charges prescribed in the Ordinances, a new registered Series 2003 Bond, in the same aggregate principal amount and of the same maturity, shall be issued to the transferee as provided in the Ordinances. The City and the Trustee may deem and treat the registered owner as the absolute owner of this Series 2003 Bond (whether or not this Series 2003 Bond shall be overdue) for the purpose of receiving payment of or on account of principal of this Series 2003 Bond and the redemption price, if any, and interest due on this Series 2003 Bond and for all other purposes, and neither the City nor the Trustee shall be affected by any notice to the contrary. Neither the City nor the Trustee shall be obligated to make any exchange or transfer of this Series 2003 Bond during the period from any record date to the next interest payment date on the Series 2003 Bonds or to make any such transfer or exchange of this Series 2003 Bond if this Series 2003 Bond is proposed to be redeemed after its selection by the Trustee for redemption.

The Series 2003 Bonds are issued in fully registered form in the denomination of \$100,000 or any integral multiple of \$5,000 in excess of that amount. Subject to the limitations and upon payment of the charges provided in the Ordinances, Series 2003 Bonds in fully registered form may be exchanged for a like aggregate principal amount of Series 2003 Bonds in fully registered form of other authorized denominations.

Defeasance. Provision for payment of all or any portion of the Series 2003 Bonds may be made, and the Ordinances may be discharged, prior to payment of the Series 2003 Bonds in the manner provided in the Ordinances.

Miscellaneous. The Holder of this Series 2003 Bond shall have no right to enforce the provisions of the Ordinances or to institute action to enforce the covenants therein, or to take any action with respect to any event of default under the Ordinances, or to institute, appear in or defend any suit or other proceedings with respect thereto, except as provided in the Ordinances.

IT IS HEREBY CERTIFIED, RECITED AND DECLARED that all acts and conditions required to be performed precedent to and in the issuance of this Series 2003 Bond have been performed in due time, form and manner as required by law, and that the issuance of this Series 2003 Bond and the series of which it forms a part does not exceed or violate any constitutional or statutory limitation.

The Trustee's certificate of authentication on any Series 2003 Bond shall be deemed to have been executed by it if signed by an authorized officer or signatory of the Trustee, but it shall not be necessary that the same officer or signatory sign the certificate of authentication on all of the Series 2003 Bonds. The Trustee is authorized and directed to cause all Series 2003 Bonds executed by the City to be authenticated in accordance with the provisions of the General Ordinance and this 2003 Series Ordinance.

(C) Any payments made by the City pursuant to paragraph (A) or (B) above representing amounts other than with respect to interest payments on a notional amount shall be made only from amounts available to the City pursuant to paragraph (5) of Section 605 hereof, and any payments received by the City pursuant to paragraph (A) or (B) above representing amounts other than with respect to interest payments on a notional amount shall be deposited to the credit of the account established for the applicable Series of Bonds in the Debt Service Fund.

(E) The provisions of this Section 206 shall apply only to the Series 2003 Bonds and any Series of Additional Bonds issued subsequent to the Series 2003 Bonds, and shall not apply to the Series 1990 Bonds or the Series 1993 Bonds.

Section 805. Amendment of Section 404 of the General Ordinance. The second sentence of Section 404 of the General Ordinance is amended to read as follows (additions are underlined, deletions are struck out):

Except as otherwise provided in a Series Ordinance, ~~The~~ Trustee shall then select by lot, using such method of selection as it shall deem proper in its discretion, from the numbers assigned to those Bonds as many numbers as, at \$5,000 for each number, shall equal the principal amount of such Bonds of such Series and maturity to be redeemed.

Section 806. Amendment of Section 605 of the General Ordinance. Subparagraph (1) of Section 605 of the General Ordinance is amended to read as follows (additions are underlined, deletions are struck out):

(1) Amounts deposited in or credited to the Accounts in the Debt Service Fund, subject to investment as provided in Article VII, shall be used only as provided in Section 206(a)(2) and this Section 605.

Section 807. Amendment of Section 813 of the General Ordinance. The last paragraph of Section 813 of the General Ordinance is amended to read as follows (additions are underlined, deletions are struck out):

(2) The Trustee will not direct any action which would cause any Bond to be an "arbitrage bond" within the meaning of section 148 of the Internal Revenue Code of 1986, as amended, or direct or permit any action inconsistent with the applicable regulations under the Code as amended from time to time and as applicable to such Bond. The Trustee in this regard may rely on advice from nationally recognized bond counsel selected by the City. This covenant shall not apply to any Bonds as to which the City has determined in connection with their issuance that the interest on such Bonds is not to be excluded from the gross income of the Holders of such Bonds for federal income tax purposes.

Section 808. Amendment of Section 905 of the General Ordinance. The last sentence in Section 905 is hereby amended as follows (additions are underlined, deletions are struck out):

Nothing in this Section 905, or in any other Section of this Ordinance, shall prohibit the City from pledging Motor Fuel Tax Revenues to secure or repay Credit Support Instruments, Reserve Fund Credit Instruments, Qualified Swap Agreements, Qualified Options, Non-Qualified Swap Agreements and Non-Qualified Options nor shall it prohibit the City from issuing debt subordinate to the Bonds secured by Motor Fuel Tax Revenues.

Section 809. Amendment of Section 907 of the General Ordinance. The fourth paragraph of subsection (2) of Section 907 of the General Ordinance is amended to read as follows (additions are underlined, deletions are struck out):

Maximum annual debt service requirements for these purposes shall be the maximum amount required to be deposited in the Debt Service Fund in the Fiscal Year of the calculation or any subsequent Fiscal Year. With respect to Variable Rate Bonds ~~which will bear interest at variable rates~~, the deposits for purposes of this Section shall be calculated in respect of interest as if the Bonds would bear interest at the lower of (i) the maximum rate which those Bonds may bear pursuant to law or (ii) the rate set

forth in the applicable Series Ordinance; provided that, if and so long as a Qualified Swap Agreement is in effect with respect to such Variable Rate Bonds, the interest component of Annual Debt Service Requirements shall be computed by reference to Section 206. With respect to Bonds for which there is a purchase, mandatory redemption or similar requirement which is provided to

be paid through a Credit Support Instrument, the deposits shall be calculated in respect of principal on the basis of scheduled payments of principal (at maturity or pursuant to Sinking Fund Installments) and not pursuant to the purchase, redemption or similar requirements provided so to be paid through such an Instrument.

Section 810. Amendment of Section 908 of the General Ordinance.

Section 908 of the General Ordinance is amended to read as follows (additions are underlined, deletions are struck out):

Section 908. Arbitrage Bonds. The City will not direct or permit any action which would cause any Bond to be an "arbitrage bond" within the meaning of section 148 of the Internal Revenue Code of 1986, as amended, or direct or permit any action inconsistent with the applicable regulations under the Code as amended from time to time and as applicable to such Bond. This covenant shall not apply to any Bonds as to which the City has determined in connection with their issuance that the interest on such Bonds is not to be excluded from the gross income of the Holders of such Bonds for federal income tax purposes.

Section 811. Amendment of Section 910 of the General Ordinance.

Section 910 of the General Ordinance is amended to read as follows (additions are underlined, deletions are struck out):

Section 910. Taxability. So long as any of the Bonds are Outstanding, the City will not take or fail to take any action, which it may feasibly take or refrain from taking which action or failure would cause the interest to be paid on the Bonds to be included in "gross income" of the Holders of the Bonds for federal income tax purposes. This covenant shall not apply to any Bonds as to which the City has determined in connection with their issuance that the interest on such Bonds is not to be excluded from the gross income of the Holders of such Bonds for federal income tax purposes.

Section 812. Amendment of Section 1004 of the General Ordinance. The second paragraph of Section 1004 of the General Ordinance is amended to read as follows (additions are underlined, deletions are struck out):

A Supplemental Ordinance adopted in accordance with this Section shall not be effective unless and until there shall have been filed with the Trustee the written consents of the Holders of percentages in principal amount of Outstanding Bonds specified in Section 1003 of this Ordinance and a notice shall have been given as provided in this paragraph; provided, that the amendments made
by Article VIII of the Series Ordinance for the Series 2003 Bonds shall become effective at such time as (a) there shall have been filed with the Trustee the written consents of at least sixty-six and two-thirds percent of the Holders of the Series 2003 Bonds (which may be provided by the initial purchasers of the Series 2003 Bonds) and (b) the Series 2003 Bonds shall have been issued. Each such consent shall be effective only if accompanied by proof of ownership of the Bonds for which such consent is given, which proof shall be such as the City may prescribe from time to time. Any such consent shall be binding upon the Holder of the Bond giving such consent and on any subsequent Holder (whether or not such subsequent Holder has notice of the consent) unless such consent is revoked in writing by the Holder giving such consent or a subsequent Holder by filing a notice of revocation with the Trustee prior to the first date when the notice provided for in the next sentence of this paragraph has been given; provided, that the consents of the Holders of the Series 2003 Bonds referred to above, once given, may not be revoked. After the Holders of the required percentages of Bonds shall have filed their consents to the Supplemental Ordinance, the Trustee shall mail a notice to the Holders of the Bonds, in the manner provided in the first paragraph of this Section for the mailing of the Supplemental Ordinance and request for consent, stating in substance that the Supplemental Ordinance has been consented to by the Holders of the required percentages of Bonds and will be effective (or has become effective) as provided in this Section. A certificate of the Trustee reciting compliance with the provisions of this Section shall be filed with the City and shall be proof of the matters stated until the contrary is proved, and the Supplemental Ordinance shall be deemed conclusively binding upon the City and the Holders of all Bonds at the expiration of sixty (60) days after the filing with the

City of the certificate, except, (a) in the case of Supplemental Ordinances other than the Series Ordinance for the Series 2003 Bonds, in the event of a final decree of a court of competent jurisdiction setting aside such consent in a legal action or equitable proceeding commenced within such sixty (60) day period and (b) in the case of the amendments made by Article VIII of the Series Ordinance for the Series 2003 Bonds, such amendments shall become effective and conclusively binding upon the City and the Holders of all Bonds as provided above without the publication of any notice.

Section 813. Effective Date of Amendments. Section 1003 of the General Ordinance provides that the General Ordinance may be modified or amended at any time by Supplemental Ordinance adopted by the City pursuant to the consent of the Holders of sixty-six and two-thirds percent (66 2/3%) in principal amount of all the Bonds then Outstanding (other than Bonds of a Series which is unaffected by such modification or amendment) by written instrument. The Series 1990 Bonds and the Series 1993 Bonds are unaffected by the amendments proposed to be made by Article VIII. Accordingly, under the General Ordinance as amended by the amendments proposed to be made by Article VIII, such amendments will become effective after the written consent of the Initial Purchasers to such amendments is filed with the Trustee and the Series 2003 Bonds are issued and delivered.

Article IX MISCELLANEOUS

Section 901. Arbitrage.

The City Council of the City represents, certifies and covenants that so long as any of the Series 2003 Bonds remain Outstanding, moneys on deposit in any fund or account in connection with the Series 2003 Bonds, whether or not such moneys were derived from the proceeds of the sale of the Series 2003 Bonds or from any other sources, will not be used in a manner which will cause the Series 2003 Bonds to be "arbitrage bonds" within the meaning of Section 148 of the Code. The City Council of the City reserves the right, however, to make any investment of such moneys permitted by Illinois law if, when and to the extent that said Section 148 or regulations promulgated under that Section shall be repealed or relaxed or shall be held void by final decision of a court of competent jurisdiction, but only if any investment made by virtue of such repeal, relaxation or decision would not, in the opinion of counsel of recognized competence in such matters, adversely affect the federal tax-exempt status of the interest on the Series 2003 Bonds.

The City Council of the City also agrees and covenants with the Initial Purchasers and Holders of the Series 2003 Bonds from time to time Outstanding that the City (i) will take all

actions which are necessary to be taken (and avoid any actions which it is necessary to avoid being taken) so that interest on the Series 2003 Bonds will not be or become included in gross income for federal income tax purposes under existing law including, without limitation, the Code, to an extent greater than that contemplated in the Official Statements, and (ii) will take all actions within its power to take which are necessary to be taken (and avoid taking any actions which are within its power to avoid taking and which it is necessary to avoid) so that interest on the Series 2003 Bonds will not be or become included in gross income for federal income tax purposes under the federal income tax laws as in effect from time to time to an extent greater than that contemplated in the Official Statements.

The City Council of the City authorizes the Mayor, the Treasurer or the Comptroller to make such further covenants and certifications as may be necessary to assure that the use of the Series 2003 Bond proceeds will not cause the Series 2003 Bonds to be arbitrage bonds and to assure that the interest on the Series 2003 Bonds will be and will continue to be exempt from federal income taxation. In that connection, the City Council of the City further agrees: (a) through its officers, to make such further specific covenants, representations as shall be truthful, and assurances as may be necessary or advisable; (b) to consult with counsel approving the Series 2003 Bonds and to comply with such advice as may be given; (c) to establish a Rebate Account for the Series 2003 Bonds in the Debt Service Fund and to deposit in it for payment to the United States of America, as necessary, such sums of money representing required rebates of excess arbitrage profits relating to the Series 2003 Bonds; (d) to file such forms, statements, and supporting documents as may be required and in a timely manner; and (e) if deemed necessary or advisable by its officers, to employ and pay fiscal agents, financial advisors, attorneys, and other persons to assist the City Council of the City in such compliance.

The covenants in this Section 901 shall apply only with respect to those Series 2003 Bonds designated in the Determination Certificate as bonds the interest on which is not included in gross income for federal income tax purposes.

Section 902. Appropriation.

This 2003 Series Ordinance constitutes an appropriation by the City of all Motor Fuel Tax Revenues to be applied as provided in the General Ordinance and this 2003 Series Ordinance for the payment of all installments of principal and Redemption Price of, Purchase Price of, and interest on, the Series 2003 Bonds, as such amounts come due.

Section 903. Appointment of Successor Trustee.

Cole Taylor Bank is appointed as successor Trustee and Paying Agent under the General Ordinance, effective upon the adoption of this 2003 Series Ordinance by the City Council and the approval of this 2003 Series Ordinance by the Mayor. The City shall cause notice of the appointment made in this Section 903 to be published as provided in Section 808 of the General Ordinance.

Section 904. Proxies.

The Mayor and the Comptroller may each designate another to act as their respective proxy and to affix their respective signatures to each Series 2003 Bond, whether in temporary or definitive form, and to any other instrument, certificate or document required to be signed by the Mayor or the Comptroller pursuant to this 2003 Series Ordinance or the General Ordinance. In each case, each shall send to the City Council written notice of the person so designated by each, such notice stating the name of the person so selected and identifying the instruments, certificates and documents which such person shall be authorized to sign as proxy for the Mayor or the Comptroller, respectively. A written signature of the Mayor or the Comptroller, respectively, executed by the person so designated underneath, shall be attached to each notice. Each notice, with signatures attached, shall be recorded in the Journal of the Proceedings of the City Council and filed with the City Clerk. When the signature of the Mayor is placed on an instrument, certificate or document at the direction of the Mayor in the specified manner, the same, in all respects, shall be as binding on the City as if signed by the Mayor in person. When the signature of the Comptroller is so affixed to an instrument, certificate or document at the direction of the Comptroller, the same, in all respects, shall be as binding on the City as if signed by the Comptroller in person.

Section 905. Additional Authorization.

The Mayor, the Comptroller, the Treasurer, the City Clerk and the Deputy City Clerk are each authorized to execute and deliver such other documents and agreements and perform such other acts as may be necessary or desirable in connection with the Series 2003 Bonds, including, but not limited to, the exercise following the delivery date of the Series 2003 Bonds of any power or authority delegated to such official under this 2003 Series Ordinance with respect to the Series 2003 Bonds upon original issuance, but subject to any limitations on or restrictions of such power or authority as set forth in this 2003 Series Ordinance. To the extent that authorization to act under this "2003 Series Ordinance" is granted "to the City", without further specification, that authority may be exercised by an Authorized Officer.

Section 906. Separability.

If any provision of this 2003 Series Ordinance shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of such provision shall not affect any of the remaining provisions of this 2003 Series Ordinance.

Section 907. Inconsistent Provisions.

Subject to the following sentence, all ordinances, resolutions, motions or orders in conflict with this 2003 Series Ordinance are repealed to the extent of such conflict. In case of any conflict between the provisions of this 2003 Series Ordinance and the General Ordinance, the terms of the General Ordinance shall control. No provision of the Municipal Code of Chicago or any violation of its provisions shall impair the validity of the General Ordinance, this 2003 Series Ordinance or the instruments authorized by this 2003 Series Ordinance; *provided*, that the foregoing shall not affect the availability of or limit any other remedy or penalty for any violation of any provision of the Municipal Code of Chicago.

Section 908. Effectiveness; Publication.

Notwithstanding any other provision of Illinois law or the Municipal Code of Chicago to the contrary, this 2003 Series Ordinance and the appropriations made in it shall be in full force and effect immediately upon its adoption and approval by the Mayor. This Section 908 is included by the City in this 2003 Series Ordinance in the exercise of its powers as a home rule unit of local government under Article 7, Section 6 of the Illinois Constitution and pursuant to Section 10 of the Local Government Debt Reform Act of the State of Illinois, as amended.

This 2003 Series Ordinance shall be published in special pamphlet form by the City Clerk, by causing to be printed at least twenty-five (25) copies of this 2003 Series Ordinance, which copies shall be made available in the Office of the City Clerk for public inspection and distribution to members of the public who may wish to avail themselves of a copy of this 2003 Series Ordinance.

The Construction Contract, and each contract between the General Contractor and any subcontractor, shall contain a provision to this effect. An approved Change Order shall not be deemed to imply any obligation on the part of the City to increase the amount of City Funds which the City has pledged pursuant to this Agreement or provide any other additional assistance to the Developer. Notwithstanding anything to the contrary in this Section 3.04, Change Orders costing less than Fifty Thousand Dollars (\$50,000) each, to an aggregate amount of Two Hundred Thousand Dollars (\$200,000), do not require D.P.D.'s prior written approval as set forth in this Section 3.04, but D.P.D. shall be notified in writing of all such Change Orders prior to the implementation thereof and the Developer, in connection with such notice, shall identify to D.P.D. the source of funding therefor.

3.05 D.P.D. Approval.

Any approval granted by D.P.D. of the Scope Drawings, Plans and Specifications and the Change Orders is for the purposes of this Agreement only and does not affect or constitute any approval required by any other City department or pursuant to any City ordinance, code, regulation or any other governmental approval, nor does any approval by D.P.D. pursuant to this Agreement constitute approval of the quality, structural soundness or safety of the Property or the Project.

3.06 Other Approvals.

Construction of the Project and purchase of materials shall not commence until the Developer has obtained all permits and approvals required by state, federal or local statute, ordinance or regulation and the General Contractor has delivered to the Developer performance and payment bonds in the full amount of the construction contract.

The Developer shall promptly deliver to D.P.D. certified copies of any Change Orders with respect to the Project Budget for approval pursuant to Section 3.05 hereof.

3.07 Survey Updates.

Upon D.P.D.'s request, the Developer shall provide three (3) as-built Surveys to D.P.D. reflecting improvements made to the Property.

3.08 Architect's Certificates And Periodic Reports.

The Developer has contracted with Kachoris Altay Architects, Inc. (the "Developer's Architect") to act as its architect on the Project. The Developer's Architect shall provide the following documents to D.P.D.:

(a) at the time of execution of this Agreement, an original executed Architect's Opening Certificate in the form attached hereto as (Sub)Exhibit K-1;

(b) during construction of the Project on a monthly basis, a copy of AIA Form G-703, or a comparable form containing the same information as AIA Form G-703, and inspection reports; and

(c) upon completion of the Project, an original executed Architect's Completion Certificate in the form attached hereto as (Sub)Exhibit K-2.

3.09 Progress Reports And Survey Updates.

The Developer shall provide D.P.D. with written quarterly progress reports detailing the status of the Project, including a revised completion date, if necessary (with any change in completion date being considered a Change Order, requiring D.P.D.'s written approval pursuant to Section 3.05). The Developer shall provide three (3) copies of an updated Survey to D.P.D. upon the request of D.P.D. or any lender providing Lender Financing, reflecting improvements made to the Property.

3.10 Inspecting Agent Or Architect.

The inspecting agent or architect shall perform periodic inspections with respect to the Project, providing certifications with respect thereto to D.P.D., prior to requests for disbursement for costs related to the Project.

Section 4.

Financing For The Project Costs.

4.01 Initial Financing For The Project.

The Developer shall pay for all of the Project Costs using the proceeds of the Lender Financing and Other Funds.

4.02 Reimbursement For T.I.F.-Funded Improvements.

(a) The City hereby agrees to reimburse the Developer from Available Incremental Revenues, if any, for costs of T.I.F.-Funded Improvements that constitute Redevelopment Project Costs. (Sub)Exhibit C sets forth, by line item, the T.I.F.-Funded Improvements for the Project, and the maximum amount of costs that may be paid by or reimbursed from City Funds for each line item therein (subject to Sections 4.02(b), contingent upon receipt by the City of documentation satisfactory in form and substance to D.P.D. evidencing such cost and its eligibility as a Redevelopment Project Cost. City Funds shall not be paid to the Developer hereunder prior to the issuance of a Certificate.

(b) After issuance of a Certificate and prior to each October 1 (or such other date as the parties may agree to) thereafter, throughout the earlier of (i) the Term of the Agreement or (ii) the date that the Developer has been reimbursed in full under this Agreement, the Developer shall provide D.P.D. with a Requisition Form in the form attached as (Sub)Exhibit J, along with the documentation described therein. Requisition for reimbursement of T.I.F.-Funded Improvements shall be made not more than one (1) time per calendar year (or as otherwise permitted by D.P.D.). The Developer shall meet with D.P.D. at the request of D.P.D. to discuss the Requisition Form(s) previously delivered. The City Comptroller shall pay, to the extent of any Available Incremental Revenues then available in the Incremental Taxes Fund, the amount requested in the Requisition Form for T.I.F.-Funded Improvements within sixty (60) days of its receipt.

4.03 Sufficiency Of Available Incremental Revenues For T.I.F.-Funded Improvements.

It is hereby understood and agreed to by the Developer that the City does not make any representations that the amount of the Available Incremental Revenues will be sufficient to pay or reimburse the Developer for any or all of the T.I.F.-Funded Improvement Costs.

4.04 Construction Escrow.

The City and the Developer hereby agree that the City and the Developer's Architect shall be made a party to the Escrow Agreement, for the purpose of obtaining a copy of all documents delivered by the other parties thereto. The Escrow Agreement shall provide that the City shall receive copies of all notices, certifications and disbursements under the construction loan agreement between the Developer and its construction lender(s). In case of any conflict between the terms of this Agreement and the Escrow Agreement, the terms of this Agreement shall control.

4.05 Sources Of City Funds.

Subject to the terms and conditions of this Agreement, including but not limited to this Section 4.02 and Section 6 hereof, the City hereby agrees to provide City funds from the sources and in the amounts described directly below (the "City Funds") to pay for or reimburse the Developer for the costs of the T.I.F.-Funded Improvements:

Source Of City Funds	Maximum Amount
Available Incremental Revenues	\$7,197,700

The Developer acknowledges and agrees that the City has committed to reserve only ninety-eight percent (98%) of the Incremental Taxes attributable to the tax parcels comprising the Property and that the Developer has no right or claim to, and the City shall be free to otherwise reserve, pledge and commit to other redevelopment projects or financing, the Incremental Taxes attributable to the other tax parcels in the Redevelopment Area. The City acknowledges and agrees that the Developer shall have a first priority claim to the Available Incremental Revenues committed and reserved under this Section 4.05.

Section 5.

General Provisions.

5.01 D.P.D. Approval.

Any approval granted by D.P.D. pursuant to this Agreement is for the purposes of this Agreement only and does not affect or constitute any approval required by any

other department of the City or pursuant to any City ordinance, code, regulation or any other governmental approval, nor does any approval by D.P.D. pursuant to this Agreement constitute approval of the quality, structural soundness or safety of the Property or the Project.

5.02 Other Approvals.

Any D.P.D. approval under this Agreement shall have no effect upon, nor shall it operate as a waiver of, the Developer's obligations to comply with the provisions of Sections 3.02 and 3.04 hereof.

5.03 Barricades.

Prior to commencing any construction requiring barricades, the Developer shall install a construction barricade of a type and appearance satisfactory to the City and constructed in compliance with all applicable federal, state or City laws, ordinances and regulations. 5.05 Utility Connections.

The Developer may connect all on-site water, sanitary, storm and sewer lines constructed on the Property to the City utility lines existing on or near the perimeter of the Property, provided the Developer first complies with all the City requirements governing such connections, including the payment of customary fees and costs related thereto, subject to any fee and/or cost waivers provided to the Developer by the City, if any.

5.06 Permit Fees.

In connection with the Project, the Developer shall be obligated to pay only those

building, permit, engineering, tap on and inspection fees that are assessed on a uniform basis throughout the City and are of general applicability to other property within the City, subject to any fee waivers provided to the Developer by the City, if any.

6.07 Other Governmental Approvals.

The Developer shall have secured all other necessary approvals and permits required by any state, federal, or local statute, ordinance or regulation for construction of the Project and shall submit evidence thereof to D.P.D.

6.08 Financing.

The Developer shall have furnished proof acceptable to D.P.D., in its sole discretion, that it has equity and financing commitments for the financing described in (Sub)Exhibit F attached hereto and otherwise sufficient to complete the Project and satisfy its obligations under this Agreement. The Developer has furnished proof as of the Closing Date that the proceeds of the Lender Financing are available to be drawn upon by the Developer as needed and are sufficient (along with the Equity) and Other Funds to complete the Project. Any liens against the Property in existence at the Closing Date have been subordinated to certain encumbrances of the City set forth herein pursuant to a Subordination Agreement, in a form acceptable to the City, executed on or prior to the Closing Date, which is to be recorded, at the expense of the Developer, with the Office of the Recorder of Deeds of Cook County.

6.09 Evidence Of Clean Title.

The Developer shall have provided the City with current searches under its name and the names of its partners as follows:

The Developer shall have provided such financial statements as D.P.D. may require, in its sole discretion.

6.11 Environmental Matters.

The Developer shall have provided to the City a Phase I environmental site assessment for each site comprising the Property, which assessments shall not indicate any unsatisfactory environmental conditions, as determined by D.P.D., in its sole discretion.

The Developer has provided to the City an Economic Disclosure Statement in the City's current form dated as of the Closing Date.

Section 7.

Agreements With Contractors.

7.01 Bid Requirement For General Contractor And Subcontractors.

(a) Except as set forth in Section 7.01(b) below, prior to entering into an agreement with a General Contractor or any subcontractor for construction of the Project, the Developer shall solicit, or shall cause the General Contractor to solicit, bids from qualified contractors eligible to do business with the City of Chicago, and shall submit all bids received to D.P.D. for its inspection and written approval. (i) For the T.I.F.-Funded Improvements, the Developer shall select the General Contractor (or shall cause the General Contractor to select the subcontractor) submitting the lowest responsible bid who can complete the Project in a timely manner. If the Developer selects a General Contractor (or the General Contractor selects any subcontractor) submitting other than the lowest responsible bid for the T.I.F.-Funded Improvements, the difference between the lowest responsible bid and the bid selected may not be paid out of City Funds. (ii) For Project work other than the T.I.F.-Funded Improvements, if the Developer selects a General Contractor (or the General Contractor selects any subcontractor) who has not submitted the lowest responsible bid, the difference between the lowest responsible bid and the higher bid selected shall be subtracted from the actual total Project costs for purposes of the calculation of the amount of City Funds to be contributed to the Project pursuant to Section 4.02(b) hereof. The Developer shall submit copies of the Construction Contract to D.P.D. in accordance with Section 7.02 below. Photocopies of all subcontracts entered or to be entered into in connection with the T.I.F.-Funded Improvements shall be provided to D.P.D. within five (5) business days of the execution thereof. The Developer shall ensure that the General Contractor shall not (and shall cause the General Contractor to ensure that the subcontractors shall not) begin work on the Project until the Plans and Specifications have been approved by D.P.D. and all requisite permits have been obtained.

(b) If, prior to entering into an agreement with a General Contractor for construction of the Project, the Developer does not solicit bids pursuant to Section 7.01(a) hereof, then the fee of the General Contractor proposed to be paid out of City Funds shall not exceed ten percent (10%) of the total amount of the Construction Contract. Except as explicitly stated in this paragraph, all other provisions of Section 7.01(a) shall apply, including but not limited to the requirement that the General Contractor shall solicit competitive bids from all subcontractors.

7.02 Construction Contract.

Prior to the execution thereof, the Developer shall deliver to D.P.D. a copy of the proposed Construction Contract with the General Contractor selected to handle the Project in accordance with Section 7.01 above, for D.P.D.'s prior written approval, which shall be granted or denied within ten (10) business days after delivery thereof. Within ten (10) business days after execution of such contract by the Developer, the General Contractor and any other parties thereto, the Developer shall deliver to D.P.D. and Corporation Counsel a certified copy of such contract together with any modifications, amendments or supplements thereto.

7.03 City Resident Employment Requirement.

The Developer agrees for itself and its successors and assigns, and shall contractually obligate its or their various contractors, subcontractors or any Affiliate of the Developer operating on the Property (individually an "Employer" and collectively, "Employers"), as applicable, to agree, that during the construction of the Project they shall comply with the minimum percentage of total worker hours performed by actual residents of the City of Chicago specified in Section 2-92-330 of the Municipal Code of Chicago (at least fifty percent (50%) of the total worker hours worked by persons on the site of the construction of the Project shall be performed by actual residents of the City of Chicago); provided, however, that in addition to complying with this percentage, the Developer and the other Employers shall be required to make good faith efforts to utilize qualified residents of the City of Chicago in both skilled and unskilled labor positions.

The Developer and the other Employers may request a reduction or waiver of this minimum percentage level of total worker hours performed by actual residents of the City of Chicago as provided for in Section 2-92-330 of the Municipal Code of Chicago in accordance with standards and procedures developed by the Purchasing Agent of the City of Chicago.

"Actual residents of the City of Chicago" shall mean persons domiciled within the City of Chicago. The domicile is an individual's one and only true, fixed and permanent home and principal establishment.

The Developer and the other Employers shall provide for the maintenance of adequate employee residency records to ensure that actual Chicago residents are employed on the Project. The Developer and the other Employers shall maintain copies of personal documents supportive of every Chicago employee's actual record of residence.

