SUBJECT: Proposed Street Vacation
Water Main Abandonment and Relocation
1061 W Van Buren Street
S Aberdeen Street – W Van Buren Street to W Tilden Street
W Tilden Street – S Aberdeen Street to W Van Buren Street
BES Project No. 15-12:055
OUC Permit No. 2015-67321 (Vacation)

Mr. Baziuk:

This correspondence is in response to an Office of Underground Coordination transmittal dated October 14, 2015, regarding the subject street vacation. DWM must review and approve full building plans prior to construction.

The Department of Water Management - Water Section

The Department of Water Management will allow the private contractor of Pizzuti to install approximately 585 feet of proposed 8-inch water main in W Tilden Street from S Aberdeen Street to W Van Buren Street as well as abandon approximately 153 feet of the existing 12-inch water main in S Aberdeen Street from W Van Buren Street to W Tilden Street. This Department will perform the final connections to the existing 12-inch water main in W Van Buren and 8-inch water main W Tilden Street. Street, as well as provide resident engineering services, valve operations, and water quality testing for the above-mentioned work.

The estimated cost for the DWM to provide the above mentioned services is **$57,200.00** based on premium time. This estimate is based on current rates for labor, material, equipment and overhead charges, but actual costs will be billed to the developer upon completion. Pizutti will be responsible for all restoration.

A certified check in the amount of ***$57,200.00,*** payable to the City of Chicago, must be hand delivered to the Department of Buildings, Plumbing Permit and Plan Section, 121 North LaSalle Street, Room 906, Chicago, Illinois, 60602, with a copy of this letter.

Please forward all the CAD files and any resource/reference files to Brian McGahan at Brian.McGahan@ctrwater.net such that they can be utilized to create the water main adjustment plans. Once these plans have been completed, a copy will be forwarded to CDOT. The private contractor installing the water main shall perform the following:

- Submit a complete list of the shop drawings (submittals) for all water main materials to be used to complete the water main installation at least 60 days prior to starting the work. Once the list is approved, the shop drawings (submittals) shall be sent to Brian McGahan at Brian.McGahan@ctrwater.net for review.
- It is required that John Barbaro be contacted at John.Barbaro@ctrwater.net two weeks prior to the anticipated construction date so a resident engineer can be assigned to the project.
- Obtain a "B-Permit" prior to construction from the City of Chicago, Department of Buildings, Plumbing Permit and Plan Section, City Hall, 121 North LaSalle Street, Room 906, Chicago, Illinois 60602.
- Contact John Flynn of the Department of Buildings, Plumbing Permit and Plan Section at (312) 744-7063 regarding the proposed water service installations. Per the Municipal Code, meters shall be installed at the time the building is connected to the water system.
- Submit as-built drawings within two (2) weeks of completion of the work. The as-built drawings should be submitted to the Department of Water Management, Bureau of Engineering Services, Jardine Water Purification Plant, 1000 E. Ohio Street, Room 306, Chicago, Illinois 60611 attention to Rolando Villalon.

Failure to comply with these requirements may result in additional expenses to the project to verify that all work conforms to the DWM's standards.

This Department's utility separation requirements are as follows: The minimum vertical clearance (edge-to-edge) from all water mains is 18-inches. For feeder mains (water mains 16-inches and larger), the minimum horizontal clearance (edge-to-edge) is five (5) feet, and for grid mains (water mains less than 16-inches), the minimum horizontal clearance (edge-to-edge) is three (3) feet. No proposed above ground facility (tree, planter box, light pole, etc.) can be closer than five (5) feet (edge-to-edge) from a water main, water service, or water structure.

All curb installation adjacent to fire hydrants must be painted 'safety yellow' for 15 feet on each side of the fire hydrant except where the 15 foot dimension intersects a crosswalk, driveway or similar feature. In no case shall the installation of any proposed facility be closer than five (5) feet from a fire hydrant or fire hydrant lead.

Any traffic and pedestrian protection structures such as canopies, scaffolding, jersey walls, construction barricades, etc., which are located within 10 feet of water main facilities will restrict this Department's continuous access to its facilities for maintenance or repair work. Therefore, should this Department require access to its existing facilities, Pizzuti will be responsible for either removing the traffic and pedestrian protection structures or performing any necessary excavation required to provide this Department safe access to its existing facilities. Traffic and pedestrian protection structures must be installed to allow for complete accessibility to all DWM facilities, including fire hydrants, valve basins, sewer manholes, and catch basins.

Proposed trees must not be planted within 5 feet of the exterior pipe wall for all water mains 24-inch in diameter and larger. This 5-foot rule excludes mains that are separated from the tree by a hardscape feature or other root growth limiting conditions such as water mains located in the street.

This Department discourages tree planting over water mains that are less than 24-inches in diameter located in the parkway, but if necessary will allow trees with a maximum mature height of 30 feet and a maximum mature root depth of 2½ feet. Potential plantings that meet this requirement include the following:

1. Ornamental shrubs or bushes meeting the mature height and mature root depth discussed above.
2. Flowers or other non-woody herbaceous plants.
3. Above ground, movable planting containers that can be relocated by the owner of the plantings in the event that access to the water main is required.

Existing trees planted above water mains that do not meet these requirements do not need to be removed. However, if such existing trees are removed, all proposed trees installed in their place must meet the above-mentioned requirements. Should it be necessary for the DWM to access any of its facilities, the Department shall only be responsible for typical pavement, concrete sidewalk, and hydroseed restoration.

The Department of Water Management - Sewer Section

The DWM Sewer Section is in the process of reviewing the subject project and will forward their response when completed.

If there are house drains which enter the proposed site of construction, they will have to be sealed and bulkheaded at the property line under direct supervision of the Sewer Section. If the developer intends to re-use any existing drains, they must be televised and the video tape(s) submitted to the Sewer Section prior to approval. In addition, all existing sewers adjacent to the project site must be televised before the start of construction activities and after the completion of construction activities. Refer to "existing facility protection" requirements for sewers.

If construction requires the use of water from a City fire hydrant, or adjustments or repairs are required to any City sewer facilities in proximity to the project site, permits must be obtained from the Department of Water Management, Water and Sewer Sections.

If barricades, catwalks or canopies are erected for pedestrian protection, they must be installed in such a manner so that complete accessibility to all fire hydrants, valve basins, sewer manholes, and catch basins is maintained.

Extreme caution is to be taken to ensure that no facility owned and maintained by this Department is damaged during construction. If damage occurs to any facilities, Pizzuti will be held responsible for the cost of repairing or replacing them.

Please note that the details described above are valid for 90 days from the date of this letter, after which time, Pizzuti will be responsible for re-submitting plans to this Department for review and revision of the estimate of cost, as needed.

If there are any questions regarding the water facilities, please contact Brian McGahan at Brian.McGahan@ctrwater.net, and for any questions regarding sewer facilities, contact Sid Osakada at Sid.Osakada@cityofchicago.org.

Sincerely,

Barrett B. Murphy
Commissioner

(To Ordinance)

Agreement For Temporary Construction Easement
With Roosevelt Partners LLC.

(Wells Wentworth Project)

This Agreement (the "Agreement") is entered into as of this ___ day of _____ 2018 ("Effective Date"), by and between the City of Chicago, an Illinois home rule municipal corporation (the "City"), by and through its Department of Transportation ("CDOT") and Roosevelt/Clark Partners LLC, a Delaware limited liability company ("Grantor").

Witnesseth:

Whereas, City proposes to undertake a series of projects, at its sole cost and expense, for the extension of South Wells Street from its present southerly terminus at Roosevelt Road to connect with the proposed northerly extension of South Wentworth Avenue from its current northerly terminus south of 16th Street (collectively, "City Project"); and

Whereas, Grantor is the current owner of parcels of property bounded by Roosevelt Road, Clark Street, 16th Street and the south branch of the Chicago River, all as more fully described on (Sub)Exhibit D-1 which is attached and incorporated ("Grantor Parcel"); and

Whereas, The Grantor contemplates the development of a mixed-use project on the Grantor Parcel ("Grantor Project"); and

Whereas, The City and Grantor anticipate that the Grantor will obtain authority to undertake and complete the Grantor Project pursuant to a Planned Development approved by City Council pursuant to Chapter 17-8 of the Chicago Zoning Ordinance ("Planned Development"); and

Whereas, Consistent with both the Grantor Project and the City Project, Grantor and City have agreed that the Grantor will dedicate certain property for the benefit of the City Project and the City will vacate certain streets and alleys for the benefit of the Grantor Project all as provided in an ordinance approved on _____, 2018 ("Vacation and Dedication Ordinance"); and

Whereas, City desires to use those certain portions of property located within the Grantor Parcel which are depicted in (Sub)Exhibit D-2 which is attached and incorporated (the "Temporary Easement Area"), for temporary construction access and staging for the City Project; and

Whereas, In consideration of the City's approval of the Vacation and Dedication Ordinance and the performance of the obligations as provided in this Agreement, Grantor has agreed to grant to the City a temporary construction easement in the Temporary Easement Area;

Now, Therefore, In consideration of mutual covenants herein contained, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Grant Of Temporary Easement For Construction. Subject to the terms and conditions stated in this Agreement, the Grantor hereby grants and conveys to City a temporary easement (the "Temporary Easement") in, on, over, under and through the Temporary Easement Area for purposes of installation, construction, inspection, repair, replacement, and turnover of the City Project (the "City Work").

2. Term.

a. The Temporary Easement shall commence on the date stated in a written notice of commencement of the City Work (respectively, the "Commencement Date" and the "Notice of Commencement") from City to Grantor which shall be not less than 30 days after the date the notice is delivered. In the event that the Notice of Commencement is not delivered to Grantor before the date that is six months after the Effective Date, this Agreement shall terminate without breach by either party.

b. The Temporary Easement and this Agreement shall terminate upon the earlier of the following to occur:

i. The third anniversary of the Commencement Date, unless an extension has been requested by the City and approved by the Grantor;

ii. The date of Substantial Completion of the City Work ("Substantial Completion Date"); or

iii. Such alternative dates as are provided in the Coordination Plan which is set forth in (Sub)Exhibit D-3 which is attached and incorporated ("Coordination Plan") as it may from time to time be updated by the parties in accordance with Section 6 hereof.

"Substantial Completion" shall mean that the City Work has reached such a point in quantity and quality of construction that the contemplated improvements may be turned over by the respective contractors and used and operated for their intended purpose by the public.

3. Use And Control Of Temporary Easement Area By Grantor.

a. Grantor Use. During the term of the Temporary Easement, Grantor, through its agents, contractors, consultants, and other representatives (each a "Grantor Party"

and together the "Grantor Parties"), may use and access the Temporary Easement Area including, but not limited to, construction of permanent structures thereon, so long as such use does not substantially interfere with use of the Temporary Easement Area for performance of the City Work. In the event that any building, structure, improvement, facility, equipment, vehicle or any other obstruction is located by a Grantor Party on the Temporary Easement Area in violation of this Agreement and such obstruction remains on the Temporary Easement Area following reasonable notice to Grantor, the City may remove the same from the Temporary Easement Area.

b. In addition, Grantor may use and access the Temporary Easement Area in accordance with the Coordination Plan.

4. Easement Subject To Preexisting Rights. The Temporary Easement is granted subject to the preexisting rights described on (Sub)Exhibit D-4 which is attached and incorporated (the "Preexisting Rights"). Grantor warrants to the City that, notwithstanding the Preexisting Rights, it has sufficient title and interest in and to the Grantor Parcel to enter into this Agreement, and to grant the Temporary Easement. In the event of any conflict or if issues arise as a result of or in connection with the Preexisting Rights and the City Work, the parties will work together in good faith to resolve such issues or conflicts, which efforts shall be reflected in an updated Coordination Plan.

5. Restoration By City. After termination or expiration of the Temporary Easement, City shall have no obligation to restore the Temporary Easement Area except to the extent of filling in any excavation it causes and providing rough grading thereafter, to the extent of removing any spoils it causes and providing rough grading thereafter, and repair and restore any damage to any improvement authorized by the Preexisting Rights located on the Temporary Easement Area but only to the extent such damage was proximately caused by or on behalf of the City in connection with the City Work.

6. Coordination Plan. City and Grantor hereby agree to the terms and conditions of the Coordination Plan as a binding coordination plan addressing both work related to the Grantor Project (the "Grantor Work") and City Work, including access and crossing rights, staging, early termination of certain portions of the Temporary Easement, and completion. Activities conducted in accordance with the Coordination Plan shall not be considered substantial interference with the Temporary Easement. The parties agree that the Coordination Plan may be updated by mutual agreement by the parties from time to time, except that the Early Termination and Crossing Rights described in (Sub)Exhibit D-3 shall be maintained throughout the term of this Agreement.

7. Indemnity Of Grantor. City hereby agrees to indemnify, hold harmless and defend Grantor for claims for personal injury or property damage arising from or as a result of City employees' entry into the Temporary Easement Area, or their performance of the work in connection with the City Project in or on the Temporary Easement Area ("City Claims") except to the extent proximately caused by a Grantor Party. City hereby agrees to cause its contractors to indemnify, hold harmless and defend Grantor for claims for personal injury or property damage arising from or as a result of such contractor's entry

into the Temporary Easement Area, or the performance of the work in connection with the City Project in or on the Temporary Easement Area ("City Contractor Claims") except to the extent proximately caused by a Grantor Party.

The provisions of this Section 7 shall survive any termination of this Agreement or the Temporary Easement but it shall not apply to City Claims or City Contractor Claims arising from events occurring after such termination.

8. City Contractors' Insurance During Work. Prior to City's contractors' entry onto the Temporary Easement Area to perform work for the construction, installation or maintenance of the City Project, City shall cause each such contractor to procure and maintain and at all times thereafter continuing until the completion of such entry or work, all of the coverages of insurance specified in (Sub)Exhibit D-5 which is attached and incorporated.

9. Liens. City shall keep the Grantor Parcel free from any and all liens and encumbrances arising out of the City Work and the City Project. In case of any such lien attaches, Grantor shall notify City of such lien. Upon receipt of such notice, City shall either pay and remove said lien, or undertake, in good faith, to contest such lien by appropriate legal proceedings and provide Grantor with written notice of the same. In the event City contests said lien, upon Grantor's request, City agrees to provide title insurer with a title indemnity in form and substance acceptable to Grantor's title company, including complying with conditions imposed by such title insurer, in order to permit title company to insure over such lien. City shall not be required to pay the lien until a final non-appealable judgment has been rendered in the lien holder's favor for work performed for City on the Grantor Parcel. If City (1) fails to pay and remove such lien, and fails to contest same and provide the title indemnity as provided herein, or (2) fails to comply with a final non-appealable judgment, then Grantor, at Grantor's election following 30 days' notice and time for cure to the City, may, but is not obligated to, pay and satisfy the same, and all actual costs incurred related thereto (including, without limitation, reasonable attorneys' fees, disbursements and court costs) and such amounts paid by Grantor shall be reimbursed by City, after review and approval by City (which approval shall not be unreasonably delayed or withheld), within forty-five (45) days of City's receipt of a written notice detailing such costs, with interest accruing from the date of such Grantor's notice at the rate stated as the Prime Rate pursuant to *Wall Street Journal's* published bank survey, or the maximum rate permitted by law, whichever is less.

10. Default. Upon the occurrence of a City Default, Grantor shall have all remedies at law or in equity and the right to terminate this Agreement and the Temporary Easement granted herein. "City Default" under this Agreement shall mean City has failed to comply with or perform any term, covenant, agreement or condition of this Agreement, and such failure has continued for thirty (30) days after written notice provided, however, if such default cannot be cured in thirty (30) days, City shall have an additional reasonable period of time (not to exceed ninety (90) additional days) to cure such failure provided that City has commenced to cure such failure within said thirty (30) day period and

thereafter diligently and continuously uses commercially reasonable efforts to pursue the remedies or steps necessary to cure such failure.

11. Notices. All notices or other communications required or permitted pursuant hereto shall be in writing and shall be deemed to have been given upon receipt.

The receipt of any certificate does not constitute agreement by the City that the insurance requirements in the Contract have been fully met or that the insurance policies indicated on the certificate are in compliance with all requirements of Contract. The failure of the City to obtain, nor the City's receipt of, or failure to object to a non-complying insurance certificate, endorsement or other insurance evidence from Contractor, its insurance broker(s) and/or insurer(s) will not be construed as a waiver by the City of any of the required insurance provisions. Failure of the Contractor to comply with required coverage and terms and conditions outlined herein will not limit Contractor's liability or responsibility nor does it relieve Contractor of its obligation to provide insurance as specified in this Contract. Nonfulfillment of the insurance conditions may constitute a violation of the Contract, and the City retains the right to suspend this Contract until proper evidence of insurance is provided, or the Contract may be terminated.

Notice Of Material Change, Cancellation Or Non-Renewal. Contractor must provide for sixty (60) days prior written notice to be given to the City in the event coverage is substantially changed, canceled or non-renewed and ten (10) days prior written notice for non-payment of premium.

Contractors Insurance Primary. All insurance required of Contractor under this Contract shall be endorsed to state that Contractor's insurance policy is primary and not contributory with any insurance carrier by the City.

No Limitation As To Contractor's Liabilities. The coverages and limits furnished by Contractor in no way limit the Contractor's liabilities and responsibilities specified within the Contract or by law.

Contractor is also responsible for ensuring that each Subcontractor has complied with the required coverage and terms and conditions outlined in this Section B, Additional Requirements. When requested by the City, Contractor must provide to the City certificates of insurance and additional insured endorsements or other evidence of insurance.

The City reserves the right to obtain complete, certified copies of any required insurance policies at any time. Failure of the Subcontractors to comply with required coverage and terms and conditions outlined herein will not limit Contractor's liability or responsibility.

Agreement For Access Easement With Roosevelt/Clark Partners LLC.

(Wells-Wentworth Project)

This Agreement (the "Agreement") is entered into as of this ___ day of _____ 2018 ("Effective Date"), by and between the City of Chicago, an Illinois home rule municipal corporation (the "City"), by and through its Department of Transportation ("CDOT") and Roosevelt/Clark Partners LLC, a Delaware limited liability company ("Grantor").