Weekly certified payroll reports (Unites States Department of Labor Form WH-347 or equivalent) shall be submitted to the Commissioner of D.P.D. in triplicate, which shall identify clearly the actual residence of every employee on each submitted certified payroll. The first time that an employee's name appears on a payroll, the date that the company hired the employee should be written in after the employee's name.

The Developer and the other Employers shall provide full access to their employment records to the Purchasing Agent, the Commissioner of D.P.D., the Superintendent of the Chicago Police Department, the Inspector General, or any duly authorized representative thereof. The Developer and the other Employers shall maintain all relevant personnel data and records for a period of at least three (3) years after final acceptance of the work constituting the Project as evidenced by the (final) Certificate.

At the direction of D.P.D., affidavits and other supporting documentation will be required of the Developer and the other Employers to verify or clarify an employee's actual address when in doubt or lack of clarity has arisen.

Good faith efforts on the part of the Developer and the other Employers to provide utilization of actual Chicago residents (but not sufficient for the granting of a waiver request as provided for in the standards and procedures developed by the Purchasing Agent) shall not suffice to replace the actual, verified achievement of the requirements of this section concerning the worker hours performed by actual Chicago residents.

When work at the Project is completed, in the event that the City has determined that the Developer and the other Employers failed to ensure the fulfillment of the requirement of this section concerning the worker hours performed by actual Chicago residents or has failed to report in the manner as indicated above, the City will thereby be damaged in the failure to provide the benefit of demonstrable employment to Chicago to the degree stipulated in this section. Therefore, in such case of non-compliance it is agreed that one-twentieth of one percent (.05%) of the aggregate hard construction costs set forth in the Project Budget (as the same shall be evidenced by approved contract value for the actual contracts), shall be surrendered by the Developer and/or the other Employers to the City in payment for each percentage of shortfall toward the stipulated residency requirement. Failure to report the residency of employees entirely and correctly shall result in the surrender of the entire liquidated damages as if no Chicago residents were employed in either of the categories. The willful falsification of statements and the

certification of payroll data may subject the Developer and/or the other Employers or employee to prosecution. Any retainage to cover contract performance that may become due to the Developer and the other Employers pursuant to Section 2-92-250 of the Municipal Code of Chicago may be withheld by the City pending the Purchasing Agent's determination whether the Developer and the other Employers must surrender damages as provided in this paragraph. Any monetary obligations of the Developer hereunder shall be satisfied from distributable Surplus Cash only. In addition, the Developer shall make good faith efforts that all other contracts entered into in connection with the Project for work done, services provided or materials supplied shall be let to persons or entities whose main office and place of business are located within the City, subject to applicable H.U.D. restrictions.

Nothing herein provided shall be construed to be a limitation upon the "Notice of Affirmative Action to Ensure Equal Employment Opportunity, Executive Order 11246" and "Standard Federal Equal Employment Opportunity, Executive Order 11246", or other affirmative action required for equal opportunity under the provisions of this Agreement.

The Developer shall cause or require the provisions of this Section 7.01 to be included in all construction contracts and subcontracts related to the Project.

7.04 Performance And Payment Bonds.

Prior to the commencement of any portion of the Project which includes work on the public way, the Developer shall require that the General Contractor be bonded for its payment by sureties having an AA rating or better using a bond in the form attached as (Sub)Exhibit M hereto. The City shall be named as obligee or co-obligee on any such bonds.

7.05 Maintaining Records.

On a monthly basis until completion of construction of the Project, the Developer shall provide to D.P.D. reports in a form satisfactory to D.P.D. evidencing its compliance with Section 7.01.

7.06 Employment Opportunity.

The Developer shall contractually obligate and cause the General Contractor and each subcontractor to agree to the provisions of Section 11 hereof.

7.07 Other Provisions.

In addition to the requirements of this Section 7, the Construction Contract and each contract with any subcontractor shall contain provisions required pursuant to Section 3.04 (Change Orders), Section 18.22 (Prevailing Wage), Section 11(e) (Employment Opportunity), Section 7.03 (City Resident Employment Requirement), Section 11 (M.B.E./W.B.E. Requirements, as applicable), Section 13 (Insurance) and Section 15.01 (Books and Records) hereof. Photocopies of all contracts or subcontracts entered into by the Developer in connection with the Project shall be made available to D.P.D. upon request. The Developer has the right to delete proprietary information from such contracts or subcontracts, provided, however, that upon D.P.D.'s request, the Developer shall make available such proprietary information for review by any authorized City representative.

Section 8.

Completion Of Construction.

8.01 Certificate Of Completion.

Upon completion of the construction of the Project and related redevelopment activities constituting the Project in accordance with the terms of this Agreement, and upon the Developer's written request, D.P.D. shall issue to the Developer a Certificate in recordable form certifying that the Developer has fulfilled its obligation to construct the Project in accordance with the terms of this Agreement. D.P.D. shall respond to the Developer's written request for a Certificate by issuing either a Certificate or a written statement detailing the ways in which the Project does not conform to this Agreement or has not been satisfactorily completed, and the measures which must be taken by the Developer in order to obtain the Certificate. The Developer may resubmit a written request for a Certificate upon completion of such measures.

8.02 Effect Of Issuance Of Certificate; Continuing Obligations.

The Certificate relates only to the construction of the Project and related redevelopment activities, and upon its issuance, the City will certify that the terms of the Agreement specifically related to the Developer's obligation to complete such activities have been satisfied. After the issuance of a Certificate, however, all executory terms and conditions of this Agreement and all representations and covenants contained herein will continue to remain in full force and effect throughout the Term of the Agreement as to the parties described in the following paragraph, and the issuance of the Certificate shall not be construed as a waiver by

the City of any of its rights and remedies pursuant to such executory terms.

Those covenants specifically described at Section 9.01(n) and Section 9.02 as covenants that run with the land are the only covenants in this Agreement intended to be binding upon any transferee of the Property (including an assignee as described in the following sentence) throughout the Term of the Agreement notwithstanding the issuance of a Certificate. The other executory terms of this Agreement that remain after the issuance of a Certificate shall be binding only upon the Developer or a permitted assignee of the Developer who, pursuant to Section 18.14 of this Agreement, has contracted to take an assignment of the Developer's rights under this Agreement and assume the Developer's liabilities hereunder.

8.03 Failure To Complete.

If the Developer fails to complete construction of the Project in accordance with the terms of the Agreement, then the City shall have, but shall not be limited to, any of the following rights and remedies:

(a) subject to the provisions of Section 16.02, the right to terminate this Agreement and cease all disbursement of City Funds not yet disbursed pursuant hereto;

(b) the right (but not the obligation) to complete the Project and to pay for its costs out of City Funds or other City monies. In the event that the aggregate cost of completing the Project exceeds the amount of City Funds available, the Developer shall reimburse the City for all reasonable costs and expenses incurred by the City in completing such work in excess of the available City Funds.

8.04 Notice Of Expiration Of Term Of Agreement.

Upon the expiration of the Term of the Agreement, D.P.D. shall provide the Developer, at the Developer's written request, with a written notice in recordable form stating that the Term of the Agreement has expired.

Section 9.

Covenants/Representations/Warranties Of Developer.

The Developer represents, warrants and covenants to the City as follows:

9.01 General.

The Developer represents, warrants and covenants that:

(a) the Developer is an Illinois limited partnership duly organized, validly existing, qualified to do business in Illinois, and licensed to do business in every other state where, due to the nature of its activities or properties, such qualification or license is required;

(b) the Developer has the right, power and authority to enter into, execute, deliver and perform this Agreement;

(c) the execution, delivery and performance by the Developer of this Agreement has been duly authorized by all necessary partnership action and will not violate its partnership Agreement as amended and supplemented, any applicable provision of law, or constitute a material breach of, default under or require any consent under, any Agreement, instrument or document to which the Developer is now a party or by which the Developer is now or may become bound;

(d) unless otherwise permitted pursuant to the terms of this Agreement, including Section 18.14 hereof, the Developer shall acquire and shall maintain good, indefeasible and merchantable fee simple title to the Property, subject to those matters shown in the Title Policy and to such other matters as to which D.P.D. may consent in writing. The Developer may make application to H.U.D. for a Transfer of Physical Assets in accordance with paragraph R-9 of the H.U.D.-Required Provisions Rider attached hereto;

(f) the Developer shall obtain and shall maintain all government permits, certificates and consents (including, without limitation, appropriate environmental approvals) necessary to construct, complete and operate its business at the Property;

(g) the Developer is not aware of any default with respect to any indenture, loan Agreement, mortgage, deed, note or any other Agreement or instrument related to the borrowing of money to which the Developer is a party or by which the Developer is bound which would materially affect its ability to perform hereunder;

(h) the Financial Statements when submitted will be, complete and correct in all material respects and will accurately present the assets, liabilities, results of operations and financial condition of the Developer; and

(i) the Developer is satisfied that it has taken any measures required to be taken to bring the Property and the Project into compliance with Environmental Laws and that the Property is suitable for its intended use;

(j) the Developer is now and for the Term of the Agreement shall remain solvent and able to pay its debts as they mature;

(k) prior to the issuance of a Certificate, the Developer shall not do any of the following without the prior written consent of D.P.D.: (1) be a party to any merger, liquidation or consolidation; (2) sell, transfer, convey, lease or otherwise dispose of all or substantially all of its assets or any portion of the Property (including but not limited to any fixtures or equipment now or hereafter attached thereto); (3) enter into any transaction outside the ordinary course of the Developer's business; (4) assume, guarantee, endorse or otherwise become liable in connection with the obligations of any other person or entity; or (5) enter into any transaction that would cause a material and detrimental change to the Developer's financial condition;

(l) the Developer has not incurred, and, prior to the issuance of a Certificate, shall not, without the prior written consent of the Commissioner of D.P.D., allow the existence of any liens against the Property (or improvements thereon) other than the Permitted Liens; or incur any indebtedness, secured or to be secured by the Property (or improvements thereon) or any fixtures now or hereafter attached thereto, except Lender Financing disclosed in the Project Budget;

(m) has not made or caused to be made, directly or indirectly, any payment, gratuity or offer of employment in connection with the Agreement or any contract paid from the City treasury or pursuant to City ordinance, for services to any City agency ("City Contract") as an inducement for the City to enter into the Agreement or any City Contract with the Developer in violation of Chapter 2-156-120 of the Municipal Code of the City;

(n) the Developer shall not convert the Project to a condominium or cooperative form of ownership during the Term of the Agreement but shall at all time operate the Project as a residential rental property in accordance with the Affordability Covenants.

9.02 Covenant To Redevelop.

The Developer shall redevelop the Property substantially in accordance with the Agreement and all (sub)exhibits attached hereto, the T.I.F. Ordinances, the Plans and Specifications, the Project Budget and all amendments thereto, and all federal, state and local laws, ordinances, rules, regulations, executive orders and

codes applicable to the Project, the Property and/or the Developer, including specifically, but, without limitation, the Affordability Covenants. The covenants set forth in this Section 9.02 shall run with the land and be binding upon any transferee of the Property.

9.03 Redevelopment Plan.

The Developer represents that the Project shall be in compliance with all of the terms of the Redevelopment Plan.

9.04 Use Of Available Incremental Revenues.

Available Incremental Revenues disbursed to, or on behalf of, the Developer shall be used solely to pay or reimburse the Developer for the T.I.F.-Funded Improvements as provided in this Agreement.

9.05 Other Bonds.

The Developer shall, at the request of the City, agree to any reasonable amendments to this Agreement that are necessary or desirable in order for the City to issue (in its sole discretion) any bonds in connection with the Redevelopment Area, the proceeds of which may be used to reimburse the City for expenditures made in connection with the T.I.F.-Funded Improvements (the "Bonds"); provided, however, that any such amendments shall not have a material adverse effect on the Developer or the Project. The Developer shall, at the Developer's expense, cooperate and provide reasonable assistance in connection with the marketing of any such Bonds, including but not limited to providing written descriptions of the Project, making representations, providing information regarding its financial condition and assisting the City in preparing an offering statement with respect thereto. Developer shall not have any liability to the City with respect to any disclosures made in connection with any such issuance of Bonds that are actionable under applicable securities laws unless such disclosures are based on factual information provided by the Developer that is determined to be false or misleading.

9.06 Arms-Length Transactions.

Unless D.P.D. shall have given its prior written consent with respect thereto, no Affiliate of the Developer may receive any part of the City Funds, directly or indirectly, through reimbursement of the Developer pursuant to Section 4 or otherwise, in payment for work done, services provided or materials supplied in connection with any T.I.F.-Funded Improvements. The Developer shall provide

information with respect to any entity to receive the City Funds (by reimbursement or otherwise), upon D.P.D.'s request, prior to any such disbursement.

9.07 Conflict Of Interest.

The Developer represents and warrants that no member, official or employee of the City, or member of any commission or committee exercising authority over the Project or the Redevelopment Plan, or any consultant hired by the City in connection with the Project, owns or controls (or has owned or controlled) any interest, direct or indirect, in the Developer's business or the Property.

9.08 Disclosure Of Interest.

The Developer's counsel has no direct or indirect financial ownership interest in the Developer, the Property or any other aspect of the Project.

9.09 Financial Statements.

The Developer shall maintain and provide to D.P.D. its Financial Statements at the earliest practicable date but no later than one hundred twenty (120) days following the end of the Developer's fiscal year, each year for the Term of the Agreement.

9.10 Insurance.

The Developer, at its own expense, shall comply with all provisions of Section 12 hereof.

9.11 Non-Governmental Charges.

(a) Payment Of Non-Governmental Charges. Except for the permitted liens, the Developer agrees to pay or cause to be paid when due any Non-Governmental Charge assessed or imposed upon the Project, the Property or any fixtures that are or may become attached thereto, which creates, may create, or appears to create a lien upon all or any portion of the Property or Project; provided however, that if such Non-Governmental Charge may be paid in installments, the Developer may pay the same together with any accrued interest thereon in installments as they become due and before any fine, penalty, interest or cost may be added thereto for nonpayment. The Developer shall furnish to D.P.D., within thirty (30) days of

D.P.D.'s request, official receipts from the appropriate entity, or other proof satisfactory to D.P.D., evidencing payment of the Non-Governmental Charge in question.

(b) Right To Contest. The Developer has the right, before any delinquency occurs:

(i) to contest or object in good faith to the amount or validity of any Non-Governmental Charge by appropriate legal proceedings properly and diligently instituted and prosecuted, in such manner as shall stay the collection of the contested Non-Governmental Charge, prevent the imposition of a lien or remove such lien, or prevent the sale or forfeiture of the Property (so long as no such contest or objection shall be deemed or construed to relieve, modify or extend the Developer's covenants to pay any such Non-Governmental Charge at the time and in the manner provided in this Section 9.11); or

(ii) at D.P.D.'s sole option, to furnish a good and sufficient bond or other security satisfactory to D.P.D. in such form and amounts as D.P.D. shall require, or a good and sufficient undertaking as may be required or permitted by law to accomplish a stay of any such sale or forfeiture of the Property or any portion thereof or any fixtures that are or may be attached thereto, during the pendency of such contest, adequate to pay fully any such contested Non-Governmental Charge and all interest and penalties upon the adverse determination of such contest.

9.12 Developer's Liabilities.

The Developer shall not enter into any transaction that would materially and adversely affect its ability to perform its obligations hereunder. The Developer shall immediately notify D.P.D. of any and all events or actions which may materially affect the Developer's ability to perform its obligations under this agreement.

9.13 Compliance With Laws.

To the best of the Developer's knowledge, after diligent inquiry, the Property and the Project are and shall be in compliance with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, executive orders and codes. Upon the City's request, the Developer shall provide copies of any documentary evidence of compliance of such laws which may exist, such as, by way of illustration and not limitation, permits and licenses.

9.14 Recording And Filing.

The Developer shall cause this Agreement, certain (sub)exhibits (as specified by Corporation Counsel), all amendments and supplements hereto to be recorded and filed on the date hereof in the conveyance and real property records of the county in which the Project is located. This Agreement shall be recorded prior to any mortgage made in connection with any Lender Financing. The Developer shall pay all fees and charges incurred in connection with any such recording. Upon recording, the Developer shall immediately transmit to the City an executed original of this Agreement showing the date and recording number of record.

9.15 Real Estate Provisions.

(a) Governmental Charges. The Developer agrees to pay or cause to be paid when due all Governmental Charges (as defined below) which are assessed or imposed upon the Developer, the Property or the Project, or become due and payable, and which create, may create, or appear to create a lien upon the Developer or all or any portion of the Property or the Project. "Governmental Charge" shall mean all federal, state, county, city or other governmental (or any instrumentality, division, agency, body or department thereof) taxes, levies, assessments, charges, liens, claims or encumbrances relating to the Developer, the Property or the Project, including but not limited to real estate taxes. The Developer shall have the right before any delinquency occurs to contest or object in good faith to the amount or validity of any Governmental Charge by appropriate legal proceedings properly and diligently instituted and prosecuted in such manner as shall stay the collection of the contested Governmental Charge and prevent the imposition of a lien or the sale or forfeiture of the Property. The Developer shall have the right to challenge real estate taxes applicable to the Property provided, that such real estate taxes must be paid in full when due and may be disputed only after such payment is made. No such contest or objection shall be deemed or construed in any way as relieving, modifying or extending the Developer's covenants to pay any such Governmental Charge at the time and in the manner provided in this Agreement unless the Developer has given prior written notice to D.P.D. of the Developer's intent to contest or object to a Governmental Charge and, unless, at D.P.D.'s sole option, (i) the Developer shall demonstrate to D.P.D.'s satisfaction that legal proceedings instituted by the Developer contesting or objecting to a Governmental Charge shall conclusively operate to prevent a lien against or the sale or forfeiture of all or any part of the Property to satisfy such Governmental Charge prior to final determination of such proceedings and/or (ii) the Developer shall furnish a good and sufficient bond or other security satisfactory to D.P.D. in such form and amounts as D.P.D. shall require, or a good and sufficient undertaking as may be required or permitted by law to accomplish a stay of any such sale or forfeiture of the Property during the pendency of such contest, adequate to pay fully any such contested Governmental Charge and all interest and penalties upon the adverse determination of such

contest. If the Developer fails to pay any Governmental Charge or to obtain discharge of the same, the Developer shall advise D.P.D. thereof in writing, at which time D.P.D. may, but shall not be obligated to, and without waiving or releasing any obligation or liability of the Developer under this Agreement, in D.P.D.'s sole discretion, make such payment, or any part thereof, or obtain such discharge and take any other action with respect thereto which D.P.D. deems advisable. All sums so paid by D.P.D., if any, and any expenses, if any, including reasonable attorneys' fees, court costs, expenses and other charges relating thereto, shall be promptly paid to D.P.D. by the Developer. Notwithstanding anything contained herein to the contrary, this paragraph shall not be construed to obligate City to pay any such Governmental Charge. Additionally, if the Developer fails to pay any Governmental Charge, City, in its sole discretion, may require the Developer to submit to City audited Financial Statements at the Developer's own expense. Developer's right to challenge real estate taxes applicable to the Property is limited as provided for in Section 9.15(b) below.

(b) Real Estate Taxes.

(i) Acknowledgment Of Real Estate Taxes. The Developer agrees that (A) for the purpose of this Agreement, the total projected minimum equalized assessed value of the Property ("Minimum Equalized Assessed Value") anticipated to be necessary to generate Incremental Taxes sufficient to pay the T.I.F.-Funded Improvements as shown on (Sub)Exhibit L attached hereto for the years noted on (Sub)Exhibit L and (B) the real estate taxes anticipated to be generated and derived from the respective portions of the Property and the Project for the years shown are fairly and accurately indicated in (Sub)Exhibit L.

(ii) Real Estate Tax Exemption. With respect to the Property or the Project, neither the Developer nor any agent, representative, lessee, tenant, assignee, transferee or successor in interest to the Developer shall, during the Term of the Agreement, seek or authorize any exemption (as such term is used and defined in the Illinois Constitution, Article IX, Section 6 (1970)) for any year that this Agreement is in effect.

(iii) No Reduction In Equalized Assessed Value. Neither the Developer nor any agent, representative, lessee, tenant, assignee, transferee or successor in interest to the Developer shall, during the Term of the Agreement, directly or indirectly, initiate, seek or apply for proceedings in order to lower the equalized assessed value of all or any portion of the Property or the Project below the amount of the Minimum Equalized Assessed Value as shown in (Sub)Exhibit L.

(iv) No Objections. Neither the Developer nor any agent, representative, lessee, tenant, assignee, transferee or successor in interest to the Developer, shall object to or in any way seek to interfere with, on procedural or any other grounds, the filing of any Underassessment Complaint or subsequent proceedings related thereto with the Cook County Assessor or with the Cook

County Board of Appeals, by either City or by any taxpayer. The term "Underassessment Complaint" as used in this Agreement shall mean a complaint seeking to increase the assessed value of the Project to an amount not greater than the Minimum Equalized Assessed Value.

(c) **Covenants Running With The Land.** The parties agree that the restrictions contained in this Section 9.12 are covenants running with the land and this Agreement shall be recorded by Developer as a memorandum thereof, at the Developer's expense, with the Cook County Recorder of Deeds on the date of execution of the Agreement. These restrictions shall be binding upon the Developer and its agents, representatives, lessees, successors, assigns and transferee from and after the date hereof, provided however, that the covenants shall be released when the Redevelopment Area is no longer in effect. The Developer agrees that any sale, conveyance or transfer of title to all or any portion of the Property or Redevelopment Area from and after the date hereof shall be made subject to such covenants and restrictions.

9.16 Survival Of Covenants.

All warranties, representations, covenants and Agreements of the Developer contained in this Section 9 or elsewhere in this Agreement shall be true, accurate and complete at the time of the Developer's execution of this Agreement, and shall survive the execution, delivery and acceptance hereof by the parties hereto and be in effect throughout the Term of the Agreement.

Section 10.

Covenants/Representations/Warranties Of City.

10.01 General Covenants.

The City represents that it has the authority as a home rule unit of local government to execute and deliver this Agreement and to perform its obligations hereunder, and covenants that: (a) the Incremental Taxes Fund will be established, (b) the Incremental Taxes will be deposited therein and (c) such funds shall remain available to pay the City's obligations under Sections 4.02 and 4.04 as the same become due and continue to be payable from Available Incremental Revenues under the Act. The City agrees not to amend the Redevelopment Plan so as to materially impair its ability to pay in full any amounts due from the City under this Agreement without the written consent of the Developer and the Lender.

10.02 Survival Of Covenants.

All warranties, representations and covenants of the City contained in this Section 10 or elsewhere in this Agreement shall be true, accurate and complete at the time of the City's execution of this Agreement, and shall survive the execution, delivery and acceptance hereof by the parties hereto and be in effect throughout the Term of the Agreement.

Section 11.

Employment Opportunity.

The Developer and its successors and assigns hereby agree, and shall contractually obligate its or their contractors or any Affiliate of the Developer operating on the Property (individually an "Employer" and collectively, "Employers") to agree, that for the Term of the Agreement with respect to the Developer and during the period of any other such party's provision of services hereunder or occupation of the Property:

(a) No Employer shall discriminate against any employee or applicant for employment on the basis of race, color, sex, age, religion, mental or physical disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status or source of income, as defined in the City of Chicago Human Rights Ordinance adopted December 21, 1988, Municipal Code of Chicago, Chapter 2-160, Section 2-160-010, et seq., as amended from time to time (the "Human Rights Ordinance"). Each Employer will take affirmative action to insure that applicants are employed and employees are treated during employment without regard to their race, color, religion, sex, national origin, ancestry, age, mental or physical disability, sexual orientation, marital status, parental status, military discharge status or source of income. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation and selection for training, including apprenticeship. Each Employer agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the City setting forth the provisions of this nondiscrimination clause.

(b) All solicitation or advertisement for employees placed by or on behalf of any Employer shall state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, ancestry, age, mental or physical disability, sexual orientation, marital status, parental status, military discharge status or source of income.

(c) Each Employer shall comply with federal, state and local equal employment and affirmative action statutes, rules and regulations, including but not limited to the Human Rights Ordinance and the Illinois Human Rights Act, 775 ILCS 5/1-101, et seq. (1992), and any subsequent amendments and regulations promulgated pursuant thereto.

(d) Consistent with the findings which support the Minority-Owned and Women-Owned Business Enterprise Procurement Program (the "M.B.E./W.B.E. Program"), Section 2-92-420, et seq., Municipal Code of Chicago, and in reliance upon the provisions of the M.B.E./W.B.E. Program to the extent contained in, and as qualified by, the provisions of this Section 11, during the course of construction of the Project, at least the following percentages of M.B.E./W.B.E. Budget shall be expended for contract participation by minority-owned businesses ("M.B.E.s") and by women-owned businesses ("W.B.E.s"):

- a. at least twenty-five percent (25%) by M.B.E.s;
- b. at least five percent (5%) by W.B.E.s.

Consistent with Section 2-92-440, Municipal Code of Chicago, the Developer's M.B.E./W.B.E. commitment may be achieved in part by the Developer's status as an M.B.E. or W.B.E. (but only to the extent of any actual work performed on the Project by the Developer) or by a joint venture with one (1) or more M.B.E.s or W.B.E.s (but only to the extent of the lesser of (i) the M.B.E. or W.B.E. participation in such joint venture or (ii) the amount of any actual work performed on the Project by the M.B.E. or W.B.E.), by the Developer utilizing a M.B.E. or a W.B.E. as the General Contractor (but only to the extent of any actual work performed on the Project by the General Contractor), by subcontracting or causing the General Contractor to subcontract a portion of the Project to one (1) or more M.B.E.s or W.B.E.s, or by the purchase of materials used in the Project from one (1) or more M.B.E.s or W.B.E.s. or by any combination of the foregoing. Those entities which constitute both a M.B.E. and a W.B.E. shall not be credited more than once with regard to the Developer's M.B.E./W.B.E. commitment as described in this Section 11.

The Developer shall deliver quarterly reports to D.P.D. during the Project describing its efforts to achieve compliance with this M.B.E./W.B.E. commitment. Such reports shall include, inter alia, the name and business address of each M.B.E. and W.B.E. solicited by the Developer or the General Contractor to work on the Project, and the responses received from such solicitation, the name and business address of each M.B.E. or W.B.E. actually involved in the Project, a description of the work performed or products or services supplied, the date and amount of such work, product or service, and such other information as may assist D.P.D. in determining the Developer's compliance with this M.B.E./W.B.E. commitment. The Developer shall maintain records of all relevant data with

respect to the utilization of M.B.E.s and W.B.E.s in connection with the Project for at least five (5) years after completion of the Project, and D.P.D. shall have access to all such records maintained by the Developer, on five (5) Business Days notice, to allow the City to review the Developer's compliance with its commitment to M.B.E./W.B.E. participation and the status of any M.B.E. or W.B.E. performing any portion of the Project.

Upon the disqualification of any M.B.E. or W.B.E. General Contractor or Subcontractor, if such status was misrepresented by the disqualified party, the Developer shall be obligated to discharge or cause to be discharged the disqualified General Contractor or Subcontractor, and, if possible, identify and engage a qualified M.B.E. or W.B.E. as a replacement. For purposes of this subsection (e), the disqualification procedures are further described in Section 2-92-540, Municipal Code of Chicago.

Any reduction or waiver of the Developer's M.B.E./W.B.E. commitment as described in this Section 11 shall be undertaken in accordance with Section 2-92-450, Municipal Code of Chicago.

Prior to the commencement of the Project, the Developer shall be required to meet with the monitoring staff of D.P.D. with regard to the Developer's compliance with its obligations under this Section 11. The General Contractor and all major Subcontractors shall be required to attend this pre-construction meeting. During said meeting, the Developer shall demonstrate to D.P.D. its plan to achieve its obligations under this Section 11, the sufficiency of which shall be approved by D.P.D. During the Project, the Developer shall submit the documentation required by this Section 11 to the monitoring staff of D.P.D.. Failure to submit such documentation on a timely basis, or a determination by D.P.D., upon analysis of the documentation, that the Developer is not complying with its obligations under this Section 11, shall, upon the delivery of written notice to the Developer, be deemed an Event of Default. Upon the occurrence of any such Event of Default, in addition to any other remedies provided hereunder, the City may: (1) issue a written demand to the Developer to halt the Project, (2) withhold any further payments to, or on behalf of, the Developer, or (3) seek any other remedies against the Developer available at law or in equity.

(e) The Developer will include the foregoing provisions in every contract entered into in connection with the Project and every agreement with any Affiliate operating on the Property so that such provision will be binding upon each contractor or Affiliate, as the case may be.

*Section 12.**Environmental Matters.*

The Developer hereby represents and warrants to the City that the Developer has conducted environmental studies sufficient to conclude that the Project may be constructed, completed and operated in accordance with all Environmental Laws and this Agreement and all (sub)exhibits attached hereto, and the Redevelopment Plan.

Without limiting any other provisions hereof, Developer agrees to indemnify, defend and hold City harmless from and against any and all losses, liabilities, damages, injuries, costs, expenses or claims of any kind whatsoever including, without limitation, any losses, liabilities, damages, injuries, costs, expenses or claims asserted or arising under any Environmental Laws incurred, suffered by or asserted against City as a direct or indirect result of any of the following, regardless of whether or not caused by, or within the control of Developer: (i) the presence of any Hazardous Material on or under, or the escape, seepage, leakage, spillage, emission, discharge or release of any Hazardous Material from (A) all or any portion of the Property or (B) any other real property in which Developer, or any person directly or indirectly controlling, controlled by or under common control with Developer, holds any estate or interest whatsoever (including, without limitation, any property owned by a land trust in which the beneficial interest is owned, in whole or in part, by Developer), or (ii) any liens against the Property permitted or imposed by any Environmental Laws, or any actual or asserted liability or obligation of City or Developer or any of its Affiliates under any Environmental Laws relating to the Property. Any monetary obligations of the Developer hereunder shall be satisfied from distributable Surplus Cash only.