Witnesseth:

Whereas, City proposes to undertake a series of projects, at its sole cost and expense, for the extension of South Wells Street from its present southerly terminus at Roosevelt Road to connect with the proposed northerly extension of South Wentworth Avenue from its current northerly terminus south of 16th Street (collectively, "City Project"); and

Whereas, Grantor is the current owner of parcels of property bounded by Roosevelt Road, Clark Street, 16th Street and the south branch of the Chicago River, all as more fully described on (Sub)Exhibit E-1 which is attached and incorporated ("Grantor Parcel"); and

Whereas, The Grantor contemplates the development of a mixed-use project on the Grantor Parcel ("Grantor Project"); and

Whereas, The City and Grantor anticipate that the Grantor will obtain authority to undertake and complete the Grantor Project pursuant to a Planned Development approved by City Council pursuant to Chapter 17-8 of the Chicago Zoning Ordinance ("Planned Development"); and

Whereas, Consistent with both the Grantor Project and the City Project, Grantor and City have agreed that the Grantor will dedicate certain property for the benefit of the City Project and the City will vacate certain streets and alleys for the benefit of the Grantor Project all as provided in an ordinance approved on _____, 2018 ("Vacation and Dedication Ordinance"); and

Whereas, City desires to use a certain portion of the Grantor Parcel which is described in (Sub)Exhibit E-2 which is attached and incorporated (the "Access Easement Parcel"), for public pedestrian and service vehicle access from the new Wells-Wentworth roadway to Ping Tom Park; and

Whereas, In consideration of the City's approval of the Vacation and Dedication Ordinance and the performance of the obligations as provided in this Agreement, Grantor has agreed to grant to the City a defeasible easement in the Access Easement Parcel;

Now, Therefore, In consideration of mutual covenants herein contained, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Grant Of Park Access Easement. Subject to the terms and conditions stated in this Agreement, the Grantor hereby grants and conveys to City a perpetual easement in, on, and over the Access Easement Parcel for purposes of public pedestrian access between the public way of Wells Street to Ping Tom Park ("Access Easement"), including the right to install, construct, use, inspect, maintain, repair, rehabilitate, replace, and remove improvements generally described on (Sub)Exhibit E-3 which is attached and incorporated, and which improvements shall be approved by Grantor in Grantor's reasonable discretion ("Authorized Improvements") and take any action necessary and appropriate for the development and exercise of such rights of access ("City Work"); vehicular access shall be expressly limited to support activities to install, construct, use, inspect, maintain, repair, rehabilitate, replace, and remove the Authorized Improvements. Other than the Authorized Improvements, City shall not make any improvements without prior written approval from Grantor.

2. Term.

a. Commencement. The Access Easement shall commence on the Effective Date and shall terminate at such time that public access is provided, including temporary access, as provided in the Planned Development. At such time, the Planned Development shall govern public use and public access of the Riverwalk from Wells Street to the southern property line of the Grantor Parcel (the "Riverwalk Extension").

b. Termination. Notwithstanding anything to the contrary herein, the Access Easement and this Agreement shall automatically terminate at such time that public access is provided, including temporary access, as provided in the Planned Development which will govern completion and opening for public use of the improvements for public access to Ping Tom Park.

3. Use Of Access Easement. Grantor may use the Access Easement Parcel for pedestrian and vehicular access purposes to the extent that such use does not substantially interfere with use and enjoyment of the Access Easement by the City or the public. After termination of the Access Easement, City shall have no obligation to remove the Authorized Improvements, nor any obligation to restore the Access Easement Parcel except to the extent of filling in any excavation it causes and providing rough grading thereafter, to the extent of removing any spoils it causes and providing rough grading thereafter, and to repair and restore any damage to any improvement authorized by the preexisting rights described on (Sub)Exhibit E-4 which is attached and incorporated (the "Preexisting Rights") located on the Access Easement but only to the

extent such damage was proximately caused by or on behalf of the City in connection with the City Work.

4. Easement Subject To Preexisting Rights. The Access Easement is granted subject to Preexisting Rights. Grantor warrants to the City that, notwithstanding the Preexisting Rights, it has sufficient title and interest in and to the Grantor Parcel to enter into this Agreement, and to grant the Access Easement. In the event of any conflict or should issues arise as a result of or in connection with the Preexisting Rights and the City Work, the parties will work together in good faith to resolve such issues or conflicts, which efforts shall be reflected in an updated Coordination Plan.

5. Coordination Plan. City and Grantor shall agree to a binding coordination plan addressing both work related to the Grantor Project (the "Grantor Work") and City Work, including staging and completion, in accordance with the terms and conditions of this Agreement (the "Coordination Plan"). Activities conducted in accordance with the Coordination Plan shall not be considered substantial interference with the use and enjoyment of the Access Easement. The parties agree that the Coordination Plan may be updated by mutual agreement by the parties from time to time.

6. Indemnity Of Grantor. City hereby agrees to indemnify, hold harmless and defend Grantor for claims for personal injury or property damage arising from or as a result of City employees' entry into the Access Easement Parcel for the construction of the Authorized Improvements, or their performance of the work in connection with the City Project in or on the Access Easement Parcel ("City Claims") except to the extent proximately caused by a Grantor Party. City hereby agrees to cause its contractors to indemnify, hold harmless and defend Grantor for claims for personal injury or property damage arising from or as a result of such contractor's entry into the Access Easement Parcel, or the performance of the work in connection with the Authorized Improvements ("City Contractor Claims") except to the extent proximately caused by Grantor, its employees, agents, contractors, licenses permittees or any person claiming under Grantor.

The provisions of this Section 6 shall survive any termination of this Agreement or the Access Easement but it shall not apply to City Claims or City Contractor Claims arising from events occurring after such termination.

7. City Contractors' Insurance During Work. Prior to City's contractors' entry onto the Access Easement Parcel to perform work for the construction, installation or maintenance of the Authorized Improvements, City shall cause each such contractor to procure and maintain and at all times thereafter continuing until the completion of such entry or work, all of the coverages of insurance specified in (Sub)Exhibit D-5 which is attached and incorporated.

8. Liens. City shall keep the Grantor Parcel free from any and all liens and encumbrances arising out of the City Work and the City Project. In case of any such lien attaches, Grantor shall notify City of such lien. Upon receipt of such notice, City shall

either pay and remove said lien, or undertake, in good faith, to contest such lien by appropriate legal proceedings and provide Grantor with written notice of the same. In the event City contests said lien, upon Grantor's request, City agrees to provide title insurer with a title indemnity in form and substance acceptable to Grantor's title company, including complying with conditions imposed by such title insurer, in order to permit title company to insure over such lien. City shall not be required to pay the lien until a final non-appealable judgment has been rendered in the lien holder's favor for work performed for City on the Grantor Parcel. If City (1) fails to pay and remove such lien, and fails to contest same and provide the title indemnity as provided herein, or (2) fails to comply with a final non-appealable judgment, then Grantor, at Grantor's election following 30 days' notice and time for cure to the City, may, but is not obligated to, pay and satisfy the same, and all actual costs incurred related thereto (including, without limitation, reasonable attorneys' fees, disbursements and court costs) and such amounts paid by Grantor shall be reimbursed by City, after review and approval by City (which approval shall not be unreasonably delayed or withheld), within forty-five (45) days of City's receipt of a written notice detailing such costs, with interest accruing from the date of such Grantor's notice at the rate stated as the Prime Rate pursuant to Wall Street Journal's published bank survey, or the maximum rate permitted by law, whichever is less.

9. Default, Termination. It shall be a "City Default" under this Agreement if City shall fail to comply with or perform any term, covenant, agreement or condition of this Agreement, and such failure shall continue for thirty (30) days after written notice provided, however, if such default cannot be cured in 30 days, City shall have an additional reasonable period of time (not to exceed ninety (90) additional days) to cure such failure provided that City has commenced to cure such failure within said thirty (30) day period and thereafter diligently and continuously uses commercially reasonable efforts to pursue the remedies or steps necessary to cure such failure. In the event of a City Default, Grantor shall have all remedies at law or in equity except for the right to terminate this Agreement and the Access Easement granted herein.

Agreement Regarding Wells-Wentworth Infrastructure And Water Management Facilities With Roosevelt/Clark Partners LLC.

This Agreement (the "Agreement") is entered into as of this ___ day of _____, 2018 ("Effective Date"), by and between the City of Chicago, an Illinois home rule municipal corporation (the "City"), by and through its Department of Transportation ("CDOT") and its Department of Water Management ("DWM") and Roosevelt/Clark Partners LLC, a Delaware limited liability company ("Developer").

Witnesseth:

Whereas, City has proposed a series of projects for the extension of South Wells Street from its present southerly terminus at Roosevelt Road to connect with the proposed northerly extension of South Wentworth Avenue from its current northerly terminus south of 16th Street (collectively "City Project"); and

Whereas, Developer is the current owner of parcels of property bounded by Roosevelt Road, Clark Street, 16th Street and the South Branch of the Chicago River, all as more fully described on (Sub)Exhibit F-1 which is attached and incorporated ("Developer Parcel"); and

Whereas, The Developer contemplates the development of a mixed-use project on the Developer Parcel ("Developer Project"); and

Whereas, Consistent with both the Developer Project and the City Project, Developer and City have agreed that the Developer will dedicate certain property for the benefit of the City Project and the City will vacate certain streets and alleys for the benefit of the Developer Project all as provided in an ordinance approved on _____, 2018 ("Vacation and Dedication Ordinance"); and

Whereas, Developer has agreed to construct, install, relocate, or replace certain City owned or controlled sewer, water, and related facilities in a manner that is consistent with both the City Project and the Developer Project as provided in this Agreement (the "Developer DWM Facility Work"); and

Whereas, City has agreed to construct or cause its contractors to construct, install, relocate, replace, rehabilitate, or abandon certain non-standard infrastructure improvements and certain City-owned or controlled sewer, water, and related facilities in a manner that is consistent with both the City Project and the Developer Project as provided in this Agreement (the "City Work"); and

Whereas, Developer has agreed to grant to the City certain easements in portions of Developer Parcel described in (Sub)Exhibit F-2 which is attached hereto and incorporated

herein ("New Easement Parcels"), which are needed for access to, and use and maintenance of water and sewer facilities to be owned and maintained by City (the "DWM Facilities"); and

Whereas, City has agreed to release and quitclaim to Developer its existing easement rights in property described in (Sub)Exhibit F-3 (collectively, the "Release Parcels") which is attached and incorporated, which easement rights will no longer be needed for access to or the use and maintenance of the DWM Facilities following the completion of the City Project and the certain portions of the Developer DWM Facility Work as defined in this Agreement, with such releases to be delivered in accordance with this Agreement; and

Whereas, In consideration of the City's approval of the Vacation and Dedication Ordinance, and the grants and releases of easements provided herein, Developer has agreed to perform certain portions of the Developer DWM Facility Work and assume its obligations as provided in this Agreement;

Now, Therefore, In consideration of mutual covenants herein contained, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Grants, Amendments and Releases of Permanent Easements.

a. Grants of Easements. On the Effective Date, subject to the terms and conditions stated in this Agreement, the Developer hereby grants and conveys to City permanent easements in, on, over, under and through the New Easement Parcels as listed below for the described purposes (the "New Easements"):

i. 14th Street Sewer. The area described as New Easement Parcels A-1, A-2 and A-3, in (Sub)Exhibit F-2 for purposes of the installation, construction, access, use, inspection, maintenance, repair, rehabilitation, replacement, abandonment and removal of a 66 inch combined sanitary and storm sewer (the "14th Street Sewer Easement");

ii. 15th Street Water And Sewer. The area described as New Easement Parcels B-1 and B-2 in (Sub)Exhibit F-2 for purposes of the installation, construction, access, use, inspection, maintenance, repair, rehabilitation, replacement, abandonment and removal of a water main and a combined sanitary and storm sewer;

Subject to review and approval of the DWM Commissioner, which approval shall not be unreasonably withheld or denied, the Developer may relocate the Access Easement Parcels' to another location on the Developer Parcel, provided however, that (1) the new location of each such Access Easement Parcel shall make a reasonable connection between the public way and the respective New Easement Parcels A-2 and A-3; and (2) as to the Access Easement Parcel A-5, Developer has completed and turned over, to City, and the City has accepted, the work described as Replacement Sewer Work in (Sub)Exhibit F-6 which is attached and incorporated.

To the extent that any portion of any such New Easement Parcel is dedicated to the City for purposes of a public right-of-way, then such portion of the New Easement in such New Easement Parcel shall merge with the dedication and terminate but only as to such area. Developer warrants to the City that it has sufficient title and interest in and to the Developer Parcel to enter into this Agreement and grant good and marketable title to the New Easements; provided, however, that the New Easements in items i, ii, and iii above are granted subject to the preexisting rights described on (Sub)Exhibit F-4 (the "Preexisting Rights") and to the permanent relocatable easement for commuter railroad purposes condemned in Case 81 C 431, including all rights of the Commuter Rail Division of the Regional Transportation Authority and the Northeast Illinois Regional Commuter Railroad Corporation (jointly, "Metra") to operate a railroad on its right-of-way.

b. Releases Of Easements. City shall deliver duly executed and recordable releases and quitclaims to Developer in the form of (Sub)Exhibit F-5 which is attached and incorporated (each a "Release"), upon the following occurrences:

i. On the date of and subject to the dedications in the Vacation and Dedication Ordinance have been effectuated, City shall deliver a Release for (1) the rights granted in the Grant of Easement Agreement dated July 14, 2008 and recorded on August 10, 2010 as Document Number 1022222058 but only as to Release Parcel A in (Sub)Exhibit F-3. (2) subject to the approval of the Commissioner, in his sole discretion, any and all easement rights granted to City or its predecessor or arising by prescription for purposes of maintaining or using an existing sewer in the area legally described as Release Parcel D in (Sub)Exhibit F-3;

ii. On the date that the portion of the Developer DWM Facility Work related to the 15th Street water facility installation described in (Sub)Exhibit F-6 is turned over by the Developer and accepted by the City, City shall deliver a Release for all of the remaining rights granted in the Grant of Easement Agreement dated July 14, 2008 and recorded on August 10, 2010 as Document Number 1022222058 that were not released pursuant to Section 1.b.i above described as Release Parcel B in (Sub)Exhibit F-3;

iii. On the date that the portion of the City Work identified as the Parcel A-1 Work as described in (Sub)Exhibit F-7 which is attached and incorporated, is completed and turned over by the City Contractor and accepted by the City, City shall deliver a Release for the easement rights granted by the Easement Agreement dated June 17, 1941 and recorded December 18, 1941 as Document 12812887 ("Existing 14th Sewer Easement") described as Release Parcel C in (Sub)Exhibit F-3.

2. Use Access And Restoration Of New Easements.

a. Use And Access. The New Easements shall be easements and right-of-way for existing sewer and water mains and appurtenances thereto, and for the installation of any additional sewer or water mains or other municipally-owned service facilities now located or which in the future may be located in the New Easement Parcels, and for the maintenance, renewal, and reconstruction thereof, with the right of ingress and egress at all times upon reasonable notice; provided however that the New Easement in 14th Street shall be used by City only for the DWM Facilities constructed as described in (Sub)Exhibit F-7. It is further provided that, no buildings or other structures shall be erected in or on the New Easement Parcels, including New Easement Parcels A-1, A-2 and A-3 below their upper limiting planes, nor any use made of the New Easement Parcels, including the Access Easement Parcels, or the facilities located therein for support, which in the reasonable judgment of the municipal officials having control of the aforesaid service facilities would substantially interfere with the use, maintenance, renewal, or reconstruction of DWM Facilities.

b. Restoration. If City conducts any work in the New Easement Parcels, City shall have no obligation to restore the New Easement Parcels except to the extent of filling in any excavation it causes and providing rough grading thereafter, to the extent of removing any spoils it causes and providing rough grading thereafter, and to repair and restore any damage to any improvement authorized by the Preexisting Rights located on the New Easement Parcels but only to the extent such damage was proximately caused by or on behalf of the City in connection with the City Work.

c. Developer Obligations As To Access Easement Parcels. As to the Access Easement Parcels, Developer shall (i) design, construct and maintain at all times with facilities and surfaces to be occupied and used by DWM for vehicular access and which facilities and surfaces, in the reasonable opinion of the Commissioner, reasonably accommodate DWM maintenance vehicles performing maintenance as permitted by Section 1.a.(v), (ii) at all times, such facilities and surfaces shall be open for occupation and use by DWM and its contractors, and shall provide access with required vertical and horizontal clearances; and (iii) and notwithstanding Section 2.c.(i), DWM may cause the removal of obstructions in violation of City's rights of access, in order to accommodate DWM access and maintenance, including removal of vehicles that block such access.

3. Developer DWM Facility Work.

a. Upon execution of this Agreement, Developer will be responsible, at its sole cost and expense, for performing and completing the portion of the Developer DWM Facility Work described as Required Work in (Sub)Exhibit F-6 in accordance with this Agreement. To the extent that Developer undertakes to perform portions of the Developer DWM Facility Work described as Replacement Sewer Work in (Sub)Exhibit F-6, it shall do so in accordance with this Agreement.

b. Developer shall obtain City's approval of the plans and specifications for the Developer DWM Facility Work, including any update of the completion dates set forth in (Sub)Exhibit F-6 ("Developer DWM Facility Work Schedule"). City agrees that its approval of the submitted plans and specifications will not be unreasonably withheld or delayed. Upon approval by City, such plans and specifications shall be known as the "Approved Plans".

c. Developer expressly agrees and warrants that the Developer DWM Facility Work shall be designed, constructed and performed, at all times in a good and workmanlike manner and in compliance with all applicable federal, state and local laws and regulations ("Law"), the Approved Plans, and this Agreement. To that end, Developer shall apply for, receive and with all necessary building, public way and other permits required by Law, including the Municipal Code of Chicago ("Permits").

d. Upon issuance of the Permits for any phase of the Developer DWM Facility Work, Developer shall diligently pursue completion of such Developer DWM Facility Work and, subject to Unavoidable Delays as defined in Section 11.e below, shall complete such Developer DWM Facility Work in accordance with the Permits, the Approved Plans, Permits, and the Developer DWM Facility Work Schedule.

e. Developer shall be responsible for obtaining approvals of or making suitable arrangements with (including payment to) the persons or entities owning or controlling any currently existing utility or public service facility (or replacements or upgrades thereof in currently existing locations) that is duly authorized to occupy the public way and is required to be removed, relocated, altered, additionally maintained or restored because of the Developer DWM Facility Work ("Existing Utility Facilities").

f. Following the completion of the inspection, including testing required by applicable permits, of a phase or designated portion of the Developer DWM Facility Work in accordance with and pursuant to the Permits, City will provide a punch list of items of Developer DWM Facility Work that are to be completed by Developer prior to acceptance by the City. Upon Developer's final completion of the Developer DWM Facility Work, including all required punch list items, all in accordance with the Approved Plans, Permit and delivery of as-built plans and assignments of warranties, City shall accept the Developer DWM Facility Work. Following turnover and acceptance of the Developer DWM Facility Work as provided herein, Developer shall

have no obligation to maintain the DWM Facilities, except as otherwise provided by Law.