The Developer shall procure and maintain, or cause to be maintained, at its sole cost and expense, at all times throughout the Term of the Agreement, and until each and every obligation of the Developer contained in the Agreement has been fully performed, the types of insurance specified below, with insurance companies authorized to do business in the State of Illinois covering all operations under this Agreement, whether performed by the Developer, any contractor or subcontractor:

If the Developer fails to obtain or maintain any of the insurance policies required under this Agreement or to pay any insurance policies required under this Agreement, or to pay any premium in whole or in part when due, the City may (without waiving or releasing any obligation or Event of Default by the Developer hereunder) obtain and maintain such insurance policies and take any other action which the City deems advisable to protect its interest in the Property and/or the Project. The Developer agrees to indemnify, defend and hold the City harmless from and against any losses, costs, damages, liabilities, claims, suits, actions, causes of action and expenses including, without limitation, reasonable attorneys' fees and court costs, suffered or incurred by the City arising from or in connection with (i) the Developer's failure to comply with any of the terms, covenants and conditions contained within this Agreement, or (ii) the Developer's or any contractor's failure to pay contractors or materialmen in connection with the Project, or (iii) the existence of any material misrepresentation or omission in the Redevelopment Plan or any other document related to this Agreement and executed by the Developer that is the result of information supplied or omitted by the Developer or its agents, employees, contractors or persons acting under the control or at the request of the

(a) the failure of the Developer to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of the Developer under this Agreement or any related agreement;

(b) the failure of the Developer to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of Developer under any other agreement with any person or entity if such failure may have a material adverse effect on the Developer's business, property, assets, operations or condition, financial or otherwise;

(c) the making or furnishing by the Developer to the City of any representation, warranty, certificate, schedule, report or other communication within or in connection with this Agreement or any related agreement which is untrue or misleading in any material respect;

(d) except as otherwise permitted hereunder, the creation (whether voluntary or involuntary) of, or any attempt to create, any lien or other encumbrance upon the Property, including any fixtures now or hereafter attached thereto, other than the permitted liens consented to by the City and mortgages, regulatory and land use agreements relating to the Lender Financing, or the use of certain Project units by the Chicago Housing Authority, or the making or any attempt to make any levy, seizure or attachment thereof;

(e) the commencement of any proceedings in bankruptcy by or against the Developer or for the liquidation or reorganization of the Developer, or alleging that the Developer is insolvent or unable to pay its debts as they mature, or for the readjustment or arrangement of the Developer's debts, whether under the United States Bankruptcy Code or under any other state or federal law, now or hereafter existing for the relief of debtors, or the commencement of any analogous statutory or non-statutory proceedings involving the Developer; provided, however, that if such commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such proceedings are not dismissed within sixty (60) days after the commencement of such proceedings;

(f) the appointment of a receiver or trustee for the Developer, for any substantial part of the Developer's assets or the institution of any proceedings for the dissolution, or the full or partial liquidation, or the merger or consolidation, of the Developer; provided, however, that if such appointment or commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such appointment is not revoked or such proceedings are not dismissed within sixty (60) days after the commencement thereof;

(g) the entry of any judgment or order against the Developer which remains unsatisfied or undischarged and in effect for thirty (30) days after such entry without a stay of enforcement or execution;

(h) prior to the issuance of a Certificate, the occurrence of an event of default under the Lender Financing, which default is not cured within any applicable cure period;

(i) prior to the issuance of a Certificate, a change in the ownership of the Project without D.P.D.'s prior written consent, unless such change is permitted under the H.U.D.-Required Provisions Rider attached hereto; such D.P.D. consent shall not be unreasonably withheld in the case of a "for cause" removal or change in the general partner pursuant to the terms of the Developer's limited partnership agreement;

(j) prior to the issuance of a Certificate, a change in the Developer's general partner, addition of a general partner or sale or other transfer of all or a controlling interest in the ownership of the general partner without D.P.D.'s prior written consent, unless such change is permitted under the H.U.D.-Required Provisions Rider attached hereto;

(k) the institution in any court of a criminal proceeding (other than a misdemeanor) against the Developer or any natural person who owns a material interest in the Developer, which is not dismissed within thirty (30) days, or the indictment of the Developer or any natural person who owns a material interest in the Developer, for any crime (other than a misdemeanor).

16.02 Remedies.

(a) Subject to the provisions of paragraph (b) of this section, upon the occurrence of an Event of Default, the City may terminate this Agreement and all related agreements, and may suspend disbursement of the City Funds. The City may, in any court of competent jurisdiction by any action or proceeding at law or in equity, secure the specific performance of the agreements contained herein, or may be awarded damages for failure of performance, or both; provided, however, that the City shall not obtain a lien against the Property. Any monetary remedies, including but not limited to judgments shall be satisfied from distributable Surplus Cash only.

(b) Notwithstanding any other provision in this Agreement, the City shall not terminate this Agreement or suspend disbursement of the City Funds upon the occurrence of an Event of Default unless (i) foreclosure proceedings have been commenced under the mortgage securing the F.H.A.-Insured Loan or a deed in lieu of such foreclosure has been executed and delivered or (ii) H.U.D. consents to such termination or suspension of disbursement.

16.03 Curative Period.

In the event the Developer shall fail to perform a covenant which Developer is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have occurred unless Developer shall have failed to perform such covenant within thirty (30) days of its receipt of a written notice from the City specifying the nature of the default; provided, however, with respect to those defaults which are not reasonably capable of being cured within such thirty (30) day period, if the Developer has commenced to cure the alleged default within such thirty (30) day period and thereafter continues diligently to effect such cure, then said thirty (30) day period shall be extended to sixty (60) days upon written request from the Developer to the City delivered during such thirty (30) day period and upon further written request from the Developer to the City delivered during such sixty (60) day period, said sixty (60) day period shall be extended to ninety (90) days; provided, further, that such default is cured in any event within one hundred twenty (120) days of the date of the Developer's receipt of a written default notice.

16.04 Right To Cure By Lender.

In the event that an Event of Default occurs under this Agreement, and if, as a result thereof, the City intends to exercise any right or remedy available to it that could result in the termination of this Agreement or the cancellation, suspension, or reduction of any payment due from the City under this Agreement, the City shall send notice of such intended exercise to the Lender and the Lender shall have the right (but not the obligation) to cure such an Event of Default under the following conditions:

(a) if the Event of Default is a monetary default, the Lender may cure such default within thirty (30) days after the later of: (i) the expiration of the cure period, if any, granted to the Developer with respect to such monetary default; or (ii) receipt by the Lender of such notice from the City; and

Opinion Of Developer's Counsel.

[To Be Retyped On The Developer's Counsel's Letterhead]

_____, _____

City of Chicago
121 North LaSalle Street
Chicago, Illinois 60602

Attention: Corporation Counsel

Ladies and Gentlemen:

We have acted as counsel to _____, an Illinois limited partnership (the "Developer"), in connection with the [purchase of certain land and the construction of certain facilities thereon] located in the Montclare Redevelopment Project Area (the "Project"). In that capacity, we have examined, among other things, the following agreements, instruments and documents of even date herewith, hereinafter referred to as the "Documents":

(a) _____ Redevelopment Agreement (the "Agreement") of even date herewith, executed by the Developer and the City of Chicago (the "City");

[(b) the Escrow Agreement of even date herewith executed by the Developer and the City];

(c) [insert other documents including but not limited to documents related to purchase and financing of the Property and all lender financing related to the Project]; and

(d) all other agreements, instruments and documents executed in connection with the foregoing.

In addition to the foregoing, we have examined:

(a) the original or certified, conformed or photostatic copies of the Developer's (i) _____, as amended to date, (ii) qualifications to do business and certificates of good standing in all states in which the Developer is qualified to do business, (iii) _____, as amended to date, and (iv) records of all _____ proceedings relating to the Project; and

(b) such other documents, records and legal matters as we have deemed necessary or relevant for purposes of issuing the opinions hereinafter expressed.

In all such examinations, we have assumed the genuineness of all signatures (other than those of the Developer), the authenticity of documents submitted to us as originals and conformity to the originals of all documents submitted to us as certified, conformed or photostatic copies.

Based on the foregoing, it is our opinion that:

1. The Developer is a limited partnership duly organized, validly existing and in good standing under the laws of its state of the State of Illinois, has full power and authority to own and lease its properties and to carry on its business as presently conducted, and is in good standing and duly qualified to do business as a limited partnership under the laws of every state in which the conduct of its affairs or the ownership of its assets requires such qualification, except for those states in which its failure to qualify to do business would not have a material adverse effect on it or its business.

To the best of our knowledge after diligent inquiry, the Developer is not in default with respect to any order, writ, injunction or decree of any court, government or regulatory authority or in default in any respect under any law, order, regulation or demand of any governmental agency or instrumentality, a default under which would have a material adverse effect on the Developer or its business.

The Developer may resubmit a written request for a Certificate upon completion of such measures.

7.02 Effect Of Issuance Of Certificate; Continuing Obligations.

The Certificate relates only to the performance of the work associated with the Project improvements. After the issuance of a Certificate, however, all executory terms and conditions of this Agreement and all representations and covenants contained herein unrelated to such work will remain in effect throughout the Term of the Agreement as to the parties described in the following paragraph, and the issuance of the Certificate shall not be construed as a waiver by the City of any of its rights and remedies pursuant to such executory terms.

(d) during the term of this Agreement, the Developer will continue to own good, indefeasible and merchantable fee simple title to the Property (and all improvements thereon), or a leasehold interest therein, free and clear of all liens except for the Permitted Liens and such other matters as D.P.D. may consent to in writing;

(k) has not made or caused to be made, directly or indirectly, any payment, gratuity or offer of employment in connection with the Agreement or any contract paid from the City treasury or pursuant to City ordinance, for services to any City agency ("City Contract") as an inducement for the City to enter into the Agreement or any City Contract with the Developer in violation of Chapter 2-156-120 of the Municipal Code of the City; and

(l) the Property shall not be used for any Prohibited Use.

8.02 Covenant To Redevelop.

The Developer shall redevelop the Property in accordance with this Agreement and all (sub)exhibits attached hereto, the Redevelopment Plan, the T.I.F. The Developer shall, at the request of the City, agree to any reasonable amendments to this Agreement that are necessary or desirable in order for the City to issue (in its sole discretion) any bonds in connection with the Redevelopment Area; provided, however, that any such amendments shall not have a material adverse effect on the Developer or the Project. The Developer shall, at the Developer's expense, cooperate and provide reasonable assistance in connection with the marketing of any such bonds, including but not limited to providing written descriptions of the Project, making representations, providing information regarding its financial condition and assisting the City in preparing an offering statement with respect thereto. If any such bonds are issued, the City may use the proceeds thereof to reimburse the Developer for any amounts remaining due under this Agreement.

8.05 Job Creation And Retention; Covenant To Remain In The City.

The Developer covenants that, as of the date of this Agreement, and as a condition to the issuance of the Certificate, not less than fifty (50) F.T.E. jobs shall be created or retained by the Developer at the Property. The Developer further covenants that at all times thereafter through the earlier to occur of (i) the fifth (5th) anniversary date of the issuance of the Certificate pursuant to Section 7.01, and (ii) the final payment of City Funds under this Agreement:

- (a) not less than thirty-four (34) F.T.E. jobs shall be retained by the Developer at the Property; and
- (b) it will maintain its operations within the City of Chicago and operate the Property for the same use and at substantially the same capacity as described in the Developer's T.I.F. application and/or this Agreement, unless the covenant in clause (a) is satisfied and the Commissioner of D.P.D., in the Commissioner's sole discretion, consents to a change in use.

During the Term of the Agreement, the Developer shall, at the time of filing the annual Requisition Form, provide D.P.D. with a notarized affidavit certifying to its compliance with this Section 8.05 for the twelve (12) month period ending the day prior to the date of such filing date of such certificate. Compliance with Section 8.05(a) shall be determined on an annual F.T.E. average only. The covenants set forth in this Section 8.05(a) shall run with the land and be binding upon any permitted transferee, if any, for the period set forth in the first paragraph of this Section 8.05.

8.06 Arms-Length Transactions.

Unless disclosed in the approved Project Budget or unless D.P.D. has given its prior written consent with respect thereto, no Affiliate of the Developer may receive any portion of City Funds, directly or indirectly, in payment for work done, services provided or materials supplied in connection with any T.I.F.-Funded Improvement. The Developer shall provide information with respect to any entity to receive City Funds directly or indirectly (whether through payment to the Affiliate by the Developer and reimbursement to the Developer for such costs using City Funds, or otherwise), upon D.P.D.'s request, prior to any such disbursement.

8.07 Conflict Of Interest.

Pursuant to Section 5/11-74.4-4(n) of the Act, the Developer represents, warrants and covenants that, to the best of its knowledge, no member, official or employee

of the City or of any commission or committee exercising authority over the Project, the Redevelopment Area or the Redevelopment Plan, or any consultant hired by the City or the Developer with respect thereto, owns or controls, has owned or controlled or will own or control any interest, and no such person shall represent any person, as agent or otherwise, who owns or controls, has owned or controlled, or will own or control any interest, direct or indirect, in the Developer's business, the Property or any other property in the Redevelopment Area.

The Developer shall provide and maintain during the Term of the Agreement, and cause other applicable parties to provide and maintain, the insurance coverages specified in (Sub)Exhibit L.

8.11 Non-Governmental Charges.

Except for the Permitted Liens, and subject to the next sentence, the Developer agrees to pay or cause to be paid when due any Non-Governmental Charges. The Developer has the right, before any delinquency occurs, to contest any Non-Governmental Charge by appropriate legal proceedings properly and diligently prosecuted, so long as such proceedings serve to prevent any sale or forfeiture of the Property.

8.12 Compliance With Laws.

The Property and the Project are and shall be owned and operated in compliance with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, executive orders and codes.

8.13 Recording And Filing.

The Developer shall cause this Agreement, certain (sub)exhibits (as specified by Corporation Counsel), all amendments and supplements hereto to be recorded and filed against the Property in the Recorder's Office of Cook County. "Governmental Charge" shall mean all federal, state, county, the City or other governmental (or any instrumentality, division, agency, body or department thereof) taxes, levies, assessments, charges, liens, claims or encumbrances, including, but not limited to, general real estate taxes.

The Developer has the right, before any delinquency occurs, to contest any Governmental Charge by appropriate legal proceedings properly and diligently prosecuted, so long as such proceedings serve to prevent any sale or forfeiture of the Property.

8.15 Survival Of Covenants.

All warranties, representations, covenants and agreements of the Developer contained in this Section 8 and elsewhere in this Agreement shall be true, accurate and complete at the time of the Developer's execution of this Agreement, and shall survive the execution, delivery and acceptance hereof by the parties hereto and (except as provided in Section 7 hereof upon the issuance of a Certificate) shall be in effect throughout the Term of the Agreement.

Section 9.

Environmental Matters.

The Developer hereby represents and warrants to the City that it has conducted environmental studies sufficient to conclude that the Project may be constructed, completed and operated in accordance with the requirements of all Environmental Laws and this Agreement. The Developer agrees to indemnify, defend and hold the City harmless from and against any and all losses, liabilities, damages, injuries,

costs, expenses or claims of any kind whatsoever including, without limitation, any losses, liabilities, damages, injuries, costs, expenses or claims asserted or arising under any Environmental Laws incurred, suffered by or asserted against the City and relating to the Project or the Property.

Section 10.

Indemnification.

The Developer agrees to indemnify, pay, defend and hold the City, and its elected and appointed officials, employees, agents and affiliates (individually an "Indemnatee", and collectively the "Indemnitees") harmless from and against, any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, claims, costs, expenses and disbursements of any kind or nature whatsoever (and including without limitation, the reasonable fees and disbursements of counsel for such Indemnitees in connection with any investigative, administrative or judicial proceeding commenced or threatened, whether or not such Indemnities shall be designated a party thereto), that may be imposed on, suffered, incurred by or asserted against the Indemnitees in any manner directly or indirectly relating or arising out of this Agreement or the Project. The provisions of the undertakings and indemnification set out in this Section 10 shall survive the termination of this Agreement.

Section 11.

Maintaining Records/Right To Inspect.

The Developer shall (a) comply with the requirements of paragraph H of (Sub)Exhibit D during the Term of the Agreement and cause the other applicable parties to comply with such requirements, and (b) upon three (3) business days notice, permit any authorized representative of the City to have access to all portions of the Project and the Property during normal business hours to confirm the Developer's compliance with its obligations under this Agreement.

*Section 12.**Default And Remedies.***12.01 Events Of Default.**

The occurrence of any one (1) or more of the following events, subject to the provisions of Section 12.03, shall constitute an "Event of Default" by the Developer hereunder:

(a) the failure of the Developer to comply with any covenant or obligation, or the breach by the Developer of any representation or warranty, under this Agreement or any related agreement;

(b) the commencement of any bankruptcy, insolvency, liquidation or reorganization proceedings under any applicable state or federal law, or the commencement of any analogous statutory or non-statutory proceedings involving the Developer; provided, however, that if such commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such proceedings are not dismissed within sixty (60) days after the commencement of such proceedings;

(c) the appointment of a receiver or trustee for the Developer, for any substantial part of the Developer's assets or the institution of any proceedings for the dissolution, or the full or partial liquidation, or the merger or consolidation, of the Developer; provided, however, that if such appointment or commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such appointment is not revoked or such proceedings are not dismissed within sixty (60) days after the commencement thereof;

(d) the entry of any judgment or order against the Developer or the Property which remains unsatisfied or undischarged and in effect for sixty (60) days after such entry without a stay of enforcement or execution;

(e) the dissolution of the Developer or the death of any natural person who owns a fifty percent (50%) or more ownership interest in the Developer, unless, in the case of a death, the Developer establishes to the D.P.D.'s satisfaction that such death shall not impair the Developer's ability to perform its executory obligations under this Agreement; or

(f) the institution in any court of a criminal proceeding (other than a misdemeanor) against the Developer or any natural person who owns five percent (5%) or more ownership interest in the Developer, which is not dismissed within thirty (30) days, or the indictment of the Developer or any natural person who

owns such a material interest in the Developer, for any crime (other than a misdemeanor).

12.02 Remedies.

Upon the occurrence of an Event of Default, the City may terminate this Agreement and all related agreements, and may suspend disbursement of City Funds. The City may, in any court of competent jurisdiction by any action or proceeding at law or in equity, pursue and secure any available remedy. However, the City shall not be entitled to recover any City Funds previously paid to the Developer unless the Event of Default involves a Reimbursement Event.

12.03 Curative Period.

In the event the Developer fails to perform any covenant or obligation or breaches any representation or warranty which the Developer is required to perform under this Agreement, an Event of Default shall not be deemed to have occurred unless the Developer has failed to cure such default within thirty (30) days of its receipt of a written notice from the City specifying the nature of the default; provided, however, with respect to those non-monetary defaults which are not capable of being cured within such thirty (30) day period, the Developer shall not be deemed to have committed an Event of Default under this Agreement if it has commenced to cure the alleged default within such thirty (30) day period and thereafter diligently and continuously prosecutes the cure of such default until the same has been cured. No such cure period, however, shall apply to Events of Default described in Section 12(b), (c), (d), (e) or (f), which defaults shall have the cure periods described therein, if any. In addition, no cure period shall apply to default arising from a breach of the jobs and operations covenants in Section 8.05 and such breach shall be an immediate Event of Default.

Section 13.

Mortgaging Of The Project.

All mortgages or deeds of trust in place as of the date hereof with respect to the Property or any portion thereof are listed on (Sub)Exhibit F hereto. No mortgagee shall have the right to succeed to the Developer's rights under this Agreement unless it complies with the first (1st) sentence of Section 15.15 hereof.

Section 15.

Miscellaneous.

15.01 Amendment.

This Agreement and the (sub)exhibits attached hereto may not be amended or modified without the prior written consent of the parties hereto; provided, however, that the City, in its sole discretion, may amend, modify or supplement (Sub)Exhibit A hereto without the consent of any party hereto, and D.P.D. may grant consents as explicitly provided for under certain sections of this Agreement. It is agreed that no material amendment or change to this Agreement shall be made or be effective unless ratified or authorized by an ordinance duly adopted by the City Council. The term "material" for the purpose of this Section 15.01 shall be defined as any deviation from the terms of the Agreement which operates to materially reduce the scope of the Project, to reduce the job-retention obligations in Section 8.05 by more than five percent (5%), to materially change the Project or business operations of the Developer at the Property, or increases the City Funds payable to the Developer.

15.02 Entire Agreement.

This Agreement (including each (sub)exhibit attached hereto, which is hereby incorporated herein by reference) constitutes the entire Agreement between the parties hereto and it supersedes all prior agreements, negotiations and discussions between the parties relative to the subject matter hereof.

15.03 Limitation Of Liability.

No member, official or employee of the City shall be personally liable to the Developer or any successor in interest in the event of any default or breach by the City or for any amount which may become due to the Developer from the City or any successor in interest or on any obligation under the terms of this Agreement.

15.04 Further Assurances.

The Developer agrees to take such actions, including the execution and delivery of such documents, instruments, petitions and certifications as may become necessary or appropriate to carry out the terms, provisions and intent of this Agreement.

15.05 Waiver.

Waiver by the City or the Developer with respect to any breach of this Agreement shall not be considered or treated as a waiver of the rights of the respective party with respect to any other default or with respect to any particular default, except to the extent specifically waived by the City or the Developer in writing. No delay or omission on the part of a party in exercising any right shall operate as a waiver of such right or any other right unless pursuant to the specific terms hereof. A waiver by a party of a provision of this Agreement shall not prejudice or constitute a waiver of such party's right otherwise to demand strict compliance with that provision or any other provision of this Agreement. No prior waiver by a party, nor any course of dealing between the parties hereto, shall constitute a waiver of any such parties' rights or of any obligations of any other party hereto as to any future transactions.

15.06 Remedies Cumulative.

The remedies of a party hereunder are cumulative and the exercise of any one (1) or more of the remedies provided for herein shall not be construed as a waiver of any other remedies of such party unless specifically so provided herein.

15.07 Disclaimer.

Nothing contained in this Agreement nor any act of the City shall be deemed or construed by any of the parties, or by any third person, to create or imply any relationship of third party beneficiary, principal or agent, limited or general partnership or joint venture, or to create or imply any association or relationship involving the City.

15.08 Headings.

The paragraph and section headings contained herein are for convenience only and are not intended to limit, vary, define or expand the content thereof.

15.09 Counterparts.

This Agreement may be executed in several counterparts, each of which shall be deemed an original and all of which shall constitute one and the same agreement.

15.10 Severability.

If any provision in this Agreement, or any paragraph, sentence, clause, phrase, word or the application thereof, in any circumstance, is held invalid, this Agreement shall be construed as if such invalid part were never included herein and the remainder of this Agreement shall be and remain valid and enforceable to the fullest extent permitted by law.

15.11 Conflict.

In the event of a conflict between any provisions of this Agreement and the provisions of the T.I.F. Ordinances, and any bond ordinances relating to the Redevelopment Area, if any, such ordinance(s) shall prevail and control.

15.12 Governing Law.

This agreement shall be governed by and construed in accordance with the internal laws of the State of Illinois, without regard to its conflicts of law principles.

15.13 Form Of Documents.

All documents required by this Agreement to be submitted, delivered or furnished to the City shall be in form and content satisfactory to the City.

15.14 Approval.

Wherever this Agreement provides for the approval or consent of the City, D.P.D. or the Commissioner, or any matter is to be to the City's, D.P.D.'s or the Commissioner's satisfaction, unless specifically stated to the contrary, such approval, consent or satisfaction shall be made, given or determined by the City, D.P.D. or the Commissioner in writing and in the reasonable discretion thereof. The Commissioner or other person designated by the Mayor of the City shall act for the City or D.P.D. in making all approvals, consents and determinations of satisfaction, granting the Certificate or otherwise administering this Agreement for the City.

15.15 Assignment.

The Developer may not sell, assign or otherwise transfer its interest in this Agreement in whole or in part without the written consent of the City, which consent shall be in the City's sole discretion and which, if granted, may be conditioned upon, among other things, the assignee's assumption of all of the Developer's obligations under this Agreement. The foregoing limitation shall not prevent the Developer from collaterally assigning to a lender that is also providing financing for the Project the Developer's right to receive the payment of City Funds as security for such lender financing. The Developer consents to the City's sale, transfer, assignment or other disposal of this Agreement at any time in whole or in part.

15.16 Binding Effect.

This Agreement shall be binding upon the Developer, the City and their respective successors and permitted assigns (as provided herein) and shall inure to the benefit of the Developer, the City and their respective successors and permitted assigns (as provided herein). Except as otherwise provided herein, this Agreement shall not run to the benefit of, or be enforceable by, any person or entity other than a party to this Agreement and its successors and permitted assigns. This Agreement should not be deemed to confer upon third parties any remedy, claim, right of reimbursement or other right.

15.17 Force Majeure.

Neither the City nor the Developer nor any successor in interest to either of them shall be considered in breach of or in default of its obligations under this Agreement in the event of any delay caused by damage or destruction by fire or other casualty, strike, shortage of material, unusually adverse weather conditions such as, by way of illustration and not limitation, severe rain storms or below freezing temperatures of abnormal degree or for an abnormal duration, tornadoes or cyclones, and other events or conditions beyond the reasonable control of the party affected which in fact interferes with the ability of such party to discharge its obligations hereunder. The individual or entity relying on this section with respect to any such delay shall, upon the occurrence of the event causing such delay, immediately give written notice to the other parties to this Agreement. The individual or entity relying on this section with respect to any such delay may rely on this section only to the extent of the actual number of days of delay effected by any such events described above.

[(Sub)Exhibits "A", "C" and "G" referred to in this Redevelopment Agreement with Leona's Restaurant unavailable at time of printing.]

(Sub)Exhibits "B", "D", "E-1", "E-2", "F", "H", "I", "J", "K" and "L" referred to in this Redevelopment Agreement with Leona's Restaurant read as follows:

(Sub)Exhibit "B".

(To Redevelopment Agreement With Leona's Restaurant)

Description Of The Project.

The Developer proposes the redevelopment of an existing brick building into a family-style restaurant with a floor area of seven thousand (7,000) square feet situated on approximately twenty-two thousand (22,000) square feet of land. The land adjacent to the proposed restaurant will be used for customer parking of forty-seven (47) parking spaces.

The Project shall be completed in accordance with the plans and specifications and the signage requirements described below, copies of which have been provided to D.P.D. and which are or shall be a part of the Construction Contract. [Developer To Provide; Not Attached For Ordinance Purposes.]

(Sub)Exhibit "D".

(To Redevelopment Agreement With Leona's Restaurant)

Construction Requirements.

A. Construction Contract. Upon D.P.D.'s request, the Developer must provide D.P.D. with a certified copy of the construction contract, together with any modifications, amendments or supplements thereto, and upon D.P.D.'s request, a copy of any subcontracts.

B. Performance And Payment Bonds. Prior to the commencement of any portion of the Project which includes work on the public way, the Developer must require the General Contractor to be bonded for its payment by sureties having an AA rating or better using a bond in a form acceptable to the City. The City shall be named as obligee or co-obligee on any such bonds.

C. Employment Profile. Upon D.P.D.'s request, the Developer, the General Contractor and all subcontractors must submit to D.P.D. statements of their respective employment profiles.

D. Prevailing Wage. The Developer, the General Contractor and all subcontractors must pay the prevailing wage rate as ascertained by the Illinois Department of Labor (the "Department"), to all persons working on the Project. All such contracts shall list the specified rates to be paid to all laborers, workers and mechanics for each craft or type of worker or mechanic employed pursuant to such contract. If the Department revises such prevailing wage rates, the revised rates shall apply to all such contracts. Upon the City's request, the Developer shall provide the City with copies of all such contracts entered into by the Developer or the General Contractor to evidence compliance with this paragraph D.

E. Employment Opportunity. The Developer shall contractually obligate its or their various contractors, subcontractors or any Affiliate of the Developer operating on the Property (collectively, with the Developer, the "Employers" and individually an "Employer") to agree, that for the Term of this Agreement with respect to Developer and during the period of any other party's provision of services in connection with the construction of the Project or occupation of the Property:

(1) No Employer shall discriminate against any employee or applicant for employment based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income as defined in the City of Chicago Human Rights Ordinance, Chapter 2-160, Section 2-160-010, et seq., Municipal Code, except as otherwise provided by said ordinance and as amended from time

to time (the "Human Rights Ordinance"). Each Employer shall take affirmative action to ensure that applicants are hired and employed without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income and are treated in a non-discriminatory manner with regard to all job-related matters, including without limitation: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Each Employer agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the City setting forth the provisions of this nondiscrimination clause. In addition, the Employers, in all solicitations or advertisements for employees, shall state that all qualified applicants shall receive consideration for employment without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income.

(2) To the greatest extent feasible, each Employer is required to present opportunities for training and employment of low- and moderate-income residents of the City and preferably of the Redevelopment Area; and to provide that contracts for work in connection with the construction of the Project be awarded to business concerns that are located in, or owned in substantial part by persons residing in, the City and preferably in the Redevelopment Area.

(3) Each Employer shall comply with all federal, state and local equal employment and affirmative action statutes, rules and regulations, including but not limited to the City's Human Rights Ordinance and the Illinois Human Rights Act, 775 ILCS 5/1-101, et seq. (1993), and any subsequent amendments and regulations promulgated thereto.

(4) Each Employer, in order to demonstrate compliance with the terms of this paragraph, shall cooperate with and promptly and accurately respond to inquiries by the City, which has the responsibility to observe and report compliance with equal employment opportunity regulations of federal, state and municipal agencies.

(5) Each Employer shall include the foregoing provisions of subparagraphs (1) through (4) in every contract entered into in connection with the Project, and shall require inclusion of these provisions in every subcontract entered into by any subcontractors, and every agreement with any Affiliate operating on the Property, so that each such provision shall be binding upon each contractor, subcontractor or Affiliate, as the case may be.

(6) Failure to comply with the employment obligations described in this paragraph E shall be a basis for the City to pursue its remedies under the Redevelopment Agreement.

F. City Resident Construction Worker Employment Requirement. The Developer agrees for itself and its successors and assigns, and shall contractually obligate its General Contractor and shall cause the General Contractor to contractually obligate its subcontractors, as applicable, to agree, that during the construction of the Project they shall comply with the minimum percentage of total worker hours performed by actual residents of the City as specified in Section 2-92-330 of the Municipal Code of Chicago (at least fifty percent (50%) of the total worker hours worked by persons on the site of the Project shall be performed by actual residents of the City); provided, however, that in addition to complying with this percentage, the Developer, its General Contractor and each subcontractor shall be required to make good faith efforts to utilize qualified residents of the City in both unskilled and skilled labor positions.

The Developer may request a reduction or waiver of this minimum percentage level of Chicagoans as provided for in Section 2-92-330 of the Municipal Code of Chicago in accordance with standards and procedures developed by the Chief Procurement Officer of the City.

"Actual residents of the City" shall mean persons domiciled within the City. The domicile is an individual's one and only true, fixed and permanent home and principal establishment.

The Developer, the General Contractor and each subcontractor shall provide for the maintenance of adequate employee residency records to show that actual Chicago residents are employed on the Project. Each Employer shall maintain copies of personal documents supportive of every Chicago employee's actual record of residence.