4. City Work. The City agrees that it will conduct and perform, at its sole cost, the City Work as further described in (Sub)Exhibit F-7 in accordance with the schedule (the "City Work Schedule"), plans and specifications shared with and approved by Developer (the "City Work Plans"). Subject to Section 11.e below, the City Work shall commence within 120 days of execution of this Agreement and City shall diligently pursue completion of such work in accordance with the City Work Schedule and City Work Plans. City expressly agrees and warrants that the City Work shall be designed, constructed and performed, at all times in a good and workmanlike manner and in compliance with Law.

5. Joint DWM Facility Work Coordination Plan. City and Developer shall agree to a binding coordination plan (the "DWM Facilities Coordination Plan") addressing both Developer Work and City Work, including staging and completion. Developer and City shall each coordinate their activities with respect to the Developer DWM Facility Work and the City Work to reduce and reasonably avoid interference. The Developer Work Schedule and City Work Schedule shall each be approved by the other Party respectively and shall be incorporated in the Coordination Plan.

6. Indemnities.

a. Indemnity Of City By Developer. To the full extent of the Law, Developer hereby agrees to indemnify, hold harmless and defend City, its officials, officers, employees, and agents ("City Parties") from and against any and all claims, demands, damages, lawsuits, legal proceedings, losses, liens, liabilities, judgments, orders or decrees, and all costs and expenses (including, without limitation, actual attorneys' fees, court costs, and other reasonable expenses of litigation) ("Claims"), for the death or injury any person, or property damage whatsoever arising or resulting from the Developer's performance or non-performance of the Developer DWM Facility Work or the Developer's actions pursuant to the DWM Facilities Coordination Plan, or the use of or entry in the New Easement Parcels by Developer, its employees, agents, and contractors ("Developer Parties"). In the event City receives notice of a Claim for which it desires to be covered by this indemnity, City shall notify Developer in writing and tender said defense to Developer. In such event, Developer shall appear in City's name and shall vigorously defend such Claim at Developer's expense. City shall cooperate with Developer and may reasonably participate in the defense of the Claim; provided however, that Developer shall not enter into any settlement of any such Claim without the consent of City, which consent shall not be unreasonably withheld or denied. This remedy is not exclusive.

b. Indemnity Of Developer By City. To the full extent of the Law, City shall indemnify, hold harmless and defend Developer for Claims for personal injury or property damage arising from or as a result of City employees' entry into the New Easement Parcels for

the construction or maintenance of the DWM Facilities, or their performance of the City Work or the City Project in or on the New Easement Parcels ("City Claims") except to the extent proximately caused by one or more of the Developer Parties. City shall cause its contractors to indemnify, hold harmless and defend Developer, its officers, employees, and agents ("Developer Parties") from and against any and all Claims, for the death or injury any person, or property damage whatsoever arising or resulting from the City's contractors' performance or non-performance of the City Work ("City Contractor Claims"). In the event Developer receives notice of a Claim for which it desires to be covered by this indemnity, Developer shall notify City in writing and tender said defense to City or its contractor. In such event, City or City's contractor shall appear in Developer's name and shall vigorously defend such Claim at City's contractor's expense. Developer shall cooperate with City's contractor and may reasonably participate in the defense of the Claim; provided however, that City's contractor shall not enter into any settlement of any such Claim without the consent of Developer, which consent shall not be unreasonably withheld or denied. This remedy is not exclusive.

c. Survival Of Indemnities. The provisions of this Section 6 shall survive any termination of this Agreement or the New Easements but it shall not apply to Claims arising from events occurring after such termination.

7. Insurance During Developer DWM Facility Work. Prior to the commencement of Developer DWM Facility Work, the Developer shall procure and maintain, at all times and continuing until the completion of such activities, including any period when any contractor is required to return to complete or correct any prior work, all of the types and coverages of insurance and endorsements specified in (Sub)Exhibit F-8 which is attached and incorporated.

8. Insurance During City Work. Prior to authorization by City of any of its contractors to enter onto the New Easement Parcels, City shall cause each such contractor to procure and maintain and at all times thereafter continuing until the completion of such entry or work, all of the coverages of insurance specified in (Sub)Exhibit F-9 which is attached and incorporated herein.

9. Liens. City shall keep the Developer Parcel free from any and all liens and encumbrances arising out of the City Work and the City Project. In case of any such lien attaches, Developer shall notify City of such lien. Upon receipt of such notice, City shall either pay and remove said lien, or undertake, in good faith, to contest such lien by appropriate legal proceedings and provide Developer with written notice of the same. In the event City contests said lien, upon Developer's request, City agrees to provide title insurer with a title indemnity in form and substance acceptable to Developer's title company, including complying with conditions imposed by such title insurer, in order to permit title company to insure over such lien. City shall not be required to pay the lien until a final non-appealable judgment has been rendered in the lien holder's favor for

work performed for City on the Developer Parcel. If City (1) fails to pay and remove such lien, and fails to contest same and provide the title indemnity as provided herein, or (2) fails to comply with a final non-appealable judgment, then Developer, at Developer's election following 30 days' notice and time for cure to the City, may, but is not obligated to, pay and satisfy the same, and all actual costs incurred related thereto (including, without limitation, reasonable attorneys' fees, disbursements and court costs) and such amounts paid by Developer shall be reimbursed by City, after review and approval by City (which approval shall not be unreasonably delayed or withheld), within forty-five (45) days of City's receipt of a written notice detailing such costs, with interest accruing from the date of such Developer's notice at the rate stated as the Prime Rate pursuant to Wall Street Journal's published bank survey, or the maximum rate permitted by law, whichever is less.

10. Notices. All notices or other communications required or permitted pursuant hereto shall be in writing and shall be deemed to have been given upon receipt.

[SO2018-4022]

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. Title 17 of the Municipal Code of Chicago, the Chicago Zoning Ordinance, be amended by changing Residential Planned Development Number 1320 symbols and indications as shown on Map Number 1-F in the area bounded by:

a line beginning at a point 125.79 feet north of the north line of the Chicago, Milwaukee, St. Paul and Pacific Railroad right-of-way as measured along the east line of North Halsted Street and extending 419.88 feet east to a point on the west line of North Union Avenue 126.7 feet north of the north line of said railroad right-of-way; North Union Avenue; the north line of the Chicago, Milwaukee, St.Paul and Pacific Railroad right-of-way; and North Halsted Street,

to those of Residential Planned Development Number 1320, as amended, and an accompanying use district is hereby established in the area described above.

SECTION 2. This ordinance takes effect after its passage and due publication.

Plan of Development Statements attached to this ordinance read as follows:

Residential Planned Development No. 1320, As Amended.

Planned Development Statements.

1. The area delineated herein as Residential Planned Development Number 1320, as amended ("Planned Development"), consists of approximately 53,013 square feet of property which is depicted on the attached Planned Development Boundary and Property Line Map ("Property") and is owned or controlled by the Applicant, Chicago Self Storage II LLC.

2. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the Applicant, its successors and assigns and, if different than the Applicant, the legal titleholders and any ground lessors. All rights granted hereunder to the Applicant shall inure to the benefit of the Applicant's successors and assigns and, if different than the Applicant, the legal titleholder and any ground lessors. Furthermore, pursuant to the requirements of Section 17-8-0400 of the Chicago Zoning Ordinance, the Property, at the time of application for amendments, modifications or changes (administrative, legislative or otherwise) to this Planned Development are made, shall be under single ownership or designated control. Single designated control is defined in Section 17-8-0400 of the Zoning Ordinance.

3. All applicable official reviews, approvals or permits are required to be obtained by the Applicant or its successors, assignees or grantees. Any dedication or vacation of streets or alleys or grants of easements or any adjustment of the right-of-way shall require a separate submittal to the Department of Transportation on behalf of the Applicant or its successors, assigns or grantees.

   Any requests for grants of privilege, or any items encroaching on the public way, shall be in compliance with the plans.

   Ingress or egress shall be pursuant to the plans and may be subject to the review and approval of the Departments of Planning and Development and Transportation. Closure of all or any public street or alley during demolition or construction shall be subject to the review and approval of the Department of Transportation.

4. This plan of development consists of 16 Statements; a Bulk Regulations Table; an Existing Zoning Map; an Existing Land-Use Map; a Planned Development Boundary Map; Site Plan -- Ground Level/Enlarged; Amenity Deck -- Halsted Level; a Green Roof Plan and Building Elevations (North, South, East and West) prepared by Pappageorge Haymes Partners dated June 21, 2018. In any instance where a provision of this Planned Development conflicts with the Chicago Building Code, the Building Code shall control. This Planned Development conforms to the intent and purpose of the Zoning Ordinance, and all requirements thereto, and satisfies the established criteria for approval as a Planned Development. In case of a conflict between the terms of this Planned Development ordinance and the Zoning Ordinance, this Planned Development ordinance shall control.

5. The following uses are permitted in the area delineated herein as a Planned Development: dwelling units located above the ground floor, accessory parking and accessory uses.

6. On-premises signs and temporary signs, such as construction and marketing signs, shall be permitted within the Planned Development, subject to the review and approval of the Department of Planning and Development. Off-premises signs are prohibited within the boundary of the Planned Development.

7. For purposes of height measurement, the definitions in the Zoning Ordinance shall apply. The height of any building shall also be subject to height limitations, if any, established by the Federal Aviation Administration.

8. The maximum permitted Floor Area Ratio ("FAR") for the site shall be in accordance with the attached Bulk Regulations Table. For the purposes of FAR calculations and measurements, the definitions in the Zoning Ordinance shall apply. The permitted FAR identified in the Bulk Regulations Table has been determined using a net site area of 53,013 square feet and a base FAR of 5.0. The Applicant acknowledges that the project has received a bonus FAR of 1.13, pursuant to Section 17-4-1000 of the Zoning Ordinance. With this bonus FAR, the total FAR for the Planned Development is 6.13. In exchange for the bonus FAR, the Applicant is required to make a corresponding payment, pursuant to Sections 17.4-1003-B and C, prior to the issuance of the first building permit for any building in the Planned Development; provided, however, if the Planned Development is constructed in phases, the bonus payment may be paid on a pro rata basis as the first building permit for each subsequent new building or phase of construction is issued. The bonus payment will be recalculated at the time of payment (including partial payments for phased developments) and may be adjusted based on changes in median land values in accordance with Section 17-4-1003-C.3.

   The bonus payment will be split between three separate funds, as follows: 80 percent to the Neighborhoods Opportunity Fund, 10 percent to the Citywide Adopt-a-Landmark Fund and 10 percent to the Local Impact Fund. In lieu of paying the City directly, the Department may: (a) direct developers to deposit a portion of the funds with a sister agency to finance specific local improvement projects; (b) direct developers to deposit a portion of the funds with a landmark property owner to finance specific landmark restoration projects; or, (c) approve proposals for in-kind improvements to satisfy the Local Impact portion of the payment.

   It is currently anticipated that the 10 percent to the Local Impact Fund shall be utilized for the future development of a Chicago Park District open space located at the southwest corner of North Milwaukee Avenue and West Erie Street. Any modification of the allocation of the Local Impact Fund shall be subject to Section 17-4-1005-G but in no event shall such modification cause a delay in the issuance of Part II Approval, building permit or certificate of occupancy for the Planned Development.

9. Upon review and determination, "Part II Review", pursuant to Section 17-13-0610 of the Zoning Ordinance, a Part II Review fee shall be assessed by the Department of Planning and Development. The fee, as determined by staff at the time, is final and binding on the Applicant and must be paid to the Department of Revenue prior to the issuance of any Part II Approval.

10. The Site and Landscape Plans shall be in substantial conformance with the Landscape Ordinance and any other corresponding regulations and guidelines. Final landscape plan review and approval will be by the Department of Planning and

Development. Any interim reviews associated with site plan review or Part II Reviews are conditional until final Part II Approval.

11. The Applicant shall comply with Rules and Regulations for the Maintenance of Stockpiles promulgated by the Commissioners of the Departments of Streets and Sanitation, Fleet and Facility Management and Buildings, under Section 13-32-125 of the Municipal Code, or any other provision of that Code.

12. The terms and conditions of development under this Planned Development ordinance may be modified administratively, pursuant to Section 17-13-0611-A of the Zoning Ordinance by the Zoning Administrator upon the application for such a modification by the Applicant, its successors and assigns and, if different than the Applicant, the legal titleholders and any ground lessors.

13. The Applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the Property. Plans for all buildings and improvements on the Property shall be reviewed and approved by the Mayor's Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility.

14. The Applicant acknowledges that it is in the public interest to design, construct, renovate and maintain all buildings in a manner that provides healthier indoor environments, reduces operating costs, conserves energy and maximizes the preservation of natural resources. At the time of a hearing before the Chicago Plan Commission, all developments must be in substantial compliance with the current City of Chicago Sustainable Development Policy set forth by the Department of Planning and Development. The Applicant shall provide open space in the form of a 12,150 square foot dog park, which will be open to the public during hours typical of the Chicago Park District parks but the dog park will be maintained and owned by the Applicant or its successors. Applicant shall also provide a green roof consisting of 50 percent of the net roof area (approximately 8,050 square feet) and shall achieve LEED certification for the project.

15. The Applicant acknowledges and agrees that the rezoning of the Property from DS-5 to DX-5, and then to this Planned Development, triggered the requirements of Section 2-45-115 of the Municipal Code (the "Affordable Requirements Ordinance" or "ARO") when it was approved by City Council on April 13, 2016. Because the project was approved by City Council before the first anniversary of the ARO publication date, the in-lieu fee was set at $140,000 per unit. This fee will be updated at payment to reflect the current Consumer Price Index. Under the ARO, any developer of a "residential housing project" within the meaning of the ARO must: (i) set aside 10 percent of the housing units in the residential housing project as affordable units (the "Affordable Units"), or provide the Affordable Units in an approved off-site location; (ii) pay a fee in lieu of the development of the Affordable Units; or (iii) any combination of (i) and (ii); provided, however, with one exception that doesn't apply

here, residential housing projects with 20 or more units ("Larger Projects") must construct a minimum of 25 percent of the Affordable Units (the "Required Units") on-site or off-site (i.e., the developer may not pay a fee in lieu of the development of the Required Units). This Planned Development is located in a "downtown district" within the meaning of the ARO and is a larger project subject to the minimum construction requirement. The Applicant agreed to satisfy its affordable housing obligation by providing the Required Units in the rental building to be constructed in the Planned Development, and paying a fee in lieu for the remaining 75 percent of the Affordable Units, as set forth in the Affordable Housing Profile Form attached hereto. The Applicant agreed that the Affordable Units must be affordable to households earning no more than 60 percent of the Chicago-area median household income, as updated annually. If the Applicant subsequently reduces (or increases) the number of housing units in the Planned Development, the Applicant shall update and resubmit the Affordable Housing Profile Form to the Department of Planning and Development ("DPD") for review and approval, and DPD may adjust the number of required Affordable Units without amending the Planned Development. Prior to the issuance of any building permits for any residential building in the Planned Development, including, without limitation, excavation or foundation permits, the Applicant must make the in-lieu payment and execute and record an affordable housing agreement in accordance with Section 2-45-115(K)(2) to secure the Applicant's obligation to construct the Required Units. The terms of the affordable housing agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the affordable housing agreement will be recorded against the Planned Development, or the applicable portion thereof, and will constitute a lien against such property. The Commissioner of DPD may enforce remedies for any breach of this Statement, including any breach of any affordable housing agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the Planned Development.

16. This Planned Development shall be governed by Section 17-13-0612 of the Zoning Ordinance. Should this Planned Development ordinance lapse, the Commissioner of the Department of Planning and Development shall initiate a zoning map amendment to rezone the Property to DX-5 (Downtown Mixed-Use District).

The Applicant shall obtain the number of points necessary to meet the requirements of the Chicago Sustainable Development Policy, in effect at the time the Part II Review process is initiated for each improvement that is subject to the aforementioned policy and must provide documentation verifying compliance.

16. The Applicant acknowledges that it is the policy of the City to maximize opportunities for Minority- and Women-owned Business Enterprises ("M/WBEs") and City residents to compete for contracts and jobs on construction projects approved through the planned development process. To assist the City in promoting and tracking such M/WBE and City resident participation, an applicant for planned

development approval shall provide information at three points in the City approval process. First, the applicant must submit to DPD, as part of its application for planned development approval, an M/WBE Participation Proposal. The M/WBE Participation Proposal must identify the applicant's goals for participation of certified M/WBE firms in the design, engineering and construction of the project, and of City residents in the construction work. The City encourages goals of 26 percent MBE and 6 percent WBE participation (measured against the total construction budget for the project or any phase thereof), and *(ii) 50 percent City resident hiring (measured against the total construction work hours for the project or any phase thereof). The M/WBE Participation Proposal must include a description of the Applicant's proposed outreach plan designed to inform M/WBEs and City residents of job and contracting opportunities. Second, at the time of the Applicant's submission for Part II Permit Review for the project or any phase thereof, the Applicant must submit to DPD (a) updates (if any) to the Applicant's preliminary outreach plan, (b) a description of the Applicant's outreach efforts and evidence of such outreach, including, without limitation, copies of certified letters to M/WBE contractor associations and the ward office of the alderman in which the project is located and receipts thereof; (c) responses to the Applicant's outreach efforts, and (d) updates (if any) to the applicant's M/WBE and City resident participation goals. Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the Applicant must provide DPD with the actual level of M/WBE and City resident participation in the project or any phase thereof, and evidence of such participation. In addition to the forgoing, DPD may request such additional information as the department determines may be necessary or useful in evaluating the extent to which M/WBEs and City residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and City residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

17. The Applicant acknowledges and agrees that the rezoning of the Property from Planned Development Number 773 to the DX-5 Downtown Mixed-Use District, and then to Planned Development Number 773, as amended ("P.D."), for construction of the Project triggers the requirements of Section 2-45-115 of the Municipal Code (the "Affordable Requirements Ordinance" or the "ARO"). The Applicant further acknowledges and agrees that the Property is located in the Near North/Near West Pilot Area, pursuant to Section 2-45-117 of the Municipal Code (the "Near North/Near West ARO Pilot Area Ordinance" or the "Pilot"). The Near North/Near West Pilot Area is divided into two zones: the Near North Zone and the Near West Zone. The Property is located in the Near North Zone. In the Near North Zone, pursuant to the ARO, the percentage of units in a residential housing project required to be affordable for a period of 30 years, whether rental or for-sale, is increased from

* Editor's Note: Numbering sequence error; (i) missing in original document.