Weekly certified payroll reports (United States Department of Labor Form WH-347 or equivalent) shall be submitted to the Commissioner of D.P.D. in triplicate, which shall identify clearly the actual residence of every employee on each submitted certified payroll. The first time that an employee's name appears on a payroll, the date that the Employer hired the employee should be written in after the employee's name.

The Developer, the General Contractor and each subcontractor shall provide full access to their employment records to the Chief Procurement Officer, the Commissioner of D.P.D., the Superintendent of the Chicago Police Department, the Inspector General or any duly authorized representative of any of them. The Developer, the General Contractor and each subcontractor shall maintain all relevant personnel data and records for a period of at least three (3) years after final acceptance of the work constituting the Project.

At the direction of D.P.D., affidavits and other supporting documentation will be required of the Developer, the General Contractor and each subcontractor to verify or clarify an employee's actual address when doubt or lack of clarity has arisen.

Good faith efforts on the part of the Developer, the General Contractor and each subcontractor to provide utilization of actual Chicago residents (but not sufficient for the granting of a waiver request as provided for in the standards and procedures developed by the Chief Procurement Officer) shall not suffice to replace the actual, verified achievement of the requirements of this paragraph concerning the worker hours performed by actual Chicago residents.

When work at the Project is completed, in the event that the City has determined that the Developer has failed to ensure the fulfillment of the requirement of this paragraph concerning the worker hours performed by actual Chicago residents or failed to report in the manner as indicated above, the City will thereby be damaged in the failure to provide the benefit of demonstrable employment to Chicagoans to the degree stipulated in this paragraph. Therefore, in such a case of non-compliance, it is agreed that one-twentieth of one percent (0.0005) of the aggregate hard construction costs set forth in the Project budget (the product of .0005 x such aggregate hard construction costs) (as the same shall be evidenced by approved contract value for the actual contracts) shall be surrendered by the Developer to the City in payment for each percentage of shortfall toward the stipulated residency requirement. Failure to report the residency of employees entirely and correctly shall result in the surrender of the entire liquidated damages as if no Chicago residents were employed in either of the categories. The willful falsification of statements and the certification of payroll data may subject the Developer, the General Contractor and/or the subcontractors to prosecution. Any retainage to cover contract performance that may become due to the Developer pursuant to Section 2-92-250 of the Municipal Code of Chicago may be withheld by the City pending the Chief Procurement Officer's determination as to whether the Developer must surrender damages as provided in this paragraph.

Nothing herein provided shall be construed to be a limitation upon the "Notice of Requirements for Affirmative Action to Ensure Equal Employment Opportunity, Executive Order 11246" and "Standard Federal Equal Employment Opportunity, Executive Order 11246", or other affirmative action required for equal opportunity under the provisions of this Agreement or related documents.

The Developer shall cause or require the provisions of this paragraph F to be included in all construction contracts and subcontracts related to the Project.

G. The Developer's M.B.E./W.B.E. Commitment. The Developer agrees for itself and its successors and assigns, and, if necessary to meet the requirements set forth herein, shall contractually obligate the General Contractor to agree that, during the Project:

- (1) Consistent with the findings which support the Minority-Owned and Women-Owned Business Enterprise Procurement Program (the "M.B.E./W.B.E. Program"), Section 2-92-420, et seq., Municipal Code of Chicago, and in reliance upon the provisions of the M.B.E./W.B.E. program to the extent contained in, and

as qualified by, the provisions of this paragraph G, during the course of the Project, at least the following percentages of the M.B.E./W.B.E. Budget attached hereto as (Sub)Exhibit E-2 (as these budgeted amounts may be reduced to reflect decreased actual costs) shall be expended for contract participation by M.B.E.s or W.B.E.s:

- i. At least twenty-five percent (25%) by M.B.E.s.
- ii. At least five percent (5%) by W.B.E.s.

(2) For purposes of this paragraph G only, the Developer (and any party to whom a contract is let by the Developer in connection with the Project) shall be deemed a "contractor" and this Agreement (and any contract let by the Developer in connection with the Project) shall be deemed a "contract" as such terms are defined in Section 2-92-420, Municipal Code of Chicago.

(3) Consistent with Section 2-92-440, Municipal Code of Chicago, the Developer's M.B.E./W.B.E. commitment may be achieved in part by the Developer's status as an M.B.E. or W.B.E. (but only to the extent of any actual work performed on the Project by the Developer), or by a joint venture with one (1) or more M.B.E.s or W.B.E.s (but only to the extent of the lesser of (i) the M.B.E. or W.B.E. participation in such joint venture or (ii) the amount of any actual work performed on the Project by the M.B.E. or W.B.E.), by the Developer utilizing a M.B.E. or a W.B.E. as a General Contractor (but only to the extent of any actual work performed on the Project by the General Contractor), by subcontracting or causing the General Contractor to subcontract a portion of the Project to one (1) or more M.B.E.s or W.B.E.s, or by the purchase of materials used in the Project from one (1) or more M.B.E.s or W.B.E.s, or by any combination of the foregoing. Those entities which constitute both a M.B.E. and a W.B.E. shall not be credited more than once with regard to the Developer's M.B.E./W.B.E. commitment as described in this paragraph G. The Developer or the General Contractor may meet all or part of this commitment through credits received pursuant to Section 2-92-530 of the Municipal Code of Chicago for the voluntary use of M.B.E.s or W.B.E.s in its activities and operations other than the Project.

(4) Prior to the City's issuance of a Certificate, the Developer shall provide to D.P.D. a final report describing its efforts to achieve compliance with this M.B.E./W.B.E. commitment. Such report shall include, inter alia, the name and business address of each M.B.E. and W.B.E. solicited by the Developer or the General Contractor to work on the Project, and the responses received from such solicitation, the name and business address of each M.B.E. or W.B.E. actually involved in the Project, a description of the work performed or products or services supplied, the date and amount of such work, product or service, and such other information as may assist D.P.D. in determining the Developer's compliance with this M.B.E./W.B.E. commitment.. D.P.D. has access to the Developer's books and

records, including, without limitation, payroll records, books of account and tax returns, and records and books of account in accordance with the Redevelopment Agreement, on five (5) business days' notice, to allow the City to review the Developer's compliance with its commitment to M.B.E./W.B.E. participation and the status of any M.B.E. or W.B.E. performing any portion of the Project.

(5) Upon the disqualification of any M.B.E. or W.B.E. General Contractor or subcontractor, if such status was misrepresented by the disqualified party, the Developer shall be obligated to discharge or cause to be discharged the disqualified General Contractor or subcontractor and, if possible, identify and engage a qualified M.B.E. or W.B.E. as a replacement. For purposes of this Subsection (e), the disqualification procedures are further described in Section 2-92-540, Municipal Code of Chicago.

(6) Any reduction or waiver of the Developer's M.B.E./W.B.E. commitment as described in this paragraph G shall be undertaken in accordance with Section 2-92-450, Municipal Code of Chicago.

(7) Prior to the commencement of the Project, the Developer, the General Contractor and all major subcontractors shall be required to meet with the monitoring staff of D.P.D. with regard to the Developer's compliance with its obligations under this paragraph G. During this meeting, the Developer shall demonstrate to D.P.D. its plan to achieve its obligations under this paragraph G, the sufficiency of which shall be approved by D.P.D.. During the Project, the Developer shall, upon the request of the monitoring staff of D.P.D., submit such interim reports as the monitoring staff may require. Failure to submit such documentation on a timely basis, or a determination by D.P.D., upon analysis of the documentation, that the Developer is not complying with its obligations hereunder shall, upon the delivery of written notice to the Developer, be deemed an Event of Default hereunder.

H. Books And Records. The Developer, the general contractor and each subcontractor shall keep and maintain books and records that fully disclose the total actual cost of the Project and the disposition of all funds from whatever source allocated thereto and as otherwise necessary to evidence the Developer's compliance with its obligations under this Agreement, including, but not limited to, payroll records, general contractor's and subcontractors' sworn statements, general contracts, subcontracts, purchase orders, waivers of lien, paid receipts and invoices and the like. Such books and records shall be available at the applicable party's offices for inspection, copying, audit and examination by an authorized representative of the City, at the Developer's expense.

I. Incorporation In Other Contracts. The general contract and each subcontract shall include a rider incorporating Paragraphs C, D, E(5) and H of this (Sub)Exhibit D and the insurance requirements in (Sub)Exhibit L. The general contract shall also incorporate in such rider paragraphs F and G of this (Sub)Exhibit D.

Witnesseth:

Whereas, The Toia Building Property Partnership (the "Developer") intends to undertake the redevelopment project described in (Sub)Exhibit 1 hereto (the "Project") with respect to certain property owned by the Developer located within the Redevelopment Area and commonly known as 9156 South Stony Island Avenue and legally described on (Sub)Exhibit 2 (the "Property"). The completion of the Project

Whereas, _____ ("Lender") and _____ (the "Borrower"), have entered into a certain Loan Agreement dated as of _____ pursuant to which the Lender has agreed to make a loan to the Borrower in an amount not to exceed _____ (the "Loan"), which Loan is evidenced by a Mortgage Note and executed by the Borrower in favor of the Lender (the "Note"); and the repayment of the Loan is secured by, among other things, certain liens and encumbrances on the Property and other property of the Borrower pursuant to the following: (i) Mortgage dated _____ and recorded _____ as Document Number _____ made by the Borrower to the Lender; and (ii) Assignment of Leases and Rents dated _____ and recorded _____ as Document Number _____ made by the Borrower to the Lender (all such agreements referred to above and otherwise relating to the Loan referred to herein collectively as the "Loan Documents"); and

Whereas, The Developer desires to enter into the Redevelopment Agreement dated the date hereof with the City in order to obtain additional financing for the Project (the "Redevelopment Agreement", referred to herein along with various other agreements and documents related thereto as the "City Agreements"); and

Whereas, Pursuant to the Redevelopment Agreement, the Developer will agree to be bound by certain covenants expressly running with the Property, as set forth in Sections 8.05 and 8.15 of the Redevelopment Agreement (the "City Encumbrances"); and

2. Notice Of Default. The Lender shall use reasonable efforts to give to the City, and the City shall use reasonable efforts to give to the Lender, (a) copies of any notices of default which it may give to the Developer with respect to the Project pursuant to the Loan Documents or the City Agreements, respectively, and (b) copies of waivers, if any, of the Developer's default in connection therewith. Under no circumstances shall the Developer or any third party be entitled to rely upon the agreement provided for herein.

3. Waivers. No waiver shall be deemed to be made by the City or the Lender of any of their respective rights hereunder, unless the same shall be in writing, and each waiver, if any, shall be a waiver only with respect to the specific instance involved and shall in no way impair the rights of the City or the Lender in any other respect at any other time.

4. Governing Law; Binding Effect. This Agreement shall be interpreted, and the rights and liabilities of the parties hereto determined, in accordance with the internal laws and decisions of the State of Illinois, without regard to its conflict of laws principles, and shall be binding upon and inure to the benefit of the respective successors and assigns of the City and the Lender.

Opinion Of Developer's Counsel.

[To Be Retyped On The Developer's Counsel's Letterhead]

City of Chicago
121 North LaSalle Street
Chicago, Illinois 60602

Attention: Corporation Counsel

Ladies and Gentlemen:

We have acted as counsel to _____, an [Illinois] _____ (the "Developer"), in connection with the purchase of certain land and the construction of certain facilities thereon located in the _____ Redevelopment Project Area (the "Project"). In that capacity, we have examined, among other things, the following agreements, instruments and documents of even date herewith, hereinafter referred to as the "Documents":

(a) _____ Redevelopment Agreement (the "Agreement") of even date herewith, executed by the Developer and the City of Chicago (the "City");

[(b) the Escrow Agreement of even date herewith executed by the Developer and the City;]

(c) [insert other documents including but not limited to documents related to purchase and financing of the Property and all lender financing related to the Project]; and

(d) all other agreements, instruments and documents executed in connection with the foregoing.

In addition to the foregoing, we have examined:

(a) the original or certified, conformed or photostatic copies of the Developer's (i) Articles of Incorporation, as amended to date, (ii) qualifications to do business and certificates of good standing in all states in which the Developer is qualified to do business, (iii) Bylaws, as amended to date, and (iv) records of all corporate proceedings relating to the Project [revise if the Developer is not a corporation]; and

(b) such other documents, records and legal matters as we have deemed necessary or relevant for purposes of issuing the opinions hereinafter expressed.

In all such examinations, we have assumed the genuineness of all signatures (other than those of the Developer), the authenticity of documents submitted to us as originals and conformity to the originals of all documents submitted to us as certified, conformed or photostatic copies.

Based on the foregoing, it is our opinion that:

1. The Developer is a corporation duly organized, validly existing and in good standing under the laws of its state of [incorporation] [organization], has full power and authority to own and lease its properties and to carry on its business as presently conducted, and is in good standing and duly qualified to do business as a foreign [corporation] [entity] under the laws of every state in which the conduct of its affairs or the ownership of its assets requires such qualification, except for those states in which its failure to qualify to do business would not have a material adverse effect on it or its business.

2. The Developer has full right, power and authority to execute and deliver the Documents to which it is a party and to perform its obligations thereunder. Such execution, delivery and performance will not conflict with, or result in a breach of, the Developer's [Articles of Incorporation or Bylaws] [describe any formation documents if the Developer is not a corporation] or result in a breach or other violation of any of the terms, conditions or provisions of any law or regulation, order, writ, injunction or decree of any court, government or regulatory authority, or, to the best of our knowledge after diligent inquiry, any of the terms, conditions or provisions of any agreement, instrument or document to which the Developer is a party or by which the Developer or its properties is bound. To the best of our knowledge after diligent inquiry, such execution, delivery and performance will not constitute grounds for acceleration of the maturity of any agreement, indenture, undertaking or other instrument to which the Developer is a party or by which it

or any of its property may be bound, or result in the creation or imposition of (or the obligation to create or impose) any lien, charge or encumbrance on, or security interest in, any of its property pursuant to the provisions of any of the foregoing, other than liens or security interests in favor of the lender providing Lender Financing (as defined in the Agreement).

3. The execution and delivery of each Document and the performance of the transactions contemplated thereby have been duly authorized and approved by all requisite action on the part of the Developer.

4. Each of the Documents to which the Developer is a party has been duly executed and delivered by a duly authorized officer of the Developer, and each such Document constitutes the legal, valid and binding obligation of the Developer, enforceable in accordance with its terms, except as limited by applicable bankruptcy, reorganization, insolvency or similar laws affecting the enforcement of creditors' rights generally.

5. (Sub)Exhibit A attached hereto (a) identifies each class of capital stock of the Developer, (b), sets forth the number of issued and authorized shares of each such class, and (c) identifies the record owners of shares of each class of capital stock of the Developer and the number of shares held of record by each such holder. To the best of our knowledge after diligent inquiry, except as set forth on (Sub)Exhibit A, there are no warrants, options, rights or commitments of purchase, conversion, call or exchange or other rights or restrictions with respect to any of the capital stock of the Developer. Each outstanding share of the capital stock of the Developer is duly authorized, validly issued, fully paid and nonassessable.

6. To the best of our knowledge after diligent inquiry, no judgments are outstanding against the Developer, nor is there now pending or threatened, any litigation, contested claim or governmental proceeding by or against the Developer or affecting the Developer or its property, or seeking to restrain or enjoin the performance by the Developer of the Agreement or the transactions contemplated by the Agreement, or contesting the validity thereof. To the best of our knowledge after diligent inquiry, the Developer is not in default with respect to any order, writ, injunction or decree of any court, government or regulatory authority or in default in any respect under any law, order, regulation or demand of any governmental agency or instrumentality, a default under which would have a material adverse effect on the Developer or its business.

7. To the best of our knowledge after diligent inquiry, there is no default by the Developer or any other party under any material contract, lease, agreement, instrument or commitment to which the Developer is a party or by which the company or its properties is bound.

8. To the best of our knowledge after diligent inquiry, all of the assets of the Developer are free and clear of mortgages, liens, pledges, security interests and encumbrances except for those specifically set forth in the Documents.

9. The execution, delivery and performance of the Documents by the Developer have not and will not require the consent of any person or the giving of notice to, any exemption by, any registration, declaration or filing with or any taking of any other actions in respect of, any person, including without limitation any court, government or regulatory authority.

10. To the best of our knowledge after diligent inquiry, the Developer owns or possesses or is licensed or otherwise has the right to use all licenses, permits and other governmental approvals and authorizations, operating authorities, certificates of public convenience, goods carriers permits, authorizations and other rights that are necessary for the operation of its business.

11. A federal or state court sitting in the State of Illinois and applying the choice of law provisions of the State of Illinois would enforce the choice of law contained in the Documents and apply the law of the State of Illinois to the transactions evidenced thereby.

We are attorneys admitted to practice in the State of Illinois and we express no opinion as to any laws other than federal laws of the United States of America and the laws of the State of Illinois.

This opinion is issued at the Developer's request for the benefit of the City and its counsel, and may not be disclosed to or relied upon by any other person.

Very truly yours,

By: _____

The receipt of any certificate does not constitute Agreement by the City

that the insurance requirements in the Agreement have been fully met or that the insurance policies indicated on the certificate are in compliance with all Agreement requirements. The failure of the City to obtain certificates or other insurance evidence from Developer is not a waiver by the City of any requirements for the Developer to obtain and maintain the specified coverages. The Developer must advise all insurers of the Agreement provisions regarding insurance. Non-conforming insurance does not relieve Developer of the obligation to provide insurance as specified herein.

Nonfulfillment of the insurance conditions may constitute a violation of the Agreement, and the City retains the right to stop work until proper evidence of insurance is provided, or the Agreement may be terminated.

The insurance must provide for sixty (60) days prior written notice to be given to the City in the event coverage is substantially changed, canceled or non-renewed.

Any and all deductibles or self-insured retentions on referenced insurance coverages must be borne by Developer.

The Developer agrees that insurers waive their rights of subrogation against the City of Chicago, its employees, elected officials, agents or representatives.

The Developer expressly understands and agrees that any coverages and limits furnished by the Developer must in no way limit the Developer's liabilities and responsibilities specified within the Agreement documents by law.

Any insurance or self-insurance programs maintained by the City of Chicago do not contribute with insurance provided by the Developer under the Agreement.

The required insurance must not be limited by any limitations expressed in the indemnification language herein or any limitation placed on the indemnity in this Agreement given as a matter of law.

The Developer must require the Contractor to provide the insurance required herein, or Developer may provide the coverages for the Contractor. All Contractors are subject to the same insurance requirements of Developer unless otherwise specified in this Agreement.

If the Developer, or any Contractor desires additional coverages, the party desiring the additional coverages is responsible for the acquisition and cost.

The City of Chicago Risk Management Department maintains the right to modify, delete, alter or change these requirements.

- A.
 - 1. In accordance with all applicable laws and ordinances, and utilizing the City's regular procurement processes, the City will enter into one (1) or more contracts (hereinafter "Contracts") with Contractors for the performance of the Services. The City will provide administration and supervision of the Contractors' performance of the Services in accordance with the City Department of Environment's ordinary procedures for such administration and supervision. The City will have the City of Chicago and Chicago Specialties named as additional insureds for all applicable coverages on a primary, non-contributory basis for any liability arising directly or indirectly from the performance of the Services. All such policies must provide that at least thirty (30) days prior notice must be given to Chicago Specialties if the policies are to be terminated or changed during the performance of the Services. Any extra expense incurred by the Contractor(s) in providing insurance coverage for Chicago Specialties shall be treated as a reimbursable expense compensable out of the Total Payment.
- C. The City agrees that all Contractors of any tier will be required by contract to comply with all environmental laws and regulations applicable to the Services.

- D. The City agrees that each Contract with a Contractor retained to perform the Services will include provisions:
- a. requiring the Contractor to defend, indemnify and hold Chicago Specialties, its officers, officials, agents and employees, completely harmless from and against any and all liabilities, losses, suits, claims, judgments, fines or demands of every kind and nature, including reasonable costs for attorneys' fees and court costs, arising out of or incidental to the Contractor's performance or non-performance of this Agreement, including the negligent or intentionally tortious acts or omissions of the Contractor's officers, its agents, its employees or subcontractors, except to the extent that the City's or Chicago Specialties' own negligence was the proximate cause contributing to the loss or claim; provided, however, that this limitation pertaining to the City's or Chicago Specialties' negligence shall not operate to limit or deprive the City or Chicago Specialties of the protection afforded by any of the insurance policies required under such Contract, and provided further, notwithstanding anything to the contrary in such Contract, should any portion of the indemnity clause be found to be inoperative or unenforceable pursuant to the Construction Contract Indemnification for Negligence Act, 740 ILCS 3S/0.01, et seq.  - b. requiring Contractor, to the extent permissible by law, to waive any limits to the amount of its obligations to indemnify, defend or contribute to any sums due under any losses, including any claim by an employee of Contractor that may be subject to the Workers' Compensation Act, 820 ILCS 305/1, et seq. or any other law or judicial decision (such as, *Kotecki v. Cyclops Welding Corporation*, 146 Ill. 2d 155 (1991)). The City, however, does not waive any limitations it may have on its liability under the Illinois Pension Code;
 - c. requiring Contractor to defend all suits or actions brought upon such claims and lawsuits and shall pay all costs and expenses incidental thereto, but Chicago Specialties shall have the right, at its option, to participate in the defense of any suit, without relieving the Contractors of any of its indemnity obligations;

- d. the indemnities required by this paragraph shall survive expiration or early termination of this Agreement; and

The following is said ordinance as passed:

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CHICAGO:

SECTION 1. Section 4-4-110 of the Municipal Code of the City of Chicago is hereby amended by deleting the language bracketed and adding the language underscored, as follows:

4-4-110 Term--Temporary license.

(a) Except where otherwise expressly provided, no license shall be granted for a period longer than one year. No license shall be issued for any period of time less than a year or for a sum less than the full annual license fee, except when otherwise expressly provided. A temporary, nonrenewable license may be issued by the mayor for a period ending on the last day of the license period, where the application in question is approved by all departments except the department of [inspectional services] buildings and where violations of the premises to be licensed are not of a serious or dangerous nature.

(b) An initial license, if approved by all appropriate departments and issued within 45 days of the start of a new license period, may be issued for a term ending on the last day of the new license period. This subsection (b) shall not apply to licenses issued to businesses cited for operating without a license in the current or a prior license period, nor to licenses for retail liquor dealers.

SECTION 2. Sections 4-60-020 and 4-60-030 of the Municipal Code of the City of

Chicago are hereby amended by deleting the language bracketed and adding the language underscored, as follows:

4-60-020 License required--Restricted areas.

(a) No person shall sell at retail any alcoholic liquor without first having obtained a city retailer's license for each premises where the retailer is located to sell the same.

(b) No license shall be issued for the sale of alcoholic liquor, for consumption on the premises, in those areas designated by the Chicago Zoning Ordinance as B4 or B5 Districts, if the premises sought to be licensed are within 400 feet, excluding streets, alleys and public ways, of existing premises licensed for the sale of alcoholic liquor; said measurement shall be from property line to property line, for consumption on the premises; provided, however, that this prohibition shall not apply to hotels offering restaurant service, restaurants or clubs; nor to the renewal for issuance of a license for the sale of alcoholic liquor for consumption on the premises, where said place of business was established and licensed prior to the effective date of the ordinance codified in this chapter and has operated continuously subsequent to the effective date of the ordinance codified in this chapter.

(c) No license shall be issued to any person if the premises described in the license application are contained in a building or structure located in any B2 through B5 Districts that was previously licensed for the sale of alcoholic liquor, but which is vacant or unused and unlicensed for a continuous period of six months where the issuance of such license would constitute a nonconforming use in the district in which the building or structure is located.

(d) In addition to the restrictions cited in Section 6-11 of the Illinois Liquor Control Act of 1934, as amended, no license shall be issued for the sale of retail alcoholic liquor within

100 feet of any library, with the exception of the main libraries, open to the public, excluding streets, alleys and public ways; provided, however, that this limitation shall not apply to a restaurant and theater housed in separate rooms of the same building, if the theater seats not less than 275 persons for a single performance, and if the restaurant has a legal occupancy of not less than 100 persons, and if the building is separated from the library by a public way not less than 66 feet in width. An initial license for sale of alcoholic liquor on the premises of a restaurant as authorized in this subsection may be issued despite the fact that the adjacent theater is not yet complete and licensed, if the local liquor control commissioner determines that substantial progress has been made toward completion of the theater. Substantial progress refers to the issuance of appropriate permits by the department of [buildings] construction and permits. No renewal of the license will be allowed unless the theater has been completed prior to commencement of the next liquor license period.

(e) Where two or more premises are under the same roof or at one street address, a separate city retailer's license shall be obtained for each such premises; provided, that nothing herein contained shall be so construed as to prevent any hotel operator licensed under the provisions of this chapter from serving alcoholic liquor to his registered guests in any room or part of his hotel.

(f) The issuance to or possession by any person of a retail liquor dealer tax stamp issued for a then-existing tax period by the United States government or any of its agencies shall be and constitute prima facie evidence that such person is subject to the provisions of this chapter.

4-64-030 License--Application--Investigation.

An application for a wholesale tobacco dealer's license shall be made in conformity with the general requirements of this Code relating to applications for licenses, and shall give the location and a description of the premises.

The director of the fire prevention bureau and the commissioner of [inspectional services] buildings shall investigate or cause an investigation to be made of the premises named and described in the application for the purpose of determining the fitness and suitability of such premises for such business from a sanitary standpoint, and for determining whether or not the said premises comply with all the provisions of this Code and laws of the state regulating health, safety and sanitation, so as properly to safeguard the lives and health of the employees engaged therein.

The superintendent of police shall cause an investigation to be made to determine the character and fitness of the applicant and to determine whether the premises named in the application comply with the police regulations of this Code.

All day care centers located on a floor that is above or below ground level shall comply with the fire resistive separation requirements for institutional occupancies that are day care centers that serve children under two years of age, as set forth in chapter 13-56 of this Code;
 - (4) the exterior of all entrances and exits of the building in which the day care center is located shall be adequately lighted at all times;
 - (5) every window of the day care center which is operable and which is located within

20 feet of ground level or within ten feet of an adjacent roof or within ten feet of an exterior stairway, fire escape, ramp, porch or other structure accessible from the ground level shall be equipped with a lock which when in a locked position will prevent the window from being operated and a motion detector or other detection device which sounds when the window is operated while in a locked position; and shall be capable of being opened without a key from the inside of the building;

(d) The department of revenue shall notify the departments of police, fire, health, human services and buildings of the name and address of every day care center licensee who has been granted a night care privilege.

(e) A night care privilege granted pursuant to this section shall be subject to

No person shall construct, conduct or operate any motor vehicle salesroom in the city on any lot in any block in which two-thirds of the buildings on both sides of the street are used exclusively for residence purposes, or within 100 feet of any such street in any such block, without the written consent of a majority of the property owners according to frontage on both sides of the street; provided, that all lots which abut only on a public alley or court shall be considered as fronting on the street to which such alley or court leads. Such written consents shall be obtained and filed with the commissioner of the department of [inspectional services] buildings before a permit is issued for the construction of any such building, or, in case a license

is required for such business on account of the sale of secondhand cars, before a license is issued for the operation of any motor vehicle salesroom in any existing building. In determining whether two-thirds of the buildings on both sides of such street are used exclusively for residence purposes, any building fronting upon another street and located upon a corner lot shall not be considered. The word "block," as used in this section, shall not be held to mean a square, but shall be held to embrace only that part of the street in question which lies between the two nearest intersecting streets.

The provisions of this section shall apply only where the premises are of such a nature that motor vehicles are or may be admitted thereto.

No person shall conduct or operate any garage within 200 feet of any building used for a hospital, church or public or parochial school, or the grounds thereof, except within the territory bounded by the Chicago River on the north, by Halsted Street on the west, by Lake Michigan on the east, and by Van Buren Street on the south; but no person shall conduct any garage within said territory, any part of which is within 80 feet, or the automobile entrance or exit of which is within 160 feet, of any portion of the street front of any hospital, church or public or parochial school; nor shall any such garage be conducted or operated within said territory when the entrance or exit is upon a street containing streetcar tracks or within one block of a street railway tunnel, or which shall house more than 75 cars within 160 feet of the street front of any hospital, church or public or parochial school.

No person shall conduct or operate any public garage in the city on any lot in any block in which dwelling houses, apartment houses and hotels constitute one-half or more of the buildings

on both sides of the street in the block, or within 100 feet of any such street in any block, without the written consent of a majority of the property owners according to the frontage on both sides of the street. All lots which abut only on a public alley or court shall be considered as fronting on the street to which such alley or court leads. Such written consents shall be obtained and filed with the [building commissioner] executive director of the department of construction and permits before a permit is issued for the construction of any such building, or before a license is issued for the operation of any public garage in any existing building. In determining whether dwelling houses, apartment houses and hotels constitute one-half or more of the buildings on both sides of the street in any block, any building fronting on another street and located upon a corner lot shall not be considered. The word "block" as used in this section shall not be held to mean a square, but shall be held to embrace only that part of the street in question which lies between the two nearest intersecting streets.

It shall not be deemed inconsistent with the character of a building as a dwelling house, apartment house or hotel under this section that a part thereof is used for retail business purposes, if a separate part of such building with a total floor area greater than the floor area used for business is used for residence purposes.

SECTION 8. Section 4-264-040 of the Municipal Code of the City of Chicago is hereby amended by deleting the language bracketed and adding the language underscored, as follows:

4-264-040 Frontage consents.

It shall be unlawful to engage in the business of a secondhand dealer on any lot fronting on any public way in any block in which one-half of the buildings on both sides of the public way are used exclusively for residence purposes, or within 50 feet of any such public way, without the written consent of a majority of the property owners according to frontage on both sides of such public way. Such frontage consents shall be filed with the commissioner of [inspectional services] buildings. Provided, however, that such frontage consents shall not be required for a secondhand dealer that deals in only children's products.

SECTION 10. Section 9-124-360 of the Municipal Code of the City of Chicago is hereby amended by deleting the language bracketed and adding the language underscored, as follows:

9-124-360 Construction and location of stations.

In all cases where the distance between consecutive stations or landing places for receiving and discharging passengers on any line of elevated railroad operated for the transportation of passengers is more than 2,500 feet, the person owning or operating such line of elevated railroad shall install and maintain an intermediate station or landing place for receiving and discharging passengers and shall afford to the public at such intermediate station or landing place the same facilities for entering and departing from cars as are afforded at other stations or

landing places similarly situated along the same line. Provided, that nothing herein contained shall be construed as limiting or restricting the right to run express trains over such line which do not stop at all stations.

Such intermediate station or landing place shall be located at or near a public street which crosses such line of electric elevated railroad and which is situated as near as practicable equally distant from such consecutive stations. The exact location of such intermediate station may be prescribed by order of the city council; provided, that it shall be not more than 250 feet from the center of the distance between such consecutive stations. Whenever the location of any such intermediate station or landing place for receiving and discharging passengers shall be prescribed by order of the city council the person owning or operating such line of an elevated railroad shall have 90 days' time within which to construct and install such intermediate station or landing place for receiving and discharging passengers during which no prosecution for failure to install and maintain same shall lie.

Wherever an intermediate station or landing place for receiving and discharging passengers as required by this section shall occupy any part of a public way, either on the surface thereof or overhead, before any work of construction shall begin, plans for same shall first be submitted to and be approved by the commissioner of streets and electricity and the [commissioner of buildings] executive director of the department of construction and permits. In all cases such intermediate stations or landing places shall be constructed so as to comply with all ordinances of the city relating to buildings or structures of this character.

10-28-075 Grants of privilege in the public way.

All grants of privilege in the public way issued by the City of Chicago (for purposes of this section, "privilege") shall be subject to the following terms, unless a specific privilege explicitly states otherwise:

(a) Each privilege and the structures and appliances authorized by the privilege and this section shall be maintained and used in accordance with all applicable laws, including the ordinances of the City of Chicago, and the directions of the commissioner of streets and sanitation, the [commissioner of buildings] executive director of the department of construction and permits, the commissioner of transportation and the director of revenue. The grantee shall keep that portion of the public way in, over, under or adjacent to said privilege in good condition and repair, safe for public travel, and free from snow, ice and debris to the satisfaction of the

commissioner of streets and sanitation and the commissioner of transportation.

(b) Such privilege is subject to amendment, modification or repeal, and permission and authority granted by the privilege and this section may be revoked by the mayor of the City of Chicago or the director of revenue at their discretion, at any time without the consent of said grantee. Upon termination of the privilege granted, by lapse of time or otherwise, the grantee, without cost or expense to the City of Chicago, shall remove the structures and appliances authorized by the privilege and this section and restore the public way where disturbed by said structures or appliances or by the removal thereof, to a proper condition under the supervision and to the satisfaction of the commissioner of streets and sanitation and the commissioner of transportation and in accordance with the Municipal Code.

(c) In the event of failure, neglect or refusal of the grantee to perform any of its obligations under the privilege and this section, the city may, at its option, either (1) perform such work and charge the cost thereof to said grantee, or (2) determine what the cost of said work shall be and bill the grantee for said cost, or combine the two methods. Immediately upon receipt of notice of such cost, grantee shall pay the city such amount.

(d) Grantee shall be responsible for, and shall pay for the removal, relocation, alteration, repair, maintenance, and restoration of, city-owned structures or appliances located in or adjacent to the public way, including pavement, bridges, subways, tunnels, vaults, sewers, water mains, conduits, pipes, poles and other facilities and utilities, which are necessary or appropriate on account of grantee's use of the public way. The commissioner of streets and sanitation and the commissioner of transportation are authorized, in their discretion, and from time to time during grantee's use and occupancy of the public way until the restoration of the public way, to determine the work which is or will be necessary or appropriate and the cost

involved to perform such work. Said commissioners are authorized to collect a deposit prior to commencing any work and to charge grantee all actual cost for causing all such work to be performed. The decision of said commissioners shall be final and binding. The grantee, upon receiving written notification from either commissioner of the required deposit or the cost of such work, shall immediately pay or deposit such amount as directed by the appropriate commissioner.

(e) The grantee shall furnish to the department of revenue, prior to issuance of the permit for the privilege, a certificate of insurance evidencing coverage in an amount not less than \$1,000,000.00, combined single limit, with said insurance covering all liability, both public liability and property damage, that may result from the granting of said privilege. The certificate of insurance shall name the City of Chicago and its agents and employees as additional insureds and shall also clearly indicate that the privilege being granted is covered by the insurance policy. Certificates renewing such insurance coverage must be furnished to the department of revenue no later than 30 days prior to the expiration of the policy. The aforementioned insurance coverage shall be maintained at all times by the grantee until the structures or appliances described by the permit and this section are removed and the public way is restored as required by the permit and this section.

(f) The permittee(s) shall indemnify, keep and save harmless the City of Chicago, its agents and employees against all claims, liabilities, judgments, costs, damages and other expenses which may in any way arise or accrue against, be charged to or recovered from the city, its agents or employees in consequence of the permission given by the privilege and this section, or any act or thing done or omitted or neglected to be done by the grantee, its agents or employees in and about the construction, reconstruction, maintenance, operation, use or removal

of the authorized structures or appliances or the use, operation or restoration of the public way as required by the permit and this section, including those arising from any personal injuries or deaths or damage or destruction of property.

(g) The permission and authority granted by the privilege shall not be exercised unless and until a permit authorizing such shall have been issued by the director of revenue. Such permit shall be conditioned upon the faithful observance and performance of all of the conditions and provisions of the privilege and this section, including the obligations to indemnify, keep and save harmless the City of Chicago and to provide insurance coverage. Such permit shall not be issued unless and until grantee has filed with the city clerk a written acceptance of the terms and conditions of the privilege and this section, and submitted to the department of revenue evidence of the required insurance coverage and the first year's compensation.

(h) The permission and authority granted by the privilege and this section shall not be assignable except upon the approval of the director of revenue after full disclosure.

and Sections 2 and 4 of Article 1 of the Illinois Constitution of 1970. The recommendation of the committee to approve or disapprove the permit as provided herein shall not be based on the content of the proposed sign. In determining whether to issue an order approving or disapproving a sign the city council shall be bound by the same standards as apply to the committee in making its recommendation. If the city council fails to issue an order disapproving an application for a sign within a 60-day period after the order for the sign is submitted to the city clerk, an order approving the sign shall be deemed to have been issued at the end of such period. The city clerk shall, within two business days, notify the [building commissioner] executive director whenever the city council issues or is deemed to issue an order approving or disapproving a sign permit application. In any event, the [building commissioner] executive director may not take final action on the application until the city council issues or is deemed to issue an order to recommend approval or disapproval of the application. The [building commissioner] executive director however, must take final action on the application no later than 75 days after the order for the sign permit was submitted to the city clerk.

Any person aggrieved by the final decision of the [building commissioner] executive director disapproving an application may seek judicial review of the decision in the manner provided by law.

As used in this section, "legal voter" means a person who has registered to vote and whose name appears on a pole sheet from the last preceding election regardless of whether primary or general.

13-20-730 Notice of non-compliance.

Whenever it shall appear to the [said] building commissioner that any such sign or structure has been erected in violation of the provisions of this chapter or is in an unsafe condition or has become unstable or insecure, or is in such a condition as to be a menace to the safety or health of the public, he shall thereupon issue or cause to be issued a notice in writing to the owner of such sign or structure, or person in charge, possession, or control thereof, if the whereabouts of such person is known, informing such person of the violation of the provisions of this chapter or of the dangerous condition of such sign or structure and directing him to make such alteration or repairs thereto as shall be necessary to make the same comply with the requirements of this chapter and Chapter 18-27 within such reasonable time as may be stated in said notice. If the necessary alterations and repairs are not made within the time period specified, the permit for the sign or structure will be revoked by the [building commissioner] executive director without further notice. The written notice required by this section shall so inform the person to whom the notice is directed.

13-20-740 Posting non-compliance notice.

If the owner of such sign or structure or the person in possession, charge, or control thereof cannot be found or his whereabouts cannot be ascertained, the building commissioner shall attach or cause to be attached to said sign or structure a notice of the same import as that

required to be sent to the owner or person in possession, charge, or control thereof when the owner is known; and if such sign or structure shall not have been made to conform to the provisions of this chapter and placed in a secure, safe, and substantial condition in accordance with the requirements of such notice within 30 days after such notice shall have been attached to such sign or structure, the building commissioner may thereupon cause such sign or structure or such portion thereof as is constructed and maintained in violation of the provisions of this chapter or Chapter 18-27, to be torn down; provided however, that nothing herein contained shall prevent the building commissioner from adopting such precautionary measures as may be necessary or advisable in case of imminent danger in order to place such sign or structure in a safe condition, the expense of which shall be charged to and recovered from the owner of such sign or structure, or the person in charge, possession, or control thereof, in any appropriate proceedings therefore. If the necessary alterations and repairs are not made within the time period specified, the permit for the sign or structure will be revoked by the [building commissioner] executive director without further notice. The written notice required by this section shall so inform the person to whom the notice is directed.

SECTION 19. Section 13-44-190 of the Municipal Code of the City of Chicago is hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-44-020 Submission of consents to [building commissioner] executive director.

Whenever frontage consents are required for the construction of a building or for any

occupation for which a building is about to be constructed or altered, under any section of this code, such frontage consents shall be presented to the [building commissioner] executive director before the issuance of a permit for the erection or alteration of a building for such purposes, unless otherwise expressly provided.

13-44-030 Filing of plat.

No permit shall be issued for the construction or remodeling of any building in any block in which the use of buildings is restricted or regulated by the provisions of this code if such building is designed to be used for conducting therein any business or store, without first requiring the applicant for such permit to file with the [building commissioner] executive director a plat showing the use to which all the property in such block is devoted.

13-44-040 Application for new building--Protest by property owners.

In all cases where an application for a permit is made for the construction of a new building in any square in which a majority of the buildings are used exclusively for residence purposes, or in a square on the opposite side of the street from such square so used for residential purposes, if there shall be filed with the [building commissioner] executive director a protest signed by not less than ten owners of property in such square so used for residential purposes, or in case the ownership of the frontage is in less than 20 persons then if signed by a majority of the owners according to frontage, the [building commissioner] executive director shall withhold the issuance of the permit until the city council shall have ordered a public hearing similar to that required in an act of the general assembly entitled "An Act to confer certain additional powers upon city councils in cities and presidents and boards of trustees in villages and incorporated

towns concerning buildings and structures, the intensity of use of lot areas, the classification of trades, industries, buildings and structures with respect to location and regulations, the creation of districts of different classes, and the establishment of regulations and restrictions applicable thereto," in force June 28, 1921, as amended. For the purposes of this section a square shall be understood to be a plot of ground containing city lots surrounded by public ways, railway rights-of-way, natural boundaries, or public places.

13-44-190 Billboards--Conditions for erection or construction.

No person shall erect or construct any billboard or signboard in any block on any public street in which one-half of the buildings on both sides of the street are used exclusively for residence purposes without first obtaining the consent in writing of the owners or duly authorized agents of said owners owning a majority of the frontage of the property on both sides of the street in the block in which such billboard or signboard is to be erected or constructed. Such written consents shall be filed with the [building commissioner] executive director before a permit shall be issued for the erection or construction of such billboard or signboard.

SECTION 20. Sections 13-52-040, 13-52-060, 13-52-080, 13-52-150, 13-52-190, 13-52-200 and 13-52-240 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-52-040 General structural integrity.

Through accident or misuse, structures may suffer local damage, that is, the loss of load resistance in an element or small portion of the structure. The [department of buildings]

executive director is concerned that buildings and structural systems shall be able to sustain local damage with the structure as a whole remaining stable and not being damaged to an extent disproportionate to the original local damage.

13-52-060 Load tests.

The [buildings commissioner] executive director may require a load test of any construction whenever there is reasonable doubt as to question its safety for the intended occupancy or use.

13-52-080 Dead loads.

Dead loads comprise the weight of all permanent construction, including walls, floors, roofs, ceilings, stairways and fixed service equipment, plus the net effect of prestressing.

(a) Weight Of Materials And Constructions. In estimating dead loads for purposes of design, the actual weights of materials and constructions shall be used, provided that in the absence of definite information, values satisfactory to the [buildings commissioner] executive director are assumed.

(b) American National Standard. Minimum Design Loads for Buildings and other structures, A.N.S.I. A58.1--1982, Appendix Tables A1 and A2, may be referenced for information on dead loads.

(c) Weight Of Fixed Service Equipment. In estimating dead loads for purposes of design, the weight of fixed service equipment, such as plumbing stacks and risers, electrical feeders, and heating, ventilating, and air conditioning systems, shall be included whenever such equipment is supported by structural members.

13-52-150 Live loads not specified.

For occupancies or uses not designated in Section 13-52-090, the live load shall be determined in a manner satisfactory to the [buildings commissioner] executive director. Note: For additional information on live loads, see Appendix, Tables A3 and A4 of the American National Standards A.N.S.I. A58.1-1982 may be referenced.

13-52-170 Impact loading.

The live loads specified in Section 13-52-090 shall be assumed to include adequate allowance for ordinary impact conditions. Provision shall be made in the structural design for uses and loads that involve unusual vibration and impact forces.

(a) Elevators. All elevator loads shall be increased by 100 percent for impact, and the structural supports shall be designed within the limits of deflection prescribed by American National Standard Safety Code for Elevators and Escalators, A.N.S.I./A.S.M.E. A17.1-1981, and American National Standard Practice for the Inspection of Elevators, Escalators, and Moving Walks (Inspector's Manual), A.N.S.I. A17.2-1979.

(b) Machinery. For the purpose of design, the weight of machinery and moving loads shall be increased as follows to allow for impact: (1) elevator machinery, 100 percent; (2) light machinery, shaft- or motor-driven, 20 percent; (3) reciprocating machinery or power-driven units, 50 percent; (4) hangers for floors or balconies, 33 percent. All percentages shall be increased if so recommended by the manufacturer.

(c) Craneways. All craneways except those using only manually powered cranes shall have their design loads increased for impact as follows: (1) a vertical force equal to 25

percent of the maximum wheel load; (2) a lateral force equal to 20 percent of the weight of the trolley and lifted load only, applied one-half at the top of each rail; and (3) a longitudinal force of ten percent of the maximum wheel loads of the crane applied at the top of the rail.

(d) Exception. Reductions in these loads may be permitted if substantiating technical data acceptable to the [buildings commissioner] executive director is provided.

13-52-190 Posting of floor loads.

(a) In every building or other structure, or part thereof, used for mercantile industrial or storage purposes, the loads approved by the [buildings commissioner] executive director, shall be marked on placards of approved design. Such placards shall be supplied and securely affixed by the owner of the building, or his duly authorized agent, in a conspicuous place in each space to which they relate. Application of such placard shall be accompanied by a certification from a registered architect or registered structural engineer that he personally inspected the building and that he computed the safe load in conformity with the provisions of this ordinance. Duplicate placards may be issued to replace lost or destroyed placards without such certification upon payment of a fee in accordance with Section 13-32-320 of this Code, where the department of [buildings] construction and permits has records of the safe floor load limits of particular buildings.

(b) Exceptions -- Posting for floor loads shall not be required in buildings or portions thereof used exclusively for the production and distribution of electricity, gas or steam.

(c) Spaces in garages and parking facilities designed for the use of passenger automobiles only shall be placarded as follows: "This floor to be used for the storage of passenger automobiles only."

13-52-200 Restriction on loading.

The building owner shall ensure that a live load greater than that for which a floor or roof is approved by the [buildings commissioner] executive director shall not be placed, or caused or permitted to be placed, on any floor or roof of a building or other structure.

13-52-240 Special purpose roofs.

Roofs used for promenade purposes shall be designed for a minimum live load of 60 pounds per square foot. Roofs used for roof gardens or assembly purposes shall be designed for a minimum live load of 100 pounds per square foot. Roofs used for other special purposes shall be designed for appropriate loads, as directed or approved by the [building commissioner] executive director.

SECTION 21. Sections 13-56-010, 13-56-150, 13-56-180, 13-56-220 and 13-56-250 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-56-010 Building classifications--Classes designated.

Every new or existing building or part thereof shall, for the purpose of this Code, be classified according to its use or occupancy in one of the following occupancy classes:

Class A, Residential Units.

13-56-250 Auxiliary uses.

Rooms and spaces normally provided and incidental to the principal use of a building and under the same management and control shall be classified as auxiliary uses and shall not be considered as constituting a mixed occupancy.

Auxiliary uses shall not introduce any unusual hazard or danger unless in the judgement of the [building commissioner] executive director such auxiliary use is indispensable to the principal use.

Auxiliary uses, other than legal home occupations licensed under Chapter 4-380, shall be limited to a maximum of five percent of the area occupied by the principal use, provided however, that the [building commissioner] executive director and the fire commissioner may jointly approve auxiliary uses exceeding said five percent of the area of the principal use when in their opinion such auxiliary uses do not unduly increase the hazards. A legal home occupation licensed in accordance with Chapter 4-380 of this Code shall not permanently occupy more than ten percent of the floor area of any single-family residence or 15 percent of the floor area of any unit in a multiple dwelling building; provided, however, that in no instance may one or more home occupations in any single dwelling unit permanently occupy more than 300 square feet of the dwelling unit.

Loading spaces and appurtenant driveways extending more than five feet into a building or structure when used by vehicles with internal combustion engines on any street level floor within industrial units and storage units one story in height, shall be limited to 20 percent of the floor area of the principal use, and shall be separated from the principal use by a loading platform, curb, railing or other fixed barricade. The vehicles with internal combustion engines using such loading spaces and appurtenant driveways shall not remain inside the building for a

longer period than necessary for loading or unloading and while inside the building shall at all times be under control of the driver.

Spaces classified as auxiliary uses shall comply with the applicable requirements of this Code pertaining to the specific use but not require the special separations as established in Section 13-56-280 and shall not govern height or area limitations as established for the principal occupancy of the building.

SECTION 22. Section 13-76-060 of the Municipal Code of the City of Chicago is hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-76-060 Mechanical ventilation.

(b) Business. In a nonfire side compartment, the mechanical system shall be designed to operate the supply with a minimum of 40 percent of its capacity to be outside air. In a fire side compartment a mechanical system shall be designed to shut off the supply system and allow the exhaust to operate at 100 percent of its capacity. All recirculation dampers are to be shut.

Controls are to be operated by heat detectors and approved products of combustion detectors as required in Section 13-76-040 of this Code.

(c) Mercantile Industrial and Storage. See Sections 13-76-020 and 13-76-100(b) of this Code;

(d) Institutional and Assembly. Mechanical systems are to be designed to maintain a positive differential pressure from the nonfire side compartment as approved by the department of [buildings] construction and permits and fire department. Controls are to be operated by approved products combustion detectors.

SECTION 23. Sections 13-84-400, 13-84-410 and 13-84-420 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

The owner, lessee or person in charge of every theater, public assembly unit or open air assembly unit shall submit to the department of buildings and the department of construction and permits a diagram indicating the arrangement and number of tables, chairs or seats, and dimensions of dancing space, stages, platforms, aisles and means of exit.

The diagram shall also show the amount and type of scenery permitted on the stage or platform, if there be a stage or platform, and the total yardage of decorations permitted to hang in the audience room or hall. One copy of such diagram, which has been approved by the department of construction and permits, shall be kept on the premises for which the approval has been granted and shall be conspicuously displayed. Another copy thereof shall be filed with the

department of buildings.

(a) In every theater, public assembly unit or open air assembly unit and in every room or in any portion of such units which is used as a place of assembly, there shall be conspicuously posted signs indicating the number of persons who may legally occupy such rooms and space.

Such signs shall read as follows:

Occupancy By More Than _____ Persons Is

Dangerous And Unlawful

[Building commissioner] Executive Director of the Department of Construction and Permits

City of Chicago

(b) Such signs shall be furnished by the department of [buildings] construction and permits and shall be 15 inches in width by 12 inches in height. In locations that require more than one sign, the fee formula shall be based on the aggregate assembly capacity. A supplemental fee of \$10.00 shall be charged for each additional card issued under a single application. \$50.00 shall be charged for the issuance of each replacement card.

(f) The formula for existing assembly units that require one or more cards due to remodeling, alterations, addition, or reconfiguration of the floor plan shall be based solely on such room or space which has been altered.

13-84-420 Building capacity--Approval required.

The number of persons permitted to occupy theaters, public assembly units and open air assembly units shall be as approved by the department of [buildings] construction and permits and shall be in conformity with the provisions of Chapter 13-56 of this Code.

SECTION 24. Sections 13-96-470, 13-96-490, 13-96-650, 13-96-660, 13-96-1030 and 13-96-1110 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-96-470 General requirements.

(a) No person shall erect, occupy or use any tent having a surface area greater than 240 square feet without first obtaining a permit therefor from the department of [buildings] construction and permits. Application for a tent permit shall be made to the [building commissioner] executive director upon such form as shall be provided by him, and shall contain the name and address of the applicant, the proposed location where such tent shall be erected, the length of time the tent shall be in use, the dimensions of the tent and a statement that the permit

will be accepted subject to the conditions and provisions thereof and subject to the conditions and provisions of all laws and ordinances affecting the erection, maintenance and use of such tent now or hereafter in effect. Such application shall be signed by the applicant.

(b) Within three business days after an application for a tent permit is filed, the [building commissioner] executive director shall deliver a duplicate of the application to the alderman of the ward in which the tent is to be erected. Within five days of receipt of such application, the alderman may refer the application to the city council committee on buildings for the purpose of conducting a public hearing on the proposed permit application. The alderman shall give notice of the referral for hearing to the [building commissioner] executive director. The committee chairman shall convene a meeting within seven days from the date the permit application was referred for hearing, during which all interested persons, including the applicant, shall be given an opportunity to present testimony. After conducting the hearing, the committee may issue a report summarizing the issues that were addressed at the hearing and recommending approval or denial of the application. If the committee issues a report it shall be submitted to the [building commissioner] executive director no later than 30 days after the date on which the permit application was filed.

(c) If the committee's report recommends disapproval of the permit application, it shall be based upon a determination that the size, location or structural design of the tent presents an unreasonable threat to the health, safety and welfare of the public. Any committee report recommending disapproval of a permit application must state the specific reasons for the recommendation, which reasons shall be consistent with an applicant's constitutional rights contained in the First, Fifth and Fourteenth Amendments of the United States Constitution, and Sections 2 and 4 of Article I of the Illinois Constitution of 1970. In acting on all applications, the

[commissioner] executive director shall give due consideration to the committee's report, if any, and shall be bound by the same standards as apply to the committee in approving or denying a permit.

(d) The committee's report shall be submitted to the [building commissioner] executive director for final action to be taken on the tent permit application. The [building commissioner] executive director shall issue a permit for the erection of a tent if he determines that the requirements of this section and Sections 13-96-490 and 13-96-500 have been met.

(e) In the event that a hearing is convened pursuant to subsection (b), the [building commissioner] executive director shall approve or deny a tent permit application no sooner than 30 days and no later than 45 days after the date the application was filed. If the application is not referred for a hearing pursuant to subsection (b), the [commissioner] executive director shall approve or deny a tent permit application no later than 15 days after the application was filed. If the [commissioner] executive director denies the application, he shall mail a notification to the applicant in writing specifying the reasons for his decision. Any applicant may seek review of the decision of the [building commissioner] executive director denying a tent permit application in the manner provided by law.

(f) All references to tents in this section shall apply with equal force to canopies as defined in Section 13-96-480.

13-96-490 Assembly occupancy.

Tents and canopies exceeding 240 square feet in area shall require a building permit based on plans submitted to the [building commissioner] executive director, and must be erected by a tent erector licensed by the city. Plans for tents and canopies exceeding 600 square feet in

area must be certified by a licensed architect or engineer. Permits for tents and canopies exceeding 4,000 square feet in area shall be applied for exclusively by the company responsible for erection of the tent or canopy; this responsibility shall not be delegated to any other person. All tents and canopies shall comply with rules and regulations issued by the [building commissioner] executive director and with the following requirements:

(a) Application for permit shall be accompanied by:

(1) A certificate of fire resistance executed by an approved recognized testing laboratory filed with the [building commissioner] executive director certifying that such tent is flameproofed in accordance with National Fire Protection Association Standard N.F.P.A. 701. If the flameproofing as indicated on the certificate is not of the permanent type, the certificate must be dated within 360 days preceding the last date of intended use. If the tent fabric is certified as having been rendered permanently fire resistant during manufacture, or is made of an inherently fire resistant fabric, then the certificate may be dated no earlier than seven years prior to the last date of intended use. The certificate shall indicate the type of fabric, compliance with N.F.P.A. 701, and each tent's unique registration number. Each tent placed in service after the effective date of this amendment shall bear permanent identification of its fabric type, compliance with N.F.P.A. 701 and its unique registration number.

(2) A plan showing the fabric type, construction of the tent or canopy and the location and width of aisles and exits, the number of rows and the maximum seating capacity in each section.

(3) Calculations demonstrating compliance with the wind resistance requirements of Chapter 13-52.

(b) Exit facilities shall comply with all applicable requirements for assembly units.

Exit capacity shall be calculated at 70 persons per unit of exit width.

(c) Standard fire extinguishers, as defined in Chapter 15-16, shall be conspicuously located at each exit.

(d) Tents and canopies shall be located not less than 20 feet from any other building or structure excepting, however, where a covered passageway is desired, a tent or canopy may be connected to a permanent building by means of a canopy.

(e) Temporary toilet facilities shall be provided in accordance with the provisions of Section 13-168-1390.

(f) Permits for all electrical wiring shall be secured in accordance with the provisions of Section 14-12-270.

(g) Exit and emergency lighting shall be provided for all tents exceeding 600 square feet in area that will be in use for 48 hours or longer or have interior partitions. Such tents shall be provided with an emergency lighting system II, as defined in Section 14-48-060. Exit and emergency plans for tents and canopies exceeding 600 square feet in area shall be provided for review by the fire prevention and electrical inspection bureaus, and shall be approved prior to occupancy and use of the tent or canopy structure.

(h) Liquefied petroleum gas tanks shall not be permitted in tents or canopies, or within ten feet of either.

(i) The [building commissioner] executive director may issue a conditional permit for a structure not fully meeting the wind resistance requirements, allowing the structure to be used up to a specified maximum wind velocity.

(j) Notwithstanding any certificate of fire resistance, the deputy commissioner in charge of the bureau of fire prevention may at any time submit tent or canopy fabric to the field

test specified in Chapter ten of N.F.P.A. Standard 701 (1989). Fabric that fails the field test shall not be used in the construction or erection of a tent or canopy.

13-96-650 Permit required.

It shall be unlawful to proceed with the construction, installation, enlargement or alteration of any private residential swimming pool and appurtenances within the city unless permits therefor shall have first been obtained from the [buildings commissioner] executive director, the commissioner of the department of water and the commissioner of the department of sewers.

13-96-660 Drawings, plans and permits.

(a) All drawings and plans for the construction, installation, enlargement or alteration of any private residential swimming pool and appurtenances for which a permit is required shall first be presented to the [buildings commissioner] executive director for examination and approval as to proper location, construction, and use, and thereafter shall be presented to the board of health, the commissioner of the department of water and the commissioner of the department of sewers for submission to the proper officials of those departments for examination and approval with regard to such provisions of this Code as are within the duty of such office to enforce. After said drawings and plans have been examined and passed upon, the same shall be returned to the [buildings commissioner] executive director where they shall be taken up for examination and approval by the [buildings commissioner] executive director.

(b) All plans and drawings shall be drawn to a scale of not less than one-eighth of an inch to the foot, on paper or cloth, in ink, or by some process that will not fade or obliterate. All

distances and dimensions shall be accurately figured and drawings made explicit and complete, showing the lot lines, and including information pertaining to the pool, walk and fence construction, water supply system, drainage and water disposal systems, and all appurtenances pertaining to the swimming pool. Detail plans and vertical elevations shall also be provided in accordance with Section 13-168-040 of this Code.

(c) No person shall construct, enlarge, alter or use any private residential swimming pool and appurtenances until plans have been examined and approved by the board of health, the department of water, the department of sewers and the department of [buildings] construction and permits, and the necessary permits are issued by the department of water, the department of sewers, and the department of [buildings] construction and permits.

(d) All private residential swimming pools, appurtenances, water supply and drainage systems shall be constructed in conformity with the approved plans. If any deviations from such plans are desired, a supplementary plan covering that portion of the work involved shall be filed for approval and shall conform to the provisions of this Code.

13-96-1030 Permits.

The [building commissioner] executive director and the fire commissioner are authorized and directed to approve plans and to issue permits for the construction of parking facilities described herein when, in their judgment, plans and specifications of said parking facilities conform with the provisions of this ordinance.

13-96-1110 Permit required.

It shall be unlawful to proceed with the erection, installation or construction of any

wireless communication antenna tower unless a permit shall have first been obtained from the department of [buildings] construction and permits. No permit shall be required for any wireless communication antenna tower, if such tower:

- (1) Is mounted on a single-family dwelling or a multiple dwelling four stories or less in height; and
- (2) Does not exceed a total unit weight of 100 pounds or three feet in diameter.

SECTION 25. Section 13-108-060 of the Municipal Code of the City of Chicago is hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-120-040 Controlled materials.

Controlled materials as applied to the requirements of this Code means a building, structure, or part thereof which has been designed or constructed under the following conditions:

(a) All controlled materials shall be selected or tested to meet the special strength, durability and fire resistance requirements upon which the design is based.

(b) The design, preparation of working drawings, including details and connections, the checking and approval of all shop and field details and the inspection of the work during construction shall be under the supervision of a registered architect or structural engineer.

The records of all tests, inspections and detail approvals shall be made available to the [building commissioner] executive director at all times during the progress of the work, and such records as he may designate shall be filed with the department of [buildings] construction and permits.

13-120-060 Accepted engineering practice.

The regulations, specifications, standards and tests of the technical organizations which are referred to in this Code are hereby incorporated herein by such reference with the same effect as though set forth. Authenticated copies of all such regulations, specifications, standards and tests shall be kept on file in the office of the [building commissioner] executive director, available for public inspection and use.

13-120-110 Tests of structural assemblies.

(a) When a structural assembly is not capable of design by accepted engineering analysis, or when there is reasonable doubt as to its strength or stability, the safe load-bearing capacity of such structural assemblies shall be determined by tests acceptable to the [building commissioner] executive director.

(b) Such tests shall simulate the loads and conditions of application to which the complete structure will be subjected in normal use.

13-120-130 Workmanship test.

(a) Whenever there is reasonable doubt as to the stability or structural safety of a completed building or structure, or part thereof, for the intended use, the building commissioner or the executive director may require a load test of the building unit or portion of the structure.

(b) Unless otherwise provided for in this Code, the structure under consideration shall be subjected to a superimposed load equal to two times the design live load which shall be left in position for a period of 24 hours. If during the test, or upon removal of the test load, the structure shows evidences of failure, he shall order such reinforcement or modifications deemed necessary to insure adequacy of the structure for the rated capacity; or in lieu thereof, he may determine the

safe load capacity to which the structure shall be limited.