10 percent to 20 percent. Any developer of a residential housing project in the Near North Zone must provide the first 10 percent of units required to be affordable (the "First Units") either: (i) in the residential housing project, or (ii) with the approval of the Commissioner of the Department of Planning and Development (the "Commissioner"), in an off-site location within two miles of the Property and in the same or a different higher income area or downtown district, or (iii) any combination of (i) and (ii). In addition, the developer must provide the second 10 percent of units required to be affordable (the "Additional Units") either: (i) in the residential housing project, or (ii) with the Commissioner's approval, in an off-site location anywhere within the Near North/Near West Pilot Area, regardless of distance from the project or income area, or (iii) any combination of (i) and (ii). The project has a total of 260 housing units. As a result, the Applicant's affordable housing obligation is 52 affordable units (20 percent of 260), consisting of 26 First Units and 26 Additional Units. Applicant has agreed to satisfy its affordable housing obligation by providing the First Units and the Additional Units in the rental building to be constructed in the Planned Development, as set forth in the Affordable Housing Profile Form attached hereto; provided, however, Applicant has agreed to make a good faith effort to locate at least six of the Additional Units off-site and to substitute owner-occupied units for rental units in such off-site location(s). In accordance with the ARO Pilot, the Applicant is required to lease the First Units to households earning up to 60 percent of the Chicago Primary Metropolitan Statistical Area median income ("AMI") at prices affordable to households at such income level, and is required to lease the Additional Units to households earning up to 80 percent or 100 percent of AMI, as determined by rule and approved by the Commissioner, at prices affordable to households at such income levels; provided, however, if the Applicant provides off-site owner-occupied units to satisfy its Additional Units obligation, the Applicant shall sell such units to households earning up to one hundred twenty percent (120%) of the AMI at prices affordable to households earning up to one hundred percent (100%) of the AMI. If the Applicant subsequently reduces (or increases) the number of housing units in the project, or elects to build a for-sale project instead of a rental project, or (with the Commissioner's approval) elects to construct off-site units instead of on-site units, the Applicant shall update and resubmit the Affordable Housing Profile Form to the Department of Planning and Development ("DPD") for review and approval. DPD may adjust the requirements to reflect any such change without amending the Planned Development. Prior to the issuance of any building permits for any residential building in the Planned Development, including, without limitation, excavation or foundation permits, the Applicant must execute and record an affordable housing agreement in accordance with Section 2-45-115(L). The terms of the affordable housing agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the affordable housing agreement will be recorded against the Planned Development, or the applicable portion thereof, and will constitute a lien against such property. The Commissioner may enforce remedies for any breach of this Statement 17, including any breach of any affordable housing agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the Planned Development.

18. This Planned Development shall be governed by Section 17-13-0612. Should this Planned Development ordinance lapse, the Commissioner of the Department of Planning and Development shall initiate a zoning map amendment to rezone the Property to the DX-5 Downtown Mixed-Use District.

The Applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the Property. Plans for all buildings and improvements on the Property shall be reviewed and approved by the Mayor's Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility.

14. The Applicant acknowledges that it is in the public interest to design, construct, renovate and maintain all buildings in a manner that provides healthier indoor environments, reduces operating costs and conserves energy and natural resources. The Applicant shall obtain the number of points necessary to meet the requirements of the Chicago Sustainable Development Policy, in effect at the time the Part II Review process is initiated for each improvement that is subject to the aforementioned policy and must provide documentation verifying compliance.

15. The Applicant acknowledges that it is the policy of the City to maximize opportunities for Minority- and Women-owned Business Enterprises ("M/WBEs") and City residents to compete for contracts and jobs on construction projects approved through the planned development process. To assist the City in promoting and tracking such M/WBE and City resident participation, an applicant for planned development approval shall provide information at three points in the City approval process. First, the applicant must submit to DPD, as part of its application for planned development approval, an M/WBE Participation Proposal. The M/WBE Participation Proposal must identify the applicant's goals for participation of certified M/WBE firms in the design, engineering and construction of the project, and of City residents in the construction work. The City encourages goals of 26 percent MBE and 6 percent WBE participation (measured against the total construction budget for the project or any phase thereof), and *(ii) 50 percent City resident hiring (measured against the total construction work hours for the project or any phase thereof). The M/WBE Participation Proposal must include a description of the Applicant's proposed outreach plan designed to inform M/WBEs and City residents of job and contracting opportunities. Second, at the time of the Applicant's submission for Part II Permit Review for the project or any phase thereof, the Applicant must submit to DPD (a) updates (if any) to the Applicant's preliminary outreach plan, (b) a description of the Applicant's outreach efforts and evidence of such outreach, including, without

* Editor's Note: Numbering sequence error; (i) missing in original document.

limitation, copies of certified letters to M/WBE contractor associations and the ward office of the alderman in which the project is located and receipts thereof; (c) responses to the Applicant's outreach efforts, and (d) updates (if any) to the Applicant's M/WBE and City resident participation goals. Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the Applicant must provide DPD with the actual level of M/WBE and City resident participation in the project or any phase thereof, and evidence of such participation. In addition to the forgoing, DPD may request such additional information as the department determines may be necessary or useful in evaluating the extent to which M/WBEs and City residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and City residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

16. The Applicant acknowledges and agrees that the rezoning of the Property from B3-2 to B3-5, and then to this Planned Development (P.D.), triggers the requirements of Section 2-45-115 of the Municipal Code of Chicago (Affordable Requirements Ordinance or ARO). Any developer of a residential housing project within the meaning of the ARO must: (i) set aside 10 percent of the housing units in the residential housing project (the Required Units) as affordable units, or with the Commissioner of the Department of Planning and Development's (DPD) approval, provide the Required Units in an approved off-site location; (ii) pay a fee in lieu of the development of the Required Units; or, (iii) any combination of (i) and (ii); provided, however, that residential housing projects with 20 or more units must provide at least 25 percent of the Required Units on-site or off-site. If the developer elects to provide affordable units off-site, the off-site affordable units must be located within a two-mile radius from the residential housing project and in the same or a different higher income area or downtown district. The Property is located in a higher income area, within the meaning of the ARO, and the project has a total of 92 units. As a result, the Applicant's affordable housing obligation is 9 affordable units (10 percent of 92 rounded down) two (2) of which are Required Units (25 percent of 9, rounded down). Applicant has agreed to satisfy its affordable housing obligation by providing at least two (2) affordable units in the rental/for sale building to be constructed in the P.D. and by making a cash payment to the Affordable Housing Opportunity Fund in the amount of $128,469 per unit (Cash Payment) for the balance of affordable units that are not constructed in the P.D. (or otherwise constructed in an off-site building acceptable to DPD), as set forth in the Affordable Housing Profile Form attached hereto as Exhibit A. The Applicant agrees that the affordable rental/for sale units must be affordable to households earning no more than 60 percent/100 percent of the Chicago Primary Metropolitan Statistical Area Median Income (AMI), as updated annually by the City of Chicago. If the Applicant subsequently reduces (or increases) the number of housing units in the P.D., the Applicant shall update and resubmit the

Affordable Housing Profile Form to DPD for review and approval; DPD may adjust the number of required Affordable Units without amending the P.D.. Prior to the issuance of any building permits for any residential building in the P.D., including, without limitation, excavation or foundation permits, the Applicant must make the required Cash Payment and/or execute and record an affordable housing agreement in accordance with Section 2-45-115(L). The terms of the affordable housing agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the affordable housing agreement will be recorded against the P.D., or the applicable portion thereof, and will constitute a lien against such property. The Commissioner of DPD may enforce remedies for any breach of this Statement 16, including any breach of any affordable housing agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the P.D.

17. The Applicant acknowledges that the Planned Development (P.D.) project includes excavation, new foundations or other work adjacent to a Chicago Landmark building -- Yondorf Block and Hall. Pursuant to the Chicago Zoning Ordinance, Section 17-8-0911, the Applicant acknowledges that it is in the public interest to promote the preservation of historic resources. The Applicant shall submit a report, stamped by an engineer, identifying any protective measures that may be required for the historic building and those measures that will be incorporated during construction as part of the project. The report shall be submitted as part of the Part II Review application to the Planning, Design and Historic Preservation Division and be subject to the review and acceptance of the Department of Planning and Development.

18. This Planned Development shall be governed by Section 17-13-0612. Should this Planned Development ordinance lapse, the Commissioner of the Department of Planning and Development shall initiate a zoning map amendment to rezone the Property to the preexisting B3-5 Community Shopping District.

Reclassification Of Area Shown On Map No. 9-G.
(As Amended)
(Application No. 19546T1)
(Common Address: 1101 -- 1115 W. Addison St.)

[SO2018-1003]

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Chicago Zoning Ordinance be amended by changing all of the B3-2 Community Shopping District symbols and indications as shown on Map Number 9-G in the area bounded by:

West Addison Street; the west line of the abandoned Chicago Milwaukee St. Paul & Pacific Railroad; a line 138.25 feet south of and parallel to West Addison Street; and the public alley east of and parallel to North Racine Avenue,

to those of a B3-3 Community Shopping District.

SECTION 2. This ordinance shall be in force and effect from and after its passage and due publication.

[Site Plan; and North, South, East and West Building Elevations attached to this ordinance printed on pages 81013 through 81017 of this *Journal*.]

Type 1 Narrative Rezoning Analysis attached to this ordinance reads as follows:

SUBSTITUTE NARRATIVE AND PLANS ZONING ANALYSIS
TYPE 1 ZONING MAP AMENDMENT APPLICATION

Applicant: West Addison Development, LLC
Property Location: 1101-1115 West Addison
Proposed Zoning: B3-3 Community Shopping District
Lot Area: 19,899 square feet

West Addison Development LLC is the "Applicant" for a Type 1 Zoning Map Amendment for the subject property located at 1101-1115 West Addison from the B3-2 Community Shopping District to the B3-3 Community Shopping District. The Applicant proposes the construction of a four-story commercial building.