(c) The structure shall be considered to have successfully passed the test if the total deflection does not exceed the theoretical deflection computed by accepted engineering formulae, or if the total deflection exceeds the theoretical value, the structure shall be considered safe for the design load if it recovers 75 percent of the maximum deflection within 24 hours after removal of the test load.

13-120-140 Prefabricated construction.

(a) Definition. A prefabricated assembly is a building unit, the parts of which have been built up or assembled prior to incorporation in the building.

(b) Performance Standards. Prefabricated construction shall comply with all requirements of this Code and with accepted engineering practice as to structural strength, fire resistance, weather resistance, durability, sanitation and other required qualities.

(c) Tests. Tests shall be required as provided in Section 13-120-080. The [buildings commissioner] executive director may also require, when not available from existing authoritative test data, comparative tests of standard types of construction for similar uses.

13-120-150 Exterior wall materials.

(a) Exterior wall surfaces shall be of solid wood, or weather resistant materials not less resistant to moisture absorption than grade MW clay or shale brick as determined by ASTM C-62-97a.

(b) Any concrete masonry unit and mortar used in the construction of any part of any single-wythe exterior wall of any building containing a residential occupancy for which building

plans have been submitted after the effective date of this ordinance:

(1) shall have integral water repellant included in the manufacturing process and all joist-mixed mortar shall have a compatible water repellant added to the mixture; and

(c) Exterior walls constructed of concrete masonry units shall have flashing, weep holes, sealants and caulking which prevent the accumulation of water within the wall assembly and provide a means for draining water that enters the assembly to the exterior so as to prevent moisture from passing beyond the exterior wall cladding or veneer and entering the interior of the exterior wall.

(d) Wall anchors and metal veneers shall be of noncorrosive materials, or shall be protected by corrosive resistant treatment acceptable to the [building commissioner] executive director.

13-120-160 Welded construction.

When welded construction is used the owner or his representative shall furnish to the [buildings commissioner] executive director a certificate from a laboratory of recognized standing certifying that all welding of all structural members was done under its inspection and meets all requirements of the architect's or structural engineer's design drawings and specifications, and further that all welders were certified by a laboratory of recognized standing.

Upon completion of all structural welding operations, the contractor responsible for the fabrication and erection of the structure shall furnish to the [buildings commissioner] executive director a certificate showing that the fabrication and erection of such welded structure, including those welds not inspected by the testing laboratory, have fulfilled the requirements of the architects or structural engineer's design drawings and specifications.

13-124-070 Demolition--Notification of commissioner.

Notice stating the date on which work is to begin shall be given to the [building

commissioner] executive director of at least 24 hours before beginning the wrecking, demolishing or razing of any building or other structure.

13-124-080 Demolition--Procedure.

Work for the wrecking, demolishing or razing of the structural elements of any building or structure shall begin at the top thereof, and each story shall be completely razed or demolished and the material therefrom completely removed before beginning work on the next lower story, unless the applicant for the required permit receives permission from the [building commissioner] executive director to do otherwise. An applicant for such permission, which shall be required for any demolition involving the use of explosives, shall describe the techniques and processes to be used, and the experience and expertise of the contractors and subcontractors who will perform the work. The [commissioner] executive director shall review the application and the nature of nearby buildings, structures and improvements. If the [commissioner] executive director determines that the contractors and subcontractors have sufficient experience and expertise in application of the requested techniques and processes to allow the work to be done safely and efficiently, the [commissioner] executive director shall grant the permission. The [commissioner] executive director may issue regulations defining the minimum levels of expertise to allow demolition work to be done other than from the top story.

13-124-090 Wrecking operations--Time limitations.

All wrecking operations shall be completed within the time set by the [building commissioner] executive director.

13-124-170 Protection requirements--Determination by height.

(a) When a building to be wrecked is located less than 25 feet from the street line, a sidewalk shed shall be provided except under the following conditions:

(1) When the height of the building does not exceed two stories or 30 feet, a barricade located not less than ten feet from the building may be used in lieu of a sidewalk shed.

(b) Walkways and temporary sidewalks shall be not less than four feet wide, inside measurement, except that in congested districts the [building commissioner] executive director may require additional width.

(c) All walkways and temporary sidewalks shall be designed to support a live load of not less than 250 pounds per square foot.

(d) All temporary sidewalks shall be provided with railings and guards of dressed lumber. If such railings and guards are nearer the street curb than four feet, there shall be a guard of dressed lumber on the street side.

(e) When necessary to permit the delivery of materials to basements of buildings in process of erection, temporary sidewalks may be built at a height not exceeding four feet above curb level of the street. Such temporary sidewalks shall have railings on both sides and shall be approached by ramps having a grade of not more than one in eight.

(h) No temporary structures, field offices, construction equipment, materials, signs, displays, ornamentation or similar loads shall be erected or placed upon a sidewalk shed or

construction canopy until plans identifying these loads are submitted to the department of [buildings] construction and permits for review and a building permit is issued, authorizing the construction or loading on top of the shed or canopy.

13-124-200 Anchorage of party walls.

Before a permit is issued for the wrecking of a structure that has one or more party walls in common with one or more buildings, there shall be delivered to the department of [buildings] construction and permits a certificate by a licensed architect or licensed structural engineer to the effect that the adjoining premises do not require anchorage, or if such certificate indicates that anchorage is necessary, the certificate shall be accompanied by a drawing signed and sealed by such architect or engineer and approved by the [buildings commissioner] executive director indicating adequate anchorage of floor and roof joists. The adjoining premises shall be anchored in compliance with such drawing. The written consent of the owner of the adjoining premises permitting the anchorage shown on such drawing shall also accompany the certificate.

13-124-220 Material and personnel hoists--Erection drawings.

Before a permit is issued for a material hoist and/or a personnel hoist for temporary use during construction, erection drawings prepared by a registered structural engineer shall be submitted to the department of [buildings] construction and permits indicating that hoists are supported by an adequate foundation and that the hoist structure is anchored to the building or other structure so as to provide lateral and torsional stability at vertical intervals not exceeding 25 feet.

13-124-230 Material and personnel hoists--Manufacturer's specifications.

Material hoisting and/or personnel hoisting shall comply with the manufacturer's specifications and limitations applicable to the operation of all hoists. Where manufacturer's specifications are not available/or questionable, the limitations assigned to the equipment shall be based on engineering analysis and shall be submitted to the department of [buildings] construction and permits for review and approval.

13-124-400 Bracing of certain structures required.

(a) If any portion of the excavation will be within five feet of any portion of a structure on the property of another, the owner of the property to be excavated or the person performing the excavation work shall reinforce or brace the neighboring structure in order to prevent sagging, settling, cracking or collapse of its foundation and walls. The owner of the property to be excavated shall be responsible for the cost of the reinforcement or bracing. The reinforcement or bracing shall be done in a manner consistent with the provisions of the building code and prescribed by the [commissioner of buildings] executive director in rules. The [commissioner] executive director shall give consideration to the nature of surrounding soil, the depth of excavation, the size of the affected structure and other factors that may be relevant to the appropriate reinforcement or bracing.

(b) If any portion of the excavation will be within five feet of any portion of the public way, the owner of the property to be excavated or the person performing the excavation work shall reinforce or brace that portion of the public way in order to prevent sagging, settling, cracking or collapse. The owner of the property to be excavated shall be responsible for the cost of the reinforcement or bracing.

13-124-420 Insurance required.

No person shall begin or conduct any excavation within five feet of the public way, or within five feet of any portion of a structure located on the property of another, without maintaining in effect a comprehensive liability insurance policy against all claims for damage, death and injury arising from the excavation. The policy shall be in an amount determined by the [commissioner of buildings] executive director, based on the size of the excavation, the proximity, construction and occupancy of structures on adjacent property. In no event shall the amount be less than \$1,000,000.00 per occurrence and the policy shall provide for 30 days advance notice to the City of Chicago prior to cancellation of the policy. Proof of the required insurance shall be submitted as part of the application for the permit for the excavation.

13-124-430 Commissioner may promulgate rules.

The [Commissioner of buildings] executive director may issue rules and regulations for the administration and enforcement of this chapter, including defining acceptable techniques and materials for shoring and reinforcement of structures and the public way within five feet of excavation, and for fencing of excavation within five feet of any walkway. The rules may provide for delegation of enforcement authority to employees of any city department or agency, subject to approval of the mayor. No person shall perform any excavation work in violation of such rules and regulations.

SECTION 29. Sections 13-128-020, 13-128-090 and 13-128-100 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-128-020 Occupancy limitations.

Such occupancy shall be limited to the storage and handling of building materials, the construction of temporary sidewalks and other uses incident to the erection, alteration or demolition of buildings as approved by the [buildings commissioner] executive director.

13-128-090 Foundations.

Foundations may not project into nor encroach upon public ways except as herein provided. The [buildings commissioner] executive director may issue permits for any building for which it is contemplated that there shall be projections of the foundation or a part thereof into a public way under the following conditions:

- (a) The portions of foundations above a level 20 feet below city datum may project into a public way four and one-half inches per foot of depth below sidewalk or alley grade but not more than 36 inches.
- (b) Except as provided in paragraph (d), in no case shall foundations extend within five feet of the centerline of any public way.
- (c) Except where sub-sidewalk space is permitted, no foundation, or any part thereof, shall project into a public way in such manner as to add to the floor area of any building or structure.
- (d) Portions of foundations, constructed lower than 20 feet below city datum, may project into a public way such distance as the [buildings commissioner] executive director may deem necessary for the stability of the building or structure of which they are a part.

13-128-100 Cornices, belt courses and similar projections.

- (a) Cornices, rustications, quoins, moldings, belt courses, lintel, sills, oriel windows,

pediments and similar projections of a decorative character may project beyond a street line not more than two feet; provided, that every part of such projection is not less than 12 feet above the sidewalk level at any point and that the aggregate area of all such projection does not exceed five percent of the wall area.

(b) When additions to existing buildings are erected, the [buildings commissioner] executive director may permit the extension of existing cornices, moldings and belt courses which do not comply with the requirements of this section but which were legal at the time of the adoption of this Code.

SECTION 30. Sections 13-132-040, 13-132-060, 13-132-140, 13-132-420 and 13-132-440 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-132-040 Soil investigation.

All applications for building permits for (1) the construction of a permanent structure, or (2) for the alteration of a permanent structure involving an increase in load on the foundations, or (3) for the underpinning of a structure, shall be accompanied by a statement from the architect or structural engineer as to the character of the soil, satisfactory to the [buildings commissioner] executive director. Where there is reasonable doubt as to the character or bearing capacity of the soil, the [buildings commissioner] executive director may require such borings, test pits or test loads as may be necessary to determine the actual conditions.

13-132-060 Soil bearing values.

(a) Except when determined by field loading tests or by analysis based on laboratory tests, or both, the maximum allowable pressure on the supporting soils at the bottom of the footings shall not exceed the values established in Table 13-132-060(a) as set out in this section.

Table 13-132-060(a)

Bearing Values of Soils**TABLE INSET:**

Type of Soil	Maximum Pressure Pounds per Square
	Foot
Sand--compact and clean	5,000
Sand--silty and compact	3,000
Inorganic silt--compact	2,500
Clay--very soft	500
Clay--soft	1,500
Clay--stiff	2,500

Hardpan	12,000
Solid rock	200,000
Organic soil	0
Filled ground or loam	500

(b) Exceptions to Allowable Bearing Values.

(1) **Variation in Soils.** Where portions of the foundations of the same structure rest upon soils which vary substantially in bearing value, special provisions shall be made to prevent serious differential settlements which will impair the safety of the structure.

(2) Where the bearing materials directly under a foundation overlie a stratum having smaller allowable bearing values, these smaller values shall not be exceeded at the level of such stratum. Computation of the vertical pressure in the bearing materials at any depth below a foundation shall be made on the assumption that the load is spread uniformly at an angle of 60

degrees with the horizontal.

(3) Subject to the approval of the [buildings commissioner] executive director, bearing values greater than those required in Section 13-132-060 may be used if analysis based on laboratory tests, field loading tests or other pertinent information demonstrate that the greater values will not lead to excessive settlement.

13-132-140 Pile loads determined by driving formula.

For pile loads not exceeding 25 tons for timber piles, nor 40 tons for concrete piles, concrete-filled steel pipe piles and rolled structural steel piles, the allowable pile loads may be determined by the value R obtained by one of the following formulas:

(a) For piles or mandrels whose weight is equal to or less than the weight of the striking parts.

(1) For single-acting steam hammers:

TABLE INSET:

R	=	$\frac{2WH}{3 + 0.1}$

(2) For double-acting and differential steam hammers:

TABLE INSET:

R	=	$\frac{2E}{S + 0.1}$

in which:

TABLE INSET:

R	=	allowable pile load in pounds.
W	=	weight of striking part of hammer in pounds.
H	=	effective height of fall in feet.
E	=	actual energy delivered by the hammer per blow in foot-pounds.
S	=	penetration of pile per blow, in inches, determined under conditions acceptable to the [buildings commissioner] executive director.

(b) For piles or mandrels whose weight is greater than the weight of the striking parts.

(1) For single-acting steam hammers:

TABLE INSET:

R	=	$\frac{2WH}{S + 0.1}$	(1-- 0.1	$\frac{P}{W}$

(2) For double-acting and differential steam hammers:

TABLE INSET:

R	=	$\frac{2E}{S + 0.1}$	(1--0.1	$\frac{P}{W}$

In which:

P = weight of pile or mandrel in pounds. Other terms as defined in (a) above.

13-132-420 Foundation caissons--Inspection and testing.

(a) Continuous full-time inspection of all phases of caisson construction shall be

provided. Each caisson shall be inspected by an experienced inspector. The inspector shall be an employee of the structural engineer or architect who prepared and sealed the design plans, or an employee of a firm engaged in soil and foundation engineering, approved by the structural engineer or architect.

(b) Complete construction records shall be maintained showing all significant information relative to installation. These reports, signed by the inspector and the structural engineer or architect, shall be submitted to the [buildings commissioner] executive director.

(c) When caissons are installed through clay or hardpan, the design bearing pressure shall be confirmed by tests made below the individual caissons, as directed by the structural engineer or architect.

(d) Where caissons are installed to bear on solid rock, the bottom of caisson excavations shall be probed or drilled to a depth as directed by the structural engineer or architect to detect the possible presence of weak zones.

(e) Where water cannot be removed from caisson excavation and water is permitted to rise in the caisson and concrete is placed under water, the structural engineer or architect shall require either core borings or other accepted method of exploration to insure that a satisfactory caisson has been constructed.

13-132-440 Foundation caissons--Construction methods.

The contractor's construction procedures must be submitted to the structural engineer or architect for review and comments, which procedures and comments are thereafter to be submitted to the department of [buildings] construction and permits for inclusion with the permit

records prior to installation of the caissons.

SECTION 31. Sections 13-144-020 and 13-144-070 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-144-020 Material.

All lumber used for load supporting purposes, including edge-jointed or edge-glued lumber, shall be identified by the grade stamp of an approved lumber grading agency or an approved lumber inspection agency certified by the American Lumber Standards Committee and acceptable to the [building commissioner] executive director. In lieu of a grade stamp on the material, a certificate of inspection as to material and grade shall be acceptable for precut, remanufactured or rough-sawn lumber and for sizes larger than three inches nominal thickness and such certificate of inspection shall be issued by a lumber grading agency or a lumber inspection agency approved by the American Lumber Standards Committee.

13-144-070 Treated wood.

(a) Decay. All wood used in conditions conducive to decay shall be either a naturally durable species or pressure-preservative treated wood and where permitted for use as a structural element, design values for untreated lumber shall apply. Pressure-preservative treated wood including plywood shall meet the retention, penetration and other requirements applicable to the species, product, treatment and conditions of use detailed in AWWA P1-91, C2-91, C3-92, C4-92, C9-90, C22-91 and C24-86. Preservatives shall conform to AWWA P1-91, P2-90, P5-91, P8-91

and P9-91. All piles, poles, lumber and plywood which are required to be pressure-preservative treated shall bear the quality mark of an approved inspection agency which maintains continuing supervision, testing and inspection over the quality of the product. Quality control inspection agencies for pressure-preservative treated wood shall be accredited as to competency and performance by the American Lumber Standards Committee or its equivalent and shall be acceptable to the [building commissioner] executive director. Said mark shall include the following information in legible format: identification of the inspection agency; identification of the treating plant; and the purposes for which the product was treated.

(b) Fire-Retardant Wood. This is lumber and plywood as defined in Subsection 15-12-040(f) and shall comply with the requirements of that subsection. When permitted for use as a structural element, design values for untreated lumber shall be adjusted for lumber that is pressure impregnated with fire-retardant chemicals. Adjustments to the design values shall be based upon an approved method of investigation which takes into consideration the effects of the anticipated temperature and humidity to which the fire-retardant treated wood will be subjected, the type of treatment and redrying procedure. The material shall bear the quality mark of an approved agency having a re-examination service, and such quality mark shall show the performance rating of the material. Fire-retardant treated wood shall be dried before use to a moisture content of 19 percent or less for lumber and 15 percent or less for plywood.

SECTION 32. Sections 13-148-040, 13-148-070 and 13-148-100 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

Steel deck construction, using composite cold-formed steel deck concrete slabs and noncomposite concrete slabs on cold-formed steel decks shall be as provided in paragraphs (a), (b), (c), (d), and (e).

- (a) Cold-formed steel decks shall conform to the requirements of the following document: Specification for the Design of Cold-Formed Steel Structural Members. AISI 1968 Edition as Modified by Addendum No. 1, November 19, 1970.

- (b) Structural working drawings, presented to department of [buildings] construction

and permits for approval, and erection drawings of the steel deck supplier must contain a note indicating the construction loading assumed and reflect the effects of continuity used in designing the steel deck.

(1) The steel deck shall be proportioned to withstand the weight of the wet concrete, the weight of the steel deck, and an assumed uniformly distributed construction live load of 20 pounds per square foot without causing maximum stresses exceeding 0.6 times the specified minimum yield strength of the steel deck.

(2) The steel deck shall also be proportioned to withstand the weight of the wet concrete, the weight of the steel deck, and an assumed 200-pound concentrated construction live load for a one-foot width without causing maximum stresses exceeding 0.8 times the specified minimum yield strength of the steel deck.

(c) Where it is determined that the assumed loading criteria shown on the structural working drawings are to be exceeded, the structural engineer and department of [buildings] construction and permits shall be so notified by the concrete contractor. In accordance with Chapter 4-376 of the Chicago Municipal Code, it is the responsibility of the concrete contractor to provide a properly designed supporting system for carrying the actual construction loads.

(d) Deflection due to construction loading shall be limited to $1/180$ of the actual span during construction but shall not exceed three-quarters inches.

(e) The deck shall have adequate bearing and fastening to supporting members to maintain position of deck during construction.

(1) Steel decks shall be attached to supporting beams at the ends of the deck and at intermediate supports by welding and/or mechanical fasteners. When decks are thinner than 20 gauge, weld washers shall be used for puddle welds as necessary to obtain sound welds and

prevent burns.

(2) Steel deck distortions and/or deformations caused by construction methods must be repaired by suitable methods to restore section properties, or the metal deck sections must be replaced prior to concreting operations.

SECTION 33. Sections 13-152-370 and 13-152-410 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-152-370 Special chimneys.

Special low-temperature chimneys constructed of double shells of approved corrosion-resistive metals or alloys with an intermediate air space or of metal, cement-asbestos pipe or other approved corrosion-resistive materials insulated with approved noncombustible materials may be used under the following conditions:

(a) Chimneys shall be so designed and protected as to prevent a temperature rise under the conditions of their use of more than 160 degrees Fahrenheit above room temperature on the exterior surface. Chimneys shall be approved only when the fire resistance, insulation, durability and other necessary qualities of the assembly have been determined by tests satisfactory to the [building commissioner] executive director.

(b) Chimneys may be supported on combustible construction when installed in one-story buildings and passing only through the roof construction or through ceiling and roof construction separated by an unoccupied attic space.

(c) Chimneys and flues approved for specific conditions of use in the Fire Protection

Equipment List, Underwriters' Laboratories, Inc., January, 1959, shall be acceptable as meeting the requirements of this section. The use of other special chimneys meeting the required test standards shall not be precluded.

13-152-410 Types of flues.

(a) Type A Flues. Type A flues shall include chimneys complying with the requirements of this chapter. Type A flues shall be required for:

- (1) Incinerators;
- (2) Appliances which may be converted readily to the use of solid or liquid fuel;
- (3) Boilers and furnaces, except where specific approval is obtained from the

[building commissioner] executive director for the use of vent piping;

(4) All other appliances except approved appliances which produce flue gas temperatures not in excess of 550 degrees Fahrenheit at the outlet of the draft hood when burning gas at the manufacturer's input rating.

(b) Type B Vent Piping.

(1) Type B vent piping shall include approved vent piping of noncombustible, corrosion-resistant material of adequate strength and heat insulating value and having bell and spigot or other acceptable joints. Type B vent piping shall be used only with approved gas appliances which are not required by paragraph (a) above to be vented to Type A flues.

(3) Type B vent piping shall be installed with a clearance to combustible material or construction whether plastered or unplastered, of not less than one inch, provided that for vents

of floor furnaces, water heaters and space heaters such clearance shall be not less than three inches for a distance of not less than three feet from the outlet of the draft hood.

(4) Suitable provision shall be made to prevent mechanical injury to Type B vent piping where it extends through walls, floors or roofs.

(c) Other Vent Piping.

(1) Vent piping of sheet copper of not less than 24 U.S. gauge, or of galvanized iron of not less than 20 U.S. gauge, or of other approved corrosion-resistant material may be used for runs directly from the space in which the appliance is located through a roof or exterior wall to the outer air. Such vent pipes shall not pass through any attic or concealed space nor through any floor or partition.

(2) Vent piping other than approved Type B shall not pass through combustible rooms or walls unless they are guarded at the point of passage by double metal ventilated thimbles not less than six inches larger in diameter than the pipe, or by double metal thimbles not less than four inches larger in diameter than the pipe with the annular space filled with approved noncombustible insulating material; or in lieu of such protection, all combustible material in the wall or partition shall be cut away from the vent pipe a sufficient distance to provide the clearance required from such vent pipe to combustible material. Any material used to close such opening shall be noncombustible.

(3) Clearances from combustible material to gas appliance vent piping other than approved Type B shall be as required for the appliance served as provided in Chapter 13-180.

SECTION 34. Sections 13-160-040, 13-160-269, 13-160-630 and 13-160-650 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed

and inserting the language underscored, as follows:

13-160-040 Exit types--Above or below grade.

Exits from a story above or below grade shall consist of interior stairways except as otherwise required in this section.

(a) Smokeproof Towers. A smokeproof tower may be used in lieu of any required interior stairway. At least one smokeproof tower shall be provided in every building, having a height exceeding 264 feet.

(b) Horizontal Exits. A horizontal exit may be used in lieu of an interior stairway when there is not less than one interior stairway or outside exit in each fire area connected by the horizontal exit, provided that no greater than 50 percent of the exits in any fire area shall be horizontal exits. (c) Escalators. An escalator may be used in lieu of one of three required interior stairways.

(h) Other means of exit such as collapsible escape ladders or other devices, may be

permitted in unusual circumstances and shall comply with such requirements as the [building commissioner] executive director shall prescribe.

13-160-269 Electromagnetic locking devices.

(a) Electromagnetic Locking Devices. In buildings classified as B--Institutional, C--Assembly, E--Business, F--Mercantile, G--Industrial, H--Storage and all hotels in A2--Multiple Dwellings protected throughout by an approved supervised automatic fire detection system or an approved supervised automatic sprinkler system, doors as a means of egress may be equipped with approved, listed electromagnetic locking devices that shall unlock in accordance with the following:

(1) All electromagnetic locking devices within a building shall unlock immediately upon the actuation of the approved supervised automatic fire detection system or the approved supervised automatic sprinkler system.

(2) All electromagnetic locking devices within a building shall unlock immediately upon a trouble signal or abnormal condition in a supervisory circuit of the approved supervised automatic fire detection system or approved supervised automatic sprinkler system inground fault or other condition rendering the system partially or completely inoperative. All electromagnetic locking devices shall remain unlocked until the required fire alarm or sprinkler system is restored to normal operation.

(3) All electromagnetic locking devices within a building shall unlock immediately upon loss of electrical power controlling the electromagnetic locking devices.

(4) All electromagnetic locking devices within a building shall unlock immediately upon loss of normal electrical power of the building.

(5) All electromagnetic locking devices within a building shall unlock immediately upon activation of a manually operated signal switching device located in a required central control station on the premises. The manually operated signal switching device shall be clearly and permanently identified as to its function and shall be readily accessible to qualified building personnel at all times while the building is occupied. Nothing in this paragraph shall prohibit the installation of more than one manually operated signal switching device in any building.

(6) Individual electromagnetic locking devices shall unlock upon the initiation of an automatic irreversible process which will release the electromagnetic locking device within 15 seconds when a force of not more than 15 pounds is applied for one second to the release device; the electromagnetic locking device shall not relock until the door has been opened and returned to the closed position no less than 30 seconds. Any reopening of the door before the end of the 30 second relocking cycle shall restart the 30 second relocking cycle.

(7) Any attempt to exit which exceeds one second shall render the door openable as described herein and shall not be field adjustable. The time delay (15 seconds) and the minimum relocking cycle (30 seconds) shall not be field adjustable. The electromagnetic locking device shall contain no moving parts.

(8) The operation of the release device and the subsequent initiation of the irreversible unlocking process shall activate an audible alarm in the vicinity of the door.

(9) A durable sign having block letters which are one inch in height and 1/8 in width shall be permanently affixed on the door above and within 12 inches of the release device stating: "PUSH UNTIL ALARM SOUNDS. DOOR CAN BE OPENED IN 15 SECONDS."

(b) Multiple Classification/Mixed Use Buildings. Special locking arrangements shall be permitted in buildings which consist of multiple classifications of those listed in subsection

(a) of this section. Special locking arrangements shall not be permitted in buildings which consist, in whole or part, of any classification not listed in subsection (a) of this section.

(c) Release Devices. The release device referred to in subsections (a)(5) and (a)(7) of this section shall consist of conventional types of hardware, whereby the door is released by turning a knob or handle, or pushing against a panic bar. Once the release device is activated manually, the door must unlock within 15 seconds.

(d) Electrical Requirements. Wiring for electromagnetic locking devices shall not occupy the same raceways or enclosures as wiring for required life safety systems, including required fire detection systems and exit/emergency lighting and power systems. Wiring for electromagnetic locking devices may occupy the same raceways and enclosures as "normal" lighting and power systems within a building, or may be installed in separate, dedicated raceways and enclosures. In addition to the requirements of this section, all electrical wiring and equipment installations shall conform to the requirements provided in Title 14 of this Code. Exception: Wiring for electromagnetic locking devices may occupy the same enclosure as required fire detection and sprinkler system auxiliary contact and relay devices upon activation of either the fire detection or sprinkler systems; such auxiliary contacts and relays shall not interfere with the normal operation of any required fire detection system or automatic sprinkler system.

(e) Approval. Special locking arrangement incorporating the use of electromagnetic locking devices shall be installed or utilized with the approval of the [commissioner of buildings] executive director and the deputy commissioner in charge of the fire prevention bureau whose duty it shall be to insure compliance with fire prevention provisions.

13-160-630 Fire escapes.

Fire escapes, when permitted, shall comply with the provisions of Sections 13-160-640

and 13-160-650.

Fire escapes shall not be permitted except where such exits now serve existing buildings and except as approved by the [buildings commissioner] executive director for existing buildings where additional exits are necessary and conditions do not permit the use of more adequate exit facilities.

13-160-650 Fire escapes--Other exits.

Other means of fire escape exit, including ladders or other devices, shall comply with such requirements as the [buildings commissioner] executive director shall prescribe. All metal structural members shall be adequately protected against corrosion and shall be scraped and painted at least once every three years.

SECTION 35. Sections 13-176-080, 13-176-140, 13-176-150, 13-176-160 and 13-176-240 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-176-080 Additional ventilation.

If the air condition in any habitable room becomes objectionable due to causes other than the occupancy by human beings and the [commissioner of buildings] executive director finds that the health and comfort of the human occupants is endangered thereby, additional ventilation by natural or mechanical means, approved by the [building commissioner] executive director shall be provided.

13-176-140 Direct gas-fired makeup air heaters.

A make-up air heater is defined as a heater used to temper air supplied to only an industrial unit, as defined in Section 13-56-140 of this Code, to correct negative pressures caused by exhaust systems. Such a unit is not intended to supply any of the ventilating requirements set forth in Section 13-176-070 or any of the regular heating requirements of the area into which it discharges; separate space heating equipment must be available for this purpose. A direct-gas-fired makeup-air heater is defined as a makeup-air heater in which all the heat and products of combustion generated by the gas burning device are released into the air stream being heated. Each manufacturer of a direct-gas-fired makeup-air heater (hereinafter referred to in this Section 13-176-140 as the "unit") shall submit test-data, results and catalogs, certified by a registered professional engineer, to the [commissioner] executive director for acceptance for use in the city. No unit shall be accepted unless it complies with the following requirements:

(1) Performance:

(a) The unit shall be capable of maintaining the required 70 degrees Fahrenheit minimum discharge air temperature, irrespective of the outside air temperature, down to ten degrees Fahrenheit,

(b) The heated air when delivered from the unit shall contain, at the point of discharge, not more than 25 parts per million of carbon monoxide, not more than 2,500 parts per million of carbon dioxide, and no other contaminants in quantities that would create a health hazard to the occupants of the building;

(c) The unit shall meet these standards under each of the following conditions:

With maximum rated air flow of the unit and maximum rated burner input;

With maximum temperature rise of 110 degrees Fahrenheit and with makeup air throttled

to one-half of the rated air flow or one-half the minimum rated air flow if the unit automatically modulates or varies the volume of makeup-air-flow, to represent severe fouling of the air filters; and

If the combustion system utilizes a pre-mixed gas-air mixture, under normal air flow conditions but with the pre-mixed combustion air reduced to the minimum value which the flame supervision equipment shall permit.

(2) Makeup-air supply:

- (a) The unit shall use 100 percent outside air for the air to be heated;
- (b) The intake velocity at the face of the outside air opening shall be less than 600 feet per minute;
- (c) All air before passing through or over burners shall be filtered to prevent leaves, papers or other objects from being picked up from the outside, ignited and discharged;
- (d) The connection between the outside air intake and the unit shall be in a straight line. If this is not possible, proper turning vanes shall be used that the air is evenly distributed across the face of the combustion area and to prevent stratification.