The site is located on the south side of Addison Street west of the railroad tracks to the west of Clark Street. To the north of the subject property are properties zoned RT-3.5 and PD 958, to the south is B3-3 zoning, to the west is RT-4 zoning, and to the east is B3-2 zoning.

The subject property consists of approximately 19,901 square feet and is currently occupied by an existing Taco Bell restaurant with a drive-through. The Applicant proposes to demolish the existing building and construct a 4-story retail building. The 65' tall structure will have approximately 57,774 gsf (max 3.0 FAR), new bike parking in the public right of way along Addison, loading and bike parking in the rear.

The exterior of the building is primarily glass and metal panel, and its "folded plane" geometry allows the building to create small terraces for retail tenants and create setbacks to the building so its scale can adjust to the heights of the residential buildings to the west of it.

Parking will not be provided. The subject property is less than 1,000 feet from the Addison CTA red line station entrance.

NARRATIVE ZONING ANALYSIS

(a) Floor Area and Floor Area Ratio:

i.	Lot area:	19,901 square feet
iii.	Total building area:	57,774 square feet
iv.	FAR:	3.0

(b) Density (Lot Area Per Dwelling Unit): Not applicable (no dwelling units)

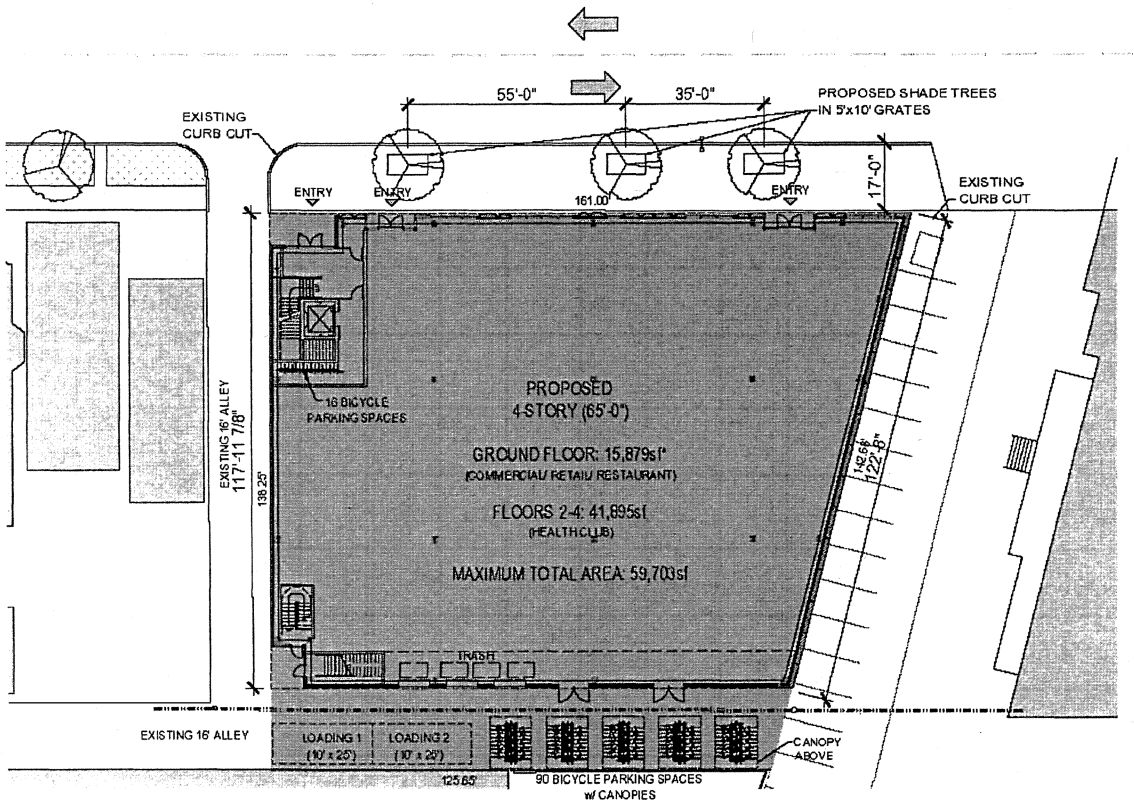

(c) Amount of off-street parking: 0 spaces (Transit-served Location Parking Reduction Proposed. Approx. 950 feet to Addison CTA Station.)

ii. Side setbacks: 0 feet

Type 1 Narrative Rezoning Analysis attached to this ordinance reads as follows:

17-13-0303-C (1) Narrative Zoning Analysis
3469-3475 North Clark Street, Chicago, Illinois

Proposed Zoning: B3-5 Neighborhood Mixed-Use District

Lot Area: 7,391 square feet

Proposed Land Use: In and around September 2016 and – again, in December 2017, the Applicant obtained a Zoning Map Reclassification, pursuant to a Type I Application, in order to rehabilitate the existing four-story building, and to erect a new five-story addition - on the adjacent vacant lots, in order to locate and establish a new hotel, with retail tenancy, at the subject property. Subsequent to final approval and ratification of the Zoning Map Reclassification Ordinances and based on the new commercial tenancy for the existing hotel building, the Applicant had to modify its plans, to provide for the location and establishment of a new outdoor grade-level patio, which will operate in conjunction with a new restaurant to be located within the newly rehabilitated hotel building. The new patio will be situated on the vacant two lots, adjacent to the existing four-story hotel building. In order to permit this proposal, the Applicant is seeking to amend the previously approved Type I Zoning Map Reclassification, in order to substitute the new set of architectural plans for the previously approved plans, which were approved and ratified with the previous Type 1 Zoning Map Reclassification. Once rehabilitated, the existing four-story building will contain a hotel lobby and a single retail/restaurant space - at grade level, and twenty-one (21) hotel rooms (units) – above (Floors 2 thru 4). There will be an outdoor deck, for guests of the hotel, located above the 4th Floor. No onsite parking is required or proposed, for the new development. The existing four-story building is masonry in construction and measures 66 feet-6 inches in height.

(A) The Project's Floor Area Ratio: 15,239 square feet (2.1 FAR)

(B) The Project's Density (Lot Area Per Dwelling Unit): No residential units

(C) The amount of off-street parking: Zero (0)

Site Plan Approval Submittals shall include all other information necessary to illustrate substantial conformance to the Planned Development.

16. The Applicant acknowledges and agrees that the rezoning of the Property from Planned Development Number 44 to B3-2, and then to this Planned Development Number 44, as amended, to allow dwelling units in Subarea B-1, triggers the requirements of Section 2-45-115 of the Municipal Code of Chicago (Affordable Requirements Ordinance or ARO). Any developer of a residential housing project within the meaning of the ARO must: (i) set aside 10 percent of the housing units in the residential housing project (the Required Units) as affordable units, or with the Commissioner of the Department of Planning and Development's (DPD) approval, provide the Required Units in an approved off-site location; (ii) pay a fee in lieu of the development of the Required Units; or, (iii) any combination of (i) and (ii); provided, however, that residential housing projects with 20 or more units must provide at least

25 percent of the Required Units on-site or off-site. If the developer elects to provide affordable units off-site, the off-site affordable units must be located within a two-mile radius from the residential housing project and in the same or a different higher income area or downtown district. The Property is located in a higher income area, within the meaning of the ARO, and Subarea B-1 project has a total of 300 units. As a result, the Applicant's affordable housing obligation is 30 affordable units (10 percent of 300 rounded up/down), 8 of which are Required Units (25 percent of 30, rounded up/down). Applicant has agreed to satisfy its affordable housing obligation by making a cash payment to the Affordable Housing Opportunity Fund in the amount of $125,000 per unit (Cash Payment) and/or providing 8 affordable units in the rental/for sale building to be constructed in the P.D. and/or 8 affordable units in an off-site building located at TBD and/or entering into an agreement with the Chicago Housing Authority (CHA) to provide affordable units in the P.D., as set forth in the Affordable Housing Profile Form attached hereto as Exhibit A. The Applicant agrees that the affordable rental/for sale units must be affordable to households earning no more than 60 percent of the Chicago Primary Metropolitan Statistical Area Median Income (AMI), as updated annually by the City of Chicago. If the Applicant subsequently reduces (or increases) the number of housing units in the P.D., the Applicant shall update and resubmit the Affordable Housing Profile Form to DPD for review and approval; DPD may adjust the number of required Affordable Units without amending the P.D.. Prior to the issuance of any building permits for any residential building in the P.D., including, without limitation, excavation or foundation permits, the Applicant must make the required Cash Payment and/or execute and record an affordable housing agreement in accordance with Section 2-45-115(L). The terms of the affordable housing agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the affordable housing agreement will be recorded against the P.D., or the applicable portion thereof, and will constitute a lien against such property. The Commissioner of DPD may enforce remedies for any breach of this Statement 16, including any breach of any affordable housing agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the P.D.

17. The Applicant acknowledges the importance of the CTA Blue Line Station located near the Property and also acknowledges the City's goals of encouraging convenient access to public transportation. Accordingly, the Applicant agrees to cooperate with the City and adjacent land owners to permit pedestrian access from the CTA Station to the Property.

18. This Planned Development shall be governed by Section 17-13-0612 of the Zoning Ordinance and shall complied with by the development of either Subarea B-1 or B-2. Should this Planned Development ordinance lapse as to Subarea B, the Zoning Administrator shall initiate a zoning map amendment to rezone the

Property to Planned Development Number 44, as approved by the City Council on December 10, 2014.