(3) Combustion system and controls:

- (a) The system must be purged with three or more air changes in the unit and connecting ducts before the pilot can be ignited or main burner valve is allowed to open. The fuel supply shall shut off in the event that flow velocity at the outlet of the unit shall fall below 200 feet per minute;
- (b) There shall be a thermostatic device for normal operation of the gas burner component. Controls shall also be provided to limit maximum and minimum air temperatures. A low temperature limit control in the discharge air stream shall sound an alarm in the event the

discharge air temperature falls below 50 degrees Fahrenheit. A high temperature limit control shall shut off all burners in the event the discharge air temperature rises above 100 degrees Fahrenheit and the system must require a manual resetting and purging to start;

(c) The gas burner and combustion system shall be a modulating type that will operate automatically through a turn-down ratio from maximum to minimum firing rate of not less than ten to one;

(d) All burners must be positively ignited. No runners or flash tubes will be permitted for burner ignition. At normal full air flow the ignition system shall provide for smooth and quick flame ignition;

(e) All burners must be equipped with a flame safety device to insure flame existence. Flame safety controls shall be used which will shut off the fuel supply within four seconds in case of flame failure. Flame safety controls must be of the type that shut the burner system off in the event of internal malfunction of the controls;

(f) Safety devices shall be used to shut off the pilot and main burners in case of any of the following:

Failure of gas/air mixture supply,

Excessively high or low gas pressure,

Instrument or control air pressure failure (when part of unit),

Electrical power failure,

Reduction of makeup-air flow through unit of more than 50 percent, or

Reduction of flow velocity at the outlet of the unit below 200 feet per minute.

(4) Design:

(a) There shall be provision for operation without heating for summer ventilation.

(b) The design and construction of the direct gas-fired makeup-air heater shall include:

Sight glasses or ports, so the burner can be viewed while making adjustments;

Access doors, so that the entire burner is accessible for cleaning or removal.

(c) The unit shall be rated as to its capacity in cubic feet per minute of air raised 100 degrees Fahrenheit in temperature at a given Btu input to the burners. Each unit shall deliver the manufacturer's rating at the established air temperature rise and Btu input.

(d) The basic design of the unit shall be such that design air flow rates through or over the burner flames shall not adversely affect the combustion of the gas at the burner heads.

13-176-150 Infra-red gas-fired self-contained heater unit.

(1) An infra-red gas-fired self-contained heater unit (hereinafter referred to in this section as the "unit") is defined as a heater which is designed for overhead installation and which directs a substantial amount of its energy into the area to be heated and discharges its products of combustion into the space being heated.

This unit is intended for space, area or spot heating without a direct vent or flue connection and is subject to the following requirements:

(a) Each manufacturer of an infra-red gas fired self-contained heater unit shall submit test data, results and catalogs, signed and sealed by a registered professional engineer, certifying that the unit is designed and constructed in accordance with standards prescribed in the United States of America Standards Institute volume Z21-43-1968, for Unvented Gas-Fired Infra-Red Radiant Heaters approved on October 9, 1968, as amended from time to time, to the [buildings commissioner] executive director for acceptance for use in the city.

(b) No infra-red gas fired self-contained heater unit shall be installed for use in the city unless it has been approved by the [buildings commissioner] executive director and a permit for installation of the unit has been issued in accordance with Chapter 13-32 of this Code.

(1) Infra-red gas fired self-contained heater units located in a room or space shall be so operated and maintained that the threshold limit of 50 ppm for carbon monoxide and 5,000 ppm carbon dioxide shall not be exceeded within the room or space.

(2) Infra-red gas fired self-contained heater units may be installed only in building occupancy classes defined in Chapter 13-56 of this Code as Class G Industrial Units, Class H Storage Units and Class J Miscellaneous Buildings, provided that such units are approved for such specific uses in accordance with the Standards of the American Gas Association and the American Insurance Association.

(3) Installation of infra-red gas fired self-contained heater units shall be subject to the following additional requirements:

(a) In buildings where natural ventilation is in compliance with the requirements of Chapter 13-176 of this Code, gravity R.O. as defined in Section 13-176-050 of this Code will be permitted provided there is a maximum ratio of ten BTU per hour input per cubic foot of room volume and provided there is mechanical exhaust ventilation of four CFM for each 1000 BTU per hour.

(b) In buildings where natural ventilation does not meet the requirements of Chapter 13-176 of this Code or where a maximum ratio of ten BTU per hour input per cubic foot of room volume does not prevail, additional mechanical supply and exhaust shall be provided at a rate of four CFM for each 1000 BTU per hour input by the infra-red gas fired self-contained heating unit.

(c) Exhaust fans shall be located at a high point above the heaters in the heated space. Fixed relief openings may be located in openings in walls, areaways, or roofs but shall be located so as to prevent drafts to the occupants of the room and be provided with devices to deflect or diffuse the air currents.

(d) Natural ventilation or separate independent mechanical ventilation systems shall be provided for all rooms or spaces employing these units to comply with 'room purpose' as authorized in Chapter 13-176, Section 13-176-070, Tables A and B of this Code.

(e) Any room or space where these units are employed shall have an average mean ceiling height of not less than 12 feet.

(f) In no case shall bottom of the unit be less than ten feet above the floor, and the unit shall be installed with clearances in all directions in accordance with Standards as published in Underwriters Laboratories, Inc. "Gas and Oil Equipment List," Current Edition, and in American Gas Association's "Directory of Certified Appliances and Accessories," Current Edition.

(g) All units shall be equipped with automatic flame safeguard devices.

(h) No manually operated units shall be permitted.

(i) No portable infra-red gas self-contained heater units shall be permitted.

(j) Mechanical ventilation systems used in conjunction with infra-red gas fired self-contained heater units shall be interlocked with the unit or units so that the unit or units can be in operation only when the mechanical ventilating system is in operation.

(k) Infra-red gas fired self-contained heater units shall not be permitted in areas where any flammable vapors or mixtures of vapors that contain any chemicals of the chlorinated hydrocarbon type and other vapors or dusts which when in contact with open flame may produce

a hazardous or dangerous condition.

13-176-160 Structural requirements of mechanical systems.

The material used as air ducts in every mechanical ventilating air supply system and in exhaust systems shall be sheet metal, except for vertical shafts as hereafter provided. Materials other than sheet metal may be used only when approved by the committee on standards and tests. Ducts which are constructed, braced and reinforced in accordance with the Duct Construction Standards of the Sheet Metal and Air Conditioning Contractors National Association (S.M.A.C.N.A.) or in accordance with the Guide and Data Books of the American Society of Heating, Refrigeration and Air Conditioning Engineers (A.S.H.R.A.E.) shall be deemed in compliance with this section.

The design and construction of all equipment and the weight and bracing of all work shall be such as will operate under all conditions without causing vibration. Ducts and acoustical duct lining shall be substantially air tight. Duct covering and lining shall conform with the National Fire Protection Association (N.F.P.A.) Standard 90-A-1972, paragraph 2-1.3.

Vertical shafts used for supply or exhaust of air shall be constructed of sheet metal or other material or combination of materials as approved by the [commissioner of buildings] executive director provided that the following requirements are met. Vertical shafts constructed of masonry or gypsum board shall have walls with a two-hour fire resistance rating in accordance with the Standard for Fire Tests of Building Construction Materials UL-263-1980. The facing of the fire-rated assembly exposed to air flow shall have a maximum of Class 1 flame spread rating and a smoke developed rating not to exceed 50, in accordance with Chapter 15-12 of this Code. The shaft shall be used exclusively for supply or exhaust air, which is permitted to be

recirculated under the provision of the code, and may not be used for any other purpose.

Vertical shafts used for supply or exhaust of air shall be constructed to withstand full horizontal loads that may be imposed, but not less than required by Section 13-52-320 of this title.

13-176-240 Ventilation plan approval.

(a) Plans shall be submitted with permit applications for approval and shall show major details of proposed ventilation systems with air-quantities computed according to the requirements of Section 13-176-070 of this Code. Such plans, except for structural provisions or alterations, may be certified and sealed by a professional engineer registered in the State of Illinois.

(b) If plans submitted for permit approval include a direct-gas-fired makeup-air heater, the applicant shall certify that such model of direct-gas-fired makeup-air heater has been accepted by the [commissioner] executive director of the department of construction and permits for use in the City of Chicago as provided in Section 13-176-140 of this Code.

SECTION 36. Sections 13-180-200 and 13-180-210 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-180-200 Application.

An application for a permit to install or connect any water heater shall to be filed with the [buildings commissioner] executive director upon a form furnished by [said commissioner] him

or her containing the name of the applicant, the street number of the building in which the water heater is to be used (and if the building is an apartment building, the location of the apartment), the floor plan of the room, the proposed position of the water heater, the location of the plumbing fixtures, the location and dimensions of the door and window openings, and the course of the gas duct or ventilating pipe to the outer air or to a chimney connection. No permit shall be issued until such application is approved by the [buildings commissioner] executive director.

13-180-210 Permit issuance and fees.

The [building commissioner] executive director shall issue a permit upon the payment of a fee of \$40.00 for every water heater to be installed or connected. The receipt for the payment of said fee, together with the approved application, shall constitute the permit required for such installation or connection.

SECTION 37. Section 13-184-130 of the Municipal Code of the City of Chicago is hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-184-130 Permits and fees.

(1) It shall be unlawful for any person to construct, replace or install any warm-air-heating furnaces or appurtenances thereto within the city without first obtaining from the [building commissioner] executive director a permit to do such work, for which said person shall pay to [said building commissioner] the executive director, for the use of said permit, \$60.00 for each furnace installed.

Before a permit to install a forced warm-air-heating plant is issued, a diagram of the premises and estimate of the type of furnace to be used and sufficient information showing that all provisions of this Code are being complied with including the details of the mechanical devices for moving or forcing warm air shall be filed with the [building commissioner] executive director. Provided, however, that permission to install a warm-air-heating plant shall not in any manner approve the installation of same until after tests of same have been made to the satisfaction of the building commissioner.

(2) No heating permits shall be required for minor repair work. By minor repair work is meant the incidental repairs to furnaces, which shall not affect the general action of the system, such as renewal of grates, smoke pipes and resetting old furnace in same location; or renewing of single warm-air pipes in basement; but when additional runs or new stacks are installed, a permit shall be required, for which the person installing said additional runs or new stacks shall pay to the [building commissioner] executive director, for the use of the City of Chicago, the sum of \$20.00 for each permit.

SECTION 38. Sections 13-192-020, 13-192-030 and 13-192-720 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-192-020 Definitions.

The terms used in this chapter are defined as follows:

"Absorber" (adsorber)" means that part of the low side of an absorption system used for absorbing (adsorbing) refrigerant in the vapor phase.

"Absorption (adsorption) system" means a closed cycle refrigeration system in which the vapor evolved in the evaporator is taken up by an absorber or adsorber.

"Accumulator" means a pressure vessel, located in the low-pressure section of a refrigeration system; the purpose of which is to temporarily store flood-back surges of liquid refrigerant.

"A.N.S.I." means American National Standards Institute.

"Approved" means the sanction and endorsement by the [buildings] building commissioner or the executive director under the provisions of the code or the rules adopted thereunder.

(The remaining portions of this Section are not affected by this ordinance, and are not shown here for editorial convenience.)

13-192-030 Applicability.

This chapter shall apply to refrigeration systems installed subsequent to its adoption, and to parts replaced or added to a system installed prior to or subsequent to its adoption. The [buildings commissioner] executive director may grant exceptions from the literal requirements of the chapter, and permit the use of other devices or methods, but only when it is clearly evident that equivalent protection is thereby secured.

13-192-720 Installation or alteration permit required--Plans and specifications filing required.

Before any owner or agent shall proceed with the installation or alteration of any mechanical refrigeration system, such owner or agent shall obtain a permit for the work. No

refrigeration system shall be installed, erected or maintained, nor shall any reconstruction of old apparatus or old systems for mechanical refrigeration or cooling purposes be undertaken, unless plans and specifications shall be filed in the office of the department of [buildings] construction and permits and approved by the [commissioner] executive director. The plans and specifications shall show the kind and amount of refrigerant used. Upon approval of the plans, a duplicate set of which shall be left on file in the department of [buildings] construction and permits, and the payment of the required fees, the [buildings commissioner] executive director shall issue a permit for the installation of the apparatus. No permit shall be required for emergency repairs.

SECTION 39. Section 13-196-040 of the Municipal Code of the City of Chicago is hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-196-040 Floor loading.

Every existing building shall be so constructed and maintained as to support safely the loads prescribed in Chapter 13-52 of this Code, except that in building of mercantile, industrial or storage occupancies the department of [buildings] construction and permits and fire commissioner may permit occupancy of buildings having lower load-bearing capacity, when satisfied that such capacity will not be exceeded by the specific occupant. Such approved floor loads shall be posted as required in Section 13-52-190.

In buildings where the safe load-bearing capacity is in doubt, owing to deterioration of materials or other reasons, the building commissioner and fire commissioner shall require load

tests to determine the safe bearing capacity. Such load tests shall comply with the requirements of Section 13-120-110.

SECTION 40. Sections 13-200-060, 13-200-100, 13-200-110, 13-200-170, 13-200-300, 13-200-330 and 13-200-440 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

13-200-060 Types of structures not permitted--Exceptions.

- (f) A building occupied as a private garage, not more than one story in height nor

more than 500 square feet in area, located on the same lot with a dwelling, provided that such building shall be placed at least three feet from the lot lines of adjoining property;

(g) Buildings of unprotected noncombustible construction, except when used for a hazardous occupancy, not exceeding 5,000 square feet in area when used for a business occupancy, not exceeding 5,000 square feet when used as a gasoline filling station, or 1,000 square feet in area when used for other occupancies, nor more than one story in height, and having horizontal separation of not less than 12 feet on all sides. Walls having a horizontal separation of less than 12 feet shall have a fire resistance rating of not less than one hour;(h)

Buildings of unprotected noncombustible construction having a horizontal separation of 30 feet on all sides. Walls having a horizontal separation of less than 30 feet but not less than 12 feet shall have a fire resistance rating of not less than one hour. Walls having a horizontal separation of less than 12 feet shall have a fire resistance rating of not less than two hours;

(i) Greenhouses not exceeding 400 square feet in area and not more than 15 feet in height erected on the same lot with and accessory to a building of another occupancy;

(j) Sheds open on the long side, not more than 15 feet in height nor more than 400 square feet in area, located at least ten feet from buildings and from adjoining lot lines;

(k) Porches, piazzas, or balconies on dwellings, not exceeding ten feet in width or extending more than three feet above the second-story floor beams, provided that no such structure shall be located nearer than three feet to an adjacent lot line or be joined to a similar structure of another building. Porches, piazzas or balconies may be replaced in the same location with construction of the same type as the existing porch, piazza, or balcony, irrespective of their proximity to interior lot lines or other buildings on the same lot, provided that all zoning requirements are met;

(l) Roofs over parking lots and bus stations, of unprotected noncombustible construction, where the roof is at least ten feet above the floor, and every 40 feet there is an open roof ventilation area six feet wide extending either the full length of the roof or the full width of the roof;

(m) Display signs as permitted in this Code;

(n) Cooling towers as permitted in Section 13-96-430.

13-200-100 Historic preservation.

When authorized by the [building commissioner] executive director, any repairs, alterations and additions necessary for the preservation, restoration, rehabilitation or continued use of a building or structure may be made without conforming to all of the requirements of this Code when:

(a) The building or structure has been recommended for designation by the Commission of Chicago Historical and Architectural Landmarks as designated by the city council as a "Chicago Landmark" having special historical or architectural significance;

(b) Any unsafe conditions are corrected in accordance with approved plans. Unsafe conditions include those which in relation to the existing use constitute a hazard to safety, health, or public welfare, either within the building itself or to adjacent buildings, by reason of inadequate maintenance, dilapidation, obsolescence, fire hazard, disaster damage, or abandonment;

(c) The restored building or structure will be no more hazardous based on life safety, fire safety and sanitation than the existing building.

13-200-110 Commission on Chicago historical and architectural landmarks.

The commission on Chicago historical and architectural Landmarks shall examine and advise the [building commissioner] executive director whether the proposed work meets with its approval for all applications for building permits for alterations, additions, repairs or demolition of any building or structure designated as a "Chicago Landmark" or located within a Chicago landmark district. Such examination shall be made after application for the permit is filed but before review by the department of [buildings] construction and permits. This examination shall be based on the appropriateness of the proposed work in relation to the spirit of the landmarks ordinance and consistent with the most recent guidelines available from the commission on Chicago historical and architectural landmarks. In cases where the proposed work would remedy conditions imminently dangerous to life, health, and property, the commission shall approve the permit application for emergency repairs notwithstanding other considerations relating to its status as a "Chicago Landmark."

13-200-170 Requirements for a change of occupancy to any other than residential.

When the occupancy of an existing building is so changed as to transfer it from one occupancy classification to another, the [building commissioner] executive director shall first determine whether the change results in a lesser, equal, or greater hazard in accordance with Table 13-200-170. The occupancy classification shall be evaluated relative to the last known legal occupancy of the building.

13-200-300 Alterations and repairs.

In alterations or repairs to an existing building, all new construction shall comply with the applicable provisions of the code for new construction, except as follows:

(a) The department of [buildings] construction and permits may approve minor nonstructural additions, alterations, or repairs using materials conforming to those with which the original building was constructed, providing they have the required strength and fire resistance.

(b) Officially designated historical buildings or structures shall meet the requirements of Section 13-200-100 "Historic preservation."

(c) Buildings which will undergo a change of occupancy in conjunction with the alterations or repairs shall also meet the requirements of Sections 13-200-120 through and including 13-200-200 "Change of occupancy."

(d) Residential buildings which will increase the number of legally established dwelling units shall also meet the requirements of the Sections 13-200-210 through and including 13-200-240 "Increase in number of dwelling units."

(e) In buildings containing not more than three dwelling units, basement recreation rooms not used for sleeping purposes may comply with the following minimum requirements when smoke detectors complying with Sections 13-196-100 through and including 13-196-160 are provided in each dwelling unit in the building and in that portion of the basement used as a recreation room:

(1) Exterior walls of masonry or concrete construction may be furred with wood no larger than two inches by four inches. Paneling may be applied directly to this furring provided the paneling is not more combustible than wood.

(2) Partitions shall have a fire rating not less than one-half hour or may consist of wood studs covered one or both sides with paneling not more combustible than wood, provided the length of the interior partitioning shall not exceed the width of the basement plus ten feet.

(3) The ceiling finish in any basement recreation room shall have a flame-spread rating not to exceed Class I (0 to 25).

13-200-330 Exit requirements.

Every building shall have not less than the minimum number of exits prescribed in Section 13-160-050, with the following exceptions:

(a) In existing buildings where exits do not comply with the requirements of Chapter 13-160 and in which hazardous conditions exist because of the number or location of exits, the [building commissioner] executive director may order additional exits to insure adequate life safety of the occupants.

(b) Fire escapes may be permitted where such exits now serve existing buildings and may be added to existing buildings when additional exits are necessary, if conditions do not permit the use of more adequate exit facilities.

(c) Other means of fire escape, such as ladders or other devices, may be permitted in unusual circumstances and shall comply with such requirements as the [building commissioner]

executive director shall prescribe.

(d) In existing multiple dwellings, one exit shall be permitted from the basement, first or second story, provided that:

(1) The enclosed area of such floor or basement space is separated from all other areas by partitions of one hour rating;

(2) The enclosed area does not exceed 800 feet;

(3) The exit serves only one family on each story or basement, except that an exit from the basement or first story to grade may be shared by more than one unit.

13-200-440 Archaic materials.

Materials already existing in older buildings which have not been tested in accordance with contemporary standards may be acceptable, if they meet the National Institute for Building Sciences "Guideline on Fire Rating of Archaic Materials and Assemblies" for the rating as required. The NIBS guidelines list a large number of common archaic assemblies of materials for walls, columns, floors and ceilings, beams, and doors with recommended fire resistances in hours. The guidelines describe how to evaluate any archaic material assembly which is not listed or tested. This standard, which is available for reference at the department of [buildings] construction and permits, should be consulted for any questionable existing archaic assembly which is required by code to meet a specific fire resistance. It may also be used in those cases where it is desirable to install an archaic material with a required rating to match an archaic material already existing elsewhere in the building. Such archaic assemblies do not have to be brought before the building board of appeals to be acceptable if the appropriate standards are referenced on the permit application.

SECTION 41. Sections 15-4-252 and 15-4-410 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

15-4-252 Lumberyards and lumber storehouses.

(a) A hazardous materials license, as specified in Section 4-115-010, shall be required to conduct or operate a lumberyard or lumber storehouse.

Included hereunder, but not limited hereby, shall be all lumberyards, lumber storehouses and other places where new, used, finished or unfinished lumber, timber, wood (except firewood), wooden boxes, wooden barrels, veneers, plywoods, flex woods and the like, in excess of 5,000 feet, are kept, placed, stored or piled for sale or use, other than lumber for use in the repair, erection or construction of buildings or improvements incident to the land on the premises where so kept, placed, stored or piled on the premises immediately adjacent thereto.

(b) It shall be unlawful to conduct or operate any lumberyard or lumber storehouse, or to pile or store lumber or any of the aforementioned wooden articles in any lot or plot of ground, without first obtaining the written consents of property owners representing the majority of the total frontage of any lot or plat of ground lying wholly or in part within limits 150 feet distant from and parallel to the boundary of the lot or plot of ground upon which said yard or storehouse is to be established or maintained; provided, however, that for the purpose of this section, only the frontage of any such lot or plot of ground as comes within the 150 foot limits herein prescribed shall be considered; and provided further, that any and all petitions containing such consents of property owners shall be based on and contain the legal description of the property affected and the date of signature. Whenever the lot or plot of ground in which said yard or

storehouse is to be established is in any shape other than a rectangle, the 150 foot limiting line aforementioned shall not exceed in distance 150 feet from any point in the boundaries of such lot or plot of ground. Such written consents shall be obtained and filed with the [building commissioner] executive director of the department of construction and permits before a license is issued hereunder.

(c) It shall be unlawful for any person to establish within 200 feet of a school, church or institutional building, a lumberyard where lumber, either new or old, is sold, or is stored for seasoning or drying; or a box yard where wooden boxes either new or old are stored, sold, manufactured or repaired; or a barrel yard where wooden barrels, either new or old, are stored, sold, manufactured or repaired.

(d) It shall be unlawful for any person to pile or to maintain a pile of lumber, either new or old; wooden boxes, either new or old; wooden barrels, either new or old; and other materials of like combustible nature for the purpose of selling, storing, manufacturing, drying or seasoning, within 150 feet of any building or within 25 feet of any fireproof or brick building, unless the roof of the brick building shall be of fireproof construction, and all exposed windows, doors and other openings in both brick or fireproof buildings are fitted and protected with approved fire-resisting wired glass and metal sash and frames, or all windows and other openings are equipped with metal-clad shutters or doors.

No lumber, boxes or barrels shall be piled in excess of 20 feet in height. If the area covered be in excess of 1,000 square feet, it shall be divided into areas of 1,000 square feet or less by aisles or passageways at least 48 inches wide.

15-4-410 Application and permit.

Before installing a permanent fixed liquefied petroleum gas tank greater than 2,000

gallons individual water capacity or when the aggregate water capacity exceeds 4,000 gallons, the owner, lessee or agent of the premises where the tank is to be installed shall file with the bureau of fire prevention a written application for permission to install said tank. The application shall set forth the location of the tank, the purpose for which the gas is to be used, the nature of occupancy, the dimensions, specifications and capacity of the tank and such other information as may be required. The application shall have affixed a statement, signed by the installer, stating that the tank, devices, equipment and safety clearances conform to the provisions of this Code. Attached to the application shall be a plat, drawn to scale, showing the location of the tank, all adjoining streets, alleys, railroads, building, occupancies and premises within 300 feet of the tank.

For installation of systems utilizing containers 2,000 gallons water capacity or less or 4,000 gallons aggregate capacity or less, the following procedure should be followed. A supplier having a valid liquefied petroleum gas supplier's certification as hereinafter provided shall file within three days with the division marshal in charge of the bureau of fire prevention a certification that the system and its installation complies with the requirements of this Code. The system can be filled and used upon the filing of such certification.

If the tank is designed in accordance with the American Society of Mechanical Engineers Boiler and Pressure Vessel Code, Section VIII Unfired Pressure Vessels, the division marshal shall, upon receiving the application and plat, submit the application to the department of [buildings] construction and permits for zoning approval, and for approval of the tank and all equipment subject to pressure.

Upon receipt of the approval of the department of [buildings] construction and permits, if

required. the director shall make, or cause to be made, an inspection of the site where said tank is to be installed to determine whether or not said location provides the safety clearance required by Chapter 15-26. Upon satisfactory evidence that the site, tank and equipment as described in the application, specifications and plat conform to the provisions of the chapter, the division marshal shall issue to said applicant a permit for the installation of the tank. Upon the completion of the installation and before any liquefied petroleum gas has been put into the tank or container, the applicant shall notify in writing the department of buildings and the bureau of fire prevention that the installation is ready for final external inspection. Upon receipt of the reports from the aforesaid department and the bureau that the installation has been approved, the director shall issue to the owner, lessee or agent or other person in charge of the property, a certificate stating that the installation conforms to the provisions of this Code.

The department of buildings shall make an external inspection of each liquefied petroleum gas tank and equipment, which they originally approved, every year to determine their satisfactory condition for the purpose for which it is used.

All tanks, cylinders, containers, valves, piping, devices and equipment for such gas shall conform to the requirements given in the National Fire Protection Association's Pamphlet 58 entitled "Liquefied Petroleum Gases, 1972 Edition," unless specifically covered in Chapter 15-26 of this Code.

15-8-320 Porches.

A porch shall be defined as in Section 13-4-010 of this Code. Porches constructed of combustible materials shall be permitted when attached to residential units of Types III-B, III-C, IV-A or IV-B construction with the following limitations:

- (a) Porches shall not exceed three stories in height.
 - (b) Porches shall not project more than ten feet from the building nor exceed 150 square feet in area per dwelling unit, exclusive of stairs.
 - (c) Porches shall not be located less than six feet from an interior lot line, except that porches meeting requirements (a) and (b) of this section may be located as close as three feet from an interior lot line if the porch side walls are fire-rated at one hour or more.
- Exception: Pre-ordinance porches (erected prior to January 20, 1950) not exceeding four stories in height and erected less than six feet from interior lot line may be replaced with respect to height, size and location, subject to approval of the [building commissioner] executive director of the department of construction and permits.

15-8-520 Skylights and monitors.

- (a) Sashes and frames of skylights which are inclined more than 30 degrees from the vertical shall be constructed of noncombustible materials, except, as provided by the [buildings commissioner] executive director of the department of construction and permits, in buildings where acid fumes deleterious to metal are incidental to the use of the building.
- (b) All skylights, except in greenhouses, shall be glazed with wired glass having no single pane exceeding 720 square inches in area or 48 inches in any dimension.
- (c) Walls of skylights and monitors shall be of construction not less fire-resistant than

required for the roof on which they are erected; provided, however, the walls which extend more than ten feet above the roof shall be constructed of noncombustible materials.

SECTION 43. Sections 15-12-040, 15-12-270, 15-12-280 and 15-12-290 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

15-12-040 Definitions.

- (a) "Combustible material" means a material which will ignite when heated to a temperature at or below 1,200 degrees Fahrenheit.
- (b) "Fire resistance," as applied to building materials and construction, means the ability to withstand fire or give protection from it for given periods under prescribed test conditions.
- (c) "Fire-resistive rating" means the degree of fire resistance of a fabricated unit or assembly of units of construction, determined by the standard fire test expressed in hours or fractions of an hour.
- (d) "Flame-spread rating" means the degree of flame resistance of materials used for interior finish and trim or for decorative purposes determined by the rate of flame spread in the standard tunnel test.
- (e) "Noncombustible material" means a material which will not ignite when heated to a temperature of 1,200 degrees Fahrenheit.
- (f) "Fire-retardant-treated wood" means lumber or plywood that has a Class I rating when tested in accordance with ASTM E-84, UL 723, or NFPA 255 for a period of 30 minutes

and which, at no time during the period of the test, shows evidence of significant progressive combustion or experiences progress of the flame front more than 10 ½ feet beyond the centerline line of burner. Each piece of fire-retardant-treated wood shall be identified at two-foot intervals by a label or a stamp of an approved agency acceptable to the [building commissioner] executive director of the department of construction and permits and the fire prevention bureau having an inspection service, and further by the marking of a continuous double line between the labels or stamps. Where fire-retardant-treated wood is to be subject to sustained high humidity or exposed to the weather, it shall be further identified to indicate there is no increase in listed fire hazard classification when subjected to "The Standard Rain Test" (ASTM D-2898-81).

15-12-270 Class A roof coverings.

Class A roof coverings shall be of material approved by the [building commissioner] executive director of the department of construction and permits after satisfactory evidence that it is effective against severe fire exposures. Under such exposures, Class A roof coverings shall not be readily flammable; shall not carry or communicate fires; shall afford a fairly high degree of heat insulation to the roof deck; shall not slip from position; shall possess nonflying brand hazard; and shall not require frequent repairs in order to maintain their fire-resistive properties.

15-12-280 Class B roof coverings.

Class B roof coverings shall be of fire-resistive material, approved by the [buildings commissioner] executive director of the department of construction and permits after satisfactory evidence that it is effective against moderate fire exposures. Under such exposures, Class B roof coverings shall not be readily flammable; shall not readily carry or communicate fire, shall afford

a moderate degree of heat insulation to the roof deck; shall not slip from position; shall possess no flying brand hazard; and shall require only infrequent repairs to maintain their fire-resistive properties.

15-12-290 Class C roof coverings.

Class C roof coverings shall be of material approved by the [buildings commissioner] executive director of the department of construction and permits after satisfactory evidence that it is effective against light fire exposures. Under such exposures, Class C roof coverings shall not be readily flammable; shall not readily carry or communicate fire; shall afford at least a slight degree of heat insulation to the roof deck; shall not slip from position; and shall possess no flying brand hazard; but may require occasional repairs or renewals in order to maintain their fire-resistive properties.

15-16-1510 Approval of plans.

Before any work is started on the installation, alteration or extension of any fire alarm system, required by Article I of Chapter 15-16 of this Code, complete plans and specifications of the proposed installation shall be submitted to the bureau of fire prevention and to the department of [buildings] construction and permits for examination and approval. All installations, alterations or extensions of such fire alarm systems shall comply with all of the provisions of

Sections 14-60-260 and 14-60-270 of this Code. The provisions of Sections 15-16-1200 to 15-16-1510, both inclusive, shall apply to existing buildings including preordinance buildings and buildings hereafter constructed.

SECTION 45. Sections 16-4-110 and 16-4-120 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

16-6-090 Duties of the executive director.

The [commissioner of buildings] executive director of the department of construction and permits shall have the following additional duties and responsibilities:

- (a) Maintain records and provide copies to the commissioner of the department of planning and development of all certified registered engineers' certificates and the "as built" floodproofed elevation of all buildings subject to this chapter;
- (b) Maintain records and provide copies to the commissioner of the department of planning and development of all "as built" elevations of the lowest floor (including basement) of all buildings subject to this chapter.

SECTION 47. Sections 18-27-90.2, 18-27-90.4, 18-27-90.6, 18-27-90.7, Part A of Article 100 of Chapter 18-27, and Sections 18-27-384.5, 18-27-430.22, 18-27-511.3, 18-27-600.28, 18-27-600.90, 18-27-620.37, 18-27-695.3, 18-27-700.69 and 18-27-760.83 of the Municipal Code of the City of Chicago are hereby amended by deleting the language bracketed and inserting the language underscored, as follows:

18-27-90.2. Scope.

* * *

(Subsections (a) and (b) of this section are not affected by this ordinance and are omitted for

editorial convenience.)

(c) Special Permission. The electrical regulations of this chapter may be modified or waived by special permission in particular cases where such modification or waiver is specifically permitted or in particular cases where and advancement in the technology of electricity makes such modification or waiver advisable in the best interest of the people of Chicago. Such special permission shall in all cases be obtained from the [Building Commissioner] executive director in writing prior to the commencement of the installation.

18-27-90.4. Enforcement.

The [Building Commissioner] executive director has the responsibility for making interpretations of the rules, for deciding upon the approval of equipment and materials, and for granting the special permission required in a number of the articles.

The installation of all electrical wiring and electrical equipment shall be done in strict accordance with the electrical regulations of this chapter.

18-27-90.6. Formal Interpretations. To promote uniformity of interpretation and application of the provisions of this chapter, formal interpretation may be requested from the [Building Commissioner] executive director.

18-27-90.7. Examination of Equipment for Safety. For specific items of equipment and materials referred to in this chapter, examinations for safety made under standard conditions will provide a basis for approval where the record is made generally available through promulgation by organizations properly equipped and qualified for experimental testing, inspections of the run of goods at factories, and service value determination through field inspections. This avoids the necessity for repetition of examination by different examiners, frequently with inadequate facilities for such work, and the confusion that would result from conflicting reports as to the suitability of devices and materials examined for a given purpose.

All equipment, devices, and appliances covered by the provisions of this chapter shall be tested by and bear the label of a recognized testing laboratory. Manufacturers or distributors of specialized, limited production, or custom built equipment for which there is no commercially available, test laboratory labeled substitute may apply for evaluation and recognition by the [Building Commissioner] executive director. Self-certification of equipment or installations shall not be acceptable.

PART A. GENERAL

* * *

(The definitions of "accessible" through "appliance" are not affected by this ordinance and are omitted for editorial convenience)

Approved. Acceptable to the [Building Commissioner] executive director. Electrical equipment, appliances and devices shall conform with minimum standards applicable thereto contained in the electrical regulation of this chapter. In order to avoid the necessity of repetition

of examinations by different examiners, frequently with inadequate facilities for such work, and to avoid the confusion which would result from conflicting reports, it shall be mandatory that all equipment, devices, and appliances covered by the provisions of this chapter shall be tested and shall bear the label of a recognized testing laboratory. A testing laboratory shall be acceptable to the [Building Commissioner] executive director, for the labeling of products. The testing laboratory shall also be recognized by OSHA as a NRTL for testing specific categories of equipment. Self certification of equipment or installations shall not be acceptable.

FPN: Devices and equipment supplied from "approved Class II energy limited power supplies with output voltages less than 50 volts need not be labeled unless there is commercially available, comparable labeled equipment.

* * *

(The definitions of "askarel" through "equipment" are not affected by this ordinance and are omitted for editorial convenience.)

Executive Director. The executive director of the department of construction and permits.

* * *

(The definitions of "explosionproof apparatus" through "isolated (as to location)" are not affected by this ordinance and are omitted for editorial convenience.)

Labeled. Equipment or materials to which has been attached a label, symbol, or other identifying mark of an organization that is acceptable to the [Building Commissioner] executive director and concerned with product evaluation, that maintains periodic inspection of production labeled equipment or materials, and whose labeling the manufacturer indicates compliance with appropriate standards or performance in a specified manner.

Lighting Outlet. An outlet intended for the direct connection of a lampholder, a lighting fixture, or a pendant cord terminating in a lampholder.

Listed. Equipment, materials, or services included in a list published by an organization that is acceptable to the [Building Commissioner] executive director and concerned with evaluation of products or services, that maintains periodic inspection of production of listed equipment or materials or periodic evaluation of services, and whose listing states that either the equipment, material, or services meets identified standards or has been tested and found suitable for a specified purpose.

FPN: The means for identifying listed equipment may vary for each organization concerned with product evaluation, some of which do not recognize equipment as listed unless it is also labeled. Use of the system employed by the listing organization allows the [Building Commissioner] executive director to identify a listed product.

Special Permission. The written consent of the [Building Commissioner] executive director.

(The remaining definitions are not affected by this ordinance and are omitted for editorial convenience.)

18-27-384.5. Location of Switchboards. Existing switchboards that have any exposed live parts shall be permitted only where located in permanently dry locations and under competent supervision and accessible only to qualified persons. New switchboards containing any exposed live parts shall not be permitted. Switchboards shall be so located that the probability of damage from equipment or processes is minimal. No existing switchboard which contains live parts shall be altered in any manner unless special permission to do so has been obtained in writing from the [Building Commissioner] executive director.

18-27-430.22. Single Motor.

(a) General. Branch-circuit conductors that supply a single motor used in a continuous duty application shall have an ampacity of not less than 125 percent of the motor's full-load current rating as determined by Section 18-27-430.6(a)(1).

For a multispeed motor, the selection of branch-circuit conductors on the line side of the controller shall be based on the highest of the full-load current ratings shown on the motor nameplate. The selection of branch-circuit conductors between the controller and the motor shall be based on the current rating of the winding(s) that the conductors energize.

Exception No. 1: For dc motors operating from a rectified single-phase power supply, the conductors between the field wiring terminals of the rectifier and the motor shall have an

ampacity of not less than the following percent of the motor full-load current rating:

- (a) Where a rectifier bridge of the single-phase half-wave type is used, 190 percent;*
- (b) Where a rectifier bridge of the single-phase full-wave type is used, 150 percent.*

Exception No. 2: Circuit conductors supplying power conversion equipment included as part of an adjustable-speed drive system shall have an ampacity not less than 125 percent of the rated input to the power conversion equipment.

FPN: See the Example in Appendix D, and Figure 18-27-430.1.

For a wye-start, delta-run connected motor, the selection of branch-circuit conductors on the line side of the controller shall be based on the motor full-load current. The selection of conductors between the controller and the motor shall be based on 58 percent of the motor full-load current.

(b) Other than Continuous Duty. Conductors for a motor used in a short-time, intermittent, periodic, or varying duty application shall have an ampacity of not less than the percentage of the motor nameplate current rating shown in Table 18-27-430.22(b), unless the [Building Commissioner] executive director grants special permission for conductors of lower ampacity.

Note: Any motor application shall be considered as continuous duty unless the nature of the apparatus it drives is such that the motor will not operate continuously with load under any condition of use.

(c) Separate Terminal Enclosure. The conductors between a stationary motor rated 1 hp or less and the separate terminal enclosure permitted in Section 18-27-430.145(b) shall be permitted to be smaller than No. 14 but not smaller than No. 18, provided they have an ampacity as specified in Section 18-27-430.22(a).

18-27-511.3. Class I Locations. Classification under Article 500.

(a) **Up to a Level of 18 In. (457 mm) Above the Floor.** For each floor, the entire area up to a level of 18 in. (457 mm) above the floor shall be considered to be a Class I, Division 2 location.

(b) **Any Pit or Depression Below Floor Level.** Any pit or depression below floor level shall be considered to be a Class I, Division 1 location, which shall extend up to said floor level, except that any pit or depression in which six air changes per hour are exhausted at the floor level of the pit shall be considered for special permission to be a Class I, Division 2 location, provided the electrical system is interlocked with the ventilating system.

Exception: Lubrication and service rooms without dispensing shall be classified in accordance with Table 18-27-514.2.

(c) **Areas Adjacent to Defined Locations or with Positive Pressure Ventilation.**

Areas adjacent to defined locations in which flammable vapors are not likely to be released, such as stock rooms, switchboard rooms, and other similar locations, shall not be classified where mechanically ventilated at a rate of four or more air changes per hour or where effectively cut off by walls or partitions.

(d) **Adjacent Areas by Special Permission.** Adjacent areas that by reason of ventilation, air pressure differentials, or physical spacing are such that, in the opinion of the [Building Commissioner] executive director, no ignition hazard exists, shall be unclassified.

(e) **Fuel Dispensing Units.** Where fuel dispensing units (other than liquid petroleum gas, which is prohibited) are located within buildings, the requirements of Article 514 shall govern.

Where mechanical ventilation is provided in the dispensing area, the controls shall be interlocked so that the dispenser cannot operate without ventilation as prescribed in Section 18-27-500.7(b).

18-27-600.28. Engineered Drawings Required. Drawings prepared by an architect or structural engineer, licensed to practice in the State of Illinois, and bearing the seal of the architect or engineer are required for and shall be presented with the applications for permits for the erection or alteration of signs, signboards, or structures which fall into the following categories:

- (1) Supported by a canopy.

- (12) Where, in the opinion of the [Building Department] executive director, the erection or alteration of signs, signboards or supporting structures is not contained in or covered by this chapter.

All corrections made on rejected engineered drawings shall bear the architects or engineers signature, thus attesting to the corrections.

18-27-600.90. Supporting Poles or Posts. Supports for signs shall be either steel beams, round steel pipe sections or square steel (hollow) sections.

- (a) Signs which have a single supporting member shall be restricted to round steel pipe

sections or square steel sections. The sections may consist of a fabricated and welded assembly, provided the welding is performed by a certified welder.

(b) The minimum requirements for the support of signs shall be based upon a combined torsional and bending moment for a wind pressure of 30 lbs. per ft² and sign weight involved, using a maximum fiber stress of 20,000 lbs. per in.².

(c) A sketch, or engineers drawings where required by this chapter, shall accompany each permit application. The sketch or drawing will show complete and detailed information of the construction and installation of the sign.

(d) The values listed in Tables 18-27-600.90(a) and (b) are minimum and are based upon an elevation of not more than 12 ft (3.66 m) above the surrounding grade or ground level to the bottom of the sign. The dimensions of the sign shall be such that a ratio between the two dimensions of the sign shall not exceed two to one.

The distance between the center line of the support and the sign edge shall not exceed 30 in. (762 mm) for projecting signs.

Deviation from the provisions of this section will be permitted by special permission from the [Building Commissioner] executive director, provided drawings are submitted from a Registered Structural Engineer, licensed to practice in the State of Illinois. Such drawings must attest to the fact that the proposed installation is equal to or greater than the standard required by this chapter.

18-27-620.37. Wiring in Hoistways and Machine Rooms.

(a) **Uses Permitted.** Only such electric wiring, raceways, and cables used directly in connection with the elevator or dumbwaiter, including wiring for signals; for communication

with the car; for lighting, heating, air conditioning, and ventilating the elevator car; for fire detecting systems; for pit sump pumps; and for heating, lighting, and ventilating the hoistway, shall be permitted inside the hoistway and the machine room.

(b) Lightning Protection. Bonding of elevator rails (car and/or counterweight) to a lightning protection system grounding down conductor(s), shall be permitted. The lightning protection system grounding down conductor(s) shall not be located within the hoistway. Elevator rails or other hoistway equipment shall not be used as the grounding down conductor for lightning protection systems.

FPN: See Section 18-27-250.106 for bonding requirements. For further information, see *Standard for the Installation of Lightning Protection Systems*, NFPA 780.

(c) Main Feeders. Main feeders for supplying power to elevators and dumbwaiters shall be installed outside the hoistway unless as follows.

- (1) By special permission from the [Building Commissioner] executive director, feeders for elevators shall be permitted within an existing hoistway if no conductors are spliced within the hoistway.
- (2) Feeders shall be permitted inside the hoistway for elevators with driving machine motors located in the hoistway or on the car or counterweight.

18-27-695.3. Power Sources for Electric Motor-Driven Fire Pumps. Electric motor-driven fire pumps shall have a reliable source of power in conformance with (a) and (b) of this section.

All primary sources shall have a high degree of reliability and be capable of carrying indefinitely the sum of the locked-rotor current of the fire pump motor(s) and the full-load current of the associated fire pump controller accessory equipment. These power sources, where

required, shall be arranged so that a fire at one source will not cause an interruption at the other source.

(a) Primary Source. Primary power shall be supplied by a separate, independent service with no disconnect, other than at the fire pump controller, from one of the following sources:

(1) Utility Service. Power shall be provided by a separate and independent utility service or, where special permission is obtained in writing from the [Building Commissioner] executive director, an approved off-site primary electrical generating facility in common ownership with the building location of fire pump installation.

(2) On-Site Power Production Facility. Power shall be permitted to be supplied by an approved primary power on-site production facility conforming to the following:

- (a) The facility and associated main distribution room shall have 3 hour fire rated construction;
- (b) All openings into these facility rooms shall be protected by 3 hour (A-label) opening protective assemblies;
- (c) These facilities shall be located as allowed in Article 18-27-701 for required standby generators;
- (d) These facility rooms shall be used for no other purpose than the primary generation and distribution of power;
- (e) If stored fuel is used there shall be kept available a minimum of 4 hour reserve of fuel at all times.

(b) Multiple (Secondary) Power. Where power cannot be obtained from a primary source described in Section 18-27-695.3(a), additional power shall be supplied from an approved combination of two or more of either such sources, or from an approved combination of feeders constituting two or more power sources as covered below, or from an approved combination of

one or more such sources with an on-site standby generator.

In new buildings secondary power where required below or by other chapters of the *Chicago Building Code* shall be supplied as follows:

(1) Where Emergency System II is Required. The secondary source shall be permitted as stated below in (a) through (d).

(a) Where the normal building source is common to the Emergency System II auxiliary source and the primary fire pump service, no secondary power shall be required for the fire pump.

(b) Where the Emergency System II is served by two independent utility sources, the secondary source shall be that source which is not common to the primary fire pump source.

(c) In high-rise buildings under 300 ft in height, the secondary source shall be from a source other than the primary source serving the fire pump.

(d) In high-rise buildings 300 ft or greater in height, the secondary source shall be from an on-site generator in conformance with Section 18-27-701.16.

(2) Where an Emergency System I is Required. The secondary source shall be from an approved on-site generator conforming to the requirements of Sections 18-27-700.20, 700.50(1) and 18-27-701.16.

FPN No.1: See Table 18-27-700.5 for Emergency Systems Required.

FPN No.2: In existing buildings a second source for the fire pump would add additional reliability where installed.

(3) Feeder Sources. This section applies to multi-building campus-style complexes with fire pumps at one or more buildings. Where sources in Section 18-27-695.3(a) are not practicable and with the approval of the [Building Commissioner] executive director, two or more feeder sources shall be permitted as one power source where such feeders are connected to or are derived from

separate utility services. The connection(s), overcurrent protective device(s), and disconnecting means for such feeders shall meet the requirements of Section 18-27-695.4(b).

(4) Conditions. Whenever a secondary source is installed as required by Section 18-27-695.3(b), all related following conditions shall be met:

- (a) In addition to the required connected loads, the secondary source, shall be sized to carry indefinitely the sum of the locked-rotor current of the fire pump motor(s) and the full-load current of the associated fire pump controller accessory equipment.
- (b) The fire pump feeder shall be served by a disconnect switch separate from all required emergency loads.
- (c) The fire pump feeder shall be protected by overcurrent protection sized to carry indefinitely the sum of the locked-rotor current of the fire pump motor(s) and the full load current of the associated fire pump controller accessory equipment.
- (d) The disconnect serving the fire pump shall be lockable in the closed position and be supervised as in Section 18-27-695.4(b)(5).

Exception No.1: An on-site or standby generator used to comply with this section shall be of sufficient capacity to allow normal starting and running of the motor(s) driving the fire pump(s) while supplying all other loads simultaneously operated load. Automatic shedding of one or more optional standby loads in order to comply with this capacity requirement shall be permitted. A tap ahead of the on-site generator disconnecting means shall not be required.

Exception No.2: Where each electric motor-driven fire pump is provided with an approved parallel redundant engine-driven fire pump, which will automatically start upon failure of the electric motor-driven fire pump to start, the requirement for a secondary source of power shall be satisfied.

(5) **Arrangement.** The power sources shall be arranged so that a fire at one source will not cause an interruption at the other source.

18-27-700.69. Special Provisions for Special Circumstances. The provision of Sections 18-27-700.1 thru 18-27-700.67 are not intended to limit or inhibit the engineering ingenuity of engineers or contractors in laying out such installations.

Where it can be demonstrated that an alternate design of emergency systems will provide an equivalent or greater level of safety and reliability than that intended by Article 700, the [Building Commissioner] Executive director is empowered to grant special permission for alternate emergency systems in lieu of the specifically required systems. The final determination of equivalency, in all cases, shall be made by the [Building Commissioner] executive director.

18-27-760.83. Fire Alarm and Emergency Voice Communication Circuit Conductors.

Conductors shall have the properties of NPLFA circuit conductors as covered in Part B of this article. The minimum size shall be No. 16. No. 18 shall be permitted when installed as part of a multiconductor cable.

18-29-102.9 Requirements not covered by chapter.

Any requirements necessary for the strength, stability or proper operation of an existing or proposed plumbing system, or for the public safety, health and general welfare, not specifically covered by this chapter shall be determined by the [Building Commissioner] executive director of the department of construction and permits.

18-29-105.1 Modifications.

Whenever there are practical difficulties involved in carrying out the provisions of this chapter, the [Building Commissioner] executive director of the department of construction and permits shall have the authority to grant modifications for individual cases, provided the [Building Commissioner] executive director of the department of construction and permits shall first find that unique reasons make application of the strict letter of this chapter impractical and the modification is in conformity with the intent and purpose of this chapter and that such modification does not lessen health, life and fire safety and sanitation requirements. The details of action granting modifications shall be recorded and entered in the files of the plumbing inspection department.

18-29-105.2 Alternative materials, methods and equipment.

The provisions of this chapter are not intended to prevent the installation of any material or to

prohibit any method of construction not specifically prescribed by this chapter, provided that any such alternative has been approved. An alternative material or method of construction shall be approved where the [Building Commissioner] executive director of the department of construction and permits finds that the proposed design is satisfactory and complies with the intent of the provisions of this chapter, and that the material, method or work offered is, for the purpose intended, at least the equivalent of that prescribed in this chapter in quality, strength, effectiveness, durability and safety.

18-29-105.3 Required testing.

Whenever there is insufficient evidence of compliance with the provisions of this chapter, or evidence that a material or method does not conform to the requirements of this chapter, or in order to substantiate claims for alternate materials or methods, the [Building Commissioner] executive director of the department of construction and permits shall have the authority to require tests as evidence of compliance to be made at no expense to the jurisdiction.

18-29-105.3.1 Test methods.

Test methods shall be as specified in this chapter, including section 18-29-303.4.1 or by other recognized test standards. In the absence of recognized and accepted test methods, the [Building Commissioner] executive director of the department of construction and permits shall approve the testing procedures.

18-29-105.3.3 Test reports.

Reports of tests shall be retained by the [Building Commissioner] executive director of the

department of construction and permits for the period required for retention of public records.

18-29-105.4.4 Construction documents.

The registered design professional shall submit to the [Building Commissioner] executive director of the department of construction and permits 2 complete sets of signed and sealed construction documents for the alternative engineered design. The construction documents shall include floor plans and a riser diagram of the work. Where appropriate, the construction documents shall indicate the direction of flow, all pipe sizes, grade of horizontal piping, loading, and location of fixtures and appliances.

18-29-105.4.5 Design approval.

Where the [Building Commissioner] executive director of the department of construction and permits determines that the alternative engineered design conforms to the intent of this chapter, the plumbing system shall be approved. If the alternative engineered design is not approved, the [Building Commissioner] executive director of the department of construction and permits shall notify the registered design professional in writing, stating the reasons therefor.

18-29-106.2 License required.

No plumbing installed in violation of this code shall be approved by any department. Except for minor repairs, the Commissioners of Buildings[,] and Water [and Sewers] Management shall not approve any plumbing work unless the plumbing contractor installing such work has a plumbing license and is bonded with the City of Chicago, or unless such journeyman plumber has in effect a license, or unless each plumber's apprentice employed in such installation is

registered as a plumber's apprentice, as required by Chapter 1 (4-332) of this code. Nothing in this section prohibits a licensed drainlayer from installing or repairing subsoil drain pipe or a building without being a licensed registered plumbing contractor, except for work involving iron pipe or iron fittings.

18-29-302.2 Industrial wastes.

Waste products from manufacturing or industrial operations shall not be introduced into the public sewer until it has been determined by the [Building Commissioner] executive director of the department of construction and permits or commissioner of [Sewers] water management that the introduction thereof will not damage the public sewer system or interfere with the functioning of the sewage treatment plant.

18-29-312.1 Required tests.

Permit holders shall make applicable tests prescribed in Sections 18-29-312.2 through 18-29-312.9 to determine compliance with provisions of this chapter. A permit holder shall give reasonable advance notice to the [Building Commissioner] executive director of the department of construction and permits and the commissioner of water management when plumbing work is ready for tests. The equipment, material, power and labor necessary for the inspection and test shall be furnished by the permit holder and the permit holder shall be responsible for determining that the work will withstand the test pressure prescribed in the following tests. All plumbing system piping shall be tested with either water, smoke or air.

18-29-403.1 Minimum number of fixtures.

Plumbing fixtures shall be provided for each occupancy and use in the minimum number

shown in Table 18-29-403.1. Occupancies and uses not shown in Table 18-29-403.1 shall be considered individually by the [Building Commissioner] executive director of the department of construction and permits. Occupancies and the number of persons (for various occupancies and uses) shall be as determined by Chapter 13-56.

18-29-403.3 Number of occupants for both genders.

The required water closets, lavatories, and showers or bathtubs shall be distributed equally between genders based on the percentage of both genders anticipated in the occupant load. The occupant load shall be composed of 50 percent for both genders, unless statistical data approved by the [Building Commissioner] executive director of the department of construction and permits indicate a different distribution of both genders.

18-29-606.5.4.3 Covers and support.

Such tanks shall have bolted watertight covers of the same material as the tank and shall be located and housed to prevent external pollution. The [Building Commissioner] executive director of the department of construction and permits shall approve the support for all such tanks before the permit is issued.

18-29-1201.3 Permit requirements.

It shall be unlawful to proceed with the construction, installation, enlargement or alteration of any nonprivate residential swimming pool and appurtenance or bather preparation facilities within the City unless plans and specifications are submitted and a permit is first obtained from

the [Building Commissioner] executive director of the department of construction and permits[,]
and the commissioner of water management [, and the Commissioner of Sewers].

18-29-1204.2 Permit required.

It shall be unlawful to proceed with the construction, installation, enlargement or alteration of any private residential swimming pool and appurtenances within the City unless permits therefor shall have first been obtained from the [Building Commissioner] executive director of the department of construction and permits[,] and the commissioner of water management [, and the Commissioner of Sewers].

18-29-1204.3.1 Presentation, examination and approval.

All drawings and plans for the construction, installation, enlargement or alteration of any private residential swimming pool and appurtenances for which a permit is required shall be first presented to the [Building Commissioner] executive director of the department of construction and permits for the examination and approval as to proper location, construction, and use, and thereafter shall be presented to the Health Commissioner[, and the Commissioner of Water Management [, and the Commissioner of Sewers] for examination and approval. After said drawings and plans have been examined and passed upon, the same shall be returned to the [Building Commissioner] executive director of the department of construction and permits for examination and approval.

18-29-1204.3.3 Restrictions prior to issuance of permit.

No person shall construct, enlarge, alter or use any private residential pool and appurtenances

until plans have been examined and approved by the board of health, the department of water management[, the Building Department, the Department of Sewers] and the department of construction and permits and the necessary approvals are issued by the department of water management[, the Department of Sewers] and the [Building] department of construction and permits.

ALDERMAN BALCER (11th Ward):

TRIBUTE TO LATE MRS. ELEANOR GUILFOYLE DALEY.

A proposed resolution reading as follows:

WHEREAS, Almighty God in His infinite wisdom called Eleanor Daley from this life to eternity on February 16, 2003, at the age of ninety-five; and

WHEREAS, The eighth of Patrick and Nora Guilfoyle's eleven children, Mrs. Daley lived her entire life in the Bridgeport community. It was there that she met, was courted by, fell in love with, and in 1936 married Richard J. Daley; and

WHEREAS, Together, Mr. and Mrs. Daley raised seven children. It was her role as wife and mother that gave Mrs. Daley the greatest personal pride and sense of accomplishment. Her husband's political and social prominence, and later that of

her children -- all achieved with her support -- were nevertheless secondary in importance to the parents' shared accomplishment of instilling in their children deeply held values of faith, loyalty and strength of character; and

WHEREAS, Mrs. Daley never sought the public attention that might have been hers as wife of Chicago's longest-serving mayor and mother of important public officials. She preferred to live outside the spotlight and to preserve her family's privacy as much as possible, yet to Chicagoans she never seemed aloof or inaccessible. Her grace, charm and inner strength were obvious to all who saw her, and all Chicagoans came to recognize and admire the twinkle of her eyes and her knowing smile; and

WHEREAS, Mrs. Daley's forthright character and reluctance to involve herself in public controversy made her public statements all the more memorable. When plans were announced to demolish the then main public library at East Randolph Street and North Michigan Avenue, Mrs. Daley publicly called for preservation of the edifice as a civic treasure. Her view prevailed, and now the Chicago Cultural Center stands as a monument to her resolve and is one of our city's most cherished structures; and

WHEREAS, Mrs. Daley's great virtues -- her unassuming nature, her profound love of family, her obvious inner strength and resolve -- were never compromised by her family's prominence, or diminished by her many years in the public eye. Instead, they grew. As local political conditions changed over the years and decades, Mrs. Daley became one of the city's few constants, never seeming to change, and the affection and respect in which all Chicagoans held her only increased with time; and

WHEREAS, Over the years, Mrs. Daley treasured more and more her role as matriarch of a family that included her children, their spouses, twenty-two grandchildren and twelve great-grandchildren. She was happiest when surrounded by family, and the family was happiest when they had the opportunity to share her time, her wisdom and her love; and

WHEREAS, Mrs. Daley was preceded in death by her husband of forty-one years, Mayor Richard J. Daley, and their daughter, Eleanor. She is survived by her sons, Michael, William, John and Mayor Richard M. Daley; by her daughters, Patricia Martino and Mary Carol Vanecko; and by her many grandchildren and great-grandchildren; and

WHEREAS, Eleanor Guilfoyle Daley was loved, admired and respected by all Chicagoans, and her passing touches all of us deeply; now, therefore,

Be It Resolved, That we, the Mayor and members of the City Council of the City

of Chicago, assembled this fifth day of March, 2003, do hereby honor the life and memory of Eleanor Guilfoyle Daley; and

Be It Further Resolved, That the members of the City Council extend their heartfelt condolences to Mayor Daley and the entire Daley family, and we join them in mourning their loss; and

Be It Further Resolved, That suitable copies of this resolution be presented to the family of Eleanor Daley as a sign of our sympathy and good wishes.

On motion of Alderman Burke, the foregoing proposed resolution was *Adopted* by a rising vote.

Alderman Burke then moved that the City Council *Accept for Publication* written aldermanic remarks to the foregoing resolution. The motion *Prevailed*.

Alderman Burke submitted the following written remarks:

Mr. President, Ladies and Gentlemen of the Chicago City Council,

The recent death of Eleanor Guilfoyle Daley, the revered First Lady of Chicago, marks the passing of a singular woman of grace and true Chicago origins. As the wife of one remarkable Chicago Mayor, Richard J. Daley, it just seemed fitting that March 4th was a moment of special history each of them could share. An easy grandeur and quiet splendor were characteristics both the Daley Matriarch and the City had in common. Her recent death, just weeks before her 96th birthday, took away Chicago's most "enthusiastic citizen", a title no one delighted in more than she. It was her citizenship as a singular Chicagoan that made her such a remarkable neighbor and cherished friend. But above all else, it was her role as mother, wife and grandmother she relished most, demonstrating virtue and valor that is at the very heart of what it means to be Irish. After all, Eleanor Guilfoyle Daley was the granddaughter of Irish immigrants.

Her public words were few, but her legacy legion -- affirming actions that nurtured and nourished the City she loved as it did her children and her children's children. Chicagoans loved and respected her because in her we saw what was best about ourselves. Her kindness and humility were a continuous reminder to everyday people that real meaning was to be found in the civility and loyalties of everyday living.

Eleanor Guilfoyle Daley's lasting legacy to Chicago is, most of all, her family. She took high pride in that. Nothing pleased her more than the encircling love of each

generation. Her imprint rests deep on each and every heart. Chicagoans from Bridgeport to Uptown and from West Pullman to Sauganash recognized in the quiet dignity of Sis Daley's life something beyond the clamor of urban politics and the glare of history -- the soft glory of a happy home and the ageless spirit of family. Home and family were twin stars of Sis Daley's living, high-polished by the dignity and common sense she possessed in abundance. Her life achieved a nobility of remarkable purpose and quiet influence, reinforcing for countless Chicagoans the essential values of neighborhood life. Without apology, she treasured the duties and responsibilities of faith and family, echoing timeless truths cherished by each generation.

Mrs. Daley cherished living in a neighborhood in which everyone knew everyone by name. She treasured such cohesion and closeness as a valuable human resource. It was indicative of her spirit and her substance, as well as her fondness for that soft, Irish way of remembering.

In her passing, all the citizens of Chicago have lost a treasured friend and fellow citizen whose place within the history of Chicago will be forever marked by her great heart and wide wisdom. We extend to Mayor Daley and all the members of the Daley family our deepest prayers and heartfelt sympathies.

"Eternal Rest grant unto her O Lord!"
